- (1) the regime in question delivers outcomes as regards the regulation of the applicant *firm's liquidity risk* that are broadly equivalent to those intended by this chapter; and
- (2) there is clarity as to any legal constraints imposed by the *Home State regulator* or *third country competent authority* on the provision of liquidity by a *firm* to its *UK branch*, as well as the potential for such restrictions to be imposed in the future.

12.8.27

FCA PRA

G

In relation to the applicant *firm* in question, the *appropriate regulator* will, before granting a *whole-firm liquidity modification*, ordinarily expect to have reached agreement with the *Home State regulator* or *third country competent authority* in a number of areas, including agreement that:

- (1) it will notify the *appropriate regulator* promptly of any material or persistent breaches by that *firm* of its liquidity rules, or of risks that such breaches are imminent;
- (2) it is satisfied with the adequacy of the arrangements in place for *firm-wide liquidity risk* management;
- (3) it is satisfied as to the adequacy of that *firm's* liquidity resources including the size and quality of its liquid assets buffer;
- (4) it does not object to any undertakings given by that *firm* in respect of its *UK branch* to ensure that the *branch* has adequate liquidity resources; and
- (5) it will have due regard to the views of the *appropriate regulator* in its supervision of that *firm's* liquidity position.

PAGE
57

12.8.28

FCA PRA

G

In relation to the applicant *firm* in question, the *appropriate regulator* will, before granting a *whole-firm liquidity modification*, ordinarily expect to have reached agreement with that *firm* in a number of areas, including agreement that:

- (1) it will make available liquidity resources at all times to its *UK branch* if needed;

- (2) it will make available to the *appropriate regulator* information in an appropriate format on *firm-wide* liquidity;
- (3) it will notify the *appropriate regulator* at the same time as it notifies the *Home State regulator* or *third country competent authority* of any issues relevant to the liquidity position of its *UK branch* or compliance with the rules to which it is subject in respect of its liquidity (including with the terms of its *whole-firm liquidity modification*);
- (4) its *UK branch* will continue to be fully integrated with the rest of the *firm* for *liquidity risk* management purposes; and
- (5) it will participate in the *appropriate regulator's* thematic supervisory work in relation to liquidity when requested to do so by the *appropriate regulator*.

Ongoing requirements

12.8.29

FCA PRA

G

The *appropriate regulator* also anticipates that a *whole-firm liquidity modification* would be made subject to a number of ongoing conditions and requirements. These are likely to include:

- (1) the *appropriate regulator* receiving annual confirmation from the *Home State regulator* or *third country competent authority* that it remains satisfied with the arrangements in respect of that *firm* for liquidity supervision and their operation;
- (2) an annual meeting with the *Home State regulator* or *third country competent authority* to discuss liquidity supervision of that *firm*;
- (3) the *appropriate regulator* receiving annual confirmation from the *firm*, approved by its *governing body*, that it remains in full compliance with the terms of its *whole-firm liquidity modification*; and
- (4) as at the first anniversary of the grant of the *whole-firm liquidity modification* and on each anniversary thereafter, the *appropriate regulator* receiving from the *firm*:
 - (a) an appropriate account of the activities conducted by the *UK branch* over the previous year; and
 - (b) a copy of the *firm's* latest business plan where this differs from that previously sent to the *appropriate regulator* after grant of its *whole-firm liquidity modification*.

12.8.30

FCA PRA

G

In determining the appropriate duration of a *whole-firm liquidity modification*, the *appropriate regulator* will have regard to the role and importance of the *UK branch* in question in the *UK financial system*. In some cases, the *appropriate regulator* may take the view that a *whole-firm liquidity modification*, covering a *UK branch* whose role and importance in the *UK financial system* are significant, ought to be reviewed more regularly than one granted in respect of a less systemically significant *branch*. The *appropriate regulator* will consider this issue in determining the appropriate duration of such a modification. The *appropriate regulator* is also likely to consider it appropriate in modifications other than those of short duration to reflect in the terms of the modification representations made either in an applicant *firm's* business plan or direct to the *appropriate regulator* as part of the application process, but in either

case as to the expected nature and size of the *UK branch's* activities over the course of the duration of the modification. Where requirements are included in a modification in relation to these matters, a *firm* that anticipates that it will breach those requirements will need to apply in advance of any such event for a variation to its then existing *whole-firm liquidity modification*. In considering an application to vary, the *appropriate regulator* will consider afresh whether the tests in section 138A of the *Act* continue to be met for the grant of a *whole-firm liquidity modification* to the *firm* in question.

12.9 Individual liquidity guidance and regulatory intervention points

Appropriate regulator assessment process

12.9.1

FCA PRA

G

The *appropriate regulator* will give *individual liquidity guidance* to a *standard ILAS BIPRU firm*. Ordinarily, the *appropriate regulator* will give *individual liquidity guidance* after a review of a *standard ILAS BIPRU firm's ILAA*. The *appropriate regulator* will, however, issue *individual liquidity guidance* to such a *firm* whenever it is considered appropriate.

12.9.2

FCA PRA

G

In assessing the adequacy of an *ILAS BIPRU firm's* liquidity resources, the *appropriate regulator* draws on more than just a review of the submitted *ILAA*, or in the case of a *simplified ILAS BIPRU firm*, the submitted *ILSA*. Use is made of wider supervisory knowledge of a *firm* and of wider market developments and practices. When forming a view of the *individual liquidity guidance* to be given to an *ILAS BIPRU firm*, the *appropriate regulator* will also consider the regulator's firm risk assessment and any other issues arising from day-to-day supervision.

12.9.3

FCA PRA

G

The *appropriate regulator* will take a risk-based and proportionate approach to the review of a *firm's ILAA* or *ILSA*, focusing where appropriate on that *firm's* approach to dealing with the risks it faces.

12.9.4

FCA PRA

G

As part of the *SLRP*, the *appropriate regulator* will give a *standard ILAS BIPRU firm individual liquidity guidance* advising it of the amount and quality of liquidity resources which the *appropriate regulator* considers are appropriate, having regard to the *liquidity risk* profile of that *firm*. In giving *individual liquidity guidance*, the *appropriate regulator* will also advise the *firm* of what it considers to be a prudent funding profile for the *firm*. In giving the *firm individual liquidity guidance* as to its funding profile, the *appropriate regulator* will consider the extent to which the *firm's* liabilities are adequately matched by assets of appropriate maturities. In both cases, the *appropriate regulator* will have regard to the adequacy of a *firm's* systems and controls in relation to *liquidity risk* when judged against the standard described in the *rules and guidance* in ■ BIPRU 12.3 and ■ BIPRU 12.4. *Individual liquidity guidance* will therefore have two components:

- (1) *guidance* about the *firm's* liquid assets buffer; and
- (2) *guidance* about the *firm's* funding profile.

12.9.5

FCA PRA

G

The *appropriate regulator* will ordinarily not expect to give *individual liquidity guidance* to a *simplified ILAS BIPRU firm*. However, if after review of such a *firm's ILSA*, the

appropriate regulator is not satisfied that the *simplified buffer requirement* delivers an adequate amount and quality of liquidity resources for that *firm*, having regard to its *liquidity risk* profile, the *appropriate regulator* will issue the *firm* with *individual liquidity guidance* and may also consider revoking the *firm's simplified ILAS waiver*.

12.9.6

FCA PRA

G

In giving *individual liquidity guidance*, the *appropriate regulator* seeks a balance between delivering consistent outcomes across the *individual liquidity guidance* that it gives to every *ILAS BIPRU firm* and recognising that such *guidance* should reflect the individual features of a *firm*. Comparison with the assumptions used by other *firms* will be used to trigger further enquiry.

12.9.7

FCA PRA

G

Following an internal validation process, the *appropriate regulator* will write to the *standard ILAS BIPRU firm* whose *ILAA* it has reviewed, providing both quantitative and qualitative feedback on the results of the *appropriate regulator's* assessment. This letter will notify that *firm* of the *individual liquidity guidance* that the *appropriate regulator* considers appropriate together with its reasons for concluding that such *guidance* is appropriate. The *appropriate regulator* will adopt the same process where it chooses to give *individual liquidity guidance* to a *simplified ILAS BIPRU* following a review of that *firm's ILSA*.

12.9.8

FCA PRA

G

Where the amount and quality of liquidity resources which the *appropriate regulator* considers a *firm* needs having regard to its *liquidity risk* profile are not the same as the *firm's* own assessment of those resources under its *ILAA*, the *appropriate regulator* expects to discuss any such difference with the *firm*.

12.9.9

FCA PRA

G

Consistent with *Principle 11* (Relations with regulators), the *appropriate regulator* will expect a *firm* to notify it if the *firm* does not propose to follow its *individual liquidity guidance*. The *appropriate regulator* will expect any such notification to be accompanied by a clear account of the *firm's* reasons for considering the *individual liquidity guidance* to be inappropriate. The *appropriate regulator* will expect to receive any such notification within one *month* from the date on which it gives *individual liquidity guidance* to the *firm*. If agreement through further analysis and discussion cannot be reached (including through use of the *appropriate regulator's* powers under section 166 (Reports by skilled persons) of the *Act*), then the *appropriate regulator* will consider using its powers under the *Act* (for example, its power under section 55J to vary, on its own initiative, a *firm's Part IV permission* or its *power of intervention* under section 196) so as to require a *firm* to hold such liquidity resources as the *appropriate regulator* considers are adequate having regard to the *liquidity risk* profile of the *firm*.

Additional guidance for branches

12.9.10

FCA PRA

G

In relation to an *incoming EEA firm* or *third country BIPRU firm*, where the *appropriate regulator* gives that *firm individual liquidity guidance* in relation to its *UK branch*, it will have regard to the *liquidity risk* profile of the *branch*. In the absence of a *whole-firm liquidity modification*, the effect of ■ BIPRU 12.2.1R (2)(b) and ■ BIPRU 12.2.3 R is to require the *firm* to hold a liquid assets buffer of the amount identified as appropriate in its *individual liquidity guidance* (or in the case of a *simplified ILAS BIPRU firm*, the amount of its *simplified buffer requirement* unless this has been superseded by the *appropriate regulator* issuing *individual liquidity guidance* to the *firm* in question) in the form of a local operational liquidity reserve. Further *guidance* is given in ■ BIPRU 12.5.39 G in relation to the local operational liquidity reserve. In determining the appropriate size of such a *firm's* liquid assets buffer the *appropriate regulator* will have regard to all relevant factors,

including the extent to which the *appropriate regulator* has adequate data to enable it to assess accurately the *liquidity risk* elsewhere in the *firm* beyond its *UK branch*.

Regulatory intervention points for ILAS BIPRU firms

12.9.11

FCA PRA

G

■ BIPRU 12.2.9 G records the *appropriate regulator's* recognition that in periods of stress a *firm's* liquid assets buffer may be eroded. It may also be the case that in such periods a *firm's* funding profile deteriorates such that it no longer conforms to the prudent liquidity profile described in the *individual liquidity guidance* given to the *firm*. Deviation by a *firm* from the terms of the *individual liquidity guidance* given to it by the *appropriate regulator* or, as the case may be, from the *simplified buffer requirement*, does not automatically mean that the *appropriate regulator* will consider that the *firm* is in breach of, or likely to breach, *threshold conditions*.

12.9.12

FCA PRA

G

The *appropriate regulator* will examine any deviation on its own facts and will always want to understand clearly the reasons for that deviation and the *firm's* plans for remedying it. Deviation is, however, likely to prompt a re-examination by the *appropriate regulator* of the *firm's* compliance, and likely future compliance, with *threshold conditions*. The *appropriate regulator* will have regard to the information provided by the *firm* and to any other relevant factors in assessing the *firm's* continuing ability to satisfy *threshold conditions*. ■ BIPRU 12.9.13 R to ■ BIPRU 12.9.18 R set out a number of requirements which apply to an *ILAS BIPRU firm* that deviates from its *individual liquidity guidance*, or as the case may be, from the *simplified buffer requirement*.

12.9.12A

FCA PRA

G

The *appropriate regulator* expects that a *firm* will respond dynamically to any deterioration in its liquidity position and will take contingent action as set out in its *contingency funding plan* well in advance of a potential event.

12.9.13

FCA PRA

R

As soon as a *firm* becomes aware of the occurrence or expected occurrence of the events identified in ■ BIPRU 12.9.14 R, it must immediately provide to the *appropriate regulator* :

- (1) notification in writing of the event;
- (2) an adequately reasoned explanation for the event; and
- (3) an indication of the management actions the *firm* has taken to date to address the event, including actions from its *contingency funding plan*.

12.9.14

FCA PRA

R

For the purpose of ■ BIPRU 12.9.13 R, the events in question are:

- (1) in the case of a *simplified ILAS BIPRU firm* only, breach of the *simplified buffer requirement* unless this has been superseded by *individual liquidity guidance* that it has accepted;
- (2) in the case of a *standard ILAS BIPRU firm* or a *simplified ILAS BIPRU firm*, being a *firm* which in either case has accepted

individual liquidity guidance given to it by the *appropriate regulator*:

- (a) its liquid assets buffer falling below the level advised in the *guidance*; or
- (b) its funding profile ceasing to conform to that advised in the *guidance*.

12.9.15

FCA PRA

G

As part of the *appropriate regulator's* enquiry into the reasons for a *firm's* deviation, or expected deviation, from its *individual liquidity guidance* or, as the case may be, its *simplified buffer requirement*, the *appropriate regulator* may ask for further assessments and analyses of a *firm's* liquidity resources and the risks faced by the *firm*. The *appropriate regulator* may consider the use of its powers under section 166 of the *Act* to assist in such circumstances.

12.9.16

FCA PRA

G

Consistent with *Principle 11* of the *appropriate regulator's Principles for Businesses* (Relations with regulators), if a *firm* has not accepted *individual liquidity guidance* given by the *appropriate regulator* it should, nevertheless, notify the *appropriate regulator* as soon as it becomes aware of either of the events identified in ■ BIPRU 12.9.14R (2)(a) or ■ (b).

12.9.17

FCA PRA

R

No later than two *days* after the *day* on which a *firm* notifies the *appropriate regulator* under ■ BIPRU 12.9.13R (1), the *firm* must submit a liquidity remediation plan to the *appropriate regulator*.

12.9.18

FCA PRA

R

For the purposes of ■ BIPRU 12.9.17 R, a *firm's* liquidity remediation plan must:

- (1) be communicated in writing;
- (2) detail the *firm's* forward estimates of the evolution of the size of the *firm's* liquid assets buffer and of its funding profile;
- (3) in relation to any of the events identified in ■ BIPRU 12.9.14 R that has occurred, or is expected to occur, detail the actions that the *firm* intends to take to remedy the event, or avoid the expected event, as the case may be, including information about:
 - (a) the amount of funding that it is intended to raise;
 - (b) the intended funding providers; and
 - (c) the maturity profile of the intended funding;
- (4) identify clear timescales for achieving each of the actions that it details in accordance with ■ BIPRU 12.9.18R (3); and
- (5) include an adequately reasoned assessment of the likelihood of the timely achievement of the actions that it details in accordance with ■ BIPRU 12.9.18R (3).

12.9.19 FCA PRA G The *appropriate regulator* will assess the adequacy of the liquidity remediation plan submitted by a *firm*, including the likelihood of its success. A *firm* should expect that the *appropriate regulator* will want to discuss the terms of the liquidity remediation plan submitted to it under ■ BIPRU 12.9.18 R. In its re-examination of the *firm's* compliance, and likely future compliance, with *threshold conditions* taken as a whole, the *appropriate regulator* will have regard to the adequacy of the *firm's* liquidity remediation plan.

12.9.20 FCA PRA G Other things being equal, the *appropriate regulator* will expect a *firm* which is not experiencing a period of stress to restore its liquidity resources more rapidly than one which is under stress at the time that it deviates from its *individual liquidity guidance* or, as the case may be, from its *simplified buffer requirement*.

12.9.21 FCA PRA G If agreement through discussion with the *appropriate regulator* cannot be reached as to the necessary actions and timescales to remedy deviation from that *guidance*, the *appropriate regulator* will consider using its powers under the *Act* (for example, its power under section 55J to vary, on its own initiative, a *firm's Part 4A permission* or its *power of intervention* under section 196) so as to require the *firm* to take such actions as the *appropriate regulator* considers are necessary to return the *firm* to conformity with the terms of its *individual liquidity guidance* or, as the case may be, with its *simplified buffer requirement*.

12.9.22 FCA PRA G Although ■ BIPRU 12.9.17 R to ■ BIPRU 12.9.21 G set out the *appropriate regulator's* likely approach, the *appropriate regulator* will take whatever action it considers appropriate in the particular circumstances of a given case.

12.9.23 FCA PRA G A *firm* that deviates from current *individual liquidity guidance* that it has accepted or, as the case may be, from its *simplified buffer requirement*, will be experiencing a *firm-specific liquidity stress* for the purpose of the reporting *rules* in ■ SUP 16 (Reporting requirements). Those *rules* require the *firm* to report specified *data items* more frequently than would otherwise be the case. Additionally, a *firm* that is implementing a liquidity remediation plan should expect that the *appropriate regulator* will wish to monitor its implementation of that plan. The *firm's* progress in achieving the remedial actions identified in its plan is a matter to which the *appropriate regulator* will have regard in considering the *firm's* compliance, and likely future compliance, with *threshold conditions*.

Monitoring requirement

12.9.24 FCA PRA R An *ILAS BIPRU firm* must monitor on each *business day* whether it is in conformity with *individual liquidity guidance* that it has accepted or, as the case may be, with the *simplified buffer requirement*.

Mode of notification

12.9.25 FCA PRA R Notification to the *appropriate regulator* under ■ BIPRU 12.9.13R (1) and submission to the *appropriate regulator* under ■ BIPRU 12.9.17 R must be made to the following *appropriate regulator* email address: data_collection@fca.org.uk.

12.9.26

FCA PRA

G

Although ■ BIPRU 12.9.25 R requires notification and submission in the way prescribed in that *rule*, the *appropriate regulator* expects that a *firm* would also bring to the attention of its usual supervisory contact at the *appropriate regulator* the fact that it had made such a notification or submission.

12.9.27

FCA PRA

G

For the purpose of the notification expected under ■ BIPRU 12.9.26 G, the *appropriate regulator* would expect any such notification to be made in the way envisaged in ■ BIPRU 12.9.25 R.

Chapter 13

The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

13.1 Application and Purpose

Application

13.1.1

FCA PRA

R

■ BIPRU 13 applies to a *BIPRU firm*.

13.1.2

FCA PRA

R

(1) ■ BIPRU 13 applies to items in the *non-trading book*.

(2) ■ BIPRU 13 applies to *trading book* items for the purposes of ■ BIPRU 14.

13.1.3

FCA PRA

G

The requirement to calculate the *counterparty credit risk* capital charge for *trading book* items is set out in ■ BIPRU 14.

Purpose

13.1.4

FCA PRA

G

■ BIPRU 13 implements:

(1) Article 78(2) and (4);

(2) point 3 of Part 1, and Parts 2, 3, 5, 6 and 7 of Annex III; and

(3) Annex IV;

of the *Banking Consolidation Directive*.

13.1.5

FCA PRA

G

■ BIPRU 13.3 sets out the calculations of *exposure* values for *financial derivative instrument*, *long settlement transactions* and certain other transactions under the *standardised approach* and, subject to ■ BIPRU 4, under the *IRB approach*. ■ BIPRU 13.4, ■ 13.5 and ■ 13.6 set out the provisions relating to the *CCR mark to market method*, the *CCR standardised method* and the *CCR internal model method* in turn.

13.1.6

FCA PRA

G

■ BIPRU 13.8 sets out a summary of the treatment of *securities financing transactions*.

13.2 Unusual Transactions

13.2.1

FCA PRA

R

If the calculation of the amount of an *exposure* or of a combination of *exposures* under ■ BIPRU 13 would materially understate the amount of the *counterparty credit risk* the *firm* must increase the amount of the *credit risk capital requirement* by an amount sufficient to compensate for that understatement.

13.2.2

FCA PRA

R

If a *firm* in relation to an *exposure* covered by ■ BIPRU 13:

- (1) has an *exposure* of a non-standard type; or
- (2) an *exposure* that is part of a non-standard arrangement; or
- (3) has an *exposure* that, taken together with other *exposures* (whether or not they are subject to ■ BIPRU 13), gives rise to a non-standard *counterparty credit risk*; or
- (4) is subject to the *rule* in ■ BIPRU 13.2.1 R;

it must notify the *appropriate regulator* as soon as practicable of that fact, the counterparty involved, the nature of the *exposure* or arrangement and the treatment of those *exposures* it has adopted for the purpose of the calculation of the *credit risk capital requirement*.

13.2.3

FCA PRA

R

■ BIPRU 13.2.2 R does not apply to *exposures* which are within the scope of a *firm's CCR internal model method permission*.

13.2.4

FCA PRA

R

A *firm* must judge the question of what is non-standard for the purposes of ■ BIPRU 13.2.2 R by reference to the standards:

- (1) prevailing at the time the *rule* is being applied; and
- (2) of *firms* generally who carry on business which might give rise to *exposures* covered by ■ BIPRU 13 rather than merely by reference to the *firm's* own business.

13.2.5

FCA PRA

G

The methodologies which have been developed assume instruments with standard characteristics. There are many examples, however, of instruments which, although based

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

...a standard contract, contain structural features which make the *rules*, as stated, inappropriate. In such circumstances a *firm* should consult the *appropriate regulator*

13.3 Calculation of exposure values for financial derivatives and long settlement transactions: General provisions

Financial derivative instruments

13.3.1

FCA PRA

R

A *firm* must determine the *exposure* value of a *financial derivative instrument* in accordance with ■ BIPRU 13, with the effects of contracts of novation and other netting agreements taken into account for the purposes of those methods in accordance with ■ BIPRU 13.

[Note: BCD Article 78(2) first sentence]

13.3.2

FCA PRA

R

Subject to ■ BIPRU 13.3, a *firm* must determine the *exposure* value for *financial derivative instruments* with the *CCR mark to market method*, the *CCR standardised method* or the *CCR internal model method*.

[Note: BCD Annex III, Part 2 point 1]

Definition of financial derivative instrument

13.3.3

FCA PRA

R

Each of the following is a *financial derivative instrument*:

- (1) an interest-rate contract, being:
 - (a) a single-currency interest rate swap;
 - (b) a basis-swap;
 - (c) a forward rate agreement;
 - (d) an interest-rate future;
 - (e) a purchased interest-rate *option*; and
 - (f) other contracts of similar nature.

- (2) a *foreign currency* contract or contract concerning gold, being:
 - (a) a cross-currency interest-rate swap;
 - (b) a forward *foreign currency* contract;
 - (c) a currency future;
 - (d) a currency *option* purchased;

- (e) other contracts of a similar nature; and
 - (f) a contract concerning gold of a nature similar to (2)(a) to (e).
- (3) a contract of a nature similar to those in 1(a) to (e) and 2(a) to (d) concerning other reference items or indices, including as a minimum all instruments specified in points 4 to 7, 9 and 10 of Section C of Annex I to the *MIFID* not otherwise included in (1) or (2).

[Note: *BCD* Annex IV]

Long settlement transactions

13.3.4

FCA PRA

R

Long settlement transaction means a transaction where a counterparty undertakes to deliver a *security*, a *commodity*, or a *foreign currency* amount against cash, other *financial instruments*, or *commodities*, or vice versa, at a settlement or delivery date that is contractually specified as more than the lower of the market standard for this particular transaction and five business days after the date on which the *firm* enters into the transaction.

[Note: *BCD* Annex III Part 1 point 3]

13.3.5

FCA PRA

R

A *firm* must calculate the *exposure* value of a *long settlement transaction* in accordance with either:

- (1) ■ BIPRU 13; or
- (2) the *master netting agreement internal models approach*, if it has a *master netting agreement internal models approach waiver* which permits it to apply that approach.

[Note: *BCD* Article 78(2) second sentence, in respect of *long settlement transaction*]

13.3.6

FCA PRA

R

A *firm* may determine *exposures* arising from *long settlement transactions* using any of the *CCR mark to market method*, the *CCR standardised method* and the *CCR internal model method*, regardless of the methods chosen for treating *financial derivatives instruments* and *repurchase transactions*, *securities or commodities lending or borrowing transactions*, and *margin lending transactions*. In calculating capital requirements for *long settlement transactions*, a *firm* that uses the *IRB approach* may apply the *risk weights* under the *standardised approach* on a permanent basis and irrespective of the materiality of such positions.

[Note: *BCD* Annex III Part 2 point 7]

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

Section 13.3 : Calculation of exposure values for financial derivatives and long settlement transactions: General provisions

FCA PRA

required to calculate the *exposure* value of a transaction as a *long settlement transaction* for the purposes of BIPRU 13 if the transaction is a *financial derivative instrument* or a *securities financing transaction* and the *firm* chooses to calculate the capital requirement for the transaction according to the methods applicable to those *exposures*.

General netting

13.3.8

FCA PRA

R

Under the *CCR mark to market method*, the *CCR standardised method* and the *CCR internal model method*, a *firm* must determine the *exposure* value for a given counterparty as equal to the sum of the *exposure* values calculated for each *netting set* with that counterparty.

[Note: BCD Annex III Part 2 point 5]

13.3.9

FCA PRA

R

A *firm* may only recognise netting for the purposes of ■ BIPRU 13.4, ■ BIPRU 13.5 and ■ BIPRU 13.6 if the requirements in ■ BIPRU 13.7 are met.

Combined use

13.3.10

FCA PRA

R

The combined use of the *CCR mark to market method*, the *CCR standardised method* and the *CCR internal model method* is not permitted. The combined use of the *CCR mark to market method* and the *CCR standardised method* is permitted where one of the methods is used for the cases set out in ■ BIPRU 13.5.9 R to ■ BIPRU 13.5.10 R.

[Note: BCD Annex III Part 2 point 1(part)]

13.3.11

FCA PRA

G

The combined use of different approaches may be used across a group as described in ■ BIPRU 8.7.8 G and ■ BIPRU 8.7.9 G.

Exposure to a central counterparty

13.3.12

FCA PRA

R

Notwithstanding ■ BIPRU 13.3.1 R and ■ BIPRU 13.3.5 R, a *firm* may determine the *exposure* value of a credit risk *exposure* outstanding with a *central counterparty* in accordance with ■ BIPRU 13.3.13 R, provided that the *central counterparty's counterparty credit risk exposure* with all participants in its arrangements are fully collateralised on a daily basis.

[Note: BCD Article 78(4) in respect of *financial derivatives* and *long settlement transactions*]

13.3.13

FCA PRA

R

A *firm* may attribute an *exposure* value of zero for CCR to derivative contracts and *long settlement transactions*, or to other *exposures* arising in respect of those contracts or transactions (but excluding an *exposure* arising from collateral held to mitigate losses in the event of the default of other participants in the *central counterparty's* arrangements) where they are outstanding with a *central counterparty* and have not been rejected by the *central counterparty*.

[Note: BCD Annex III Part 2 point 6 in respect of *financial derivatives and long settlement transactions*]

Exceptions

13.3.14

FCA PRA

R

When a *firm* purchases credit derivative protection against a *non-trading book*, *exposure* or against a *CCR exposure*, it must compute its capital requirement for the hedged asset in accordance with:

- (1) ■ BIPRU 5.7.16 R to ■ BIPRU 5.7.25 R and ■ BIPRU 4.10.49 R (4) to ■ (6) (Unfunded credit protection: Valuation and calculation of risk-weighted exposure amounts and expected loss amounts); or
- (2) where a *firm* calculates *risk weighted exposure amounts* in accordance with the *IRB approach*:
 - (a) ■ BIPRU 4.4.79 R (Double default); or
 - (b) ■ BIPRU 4.10.40 R to ■ BIPRU 4.10.48 R. (Unfunded credit protection: Minimum requirements for assessing the effect of guarantees and credit derivatives).
- (3) [deleted]

[Note: BCD Annex III Part 2 point 3 (part)]

13.3.15

FCA PRA

R

- (1) In the cases in ■ BIPRU 13.3.14R, and where the option in the second sentence of ■ BIPRU 14.2.10 R is not applied, the *exposure* value for *CCR* for these *credit derivatives* is set to zero.
- (2) However, a *firm* may choose consistently to include for the purposes of calculating capital requirements for *counterparty credit risk* all credit derivatives not included in the *trading book* and purchased as protection against a *non-trading exposure* or against a *CCR exposure* where the credit protection is recognised under the *BCD*.

[Note: BCD Annex III Part 2 point 3 (part)]

13.3.16

FCA PRA

R

A *firm* must set the *exposure* value for *CCR* from sold credit default swaps in the *non-trading book*, where they are treated as credit protection provided by the *firm* and subject to a capital requirement for credit risk for the full notional amount, to zero.

[Note: BCD Annex III Part 2 point 4]

13.4 CCR mark to market method

General

13.4.1

R

The *rules* in ■ BIPRU 13.4 set out the *CCR mark to market method*.

FCA PRA

13.4.2

R

A *firm* must obtain the current replacement cost of all contracts with positive values by attaching current market values to contracts (marking to market).

FCA PRA

[Note: *BCD* Annex III Part 3, Step (a)]

13.4.3

R

A *firm* must obtain a figure for potential future credit *exposure* by multiplying the notional principal amounts or underlying values by the percentages in the table in ■ BIPRU 13.4.5 R.

FCA PRA

[Note: *BCD* Annex III Part 3, Step (b) (part)]

13.4.4

R

■ BIPRU 13.4.3 R does not apply in the case of single-currency "floating/floating" interest rate swaps.

FCA PRA

[Note: *BCD* Annex III Part 3, Step (b) (part)]

Table: multiples to be applied to notional principal amounts or underlying values

13.4.5

R

This table belongs to ■ BIPRU 13.4.5 R

FCA PRA

Residual maturity	Interest-rate contracts	Contracts concerning foreign currency rates and gold	Contracts concerning equities	Contracts concerning precious metals except gold	Contracts concerning commodities other than precious metals
One year or less	0%	1%	6%	7%	10%
Over one year, not	0,5%	5%	8%	7%	12%

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

Residual maturity	Interest-rate contracts	Contracts concerning foreign currency rates and gold	Contracts concerning equities	Contracts concerning precious metals except gold	Contracts concerning commodities other than precious metals
exceeding five years					
Over five years	1.5%	7.5%	10%	8%	15%

[Note: BCD Annex III Part 3, Table 1]

13.4.6
FCA PRA

R A *firm* must treat a contract which does not fall within one of the five categories indicated in the table in ■ BIPRU 13.4.5 R as a contract concerning *commodities* other than precious metals.

[Note: BCD Annex III Part 3, Table 1 footnote 25]

13.4.7
FCA PRA

R For contracts with multiple exchanges of principal, a *firm* must multiply the percentages in the table in ■ BIPRU 13.4.5 R by the number of remaining payments still to be made according to the contract.

[Note: BCD Annex III Part 3, Table 1 footnote 26]

13.4.8
FCA PRA

R For contracts that are structured to settle outstanding *exposure* following specified payment dates and where the terms are reset such that the market value of the contract is zero on these specified dates, a *firm* must treat the residual maturity as equal to the time until the next reset date.

[Note: BCD Annex III Part 3, Table 1 footnote 27 (part)]

13.4.9
FCA PRA

R In the case of interest-rate contracts that meet the criteria in ■ BIPRU 13.4.8 R and have a remaining maturity of over one year, a *firm* must apply a percentage no lower than 0.5%.

[Note: BCD Annex III Part 3, Table 1 footnote 27 (part)]

13.4.10
FCA PRA

R For the purpose of calculating the potential future credit *exposure* in accordance with ■ BIPRU 13.4.3 R a *firm* may apply the percentages in the table in ■ BIPRU 13.4.11 R instead of those prescribed in the table in ■ BIPRU 13.4.5 R provided that it makes use of the *commodity extended maturity ladder approach* for contracts relating to commodities other than gold.

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

Alternative multiples to be applied to notional principal amounts or underlying values

13.4.11

FCA PRA

R

This table belongs to ■ BIPRU 13.4.10 R

Residual maturity	Precious metals (except gold)	Base metals	Agricultural products (softs)	Other, including energy products
One year or less	2%	2,5%	3%	4%
Over one year, not exceeding five years	5%	4%	5%	6%
Over five years	7.5%	8%	9%	10%

[Note: BCD Annex III Part 3, Table 2]

13.4.12

FCA PRA

R

A *firm* must calculate the *exposure* value as the sum of:

- (1) the current replacement cost calculated under ■ BIPRU 13.4.2 R; and
- (2) the potential future credit *exposure* calculated under ■ BIPRU 13.4.3 R.

[Note: BCD Annex III Part 3, Step (c)]

13.4.13

FCA PRA

G

Contracts with a negative replacement cost should still be subject to an add-on if there is a possibility of the replacement costs becoming positive before maturity. Written options should therefore be exempt from add-ons.

13.4.14

FCA PRA

G

For the purposes of calculating the replacement cost, where an *exposure* relates to collateral posted to cover a negative mark to market position on a derivative contract, the negative mark to market *exposure* may be offset against the collateral *exposure* if the requirements in ■ BIPRU 5 are met.

Alternative approach

13.4.15

FCA PRA

R

A *firm* must ensure that the notional amount to be taken into account is an appropriate yardstick for the risk inherent in the contract. Where, for instance, the contract provides for a multiplication of cash flows, a *firm* must adjust the notional amount in order to take into account the effects of the multiplication on the risk structure of that contract.

[Note: BCD Annex III Part 2 point 8]

Netting: Contracts for novation

13.4.16

FCA PRA

R

The single net amounts fixed by contracts for novation, rather than the gross amounts involved, may be weighted. For the purposes of the *CCR mark to market method*, a *firm* may obtain:

- (1) in ■ BIPRU 13.4.2 R, the current replacement cost; and
- (2) in ■ BIPRU 13.4.3 R, the notional principal amounts or underlying values;

by taking account of the contract for novation.

[Note: *BCD Annex III Part 7 point c(i)*]

Netting: Other netting agreements

13.4.17

FCA PRA

R

In application of the *CCR mark to market method*:

- (1) in ■ BIPRU 13.4.2 R a *firm* may obtain the current replacement cost for the contracts included in a netting agreement by taking account of the actual hypothetical net replacement cost which results from the agreement; in the case where netting leads to a net obligation for the *firm* calculating the net replacement cost, the current replacement cost is calculated as "0"; and
- (2) in ■ BIPRU 13.4.3 R a *firm* may reduce the figure for potential future credit *exposure* for all contracts included in a netting agreement according to the following formula:

$$PCE_{red} = 0.4 * PCE_{gross} + 0.6 * NGR * PCE_{gross}$$

where:

- (a) PCE_{red} = the reduced figure for potential future credit *exposure* for all contracts with a given counterparty included in a legally valid bilateral netting agreement;
- (b) PCE_{gross} = the sum of the figures for potential future credit *exposure* for all contracts with a given counterparty which are included in a legally valid bilateral netting agreement and are calculated by multiplying their notional principal amounts by the percentages set out in the table in ■ BIPRU 13.4.5 R; and
- (c) NGR = "net-to-gross ratio": the quotient of the net replacement cost for all contracts included in a legally valid bilateral netting agreement with a given counterparty (numerator) and the gross replacement cost for all contracts included in a legally valid bilateral netting agreement with that counterparty (denominator).

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions [Note: *BCD* Annex III Part 7 point c(ii) (part)]

13.4.18

R

FCA PRA

For the calculation of the potential future credit exposure according to the formula in ■ BIPRU 13.4.17 R perfectly matching contracts included in the netting agreement may be taken into account as a single contract with a notional principal equivalent to the net receipts.

[Note: *BCD* Annex III Part 7 point c(ii) (part)]

13.4.19

R

FCA PRA

For the purposes of ■ BIPRU 13.4.18 R a perfectly matching contract is a forward *foreign currency* contract or similar contract in which a notional principal is equivalent to cash flows if the cash flows fall due on the same value date and fully or partly in the same currency.

[Note: *BCD* Annex III Part 7 point c(ii) (part)]

13.5 CCR standardised method

Scope

13.5.1

FCA PRA

R

A firm may use the *CCR standardised method* only for *financial derivative instruments* and *long settlement transactions*.

[Note: *BCD Annex III Part 5 point 1 (part)*]

Derivation of risk position: payment legs

13.5.2

FCA PRA

R

- (1) When a *financial derivative instrument* transaction with a linear risk profile stipulates the exchange of a *financial instrument* for a payment, the payment Part is referred to as the *payment leg*.
- (2) Transactions that stipulate the exchange of payment against payment consist of two *payment legs*.
- (3) The *payment legs* consist of the contractually agreed gross payments, including the notional amount of the transaction.
- (4) A firm may disregard the *interest rate risk* from *payment legs* with a remaining maturity of less than one year for the purposes of the calculations in ■ BIPRU 13.5.
- (5) A firm may treat transactions that consist of two *payment legs* that are denominated in the same currency, such as interest rate swaps, as a single aggregate transaction. The treatment for *payment legs* applies to the aggregate transaction.

[Note: *BCD Annex III Part 5 point 2*]

Derivation of risk position: mapping

13.5.3

FCA PRA

R

- (1) Transactions with a linear risk profile with equities (including equity indices), gold, other precious metals or other *commodities* as the underlying financial instruments must be mapped to a *risk position* in the respective equity (or equity index) or *commodity* (including gold and other precious metals) and an *interest rate risk position* for the *payment leg*.

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

(1) If the *payment leg* is denominated in a *foreign currency*, it must be additionally mapped to a *risk position* in the respective currency.

[Note: BCD Annex III Part 5 point 3]

13.5.4

R

FCA PRA

- (1) Transactions with a linear risk profile with a debt instrument as the underlying instrument must be mapped to an interest rate *risk position* for the debt instrument and another interest rate *risk position* for the *payment leg*.
- (2) Transactions with a linear risk profile that stipulate the exchange of payment against payment, including *foreign exchange forwards*, must be mapped to an interest rate *risk position* for each of the *payment legs*.
- (3) If the underlying debt instrument is denominated in a *foreign currency*, the debt instrument must be mapped to a *risk position* in that *foreign currency*.
- (4) If a *payment leg* is denominated in *foreign currency*, the *payment leg* must be again mapped to a *risk position* in that *foreign currency*.
- (5) The *exposure* value to be assigned to a *foreign exchange* basis swap transaction is zero.

[Note: BCD Annex III Part 5 point 4]

Derivation of risk position: calculating the size of the risk position

13.5.5

R

FCA PRA

A *firm* must calculate the *risk position* of the transaction or instrument in column 1 of the table in ■ BIPRU 13.5.6 R in accordance with column 2 of that table.

13.5.6

R

FCA PRA

This table belongs to ■ BIPRU 13.5.5 R.

Transaction or instrument	Calculation of size of <i>risk position</i>
Transaction with linear risk profile except for debt instruments.	The effective notional value (market price multiplied by quantity) of the underlying <i>financial instruments</i> (including <i>commodities</i>) converted to the <i>firm's</i> domestic currency.
Debt instruments and <i>payment legs</i> .	The effective notional value of the outstanding gross payments (including the notional amount) converted to the <i>firm's base currency</i> , multiplied by the modified duration of the debt instrument, or <i>payment leg</i> , respectively.

Transaction or instrument	Calculation of size of <i>risk position</i>
Credit default swap	The notional value of the reference debt instrument multiplied by the remaining maturity of the credit default swap.
Nth to default credit default swap	The effective notional value of the reference debt instrument, multiplied by the modified duration of the nth to default derivative with respect to a change in the credit spread of the reference debt instrument.
Subject to BIPRU 13.5.9 R to BIPRU 13.5.10 R, <i>financial derivative instrument with a non-linear risk profile, including options and swaptions except in the case of an underlying debt instrument.</i>	Equal to the delta equivalent effective notional value of the <i>financial instrument</i> that underlies the transaction.
Subject to BIPRU 13.5.9 R to BIPRU 13.5.10 R, <i>financial derivative instrument with a non-linear risk profile, including options and swaptions, of which the underlying is a debt instrument or a payment leg.</i>	Equal to the delta equivalent effective notional value of the <i>financial instrument</i> or <i>payment leg</i> multiplied by the modified duration of the debt instrument, or <i>payment leg</i> , respectively.

[Note: BCD Annex III Part 5 points 5 to 9 and 15 (part)]

Derivation of risk position: effective notional value

13.5.7

FCA PRA

R

A *firm* may use the following formulae to determine the size and sign of a *risk position*:

(1) for all instruments other than debt instruments:

effective notional value, or delta equivalent

$$\text{notional value} = p_{\text{ref}}((V)/(p))$$

where:

- (a) P_{ref} = price of the underlying instrument, expressed in the reference currency;
- (b) V = value of the financial instrument (in the case of an option this is the option price; in the case of a transaction with a linear risk profile this is the value of the underlying instrument itself);

p = price of the underlying instrument, expressed in the same currency as V ;

(2) for debt instruments and the *payment legs* of all transactions:

effective notional value multiplied by the modified duration, or delta equivalent in notional value multiplied by the modified duration

$(V)/(r)$

where:

- (a) V = value of the financial instrument (in the case of an option this is the option price; in the case of a transaction with a linear risk profile this is the value of the underlying instrument itself or of the *payment leg*, respectively);
- (b) r = interest rate level.

(3) If V is denominated in a currency other than the reference currency, the derivative must be converted into the reference currency by multiplication with the relevant exchange rate.

[Note: *BCD Annex III Part 5 point 11*]

Derivation of risk position: treatment of collateral

13.5.8

FCA PRA

R

For the determination of *risk positions*, a *firm* must treat collateral received from a counterparty like a claim on the counterparty under a derivative contract (long position) that is due today, while collateral posted must be treated as an obligation to the counterparty (short position) that is due today.

[Note: *BCD Annex III Part 5 point 10*]

Derivation of risk position: non-linear risks

13.5.9

FCA PRA

R

A *firm* must apply the *CCR mark to market method* to transactions with a non-linear risk profile or for *payment legs* and transactions with debt instruments as underlying if:

- (1) the *firm* does not have a *CAD 1 model permission* or a *VaR model permission*; or
- (2) where the *firm* does have a *CAD 1 model permission* or a *VaR model permission* but cannot determine the delta or the modified duration, respectively, with its *CAD 1 model permission* or *VaR model permission*.

[Note: *BCD Annex III Part 5 point 19 (part)*]

FCA PRA

A firm must not recognise netting for the purpose of applying the CCR *mark to market method* to an *exposure* treated under ■ BIPRU 13.5.9 R (that is, the *exposure* value must be determined as if there were a *netting set* that comprises just the individual transaction).

[Note: BCD Annex III Part 5 point 19 (part)]

Hedging sets: assignment

13.5.11 FCA PRA

R A firm must group the *risk positions* into *hedging sets* and, for each *hedging set*, compute the absolute value amount of the sum of the resulting *risk positions*. This sum is termed the net *risk position* and is represented by:

$$((i)(RPT_{ij}) - (i)(RPC_{ij}))$$

in the formulae set out in ■ BIPRU 13.5.24 R.

[Note: BCD Annex III Part 5 point 12]

Hedging sets: description

13.5.12 FCA PRA

R For interest rate *risk positions* from money deposits received from the counterparty as collateral, from *payment leg* and from underlying debt instruments, to which according to the table in BIPRU 7.2.44R a capital charge of 1.60% or less applies, there are six *hedging sets* for each currency, as set out in the table in ■ BIPRU 13.5.13 R. *Hedging sets* are defined by a combination of the criteria maturity and referenced interest rates.

[Note: BCD Annex III Part 5 point 13]

Table: Hedging sets

13.5.13 FCA PRA

R This table belongs to ■ BIPRU 13.5.12 R:

	Government referenced interest rates	Non-government referenced interest rates
Maturity	<= 1 year	<= 1 year
Maturity	>1 <= 5 years	>1 <= 5 years
Maturity	> 5 years	> 5 years

[Note: BCD Annex III Part 5 Table 4]

13.5.14 FCA PRA

R For interest rate *risk positions* from underlying debt instruments or *payment legs* for which the interest rate is linked to a reference interest rate that represents a general market interest level, the remaining maturity is the length of the time interval up to the next re-adjustment of the interest rate. In all other cases, it is the remaining life of the underlying

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

reference instrument, or in the case of a *payment leg* the remaining life of the transaction.

[Note: *BCD* Annex III Part 5 point 14]

13.5.15

FCA PRA

R

There is one *hedging set* for each issuer of a reference debt instrument that underlies a credit default swap. Nth to default basket credit default swaps must be treated as follows:

- (1) the size of a *risk position* in a reference debt instrument in a basket underlying an nth to default credit default swap is the effective notional value of the reference debt instrument, multiplied by the modified duration of the nth to default derivative, with respect to a change in the credit spread of the reference debt instrument;
- (2) there is one *hedging set* for each reference debt instrument in a basket underlying a given nth to default credit default swap; *risk positions* from different nth to default credit default swaps must not be included in the same *hedging set*; and
- (3) the CCR multiplier applicable to each *hedging set* created for one of the reference debt instruments of an nth to default derivative is 0.3% for reference debt instruments that have a credit assessment from a recognised *ECAI* equivalent to *credit quality step* 1 to 3, and 0.6% for other debt instruments.

[Note: *BCD* Annex III Part 5 point 15]

13.5.16

FCA PRA

R

Underlying financial instruments other than debt instruments must be assigned by a *firm* to the same respective *hedging sets* only if they are identical or similar instruments. In all other cases a *firm* must assign them to separate *hedging sets*.

[Note: *BCD* Annex III Part 5 point 17 (part)]

13.5.17

FCA PRA

R

- (1) The similarity of instruments for the purposes of ■ BIPRU 13.5.16 R is established in accordance with (2) to (5).
- (2) For equities, similar instruments are those of the same issuer. An equity index is treated as a separate issuer.
- (3) For precious metals, similar instruments are those of the same metal. A precious metal index is treated as a separate precious metal.
- (4) For electric power, similar instruments are those delivery rights and obligations that refer to the same peak or off-peak load time interval within any 24 hour interval.

(5) For *commodities*, similar instruments are those of the same *commodity*. A *commodity* index is treated as a separate *commodity*.

[Note: BCD Annex III Part 5 point 17 (part)]

Hedging sets: collateral

13.5.18

FCA PRA

R

- (1) For interest rate *risk positions* from money deposits that are posted with a counterparty as collateral when that counterparty does not have debt obligations of low *specific risk* outstanding and from underlying debt instruments, to which according to the table in ■ BIPRU 7.2.44 R a capital charge of more than 1.60% applies, there is one *hedging set* for each issuer.
- (2) When a *payment leg* emulates such a debt instrument, there is also one *hedging set* for each issuer of the reference debt instrument.
- (3) A *firm* may assign *risk positions* that arise from debt instruments of a certain issuer, or from reference debt instruments of the same issuer that are emulated by *payment legs*, or that underlie a credit default swap, to the same *hedging set*.

[Note: BCD Annex III Part 5 point 16]

13.5.19

FCA PRA

R

A *firm* that makes use of collateral to mitigate its CCR must have internal procedures to verify that, prior to recognising the effect of collateral in its calculations, the collateral meets the legal certainty standards set out in ■ BIPRU 5 modified, where relevant, by ■ BIPRU 4.10.

[Note: BCD Annex III Part 5 point 21]

Hedging sets: netting

13.5.20

FCA PRA

R

A *firm* must have internal procedures to verify that, prior to including a transaction in a *hedging set*, the transaction is covered by a legally enforceable netting contract that meets the requirements set out in ■ BIPRU 13.7.

[Note: BCD Annex III Part 5 point 20]

Credit conversion factors : Table

13.5.21

FCA PRA

R

A *firm* must apply the CCR multipliers for the different *hedging set* categories according to the Table in ■ BIPRU 13.5.22 R.

[Note: BCD Annex III Part 5 point 18]

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

FCA PRA

This table belongs to ■ BIPRU 13.5.21 R.

Hedging set categories	CCR Multiplier (CCRM)	
(1)	Interest Rates	0.2%
(2)	Interest Rates for <i>risk positions</i> from a reference debt instrument that underlies a credit default swap and to which a capital charge of 1.60%, or less, applies under BIPRU 7.2.44 R.	0.3%
(3)	Interest Rates for <i>risk positions</i> from a debt instrument or reference debt instrument to which a capital charge of more than 1.60% applies under BIPRU 7.2.44 R.	0.6%
(4)	Exchange Rates	2.5%
(5)	Electric power	4.0%
(6)	Gold	5.0%
(7)	Equity	7.0%
(8)	Precious Metals (except gold)	8.5%
(9)	Other <i>commodities</i> (excluding precious metals and electricity power)	10.0%
(10)	Reference debt instruments of an nth to default derivative that have a credit assessment from a recognised <i>ECAI</i> equivalent to <i>credit quality step 1 to 3</i>	0.3%
(11)	Reference debt instruments of an nth to default derivative that do not have a credit assessment from a recognised <i>ECAI</i> equivalent to <i>credit quality step 1 to 3</i>	0.6%

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

<i>Hedging set categories</i>	<i>CCR Multiplier (CCRM)</i>	
(12)	Underlying instruments of <i>financial derivative instrument</i> that are not in any of the above categories.	10.0%

[Note: BCD Annex III Part 5 Table 5 and Part 5 point 15 (c)]

13.5.23

FCA PRA

R

A *firm* must assign underlying instruments of *financial derivatives instruments* (in line 10 of the Table in ■ BIPRU 13.5.22 R) to separate individual *hedging sets* for each category of underlying instrument.

Exposure value

13.5.24

FCA PRA

R

A *firm* must calculate the *exposure* value separately for each *netting set*.

[Note: BCD Annex III Part 5 point 1, second sentence]

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

FCA PRA

to determine the *exposure* value net of collateral, as follows:

$$exposure\ value = *max(CMV-CMC;_{(j)}((_{(i)}(RPT_{ij})-(_{(l)}(RPC_{lj}))*CCRM_j)$$

where:

CMV = *current market value* of the portfolio of transactions within the *netting set* with a counterparty gross of collateral.

That is, where:

$$CMV = (_{(i)})(CMV_i)$$

where:

CMV_i = the *current market value* of transaction *i*;

CMC = the *current market value* of the collateral assigned to the *netting set*.

That is, where: $CMC = (_{(l)})(CMC_l)$

where

CMC_l = the *current market value* of collateral *l*;

i = index designating transaction;

l = index designating collateral;

j = index designating *hedging set* category. These *hedging sets* correspond to risk factors for which *risk positions* of opposite sign can be offset to yield a net *risk position* on which the *exposure* measure is then based;

RPT_{ij} = *risk position* from transaction *i* with respect to *hedging set j*;

RPC_{lj} = *risk position* from collateral *l* with respect to *hedging set j*;

CCRM_j = CCR Multiplier set out in the Table in BIPRU 13.5.22R with respect to the *hedging set j*;

= 1.4.

[Note: BCD Annex III Part 5 point 1 (part)]

13.5.26

R

Collateral received from a counterparty has a positive sign; collateral posted to a counterparty has a negative sign.

FCA PRA

[Note: BCD Annex III Part 5 point 1 (part)]

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

FCA PRA

A *firm* may only recognise collateral for this method if it is collateral that is eligible under ■ BIPRU 5.4.8 R and ■ BIPRU 14.2.12 G to ■ BIPRU 14.2.13 R.

[Note: *BCD* Annex III Part 5 point 1 (part)]

13.6 CCR internal model method

Introduction

13.6.1 **R** ■ BIPRU 13.6 sets out the *rules* relating to the *CCR internal model method*.

FCA **PRA**

13.6.2 **R** A *firm* may only use the *CCR internal model method* if it has a *CCR internal model method permission*.

FCA **PRA**

13.6.3 **G** ■ BIPRU 1.3 sets out the process for applying for a *CCR internal model method permission*.

FCA **PRA**

13.6.4 **G** A *firm's CCR internal model method permission* will modify ■ BIPRU 13.6.2 R and will require the *firm* to use only the *CCR internal model method*, except to the extent that ■ BIPRU 13 permits the *firm* to combine the use of the *CCR internal model method* with one or more other methods.

FCA **PRA**

13.6.5 **R** (1) A reference in the *Handbook* to a provision of the *CCR internal model method*, in relation to a *firm*:

FCA **PRA**

- (a) excludes any provision of the *CCR internal model method* set out in the *Handbook* which is not applied to that *firm* by its *CCR internal model method permission*;
- (b) includes any additional provision contained in the *CCR internal model method permission*; and
- (c) takes into account any other amendments made to the provisions in the *Handbook* relating to the *CCR internal model method* made by the *CCR internal model method permission*.

(2) To the extent that a *firm's CCR internal model method permission* does not allow it to use a particular approach in the *Handbook* relating to the *CCR internal model method*, the *Handbook* provision does not apply to the *firm*.

Scope

13.6.6 **R** A *firm* may determine the *exposure* value for:

FCA **PRA**

- (1) *financial derivative instruments*;

- (2) *repurchase transactions;*
- (3) *securities or commodities lending or borrowing transactions;*
- (4) *margin lending transactions; and*
- (5) *long settlement transactions*

using the *CCR internal model method*.

[Note: BCD Annex III Part 2 point 2]

13.6.7

FCA PRA

R

A *firm* may use the *CCR internal model method* to calculate the *exposure value* for:

- (1) the transactions in ■ BIPRU 13.6.6 R (1); or
- (2) the transactions in ■ BIPRU 13.6.6 R (2), ■ (3) and ■ (4); or
- (3) the transactions in ■ BIPRU 13.6.6 R (1) to ■ (4).

[Note: BCD Annex III Part 6 point 1 (part)]

13.6.8

FCA PRA

R

In each of ■ BIPRU 13.6.7 R (1), ■ (2) and ■ (3), a *firm* may include *long settlement transactions* as well.

[Note: BCD Annex III Part 6 point 1 (part)]

Use of other models

13.6.9

FCA PRA

G

Point 2 of Part 6 of Annex III of the *Banking Consolidation Directive* provides that a *firm* using the *CCR internal model method* may use a type of model other than the type set out in ■ BIPRU 13.6. If the *appropriate regulator* agrees to this the details of the model and the necessary calculations will be set out in the *CCR internal model method permission*, which will modify ■ BIPRU 13.6 to the extent necessary. The *appropriate regulator* would not expect to agree to such a request unless the *firm* was able to satisfy the *appropriate regulator* that the method was at least as conservative as the method set out in BIPRU 13.6 and in particular that, for every *counterparty*, any method was more conservative than alpha multiplied by *effective EPE* calculated according to the equation in ■ BIPRU 13.6.27 R.

[Note: BCD Annex III Part 6 point 2 (second sentence) and point 11]

Partial use

13.6.10

FCA PRA

R

For all *financial derivative instruments* and for *long settlement transactions* which are outside the scope of a *firm's CCR internal model method permission*, a *firm* must use the *CCR mark to market method* or the *CCR standardised method*.

[Note: BCD Annex III Part 6 point 3 first sentence]

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

FCA PRA

Under BIPRU 13.6.10 R, combined use of the *CCR mark to market method* and the *CCR standardised method* is only permitted where one of the methods is used for the cases set out in ■ BIPRU 13.5.9 R to ■ BIPRU 13.5.10 R.

[Note: BCD Annex III Part 6 point 3 second sentence]

13.6.12 FCA PRA

R Notwithstanding ■ BIPRU 13.3.10 R (Combined use), a *firm* may choose not to apply the *CCR internal model method* to *exposures* that are immaterial in size and risk.

[Note: BCD Annex III Part 6 point 1 third sentence]

13.6.13 FCA PRA

R If permitted by its *CCR internal model method permission*, and subject to its terms, a *firm* may carry out the implementation of the *CCR internal model method* sequentially across different transaction types; and during this period the *firm* may use the *CCR mark to market method* or the *CCR standardised method*.

[Note: BCD Annex III Part 6 point 2]

13.6.14 FCA PRA

G After the initial period following the granting of its *CCR internal model method permission*, as referred to in ■ BIPRU 13.6.13 R, a *firm* should extend the use of the *CCR internal model method* to cover any new business within a product category covered by its *CCR internal model method permission*. Subject to ■ BIPRU 13.6.10 R to ■ BIPRU 13.6.13 R, the *firm* should do so within a reasonable period of time. If the *firm* decides to exclude any business on, for example, the basis of materiality, it should document its reasons clearly.

13.6.15 FCA PRA

G In principle, the use of different measures of *exposure* within the *CCR internal model method* is possible within the same product category, including on a permanent basis. The *appropriate regulator* may allow a *firm*, through the *CCR internal model method permission*, to use a more conservative measure of *exposure* that is less risk sensitive (for instance a measure based on conservative haircuts) for certain parts of the business if justified on a cost-benefit basis. However, a *firm* would still need to meet the use test for these more conservative measures and would need to demonstrate that the aggregation of *CCR exposures* that come from different approaches and have different degrees of conservatism makes sense and is used for its *CCR* management purposes.

13.6.16 FCA PRA

G The *appropriate regulator* may, through the *CCR internal model method permission*, require a *firm* to apply a multiplier to the measures of *exposures* coming out of a less risk-sensitive approach to calculating *exposures* as referred to in ■ BIPRU 13.6.15 G where the *appropriate regulator* considers this to be appropriate due to the complexity of the business or the nature of the risks involved.

Use of CCR internal model method

13.6.17 FCA PRA

R Subject to ■ BIPRU 13.6.10 R to ■ BIPRU 13.6.16 G, a *firm* that has a *CCR internal model method permission* must not use the *CCR mark to market method* or the *CCR standardised method* for transactions within the scope of the *firm's CCR internal model method permission*.

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

[Note: BCD Annex III Part 6 point 4 (part)]

13.6.18
FCA PRA

G

A *firm* which wishes to revert to the CCR *mark to market method* or the CCR *standardised method* will need to request the *appropriate regulator* to revoke or vary its CCR *internal model method permission*.

[Note: BCD Annex III Part 6 point 4 (part)]

13.6.19
FCA PRA

G

The *appropriate regulator* will not agree to a *firm's* request to revoke or vary its CCR *internal model method permission* except for demonstrated good cause.

[Note: BCD Annex III Part 6 point 4 (part)]

13.6.20
FCA PRA

R

If a *firm* ceases to comply with the requirements set out in ■ BIPRU 13.6, it must either present to the *appropriate regulator* a plan for a timely return to compliance or demonstrate that the effect of non-compliance is immaterial.

[Note: BCD Annex III Part 6 point 4 (part)]

13.6.21
FCA PRA

G

If a *firm* ceases to comply with the requirements set out in ■ BIPRU 13.6, the *appropriate regulator* may revoke the CCR *internal model method permission* or take other appropriate supervisory action.

[Note: BCD Annex III Part 6 point 4 (part)]

Exposure value

13.6.22
FCA PRA

R

- (1) A *firm* must measure the *exposure value* at the level of the *netting set*.
- (2) The model must specify the forecasting distribution for changes in the market value of the *netting set* attributable to changes in market variables, such as interest rates, *foreign exchange rates*.
- (3) The model must then compute the *exposure value* for the *netting set* at each future date given the changes in the market variables.
- (4) For margined counterparties, the model may also capture future collateral movements.

[Note: BCD Annex III Part 6 point 5]

13.6.23
FCA PRA

R

A *firm* may include eligible financial collateral as defined in ■ BIPRU 5.4.8 R (Eligible collateral under financial collateral comprehensive method) and ■ BIPRU 14.2.15 R to ■ BIPRU 14.2.17 R in its forecasting distributions for changes in the market value of the *netting set*, if the quantitative, qualitative and data requirements for the CCR *internal model method* are met for the collateral.

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

[Note: BCD Annex III Part 6 point 6]

13.6.24
FCA PRA

R A firm must calculate the *exposure* value as the product of alpha (α), as set out in ■ BIPRU 13.6.31 R, times *effective EPE*:

$$\text{Exposure value} = \text{effective EPE}$$

[Note: BCD Annex III Part 6 point 7 first part]

Effective EPE

13.6.25
FCA PRA

R A firm must compute *effective EPE* by estimating *expected exposure (EEt)* as the average *exposure* at future date t , where the average is taken across possible future values of relevant *market risk* factors. The model estimates *EE* at a series of future dates t_1, t_2, t_3 , etc.

[Note: BCD Annex III Part 6 point 7 third part]

13.6.26
FCA PRA

R A firm must compute *effective EE* recursively as:

$$\text{Effective } EE_t = \max(\text{effective } EE_{t-1}; EE_t)$$

where:

the current date is denoted as t_0 and *Effective EE* $_0$ equals *current exposure*.

[Note: BCD Annex III Part 6 point 8]

13.6.27
FCA PRA

R For the purposes of ■ BIPRU 13.6.25 R :

- (1) *effective EPE* is the average *effective EE* during the first year of future *exposure*;
- (2) if all contracts in the *netting set* mature within less than one year, *effective EPE* is the average of *effective EE* until all contracts in the *netting set* mature.

[Note: BCD Annex III Part 6 point 9, first part]

13.6.28
FCA PRA

R A firm must compute *effective EPE* as a weighted average of *effective EE*:

$$\text{Effective EPE} = \sum_{k=1}^{\min(1 \text{ year}; \text{maturity})} ((\text{Effective } EE_{t_k}) * (t_k))$$

where:

the weights $\lambda_{tk} = \frac{t_k - t_{k-1}}{t_k - t_{k-1}}$ allow for the case when future *exposure* is calculated at dates that are not equally spaced over time.

[Note: BCD Annex III Part 6 point 9, second part]

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

FCA PRA

A firm must calculate *EE* or *peak exposure* measures based on a *distribution of exposures* that accounts for the possible non-normality of the *distribution of exposures*.

[Note: BCD Annex III Part 6 point 10]

13.6.30

R

[deleted]

Alpha

13.6.31

R

FCA PRA

For the purposes of ■ BIPRU 13.6.24 R, alpha (α) is 1.4 or any higher amount specified in the *firm's CCR internal model method permission*.

[Note: BCD Annex III Part 6 point 7 second part]

13.6.32

G

FCA PRA

If the *appropriate regulator* does specify an alpha greater than 1.4, the reasons will be set out in the *firm's CCR internal model method permission*.

13.6.33

R

FCA PRA

If a *firm's CCR internal model method permission* permits it, the *firm* may use its own estimates of α , subject to a floor of 1.2, where α must equal the ratio of internal capital from a full simulation of *CCR exposure* across counterparties (numerator) and internal capital based on *EPE* (denominator).

[Note: BCD Annex III Part 6 point 12 (part)]

13.6.34

R

FCA PRA

For the purposes of ■ BIPRU 13.6.33 R:

- (1) in the denominator, *EPE* must be used as if it were a fixed outstanding amount;
- (2) a *firm* must be able to demonstrate that its internal estimates of capture in the numerator material sources of stochastic dependency of *distribution of market values* of transactions or of portfolios of transactions across counterparties;
- (3) internal estimates of α must take account of the granularity of portfolios.

[Note: BCD Annex III Part 6 point 12 (part)]

13.6.35

R

FCA PRA

A *firm* must ensure that the numerator and denominator of α are computed in a consistent fashion with respect to the modelling methodology, parameter specifications and portfolio composition. The approach used must be based on the *firm's* internal capital approach, be well-documented and be subject to independent validation. In addition, a *firm* must review their estimates on at least a quarterly basis, and more frequently when the composition of the portfolio varies over time. A *firm* must also assess the model risk.

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions [BCD Annex III Part 6 point 13]

13.6.35A
FCA PRA

R

Where appropriate, volatilities and correlations of *market risk* factors used in the joint simulation of *market risk* and credit risk must be conditioned on the credit risk factor to reflect potential increases in volatility or correlation in an economic downturn.

[Note: BCD Annex III Part 6 point 14]

13.6.36
FCA PRA

G

In reviewing its estimate of , a *firm* may not need to perform a full recalculation each quarter if it can demonstrate by other means that the estimate would not be materially different. A full recalculation should however be performed at least annually. If there is a structural change in the *firm's* portfolio that is likely to have the effect that the existing estimate of will be inappropriate, the *firm* should also recalculate it. A *firm* should have procedures in place to identify any such structural changes.

Maturity adjustment

13.6.37
FCA PRA

G

A *firm* using the *IRB approach* for risk weighting of exposures arising from a *CCR internal model method* should also apply a different maturity adjustment as set out in

■ BIPRU 4.4.67 R ■ BIPRU 4.4.70 R.

Margin agreement

13.6.38
FCA PRA

R

If the *netting set* is subject to a *margin agreement*, a *firm* must use one of the following *EPE* measures:

- (1) *effective EPE* without taking into account the *margin agreement*;
- (2) the *margin threshold*, if positive, under the *margin agreement* plus an add-on that reflects the potential increase in *exposure* over the *margin period of risk*:
 - (a) the add-on is computed as the expected increase in the *netting set's exposure* beginning from a *current exposure* of zero over the *margin period of risk*;
 - (b) a floor of five business days for *netting sets* consisting only of repo-style transactions subject to daily remargining and daily mark-to-market, and ten business days for all other *netting sets* is imposed on the *margin period of risk* used for this purpose.
- (3) if the model captures the effects of margining when estimating *EE*, the model's *EE* measure may be used directly in the equation in ■ BIPRU 13.6.28 R (Computation of effective EE), unless the *firm's CCR internal model method permission* does not apply this provision or does not permit that use.

[Note: BCD Annex III Part 6 point 15]

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

FCA PRA

where the effects of margining are captured by the model itself, the *appropriate regulator* does not prescribe any floors for the *margin period of risk* but will challenge a *firm* that looks to use periods shorter than 5 days for *repurchase agreements* or *reverse repurchase agreements* or 10 days for *financial derivative instruments*.

Operational requirements: General

13.6.40

FCA PRA

R

A *firm's* EPE model must meet the operational requirements set out in

■ BIPRU 13.6.41 R to ■ BIPRU 13.6.66 R.

[Note: BCD Annex III Part 6 point 16]

Operational requirements: CCR control

13.6.41

FCA PRA

R

- (1) The *firm* must have a control unit that is responsible for the design and implementation of its CCR management system, including the initial and on-going validation of the model.
- (2) This unit must control input data integrity and produce and analyse reports on the output of the *firm's* risk measurement model, including an evaluation of the relationship between measures of risk *exposure* and credit and trading limits.
- (3) This unit must be:
 - (a) independent from units responsible for originating, renewing or trading *exposures* and free from undue influence;
 - (b) it must be adequately staffed; and
 - (c) it must report directly to the senior management of the *firm*.
- (4) The work of this unit must be closely integrated into the day-to-day credit risk management process of the *firm*; its output must, accordingly, be an integral part of the process of planning, monitoring and controlling the *firm's* credit and overall risk profile.

[Note: BCD Annex III Part 6 point 17]

13.6.42

FCA PRA

R

- (1) A *firm* must have CCR management policies, processes and systems that are conceptually sound and implemented with integrity.
- (2) A sound CCR management framework must include the identification, measurement, management, approval and internal reporting of CCR.

[Note: BCD Annex III Part 6 point 18]

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

FCA PRA

A *firm's* risk management policies must take account of *market risk*, *liquidity risk*, and legal and *operational risk* that can be associated with *CCR*.

- (2) The *firm* must not undertake business with a counterparty without assessing its creditworthiness and must take due account of settlement and pre-settlement credit risk.
- (3) These risks must be managed as comprehensively as practicable at the counterparty level (aggregating *CCR exposures* with other credit *exposures*) and at the *firm-wide* level.

[Note: *BCD Annex III Part 6 point 19*]

13.6.44

R

FCA PRA

A *firm's governing body* and senior management must be actively involved in the *CCR control process* and must regard this as an essential aspect of the business to which significant resources need to be devoted. Senior management must be aware of the limitations and assumptions of the model used and the impact these can have on the reliability of the output. Senior management must also consider the uncertainties of the market environment and operational issues and be aware of how these are reflected in the model.

[Note: *BCD Annex III Part 6 point 20*]

13.6.45

R

FCA PRA

A *firm* must ensure that the daily reports prepared on its *exposures to CCR* are reviewed by a level of management with sufficient seniority and authority to enforce both reductions of positions taken by individual credit managers or traders and reductions in the *firm's overall CCR exposure*.

[Note: *BCD Annex III Part 6 point 21*]

13.6.46

R

FCA PRA

- (1) A *firm's CCR management system* must be used in conjunction with internal credit and trading limits.
- (2) A *firm* must ensure that its credit and trading limits are related to its risk measurement model in a manner that is:
 - (a) consistent over time; and
 - (b) well understood by credit managers, traders and senior management.

[Note: *BCD Annex III Part 6 point 22*]

PAGE
33

13.6.47

R

FCA PRA

- (1) A *firm's measurement of CCR* must include measuring daily and intra-day usage of credit lines.
- (2) The *firm* must measure *current exposure* gross and net of collateral.

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

(3) At portfolio and counterparty level, the *firm* must calculate and monitor *peak exposure* or potential future *exposure* (PFE) at the confidence interval chosen by the *firm*.

(4) The *firm* must take account of large or concentrated positions, including by groups of related counterparties, by industry, by market, etc.

[Note: BCD Annex III Part 6 point 23]

13.6.48

FCA PRA

R

(1) A *firm* must have a routine and rigorous program of stress testing in place as a supplement to the CCR analysis based on the day-to-day output of the *firm's* risk measurement model.

(2) The results of this stress testing must be reviewed periodically by senior management and must be reflected in the CCR policies and limits set by management and the *governing body*.

(3) Where stress tests reveal particular vulnerability to a given set of circumstances, prompt steps must be taken to manage those risks appropriately.

[Note: BCD Annex III Part 6 point 24]

13.6.49

FCA PRA

R

(1) A *firm* must have a routine in place for ensuring compliance with a documented set of internal policies, controls and procedures concerning the operation of the CCR management system.

(2) The *firm's* CCR management system must be well documented and must provide an explanation of the empirical techniques used to measure CCR.

[Note: BCD Annex III Part 6 point 25]

13.6.50

FCA PRA

R

A *firm* must conduct an independent review of the CCR management system regularly through its own internal auditing process. This review must include both the activities of the business units referred to in ■ BIPRU 13.6.41 R and of the independent CCR control unit. A review of the overall CCR management process must take place at regular intervals and must specifically address, at a minimum:

(1) the adequacy of the documentation of the CCR management system and process;

(2) the organisation of the CCR control unit;

(3) the integration of CCR measures into daily risk management;

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

- (4) the approval process for risk pricing models and valuation systems used by front and back-office personnel;
- (5) the validation of any significant change in the CCR measurement process;
- (6) the scope of CCR captured by the risk measurement model;
- (7) the integrity of the management information system;
- (8) the accuracy and completeness of CCR data;
- (9) the verification of the consistency, timeliness and reliability of data sources used to run models, including the independence of such data sources;
- (10) the accuracy and appropriateness of volatility and correlation assumptions;
- (11) the accuracy of valuation and risk transformation calculations; and
- (12) the verification of the model's accuracy through frequent back-testing.

[Note: BCD Annex III Part 6 point 26]

Operational requirements: Use test

13.6.51

FCA PRA

R

The *distribution of exposures* generated by the model used to calculate *effective EPE* must be closely integrated into the day-to-day CCR management process of the *firm*. The model's output must accordingly play an essential role in the credit approval, CCR management, internal capital allocation, and corporate governance of the *firm*.

[Note: BCD Annex III Part 6 point 27]

13.6.52

FCA PRA

R

A *firm* must have a track record in the use of models that generate a *distribution of exposures* to CCR. Thus, the *firm* must be able to demonstrate that it has been using a model to calculate the *distribution of exposures* upon which the *EPE* calculation is based that meets, broadly, the minimum requirements set out in ■ BIPRU 13.6 for at least one year prior to the date of its *CCR internal model method permission*.

[Note: BCD Annex III Part 6 point 28]

13.6.53

FCA PRA

R

- (1) A *firm* must ensure that the model used to generate a *distribution of exposures* to CCR is part of a CCR management framework that includes the identification, measurement, management, approval and internal reporting of CCR. This framework must

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

include the measurement of usage of credit lines (aggregating *CCR exposures* with other credit *exposures*) and internal capital allocation.

- (2) In addition to *EPE*, a *firm* must measure and manage *current exposures*.
- (3) Where appropriate, the *firm* must measure *current exposure* gross and net of collateral.
- (4) The use test is satisfied if a *firm* uses other *CCR* measures, such as *peak exposure* or *PFE* (see ■ BIPRU 13.6.47 R), based on the *distribution of exposures* generated by the same model to compute *EPE*.

[Note: BCD Annex III Part 6 point 29]

13.6.54

FCA PRA

R

A *firm* must have the systems capability to estimate *EE* daily if necessary, unless it is able to demonstrate to the *appropriate regulator* that its *exposures* to *CCR* warrant less frequent calculation. The *firm* must compute *EE* along a time profile of forecasting horizons that adequately reflects the time structure of future cash flows and maturity of the contracts and in a manner that is consistent with the materiality and composition of the *exposures*.

[Note: BCD Annex III Part 6 point 30]

13.6.55

FCA PRA

R

- (1) *Exposure* must be measured, monitored and controlled over the life of all contracts in the *netting set* (not just to the one year horizon).
- (2) A *firm* must have procedures in place to identify and control the risks for counterparties where the *exposure* rises beyond the one-year horizon.
- (3) A *firm* must input the forecast increase in *exposure* into the *firm's* internal capital model.

[Note: BCD Annex III Part 6 point 31]

Operational requirements: Stress testing

13.6.56

FCA PRA

R

- (1) A *firm* must have in place sound stress testing processes for use in the assessment of capital adequacy for *CCR*.
- (2) These stress measures must be compared with the measure of *EPE* and considered by the *firm* as part of the process set out in ■ GENPRU 1.2.42 R.

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

(5) Stress testing must also involve identifying possible events or future changes in economic conditions that could have unfavourable effects on a *firm's* credit *exposures* and an assessment of the *firm's* ability to withstand such changes.

[Note: BCD Annex III Part 6 point 32]

13.6.57

R

FCA PRA

- (1) A *firm* must stress test its *CCR exposures*, including jointly stressing *market risk* and credit risk factors.
- (2) In its stress tests of *CCR*, a *firm* must consider concentration risk (to a single counterparty or groups of counterparties), correlation risk across *market risk* and credit risk, and the risk that liquidating the counterparty's positions could move the market.
- (3) In its stress tests a *firm* must also consider the impact on its own positions of such market moves and integrate that impact in its assessment of *CCR*.

[Note: BCD Annex III Part 6 point 33]

Operational requirements: Wrong-way risk

13.6.58

R

FCA PRA

A *firm* must give due consideration to *exposures* that give rise to a significant degree of *general wrong-way risk*.

[Note: BCD Annex III Part 6 point 34]

13.6.59

R

FCA PRA

A *firm* must have procedures in place to identify, monitor and control cases of *specific wrong-way risk*, beginning at the inception of a transaction and continuing through the life of the transaction.

[Note: BCD Annex III Part 6 point 35]

Operational requirements: Integrity of modelling process

13.6.60

R

FCA PRA

A *firm* must ensure that:

- (1) the model reflects transaction terms and specifications in a timely, complete, and conservative fashion;
- (2) such terms include at least:
 - (a) contract notional amounts;
 - (b) maturity;
 - (c) reference assets;
 - (d) margining arrangements; and
 - (e) netting arrangements;

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

- (3) the terms and specifications are maintained in a database that is subject to formal and periodic audit;
- (4) the process for recognising netting arrangements requires:
 - (a) signoff by legal staff to verify the legal enforceability of netting and
 - (b) input into the database by an independent unit;
- (5) the transmission of transaction terms and specifications data to the model is also subject to internal audit; and
- (6) formal reconciliation processes are in place between the model and source data systems to verify on an ongoing basis that transaction terms and specifications are being reflected in *EPE* correctly or at least conservatively.

[Note: *BCD* Annex III Part 6 point 36]

13.6.61

FCA PRA

R

A *firm* must ensure that:

- (1) the model employs current market data to compute *current exposures*;
- (2) when using historical data to estimate volatility and correlations, at least three years of historical data are used and updated quarterly or more frequently if market conditions warrant;
- (3) the data covers a full range of economic conditions, such as a full business cycle;
- (4) a unit independent from the business unit validates the price supplied by the business unit;
- (5) the data is acquired independently of the lines of business, fed into the model in a timely and complete fashion, and maintained in a database subject to formal and periodic audit;
- (6) it has a well-developed data integrity process to clean the data of erroneous and/or anomalous observations; and
- (7) to the extent that the model relies on proxy market data, including for new products where three years of historical data may not be available, internal policies identify suitable proxies and the *firm* demonstrates empirically that the proxy provides a conservative representation of the underlying risk under adverse market conditions.

[Note: *BCD* Annex III Part 6 point 37]

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

FCA PRA

includes the effect of collateral on changes in the market value of the *netting set*, a *firm* must have adequate historical data to model the volatility of the collateral.

13.6.63

FCA PRA

R A *firm* must ensure that the model is subject to a validation process which:

- (1) is clearly articulated in *firms'* policies and procedures;
- (2) specifies the kind of testing needed to ensure model integrity
- (3) identifies conditions under which assumptions are violated and may result in an understatement of *EPE*; and
- (4) includes a review of the comprehensiveness of the model.

[Note: BCD Annex III Part 6 point 38]

13.6.64

FCA PRA

R A *firm* must monitor the appropriate risks and have processes in place to adjust its estimation of *EPE* when those risks become significant. This includes the following:

- (1) the *firm* must identify and manage its *exposures to specific wrong-way risk*;
- (2) for *exposures* with a rising risk profile after one year, the *firm* must compare on a regular basis the estimate of *EPE* over one year with *EPE* over the life of the *exposure*; and
- (3) for *exposures* with a residual maturity below one year, the *firm* must compare on a regular basis the replacement cost (*current exposure*) and the realised *exposure* profile, and/or store data that would allow such a comparison.

[Note: BCD Annex III Part 6 point 39]

13.6.65

FCA PRA

R A *firm* must have internal procedures to verify that, prior to including a transaction in a *netting set*, the transaction is covered by a legally enforceable netting contract that meets the requirements set out in ■ BIPRU 13.7.

[Note: BCD Annex III Part 6 point 40]

13.6.66

FCA PRA

R A *firm* that makes use of collateral to mitigate its CCR must have internal procedures to verify that, prior to recognising the effect of collateral in its calculations, the collateral meets the legal certainty standards set out in ■ BIPRU 5 as modified, where relevant, by ■ BIPRU 4.10.

[Note: BCD Annex III Part 6 point 41]

13.6.67

FCA PRA

R

Validation requirements

- (1) A *firm's CCR internal model method* model must meet the validation requirements in (2) to (8).
- (2) The qualitative validation requirements set out in ■ BIPRU 7.10 must be met.
- (3) Interest rates, *foreign currency* rates, equity prices, *commodities*, and other *market risk* factors must be forecast over long time horizons for measuring *CCR exposure*. The performance of the forecasting model for *market risk* factors must be validated over a long time horizon.
- (4) The pricing models used to calculate *CCR exposure* for a given scenario of future shocks to *market risk* factors must be tested as part of the *CCR internal model method* model validation process. Pricing models for *options* must account for the nonlinearity of option value with respect to *market risk* factors.
- (5) The *CCR internal model method* model must capture transaction-specific information in order to aggregate *exposures* at the level of the *netting set*. A *firm* must verify that transactions are assigned to the appropriate *netting set* within the model.
- (6) The *CCR internal model method* model must also include transaction-specific information to capture the effects of margining. It must take into account both the current amount of margin and margin that would be passed between counterparties in the future. Such a model must account for the nature of *margin agreements* (unilateral or bilateral), the frequency of margin calls, the *margin period of risk*, the minimum threshold of unmargined *exposure* the *firm* is willing to accept, and the minimum transfer amount. Such a model must either model the mark-to-market change in the value of collateral posted or apply the *rules* set out in ■ BIPRU 5 as modified, where relevant, by ■ BIPRU 4.10.
- (7) Static, historical backtesting on representative counterparty portfolios must be part of the *CCR internal model method* model validation process. At regular intervals, a *firm* must conduct such backtesting on a number of representative counterparty portfolios (actual or hypothetical). These representative portfolios must be chosen based on their sensitivity to the material risk factors and correlations to which the *firm* is exposed.
- (8) If backtesting indicates that the *CCR internal model method* model is not sufficiently accurate, a *firm* must increase the *credit*

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

risk capital component and, where ■ BIPRU 13 is applied for the purposes of ■ BIPRU 14, the *counterparty risk capital component* by an amount which is conservatively estimated to compensate for the inaccuracy of the model.

[Note: BCD Annex III Part 6 point 42 (part)]

13.6.68

FCA PRA

G

If backtesting indicates that the *CCR internal model method* model is not sufficiently accurate, the *appropriate regulator* may revoke a *firm's CCR internal model method permission* or take appropriate measures to ensure that the model is improved promptly. Measures taken by the *appropriate regulator* may include the use of its *own-initiative power* to require the *firm* to hold more *capital resources*.

[Note: BCD Annex III Part 6 point 42 (part)]

13.7 Contractual netting

Scope

13.7.1

FCA PRA

R

■ BIPRU 13.7 applies for the purpose of:

- (1) the *CCR mark to market method*;
- (2) the *CCR standardised method*;
- (3) if the *firm* has a *CCR internal model method permission*, the *CCR internal model method*.

Types of netting recognised

13.7.2

FCA PRA

R

For the purpose of ■ BIPRU 13.7:

- (1) counterparty means any entity (including natural *persons*) that has the power to conclude a contractual netting agreement; and
- (2) *contractual cross product netting agreement* means a written bilateral agreement between a *firm* and a counterparty which creates a single legal obligation covering all included bilateral master agreements and transactions belonging to different product categories.

[Note: *BCD Annex III Part 7 point (a) (part)*]

13.7.3

FCA PRA

R

Contractual cross product netting agreements do not cover netting other than on a bilateral basis.

[Note: *BCD Annex III Part 7 point (a) (part)*]

13.7.4

FCA PRA

R

For the purposes of *cross product netting*, the following are considered different product categories:

- (1) *repurchase transactions, reverse repurchase transactions, securities or commodities lending or borrowing transactions*;
- (2) *margin lending transactions*; and

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

(5) *financial derivative instruments.*

[Note: BCD Annex III Part 7 point (a) (part)]

13.7.5

FCA PRA

R

A *firm* may recognise as risk-reducing the following types of contractual netting:

- (1) bilateral contracts for novation between a *firm* and its counterparty under which mutual claims and obligations are automatically amalgamated in such a way that this novation fixes one single net amount each time novation applies and thus creates a legally binding, single new contract extinguishing former contracts;
- (2) other bilateral agreements between a *firm* and its counterparty; and
- (3) a *firm* that has a *CCR internal model method permission* may recognise *Contractual cross product netting agreements* for transactions falling within the scope of its *CCR internal model method permission*; netting across transactions entered by members of a *group* is not recognised for the purposes of calculating capital requirements.

[Note: BCD Annex III Part 7 point (a) (part)]

Conditions for recognition

13.7.6

FCA PRA

R

A *firm* may treat contractual netting as risk-reducing only under the following conditions:

- (1) the *firm* must have a contractual netting agreement with its counterparty which creates a single legal obligation, covering all included transactions, such that, in the event of a counterparty's failure to perform owing to default, bankruptcy, liquidation or any other similar circumstance, the *firm* would have a claim to receive or an obligation to pay only the net sum of the positive and negative mark-to-market values of included individual transactions;
- (2) the *firm* must be in a position to provide to the *appropriate regulator*, if requested, written and reasoned legal opinions to the effect that, in the event of a legal challenge, the relevant courts and administrative authorities would, in the cases described under (1), find that the *firm's* claims and obligations would be limited to the net sum, as described in (1), under:
 - (a) the law of the jurisdiction in which the counterparty is incorporated and, if a foreign *branch* of an *undertaking* is involved, also under the law of the jurisdiction in which the *branch* is located;
 - (b) the law that governs the individual transactions included; and

(c) the law that governs any contract or agreement necessary to effect the contractual netting;

- (3) the *firm* must have procedures in place to ensure that the legal validity of its contractual netting is kept under review in the light of possible changes in the relevant laws;
- (4) the *firm* must maintain all required documentation in its files;
- (5) the effects of netting must be factored into the *firm's* measurement of each counterparty's aggregate credit risk *exposure* and the *firm* must manage its *CCR* on such a basis; and
- (6) the *firm* must aggregate credit risk to each counterparty to arrive at a single legal *exposure* across transactions; this aggregation must be factored into credit limit purposes and internal capital purposes.

[Note: *BCD* Annex III Part 7 point (b) (part)]

13.7.7

FCA PRA

R

If any of the *competent authorities* concerned is not satisfied that the contractual netting is legally valid under the law of each of the relevant jurisdictions, the *firm* must not treat the contractual netting agreement as risk-reducing.

[Note: *BCD* Annex III Part 7 point (b) (part)]

13.7.8

FCA PRA

R

A legal opinion required under ■ BIPRU 13.7.6 R (2) may be in the form of a reasoned legal opinion drawn up by type of contractual netting.

[Note: *BCD* Annex III Part 7 point (b) (part)]

13.7.9

FCA PRA

R

A *firm* must not recognise as risk-reducing any contract containing a provision which permits a non-defaulting counterparty to make limited payments only, or no payments at all, to the estate of the defaulter, even if the defaulter is a net creditor (a "walkaway" clause).

[Note: *BCD* Annex III Part 7 point (b) (part)]

13.7.10

FCA PRA

R

In addition to the requirements in ■ BIPRU 13.7.2 R to ■ BIPRU 13.7.9 R, for *contractual cross product netting agreements* the following criteria must be met:

- (1) the net sum referred to in ■ BIPRU 13.7.6 R (1) must be the net sum of the positive and negative close out values of any included individual bilateral master agreement and of the positive and negative mark-to-market value of the individual transactions (the Cross-Product Net Amount);

- the written and reasoned legal opinions referred to in
- BIPRU 13.7.6 R (2) must address the validity and enforceability of the entire *contractual cross product netting agreement* under its terms and the impact of the netting arrangement on the material provisions of any included individual bilateral master agreement; a legal opinion must be generally recognised as such by the legal community in the *United Kingdom* or a memorandum of law that addresses all relevant issues in a reasoned manner;
 - (3) the *firm* must have procedures in place under ■ BIPRU 13.7.6 R (3) to verify that any transaction which is to be included in a *netting set* is covered by a legal opinion; and
 - (4) taking into account the *contractual cross product netting agreement*, the *firm* must continue to comply with the requirements for the recognition of bilateral netting and the requirements of ■ BIPRU 4.10 and ■ BIPRU 5 for the recognition of *credit risk mitigation*, as applicable, with respect to each included individual bilateral master agreement and transaction.

[Note: BCD Annex III Part 7 point (b) (part)]

Effects of recognition

13.7.11

FCA PRA

R

For the purposes of the *CCR mark to market method*, the *CCR standardised method* and the *CCR internal model method* a *firm* must recognise netting as set out in ■ BIPRU 13.3 and ■ BIPRU 13.6.

[Note: BCD Annex III Part 7 point (b) (part)]

13.8 Securities financing transactions

Purpose

13.8.1

FCA PRA

G

■ BIPRU 13.8 summarises the treatment for *securities financing transactions*.

Calculation of exposure value for SFTs

13.8.2

FCA PRA

R

Subject to ■ BIPRU 13.8.3 R, in respect of a *securities financing transaction*, if a *firm*:

- (1) has a *CCR internal model method permission* which covers the transaction; or
- (2) has a *master netting agreement internal models approach permission* which covers the transaction;

then the *firm* must use the *CCR internal model method approach* or the *master netting agreement internal models approach*, as applicable, to calculate the *exposure* value for that transaction unless an exception in ■ BIPRU 13 or ■ BIPRU 5 allows the *firm* to use another method.

[Note: BCD Article 78(2), second sentence, in respect of *SFTs*]

13.8.3

FCA PRA

R

If a *firm* has a *CCR internal model method permission* and a *master netting agreement internal models approach permission*, and both cover a *securities financing transaction*, then the *firm* may choose which of those approaches it wishes to use to calculate the *exposure* value for that transaction.

13.8.4

FCA PRA

R

Where ■ BIPRU 13.8.2 R does not apply, a *firm* must use one of the following approaches to determine the *exposure* value of a *securities financing transaction*, as appropriate:

- (1) if the transaction is covered by a master netting agreement which satisfies the requirements for recognition set out in ■ BIPRU 5.6.1 R to ■ BIPRU 5.6.3 R, a *firm* may calculate the *exposure* value under the master netting agreement method set out in ■ BIPRU 5.6.5 R to ■ BIPRU 5.6.11 R (Calculation of the fully adjusted exposure value: the supervisory volatility

BIPRU 13 : The calculation of counterparty risk exposure values for financial derivatives, securities financing transactions and long settlement transactions

adjustments approach and the own estimates of volatility adjustments approach);

- (2) otherwise, a *firm* must calculate the *exposure* value of the transaction as its on-balance sheet value.

13.8.5

FCA PRA

G

A *firm* calculating *risk weighted exposure amounts* under the *standardised approach* to credit risk will not be eligible to use the approach in ■ BIPRU 13.8.4 R (1) if it is using the *financial collateral simple method* to determine the effects of *credit risk mitigation*, as set out in ■ BIPRU 5.4.16 R.

13.8.6

FCA PRA

G

If a *firm* calculates the *exposure* value of a *securities financing transaction* as its on-balance sheet value, in accordance with ■ BIPRU 13.8.4 R (2), it may recognise the effects of financial collateral in the same way as for its other exposures, for example by using either the *financial collateral simple method* or the *financial collateral comprehensive method*. However *firms* should note that the *financial collateral simple method* is not available:

- (1) to a *firm* using the *IRB approach* (■ BIPRU 5.4.16 R); or
- (2) for *securities financing transactions* in the *trading book* (■ BIPRU 14.2.11 R).

Exposure to a central counterparty

13.8.7

FCA PRA

R

Notwithstanding ■ BIPRU 13.8.2 R, a *firm* must determine the *exposure* value of a credit risk *exposure* outstanding with a *central counterparty* in accordance with ■ BIPRU 13.8.8 R, provided that the *central counterparty's counterparty credit risk exposures* with all participants in its arrangements are fully collateralised on a daily basis.

[Note: BCD Article 78(4) in respect of SFTs]

13.8.8

FCA PRA

R

A *firm* may attribute an *exposure* value of zero for CCR to a *securities financing transaction* or to any other *exposures* in respect of that transaction (but excluding an *exposure* arising from collateral held to mitigate losses in the event of the default of other participants in the *central counterparty's* arrangements) which is outstanding with a *central counterparty* and has not been rejected by the *central counterparty*.

[Note: BCD Annex III Part 2 point 6 in respect of SFTs]

Chapter 14

Capital requirements for settlement and counterparty risk

14.1 Application and purpose

Application

14.1.1

FCA PRA

R

■ BIPRU 14 applies to a *BIPRU firm*.

14.1.2

FCA PRA

G

- (1) ■ BIPRU 14.2 deals with the calculation of the capital requirement for *CCR* for *trading book* positions arising from *financial derivative instruments*, *securities financing transactions* and *long settlement transactions*. The approaches used to calculate *exposure* values and *risk weighted exposure amounts* for these positions are largely based on the approaches applicable to *non-trading book* positions (■ BIPRU 3, ■ BIPRU 4, ■ BIPRU 5 and ■ BIPRU 13). However, there are some treatments that are specific to the *trading book*. These are set out in ■ BIPRU 14.2.
- (2) The calculation of the capital requirement for *CCR* for *trading book* positions is the first element of the *counterparty risk capital component* in ■ BIPRU 14.2.1 R. The second element of the *counterparty risk capital component* is for unsettled transactions in both the *trading book* and the *non-trading book*. It is calculated under ■ BIPRU 14.3.
- (3) ■ BIPRU 14.4 sets out the treatment for *free deliveries*.

Purpose

14.1.3

FCA PRA

G

■ BIPRU 14 implements:

- (1) Article 3(1)(h), Article 17(1), and Article 40; and
- (2) Annex II;

of the *Capital Adequacy Directive*.

14.2 Calculation of the capital requirement for CCR

Calculation of the counterparty risk capital component

14.2.1

FCA PRA

R

A *firm* must calculate the *counterparty risk capital component* as the sum of:

- (1) the capital requirement calculated under ■ BIPRU 14.2.13 R; and
- (2) the amount calculated under ■ BIPRU 14.3.

14.2.2

FCA PRA

R

A *firm* must hold capital calculated in accordance with ■ BIPRU 14.2.13 R against the CCR arising from *exposures* arising in the *trading book* due to the following:

- (1) *free deliveries* (where ■ BIPRU 14.4 requires it to be treated as an *exposure*);
- (2) *financial derivative instruments* and credit derivatives;
- (3) *repurchase agreements, reverse repurchase agreements, securities or commodities lending or borrowing transaction* based on *securities or commodities* included in the *trading book*;
- (4) *margin lending transactions* based on *securities or commodities*; and
- (5) *long settlement transactions*.

[Note: CAD Annex II point 5]

Credit derivatives

14.2.3

FCA PRA

R

For the purposes of the calculation of the *counterparty risk capital component*, a *financial derivative instrument* means:

- (1) an item falling within ■ BIPRU 13.3.3 R other than an item to which an *exposure* value of zero is attributed under ■ BIPRU 13.3.13 R or ■ BIPRU 13.8.8 R (Exposure to a central counterparty); and

(2) a credit derivative.

[Note: CAD Article 3(1)(h) and Annex II point 7 first sentence]

14.2.4

FCA PRA

R

■ BIPRU 14.2.5 R to ■ BIPRU 14.2.8 R apply for the purposes of ■ BIPRU 13.4 (CCR mark to market method).

14.2.5

FCA PRA

R

In the case of total return swap credit derivatives and credit default swap credit derivatives, a *firm* must obtain a figure for potential future credit *exposure* by multiplying the nominal amount of the instrument by the following percentages:

- (1) 5% where the reference obligation is one that if it gave rise to a direct *exposure* of the *firm* would be a *qualifying debt security* for the purposes of ■ BIPRU 7.2;
- (2) 10 % where the reference obligation is one that if it gave rise to a direct *exposure* of the *firm* would not be a *qualifying debt security* for the purposes of ■ BIPRU 7.2.

[Note: CAD Annex II point 7 (part)]

14.2.6

FCA PRA

R

In the case of a credit default swap, a *firm* the *exposure* of which arising from the swap represents a long position in the underlying may use a figure of 0% for potential future credit *exposure*, unless the credit default swap is subject to closeout upon the insolvency of the entity the *exposure* of which arising from the swap represents a short position in the underlying, even though the underlying has not defaulted, in which case the potential for future credit *exposure* of the *firm* must be limited to the amount of premia which are not yet paid by the entity to the *firm*.

[Note: CAD Annex II point 7]

14.2.7

FCA PRA

G

■ BIPRU 14.2.6 R permits the seller of credit protection to determine potential future credit *exposure* as 0%, unless the protection is subject to close-out on the insolvency of the buyer.

14.2.8

FCA PRA

R

Where the credit derivative provides protection in relation to 'nth to default' amongst a number of underlying obligations, a *firm* must apply the percentage figure in ■ BIPRU 14.2.5 R applicable to the obligation with the nth lowest credit quality determined by whether it is one that if incurred by the *firm* would be a *qualifying debt security* for the purposes of ■ BIPRU 7.2.

14.2.9

FCA PRA

G

The operation of ■ BIPRU 14.2.8 R can be illustrated by an example as follows: where the credit derivative is a first to default transaction, the appropriate percentage for the potential future credit *exposure* will be determined by the lowest credit quality of the underlying obligations in the basket. If there are non-qualifying items in the basket, the percentage applicable to the non-qualifying reference obligation should be used. For second and subsequent to default transactions, underlying assets should continue

to be allocated according to credit quality: i.e. for a second to default transaction, the applicable percentage figure is the percentage applicable to the second lowest credit quality.

14.2.10

FCA PRA

R

Where a credit derivative included in the *trading book* forms part of an internal hedge and the credit protection is recognised under the *BCD*, there is deemed to be no counterparty risk arising from the position in the credit derivative. Alternatively, a *firm* may consistently include for the purposes of calculating *capital requirements* for *counterparty credit risk* all credit derivatives included in the *trading book* forming part of internal hedges or purchased as protection against *CCR exposure* where the credit protection is recognised under the *BCD*.

[Note: CAD Annex II point 11]

Calculation

14.2.11

FCA PRA

R

Subject to ■ BIPRU 14.2.3 R to ■ BIPRU 14.2.5 R and ■ BIPRU 14.2.14 R to ■ BIPRU 14.2.17 R, a *firm* must calculate *exposure* values and *risk weighted exposure amounts* for the *exposures* falling under ■ BIPRU 14.2.2 R (1) to ■ BIPRU 14.2.2R (5) in accordance with:

- (1) the *standardised approach* to credit risk; or
- (2) if the *firm* has an *IRB permission*, the *IRB approach* in accordance with the terms of the *firm's IRB permission*.

[Note: CAD Annex II point 6]

14.2.12

FCA PRA

G

For the purpose of calculating counterparty *exposure* values for *financial derivative instruments*, *securities financing transactions* and *long settlement transactions*, or for *credit risk mitigation*, the effect of ■ BIPRU 14.2.11 R is to direct a *firm* to ■ BIPRU 13 or ■ BIPRU 5 as appropriate.

14.2.13

FCA PRA

R

A *firm* must calculate the capital requirement for the purposes of ■ BIPRU 14.2.2 R as 8% of the total *risk weighted exposure amounts*.

[Note: CAD Annex II point 12]

Collateral

14.2.14

FCA PRA

R

For the purposes of ■ BIPRU 14.2.11 R, in calculating *risk weighted exposure amounts* a *firm* must not use the *financial collateral simple method* for the recognition of the effects of financial collateral.

[Note: CAD Annex II point 8]

14.2.15

FCA PRA

R

For the purposes of ■ BIPRU 14.2.11 R:

- (1) in the case of *repurchase transactions* and *securities or commodities lending or borrowing transactions* booked in the

trading book, all *CRD financial instruments* and *commodities* that are eligible to be included in the *trading book* may be recognised as eligible collateral;

- (2) for *exposures* due to *financial derivative instruments* and *long settlement transactions* booked in the *trading book*, *commodities* that are eligible to be included in the *trading book* may also be recognised as eligible collateral;
- (3) for the purposes of calculating volatility adjustments where such *CAD financial instruments* or *commodities* which are not eligible under ■ BIPRU 5 and ■ BIPRU 4.10 are lent, sold or provided, or borrowed, purchased or received by way of collateral or otherwise under such a transaction, and the *firm* is using the *supervisory volatility adjustments approach*, such instruments and *commodities* must be treated in the same way as non-main index equities listed on a *recognised investment exchange* or a *designated investment exchange*.

[Note: CAD Annex II point 9 (part)]

14.2.16

FCA PRA

R

- (1) Where a *firm* is using the *own estimates of volatility adjustments approach* in respect of *CAD financial instruments* or *commodities* which are not eligible under ■ BIPRU 5 and ■ BIPRU 4.10 it must calculate volatility adjustments for each individual item.
- (2) Where a *firm* is using the *master netting agreement internal models approach* set out in ■ BIPRU 5, it may also apply this approach in the *trading book*.

[Note: CAD Annex II point 9 (part)]

14.2.17

FCA PRA

R

For the purposes of ■ BIPRU 14.2.11 R, in relation to the recognition of master netting agreements covering *repurchase transactions* and/or *securities or commodities lending or borrowing transactions* and/or other *capital market-driven transactions* netting across positions in the *trading book* and the *non-trading book* may only be recognised when the netted transactions fulfil the following conditions:

- (1) all transactions are marked to market daily;
- (2) any items borrowed, purchased or received under the transactions may be recognised as eligible financial collateral under ■ BIPRU 5 and ■ BIPRU 4.10 without the application of ■ BIPRU 14.2.14 R to ■ BIPRU 14.2.15 R.

[Note: CAD Annex II point 9 (part)]

14.2.18

FCA PRA

R

Treatment of expected loss amounts under the IRB approach

Where a *firm* calculates *risk weighted exposure amounts* for the purposes of ■ BIPRU 14 in accordance with the *IRB approach*, then for the purposes of the calculation provided for in ■ BIPRU 4.3.8 R, the following will apply:

- (1) value adjustments made to take account of the credit quality of the counterparty may be included in the sum of value adjustments and provisions made for the *exposures* indicated in ■ BIPRU 14; and
- (2) unless the *firm's IRB permission* does not permit it, if the credit risk of the counterparty is adequately taken into account in the valuation of a position included in the *trading book* the *expected loss* amount for the counterparty risk *exposure* must be zero.

[Note: CAD Article 17(1)]

14.2.19

R

[deleted]

Exposures to recognised third-country investment firms, recognised clearing houses and designated investment exchanges

14.2.20

FCA PRA

R

For the purposes of the calculation of the *counterparty risk capital component*, without prejudice to ■ BIPRU 13.3.13 R and ■ BIPRU 13.8.8 R (Exposure to a central counterparty) *exposures to recognised third-country investment firms* and *exposures* incurred to *recognised clearing houses* and *designated investment exchanges* must be treated as exposures to *institutions*.

[Note: CAD Article 40]

Netting of trading book exposures against non-trading book exposures

14.2.21

FCA PRA

R

For the purposes of *counterparty credit risk*, a *firm* may net *exposures* arising from items in the *trading book* against *exposures* arising from items in the *non-trading book*.

14.2.22

FCA PRA

R

Where a *firm* carries out netting under ■ BIPRU 14.2.21 R, it must allocate the net *exposure* to:

- (1) the *trading book* for the purposes of the calculation under ■ BIPRU 14.2.11 R, if the gross *trading book exposures* exceed gross *non-trading book exposures*; and
- (2) the *non-trading book* for the purposes of ■ BIPRU 13, if the gross *non-trading book exposures* exceed gross *trading book exposures*.

14.2.23

FCA PRA

R

A *firm* may only net *exposures* under ■ BIPRU 14.2.21 R if it continues to meet other *GENPRU* and *BIPRU* requirements applicable to the *trading book* or *non-trading book* in respect of those *exposures*.

14.2.24

FCA PRA

G

For example, in relation to ■ BIPRU 14.2.23 R, collateral which is eligible only against *trading book exposures* will not be applicable against *non-trading book exposures*; and the large *exposures* limits on *non-trading book* positions will also remain applicable.

14.3 Unsettled transactions

Scope

14.3.1

R

FCA PRA

■ BIPRU 14.3 applies in respect of items in the *trading book* and the *non-trading book*.

14.3.2

G

FCA PRA

The capital requirement for unsettled transactions is an element of the *counterparty risk capital component* set out in ■ BIPRU 14.2.1 R.

Calculation

14.3.3

R

FCA PRA

In the case of transactions in which debt instruments, equities, *foreign currencies* and *commodities* (excluding *repurchase agreements* and *reverse repurchase agreements* and *securities or commodities lending* and *securities or commodities borrowing*) are unsettled after their due delivery dates, a *firm* must calculate the price difference to which it is exposed, being the difference between the agreed settlement price for the debt instrument, equity, *foreign currency* or *commodity* in question and its *current market value*, where the difference could involve a loss for the *firm*.

[Note: CAD Annex II point 1 (part)]

14.3.4

R

FCA PRA

A *firm* must multiply the price difference calculated under ■ BIPRU 14.3.3 R by the appropriate factor in column A of the Table in ■ BIPRU 14.3.4 R in order to calculate its capital requirement for the purposes of ■ BIPRU 14.3.

[Note: CAD Annex II point 1 (part)]

Table: Factors for the multiplication of price differences

14.3.5

R

FCA PRA

This table belongs to ■ BIPRU 14.3.4 R

Number of working days after due settlement date	Column A (%)
5 - 15	8
16 - 30	50
31 - 45	75
46 or more	100

[Note: CAD Annex II Table 1]

14.3.5

FCA PRA

G

In cases of a system wide failure of a settlement or clearing system, a *firm* should refer to the emergency provisions in ■ GEN 1.3. Where the requirements of ■ GEN 1.3.2 R are met, until the situation is rectified failure of a counterparty to settle a trade will not be deemed a default for purposes of credit risk.

[Note: CAD Annex II point 4]

14.4 Free deliveries

Scope

14.4.1

R

FCA PRA

■ BIPRU 14.4 applies in respect of items in the *trading book* and the *non-trading book*.

14.4.2

R

FCA PRA

A *firm* must hold *capital resources* with respect to a *free delivery*, as set out in the Table in ■ BIPRU 14.4.3 R, if:

- (1) it has paid for *securities, foreign currencies* or *commodities* before receiving them or it has delivered *securities foreign currencies* or *commodities* before receiving payment for them; and
- (2) in the case of cross-border transactions, one day or more has elapsed since it made that payment or delivery.

[Note: CAD Annex II point 2]

Exposure

14.4.3

R

FCA PRA

Table: Capital treatment for free deliveries

This table belongs to ■ BIPRU 14.4.2 R.

Transaction Type	Up to first contractual <i>payment leg</i> or <i>delivery leg</i>	From first contractual <i>payment leg</i> or <i>delivery leg</i> up to four days after second contractual <i>payment leg</i> or <i>delivery leg</i>	From 5 business days post second contractual <i>payment leg</i> or <i>delivery leg</i> until extinction of the transaction
<i>Free delivery</i>	No capital charge in the <i>trading book</i>	Treat as an <i>exposure</i>	Deduct value transferred plus current positive <i>exposure</i> from <i>capital resources</i>

[Note: CAD Annex II Table 2]

14.4.4
FCA PRA

R

- (1) In the case of the *non-trading book*, a *firm* must treat an *exposure* falling into columns 2 and 3 of the table in ■ BIPRU 14.4.3 R in accordance with the relevant provisions of the *standardised approach* to credit risk or the *IRB approach*, as the case may be.
- (2) In the case of the *trading book*, a *firm* must apply the treatment set out in ■ BIPRU 14.4.5 R.

[Note: CAD Annex II point 3 (part)]

14.4.5
FCA PRA

R

- (1) In applying a *risk weight* to *free delivery exposures* treated according to column 3 of the table in ■ BIPRU 14.4.3 R, a *firm* using the *IRB approach* may assign *PD* to *counterparties*, for which they have no other *non-trading book exposure*, on the basis of the counterparty's external rating.
- (2) A *firm* using own estimates of *LGDs* may apply the *LGD* set out in ■ BIPRU 4.4.34 R to ■ BIPRU 4.4.35 R ■ BIPRU 4.4.35 R (IRB foundation approach: *LGDs*) to *free delivery exposures* treated according to column 3 of the table in ■ BIPRU 14.4.3 R, provided that it applies it to all such *exposures*.
- (3) Alternatively, a *firm* using the *IRB approach* may apply the *risk weights*, as set out in the *standardised approach* to credit risk provided that it applies them to all such *exposures* or may apply a 100% *risk weight* to all such *exposures*.

[Note: CAD Annex II point 3 (part)]

14.4.6
FCA PRA

R

If the amount of positive *exposure* resulting from *free delivery* transactions is not material, a *firm* may apply a *risk weight* of 100% to these *exposures*.

14.4.7
FCA PRA

G

In cases of a system wide failure of a settlement or clearing system, a *firm* should refer to the emergency provisions in ■ GEN 1.3. Where the requirements of ■ GEN 1.3.2 R are met, until the situation is rectified failure of a counterparty to settle a trade will not be deemed a default for purposes of credit risk.

[Note: CAD Annex II point 4]

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 1 Applicable chapter of IPRU and other general provisions

FCA PRA

TP 1		Applicable chapter of IPRU and other general provisions
		Application
1.1	R	<p>BIPRU TP 1 applies to:</p> <ol style="list-style-type: none"> (1) a <i>BIPRU firm</i>; and (2) any <i>firm</i> to which BIPRU 8 (Group risk - consolidation) applies. <p>Version of IPRU to be used</p>
1.2	R	<p>Any reference in <i>BIPRU TP</i> to <i>IPRU</i> is to the version in force on 31 December 2006.</p> <p>Categorisation of BIPRU investment firms</p>
1.3	R	<p>For the purposes of <i>BIPRU TP</i> the definitions of <i>securities and futures firm</i>, <i>investment management firm</i> and <i>personal investment firm</i> are amended as follows:</p> <ol style="list-style-type: none"> (1) if a <i>firm</i> fell into one of those categories on 31 December 2006 it remains in that category unless changed under (2); (2) if a <i>firm</i> has got a <i>permission</i> that includes a <i>requirement</i> that it comply with the provisions of <i>BIPRU TP</i> applicable to one of those categories, that <i>firm</i> falls into that category; and (3) a <i>BIPRU investment firm</i> that is not an <i>investment management firm</i>, <i>UCITS investment firm</i> or a <i>personal investment firm</i> is a <i>securities and futures firm</i>. <p>Applicable part of IPRU on a solo basis</p>
1.4	R	<ol style="list-style-type: none"> (1) This <i>rule</i> identifies which part of <i>IPRU</i> applies where <i>BIPRU TP</i> applies <i>IPRU</i> to a <i>firm</i> on a solo basis. (2) <i>IPRU(BANK)</i> applies to a <i>bank</i>.

		(3)	<i>IPRU(BSOC)</i> applies to a <i>building society</i> .
		(4)	<i>IPRU(INV)</i> applies to a <i>BIPRU investment firm</i> as follows:
		(a)	Chapter 5 applies to an <i>investment management firm</i> ;
		(b)	Chapter 7 applies to a <i>UCITS investment firm</i> ;
		(c)	Chapter 10 applies to a <i>securities and futures firm</i> ; and
		(d)	Chapter 13 applies to a <i>personal investment firm</i> .
		General provisions about consolidation	
1.5	R	Each provision of <i>BIPRU TP</i> that applies on a solo basis also applies for the purposes of BIPRU 8 (Group risk - consolidation). This is subject to the provisions of <i>BIPRU TP</i> concerned.	
1.6	G	Many sections of <i>BIPRU TP</i> deal specifically with when and how they apply on a consolidated basis. However <i>BIPRU TP</i> will still apply for consolidation purposes even where this is not the case. <i>BIPRU TP</i> 1.5R does not apply to <i>BIPRU TP</i> 2.1 (Solo consolidation) as solo consolidation is a concept that only applies to solo requirements.	
		Classification of groups for certain consolidation rules	
1.7	R	(1)	This <i>rule</i> sets out how to classify a <i>UK consolidation group</i> or <i>non-EEA sub-group</i> ("group") to which consolidated requirements are applied under certain parts of <i>BIPRU TP</i> .
		(2)	If the answer to the question at stage 1 of the decision tree in BIPRU 8 Annex 5R (Decision tree for identifying the consolidated capital resources requirement of a UK consolidation group or a non-EEA sub-group) with respect to the group is Yes and there is a <i>building society</i> in the group, the group is referred to in <i>BIPRU TP</i> as a building society group.

- (3) If a *non-EEA sub-group* is part of a *UK consolidation group* that is a building society group then the *non-EEA sub-group* is also a building society group. However a *firm* may use (2) for the purposes of calculating the consolidated capital resources of the *non-EEA sub-group* where capital resources are calculated under *IPRU*.
- (4) If the answer to the question at stage 1 of the decision tree in BIPRU 8 Annex 2R with respect to the group is Yes and the group is not a building society group, the group is referred to in *BIPRU TP* as a banking group.
- (5) In any other case the group is referred to in *BIPRU TP* as an investment services group.

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 2 Capital floors for a firm using the IRB or AMA approaches

FCA PRA

			Application
2.1	R		Subject to <i>BIPRU</i> TP 2.2R, this section applies to a <i>BIPRU</i> firm that applies the <i>IRB approach</i> or the <i>advanced measurement approach</i> .
2.2	R		<i>BIPRU</i> TP 2.30R to <i>BIPRU</i> TP 2.34G apply to any firm to which <i>BIPRU</i> 8 (Group risk - consolidation) applies and which applies the <i>IRB approach</i> or the <i>advanced measurement approach</i> on a consolidated basis.
			Purpose
2.3	G		This section in part implements Articles 152(1) - (7) of the <i>Banking Consolidation Directive</i> and Article 43 of the <i>Capital Adequacy Directive</i> .
2.4	G		The purpose of this section is to limit the amount of capital reduction arising from the implementation of the <i>Banking Consolidation Directive</i> and the <i>Capital Adequacy Directive</i> compared with the requirements arising from the previous versions of those Directives. As such it is effectively a comparison of the capital resource requirements arising from <i>BIPRU</i> with those arising from the appropriate <i>IPRU</i> sourcebook that would have applied as at 31 December 2006. However the effect of changes to the market risk requirements is removed by requiring <i>BIPRU</i> 7 (Market risk) to be used for both sides of the comparison.
			How to apply the capital floors
2.5	G		This section does not require a firm to continue to have capital resources equal to a fixed percentage of the capital requirement that applied to it as at 31 December 2006. Instead a firm should apply the requirements in this section to its business as it

2.6	G	<p>changes over time. So for example if a <i>firm</i> is calculating its capital requirements as at 31 December 2008 it will have two calculations. The first is carried out under <i>BIPRU</i> and <i>GENPRU</i>. The second is carried out under <i>IPRU</i> and this section. Both sets of requirements are applied to the <i>firm's</i> figures as at 31 December 2008.</p> <p>The Directive provisions on which this section is based are written as a floor on a <i>firm's</i> capital resources requirement. This section however is written as a second capital resources requirement that sits beside the general capital resources requirements of <i>BIPRU</i> and <i>GENPRU</i>. The reason for this is that a <i>firm</i> should meet the general capital resources requirements of <i>BIPRU</i> and <i>GENPRU</i> using <i>capital resources</i> calculated under <i>GENPRU</i> 2.2 (Capital resources). On the other hand a <i>firm</i> should meet the capital resources requirements of this section (which are based on <i>IPRU</i>) using the relevant <i>IPRU</i> definition. In practice the two sets of definitions of capital resources are similar apart from the provisions about <i>expected loss</i>. Therefore as shown by the example in <i>BIPRU</i> TP 2.12G and <i>BIPRU</i> TP 2.13G, in practice a <i>firm</i> is subject to a single capital resources requirement.</p>
2.7	G	<p><i>BIPRU</i> TP 9 explains how the general principle in this section is applied to a <i>personal investment firm</i>.</p>
2.8	R	<p>Capital floors: solo</p> <p>A <i>firm</i> calculating <i>risk weighted exposure amounts</i> in accordance with the <i>IRB approach</i> must during the following twelve-month periods after 31 December 2006 provide capital resources that equal or exceed the following amounts:</p> <ol style="list-style-type: none"> <li data-bbox="772 1653 1347 1720">(1) for the first twelve-month period, 95%; <li data-bbox="772 1742 1378 1809">(2) for the second twelve-month period, 90%; and <li data-bbox="772 1832 1362 1944">(3) for the third and each subsequent twelve-month period, 80%; <p>of the solo capital resources requirement that applies to the <i>firm</i> under whichever part of <i>IPRU</i> applies under <i>BIPRU</i> TP 1.4R.</p>

2.9	R	<p>A <i>firm</i> using the <i>advanced measurement approach</i> must, during each of the second, third and subsequent twelve-month periods after 31 December 2006, provide capital resources which are at all times more than or equal to the amounts indicated in <i>BIPRU</i> TP 2.8R(2) and <i>BIPRU</i> TP 2.8R(3).</p> <p>Capital resources: solo</p>
2.10	R	<p>A <i>firm</i> must calculate its capital resources in accordance with whichever part of <i>IPRU</i> applies under <i>BIPRU</i> TP 1.4R.</p>
2.11	R	<p>Compliance with the requirements of this section must be on the basis of amounts of capital resources fully adjusted to reflect differences in the calculation of capital resources under <i>IPRU</i> and the calculation of <i>capital resources</i> under <i>GENPRU</i> and <i>BIPRU</i> deriving from the separate treatments of <i>expected loss</i> and <i>unexpected loss</i> under the <i>IRB approach</i>.</p> <p>Waiver from IPRU capital resources requirement</p>
2.11A	G	<p>Article 152(5d) and (5e) of the <i>Banking Consolidation Directive</i> allows the <i>appropriate regulator</i> to waive the capital floor calculation based on the <i>IPRU</i> capital resources requirement in <i>BIPRU</i> TP 2.8R(3), or <i>BIPRU</i> TP 2.8R(3) as applied in <i>BIPRU</i> TP 2.9R, on a case-by-case basis only if a <i>firm</i> started to use the <i>IRB approach</i> or the <i>advanced measurement approach</i> on or after 1 January 2010. The <i>appropriate regulator</i> will consider an application for such a <i>waiver</i> in the light of the criteria in section 138A of the <i>Act</i> (Modification or waiver of rules).</p>
2.11B	R	<p>If a <i>firm</i> has a <i>waiver</i> referred to in <i>BIPRU</i> TP 2.11AG, it must provide <i>capital resources</i> that equal or exceed 80% of the <i>capital resources requirement</i> that the <i>firm</i> would be required to provide under the relevant sections of <i>BIPRU</i> applicable to it immediately before it started to use the <i>IRB approach</i> or the <i>advanced measurement approach</i> as those sections were in force on 31 December 2010.</p> <p>Explanation of the calculation</p>
2.12	G	<p>The following provides an illustrative example of the application of this section to a <i>bank</i> in a period in which <i>BIPRU</i> TP 2.8R(1) applies (i.e. the 95% requirement). Say that under <i>IPRU</i>(<i>BANK</i>) the</p>

2.13	G	<p><i>firm's</i> capital resources requirement would be £8.00mn and this would be met in part by general/collective provisions of £0.5mn. This establishes the capital resources requirement under this section at 95% times (£8.0mn less £0.5mn), which equals £7.125mn.</p> <p>Say that in the absence of this section, the Pillar 1 capital resources requirement of the <i>firm</i> in BIPRU TP 2.12G would be £6.4m, and the sum of value adjustments and provisions are £0.25mn less than <i>expected losses</i>. For the purposes of the <i>expected loss</i> calculation, if the result is negative (i.e. value adjustments and provisions are less than <i>expected losses</i>) that amount is deducted from <i>capital resources</i> (which is equivalent to an increase in the <i>capital resources requirement</i>). If the result is positive it is added to <i>capital resources</i> (which is equivalent to a decrease in the <i>capital resources requirement</i>). In this example the result is negative. As the sum of these two amounts (£6.65mn) is still less than the IPRU capital resources requirement of £7.125mn, the effect of this section is that the <i>firm</i> is subject to the (higher) IPRU requirement. If the sum of the BIPRU requirements had been greater than £7.125mn, then the <i>firm</i> would not have been subject to the capital resources requirement in this section.</p> <p>Adjustments to the calculation of capital resources</p>
2.14	R	<p>A <i>firm</i> may treat any <i>capital instrument</i> that complies with the requirements of GENPRU 2.2 (Capital resources) as complying with the corresponding requirements of IPRU.</p>
2.15	G	<p>An example of BIPRU TP 2.14R is that a <i>firm</i> may treat subordinated debt with a term of five years or over that qualifies as <i>lower tier two capital</i> for the purposes of GENPRU as complying with the corresponding provisions for five year subordinated debt under IPRU.</p> <p>Market risk</p>
2.16	R	<p>A <i>firm</i> must substitute the requirements in BIPRU for the calculation of the <i>market risk capital requirement</i> (excluding those provisions to the ex-</p>

2.17	G	<p>tent that they would involve using the <i>IRB approach</i>) for the corresponding provisions of <i>IPRU</i>.</p> <p>BIPRU TP 4 to BIPRU TP 9 (Pre CRD capital requirements applying on a solo basis during 2007) explain which parts of <i>IPRU</i> correspond to the <i>market risk capital requirement</i>.</p> <p>CAD 1 model and VaR model</p>
2.18	R	<p>If a <i>firm</i> has a <i>CAD 1 permission</i> or a <i>VaR model permission</i> it must also use it for the purposes of the capital floor calculations in this section.</p>
2.19	G	<p>In applying BIPRU TP 2.18R, a <i>firm</i> should not adjust the <i>CAD 1 permission approach</i> or <i>VaR model approach</i> (including the scope of the <i>CAD 1 permission</i> or <i>VaR model permission</i>) so that it is consistent with Directive 93/6 (the Capital Adequacy Directive) as it stood on 31 December 2006.</p> <p>Individual capital guidance</p>
2.20	R	<p>The <i>IPRU</i> capital resources requirement does not include any individual capital ratio notified to a <i>bank</i> under Chapter CO of <i>IPRU(BANK)</i> or any similar notification by the <i>appropriate regulator</i> to any other <i>firm</i>.</p>
2.21	G	<p>Any further capital resource requirements that a <i>firm</i> is required to meet under GENPRU 1.2 (Adequacy of financial resources) (i.e. Pillar 2) should not be taken into account.</p> <p>How to apply IPRU</p>
2.22	R	<p>If the part of <i>IPRU</i> that applies to a <i>firm</i> applies different calculations to different types of <i>firm</i> the <i>firm</i> must use the calculations that it would have to use under BIPRU TP 3 (Pre CRD capital requirements applying on a solo basis during 2007).</p>
2.23	R	<p>If the part of <i>IPRU</i> that applies to a <i>firm</i> gives the <i>firm</i> a choice between methods of calculating capital resources or capital resources requirements it must exercise that choice consistently with the corresponding choices it makes in calculating <i>capital resources</i> or <i>capital resources requirement</i> under <i>GENPRU</i> and <i>BIPRU</i>.</p>
2.24	G	<p>BIPRU TP 4 to BIPRU TP 9 (Pre CRD capital requirements applying on a solo basis during 2007) explain how concepts in <i>IPRU</i> and <i>GENPRU</i> map onto the ones in <i>IPRU</i>. This will enable a <i>firm</i> to decide</p>

2.25	G	<p>which calculations it should use for the purposes of <i>BIPRU</i> TP 2.22R and <i>BIPRU</i> TP 2.23R.</p> <p>An example of the effect of <i>BIPRU</i> TP 2.22R and <i>BIPRU</i> TP 2.23R is that a <i>securities and futures firm</i> that calculates its <i>capital resources</i> under <i>GENPRU 2 Annex 4 R</i> (Capital resources table for a BIPRU investment firm deducting material holdings) should calculate its capital resources under <i>IPRU</i> using table 10-62(2)A of chapter 10 of <i>IPRU(INV)</i>.</p>
2.26	R	<p>For the purpose of calculating the part of the <i>IPRU</i> capital resources requirement that corresponds to the <i>concentration risk capital component</i> a <i>firm</i> may identify the <i>trading book exposures</i> on which that requirement is based using <i>BIPRU 10</i> (Large exposures requirements) except to the extent that <i>BIPRU 10</i> involves the <i>IRB approach</i>.</p>
2.27	G	<p>The <i>concentration risk capital component</i> is the capital requirement for a <i>firm</i> that chooses to have <i>trading book exposures</i> that exceed the <i>large exposure</i> limits for the <i>non-trading book</i>. In most cases <i>IPRU</i> has a similar capital requirement. The purpose of <i>BIPRU</i> TP 2.26R is to allow a <i>firm</i> to calculate the amount of the excess <i>trading book exposures</i> for which it calculates the additional capital charge using <i>BIPRU 10</i> (Large exposures requirements) in order to avoid having to apply the <i>IPRU</i> large exposure requirements for this purpose only.</p>
2.28	R	<p>The calculations under this section do not take into account the <i>base capital resources requirement</i> or the part of the <i>IPRU</i> solo capital resources requirement that corresponds to the <i>base capital resources requirement</i>.</p> <p>Solo consolidation</p>
2.29	R	<p>If a <i>firm</i> has a <i>solo consolidation waiver</i> it also applies for the purpose of this section in place of any corresponding provision of <i>IPRU</i>.</p> <p>Capital floors: consolidation</p>
2.30	R	<p>If a <i>firm</i> calculates <i>risk weighted exposure amounts</i> on a consolidated basis in accordance with the <i>IRB approach</i> or uses the <i>advanced measurement approach</i> on a consolidated basis, <i>BIPRU</i> TP 2.8R to <i>BIPRU</i> TP 2.27G apply on a</p>

2.31	R	consolidated basis in accordance with <i>BIPRU</i> TP 2.30R to <i>BIPRU</i> TP 2.31R.
		A <i>firm</i> must calculate the consolidation requirements under <i>BIPRU</i> TP 2.30R for the group in question (the group in question is specified in <i>BIPRU</i> TP 2.32R) in accordance with the following:
		(1) if the group is a banking group as defined in <i>BIPRU</i> TP 1.7R (Classification of groups for certain consolidation rules), the consolidation provisions of <i>IPRU(BANK)</i> apply;
		(2) if the group is a building society group as defined in <i>BIPRU</i> TP 1.7R, the consolidation provisions of <i>IPRU(BSOC)</i> apply; and
		(3) if the group is an investment firm group as defined in <i>BIPRU</i> TP 1.7R, chapter 14 of <i>IPRU(INV)</i> applies.
2.32	R	The scope of the consolidation under <i>BIPRU</i> TP 2.30R and any exemption from consolidation is determined in accordance with <i>BIPRU</i> 8 (Group risk - consolidation) rather than <i>IPRU</i> . In particular, the following adjustments apply:
		(1) if a <i>firm</i> is a member of a <i>UK consolidation group</i> and applies the <i>IRB approach</i> or the <i>AMA</i> with respect to that <i>UK consolidation group</i> , <i>BIPRU</i> TP 2.30R applies with respect to that <i>UK consolidation group</i> ; and
		(2) if a <i>firm</i> is a member of a <i>non-EEA sub-group</i> and applies the <i>IRB approach</i> or the <i>AMA</i> with respect to that <i>non-EEA</i>

2.33	G	<p>If for example the consolidation <i>rules</i> that apply for the purposes of this section are those in chapter 14 of <i>IPRU(INV)</i> (Consolidated supervision of <i>investment firms</i>) then <i>IPRU(INV)</i> 14.1 (Application) and 14.2 (Scope of consolidation) do not apply. BIPRU 8.2 (Scope and basic consolidation requirements for UK consolidation groups), BIPRU 8.3 (Scope and basic consolidation requirements for non-EEA sub-groups), BIPRU 8.4 (CAD Article 22 groups and investment firm consolidation waiver) and BIPRU 8.5 (Basis of consolidation) apply instead.</p>
2.34	G	<p style="text-align: right;"><i>sub-group, BIPRU TP 2.30R applies with respect to that non-EEA sub-group.</i></p> <p>Capital floors: waiver from consolidation</p> <p>If a <i>firm</i> has an <i>investment firm consolidation waiver</i> and it is applying the <i>IRB approach</i> or the <i>AMA</i>, the <i>waiver</i> will explain how the <i>investment firm consolidation waiver</i> applies for the purpose of this section.</p>

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 3 Pre CRD capital requirements applying on a solo basis during 2007

		Application
3.1	R	This section applies to a <i>BIPRU firm</i> .
		Purpose
3.2	G	This section (together with BIPRU TP 4 - BIPRU TP 10) implements Articles 152(8) - (14) of the <i>Banking Consolidation Directive</i> and Article 50(1) of the <i>Capital Adequacy Directive</i> .
		Duration of transitional
3.3	R	This section applies until 1 January 2008.
		Continued use of IPRU
3.4	R	Unless a <i>firm</i> notifies the <i>appropriate regulator</i> to the contrary, a <i>firm</i> must use on a solo basis the credit risk <i>rules</i> in whichever part of <i>IPRU</i> applies to it under BIPRU TP 1 rather than the ones in <i>BIPRU</i> .
3.5	R	BIPRU TP 3 sets out, for all types of <i>firm</i> , which parts of <i>GENPRU</i> and <i>BIPRU</i> do and do not apply when BIPRU TP 3 applies.
3.6	G	BIPRU TP 4 - BIPRU TP 9 set out, for each category of <i>BIPRU firm</i> , which sections of the part of <i>IPRU</i> that applies to it do and do not apply during 2007 as follows:
		(1) <i>BIPRU TP 4</i> applies to a <i>bank</i> ;
		(2) <i>BIPRU TP 5</i> applies to a <i>building society</i> ;
		(3) <i>BIPRU TP 6</i> applies to an <i>investment management firm</i> ;

		(4)	BIPRU TP 7 applies to a <i>UCITS investment firm</i> ;
		(5)	BIPRU TP 8 applies to a <i>securities and futures firm</i> ; and
		(6)	BIPRU TP 9 applies to a <i>personal investment firm</i> .
3.7	G		BIPRU TP 10 explains how this section is applied on a consolidated basis.

			Disapplication of GENPRU and BIPRU

GENPRU and BIPRU provisions

A Y denotes that the provision does apply

An N denotes that it does not apply

BIPRU 14 (Capital requirements for settlement and counterparty risk) N

This table is subject to the adjustments set out in *BIPRU* TP 3.15R to *BIPRU* TP 3.21R when a *firm* also uses the *IRB approach*.

			Application of BIPRU concentration risk rules for underwriting
3.9	G		Even though BIPRU 10 (Concentration risk) does not apply, the provisions in BIPRU 7.8 (Securities underwriting) about the calculation of the <i>net underwriting exposures</i> still apply.
			How to interpret cross-references
3.10	R		If a provision in <i>BIPRU</i> or <i>GENPRU</i> that applies under this section refers to a provision of <i>BIPRU</i> or <i>GENPRU</i> that does not apply that reference must be read as referring to the <i>IPRU</i> provision that applies instead under this section (if any). If a provision in <i>IPRU</i> that applies under this section refers to a provision of <i>IPRU</i> that does not apply that reference must be read as referring to the corresponding provision in <i>BIPRU</i> or <i>GENPRU</i> that applies under this section.
3.11	G		<i>BIPRU</i> TP 4 - <i>BIPRU</i> TP 9 set out, for each category of <i>BIPRU firm</i> , some of the main examples of the sort of cross-references referred to in <i>BIPRU</i> TP 3.10R.
3.12	G		<i>GENPRU</i> 2.2.187 R and <i>GENPRU</i> 2.2.188 R (Upper tier two capital: General/collective provisions) still applies to a <i>firm</i> that uses <i>BIPRU</i> TP 3.4R. The reference to the sum of <i>risk weighted assets</i> under the <i>standardised approach</i> for credit risk should be read as being to the sum of risk-weighted assets under the provisions of <i>IPRU</i> that apply under this section.
			Combination of IPRU with the standardised approach to credit risk
3.13	R		A <i>firm</i> may not combine the <i>standardised approach</i> to credit risk with the use of <i>IPRU</i> under <i>BIPRU</i> TP 3.4R.

3.14	G	<p>Effect of switching off GENPRU 1.2</p> <p>If GENPRU 1.2 (Adequacy of financial resources) does not apply to a <i>firm</i>, stress and scenario testing obligations in other parts of the <i>Handbook</i> still apply. In particular these include stress and scenario tests required under the <i>IRB approach</i> (see in particular BIPRU 4.3.39 R to BIPRU 4.3.42 G (Stress tests used in assessment of capital adequacy) and BIPRU 2.2.41 R to BIPRU 2.2.45 G), under the <i>VaR model approach</i> and under BIPRU 10.6.22 R to BIPRU 10.6.27 G (Stress testing of credit risk concentrations).</p> <p>Continued use of IPRU combined with the IRB approach</p>
3.15	R	<p>BIPRU TP 3.16R to BIPRU TP 3.21R only apply to a <i>firm</i> that is applying the <i>IRB approach</i> as well as using <i>IPRU</i>.</p>
3.16	R	<p>If a <i>firm's IRB permission</i> allows it to do this, a <i>firm</i> may combine the <i>IRB approach</i> with the use of <i>IPRU</i> under BIPRU TP 3.4R.</p>
3.17	G	<p>If an <i>exposure</i> comes within the scope of a <i>firm's IRB permission</i> the <i>firm</i> should use the <i>IRB approach</i> to calculate the <i>credit risk capital component</i> and the <i>counterparty risk capital component</i> with respect to that <i>exposure</i> in accordance with BIPRU rather than <i>IPRU</i>. In particular BIPRU 4 (The <i>IRB approach</i>), BIPRU 5 (Credit risk mitigation), BIPRU 9 (Securitisation), BIPRU 13 (Financial derivatives, SFTs and long settlement transactions) and BIPRU 14 (Capital requirements for settlement and counterparty risk) apply.</p>
3.18	R	<p>If a <i>firm</i> combines the <i>IRB approach</i> with the use of <i>IPRU</i> under BIPRU TP 3.14R, the disapplication of BIPRU 10 (Concentration risk) still applies. However in the case of <i>exposures</i> to which the <i>firm</i> applies the <i>IRB approach</i>:</p> <p>(1) BIPRU 10.6.14 R to BIPRU 10.6.26 R (Exemptions for firms using the financial collateral comprehensive method , Exemptions for firms using own estimates of LGDs and conversion factors under the <i>IRB approach</i></p>

			and Stress testing of credit risk concentrations) apply;
		(2)	a <i>firm</i> may not recognise <i>credit risk mitigation</i> if it does not comply with BIPRU 5 and BIPRU 4.10 (Credit risk mitigation) to the extent they apply to BIPRU 10; and
		(3)	BIPRU 5 and BIPRU 4.10 apply for the purpose of calculating the amount of <i>credit risk mitigation</i> to the extent that they apply to BIPRU 10.
3.19	R		BIPRU 11 (Disclosure) applies to <i>exposures</i> to which the <i>firm</i> applies the <i>IRB approach</i> . The rest of BIPRU 11 also applies except to the extent that it relates to parts of <i>BIPRU</i> and <i>GENPRU</i> that do not apply under this section.
3.20	R		BIPRU 7.11.18 R to BIPRU 7.11.58 R (Special treatment of credit default swaps) apply to <i>exposures</i> subject to the <i>IRB approach</i> .
3.21	R		Reduced operational risk capital requirement Where <i>BIPRU TP 3.4R</i> applies, the <i>operational risk capital requirement</i> is reduced by the percentage representing the ratio of the value of the <i>firm's exposures</i> for which capital requirements are calculated in accordance with <i>BIPRU TP 3.4R</i> to the total value of its <i>exposures</i> .

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 4 Pre CRD capital requirements applying on a solo basis during 2007: Banks

4.1	R	<p>Application</p> <p>BIPRU TP 4 applies to a <i>BIPRU firm</i> that is:</p> <ol style="list-style-type: none"> (1) a <i>bank</i>; and (2) applying <i>BIPRU TP 3.4R</i> (Pre CRD capital requirements applying on a solo basis during 2007).
4.2	G	<p>Purpose of this section</p> <p>BIPRU TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) says that during 2007 a <i>firm</i> may apply the credit risk requirements of <i>IPRU</i> instead of the ones in <i>BIPRU</i>. For a <i>bank</i> this involves applying the credit risk requirements in <i>IPRU(BANK)</i>. This section explains how this is done. In particular BIPRU TP 4 explains:</p> <ol style="list-style-type: none"> (1) which parts of <i>IPRU(BANK)</i> should be treated as credit risk requirements for this purpose; (2) what parts of <i>IPRU(BANK)</i> apply during 2007 and what changes are made to <i>IPRU(BANK)</i> for that purpose; and (3) what changes are made to <i>GENPRU</i> and <i>BIPRU</i> to reflect the fact that <i>IPRU(BANK)</i> applies in place of parts of <i>GENPRU</i> and <i>BIPRU</i>.

			Duration of transitional
4.3	R		This section applies until 1 January 2008.
			Drafting approach in this section
4.4	G		The purpose of BIPRU TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) is that the basic provisions of BIPRU and GENPRU should be in force from 1 January 2007. However a <i>firm</i> should be able to calculate the capital requirements for credit risk under IPRU and use the large exposures requirements in IPRU. This means that a <i>bank</i> should slot the credit risk requirements of IPRU(BANK) into the general requirements of GENPRU and BIPRU.
4.5	G		The capital calculation for credit risk under BIPRU is made up of three elements, which are set out in GENPRU 2.1.51 R (Calculation of the credit risk capital requirement). These are the <i>credit risk capital component</i> , the <i>counterparty risk capital component</i> and the <i>concentration risk capital component</i> . So the approach in BIPRU TP 4.4G involves finding equivalents for these three elements in IPRU(BANK).
4.6	G		BIPRU TP 3.8R (Parts of GENPRU and BIPRU that apply in 2007) provides that GENPRU 2.2 (Capital resources) applies during 2007. So a <i>bank</i> using BIPRU TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007) should calculate its <i>capital resources</i> under GENPRU 2.2, instead of calculating its capital under IPRU(BANK).
			Parts of IPRU(BANK) that apply in 2007: Chapter GN
4.7	R		The parts of Chapter GN of IPRU(BANK) that do and do not apply during the period that BIPRU TP 3.4R applies are as set out in BIPRU TP 4.8R.
4.8	R		Table: Parts of Chapter GN of IPRU(BANK) that apply in 2007 This table belongs to BIPRU TP 4.7R

Provisions of Chapter GN of IPRU(BANK)	A Y denotes that the provision does apply	Remarks
	An N denotes that it does not apply	
GN 3.3.19R to GN 3.3.20G (requirement to have adequate systems and controls for monitoring, controlling and calculating LE)	Y	
GN 3.3.21R to GN 3.3.22G (requirement to notify FSA if breach or propose to breach the 25% limit)	Y	Solo consolidation is dealt with by BIPRU 2.1 (Solo consolidation)
GN 3.4.1R to GN 3.4.2G (requirement to have written policy statement for LE)	Y	
GN 3.4.5R to GN 3.4.6G (requirement to have written provisioning policy statement)	Y	The reference to <i>rule</i> 3.3.17 is replaced by a reference to the requirements in GENPRU 1.3.4 R (General requirements: Accounting principles to be applied)
GN 3.4.9E to GN 3.4.12R (Policy statement procedures)	Y	Applies in relation to large exposures and provisioning policy statements
GN 3.5.1R (Definitions)	Y	Applies for the purpose of the provisions that continue in force under this table
GN 3.6.1 R (Transitional rule for policy statements)	Y	Applies in relation to large exposures and provisioning policy statements
The parts of Chapter GN that remain in force even if the <i>bank</i> is not applying BIPRU TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007)	Y	See in particular <i>rules</i> 3.4.3 and 3.4.9 (Liquidity policy statement)
Rest of Chapter GN	N	
A <i>bank</i> must calculate its capital for the purposes of the <i>rules</i> in this table about large exposures in accordance with BIPRU 10.5.2 R to BIPRU 10.5.5 R (Capital resources for concentration risk purposes).		
Parts of IPRU(BANK) that apply in 2007		
4.9	G	The parts of IPRU(BANK) that do and do not apply during the peri-

4.10	G	<p>od that <i>BIPRU</i> TP 3.4R applies are as set out in <i>BIPRU</i> TP 4.11G. This section does not explain what parts of <i>IPRU(BANK)</i> do and do not apply to an overseas <i>bank</i> as this section only applies to a <i>bank</i> that is a <i>BIPRU firm</i>.</p> <p>The table in <i>BIPRU</i> TP 4.11G assumes that the <i>firm</i> is not applying the <i>IRB approach</i>. <i>BIPRU</i> TP 4.40G to <i>BIPRU</i> TP 4.43G deal with a <i>firm</i> that does apply the <i>IRB approach</i>.</p>

Provisions of IPRU(BANK)	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
CS (Consolidated Supervision)	Paragraph 2b) of Section 3 Y	(1) Applies to the extent it provides for zero risk weighting for intra-group exposures on a solo basis. (2) Applies for the purpose of the exemption for certain intra-group exposures for large exposure purposes on a solo basis (see paragraph 7 of section 9.2.2 of chapter LE of IPRU(BANK)). (3) Otherwise does not apply.
	Appendices C and D (equivalent third country prudential regimes) Y	Only has effect to extent that these apply on a solo basis for the purposes of the parts of IPRU(BANK) that apply under this table. In particular applies for the purposes of IPRU(BANK) BC Section 3 paragraph 6 (f) a) regarding equivalent CAD regimes.
	Rest N	
OS (Outsourcing)	N	
PN (Provisioning Policy Statement)	Y	

4.12 **G** **General material about the parts of IPRU(BANK) that apply in 2007**

Many of the chapters of IPRU(BANK) that apply under the table in BIPRU TP 4.11G (particularly the application sections) deal with the application of the material on a consolidated basis. However this does not apply for the purpose of this section as consolidation is dealt with under BIPRU TP 10 (Pre CRD capital requirements applying on a con-

		<p>solidated basis during 2007). Likewise those provisions also deal with solo consolidation but this material does not apply either as the provisions about solo consolidation in <i>IPRU(BANK)</i> do not apply for the purpose of this section. Nevertheless it is possible to combine the use of this section with solo consolidation under BIPRU 2.1 (Solo consolidation).</p>
4.13	G	<p>Status of material on credit risk charges</p> <p>The credit risk provisions of <i>IPRU(BANK)</i> are mostly <i>guidance on rule 3.3.13</i> of Chapter GN of <i>IPRU(BANK)</i>. That <i>rule</i> does not apply in 2007. When the credit risk provisions of <i>IPRU(BANK)</i> are applied under this section they are <i>guidance on the overall financial adequacy rule</i>. In turn the <i>overall financial adequacy rule</i> is the <i>rule</i> on which the calculation of the capital requirements for credit risk under <i>GENPRU</i> and <i>BIPRU</i> is based for a <i>bank</i> under this section.</p>
4.14	G	<p>How to calculate credit risk charges</p> <p>A <i>bank</i> should calculate the <i>BIPRU</i> credit risk charge for <i>non-trading book</i> items, called the <i>credit risk capital component</i>, by adding together the following:</p> <ol style="list-style-type: none"> (1) the capital charge calculated under Chapter BC (taking into account the revised risk weights in Chapter BO); (2) the capital charge for OTC derivatives in the banking book under section 3 of Chapter DU; (3) the capital charge for free deliveries for banking book items in section 4 of Chapter DU; and
4.15	G	<p>A <i>bank</i> should calculate the <i>BIPRU</i> credit risk charge for <i>trading book</i> items, called the <i>counterparty risk capital component</i>, by adding together the following:</p>

			(1)	the capital charge calculated under Chapter TU;
			(2)	the capital charge for OTC derivatives in the trading book under section 3 of Chapter DU;
			(3)	the capital charge for unsettled transactions and free deliveries for trading book items in section 4 of Chapter DU; and
			(4)	the capital charge for unsettled transactions in the banking book calculated under Chapter TU (the calculation of the <i>counterparty risk capital component</i> includes a capital charge for unsettled transactions in the <i>non-trading book</i> as an exception to the principle that the <i>counterparty risk capital component</i> relates to the <i>trading book</i>).
4.16	G			<i>BIPRU</i> TP 4.28G deals with how to calculate the <i>concentration risk capital component</i> .
4.17	G			Adjustments to securitisation requirements Under Chapter SE a <i>bank</i> should deduct certain credit enhancements from capital. A <i>bank</i> should deduct these credit enhancements at stage M of the calculation in the <i>capital resources table</i> (Deductions from the totals of tier one and two).
4.18	G			Paragraph 6 of section 10.4 of Chapter SE of <i>IPRU(BANK)</i> says that if a <i>bank</i> does not meet the policy on liquidity facilities provided by sponsors or repackagers it should fully consolidate the scheme. This does not apply under this section. Instead a <i>bank</i> should treat the scheme assets as being on its balance sheet.
4.19	G			The definition of investment grade for the purposes of Chapter SE (see in particular sections 3.2.2, 9.3 and 11.1) remains based on Chapter TI of <i>IPRU(BANK)</i> .

			<p>Adjustments to counterparty credit risk: General</p>
4.20	G		<p>Broadly speaking the Directive transitional provisions that allow pre-2007 credit risk rules to be used in 2007 cover all credit risk rules. However the transitional provisions for <i>trading book</i> credit risk (Annex II of the <i>Capital Adequacy Directive</i>, which is implemented in BIPRU 14 (Capital requirements for settlement and counterparty risk)) is not quite as straightforward as that. In some cases pre-2007 requirements can be used. In others they cannot. One of the purposes of BIPRU TP 4.21G to BIPRU TP 4.25G is to reflect those cases in which the Directive requires the new requirements to apply from 1 January 2007.</p> <p>Adjustments to counterparty credit risk: Free deliveries</p>
4.21	G		<p>A bank should include <i>foreign currency</i> and <i>commodity</i> transactions in the calculations under IPRU(BANK) Chapter DU section 4.2 (Free deliveries).</p>
4.22	G		<p>A bank should apply the capital treatment in the table in BIPRU 14.4.3 R and BIPRU 14.4.4 R (Capital treatment for free deliveries). But when the capital treatment in that table is that the <i>firm</i> must treat the transaction as an <i>exposure</i>, the bank should apply the treatment in IPRU(BANK) Chapter BC for <i>non-trading book exposures</i> or TC for <i>trading book exposures</i> rather than BIPRU 14 (Capital requirements for settlement and counterparty risk).</p> <p>Adjustments to counterparty credit risk: Derivative transactions</p>
4.23	G		<p>A bank should treat a credit derivative in the <i>trading book</i> as a derivative to which section 3 of IPRU(BANK) Chapter TC (OTC derivatives) applies. However the capital treatment for credit derivatives as set out in BIPRU 14.2.5 R - BIPRU 14.2.8 R (Capital treatment for credit derivatives) does not apply; a bank should continue to use the treatment in IPRU(BANK) as adjusted by this section.</p> <p>Adjustments to counterparty credit risk: Unsettled transactions</p>
4.24	G		<p>The alternative treatment set out in IPRU(BANK) DU 4.1.3 does not apply.</p>

4.25	G	<p>A bank should include <i>foreign exchange</i> and <i>commodity</i> transactions in the calculations under <i>IPRU(BANK)</i> Chapter DU section 4.1 (Unsettled transactions).</p> <p>OTC derivatives</p>
4.26	G	<p>The treatment in section 3 of Chapter DU applies to the derivatives mentioned there whether or not they are off-balance sheet.</p> <p>How to use the IPRU(BANK) large exposure rules</p>
4.27	G	<p><i>IPRU(BANK)</i> Chapter LE (Large exposures) applies in place of BIPRU 10 (Concentration risk).</p>
4.28	G	<p>A bank should calculate the <i>concentration risk capital component</i> as being equal to the capital charge under <i>IPRU(BANK)</i> Chapter TL.</p>
4.29	G	<p>BIPRU 10.5.2 R to BIPRU 10.5.5 R (Capital resources for concentration risk purposes) apply in place of the corresponding provisions of <i>IPRU(BANK)</i>. The provisions in <i>IPRU(BANK)</i> about the calculation of the large exposures capital base (LECB) do not apply.</p>
4.30	G	<p>Generally a bank should use the specific risk weights that apply under BIPRU 7 (Market risk) for the purposes of the incremental capital calculation under section 2.2 of Chapter TL and the net trading book position under paragraph 2(b) of section 7 of Chapter LE. However <i>BIPRU TP 4.33G</i> also applies for these purposes.</p>
4.31	G	<p>References in paragraph 4(d) of section 9.2.1 and paragraph 7 of section 9.2.2 of Chapter LE to the requirements in Chapter CS about zero-risk weighting intra-group exposures still apply.</p>
4.32	G	<p>When Chapter LE of <i>IPRU(BANK)</i> is applied under this section it is <i>guidance</i> on the <i>overall financial adequacy rule</i> as well as on the relevant provisions of Chapter GN of <i>IPRU(BANK)</i>.</p> <p>Interest rate PRR</p>
4.33	G	<p>A bank should use <i>IPRU(BANK)</i> as it applies under <i>BIPRU TP 3</i> (Pre CRD capital requirements applying on a solo basis during 2007) and <i>BIPRU TP 4</i> to calculate the <i>specific risk</i> portion of the <i>interest rate PRR</i> under <i>BIPRU 7.2</i> (Interest rate PRR) to the ex-</p>

4.34	G	<p>tent that the relevant <i>rules</i> in BIPRU 7.2 require the use of the <i>standardised approach</i> to credit risk.</p> <p>The reason for BIPRU TP 4.33G is that the calculation of the <i>specific risk</i> portion of the <i>interest rate PRR</i> under BIPRU 7 (Market risk) involves the use of the <i>standardised approach</i> to credit risk. The <i>specific risk rules</i> therefore need to be adjusted for a <i>firm</i> that is not using the <i>standardised approach</i> to credit risk in 2007 so as to apply the pre-2007 method of calculating <i>specific risk</i>.</p>
4.35	G	<p>Valuation</p> <p>BIPRU TP 3.8R (Parts of GENPRU and BIPRU that apply in 2007) says that GENPRU 1.3 (Valuation) applies during 2007, so the values of assets and off balance sheet items used in the calculation of credit risk charges should be in accordance with GENPRU 1.3.</p>
4.36	G	<p>Definitions</p> <p>Any reference to a <i>qualifying debt security</i> in a part of BIPRU that applies during 2007 should be interpreted in accordance with IPRU(BANK). However BIPRU 7.2.50 R (Must not apply <i>qualifying debt security</i> treatment to risky assets) also applies.</p>
4.37	G	<p>The reason for BIPRU TP 4.36G is that the BIPRU definitions rely in part on the <i>standardised approach</i> to credit risk. The definitions therefore need to be adjusted for a <i>bank</i> that is not using the <i>standardised approach</i> to credit risk in 2007.</p> <p>Mapping GENPRU and BIPRU concepts onto IPRU</p>
4.38	G	<p>Some of the parts of IPRU(BANK) that apply in 2007 refer to parts of IPRU that do not apply. BIPRU TP 3.10R explains that where this happens a <i>firm</i> should interpret that cross-reference in accordance with the provision in BIPRU or GENPRU that corresponds to the IPRU provision that does not apply in 2007. A <i>firm</i> should refer to IPRU in the case of cross-references in GENPRU and BIPRU to provisions in GENPRU and BIPRU that do not apply in 2007. BIPRU TP 4.39G sets out how certain concepts in IPRU(BANK) correspond to ones in GENPRU and BIPRU. The purpose of the table is to help <i>firms</i> to interpret such cross-references.</p>

4.39	G	Table: Mapping GENPRU and BIPRU concepts onto ones in <i>IPRU(BANK)</i>
		This table belongs to <i>BIPRU TP 4.38G</i>

<i>GENPRU and BIPRU</i>	<i>IPRU(BANK)</i>

<i>individual capital guidance</i>	individual capital ratio
<i>Bank that calculates its capital requirements under BIPRU 1.2.17R (Firm with small trading book using non-trading book treatments for certain trading book items)</i>	<i>Bank to which the Capital Adequacy Directive does not apply</i>
<i>trading book concentration risk excess</i>	Exposures over the 25% in the trading book under Chapter TL

			Firms using the IRB approach during 2007: General
4.40	G		<i>BIPRU</i> TP 4.41G to <i>BIPRU</i> TP 4.43G only apply to a <i>firm</i> that is applying the <i>IRB approach</i> under <i>BIPRU</i> TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) as well as using <i>IPRU</i> .
4.41	G		The effect of <i>BIPRU</i> TP 3.17G (Pre CRD capital requirements applying on a solo basis during 2007 for <i>firms</i> also using the <i>IRB approach</i>) is that neither credit risk or counterparty risk requirements of <i>IPRU(BANK)</i> apply to an <i>exposure</i> to which the <i>firm</i> applies the <i>IRB approach</i> . The <i>IRB approach</i> requirements in <i>BIPRU</i> apply instead. The main requirements are listed in <i>BIPRU</i> TP 3.17G.
4.42	G		A <i>firm</i> should apply <i>BIPRU</i> 7.2.45 R - <i>BIPRU</i> 7.2.47 R (Using internal ratings to calculate <i>specific risk</i> and treatment of <i>securitisations</i>) to calculate the <i>specific risk</i> portion of the <i>interest rate PRR</i> to the extent that the obligor or <i>exposure</i> in question comes within the scope of its <i>IRB permission</i> .
4.43	G		The definition of <i>qualifying debt security</i> in the <i>Glossary</i> applies if the security or obligor in question comes within the scope of a <i>firm's IRB permission</i> .

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 5 Pre CRD capital requirements applying on a solo basis during 2007: Building societies

5.1	R	<p>Application</p> <p>This section applies to a <i>building society</i> that is applying <i>BIPRU TP 3.4R</i> (Use of <i>IPRU</i> on a solo basis during 2007).</p>
5.2	G	<p>Purpose of this chapter</p> <p><i>BIPRU TP 3</i> (Pre CRD capital requirements applying on a solo basis during 2007) says that during 2007 a <i>firm</i> may apply the credit risk requirements of <i>IPRU</i> instead of the ones in <i>BIPRU</i>. For a <i>building society</i> this involves applying the credit risk requirements in <i>IPRU(BSOC)</i>. This section explains how this is done. In particular this section explains what parts of <i>IPRU(BSOC)</i> apply during 2007 and what changes are made to <i>IPRU(BSOC)</i> for that purpose.</p>
5.3	R	<p>Duration of transitional</p> <p>This section applies until 1 January 2008.</p>
5.4	G	<p>Drafting approach in this chapter</p> <p>The purpose of <i>BIPRU TP 3</i> (Pre CRD capital requirements applying on a solo basis during 2007) is that the basic provisions of <i>BIPRU</i> and <i>GENPRU</i> should be in force from 1 January 2007.</p>

5.5

G

However a *firm* should be able to calculate the capital requirement for credit risk under *IPRU* and use the large exposures requirements in *IPRU*. This means that a *building society* should slot the credit risk requirements of *IPRU(BSOC)* into the general requirements of *GENPRU* and *BIPRU*.

The capital calculation for credit risk under *BIPRU* is made up of three elements, which are set out in *GENPRU* 2.1.51R (Calculation of the credit risk capital requirement). These are the *credit risk capital component*, the *counterparty risk capital component* and the *concentration risk capital component*. So the approach in *BIPRU* TP 5.4G involves determining which of these three elements apply, and then finding their equivalents (if any) in *IPRU(BSOC)*.

5.6

G

The general approach to calculating the capital requirements for credit risk in *GENPRU* and *BIPRU* is to calculate the overall *credit risk capital requirement* (which is the sum of the three components listed in *BIPRU* TP 5.5G) - a monetary amount - and to compare it with *capital resources*, also a monetary amount.

5.7

G

The general approach in *IPRU(BSOC)* is different. A *building society* calculates the total of its own funds (after making the relevant deductions) and the total of its risk weighted assets and off balance sheet items (in the latter case, after applying credit conversion factors). The own funds total is divided by the risk weighted assets total and the quotient expressed

5.8	G	<p>as a percentage: this is the pre-CRD solvency ratio.</p> <p>To enable a <i>building society</i> to use <i>BIPRU</i> TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007), the calculation method set out in <i>IPRU(BSOC)</i>, which is designed to produce the solvency ratio, needs adjustment so that it produces the <i>credit risk capital component</i> instead.</p>
5.9	G	<p><i>BIPRU</i> TP 3.8R (Parts of GENPRU and BIPRU that apply in 2007) provides that GENPRU 2.2 (Capital resources) applies during 2007. So a <i>building society</i> using <i>BIPRU</i> TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007) will calculate its <i>capital resources</i> under GENPRU 2.2, instead of calculating its own funds under <i>IPRU(BSOC)</i>.</p> <p>Rules in IPRU(BSOC) that apply in 2007</p>
5.10	R	<p>The <i>rules</i> in Chapter 7 of Volume 1 of <i>IPRU(BSOC)</i> (Large Exposures) apply during the period that <i>BIPRU</i> TP 3.4R applies. None of the other <i>rules</i> in <i>IPRU(BSOC)</i> apply except the <i>rules</i> in chapters 4 and 5 which apply to <i>building societies</i> generally whether or not they apply the treatment in this section.</p> <p>Parts of Volume 1 of IPRU(BSOC) that apply in 2007</p>
5.11	G	<p>The parts of Volume 1 of <i>IPRU(BSOC)</i> that do and do not apply during the period that <i>BIPRU</i> TP 3.4R applies are set out in <i>BIPRU</i> TP 5.13G.</p>
5.12	G	<p>The table in <i>BIPRU</i> TP 5.13G assumes that the <i>firm</i> is not apply-</p>

ing the *IRB approach*. *BIPRU TP 5.36R to BIPRU TP 5.38R* deal with a *firm* that does apply the *IRB approach*.

5.13 G Table: Parts of Volume 1 of IPRU(BSOC) that apply in 2007

This table belongs to *BIPRU TP 5.11G*

<i>IPRU(BSOC) rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
Chapter X (Introduction)	<i>Rule X.2.1 (Application)</i> N	<i>BIPRU TP 5.1R</i> applies in its place for the purposes of <i>BIPRU TP 5</i> . However see <i>BIPRU TP 5.15G</i> .
	Definition of the BCD in X.7.1G Y	
	Other definitions in X.7 Y	Apply to the extent used in the parts of <i>IPRU(BSOC)</i> that have effect under this section.
	The rest of chapter X Chapter 1 (Solvency) N	
Section 1.1 (Introduction)	N	
Section 1.2 (Solvency rules)	N	
Section 1.3 (Purpose of Capital)	N	
Section 1.4 (EU Directives)	N	
Section 1.5 (Threshold Ratios)	Y	See <i>BIPRU TP 5.25G to BIPRU TP 5.26G</i>
Section 1.6 (Own Funds)	N	
Section 1.7 (Minority Interests)	N	

<i>IPRU(BSOC) rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
Section 1.8 (Deductions)	N	
Section 1.9 (Limits on Tier 2 capital)	N	
Section 1.10 (Solvency Ratio)	Y	<p>(1) Applies on a solo basis except to the extent BIPRU 2.1 (Solo consolidation) applies.</p> <p>(2) Application on a consolidated basis is covered by BIPRU TP 10 (Pre CRD capital requirements applying on a consolidated basis during 2007).</p> <p>(3) Requirement that the solvency ratio should be calculated on a consolidated basis where a <i>building society</i> has <i>subsidiary undertakings</i> does not otherwise apply.</p> <p>(4) See BIPRU TP 5.20G to BIPRU TP 5.24G.</p>
Section 1.11 (Solo consolidation)	N	
Section 1.12 (Mortgage Subsidiaries)	N	
Section 1.13 (Exclusions from consolidation)	N	
Section 1.14 (Mortgage Indemnity Captives)	N	
Section 1.15 (Securitisation)	Y	See BIPRU TP 5.33G to BIPRU TP 5.35G
Section 1.16 (Deductions of holdings)	N	
Section 1.17 (capital cost and pricing)	N	

<i>IPRU(BSOC) rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
Section 1.18 (CAD)	Y	Only applies to the extent that the relevant provisions of <i>IPRU(BANK)</i> apply to a <i>building society</i> under BIPRU TP 3. See <i>BIPRU</i> TP 5.16R to <i>BIPRU</i> TP 5.19G.
Section 1.19 (Credit derivatives)	Y	
Annex 1A (Calculation of Own Funds)	N	
Annex 1B (Risk Asset Weights)	Y	See <i>BIPRU</i> TP 5.32G
Annex 1C (Off Balance Sheet Items)	Y	The treatment of items under section 1C.5 (The treatment of off-balance sheet items using the "mark to market" approach) applies to the types of item listed in section 1C.7 whether they are on or off balance sheet.
Annex 1D (Deductions from own funds)	N	
Annex 1E (Verification of Interim Profits)	N	
Annex 1F (Definition of Relevant Authority)	N	
Annex 1G (Definition of Zones A and B)	Y	
Annex 1H - Society Only Definitions	Y	
Annex 1J - Threshold Appraisal Sheet	Y	
Other chapters

Chapter 3 (Boards and Management)	N		
Chapter 4 (Financial Risk Management)	Annex 4B (Credit derivatives)	Y	The provisions in BIPRU TP 4 (Pre CRD capital requirements applying on a solo basis during 2007: Banks) about Chapter CD of IPRU(BANK) (Credit derivatives) apply.
	The rest of Chapter 4	Y	Subject to the other provisions of this section, applies in the same way as it does for a <i>building society</i> that does not use BIPRU TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007). See BIPRU TP 5.15G .
Chapter 5 (Liquidity (including Annexes 5A to 5C)	Y		Subject to the other provisions of this section, applies in the same way as it does for a <i>building society</i> that does not use BIPRU TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007). See BIPRU TP 5.15G
Chapter 6 (Lending)	N		
Chapter 7 (Large Exposures)	Y		(1) Applies on a solo basis except to the extent BIPRU 2.1 (Solo consolidation) applies. (2) Application on a consolidated basis is covered by BIPRU TP 10 (Pre CRD capital require-

<i>IPRU(BSOC) rule</i>	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
		<p>ments applying on a consolidated basis during 2007).</p> <p>(3) Requirement that large exposures of a <i>building society</i> with <i>subsidiary undertakings</i> should, in general, be monitored on a fully consolidated basis does not otherwise apply.</p> <p>(4) IPRU(BSOC) 7.7 (Systems) applies.</p> <p>(5) See <i>BIPRU TP 5.27R</i> to <i>BIPRU TP 5.30G</i>.</p>
Chapter 8 (Mortgage Indemnity Insurance)	N	
Chapter 9 (Systems)	N	
Chapter 10 (Securitisation)	Y	<p>The provisions in <i>BIPRU TP 4</i> (Pre CRD capital requirements applying on a solo basis during 2007: Banks) about Chapter SE of <i>IPRU(BANK)</i> (Securitisation) apply.</p> <p>See <i>BIPRU TP 5.33G</i> to <i>BIPRU TP 5.35G</i></p>
Chapter 11 (Outsourcing)	N	
5.14	G	<p>Volume 2 of IPRU(BSOC)</p> <p>Volume 2 of <i>IPRU(BSOC)</i> does not apply to a <i>building society</i> that applies <i>BIPRU TP 3.4R</i> (Use of IPRU on a solo basis during 2007). It has been replaced by the Building Societies Regulatory</p>

5.15	G	<p>Guide, which applies to all <i>building societies</i>, not just ones that apply <i>BIPRU TP 3.4R</i>.</p> <p>Chapters 4 and 5 of Volume 1 of IPRU(BSOC)</p>
		<p>(1) Chapters 4 and 5 of Volume 1 of <i>IPRU(BSOC)</i> apply to all <i>building societies</i>, not just ones that apply <i>BIPRU TP 3.4R</i> (Use of IPRU on a solo basis during 2007). The version that applies to a <i>building society</i> that applies <i>BIPRU TP 3.4R</i> is the one in force at the relevant time, not the version in force on 31 December 2006. However there are some exceptions to this, as explained in (2) and (3).</p>
		<p>(2) As <i>BIPRU 2.3</i> (Interest rate risk in the non-trading book) does not apply to a <i>firm</i> applying <i>BIPRU TP 3.4R</i>, references in Chapter 4 to <i>BIPRU 2.3</i> should be disregarded (see in particular paragraphs 4.1.3G, 4.7.1G and 4.7.7G of chapter 4 of Volume 1 of <i>IPRU(BSOC)</i>).</p>
		<p>(3) As shown in the table in <i>BIPRU TP 5.12G</i>, Annex 4B (Credit derivatives) applies to a <i>building society</i> that applies <i>BIPRU TP 3.4R</i>.</p>
		<p>(4) <i>rule X.2.1</i> of Chapter X of Volume 1 of <i>IPRU(BSOC)</i> (Application) applies to all <i>building societies</i>, not just ones that apply <i>BIPRU TP 3.4R</i>. However <i>BIPRU TP 5.1R</i> is the</p>

relevant application *rule* for the purpose of BIPRU TP 5.

The trading book

5.16	R	BIPRU TP 4 (Pre CRD capital requirements applying on a solo basis during 2007: Banks) applies for the purpose of calculating the <i>counterparty credit risk component</i> and the <i>market risk capital requirement</i> .
5.17	G	The reason for BIPRU TP 5.16R is explained in BIPRU TP 5.18G to BIPRU TP 5.19G.
5.18	G	<p>(1) Only exceptionally will a <i>building society</i> have a <i>trading book</i>. If a <i>building society</i> does not have a <i>trading book</i>, the calculations that a <i>building society</i> should carry out under BIPRU TP 3 (Use of IPRU on a solo basis during 2007) and this section are simplified as described in this paragraph.</p> <p>(2) A <i>building society</i> does not have to calculate a <i>counterparty risk capital component</i> (the capital charge for counterparty risk in the <i>trading book</i>) or a <i>concentration risk capital component</i> (the capital charge for exceeding concentration risk limits in the <i>trading book</i>).</p> <p>(3) BIPRU 7 (Market risk) does not apply for the most part. This is because most of it only applies to the <i>trading book</i>.</p> <p>(4) BIPRU 7.5 (Foreign currency PRR) will apply</p>

			if a <i>building society</i> has <i>foreign currency exposure</i> even if the <i>building society</i> does not have a <i>trading book</i> .
		(5)	BIPRU 7.6 (Option PRR) will apply if a <i>building society</i> has <i>foreign currency option positions</i> .
		(6)	BIPRU 7.4 (Commodity PRR) and BIPRU 7.6 (Option PRR) apply to a <i>firm's commodity positions</i> in its <i>non-trading book</i> as well as its <i>trading book</i> . However a <i>building society</i> will not generally have <i>commodity positions</i> .
5.19	G		Paragraph 1.18.1G of Volume 1 of <i>IPRU(BSOC)</i> (CAD) says that a <i>building society</i> on the "Trading" approach to financial risk management (described in chapter 4 of Volume 1 of <i>IPRU(BSOC)</i> (Financial Risk Management)), under which it can trade securities and maintain unhedged foreign exchange positions within defined limits, should calculate the capital requirements for its trading book and foreign exchange positions separately in accordance with <i>IPRU(BANK)</i> . Therefore if a <i>building society</i> does have a <i>trading book</i> and applies <i>BIPRU TP 3.4R</i> (Use of <i>IPRU</i> on a solo basis during 2007):
		(1)	it should calculate its credit risk charge for items in the <i>trading book</i> using <i>IPRU(BANK)</i> as adjusted under <i>BIPRU TP 4</i> (Pre CRD capital requirements applying on a solo basis during 2007: Banks);
		(2)	it should calculate its capital requirements for <i>foreign currency positions</i> under <i>BIPRU 7</i> (Market risk), particular-

			ly BIPRU 7.5 (Foreign currency PRR) as adjusted under BIPRU TP 4;
		(3)	it should calculate its capital requirements for other market risks under BIPRU 7 as adjusted under BIPRU TP 4; and
		(4)	even if a <i>building society</i> does have a <i>trading book</i> it still does not have to calculate a <i>concentration risk capital component</i> as <i>IPRU(BSOC)</i> does not allow a <i>building society</i> to exceed the limits in Chapter 7 of <i>IPRU(BSOC)</i> (Large exposures).
			How to calculate a credit risk capital component under IPRU
5.20	G		<i>A building society</i> should calculate its <i>credit risk capital component</i> (under paragraph 1.10 of Volume 1 of chapter 1 of <i>IPRU(BSOC)</i> (Solvency)) by taking the total of its risk weighted assets and off balance sheet items (using the risk weights in Annex 1B and the credit conversion factors in Annex 1C) and multiplying this by 8%.
5.21	G		<i>BIPRU TP 5.18G</i> to <i>BIPRU TP 5.19G</i> explain why the <i>counterparty risk capital component</i> and the <i>concentration risk capital component</i> (which together with the <i>credit risk capital component</i> make up the <i>credit risk capital requirement</i>) are unlikely to apply to a <i>building society</i> .
5.22	G		<i>BIPRU TP 3.8R</i> (Parts of <i>GENPRU</i> and <i>BIPRU</i> that apply in 2007) says that <i>GENPRU 1.3</i> (Valuation) applies during 2007, so the values of assets and off balance sheet items used in the calculation under <i>BIPRU TP 5.20G</i> should be in accordance with <i>GENPRU 1.3</i> .
5.23	G		In the light of <i>BIPRU TP 5.9G</i> , <i>BIPRU TP 5.20G</i> and <i>BIPRU TP 5.22G</i> , the first two sentences and the fourth sentence of paragraph 1.10 of Volume 1 of <i>IPRU(BSOC)</i> should be disregarded. The

5.24	G	<p>remainder of paragraph 1.10 gives useful detail on the credit risk calculations.</p> <p>The solvency ratio provisions of <i>IPRU(BSOC)</i> are mostly <i>guidance</i> on <i>rules</i> 1.2.1 and 1.2.2 of Chapter 1 of Volume 1 of <i>IPRU(BSOC)</i>. These <i>rules</i> do not apply in 2007. When the solvency ratio provisions of Volume 1 of <i>IPRU(BSOC)</i> are applied under this section they are <i>guidance</i> on the <i>overall financial adequacy rule</i>. In turn the <i>overall financial adequacy rule</i> is the <i>rule</i> on which the calculation of the capital requirements for credit risk under <i>GENPRU</i> and <i>BIPRU</i> is based for a <i>building society</i> under this section.</p>
5.25	G	<p>How to maintain the threshold ratio</p> <p>A <i>building society</i> should maintain the amount of <i>capital resources</i> (calculated under <i>GENPRU</i> 2.2 (Capital resources)) that corresponds to the result of multiplying the total of its risk weighted assets and off balance sheet items (as calculated for the purposes of <i>BIPRU</i> TP 5.20G) by its threshold ratio. Further transitional provisions about the threshold ratio can be found in <i>GENPRU</i> TP 9 (Individual capital guidance for <i>BIPRU</i> firms).</p>
5.26	G	<p>Complying with <i>BIPRU</i> TP 5.25G is treated as satisfying the expectation set out in section 1.5 of chapter 1 of Volume 1 of <i>IPRU(BSOC)</i> (Solvency) that a <i>building society</i> will maintain the threshold ratio. Maintaining the threshold ratio is in turn treated as satisfying the <i>overall Pillar 2 rule</i> so far as that <i>rule</i> requires a <i>firm</i> to maintain adequate capital resources.</p>
5.27	G	<p>Large exposures</p> <p>Chapter 7 of Volume 1 of <i>IPRU(BSOC)</i> (Large exposures) applies in place of <i>BIPRU</i> 10 (Concentration risk).</p>
5.28	G	<p><i>BIPRU</i> 10.5.2 R to <i>BIPRU</i> 10.5.3 R and <i>BIPRU</i> 10.5.5 R (Capital resources for concentration risk) apply for the purpose in <i>BIPRU</i> TP 5.27R. Although the table in <i>BIPRU</i> TP 3.8R (Parts of <i>GENPRU</i> and <i>BIPRU</i> that apply in 2007) says that <i>BIPRU</i> 10.5.14 R (Notification of trading book excesses) also applies, this is irrelevant to a <i>building society</i> as it relates to the regime for excess <i>exposures</i> in the <i>trading book</i>, which does not apply to a <i>building society</i>.</p>

5.29	G	The effect of <i>BIPRU</i> TP 5.28R is that a <i>building society</i> should treat all references to own funds in chapter 7 of Volume 1 of <i>IPRU(BSOC)</i> (Large exposures) as references to <i>capital resources</i> under <i>BIPRU</i> 10.5.2 R to <i>BIPRU</i> 10.5.3 R and <i>BIPRU</i> 10.5.5 R (Capital resources for concentration risk). The last sentence of paragraph 7.3.1 of Volume 1 of <i>IPRU(BSOC)</i> should be disregarded.
5.30	G	Chapter 7 of <i>IPRU(BSOC)</i> is mostly <i>guidance</i> on rules 1.2.1 and 1.2.2 of Chapter 1 of Volume 1 of <i>IPRU(BSOC)</i> . These <i>rules</i> do not apply in 2007. When the large exposures provisions of Volume 1 of <i>IPRU(BSOC)</i> are applied under this section they are <i>guidance</i> on the <i>overall financial adequacy rule</i> .
5.31	G	Operational risk <i>BIPRU</i> TP 3.21R provides that the <i>operational risk capital requirement</i> is reduced where a <i>firm</i> uses <i>BIPRU</i> TP 3.4R (Capital floors for a firm using the IRB or AMA approaches). A <i>building society</i> (unless, exceptionally, it has a <i>trading book</i>) will apply <i>BIPRU</i> 3.4 to all its <i>exposures</i> . So the effect of <i>BIPRU</i> TP 3.21R in those cases will be to reduce the <i>operational risk capital requirement</i> to zero while <i>BIPRU</i> TP 3.4 applies.
5.32	G	Miscellaneous modifications of IPRU(BSOC) When using Annex 1B of Chapter 1 of Volume 1 of <i>IPRU(BSOC)</i> (Risk Asset Weights) for the purposes of <i>BIPRU</i> TP 5.20G, the definition of "relevant authority" will be found in Annex 5A of Chapter 5 of Volume 1 of <i>IPRU(BSOC)</i> (Prudential Liquidity) instead.
5.33	G	<i>BIPRU</i> TP 5.12R says that chapter 10 of Volume 1 of <i>IPRU(BSOC)</i> (Securitisation) applies. Under that chapter a <i>firm</i> should deduct certain credit enhancements from capital. A <i>building society</i> should deduct these credit enhancements at stage M of the calculation in the <i>capital resources table</i> (Deductions from the totals of tier one and two).
5.34	G	Paragraph 6 of section 10.4 of Chapter SE of <i>IPRU(BANK)</i> , which is applied to a <i>building society</i> by chapter 10 of Volume 1 of <i>IPRU(BSOC)</i> (Securitisation), says that if a <i>firm</i> does not meet the policy on liquidity facilities provided by sponsors or repackers it should fully consolidate

			the scheme. This does not apply under this section. Instead a <i>building society</i> should treat the scheme assets as being on its balance sheet.
5.35	G		The definition of investment grade for the purposes of Chapter SE (see in particular sections 3.2.2, 9.3 and 11.1) remains based on Chapter TI of <i>IPRU(BANK)</i> .
			Firms using the IRB approach during 2007: General
5.36	R		<i>BIPRU TP 5.37G</i> to <i>BIPRU TP 5.38R</i> only apply to a <i>firm</i> that is applying the <i>IRB approach</i> under <i>BIPRU TP 3</i> (Pre CRD capital requirements applying on a solo basis during 2007) as well as using <i>IPRU</i> .
5.37	G		The effect of <i>BIPRU TP 3.17G</i> (Pre CRD capital requirements applying on a solo basis during 2007 for <i>firms</i> also using the <i>IRB approach</i>) is that Section 1.10 of Volume 1 of <i>IPRU(BSOC)</i> (Solvency Ratio) does not apply to an <i>exposure</i> to which the <i>firm</i> applies the <i>IRB approach</i> . The <i>IRB approach</i> requirements in <i>BIPRU</i> apply instead. The main requirements are listed in <i>BIPRU TP 3.17G</i> .
5.38	R		A <i>building society</i> that has a <i>trading book</i> must apply the parts of <i>BIPRU TP 4</i> (Pre CRD capital requirements applying on a solo basis during 2007: Banks) that deal with capital charges for items in the <i>trading book</i> for a <i>bank</i> that applies the <i>IRB approach</i> under <i>BIPRU TP 3</i> (Pre CRD capital requirements applying on a solo basis during 2007) as well as using <i>IPRU</i> .

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 6

Pre CRD capital requirements applying on a solo basis during 2007: Investment management firms

6.1	R	<p>Application</p> <p>This section applies to a <i>BIPRU firm</i> that:</p> <ol style="list-style-type: none"> (1) is an <i>investment management firm</i>; and (2) is applying <i>BIPRU TP 3.4R</i> (Use of <i>IPRU</i> on a solo basis during 2007).
6.2	G	<p>Purpose of this section</p> <p><i>BIPRU TP 3</i> (Pre CRD capital requirements applying on a solo basis during 2007) says that during 2007 a <i>firm</i> may apply the credit risk requirements of <i>IPRU</i> instead of the ones in <i>BIPRU</i>. For an <i>investment management firm</i> this involves applying the credit risk requirements in chapter 5 of <i>IPRU(INV)</i>. This section explains how this is done. In particular this section explains:</p> <ol style="list-style-type: none"> (1) which parts of chapter 5 should be treated as credit risk requirements for this purpose; (2) what parts of chapter 5 apply during 2007 and what changes are made to chapter 5 for that purpose; and (3) what changes are made to <i>GENPRU</i> and <i>BIPRU</i> to reflect the fact that chapter 5 applies in place of parts of <i>GENPRU</i> and <i>BIPRU</i>. <p>Duration of transitional</p>

6.3	R	This section applies until 1 January 2008.
		Drafting approach in this section
6.4	G	The purpose of BIPRU TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) is that the basic provisions of <i>BIPRU</i> and <i>GENPRU</i> should be in force from 1 January 2007. However a <i>firm</i> should be able to calculate the capital requirements for credit risk under <i>IPRU</i> and use the large exposures requirements in <i>IPRU</i> . This means that an <i>investment management firm</i> should slot the credit risk requirements of chapter 5 of <i>IPRU(INV)</i> into the general requirements of <i>GENPRU</i> and <i>BIPRU</i> .
6.5	G	The capital calculation for credit risk under <i>BIPRU</i> is made up of three elements, which are set out in <i>GENPRU 2.1.51 R</i> (Calculation of the credit risk capital requirement). These are the <i>credit risk capital component</i> , the <i>counterparty risk capital component</i> and the <i>concentration risk capital component</i> . So the approach in <i>BIPRU TP 6.4G</i> involves finding equivalents for these three elements in chapter 5 where this is possible.
6.6	G	Under <i>GENPRU</i> and <i>BIPRU</i> a <i>firm</i> calculating its capital resources may usually choose between deducting <i>illiquid assets</i> and <i>material holdings</i> . Only if it has a <i>waiver</i> from consolidated supervision need it deduct both. However under chapter 5, both illiquid assets and material holdings in credit and financial institutions are deducted.
6.7	G	The chapter 5 <i>rules</i> can still be made to work if a <i>firm</i> is allowed to choose between deducting <i>illiquid assets</i> and <i>material holdings</i> as any <i>exposure</i> that is not deducted is covered by the chapter 5 other assets requirement.
6.8	G	(1) To make the <i>GENPRU</i> and <i>BIPRU</i> requirements compatible with chapter 5 for the purpose of BIPRU TP 3 (Pre CRD capital requirements applying on a solo basis during 2007), this section takes the approach in this paragraph.

		(2)	The <i>illiquid assets</i> and <i>material holdings</i> provisions of GENPRU 2.2 (Capital resources) apply.
		(3)	The chapter 5 counterparty risk requirement and the other assets requirement are used to calculate the <i>BIPRU</i> credit risk charge for <i>non-trading book</i> items (called the <i>credit risk capital component</i>) and the <i>BIPRU</i> credit risk charge for <i>trading book</i> items (called the <i>counterparty risk capital component</i>).
		(4)	BIPRU 10 (Concentration risk) allows a <i>firm</i> to exceed the large exposure limits in the <i>trading book</i> . A <i>firm</i> that takes up that option is subject to an additional capital requirement, called the <i>concentration risk capital component</i> . Chapter 5 does not give a <i>firm</i> that option. Therefore the <i>concentration risk capital component</i> does not apply to a <i>firm</i> under this section.
		Parts of chapter 5 of IPRU(INV) that apply in 2007	
6.9	R		The parts of chapter 5 of <i>IPRU(INV)</i> that do and do not apply during the period that <i>BIPRU</i> TP 3.4R applies are set out in <i>BIPRU</i> TP 6.11R.
6.10	G		The table in <i>BIPRU</i> TP 6.11R assumes that the <i>firm</i> is not applying the <i>IRB approach</i> . <i>BIPRU</i> TP 6.31R to <i>BIPRU</i> TP 6.34R deal with a <i>firm</i> that does apply the <i>IRB approach</i> .

Categorisation		
6.12	R	Each <i>firm</i> is an <i>ISD</i> firm for the purposes of chapter 5 of <i>IPRU(INV)</i> as applied by BIPRU TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) and this section.
How to use the chapter 5 Counterparty Risk Requirement and the Other Assets Requirement		
6.13	R	A <i>firm</i> must calculate the sum of the <i>credit risk capital component</i> and the <i>counterparty risk capital component</i> as being equal to the sum of the counterparty risk requirement under chapter 5 of <i>IPRU(INV)</i> and of the other assets requirement under chapter 5 of <i>IPRU(INV)</i> .
6.14	R	If it is necessary to distinguish between the <i>credit risk capital component</i> and the <i>counterparty risk capital component</i> a <i>firm</i> must allocate: <ul style="list-style-type: none"> (1) any amount calculated for an <i>exposure</i> in the <i>non-trading book</i> to the <i>credit risk capital component</i>; and (2) any amount calculated for an <i>exposure</i> in the <i>trading book</i> to the <i>counterparty risk capital component</i>;
6.15	G	A <i>firm</i> may still apply the netting provisions for OTC derivatives in chapter 5 even though the OTC derivative calculation is split between the <i>credit risk capital component</i> and the <i>counterparty risk capital component</i> under BIPRU TP 6.14R. The net amount should be allocated to the <i>credit</i>

6.16	G	<p><i>risk capital component</i> if the gross value of the <i>non-trading book</i> derivatives is bigger and to the <i>counterparty risk capital component</i> if the gross value of the <i>trading book</i> derivatives is bigger.</p> <p>Adjustments to the Counterparty Risk Requirement calculations: General</p> <p>Broadly speaking the Directive transitional provisions that allow pre-2007 credit risk rules to be used in 2007 cover all credit risk rules. However the transitional provisions for <i>trading book</i> credit risk (Annex II of the <i>Capital Adequacy Directive</i>, which is implemented in BIPRU 14 (Capital requirements for settlement and counterparty risk)) is not quite as straightforward as that. In some cases pre-2007 requirements can be used. In others they cannot. The purpose of BIPRU TP 6.17R to BIPRU TP 6.19G is to reflect those cases in which the Directive requires the new requirements to apply from 1 January 2007.</p>
6.17	R	<p>Adjustments to the Counterparty Risk Requirement calculations: Free deliveries</p> <p>(1) The calculation of the part of the counterparty risk requirement set out in section 3 of Table 5.2.3(5)(c) of chapter 5 of <i>IPRU(INV)</i> (Free deliveries) is amended in accordance with this <i>rule</i> for the purposes of <i>trading book</i> calculations.</p> <p>(2) A <i>firm</i> must include <i>foreign currency</i> and <i>commodity</i> transactions.</p> <p>(3) The capital treatment in the table in BIPRU 14.4.3 R (Capital treatment for free deliveries) applies. But when the capital treatment in that table is that the <i>firm</i> must treat the transaction as an <i>exposure</i>, the <i>firm</i> must apply the treatment in chapter 5 of <i>IPRU(INV)</i></p>

rather than BIPRU 14 (Capital requirements for settlement and counterparty risk).

Adjustments to the Counterparty Risk Adjustments calculations: Credit derivative transactions

6.18 R *A firm* must treat a credit derivative in the *trading book* as a derivative to which section 6 of Table 5.2.3(5)(c) of chapter 5 of *IPRU(INV)* (OTC derivatives) and table 5.2.3(5)(c)(iii) (OTC derivatives calculation of credit equivalent amount) apply.

6.19 G The capital treatment for credit derivatives set out in BIPRU 14.2.5 R - BIPRU 14.2.8 R (Capital treatment for credit derivatives) does not apply.

Adjustments to the Other Assets Requirement calculations

6.20 R *A firm* must include the items listed in section 4 of Chapter BC of *IPRU(BANK)* that are in the *firm's non-trading book* as off-balance sheet items in table 5.2.3(5)(e) (Other assets requirement) whether they are on or off balance sheet. *A firm* must include a credit derivative as a full risk item.

How to use the chapter 5 large exposure rules

6.21 R Section 5.2.7 of chapter 5 of *IPRU(INV)* (Large exposures) applies in place of BIPRU 10 (Concentration risk).

6.22 R BIPRU 10.5.2 R to BIPRU 10.5.5 R (Capital resources for concentration risk purposes) apply in place of the definition of own funds that applies under section 5.2.7 of chapter 5 of *IPRU(INV)*.

Specific risk calculations

6.23 R *A firm* must calculate the *specific risk* portion of the *interest rate PRR* in accordance with BIPRU TP 8.28R (Pre CRD interest rate *PRR* for *securities and futures firms*).

6.24 R Any reference to a *qualifying debt security* in a part of BIPRU that applies during 2007 must be interpreted in accordance with the meaning it has when used in section A of Table 5.2.3(5)(b) of chapter 5 of *IPRU(INV)* (Position risk requirement for qualifying debt securities). However

6.25	G	<p>BIPRU 7.2.50 R (Must not apply <i>qualifying debt security</i> treatment to risky assets) also applies.</p> <p>The reason for <i>BIPRU</i> TP 6.23R and <i>BIPRU</i> TP 6.24R is that the calculation of the <i>specific risk</i> portion of the <i>interest rate PRR</i> under <i>BIPRU</i> 7 (Market risk) involves the use of the <i>standardised approach</i> to credit risk. The <i>specific risk rules</i> therefore need to be adjusted for a <i>firm</i> that is not using the <i>standardised approach</i> to credit risk in 2007 so as to apply the pre-2007 method of calculating <i>specific risk</i>. However chapter 5 does not use the concept of <i>specific risk</i>. The nearest equivalent is in chapter 10 of <i>IPRU(INV)</i> (<i>Securities and futures firms</i>).</p>
6.26	R	<p>Definitions</p> <p>The definition of trading book is replaced with the definition in the <i>Glossary</i>.</p>
6.27	R	<p>A <i>firm</i> may treat a reference in the <i>Glossary</i> to Chapter 5 of <i>IPRU(INV)</i> to a financial supervision regime at least equivalent to the Second Consolidated Supervision Directive and the Capital Adequacy Directive (No. 93/6/EEC) as including one to a regime equivalent to the <i>Banking Consolidation Directive</i> and Directive 2006/49 (the new version of the Capital Adequacy Directive).</p>
6.28	G	<p><i>GENPRU</i> 1.3 (Valuation) applies. The definition of exposure in the <i>Glossary</i> to chapter 5 should be read accordingly.</p>
6.29	G	<p>Mapping GENPRU and BIPRU concepts onto IPRU</p> <p>Some of the parts of chapter 5 of <i>IPRU(INV)</i> that apply in 2007 refer to parts of chapter 5 that do not apply. <i>BIPRU</i> TP 3.10R explains that where this happens a <i>firm</i> should interpret that cross-reference in accordance with the provision in <i>BIPRU</i> or <i>GENPRU</i> that corresponds to the chapter 5 provision that does not apply in 2007. A <i>firm</i> should refer to <i>IPRU</i> in the case of cross-references in <i>GENPRU</i> and <i>BIPRU</i> to provisions in <i>GENPRU</i> and <i>BIPRU</i> that do not apply in 2007. <i>BIPRU</i> TP 6.30G sets out how certain concepts in chapter 5 of <i>IPRU(INV)</i> correspond to ones in <i>GENPRU</i> and <i>BIPRU</i>. The purpose of the table is to help <i>firms</i> to interpret such cross-references.</p>

6.30	G	Table: Mapping GENPRU and BIPRU concepts onto ones in chapter 5 of IPRU(INV)
		This table belongs to <i>BIPRU</i> TP 6.29G

<i>GENPRU</i> and <i>BIPRU</i>	Chapter 5 of <i>IPRU(INV)</i>
<i>Illiquid asset</i>	Illiquid asset
<i>Material holding</i>	Material holdings in credit and financial institutions (item 8 in Table 5.2.2(1) (Calculation of own funds and liquid capital))
Unsettled transaction under <i>BIPRU</i> 14.3	Delivery of cash against documents and settlements outstanding for 30 days or more (part of counterparty risk requirement)
<i>Free deliveries</i> under <i>BIPRU</i> 14.4	Free deliveries (part of counterparty risk requirement)
See <i>BIPRU</i> TP 6.8G	Counterparty risk requirement
See <i>BIPRU</i> TP 6.8G	Other assets requirement
<i>Market risk capital requirement</i>	The position risk requirement and the foreign exchange requirement
<i>Trading book concentration risk excess</i>	This concept does not apply in Chapter 5
<i>Risk weight</i>	Risk weights in Table 5.2.3(5)(c)(ii) (Counterparty risk requirement). In general where Table 5.2.3(5)(e) (Other assets requirement) applies a risk factor of 8% that is equivalent to applying a <i>risk weight</i> of 100%. Applying the 1.6% adjustment under that table is equivalent to applying a 20% <i>risk weight</i> under <i>BIPRU</i> together with the standard 8% <i>BIPRU</i> credit risk charge. The "NIL" adjustment under that table is equivalent to applying a 0% <i>risk weight</i> .

6.31	R	<p>Firms using the IRB approach during 2007: General</p> <p><i>BIPRU</i> TP 6.31R to <i>BIPRU</i> TP 6.34R only apply to a <i>firm</i> that is applying the <i>IRB approach</i> under <i>BIPRU</i> TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) as well as using <i>IPRU</i>.</p>
------	---	--

6.32	G	<p>The effect of <i>BIPRU</i> TP 3.17G (Pre CRD capital requirements applying on a solo basis during 2007 for <i>firms</i> also using the <i>IRB approach</i>) is that the counterparty risk requirement and the other assets requirement do not apply to an <i>exposure</i> to which the <i>firm</i> applies the <i>IRB approach</i>. The <i>IRB approach</i> requirements in <i>BIPRU</i> apply instead. The main requirements are listed in <i>BIPRU</i> TP 3.17G.</p>
6.33	R	<p>A <i>firm</i> must apply <i>BIPRU</i> 7.2.45R - <i>BIPRU</i> 7.2.47R (Using internal ratings to calculate <i>specific risk</i> and treatment of <i>securitisations</i>) to calculate the <i>specific risk</i> portion of the <i>interest rate PRR</i> to the extent that the obligor or <i>exposure</i> in question comes within the scope of its <i>IRB permission</i>.</p>
6.34	R	<p>The definition of <i>qualifying debt security</i> in the <i>Glossary</i> applies if the security or obligor in question comes within the scope of a <i>firm's IRB permission</i>.</p>

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 7 Pre CRD capital requirements applying on a solo basis during 2007: UCITS investment firms

7.1	R	<p>Application</p>
		<p>This section applies to a <i>BIPRU firm</i> that:</p> <ol style="list-style-type: none"> (1) is a <i>UCITS investment firm</i>; and (2) is applying BIPRU TP 3 (Use of IPRU on a solo basis during 2007).
7.2	G	<p>Purpose of this section</p> <p>BIPRU TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) says that during 2007 a <i>firm</i> may apply the credit risk requirements of <i>IPRU</i> instead of the ones in <i>BIPRU</i>. For a <i>UCITS investment firm</i> this involves applying the credit risk requirements in chapter 7 of <i>IPRU(INV)</i>. This section explains how this is done.</p>
7.3	R	<p>Duration of transitional</p> <p>This section applies until 1 January 2008.</p>
7.4	G	<p>Drafting approach</p> <p>Chapter 7 of <i>IPRU(INV)</i> does not contain any credit risk <i>rules</i>. Instead it cross refers to the ones in chapter 5 (Interim prudential requirements for former IMRO firms). Therefore this section applies BIPRU TP 6 (Pre CRD capital requirements applying on a solo basis during 2007: Investment management firms).</p>
7.5	R	<p>Parts of chapter 7 of IPRU(INV) that apply in 2007</p> <p>The parts of chapter 7 of <i>IPRU(INV)</i> that do and do not apply during the period that <i>BIPRU TP 3.4R</i> applies are set out in <i>BIPRU TP 7.7R</i>.</p>

7.6	G	The table in <i>BIPRU</i> TP 7.7R assumes that the <i>firm</i> is not applying the <i>IRB approach</i> . <i>BIPRU</i> TP 6.31R to <i>BIPRU</i> TP 6.34R (which are applied to a <i>UCITS investment firm</i> by <i>BIPRU</i> TP 7.8R) deal with a <i>firm</i> that does apply the <i>IRB approach</i> .
-----	---	---

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 8

Pre CRD capital requirements applying on a solo basis during 2007: Securities and futures firms

		Application
8.1	R	<p>This section applies to a <i>BIPRU firm</i> that is:</p> <ol style="list-style-type: none"> (1) <i>a securities and futures firm; and</i> (2) <i>is applying BIPRU TP 3.4R (Pre CRD capital requirements applying on a solo basis during 2007).</i>
		<p>Purpose of this section</p>
8.2	G	<p><i>BIPRU TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) says that during 2007 a firm may apply the credit risk requirements of IPRU instead of the ones in BIPRU. For a securities and futures firm this involves applying the credit risk requirements in chapter 10 of IPRU(INV). BIPRU TP 8 explains how this is done. In particular this section explains:</i></p> <ol style="list-style-type: none"> (1) <i>which parts of chapter 10 should be treated as credit risk requirements for this purpose;</i> (2) <i>what parts of chapter 10 apply during 2007 and what changes are made to chapter 10 for that purpose; and</i> (3) <i>what changes are made to GENPRU and BIPRU to reflect the fact that chapter 10 applies in</i>

place of parts of *GENPRU* and *BIPRU*.

Duration of transitional

8.3 R BIPRU TP 8 applies until 1 January 2008.

Drafting approach in this section

8.4 G The purpose of BIPRU TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) is that the basic provisions of *BIPRU* and *GENPRU* should be in force from 1 January 2007. However a *firm* should be able to calculate the capital requirements for credit risk under *IPRU* and use the large exposures requirements in *IPRU*. This means that a *securities and futures firm* should slot the credit risk requirements of chapter 10 of *IPRU(INV)* into the general requirements of *GENPRU* and *BIPRU*. A *firm* that applies BIPRU TP 3.4R should not use chapter 3 as the source of its pre-2007 credit risk requirements even if it was subject to chapter 3 before becoming a *BIPRU investment firm*.

8.5 G The capital calculation for credit risk under *BIPRU* is made up of three elements, which are set out in GENPRU 2.1.51 R (Calculation of the credit risk capital requirement). These are the *credit risk capital component*, the *counterparty risk capital component* and the *concentration risk capital component*. So the approach in BIPRU TP 8.4G involves finding equivalents for these three elements in chapter 10 where possible.

8.6 G Under *GENPRU* and *BIPRU* a *firm* calculating its capital resources may usually choose between deducting *illiquid assets* and *material holdings*. Only if it has a *waiver* from consolidated supervision need it deduct both. This broadly corresponds to the approach in calculating financial resources under Tables 10-62(2)A to 10-62(2)C.

8.7 G The financial resources requirements calculations under chapter 10 depend in part on which of the financial resources calculations in Tables 10-62(2)A to 10-62(2)C a *firm* uses. Where this is the case the *firm* should use the requirements calculation associated with the version of the tables in 10-62(2) that corresponds to the *capital resources* calculation the *firm* uses under GENPRU 2.2 (Capital resources). BIPRU TP 8.33G

8.8	G	explains how the <i>capital resources</i> calculations in GENPRU 2.2 map onto Tables 10-62(2)A to 10-62(2)C.
		(1) To make the <i>GENPRU</i> and <i>BIPRU</i> requirements compatible with chapter 10 for the purpose of <i>BIPRU TP 3</i> (Pre CRD capital requirements applying on a solo basis during 2007), this section takes the approach in this paragraph.
		(2) The <i>illiquid assets</i> and <i>material holdings</i> provisions of <i>GENPRU 2.2</i> (Capital resources) apply.
		(3) The 8% illiquid asset adjustment under <i>IPRU(INV)</i> 10-65 applies to a <i>firm</i> calculating its financial resources under Table 10-62(2)A. It is equivalent to a capital charge for credit risk under <i>BIPRU</i> . Therefore a <i>firm</i> using the <i>capital resources</i> calculation in <i>GENPRU</i> that corresponds to Table 10-62(2)A (<i>GENPRU 2 Annex 4 R</i> (Capital resources table for a <i>BIPRU investment firm</i> deducting <i>material holdings</i>)) should continue to apply that adjustment. It should be included as part of the <i>non-trading book</i> credit risk charge in <i>BIPRU</i> , which is called the <i>credit risk capital component</i> .
		(4) A 100% illiquid asset adjustment under

IPRU(INV) 10-65 is equivalent to a deduction of *illiquid assets* under *GENPRU 2.2* (Capital resources). Therefore a *firm* should not use this adjustment. This is because, as explained in (2), the *illiquid assets* provisions in *GENPRU 2.2* apply. Any item that would have been caught by *IPRU(INV)* 10-65 but is not caught by the *illiquid assets* deduction under *GENPRU 2.2* should be dealt with under *IPRU(INV)* 10-66.

(5)

The *IPRU(INV)* 10-66 liquidity adjustment covers any asset that has not been subject to a liquidity adjustment for illiquid assets under *IPRU(INV)* 10-65. Therefore (subject to (3)) a *firm* should calculate the *credit risk capital component* (the *non-trading book* credit charge in *BIPRU*) by applying *IPRU(INV)* 10-66 to any asset not deducted as an *illiquid assets* under *GENPRU 2.2* (Capital resources).

(6)

The chapter 10 counterparty risk requirement is used to calculate the *BIPRU* credit risk charge for *trading book* items, called the *counterparty risk capital component*.

(7)

The chapter 10 LER calculation is used to

			calculate the <i>concentration risk capital component</i> .
			Parts of chapter 10 of IPRU(INV) that apply in 2007
8.9	R		The parts of chapter 10 of <i>IPRU(INV)</i> that do and do not apply during the period that <i>BIPRU</i> TP 3.4R applies are as set out in <i>BIPRU</i> TP 8.11R.
8.10	G		The table in <i>BIPRU</i> TP 8.11R assumes that the <i>firm</i> is not applying the <i>IRB approach</i> . <i>BIPRU</i> TP 8.35R to <i>BIPRU</i> TP 8.38R deal with a <i>firm</i> that does apply the <i>IRB approach</i> .
8.11	R		Table: Parts of chapter 10 of IPRU(INV) that apply in 2007 This table belongs to <i>BIPRU</i> TP 8.9R

Chapter 10 rule	A Y denotes that the provision does apply An N denotes that it does not apply	Remarks
10-A (Application of Chapter 10 Glossary)	Y	See <i>BIPRU</i> TP 8.32R
10-B (Application)	N	<i>BIPRU</i> TP 8.1R applies instead
10.10 to 10.12 (Record keeping and Reconciliations)	N	Applied in part under <i>BIPRU</i> TP 23 (Record keeping transitionals)
10-32 (Defaulting repo counterparty and LE Notification Requirements)	N	
10-41 (Repo and Valuation)	N	
10-60 to 10-63 (Initial Capital and Financial Resources)	N	
10-64 to 10-68 (Liquidity Adjustments, Charged Assets and Contingent Liabilities)	10-64(2) (Intangible assets) N	GENPRU 2.2 (Capital resources) applies instead
	10-65(12) (Material holdings) N	GENPRU 2.2 applies instead

Chapter 10 rule	A Y denotes that the provision does apply An N denotes that it does not apply		Remarks
	The rest	Y	See <i>BIPRU</i> TP 8.13R to <i>BIPRU</i> TP 8.19G. The requirement in 10-64(1)(c) for an illiquid asset adjustment for commodities to be calculated under appendix 6 (the <i>PRR</i> charge for <i>commodities</i>) does not apply

		to a credit derivative in the <i>non-trading book</i> it must apply the treatment in <i>IPRU(BANK)</i> .
		Categorisation
8.12	R	Each <i>firm</i> is a Category A firm for the purposes of chapter 10 of <i>IPRU(INV)</i> as applied by BIPRU TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) and this section.
		How to use the chapter 10 liquidity adjustment rules
8.13	R	A <i>firm</i> must calculate the <i>credit risk capital component</i> by adding together the deductions under the liquidity adjustment <i>rules</i> that apply under <i>BIPRU TP 8.11R</i> .
8.14	R	The 100% liquidity adjustment in <i>IPRU(INV)</i> 10-65 (Liquidity adjustment on illiquid assets) does not apply.
8.15	G	The reason for <i>BIPRU TP 8.14R</i> is explained in <i>BIPRU TP 8.8G</i> .
8.16	R	<i>IPRU(INV)</i> 10-65 (Illiquid assets) only applies to a <i>firm</i> calculating <i>capital resources</i> under GENPRU 2 Annex 4 R (Capital resources table for a BIPRU investment firm deducting material holdings).
8.17	G	The reason for <i>BIPRU TP 8.16R</i> is explained in <i>BIPRU TP 8.8G</i> .
8.18	R	A <i>firm</i> must calculate the credit risk charge for <i>commodities</i> in the <i>non-trading book</i> as a liquidity adjustment under <i>IPRU(INV)</i> 10-64(1)(c) in accordance with the <i>CRR rules</i> in Chapter 10. A <i>firm</i> must include that amount in the calculation of the <i>credit risk capital component</i> .
8.19	G	A <i>firm</i> may still apply the <i>CRR netting provisions</i> for <i>commodities</i> in chapter 10 even though the calculation is split between the <i>credit risk capital component</i> and the <i>counterparty risk capital component</i> under <i>BIPRU TP 8.18R</i> and <i>BIPRU TP 8.20R</i> . The net amount should be allocated to the

			<p><i>credit risk capital component</i> if the gross value of the <i>non-trading book commodities</i> is bigger and to the <i>counterparty risk capital component</i> if the gross value of the <i>trading book commodities</i> is bigger.</p>
8.20	R		<p>Subject to <i>BIPRU</i> TP 8.18R, a <i>firm</i> must calculate the <i>counterparty risk capital component</i> as being equal to the capital charge under the <i>CRR rules</i> that apply under <i>BIPRU</i> TP 8.11R.</p> <p>Adjustments to the CRR calculations: General</p>
8.21	G		<p>Broadly speaking the Directive transitional provisions that allow pre-2007 credit risk rules to be used in 2007 cover all credit risk rules. However the transitional provisions for <i>trading book</i> credit risk (Annex II of the <i>Capital Adequacy Directive</i>, which is implemented in <i>BIPRU</i> 14 (Capital requirements for settlement and counterparty risk)) is not quite as straightforward as that. In some cases pre-2007 requirements can be used. In others they cannot. The purpose of <i>BIPRU</i> TP 8.22R to <i>BIPRU</i> TP 8.25R is to reflect those cases in which the Directive requires the new requirements to apply from 1 January 2007.</p> <p>Adjustments to the CRR calculations: Free deliveries</p>
8.22	R	(1)	<p>The calculations under <i>rule</i> 10-172 of <i>IPRU(INV)</i> (Free deliveries) are amended in accordance with this <i>rule</i>.</p>
		(2)	<p>A <i>firm</i> must include <i>foreign currency</i> transactions.</p>
		(3)	<p>The capital treatment in the table in <i>BIPRU</i> 14.4.3 R (Capital treatment for free deliveries) applies. But when the capital treatment in that table is that the <i>firm</i> must treat the transaction as an <i>exposure</i>, the <i>firm</i> must apply the</p>

treatment in *rule* 10-172 rather than BIPRU 14 (Capital requirements for settlement and counterparty risk).

Adjustments to the CRR calculations: Derivative transactions

8.23 R A *firm* must treat a credit derivative in the *trading book* as a derivative to which *rule* 10-174 of *IPRU(INV)* (Derivative transactions) applies.

8.24 G The capital treatment for credit derivatives set out in BIPRU 14.2.5 R - BIPRU 14.2.8 R (Capital treatment for credit derivatives) does not apply.

Adjustments to the CRR calculations: Cash against documents

8.25 R A *firm* must include *foreign currency* transactions in the calculations under 10-171 of chapter 10 of *IPRU(INV)* (Cash against documents transactions).

How to use the chapter 10 large exposure rules

8.26 R 10-190 to 10-196 of chapter 10 of *IPRU(INV)* (Large exposures requirement) apply in place of BIPRU 10 (Concentration risk).

8.27 R A *firm* must calculate the *concentration risk capital component* as being equal to the capital charge under the *LER rules* that apply under BIPRU TP 8.11R.

8.28 R BIPRU 10.5.2 R to BIPRU 10.5.5 R (Capital resources for concentration risk purposes) apply in place of the corresponding provisions of chapter 10.

Specific risk calculations

8.29 R A *firm* must use chapter 10 of *IPRU(INV)* as it applies under BIPRU TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) and this section to calculate the *specific risk* portion of the *interest rate PRR* under BIPRU 7.2 (Interest rate PRR) to the extent that the relevant *rules* in BIPRU 7.2 require the use of the *standardised approach* to credit risk.

8.30 R Any reference to a *qualifying debt security* in a part of BIPRU that applies during 2007 must be interpreted in accordance with the definition in the Glossary to chapter 10 of *IPRU(INV)*. However

8.31	G	<p>BIPRU 7.2.50 R (Must not apply <i>qualifying debt security</i> treatment to risky assets) also applies.</p> <p>The effect of BIPRU TP 8.29R and BIPRU TP 8.30R is that a <i>firm</i> should apply rules 43R to 47R of Appendix 4 of Chapter 10 of IPRU(INV) (Specific risk portion of interest rate PRR) instead of BIPRU 7.2.43 R to BIPRU 7.2.49 R (Specific risk portion of <i>interest rate PRR</i>). The reason for this is that the calculation of the <i>specific risk</i> portion of the <i>interest rate PRR</i> under BIPRU 7 (Market risk) involves the use of the <i>standardised approach</i> to credit risk. The <i>specific risk rules</i> therefore need to be adjusted for a <i>firm</i> that is not using the <i>standardised approach</i> to credit risk in 2007 so as to apply the pre-2007 method of calculating <i>specific risk</i>.</p>
8.32	R	<p>Definitions</p> <p>The definitions of trading book, non-trading book, commodity, financial institution, illiquid asset and material holding in the Glossary to chapter 10 of IPRU(INV) are replaced by the corresponding definitions in the <i>Glossary</i>.</p>
8.33	G	<p>Mapping GENPRU and BIPRU concepts onto IPRU</p> <p>Some of the parts of chapter 10 of IPRU(INV) that apply in 2007 refer to parts of IPRU that do not apply. BIPRU TP 3.10R explains that where this happens a <i>firm</i> should interpret that cross-reference in accordance with the provision in BIPRU or GENPRU that corresponds to the IPRU provision that does not apply in 2007. A <i>firm</i> should refer to IPRU in the case of cross-references in GENPRU and BIPRU to provisions in GENPRU and BIPRU that do not apply in 2007. BIPRU TP 8.34G sets out how certain concepts in chapter 10 of IPRU(INV) correspond to ones in GENPRU and BIPRU. The purpose of the table is to help <i>firms</i> to interpret such cross-references.</p>
8.34	G	<p>Table: Mapping GENPRU and BIPRU concepts onto ones in chapter 10 of IPRU(INV)</p> <p>This table belongs to BIPRU TP 8.33G</p>

<i>GENPRU</i> and <i>BIPRU</i>	Chapter 10 of <i>IPRU(INV)</i>
Calculations of <i>counterparty risk capital component</i> and calculations under <i>BIPRU 14</i> (Capital requirements for settlement and counterparty risk)	Calculation of CRR
<i>Illiquid asset</i>	Illiquid asset
Deduction from <i>capital resources</i> as an <i>illiquid assets</i>	100% liquidity adjustment
Calculation of the <i>credit risk capital component</i>	8% liquidity adjustment
<i>Concentration risk capital component</i>	LER
Unsettled transaction under <i>BIPRU 14.3</i>	Cash against documents (<i>IPRU(INV)</i> 10-171)
<i>Free deliveries</i> under <i>BIPRU 14.4</i>	Free deliveries (<i>IPRU(INV)</i> 10-172)
Calculation of <i>PRR</i> or of the <i>market risk capital requirement</i>	Calculation of <i>PRR</i> and the foreign exchange requirement
<i>Capital resources</i> calculations under <i>GENPRU 2 Annex 4 R</i>	Financial resources calculation under table 10-62(2)A
<i>Capital resources</i> calculations under <i>GENPRU 2 Annex 6 R</i>	Financial resources calculation under table 10-62(2)B
<i>Capital resources</i> calculations under <i>GENPRU 2 Annex 5 R</i> respectively	Financial resources calculation under table 10-62(2)C
<i>Investment firm consolidation waiver</i>	Exemption from consolidated supervision
<i>Commodity extended maturity ladder approach</i>	Modified maturity ladder approach (relevant to the CRR calculation - see 10-174)
The table in <i>BIPRU 7.8.28 R</i> (Net underwriting position reduction factors)	Table 27R of Appendix 7 (Net underwriting position reduction factors)
Consolidated supervision in accordance with <i>rules 10-200 to 10-203</i> (see for example the reference in <i>rule 10-192(1)(g)</i>)	Consolidated supervision under <i>BIPRU 8</i> (Group risk - consolidation)
<i>Initial capital</i>	Initial capital
<i>Tier one capital resources plus tier two capital resources</i> after deductions (stage N of the <i>capital resources table</i>)	Own funds
<i>Capital resources</i>	Financial resources (as referred to for example in <i>rule 10-74</i>)
Externally verified interim net profits and losses and partners' capital as referred to in <i>GENPRU 2.2.102 R</i>	Interim profit and loss account (as referred to in <i>rule 10-74</i>)
<i>Trading book concentration risk excess</i>	Excess D under <i>rule 10-194(3)</i>
<i>Risk weight</i>	Counterparty weight.

		Firms using the IRB approach during 2007: General
8.35	R	<i>BIPRU</i> TP 8.36G to <i>BIPRU</i> TP 8.38R only apply to a <i>firm</i> that is applying the <i>IRB approach</i> under <i>BIPRU</i> TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) as well as using <i>IPRU</i> .
8.36	G	The effect of <i>BIPRU</i> TP 3.17G (Pre CRD capital requirements applying on a solo basis during 2007 for <i>firms</i> also using the <i>IRB approach</i>) is that neither the illiquid asset adjustment nor the CRR requirements of chapter 10 apply to an <i>exposure</i> to which the <i>firm</i> applies the <i>IRB approach</i> . The <i>IRB approach</i> requirements in <i>BIPRU</i> apply instead. The main requirements are listed in <i>BIPRU</i> TP 3.17G.
8.37	R	A <i>firm</i> must apply <i>BIPRU</i> 7.2.45 R - 7.2.47R (Using internal ratings to calculate <i>specific risk</i> and treatment of <i>securitisations</i>) to calculate the <i>specific risk</i> portion of the <i>interest rate PRR</i> to the extent that the obligor or <i>exposure</i> in question comes within the scope of its <i>IRB permission</i> .
8.38	R	The definition of <i>qualifying debt security</i> in the <i>Glossary</i> applies if the security or obligor in question comes within the scope of a <i>firm's IRB permission</i> .

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 9 Pre CRD capital requirements applying on a solo basis during 2007 and capital floors: Personal investment firms

		Application
9.1	R	<p>This section (except <i>BIPRU</i> TP 9.45R) applies to a <i>BIPRU</i> firm that:</p> <ol style="list-style-type: none"> (1) is a <i>personal investment firm</i>; and (2) is applying <i>BIPRU</i> TP 3.4R (Use of IPRU on a solo basis during 2007).
9.2	G	<p><i>BIPRU</i> TP 9.45R applies to a <i>BIPRU</i> firm that:</p> <ol style="list-style-type: none"> (1) is a <i>personal investment firm</i>; and (2) applies <i>BIPRU</i> TP 2 (Capital floors for a firm using the IRB or AMA approaches).
9.3	G	<p>Purpose of this section</p> <p><i>BIPRU</i> TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) says that during 2007 a <i>firm</i> may apply the credit risk requirements of <i>IPRU</i> instead of the ones in <i>BIPRU</i>. For a <i>personal investment firm</i> this involves applying the credit risk requirements in chapter 13 of <i>IPRU(INV)</i>. This section explains how this is done. In particular this section explains:</p> <ol style="list-style-type: none"> (1) which parts of chapter 13 should be treated as credit risk requirements for this purpose; (2) what parts of chapter 13 apply during 2007 and what changes are made

			to chapter 13 for that purpose; and
		(3)	what changes are made to <i>GENPRU</i> and <i>BIPRU</i> to reflect the fact that chapter 13 applies in place of parts of <i>GENPRU</i> and <i>BIPRU</i> .
9.4	G		This section also explains how the obligation in <i>BIPRU TP 2</i> (Capital floors for a firm using the IRB or AMA approaches) is applied to a <i>personal investment firm</i> .
			Duration of transitional
9.5	R		This section applies until 1 January 2008.
			Drafting approach in this section
9.6	G		The purpose of <i>BIPRU TP 3</i> (Pre CRD capital requirements applying on a solo basis during 2007) is that the basic provisions of <i>BIPRU</i> and <i>GENPRU</i> should be in force from 1 January 2007. However a <i>firm</i> should be able to calculate the capital requirements for credit risk under <i>IPRU</i> and use the large exposures requirements in <i>IPRU</i> . This means that a <i>firm</i> should slot the credit risk requirements of chapter 13 of <i>IPRU(INV)</i> into the general requirements of <i>GENPRU</i> and <i>BIPRU</i> .
9.7	G		The capital calculation for credit risk under <i>BIPRU</i> is made up of three elements, which are set out in <i>GENPRU 2.1.51 R</i> (Calculation of the credit risk capital requirement). These are the <i>credit risk capital component</i> , the <i>counterparty risk capital component</i> and the <i>concentration risk capital component</i> . So the approach in <i>BIPRU TP 9.6G</i> involves finding equivalents for these three elements in chapter 13 where possible.
9.8	G		The general approach to calculating the capital requirements for credit risk in <i>GENPRU</i> and <i>BIPRU</i> is to calculate the overall <i>credit risk capital requirement</i> (which is the sum of the three components listed in <i>BIPRU TP 9.7G</i>) - a monetary amount - and to compare it with <i>capital resources</i> , also a monetary amount. A <i>firm</i> calculating its <i>capital resources</i> may usually choose between deducting <i>illiquid assets</i> and <i>material holdings</i> . Only if it has a <i>waiver</i> from consolidated supervision need it deduct both.

9.9	G	The drafting approach of chapter 13 to calculating the capital requirement for credit risk is different from the one in <i>GENPRU</i> and <i>BIPRU</i> . A <i>firm</i> calculates financial resources by adjusting the assets in the balance sheet, taking into account liabilities. Financial resources are then used to test compliance with an own funds test, an expenditure based requirement test and a net asset test. The equivalent of a credit risk charge in Chapter 13 is the deduction of an asset as an Illiquid Adjustment or the deduction of a portion of an asset calculated using the Counterparty Risk Adjustment. Both illiquid assets and material holdings in <i>credit institutions</i> , <i>investment firms</i> and <i>insurers</i> are deducted under Chapter 13.
9.10	G	To make the <i>GENPRU</i> and <i>BIPRU</i> requirements compatible with chapter 13 for the purpose of BIPRU TP 3 (Pre CRD capital requirements applying on a solo basis during 2007), this section takes the approach in <i>BIPRU TP 9.11G</i> to <i>BIPRU TP 9.18G</i> .
9.11	G	The <i>illiquid assets</i> and <i>material holdings</i> provisions of GENPRU 2.2 (Capital resources) apply.
9.12	G	The chapter 13 Illiquid Adjustment and the chapter 13 Counterparty Risk Adjustment are used to calculate the <i>BIPRU</i> credit risk charge for <i>non-trading book</i> items (called the <i>credit risk capital component</i>) and the <i>BIPRU</i> credit risk charge for <i>trading book</i> items (called the <i>counterparty risk capital component</i>).
9.13	G	When this section requires a <i>firm</i> to apply an Illiquid Adjustment to an asset a <i>firm</i> should apply a credit risk charge to that asset equal to the amount of the Illiquid Adjustment under Chapter 13 and include that charge in the calculation of the total credit risk charge. The amount of that credit risk charge will generally be equal to the amount of that asset. This is equivalent to a deduction from capital. A <i>firm</i> should not apply an Illiquid Adjustment to the extent that the asset has already been included as an <i>illiquid asset</i> or <i>material holding</i> and deducted from <i>capital resources</i> under GENPRU 2.2 .
9.14	G	The Chapter 13 Position Risk Adjustment no longer applies. If a <i>firm</i> has a <i>trading book</i> , an item in the <i>trading book</i> that would have received a Position Risk Adjustment is subject to a capital charge under BIPRU 7 (Market risk). An item in a <i>firm's non-</i>

9.15	G	<p><i>trading book</i> that would have received a Position Risk Adjustment is subject under this section to an Illiquid Adjustment. A <i>firm</i> should approach its usual supervisory contact at the <i>appropriate regulator</i> if it believes that this treatment is disproportionate.</p>
9.15	G	<p>When this section requires a <i>firm</i> to apply a Counterparty Risk Adjustment to an asset a <i>firm</i> should apply a credit risk charge to that asset equal to the amount of the Counterparty Risk Adjustment under Chapter 13 and include that charge in the calculation of the total credit risk charge. The amount of that credit risk charge will generally be equal to the amount of that asset multiplied by the percentage in Table 13.5.4B or 13.5.4C. A <i>firm</i> should not apply a Counterparty Risk Adjustment to the extent that the asset has already been included as an <i>illiquid asset</i> or <i>material holding</i> and deducted from <i>capital resources</i> under GENPRU 2.2.</p>
9.16	G	<p>All <i>non-trading book</i> items are excluded under IPRU(INV) 13.8. This exclusion is incorporated in the calculations under this section as a credit risk charge of 100%. IPRU(INV) 13.8 does not apply if the <i>firm</i> does not have a <i>trading book</i>.</p>
9.17	G	<p>The calculation of the capital requirements for credit risk in GENPRU and BIPRU is based on applying a capital charge to the <i>firm's</i> assets. The credit risk charge in GENPRU and BIPRU in broad terms reflects the risk to a <i>firm</i> that it will suffer loss because its counterparties do not pay what they owe to the <i>firm</i>. Thus generally it is not necessary to continue the requirement in Table 13.5.4 to deduct liabilities. However it is still necessary to include other liabilities deducted as part of the calculation of financial resources under Chapter 13 if they are of the type listed in section 4 of Chapter BC of IPRU(BANK). This is because the Directive provisions that allow pre-2007 credit risk requirements to be used during 2007 require a capital charge for this type of item. In practice it is unlikely that these items will be relevant to a <i>personal investment firm</i> except for guarantees.</p>
9.18	G	<p>The chapter 13 Large exposure Adjustment is used to calculate the <i>concentration risk capital</i></p>

		<i>component</i> . This is only relevant to a <i>firm</i> with a <i>trading book</i> .
		Parts of chapter 13 of IPRU(INV) that apply in 2007
9.19	R	The parts of chapter 13 of <i>IPRU(INV)</i> that do and do not apply during the period that <i>BIPRU TP 3.4R</i> applies are set out in <i>BIPRU TP 9.21R</i> .
9.20	G	The table in <i>BIPRU TP 9.21R</i> assumes that the <i>firm</i> is not applying the <i>IRB approach</i> . <i>BIPRU TP 9.41R</i> to <i>BIPRU TP 9.44R</i> deal with a <i>firm</i> that does apply the <i>IRB approach</i> .

R

(Pre CRD capital requirements applying on a solo basis during 2007) and this section.

How to use the chapter 13 Illiquid Adjustment and the Counterparty Risk Adjustment

A firm must calculate the sum of the *credit risk capital component* and the *counterparty risk capital component* as being equal to the sum of the following:

- (1) the amount of the Illiquid Adjustments under chapter 13 of *IPRU(INV)* so far as they are in force under *BIPRU TP 9.21R*;
- (2) the amount of any *non-trading book* assets that would be excluded under *rule 13.8.2* of chapter 13 of *IPRU(INV)* (exclusion of *non-trading book* items from financial resources calculations);
- (3) the amount in relation to unsettled securities transactions (Cash against documents) specified in *BIPRU TP 9.28R*;
- (4) the amount in relation to unsettled securities transactions (Free deliveries) specified in *BIPRU TP 9.29R*;
- (5) the amount of the Counterparty Risk Adjustments under whichever is applicable of point 22 of Part II of Table 13.5.4(1) and point 22 of Part II of Table 13.5.4(2) of chapter 13 of *IPRU(INV)* (Liabilities adjustments relating to OTC derivatives for

			calculating financial resources);
		(6)	the amount of the other Counterparty Risk Adjustments under whichever is applicable of Part I of Table 13.5.4(1) and Part I of Table 13.5.4(2) of chapter 13 of <i>IPRU(INV)</i> (Assets adjustments for calculating financial resources); and
		(7)	the amount of any other liabilities under whichever is applicable of Part II of Table 13.5.4(1) and Part II of Table 13.5.4(2) of chapter 13 of <i>IPRU(INV)</i> but only to the extent provided by <i>BIPRU</i> TP 9.21R.
9.24	R		A <i>firm</i> must not apply a credit risk charge to an <i>exposure</i> under <i>BIPRU</i> TP 9.23R to the extent that it has already been deducted as an <i>illiquid asset</i> or a <i>material holding</i> under <i>GENPRU</i> 2.2 (Capital resources).
9.25	R		If it is necessary to distinguish between the <i>credit risk capital component</i> and the <i>counterparty risk capital component</i> a <i>firm</i> must allocate:
		(1)	any amount calculated for an <i>exposure</i> in the <i>non-trading book</i> to the <i>credit risk capital component</i> ; and
		(2)	any amount calculated for an <i>exposure</i> in the <i>trading book</i> to the <i>counterparty risk capital component</i> .
9.26	G		A <i>firm</i> may still apply the netting provisions for OTC derivatives in chapter 13 even though the OTC derivative calculation is split between the <i>credit risk capital component</i> and the <i>counterparty risk capital component</i> under <i>BIPRU</i> TP 9.25R.

9.27	G	<p>The net amount should be allocated to the <i>credit risk capital component</i> if the gross value of the <i>non-trading book</i> derivatives is bigger and to the <i>counterparty risk capital component</i> if the gross value of the <i>trading book</i> derivatives is bigger.</p> <p>Adjustments to the Counterparty Risk Adjustments calculations: General</p> <p>Broadly speaking the Directive transitional provisions that allow pre-2007 credit risk rules to be used in 2007 cover all credit risk rules. However the transitional provisions for <i>trading book</i> credit risk (Annex II of the <i>Capital Adequacy Directive</i>, which is implemented in BIPRU 14 (Capital requirements for settlement and counterparty risk)) is not quite as straightforward as that. In some cases pre-2007 requirements can be used. In others they cannot. The purpose of BIPRU TP 9.28R to BIPRU TP 9.31G is to reflect those cases in which the Directive requires the new requirements to apply from 1 January 2007.</p>
9.28	R	<p>Adjustments to the Counterparty Risk Adjustments calculations: Unsettled Securities Transactions</p> <p>(1) The calculation of the credit risk charge for unsettled securities transactions is based on the Counterparty Risk Adjustment for such transactions adjusted in accordance with this <i>rule</i>.</p> <p>(2) Subject to the rest of this <i>rule</i>, the amount of the credit risk charge is equal to the Counterparty Risk Adjustment under paragraphs (a) and (b) in the unsettled securities transactions sections of Table 13.5.4(1) or (2).</p> <p>(3) The credit risk charge applies where the <i>firm</i> is exposed to loss if the</p>

			(4)	<p>counterparty does not perform.</p> <p>A <i>firm</i> must calculate the Counterparty Risk Adjustment for an unsettled securities transaction in the <i>trading book</i> under BIPRU 14.3 (Unsettled transactions) rather than under chapter 13 of <i>IPRU(INV)</i>.</p>
			Adjustments to the Counterparty Risk Adjustments calculations: Free deliveries	
9.29	R	(1)		<p>The calculation of the credit risk charge for a free delivery is based on the Counterparty Risk Adjustment for such transactions adjusted in accordance with this <i>rule</i>.</p>
		(2)		<p>Subject to the rest of this <i>rule</i>, the amount of the credit risk charge is equal to the Counterparty Risk Adjustment under paragraphs (a) and (b) in the free delivery sections of Table 13.5.4(1) or (2).</p>
		(3)		<p>A <i>firm</i> must include <i>foreign currency</i> and <i>commodity</i> for the purpose of <i>trading book</i> calculations.</p>
		(4)		<p>The capital treatment in the table in BIPRU 14.4.3 R (Capital treatment for free deliveries) applies for the purpose of <i>trading book</i> calculations. But when the capital treatment in that table is that the <i>firm</i> must treat the transaction as an <i>exposure</i>, the <i>firm</i> must</p>

			calculate a credit risk charge equal to the amount in (2).
			Adjustments to the Counterparty Risk Adjustments calculations: Derivative transactions
9.30	R		A <i>firm</i> must treat a credit derivative in the <i>trading book</i> as a derivative to which paragraph 22 of Part II of Table 13.5.4(1), paragraph 22 of Part II of Table 13.5.4(2) and table 13.5.4D of chapter 13 of <i>IPRU(INV)</i> (Over the counter derivatives) apply.
9.31	G		The capital treatment for a credit derivative set out in BIPRU 14.2.5 R - BIPRU 14.2.8 R (Capital treatment for credit derivatives) does not apply.
			How to use the chapter 13 large exposure rules
9.32	R		Section 13.6 of chapter 13 of <i>IPRU(INV)</i> (Large exposures) applies in place of BIPRU 10 (Concentration risk).
9.33	R		The following adjustments are made to section 13.6 of chapter 13 of <i>IPRU(INV)</i> (Large exposures):
		(1)	BIPRU 10.5.2 R to BIPRU 10.5.5 R (Capital resources for concentration risk purposes) apply in place of the definition of own funds that applies under section 13.6 of chapter 13 of <i>IPRU(INV)</i> ;
		(2)	<i>rule</i> 13.6.2B (Excess over EBR should not be excluded) does not apply; and
		(3)	BIPRU 10.5.14 R (Notification) applies instead of the notification requirement in 13.6.
9.34	R		A <i>firm</i> must calculate its <i>concentration risk capital component</i> as being equal to the sum of the Large exposure Adjustments under whichever is applicable of Part I of Table 13.5.4(1) and Part I of Table 13.5.4(2) of chapter 13 of <i>IPRU(INV)</i>

			(Assets adjustments for calculating financial resources).
			Specific risk calculations
9.35	R		A <i>firm</i> must calculate the <i>specific risk</i> portion of the <i>interest rate PRR</i> in accordance with <i>BIPRU TP 8.29R</i> (Pre CRD <i>interest rate PRR</i> for <i>securities and futures firms</i>).
9.36	R		Any reference to a <i>qualifying debt security</i> in a part of <i>BIPRU</i> that applies during 2007 must be interpreted in accordance with the definition in the Glossary to chapter 13 of <i>IPRU(INV)</i> . However <i>BIPRU 7.2.50 R</i> (Must not apply <i>qualifying debt security</i> treatment to risky assets) also applies.
9.37	R		The reason for <i>BIPRU TP 9.35R</i> and <i>BIPRU TP 9.36R</i> is that the calculation of the <i>specific risk</i> portion of the <i>interest rate PRR</i> under <i>BIPRU 7</i> (Market risk) involves the use of the <i>standardised approach</i> to credit risk. The <i>specific risk rules</i> therefore need to be adjusted for a <i>firm</i> that is not using the <i>standardised approach</i> to credit risk in 2007 so as to apply the pre-2007 method of calculating <i>specific risk</i> . However chapter 13 does not distinguish between <i>specific risk</i> and <i>general market risk</i> . The nearest equivalent is in chapter 10 of <i>IPRU(INV)</i> (<i>Securities and futures firms</i>).
			Definitions
9.38	R		The definition of trading book is replaced with the definition in the <i>Glossary</i> . Section 13.8 of chapter 13 of <i>IPRU(INV)</i> (Trading book) and the definition in the Glossary to chapter 13 are amended accordingly.
			Mapping GENPRU and BIPRU concepts onto IPRU
9.39	G		Some of the parts of chapter 13 of <i>IPRU(INV)</i> that apply in 2007 refer to parts of chapter 13 that do not apply. <i>BIPRU TP 3.10R</i> explains that where this happens a <i>firm</i> should interpret that cross-reference in accordance with the provision in <i>BIPRU</i> or <i>GENPRU</i> that corresponds to the chapter 13 provision that does not apply in 2007. A <i>firm</i> should refer to <i>IPRU</i> in the case of cross-references in <i>GENPRU</i> and <i>BIPRU</i> to provisions in <i>GENPRU</i> and <i>BIPRU</i> that do not apply in 2007. <i>BIPRU TP 9.40G</i> sets out how certain concepts in chapter 13 of <i>IPRU(INV)</i> correspond to ones in <i>GENPRU</i> and

BIPRU. The purpose of the table is to help *firms* to interpret such cross-references.

9.40

G

Table: Mapping GENPRU and BIPRU concepts onto ones in chapter 13 of IPRU(INV)

This table belongs to *BIPRU* TP 9.39G

GENPRU and BIPRU

Chapter 13 of IPRU(INV)

See *BIPRU* TP 9.10G to *BIPRU* TP 9.17G

Illiquid Adjustment

See *BIPRU* TP 9.10G to *BIPRU* TP 9.17G

Counterparty Risk Adjustment

See *BIPRU* TP 9. 18G

Large exposure Adjustment

Material holding

The nearest equivalent is point 13 of Part I of Table 13.5.4(1) and (2) (All other assets)

Unsettled transaction under *BIPRU* 14.3

Cash against documents

Free deliveries under *BIPRU* 14.4

Free deliveries

Market risk capital requirement

The Position Risk Adjustment and the Foreign Exchange Risk Adjustment

Trading book concentration risk excess

Excess X in Table 13.6.2(2)

A *firm* should use the *specific risk* portion of the relevant *PRR charge* under *BIPRU* 7 (Market risk) (subject to the other provisions of this section about specific risk) where Chapter 13 as applied by this section requires the *firm* to apply position risk discounts.

Position risk discounts (particularly relevant for the purposes of Table 13.6.2(2))

Risk weight

Where Chapter 13 requires an asset to be deducted from capital that is equivalent to applying a *risk weight* of 1250%. Applying the 1.6% adjustment under Table 13.5.4C is equivalent to applying a 20% *risk weight* under *BIPRU* together with the standard 8% *BIPRU* credit risk charge. The "NIL" adjustment under that table is equivalent to applying a 0% *risk weight*.

9.41

R

Firms using the IRB approach during 2007: General

BIPRU TP 9.42G to *BIPRU* TP 9.44R only apply to a *firm* that is applying the *IRB approach* under *BIPRU* TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) as well as using *IPRU*.

9.42	G	<p>The effect of <i>BIPRU</i> TP 3.17G (Pre CRD capital requirements applying on a solo basis during 2007 for <i>firms</i> also using the <i>IRB approach</i>) is that the Counterparty Risk Adjustments do not apply to an <i>exposure</i> to which the <i>firm</i> applies the <i>IRB approach</i>. The <i>IRB approach</i> requirements in <i>BIPRU</i> apply instead. The main requirements are listed in <i>BIPRU</i> TP 3.17G. The same applies to the Illiquid Adjustments although <i>illiquid assets</i> or <i>material holdings</i> will still have to be deducted under <i>GENPRU</i> 2.2 (Capital resources).</p>
9.43	R	<p>A <i>firm</i> must apply <i>BIPRU</i> 7.2.45 R - <i>BIPRU</i> 7.2.47 R (Using internal ratings to calculate <i>specific risk</i> and treatment of <i>securitisations</i>) to calculate the <i>specific risk</i> portion of the <i>interest rate PRR</i> to the extent that the obligor or <i>exposure</i> in question comes within the scope of its <i>IRB permission</i>.</p>
9.44	R	<p>The definition of <i>qualifying debt security</i> in the <i>Glossary</i> applies if the security or obligor in question comes within the scope of a <i>firm's IRB permission</i>.</p>
9.45	R	<p>Calculation of capital floors under <i>BIPRU</i> TP 2</p> <p>(1) This paragraph sets out how the obligation in <i>BIPRU</i> TP 2 (Capital floors for a firm using the <i>IRB</i> or <i>AMA</i> approaches) is applied to a <i>personal investment firm</i>.</p> <p>(2) A <i>firm</i> must apply Financial Resources Test 2 (Expenditure-based Requirement) for the periods specified in <i>BIPRU</i> TP 2 by multiplying the Expenditure-based Requirement by the percentage figure in <i>BIPRU</i> TP 2.8R or <i>BIPRU</i> TP 2.9R.</p> <p>(3) <i>BIPRU</i> TP 2 does not apply to Financial Resources Test 1 (Own funds) or Financial Re-</p>

sources Test 1A (Adjusted net current assets).

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 10 Pre CRD capital requirements applying on a consolidated basis during 2007

			Application
10.1	R		This section applies to a <i>firm</i> to which BIPRU 8 (Consolidation) applies.
			Purpose
10.2	G		This section sets out how BIPRU TP 3 - BIPRU TP 9 (Use of IPRU during 2007) are applied on a consolidated basis.
			Duration of transitional
10.3	R		BIPRU TP 10 applies until 1 January 2008.
			Main rule
10.4	R		A <i>firm</i> may apply BIPRU TP 3 to BIPRU TP 9 (Use of IPRU during 2007 on a solo basis) on a consolidated basis. Applying them on a consolidated basis means that BIPRU 8 (Group risk - Consolidation) is modified by applying the relevant parts of BIPRU TP 3 to BIPRU TP 9 (as defined in BIPRU TP 10.5R) in place of the corresponding BIPRU credit risk and other rules.
10.5	R	(1)	This rule sets out what the relevant parts of BIPRU TP 3 to BIPRU TP 9 (Use of IPRU during 2007 on a solo basis) are for the purposes of BIPRU TP 10.4R. The answer depends on the kind of UK consolidation group or non-EEA sub-group ("group") to which consolidated requirements are being applied.
		(2)	If the group is a building society group as defined in BIPRU TP 1.7R, the relevant parts of BIPRU TP 3 to BIPRU TP 9 are those applicable to a <i>building society</i> .
		(3)	If the group is a banking group as defined in BIPRU TP 1.7R, the relevant

			<p>parts of BIPRU TP 3 to BIPRU TP 9 are those applicable to a <i>bank</i>.</p> <p>(4) If the group is an investment services group as defined in BIPRU TP 1.7R, the relevant parts of BIPRU TP 3 to BIPRU TP 9 are those applicable to the main BIPRU investment firm in that group. For these purposes the main BIPRU investment firm is identified in the same way as the "main firm" is identified under rule 14.4.2R(1) of chapter 14 IPRU(INV).</p>
10.6	G		<p>The application of BIPRU TP 3 (Pre CRD capital requirements applying on a solo basis during 2007) on a consolidated basis is not done by applying the relevant consolidation provisions in IPRU. BIPRU 8 (Group risk - Consolidation) still applies, as modified by this section. BIPRU TP 10.7G to BIPRU TP 10.12G summarise how BIPRU TP 3 works on a consolidated basis under this section assuming that the firm does not use the IRB approach.</p>
10.7	G		<p>The consolidated credit risk charge (called the <i>consolidated credit risk requirement</i>) is normally calculated under BIPRU 8 by applying the solo BIPRU credit risk charges on a consolidated basis. Under this section the IPRU credit risk charges are applied instead, as modified by BIPRU TP 3 to BIPRU TP 9 (Use of IPRU during 2007 on a solo basis).</p>
10.8	G		<p>Under this section the applicable IPRU large exposure requirements, as modified by BIPRU TP 3 to BIPRU TP 9, apply instead of the ones in BIPRU 10 (Concentration risk requirements). BIPRU TP 10.15R disapplies most of BIPRU 8.9 (Consolidated concentration risk requirements).</p>
10.9	G		<p>A firm should calculate the <i>consolidated credit risk requirement</i> so far as it relates to the <i>concentration risk capital component</i> using the relevant IPRU rules. In particular a firm should not use the capital requirements of a regulator other than the <i>appropriate regulator</i> for this purpose.</p>
10.10	G		<p>A firm should still base its capital resources calculation for consolidation purposes on BIPRU 8.6 (Consolidated capital resources) rather than using the IPRU capital resources calculations. In turn, BIPRU 8.6 is based on GENPRU 2.2 (Capital resources). This applies for consolidated concentration risk purposes as well.</p>
10.11	G		<p>BIPRU 8.4 (CAD Article 22 groups and investment firm consolidation waiver) still applies.</p>

10.12	G	<p>The calculation of consolidated capital requirements under BIPRU 8.7 (Consolidated capital resources requirements) depends in part on whether the group contains <i>banks</i>, <i>BIPRU limited activity firms</i> or <i>BIPRU limited licence firms</i>. This continues to apply for the purpose of this section in addition to <i>BIPRU TP 10.5R</i>. So for instance, if a group contains only <i>BIPRU limited licence firms</i> the consolidated capital requirements for the group are based on the capital requirements for <i>BIPRU limited licence firms</i>. However in addition if, for example, the main <i>firm</i> (as defined in <i>BIPRU TP 10.5R</i>) is a <i>personal investment firm</i> the requirements for <i>BIPRU limited licence firm</i> are modified in accordance with <i>BIPRU TP 9</i> (Pre CRD capital requirements applying on a solo basis during 2007 and capital floors: Personal investment firms). The calculation of notional capital resources requirements under <i>BIPRU 8.4.13 R</i> (Capital adequacy obligations relating to a CAD Article 22 group: Capital resources requirement) works in a similar way.</p> <p>Consolidated capital resources requirement: Use of home state requirements for EEA firms</p>
10.13	R	<p>A <i>firm</i> may, for the purposes of <i>BIPRU TP 10.4R</i>, use the solo financial resources requirement to which an <i>EEA firm</i> is subject in accordance with <i>BIPRU 8.7.34 R</i> (Use of the solo requirements of another EEA competent authority) or the consolidated financial resources requirements of an <i>EEA competent authority</i> under <i>BIPRU 8.7.37 R</i> (Use of the consolidated requirements of another EEA competent authority). However those requirements must be ones that apply under the <i>CRD implementation measures</i> for Articles 152(8) - (14) of the <i>Banking Consolidation Directive</i> and Article 50(1) of the <i>Capital Adequacy Directive</i> for the relevant <i>EEA State</i> (Pre CRD capital requirements applying during 2007).</p> <p>Consolidated capital resources requirement: Use of home state requirements for third country undertakings</p>
10.14	R	<p>(1) A <i>firm</i> may, for the purposes of <i>BIPRU TP 10.4R</i>, use the solo financial resources requirement of a <i>third country competent authority</i> in accordance with <i>BIPRU 8.7.35 R</i> (Use of the solo requirements of a regulator outside the EEA) or the consolidated financial resources requirements of a <i>third country competent authority</i> under <i>BIPRU 8.7.38 R</i> (Use of the consolidated requirements of a regulator outside the EEA) in accordance with the adjustments in this <i>rule</i>.</p>

- (2) The list in BIPRU 8 Annex 6 R (List of equivalent third country regulators) does not apply and instead:
- (a) if the *UK consolidation group* or *non-EEA subgroup* is a banking group or building society group as defined in BIPRU TP 1.7R (Classification of groups for certain consolidation rules), the lists in Appendices C and D of chapter CS of *IPRU(BANK)* apply; and
 - (b) if the *UK consolidation group* or *non-EEA subgroup* is an investment firm group as defined in BIPRU TP 1.7R, the list in Appendix 59 of chapter 10 of *IPRU(INV)* applies.
- (3) The *firm* must apply the version of those requirements in force on 31 December 2006 or any later version that remains consistent with *EEA prudential sectoral legislation* for the *banking sector* or *investment services sector* in the form it was in on 31 December 2006.
- (4) The requirement in BIPRU 8.7.35 R (2) and the last sentence of BIPRU 8.7.38 R (2) (Requirement for calculation not to produce a lower figure than the *appropriate regulator's rules*) still applies.

Consolidated large exposures

10.15	R	<p>A <i>firm</i> must apply the concentration risk requirements under BIPRU TP 3 to BIPRU TP 9 (Use of IPRU during 2007 on a solo basis) applicable to its <i>UK consolidation group</i> or <i>non-EEA sub-group</i> under BIPRU TP 10.4R as if it were a single <i>undertaking</i>. BIPRU 8.9.2 R (Definition of consolidated capital resources for concentration risk purposes) applies for the purpose of this <i>rule</i>. BIPRU 8.9 (Consolidated concentration risk requirements) does not otherwise apply.</p>

BIPRU TP 11 IRB transitionals

FCA PRA

			Application
11.1	R		BIPRU TP 11 applies to a <i>BIPRU firm</i> that uses the <i>IRB approach</i> .
11.2	G		<p>Purpose</p> <p>BIPRU TP 11 implements Articles 154(2), (3) and (5) of the <i>Banking Consolidation Directive</i> and (in part) Article 17 of the <i>Capital Adequacy Directive</i>.</p> <p>Use requirement</p> <p>In accordance with Article 154(2) of the <i>Banking Consolidation Directive</i>, for a <i>firm</i> applying for the use of the <i>IRB approach</i> before 2010, the three years' use requirement prescribed in BIPRU 4.2.11 R (Requirements concerning the experience requirement) is reduced to a period of one year until 31 December 2009.</p>
11.3	R		<p>Use requirement</p> <p>In accordance with Article 154(2) of the <i>Banking Consolidation Directive</i>, for a <i>firm</i> applying for the use of own estimates of <i>LGDs</i> and/or <i>conversion factors</i>, the three year use requirement prescribed in BIPRU 4.2.13 R (Requirements concerning the experience requirement) is reduced to two years until 31 December 2008.</p>
11.4	R		<p>Use requirement</p> <p>The transitional period in BIPRU TP 11.3R rather than that in</p>
11.5	G		

11.6	R	<p>BIPRU TP 11.4R applies to <i>retail exposures</i>.</p> <p>Residential properties</p> <p>In accordance with Article 154(5) of the <i>Banking Consolidation Directive</i>, until 31 December 2012, the <i>exposure</i>-weighted average <i>LGD</i> for all <i>retail exposures</i> secured by residential properties and not benefiting from guarantees from central governments must not be lower than 10%.</p>
11.7	R	<p>Expected loss</p> <p>BIPRU TP 11.3R to BIPRU TP 11.6R also apply for the purpose of BIPRU 14.2.18 R and BIPRU 14.2.19 R (Treatment of expected loss amounts under the IRB approach) and GENPRU 2.2.193 R (Upper tier two capital: Surplus provisions).</p>

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 12 Operational risk transitionals: small trading book

		Application
12.1	R	<p>Subject to <i>BIPRU</i> TP 12.2R, <i>BIPRU</i> TP 12 applies to a <i>BIPRU investment firm</i> that satisfies the following conditions:</p> <ol style="list-style-type: none"> (1) it is a <i>full scope BIPRU investment firm</i>; (2) it does not fall within the definition of <i>limited licence firm</i> or <i>limited activity firm</i> in <i>BIPRU</i> 1.1.11 R to <i>BIPRU</i> 1.1.12 R (Definitions of <i>limited licence firm</i> or <i>limited activity firm</i>); (3) its total <i>trading book positions</i> never exceed 50 million Euro; (4) the average number of its relevant employees during the financial year does not exceed 100; and (5) the <i>firm</i> has a <i>waiver</i> that modifies <i>BIPRU</i> 6 (Operational risk) so as to require the <i>firm</i> to calculate its <i>ORCR</i> in accordance with <i>BIPRU</i> TP 12.
12.2	R	<p><i>BIPRU</i> TP 12.12R to <i>BIPRU</i> TP 12.14G apply to any <i>firm</i> to which <i>BIPRU</i> 8 (Group risk - consolidation) applies.</p> <p>Purpose</p>
12.3	G	<p><i>BIPRU</i> TP 12 implements Article 46 of the <i>Capital Adequacy Directive</i>.</p> <p>Duration of transitional</p>
12.4	R	<p><i>BIPRU</i> TP 12 applies until 31 December 2011.</p> <p>Calculation of number of employees</p>
12.5	R	<p>In calculating the average number of its relevant employees a <i>firm</i> must:</p> <ol style="list-style-type: none"> (1) include all its <i>directors</i>, officers having executive responsibilities and <i>senior managers</i>;

		(2)	include all staff whose responsibilities include front office responsibilities in relation to activities that give rise to <i>positions</i> in the <i>trading book</i> ;
		(3)	include all staff whose responsibilities include back office, compliance or risk management responsibilities in relation to activities that give rise to <i>positions</i> in the <i>trading book</i> ;
		(4)	include contractors of or <i>persons</i> seconded to the <i>firm</i> or carrying out functions for the <i>firm</i> who would be relevant employees if they were employed by the <i>firm</i> ; and
		(5)	take into account the methodology for calculating an average number of employees referred to in section 382(6) of the Companies Act 2006.
12.6	R		A <i>firm</i> must have a written policy for identifying <i>persons</i> who are relevant employees for the purpose of BIPRU TP 12.5R.
			Purpose of BIPRU TP 12.1R(2)
12.7	G		The purpose of BIPRU TP 12.1R(2) is to exclude a <i>firm</i> that falls into the definition of <i>full scope BIPRU investment firm</i> because it has obtained a <i>waiver</i> or has a <i>Part IV permission</i> that enables it to calculate an <i>ORCR</i> instead of the <i>fixed overheads requirement</i> (see BIPRU 6.1.2 G).
			Reduction of the ORCR
12.8	R		The <i>ORCR</i> of a <i>firm</i> to which this <i>rule</i> applies is the lower of:
		(1)	the <i>ORCR</i> that would have applied but for this <i>rule</i> ; and
		(2)	12/88 of the higher of the following:
		(a)	the sum of <i>credit risk capital requirement</i> and the <i>market risk capital requirement</i> ; and
		(b)	the <i>fixed overheads requirement</i> , notwithstanding that the <i>fixed over-</i>

			<i>heads requirement does not apply.</i>
12.9	R	The fraction 12/88 in <i>BIPRU</i> TP 12.8R(2) increases in accordance with the table in <i>BIPRU</i> TP 12.10R.	
12.10	R	Table: Increase in 12/88 fraction	
		This table belongs to <i>BIPRU</i> TP 12.9R	

Date on which increase takes effect	Fraction
1 January 2008	27/88
1 January 2009	42/88
1 January 2010	57/88
1 January 2011	72/88

		Minimum capital requirement	
12.11	R	(1)	A <i>firm</i> must have capital resources at least equal to the capital resources requirement that applies to it under whichever part of <i>IPRU</i> applies to the <i>firm</i> under <i>BIPRU</i> TP 1.4R.
		(2)	A <i>firm</i> must calculate its capital resources for the purposes of this <i>rule</i> in accordance with the same part of <i>IPRU</i> .
		(3)	The following provisions of <i>BIPRU</i> TP 2 (Capital floors for a firm using the IRB or AMA approaches) apply for the purposes of this <i>rule</i> :
		(a)	<i>BIPRU</i> TP 2.14R to <i>BIPRU</i> TP 2.15G (Adjustments to the calculation of capital resources);
		(b)	<i>BIPRU</i> TP 2.18R to <i>BIPRU</i> TP 2.19G (CAD 1 model and VaR model);
		(c)	<i>BIPRU</i> TP 2.20R to <i>BIPRU</i> TP 2.21G (Individual capital guidance);
		(d)	<i>BIPRU</i> TP 2.22R to <i>BIPRU</i> TP 2.27G

(How to apply *IPRU* for the purposes of the capital floor calculations); and

(e) *BIPRU* TP 2.29R (Solo consolidation and the capital floor calculations).

Consolidation

12.12 R A *firm* may only calculate the *consolidated operational risk requirement* with respect to its *UK consolidation group* or *non-EEA sub-group* in accordance with *BIPRU* TP 122 if the group in question satisfies the following conditions:

- (1) there is no *credit institution* in the group;
- (2) the *consolidated capital resources requirement* of the group is calculated in accordance with stage 2 in *BIPRU* 8 Annex 5 R (Consolidation requirements for a group containing a *CAD full scope firm*);
- (3) the group meets the conditions in *BIPRU* TP 12.1R(3) and (4) applied on a consolidated basis; and
- (4) the *firm* has a *waiver* that modifies *BIPRU* 8 (Group risk - consolidation) so as to require the *firm* to calculate its *consolidated operational risk requirement* in accordance with *BIPRU* TP 12.

Minimum consolidated capital requirement

12.13 R If a *firm* applies *BIPRU* TP 12.12R to its *UK consolidation group* or *non-EEA sub-group* it must apply *BIPRU* TP 12.11R to that group in accordance with *BIPRU* TP 2.31R to *BIPRU* TP 2.33G (Consolidated capital floors for a *firm* using the *IRB approach* or *AMA (advanced measurement approach)*).

Changes in a firm's business

12.14 G The *Capital Adequacy Directive* says that a *competent authority* may agree to reduce the capital floor implemented by *BIPRU* TP 12.11R and *BIPRU* TP 12.13R if such a reduction is prudentially justified by a reduction in the size of the *firm's* business. Those *rules* implement that option

by requiring a *firm* to apply the *IPRU* requirements to its business as it changes over time.

BIPRU TP 15 Commodities firm transitionals: Exemption from capital requirements

FCA

		Application
15.1	R	<p>Subject to <i>BIPRU</i> TP 15.2R, <i>BIPRU</i> TP 15 applies to a <i>BIPRU</i> investment firm:</p> <p>(1) whose main business consists exclusively of the provision of investment services or investment activities in relation to the financial instruments set out in points 5, 6, 7, 9 and 10 of Section C of Annex I to the <i>MI-FID</i>; and</p> <p>(2) to whom the <i>ISD</i> would not have applied if it had remained in force in the form it was in on 31 December 2006.</p>
15.2	R	<p><i>BIPRU</i> TP 15.13R to <i>BIPRU</i> TP 15.14G apply to any firm to which <i>BIPRU</i> 8 (Group risk - consolidation) applies.</p> <p>Purpose</p>
15.3	G	<p><i>BIPRU</i> TP 15 implements Article 48(1) of the <i>Capital Adequacy Directive</i>.</p> <p>Duration of exemption</p>
15.4	R	<p><i>BIPRU</i> TP 15 applies until 31 December 2014 .</p> <p>[Note: <i>CAD</i> Article 48(1)]</p>
15.5	G	<p>If there are any modifications pursuant to paragraphs 2 and 3 of Article 48 of the <i>Capital Adequacy Directive</i> (European Commission review of prudential regime for exempt commodity firms), the <i>appropriate regulator</i> will revoke <i>BIPRU</i> TP 15 if the date of coming into force of the implementing measures in relation to those changes is before the date in <i>BIPRU</i> TP 15.4R.</p> <p>Exemption</p>

15.6	R	The provisions of <i>GENPRU</i> and <i>BIPRU</i> on capital requirements and <i>GENPRU</i> 1.2 (Adequacy of financial resources) do not apply to a <i>firm</i> to which <i>BIPRU</i> TP 15 applies. However <i>BIPRU</i> 10 (Large exposures requirements) continues to apply, including the <i>CNCOM</i> .
15.7	G	If a <i>firm</i> meets the conditions in <i>BIPRU</i> TP 16 (Commodities firm transitionals: large exposures) it will be exempt from <i>BIPRU</i> 10 as well.
15.8	G	An <i>exempt BIPRU commodities firm</i> (which is the name in the <i>Glossary</i> given to a <i>firm</i> with the benefit of the exemption in <i>BIPRU</i> TP 15.6R) may be subject to the requirements of Chapter 3 of <i>IPRU(INV)</i> . Details of which <i>exempt BIPRU commodities firm</i> are subject to those requirements can be found in Chapter 3 of <i>IPRU(INV)</i> .
15.9	G	The table in <i>BIPRU</i> TP 15.10G provides an indication of which parts of <i>GENPRU</i> and <i>BIPRU</i> generally apply to an <i>exempt BIPRU commodities firm</i> and which parts in general do not apply. If a section is shown as not in general applying the table also identifies any significant aspects of that section that do apply.

FCA

15.10	G	Table: Parts of <i>GENPRU</i> and <i>BIPRU</i> that apply to exempt <i>BIPRU</i> commodities firms
This table belongs to <i>BIPRU</i> TP 15.9G		

<i>GENPRU</i> and <i>BIPRU</i> provisions		Remarks
	A Y denotes that the provision generally does apply	
	An N denotes that generally it does not apply	
<i>GENPRU</i> TP (Transitional provisions)	Y	
<i>GENPRU</i> 1.1 (Application and scope)	Y	
<i>GENPRU</i> 1.2 (Adequacy of financial resources)	N	
<i>GENPRU</i> 1.3 (Valuation)	Y	
<i>GENPRU</i> 1.4 (Actions for damages)	Y	
<i>GENPRU</i> 1.5 (Application of <i>GENPRU</i> 1 to Lloyd's)		Not applicable as does not apply to <i>BIPRU</i> firms

<i>GENPRU</i> and <i>BIPRU</i> provisions	A Y denotes that the provision generally does apply An N denotes that generally it does not apply	Remarks
<i>GENPRU</i> 2.1 (Calculation of capital resources requirements)	N	
<i>GENPRU</i> 2.2 (Capital resources)	Y	This applies for the purposes of <i>BIPRU</i> 10. If <i>BIPRU</i> 10 does not apply this does not apply either.
<i>GENPRU</i> 2.3 (Application of <i>GENPRU</i> 2 to Lloyd's)	Not applicable as does not apply to <i>BIPRU</i> firms	
<i>GENPRU</i> 3.1 (Cross sector groups)	Y	Only applies if the <i>firm</i> is a member of a <i>financial conglomerate</i>
<i>GENPRU</i> 3.2 (Third-country groups)	Y	Provisions about <i>financial conglomerate</i> only apply if the <i>firm</i> is a member of a <i>financial conglomerate</i> See remarks on <i>BIPRU</i> 8 for provisions about a <i>third-country banking and investment group</i>
<i>BIPRU</i> TP (Transitional provisions)	Y	
<i>BIPRU</i> 1.1 (Application and scope)	Y	
<i>BIPRU</i> 1.2 (Definition of the trading book)	Y	
<i>BIPRU</i> 1.3 (Application for advanced approaches)	N	Provisions about <i>BIPRU</i> 2.1 and <i>BIPRU</i> 8 apply to the extent those parts of <i>BIPRU</i> apply. Otherwise does not apply.
<i>BIPRU</i> 1.4 (Actions for damages)	Y	
<i>BIPRU</i> 2.1 (Solo consolidation)	Y	Applies for the purposes of <i>BIPRU</i> 10.
<i>BIPRU</i> 2.2 (Adequacy of financial resources)	N	
<i>BIPRU</i> 2.3 (Interest rate risk in the non-trading book)	N	
<i>BIPRU</i> 3 (Standardised approach to credit risk)	N	

<i>GENPRU</i> and <i>BIPRU</i> provisions	A Y denotes that the provision generally does apply An N denotes that generally it does not apply	Remarks
BIPRU 4 (The IRB approach)	N	
BIPRU 5 (Credit risk mitigation)	N	
BIPRU 6 (Operational risk)	N	
BIPRU 7 (Market risk)	N	BIPRU 7.8.38 R and BIPRU 7.3.39 R (Risk management systems and controls) apply in theory although it is unlikely that a <i>firm</i> will be able to carry out these activities without losing the exemption in BIPRU TP 15 .
BIPRU 8 (Group risk - consolidation)	Y	See <i>BIPRU TP 15.13R</i> to <i>BIPRU TP 15.14G</i>
BIPRU 9 (Securitisation)	N	<i>BIPRU 9.1.6R</i> to <i>BIPRU 9.1.8G</i> (Risk systems) apply
BIPRU 10 (Large exposures)	Y	If <i>firm</i> also qualifies for exemption under <i>BIPRU TP 16</i> (Commodities firm transitionals: large exposures) BIPRU 10 does not apply except as described in <i>BIPRU TP 16.7G</i>
BIPRU 11 (Disclosure)	Y	
BIPRU 12	Chapter does not yet exist	
BIPRU 13 (Financial derivatives, SFTs and long settlement transactions)	N	
BIPRU 14 (Capital requirements for settlement and counterparty risk)	N	

FCA

15.11	G	<i>SYSC</i> applies to an <i>exempt BIPRU commodities firm</i> .
		Definitions
15.12	R	The terms financial instrument, investment services and investment activities have the same meaning as they do in the <i>MIFID</i> .
		Consolidation

15.13	R	<p>BIPRU TP 15 does not apply for the purposes of BIPRU 8 with respect to a <i>firm's UK consolidation group</i> or, as the case may be, <i>non-EEA sub-group</i> unless the following conditions are satisfied:</p> <ol style="list-style-type: none">(1) there is no <i>credit institution</i> in that group;(2) each <i>investment firm</i> in the group meets the conditions in BIPRU TP 15.1R(1);(3) each <i>investment firm</i> whose head office is in an <i>EEA State</i> satisfies the conditions in BIPRU TP 15.1R(2); and(4) any <i>investment firm</i> whose head office is outside the <i>EEA</i> would have fallen into BIPRU TP 15.1R(2) if:<ol style="list-style-type: none">(a) its head office had been in an <i>EEA State</i>; and(b) it had carried on all its business in the <i>EEA</i> and had obtained whatever authorisations for doing so were required under the <i>ISD</i> in the form that Directive was in on 31 December 2006.
15.14	G	<p>If an <i>exempt BIPRU commodities firm</i> is a member of a group that meets the conditions in BIPRU TP 15.13R, BIPRU 8 will not apply to the group. Chapter 14 of IPRU(INV) (Consolidation) applies instead.</p>

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 16 Commodities firm transitionals: large exposures

FCA

		Application
16.1	R	<p>Subject to <i>BIPRU</i> TP 16.2R, <i>BIPRU</i> TP 16 applies to a <i>BIPRU investment firm</i> that satisfies the following conditions:</p> <ol style="list-style-type: none"> <li data-bbox="798 896 1473 1232">(1) it satisfies the requirements in <i>BIPRU</i> TP 15.1R and it remains eligible to apply the treatment in <i>BIPRU</i> TP 15 (Commodities firm transitionals: Exemption from capital requirements); <li data-bbox="798 1254 1473 1523">(2) the <i>firm</i> provides investment services or investment activities related to the financial instruments listed in points 5, 6, 7, 9 and 10 of Section C of Annex I of the <i>MIFID</i>; <li data-bbox="798 1545 1473 1724">(3) the <i>firm</i> does not provide such investment services or undertake such investment activities for, or on behalf of, retail clients; <li data-bbox="798 1747 1473 2058">(4) breaches of the limits referred to in <i>BIPRU</i> TP 16.6R arise in connection with <i>exposures</i> resulting from contracts that are financial instruments as listed in (2) and relate to commodities or underlying

			ings within the meaning of point 10 of Section C of Annex I of the <i>MI-FID</i> and are calculated in accordance with BIPRU 13 (Financial derivatives, SFTs and long settlement transactions) or in connection with <i>exposures</i> resulting from contracts concerning the delivery of <i>commodities</i> or emission allowances; and
		(5)	it satisfies the requirements in <i>BIPRU TP 16.8R</i> .
16.2	R		<i>BIPRU TP 16.11R</i> applies to any <i>firm</i> to which <i>BIPRU 8</i> (Group risk - consolidation) applies.
			Purpose
16.3	G		<i>BIPRU TP 16</i> implements Article 45 of the <i>Capital Adequacy Directive</i> . The condition in <i>BIPRU TP 16.1R(1)</i> is in addition to the Directive conditions.
			Duration of transitional
16.4	R		The treatment in <i>BIPRU TP 16</i> is available until 31 December 2014.
			[Note: <i>CAD</i> Article 45(1)]
16.5	G		If there are any modifications consequent on the treatment of <i>large exposures</i> , pursuant to Article 119 of the <i>Banking Consolidation Directive</i> , the <i>FCA</i> will revoke <i>BIPRU TP 16</i> if the date of coming into force of the implementing measures in relation to those changes is before the date in <i>BIPRU TP 16.4R</i> . If the <i>FCA</i> revokes <i>BIPRU TP 15</i> it will also revoke <i>BIPRU TP 16</i> at the same time.
			Exemption
16.6	R	(1)	A <i>firm</i> may exceed the limits concerning <i>large exposures</i> in <i>BIPRU 10.5.6 R</i> (25% limit).
		(2)	The <i>CNCOM</i> does not apply.

16.7	G	<p>Broadly speaking the effect of <i>BIPRU</i> TP 16.6R is that <i>BIPRU</i> 10 (Large exposures) does not apply to a <i>firm</i> that meets the conditions in <i>BIPRU</i> TP 16.1R. However <i>BIPRU</i> 10.12 (Systems and controls and general) continues to apply.</p>
16.8	R	<p>Documented strategy</p> <p>A <i>firm</i> must have a documented strategy for managing and, in particular, for controlling and limiting risks arising from the concentration of <i>exposures</i>. The <i>firm</i> must notify the <i>FCA</i> of this strategy and all material changes to this strategy without delay. The <i>firm</i> must make appropriate arrangements to ensure a continuous monitoring of the creditworthiness of borrowers, according to their impact on concentration risk. These arrangements must enable the <i>firm</i> to react adequately and sufficiently promptly to any deterioration in that creditworthiness.</p>
16.9	R	<p>Where a <i>firm</i> exceeds the internal limits set according to the strategy referred to in <i>BIPRU</i> TP 16.8R, it must notify the <i>FCA</i> without delay of the size and nature of the excess and of the <i>counterparty</i>.</p>
16.10	R	<p>Definitions</p> <p>The terms financial instrument, investment services and investment activities have the same meaning as they do in the <i>MIFID</i>.</p>
16.11	R	<p>Consolidation</p> <p><i>BIPRU</i> TP 16 does not apply for the purposes of <i>BIPRU</i> 8 (Group risk - consolidation) with respect to a <i>firm's</i> <i>UK consolidation group</i> or, as the case may be, <i>non-EEA sub-group</i> unless the following conditions are satisfied:</p> <p>(1) the group satisfies the requirements in <i>BIPRU</i> TP 15.13 (Application of <i>BIPRU</i> TP 15 on a consolidated basis) and the <i>firm</i> remains eligible to apply the treatment in <i>BIPRU</i> TP 15.13 with respect to that <i>UK consolidation group</i> or, as the case may be, <i>non-EEA sub-group</i>;</p>

-
- (2) there is no *credit institution* in that group;
 - (3) each *investment firm* in the group meets the conditions in *BIPRU* TP 16.1R(2) and (3); and
 - (4) the group meets the conditions in *BIPRU* TP 16.1R(4) to (5) applied on a consolidated basis.

BIPRU TP 20 Standardised credit risk transitionals

FCA PRA

		Application
20.1	R	This section applies to a <i>BIPRU firm</i> .
		Days past due
20.2	R	(1) This <i>rule</i> applies to an <i>exposure</i> in another <i>EEA State</i> of a type to which a <i>CRD implementation measure</i> in that <i>EEA State</i> for the first paragraph of Article 154(1) of the <i>Banking Consolidation Directive</i> (Transitional rule for days past due for claims on <i>PSEs</i> and <i>corporates</i> and <i>retail exposures</i>) applies.
		(2) If the number of days past due set under that <i>CRD implementation measure</i> is greater than the number in BIPRU 3.4.96 R (Treatment of items past due for more than 90 days) that higher number applies.
20.3	R	<i>BIPRU TP 20.2R</i> applies until 31 December 2011 or any earlier date on which the relevant <i>CRD implementation measure</i> ceases to apply.
20.4	G	<i>BIPRU TP 20.2R</i> implements (in part) Article 154(1) of the <i>Banking Consolidation Directive</i> .
		Central government exposures
20.5	R	Until 31 December 2015, a 0% <i>risk weight</i> applies to <i>exposures</i> to the central government of the <i>United Kingdom</i> and of the Bank of England denominated and funded in the currency of another <i>EEA State</i> .
20.6	R	If the <i>CRD implementation measures</i> of another <i>EEA State</i> apply a 0% <i>risk weight</i> to <i>exposures</i> to its central government or <i>central bank</i> denominated and funded in the domestic currency of another <i>EEA State</i> a <i>firm</i> must <i>risk weight</i> such <i>exposures</i> in the same manner.
20.7	R	<i>BIPRU TP 20.6R</i> applies until 31 December 2015 or any earlier date on which the relevant <i>CRD implementation measure</i> ceases to apply.
20.8	G	<i>BIPRU TP 20.5R</i> to <i>BIPRU TP 20.7R</i> implements (in part) Article 153 of the <i>Banking Consolidation Directive</i> .

21.3

G

Explanation

BIPRU 7.4.22 R (1)(b) says that a *firm* should treat *positions* in different grades or brands of the same *commodity*-class as different *commodities* unless they are close substitutes and have price movements which have exhibited a stable correlation coefficient of at least 0.9 over the last 12 months. BIPRU 7.4.23 R says that a *firm* should notify the *appropriate regulator* in writing at least 20 *business days* prior to the date the *firm* starts relying on this treatment. The purpose of this section is to allow a notice given under the corresponding provisions of chapter 10 of *IPRU(INV)* or *IPRU(BANK)* to continue to have effect without the *firm* having to serve a new notice under BIPRU 7.4.23 R.

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 22 Solo consolidation

	Application	
22.1	R	<p>This section applies to a <i>BIPRU firm</i> that:</p> <ol style="list-style-type: none"> (1) is a <i>bank</i> or <i>building society</i>; and (2) on 31 December 2006, was, in accordance with the provision of <i>IPRU</i> referred to in <i>BIPRU TP 22.2R</i> and in accordance with a concession (as defined in <i>BIPRU TP 22.8R</i>), solo-consolidating a <i>subsidiary undertaking</i>.
22.2	R	<p>The provisions of <i>IPRU</i> referred to in <i>BIPRU TP 22.1R</i> are:</p> <ol style="list-style-type: none"> (1) (in the case of a <i>bank</i>) section 9 of chapter CS of <i>IPRU(BANK)</i>; and (2) (in the case of a <i>building society</i>) section 1.11 of chapter 1 of volume 1 of <i>IPRU(BSOC)</i>.
		Deemed solo consolidation waiver
22.3	R	<p>A concession referred to in <i>BIPRU TP 22.1R</i> is treated as a <i>solo consolidation waiver</i> with respect to the <i>subsidiary undertaking</i> to which it relates if the <i>firm</i> notifies the <i>appropriate regulator</i> that the <i>firm</i> wishes to apply the treatment in <i>BIPRU 2.1</i> (Solo consolidation) to that <i>subsidiary undertaking</i>.</p>
		Notice to the appropriate regulator

22.4	R	<p>The following requirements apply to a notice under <i>BIPRU</i> TP 22.3R:</p> <ol style="list-style-type: none"> <li data-bbox="772 327 1398 510">(1) the <i>firm</i> must give the <i>appropriate regulator</i> the notice on or after 1 June 2006 and on or before 29 December 2006; <li data-bbox="772 533 1398 640">(2) the notice must contain details of the concession concerned; <li data-bbox="772 663 1398 882">(3) the notice must give the name of the <i>subsidiary undertaking</i> concerned and say where it is incorporated and has its head office; and <li data-bbox="772 904 1398 1131">(4) the notice must say whether that <i>subsidiary undertaking</i> is a <i>body corporate</i> and state the legal form of that <i>subsidiary undertaking</i>.
Limitations		
22.5	R	<p>Any condition, limitation or requirement to which a concession referred to in <i>BIPRU</i> TP 22.1R is subject continues to apply to the extent that it is compatible with <i>BIPRU</i>. In particular, if the concession was only for the purpose of large exposures it only has effect for the purposes of BIPRU 10 (Concentration risk) and if it was only for the purposes of capital adequacy it only has effect for the purposes of GENPRU 2.1.13 R (Obligation to hold capital resources equal to or greater than the capital resources requirement) or GENPRU 2.1.60 R (Calculation of base capital resources requirement for banks authorised before 1993).</p>
Obligation to meet other qualifying conditions		
22.6	R	<p>A <i>firm</i> with a deemed <i>solo consolidation waiver</i> under <i>BIPRU</i> TP 22.3R may not apply the treatment in BIPRU 2.1 (Solo consolidation) to the <i>subsidiary undertaking</i> concerned unless the conditions in BIPRU 2.1.20 R to BIPRU 2.1.24 R (Solo consolidation - Minimum standards) are met with respect to that <i>subsidiary undertaking</i>.</p>

		Notification of relevance etc of concession
22.7	R	A <i>firm</i> which has the benefit of a concession that has effect under <i>BIPRU</i> TP 22.3R must notify the <i>appropriate regulator</i> immediately if it becomes aware of any matter which is material to the relevance or appropriateness of the concession.
		Meaning of concession
22.8	R	A concession means for the purposes of <i>BIPRU</i> TP 22:
		(1) a consent or approval by the <i>appropriate regulator</i> under the provisions of <i>IPRU(BANK)</i> or <i>IPRU(BSOC)</i> referred to in <i>BIPRU</i> TP 22.2R; and
		(2) a concession also means for the purposes of <i>BIPRU</i> TP 22 a written concession as defined in <i>SUP</i> TP 1.4 (Grandfathering of concessions granted by the <i>appropriate regulator's</i> predecessor regulators: rules in the Handbook) or <i>SUP</i> TP 1.2.6A (Grandfathering of concessions granted by the <i>appropriate regulator</i> predecessor regulators: guidance in the Handbook) that had effect for the purposes of the provisions of <i>IPRU(BANK)</i> or <i>IPRU(BSOC)</i> referred to in <i>BIPRU</i> TP 22.2R.
22.9	G	<i>BIPRU</i> TP 22.8R(2) provides a mechanism for keeping in effect solo consolidation concessions granted by the Bank of England and the Building Societies Commission.

BIPRU TP 25 Exclusions from consolidation

FCA PRA

25.1	R	<p>Application</p> <p>This section applies to a <i>firm</i> to which BIPRU 8 (Group risk - consolidation) applies.</p>
25.2	R	<p>Duration of transitional</p> <p>This section applies until 1 January 2008. However BIPRU TP 25.8R continues in force until it is revoked.</p>
25.3	R	<p>Transitional rule</p> <p>A <i>firm</i> may exclude a member of its <i>UK consolidation group</i> or <i>non-EEA sub-group</i> that would otherwise have been included under BIPRU 8.5 (Basis of consolidation) if, as at 31 December 2006, that member was excluded from the <i>firm's UK consolidation group</i> in accordance with any of the following:</p> <ul style="list-style-type: none"> <li data-bbox="798 1366 1473 1792">(1) bullet points one or three of paragraph 6 of section 4 of Chapter CS of IPRU(BANK) (exclusion from consolidation where inclusion would be inappropriate or misleading or where there are legal impediments to the transfer of information); or <li data-bbox="798 1792 1473 2047">(2) section 1.13 of Chapter 1 of Volume 1 of IPRU(BSOC) (exclusion of subsidiary undertakings where inclusion in the consolidation would

			<p>be misleading or inappropriate); or</p> <p>(3) <i>IPRU(INV)</i> 14.2.5R(2) (exclusion from consolidation where inclusion would be inappropriate or misleading); or</p> <p>(4) any <i>waiver</i> from the consolidation provisions of Chapter 14 of <i>IPRU(INV)</i> or (in the case of <i>IPRU(BSOC)</i>) a written consent or approval by the <i>appropriate regulator</i> on the ground set out in indent one of Article 52(3) of the Directive 2000/12 (the previous version of the <i>Banking Consolidation Directive</i>) (exclusion from consolidation where there are legal impediments to the transfer of information).</p>
25.4	R	<p>A <i>firm</i> may only apply BIPRU TP 25.3R to a member of its <i>UK consolidation group</i> or <i>non-EEA sub-group</i> if the <i>firm</i> or another member of its <i>UK consolidation group</i> notifies the <i>appropriate regulator</i> in writing that it intends to apply that <i>rule</i> to that member and the notice complies with the following requirements:</p> <p>(1) the <i>appropriate regulator</i> was notified on or after 1 November 2006 and on or before 29 December 2006;</p> <p>(2) the notice must give the name of the member concerned and say where it is incorporated and has its head office; and</p> <p>(3) the notice must say whether that member is</p>	

a *body corporate* and state the legal form of that member.

Limitations

25.5 R Any condition, limitation or requirement to which the treatment in *BIPRU* TP 25.3R is subject continues to apply to the extent that it is compatible with *BIPRU*.

Obligation to meet other qualifying conditions

25.6 R A *firm* may only apply the treatment in *BIPRU* TP 25.3R if the conditions in whichever is applicable of Article 73(1)(a) (exclusion from consolidation where there are legal impediments to transfer of information) or Article 73(1)(c) (exclusion from consolidation where inclusion would be inappropriate or misleading) of the *Banking Consolidation Directive* continue to be satisfied.

Notification of relevance etc of concession

25.7 R A *firm* must notify the *appropriate regulator* immediately if it becomes aware of any matter which is material to the relevance or appropriateness of the continuance of the treatment in *BIPRU* TP 25.3R.

Small balance sheet size exclusion

25.8 R If a *firm* excluded a member of its *UK consolidation group* or *non-EEA sub-group* from the *firm's UK consolidation group* in accordance with:

- (1) bullet point two of paragraph 6 of section 4 of Chapter CS of *IPRU(BANK)* (exclusion from consolidation where combined balance sheet is below certain thresholds);
- (2) *IPRU(INV)* 14.2.5R(1) (exclusion from consolidation where combined balance sheet is below certain thresholds); or
- (3) a written consent or approval by the *appropriate regulator* under *IPRU(BSOC)* on the

ground set out in indent two of Article 52(3) of the Directive 2000/12 (the previous version of the *Banking Consolidation Directive*) (exclusion from consolidation where combined balance sheet is below certain thresholds);

the *firm* need not notify the *appropriate regulator* under BIPRU 8.5.9 R (exclusion from consolidation where combined balance sheet is below certain thresholds) as long as it has notified the *appropriate regulator* of its intention to take advantage of this *rule* and that notice complies with BIPRU TP 25.4R.

BIPRU TP 30 Liquidity floor for certain banks

PRA

Application

30.1 R BIPRU TP 30 applies to a *firm* which as at 1 December 2009 is a *standard ILAS BIPRU firm* and which as at 30 November 2009 calculated its liquidity resources in accordance with Chapter LM of *IPRU(BANK)*.

Duration of transitional provisions

30.2 R BIPRU TP 30 applies:

- (1) in the case of an *incoming EEA firm* or a *third country BIPRU firm*, from 1 November 2010 until the earlier of the date on which the *firm* receives *individual liquidity guidance* from the PRA and 31 December 2012; and
- (2) in the case of any other *firm*, from 1 October 2010 until the earlier of the date on which the *firm* receives *individual liquidity guidance* from the PRA and 31 December 2012.

Transitional provisions

30.3 R A *standard ILAS BIPRU firm* falling into BIPRU TP 30.1 must ensure that at all times between 1 October 2010 or 1 November 2010 (as relevant) and the expiry of BIPRU TP 30 it maintains liquidity resources which are no less in amount than the higher of:

- (1) the amount it assesses as adequate in its *ILAA*; and
- (2) the amount that it would have maintained during that period had it calculated its liquidity resources solely in accordance with Chapter LM of *IPRU(BANK)* in the form in which it appeared on 30 September 2010 or 31 October 2010 (as relevant).

30.4 R (1) For the purpose of BIPRU 12.9.14 R (Regulatory intervention points for ILAS BIPRU firms) and for the duration of BIPRU TP 30, there is added one further event which is to constitute a regulatory intervention point for a *standard ILAS BIPRU firm*.

- (2) The further event to which (1) refers is the amount of the *firm's* liquid assets falling below, or being expected to fall below, the level required in BIPRU TP 30.3.

30.5 G (1) BIPRU TP 30.3 R deals with the overall amount of liquidity resources a *firm* is required to hold. It does not specify the proportion of those liquidity

- resources that a *firm* must hold in a liquid assets buffer that meets the liquid asset buffer requirements (BIPRU 12.2.8 R (1) and BIPRU 12.7).
- (2) The *PRA* recognises that it may take time for a *firm* to build a buffer which is of a sufficient size and quality and that the transition from the *PRA's* liquidity regime in force immediately prior to the BIPRU 12 regime is likely to be a gradual one (see BIPRU 12.2.10 G).
 - (3) In carrying out its *ILAA*, a *firm* must record the evidence which supports its assessment of the adequacy of its liquid assets buffer (see BIPRU 12.5.13 R (3)). While a *firm* is building up its liquid assets buffer, its assessment of the adequacy of that buffer should include an analysis of its ability to satisfy its liquidity needs with liquidity resources that are not eligible to be included in the liquid assets buffer.

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 31

Consequential changes to the Handbook occasioned by BIPRU 12: all firms to which BIPRU 12 applies

Application	
31.1	R <i>BIPRU</i> TP 31 applies to a <i>firm</i> which as at 1 December 2009 falls into BIPRU 12.1.1 R.
31.2	G The Prudential Sourcebook for Banks, Building Societies and Investment Firms (Liquidity) (Consequential Amendments) Instrument 2009 (FSA 2009/68) comes into force on 1 December 2009 (with the exception of Annex F which comes into force on 1 June 2010). The effect of BIPRU TP 26 is that the quantitative aspects of BIPRU 12 are disapplied for a period following 1 December 2009, the exact period of disapplication varying according to the type of <i>firm</i> in question. As a result of the phased application of the quantitative aspects of BIPRU 12, the associated consequential <i>Handbook</i> changes are also phased. <i>BIPRU</i> TP 31 deals with the phasing of those consequential <i>Handbook</i> changes.

BIPRU TP 33

Intra-group exposures: Transitional provisions for core UK group and large exposures

FCA PRA

Application

- 33.1 R (1) This section applies to a *BIPRU firm* that on 30 December 2010 was applying any of the exemptions under the following provisions in the version in force on that date:
- (a) BIPRU 3.2.25 R (Zero risk-weighting for intra-group exposures);
 - (b) BIPRU 10.6.5 R to BIPRU 10.6.7 R (Parental guarantees and capital maintenance arrangements);
 - (c) BIPRU 10.7 (Treasury concession and intra-group securities financing transactions);
 - (d) BIPRU 10.8 (UK integrated group); or
 - (e) BIPRU 10.9 (Wider integrated group), if it has a *wider integrated group waiver* that expires after 31 December 2010.
- (2) In order to continue applying any of the exemptions in (1), a *firm* must be able on an ongoing basis to demonstrate to the *appropriate regulator* that it continues to comply fully with the provisions applicable to that exemption.

Duration of transitional

33.2 R This section applies until 31 December 2012.

Zero risk-weighting for intra-group exposures

33.3 R A *firm* may assign a *risk weight* of 0% to *exposures* that are eligible for that treatment under the criteria in BIPRU 3.2.25 R in the version in force on 30 December 2010.

Exemptions from large exposures limits for intra-group exposures

33.4 R A *firm* may, to the extent permitted by this section, treat an *exposure* to a *concentration risk group counterparty* as exempt or partially exempt in accordance with BIPRU 10 (Concentration risk requirements) in the version in force on 30 December 2010.

33.5 G The term *concentration risk group counterparty* broadly covers group members if they and the *firm* are subject to consolidated supervision by the *appropriate regulator*, another *EEA competent authority* or certain non-*EEA* regulators. The full definition can be found in the *Glossary* in the version in force on 30 December 2010.

33.6 G If the context requires, BIPRU 8.9 (Consolidated concentration risk requirements) as it was in force on 30 December 2010 continues to apply to a *firm* that applies BIPRU TP 33.4 R.

Effect of this section on intra-group exemptions in BIPRU 10

33.7 R If a *firm* applies this section, BIPRU 10.8A (Intra-group exposures: core UK group) to BIPRU 10.9A (Intra-group exposures: exposures outside of the core UK group) do not apply.

33.8 G The effect of BIPRU TP 33.7 is that a *firm* should not apply BIPRU 10.8A (Intra-group exposures: core UK group) to BIPRU 10.9A (Intra-group exposures: exposures outside the core UK group) to some *exposures to core concentration risk group counterparties* or *non-core concentration risk group counterparties* and this section to others. The purpose of BIPRU TP 33.7 R is that a *firm* should choose between treating intra-group *exposures* under BIPRU 10.8A (Intra-group exposures: core UK group) to BIPRU 10.9A (Intra-group exposures: exposures outside the core UK group) and treating them under this section but that it should not mix the approaches.

Notice to the appropriate regulator

33.9 R A *firm* may only apply the treatment in BIPRU TP 33.3 R or BIPRU TP 33.4 R if the *firm* has notified the *appropriate regulator* in writing that it intends to apply the relevant *rule* to the particular counterparty or *concentration risk group counterparty* respectively.

33.10 R The notice in BIPRU TP 33.9 R must comply with the following requirements:

- (1) the *appropriate regulator* was notified on or before 31 December 2010;
- (2) the notice must give the following:
 - (a) in the case of the treatment in BIPRU TP 33.3 R:
 - (i) the name of the counterparty concerned; and
 - (ii) details of the *firm's* initial plans on how and when it will ensure that *exposures* that will not be within its *core UK group* are treated in accordance with the relevant *rules* in BIPRU 3;
 - (b) in the case of the treatment in BIPRU TP 33.4 R:
 - (i) the name of the *concentration risk group counterparty* concerned and the intra-group exemption or exemptions that apply to it; and
 - (ii) details of the *firm's* initial plans on how and when it intends to comply with the *large exposures* limits that apply to a *core UK group* or *non-core large exposures group*.

Prudential sourcebook for Banks, Building Societies and Investment Firms

BIPRU TP 34

Large exposures: General transitional provisions

Application

34.1 R This section applies to a *BIPRU* firm.

Purpose

34.2 G This section implements the intra-group exemption in Article 113(3)(f) and the national discretion for exemptions in Articles 113(4)(a) and (c) of the *Banking Consolidation Directive* and the national discretion for *trading book concentration risk excess* in Article 31 of the *Capital Adequacy Directive*.

Duration of transitional

34.3 R This section applies until 31 December 2010.

Version of BIPRU to be used

34.4 R Any reference in this section to *BIPRU* is to the version in force on 30 December 2010.

Rules in BIPRU that apply until 31 December 2010

34.5 R The following *rules* apply until 31 December 2010:

- (1) BIPRU 10.6.3 R (10) (Exemption for covered bonds from the large exposure limit);
- (2) BIPRU 10.5 (Limits on exposures and large exposures);
- (3) BIPRU TP 17 (Large exposures: Exemptions for intra-group exposures for banks and investment firms), if a *firm* has a *waiver* that expires on 31 December 2010 which has the effect of allowing it to apply the exemptions in BIPRU TP 17; and
- (4) BIPRU TP 19 (Large exposures: Exemptions for intra-group exposures on a consolidated basis), if a *firm* has a *waiver* that expires on 31 December 2010 which has the effect of allowing it to apply the exemptions in BIPRU TP 17 on a consolidated basis.

34.6 G The Capital Requirements Directive (Large Exposures) Instrument 2010 (FSA 2010/41) comes into force on 31 December 2010. The effect of *BIPRU* TP 34.5R is that the *BIPRU* provisions contained in that instrument that amend, delete or replace, the *rules* set out in *BIPRU* TP 34.5R are disapplied until 1 January 2011.

Schedule 1 Record keeping requirements

G

FCA PRA

1 The aim of the *guidance* in the following table is to give the reader a quick overall view of the relevant record keeping requirements.

2 It is not a complete statement of those requirements and should not be relied on as if it were.

3 Table

Handbook reference	Subject of Record	Contents of Record	When record must be made	Retention Period
BIPRU 2.2.5 G	<i>Firm's ICAAP</i>	(1) The results of the <i>ICAAP</i> (2) An explanation of the processes used (3) How the process is used internally and for what purpose (4) Internal governance (5) The main sources of risk to which the <i>firm</i> is exposed (6) How the <i>firm</i> is managing each of those risks (7) Details of stress and scenario testing that has been conducted	Annually	Not specified

Handbook reference	Subject of Record	Contents of Record	When record must be made	Retention Period
BIPRU 5.2.3 R, BIPRU 5.4.11 R (2), BIPRU 9.5.1 R (5)	Legal opinions confirming enforceability	(8) The rationale behind the chosen scenarios (9) The results of those scenario tests A record of the legal review showing enforceability of credit protection arrangements in all relevant jurisdictions	Not specified, but before risk mitigant is recognised	Review conducted as necessary
BIPRU 5.2.9 R	Risk management processes	Documented risk management processes to control the risks that <i>firm</i> may be exposed to as a result of carrying out <i>credit risk mitigation</i>	Not specified, but before risk mitigant is recognised	Not specified
BIPRU 5.4.12 R	Collateral procedures	(1) A clear and robust procedure for the liquidation of collateral (2) Documented policies covering the types and amounts of collateral accepted	Not specified, but before collateral is recognised	Not specified
BIPRU 5.4.59 R, BIPRU 5.4.60 R	Volatility adjustments for financial collateral	(1) Documentation of a system estimating volatility adjustments and the integration of the volatility adjustments in its risk management process (2) Review of system estimating volatility adjustments	Not specified, but before <i>own estimates of volatility adjustments approach</i> is used for capital purposes	Not specified
BIPRU 5.7.8 R	System to manage concentration of risk arising from guarantees and credit derivatives	Documentation of a system to manage potential concentration risk arising from <i>unfunded credit protection</i> and how this interacts with its management of its overall risk profile	Not specified, but before <i>unfunded credit protection</i> is recognised	Not specified

Handbook reference	Subject of Record	Contents of Record	When record must be made	Retention Period
BIPRU 7.10.53 R, BIPRU 7.10.54 G	Material risks not captured in the firm's <i>VaR model</i>	Documented risks not captured in the <i>VaR model</i> and creation of a prudent incremental <i>PRR</i> charge for the risk not captured	Not specified	Not specified
BIPRU 9.4.3 R	Legal opinions for <i>securitised exposures</i>	A record of the legal opinions confirming that the <i>securitised exposures</i> have been put beyond the reach of the <i>originator</i>	Not specified, but before <i>securitised exposures</i> are excluded from capital calculation	Review conducted as necessary
BIPRU 9.13.12 R (1)	Capital plan in case of early amortisation	For controlled amortisation, the capital/liquidity plan to ensure that sufficient capital and liquidity are available in the event of early amortisation	Not specified	Not specified
BIPRU 9.13.21 R	Capital plan in case of either scheduled or early amortisation	The capital plan to address the capital implications of both scheduled and early amortisation	Not specified	Not specified
BIPRU 12.3.8 R (1)	<i>A firm's liquidity risk tolerance</i>	An appropriately documented account of the <i>firm's liquidity risk tolerance</i>	Not specified	Not specified
BIPRU 12.4.13 R	<i>A firm's contingency funding plan</i>	Formal documentation of the <i>contingency funding plan</i>	Not specified	Not specified
BIPRU 12.5.4 R (2)	<i>An ILAS BIPRU firm's ILAA</i>	A written record of the <i>firm's ILAA</i>	Not specified	Not specified
BIPRU 12.5.13 R (2)	<i>ILAA methodology</i>	Evidence supporting the behavioural assumptions that an <i>ILAS BIPRU firm</i> makes in carrying out its BIPRU 12.5.6 R stress tests for the purpose of its <i>ILAA</i>	Not specified	Not specified
BIPRU 12.5.13 R (3)	<i>ILAA methodology</i>	Evidence supporting an <i>ILAS BIPRU firm's</i> assessment of the adequacy of its liquidity buffer for the purpose of its <i>ILAA</i>	Not specified	Not specified
BIPRU 12.6.13 R	The <i>simplified ILAS waiver application</i>	A written policy statement assessing	Not specified	Not specified

Handbook reference	Subject of Record	Contents of Record	When record must be made	Retention Period
		the likelihood of withdrawal of retail <i>deposits</i> in the circumstances described in BIPRU 12.6.11 R (2)(a)		
BIPRU 12.6.21 R	<i>A simplified ILAS</i> BIPRU <i>firm's ILSA</i>	A written record of the <i>firm's ILSA</i>	Not specified	Not specified
BIPRU 12.7.11 R	Periodic realisation of assets	A written policy setting out the <i>firm's</i> approach to periodic realisation of its assets	Not specified	Not specified
BIPRU 13.6.48 R	Operation of <i>CCR</i> management system	Documented set of internal policies, controls and procedures concerning the operation of the <i>CCR</i> management system	Prior to application for <i>CCR internal model method permission</i>	Continuous
BIPRU 13.7.6 R (2)	Legal opinion regarding netting agreements	A record of legal opinions that, in the event of a legal challenge, relevant courts and administrative authorities would find that the <i>firm's</i> claims and obligations would be limited to the net sum in BIPRU 13.7.6 R (1)	On entering into a transaction and making use of netting agreements	While transaction held

Schedule 2 Notification and reporting requirements

G

FCA PRA

1 The aim of the *guidance* in the following table is to give the reader a quick overall view of the relevant notification requirements.

2 It is not a complete statement of those requirements and should not be relied on as if it were.

3 Table

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
BIPRU 1.2.30 R	Adoption of or significant change to a <i>trading book policy statement</i>	Copy of the <i>trading book policy statement</i>	Adoption of or significant change to a <i>trading book policy statement</i>	Immediately
BIPRU 3.2.35 R (5)	Fact of <i>exposure</i> or <i>firm</i> ceasing to meet the conditions in BIPRU 3.2.25 R	(5): Fact of <i>exposure</i> or <i>firm</i> ceasing to meet the conditions in BIPRU 3.2.25 R	(5): Ceasing to meet conditions	(5): First report date after the obligation to notify becomes due
BIPRU 7.2.48B R	Total sum of a <i>firm's</i> weighted net long and net short <i>securitisation</i> and <i>resecuritisation positions</i> , broken down by types of underlying assets	Total sum of a <i>firm's</i> weighted net long and net short <i>securitisation</i> and <i>resecuritisation positions</i> , broken down by types of underlying assets	Periodically as set out in SUP 16.12	In accordance with SUP 16.12
BIPRU 7.4.23 R	Intention to rely on approach in BIPRU 7.4.22 R (1)(b)	Fact of intention and details on which <i>commodities</i> the <i>firm</i> intends to treat as same <i>commodity</i> -class and justification	Intention to rely	At least 20 <i>business days</i> prior to the date the <i>firm</i> starts relying on BIPRU 7.4.23 R
BIPRU 7.5.4 R	Intention to use an exclusion under BIPRU 7.5.4 R (1)	Fact of intention and the terms on which the relevant item will be excluded from the <i>firm's</i> <i>foreign currency</i> PRR calculation	Intention to use	Before use of the exclusion

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
BIPRU 7.10.55ZA R	Material shortfall in the amount of capital required under the <i>all price risk measure</i> identified as a result of performing the stress tests under BIPRU 7.10.55Z R	Information about the stress tests and the material shortfall in capital	Existence of a material shortfall in capital	No later than two <i>business days</i> after the <i>business day</i> on which the material shortfall occurred
BIPRU 7.10.104 R	Occurrence of <i>backtesting exception</i>	Fact of <i>backtesting exception</i>	<i>Backtesting exception</i>	Orally within 2 <i>business days</i> , and written account of all <i>backtesting exceptions</i> that <i>Month</i> , within 5 <i>business days</i> after the <i>Month</i>
BIPRU 7.10.129 R	Operation of the <i>VaR model</i> , systems and controls relating to it and changes to the <i>VaR model</i> and those systems and controls	Documentation specified in the <i>VaR model waiver/VaR model permission</i>	<i>appropriate regulator</i> specified requirements	No later than number of <i>business days</i> after the end of each quarter specified in the <i>VaR model permission</i>
BIPRU 7.10.130 R	Details of significant planned changes to the <i>VaR model</i>	Information about the nature of the change and an estimate of the impact on <i>VaR numbers</i> and the <i>incremental risk charge</i>	Intention to change	Prior to any changes being implemented
BIPRU 8.4.18 R(2)	Serious risk that could undermine the financial stability of the <i>CAD Article 22 group</i>	Fact of serious risk to group financial stability	Events/ activities leading to serious risk to group financial stability	As soon as the <i>firm</i> becomes aware of that risk
BIPRU 8.4.18 R (3)	<i>Consolidated capital resources</i> and <i>consolidated capital resources requirement</i> of the <i>CAD Article 22 group</i> as set out in the <i>investment firm consolidation waiver</i>	Amount of <i>CAD Article 22 group consolidated capital resources</i> and <i>consolidated capital resources requirement</i>	Periodically as set out in the <i>investment firm consolidation waiver</i>	Not specified
BIPRU 8.4.18 R (4)	Large exposures risks of the <i>CAD Article 22 group</i> including <i>undertakings</i> not located in a member State	Large exposures risks of the <i>CAD Article 22 group</i> including <i>undertakings</i> not located in a member State	Periodically as set out in the <i>investment firm consolidation waiver</i>	Not specified
BIPRU 8.5.9 R	Intention to exclude an <i>undertaking</i> from consolidation	Fact of intention and details of <i>undertaking</i> to be excluded	Intention to exclude	In accordance with SUP 15.7

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
BIPRU 8.6.1B R	Intention of a <i>group undertaking</i> to issue a <i>capital instrument</i> for inclusion in <i>capital resources</i> or <i>consolidated capital resources</i>	Fact of intention and details of intended amount, issue date, type of investor, stage of capital, features of instrument and confirmation of compliance with <i>rules</i>	Intention to issue	As soon as proposed issue becomes known to <i>firm</i>
BIPRU 8.6.1C R	Proposed changes to details of the issue of a <i>capital instrument</i> notified under BIPRU 8.6.1B R	Proposed change and all information required under BIPRU 8.6.1B R (1) to BIPRU 8.6.1B R (4)	Intention to change any details of the issue previously notified to the <i>appropriate regulator</i>	As soon as the changes are proposed
BIPRU 8.6.1D R	Proposed establishment of a debt securities program by a <i>group undertaking</i>	All information required under BIPRU 8.6.1B R (1) to BIPRU 8.6.1B R (4)	Intention to establish	As soon as proposed establishment becomes known to <i>firm</i>
BIPRU 8.6.1F R	Issue of <i>capital instruments</i> by a <i>group undertaking</i> under BIPRU 8.6.1E R	All information required under BIPRU 8.6.1B R (1) to BIPRU 8.6.1B R (3) and confirmation no changes have been made to the terms of the instrument from a previous similar issue	Intention to issue	No later than the date of issue
BIPRU 8.7.16 R	(1) The choice of consolidation technique in BIPRU 8.7.13 R it applies for which consolidated requirement component: and (2) to which members of the relevant group it is applying the different methods in BIPRU 8.7.13 R	(1) The choice of consolidation technique in BIPRU 8.7.13 R to be applied for each consolidated requirement component (2) the members of the relevant group to which it is applying the different methods in BIPRU 8.7.13 R	See SUP 16	See SUP 16
BIPRU 9.6.2 R	Provision of implicit support to a <i>securitisation</i>	(1) Provision of non-contractual support, and (2) The regulatory capital impact of providing implicit support	Provision of implicit support	Not specified
BIPRU 10.8A.12 R	<i>Exposure</i> being treated as exempt under BIPRU 10.8A (Core UK group) ceases to meet the conditions for ap-	Fact or expectation of any <i>exposure</i> to which it has applied the treatment ceases to meet the conditions	Awareness of situation	Immediately

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
BIPRU 10.9A.8 R (2)	Intention to use BIPRU 10.9A.8 R (1) to concentrate an <i>exposure</i> to a particular member of the <i>non-core large exposures group</i> that exceeds 25% of the capital resources of the <i>firm's core UK group</i>	for application of the treatment Fact of intention and the information in BIPRU 10.9A.8 R (3)	Intention to use BIPRU 10.9A.8 R (1)	Not specified
BIPRU 10.9A.12 R	<i>Exposure</i> being treated as exempt under BIPRU 10.9A (Intra-group exposures: exposures outside the core UK group) ceases to meet the conditions for application of the treatment	Fact or expectation of any <i>exposure</i> to which it has applied the treatment ceases to meet the conditions for application of the treatment	Awareness of situation	Immediately
BIPRU 10.12.6 R	Artificial transfer, transaction or arrangement.	Fact of entry into a transfer, transaction or arrangement of the type mentioned in BIPRU 10.12.5 R	Entry into an artificial transfer, transaction or arrangement	Not specified
BIPRU 12.4.9 R	Results of the BIPRU 12.4 stress tests	The results referred to in column (2)	The carrying out of the BIPRU 12.4 stress tests	To be reported in a timely manner
BIPRU 12.6.13 R (2)	A <i>simplified ILAS BIPRU firm's</i> policy statement prepared in accordance with BIPRU 12.6.13 R	The policy statement referred to in column (2)	The <i>firm's</i> decision to apply for a <i>simplified ILAS waiver</i>	Prior to the <i>firm's</i> application for a <i>simplified ILAS waiver</i>
BIPRU 12.9.13 R	The occurrence of any of the events identified in BIPRU 12.9.14 R	Fact of occurrence and adequately reasoned explanation for the deviation	The occurrence of any of the events identified in BIPRU 12.9.14 R	As soon as the <i>firm</i> becomes aware of the event in question
BIPRU 12.9.18 R	A <i>firm's</i> liquidity remediation plan	The matters identified in BIPRU 12.9.18 R	The occurrence of any of the events identified in BIPRU 12.9.14 R	Within two days of the notification made under BIPRU 12.9.13 R
BIPRU 13.2.2 R	Counterparty risk <i>exposure</i> of non-standard type	Fact of <i>exposure</i> , <i>counterparty</i> involved, nature of the <i>exposure</i> and capital treatment adopted	Entry into non-standard <i>exposure</i>	Immediately
BIPRU 13.6.20 R	Cessation to comply with requirements set out in BIPRU 13.6 for	Plan for timely return to compliance or demonstration that	Ceasing to comply with requirements	Immediately

Handbook reference	Matter to be notified	Contents of notification	Trigger event	Time allowed
	<i>CCR internal model method permission</i>	the effect of non-compliance is immaterial		

Prudential sourcebook for Banks, Building Societies and Investment Firms

Schedule 3 Fees and other requirement payments

G

FCA PRA

There are no requirements for fees or other payments in *BIPRU*.

Prudential sourcebook for Banks, Building Societies and Investment Firms

Schedule 4 Powers exercised

4.1 G

The following powers and related provisions in the *Act* have been exercised by the *FSA* to make the *rules* in *BIPRU*:

Section 138 (General rule-making power)

Section 148(3) (Modification or waiver of rules)

Section 149 (Evidential provisions)

Section 150(2) (Actions for damages) and

Section 156 (General supplementary powers)

Sch 4.2 G

The following additional powers have been exercised by the *FSA* to make the *rules* in *BIPRU*:

Regulation 2(3) (application for permission) of the Capital Requirements Regulations 2006 (SI 2006/3221)

Sch 4.3 G

The following power in the *Act* has been exercised by the *FSA* to give the *guidance* in *BIPRU*:

Section 157(1) (Guidance).

Prudential sourcebook for Banks, Building Societies and Investment Firms

Schedule 5 Rights of action for damages

G

FCA

1. The table below sets out the rules in *BIPRU* contravention of which by an *authorised person* may be actionable under section 138D of the *Act* (Actions for damages) by a person who suffers loss as a result of the contravention.
2. If a "Yes" appears in the column headed "For private person", the rule may be actionable by a private person under section 138D (or, in certain circumstances, his fiduciary or representative; see article 6(2) and (3)(c) of the Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001/2256)). A "Yes" in the column headed "Removed" indicates that the *appropriate regulator* has removed the right of action under section 138D(3) of the Act. If so, a reference to the rule in which it is removed is also given.
3. The column headed "For other person" indicates whether the rule may be actionable by a person other than a private person (or his fiduciary or representative) under article 6(2) and (3) of those Regulations. If so, an indication of the type of person by whom the rule may be actionable is given.

Chapter/Appendix	Section/Annex	Right of action under section 138D		
		For private person	Removed	For other person
All rules in <i>BIPRU</i>		No	Yes - BIPRU 1.4.1 R	No

Prudential sourcebook for Banks, Building Societies and Investment Firms

Schedule 6 Rules than can be waived

G**FCA** **PRA**

The rules in *BIPRU* may be waived by the *appropriate regulator* under section 138A of the *Act* (Modification or waiver of rules). However, if the *rules* incorporate requirements laid down in European directives, it will not be possible for the *appropriate regulator* to grant a *waiver* that would be incompatible with the *United Kingdom's* responsibilities under those directives. It therefore follows that if a *rule* in *BIPRU* contains provisions which derive partly from a directive, and partly not, the *appropriate regulator* will be able to consider a *waiver* of the latter requirements only, unless the directive provisions are optional rather than mandatory.

Chapter 1

Capital resources requirements and technical provisions for insurance business

1.1 Application

1.1.1

FCA PRA

R

■ INSPRU 1.1 applies to an *insurer* unless it is:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

1.1.2

FCA PRA

R

- (1) This section applies to a *firm* in relation to the whole of its business, except where a particular provision provides for a narrower scope.
- (2) Where a *firm* carries on both *long-term insurance business* and *general insurance business*, this section applies separately to each type of business.

1.1.3

FCA PRA

R

For a *non-EEA insurer* with a *branch* in the *United Kingdom* whose *insurance business* in the *United Kingdom* is not restricted to *reinsurance* (other than an *EEA-deposit insurer*, a *Swiss general insurer* or a *UK-deposit insurer*):

- (1) the part of this section headed "Capital requirements for insurers" (■ INSPRU 1.1.43 G to ■ INSPRU 1.1.92B G) applies to its world-wide activities;
- (2) the parts of this section headed:
 - (a) "Establishing technical provisions" (■ INSPRU 1.1.12 R to ■ INSPRU 1.1.19 G);
 - (b) "Reinsurance and analogous non-reinsurance financing agreements: risk transfer principle" (■ INSPRU 1.1.19A R to ■ INSPRU 1.1.19F G);
 - (c) "Assets of a value sufficient to cover technical provisions and other liabilities" (■ INSPRU 1.1.20 R to ■ INSPRU 1.1.29 G);

(d) "Matching of assets and liabilities" (■ INSPRU 1.1.34 R to ■ INSPRU 1.1.40 G); and

(e) "Premiums for new business" (■ INSPRU 1.1.41 R to ■ INSPRU 1.1.42 G);

apply separately in respect of its world-wide activities and its activities carried on from a *branch* in the *United Kingdom*; and

(3) the part of this section headed "Localisation" (■ INSPRU 1.1.30 R to ■ INSPRU 1.1.33 R) does not apply (see ■ INSPRU 1.5 (Internal contagion risk)).

1.1.4

FCA PRA

R

For an *EEA-deposit insurer* or a *Swiss general insurer*:

(1) the parts of this section headed:

(a) "Establishing technical provisions" (■ INSPRU 1.1.12 R to ■ INSPRU 1.1.19 G);

(b) "Reinsurance and analogous non-reinsurance financing agreements: risk transfer principle" (■ INSPRU 1.1.19A R to ■ INSPRU 1.1.19F G);

(c) "Assets of a value sufficient to cover technical provisions and other liabilities" (■ INSPRU 1.1.20 R to ■ INSPRU 1.1.29 G);

(d) "Matching of assets and liabilities" (■ INSPRU 1.1.34 R to ■ INSPRU 1.1.40 G); and

(e) "Premiums for new business" (■ INSPRU 1.1.41 R to ■ INSPRU 1.1.42 G);

apply in respect of the activities of the *firm* carried on from a *branch* in the *United Kingdom*; and

(2) the parts of this section headed "Capital requirements for insurers" (■ INSPRU 1.1.43 G to ■ INSPRU 1.1.92B G) and "Localisation" (■ INSPRU 1.1.30 R to ■ INSPRU 1.1.33 R) do not apply.

1.1.5

FCA PRA

R

For a *UK-deposit insurer*:

(1) the part of this section headed "Capital requirements for insurers" (■ INSPRU 1.1.43 G to ■ INSPRU 1.1.92B G) applies to its world-wide activities;

(2) the parts of this section headed:

(a) "Establishing technical provisions" (■ INSPRU 1.1.12 R to ■ INSPRU 1.1.19 G);

- (b) "Reinsurance and analogous non-reinsurance financing agreements: risk transfer principle" (■ INSPRU 1.1.19A R to ■ INSPRU 1.1.19F G);
- (c) "Assets of a value sufficient to cover technical provisions and other liabilities" (■ INSPRU 1.1.20 R to ■ INSPRU 1.1.29 G);
- (d) "Matching of assets and liabilities" (■ INSPRU 1.1.34 R to ■ INSPRU 1.1.40 G); and
- (e) "Premiums for new business" (■ INSPRU 1.1.41 R to ■ INSPRU 1.1.42 G);

apply separately in respect of its world-wide activities and its activities carried on from *branches* in *EEA States*; and

- (3) the part of this section headed "Localisation" (■ INSPRU 1.1.30 R to ■ INSPRU 1.1.33 R) does not apply (see ■ INSPRU 1.5 (Internal contagion risk)).

1.1.6
FCA PRA

G This section may apply in cases where a *firm* has its head office in another *EEA State* but is neither an *incoming EEA firm* nor an *incoming Treaty firm*; this could arise in the case of a *non-directive mutual*.

Purpose

1.1.7
PRA

G ■ INSPRU 1.1 has the aim of reducing the risk that a *firm* may fail to meet its liabilities to its *policyholders* as a result of insurance risk, that is, the risk that arises from the inherent uncertainties as to the occurrence, amount and timing of insurance liabilities.

1.1.8
PRA

G This section requires that the *technical provisions* that *firms* establish are adequate to meet their liabilities to *policyholders* under *contracts of insurance*. It also requires that *firms* hold assets of a value sufficient to cover their liabilities, including *technical provisions*, and that there is suitable matching of assets and liabilities. *Technical provisions* are the on-balance sheet provisions made by a *firm* in respect of liabilities arising under or in connection with *contracts of insurance*. There are different *rules* and *guidance* applicable to the calculation of *technical provisions* for *general insurance business* and for *long-term insurance business*.

1.1.9
PRA

G This section implements requirements of the *Insurance Directives* for both *general insurance business* and *long-term insurance business* with regard to the *technical provisions*. The relevant articles of the Directives include:

- (1) article 15 of the *First Non-Life Directive*, as substituted by article 17 of the *Third Non-Life Directive*; and
- (2) article 20 of the *Consolidated Life Directive* (this Directive consolidates the provisions of the previous *First, Second* and *Third Life Directives*).

1.1.10
PRA

G

This section also sets out detailed *rules* and *guidance* on the calculation of the following elements of a *firm's capital resources requirement* (CRR) (see ■ GENPRU 2.1):

- (1) the *general insurance capital requirement*; and
- (2) the *long-term insurance capital requirement*.

1.1.11
PRA

G

These requirements are dealt with in the part of this section headed "Capital requirements for insurers" (see ■ INSPRU 1.1.43 G to ■ INSPRU 1.1.91 R). That part of this section also contains *rules* about the calculation of the *enhanced capital requirement* for *firms* carrying on *general insurance business*, including the calculation of the *insurance-related capital requirement*. The calculation of the *asset-related capital requirement*, which also forms part of the calculation of the *ECR* for *firms* carrying on *general insurance business* is set out in ■ INSPRU 2.2.

Establishing technical provisions

1.1.12
PRA

R

For *general insurance business*, a *firm* must establish adequate technical provisions:

- (1) in accordance with the *rules* in ■ INSPRU 1.4 for *equalisation provisions*; and
- (2) otherwise, in accordance with ■ GENPRU 1.3.4 R.

1.1.13
PRA

G

For *general insurance business*, the *technical provisions* include outstanding *claims provisions*, *unearned premiums provisions*, unexpired risk provisions and *equalisation provisions*. These provisions take into account the expected ultimate cost of *claims*, including those not yet incurred, related expenses and include an allowance for smoothing *claims* (the *equalisation provision*).

1.1.14
PRA

G

Discounting (that is discounting for the time value of money) *general insurance business technical provisions* may be carried out only in limited circumstances and on a prudent basis (see ■ GENPRU 2.2.107 R and paragraph 48 of the *insurance accounts rules*). The fact that the expected liabilities are generally not *discounted* helps to protect against risk from inherent uncertainty in the timing, but not necessarily the amount, of *claims*.

1.1.15
PRA

G

For some categories of *general insurance business*, *equalisation provisions* are required. These ensure that a *firm* retains additional assets to provide some extra protection against uncertainty as to the amount of *claims*. *Equalisation provisions* are particularly suitable for volatile business, where *claims* in any future year may be subject to significant adverse deviation from recent or average expected *claims* experience, or where trends in *claims* experience may be subject to change. Such volatile *claims* experience arises in a number of types of business, for example, property, marine and aviation, nuclear, certain *non-proportional reinsurance treaty* business, and credit insurance. The *equalisation provisions* help to equalise fluctuations in loss ratios in future years (see ■ INSPRU 1.4 (*Equalisation provisions*)).

1.1.16
PRA

R

For *long-term insurance business*, a *firm* must establish adequate technical provisions in respect of its *long-term insurance contracts* as follows:

- (1) *mathematical reserves* in accordance with the *rules and guidance* in ■ INSPRU 1.2 relating to such reserves, and with due regard to generally accepted actuarial practice; and
- (2) for liabilities in respect of such contracts that have fallen due, in accordance with ■ GENPRU 1.3.4 R.

1.1.17
PRA

G

Rules and guidance for calculating *mathematical reserves* are set out in ■ INSPRU 1.2. *Firms* are advised by the *actuarial function* (see ■ SUP 4) on the methods and assumptions to be used in calculating the *mathematical reserves*. The standards and guidance issued by the Board for Actuarial Standards to assist actuaries appointed to the *actuarial function* are important sources of evidence as to generally accepted actuarial practice, as referred to in ■ INSPRU 1.1.16 R (1).

1.1.18
PRA

G

For *long-term insurance business*, the *technical provisions* include the *mathematical reserves*. These are actuarial estimates of a *firm's* liabilities in respect of future benefits due to *policyholders*, including bonuses already declared. The *mathematical reserves* may be reduced by the actuarial value of that component of future *premiums* attributable to meeting future liabilities (see ■ INSPRU 1.2 (*Mathematical reserves*)).

1.1.19
PRA

G

For *long-term insurance business*, the *mathematical reserves* are typically valued on a discounted basis but include valuation margins intended to provide protection against adverse deviations in experience (see ■ INSPRU 1.2).

Reinsurance and analogous non-reinsurance financing agreements: risk transfer principle

1.1.19A
PRA

R

- (1) A *firm* may only take credit for *reinsurance* if and to the extent that there has been an effective transfer of risk from the *firm* to a third party.
- (2) In ■ INSPRU 1.1.19A R to ■ INSPRU 1.1.19F G, references to *reinsurance* and contracts of *reinsurance* include:
 - (a) all contracts of *reinsurance* with an *ISPV*; and
 - (b) analogous non-*reinsurance* financing agreements.

1.1.19B
PRA

R

For the purposes of ■ INSPRU 1.1.19A R (2)(b), analogous non-*reinsurance* financing agreements include contingent loans, securitisations and any other arrangements in respect of *contracts of insurance* that are analogous to contracts of *reinsurance* in terms of the risks transferred and the finance provided.

1.1.19C

PRA

G

There are a number of ways in which a *firm* may be able to take credit for *reinsurance* under the *rules* in *GENPRU* and *INSPRU*. Examples include:

- (1) treating the *reinsurer's* share of *technical provisions* as an *admissible asset* in accordance with ■ *GENPRU 2 Annex 7 R*;
- (2) reducing its solvency requirements in accordance with the deduction for *reinsurance* allowed in the calculation of the *general insurance capital requirement* or the *long-term insurance capital requirement* under ■ *INSPRU 1.1*; and
- (3) bringing into account amounts receivable under the contract when valuing cash flows for the purpose of a prospective valuation of *mathematical reserves* under ■ *INSPRU 1.2*. In particular, a contingent loan or other analogous non-*reinsurance* financing agreement may then give rise to an addition to *capital resources* as a positive valuation difference in accordance with ■ *GENPRU 2.2.105 R*.

1.1.19D

PRA

G

The amount of credit taken by a *firm* for a risk transferred should be measured by applying the standard methods for determining the regulatory balance sheet set out in *INSPRU*. For example, where credit is being taken so as to reduce *technical provisions*, the amount of that credit should reflect the difference in *technical provisions* that arises from changing the assumptions used to reflect the risk transferred.

1.1.19E

PRA

G

For the purposes of ■ *INSPRU 1.1.19A R (1)*, the transfer of risk from the *firm* to the third party should be effective in all circumstances in which the *firm* may wish to rely upon the transfer. Examples of factors which the *firm* should take into account in assessing whether the transaction effectively transfers risk and the extent of that transfer include:

- (1) whether the documentation associated with the *reinsurance* reflects the economic substance of the transaction;
- (2) whether the extent of the risk transfer is clearly defined and incontrovertible;
- (3) whether the transaction contains any terms or conditions the fulfilment of which is outside the direct control of the *firm*. Such terms or conditions may include those which:
 - (a) would allow the third party unilaterally to cancel the transaction, except for the non-payment of monies due from the *firm* to the third party under the contract; or
 - (b) would increase the effective cost of the transaction to the *firm* in response to an increased likelihood of the third party experiencing losses under the transaction; or
 - (c) would oblige the *firm* to alter the risk that had been transferred with the purpose of reducing the likelihood of the third party experiencing losses under the transaction; or
 - (d) would allow for the termination of the transaction due to an increased likelihood of the third party experiencing losses under the transaction; or
 - (e) could prevent the third party from being obliged to pay out in a timely manner any monies due under the transaction; or
 - (f) could allow the maturity of the transaction to be reduced;

- (4) whether the transaction is legally effective and enforceable in all relevant jurisdictions.

1.1.19F
PRA

G

A *firm* should also take into account circumstances in which the benefit to the *firm* of the transfer of risk could be undermined. For instance, where the *firm*, with a view to reducing potential or actual losses to third parties, provides support to the transaction, including support beyond its contractual obligations (implicit support). Another example of a situation where the *firm* should consider whether it should take reduced credit for a transaction is where it has invested in the bonds issued by an *ISPV* with which it has reinsured risks.

Assets of a value sufficient to cover technical provisions and other liabilities

1.1.20
PRA

R

A *firm* which is not a *composite firm* must hold *admissible assets* of a value at least equal to the amount of:

- (1) the *technical provisions* that it is required to establish under ■ INSPRU 1.1.12 R or ■ INSPRU 1.1.16 R; and
- (2) its other *general insurance liabilities* or *long-term insurance liabilities*;

but excluding, where the *firm* is not a *pure reinsurer*, *property-linked liabilities* and *index-linked liabilities* and the assets held to cover them under ■ INSPRU 3.1.57 R and ■ INSPRU 3.1.58 R.

1.1.21
PRA

R

A *composite firm* must ensure that:

- (1) it holds *admissible assets* separately identified in accordance with ■ INSPRU 1.5.18 R of a value at least equal to the amount of:
 - (a) the *technical provisions* that it is required to establish under ■ INSPRU 1.1.16 R; and
 - (b) its other *long-term insurance liabilities*;but excluding, where the *firm* is not a *pure reinsurer*, *property-linked liabilities* and *index-linked liabilities* and the assets held to cover them under ■ INSPRU 3.1.57 R and ■ INSPRU 3.1.58 R; and
- (2) it holds other *admissible assets* (other than those excluded under (1)) of a value at least equal to the amount of:
 - (a) the *technical provisions* that it is required to establish under ■ INSPRU 1.1.12 R; and
 - (b) its other *general insurance liabilities*.

1.1.22 **G** ■ INSPRU 1.5 (Internal-contagion risk) sets out the *rules* and *guidance* on identifying and holding in a separate fund *long-term insurance assets*.
PRA

1.1.23 **G** When valuing assets for the purposes of ■ INSPRU 1.1.20 R and ■ INSPRU 1.1.21 R, a *firm* should bear in mind:
PRA

- (1) that the *technical provisions* and other *long-term insurance liabilities* or *general insurance liabilities* should be covered by *admissible assets* (see ■ GENPRU 2 Annex 7 R); and
- (2) the market and *counterparty* limits set out in ■ INSPRU 2.1 (Credit risk in insurance). ■ INSPRU 2.1 requires that a *firm* restrict to prudent levels its exposure to *reinsurer* and other *counterparties*, and, in particular, that for the purpose of its balance sheet, a *firm* must not take into account any exposure which exceeds the large exposure limits.

1.1.24 **G** *Rules* and *guidance* on the valuation of assets are set out in ■ GENPRU 1.3 (Valuation), including the treatment of *shares* in, and debts due from, *related undertakings* in ■ GENPRU 1.3.43 R to ■ GENPRU 1.3.54 G. ■ INSPRU 3.1 (Market risk in insurance) addresses *market risk* and sets out the matching requirements for linked assets and liabilities. ■ INSPRU 3.1 also sets out *rules* and *guidance* on the matching by currency of assets and liabilities, to reduce a *firm's* exposure to currency *market risk*.
PRA

1.1.25 **R** For the purpose of determining the value of assets available to meet *technical provisions* and other *long-term insurance liabilities* in accordance with ■ INSPRU 1.1.20 R, ■ INSPRU 1.1.21 R, ■ INSPRU 1.1.27 R and ■ INSPRU 1.1.28 R, no value is to be attributed to:
PRA

- (1) debts owed by *reinsurers*; or
- (2) *claims*; or
- (3) tax recoveries; or
- (4) claims against *compensation funds*;

to the extent already offset in the calculation of *technical provisions*.

1.1.26 **G** Certain debts and claims are excluded from ■ INSPRU 1.1.20 R, ■ INSPRU 1.1.21 R, ■ INSPRU 1.1.27 R and ■ INSPRU 1.1.28 R to avoid double-counting. The *rules* and *guidance* in ■ INSPRU 1.2 (*Mathematical reserves*) set out how a *firm* may offset debts and *claims* against liabilities in calculating the *mathematical reserves* required for *long-term insurance business*.
PRA

1.1.27
FCA PRA

R

A firm carrying on long-term insurance business must ensure that it has *admissible assets* in each of its *with-profits funds* of a value sufficient to cover:

- (1) the *technical provisions* in respect of all the business written in that *with-profits fund*; and
- (2) its other *long-term insurance liabilities* in respect of that *with-profits fund*.

1.1.28
FCA PRA

R

In addition to complying with ■ INSPRU 1.1.27 R, a *realistic basis life firm* must also ensure that the *realistic value of assets* for each of its *with-profits funds* is at least equal to the *realistic value of liabilities* of that fund.

1.1.29
FCA PRA

G

■ INSPRU 1.1.27 R and ■ INSPRU 1.1.28 R support the funding of *policyholder* benefits by requiring *firms* to maintain *admissible assets* in *with-profits funds* to cover the *technical provisions* and other *long-term insurance liabilities* relating to all the business in that fund and, in the case of a *realistic basis life firm*, realistic assets to cover the realistic liabilities of the *with-profits insurance contracts* written in the fund.

Localisation (UK firms only)

1.1.30
PRA

R

- (1) Subject to (2), a *UK firm* must hold *admissible assets* held pursuant to ■ INSPRU 3.1.53 R:
 - (a) (where the *admissible assets* cover *technical provisions* in pounds sterling), in any *EEA State*; and
 - (b) (where the *admissible assets* cover *technical provisions* in any currency other than pounds sterling), in any *EEA State* or in the country of that currency.
- (2) In the case of a *community co-insurance operation* and a *relevant insurer*, the *admissible assets* covering *technical provisions* must be held in any *EEA State*.

1.1.31
PRA

G

■ INSPRU 1.5 (Internal contagion risk) sets out the *rules* and *guidance* on localisation for *firms* other than *UK firms*.

1.1.32
PRA

R

■ INSPRU 1.1.30 R does not apply to:

- (1) a *pure reinsurer*; or
- (2) debts owed by *reinsurers*; or
- (3) *insurance business* carried on by a *UK firm* outside the *EEA States*; or

1.1.33

PRA

R

For the purposes of ■ INSPRU 1.1.30 R:

- (1) a tangible asset is to be treated as held in the country or territory where it is situated;
- (2) an *admissible asset* consisting of a claim against a debtor is to be treated as held in any country or territory where it can be enforced by legal action;
- (3) a *security* which is *listed* is to be treated as held in any country or territory where there is a *regulated market* on which the *security* is dealt; and
- (4) a *security* which is not *listed* is to be treated as held in the country or territory in which the *issuer* has its head office.

Matching of assets and liabilities

1.1.34

PRA

R

- (1) Subject to (4), the assets held by a *firm* to cover its *technical provisions* and other *long-term insurance liabilities* or *general insurance liabilities* (see ■ INSPRU 1.1.20 R and ■ INSPRU 1.1.21 R) must:
 - (a) have characteristics of safety, yield and marketability which are appropriate to the type of business carried on by the *firm*;
 - (b) be diversified and adequately spread; and
 - (c) comply with (2).
- (2) The assets referred to in (1) must, in addition to meeting the criteria set out in (1)(a) and (b), be of a sufficient amount, and of an appropriate currency and term, to ensure that the cash inflows from those assets will meet the expected cash outflows from the *firm's* insurance liabilities as they become due.
- (3) For the purpose of (2), a *firm* must take into consideration in determining expected cash outflows any options which exist in the *firm's contracts of insurance*.
- (4) (1) does not apply to:
 - (a) a *pure reinsurer*; or
 - (b) assets held to cover *index-linked liabilities* or *property-linked liabilities*, except that where the *linked long-term contract of insurance* in question includes a guarantee of investment performance or some other guaranteed benefit, (1) will

nevertheless apply to assets held to cover that guaranteed element.

1.1.34A

PRA

G

■ INSPRU 1.1.34 R is not applied to *pure reinsurers* because they are subject under ■ INSPRU 3.1.61A R to the "prudent person" investment principles from the *Reinsurance Directive*.

1.1.35

PRA

G

A *firm* should take account of the amount, currency and timing of its expected cash outflows in determining whether the assets it holds to cover its *technical provisions* and other *long-term insurance liabilities* or *general insurance liabilities* meet the requirements of ■ INSPRU 1.1.34 R (2).

1.1.36

PRA

G

For the purpose of ■ INSPRU 1.1.34 R (2), the relevant cash inflows are those which the *firm* reasonably expects to receive from the *admissible assets* which it holds to cover its *technical provisions* and other *long-term insurance liabilities* or *general insurance liabilities*. A *firm* may receive cash inflows as a result of:

- (1) selling assets or closing out transactions;
- (2) holding assets that generate dividends, interest or other income; and
- (3) receiving future *premiums* for existing business.

1.1.37

PRA

G

Anticipated cash inflows from future new business should not be included, for example where the *customer* has not yet contracted to pay the *premium*, and where the associated liabilities and potential cash outflows should also not be included.

1.1.38

PRA

G

A *firm* should compare cash inflows and outflows based on current expectations of amounts and timings. Current market expectations of future asset values, interest rates and currency exchange rates should be used. Where inflows are received in a currency different from that in which outflows are to be paid, account should be taken of the cost of converting the currency received.

1.1.39

PRA

G

In considering the value and suitability of assets required to ensure that the *firm's* liabilities are met as they become due, a *firm* should take account of the risk of default on inflows from those assets, and other risks that may mean that future inflows are reduced relative to outflows.

1.1.40

PRA

G

■ INSPRU 1.1.20 R lays down a general requirement for a *firm* that carries on *long-term insurance business* to hold *admissible assets* that are of a value sufficient to cover its *technical provisions* and other *long-term insurance liabilities*. The ■ INSPRU 1.1.34 R (2) requirement to match liabilities with assets that allow cash outflows to be met with suitable inflows as the outflows become due may mean that a *firm* has to hold assets of a value greater than would otherwise be required by the general *rule* in ■ INSPRU 1.1.20 R.

Premiums for new business

1.1.41

PRA

R

A *firm* must not enter into a *long-term insurance contract* unless it is satisfied on reasonable actuarial assumptions that:

- (1) the *premiums* receivable and the investment income expected to be earned from those *premiums*; and
- (2) the *reinsurance* arrangements made in respect of the risk or risks covered by that new contract are sufficient to enable it, when taken together with the *firm's* other resources, to:
 - (a) establish adequate *technical provisions* as required by ■ INSPRU 1.1.16 R;
 - (b) hold *admissible assets* of a value at least equal to the amount of the *technical provisions* and other *long-term insurance liabilities* as required by ■ INSPRU 1.1.20 R to ■ INSPRU 1.1.28 R; and
 - (c) maintain adequate overall financial resources as required by the *overall financial adequacy rule*.

1.1.42

PRA

G

For the purposes of ■ INSPRU 1.1.41 R, the adequacy of *premiums* may be assessed in the context of a *firm's* total portfolio of business and its other resources. It thus does not prevent a *firm* writing loss leaders nor writing contracts which might incur large losses, but only if the *firm* can meet the losses that might reasonably arise, including those that would arise from an event specifically insured against.

Capital requirements for insurers

1.1.43

PRA

G

- (1) ■ GENPRU 2.1.13 R requires a *firm* to maintain *capital resources* equal to or in excess of its *capital resources requirement (CRR)*. ■ GENPRU 2.1 sets out the overall framework of the *CRR*; in particular, ■ GENPRU 2.1.17 R requires that for a *firm* carrying on *general insurance business* the *CRR* is equal to the *minimum capital requirement (MCR)*. ■ GENPRU 2.1.18 R requires that for *realistic basis life firms* the *CRR* is the higher of the *MCR* and the *ECR*. ■ GENPRU 2.1.23 R requires that for *regulatory basis only life firms* the *CRR* is equal to the *MCR*.
- (2) For non-life *firms* the *MCR* represents the *minimum capital requirement* (or margin of solvency) prescribed by the *Insurance Directives*. ■ GENPRU 2.1.24 R provides that, for a *firm* carrying on *general insurance business*, the *MCR* in respect of that business is the higher of the *base capital resources requirement for general insurance business* applicable to that *firm* and the *general insurance capital requirement*. ■ GENPRU 2.1.24A R provides that, for a *firm* carrying on *long-term insurance business* which is a *realistic basis life firm*, the *MCR* in respect of that business is the higher of the *base capital resources requirement for long-term insurance business* applicable to that *firm* and the *long-term insurance capital requirement*. ■ GENPRU 2.1.25 R provides that, for a *firm* carrying on *long-term insurance business* which is a *regulatory basis only life firm*, the *MCR* in respect of that business is the higher of the *base capital resources requirement for long-term insurance business* applicable to that *firm* and the sum of the *long-term insurance capital requirement* and the *resilience capital requirement*. As specified in ■ GENPRU 2.1.14 R, a *firm* carrying on both

general insurance business and *long-term insurance business* must apply ■ GENPRU 2.1.13 R (referred to in paragraph (1) above) separately to its *general insurance business* and its *long-term insurance business*.

- (3) The calculation of the *general insurance capital requirement* is set out in ■ INSPRU 1.1.44 G to ■ INSPRU 1.1.72 R below. ■ INSPRU 1.1.73 to ■ INSPRU 1.1.79 R set out the calculation of the *insurance-related capital requirement* for non-life firms. The calculation of the *long-term insurance capital requirement* is set out in ■ INSPRU 1.1.80 G to ■ INSPRU 1.1.91 R below.

General insurance capital requirement

1.1.44
PRA

G

In relation to the MCR (see ■ INSPRU 1.1.43 G), ■ GENPRU 2.1.34 R requires a firm to calculate its *general insurance capital requirement (GICR)* as the highest of the *premiums amount*, the *claims amount*, and the *brought forward amount*. The elements for this computation are set out in ■ INSPRU 1.1 as follows:

- (1) the *premiums amount* in ■ INSPRU 1.1.45 R;
- (2) the *claims amount* in ■ INSPRU 1.1.47 R; and
- (3) the *brought forward amount* in ■ INSPRU 1.1.51 R.

The premiums amount

1.1.45
PRA

R

The *premiums amount* is:

- (1) 18% of the *gross adjusted premiums amount*; less 2% of the amount, if any, by which the *gross adjusted premiums amount* exceeds €61.3 million; multiplied by
- (2) the reinsurance ratio set out in ■ INSPRU 1.1.54 R.

1.1.46
PRA

G

Rules and guidance as to how the *gross adjusted premiums amount* is to be calculated are set out in ■ INSPRU 1.1.56 R to ■ INSPRU 1.1.59 G.

The claims amount

1.1.47
PRA

R

The *claims amount* is:

- (1) 26% of the *gross adjusted claims amount*; less 3% of the amount, if any, by which the *gross adjusted claims amount* exceeds €42.9 million; multiplied by
- (2) the reinsurance ratio set out in ■ INSPRU 1.1.54 R.

1.1.48
PRA

G

Rules and guidance as to how the *gross adjusted claims amount* is to be calculated are set out in ■ INSPRU 1.1.60 R to ■ INSPRU 1.1.65 G.

1.1.49

PRA

G

- (1) Under the *Insurance Directives* the Euro amounts specified in ■ INSPRU 1.1.45 R (1) and ■ INSPRU 1.1.47 R (1) are subject to annual review. The relevant amounts will be increased by the percentage change in the European index of consumer prices (comprising all EU member states, as published by Eurostat) from 20 March 2002, to the relevant review date, rounded up to a multiple of 100,000, provided that where the percentage change since the last increase is less than 5%, no increase will take place.
- (2) No provision for the index-linking of these amounts is made by the *Reinsurance Directive*. However, to ensure consistency as between *pure reinsurers*, *mixed insurers* and other *insurers*, the PRA intends to amend the Euro amounts specified in ■ INSPRU 1.1.45 R (1) and ■ INSPRU 1.1.47 R (1) for all such *firms* when an index-linked increase is required by the *Insurance Directives*.

1.1.50

PRA

R

For the purposes of ■ INSPRU 1.1.45 R (1) and ■ INSPRU 1.1.47 R (1), the exchange rate from the Euro to the pound sterling for each year beginning on 31 December is the rate applicable on the last day of the preceding October for which the exchange rates for the currencies of all the European Union member states were published in the Official Journal of the European Union.

The brought forward amount

1.1.51

PRA

R

- (1) Subject to (2) and (3), the *brought forward amount* is the *general insurance capital requirement (GICR)* for the prior *financial year*, multiplied, if the ratio is less than one, by the ratio (expressed as a percentage) of:
 - (a) the (calculated net of) for outstanding at the end of the prior , determined in accordance with ■ INSPRU 1.1.12 R; to
 - (b) the *technical provisions* (calculated net of *reinsurance*) for *claims* outstanding at the beginning of the prior *financial year*, determined in accordance with ■ INSPRU 1.1.12 R.
- (2) If the amount of the *technical provisions* (calculated net of *reinsurance*) in (1)(a) and (b) is in both cases zero, the *brought forward amount* is the *general insurance capital requirement (GICR)* for the prior *financial year*, multiplied, if the ratio is less than one, by the ratio (expressed as a percentage) of:
 - (a) the *technical provisions* (calculated gross of *reinsurance*) for *claims* outstanding at the end of the prior *financial year*, determined in accordance with ■ INSPRU 1.1.12 R; to
 - (b) the *technical provisions* (calculated gross of *reinsurance*) for *claims* outstanding at the beginning of the prior *financial year*, determined in accordance with ■ INSPRU 1.1.12 R.
- (3) If the amount of the *technical provisions* (calculated gross of *reinsurance*) in (2)(a) and (b) is in both cases zero, the *brought*

forward amount is the *general insurance capital requirement (GICR)* for the prior *financial year*.

1.1.52
PRA

G

The *brought forward amount* is the same as the *GICR* for the prior *financial year*, except where *claims* outstanding have fallen during that *financial year*. If the *technical provisions* (calculated net of *reinsurance*) have fallen, the *brought forward amount* is itself reduced by the same percentage fall. If the *technical provisions* (calculated net of *reinsurance*) are zero at the beginning and end of that *financial year* and the *technical provisions* gross of *reinsurance* have fallen, the *brought forward amount* is reduced by the percentage fall in *technical provisions* gross of *reinsurance*.

1.1.53

G

[deleted]

Reinsurance ratio used in calculating the premiums amount and the claims amount

1.1.54
PRA

R

The reinsurance ratio referred to in ■ INSPRU 1.1.45 R (2) and ■ INSPRU 1.1.47 R (2) is:

- (1) if the ratio lies between 50% and 100%, the ratio (expressed as a percentage) of:
 - (a) the *claims* incurred (net of *reinsurance*) in the *financial year in question* and the two previous *financial years*; to
 - (b) the gross *claims* incurred in that three-year period;
- (2) 50%, if the ratio calculated in (a) and (b) of (1) is 50% or less; and
- (3) 100%, if the ratio calculated in (a) and (b) of (1) is 100% or more.

1.1.54A
PRA

G

For the treatment of amounts recoverable from *ISPVs* when calculating the reinsurance ratio, see ■ INSPRU 1.1.92A R and ■ INSPRU 1.1.92B G.

1.1.55
PRA

G

Rules and *guidance* as to how the net and gross *claims* are to be calculated are set out in ■ INSPRU 1.1.66 R to ■ INSPRU 1.1.71 R.

Gross adjusted premiums amount used in calculating the premiums amount

1.1.56
PRA

R

For the purpose of ■ INSPRU 1.1.45 R, the *gross adjusted premiums amount* is the higher of the *gross written premiums* and *gross earned premiums* (as adjusted in accordance with ■ INSPRU 1.1.66 R) for the *financial year in question*, adjusted by:

- (1) except for a *pure reinsurer* which became a *firm in run-off* before 31 December 2006 and whose *Part 4A permission* has not subsequently been varied to add back the *regulated activity*

of *effecting contracts of insurance*, increasing by 50% the amount included in respect of the *premiums* for *general insurance business classes* 11, 12 and 13;

- (2) deducting 66.7% of the *premiums* for *actuarial health insurance* that meets the conditions set out in ■ INSPRU 1.1.72 R; and
- (3) multiplying the resulting figure by 12 and dividing by the number of months in the *financial year*. For the purposes of this calculation, the number of months in the *financial year* is the number of complete calendar months in the *financial year* plus any fractions of a month at the beginning and the end of the *financial year*.

1.1.57
PRA

G A *firm* may use statistical methods in order to allocate *premiums* in respect of the *classes* 11, 12 and 13 for the purposes of ■ INSPRU 1.1.56 R.

1.1.58
PRA

G *General insurance business classes* 11, 12 and 13 are, respectively, the marine liability, aviation liability and general liability insurance classes.

1.1.59
PRA

G Where the *firm* did not carry on *insurance business* in the *financial year in question*, the *gross adjusted premiums amount*, and therefore the *premiums amount*, is nil.

Gross adjusted claims amount used in calculating the claims amount

1.1.60
PRA

R For the purpose of ■ INSPRU 1.1.47 R and subject to ■ INSPRU 1.1.62 R, the *gross adjusted claims amount* is the amount of gross *claims* incurred (as determined in accordance with ■ INSPRU 1.1.66 R) over the reference period (as specified in ■ INSPRU 1.1.63 R) and adjusted by:

- (1) except for a *pure reinsurer* which became a *firm in run-off* before 31 December 2006 and whose *Part 4A permission* has not subsequently been varied to add back the *regulated activity* of *effecting contracts of insurance*, increasing by 50% the amount included in respect of the *claims* incurred for 11, 12 and 13;
- (2) deducting 66.7% of the *claims* for *actuarial health insurance* that meets the conditions set out in ■ INSPRU 1.1.72 R; and
- (3) multiplying the resulting figure by 12 and dividing by the number of months in the reference period. For the purposes of this calculation, the number of months in the reference period is the number of complete calendar months in the reference period plus any fractions of a month at the beginning and the end of the reference period.

1.1.61
PRA

G A *firm* may use statistical methods in order to allocate *claims* in respect of *classes* 11, 12 and 13 for the purposes of ■ INSPRU 1.1.60 R.

1.1.62
PRA

R

For the purposes of ■ INSPRU 1.1.47 R, in relation to *general insurance business class 18*, the amount of *claims* incurred used to calculate the *gross adjusted claims amount* must be the amount of costs recorded in the *firm's* books in the reference period as borne by the *firm* (whether or not borne in the reference period) in respect of the assistance given.

1.1.63
PRA

R

- (1) Except in those cases where paragraph (2) applies, the reference period to be used in ■ INSPRU 1.1.60 R and ■ INSPRU 1.1.62 R must be:
 - (a) the *financial year in question* and the two previous *financial years*; or
 - (b) the period the *firm* had been in existence at the end of the *financial year in question*, if shorter.
- (2) In the case of a *firm* which underwrites only one or more of the *general insurance business risks* of credit, storm, hail or frost (including other business written in connection with such risks), the reference period to be used must be:
 - (a) the *financial year in question* and the six previous *financial years*; or
 - (b) the period the *firm* had been in existence at the end of the *financial year in question*, if shorter.

1.1.64
PRA

G

The classification of the risks referred to in ■ INSPRU 1.1.63 R (2) is as follows: credit - as included in *general insurance business class 14*; storm - as included in *general insurance business class 8*; hail - as included in *general insurance business class 9*; and frost - as included in *general insurance business class 9*.

1.1.65
PRA

G

Where the *firm* did not carry on *insurance business* in the reference period, the *gross adjusted claims amount*, and therefore the *claims amount*, is nil.

Accounting for premiums and claims

1.1.66
PRA

R

For the purposes of ■ INSPRU 1.1.54 R, ■ INSPRU 1.1.56 R, ■ INSPRU 1.1.60 R and ■ INSPRU 1.1.62 R, amounts of *premiums* and *claims* must be:

- (1) determined in accordance with the *insurance accounts rules* or the Friendly Societies (Accounts and Related Provisions) Regulations 1994, as appropriate; and
- (2) adjusted for transfers that were approved by the relevant authority (or became effective where approval by an authority was not required) before the end of the *financial year in question*:

- (a) to exclude any amount included in, or adjustment made to, *premiums* and *claims* to reflect the consideration for a transfer of *contracts of insurance* to or from the *firm*;
- (b) to exclude *premiums* and *claims* which arose from *contracts of insurance* that have been transferred by the *firm* to another body; and
- (c) to account for *premiums* and *claims* which arose from *contracts of insurance* that have been transferred to the *firm* from another body as if they were receivable by or payable by the *firm*.

1.1.67

PRA

G

To ensure that all rights and obligations under a *contract of insurance* are transferred, a number of alternative mechanisms could be used. These are: an *insurance business transfer* under Part VII of the *Act*; under earlier *United Kingdom* insurance legislation; under equivalent foreign legislation; or by novation of contracts. The term "relevant authority" in paragraph (2) of ■ **INSPRU 1.1.66 R** may refer to whatever body has responsibility in a country, whether within or outside the *EEA*, for the approval of transfers of portfolios of *contracts of insurance*; the body may be a supervisory authority for financial services as such or it may be a judicial authority which has the necessary responsibility.

1.1.68

PRA

G

■ **INSPRU 1.1.66 R (2)(b)** requires a *firm*, for the purpose of calculating its *GICR*, to account for *contracts of insurance* transferred by it to another body as if it had never written those contracts. All amounts of *premiums* and *claims* arising in respect of those contracts are excluded, including amounts that arose in the *financial year in question* or previous *financial years*.

1.1.69

PRA

G

Conversely, ■ **INSPRU 1.1.66 R (2)(c)** requires a *firm*, for the purpose of calculating its *GICR*, to account for *contracts of insurance* transferred to it by another body as if it had been responsible for those contracts from inception and not merely from the date of transfer. All amounts of *premiums* and *claims* that arose from those contracts are included even where they arose prior to the date of transfer and were, in fact, receivable by or payable by the other body.

1.1.70

PRA

G

For both transfers to and from the *firm*, the consideration receivable or payable in respect of the transfer is excluded from *premiums* and *claims* in order to avoid double counting.

1.1.71

PRA

R

Where there has been a significant change in the business portfolio of the *firm* since the end of the *financial year in question*, for example, a line of business has been transferred to another *firm*, or the *firm* no longer carries on a particular *class of insurance business*, the *gross adjusted premiums amount* and the *gross adjusted claims amount* must both be recalculated to take into account the impact of this change. The recalculation must take into account the requirements of the *insurance accounts rules* or the *Friendly Societies (Accounts and Related Provisions) Regulations 1994*, as appropriate.

Actuarial health insurance

1.1.72
PRA

R

The conditions referred to in ■ INSPRU 1.1.56 R (2) and ■ INSPRU 1.1.60 R (2) are that:

- (1) the health insurance is underwritten on a similar technical basis to that of life insurance;
- (2) the *premiums* paid are calculated on the basis of sickness tables according to the mathematical method applied in insurance;
- (3) a provision is set up for increasing age;
- (4) an additional *premium* is collected in order to set up a safety margin of an appropriate amount;
- (5) it is not possible for the *firm* to cancel the contract after the end of the third year of insurance; and
- (6) the contract provides for the possibility of increasing *premiums* or reducing payments even for current contracts.

Enhanced capital requirement for general insurance business

1.1.72A
PRA

G

This section sets out the requirement for *firms* carrying on *general insurance business*, other than *non-directive insurers*, to calculate their *ECR*. The *ECR* for *firms* carrying on *general insurance business* is an indicative measure of the *capital resources* that a *firm* may need to hold based on risk sensitive calculations applied to its business profile. For *firms* carrying on *general insurance business*, the *PRA* will use the *ECR* as a benchmark for its consideration of the appropriateness of the *firm's* own capital assessment. For *firms* where an *ECR* is not calculated, the *MCR* will provide a benchmark for the *firm's* own capital assessment.

1.1.72B
PRA

R

A *firm* carrying on *general insurance business*, other than a *non-directive insurer*, must calculate the amount of its *ECR*.

1.1.72C
PRA

R

A *firm* to which ■ INSPRU 1.1.72B R applies must calculate its *ECR* in respect of its *general insurance business* as the sum of:

- (1) the *asset-related capital requirement*; and
- (2) the *insurance-related capital requirement*; less
- (3) the *firm's equalisation provisions*.

1.1.72D
PRA

G

Details of the calculation of the *asset-related capital requirement* are set out in ■ INSPRU 2.2.10 R to ■ INSPRU 2.2.16 R. Details of the calculation of the *insurance-related capital requirement* are set out in ■ INSPRU 1.1.76 R to ■ INSPRU 1.1.79 R.

Insurance-related capital requirement

1.1.73

[intentionally blank]

1.1.74

G

The *insurance-related capital requirement* is a measure of the capital that a *firm* should hold against the risk of:

- (1) an adverse movement in the value of a *firm's* liabilities, to recognise that there may be substantial volatility in *claims* and other *technical provisions* made by the *firm*. Such variations may be due to inflationary increases, interest rate changes, movements in the underlying provisions themselves, changes in expense costs, inadequate rate pricing or *premium* collections (or both) from intermediaries differing from projected assumptions; and
- (2) the *premiums* a *firm* charges in respect of particular business not being adequate to fund future liabilities arising from that business.

1.1.75

G

The *insurance-related capital requirement* is calculated by applying capital charge factors, expressed as a percentage, to the value of the *net written premiums* and the *technical provisions* in respect of different classes of business. *Firms* should refer to ■ GENPRU 1.3.4 R which sets out how a *firm* must recognise and value assets and liabilities.

Calculation of the insurance-related capital requirement

1.1.76

R

PRA

A *firm* must calculate its *insurance-related capital requirement* in accordance with ■ INSPRU 1.1.77 R.

1.1.77

R

PRA

- (1) The value of:
 - (a) the *net written premiums*; and
 - (b) the *technical provisions*;in respect of each class of business listed in the table in ■ INSPRU 1.1.79 R must be multiplied by the corresponding capital charge factor.
- (2) If any amount which is to be multiplied by a capital charge factor is a negative amount, that amount shall be treated as zero.
- (3) The amounts resulting from multiplying the *net written premiums* in respect of each such class of business by the corresponding capital charge factor must be aggregated.
- (4) The amounts resulting from multiplying the *technical provisions* in respect of each such class of business by the corresponding capital charge factor must be aggregated.
- (5) The *insurance-related capital requirement* is the sum of the amounts calculated in accordance with (3) and (4).

1.1.78

PRA

R

In ■ INSPRU 1.1.77 R references to *technical provisions* comprise:

- (1) outstanding *claims*;
- (2) provisions for incurred but not reported (*IBNR claims*);
- (3) provisions for incurred but not enough reported (*IBNER claims*);
- (4) *unearned premium* reserves less *deferred acquisition costs*; and
- (5) unexpired risk reserves;

in each case net of *reinsurance* receivables.

1.1.79

Long-term insurance capital requirement

1.1.80
PRA

G

■ GENPRU 2.1.13 R requires an *insurer* to maintain *capital resources* equal to or in excess of its *capital resources requirement*. ■ GENPRU 2.1.18 R defines the *capital resources requirement* for a *firm* to which that *rule* applies (a *realistic basis life firm*) as the higher of the MCR and the ECR. For other *firms* carrying on *long-term insurance business* (*regulatory basis only life firms*), the *capital resources requirement* is equal to the MCR. Except where the *base capital resources requirement* is the higher requirement, the MCR in respect of *long-term insurance business* is the sum of the *long-term insurance capital requirement* (LTICR) and the *resilience capital requirement* or, in the case of a *realistic basis life firm*, the LTICR (see ■ GENPRU 2.1.24A R, ■ GENPRU 2.1.25 R and ■ GENPRU 2.1.26 R). ■ GENPRU 2.1.36 R defines the LTICR as the sum of the *insurance death risk, health risk and life protection reinsurance, expense risk, and market risk capital components* (see ■ INSPRU 1.1.81 R to ■ INSPRU 1.1.91 R). *Rules and guidance* about the *resilience capital requirement* are set out in ■ INSPRU 3.1.9 G to ■ INSPRU 3.1.26 R.

Insurance death risk capital component

1.1.81
PRA

R

The *insurance death risk capital component* is the aggregate of the amounts which represent the fractions specified by ■ INSPRU 1.1.82 R of the capital at risk, defined in ■ INSPRU 1.1.83 R, for each category of *contracts of insurance* (as specified in ■ INSPRU 1.1.81A R), in respect of those contracts where the capital at risk is not a negative figure, multiplied by the higher of:

- (1) 50%; and
- (2) the ratio as at the end of the *financial year in question* of:
 - (a) the aggregate capital at risk in respect of that category of contracts net of *reinsurance* cessions; to
 - (b) the aggregate capital at risk in respect of that category of contracts gross of *reinsurance* cessions.

1.1.81A
PRA

R

For the purpose of ■ INSPRU 1.1.81 R, the categories of *contracts of insurance* are as follows:

- (1) contracts which fall in *long-term insurance business classes* I, II or IX; and
- (2) contracts which fall in *long-term insurance business classes* III, VII or VIII.

1.1.82

PRA

R For the purpose of ■ INSPRU 1.1.81 R, the fraction is:

- (1) for *long-term insurance business classes I, II and IX*, except for a *pure reinsurer*:
 - (a) 0.1% for temporary insurance on death where the original term of the contract is three years or less;
 - (b) 0.15% for temporary insurance on death where the original term of the contract is five years or less but more than three years; and
 - (c) 0.3% in any other case;
- (2) 0.3% for *long-term insurance business classes III, VII and VIII*, except for a *pure reinsurer*; and
- (3) 0.1% for a *pure reinsurer*.

1.1.83

PRA

R For the purpose of ■ INSPRU 1.1.81 R, the capital at risk is:

- (1) where the benefit under a *contract of insurance* payable as a result of death includes periodic or deferred payments, the present value of the benefits payable; and
 - (2) in any other case, the amount payable as a result of death;
- less, in either case, the *mathematical reserves* for the contract.

1.1.83A

PRA

R ■ INSPRU 1.1.81 R does not apply to:

- (1) a *pure reinsurer*; or
- (2) a *mixed insurer*;

in respect of *life protection reinsurance business*.

1.1.84

PRA

G The *insurance death risk capital component* only relates to the risk of death. There is a separate risk component for insured health risks (*class IV*) which also applies to the risk of death covered in the *life protection reinsurance business* of *pure reinsurers* and *mixed insurers*. *Tontines* (*class V*) and *capital redemption* operations (*class VI*) also have separate risk components. There is no specified risk margin for other insured risks.

1.1.84A

PRA

G For the treatment of amounts recoverable from *ISPVs* when calculating the *insurance death risk capital component* in accordance with ■ INSPRU 1.1.81 R, see ■ INSPRU 1.1.92A R and ■ INSPRU 1.1.92B G.

Insurance health risk and life protection reinsurance capital component

1.1.85
PRA

R

The *insurance health risk and life protection reinsurance capital component* is the highest of:

- (1) the *premiums amount* (determined in accordance with ■ INSPRU 1.1.45 R);
- (2) the *claims amount* (determined in accordance with ■ INSPRU 1.1.47 R); and
- (3) the *brought forward amount* (determined in accordance with ■ INSPRU 1.1.51 R); in respect of:
 - (a) *contracts of insurance falling in long-term insurance business class IV* (see ■ INSPRU 1.1.86 R);
 - (b) risks falling in *general insurance business classes 1 or 2* that are written as part of a *long-term insurance contract*; and
 - (c) in the case of a *pure reinsurer* or a *mixed insurer, life protection reinsurance business*.

1.1.86
PRA

R

For the purposes of ■ INSPRU 1.1.85 R, in the case of *contracts of insurance falling in long-term insurance business class IV*, condition (3) as set out in ■ INSPRU 1.1.72 R (*actuarial health insurance*) is modified to: "either the reserves include a provision for increasing age, or the business is conducted on a group basis."

1.1.87
PRA

G

The *insurance health risk and life protection reinsurance capital component* only applies to *permanent health insurance (long-term insurance business class IV)*, *accident and sickness insurance (general insurance business classes 1 and 2)* and the *life protection reinsurance business of pure reinsurers and mixed insurers*.

Insurance expense risk capital component

1.1.88
PRA

R

The *insurance expense risk capital component* is:

- (1) in respect of *long-term insurance business classes III, VII and VIII*, an amount equivalent to 25% of the net *administrative expenses* in the *financial year in question* relevant to the business of each of those *classes*, in so far as the *firm* bears no investment risk and the allocation to cover *management expenses* in the *contract of insurance* does not have a fixed upper limit which is effective as a limit for a period exceeding 5 years from the commencement of the contract;
- (2) in respect of any *tontine (long-term insurance business class V)*, 1% of the assets of the *tontine*;

1.1.88A

PRA

R

■ INSPRU 1.1.88 R does not apply to:

- (1) a *pure reinsurer*; or
- (2) a *mixed insurer*;

in respect of:

- (a) *life protection reinsurance business*; or
- (b) *permanent health reinsurance business*.

Insurance market risk capital component

1.1.89

PRA

R

The *insurance market risk capital component* is 3% of the "adjusted *mathematical reserves*" (as defined in ■ INSPRU 1.1.89A R) for all insurance liabilities except those of a kind which:

- (1) arise from *contracts of insurance* falling in *long-term insurance business classes III, VII or VIII* to the extent that the *firm* does not bear any investment risk; or
- (2) arise from *contracts of insurance* falling in *long-term insurance business class V*; or
- (3) for a *pure reinsurer* or a *mixed insurer*, arise from *contracts of insurance* falling within:
 - (a) its *life protection reinsurance business*; or
 - (b) its *permanent health reinsurance business*.

Adjusted mathematical reserves

1.1.89A

PRA

R

(1) For the purpose of ■ INSPRU 1.1.88 R and ■ INSPRU 1.1.89 R, the "adjusted *mathematical reserves*" is the aggregate of the amounts which result from the performance of the calculation in ■ INSPRU 1.1.90 R for each category of insurance liability specified in (2).

(2) The categories of insurance liability referred to in (1) are:

- (a) for the purpose of ■ INSPRU 1.1.88 R, those categories described in ■ INSPRU 1.1.91 R (1), ■ (2), ■ (3), ■ (4) and ■ (5); and
- (b) for the purpose of ■ INSPRU 1.1.89 R, those categories described in ■ INSPRU 1.1.91 R (1), ■ (2), ■ (4) and ■ (5).

1.1.90

PRA

R

The calculation referred to in ■ INSPRU 1.1.89A R (1) is the multiplication of the amount of the *mathematical reserves* (gross of *reinsurance* cessions) in respect of a category of insurance liability by the higher of:

- (1) 85% or, in the case of a *pure reinsurer*, 50%; and
- (2) the ratio as at the end of the *financial year in question* of:
 - (a) the *mathematical reserves* in respect of that category of insurance liability net of *reinsurance* cessions; to
 - (b) the *mathematical reserves* in respect of that category of insurance liability gross of *reinsurance* cessions.

1.1.91

PRA

R

For the purpose of ■ INSPRU 1.1.89A R and ■ INSPRU 1.1.90 R, the categories of insurance liability are as follows:

- (1) liabilities of a kind which arise from *contracts of insurance* falling in *long-term insurance business classes* I, II or IX;
- (2) liabilities of a kind which arise from *contracts of insurance* falling in *long-term insurance business classes* III, VII or VIII to the extent that the *firm* bears an investment risk;
- (3) liabilities of a kind which arise from *contracts of insurance* falling in *long-term insurance business classes* III, VII or VIII to the extent that the *firm* bears no investment risk and where the allocation to cover *management expenses* in the *contract of insurance* has a fixed upper limit which is effective as a limit for a period exceeding 5 years from the commencement of the contract;
- (4) liabilities of a kind which arise from *contracts of insurance* falling in *long-term insurance business class* IV; and
- (5) liabilities of a kind which arise from *contracts of insurance* falling in *long-term insurance business class* VI.

1.1.92

PRA

G

Where a *firm* has written a unit-linked contract, the *firm's* liability under the contract may consist of a unit liability, where the *firm* bears no investment risk, and other liabilities for which the *firm* bears an investment risk, and for which a separate reserve is held. ■ INSPRU 1.1.91 R (2) and ■ (3) require a *firm* to analyse its liabilities under unit-linked contracts between those for which it bears an investment risk and those for which it does not. ■ INSPRU 1.1.88 R and ■ INSPRU 1.1.89 R taken together result in a capital requirement for any liabilities for which the *firm* bears an investment risk of 4% of "adjusted *mathematical reserves*" (1% for expense risk and 3% for market risk).

Insurance special purpose vehicles

1.1.92A
PRA

R A *firm* must not treat any amounts recoverable from an *ISPV* as *reinsurance* for the purposes of the calculation of:

- (1) the *reinsurance ratio* in accordance with ■ INSPRU 1.1.54 R; or
- (2) the *insurance death risk capital component* in accordance with ■ INSPRU 1.1.81 R; or
- (3) the "*adjusted mathematical reserves*" in accordance with ■ INSPRU 1.1.90 R.

1.1.92B
PRA

G A *firm* may treat amounts recoverable from an *ISPV* as *reinsurance* for these purposes if it obtains a *waiver* of ■ INSPRU 1.1.92A R under sections 138A and 138B of the *Act*. The conditions that will need to be met, in addition to the statutory tests under section 138A(4) of the *Act*, before the *PRA* will consider granting such a *waiver* are set out in ■ INSPRU 1.6.13 G to ■ INSPRU 1.6.18 G

Application of INSPRU 1.1 to Lloyd's

1.1.93
PRA

R ■ INSPRU 1.1 applies to the *Society* in accordance with ■ INSPRU 8.1.2 R.

1.1.94
PRA

R The following *rules* and *guidance* apply to *managing agents* in accordance with ■ INSPRU 8.1.4 R:

- (1) ■ INSPRU 1.1.12 R to ■ INSPRU 1.1.20 R (except ■ INSPRU 1.1.12R (1));
- (2) ■ INSPRU 1.1.42 G to ■ INSPRU 1.1.43 G; and
- (3) ■ INSPRU 1.1.74 G to ■ INSPRU 1.1.80 G.

1.1.95
PRA

R The *Society* must calculate the *brought forward amount* for the *members* in aggregate in accordance with ■ INSPRU 1.1.51 R, using the result of ■ GENPRU 2.3.6 R for the prior *financial year* and the aggregate of all *members' technical provisions* for the relevant periods.

1.1.96
PRA

R For the purposes of ■ INSPRU 1.1.66 R and further to that *rule*, in the case of Lloyd's *members*, amounts of *premiums* and *claims* must be adjusted for *approved reinsurance to close* to exclude any amount included in, or adjustment made to, *premiums* and *claims* to reflect the consideration for an *approved reinsurance to close*.

1.2 Mathematical reserves

Application

1.2.1

FCA PRA

R

■ INSPRU 1.2 applies to a *long-term insurer* unless it is:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

Purpose

1.2.2

PRA

G

This section follows on from the overall requirement on *firms* to establish adequate *technical provisions* (see ■ INSPRU 1.1.16 R). The *mathematical reserves* form the main component of *technical provisions* for *long-term insurance business*. ■ INSPRU 1.2 sets out *rules* and *guidance* as to the methods and assumptions to be used in calculating the *mathematical reserves*. The *rules* and *guidance* set out the minimum basis for *mathematical reserves*. Methods and assumptions that produce reserves that are demonstrably equal to or greater than the minimum basis may also be used, though they must meet the basic requirements for methods and assumptions set out in ■ INSPRU 1.2.7 R to ■ INSPRU 1.2.27 G.

1.2.3

PRA

G

This section applies to all *firms* carrying on *long-term insurance business* and implements some of the requirements contained in article 20 of the *Consolidated Life Directive*. The implementation is designed to ensure that a *firm's mathematical reserves* in respect of *long-term insurance contracts* meet the minimum requirements set by the *Consolidated Life Directive*. A *firm* may use a prospective or a retrospective method to value its *mathematical reserves* (see ■ INSPRU 1.2.7 R).

1.2.4

PRA

G

The required procedures are summarised in the flowchart in ■ INSPRU 1 Annex 1 G.

1.2.5

PRA

G

Firms to which ■ GENPRU 2.1.18 R applies are required to calculate a *with-profits insurance capital component* (see ■ GENPRU 2.1.38 R). In order to calculate its *with-profits insurance capital component*, such a *firm* is required to carry out additional calculations of its liabilities on a realistic basis (see ■ INSPRU 1.3), which it is required to report to the PRA (see Forms 18,19). A *firm* that reports its liabilities on a realistic basis is referred to in GENPRU and INSPRU as a *realistic basis life firm*. Such *firms* are subject to different *rules* relating to the calculation of *mathematical reserves* (see

■ INSPRU 1.2.46 R and ■ INSPRU 1.2.76 R) compared with those that apply to *firms* that report on a regulatory basis only (*regulatory basis only life firms*).

1.2.6

FCA PRA

G

A number of the *rules* in this section require a *firm* to take into account its regulatory duty to treat *customers* fairly. In this section, references to such a duty are to the duty of a *firm* regulated by the *FCA* to pay due regard to the interests of its *customers* and to treat them fairly (see the *FCA's Principle 6* in *PRIN*). This duty is owed to both *policyholders* and potential *policyholders*.

1.2.6A

FCA PRA

G

A number of *rules* in this section are made by the *FCA* and the *PRA*. Some of the rules made by the *FCA* and *PRA* contain references to, or are reliant on, *rules* that are only made by the *PRA*. *Firms* should consider ■ GEN 2.2.13A R (cross-references in the *Handbook*) and ■ GEN 2.2.23 R to ■ GEN 2.2.25 G (cutover: application of provisions made by both the *FCA* and the *PRA*) when applying these *rules*. In the context of mathematical reserves, the *FCA rules* ensure a *firm* takes into account its regulatory duty to treat *customers* fairly. Where an *FCA rule* refers to a *PRA rule*, ■ GEN 2.2.13A R and ■ GEN 2.2.23 R will apply so that the *PRA rule* is also made by the *FCA* to the extent necessary to make the *FCA rule* function but only to the extent of the *FCA's* powers and regulatory responsibilities.

Basic valuation method

1.2.7

PRA

R

- (1) Subject to (2), a *firm* must establish its *mathematical reserves* using a prospective actuarial valuation on prudent assumptions of all future cash flows expected to arise under, or in respect of, each of its *long-term insurance contracts*.
- (2) But a *firm* may use a retrospective actuarial valuation where:
 - (a) a prospective method cannot be applied to a particular type of contract; or
 - (b) the *firm* can demonstrate that the resulting amount of the *mathematical reserves* would be no lower than would be required by a prudent prospective actuarial valuation.

1.2.8

PRA

G

A prospective valuation sets the *mathematical reserves* at the present value of future net cash flows. A retrospective method typically sets the *mathematical reserves* at the level of *premiums* received (and accumulated with investment return), less *claims* and expenses paid. A prospective valuation is preferred because it takes account of circumstances that might have arisen since the *premium* rate was set and of changes in the perception of future experience. Circumstances in which a retrospective valuation might be appropriate include:

- (1) where the assumptions initially made in determining the *premium* rate were sufficiently prudent at inception and have not been overtaken by subsequent events; and
- (2) where the liability depends on the emerging experience.

1.2.9

PRA

R

Except in ■ INSPRU 1.2.71 R (1), ■ INSPRU 1.2 does not apply to *final bonuses*. In addition, for *realistic basis life firms* only, ■ INSPRU 1.2 does not apply to other discretionary benefits, including future *annual bonuses*.

Methods and assumptions

1.2.10

FCA

PRA

R

In the actuarial valuation under ■ INSPRU 1.2.7 R, a *firm* must use methods and prudent assumptions which:

- (1) are appropriate to the business of the *firm*;
- (2) are consistent from year to year without arbitrary changes (see ■ INSPRU 1.2.11 G);
- (3) are consistent with the method of valuing assets (see ■ GENPRU 1.3);
- (4) include appropriate margins for adverse deviation of relevant factors (see ■ INSPRU 1.2.12 G);
- (5) recognise the distribution of profits (that is, emerging surplus) in an appropriate way over the duration of each *contract of insurance*;
- (6) take into account its regulatory duty to treat its *customers* fairly (see *FCA's Principle 6*); and
- (7) are in accordance with generally accepted actuarial practice.

1.2.11

FCA

PRA

G

■ INSPRU 1.2.10 R (2) prohibits only arbitrary changes in methods and assumptions, that is, changes made without adequate reasons. Any such changes would hinder comparisons over time as to the amount of the *mathematical reserves* and so obscure trends in solvency and the emergence of surplus.

1.2.12

PRA

G

The relevant factors referred to in ■ INSPRU 1.2.10 R (4) may include, but are not limited to, factors such as future investment returns, expenses, mortality, morbidity, options, persistency and *reinsurance* (see also ■ INSPRU 1.2.13 R to ■ INSPRU 1.2.19 G).

Margins for adverse deviation

1.2.13

PRA

R

The appropriate margins for adverse deviation required by ■ INSPRU 1.2.10 R (4) must be sufficiently prudent to ensure that there is no significant foreseeable risk that liabilities to *policyholders* in respect of *long-term insurance contracts* will not be met as they fall due.

1.2.14

PRA

G

The margins for adverse deviation are a prudential margin in respect of the risks that arise under a *long-term insurance contract*.

1.2.15

PRA

G

■ INSPRU 1.2.13 R sets the normal standard of prudence required for margins.

■ INSPRU 1.2.16 G suggests benchmarks against which a *firm* should compare the margins it has set in accordance with ■ INSPRU 1.2.10 R (4) and ■ INSPRU 1.2.13 R. ■ INSPRU 1.2.17 G gives *guidance* where a market risk premium is not readily obtainable.

1.2.16

PRA

G

When setting the margins for adverse deviation required by ■ INSPRU 1.2.10 R (4) in relation to a particular contract, a *firm* should consider, where appropriate:

- (1) the margin for adverse deviation included in the *premium* for similar *long-term insurance contracts*, if any, newly issued by the *firm*; and
- (2) where a sufficiently developed and diversified market for transferring a risk exists, the risk premium that would be required by an unconnected party to assume the risk in respect of the contract.

The margin for adverse deviation of a risk should generally be greater than or equal to the relevant market price for that risk.

1.2.17

PRA

G

Where a risk premium is not readily available, or cannot be determined, an external proxy for the risk should be used, such as adjusted industry mortality tables. Where there is a considerable range of possible outcomes, the *PRA* expects *firms* to use stochastic techniques to evaluate these risks. In time, for example, longevity risk, where this constitutes a significant risk for the *firm*, may fall into this category.

1.2.18

PRA

G

The margins for adverse deviation should be recognised as profit only as the *firm* itself is released from risk over the duration of the contract.

1.2.19

PRA

G

Further detailed *rules* and *guidance* on margins for adverse deviation are included in ■ INSPRU 1.2.32 G to ■ INSPRU 1.2.89 G. In particular, the cross-references for the different assumptions used in calculating the *mathematical reserves* are as follows:

- (1) expenses (■ INSPRU 1.2.50 R to ■ INSPRU 1.2.58 G);
- (2) mortality and morbidity (■ INSPRU 1.2.59 R to ■ INSPRU 1.2.61 G);
- (3) options (■ INSPRU 1.2.62 R to ■ INSPRU 1.2.72 G);
- (4) persistency (■ INSPRU 1.2.76 R and ■ INSPRU 1.2.77 G); and
- (5) *reinsurance* (■ INSPRU 1.2.77A R to ■ INSPRU 1.2.89 G).

The *rules* and *guidance* on margins for adverse deviation in respect of future investment returns, which are also required in the calculation of *mathematical reserves*, are set out in ■ INSPRU 3.1.28 R to ■ INSPRU 3.1.48 G.

1.2.20

FCA PRA

R

Record keeping

A *firm* must make, and retain for an appropriate period, a record of:

- (1) the methods and assumptions used in establishing its *mathematical reserves*, including the margins for adverse deviation, and the reasons for their use; and
- (2) the nature of, reasons for, and effect of, any change in approach, including the amount by which the change in approach increases or decreases its *mathematical reserves*.

1.2.21

FCA PRA

G

■ SYSC 14.1.53 R requires *firms* to maintain accounting and other records for a minimum of three years, or longer as appropriate. For the purposes of ■ INSPRU 1.2.20 R, a period of longer than three years will be appropriate for a *firm's long-term insurance business*. In determining an appropriate period, a *firm* should have regard to:

- (1) the detailed *rules* and *guidance* on record keeping in ■ SYSC 14.1.51 G - ■ SYSC 14.1.64 G;
- (2) the nature and term of the *firm's* long-term insurance business; and
- (3) any additional provisions or statutory requirements applicable to the *firm* or its records.

Valuation of individual contracts

1.2.22

PRA

R

- (1) Subject to (2) and (3), a *firm* must determine the amount of the *mathematical reserves* separately for each *long-term insurance contract*.
- (2) Approximations or generalisations may be made:
 - (a) in the case of non-attributable expenses, in relation to a group of contracts with the same or similar expense risk characteristics, provided that the *mathematical reserves* in respect of such expenses established by the firm in relation to that group of contracts have a minimum value of at least zero; and
 - (b) in any other case, where they are likely to provide the same, or a higher, result than a determination made in accordance with (1).
- (3) A *firm* must set up additional *mathematical reserves* on an aggregated basis for general risks that are not specific to individual contracts.
- (4) For the purpose of (2), non-attributable expenses are expenses which are not directly attributable to a particular *long-term insurance contract*.

1.2.23

PRA

G

■ INSPRU 1.2.22 R to ■ INSPRU 1.2.89 G set out *rules* and *guidance* for the separate prospective valuation of each contract. These may be applied instead to groups of contracts where the conditions set out in ■ INSPRU 1.2.22 R (2)(a) or ■ (b) are satisfied. Guidance on non-attributable expenses and the application of ■ INSPRU 1.2.22 R (2)(a) is provided in ■ INSPRU 1.2.54A G.

Negative mathematical reserves

1.2.24

PRA

R

A *firm* may calculate a negative value for the *mathematical reserves* in respect of a *long-term insurance contract* provided that:

- (1) this is based on assumptions which meet the general requirements for prudent assumptions as set out in ■ INSPRU 1.2.10 R and ■ INSPRU 1.2.13 R;
- (2) the contract does not have a *surrender value* which at the *actuarial valuation date* is guaranteed; and
- (3) the total *mathematical reserves* established by the *firm* have a minimum value of at least:
 - (a) where the *firm's long-term insurance contracts* include *linked long-term contracts*, the sum of the *surrender values* of all its *linked long-term contracts* at the *actuarial valuation date*; and
 - (b) in any other case, zero.

1.2.25

PRA

G

- (1) A separate prospective valuation for each contract may identify contracts for which the value of future cash inflows under and in respect of the contract exceeds that of outflows. In these circumstances, the *firm* may calculate the *mathematical reserves* for that contract as having a negative value and treat that value as available to off-set *mathematical reserves* for other contracts which have a positive value when establishing the overall *mathematical reserves*.
- (2) In complying with ■ INSPRU 1.1.34 R or ■ INSPRU 3.1.61A R, as applicable, with respect to the matching of assets and liabilities, *insurers* should consider the suitability for offset of contracts whose *mathematical reserves* are negative against liabilities on other contracts and only offset them if it is prudent to do so. While ■ INSPRU 1.2.24 R applies at a *firm* level, it may be relevant when assessing the prudence of the offset of contracts whose *mathematical reserves* are negative to consider the fact that contracts with negative *mathematical reserves* written outside a *with-profits fund* are not, for the purpose of ■ INSPRU 1.1.27 R, permitted to be offset against contracts with positive *mathematical reserves* written within that *with-profits fund*.

PAGE
35

1.2.25A

PRA

G

In addition, the *Consolidated Life Directive* requires that no contract should be valued at less than its guaranteed *surrender value* (see ■ INSPRU 1.2.62A G). As a result, no contract with a guaranteed *surrender value* to which the *Consolidated Life Directive* applies should be valued as if it were an asset. Although the *Reinsurance Directive* does not require this treatment of contracts with guaranteed *surrender values* to be applied to *pure reinsurers*, the *PRA's* policy is that there should be equal treatment in this respect. ■ INSPRU 1.2.62 R makes further provision relating to the *mathematical reserves* to be established in respect

of such contracts. When considering the impact that the amount payable on surrender may have on the valuation of a contract, a *firm* should have regard to ■ INSPRU 1.2.71 R.

Avoidance of future valuation strain

1.2.26
PRA

R

- (1) A *firm* must establish *mathematical reserves* for a *contract of insurance* which are sufficient to ensure that, at any subsequent date, the *mathematical reserves* then required are covered solely by:
 - (a) the assets covering the current *mathematical reserves*; and
 - (b) the resources arising from those assets and from the contract itself.
- (2) For the purposes of (1), the *firm* must assume that:
 - (a) the assumptions adopted for the current valuation of liabilities remain unaltered and are met; and
 - (b) discretionary benefits and charges will be set so as to fulfil its regulatory duty to treat its *customers* fairly.
- (3) Subject to (4), (1) may be applied to a group of similar contracts instead of to the individual contracts within that group.
- (4) (1) must be applied to a group of contracts in relation to which *mathematical reserves* in respect of non-attributable expenses are established for that group of contracts in accordance with ■ INSPRU 1.2.22 R (2)(a), instead of to the individual contracts within that group.

1.2.27
PRA

G

The valuation of each contract, or group of similar contracts, should allow for the possibility, where it exists, that contracts may be surrendered (wholly or in part), lapsed or made paid-up at any time. The valuation assumptions include margins for adverse deviation (see ■ INSPRU 1.2.13 R). ■ INSPRU 1.2.26 R requires *mathematical reserves* to be established such that, if future experience is in line with the valuation assumptions, there would be no future valuation strain.

Cash flows to be valued

1.2.28
FCA PRA

R

In a prospective valuation, a *firm* must:

- (1) include in the cash flows to be valued the following:
 - (a) future *premiums* (see ■ INSPRU 1.2.35 G to ■ INSPRU 1.2.47 G);
 - (b) expenses, including *commissions* (see ■ INSPRU 1.2.50 R to ■ INSPRU 1.2.58 G);
 - (c) benefits payable (see ■ INSPRU 1.2.29 R); and

- (d) subject to (2), amounts to be received or paid in respect of the *long-term insurance contracts* under contracts of *reinsurance* or analogous *non-reinsurance* financing agreements (see ■ INSPRU 1.2.77A R to ■ INSPRU 1.2.89 G); but

(2) exclude from those cash flows amounts recoverable from an *ISPV*.

1.2.28A

FCA PRA

G

A *firm* may include amounts recoverable from an *ISPV* in the cash flows to be valued in a prospective valuation if it obtains a *waiver* of ■ INSPRU 1.2.28 R under sections 138A and 138B of the *Act*. The conditions that will need to be met, in addition to the statutory tests under section 138A(4) of the *Act*, before the *PRA* will consider granting such a *waiver* are set out in ■ INSPRU 1.6.13 G to ■ INSPRU 1.6.18 G.

1.2.29

FCA PRA

R

For the purpose of ■ INSPRU 1.2.28R (1)(c) , benefits payable include:

- (1) all guaranteed benefits including guaranteed *surrender values* and paid-up values;
- (2) vested, declared and allotted bonuses to which the *policyholder* is entitled;
- (3) all options available to the *policyholder* under the terms of the contract; and
- (4) discretionary benefits payable in accordance with the *firm's* regulatory duty to treat its *customers* fairly.

1.2.30

FCA PRA

G

All cash flows are to be valued using prudent assumptions in accordance with generally accepted actuarial practice. Cash flows may be omitted from the valuation calculations provided the reserves obtained as a result of leaving those cash flows out of the calculation are not less than would have resulted had all cash flows been included (see ■ INSPRU 1.2.22 R (2)(b)). Provision for future expenses in respect of *with-profits insurance contracts* (excluding *accumulating with-profits policies*) may be made implicitly, using the *net premium* method of valuation (see ■ INSPRU 1.2.43 R below). For the purposes of ■ INSPRU 1.2.28R (1)(b) , any charges included in expenses should be determined in accordance with the *firm's* regulatory duty to treat its *customers* fairly.

1.2.31

FCA PRA

G

■ INSPRU 1.2.29 R (4) requires *regulatory basis only life firms* to make allowance for any future *annual bonus* that a *firm* would expect to grant, assuming future experience is in line with the assumptions used in the calculation of the *mathematical reserves*. *final bonuses* do not have to be taken into consideration in these calculations except in relation to *accumulating with-profits policies* (see ■ INSPRU 1.2.9 R). The calculations required for *accumulating with-profits policies* are set out in ■ INSPRU 1.2.71 R (1). For *realistic basis life firms*, except for *accumulating with-profits policies*, the *mathematical reserves* may be calculated without taking into account discretionary benefits, including both *annual bonuses* and *final bonuses*. For such *firms* full allowance for discretionary benefits is made in the calculation of the *realistic value of liabilities* (see ■ INSPRU 1.3.105 R (5)).

Valuation assumptions: detailed rules and guidance

1.2.32 **G** More detailed *rules* and *guidance* about the valuation of cash flows are set out in **INSPRU 1.2.33 R** to **INSPRU 1.2.89 G**.
PRA

Valuation rates of interest

1.2.33 **R** In calculating the present value of future net cash flows, a *firm* must determine the rates of interest to be used in accordance with **INSPRU 3.1.28 R** to **INSPRU 3.1.47 R**.
PRA

1.2.34 **G** The *rules* in **INSPRU 3.1.28 R** to **INSPRU 3.1.47 R** set out the approach *firms* must take in setting margins for adverse deviation in the interest rates assumed in calculating the *mathematical reserves*. This includes a margin to allow for adverse deviation in *market risk* and, where relevant, credit risk. The requirements set out in **INSPRU 3.1.28 R** to **INSPRU 3.1.47 R** protect against the *market risk* that the return actually achieved on assets may fall below the market yields on assets at the *actuarial valuation date*.
PRA

Future premiums

1.2.35 **G** **INSPRU 1.2.46 R** and **INSPRU 1.2.47 G** apply to the valuation of *with-profits insurance liabilities* for a *realistic basis life firm*. **INSPRU 1.2.38 R** to **INSPRU 1.2.45 G** apply to a *regulatory basis only life firm*.
PRA

1.2.36 **G** For *non-profit insurance contracts* no specific method of valuation for future *premiums* is required by *INSPRU*. However, the method of valuation used should be sufficiently prudent taking into account, in particular, the risk of voluntary discontinuance by the *policyholder*.
PRA

Future premiums: firms reporting only on a regulatory basis

1.2.37 **R** **INSPRU 1.2.38 R** to **INSPRU 1.2.43 R** apply to a *regulatory basis only life firm*.
PRA

1.2.38 **R**

- (1) This *rule* applies to with-profits insurance contracts except accumulating with-profits policies written on a recurring single premium basis.
- (2) The value attributed to a *premium* due in any future *financial year* (a future *premium*) must not exceed the lower of the value of:
 - (a) the actual *premium* payable under the contract; and
 - (b) the *net premium*.
- (3) The *net premium* may be increased for *deferred acquisition costs* in accordance with **INSPRU 1.2.43 R**.

1.2.39 **G** The valuation method for future *premiums* in **INSPRU 1.2.38 R** retains the difference, if any, between the gross *premium* and the *net premium* as an implicit margin available
PRA

to finance future bonuses, expenses and other costs. It thus helps to protect against the risk that adequate resources may not be available in the future to meet those costs. Where expenses are not directly attributable to a particular contract, a *firm* may establish *mathematical reserves* in respect of such expenses in relation to a group of contracts with the same or similar expense risk characteristics in accordance with ■ INSPRU 1.2.22 R (2)(a).

1.2.40
PRA

R Where the terms of a *contract of insurance* have changed since it was first entered into, a *firm* must apply one of the methods in ■ INSPRU 1.2.41 R in determining the *net premium* for the purpose of ■ INSPRU 1.2.38 R (2)(b).

1.2.41
PRA

R A *firm* must treat the change referred to in ■ INSPRU 1.2.40 R as if either:

- (1) it had been included in the original contract but came into effect from the time the change became effective; or
- (2) the original contract were cancelled and replaced by a new contract (with an initial *premium* paid on the new contract equal to the liability under the original contract immediately prior to the change); or
- (3) it gave rise to two separate contracts where:
 - (a) all *premiums* are payable under the first contract and that contract provides only for such benefits as those *premiums* could have purchased from the *firm* at the date the change became effective; and
 - (b) no *premiums* are payable under the second contract and that contract provides for all the other benefits.

1.2.42
PRA

G ■ INSPRU 1.2.41 R permits three alternative methods. However, the third method is only possible where a meaningful comparison can be made between the terms of the contract (as changed) and the terms upon which the *firm* was *effecting* its new *contracts of insurance* at the time the contract was changed.

Future net premiums: adjustment for deferred acquisition costs.....

1.2.43
PRA

- R**
- (1) The amount of any increase to the *net premium* for *deferred acquisition costs* must not exceed the equivalent of the recoverable acquisition expenses spread over the period of *premium* payments and calculated in accordance with the rates of interest, mortality and morbidity assumed in calculating the *mathematical reserves*.
 - (2) For the purpose of (1), recoverable acquisition expenses means the amount of expenses, after allowing for the effects of taxation, which it is reasonable to expect will be recovered from future *premiums* payable under the contract.
 - (3) The recoverable acquisition expenses in (1) must not exceed the lower of:

- (a) the value of the excess of actual *premiums* over *net premiums*; and
- (b) 3.5% of the *relevant capital sum*.

(4) Recoverable acquisition expenses may be calculated as the average for a group of similar contracts weighted by the *relevant capital sum* for each contract.

1.2.44
PRA

G

■ INSPRU 1.2.43 R allows a *firm* to spread acquisition costs over the lifetime of a *contract of insurance*, but only if it is reasonable to expect those costs to be recoverable from future *premium* income from that contract. Further prudence is provided by the limitation of recoverable acquisition expenses to 3.5% of the *relevant capital sum*. This adjustment for acquisition costs is sometimes termed a Zillmer adjustment.

1.2.45
PRA

G

In determining the extent, if any, to which it is reasonable to expect acquisition costs to be recoverable from future *premium* income, the *firm* should make prudent assumptions as to levels of voluntary discontinuance by *policyholders*.

Future premiums: firms also reporting with-profits insurance liabilities on a realistic basis

1.2.46
PRA

R

- (1) Subject to (2), for a *realistic basis life firm*, the future *premiums* to be valued in the calculation of the *mathematical reserves* for its *with-profits insurance contracts* must not be greater than the gross *premiums* payable by the *policyholder*.
- (2) This *rule* does not apply to *accumulating with-profits policies* written on a recurring single *premium* basis (see ■ INSPRU 1.2.48 R).

1.2.47
PRA

G

The gross *premium* is the full amount of *premium* payable by the *policyholder* to the *firm*. The gross *premium* method contrasts with the *net premium* method which is required from *regulatory basis only life firms* (see ■ INSPRU 1.2.37 R to ■ INSPRU 1.2.45 G).

Future premiums: accumulating with-profits policies

1.2.48
PRA

R

- (1) This *rule* applies to *accumulating with-profits policies* written on a recurring single *premium* basis.
- (2) A *firm* must not attribute any value to a future *premium* under the contract.
- (3) Any liability arising only upon the payment of that *premium* may be ignored except to the extent that the value of that liability upon payment would exceed the amount of that *premium*.

1.2.49
PRA

G

■ INSPRU 1.2.48 R prohibits a *firm* from taking credit for recurring single *premiums* under *accumulating with-profits policies*. As there is no contractual commitment to

pay any future *premiums* the amount and timing of which are uncertain, the recognition of any potential margins would not be prudent. Where the payment of a future *premium* would give rise to a liability in excess of the *premium* a provision should be established.

Expenses

1.2.50
PRA

R

- (1) A *firm* must make provision for expenses, either implicitly or explicitly, in its *mathematical reserves* of an amount which is not less than the amount expected, on prudent assumptions, to be incurred in fulfilling its *long-term insurance contracts*.
- (2) For the purpose of (1), expenses must be valued:
 - (a) after taking account of the effect of taxation;
 - (b) having regard to the *firm's* actual expenses in the last 12 months before the *actuarial valuation date* and any increases in expenses expected to occur in the future;
 - (c) after making prudent assumptions as to the effects of inflation on future increases in prices and earnings; and
 - (d) at no less than the level that would be incurred if the *firm* were to cease to transact new business 12 months after the *actuarial valuation date*.
- (3) A *firm* must not rely upon an implicit provision arising from the method of valuing future *premiums* except to the extent that:
 - (a) it is reasonable to assume that expenses will be recoverable from future *premiums*; and
 - (b) the expenses would only arise if the future *premiums* were received.

1.2.51
PRA

G

For *with-profits insurance contracts* where the *net premium* valuation method applies, an implicit provision arises because the future *premiums* valued are limited to the *net premium* adjusted as permitted by ■ INSPRU 1.2.43 R. This excludes the allowance within the gross *premium* for expenses (other than recoverable acquisition expenses). It also excludes other margins within the actual *premium* that are a prudential margin in respect of the risks that arise under the contract or that are needed to provide for future discretionary benefits. To the extent that these other margins are not needed for the purpose for which they were originally established, they may also constitute an implicit provision for expenses.

1.2.52
PRA

G

An implicit provision may also arise for other types of *long-term insurance contract* where, for example, no value is attributed to future *premiums*, but the *firm* is entitled to make deductions from future regular *premiums* before allocating them to secure *policyholder* benefits.

1.2.53
PRA

G

A *firm* should only reduce the provision for future expenses to take account of expected taxation recoveries related to those expenses where recovery is reasonably certain, and after taking into account the assumption that the *firm* ceases to transact new business 12

months after the *actuarial valuation date*. An appropriate adjustment for discounting should be made where receipt of the taxation recoveries is not expected until significantly after the expenses are incurred.

1.2.54

PRA

G

The *firm's* actual expenses in the 12 months prior to the *actuarial valuation date* may serve as a guide to the assumptions for future expenses, taking into consideration the mix of acquisition and renewal expenses. The expense assumptions should not be reduced to account for expected future improvements in efficiency until such efficiency improvements result in a reduced level of actual expenditure. However, the assumptions should take account of all factors which might increase costs including earnings and price inflation.

1.2.54A

PRA

G

- (1) A *firm* should attribute to an individual contract at least those expenses which are directly attributable to that contract including expenses which vary with the volume of business for that type of contract. Commission payments, charges to a fund on a 'per policy' basis and investment management fees are generally directly attributable. For expenses of the fund which are calculated directly based on actual expenses (and not calculated in accordance with a management services agreement), the attributable expenses will also include those costs which vary with the volume of business for that product, for example, salaries and accommodation costs of staff in a processing centre, printing and postage of communications to *policyholders* and associated computer services.
- (2) Non-attributable expenses may include overheads which are relatively insensitive to the volume of business for the type of contract in question and an apportionment of group overheads. Examples of expenses that *firms* may consider non-attributable include salaries of head office staff involved in monitoring products and drafting standard communications to *policyholders* and allocated overheads for centralised functions such as human resources, finance and IT. Where non-attributable expenses arise in relation to a homogeneous risk group of contracts sharing the same or similar expense risk characteristics, a *firm* may determine the reserve for those expenses at the level of that risk group, provided that the reserve so established has a minimum value of at least zero (see ■ INSPRU 1.2.22 R (2)(a)). In identifying its homogeneous risk groups, a *firm* should consider all risks that impact on the level of expenses borne by contracts including persistency risk and expense inflation risk. For example, business that is subject to bulk lapse risk, such as any large group contract that would give rise to a reduction in surplus on lapse, should be considered as forming a homogeneous risk group of its own. A *firm* must document and justify its approach to identifying homogeneous risk groups in accordance with the record-keeping requirements of ■ INSPRU 1.2.20 R. This approach to reserving for expenses ensures that prudent reserves are established in respect of both directly attributable and non-attributable expenses arising in relation to the *firm's long-term insurance business*.

1.2.54B

PRA

G

In valuing cash flows in respect of *commissions*, a *firm* may wish to take into account any contractual arrangements for the "clawback" or repayment of *commissions* already paid in the event of voluntary discontinuance of a *contract of insurance*. In deciding how to treat such arrangements in determining the *mathematical reserves* for a *contract of insurance*, the *firm* must use assumptions which meet the general requirements for prudent assumptions as set out in ■ INSPRU 1.2.10 R and ■ INSPRU 1.2.13 R. For example,

the *firm* should establish prudent margins for adverse deviation in respect of the credit risk of the intermediary by whom the *commission* would be repayable.

1.2.55

PRA

R

The provisions for expenses (whether implicit or explicit) required by ■ INSPRU 1.2.50 R must be sufficient to cover all the expenses of running off the *firm's* existing *long-term insurance business* including:

- (1) all discontinuance costs (for example, redundancy costs and closure costs) that would arise if the *firm* were to cease transacting new business 12 months after the *actuarial valuation date* in circumstances where (and to the extent that) the discontinuance costs exceed the projected surplus available to meet such costs;
- (2) all costs of continuing to service the existing business taking into account the loss of economies of scale from, and any other likely consequences of, ceasing to transact new business at that time; and
- (3) the lower of:
 - (a) any projected valuation strain from writing new business for the 12 months following the *actuarial valuation date* to the extent the actual amount of that strain exceeds the projected surplus on prudent assumptions from existing business in the 12 months following the *actuarial valuation date*; and
 - (b) any projected new business expense overrun from writing new business for the 12 months following the *actuarial valuation date* to the extent the projected expenses exceed the expenses that the new business can support on a prudent basis.

1.2.56

PRA

G

The provision for future expenses, whether implicit or explicit, should include a prudent margin for adverse deviation in the level and timing of expenses (see ■ INSPRU 1.2.13 R to ■ INSPRU 1.2.19 G). The margin should cover the risk of underestimating expenses whether due to, for example, initial under-calculation or subsequent increases in the amount of expenses. In setting the amount of the margin, the *firm* should take into account the extent to which:

- (1) an appropriately validated method based on reliable data is used to allocate expenses as between attributable and non-attributable expenses or between acquisition and non-acquisition expenses and by product type, by distribution channel or by homogeneous risk group, as appropriate;
- (2) the volume of existing and new business and its distribution by product type or distribution channel is stable or predictable;
- (3) costs vary in the short, medium or long term dependent upon the volume of existing or new business and its distribution by product type or distribution channel; and
- (4) cost control is well-managed.

1.2.57

PRA

G

In setting the margin, the *firm* should also take into account:

- (1) the length of the period over which it is necessary to project costs;
- (2) the extent to which it is reasonable to expect inflation to be stable or predictable over that period; and
- (3) whether, if inflation is higher than expected, it is reasonable to expect that the excess would be offset by increases in investment returns.

1.2.58

PRA

G

Where a *firm* has entered into an agreement with any other person for the sharing or reimbursement of costs, in setting the margin it should take into account the potential impact of that agreement and of its discontinuance.

Mortality and Morbidity

1.2.59

FCA PRA

R

A *firm* must set the assumptions for mortality and morbidity using prudent rates of mortality and morbidity that are appropriate to the country or territory of residence of the person whose life or health is insured.

1.2.60

FCA PRA

G

The rates of mortality or morbidity should contain prudent margins for adverse deviation (see ■ INSPRU 1.2.13 R to ■ INSPRU 1.2.19 G). In setting those rates, a *firm* should take account of:

- (1) the systems and controls applied in underwriting *long-term insurance contracts* and whether they provide adequate protection against anti-selection (that is, selection against the *firm*) including:
 - (a) adequately defining and identifying non-standard risks; and
 - (b) where such risks are underwritten, allocating to them an appropriate weighting;
- (2) the nature of the contractual exposure to mortality or morbidity risk including:
 - (a) whether lower mortality increases or decreases the *firm's* liability;
 - (b) the period of cover and whether risk charges can be varied during that period and, if so, how quickly; and
 - (c) whether the options in the contract give rise to a significant risk of anti-selection (for example, opportunities for voluntary discontinuance, guaranteed renewal at the option of the *policyholder* and rights for conversion of benefits);
- (3) the credibility of the *firm's* actual experience as a basis for projecting future experience including:
 - (a) whether there is sufficient data (especially for medical or financial risks and for new types of benefit or new methods of distribution); and
 - (b) whether the data is reliable and has been appropriately validated;

- (4) the availability and reliability of:
 - (a) any published tables of mortality or morbidity for the country or territory of residence of the person whose life or health is insured; and
 - (b) any other information as to the industry-wide insurance experience for that country or territory;

- (5) anticipated or possible future trends in experience including, but only where they increase the liability:
 - (a) anticipated improvements in mortality;
 - (b) changes arising from improved detection of morbidity (including critical illnesses);
 - (c) diseases the impact of which may not yet be reflected fully in current experience; and
 - (d) changes in market segmentation (such as impaired life annuities) which, in the light of developing experience, may require different assumptions for different parts of the policy class.

1.2.61

FCA PRA

G

An additional provision for diseases covered by ■ INSPRU 1.2.60 G (5)(c) may be needed, in particular for unit-linked policies. In determining whether such a provision is needed a *firm* may take into consideration any ability to increase product charges commensurately (provided that such increase does not infringe on its regulatory duty to treat its *customers* fairly), but a provision would still be required for the period until such an increase could be brought into effect.

Options

1.2.62

FCA PRA

R

When a *firm* establishes its *mathematical reserves* in respect of a *long-term insurance contract*, the *firm* must include an amount to cover any increase in liabilities which might be the direct result of its *policyholder* exercising an option under, or by virtue of, that *contract of insurance*. Where the *surrender value* of a contract is guaranteed, the amount of the *mathematical reserves* for that contract at any time must be at least as great as the value guaranteed at that time.

1.2.62A

FCA PRA

G

A contract has a guaranteed *surrender value* where the *policy* wording states that a *surrender value* is payable and either provides for a minimum amount payable on surrender or sets out a method for calculating such an amount. For example, where a unit-linked contract provides for a *surrender value* equal to the value of the units allocated to the contract, the *firm* must establish *mathematical reserves* for that contract greater than or equal to the value of the units allocated at the valuation date.

1.2.63

FCA PRA

G

An option exists where a *policyholder* is given a choice between alternative forms of benefit, for example, a choice between receiving a cash benefit upon maturity or an annuity at a guaranteed rate. In some cases, the contract may designate one or other of these alternatives as the principal benefit and any other as an option. This designation, in itself, is not one of substance in the context of reserving since it does not affect the *policyholder's* choices. Other forms of option include:

- (1) the right to convert to a different contract on guaranteed terms;

- (2) the right to increase cover on guaranteed terms;
- (3) the right to a specified amount on surrender; and
- (4) the right to a paid up value.

1.2.64

FCA PRA

G

The *firm* should provide for the benefit which the *firm* anticipates the *policyholder* is most likely to choose. Past experience may be used as a guide, but only if this is likely to give a reasonable estimate of future experience. For example, past experience of the take-up of a cash payment option instead of an annuity would not be a reliable guide, if, in the past, market rates exceeded those guaranteed in the annuity but no longer do so. Similarly, past experience on the take-up of options may not be relevant in the light of the assumptions made in respect of future interest rates and mortality rates in the valuation of the benefits.

1.2.65

FCA PRA

G

Many options are long-term and need careful consideration. Improving longevity, for example, can increase the value of guaranteed annuity options vesting further in the future. *firms* also need to have regard to the fact that *policyholder* behaviour can change in the future as *policyholders* become more aware of the value of their options. The impact on *policyholder* behaviour of possible changes in taxation should also be considered.

1.2.66

FCA PRA

G

In accordance with **■ INSPRU 1.2.7 R** and **■ INSPRU 1.2.13 R**, take-up rates for guaranteed annuity options should be assessed on a prudent basis with assumptions that include margins for adverse deviation (see **■ INSPRU 1.2.13 R** to **■ INSPRU 1.2.19 G**) that take account of current experience and the potential for future change. The *firm* should reserve for option take-up at least at a prudent margin over current experience for options shortly to vest. For longer term options where the option becomes increasingly valuable in the future due to projected mortality improvements, increased take-up rates should be assumed. In view of the growing uncertainty over take-up rates for projections further in the future, for guaranteed annuity option dates 20 years or more ahead at least a 95% take-up rate assumption should be made.

1.2.67

FCA PRA

G

Where there is considerable variation in the cost of the option depending on conditions at the time the option is exercised, and where that variation constitutes a material risk for the *firm*, it will generally be appropriate to use stochastic modelling. In this case prices from the asset model used in the stochastic approach should be benchmarked to relevant market asset prices before determining the value of the option. Where stochastic modelling is not undertaken, market option prices should be used to determine suitable assumptions for the valuation of the option. If no market exists for a particular option, a *firm* should take the value of the nearest equivalent benefit or right for which a market exists and document the way in which it has adjusted that valuation to reflect the original option.

1.2.68

FCA PRA

G

Where the option offers a choice between two non-discretionary financial benefits (such as between a guaranteed cash sum or a guaranteed annuity value, or between a unit value and a maturity guarantee) and where there is a wide range of possible outcomes, the *firm* should normally model such liabilities stochastically. In carrying out such modelling *firms* should take into account the likely choices to be made by *policyholders* in each scenario. *Firms* should make and retain a record of the development and application of the model.

1.2.69

FCA PRA

G

The value of a contract with an option is greater than the value of a similar contract without the option, that is, the option has value whether it is expected to be exercised or not. Although in theory a *firm* can rebalance its investments to match the expected cost of the option to the *firm* (including the time value of the option), this takes time to achieve and the market may move more quickly than the *firm* is able to respond. Also, there are likely to be transaction costs. *Firms* should take these aspects into consideration in setting up *mathematical reserves*.

1.2.70

FCA PRA

R

- (1) Where a *policyholder* may opt to be paid a cash amount, or a series of cash payments, the *mathematical reserves* for the *contract of insurance* established under ■ **INSPRU 1.2.7 R** must be sufficient to ensure that the payment or payments could be made solely from:
 - (a) the assets covering those *mathematical reserves*; and
 - (b) the resources arising from those assets and from the contract itself.
- (2) In (1) references to a cash amount or a series of cash payments include the amount or amounts likely to be paid on a voluntary discontinuance.
- (3) For the purposes of (1), the *firm* must assume that:
 - (a) the assumptions adopted for the current valuation remain unaltered and are met; and
 - (b) discretionary benefits and charges will be set so as to fulfil the *firm's* regulatory duty to treat its *customers* fairly.
- (4) (1) may be applied to a group of similar contracts instead of to the individual contracts within that group except where the cash amount or series of cash payments is the amount or amounts likely to be paid on a voluntary discontinuance.

1.2.71

FCA PRA

R

For the purposes of ■ **INSPRU 1.2.70 R**, a *firm* must assume that the amount of a cash payment secured by the exercise of an option is:

- (1) in the case of an *accumulating with-profits policy*, the lower of:
 - (a) the amount which the *policyholder* would reasonably expect to be paid if the option were exercised, having regard to the representations made by the *firm* and including any expectations of a *final bonus*; and
 - (b) that amount, disregarding all discretionary adjustments;
- (2) in the case of any other *policy*, the amount which the *policyholder* would reasonably expect to be paid if the option were exercised, having regard to the representations made by the *firm*, without taking into account any expectations regarding future distributions

of profits or the granting of discretionary additions in respect of an *established surplus*.

1.2.72

FCA PRA

G

■ INSPRU 1.2.71 R (1) applies only to *accumulating with-profits policies*;
 ■ INSPRU 1.2.71 R (2) applies to any other type of *policy*, including *non-profit insurance contracts*. In ■ INSPRU 1.2.71 R (1)(a) a *firm* must take into consideration, for example, a market value adjustment where such an adjustment has been described in representations made to *policyholders* by the *firm*. However, any discretionary adjustment, such as a market value adjustment, must not be included in the amount calculated in ■ INSPRU 1.2.71 R (1)(b).

Persistency assumptions

1.2.73

[intentionally blank]

1.2.74

[intentionally blank]

1.2.75

[intentionally blank]

1.2.76

PRA

R

A *firm* may make assumptions about voluntary discontinuance rates in the calculation of the *mathematical reserves* provided that those assumptions meet the general requirements for prudent assumptions as set out in ■ INSPRU 1.2.10 R and ■ INSPRU 1.2.13 R.

1.2.77

PRA

G

The prudential margin in respect of assumptions of voluntary discontinuance should be validated both in relation to recent experience and to variations in future experience that might arise as a result of reasonably foreseeable changes in conditions. In particular, where estimates of experience are being made well into the future, the assumptions should contain margins that take into account the increased risk of adverse experience arising from changed circumstances. *firms* should also consider the possibility of anti-selection by *policyholders* and of variations in persistency experience for different classes and cohorts of business.

Reinsurance

1.2.77A

PRA

R

In ■ INSPRU 1.2.78 G to ■ INSPRU 1.2.89 G references to:

- (1) *reinsurance* and contracts of *reinsurance* include analogous *non-reinsurance* financing agreements, including contingent loans, securitisations and any other arrangements in respect of *contracts of insurance* that are analogous to contracts of *reinsurance* in terms of the risks transferred and the finance provided;
- (2) *reinsured risks*, in relation to a contract of *reinsurance* entered into by a *firm*, means that part of:
 - (a) the risks insured by the *firm* under *long-term insurance contracts* entered into by it; and
 - (b) the other risks arising directly from the *firm's long-term insurance business*;

that have been transferred to the *reinsurer* under that contract of *reinsurance*; and

- (3) *reinsurance* cash outflows include any reduction in *policy* liabilities recognised as covered under a contract of *reinsurance* or any reduction of any debt to the *firm* under or in respect of a contract of *reinsurance*.

1.2.78

PRA

G

The prospective valuation of future cash flows to determine the amount of the *mathematical reserves* includes amounts to be received or paid under contracts of *reinsurance* in respect of *long-term insurance business* (see ■ INSPRU 1.2.28R (1)(d)). This applies even where those cash flows cannot be identified as related to particular *long-term insurance contracts* (see ■ INSPRU 1.2.22 R (3)).

1.2.79

PRA

R

A *firm* must value *reinsurance* cash flows using methods and assumptions which are at least as prudent as the methods and assumptions used to value the underlying *contracts of insurance* which have been reinsured. In particular:

- (1) *reinsurance* recoveries must not be recognised unless the underlying liabilities to which they relate have also been recognised;
- (2) *reinsurance* cash outflows need not to be valued provided that:
 - (a) they are unambiguously linked to the emergence as surplus of margins included in the valuation of existing *contracts of insurance* or to the exercise by a *reinsurer* of its rights under a termination clause (see ■ INSPRU 1.2.85 R); and
 - (b) the conditions in ■ INSPRU 1.2.79A R are satisfied;
- (3) *reinsurance* cash inflows that are contingent on factors or conditions other than the reinsured risks must not be valued.

1.2.79A

PRA

R

The conditions referred to in ■ INSPRU 1.2.79R (2)(b) are that:

- (1) the *reinsurance* is not connected with any other transaction, which, when taken together with the *reinsurance*, could result in the requirements set out in ■ INSPRU 1.2.79R (2) no longer being satisfied or in the risk transferred under the *reinsurance* being undermined; and
- (2) the present value of the future *reinsurance* cash outflows that may be disregarded under ■ INSPRU 1.2.79R (2) must not at any time exceed the value of the aggregate net cash inflows that have already been received by the *firm* under the contract of *reinsurance* accumulated at an assumed rate of LIBOR + 6% per annum.

1.2.79B

PRA

G

Examples of connected transactions that could have the effect described in ■ INSPRU 1.2.79AR(1) might include a *deposit*, loan, *repo*, or *stock lending* transaction between the *firm* and the *reinsurer*, or between the *firm* and an undertaking that is closely related to the *reinsurer*. For these purposes, the expression closely related shall have the meaning set out in ■ INSPRU 2.1.40 R.

1.2.80

PRA

G

In valuing *reinsurance* cash flows, a *firm* should establish prudent margins for adverse deviation (see ■ INSPRU 1.2.13 R to ■ INSPRU 1.2.19 G) including margins in respect of:

- (1) any uncertainty as to the amount or timing of amounts to be paid or received; and
- (2) the risk of credit default by the *reinsurer*.

1.2.81

PRA

G

In assessing the risk of credit default, the *firm* should take into account the *rules* and *guidance* in ■ INSPRU 2.1 (Credit risk in insurance).

1.2.82

PRA

G

It will not necessarily be appropriate to use the same assumptions in ■ INSPRU 1.2.79 R as for the underlying contracts. For example, if only a subgroup of the original contracts is reinsured, it may be appropriate to use different mortality rates.

1.2.83

PRA

G

Only *reinsurance* cash inflows that are triggered unambiguously by the reinsured risks may be valued. *Reinsurance* cash inflows that depend on other contingencies where the outcome does not form part of the valuation basis should not be given credit.

1.2.84

PRA

G

Firms should assess the extent of margins in the valuation of the existing *contracts of insurance* where these provide implicit provision for the *reinsurance* cash outflows in ■ INSPRU 1.2.79 R. Where the *reinsurance* asset exceeds the estimated value of the future surplus under reinsured contracts *firms* should assess their credit risk exposure to the *reinsurer*.

1.2.85

PRA

R

For the purposes of ■ INSPRU 1.2.79 R (2), the "link" must be such that a contingent liability to pay or repay the amount to the *reinsurer* could not arise except when, and to the extent that, the margins in the valuation of the existing *contracts of insurance* emerge as surplus, or the *reinsurer* exercises its rights under a termination clause in the contract of *reinsurance* as a result of:

- (1) fraudulent conduct by the *firm* under or in relation to the contract of *reinsurance*; or
- (2) a representation as to the existence, at or before the time the contract of *reinsurance* is entered into, of a state of affairs which is within the knowledge or control of the *firm* and which is material to the *reinsurer's* decision to enter into the contract being discovered to be false; or
- (3) the non-payment of *reinsurance premiums* by the *firm*; or

(4) a transfer by the *firm* of the whole or a specified part of its business without the agreement of the *reinsurer*, except where that agreement has been unreasonably withheld.

1.2.86 FCA PRA R For the purposes of ■ INSPRU 1.2.79 R (2) and ■ INSPRU 1.2.85 R, future surplus may only be offset against future *reinsurance* cash outflow in respect of surplus on *non-profit insurance contracts* and the charges or shareholder transfers arising as surplus from *with-profits insurance contracts*. Such charges and transfers may only be allowed for to the extent consistent with the regulatory duty of the *firm* to treat its *customers* fairly.

1.2.87 PRA G For the purposes of ■ INSPRU 1.2.85 R, a contingent liability means a liability that would only arise upon the happening of a particular contingency, even where that contingency is not expected to occur. For example, if the *firm* has a *reinsurance* arrangement in force that in the event the *firm* were wound up would give rise to repayments other than out of surplus emerging, the *reinsurance* cash outflows should be valued as a liability.

1.2.88 PRA G ■ INSPRU 1.2.85 R allows a *firm* not to value *reinsurance* cash outflows provided the contingencies in which the *reinsurance* would require repayment other than out of future surpluses are limited to termination clauses concerning fraud, material misrepresentation, non-payment of *reinsurance premiums* by the *firm* or a transfer of business by the *firm* without the agreement of the *reinsurer*, except if unreasonably withheld.

1.2.89 PRA G Where the *reinsurance* cash outflow is payable by a fund or sub-fund that generates such profits, charges or transfers, the *firm* need make no provision for such payments provided that repayment to the *reinsurer* is linked unambiguously (as defined in ■ INSPRU 1.2.85 R) to the emergence of future surplus. Where the profits, charges or transfers arising under a block of business are payable by a fund or sub-fund to another part of the *firm* then only where the *firm* has committed to remit such profits, charges or transfers directly to the *reinsurer* would it be acceptable for no provision for payments to the *reinsurer* to be made.

1.2.90 R [deleted]

1.2.91 G [deleted]

Application of INSPRU 1.2 to Lloyd's

1.2.92 FCA PRA R ■ INSPRU 1.2 applies to *managing agents* in accordance with ■ INSPRU 8.1.4 R.

Approved reinsurance to close

1.2.93 PRA R In respect of business that has been subject to an *approved reinsurance to close*, *managing agents* must calculate *mathematical reserves* (before and after deduction of reinsurance cessions) for the reinsuring and not for the reinsured *member*.

1.3 With-profits insurance capital component

Application

1.3.1 **R**

FCA **PRA**

■ INSPRU 1.3 applies to a *realistic basis life firm*.

1.3.2 **G**

FCA **PRA**

A *realistic basis life firm* means a *firm* to which ■ GENPRU 2.1.18 R applies. The application of ■ GENPRU 2.1.18 R is set out in ■ GENPRU 2.1.19 R and ■ GENPRU 2.1.20 R. ■ GENPRU 2.1.13 R requires that a *firm* must maintain at all times *capital resources* equal to or in excess of its *capital resources requirement*. The *enhanced capital requirement* forms part of the *capital resources requirement* for a *realistic basis life firm*. The *with-profits insurance capital component* forms part of the *enhanced capital requirement* which a *realistic basis life firm* is required to calculate in accordance with ■ GENPRU 2.1.38 R.

Purpose

1.3.3 **G**

PRA

This section sets out *rules* and *guidance* as to the methods and assumptions to be used in calculating the *with-profits insurance capital component*.

1.3.4 **G**

PRA

The purpose of the *with-profits insurance capital component* is to supplement the *mathematical reserves* so as to ensure that a *firm* holds adequate financial resources for the conduct of its *with-profits insurance business*. In particular, capital in excess of the *mathematical reserves* may be needed to ensure that adequate *final bonuses* can be awarded to *policyholders*. That is, adequate in the sense that in setting bonuses payable to *policyholders* the *firm* pays due regard to the interests of its *policyholders* and treats them fairly. The *mathematical reserves* for a *realistic basis life firm* are not required to include provision for future *annual bonuses* or *final bonuses* (■ INSPRU 1.2.9 R).

1.3.5 **G**

PRA

The required procedures are summarised in the flowchart in ■ INSPRU 1 Annex 1 G.

Main requirements

1.3.6 **R**

PRA

A *firm* must calculate the *with-profits insurance capital component* in accordance with ■ INSPRU 1.3.7 R.

1.3.7 **R**

PRA

- (1) The *with-profits insurance capital component* for a *firm* is the aggregate of any amounts that:
 - (a) result from the calculations specified in (2) and (3); and

- (b) are greater than zero.
- (2) Subject to (3), in relation to each *with-profits fund* within the *firm*, the *firm* must deduct B from A, where:
- (a) A is the amount of the *regulatory excess capital* for that fund (see ■ INSPRU 1.3.23 R); and
 - (b) B is the sum of:
 - (i) the *realistic excess capital* for that fund (see ■ INSPRU 1.3.32 R);
 - (ii) the value, in the most adverse scenario required by ■ INSPRU 1.3.43 R (3), of future internal transfers from the fund to shareholders or another of the *firm's* funds in respect of the future distribution of surplus between *policyholders* and shareholders; and
 - (iii) an amount not exceeding the value, in the most adverse scenario required by ■ INSPRU 1.3.43 R (3), of any other future internal transfers from the fund to a *non-profit fund* in respect of expense-related charges to the extent that the future receipt of the amount transferred is not already taken into account in the calculation of the *firm's capital resources* or in establishing its *technical provisions*.
- (3) Where a capital instrument that can be included in the *firm's capital resources* in accordance with ■ GENPRU 2.2 has been attributed wholly or partly to a *with-profits fund* and that instrument meets the requirements of ■ GENPRU 2.2.271 R, the *firm* must add to the amount calculated under (2) for that fund the result, subject to a minimum of zero, of deducting D from C where:
- (a) C is the outstanding face amount of the instrument to the extent attributed to the fund; and
 - (b) D is the realistic value of the instrument to the extent attributed to the fund in the single event that determines the *risk capital margin* under ■ INSPRU 1.3.43 R.

1.3.7A

PRA

G

Future internal transfers from a *with-profits fund* are included in the *realistic value of liabilities* (see ■ INSPRU 1.3.105 R, ■ INSPRU 1.3.119 R, ■ INSPRU 1.3.128 R and ■ INSPRU 1.3.165 R). ■ INSPRU 1.1.27 R ensures that sufficient assets are maintained in a *with-profits fund* to meet those future internal transfers. In calculating the WPICC, the economic value to the *firm* of those future transfers in the most adverse scenario required in calculating the *risk capital margin* (see ■ INSPRU 1.3.43 R) should be recognised. In the case of internal transfers to a *non-profit fund* in respect of expense-related charges, those transfers may only be recognised to the extent that those cash flows have not already been taken into account in calculating the *firm's capital resources* or *technical provisions*. In effect, the future asset of the shareholders or another of the *firm's* funds is available to offset the corresponding liability of the *with-profits fund* and should, therefore, subject

to the limitation in ■ INSPRU 1.3.7 R (2)(b)(iii), be treated as capital arising from that fund which is available to reduce the amount of the *WPICC*.

1.3.8
PRA

G

Subordinated debt which is subordinated to *policyholder* interests (see ■ GENPRU 2.2.271 R) is an example of the sort of capital instrument that may give rise to a component of the *WPICC* under ■ INSPRU 1.3.7 R (3). Such instruments are treated as capital under ■ GENPRU 2.2, subject to the requirements of ■ GENPRU 2.2.271 R. Under realistic reserving the capital instrument is valued as a realistic liability (■ INSPRU 1.3.40 R) and in calculating the *risk capital margin* such an instrument would be valued at its realistic value in the single event outlined in ■ INSPRU 1.3.43 R (see also ■ INSPRU 1.3.162 R). Overall, the effect of ■ GENPRU 2.2, ■ INSPRU 1.3.7 R (3) and ■ INSPRU 1.3.43 R is to enable a *firm* that obtains subordinated debt to benefit from additional *capital resources* equal to the face amount of that debt.

1.3.9
FCA PRA

G

■ SUP 4 (Actuaries) sets out the role and responsibilities of the *actuarial function* and of the *with-profits actuary*.

- (1) As part of his duties under ■ SUP 4.3.13 R, the *actuary* appointed by the *firm* to perform the *actuarial function* must calculate the *firm's mathematical reserves* and, in the context of the calculation of the *with-profits insurance capital component*, must also:
 - (a) advise the *firm's governing body* on the methods and assumptions to be used in the calculation of the *firm's with-profits insurance capital component*;
 - (b) perform that calculation in accordance with the methods and assumptions determined by the *firm's governing body*; and
 - (c) report to the *firm's governing body* on the results of that calculation.
- (2) As part of his duties under SUP 4.3.16G, the *with-profits actuary* must advise the *firm's governing body* on the discretion exercised by the *firm*. In the context of the calculation of the *with-profits insurance capital component*, the *with-profits actuary* must also advise the *firm's governing body* as to whether the methods and assumptions (including the allowance for management actions) used for that calculation are consistent with the *firm's Principles and Practices of Financial Management (PPFM)* - see ■ COBS 20.3) and with its regulatory duty to treat its *customers* fairly.

General

Definitions

1.3.10
PRA

R

In this section, real estate means an interest in land, buildings or other immovable property.

1.3.11
PRA

R

In this section, the long-term gilt yield is the annualised equivalent of the yield on the 15-year index for United Kingdom Government fixed-interest securities jointly compiled by the Financial Times, the Institute of Actuaries and the Faculty of Actuaries.

1.3.12 PRA R For the purposes of this section, a *firm* has an exposure to an asset or liability where the *firm's* valuation of its assets or liabilities changes when the value of the asset or liability changes.

1.3.13 FCA PRA R Unless the context otherwise requires, all references (however expressed) in this section to realistic liabilities, or to liabilities which are included in the calculation of realistic liabilities, include discretionary benefits payable by the *firm* in accordance with the *firm's* regulatory duty to treat its *customers* fairly.

1.3.14 FCA PRA G In this section, any reference to a *firm's* regulatory duty to treat its *customers* fairly is a reference to the duty of a *firm* regulated by the FCA under FCA's Principle 6 (Customers' interests). This states that a *firm* must pay due regard to the interests of its *customers* and treat them fairly.

1.3.15 FCA PRA G In this section, any reference to the *Principles and Practices of Financial Management (PPFM)* is a reference to the requirements in the FCA's rules at ■ COBS 20.3 (Principles and Practices of Financial Management) for *firms* to establish, maintain and record the principles and practices of financial management according to which the business of its *with-profits funds* is conducted.

1.3.16 FCA PRA G The extent to which a *firm* requires a separate PPFM for each of its *with-profits funds* will depend on the *firm's* circumstances and any relevant representations made by the *firm* to its with-profits *policyholders*. In this section, any reference to a *firm's* PPFM refers to the PPFM which relate to the *with-profits fund* or the *with-profits insurance contracts* in question.

Record keeping

1.3.17 FCA PRA R A *firm* must make, and retain for an appropriate period of time, a record of:

- (1) the methods and assumptions used in making any calculation required for the purposes of this section (and any subsequent changes) and the reasons for their use; and
- (2) any change in practice and the nature of, reasons for, and effect of, any change in approach with respect to those methods and assumptions.

1.3.18 FCA PRA G ■ SYSC 14.1.53 R requires *firms* to maintain accounting and other records for a minimum of three years, or longer as appropriate. For the purposes of ■ INSPRU 1.3.17 R, a period of longer than three years will be appropriate for a *firm's long-term insurance business*. In determining an appropriate time period, a *firm* should have regard to:

- (1) the detailed *guidance* on record keeping in ■ SYSC 14.1.51 G to ■ SYSC 14.1.64 G;
- (2) the nature and term of the *firm's long-term insurance contracts*; and
- (3) any additional provisions or statutory requirements applicable to the *firm* or its records.

1.3.19
FCA PRA

R A *firm* must also identify in the record required to be kept by ■ INSPRU 1.3.17 R changes in practice, in particular changes in those items which will or may be significant in relation to the eventual *claim* values.

1.3.20
FCA

G Some of the changes identified in accordance with ■ INSPRU 1.3.19 R may have to be notified to the *firm's policyholders* in accordance with the *firm's PPFM*.

General principles for allocating aggregate amounts

1.3.21
PRA

R Where any calculation is required under this section which:

- (1) is to be made in respect of any *with-profits fund* of a *firm*; and
- (2) covers an amount that is otherwise calculated in relation to the *firm* as a whole;

the *firm* must make an allocation of that amount as between all of its funds (including funds which are not *with-profits funds*).

1.3.22
PRA

R In any case where:

- (1) *non-profit insurance contracts* are written in any *with-profits fund* of a *firm*; and
- (2) any calculation is required under this section which:
 - (a) is to be made in respect of the *regulatory excess capital* or *realistic excess capital* for the fund; and
 - (b) covers an amount that is otherwise calculated or allocated in relation to the fund as a whole;

the *firm* must make an allocation of the amount in (2)(b) as between the *with-profits insurance contracts* and *non-profit insurance contracts* written in the fund.

Calculation of regulatory excess capital

1.3.23
PRA

R A *firm* must calculate the *regulatory excess capital* for each of its *with-profits funds* by deducting B from A, where:

- (1) A is the *regulatory value of assets* of the fund (■ INSPRU 1.3.24 R; and
- (2) B is the sum of:
 - (a) the *regulatory value of liabilities* of the fund (■ INSPRU 1.3.29 R); and
 - (b) the *long-term insurance capital requirement* in respect of the fund's *with-profits insurance contracts*.

Regulatory value of assets

1.3.24
PRA

R

- (1) For the purposes of ■ INSPRU 1.3.23 R (1), the *regulatory value of assets* of a *with-profits fund* is equal to the sum of:
- (a) the amount of the fund's *long-term admissible assets*; and
 - (b) the amount of any *implicit items* allocated to that fund; less an amount, representing any *non-profit insurance contracts* written in that fund, determined in accordance with (2).
- (2) Where *non-profit insurance contracts* are written in a *with-profits fund*, the amount representing those contracts is the sum of:
- (a) the *mathematical reserves* in respect of the *non-profit insurance contracts* written in the fund; and
 - (b) an amount in respect of the *non-profit insurance contracts* written in the fund which represents an appropriate allocation of the firm's *resilience capital requirement*, to the extent that it is covered by the fund's *long-term admissible assets*.

1.3.25
PRA

R

For the purpose of determining the value of a fund's *long-term admissible assets* in accordance with ■ INSPRU 1.3.24 R (1)(a), no value is to be attributed to:

- (1) debts owed by *reinsurers*; or
- (2) *claims*; or
- (3) tax recoveries; or
- (4) claims against *compensation funds*;

to the extent already offset in the calculation of *technical provisions*.

1.3.26
PRA

R

In making a determination in accordance with ■ INSPRU 1.3.24 R (2), a *firm* must allocate *long-term admissible assets* of an appropriate nature and term to any *non-profit insurance contracts* written in the *with-profits fund*.

1.3.27

[intentionally blank]

1.3.28
PRA

G

A *firm* needs to obtain an *implicit item waiver* from the PRA in order to bring in an amount under ■ INSPRU 1.3.24 R (1)(b). For *guidance* on applying for an *implicit item waiver* in respect of future surpluses relating to *with-profits funds* see ■ GENPRU 2 Annex 8 G. The amount of any *implicit item* allocated to a *with-profits fund* may be defined in the terms of any *waiver* granted.

Regulatory value of liabilities

1.3.29
PRA

R

For the purposes of ■ INSPRU 1.3.23 R (2)(a), the *regulatory value of liabilities* of a *with-profits fund* is equal to the sum of:

- (1) the *mathematical reserves*, in respect of the fund's *with-profits insurance contracts*, including the value of any provisions reflecting bonuses allocated at the *actuarial valuation date*; and
- (2) the *regulatory current liabilities* of the fund (see ■ INSPRU 1.3.30 R).

1.3.30
PRA

R

For the purposes of ■ INSPRU 1.3.29 R (2), the *regulatory current liabilities* of a *with-profits fund* are equal to the sum of the following amounts to the extent that they relate to that fund:

- (1) accounting liabilities (including *long-term insurance liabilities* which have fallen due before the end of the *financial year*);
- (2) liabilities from *deposit back arrangements*; and
- (3) any provision for adverse variations (determined in accordance with ■ INSPRU 3.2.17 R).

1.3.31
PRA

G

The amount of *regulatory current liabilities* for a *with-profits fund* refers to the sum of the amounts in (1) and (2) in respect of the fund:

- (1) the amount of 'Total other insurance and non-insurance liabilities'; and
- (2) the amount of 'Cash bonuses which had not been paid to *policyholders* prior to the end of the financial year';

as disclosed at lines 49 and 12 respectively of the appropriate Form 14 ('Long-term business liabilities and margins') for that fund as part of the Annual Returns required to be deposited with the PRA under IPRU(INS) rule 9.6R(1).

Calculation of realistic excess capital

1.3.32
PRA

R

A firm must calculate the *realistic excess capital* for each of its *with-profits funds* by deducting B from A, where:

- (1) A is the *realistic value of assets* of the fund (see ■ INSPRU 1.3.33 R); and
- (2) B is the sum of:
 - (a) the *realistic value of liabilities* of the fund (see ■ INSPRU 1.3.40 R); and
 - (b) the *risk capital margin* for the fund (see ■ INSPRU 1.3.43 R).

1.3.33

PRA

R

Realistic value of assets

- (1) For the purposes of ■ INSPRU 1.3.32 R (1), the *realistic value of assets* of a *with-profits fund* is the sum of:
 - (a) the amount of the fund's *regulatory value of assets* determined in accordance with ■ INSPRU 1.3.24 R, but with no value given to any *implicit items* and excluding the regulatory value of any *shares* in a *related undertaking* which carries on *long-term insurance business*;
 - (b) the amount of the fund's excess *admissible assets* (see ■ INSPRU 1.3.36 R);
 - (c) the present value of future profits (or losses) on any *non-profit insurance contracts* written in the *with-profits fund* (see ■ INSPRU 1.3.37 R);
 - (d) the value of any *derivative* or *quasi-derivative* held in the fund (see ■ GENPRU 1.3.41 R) to the extent its value is not reflected in (a), (b) or (c);
 - (e) any amount determined under (2); and
 - (f) the amount of any prepayments made from the fund.
- (2) Where any equity *shares* held (directly or indirectly) by a *firm* (A):
 - (a) are *shares* in a *related undertaking* (B) which carries on *long-term insurance business*; and
 - (b) have been identified by A under ■ INSPRU 1.3.21 R as *long-term insurance assets* which are held in the *with-profits fund* for which the realistic value is to be determined under (1);the amount required under (1)(e) is the relevant proportion of the value of all B's equity *shares* as determined in (3).
- (3) For the purposes of (2):
 - (a) the relevant proportion is the proportion of the total number of equity *shares* issued by B which are held (directly or indirectly) by A;
 - (b) the value of all B's equity *shares* must be taken as D deducted from C, where C is equal to the sum of:
 - (i) the shareholder net assets of B;
 - (ii) any surplus assets in the *non-profit funds* of B;
 - (iii) any additional amount arising from the present value of future profits (or losses) on any *non-profit insurance contracts* written by B (calculated on a basis consistent with ■ INSPRU 1.3.37 R), excluding any amount arising from business that is written in a *with-profits fund*; and

- (iv) where B has any *with-profits funds*, the present value of projected future transfers out of those funds to shareholder funds of B;
- and D is equal to the sum of:
 - (v) the *long-term insurance capital requirement* in respect of any *non-profit insurance contracts* written in a *non-profit fund* of B;
 - (vi) where B is a *regulatory basis only life firm*, the amount of the *resilience capital requirement* in respect of any *non-profit insurance contracts* written in a *non-profit fund* of B;
 - (vii) any part of the *with-profits insurance capital component* of B, or of B's *long-term insurance capital requirement*, where B is a *regulatory basis only life firm*, or *resilience capital requirement* in respect of B's *with-profits insurance contracts*, that is not covered from the assets of the *with-profits fund* from which it arises after deducting from those assets the amount calculated under (iv); and
 - (viii) any assets of B that back its regulatory capital requirements and that are valued in (iii) in the calculation of the present value of future profits of *non-profit insurance business* written by B.

(4) The methods and assumptions used in the calculations under (3)(b)(iii) and (iv) must follow a consistent approach to that set out in ■ INSPRU 1.3.37 R.

1.3.34
PRA

G

In ■ INSPRU 1.3.33 R (1)(d), where a *derivative* or *quasi-derivative* has a positive asset value, credit should be given within the *realistic value of assets*. If the *derivative* or *quasi-derivative* has a negative asset value it should be valued within realistic liabilities as an element of *realistic current liabilities* (see ■ INSPRU 1.3.40 R (3)).

1.3.35
PRA

G

Where a *firm* identifies *shares* in a *related undertaking* which carries on *long-term insurance business* as *shares* held in one of its *with-profits funds*, ■ INSPRU 1.3.33 R (1)(e), ■ INSPRU 1.3.33 R (2) and ■ INSPRU 1.3.33 R (3) bring in a realistic valuation of the *related undertaking* equal to its net assets plus the present value of future profits, less its regulatory capital requirements (see ■ INSPRU 1.3.33 R (3)(b)(v), ■ INSPRU 1.3.33 R (3)(b)(vi) and ■ INSPRU 1.3.33 R (3)(b)(vii)). Where the *related undertaking* has taken the present value of future profits arising from its contracts into consideration in covering its regulatory capital requirements (for example, its *risk capital margin*, under ■ INSPRU 1.3.45 R (2)(c), ■ INSPRU 1.3.33 R (3)(b)(iii) requires a *firm* to exclude those future profits in valuing the *related undertaking*. The subtraction of the capital requirements in the calculation provides a straightforward method of allowing for the change in the *related undertaking's* value in stress conditions, as the value of the *related undertaking* is not subject to the realistic stress tests of the *risk capital margin*. In calculating the present value of future profits on *non-profit insurance business* written in the *related*

undertaking under ■ INSPRU 1.3.33 R (3)(b)(iii), a *firm* may value the release of capital requirements as the business runs off (see ■ INSPRU 1.3.38 G). ■ INSPRU 1.3.33 R (3)(b)(viii) ensures that any such capital is not double-counted.

1.3.36

PRA

R

Excess *admissible assets* of a *with-profits fund* means *admissible assets* which exceed any of the percentage limits referred to in ■ INSPRU 2.1.22 R.

1.3.37

PRA

R

A *firm* must calculate the present value of future profits (or losses) on *non-profit insurance contracts* written in the *with-profits fund* using methodology and assumptions which:

- (1) are based on current estimates of future experience;
- (2) involve reasonable (but not excessively prudent) adjustments to reflect risk and uncertainty;
- (3) allow for a market-consistent valuation of any guarantees or options within the contracts valued;
- (4) are derived from current market yields, having regard to International Financial Reporting Standard 4: Insurance Contracts, as if it were being applied to determine the value under that standard for the first time;
- (5) have regard to generally accepted actuarial practice and generally accepted industry standards appropriate for *firms* carrying on *long-term insurance business*;
- (6) are consistent with the allocation, made in accordance with ■ INSPRU 1.3.22 R, of any aggregate amounts as between the *with-profits insurance contracts* and the *non-profit insurance contracts* written in the fund;
- (7) allow for any tax that would be payable out of the *with-profits fund* in respect of the contracts valued; and
- (8) are consistent with the allocation, made in accordance with ■ INSPRU 1.3.26 R, of *long-term admissible assets* as between the *with-profits insurance contracts* and any *non-profit insurance contracts* written in the fund.

1.3.38

PRA

G

In calculating the present value of future profits (or losses) for *non-profit insurance business* required by ■ INSPRU 1.3.33 R (1)(c), to the extent that the *long-term insurance capital requirement* is covered by the *with-profits fund's long-term admissible assets*, a *firm* may take into consideration any release of this item as the relevant *policies* go off the books.

1.3.39

PRA

G

Annuities do not typically fall to be valued on a market-consistent basis under ■ INSPRU 1.3.37 R (3) as they are not "options and guarantees" as defined for accounting purposes. This is because they do not have "time value" in the option-pricing meaning

of that term. However where, atypically, annuities do fall to be valued on a market-consistent basis under ■ INSPRU 1.3.37 R (3), the discount rate used should be appropriate to the characteristics of the liability, including its illiquidity. The appropriate interest rate, therefore, would not typically be the risk-free rate. Where illiquid assets are used to closely match similar illiquid liabilities, as could be the case in annuities business, it would be appropriate to look at the liquidity premium that is implicit in the market value of the assets as a proxy for the liquidity premium that should be included in a market consistent valuation of the liabilities. However, care should be exercised in doing this. Assets and liabilities are rarely perfectly matched and an appropriate margin needs to be included in the valuation to cover the risk of unexpected mismatch.

1.3.39A
PRA

G

In view of ■ INSPRU 1.3.39 G, it is likely that the discount rate to be applied to the market-consistent valuation of those annuities that fall within the scope of ■ INSPRU 1.3.37 R (3) would not be significantly different from that which applies to other annuities (to which a discount rate based on the return on the matching assets less an allowance for risk which is reasonable but not excessively prudent, in accordance with ■ INSPRU 1.3.37 R (2), might be applied).

1.3.39B
PRA

G

In determining current market yields for the purpose of ■ INSPRU 1.3.37 R (4), a *firm* is required to have regard to IFRS 4 as if it were being applied to determine the value under that standard for the first time, that is, without reference to existing practices. Paragraph 27 of the standard is likely to be of particular relevance. In general, a *firm* should only include an allowance for future investment margins if its assumptions are limited to no more than a risk-free rate and the discount rate is set consistently. However, this does not preclude a *firm* from using a replicating portfolio of assets to determine the discount rate for the liability with suitable adjustments for differences in their characteristics (for the example of annuity business, see ■ INSPRU 1.3.39 G). In setting assumptions for future investment returns, a *firm* should also consider sections BC134 to BC144 of the Basis for Conclusions in IFRS 4.

Realistic value of liabilities: general

1.3.40
PRA

R

For the purposes of ■ INSPRU 1.3.32 R (2)(a), the *realistic value of liabilities* of a *with-profits fund* is the sum of:

- (1) the *with-profits benefits reserve* of the fund;
- (2) the *future policy related liabilities* of the fund; and
- (3) the *realistic current liabilities* of the fund.

1.3.41
PRA

G

All liabilities arising under, or in connection with, *with-profits insurance contracts* written in the fund should be included in the *realistic value of liabilities* referred to in ■ INSPRU 1.3.40 R, including those in respect of guarantees and the value of options.

1.3.42
PRA

G

Detailed *rules* and *guidance* for the calculation of the three elements referred to in ■ INSPRU 1.3.40 R are contained below in this section:

- (1) ■ INSPRU 1.3.116 R to ■ INSPRU 1.3.135 G refer to the *with-profits benefits reserve*;

- (2) ■ INSPRU 1.3.136 G to ■ INSPRU 1.3.189 G refer to the *future policy related liabilities*; and
- (3) ■ INSPRU 1.3.190 R and ■ INSPRU 1.3.191 R refer to the *realistic current liabilities*.

Risk capital margin

1.3.43

PRA

R

- (1) A firm must calculate a *risk capital margin* for each of its *with-profits funds* in accordance with (2) to (6).
- (2) The firm must identify relevant assets (■ INSPRU 1.3.45 R) which, in the most adverse scenario, will have a value (■ INSPRU 1.3.46 R) which is equal to the *realistic value of liabilities* of the fund under that scenario.
- (3) The most adverse scenario means the single event comprising that combination of the scenarios in ■ INSPRU 1.3.44 R which gives rise to the largest positive value that results from deducting B from A, where:
 - (a) A is the value of relevant assets which will produce the result described in (2); and
 - (b) B is the *realistic value of liabilities* of the fund.
- (4) The *risk capital margin* for the fund is the result of deducting C from A, where C is the sum of:
 - (a) B; and
 - (b) any amount included within relevant assets under ■ INSPRU 1.3.45 R (2)(c).
- (5) In calculating the value of relevant assets for the purpose of determining the most adverse scenario in (3), a firm must not adjust the valuation of any asset taken into consideration under ■ INSPRU 1.3.33 R (1)(e) (*related undertakings* carrying on *long-term insurance business*) or ■ INSPRU 1.3.45 R (2)(c) (present value of future profits arising from insurance contracts written outside the *with-profits fund*).
- (6) In calculating the *realistic value of liabilities* of a fund under any scenario, a firm is not required to adjust the best estimate provision made under ■ INSPRU 1.3.190 R (1) in respect of a *defined benefits pension scheme* in accordance with ■ INSPRU 1.3.191 R .

PAGE
63

1.3.44

PRA

R

For the purposes of ■ INSPRU 1.3.43 R (3), the scenarios are one scenario selected from each of the following:

- (1) in respect of UK and other assets within ■ INSPRU 1.3.62 R (1)(a):

- (a) the range of *market risk* scenarios identified in accordance with ■ INSPRU 1.3.68 R (1) (equities);
 - (b) the range of *market risk* scenarios identified in accordance with ■ INSPRU 1.3.68 R (2) (real estate); and
 - (c) the range of *market risk* scenarios identified in accordance with ■ INSPRU 1.3.68 R (3) (fixed interest securities);
- (2) in respect of non-UK assets within ■ INSPRU 1.3.62 R (1)(b):
- (a) the range of *market risk* scenarios identified in accordance with ■ INSPRU 1.3.73 R (1) (equities);
 - (b) the range of *market risk* scenarios identified in accordance with ■ INSPRU 1.3.73 R (2) (real estate); and
 - (c) the range of *market risk* scenarios identified in accordance with ■ INSPRU 1.3.73 R (3) (fixed interest securities);
- (3) the range of credit risk scenarios identified in accordance with ■ INSPRU 1.3.78 R (1) (bond or debt items);
- (4) the range of credit risk scenarios identified in accordance with ■ INSPRU 1.3.78 R (2) (*reinsurance* items or analogous non-*reinsurance* financing agreements);
- (5) the range of credit risk scenarios identified in accordance with ■ INSPRU 1.3.78 R (3) (other items including *derivatives* and *quasi-derivatives*); and
- (6) the persistency risk scenario identified in accordance with ■ INSPRU 1.3.100 R.

1.3.45

PRA

R

- (1) In ■ INSPRU 1.3.43 R, in relation to a *with-profits fund*, the relevant assets means a range of assets which meets the following conditions:
- (a) the range is selected on a basis which is consistent with the *firm's* regulatory duty to treat its *customers* fairly;
 - (b) the range must include assets from within the *with-profits fund* the value of which is greater than or equal to the *realistic value of liabilities* of the fund;
 - (c) the range is selected in accordance with (2); and
 - (d) no asset of the *firm* may be allocated to the range of assets identified in respect of more than one *with-profits fund*.
- (2) The range of assets must be selected from the assets specified in (a) to (c), in the order specified:

- (a) assets that have a realistic value under ■ INSPRU 1.3.33 R;
- (b) where a *firm* has selected all the assets within (a), any *admissible assets* that are not identified as held within the *with-profits fund*; and
- (c) where a *firm* has selected all the assets within (a) and (b), any additional assets.

(3) But a *firm* must not bring any amounts into account under (2)(b) or (2)(c) in respect of any *with-profits fund* if that would result in the *firm* exceeding its overall maximum limit (determined according to whether the *firm* has only one *with-profits fund* or more than one such fund).

(4) A *firm* exceeds its overall maximum limit for amounts brought into account under (2)(b) where:

- (a) in the case of a *firm* with a single *with-profits fund*, the amount the *firm* brings into account in respect of that fund;
- (b) in the case of a *firm* with two or more *with-profits funds*, the aggregate of the amounts the *firm* brings into account in respect of each of those funds;

exceeds the sum of the *firm's* shareholder net assets and the surplus assets in the *firm's non-profits funds*, less any regulatory capital requirements in respect of business written outside its *with-profits funds*.

(5) A *firm* exceeds its overall maximum limit for amounts brought into account under (2)(c) where:

- (a) in the case of a *firm* with a single *with-profits fund*, the amount the *firm* brings into account in respect of that fund;
- (b) in the case of a *firm* with two or more *with-profits funds*, the aggregate of the amounts the *firm* brings into account in respect of each of those funds;

exceeds 50% of the present value of future profits arising from *insurance contracts* written by the *firm* outside its *with-profits funds*.

1.3.46

PRA

R

In valuing the relevant assets identified under ■ INSPRU 1.3.43 R (2), a *firm* must use the same methods of valuation as in ■ INSPRU 1.3.33 R, except that:

- (1) the value of any *admissible assets* not identified as held within the *with-profits fund* (■ INSPRU 1.3.45 R (2)(b)) must be as determined under ■ GENPRU 1.3; and

(2) the value of any asset which forms part of the range of assets as a result of ■ INSPRU 1.3.45 R (2)(c) must be determined on a basis consistent with that described in ■ INSPRU 1.3.37 R.

1.3.47
PRA

G

The purpose of the *risk capital margin* for a *with-profits fund* is to cover adverse deviation from:

- (1) the fund's *realistic value of liabilities*;
- (2) the value of assets identified, in accordance with ■ INSPRU 1.3.43 R (2), to cover the amount in (1) and the fund's *risk capital margin*;

arising from the effects of *market risk*, credit risk and persistency risk. Other risks are not explicitly addressed by the *risk capital margin*.

1.3.48
PRA

G

The amount of the *risk capital margin* calculated by the *firm* for a *with-profits fund* will depend on the *firm's* choice of assets held to cover the fund's *realistic value of liabilities* and the margin. ■ INSPRU 1.3.43 R requires the relevant assets to be sufficient, in the most adverse scenario, to cover the *realistic value of liabilities* in the event that scenario was to arise.

1.3.49
PRA

G

■ INSPRU 1.3.45 R (2)(c) allows *firms* to bring the economic value of *non-profit insurance business* written outside a *with-profits fund* into the assets available to cover the *risk capital margin*. To place a prudent limit on the amount of future profits taken into consideration a maximum of 50% of the present value of *non-profit insurance business* can be taken into the calculation (■ INSPRU 1.3.45 R (5)). Where a contract is written in a *non-profit fund* but the assets arising from that contract are invested in a *with-profits fund* which is subject to charges for investment management or other services which benefit the *non-profit fund*, such charges can be taken into consideration in calculating the present value of future profits of the *non-profit insurance business*. Where a proportion of the present value of future profits on *non-profit insurance business* written outside a *with-profits fund* is brought in as an asset, no stress tests apply to this asset (see ■ INSPRU 1.3.43 R (5)) as the amount taken into consideration is limited to 50% of the total present value.

1.3.50
PRA

G

A *firm* using a stochastic approach in ■ INSPRU 1.3.169 R (1) should keep recalibration in the post-stress scenarios to the minimum required to reflect any change in the underlying risk-free yields. A *firm* using the market costs of hedging approach, as in ■ INSPRU 1.3.169 R (2), may assume in estimating the market cost of hedging in the post-stress scenarios that market volatilities are unchanged.

1.3.51
PRA

G

In the scenario tests set out in ■ INSPRU 1.3.62 R to ■ INSPRU 1.3.103 G, *firms* are required to test for worst case scenarios across a range of assumptions. The tests are, with the exception of the credit risk test, two-sided, requiring both increases and decreases in the assumptions. The PRA does not expect a *firm* to investigate every possible stress, but a *firm* should be able to demonstrate that it is reasonable to assume that it has successfully identified the single event that determines the *risk capital margin* for the *firm's* business, as required by ■ INSPRU 1.3.43 R (3).

1.3.51A

PRA

G

In the scenario tests set out in ■ INSPRU 1.3.62 R to ■ INSPRU 1.3.103 G, a *firm* is required to assess the changed value of its assets and liabilities in the economic conditions of the most adverse scenario. A *firm* is required to assess the changed value of each relevant asset (as defined in ■ INSPRU 1.3.45 R), notwithstanding any uncertainty about the appropriate valuation basis for that asset. In valuing an asset in the most adverse scenario, a *firm* should have regard to the economic substance of the asset, rather than its legal form, and assess its value accordingly. Consider, for example, a convertible bond that is close to its conversion date and where the conversion option has value. The value of the convertible bond in the most adverse scenario is likely to be sensitive primarily to equity market scenarios and to a lesser extent to interest rate scenarios. The *firm* should value the asset according to its expected market value in the economic conditions underlying the most adverse scenario.

Management actions

1.3.52

FCA PRA

R

In calculating the *risk capital margin* for a *with-profits fund*, a *firm* may reflect, in its projections of the value of assets and liabilities under the scenarios in ■ INSPRU 1.3.44 R, the *firm's* prospective management actions (■ INSPRU 1.3.53 R).

1.3.53

FCA PRA

R

Prospective management actions refer to the foreseeable actions that would be taken by the *firm's* management, taking into account:

- (1) an appropriately realistic period of time for the management actions to take effect; and
- (2) the *firm's* PPFM and its regulatory duty to treat its *customers* fairly.

1.3.54

FCA PRA

G

The management actions in ■ INSPRU 1.3.53 R may include, but are not limited to, changes in future bonus rates, reductions in *surrender values*, changes in asset dispositions (taking into account the associated selling costs) and changes in the amount of charges deducted from asset shares for *with-profits insurance contracts*.

1.3.55

FCA PRA

G

A *firm* should use reasonable assumptions in incorporating management actions into its projections of *claims* such that the mitigating effects of the management actions are not overstated. In modelling management actions, a *firm* should ensure consistency with its PPFM and take into account its regulatory duty to treat its *customers* fairly.

1.3.56

FCA PRA

G

In accordance with ■ INSPRU 1.3.17 R, a *firm* should make and retain a record of the approach used, in particular the nature and effect of anticipated management actions (including, where practicable, the amount by which the actions would serve to reduce the projected values of assets and liabilities).

1.3.57

FCA PRA

G

A *firm* which deducts charges in respect of any adverse experience or cost of capital to *with-profits insurance contracts* should keep a record under ■ INSPRU 1.3.17 R of the amount of any such charges to its *customers* and of how it has ensured their fair treatment.

Policyholder actions

1.3.58
FCA PRA

R

In calculating the *risk capital margin* for a *with-profits fund*, a *firm* must reflect, in its projections of the value of assets and liabilities under the scenarios in ■ INSPRU 1.3.44 R, a realistic assessment of the actions of its *policyholders* (see ■ INSPRU 1.3.59 R).

1.3.59
FCA PRA

R

Policyholder actions refer to the foreseeable actions that would be taken by the *firm's policyholders*, taking into account:

- (1) the experience of the *firm* in the past; and
- (2) the changes that may occur in the future if options and guarantees become more valuable to *policyholders* than in the past.

1.3.60
FCA PRA

G

A *firm* should use realistic assumptions in incorporating *policyholder* actions into its projections of *claims* such that any mitigating effects of *policyholder* actions are not overstated and any exacerbating effects of *policyholder* actions are not understated. In modelling *policyholder* actions, a *firm* should ensure consistency with its *PPFM* and take into account its regulatory duty to treat its *customers* fairly in determining the options and information that would be available to *policyholders*.

1.3.61
FCA PRA

G

In calculating the persistency scenario in ■ INSPRU 1.3.100 R, a *firm* needs to make assumptions regarding the future termination rates exhibited by *policies*, at points described in particular in ■ INSPRU 1.3.101 R. Such assumptions should be realistic. However, the *firm* must have regard to the economic scenarios being projected. For example, if the value of an option became significantly greater in a future scenario than in the recent past, then the behaviour of *policyholders* in taking up the option is likely to differ in this future scenario compared with the recent past.

Market risk scenario

1.3.62
PRA

R

- (1) For the purposes of ■ INSPRU 1.3.44 R, the ranges of *market risk* scenarios that a *firm* must assume are:
 - (a) for exposures to *UK* assets and for exposures to non-*UK* assets within (2), the ranges of scenarios set out in ■ INSPRU 1.3.68 R; and
 - (b) for exposures to other non-*UK* assets, the ranges of scenarios set out in ■ INSPRU 1.3.73 R.
- (2) The exposures to non-*UK* assets within this paragraph are:
 - (a) exposures which do not arise from a significant territory outside the *United Kingdom* (■ INSPRU 1.3.63 R); or
 - (b) exposures which do arise from a significant territory outside the *United Kingdom* but which represent less than 0.5% of the *realistic value* of assets of the *with-profits fund*, measured by *market value*.

1.3.63 **R** For the purposes of this section in relation to a *with-profits fund*, a significant territory is any country or territory in which more than 2.5% of the fund's *realistic value of assets (by market value)* are invested.
PRA

1.3.63A **G** Guidance on how a *firm* should determine where particular assets are invested is provided in ■ INSPRU 3.1.13B G.
PRA

1.3.64 **G** In determining its most adverse scenario, a *firm* applying ■ INSPRU 1.3.68 R and ■ INSPRU 1.3.73 R should consider separately possible movements in UK and non-UK markets. It should not assume that market prices in different markets move in a similar way at the same time. A *firm* should also allow for the effect of the other components of the single event comprising the combination of scenarios applicable under ■ INSPRU 1.3.43 R.
PRA

1.3.65 **G** In relation to the *market risk* scenarios in ■ INSPRU 1.3.68 R and ■ INSPRU 1.3.73 R, the effect of ■ INSPRU 1.3.52 R and ■ INSPRU 1.3.58 R is that a *firm* may reflect management actions and must make a realistic assessment of *policyholder* actions in projecting the assets and liabilities in its calculation of the *risk capital margin* for a *with-profits fund* within the *firm*.
PRA

1.3.66 **G** [deleted]

1.3.67 **G** The relevant assets identified under ■ INSPRU 1.3.43 R (2) to calculate the *risk capital margin* may, in certain circumstances, include up to 50% of the present value of future profits arising from *insurance contracts* written by the *firm* outside its *with-profits funds*. ■ INSPRU 1.3.43 R (5) exempts such an asset from the *market risk* stress tests.
PRA

Market risk scenario for exposures to UK assets and certain non-UK assets

1.3.68 **R** The range of *market risk* scenarios referred to in ■ INSPRU 1.3.62 R (1)(a) is:
PRA

- (1) a rise or fall in the *market value* of equities of up to the greater of:
 - (a) 10%; and
 - (b) 20%, less the *equity market adjustment ratio* (see ■ INSPRU 1.3.71 R);
- (2) a rise or fall in real estate values of up to 12.5%; and
- (3) a rise or fall in yields on all fixed interest securities of up to 17.5% of the long-term gilt yield.

1.3.69 **R** For the purposes of ■ INSPRU 1.3.68 R, a *firm* must:
PRA

- (1) assume that yields on equities and real estate remain unchanged from those applicable at market levels before applying each scenario; and

- (2) model a rise or fall in equity, real estate and fixed interest markets as if the movement occurred instantaneously.

1.3.70
PRA

G

For example, where the long-term gilt yield is 6%, a change of 17.5% in that yield would amount to a change of 1.05 percentage points. For the purpose of the scenarios in ■ INSPRU 1.3.68 R (3), the *firm* would assume a fall or rise of up to 1.05 percentage points in yields on all fixed interest securities.

Equity market adjustment ratio

1.3.71
PRA

R

The equity market adjustment ratio referred to in ■ INSPRU 1.3.68 R (1)(b) is:

- (1) if the ratio calculated in (a) and (b) lies between 80% and 100%, the result of 100% less the ratio (expressed as a percentage) of:
 - (a) the current value of the FTSE Actuaries All Share Index; to
 - (b) the average value of the FTSE Actuaries All Share Index over the preceding 90 calendar days;
- (2) 0%, if the ratio calculated in (1)(a) and (b) is more than 100%; and
- (3) 20%, if the ratio calculated in (1)(a) and (b) is less than 80%.

1.3.72
PRA

R

In ■ INSPRU 1.3.71 R (1)(b), the average value of the FTSE Actuaries All Share Index over any period of 90 calendar days means the arithmetic mean based on levels at the close of business on each of the days in that period on which the London Stock Exchange was open for trading.

Market risk scenario for exposures to other non-UK assets

1.3.73
PRA

R

The range of *market risk* scenarios referred to in ■ INSPRU 1.3.62 R (1)(b) is:

- (1) an appropriate rise or fall in the *market value* of equities listed in that territory (■ INSPRU 1.3.75 G), which must be at least equal to the percentage determined in ■ INSPRU 1.3.68 R (1);
- (2) a rise or fall in real estate values in that territory of up to 12.5%; and
- (3) a rise or fall in yields on all fixed interest securities of up to 17.5% of the nearest equivalent (in respect of the method of calculation) of the long-term gilt yield.

1.3.74
PRA

R For the purposes of ■ INSPRU 1.3.73 R, a *firm* must:

- (1) assume that yields on equities and real estate remain unchanged from those applicable at market levels before applying each scenario; and
- (2) model a rise or fall in equity, real estate and fixed interest markets as if the movement occurred instantaneously.

1.3.75
PRA

G For the purposes of ■ INSPRU 1.3.73 R (1), an appropriate rise or fall in the *market value* of equities to which a *firm* has exposure in a significant territory must be determined having regard to:

- (1) an appropriate equity market index (or indices) for that territory; and
- (2) the historical volatility of the equity market index (or indices) selected in (1).

1.3.76
PRA

G For the purpose of ■ INSPRU 1.3.75 G (1), an appropriate equity market index (or indices) for a territory should be such that:

- (1) the constituents of the index (or indices) are reasonably representative of the nature of the equities to which the *firm* is exposed in that territory which are included in the relevant assets identified in accordance with ■ INSPRU 1.3.43 R (2); and
- (2) the frequency of, and historical data relating to, published values of the index (or indices) are sufficient to enable an average value(s) and historical volatility of the index (or indices) to be calculated over at least the three preceding *financial years*.

Credit risk scenarios

General

1.3.77
PRA

- G**
- (1) The purpose of the credit risk scenarios in ■ INSPRU 1.3.78 R to ■ INSPRU 1.3.99 G is to show the financial effect of specified changes in the general credit risk environment on a *firm's* direct (*counterparty*) and indirect credit risk exposures. The scenarios apply in relation to corporate bonds, debt, *reinsurance* and other exposures, including *derivatives* and *quasi-derivatives*. This is thus quite separate from any reference to allowance for credit risk in ■ INSPRU 3.1.
 - (2) In the case of bonds and debts, the scenarios are described in terms of an assumed credit rating dependent on the widening of credit spreads - changes in bond and debt credit spreads will have a direct impact on the value of bond and debt assets. Credit ratings are intended to give an indication of the security of the income and capital payments for a bond - the higher the credit rating, the more secure the payments. The reaction of credit spreads to developments in markets for credit risk varies by credit rating and so the scenarios to be assumed for bonds and debts depend on their ratings. The credit spreads on bonds and debt represent compensation to the investor for the risk of default and downgrade, but also for illiquidity, price volatility and the uncertainty of recovery rates relative to government bonds. Credit spreads on bonds tend to widen during

an economic recession to reflect the increased expectations that corporate borrowers may default on their obligations or be subject to rating downgrades.

- (3) Changes in bond and debt credit spreads will also be indicative of a change in direct *counterparty* exposure in relation to *reinsurance* and other exposures including *derivatives* and *quasi-derivatives*.
- (4) In addition, changes in bond and debt credit spreads may indirectly impact on credit exposures, for example by affecting the payments anticipated under credit *derivative* instruments.
- (5) A *firm* will also need to allow for the effect of other components of the single event comprising the combination of scenarios applicable under ■ INSPRU 1.3.43 R in assessing exposure to credit risk. For example, in the case of an equity put *option* and a fall in equity market values, the resulting increase in the level of exposure to the *firm's counterparty* for the *option* combined with a change in the quality of the *counterparty* should be allowed for.

1.3.78
PRA

R For the purposes of ■ INSPRU 1.3.44 R, the range of credit risk scenarios that a *firm* must assume is:

- (1) changes in value resulting from an increase in credit spreads by an amount of up to the spread stress determined according to ■ INSPRU 1.3.84 R in respect of any bond or debt item;
- (2) changes in value determined according to ■ INSPRU 1.3.94 R in respect of any *reinsurance* item or any analogous non-*reinsurance* financing agreement item; and
- (3) changes in value determined according to ■ INSPRU 1.3.98 R for any other item (including any *derivative* or *quasi-derivative*).

1.3.79
PRA

R For the purposes of ■ INSPRU 1.3.78 R, a *firm* must make appropriate allowance for any loss mitigation techniques to the extent that they are loss mitigation techniques relied on for the purpose of ■ INSPRU 2.1.8 R in accordance with ■ INSPRU 2.1.16 R and ■ INSPRU 2.1.18 R.

1.3.80
PRA

G The change in asset or liability values to be determined in relation to a credit risk scenario for the purposes of ■ INSPRU 1.3.43 R and ■ INSPRU 1.3.44 R is the change in value which would arise on the occurrence of the relevant credit risk scenario as a result of bond, debt, *reinsurance* or other exposures whether or not there is a direct *counterparty* exposure.

1.3.81
PRA

R Where a bond or a debt item or *reinsurance* asset is currently in default, it may be ignored by a *firm* for the purpose of applying ■ INSPRU 1.3.78 R.

1.3.82
PRA

G Where a bond or a debt item or a *reinsurance* asset is currently in default and has been specifically provisioned, in accordance with relevant accounting standards, a *firm* is

not required to increase the existing default provisions to reflect a worsening of recovery rates.

1.3.83
PRA

R Where the credit risk scenarios in ■ INSPRU 1.3.78 R to ■ INSPRU 1.3.99 G require a *firm* to assume a change in current credit spread, or a direct change in market value, the *firm* must not change the risk-free yields used to discount future cash flows in calculating the revised *realistic value of liabilities* and *realistic value of assets* (■ INSPRU 1.3.43 R (2)) resulting from those credit risk scenarios.

Spread stresses to be assumed for bonds and debt

1.3.84
PRA

- R**
- (1) In ■ INSPRU 1.3.78 R (1) the spread stress which a *firm* must assume for any bond or debt item is:
 - (a) for any bond or debt item issued or guaranteed by an organisation which is in accordance with ■ INSPRU 1.3.87 R a credit risk scenario exempt organisation in respect of that item, zero basis points; and
 - (b) for any other bond or debt item:
 - (i) Y if the credit rating description of that other bond or debt item determined by reference to ■ INSPRU 1.3.89 R is not "Highly speculative or very vulnerable"; and
 - (ii) otherwise the larger of Y and Z.
 - (2) For the purpose of (1)(b):
 - (a) Y is the product of the spread factor for that bond or debt item and the square root of S, where:
 - (i) the spread factor for a bond or debt item is the spread factor shown in the final column of Table ■ INSPRU 1.3.90 R, in the row of that Table corresponding to the credit rating description of the bond or debt item determined for the purpose of this *rule* by reference to ■ INSPRU 1.3.89 R; and
 - (ii) subject to (3), S is the current credit spread for a bond or debt item, expressed as a number of basis points, which the *firm* must determine as the current yield on that bond or debt item in excess of the current gross redemption yield on the government bond most similar to that bond or debt item in terms of currency of denomination and equivalent term; and
 - (b) Z is the change in credit spread expressed as a number of basis points that would result in the current market value of the bond or debt falling by 5%.

- (3) Where, for the purposes of (2)(a)(ii), there is no suitable government bond, the *firm* must use its best estimate of the gross redemption yield that would apply for a notional government bond similar to the bond or debt item in terms of currency of denomination and equivalent term.

1.3.85

PRA

R

For the purpose of ■ INSPRU 1.3.84 R (1)(a), a guarantee must be direct, explicit, unconditional and irrevocable.

1.3.86

PRA

G

- (1) As an example, a bond item has the credit rating description "exceptional or extremely strong" and currently yields 49 basis points in excess of the most similar government bond. The spread factor for that bond item is 3.00 by reference to Table ■ INSPRU 1.3.90 R. Since S is 49, the square root of S is 7 and the spread stress for that item is 3 times 7, that is, 21 basis points. The *firm* must consider the impact of an increase in spreads by up to 21 basis points for that item.
- (2) As a further example, a bond item has the credit rating description "highly speculative or very vulnerable". For this bond, S is 400, being the current spread for that bond expressed as a number of basis points. The spread factor for the bond is 24.00. So the *firm* must consider the impact of an increase in spreads by up to 24.00 times 20 i.e. 480 basis points for that item. The bond is however of short duration and the reduction in market value resulting from an additional spread of 480 basis points is less than 5 per cent of its current market value. A 5 per cent reduction in its market value would result from a spread widening of 525 basis points. The *firm* must consider the impact of an increase in spreads by up to 525 basis points for that item by virtue of its credit rating description.
- (3) The calculation of the credit spread on commercial floating rate notes warrants particular consideration. Suppose, for example, that a notional floating rate note guaranteed by the UK government would have a market consistent price of X . This price can be estimated based on an assumed distribution of future payments under the floating rate note, and the current forward gilt curve. Suppose further that the market price of the commercial floating rate note is Y , where Y is less than X . A *firm* could calculate what parallel upward shift in the forward gilt curve would result in the notional government-backed floating rate note having a market price of Y for an unchanged assumed distribution of future payments. The size of the resulting shift could then be taken as the credit spread on the commercial floating rate note.
- (4) In arriving at the estimated gross redemption yield in ■ INSPRU 1.3.84 R (3), the *firm* may have regard to any appropriate swap rates for the currency of denomination of the bond or debt item, adjusted to take appropriate account of observed differences between swap rates and the yields on government bonds.

1.3.87

PRA

R

For the purposes of this section:

- (1) an organisation is a credit risk scenario exempt organisation in respect of an item if the organisation is:
- (a) the European Central Bank; or

- (b) any central government or central bank which, in relation to that item, satisfies the conditions in (2); or
 - (c) a multilateral development bank which is listed in (3); or
 - (d) an international organisation which is listed in (4);
- (2) the conditions in (1)(b) are that, for any claim against the central government or central bank denominated in the currency in which the item is denominated:
- (a) a credit rating is available from at least one listed rating agency nominated in accordance with ■ INSPRU 1.3.92 R; and
 - (b) the credit rating description in the first column of Table ■ INSPRU 1.3.90 R corresponding to the lowest such credit rating is either "exceptionally or extremely strong" or "very strong";
- (3) for the purposes of (1)(c) the listed multilateral development banks are:
- (a) the International Bank for Reconstruction and Development;
 - (b) the International Finance Corporation;
 - (c) the Inter-American Development Bank;
 - (d) the Asian Development Bank;
 - (e) the African Development Bank;
 - (f) the Council of Europe Development Bank;
 - (g) the Nordic Investment Bank;
 - (h) the Caribbean Development Bank;
 - (i) the European Bank for Reconstruction and Development;
 - (j) the European Investment Bank;
 - (k) the European Investment Fund; and
 - (l) the Multilateral Investment Guarantee Agency;
- (4) for the purposes of (1)(d) the listed international organisations are:
- (a) the *EU*;
 - (b) the International Monetary Fund; and
 - (c) the Bank for International Settlements.

Under ■ INSPRU 1.3.87 R (2), a *firm* needs to take account of the currency in which the claim is denominated when it is considering claims on or guaranteed by a central government or central bank. It is possible, for example, that a given central bank would be a credit risk scenario exempt organisation in respect of claims on it denominated in its domestic

currency, while not being a credit risk scenario exempt organisation in respect of claims on it denominated in a currency other than its domestic currency - the central government or central bank may have been assigned different credit assessments depending on the currency in which the claim on it is denominated.

1.3.89

PRA

R

- (1) For the purposes of this section, the credit rating description of a bond or debt item is to be determined in accordance with (2) and (3).
- (2) If the item has at least one credit rating nominated in accordance with ■ INSPRU 1.3.92 R ("a rated item"), its credit rating description is:
 - (a) where it has only one nominated credit rating, the general description given in the first column of Table ■ INSPRU 1.3.90 R corresponding to that rating; or
 - (b) where it has two or more nominated credit ratings and the two highest nominated ratings fall within the same general description given in the first column of that Table, that description; or
 - (c) where it has two or more nominated credit ratings and the two highest nominated ratings do not fall within the same general description given in the first column of that Table, the second highest of those two descriptions.
- (3) If the item is not a rated item, its credit rating description is the general description given in the first column of Table ■ INSPRU 1.3.90 R that most closely corresponds to the *firm's* own assessment of the item's credit quality.
- (4) An assessment under (3) must be made by the *firm* for the purposes of the credit risk scenario having due regard to the seniority of the bond or debt and the credit quality of the bond or debt issuer.

1.3.90

PRA

R

Table : Listed rating agencies, credit rating descriptions, spread factors

Credit Rating Description	Listed rating agencies				Spread Factor
	A. M. Best Company	Fitch Ratings	Moodys Investors Service	Standard & Poors Corporation	
Exceptional or ex-	aaa	AAA	Aaa	AAA	3.00

Credit Rating Description	Listed rating agencies				Spread Factor
tremely strong					
Very strong	aa	AA	Aa	AA	5.25
Strong	a	A	A	A	6.75
Adequate	bbb	BBB	Baa	BBB	9.25
Speculative or less vulnerable	bb	BB	Ba	BB	15.00
Very speculative or more vulnerable	B	B	B	B	24.00
Highly speculative or very vulnerable	Below B	Below B	Below B	Below B	24.00

1.3.91

PRA

G

Where listed rating agencies provide ratings by sub-category then all ratings should be allocated to the main ratings category (e.g. ratings sub-category A+ or A- would be allocated to the assigned ratings category "Strong").

1.3.92

PRA

R

For the purposes of ■ INSPRU 1.3.87 R and ■ INSPRU 1.3.89 R, a *firm* may, subject to (1) to (5), nominate for use credit ratings produced by one or more of the rating agencies listed in ■ INSPRU 1.3.93 R:

- (1) if the *firm* decides to nominate for use for an item the credit rating produced by one or more rating agencies, it must do so consistently for all similar items;
- (2) the *firm* must use credit ratings in a continuous and consistent way over time;
- (3) the *firm* must nominate for use only credit ratings that take into account both principal and interest;
- (4) if the *firm* nominates for use credit ratings produced by one of the listed rating agencies then the *firm* must use solicited credit ratings produced by that listed rating agency; and

- (5) the *firm* may nominate for use unsolicited credit ratings produced by one or more of the listed rating agencies except where there are reasonable grounds for believing that any unsolicited credit ratings produced by the agency are used so as to obtain inappropriate advantages in the relationship with rated parties.

1.3.93

PRA

R

In this section, a listed rating agency is:

- (1) A.M. Best Company; or
- (2) Fitch Ratings; or
- (3) Moody's Investors Service; or
- (4) Standard & Poor's Corporation.

Credit risk scenario for reinsurance

1.3.94

PRA

R

- (1) The contracts of *reinsurance* or analogous non-*reinsurance* financing agreements to which ■ INSPRU 1.3.78 R (2) applies are those:
 - (a) into which the *firm* has entered;
 - (b) which represent an economic asset under the single event applicable under ■ INSPRU 1.3.43 R (3); and
 - (c) which are material (individually or in aggregate).
- (2) For the purposes of (1), no account is to be taken of *reinsurance* or analogous non-*reinsurance* financing arrangements between *undertakings* in the same *group* where:
 - (a) the ceding and accepting *undertakings* are regulated by the *PRA*, *FCA* or a regulatory body in a *designated State or territory* for insurance (including *reinsurance*);
 - (b) no subsequent cessions of the ceded risk which are material (individually or in aggregate) are made to subsequent accepting *undertakings* by accepting *undertakings* (including subsequent accepting *undertakings*) other than to subsequent accepting *undertakings* which are in the same *group*; and
 - (c) for any subsequent cession or cessions of the ceded risk which are material (individually or in aggregate) each of the ceding and accepting *undertakings* (including subsequent accepting *undertakings*) is regulated by the *PRA*, *FCA* or a regulatory body in a *designated State or territory* for insurance (including *reinsurance*).

1.3.95

PRA

G

- (3) The change in value which a *firm* must determine for a contract of *reinsurance* or an analogous non-*reinsurance* financing agreement is the *firm's* best estimate of the change in realistic value which would result from changes in credit risk market conditions consistent, subject to (4), with the changes in credit spreads determined in accordance with ■ INSPRU 1.3.78 R (1).
- (4) For the purpose of (3), 5% should be replaced by 10% in ■ INSPRU 1.3.84 R (2)(b).
- (1) *Reinsurance* and analogous non-*reinsurance* financing agreements entered into by the *firm*, either with or acting as a *reinsurer*, must be included within the scope of the scenario. The combined rights and obligations under a contract of *reinsurance* or an analogous non-*reinsurance* financing agreement may represent an economic asset or liability. The value placed by the *firm* on the *reinsurance* item or non-*reinsurance* financing item should allow for a realistic assessment of the risks transferred and the risks of *counterparty* default associated with the item. In the case of analogous non-*reinsurance* financing agreements, references to terms such as "*reinsurer*", "*ceding undertakings*" and "*accepting undertakings*" include *undertakings* which by analogy are *reinsurers*, *ceding* or *accepting undertakings*. Analogous non-*reinsurance* financing agreements include contingent loans, securitisations and any other arrangements in respect of *contracts of insurance* that are analogous to contracts of *reinsurance* in terms of the risks transferred and the finance provided.
- (2) In assessing values in accordance with ■ INSPRU 1.3.94 R, a *firm* may consider it appropriate to determine values by drawing an analogy with the approach in respect of bond and debt items set out in ■ INSPRU 1.3.84 R. (This might be the case if, in economic terms, the item being valued sufficiently resembles a bond or debt item - an alternative approach might otherwise be preferred). If the *firm* does consider it appropriate to draw an analogy, the "credit spread" assumed should be consistent with the assumed default probabilities and the values placed on the *reinsurance* asset for the purposes of determining the *realistic values of assets and liabilities*. A *firm* may regard it as appropriate to have regard to any financial strength ratings applicable to the *reinsurer*, but if so should apply the same principles set out in ■ INSPRU 1.3.92 R for the nomination of financial strength ratings. Table ■ INSPRU 1.3.97 G provides *guidance* as to the allocation of spread factors which a *firm* may, by analogy, deem appropriate to apply. Appropriate allowance should be made for any change in the extent of the *counterparty* exposure under the assumed scenario.
- (3) The changes in credit risk spreads determined for bond and debt items in accordance with ■ INSPRU 1.3.78 R (1) are required to result in a reduction in market value for some items of 5% of their current value through the operation of ■ INSPRU 1.3.84 R (2)(b). For *reinsurance* contracts and analogous non-*reinsurance* financing agreements, determining the change in value by reference to ■ INSPRU 1.3.94 R (3) requires a *firm* to consider the possibility of *counterparty* default in changed credit risk market conditions. Where in the changed credit risk market conditions assumed to apply the *firm's* assessment of the *counterparty* risk would result in the asset being considered equivalent to "Highly speculative or very vulnerable", the reduction in value required is at least 10% of its current value. ■ INSPRU 1.3.94 R (4) relates to this requirement.

1.3.96
PRA

G

A financial strength rating of a *reinsurer* refers to a current assessment of the financial security characteristics of the *reinsurer* with respect to its ability to pay *claims* under its *reinsurance* contracts and treaties in accordance with their terms.

1.3.97
PRA

G

Table: Listed rating agencies, financial strength descriptions and spread factors

Financial Strength Description	A. M. Best Company	Fitch Ratings	Moody's Investors Service	Standard & Poors Corporation	Spread Factor
Superior, extremely strong	A++	AAA	Aaa	AAA	3.00
Superior, very strong	A+	AA	Aa	AA	5.25
Excellent or strong	A, A-	A	A	A	6.75
Good	B++, B+	BBB	Baa	BBB	9.25
Fair, marginal	B, B-	BB	Ba	BB	15.00

Unrated or very weak	Unrated or below C++, C+	Unrated or below B	Unrated or below B	Unrated or below B	24.00

Credit risk scenario for other exposures (including any derivative or quasi-derivative)

1.3.98
PRA

R

For the purposes of **INSPRU 1.3.78 R (3)**, the change in value which must be determined for any other item (including any *derivative* or *quasi-derivative*) which represents an economic asset under the single event applicable under **INSPRU 1.3.43 R (3)** is the *firm's* best estimate of the change in the realistic value of that item which would result from changes in credit risk market conditions consistent with the changes in credit spreads determined in accordance with **INSPRU 1.3.78 R (1)** and the changes in value determined in accordance with **INSPRU 1.3.78 R (2)**.

1.3.99
PRA

G

In applying **INSPRU 1.3.98 R**, a *firm* should assess the total impact on the value of the item resulting from the assumed changed credit risk market conditions. The total change in value may result from the interaction of a number of separate influences. For example, a widening of credit spreads may imply an impact on the amount exposed to *counterparty* default as well as on the likelihood of that default. Each factor influencing the change in value needs separate consideration. It should be assumed, both for determining amounts exposed to *counterparty* default and the likelihood of such default that there will be no change in the likelihood of default in relation to an item issued by or guaranteed by an organisation which is in respect of that item a credit risk scenario exempt organisation (**INSPRU 1.3.87 R**, **INSPRU 1.3.77 G (5)**) is also relevant in this context.

Persistency risk scenario

1.3.100 **R** For the purposes of the persistency risk scenario in ■ INSPRU 1.3.44 R (6), a **PRA** *firm* must allow for the effects of an increase or a decrease in persistency experience of its *with-profits insurance contract* by adjusting the termination rates in each year of projection by 32.5% of the termination rates assumed in the calculation of the *realistic value of liabilities* in ■ INSPRU 1.3.40 R.

1.3.101 **R** The termination rates referred to in ■ INSPRU 1.3.100 R are the rates of **PRA** termination (including the paying-up of *policies*, but excluding deaths, maturities and retirements) other than on dates specified by the *firm* where:

- (1) a guaranteed amount applies as the minimum amount which will be paid on *claim*; or
- (2) any payments to the *policyholder* cannot be reduced at the discretion of the *firm* by its applying a market value adjustment.

1.3.102 **R** For the purposes of ■ INSPRU 1.3.100 R, the increase or decrease in **PRA** termination rates must be applied to the projection of terminations up to *policy* guarantee dates and between *policy* guarantee dates, but not to the assumptions as to the proportion of *policyholders* taking up the guarantees at *policy* guarantee dates.

1.3.103 **G** ■ INSPRU 1.3.100 R to ■ INSPRU 1.3.102 R require *firms* to apply a persistency stress test to **PRA** the *realistic value of liabilities*. Where a *firm* brings the present value of *non-profit insurance business* in a *with-profits fund* into the calculation of the *realistic value of assets* (see ■ INSPRU 1.3.33 R) there is no requirement to stress this asset for changes in persistency assumptions.

Realistic value of liabilities: detailed provisions

1.3.104 **G** ■ INSPRU 1.3.40 R sets out the three elements comprising the *realistic value of liabilities* for **PRA** a *with-profits fund*. The remainder of this section contains general *rules* and *guidance* on determining the *realistic value of liabilities* plus further detail relating to each of those elements separately, as follows:

- (1) general *rules* and *guidance* in ■ INSPRU 1.3.105 R to ■ INSPRU 1.3.115 G;
- (2) *with-profits benefits reserve* in ■ INSPRU 1.3.116 R to ■ INSPRU 1.3.135 G;
- (3) *future policy related liabilities* in ■ INSPRU 1.3.136 G to ■ INSPRU 1.3.189 G; and
- (4) *realistic current liabilities* in ■ INSPRU 1.3.190 R and ■ INSPRU 1.3.191 R.

Methods and assumptions: general

1.3.105

PRA

R

In calculating the *realistic value of liabilities* for a *with-profits fund*, a *firm* must use methods and assumptions which:

- (1) are appropriate to the business of the *firm*;
- (2) are consistent from year to year without arbitrary changes (that is, changes without adequate reasons);
- (3) are consistent with the method of valuing assets (■ GENPRU 1.3);
- (4) make full provision for tax payable out of the *with-profits fund*, based on current legislation and practice, together with any known future changes, and on a consistent basis with the other methods and assumptions used;
- (5) take into account discretionary benefits which are at least equal to, and charges which are no more than, the levels required for the *firm* to fulfil its regulatory duty to treat its *customers* fairly;
- (6) take into account prospective management actions (■ INSPRU 1.3.53 R) and *policyholder* actions (■ INSPRU 1.3.59 R);
- (7) provide for shareholder transfers out of the *with-profits fund* as a liability of the fund;
- (8) have regard to generally accepted actuarial practice; and
- (9) are consistent with the *firm's PPFM*.

1.3.106

PRA

G

More specific *rules* and *guidance* are set out below on some aspects of the methods and assumptions to be used in calculating the *realistic value of liabilities* for a *with-profits fund*. In contrast to the *mathematical reserves* requirements in ■ INSPRU 1.2.10 R (4) and ■ INSPRU 1.2.13 R, there is no requirement to include margins for adverse deviation of relevant factors in calculating the *realistic value of liabilities*. Assumptions need be no more prudent than is necessary to achieve a best estimate, taking into account the *firm's PPFM* and its regulatory duty to treat its *customers* fairly. Where there is no requirement for a *PPFM*, for example non-UK business, a *firm* should use assumptions that are consistent with the *firm's* documented approach to treating its *customers* fairly. A *firm* may judge that a margin should be included in its calculations to avoid an understatement of the *realistic value of liabilities* as a result of uncertainty, for example, either in its method or in its data.

1.3.107

PRA

G

The amount and timing of tax charges affect the amount of assets available to meet *policyholder* liabilities. ■ INSPRU 1.3.105 R (4) requires *firms* to provide fully for all tax payable out of the *with-profits fund* on a basis consistent with the other assumptions and methods used in deriving the realistic balance sheet. So, for example, all projections which underlie the realistic valuation of assets or liabilities must allow for taxation. The approach adopted should not give any credit for any reduction in tax deriving from future expenses or deficits which is attributable to future new business. For assets backing capital requirements it is not necessary to take into consideration future tax

charges on investment income generated by those assets. However, *firms* should consider this aspect in their capital planning.

1.3.108

[intentionally blank]

Valuation of contracts: General

1.3.109

R

PRA

(1) A *firm* must determine the amount of the *with-profits benefits reserve* or the *future policy related liabilities* for a *with-profits fund* by carrying out a separate calculation in relation to each *with-profits insurance contract* or for each group of similar contracts.

(2) Appropriate approximations or generalisations may be made where they are likely to provide the same, or a higher, result than a separate calculation for each contract.

(3) A *firm* must set up additional reserves on an aggregated basis for general risks which are not specific to individual contracts or a group of similar contacts where the *firm* considers the *realistic value of liabilities* may otherwise be understated.

1.3.110

R

PRA

For the purpose of ■ INSPRU 1.3.109 R (1), a group of similar contracts is such that the conditions in ■ INSPRU 1.3.109 R (2) are satisfied.

1.3.111

G

PRA

Where a *firm* has grouped individual contracts for the purpose of calculating the *mathematical reserves* for a *with-profits fund* (in accordance with ■ INSPRU 1.2.22 R), the *firm* is not required to use the same grouping of contracts in calculating the *with-profits benefits reserve* or *future policy related liabilities* for that fund.

1.3.112

G

PRA

In contrast to ■ INSPRU 1.2.24 R for the *mathematical reserves*, treating individual contracts as an asset is not prohibited if, and to the extent that, this treatment does not conflict with a *firm's* regulatory duty to treat its *customers* fairly.

1.3.113

G

PRA

In calculating the *with-profits benefits reserve*, an overall (grouped or pooled) approach may be appropriate under either of the two methods set out in ■ INSPRU 1.3.116 R. In particular, the calculation of aggregate retrospective reserves (see ■ INSPRU 1.3.118 R) and the projection of future cash flows (see ■ INSPRU 1.3.128 R) based on suitable specimen *policies* is permitted.

1.3.114

G

PRA

In calculating the *future policy related liabilities*, the grouping of *policies* for valuing the costs of guarantees, options or smoothing, and their representation by representative *policies*, is acceptable provided the *firm* can demonstrate that the grouping of *policies* does not materially misrepresent the underlying exposure and does not significantly misstate the costs. A *firm* should exercise care in grouping *policies* in order to ensure that the risk exposure is not inappropriately distorted by, for example, forming groups containing *policies* with guarantees that are "in the money" and *policies* with guarantees well "out of the money". A *firm* should also have regard to the effects of *policyholder* behaviour over time on the spread of the outstanding guarantees or options.

1.3.115
PRA

G

Where a *firm* groups similar *policies* for the purpose of calculating the *with-profits benefits reserve* or the *future policy related liabilities*, the *firm* should carry out sufficient validation to be reasonably sure that the grouping of *policies* has not resulted in the loss of any significant attributes of the portfolio being valued.

With-profits benefits reserve

1.3.116
PRA

R

A *firm* must calculate a with-profits benefits reserve for a with-profits fund using either:

- (1) a retrospective calculation under ■ INSPRU 1.3.118 R (the retrospective method); or
- (2) a prospective calculation under ■ INSPRU 1.3.128 R of all future cash flows expected to arise under, or in respect of, each of the *with-profits insurance contracts* written in that fund (the prospective method).

1.3.117
PRA

R

Subject to ■ INSPRU 1.3.105 R (2), a *firm* may use different methods under ■ INSPRU 1.3.116 R for different types or generations of *with-profits insurance contracts*.

Retrospective method

1.3.118
PRA

R

In the retrospective method of calculating a *with-profits benefits reserve*, a *firm* must calculate either the aggregate of the retrospective reserves in respect of each *with-profits insurance contract* or, to the extent permitted by ■ INSPRU 1.3.109 R and ■ INSPRU 1.3.110 R, the total retrospective reserve in respect of each group of *with-profits insurance contracts*.

1.3.119
PRA

R

In calculating the retrospective reserve for a *with-profits insurance contract*, or the total retrospective reserve in respect of a group of *with-profits insurance contracts*, a *firm* must take account of at least the following:

- (1) *premiums* received from the *policyholder*;
- (2) any expenses incurred or charges made (including *commissions*);
- (3) any partial benefits paid or due;
- (4) any investment income on, and any increases (or decreases) in, asset values;
- (5) any tax paid or payable;
- (6) any amounts received (or paid) under contracts of *reinsurance* or analogous non-*reinsurance* financing agreements, where relevant to retrospective reserves;

- (7) any shareholder transfers and any associated tax paid or payable; and
- (8) any permanent enhancements to (or deductions from) the retrospective reserves made by the *firm*.

1.3.120
PRA

G

In taking account of amounts in ■ INSPRU 1.3.119 R (6), due regard should be had to the specific details of each relevant contract of *reinsurance* or analogous non-*reinsurance* financing agreement and the relationship between the amounts received (or paid) and the value of the benefit granted (or received) under the arrangement. This should take into consideration, for example, the risk of default and differences in the *firm's* realistic assessment of the risks transferred and the contractual terms for such transfer of risk. Analogous non-*reinsurance* financing agreements include contingent loans, securitisations and any other arrangements in respect of *contracts of insurance* that are analogous to contracts of *reinsurance* in terms of the risks transferred and the finance provided.

1.3.121
PRA

G

Where allowance is made for shareholder transfers, this should be in respect of the accrued bonus entitlement reflected in the retrospective reserve. This would include both *annual bonuses* already declared and accrued *final bonus*. However, shareholder transfers in respect of surplus yet to be credited to retrospective reserves should not be charged to those reserves until the corresponding surplus is credited.

1.3.122
PRA

R

In calculating retrospective reserves, a *firm* must have regard to its regulatory duty to treat its *customers* fairly and must ensure that its approach is consistent with its *Principles and Practices of Financial Management*.

1.3.123
PRA

R

In calculating retrospective reserves, a *firm* must ensure its treatment of past cash flows, and of any future cash flows, is consistent with those cash flows valued in its prospective calculation of the *future policy related liabilities* for that fund in accordance with the rules in ■ INSPRU 1.3.136 G to ■ INSPRU 1.3.189 G.

1.3.124
PRA

G

An example of ■ INSPRU 1.3.123 R concerns future shareholder transfers. A *firm* must make adequate provision for future shareholder transfers within the *future policy related liabilities* (see ■ INSPRU 1.3.165 R). The basis of provisioning needs to be consistent with the amounts accrued within retrospective reserves and the amounts already transferred out of the *with-profits fund*.

1.3.125
PRA

G

Another example of the application of ■ INSPRU 1.3.123 R relates to the reference in ■ INSPRU 1.3.119 R (8) to past permanent enhancements to (or deductions from) retrospective reserves made by *firms*. This item may include past miscellaneous surplus (or losses) which have been credited to (or debited from) retrospective reserves. Any other enhancements (or deductions) made on a temporary basis and any future surplus (or losses) that *firms* intend to credit to (or debit from) retrospective reserves should be included under the *future policy related liabilities* (see ■ INSPRU 1.3.137 R).

1.3.126
PRA

G

Firms characteristically use a range of calculation methods to determine retrospective reserves. A *firm's* definition and calculation of retrospective reserves will depend on a number of factors. These include: the *firm's* practice; its administration and accounting

systems; the extent of its historical records; and the composition of its with-profits portfolio. The *rules* and *guidance* for the retrospective method are drawn up to be sufficiently flexible to accommodate the diversity of calculation methods used by *firms*, rather than to enforce any particular method of calculation of retrospective reserves. ■ INSPRU 1.3.119 R simply sets minimum standards that all retrospective methods must meet.

1.3.127
PRA

G

For the purposes of ■ INSPRU 1.3.119 R (2) and ■ INSPRU 1.3.128 R (2), the phrases 'charges made' or 'charges to be made' refer to circumstances where types of risk (such as mortality risk, longevity risk and investment risk) are met by the *firm* or *with-profits fund* in return for a charge deducted by the *firm* from the *with-profits benefits reserve*.

Prospective method

1.3.128
PRA

R

In the prospective method of calculating a *with-profits benefits reserve*, a *firm* must take account of at least the following cash flows:

- (1) future *premiums*;
- (2) expenses to be incurred or charges to be made, including *commissions*;
- (3) benefits payable (■ INSPRU 1.3.129 R);
- (4) tax payable;
- (5) any amounts to be received (or paid) under contracts of *reinsurance* or analogous non-*reinsurance* financing agreements, where relevant to *with-profits insurance contracts* being valued; and
- (6) shareholder transfers.

1.3.129
PRA

R

For the purposes of ■ INSPRU 1.3.128 R (3), benefits payable include:

- (1) all guaranteed benefits, including guaranteed amounts payable on death and maturity, guaranteed *surrender values* and paid-up values;
- (2) vested, declared and allotted bonuses to which *policyholders* are entitled; and
- (3) future *annual* and *final bonuses* at least equal to the levels required for the *firm* to fulfil its regulatory duty to treat its *customers* fairly.

1.3.130
PRA

R

A *firm* must value the cash flows listed in ■ INSPRU 1.3.128 R using best estimate assumptions of future experience, having regard to generally accepted actuarial practice and taking into account the *firm's PPFM* and its regulatory duty to treat its *customers* fairly.

1.3.131 **G** The prospective method sets the *with-profits benefits reserve* at the net present value of future cash flows listed in ■ INSPRU 1.3.128 R.
PRA

1.3.132 **G** In contrast to ■ INSPRU 1.2.10 R (4) and ■ INSPRU 1.2.13 R relating to the methods and assumptions used to value the *mathematical reserves*, there is no requirement to value future cash flows using assumptions that include margins for adverse deviation. Also there are no detailed *rules* as to the future yields on assets, discount rates, *premium* levels, expenses, tax, mortality, morbidity, persistency and *reinsurance*. A *firm* should make its own assessment as to the amount of these future cash flows including bonuses and discretionary surrender or transfer values. A *firm* should make a realistic assessment of longevity risk and asset default risk (including default risk arising under contracts of *reinsurance* or analogous non-*reinsurance* financing agreements) within the best estimate assumptions of future experience required by ■ INSPRU 1.3.130 R.
PRA

1.3.133 **G** In valuing the future cash flows listed in ■ INSPRU 1.3.128 R, the *firm* should use a projection term which is long enough to capture all material cash flows arising from the contract or groups of contracts being valued. If the projection term does not extend to the term of the last *policy*, the *firm* should check that the shorter projection term does not significantly affect the results.
PRA

1.3.134 **R** Where a *firm* expects to pay additional benefits that are not included in the cash flows listed in ■ INSPRU 1.3.128 R, it must make adequate provision for these benefits in calculating the *future policy related liabilities* in accordance with the *rules* in ■ INSPRU 1.3.136 G to ■ INSPRU 1.3.189 G.
PRA

1.3.135 **G** The prospective assessment of the *with-profits benefits reserve* will usually be on a deterministic basis. A *firm* will have to make further provision in the *future policy-related liabilities* for, for example, the costs of potential asset fluctuations or *policy* options.
PRA

Future policy related liabilities

1.3.136 **G** Overview of liabilities

PRA ■ INSPRU 1.3.137 R lists the *future policy related liabilities* for a *with-profits fund* that form part of a *firm's realistic value of liabilities* in ■ INSPRU 1.3.40 R. Detailed *rules* and *guidance* relating to particular types of liability and asset are set out in ■ INSPRU 1.3.139 R to ■ INSPRU 1.3.168 G. These are followed by *rules* and *guidance* that deal with certain aspects of several liabilities (that is, liabilities relating to guarantees, options and smoothing):

- (1) ■ INSPRU 1.3.169 R to ■ INSPRU 1.3.186 G refer to valuing the costs of guarantees, options and smoothing; and
- (2) ■ INSPRU 1.3.187 R to ■ INSPRU 1.3.189 G refer to the treatment of surplus on guarantees, options and smoothing.

1.3.137 **R** The *future policy related liabilities* for a *with-profits fund* are equal to the sum of amounts, as they relate to that fund, in respect of (1) to (11) to the extent each is valued as a liability less the sum of amounts, as they
PRA

relate to that fund, in respect of (1) to (11) to the extent each is valued as an asset:

- (1) past miscellaneous surplus (or deficit) planned to be attributed to the *with-profits benefits reserve* (see ■ INSPRU 1.3.139 R);
- (2) planned enhancements to the *with-profits benefits reserve* (see ■ INSPRU 1.3.141 R);
- (3) planned deductions for the costs of guarantees, options and smoothing from the *with-profits benefits reserve* (see ■ INSPRU 1.3.144 R);
- (4) planned deductions for other costs deemed chargeable to the *with-profits benefits reserve* (see ■ INSPRU 1.3.146 R);
- (5) future costs of contractual guarantees (other than financial options) (see ■ INSPRU 1.3.148 R);
- (6) future costs of non-contractual commitments (see ■ INSPRU 1.3.154 R);
- (7) future costs of financial options (see ■ INSPRU 1.3.156 G);
- (8) future costs of smoothing (see ■ INSPRU 1.3.158 R);
- (9) financing costs (see ■ INSPRU 1.3.162 R);
- (10) any other further liabilities required for the *firm* to fulfil its regulatory duty to treat its *customers* fairly; and
- (11) other *long-term insurance liabilities* (see ■ INSPRU 1.3.165 R).

1.3.138

PRA

G

Some of the elements of the calculation set out in ■ INSPRU 1.3.137 R may have already been taken into consideration in the calculation of the *with-profits benefits reserve*, either under the retrospective method (see ■ INSPRU 1.3.118 R onwards) or the prospective method (see ■ INSPRU 1.3.128 R onwards). Where this is the case, the adjustments made under ■ INSPRU 1.3.137 R should be such that no double-counting arises.

Past miscellaneous surplus (or deficit) planned to be attributed to the with-profits benefits reserve

1.3.139

PRA

R

In calculating the *future policy related liabilities* for a *with-profits fund*, a *firm* must allow for past miscellaneous surplus (or deficit) which it intends to attribute to the *with-profits benefits reserve* for that fund but which has not yet been permanently credited to (or debited from) the *with-profits benefits reserve* for that fund.

1.3.140 PRA G Past miscellaneous surplus (or deficit) already permanently credited to (or debited from) the *with-profits benefits reserve* will have been included in the calculation of the *with-profits benefits reserve* in accordance with ■ INSPRU 1.3.119 R (8).

Planned enhancements to the with-profits benefits reserve

1.3.141 PRA R In calculating the *future policy related liabilities* for a *with-profits fund*, a *firm* must make provision for any future planned enhancements to the *with-profits benefits reserve* for that fund that cannot be financed out of the resources of the *with-profits benefits reserve* and future *premiums*.

1.3.142 PRA G For the purposes of ■ INSPRU 1.3.141 R, planned enhancements to the *with-profits benefits reserve* will arise when a *firm* has a contractual obligation, or a non-contractual commitment (arising from its regulatory duty to treat *customers* fairly), to enhance *claims* on some classes of *policy* (perhaps in the form of specially enhanced future bonus rates). In such circumstances, the present value of the costs of paying out a target asset share that is more than the projected *with-profits benefits reserve* for those classes of *policy* for which this practice is applicable should be included in the amount of the *future policy related liabilities*. For example, a *firm* may have a non-contractual commitment (arising from its regulatory duty to treat *customers* fairly) to pay enhanced benefits but have discretion not to make such payments in adverse circumstances. Such planned enhancements should be provided for in the realistic balance sheet, but allowance should be made for management action in the calculation of the *risk capital margin*.

1.3.143 PRA G The valuation of *claims* in excess of targeted asset shares in respect of guarantees, options and smoothing, including those arising under guaranteed annuity rates, should be carried out in accordance with ■ INSPRU 1.3.169 R to ■ INSPRU 1.3.186 G.

Planned deductions for the costs of guarantees, options and smoothing from the with-profits benefits reserve

1.3.144 PRA R Where a *firm* expects to deduct future charges from the *with-profits benefits reserve* for a *with-profits fund* to cover the costs of guarantees, options or smoothing for that fund, the *firm* must take credit for these future charges in calculating the *future policy related liabilities* for that fund.

1.3.145 PRA G In calculating *future policy related liabilities* for a *with-profits fund*, a *firm* should take credit under ■ INSPRU 1.3.137 R (3) for the present value of the future "margins" available in respect of charges deducted to cover the costs of guarantees, options and smoothing. ■ INSPRU 1.3.188 R requires *firms* that accumulate the charges made less costs incurred to provide for any surplus on the experience account as a realistic liability. Any such provision should be made under ■ INSPRU 1.3.137 R (5), ■ INSPRU 1.3.137 R (7) or ■ INSPRU 1.3.137 R (8) depending on the nature of the charges made, and has no effect on the amount calculated under ■ INSPRU 1.3.144 R.

Planned deductions for other costs deemed chargeable to the with-profits benefits reserve

1.3.146 PRA R Where a *firm* expects to deduct future charges (other than those valued in ■ INSPRU 1.3.144 R) from the *with-profits benefits reserve* for a *with-profits*

fund, the *firm* must take credit for these future charges in calculating the *future policy-related liabilities* for that fund.

1.3.147
PRA

G

A *firm* should take credit for the present value of the other future "margins" available. The circumstances where such margins may arise include:

- (1) where a *firm* is targeting *claims* at less than 100% of the *with-profits benefits reserve*, the amount of such shortfall; and
- (2) where a *firm* expects to deduct any future charges (other than those for guarantees, options and smoothing) from the *with-profits benefits reserve*.

Future costs of contractual guarantees (other than financial options)...

1.3.148
PRA

R

A *firm* must make provision for the costs of paying excess *claim* amounts for a *with-profits fund* where the *firm* expects that the amount in (1) may be greater than the amount in (2), calculated as at the date of *claim*:

- (1) the value of guarantees arising under a *policy* or group of *policies* in the fund; and
- (2) the fund's *with-profits benefits reserve* allocated in respect of that *policy* or group of *policies*.

1.3.149
PRA

R

For the purposes of ■ INSPRU 1.3.148 R, the future costs of guarantees cannot be negative.

1.3.150
PRA

G

In carrying out projections to calculate the cost of guarantees under ■ INSPRU 1.3.137 R the opening liability should be set equal to the *with-profits benefit reserve* (see ■ INSPRU 1.3.118 R), adjusted for miscellaneous surplus or deficits (see ■ INSPRU 1.3.137 R (1)) and planned enhancements (see ■ INSPRU 1.3.141 R).

1.3.151
PRA

G

In projecting forward the *with-profits benefits reserve*, adjusted as in ■ INSPRU 1.3.150 G, to the date of *claim* for the purposes of ■ INSPRU 1.3.148 R, the *firm* should use market consistent assumptions for the expected future *premium* and investment income (including realised and unrealised gains or losses), expenses and *claims*, any charges to be deducted, tax and any other item of income or outgo. This projection should be carried out on the same basis as is described in ■ INSPRU 1.3.130 R.

1.3.152
PRA

G

■ INSPRU 1.3.169 R to ■ INSPRU 1.3.186 G contain further *rules* and *guidance* on the valuation of guarantees, options and smoothing.

1.3.153
PRA

G

Some examples of contractual guarantees are:

- (1) for conventional *with-profits insurance contracts*, guaranteed sums assured and bonuses on death, maturity or retirement; and
- (2) for *accumulating with-profits policies*, guarantees at a point in time or guaranteed minimum bonus rates.

Future costs of non-contractual commitments

1.3.154
FCA PRA

R

A *firm* must make provision for future costs in addition to those in ■ INSPRU 1.3.148 R where the *firm* expects to pay further amounts to meet non-contractual commitments to *customers* or pay other benefits that need to be provided to fulfil a *firm's* regulatory duty to treat its *customers* fairly.

1.3.155
FCA PRA

G

Some examples of these non-contractual commitments are:

- (1) statements by the *firm* regarding the ability of *policies* to cover defined amounts, such as the repayment of a mortgage;
- (2) statements by the *firm* regarding regular withdrawals from a *policy* being without penalty;
- (3) guaranteed annuity and cash option rates being provided beyond the strict interpretation of the *policy*; and
- (4) the costs of any promises to *customers* or other benefits that need to be provided to fulfil a *firm's* regulatory duty to treat its *customers* fairly.

Future costs of financial options

1.3.156
PRA

G

Financial options include guaranteed annuity and cash option rates.

1.3.157
PRA

G

■ INSPRU 1.3.169 R to ■ INSPRU 1.3.186 G contain further *rules* and *guidance* on the valuation of options.

Future costs of smoothing

1.3.158
PRA

R

A *firm* must make provision for future smoothing costs of a *with-profits fund* where the *firm* expects that the *claims* paid on a *policy* or group of *policies* in the fund will vary from the greater of:

- (1) the value of guarantees determined in ■ INSPRU 1.3.148 R in respect of that *policy* or group of *policies*; and
- (2) the fund's *with-profits benefits reserve* allocated in respect of that *policy* or group of *policies* which must be enhanced as described in ■ INSPRU 1.3.141 R;

calculated as at the date of claim.

1.3.159
PRA

R

For the purposes of ■ INSPRU 1.3.158 R, smoothing costs are defined as the present value of the difference between projected *claims* and the projected *with-profits benefit reserve* after enhancements (■ INSPRU 1.3.141 R), other than payouts on guarantees (■ INSPRU 1.3.148 R).

1.3.160
PRA

R

Subject to ■ INSPRU 1.3.188 R, the future costs of smoothing can be negative.

1.3.161
PRA

G

■ INSPRU 1.3.169 R to ■ INSPRU 1.3.186 G contain further *rules* and *guidance* on the valuation of the future costs of smoothing.

Financing costs

1.3.162
PRA

R

A *firm* must provide for future liabilities to repay financing costs of a *with-profits fund* where the *firm* expects to have to meet such liabilities and to the extent that these liabilities are not already provided for by amounts included in the fund's *realistic current liabilities* (■ INSPRU 1.3.190 R and ■ INSPRU 1.3.191 R). The amount of the liabilities to repay financing costs must be assessed on a market-consistent basis.

1.3.163
PRA

G

In ■ INSPRU 1.3.162 R, financing costs refer to the future costs incurred by way of capital, interest and fees payable to the provider. A *firm* should make a realistic assessment of the requirement to repay such financing in its expected future circumstances (which may be worse than currently). Having taken account of its particular circumstances:

- (1) where a *firm* has no liability to repay such financing, it should not include such repayment as a liability;
- (2) where a *firm* has a reduced liability to repay such financing, it should include a reduced repayment as a liability.

1.3.164
PRA

G

In ■ INSPRU 1.3.162 R, financing includes *reinsurance* financing arrangements and analogous non-*reinsurance* financing arrangements, such as contingent loans, securitisations and any other arrangements in respect of *contracts of insurance* that are analogous to contracts of *reinsurance* in terms of the risks transferred and the finance provided.

Other long-term insurance liabilities

1.3.165
PRA

R

A *firm* must provide for any other *long-term insurance liabilities* arising from or in connection with *with-profits insurance contracts* in a *with-profits fund*, to the extent that adequate provision has not been made in the *with-profits benefits reserve* or in any other part of the *future policy related liabilities* for that fund.

1.3.166
PRA

G

Some examples of these other long-term insurance liabilities are:

- (1) pension and other mis-selling reserves;
- (2) provisions for tax; and
- (3) provisions for future shareholder transfers.

1.3.167
PRA

G

In determining the realistic liability for taxation *firms* should apply the general principles set out in ■ INSPRU 1.3.105 R and the *guidance* given in ■ INSPRU 1.3.107 G.

1.3.168
PRA

G

■ INSPRU 1.3.105 R requires *firms* to provide for shareholder transfers out of the *with-profits fund* as a liability of the fund. The provision should be consistent with

the methods and assumptions used in valuing the other realistic liabilities. So, for example, where the *with-profits benefits reserve* includes amounts that would be paid to *policyholders* through future bonuses, provision should also be made for future shareholder transfers associated with those bonuses.

Valuing the costs of guarantees, options and smoothing

1.3.169
PRA

R

For the purposes of ■ INSPRU 1.3.137 R (5), ■ INSPRU 1.3.137 R (7) and ■ INSPRU 1.3.137 R (8), a *firm* must calculate the costs of any guarantees, options and smoothing using one or more of the following three methods:

- (1) a stochastic approach using a market-consistent asset model (■ INSPRU 1.3.170 R);
- (2) using the market costs of hedging the guarantee or option;
- (3) a series of deterministic projections with attributed probabilities.

1.3.170
PRA

R

The market-consistent asset model in ■ INSPRU 1.3.169 R (1):

- (1) means a model that delivers prices for assets and liabilities that can be directly verified from the market; and
- (2) must be calibrated to deliver market-consistent prices for those assets that reflect the nature and term of the *with-profits insurance liabilities* of the *with-profits fund*.

1.3.171
PRA

G

Deterministic approaches will not usually capture the time value of the option generated by a guarantee. In order to calculate this value properly, *firms* are expected either to use market option values where these are readily available or to undertake a stochastic approach using a market-consistent asset model.

1.3.172
PRA

G

The *PRA* considers stochastic modelling to be preferable for material groups or classes of *with-profits insurance contracts* unless it can be shown that more simplistic or alternative methods are both appropriate and sufficiently robust.

1.3.173
PRA

G

Where the guarantee or option is relatively simple in nature, is capable of being hedged, and has a value unlikely to be affected by management actions (■ INSPRU 1.3.185 R) (for example, a guaranteed annuity rate option) then the cost of the guarantee or option would be the market cost of hedging the guarantee. Where that is generally the case but, in respect of a minor part of a portfolio, no market exists for hedging the option generated by the guarantee, a *firm* should take the value of the nearest equivalent benefit or right for which a market exists and record how it has adjusted the valuation to reflect the original option. Where the market value of the hedge is used *firms* should also make provisions for the credit risk arising from the hedge, both that arising from exposure to a *counterparty* and that arising from credit risk in the underlying instrument. The extent to which the guarantee or option is capable of being hedged depends on a *firm's* assumptions regarding future investment mix, persistency, annuitant mortality and take-up rates. While the *PRA* recognises that the hedge may not be perfectly matched to the underlying guarantee or option, a *firm* should ensure that hedge is reasonably well matched having regard to the sensitivity of the guarantee or option to the *firm's* choice of key assumptions.

1.3.174 **G** Where a *firm* has large cohorts of guarantees and uses stochastic or deterministic approaches, a *firm* should have regard to whether the cost of the guarantees determined under those approaches bears a reasonable relationship to the market cost of hedging those guarantees (where it exists).
PRA

1.3.175 **G** In determining the costs of smoothing, a *firm* should consider:
PRA

- (1) the consistency of its assumptions (including the exercise of management discretion over bonus rates); and
- (2) where targeted payouts currently exceed retrospective reserves in respect of those *claims*, the assumptions used in reducing the excess, if applicable, having regard to the *firm's* PPFM and its regulatory duty to treat its *customers* fairly.

Stochastic approach

1.3.176 **G** For the purposes of ■ INSPRU 1.3.169 R (1), a stochastic approach would consist of an appropriate market-consistent asset model for projections of asset prices and yields (such as equity prices, fixed interest yields and property yields), together with a dynamic model incorporating the corresponding value of liabilities and the impact of any foreseeable actions to be taken by management. Under the stochastic approach, the cost of the guarantee, option or smoothing would be equal to the average of these stochastic projections.
PRA

1.3.177 **G** In performing the projections of assets and liabilities under the stochastic approach in ■ INSPRU 1.3.169 R (1), a *firm* should have regard to the aspects in (1) and (2).
PRA

- (1) The projection term should be long enough to capture all material cash flows arising from the contract or groups of contracts being valued. If the projection term does not extend to the term of the last *policy*, the *firm* should check that the shorter projection term does not significantly affect the results.
- (2) The number of projections should be sufficient to ensure a reasonable degree of convergence in the results, including the determination of the result of the *risk capital margin*. The *firm* should test the sensitivity of the results to the number of projections.

1.3.178 **G** The PRA considers a holistic approach to stochastic modelling to be preferable so as to value all items of costs together rather than using separate methods for different items of the *realistic value of liabilities*. This approach requires the projection of all material cash flows arising under the contract or group of contracts for each stochastic projection, rather than only those arising from the guarantee or option within the contract. The advantages of this approach are that it ensures greater consistency in the valuation of different components of the contract and explicitly takes into account the underlying hedges or risk mitigation between components of the contract or group of contracts being valued. Where a *firm* can use a stochastic approach to value simultaneously all components of the contract or group of contracts, the *firm* should adopt this approach where practical and feasible.
PRA

1.3.179 **G** Where a stochastic approach is used, a *firm* should make and retain a record under ■ INSPRU 1.3.17 R of the nature of the asset model and of the assumptions used (including
PRA

the volatility of asset values and any assumed correlations between asset classes or between asset classes and economic indicators, such as inflation).

1.3.180
PRA

G

In calibrating asset models for the purposes of ■ INSPRU 1.3.170 R, a *firm* should have regard to the aspects in (1), (2) and (3).

- (1) Few (if any) asset models can replicate all the observable *market values* for a wide range of asset classes. A *firm* should calibrate its asset models to reflect the nature and term of the fund's liabilities giving rise to significant guarantee and option costs.
- (2) A *firm* will need to apply judgement to determine suitable estimates of those parameters which cannot be implied from observable market prices (for example, long-term volatility). A *firm* should make and retain a record under ■ INSPRU 1.3.17 R of the choice of parameters and the reasons for their use.
- (3) A *firm* should calibrate the model to the current risk-free yield curve. Risk-free yields should be determined after allowing for credit and all other risks arising. *Firms* may have regard to any standards and guidance adopted or issued by the Board of Actuarial Standards on the calculation of the risk-free yield but should not assume a higher yield than suggested by any such standards and guidance.

Deterministic approach

1.3.181
PRA

R

For the purposes of the deterministic approach in ■ INSPRU 1.3.169 R (3), a *firm* must calculate a series of deterministic projections of the values of assets and corresponding liabilities, where each deterministic projection corresponds to a possible economic scenario or outcome.

1.3.182
PRA

G

A *firm* should determine a range of scenarios or outcomes appropriate to both valuing the costs of the guarantee, option or smoothing and the underlying asset mix, together with the associated probability of occurrence. These probabilities of occurrence should be weighted towards adverse scenarios to reflect market pricing for risk. The costs of the guarantee, option or smoothing should be equal to the expected cost based on a series of deterministic projections of the values of assets and corresponding liabilities. In using a series of deterministic projections, a *firm* should consider whether its approach provides a suitably robust estimate of the costs of the guarantee, option or smoothing.

1.3.183
PRA

G

In performing the projections of assets and liabilities under the deterministic approach in ■ INSPRU 1.3.169 R (3), a *firm* should have regard to the aspects in (1) and (2).

- (1) The projection term should be long enough to capture all material cash flows arising from the contract or group of contracts being valued. If the projection term does not extend to the term of the last contract, the *firm* should check that the shorter projection term does not significantly affect the results.
- (2) The series of deterministic projections should be numerous enough to capture a wide range of possible outcomes and take into account the probability of each outcome's likelihood. The costs will be understated if only relatively benign or limited economic scenarios are considered.

1.3.184
PRA

G

Where a series of deterministic projections is used, a *firm* should make and retain a record under ■ INSPRU 1.3.17 R of the range of projections and how the probabilities attributed to each projection or outcome were determined (including the period of reference for any relevant data on past experience).

Management and policyholder actions

1.3.185
PRA

R

In calculating the costs of any guarantees, options or smoothing, a *firm*:

- (1) may reflect its prospective management actions (within the meaning of ■ INSPRU 1.3.53 R); and
- (2) must reflect a realistic assessment of the *policyholder* actions (within the meaning of ■ INSPRU 1.3.59 R);

in its projections of the value of assets and liabilities.

1.3.186
PRA

G

For the purposes of ■ INSPRU 1.3.185 R, the related *guidance* in ■ INSPRU 1.3.54 G to ■ INSPRU 1.3.57 G (management actions) and in ■ INSPRU 1.3.60 G (policyholder actions) applies.

Treatment of surplus on guarantees, options and smoothing

1.3.187
PRA

R

■ INSPRU 1.3.188 R applies to *firms* calculating the costs of guarantees, options and smoothing to be included in the *future policy-related liabilities* in accordance with ■ INSPRU 1.3.137 R (5), ■ INSPRU 1.3.137 R (7) and ■ INSPRU 1.3.137 R (8).

1.3.188
PRA

R

Where a *firm* accumulates past experience and deducts or is otherwise able to take credit for charges for guarantees or options or smoothing, the future costs of guarantees or options or smoothing (as appropriate) must not be less than the greater of:

- (1) the prospective calculation of the future cost of guarantees (see ■ INSPRU 1.3.148 R) or options (see ■ INSPRU 1.3.156 G) or smoothing (see ■ INSPRU 1.3.158 R) (as appropriate); and
- (2) the sum of:
 - (a) the accumulated charges (after deduction of past costs) for guarantees or options or smoothing (as appropriate); and
 - (b) the prospective calculation of the future charges deducted for guarantees or options or smoothing (see ■ INSPRU 1.3.144 R) (as appropriate).

1.3.189
PRA

G

The extent to which the amount in ■ INSPRU 1.3.188 R (2) exceeds the amount in ■ INSPRU 1.3.188 R (1) will determine the surplus available to support actions that would be taken by the *firm's* management. The purpose of ■ INSPRU 1.3.188 R is to ensure that any resulting surplus at the valuation date arising from the accumulation of charges less costs remains available to support foreseeable actions that would be taken by the

firm's management. Any additional liability arising from ■ INSPRU 1.3.188 R is added to the liabilities under ■ INSPRU 1.3.137 R (5), ■ INSPRU 1.3.137 R (7) and ■ INSPRU 1.3.137 R (8), but has no impact on the adjustment for planned deductions for the costs of guarantees, options and smoothing (■ INSPRU 1.3.137 R (3) and ■ INSPRU 1.3.144 R).

Realistic current liabilities

1.3.190

PRA

R

For the purposes of ■ INSPRU 1.3.40 R (3), the *realistic current liabilities* of a *with-profits fund* are equal to the sum of the following amounts:

- (1) the *firm's* best estimate provision for those liabilities for which prudent provision is made in *regulatory current liabilities* (see ■ INSPRU 1.3.30 R); and
- (2) to the extent that amounts have not been provided in (1), any tax and any other costs arising either in respect of excess *admissible assets* (within the meaning of ■ INSPRU 1.3.36 R) or on the recognition of future shareholder transfers.

1.3.191

PRA

R

For the purpose of assessing the best estimate provision to be made under ■ INSPRU 1.3.190 R (1) in respect of a *defined benefit occupational pension scheme*, a *firm* must use either its *defined benefit liability* or its *deficit reduction amount*, consistent with the *firm's* election under INSPRU 1.3.5BR(2).

1.4 Equalisation provisions

Application

1.4.1
PRA

R ■ INSPRU 1.4 applies to an *insurer* carrying on *general insurance business* unless it is:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

1.4.2
PRA

G The scope of ■ INSPRU 1.4.11 R to ■ INSPRU 1.4.37 G (non-credit equalisation provisions) is not restricted to *firms* subject to the relevant *EU* directives.

1.4.3
PRA

G The requirements of this section apply to a *firm* on a solo basis.

1.4.4
PRA

G This section sets out *rules* and *guidance* on the calculation of the amount of the *equalisation provisions* that are required to be maintained by *firms* that carry on non-credit *insurance business* or credit *insurance business*.

1.4.5
PRA

G *Credit* or *non-credit equalisation provisions* form part of the *technical provisions* that a *firm* is required to establish under ■ INSPRU 1.1.12 R (1). They help to smooth fluctuations in loss ratios in future years for business where *claims* in any future year may be subject to significant deviation from recent or average *claims* experience, or where trends in experience may be subject to change. Such volatile *claims* experience might arise in the case, for example, of insurance against losses caused by major catastrophes such as hurricanes or earthquakes.

1.4.6
PRA

G In general terms, ■ INSPRU 1.4 sets out *rules* and *guidance* as to:

- (1) the circumstances in which a *firm* is required to maintain *equalisation provisions*;
- (2) the methods to be used in calculating the amount of each provision;

(3) the geographical location of the business relevant to certain calculations for different types of *firm* - this is summarised in the Table in ■ INSPRU 1.4.7 G.

1.4.7
PRA

G

Table: Scope of *insurance business* to be included in calculations

Type Of Firm	Credit Equalisation Provision		Non Credit Equalisation Provision
	Threshold in IN-SPRU 1.4.4 G	Provision in IN-SPRU 1.4.43 R	Threshold in IN-SPRU 1.4.18 R (2) and provision in INSPRU 1.4.17 R
<i>UK insurer</i>	World-wide	World-wide	World-wide
<i>Pure reinsurer with head office outside United Kingdom</i>	UK	World-wide	UK
<i>Pure reinsurer with head office in United Kingdom</i>	World-wide	World-wide	World-wide
<i>Non-EEA direct insurers</i>	<i>EEA-deposit insurer</i> UK	UK	UK
	<i>Swiss general insurer</i> UK	UK	UK
	<i>UK-deposit insurer</i> All EEA	World-wide	UK
	All other non-EEA direct insurers UK	World-wide	UK

1.4.8
PRA

G

The *First Non-Life Directive* (as amended) and the *Reinsurance Directive* require the calculation of *credit equalisation provisions*. *Non-credit equalisation provisions* are a domestic *United Kingdom* requirement. For insurance regulatory purposes under *EU Directives*, *credit equalisation provisions* are classified as liabilities.

1.4.9
PRA

G

However, *firms* are permitted to include *equalisation provisions* within their financial resources when demonstrating compliance with non-Directive capital requirements. Hence *equalisation provisions* are deducted from the available *capital resources* of a *firm* for the purpose of meeting its *minimum capital requirement* for *general insurance business*; but, in the calculation of a *firm's enhanced capital requirement* for *general insurance business* under ■ INSPRU 1.1.72C R, its *equalisation provisions* (if any) are added back to its *capital resources*.

1.4.10
PRA

G

Under International Accounting Standards (IAS), which will apply to the financial statements of some *insurers* from 2005, there will be no requirement to treat *equalisation provisions* as liabilities in *insurers'* published financial statements. However, they will continue to be treated as liabilities for the purposes of demonstrating compliance with Directive capital requirements.

1.4.11
PRA

R

Non-credit equalisation provision

Firms carrying on non-credit insurance business

- (1) ■ INSPRU 1.4.11 R to ■ INSPRU 1.4.37 G apply to any *firm*, other than an *assessable mutual*, which carries on the business of *effecting or carrying out general insurance contracts* falling within any description in column 2 in Table ■ INSPRU 1.4.12 R ("*non-credit insurance business*").
- (2) A *firm* falling within (1) must classify all of its non-credit *insurance business* into separate *insurance business groupings*, as specified in Table ■ INSPRU 1.4.12 R.

1.4.12
PRA

R

Table : Groupings of non-credit *insurance business*

<i>Insurance Business Grouping</i>	<i>General Insurance Contracts</i>
<p>A</p> <p><i>Contracts of insurance which fall within general insurance business classes 4, 8 or 9, other than:</i></p> <ul style="list-style-type: none"> (a) <i>contracts of insurance under non-proportional reinsurance treaties; and</i> (b) <i>contracts of insurance against nuclear risks</i> 	
<p>B</p> <p><i>Contracts of insurance which fall within general insurance business class 16(a), other than:</i></p> <ul style="list-style-type: none"> (a) <i>contracts of insurance under non-proportional reinsurance treaties; and</i> (b) <i>contracts of insurance against nuclear risks</i> 	
<p>C</p> <p><i>Contracts of insurance which fall within general insurance business classes 5, 6, 11 or 12, other than:</i></p> <ul style="list-style-type: none"> (a) <i>contracts of insurance against nuclear risks; and</i> 	

<i>Insurance Business Grouping</i>	General Insurance Contracts
(b)	<i>reinsurance contracts corresponding to contracts in (a).</i>
D	<i>Contracts of insurance against nuclear risks.</i>
E	<i>Contracts of insurance under non-proportional reinsurance treaties and which fall within general insurance business classes 4, 8, 9 or 16(a) other than contracts of insurance against nuclear risks.</i>

1.4.13 PRA R For the purposes of ■ INSPRU 1.4.11 R to ■ INSPRU 1.4.37 G, a *firm* with its head office in the *United Kingdom* must take account of non-credit *insurance business* carried on by it world-wide.

1.4.14 PRA R For the purposes of ■ INSPRU 1.4.11 R to ■ INSPRU 1.4.37 G, a *firm* with its head office outside the *United Kingdom* need only take account of non-credit *insurance business* carried on by it from a *branch* in the *United Kingdom*.

1.4.15 PRA G The *insurers* affected by ■ INSPRU 1.4.11 R include pure reinsurers, UK-deposit insurers, EEA-deposit insurer, and Swiss general insurers.

1.4.16 PRA G For *insurers* (including *pure reinsurers*) with a head office in the *United Kingdom*, the calculations must be made in respect of world-wide business.

Requirement to maintain non-credit equalisation provision.....

1.4.17 PRA R In respect of each *financial year*, a *firm* must, unless ■ INSPRU 1.4.18 R applies:

- (1) calculate the amount of its *non-credit equalisation provision* as at the end of that year in accordance with ■ INSPRU 1.4.20 R; and
- (2) maintain a *non-credit equalisation provision* calculated in accordance with ■ INSPRU 1.4.20 R for the following *financial year*.

1.4.18 PRA R (1) ■ INSPRU 1.4.17 R does not apply to any *firm* in respect of any *financial year* if, as at the end of that year:

- (a) no *non-credit equalisation provision* has been brought forward from the preceding *financial year*; and
 - (b) the amount of the *annualised net written premiums* for all the non-credit *insurance business* carried on by it in the *financial year* is less than the threshold amount.
- (2) The threshold amount in respect of any *financial year* is the higher of:
- (a) 1,500,000 Euro; and
 - (b) 4% of *net written premiums* in that *financial year* in respect of all its *general insurance business*, if this amount is less than 2,500,000 Euro.

1.4.19

PRA

G

For *non-EEA insurers*, the calculation of the threshold amount in ■ INSPRU 1.4.18 R (2) is limited by ■ INSPRU 1.4.14 R to the business of the *firm* carried on in the *United Kingdom*. Such a *firm* may do little *UK non-credit insurance business*, and so would not be required to set up a *non-credit equalisation provision* under ■ INSPRU 1.4, but may do significant business outside the *United Kingdom* characterised by high-impact, low-frequency *claims*. Such a *firm* is required by ■ INSPRU 1.5.41 R to hold adequate world-wide financial resources to avoid internal-contagion strain on the *branch* in the *United Kingdom*. In determining the adequacy of its financial resources, the *firm* should undertake stress and scenario testing of its underwriting and other risks as set out in ■ GENPRU 1.2.

Calculating the amount of the provision

1.4.20

PRA

R

- (1) Unless ■ INSPRU 1.4.22 R applies, the amount of a *firm's non-credit equalisation provision* as at the end of a *financial year* is the higher of:
- (a) zero; and
 - (b) whichever is the lower of:
 - (i) the aggregate of the amounts of the maximum provision for each *insurance business grouping* as at the end of that *financial year*; and
 - (ii) the sum of A and B.
- (2) For the purposes of (1)(b)(ii):
- (a) A is the amount of the *non-credit equalisation provision*, if any, brought forward from the *financial year* immediately preceding that in respect of which the calculation is being performed; and
 - (b) B is:

- (i) the aggregate of the amounts of the provisional transfers-in for each *insurance business grouping*; minus
- (ii) the aggregate of the amounts of the provisional transfers-out for each *insurance business grouping*.

(3) For any *insurance business grouping*:

- (a) the amount of the maximum provision in (1)(b)(i) is to be determined in accordance with ■ INSPRU 1.4.24 R;
- (b) the amount of the provisional transfers-in in (2)(b)(i) is to be determined in accordance with ■ INSPRU 1.4.26 R; and
- (c) the amount of the provisional transfers-out in (2)(b)(ii) is to be determined in accordance with ■ INSPRU 1.4.29 R.

1.4.21

PRA

G

If provisional transfers-out are in excess of provisional transfers-in, the *non-credit equalisation provision* as calculated in accordance with ■ INSPRU 1.4.20 R in respect of a particular *financial year* may be less than that calculated for the preceding *financial year* although, by virtue of ■ INSPRU 1.4.20 R (1)(a), it cannot be negative.

1.4.22

PRA

R

- (1) The amount of a *firm's non-credit equalisation provision* as at the end of a *financial year* is zero if:
 - (a) as at the end of that year, the *firm* meets either of the conditions specified in (2) and (3); and
 - (b) the *annualised net written premiums* for all the non-credit *insurance business* carried on by the *firm* in that year are less than the threshold amount.
- (2) The first condition is that the *firm* carried on non-credit *insurance business* in the first *financial year* of the relevant period and, for each of any two or more *financial years* of that period, the *annualised net written premiums* for business of that description were less than the threshold amount.
- (3) The second condition is that the *firm* did not carry on non-credit *insurance business* in the first *financial year* of the relevant period and the average of the *annualised net written premiums* for business of that description carried on by the *firm* in each *financial year* of the relevant period was less than the threshold amount.
- (4) For the purposes of this *rule*:
 - (a) the threshold amount is the amount determined in accordance with ■ INSPRU 1.4.18 R (2); and
 - (b) the relevant period is the period of four *financial years* ending immediately before the beginning of the *financial year* in (1).

1.4.23
PRA

G

If ■ INSPRU 1.4.22 R applies, a *firm* may need to make sufficient transfers from its *non-credit equalisation provision* to bring the *non-credit equalisation provision* for that *financial year* to zero.

The calculation: the maximum provision

1.4.24
PRA

R

- (1) For the purposes of the calculation required by ■ INSPRU 1.4.20 R, the amount of the maximum provision for any *insurance business grouping* is to be determined in accordance with (2) to (5).
- (2) Unless (4) applies, the amount of the maximum provision for the grouping, as at the end of a *financial year*, is the amount determined by multiplying X and Y.
- (3) For the purposes of (2):
 - (a) X is the percentage specified in Table ■ INSPRU 1.4.25 R in relation to the grouping; and
 - (b) Y is the average of the amount of the *annualised net written premiums* for non-credit *insurance business* in the grouping carried on by the *firm* in each *financial year* of the relevant period.
- (4) Where Y is a negative amount, the maximum provision for that *insurance business grouping* is zero.
- (5) For the purposes of (3)(b), the relevant period is the five-year period comprising:
 - (a) the *financial year* in (2); and
 - (b) the previous four *financial years*.

1.4.28
PRA

G

Since each *insurance business grouping* should be assessed individually, negative *net written premiums* in relation to any *insurance business grouping* should be transferred in to the *non-credit equalisation provision*.

The calculation: provisional transfers-out

1.4.29
PRA

R

- (1) For the purposes of the calculation required by ■ INSPRU 1.4.20 R, the amount of the provisional transfers-out for any *insurance business grouping* is to be determined in accordance with (2).
- (2) The amount of the provisional transfers-out for the grouping, as at the end of a *financial year*, is the lower of:
 - (a) the amount of the maximum provision for the grouping under ■ INSPRU 1.4.24 R for that *financial year*; and
 - (b) the abnormal loss for the grouping under ■ INSPRU 1.4.30 R for that *financial year*.

1.4.30

PRA

R For each *insurance business grouping*, the abnormal loss as at the end of a *financial year* in relation to which an *equalisation provision* is calculated is:

- (1) (for business within the *insurance business grouping* accounted for on an accident year basis) the amount, if any, by which the amount of net *claims* incurred exceeds the greater of:
 - (a) zero; and
 - (b) the percentage of *net earned premiums* in that *financial year* specified in the Table in ■ **INSPRU 1.4.31 R**; or

- (2) (for business within the *insurance business grouping* accounted for on an underwriting year basis) the amount, if any, by which the amount of net *claims* paid (plus adjustment for change in net *technical provisions*, other than any change in provisions for *claims* handling expenses or equalisation) exceeds the greater of:
 - (a) zero; and
 - (b) the percentage of *net written premiums* in that *financial year* specified in the Table in ■ **INSPRU 1.4.31 R**.

Adjustments to calculations

1.4.32

PRA

R Transfers of business from the firm

- (1) This *rule* applies to modify the application of ■ **INSPRU 1.4.24 R** and ■ **INSPRU 1.4.26 R** in any case where a *firm* has transferred to another *undertaking* any rights and obligations under *general insurance contracts* falling within any *insurance business grouping*.

- (2) As at the end of the *financial year* in which the transfer takes place, *net written premiums* in respect of the transferred contracts in any grouping must be deducted from total *net written premiums* for that grouping before calculating the

maximum provision under ■ INSPRU 1.4.24 R or provisional transfers-in under ■ INSPRU 1.4.26 R.

1.4.33
PRA

R If all the rights and obligations of a *firm* in relation to non-credit *insurance business* in any *insurance business grouping* have been transferred, the maximum provision for the grouping under ■ INSPRU 1.4.24 R is zero.

Transfers of business to the firm

1.4.34
PRA

R (1) This *rule* applies to modify the application of ■ INSPRU 1.4.24 R, ■ INSPRU 1.4.26 R and ■ INSPRU 1.4.29 R in any case where another *undertaking* has transferred to a *firm* any rights and obligations under *general insurance contracts* falling within any *insurance business grouping*.

(2) As at the end of the *financial year* in which the transfer takes place a sum equal to that part of the consideration for the transfer that relates to business in an *insurance business grouping* must be:

- (a) excluded from *net written premiums* before performing the calculations required by ■ INSPRU 1.4.24 R (maximum provision) and ■ INSPRU 1.4.26 R (provisional transfers in);
- (b) included in *net premiums* (written or earned) before performing the calculation required by ■ INSPRU 1.4.30 R (abnormal loss); and
- (c) excluded from *net claims* (paid or incurred) before performing the calculation required by ■ INSPRU 1.4.30 R (abnormal loss).

1.4.35
PRA

G For the purposes of ■ INSPRU 1.4.34 R, the consideration payable should be apportioned between *insurance business groupings* according to the groupings within which the *general insurance contracts* which are the subject of the acquisition fall. In appropriate cases, apportionment may reflect the split of liabilities acquired, including *unearned premium*.

1.4.36
PRA

G Where business is accounted for on an accounting year basis, in any year following the transfer, *net earned premiums* must include an appropriate amount in respect of the transfer.

1.4.37
PRA

G ■ INSPRU 1.4.32 R to ■ INSPRU 1.4.34 R apply to transfers by way of transfer under Part VII of the *Act* and by novation.

Credit equalisation provisions

1.4.38
PRA

R Firms carrying on credit insurance business

■ INSPRU 1.4.39 R to ■ INSPRU 1.4.47 G apply to any *firm* which carries on the business of *effecting* or *carrying out general insurance contracts* falling within *general insurance business class 14* (which business is referred to in ■ INSPRU 1.4 as "*credit insurance business*"), unless it is:

- (1) a *non-directive insurer*; or
- (2) a *pure reinsurer* which became a *firm in run-off* before 31 December 2006 and whose *Part 4A permission* has not subsequently been varied to add back the *regulated activity of effecting contracts of insurance*.

1.4.39
PRA

R For the purposes of ■ INSPRU 1.4.43 R and ■ INSPRU 1.4.44 R, a *firm* whose head office is in the *United Kingdom* must take account of the credit *insurance business* carried on by it world-wide.

1.4.40
PRA

- R**
- (1) For the purposes of ■ INSPRU 1.4.43 R:
 - (a) a *Swiss general insurer* or an *EEA-deposit insurer* must take account of the credit *insurance business* carried on by it in the *United Kingdom*; and
 - (b) any other *firm* whose head office is outside the *United Kingdom* (including a *UK-deposit insurer*) must take account of the credit *insurance business* carried on by it world-wide.

- (2) For the purposes of ■ INSPRU 1.4.44 R:
 - (a) a *UK-deposit insurer* need only take account of the credit *insurance business* carried on by it in all *EEA States*, taken together; and
 - (b) any other *firm* whose head office is outside the *United Kingdom* (including an *EEA-deposit insurer* and a *Swiss general insurer*) need only take account of the credit *insurance business* carried on by it in the *United Kingdom*.

1.4.41
PRA

G For *firms* whose head office is in the *United Kingdom* both calculations must be made in respect of world-wide business.

1.4.42
PRA

G The requirements of ■ INSPRU 1.4.39 R and ■ INSPRU 1.4.40 R are summarised in the table in ■ INSPRU 1.4.7 G.

Requirement to maintain credit equalisation provision

1.4.43
PRA

R In respect of each *financial year*, a *firm* must, unless ■ INSPRU 1.4.44 R applies:

- (1) calculate the amount of its *credit equalisation provision* as at the end of that year in accordance with ■ INSPRU 1.4.45 R; and
- (2) maintain a *credit equalisation provision* calculated in accordance with ■ INSPRU 1.4.45 R for the following *financial year*.

1.4.44

PRA

R

■ INSPRU 1.4.43 R does not apply to a *firm* in respect of any *financial year* if, as at the end of that year, the *annualised net written premiums* for its credit *insurance business* are less than 4% of annualised *net written premiums* in that *financial year* in respect of all its *general insurance business*, if this amount is less than 2,500,000 Euro.

Calculating the amount of the provision

1.4.45

PRA

R

(1) The amount of a *firm's credit equalisation provision* as at the end of a *financial year* ("*financial year A*") is the higher of:

(a) zero; and

(b) whichever is the lower of:

(i) 150% of the highest amount of *net written premiums* for credit *insurance business* carried on by the *firm* in *financial year A* or in any of the previous four *financial years*; and

(ii) the amount of the *credit equalisation provision* brought forward from the preceding *financial year*, after making either of the adjustments in (2).

(2) The adjustments are:

(a) the deduction of the amount of any technical deficit arising in *financial year A*; or

(b) the addition of the lower of:

(i) 75% of the amount of any technical surplus arising in *financial year A*; and

(ii) 12% of the amount of the *net written premiums* for credit *insurance business* carried on by the *firm* in *financial year A*.

(3) For the purposes of (2) the amount of technical deficit or technical surplus is to be determined in accordance with ■ INSPRU 1.4.46 R.

1.4.46

PRA

R

For the purposes of the adjustments in ■ INSPRU 1.4.45 R (2), technical surplus (or technical deficit) in respect of credit *insurance business* is the amount by which the aggregate of *net earned premiums* and other technical income exceeds (or falls short of) the sum of net *claims* incurred, *claims management costs* and any technical charges.

PAGE
109

1.4.47

PRA

G

The calculation of technical surplus or technical deficit should be made before tax and before any transfer to or from the *credit equalisation provision*. Investment income should not be included in these calculations.

1.4.48
PRA

R

Euro conversion

For the purposes of ■ INSPRU 1.4, the exchange rate from the Euro to the pound sterling for each year beginning on 31 December is the rate applicable on the last day of the preceding October for which the exchange rates for the currencies of all the European Union member states were published in the Official Journal of the European Union.

1.4.49
PRA

R

Application of INSPRU 1.4 to Lloyd's

■ INSPRU 1.4 applies to the *Society* in accordance with ■ INSPRU 8.1.2 R:

- (1) with the modification set out in ■ INSPRU 1.4.50 R; and
- (2) except ■ INSPRU 1.4.11 R to ■ INSPRU 1.4.37 G.

1.4.50
PRA

R

The *Society* must calculate a *credit equalisation provision* for the aggregate *insurance business* of all *members*; it is not required to calculate a *credit equalisation provision* separately for the business of each *member*.

1.4.51
PRA

R

The *Society* must allocate the result of ■ INSPRU 1.4.50 R between itself and each of the *members* on a fair and reasonable basis.

1.5 Internal-contagion risk

Application

1.5.1

FCA PRA

R

■ INSPRU 1.5 applies to an *insurer*.

1.5.2

PRA

R

■ INSPRU 1.5 does not apply, to the extent stated, to any *insurer* in (1) to (4):

- (1) none of the provisions apply to *non-directive friendly societies*;
- (2) none of the provisions apply to *firms* which qualify for authorisation under Schedule 3 or 4 of the *Act*;
- (3) [deleted]
- (4) ■ INSPRU 1.5.41 R to ■ INSPRU 1.5.57 R (*UK branches of certain non-EEA insurers*) do not apply to:
 - (a) *UK insurers*; or
 - (b) *non-EEA insurers* whose *insurance business* in the *United Kingdom* is restricted to *reinsurance*; or
 - (c) *EEA-deposit insurers*; or
 - (d) *Swiss general insurers*.

1.5.2A

FCA

R

■ INSPRU 1.5 does not apply, to the extent stated, to any *insurer* in ■ (1) to ■ (3):

- (1) none of the provisions apply to *non-directive friendly societies*;
- (2) none of the provisions, apart from ■ INSPRU 1.5.33 R (payment of financial penalties) apply to *firms* which qualify for authorisation under Schedule 3 or 4 of the *Act*;
- (3) ■ INSPRU 1.5.33 R (payment of financial penalties) does not apply to *mutuals*.

<p>1.5.3 FCA PRA</p>	<p>G</p>	<p>The scope of application of ■ INSPRU 1.5 is not restricted to <i>firms</i> that are subject to the relevant <i>EU</i> directives.</p>
<p>1.5.4 FCA PRA</p>	<p>R</p>	<p>In its application to a <i>firm</i> with its head office in the <i>United Kingdom</i>, this section applies to the whole of the <i>firm's</i> business carried on world-wide.</p>
<p>1.5.5 PRA</p>	<p>R</p>	<p>In the application of this section to activities carried on by a <i>non-EEA insurer</i>:</p> <ul style="list-style-type: none"> (1) ■ INSPRU 1.5.13 R to ■ INSPRU 1.5.15 G and ■ INSPRU 1.5.41 R apply in relation to the whole of its business carried on world-wide; (2) all other provisions of this section apply only in relation to: <ul style="list-style-type: none"> (a) in the case of any <i>UK-deposit insurer</i>, activities carried on from <i>branches</i> in any <i>EEA State</i>; and (b) in any other case, activities carried on from a <i>branch</i> in the <i>United Kingdom</i>.
<p>1.5.5A FCA</p>	<p>R</p>	<p>In the application of this section to activities carried on by a <i>non-EEA insurer</i>:</p> <ul style="list-style-type: none"> (1) ■ INSPRU 1.5.13 R to ■ INSPRU 1.5.13B G apply in relation to the whole of its business carried on world-wide; (2) all other provisions of this section apply only in relation to: <ul style="list-style-type: none"> (a) in the case of any <i>UK-deposit insurer</i>, activities carried on from <i>branches</i> in any <i>EEA State</i>; and (b) in any other case, activities carried on from a <i>branch</i> in the <i>United Kingdom</i>.
<p>1.5.6 PRA</p>	<p>G</p>	<p>The adequacy of a <i>firm's</i> financial resources needs to be assessed in relation to all the activities of the <i>firm</i> and the risks to which they give rise.</p>
<p>1.5.7 FCA PRA</p>	<p>G</p>	<p>The requirements of this section apply to a <i>firm</i> on a solo basis.</p>
<p>1.5.8 FCA PRA</p>	<p>G</p>	<p>Purpose</p> <p>This section sets out requirements for a <i>firm</i> relating to 'internal-contagion risk'. This is the risk that losses or liabilities from one activity might deplete or divert financial resources held to meet liabilities from another activity. It arises where the two activities are carried on within the same <i>firm</i>. It may also arise from the combination of activities within the same <i>group</i>, but this aspect of internal-contagion risk falls outside the scope of this section. Requirements relevant to <i>group</i> contagion risk are set out in ■ INSPRU 6.</p>

1.5.9 FCA PRA G Internal-contagion risk includes in particular the risk that arises where a *firm* carries on:

- (1) both insurance and non-insurance activities; or
- (2) two or more different types of insurance activity; or
- (3) insurance activities from offices or *branches* located in both the *United Kingdom* and overseas.

1.5.10 FCA PRA G This section requires *firms* other than *pure reinsurers* to limit non-insurance activities to those that directly arise from their *insurance business*, e.g. investing assets, employing insurance staff etc. It also requires that an adequate provision be established for non-insurance liabilities. *pure reinsurers* must limit their activities to the business of *reinsurance* and related operations.

1.5.11 FCA PRA G This section also sets out requirements for the separation of different types of insurance activity. However, in most circumstances the combination of different types of insurance activity within the same *firm* is a source of strength. Adequate pooling and diversification of insurance risk is fundamental to sound business practice. The requirements, therefore, only apply in two specific cases where without adequate protection the combination might operate to the detriment of *policyholders*. They apply where a *firm* carries on both:

- (1) *general insurance business* and *long-term insurance business*;
- (2) linked and non-linked *insurance business*.

1.5.12 FCA PRA G Finally, the section sets out requirements to protect *policyholders* of *branches* of non-EEA *firms* where these are supervised by the *appropriate regulator*. These apply only to a non-EEA *firm* that has established a *branch* in the *United Kingdom*.

Requirements: Non-insurance activities

Restriction of business

1.5.13 FCA PRA R (1) A *firm* other than a *pure reinsurer* must not carry on any commercial business other than *insurance business* and activities directly arising from that business.

(2) (1) does not prevent a *friendly society* which was on 15 March 1979 carrying on *long-term insurance business* from continuing to carry on savings business.

1.5.13A FCA PRA R A *pure reinsurer* must not carry on any business other than the business of *reinsurance* and related operations.

1.5.13B FCA PRA G In ■ INSPRU 1.5.13A R related operations include, for example, activities such as provision of statistical or actuarial advice, risk analysis or research for its clients. It may also include a *holding company* function and activities with respect to financial sector activities within the meaning of Article 2, point 8, of the *Financial Groups Directive*. But it does not allow the carrying on of, for example, unrelated banking and financial activities.

1.5.14
PRA

R

Financial limitation of non-insurance activities

A *firm* must limit, manage and control its non-insurance activities so that there is no significant risk arising from those activities that it may be unable to meet its liabilities as they fall due.

1.5.15
PRA

G

For the purpose of ■ INSPRU 1.5.14 R a *firm* should consider how the financial impact of non-insurance activities might diverge from expectations. However, it need only take into account unexpected variations in amount and timing in so far as they are reasonably possible and may take into account effective mitigating factors.

Requirements: long-term insurance business

1.5.16
FCA PRA

G

■ INSPRU 1.5.18 R, ■ INSPRU 1.5.21 R, ■ INSPRU 1.5.30 R and ■ INSPRU 1.5.31 R require a *firm* to identify the assets attributable to the receipts of the *long-term insurance business*, called *long-term insurance assets*, and only to apply those assets for the purpose of that business. This has the effect of prohibiting a *composite firm* from using *long-term insurance assets* to meet *general insurance liabilities*. It also keeps *long-term insurance assets* separate from shareholder funds.

Permissions not to include both types of insurance

1.5.17
FCA PRA

G

- (1) Under section 19 of the *Act*, a *firm* may not carry on a *regulated activity* unless it has *permission* to do so (or is exempt in relation to the particular activity). Both *general insurance business* and *long-term insurance business* are *regulated activities* and *permission* will extend to the *effecting* or *carrying out* of one or more particular *classes of contracts of insurance*.
- (2) A *firm's permission* can be varied so as to add other *classes*. The *permission* of an existing *composite firm* may be varied by adding *classes* of both *general insurance business* and *long-term insurance business*.
- (3) It is the policy of the *appropriate regulator*, in compliance with *EU* directives on insurance, not to grant or vary *permission* if that would allow a newly established *firm*, or an existing *firm* engaging solely in *general insurance business* or solely in *long-term insurance business*, to engage in both *general insurance business* and *long-term insurance business*. This does not apply where a *firm's permission* to carry on *long-term insurance business* is or is to be restricted to *reinsurance*. It also does not apply where a *firm's permission* to carry on *general insurance business* is or is to be restricted to *effecting* or *carrying out* *accident* or *sickness contracts of insurance* (see article 18(2) of the *Consolidated Life Directive*).
- (4) Where a *firm's permission* extends to *effecting* or *carrying out* *life and annuity contracts of insurance* this will normally include *permission* to *effect* or *carry out* *accident contracts of insurance* or *sickness contracts of insurance* on a supplementary basis (see article 2(1)(c) of the *Consolidated Life Directive*).

Separately identify and maintain long term insurance assets

1.5.18

FCA PRA

R

A firm carrying on long-term insurance business must identify the assets relating to its long-term insurance business which it is required to hold by virtue of :

- (1) in the case of a pure reinsurer:
 - (a) ■ INSPRU 1.1.20 R or ■ INSPRU 1.1.21 R; and
 - (b) ■ INSPRU 3.1.61A R; and
- (2) in any other case:
 - (a) ■ INSPRU 1.1.20 R or ■ INSPRU 1.1.21 R; and
 - (b) ■ INSPRU 3.1.57 R and ■ INSPRU 3.1.58 R.

1.5.19

FCA PRA

G

- (1) ■ INSPRU 1.1.16 R requires a firm to establish adequate technical provisions for its long-term insurance contracts. ■ INSPRU 1.1.20 R requires a firm which is not a composite firm to hold admissible assets of a value at least equal to the amount of the technical provisions and its other long-term insurance liabilities. ■ INSPRU 1.1.21 R ensures that a composite firm identifies separate admissible assets with a value at least equal to the technical provisions for long-term insurance business and its other long-term insurance liabilities as well as holding other admissible assets of a value at least equal to the amount of its technical provisions for general insurance business and its other general insurance liabilities.
- (2) In the case of a firm carrying on long-term insurance business which is not a pure reinsurer, there are excluded from the scope of ■ INSPRU 1.1.20 R and ■ INSPRU 1.1.21 R property-linked liabilities and index-linked liabilities and the assets held to cover them under ■ INSPRU 3.1.57 R and ■ INSPRU 3.1.58 R. The latter two rules do not apply to a pure reinsurer (see ■ INSPRU 3.1.58A R). However, a pure reinsurer is required by ■ INSPRU 3.1.61A R to invest all its assets in accordance with the requirements of that rule.
- (3) The overall impact of these provisions in ■ INSPRU 1.1 and ■ INSPRU 3.1, when read together with ■ INSPRU 1.5.18 R, is that any firm writing long-term insurance business must identify separately assets of a value at least equal to the amount of its long-term insurance business technical provisions, including those in respect of any property-linked liabilities or index-linked liabilities, and its other long-term insurance liabilities.

1.5.20

FCA PRA

G

■ INSPRU 1.5.18 R does not prohibit a firm from identifying other assets as being available to meet the liabilities of its long-term insurance business. It may transfer such other assets to a long-term insurance fund (see ■ INSPRU 1.5.21 R and ■ INSPRU 1.5.22 R) and the transfer will take effect when it is recorded in the firm's accounting records (see ■ INSPRU 1.5.23 R). After the transfer takes effect, a firm may not transfer the assets out of a long-term insurance fund except where they represent an established surplus (see ■ INSPRU 1.5.27 R).

1.5.21

FCA PRA

R

- (1) A *firm's* long-term insurance assets are the items in (2), adjusted to take account of:
 - (a) outgo in respect of the *firm's long-term insurance business*; and
 - (b) any transfers made in accordance with ■ INSPRU 1.5.27 R.
- (2) The items are:
 - (a) the assets identified under ■ INSPRU 1.5.18 R (including assets into which those assets have been converted) but excluding any assets identified as being held to cover liabilities in respect of subordinated debt;
 - (b) any other assets identified by the *firm* as being available to cover its *long-term insurance liabilities* (including assets into which those assets have been converted) including, if the *firm* so elects, assets which are excluded under (a) ;
 - (c) *premiums* and other receivables in respect of *long-term insurance contracts*;
 - (d) other receipts of the *long-term insurance business*; and
 - (e) all income and capital receipts in respect of the items in (2).

1.5.22

FCA PRA

R

- (1) Unless (2) applies, all the *long-term insurance assets* of the *firm* constitute its long-term insurance fund.
- (2) Where a *firm* identifies particular *long-term insurance assets* in connection with different parts of its *long-term insurance business*, the assets identified in relation to each such part constitute separate long-term insurance funds of the *firm*.

1.5.23

FCA PRA

R

A *firm* must maintain a separate accounting record in respect of each of its *long-term insurance funds* (including any *with-profits fund*).

1.5.24

FCA PRA

G

Firms must ensure that *long-term insurance assets* are separately identified and allocated to a *long-term insurance fund* at all times. Assets in external accounts, for example at banks, custodians, or brokers should be segregated in the *firm's* books and records into separate accounts for *long-term insurance business* and *general insurance business*. Where a *firm* has more than one *long-term insurance fund*, a separate accounting record must be maintained for each fund. Accounting records should clearly document the allocation.

1.5.25

FCA PRA

G

Where the surplus arising from business is shared between *policyholders* and shareholders in different ways for different blocks of business, it may be necessary to maintain a separate fund to ensure that *policyholders* are, and will be, treated fairly. For example, if a proprietary company writes some business on a with-profits basis, this should be written in a *with-profits fund* separate from any business where the surplus arising from that business is wholly owned by shareholders.

1.5.26 FCA PRA G Where a *firm* merges separate funds for different types of business, it will need to ensure that the merger will not result in *policyholders* being treated unfairly. When considering merging the funds, the *firm* should consider the impact on its *PPFM* (see ■ COBS 20.3) and on its obligations to notify the *appropriate regulator* (see ■ SUP 15.3). In particular, a *firm* would need to consider how any *inherited estate* would be managed and how the fund would be run in future, such that *policyholders* are treated fairly.

1.5.27 FCA PRA R A *firm* may not transfer assets out of a *long-term insurance fund* unless:

- (1) the assets represent an *established surplus*; and
- (2) no more than three months have passed since the determination of that surplus.

1.5.28 FCA PRA G As a result of ■ INSPRU 1.5.27 R (2), an *actuarial investigation* undertaken to determine an *established surplus* remains in-date for three months from the date as at which the determination of the surplus was made. However, even where the investigation is still in-date, the *firm* should not make the transfer unless there is sufficient surplus at the time of the transfer to allow it to be made without breach of ■ INSPRU 1.1.20 R or ■ INSPRU 1.1.21 R of the *PRA Handbook* .

1.5.29 FCA PRA G ■ INSPRU 1.1.27 R and ■ INSPRU 1.1.28 R provide further constraints on the transfer of assets out of a *with-profits fund*. ■ INSPRU 1.1.27 R requires a *firm* to have *admissible assets* in each of its *with-profits funds* to cover the *technical provisions* and other *long-term insurance liabilities* relating to all the business in that fund. ■ INSPRU 1.1.28 R requires a *realistic basis life firm* to ensure that the *realistic value of assets* for each of its *with-profits funds* is at least equal to the *realistic value of liabilities* of that fund.

Exclusive use of long-term insurance assets

1.5.30 FCA PRA R

- (1) A *firm* must apply a *long-term insurance asset* only for the purposes of its *long-term insurance business*.
- (2) For the purpose of (1), applying an asset includes coming under any obligation (even if only contingently) to apply that asset.

1.5.31 FCA PRA R A *firm* must not agree to, or allow, any mortgage or charge on its *long-term insurance assets* other than in respect of a *long-term insurance liability*.

1.5.32 FCA PRA G The purposes of the *long-term insurance business* include the payment of *claims*, expenses and liabilities arising from that business, the acquisition of lawful access to fixed assets to be used in that business and the investment of assets. The payment of liabilities may include repaying a loan but only where that loan was incurred for the purpose of the *long-term insurance business*. The purchase or investment of assets may include an exchange at fair *market value* of assets (including *money*) between the *long-term insurance fund* and other assets of the *firm*. A *firm* may also lend *securities* held in a *long-term insurance fund* under a *stock lending* transaction or transfer assets as *collateral* for a *stock lending* transaction where the *firm* is the borrower, where such lending or transfer is for the benefit of the *long-term insurance business*.

1.5.33
FCA PRA

R

Payment of financial penalties

If the *FCA* or *PRA* imposes a financial penalty on a *long-term insurer*, the *firm* must not pay that financial penalty from a *long-term insurance fund*.

1.5.34
FCA

G

■ INSPRU 1.5.2A R states that this provision applies to all *firms*, except *mutuals*, and includes *firms* qualifying for authorisation under Schedule 3 or 4 to the *Act*.

Requirements: property-linked funds

1.5.35
FCA PRA

G

■ INSPRU 3.1.57 R requires a *firm* to cover, as closely as possible, its *property-linked liabilities* by the property to which those liabilities are linked. In order to comply with this *rule*, a *firm* should identify the assets it holds to cover *property-linked liabilities* and should not apply those assets (as long as they are needed to cover the *property-linked liabilities*) for any purpose other than to meet those liabilities.

1.5.36
FCA

R

A *firm* must select, allocate and manage the assets to which its *property-linked liabilities* are linked taking into account:

- (1) the *firm's* contractual obligations to holders of *property-linked policies*; and
- (2) its regulatory duty to treat *customers* fairly, including in the way it makes discretionary decisions as to how it selects, allocates and manages assets.

1.5.37
FCA

G

Property-linked liabilities may be linked either to specified assets (with no contractual discretion given to the *firm* as to the choice of assets) or to assets of a specified kind where the selection of the actual assets is left to the *firm*.

Requirements: UK branches of certain non-EEA firms

1.5.38
PRA

G

The purpose of the *rules* and *guidance* set out in ■ INSPRU 1.5.38 G to ■ INSPRU 1.5.57 R is to protect against the risk that the financial resources required in respect of the activities of the *United Kingdom* (or *EEA*) *branch(es)* might be depleted by the other activities of the *non-EEA direct insurer*.

1.5.39
PRA

G

By virtue of ■ INSPRU 1.5.2 R (4), the *rules* in ■ INSPRU 1.5.41 R to ■ INSPRU 1.5.57 R apply to *non-EEA direct insurers* except for *Swiss general insurers* and *EEA-deposit insurers*. Responsibility for determining the adequacy of the world-wide financial resources of *Swiss general insurers* or *EEA-deposit insurers* rests exclusively with the Swiss authorities or the authorities in the *EEA State* (other than the *United Kingdom*) in which the deposit was made.

1.5.40
PRA

G

- (1) ■ INSPRU 1.5.41 R requires a *non-EEA direct insurer* to hold adequate world-wide resources to meet the needs of the world-wide business without the need to rely on *UK* or *EEA branch* assets other than to meet *branch liabilities*.

- (2) ■ INSPRU 1.5.42 R to ■ INSPRU 1.5.47 R require *non-EEA direct insurers* to calculate a local *MCR* and to hold assets representing that requirement in the *EEA* or the *United Kingdom*.
- (3) ■ INSPRU 1.5.48 R to ■ INSPRU 1.5.52 R require *non-EEA direct insurers* to hold a minimum level of assets in the *United Kingdom* or *EEA*.
- (4) ■ INSPRU 1.5.54 R requires the deposit of a minimum level of assets in the *United Kingdom*.
- (5) ■ INSPRU 1.5.56 R and ■ INSPRU 1.5.57 R require *non-EEA direct insurers* to keep adequate accounting records in the *United Kingdom*.

Worldwide financial resources

1.5.41
PRA

R

- (1) A *non-EEA direct insurer* must maintain adequate worldwide financial resources, to ensure that there is no significant risk that its liabilities cannot be met as they fall due.
- (2) For the purpose of (1):
 - (a) a *UK-deposit insurer* must not rely upon the assets held under ■ INSPRU 1.1.20 R as available to meet liabilities other than those arising from the activities of its *branches* in *EEA States*;
 - (b) other *non-EEA direct insurers* to whom (1) applies must not rely upon the assets held under ■ INSPRU 1.1.20 R as available to meet liabilities other than those arising from the activities of any *UK branch*.

UK or EEA MCR to be covered by admissible assets

1.5.42
PRA

R

A *non-EEA direct insurer* must:

- (1) calculate a *UK* or *EEA MCR* in accordance with ■ INSPRU 1.5.44 R to ■ INSPRU 1.5.47 R; and
- (2) hold *admissible assets* (in addition to those required under ■ INSPRU 1.1.20 R) to represent its *UK* or *EEA MCR* calculated under (1).

1.5.43
PRA

R

The assets held under ■ INSPRU 1.5.42 R (2) must be identified and valued as if the *non-EEA direct insurer* was a *firm* with its head office in the *United Kingdom*.

PAGE 119
1.5.44
PRA

R

For the purposes of ■ INSPRU 1.5.42 R, a *non-EEA direct insurer* (except a *UK-deposit insurer*) must calculate a *UK MCR*:

- (1) for *long-term insurance business*, in accordance with ■ GENPRU 2.1.36 R but only in relation to business carried on by the *firm* in the *United Kingdom*;

1.5.45
PRA

R For a *composite firm*, the UK MCR is the sum of the amounts arrived at under ■ INSPRU 1.5.44 R (1) and ■ INSPRU 1.5.44 R (2).

1.5.46
PRA

R For the purposes of ■ INSPRU 1.5.42 R, a *UK-deposit insurer* must calculate an *EEA MCR*:

- (1) for *long-term insurance business*, in accordance with ■ GENPRU 2.1.36 R but only in relation to business carried on by the *firm* in all *EEA States*, taken together;
- (2) for *general insurance business*, in accordance with ■ GENPRU 2.1.34 R but only in relation to business carried on by the *firm* in all *EEA States*, taken together.

1.5.47
PRA

R For a *composite firm*, the *EEA MCR* is the sum of the amounts arrived at under ■ INSPRU 1.5.46 R (1) and ■ INSPRU 1.5.46 R (2).

Localisation of assets

1.5.48
PRA

R A *non-EEA direct insurer* (except a *UK-deposit insurer*) must hold:

- (1) *admissible assets* which are required to cover its *technical provisions* in accordance with ■ INSPRU 1.1.20 R (1) or ■ INSPRU 1.1.21 R (1)(a) and (2)(a); and
- (2) other *admissible assets* not required to cover *property-linked liabilities* or *index-linked liabilities* in accordance with ■ INSPRU 3.1.57 R or ■ INSPRU 3.1.58 R which represent its *UK MCR* as calculated in accordance with ■ INSPRU 1.5.44 R;

as follows:

- (a) (where the assets cover the *technical provisions* and the *guarantee fund*) in the *United Kingdom*;
- (b) (where the assets represent the amount of the *UK MCR* in excess of the *guarantee fund*) in any *EEA State*.

1.5.49
PRA

R A *UK-deposit insurer* must hold:

- (1) *admissible assets* which are required to cover its *technical provisions* in accordance with ■ INSPRU 1.1.20 R (1) or ■ INSPRU 1.1.21 R (1)(a) and ■ INSPRU 1.1.21 R (2)(a); and
- (2) other *admissible assets* not required to cover *property-linked liabilities* or *index-linked liabilities* in accordance with

■ INSPRU 3.1.57 R or ■ INSPRU 3.1.58 R which represent its *EEA MCR* as calculated in accordance with ■ INSPRU 1.5.46 R;

as follows:

- (a) (where the assets cover the *technical provisions* and the *guarantee fund*) within the *EEA* states where the *firm* carries on *insurance business*;
- (b) (where the assets represent the amount of the *EEA MCR* in excess of the *guarantee fund*) in any *EEA State*.

1.5.50
PRA

R ■ INSPRU 1.5.48 R and ■ INSPRU 1.5.49 R do not apply to assets covering *technical provisions* which are debts owed by *reinsurers*.

1.5.51
PRA

G The *admissible assets* in excess of the *technical provisions* and *UK* or *EEA MCR* may be held outside the *EEA*.

1.5.52
PRA

R For the purpose of ■ INSPRU 1.5.48 R and ■ INSPRU 1.5.49 R:

- (1) a *tangible asset* is to be treated as held in the country or territory where it is situated;
- (2) an *admissible asset* consisting of a claim against a debtor is to be regarded as held in any country or territory where it can be enforced by legal action;
- (3) a *security* which is *listed* is to be treated as held in any country or territory where there is a *regulated market* in which the security is dealt; and
- (4) a *security* which is not *listed* is to be treated as held in the country or territory in which the *issuer* has its head office.

1.5.53
PRA

G ■ INSPRU 3.1.53 R to INSPRU 3.1.55R (currency matching of assets and liabilities) apply to the assets held to match insurance liabilities calculated under ■ INSPRU 1.1.12 R or ■ INSPRU 1.1.16 R.

Deposit of assets as security

1.5.54
PRA

R A *non-EEA direct insurer* must keep assets of a value at least equal to one quarter of the *base capital resources requirement* on deposit in the *United Kingdom* with a *BCD credit institution*.

PAGE
121

1.5.55
PRA

G The assets deposited as security may count towards the assets required under ■ INSPRU 1.5.48 R and ■ INSPRU 1.5.49 R. If, after the deposit is made, the value of the deposited assets falls below one quarter of the *base capital resources requirement*, the *firm* should deposit further *admissible assets* in order to comply with ■ INSPRU 1.5.48 R and ■ INSPRU 1.5.49 R. Deposited assets may be exchanged for other *admissible assets* and

excess assets may be withdrawn, provided that the exchange or deposit does not cause a breach of ■ INSPRU 1.5.48 R or ■ INSPRU 1.5.49 R.

Branch accounting records in the United Kingdom

1.5.56
PRA

R

A *non-EEA direct insurer* must maintain at a place of business in the *United Kingdom* adequate records relating to:

- (1) the activities carried on from its *United Kingdom branch*; and
- (2) if it is an *EEA-deposit insurer*, the activities carried on from the *branches* in other *EEA States*.

1.5.57
PRA

R

The records maintained as required by ■ INSPRU 1.5.56 R must include a record of:

- (1) the income, expenditure and liabilities arising from activities of the *branch* or *branches*; and
- (2) the assets identified under ■ INSPRU 1.1.20 R as available to meet those liabilities.

Application of INSPRU 1.5 to Lloyd's

1.5.58
FCA PRA

R

■ INSPRU 1.5 applies to *managing agents* and to the *Society* in accordance with:

- (1) for *managing agents*, ■ INSPRU 8.1.4 R; and
- (2) for the *Society*, ■ INSPRU 8.1.2 R.

1.5.59
FCA PRA

R

The *Society* and *managing agents* must take all reasonable steps to ensure that:

- (1) a *corporate member* does not carry on any commercial business other than *insurance business* and activities arising directly from that business; and
- (2) *individual members* do not, in their capacity as *underwriting members*, carry on any commercial business other than *insurance business* and activities arising directly from that business.

1.5.60
PRA

R

A *managing agent* must not permit both *general insurance business* and *long-term insurance business* to be carried on together through any *syndicate* managed by it.

1.6 Insurance Special Purpose Vehicles

Application and Purpose

1.6.1
PRA

R

(1) ■ INSPRU 1.6.5 R to ■ INSPRU 1.6.12 R apply to a *UK ISPV*.

(2) ■ INSPRU 1.6.13 G to ■ INSPRU 1.6.18 G apply to an *insurer* which has a contract of *reinsurance* with an *ISPV*.

1.6.2
PRA

G

An *ISPV* is a special purpose vehicle which assumes risks from *insurance undertakings* or *reinsurance undertakings* and which fully funds its exposure to such risks through the proceeds of a debt issuance or some other financing mechanism where the repayment rights of the providers of such debt or other financing mechanism are subordinated to the *reinsurance* obligations of that vehicle. The special feature of an *ISPV*, when compared to other *reinsurers*, is that it is fully funded to meet its *reinsurance* liabilities. It is, therefore, not subject to insurance risk to the same extent as other *reinsurers*. The *Reinsurance Directive* permits *ISPVs* to be subject to different rules to those applying to other *reinsurers*.

1.6.3
PRA

G

To satisfy the definition of an *ISPV* under the *Reinsurance Directive* the *ISPV* must be fully funded. The *PRA* considers that to be fully funded an *ISPV* must have actually received the proceeds of the debt issuance or other mechanism by which it is financed. The *PRA* would not, therefore, grant a *Part 4A permission* to an *ISPV* where part of the financing for its *reinsurance* liabilities was on a contingent basis, for example, a standby facility or letter of credit.

1.6.4
PRA

G

The purpose of ■ INSPRU 1.6 is:

(1) to set out the *rules* applying to *UK ISPVs* in respect of:

- (a) their assets and liabilities; and
- (b) their contractual arrangements; and

(2) to set out the conditions that must be met in order for an *insurer* to claim credit for *reinsurance* with an *ISPV*.

Assets and liabilities

1.6.5
PRA

R

A *UK ISPV* must ensure that at all times its assets are equal to or greater than its liabilities.

1.6.5A
PRA

G The purpose of ■ INSPRU 1.6.5 R is to ensure that a *UK ISPV* may be viewed as a going concern at all times.

1.6.6
PRA

G In addition to liability under its contracts of *reinsurance*, an *ISPV* will incur liability for other expenses, for example, staff and accommodation costs, *claims* handling arrangements and professional advisers' fees. ■ INSPRU 1.6.5 R requires a *UK ISPV* to ensure that it always has sufficient assets to meet its liabilities.

1.6.7
PRA

R A *UK ISPV* must invest its assets in accordance with the requirements set out in INSPRU 3.1.61AR.

1.6.8
PRA

R A *UK ISPV*'s assets must be held by, or on behalf of:

- (1) the *UK ISPV*; or
- (2) the *insurance undertaking* or *reinsurance undertaking* which cedes to the *UK ISPV* the risks in respect of which the relevant assets are held.

Contractual arrangements

1.6.9
PRA

R A *UK ISPV* must include in each of its contracts of *reinsurance* terms which secure that its aggregate maximum liability at any time under those contracts of *reinsurance* does not exceed the amount of its assets at that time.

1.6.10
PRA

G ■ INSPRU 1.6.9 R requires that a *UK ISPV*'s contracts of *reinsurance* should include terms that secure that its maximum *reinsurance* liability is capped at a level that is no greater than the *ISPV*'s assets. In the *PRA*'s view, this is a necessary condition of the *ISPV* being fully funded, as it means that the *ISPV* should not find that its assets are insufficient to meet its *reinsurance* liabilities.

1.6.11
PRA

R A *UK ISPV* must ensure that under the terms of any debt issuance or other financing arrangement used to fund its *reinsurance* liabilities the rights of the providers of that debt or other financing are fully subordinated to the claims of creditors under its contracts of *reinsurance*.

1.6.12
PRA

R A *UK ISPV* must only enter into contracts or otherwise assume obligations which are necessary for it to give effect to the *reinsurance* arrangements which represent the special purpose for which it has been established.

Reinsurance with an ISPV

1.6.13
PRA

G As a result of ■ GENPRU 1.3.55 R, ■ GENPRU 2 Annex 7 R, ■ INSPRU 1.1.92A R and ■ INSPRU 1.2.28 R an *insurer* may not:

- (1) treat amounts recoverable from an *ISPV* as:
 - (a) an *admissible asset*, or

- (b) *reinsurance* for the purposes of calculating its *mathematical reserves*, or
- (c) *reinsurance* reducing its *MCR*, or

(2) otherwise ascribe a value to such amounts,

unless it first obtains a *waiver* from the *PRA*. ■ INSPRU 1.6.14 G to ■ INSPRU 1.6.18 G set out the information which the *PRA* will expect to receive as part of the application for the *waiver*. Those paragraphs also set out the factors, in addition to the statutory tests under sections 138A and 138B of the *Act*, to which the *PRA* will have regard in deciding:

- (i) whether to grant such a *waiver* (assuming the sections 138A and 138B conditions are met); and
- (ii) the amount recoverable from the *ISPV* which it will allow the *insurer* to bring into account for these purposes.

1.6.14

PRA

G

Where the *ISPV* is a *UK ISPV*, the *PRA* will wish to be satisfied that the *UK ISPV* complies with ■ INSPRU 1.6.5 R to ■ INSPRU 1.6.12 R. The *PRA* may rely on information supplied in connection with its application for *authorisation*. However, if the application for a *waiver* is made some time after *authorisation* was granted, the *PRA* may request confirmation that there has been no material change to the information originally supplied.

1.6.15

PRA

G

Where the *ISPV* is not a *UK ISPV*, the *PRA* will expect to receive confirmation that the *ISPV* has received an official authorisation in accordance with article 46 of the *Reinsurance Directive* in the *EEA State* in which it has been established. In addition, it will need details of the debt issuance or other financing mechanism by which the *ISPV's reinsurance* liabilities are funded. The *PRA* will also expect to receive information about the *ISPV's* key management and control functions, including details of the *ISPV's* auditors and arrangements for *claims* handling, and any material *outsourcing* agreements. The *PRA* will also need information about the structure of any *group* of which the *ISPV* is a member.

1.6.16

PRA

G

No credit may be taken for a contract of *reinsurance* with an *ISPV* unless the contract meets the risk transfer principle set out in ■ INSPRU 1.1.19A R. The *PRA* will require evidence that the contract of *reinsurance* and the extent of the credit that the *firm* proposes to take for it satisfy the risk transfer principle.

1.6.17

PRA

G

The *PRA* will require information about the impact of the *ISPV* arrangement on the ceding *firm's* individual capital assessment carried out in accordance with ■ INSPRU 7.1. This should include evidence that all residual risks associated with the arrangement (including credit, market, liquidity and operational risks) are reflected in that assessment.

1.6.18

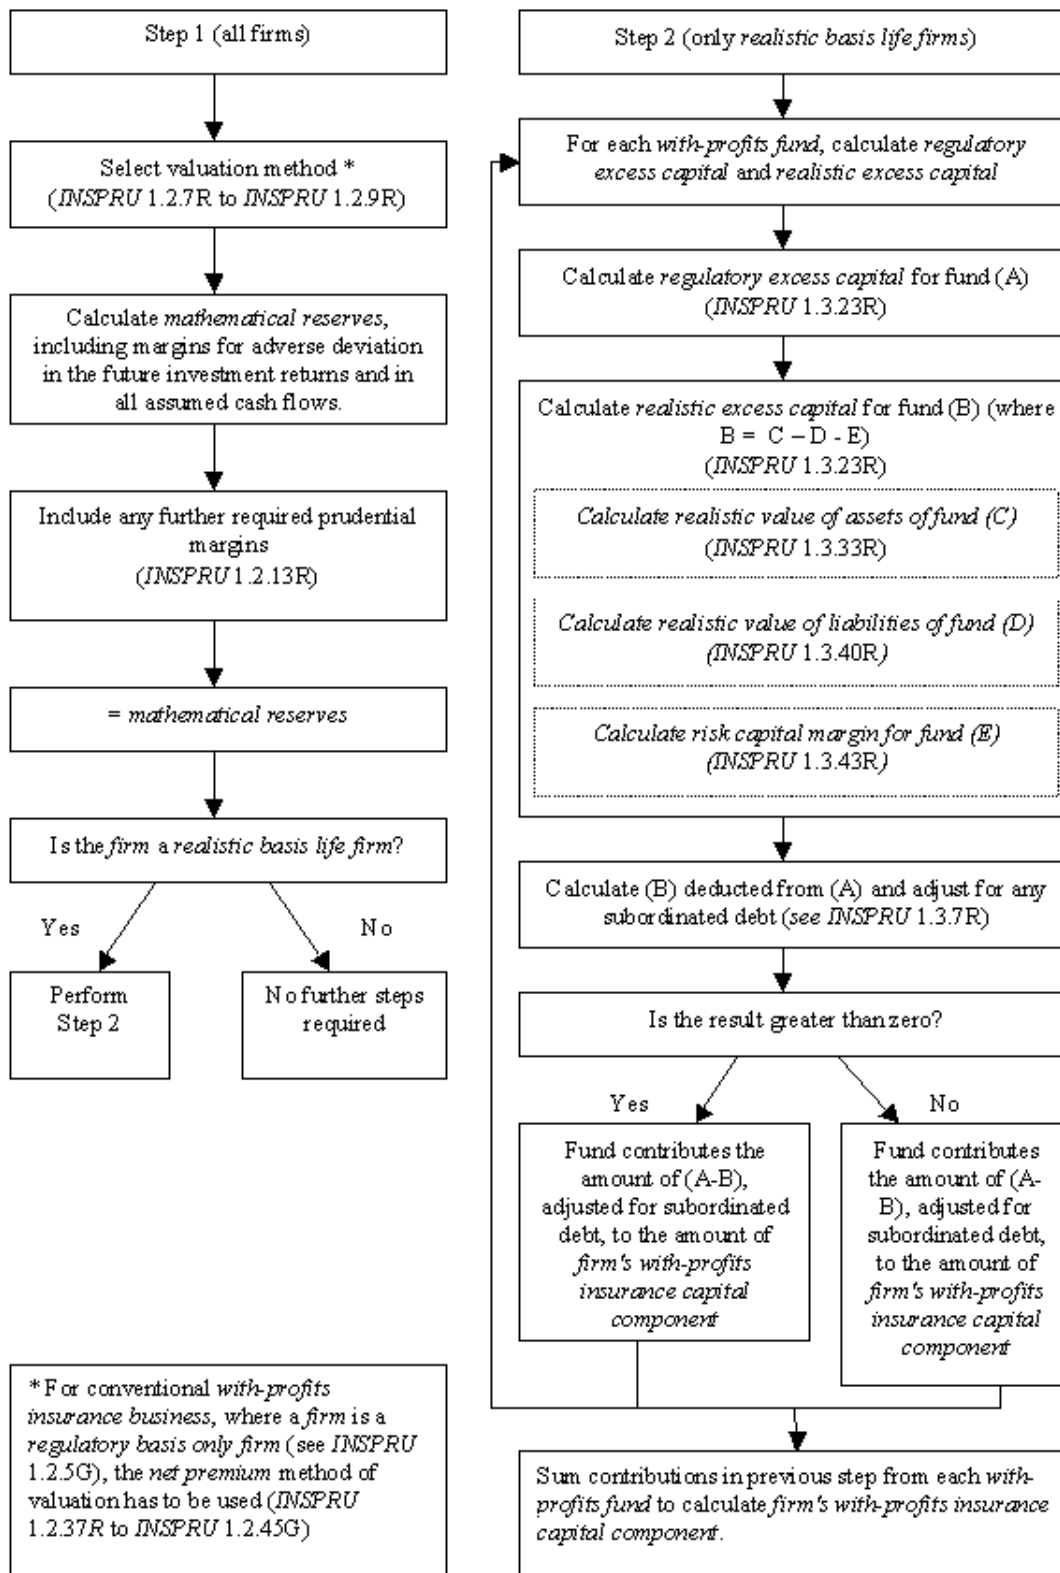

PRA

G

The *PRA* will also expect to receive an analysis of the potential for risk to revert to the *firm* or any of its *associates* under realistic adverse scenarios or for liabilities to arise in respect of the risks transferred for which no provision has been made.

INSPRU 1.2 (Mathematical reserves) and INSPRU 1.3 (With-profits insurance capital component)

PRA

Chapter 2

Credit risk in insurance

2.1 Application

2.1.1

PRA

R ■ INSPRU 2.1 applies to an *insurer* unless it is:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

2.1.2

PRA

R All of ■ INSPRU 2.1, except ■ INSPRU 2.1.20 R and ■ INSPRU 2.1.23 R to ■ INSPRU 2.1.32 G, applies to:

- (1) an *EEA-deposit insurer*; and
- (2) a *Swiss general insurer*;

but only in respect of the activities of the *firm* carried on from a *branch* in the *United Kingdom*.

2.1.3

PRA

G The scope of application of ■ INSPRU 2.1 is not restricted to *firms* that are subject to relevant *EU* directives.

2.1.4

PRA

- R**
- (1) This section applies to a *firm* in relation to the whole of its business, except where a particular provision provides for a narrower scope.
 - (2) Where a *firm* carries on both *long-term insurance business* and *general insurance business*, this section applies separately to each type of business.

Purpose

2.1.5

PRA

G The purpose of this section is to protect *policyholders* and potential *policyholders* by setting out the requirements applicable to a *firm* in respect of credit risk. Credit risk is incurred whenever a *firm* is exposed to loss if a *counterparty* fails to perform its contractual obligations including failure to perform them in a timely manner. Credit risk may therefore have an impact upon a firm's ability to meet its valid *claims* as they fall due. Credit risk can also arise from underlying causes that have an impact upon the creditworthiness of all *counterparties* of a particular description or geographical location. A detailed explanation of credit risk is given at ■ SYSC 15.1.4 G.

2.1.6

PRA

G

The requirements in this section address both current and contingent exposure to credit risk. *PRIN* and *SYSC* require a *firm* to establish adequate internal systems and controls for exposure to credit risk. This section requires a *firm* to restrict its exposure to different *counterparties* and assets to prudent levels and to ensure that those exposures are adequately diversified. It also requires a *firm* to make deductions from the value of assets in respect of exposures to one asset, *counterparty* or group of closely related *counterparties* in excess of prescribed limits.

2.1.7

PRA

G

This section also sets limits on the *market risk* arising from holding assets including securities issued or guaranteed by *counterparties*. This *market risk* is incurred whenever a *firm* is exposed to loss if an asset were to reduce in value or even become worthless. These *market risk* limits are set out in this section rather than the *market risk* sections in *INSPRU* because they are closely linked to the *counterparty* limits set out in this section.

Overall limitation of credit risk

2.1.8

PRA

R

Taking into account relevant risks, a *firm* must restrict its *counterparty* exposures and asset exposures to prudent levels and ensure that those exposures are adequately diversified.

2.1.9

PRA

R

- (1) For the purposes of ■ *INSPRU 2.1*, *counterparty* exposure is the amount a *firm* would lose if a *counterparty* were to fail to meet its obligations (either to the *firm* or to any other *person*) and if simultaneously securities issued or guaranteed by the *counterparty* were to become worthless.
- (2) For the purposes of ■ *INSPRU 2.1*, asset exposure is the amount a *firm* would lose if an asset or class of identical assets (whether or not held directly by the *firm*) were to become worthless.
- (3) For the purposes of (1) and (2), the amount of loss is the amount, if any, by which the *firm's* capital resources (as calculated in accordance with the *capital resources table* but without making any deduction for assets in excess of *market risk* and *counterparty* limits) would decrease as a result of the *counterparty* failing to meet its obligations and the *securities* or assets becoming worthless.
- (4) In determining the amount of loss in accordance with (3), the *firm* must take into account decreases in its capital resources that would result not only from its own direct exposures but also from:
 - (a) exposures held by any of its *subsidiary undertakings*; and
 - (b) synthetic exposures arising from *derivatives* or quasi-derivatives held or entered into by the *firm* or any of its *subsidiary undertakings*.
- (5) If a *firm* elects under ■ *INSPRU 2.1.35 R* to make a deduction in respect of *collateral*, the *firm* must deduct from the amount of loss determined in accordance with (3) so much of the value of that *collateral* as:

2.1.10

PRA

G

Exposure is defined in terms of loss (which is decrease in capital). It does not include exposures arising from assets that are not represented in capital or exposures which if crystallised in a loss would be offset by a consequent gain, reduction in liabilities or release of provisions, but only in so far as that gain, reduction or release would itself lead to an offsetting increase in *capital resources*. Examples include:

- (1) exposure from the holding of assets to which the *firm* has attributed no value;
- (2) exposure from the holding of assets that the *firm* has deducted from *capital resources*; and
- (3) exposure in respect of which (and to the extent that) the *firm* has established a provision.

2.1.11

PRA

G

In assessing the adequacy of diversification required by ■ INSPRU 2.1.8 R, a *firm* should take into account concentrations of exposure including those arising from:

- (1) different types of exposure to the same *counterparty*, such as *deposits*, loans, securities, *reinsurance* and *derivatives*;
- (2) links between *counterparties* such that default by one might have an impact upon the creditworthiness of another; and
- (3) possible changes in circumstance that would have an impact upon the creditworthiness of all *counterparties* of particular description or geographical location.

2.1.12

PRA

G

A *firm* should consider how the spreading of credit risk will impact on overall *counterparty* quality.

2.1.13

PRA

G

In assessing its exposure to a *counterparty* for the purpose of ■ INSPRU 2.1.8 R, a *firm* should take into account:

- (1) the period for which the exposure to that *counterparty* might continue;
- (2) the likelihood of default during that period by the *counterparty*; and
- (3) the loss that might result in the event of default.

2.1.14

PRA

G

In assessing the loss that might result from the default of a *counterparty* for the purposes of ■ INSPRU 2.1.8 R, a *firm* should take into account the circumstances that might lead to default and, in particular, how these might have an impact upon:

- (1) the amount of exposure to the *counterparty*; and
- (2) the effectiveness of any loss mitigation techniques employed by the *firm*.

2.1.15

PRA

G

Often the same circumstances which lead to the crystallisation of contingent credit exposure, e.g. a significant *claims* event or a significant movement in interest, currency or asset values, also lead to an increase in the risk of default by the *counterparty*. In particular, if a *reinsurer* or *derivative counterparty* is being relied upon to provide protection against the consequences of an event or circumstance, a *firm* should take into account how that event or circumstance might have an impact upon the creditworthiness of the *reinsurer* or *derivative counterparty*.

2.1.16

PRA

R

For the purposes of ■ INSPRU 2.1.8 R and of determining *counterparty* exposure and asset exposure in accordance with ■ INSPRU 2.1.9 R and *reinsurance* exposure in accordance with ■ INSPRU 2.1.25 R, a *firm* must only rely upon a loss mitigation technique where it has good reason to believe that, taking into account the possible circumstances of default, it is likely to be effective.

2.1.17

PRA

G

Loss mitigation techniques include:

- (1) the right, upon default, to preferential access to some or all of the *counterparty's* assets, for example by exercising rights of set off, holding *collateral* or assets deposited back, or exercising rights under fixed or floating charges;
- (2) rights against third parties upon default by the *counterparty*, such as guarantees, credit insurance and credit *derivatives*; and
- (3) where the *counterparty* is a *reinsurer*, having back-up or flexible *reinsurance* which covers the gap in coverage left by the *reinsurer's* default, for example 'top and drop' *reinsurance*.

2.1.18

PRA

R

For the purposes of ■ INSPRU 2.1.8 R and of determining *counterparty* exposure and asset exposure in accordance with ■ INSPRU 2.1.9 R and *reinsurance* exposure in accordance with ■ INSPRU 2.1.25 R, a *firm* must not rely upon preferential access to assets unless it has taken into account appropriate professional advice as to its effectiveness.

2.1.19

PRA

G

In particular, a *firm* should consider whether any preferential access to a *counterparty's* assets would be effective even if the *counterparty* were wound up by a court or other legal process or it were to be subject to any other insolvency process. A *firm* should also consider, where it is relying upon a right against a third party, whether, in the circumstances of the *counterparty's* default, the creditworthiness of that third party might be impaired.

2.1.20

PRA

R

Large exposure limits

- (1) A *firm* must take reasonable steps to limit its *counterparty* exposure or asset exposure to:
- (a) a single *counterparty*;
 - (b) each of the *counterparties* within a group of closely related counterparties; and
 - (c) an asset or class of identical assets;
- to a level where, if a total default were to occur, the *firm* would not become unable to meet its liabilities as they fall due.
- (2) In (1), a total default occurs where:
- (a) the single *counterparty* or all of the *counterparties* within the group of closely related *counterparties* fail to meet its or their obligations and simultaneously any securities issued or guaranteed by it or any of them become worthless; or
 - (b) the asset becomes worthless or all of the assets within the identical class become worthless at the same time.
- (3) (1) does not apply to:
- (a) a *reinsurance* exposure; or
 - (b) a *counterparty* exposure or asset exposure to an *approved credit institution*.

2.1.21

PRA

G

In assessing its exposure to a *counterparty* or group of closely related *counterparties*, a *firm* should consider exposures from different sources including *deposits*, loans, *securities* and *derivatives*.

Market risk and counterparty limits

2.1.22

PRA

R

- (1) A *firm* must calculate the amount of the deduction from total capital required by stage L in the *capital resources table* in respect of assets in excess of *market risk* and *counterparty* limits as the aggregate amount by which its *counterparty* exposures and asset exposures exceed the relevant limits set out in (3).
- (2) Except where the contrary is expressly stated in *INSPRU*, whenever:
- (a) a *rule* in *INSPRU* refers to assets of a *firm*, or of any part of a firm, or of any fund or part of a fund within a *firm*, which are assets of a kind referred to in any of the limits in (3); and
 - (b) the *firm's counterparty* exposure (or aggregate exposure arising from the *counterparty* exposures to each member of

a group of closely related persons) or asset exposure in respect of those assets exceeds any of the limits in (3);

the *firm* must deduct from the measure of the value of those assets (as determined in accordance with ■ GENPRU 1.3) the amount by which that exposure exceeds the relevant limit in (3), or that portion of the deduction that relates to the part of the *firm* or fund or part of a fund in question.

- (3) The limits referred to in (1) and (2) are the following, expressed as a percentage of the *firm's* business amount:
- (a) for a *counterparty* exposure to an individual, unincorporated body of individuals or the aggregate exposure arising from the *counterparty* exposures to each member of a group of closely related individuals or unincorporated bodies of individuals:
 - (i) % for that part of the exposure that arises from unsecured debt;
 - (ii) 1% for the whole exposure (after deduction of the excess arising from the limit in (a)(i));
 - (b) for a *counterparty* exposure to an *approved counterparty* or the aggregate exposure arising from the *counterparty* exposures to each member of a group of closely related *approved counterparties*:
 - (i) 40% for that part of the exposure arising from *covered bonds*;
 - (ii) 5% for that part of the exposure not arising from *covered bonds* or, if the *counterparty* is an *approved credit institution*, from short term deposits; this limit is increased to 10% if the total of such exposures which are greater than 5% arising from applying a 10% limit, when taken together with any exposures arising from *covered bonds* which are within the 40% limit in (i), does not exceed 40%;
 - (iii) 20% or 2 million, if larger, for the whole exposure (but excluding any exposure arising from *covered bonds* and after deduction of the excess arising from the limit in (b)(ii));
 - (c) for a *counterparty* exposure to a *person*, or the aggregate exposure arising from the *counterparty* exposures to each member of a group of closely related *persons*, who do not fall into the categories of *counterparty* to whom (a) and (b) apply:
 - (i) 1% for that part of the exposure arising from unsecured debt; this limit is increased to 2.5% in the case of an exposure to a *regulated institution*;

- (ii) 1% for that part of the exposure arising from *shares* and other variable yield participations, bonds, *debt securities* and other *money market instruments* and capital market instruments from the same *counterparty* that are not dealt in on a *regulated market*, or a beneficial interest in a *collective investment scheme* to which ■ INSPRU 2.1.39 R applies; the limit for that part of the exposure arising from *debt securities* (other than hybrid securities) issued by the same *regulated institution* is increased to 5%;
 - (iii) 5% for the whole exposure (after deduction of the excesses arising from the limits in (c)(i) and (ii));
 - (d) 5% for the aggregate of all *counterparty* exposures that fall within (c)(i) whether or not they arise from *persons* who are closely related, but excluding amounts that are in excess of the limit in (c)(i);
 - (e) 10% for the aggregate of all *counterparty* exposures and asset exposures that fall within (c)(ii) above or (j) below, whether or not they arise from *persons* who are closely related, but excluding amounts that are in excess of the limit in (c)(ii) above or, in the case of an asset exposure, (j) below;
 - (f) 5% for the aggregate of all *counterparty* exposures arising from unsecured loans, other than those falling within (3)(b);
 - (g) 3% for the asset exposure arising from all cash in hand;
 - (h) 10% for the asset exposure (including an exposure arising from a reversionary interest) arising from any one piece of land or building, or a number of pieces of land or buildings close enough to each other to be considered effectively as one investment;
 - (i) 5% for the asset exposure arising from a beneficial interest in any single *non-UCITS retail scheme* or *recognised scheme* which does not fall within the *UCITS Directive*; and
 - (j) 1% for the asset exposure arising from a beneficial interest in any single *collective investment scheme* which does not fall within the *UCITS Directive* and is not a *non-UCITS retail scheme* or a *recognised scheme*.
- (4) In (3) a *firm's* business amount means the sum of:
- (a) the *firm's* total gross *technical provisions* (that is, calculated gross of *reinsurance*);
 - (b) the amount of its other liabilities (except those included in the calculation of capital resources in accordance with the *capital resources table*); and

- (c) such amount as the *firm* may select not exceeding, in the case of a *firm* which is not a *participating insurance undertaking*, the amount of the *firm's* total capital after deductions as calculated at stage M of the *capital resources table* or, in the case of a *firm* which is a *participating insurance undertaking*, the amount calculated in accordance with (5A) or, in either case, if higher:
- (i) in the case of a *firm* carrying on *general insurance business*, the amount of its *general insurance capital requirement*; and
 - (ii) in the case of a *firm* carrying on *long-term insurance business*, the amount of its *long-term insurance capital requirement* and, where it is a *regulatory basis only life firm*, the amount of its *resilience capital requirement*.
- (5) For the purpose of (4)(a), a *firm's* total gross *technical provisions* exclude *technical provisions* in respect of *index-linked liabilities* or *property-linked liabilities*, except that where the *linked long-term contract of insurance* in question includes a guarantee of investment performance or some other guaranteed benefit, the total gross *technical provisions* include the *technical provisions* in respect of that guaranteed element.
- (5A) For the purpose of (4)(c), a *firm* which is a *participating insurance undertaking* must calculate the amount of the *firm's group capital resources* less the difference between:
- (a) the *firm's group capital resources requirement*; and
 - (b) the *firm's capital resources requirement*.
- (5B) In (3)(b)(ii) short term *deposit* means a *deposit* which may be withdrawn at the discretion of the lender without penalty or loss of accrued interest by giving notice of withdrawal of one month or less.
- (6) In (3)(c)(ii) hybrid security means a *debt security*, other than an *approved security*, the terms of which provide, or have the effect that, the holder does not, or would not, have an unconditional entitlement to payment of interest and repayment of capital in full within 75 years of the date on which the *security* is being valued.
- (7) In (3)(a)(i) and (3)(c)(i) an unsecured debt is any debt in respect of which the conditions in ■ INSPRU 2.1.35 R or ■ INSPRU 2.1.36 R and ■ INSPRU 2.1.37 R are not satisfied or, if satisfied only in relation to part of the debt, that part of the debt which is not covered by collateral or a guarantee, letter of credit or credit derivative in accordance with those *rules*.

2.1.22A

PRA

R

■ INSPRU 2.1.22 R does not apply to a *pure reinsurer*.

Large exposure calculation for reinsurance exposures

2.1.23

PRA

R

A *firm* must notify the PRA in accordance with ■ SUP 15.7 as soon as it first becomes aware that:

- (1) a *reinsurance* exposure to a *reinsurer* or group of closely related *reinsurers* is reasonably likely to exceed 100% of its *capital resources*; or
- (2) if (1) does not apply, that it has exceeded this limit.

2.1.24

PRA

R

Upon notification under ■ INSPRU 2.1.23 R, a *firm* must:

- (1) demonstrate that prudent provision has been made for the *reinsurance* exposure in excess of the 100% limit, or explain why in the opinion of the *firm* no provision is required; and
- (2) explain how the *reinsurance* exposure is being safely managed.

2.1.25

PRA

R

- (1) For the purposes of ■ INSPRU 2.1, a *reinsurance* exposure is the amount of loss which a *firm* would suffer if a *reinsurer* or group of closely related *reinsurers* were to fail to meet its or their obligations under contracts of *reinsurance* reinsuring any of the *firm's* contracts of insurance.

- (2) For the purposes of (1), the amount of loss is the amount, if any, by which the *firm's* capital resources (as calculated in accordance with the *capital resources table* but without making any deduction for assets in excess of *market risk* and *counterparty* limits) would decrease as a result of the *reinsurer* or group of closely related *reinsurers* failing to meet its or their obligations under the contracts of *reinsurance*.

- (3) If a *firm* elects under ■ INSPRU 2.1.35 R to make a deduction in respect of *collateral*, the *firm* must deduct from the amount of loss determined in accordance with (2) so much of the value of that *collateral* as:

- (a) would be realised by the *firm* were it to exercise its rights in relation to the *collateral*; and
- (b) does not exceed any of the relevant limits in ■ INSPRU 2.1.22 R (3).

2.1.26

PRA

R

A *firm* must, in determining its *reinsurance* exposures for the purposes of ■ INSPRU 2.1, aggregate any *reinsurance* exposure where the identity of the *reinsurer* is not known by the *firm* with the highest *reinsurance* exposure where it does know the identity of the *reinsurer*.

- 2.1.27**
PRA **G** ■ INSPRU 2.1.8 R provides that, taking into account relevant risks, a *firm* must restrict to prudent levels, and adequately diversify, its exposure to *counterparties*.
- 2.1.28**
PRA **A** (1) In each *financial year*, a *firm* should restrict the *gross earned premiums* which it pays to a *reinsurer* or group of closely related *reinsurers* to the higher of:
- (a) 20% of the *firm's* projected *gross earned premiums* for that *financial year*; or
- (b) 4 million.
- (2) Compliance with this provision may be relied upon as tending to establish compliance with ■ INSPRU 2.1.8 R.
- 2.1.29**
PRA **R** A *firm* must notify the *PRA* immediately in accordance with ■ SUP 15.7 if it has exceeded, or anticipates exceeding, the limit expressed in ■ INSPRU 2.1.28 E.
- 2.1.30**
PRA **R** Upon notification under ■ INSPRU 2.1.29 R, a *firm* must explain to the *PRA* how, despite the excess *reinsurance* concentration, the credit risk is being safely managed.
- 2.1.31**
PRA **G** For the purposes of ■ INSPRU 2.1.24 R and ■ INSPRU 2.1.30 R, a *firm's* explanation of how a *reinsurance* exposure is being safely managed should also describe the *reinsurance* market in which the exposure has occurred, and the nature of the *reinsurance* contract. If appropriate, the *firm* should also provide a detailed plan and timetable explaining how the excess exposure will be reduced to an acceptable level. The explanation should be approved by a person at the *firm* of appropriate seniority.
- 2.1.32**
PRA **G** Where a *firm* can demonstrate that the arrangement does not give rise to unacceptable levels of credit risk it is unlikely that further action will be required.
- Exposures excluded from limits**
.....
- 2.1.33**
PRA **R** In ■ INSPRU 2.1.20 R and ■ INSPRU 2.1.22 R, references to a *counterparty* exposure or an asset exposure do not include such an exposure arising from:
- (1) [deleted]
- (2) *premium* debts;
- (3) advances secured on, and not exceeding the *surrender value* of, *long-term insurance contracts* of the *firm*;
- (4) rights of salvage or subrogation;
- (5) *deferred acquisition costs*;

- (6) assets held to cover *index-linked liabilities* or *property-linked liabilities*, except that where the *linked long-term contract of insurance* in question includes a guarantee of investment performance or some other guaranteed benefit, ■ INSPRU 2.1.20 R and ■ INSPRU 2.1.22 R will nevertheless apply to assets held to cover that guaranteed element;
- (7) *moneys* due from, or guaranteed by, a *Zone A country*;
- (8) an *approved security*;
- (9) a holding in a *collective investment scheme* falling within the *UCITS Directive*.

2.1.34
PRA

R In ■ INSPRU 2.1.22 R references to a *counterparty* exposure or an asset exposure do not include such an exposure resulting from debts arising from *reinsurance* ceded and the *reinsurer's* share of *technical provisions*.

2.1.35
PRA

R If:

- (1) a *firm* has a *counterparty* exposure, an asset exposure or a *reinsurance* exposure in respect of which it has rights over *collateral* (except where that *collateral* is a letter of credit see ■ INSPRU 2.1.36 R and ■ INSPRU 2.1.37 R); and
- (2) the assets constituting that *collateral* would, if owned by the *firm*, be admissible assets;

the *firm* may, in determining the amount of that exposure, deduct the value of that *collateral* in accordance with ■ INSPRU 2.1.9 R (5) or, in the case of a *reinsurance* exposure, ■ INSPRU 2.1.25 R (3).

2.1.36
PRA

R If a *firm* has a *counterparty* exposure, asset exposure or *reinsurance* exposure the whole or any part of which is:

- (1) guaranteed by a *credit institution* or an *investment firm* subject in either case to the *Capital Adequacy Directive* or supervision by a third country (non-EEA) supervisory authority with a Capital Adequacy Directive-equivalent regime; or
- (2) adequately mitigated by a *credit derivative*;

the *firm* may, for the purposes of ■ INSPRU 2.1.20 R, ■ INSPRU 2.1.22 R and ■ INSPRU 2.1.23 R, treat that exposure, or that part of the exposure which is so guaranteed or mitigated, as an exposure to the guarantor or derivative *counterparty*, rather than to the original *counterparty*, asset or *reinsurer*.

2.1.37
PRA

R For the purposes of ■ INSPRU 2.1.36 R, references to an exposure being guaranteed include an exposure secured by a letter of credit, but to fall

within ■ INSPRU 2.1.36 R the guarantee or letter of credit must be direct, explicit, unconditional and irrevocable.

2.1.38

PRA

G

The portion of exposure which is guaranteed or mitigated by a credit *derivative* is itself, as an exposure to the guarantor or derivative *counterparty*, subject to the limits in ■ INSPRU 2.1.20 R and ■ INSPRU 2.1.22 R.

2.1.39

PRA

R

For the purposes of ■ INSPRU 2.1.20 R and ■ INSPRU 2.1.22 R, *units* in a *collective investment scheme* that does not fall within the *UCITS Directive* must be treated as a *counterparty* exposure to the *issuer* of the units in that scheme if the issuer and those *units* are to be regarded as constituting a single risk because they are so interconnected that, if the *issuer* were to experience financial problems, this would be likely to affect the value of the *units*.

2.1.39A

PRA

G

Where the value of *units* in a *collective investment scheme* other than one falling within the *UCITS Directive* would be likely to be adversely affected by financial problems experienced by the *issuer* of those *units*, for the purposes of ■ INSPRU 2.1.20 R and ■ INSPRU 2.1.22 R, the *units* must be treated as a *counterparty* exposure to the *issuer*, with the result that the exposure is subject to the limit in ■ INSPRU 2.1.22 R (3)(c)(ii). In all other cases, the *units* would fall to be treated as an asset exposure, with the result that they are subject to the relevant limit under ■ INSPRU 2.1.22 R (3)(i) or ■ (j).

Meaning of closely related

2.1.40

PRA

R

For the purposes of ■ INSPRU 2.1, a group of *persons* is closely related if it consists solely of two or more *persons* who, unless it is shown otherwise, constitute a single risk because as between any two of them one or other of the following relationships apply:

- (1) one of them, directly or indirectly, has control, as defined in ■ INSPRU 2.1.41 R, over the other or they are both controlled by the same third party; or
- (2) there is no relationship of control as defined in ■ INSPRU 2.1.41 R but they are to be regarded as constituting a single risk because they are so interconnected that, if one of them were to experience financial problems, the other would be likely to encounter repayment difficulties.

2.1.41

PRA

R

For the purposes of ■ INSPRU 2.1.40 R, control means the relationship between a *parent undertaking* and a *subsidiary undertaking*, as defined in Article 1 of the Consolidated Accounts Directive (83/349/EEC), or a similar relationship between any natural or legal person and an *undertaking*.

Meaning of reinsurance

2.1.41A

PRA

R

For the purposes of ■ INSPRU 2.1, references to *reinsurance* include analogous non-*reinsurance* financing agreements, including contingent loans, securitisations and any other arrangements in respect of *contracts*

of insurance that are analogous to contracts of *reinsurance* in terms of the risks transferred and the finance provided and references to *reinsurer* shall be construed accordingly.

Application of INSPRU 2.1 to Lloyd's

2.1.42

PRA

R

Subject to ■ INSPRU 2.1.43 R, ■ INSPRU 2.1 applies to *managing agents* and to the *Society* in accordance with:

- (1) for *managing agents*, ■ INSPRU 8.1.4 R; and
- (2) for the *Society*, ■ INSPRU 8.1.2 R.

2.1.43

PRA

R

■ INSPRU 2.1.23 R to ■ INSPRU 2.1.32 G (Large exposure calculation for reinsurance exposures) do not apply to the *Society*.

Overall limitation of credit risk

2.1.44

PRA

G

For Lloyd's, *counterparty* exposure is:

- (1) for *managing agents*, the amount by which the net assets managed by or under the direction of a *managing agent* in respect of a *syndicate* together with any relevant *balancing amount* would decrease if the *counterparty* were to default;
- (2) for the *Society*, the amount by which its net assets (which include those of its subsidiary undertakings) would decrease if the *counterparty* were to default; and
- (3) for the *Society's* management of each *member's funds at Lloyd's*, the amount by which the *member's* net assets would decrease if the *counterparty* were to default.

Large exposures

2.1.45

PRA

R

For the purposes of ■ INSPRU 2.1.20 R (Large exposure limits: counterparty exposure and asset exposure), the *Society* may determine the exposure to any letters of credit, guarantees or *members' life* assurance policies as an exposure of the *members* in aggregate.

2.1.46

PRA

R

For the purposes of ■ INSPRU 2.1.22 R (Large exposure limits: market risk and counterparty limits), the *Society* must calculate the amount of and deduct from *capital resources*:

- (1) an exposure (expressed as a percentage of the relevant *member's capital resources* held as *funds at Lloyd's*), other than to the assets identified in ■ INSPRU 2.1.46 R (2)(a) to ■ INSPRU 2.1.46 R (2)(c), of a *member's capital resources* held as *funds at Lloyd's* to a *counterparty*, in excess of the limits in ■ INSPRU 2.1.22 R;

- (2) an exposure in excess of 20% (expressed as a percentage of the aggregate of *capital resources* held as *funds at Lloyd's*) of the aggregate of *capital resources* held as *funds at Lloyd's* to a single issuer of:
 - (a) letters of credit;
 - (b) guarantees; or
 - (c) *members'* life assurance policies;

- (3) an exposure of its own to a *counterparty*, in excess of the limits in ■ INSPRU 2.1.22 R, expressed as a percentage of the *Society's* own assets.

2.1.47
PRA

R For the purposes of ■ INSPRU 2.1.22 R (Large exposure limits: market risk and *counterparty* limits), *managing agents* must calculate the amount of and deduct from *capital resources* an exposure (expressed as a percentage of the *admissible assets* held in respect of the relevant *syndicate*) of *admissible assets* held in respect of a *syndicate* to a *counterparty* in excess of the limits in ■ INSPRU 2.1.22 R.

2.1.48
PRA

R If the exposures of *capital resources* held as *funds at Lloyd's* for *members* in the aggregate do not exceed the limits in ■ INSPRU 2.1.22 R (3)(c), then, for each *individual member*, that limit may be replaced by 10%.

Exposures excluded from the large exposure limits

2.1.49
PRA

R For *managing agents*, in ■ INSPRU 2.1.33 R and ■ INSPRU 2.1.35 R, references to an exposure do not include exposure arising from *balancing amounts*.

2.2 Asset-related Capital Requirement

Application

2.2.1
PRA

R ■ INSPRU 2.2 applies to an *insurer* unless it is:

- (1) a *non-directive friendly society*; or
- (2) a *Swiss general insurer*; or
- (3) an *EEA-deposit insurer*; or
- (4) an *incoming EEA firm*; or
- (5) an *incoming Treaty firm*.

2.2.2
PRA

G The scope of application of ■ INSPRU 2.2 is not restricted to *firms* that are subject to the relevant *EU* directives.

2.2.3
PRA

R ■ INSPRU 2.2 applies to a *firm* only in relation to its *general insurance business*.

2.2.4
PRA

G The adequacy of a *firm's* financial resources needs to be assessed in relation to all the activities of the *firm* and the risks to which they give rise.

2.2.5
PRA

G The requirements in ■ INSPRU 2.2 apply to a *firm* on a solo basis.

Purpose

2.2.6
PRA

G ■ GENPRU 2.1.13 R requires that a *firm* must maintain at all times *capital resources* equal to or in excess of its *capital resources requirement*. ■ GENPRU 2.1.17 R provides that for a *firm* carrying on *general insurance business* the *firm's capital resources requirement* is the *minimum capital requirement*.

2.2.7
PRA

G The PRA will use the *enhanced capital requirement* as the benchmark for *individual capital guidance* for a *firm* carrying on *general insurance business*, other than a *non-directive insurer*. The *enhanced capital requirement* is the sum of the *asset-related capital requirement* and the *insurance-related capital requirement* less the *firm's* equalisation provisions. This section sets out *rules* and *guidance* relating to the

asset-related capital requirement. Rules and guidance relating to the *insurance-related capital requirement* are set out in ■ INSPRU 1.1.

2.2.8

PRA

G

The *asset-related capital requirement* is a measure of the capital that a *firm* should hold against the risk of loss if another party fails to perform its financial obligations to the *firm* or from adverse movements in the value of assets.

2.2.9

PRA

G

The *asset-related capital requirement* is calculated by applying capital charge factors, expressed as a percentage, to different categories of a *firm's* assets. A *firm* should refer to ■ GENPRU 1.3 which sets out how a *firm* must recognise and value assets and liabilities.

Calculation of asset-related capital requirement

2.2.10

PRA

R

A *firm* must calculate its *asset-related capital requirement* in accordance with ■ INSPRU 2.2.11 R.

2.2.11

PRA

R

- (1) The value of each of the *firm's* assets of a kind listed in the table in ■ INSPRU 2.2.16 R must be multiplied by the corresponding capital charge factor.
- (2) If any amount which is to be multiplied by a capital charge factor is a negative amount, that amount shall be treated as zero.
- (3) No account shall be taken of:
 - (a) the value of any asset which is not an *admissible asset*;
 - (b) the amount (if any) by which the value of any assets exceeds the limits on exposures to a type of asset or *counterparty* as set out in ■ INSPRU 2.1.22 R.
- (4) Where a *firm* has entered into a *derivative*, then for the purposes of applying the appropriate capital charge factor as set out in ■ INSPRU 2.2.16 R, it must treat the value of the *derivative* and the value of the asset associated with the *derivative* as a single asset of a type and value which most closely reflects the economic risk to the *firm* of the combined rights and obligations associated with the *derivative* and the asset associated with the *derivative*.
- (5) The amounts resulting from multiplying each of the asset items referred to in (1) by the corresponding capital charge factor must be aggregated.
- (6) The *asset-related capital requirement* is the amount resulting from the aggregation in (5).

2.2.12

PRA

G

Options: some *derivatives* may allow a *firm* an *option* whether to buy or sell a particular asset. If an *option* has a positive market value (that is, in-the-money) it is likely that the *firm* will exercise the *option* in the future and the current value of the *derivative* and associated asset will generally acquire new characteristics and volatility (a 'synthetic asset').

For instance, an *option* to acquire *shares* at a price below their current market value is likely to be exercised and the appropriate *asset-related capital requirement* calculation would be to combine the cash cost of acquiring the number of *shares* covered by the *option* with the value of the *derivative* and apply a factor of 16% to that combined value. If an *option* has no market value (that is, out-of-the-money) then it is unlikely that a *firm* would exercise the *option* in which case the appropriate *asset-related capital requirement* charge would be zero in respect of the *derivative*, and the corresponding capital charge contained in Table ■ INSPRU 2.2.16 R in relation to the asset associated with the *derivative*.

2.2.13

PRA

G

Futures and swaps: *futures* or swaps may not allow the *firm* such an option in which case the appropriate asset-related capital charge factor to apply is the one corresponding to the asset that would be held on fulfilment of the contract and the value to which this should be applied would be the value of the asset held after the contract is fulfilled.

2.2.14

PRA

R

- (1) The asset-related capital charge factor for money market funds set out in the Table ■ INSPRU 2.2.16 R must be applied to exposures to funds that meet the definition in (2).
- (2) In ■ INSPRU 2.2 an investment in a money market fund means a participation in a *collective investment scheme* which satisfies the following conditions:
 - (a) the primary investment objective of the *collective investment scheme* is:
 - (i) to maintain the net asset value of the *collective investment scheme* constant at par (net of earnings); or
 - (ii) to maintain the net asset value of the *collective investment scheme* at the value of investors' initial capital plus earnings;
 - (b) in order to pursue its primary investment objective the *collective investment scheme* invests exclusively in cash or in short term instruments with characteristics similar to cash or both; and
 - (c) the *collective investment scheme* undertakes to abide by the following conditions:
 - (i) not to allow the assets held in the *collective investment scheme* to exceed a weighted average maturity of 60 days;
 - (ii) not to invest in equity or securities with characteristics similar to equity; and
 - (iii) on a basis of marking-to-market at least weekly, not to permit the value of each *collective investment scheme* unit at any point in time to move by more than 50 basis points (0.5% of total *collective investment scheme* value).

2.2.15

PRA

R

In ■ INSPRU 2.2.16 R an insurance dependant means a *regulated related undertaking* which is an *insurance undertaking* or an *insurance holding company*.

2.2.16

Application of INSPRU 2.2 to Lloyd's

2.2.17

PRA

R

■ INSPRU 2.2 applies to *managing agents* and to the *Society* in accordance with:

- (1) for *managing agents*, ■ INSPRU 8.1.4 R; and
- (2) for the *Society*, ■ INSPRU 8.1.2 R

2.2.18

PRA

R

This chapter applies to the *Society* for each *member*, including the capital charge relating to *central assets*, to the extent that those assets are held to support a particular *member*.

Chapter 3

Market risk

3.1 Market risk in insurance

3.1.1

FCA PRA

R

■ INSPRU 3.1 applies to an *insurer*, unless it is:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

3.1.2

PRA

G

■ INSPRU 3.1 applies to *pure reinsurers*, with the exception of ■ INSPRU 3.1.53 R, ■ INSPRU 3.1.57 R and ■ INSPRU 3.1.58 R.

3.1.3

PRA

R

- (1) ■ INSPRU 3.1 applies to a *firm* in relation to the whole of its business, except where a particular provision provides for a narrower scope.
- (2) Where a *firm* carries on both *long-term insurance business* and *general insurance business*, ■ INSPRU 3.1 applies separately to each type of business.

Purpose

3.1.4

PRA

G

This section sets out *rules* and *guidance* relating to *market risk*. Under ■ INSPRU 1.1.20 R and ■ INSPRU 1.1.21 R, a *firm* is required to hold *admissible assets* of a value sufficient to cover its *technical provisions* and its other *long-term insurance* or *general insurance liabilities*. In addition, ■ INSPRU 1.1.34 R sets the requirement that a *firm* must hold assets of appropriate amount, currency, term, safety and yield, to ensure that the cash inflows from those assets will be sufficient to meet expected cash outflows from its insurance liabilities as they are due.

3.1.5

PRA

G

Market risk is the risk that as a result of market movements a *firm* may be exposed to fluctuations in the value of its assets, the amount of its liabilities, or the income from its assets. Sources of general *market risk* include movements in interest rates, equities, exchange rates and real estate prices. It is important to note that none of these sources of risk is independent of the others. For example, fluctuations in interest rates often have an impact upon equity and currency values and vice versa. Giving due consideration to these correlations is an important aspect of the prudent management of *market risk*.

3.1.6

PRA

G

A *firm* may also be exposed to specific *market risk*, which is the risk that the *market value* of a specific asset, or income from that asset, may fluctuate for reasons that are not dependent on general market movements. The limits in ■ INSPRU 2.1.22 R cover *market risk* as well as *counterparty risk*.

3.1.7

FCA PRA

G

■ INSPRU 3.1 addresses the impact of *market risk* on *insurance business* in the ways set out below:

- (1) Any *firm* that carries on *long-term insurance business* which is a *regulatory basis only life firm* must comply with the *resilience capital requirement*. This requires the *firm* to hold capital to cover *market risk*. The *resilience capital requirement* is dealt with in ■ INSPRU 3.1.9 G to ■ INSPRU 3.1.26 R.
- (2) For a *firm* that carries on *long-term insurance business*, the assets that it must hold must be of a value sufficient to cover the *firm's technical provisions* and other *long-term insurance liabilities*. ■ INSPRU 1.2 contains *rules and guidance* as to the methods and assumptions to be used in calculating the *mathematical reserves*. One of these assumptions is the assumed rate of interest to be used in calculating the present value of future payments by or to a *firm*. ■ INSPRU 3.1.28 R to ■ INSPRU 3.1.48 G set out the methodology to be used in relation to *long-term insurance liabilities*.
- (3) *Firms* carrying on either *long-term insurance business* or *general insurance business* are also subject to currency risk. That is, the risk that fluctuations in exchange rates may impact adversely on a *firm*. ■ INSPRU 3.1.49 G to ■ INSPRU 3.1.56 G set out the requirements a *firm* must meet so as to cover this risk.
- (4) For a *firm* carrying on *general insurance business*, the *Enhanced Capital Requirement* already captures some elements of *market risk*. In addition, the requirements as to the assumed rate of interest used in calculating the present value of *general insurance liabilities* are contained in the *insurance accounts rules*, and these requirements are outlined in ■ INSPRU 3.1.27 G.
- (5) *Firms* carrying on *long-term insurance business* that have *property-linked liabilities* or *index-linked liabilities* must cover these liabilities by holding appropriate assets. ■ INSPRU 3.1.57 R and ■ INSPRU 3.1.58 R set out these cover requirements.
- (6) The *Reinsurance Directive* applies to *pure reinsurers* "prudent person" investment principles in relation to the investment of their assets. ■ INSPRU 3.1.61A R sets out these principles.

Definitions

3.1.8

PRA

R

For the purposes of ■ INSPRU 3.1:

- (1) **real estate means an interest in land, buildings or other immovable property;**
- (2) **a significant territory is any country or territory in which more than 2.5% of a *firm's long-term insurance assets* (by *market value*),**

excluding assets held to cover *index-linked liabilities* or *property-linked liabilities* (see ■ INSPRU 3.1.57 R and ■ INSPRU 3.1.58 R), are invested;

- (3) the long term gilt yield means the annualised equivalent of the fifteen year gilt yield for the *United Kingdom* Government fixed-interest *securities* index jointly compiled by the Financial Times, the Institute of Actuaries and the Faculty of Actuaries; and
- (4) the member states of the European Union which have adopted the Euro as the official currency may be treated as a single territory.

Resilience capital requirement (only applicable to the long-term insurance business of regulatory basis only life firms)

3.1.9

PRA

G

The *resilience capital requirement* forms part of the calculation of the *capital resources requirement* for *regulatory basis only life firms*. ■ GENPRU 2.1.23 R specifies that the CRR for a *regulatory basis only life firm* is equal to the MCR in ■ GENPRU 2.1.25 R. The *resilience capital requirement* forms part of the MCR for a *regulatory basis only life firm* (see ■ GENPRU 2.1.25 R (2)(b)).

3.1.10

PRA

R

- (1) A *regulatory basis only life firm* must calculate a *resilience capital requirement* in accordance with (2) to (5).
- (2) The *firm* must identify relevant assets (see ■ INSPRU 3.1.10A R) which, after applying the scenarios in (3), have a value that is equal to the *firm's long-term insurance liabilities* under those scenarios.
- (3) For the purpose of (2), the scenarios are:
 - (a) for those relevant assets invested in the *United Kingdom*, the *market risk* scenario set out in ■ INSPRU 3.1.16 R;
 - (b) subject to (c) and to ■ INSPRU 3.1.26 R, for those relevant assets invested outside of the *United Kingdom*, the *market risk* scenario set out in ■ INSPRU 3.1.23 R; and
 - (c) where the relevant assets in (b) are:
 - (i) held to cover *index-linked liabilities* or *property-linked liabilities*; or
 - (ii) not invested in a significant territory outside the *United Kingdom*;

the *market risk* scenario set out in ■ INSPRU 3.1.16 R.

- (4) The *resilience capital requirement* is the result of deducting B from A, where:

- (a) A is the value of the relevant assets which will produce the result described in (2); and
- (b) B is the *firm's long-term insurance liabilities*.

(5) In calculating the value of the *firm's long-term insurance liabilities* under any scenario, a *firm* is not required to adjust the provision made under ■ GENPRU 1.3.4 R in respect of a *defined benefits pension scheme*.

3.1.10A

PRA

R

In ■ INSPRU 3.1.10 R relevant assets means a range of assets which must be selected by the *firm* from the assets specified in (1) and (2) in the order specified:

- (1) its *long-term insurance assets*; and
- (2) only where the *firm* has selected all the assets within (1), its shareholder assets, other than assets of an amount and kind required:
 - (a) to cover its liabilities arising outside its *long-term insurance funds*; or
 - (b) to meet any regulatory capital requirements in respect of business written outside its *long-term insurance funds*.

3.1.11

PRA

G

The purpose of the *resilience capital requirement* is to cover adverse deviation from:

- (1) the value of *long-term insurance liabilities*;
- (2) the value of assets held to cover *long-term insurance liabilities*; and
- (3) the value of assets held to cover the resilience capital requirement;

arising from the effects of *market risk* for equities, real estate and fixed interest securities. Other risks are not explicitly addressed by the *resilience capital requirement*.

3.1.12

PRA

G

The amount of the *resilience capital requirement* calculated by the *firm* will depend on the *firm's* choice of assets held to cover the *resilience capital requirement*. The *resilience capital requirement* is held to cover not only the shortfall between the change in the value of *long-term insurance liabilities* and the change in the value of the assets identified to cover those liabilities, but also the change in the value of the assets identified to cover the *resilience capital requirement* itself.

PAGE
5

3.1.13

PRA

G

As part of the assessment of the financial resources a *firm* needs to hold to comply with the *overall financial adequacy rule*, the *general stress and scenario testing rule* requires a *firm* to carry out stress tests and scenario analyses appropriate to the major sources of risk to its ability to meet its liabilities as they fall due identified in accordance with the *overall Pillar 2 rule*. In considering the stress tests and scenario analyses relevant to the major sources of risk in the category of *market risk*, a *firm* should consider the extent to which the *market risk* scenarios set out in ■ INSPRU 3.1.16 R to ■ INSPRU 3.1.26 R are

appropriate to the nature of its asset portfolio. A *firm* may judge that given the nature of its portfolio, a more severe stress should be adopted. The *firm* may also wish to bring in other asset classes, such as index-linked bonds, which should be stressed on appropriate bases, and to consider the impact of currency mismatching and any *derivative* positions held.

3.1.13A

PRA

G

In the *market risk* scenarios set out in ■ INSPRU 3.1.16 R to ■ INSPRU 3.1.26 R, a *firm* is required to assess the changed value of its assets and liabilities in the economic conditions of the scenarios set out in ■ INSPRU 3.1.16 R and ■ INSPRU 3.1.23 R. A *firm* is required to assess the changed value of each relevant asset (as defined in ■ INSPRU 3.1.10A R), notwithstanding any uncertainty about the appropriate valuation basis for that asset. In valuing an asset in the specified scenarios, a *firm* should have regard to the economic substance of the asset, rather than its legal form, and assess its value accordingly. Consider, for example, a convertible bond that is close to its conversion date and where the conversion option has value. The value of the convertible bond in the specified scenarios is likely to be sensitive primarily to equity market scenarios and to a lesser extent to interest rate scenarios. The *firm* should value the asset according to its expected market value in the economic conditions underlying the specified scenarios.

3.1.13B

PRA

G

In determining where particular assets are invested for the purpose of determining which *market risk* scenario should be applied to those assets, or whether a country or territory in which a *firm* has invested part of its *long-term insurance assets* is a significant territory, a *firm* should generally treat:

- (1) a *security* dealt in on a *regulated market* as invested in any country or territory in which a *regulated market* on which the *security* is dealt is situated;
- (2) a *security* which is not dealt in on a *regulated market* as invested in the country or territory in which the *issuer* has its head office;
- (3) an asset consisting of a claim against a debtor as invested in any country or territory where it can be enforced by legal action;
- (4) real estate as invested in the country or territory in which the land, buildings or other immovable property is situated;
- (5) a tangible asset as invested in the country or territory where it is situated; and
- (6) a *derivative* or *quasi-derivative* as invested in the country or territory in which the assets to which the *firm* is exposed by reason of having entered into the *derivative* or *quasi-derivative* are situated.

Where, however, the nature of a *firm's* investment is such that the economic risks to which it is principally exposed are risks relating to assets invested in, or the currency of, a different country or territory to that in which are invested the assets directly invested in by the *firm*, then the *firm* should consider whether it would be more reasonable to treat the assets as invested in that other country or territory. For example, if a *firm* has invested in the *securities* of a *collective investment scheme* which are dealt in on a *regulated market* in country A, but the scheme principally invests in real estate situated in country B, the *firm* should consider whether its principal exposure is in fact to the country in which the underlying assets are situated (that is, country B). Another example might be where a *firm* has invested in a bond or other fixed interest *security*

that is denominated in the currency of a country or territory other than that in which the *security* would be treated as invested under (1) or (2) above. The *firm* may wish to consider whether that bond or fixed interest *security* should be treated as invested in the country or territory of the currency of denomination.

3.1.14

[intentionally blank]

3.1.15

PRA

G

Where the *resilience capital requirement* is affected by the presence of *derivative* or *quasi-derivative* instruments, the *firm* will need to consider whether the protection afforded is of suitable length or security. The *firm* should include the exposure to *counterparties* in the credit considerations of ■ INSPRU 3.1.41 R both before and after calculating the resilience capital requirement. If the *derivative* protection is very short term the *firm* should consider whether issues arise under ■ INSPRU 1.2.26 R (Avoidance of future valuation strain); when a *derivative* expires the financial position of the *firm* may deteriorate as a result of, for example, falls in asset values. Unless the *firm* holds a further reserve, the *firm* is likely to need to have either undertaken a fresh protection strategy or carried through the alternative to the *derivative* protection (such as selling equities in place of a put *option*) if the existing protection expires before the financial year end. If the existing *derivative* protection continues beyond the time of financial year end the *firm* must have sufficient confidence that it can renew its *derivative* protection or an alternative to achieve the same effect.

3.1.16

PRA

R

Market risk scenario for assets invested in the United Kingdom

In ■ INSPRU 3.1.10 R (3)(a), the *market risk* scenario for assets invested in the *United Kingdom* and for assets (including assets invested outside the *United Kingdom*) held to cover *index-linked liabilities* or *property-linked liabilities* which a *firm* must assume is:

- (1) a fall in the *market value* of equities of at least 10% or, if greater, the lower of:
 - (a) a percentage fall in the *market value* of equities which would produce an earnings yield on the FTSE Actuaries All Share Index equal to 4/3 rds of the long-term gilt yield; and
 - (b) a fall in the *market value* of equities of 25% less the *equity market adjustment ratio* (see ■ INSPRU 3.1.19 R);
- (2) a fall in real estate values of 20% less the *real estate market adjustment ratio* for an appropriate real estate index (see ■ INSPRU 3.1.21 R);
- (3) (a) the more onerous of either a fall or rise in yields on all fixed interest securities by the percentage point amount determined in (b);
 - (b) for the purpose of (a), the percentage point amount is equal to 20% of the long-term gilt yield.

3.1.17
PRA

R For the purposes of ■ INSPRU 3.1.16 R (1) and ■ INSPRU 3.1.16 R (2), a *firm* must:

- (1) assume that earnings for equities and rack rents for real estate fall by 10%, but dividends for equities remain unaltered (see ■ INSPRU 3.1.36 R to ■ INSPRU 3.1.38 R); and
- (2) model a fall in equity and real estate markets as if the fall occurred instantaneously.

3.1.18
PRA

G An example of ■ INSPRU 3.1.16 R (3) is that, where the long-term gilt yield is currently 6%, a *firm* would assume an increase of 20% in that yield, that is, a change of 1.2 percentage points. For the purpose of the scenario in ■ INSPRU 3.1.16 R (3)(a), the *firm* would assume a fall or rise of 1.2 percentage points in yields on all fixed interest securities.

Equity market adjustment ratio

3.1.19
PRA

R The equity market adjustment ratio referred to in ■ INSPRU 3.1.16 R (1)(b) is:

- (1) if the ratio calculated in (a) and (b) lies between 75% and 100%, the result of 100% less the ratio (expressed as a percentage) of:
 - (a) the current value of the FTSE Actuaries All Share Index; to
 - (b) the average value of the FTSE Actuaries All Share Index over the preceding 90 calendar days;
- (2) 0%, if the ratio calculated in (1)(a) and (b) is more than 100%; and
- (3) 25%, if the ratio calculated in (1)(a) and (b) is less than 75%.

3.1.20
PRA

R In ■ INSPRU 3.1.19 R, the average value of the FTSE Actuaries All Share Index over any period of 90 calendar days means the arithmetic mean based on levels at the close of business on each of the days in that period on which the London Stock Exchange was open for trading.

Real estate market adjustment ratio

3.1.21
PRA

R The real estate market adjustment ratio for a real estate index referred to in ■ INSPRU 3.1.16 R (2) and ■ INSPRU 3.1.23 R (2) is:

- (1) if the ratio calculated in (a) and (b) lies between 90% and 100%, the result of 100% less the ratio (expressed as a percentage) of:
 - (a) the current value of the real estate index; to
 - (b) the average value of that real estate index over the three preceding *financial years*;

- (2) 0%, if the ratio calculated in (1)(a) and (b) is more than 100%;
and
- (3) 10%, if the ratio calculated in (1)(a) and (b) is less than 90%.

3.1.22

PRA

G

For the purpose of calculating the *real estate market adjustment ratio* in ■ INSPRU 3.1.21 R, a *firm* should select an appropriate index of real estate values such that:

- (1) the constituents of the index are reasonably representative of the nature and territory of the real estate included in the range of assets identified in accordance with ■ INSPRU 3.1.10 R; and
- (2) the frequency of, and historical data relating to, published values of the index are sufficient to enable an average value(s) of the index to be calculated over the three preceding *financial years*.

3

Market risk scenario for assets invested outside the United Kingdom

3.1.23

PRA

R

In ■ INSPRU 3.1.10 R (3)(b), subject to ■ INSPRU 3.1.26 R, the *market risk* scenario for assets invested outside the *United Kingdom* (other than assets held to cover *index-linked liabilities* or *property-linked liabilities*) which a *firm* must assume is, for each significant territory in which assets are invested outside the *United Kingdom*:

- (1) an appropriate fall in the *market value* of equities invested in that territory, which is at least equal to the percentage fall determined in ■ INSPRU 3.1.16 R;
- (2) a fall in real estate values in that territory of 20% less the real estate market adjustment ratio for an appropriate real estate index for that territory (see ■ INSPRU 3.1.21 R); and
- (3) (a) the more onerous of either a fall or a rise in yields on all fixed interest securities by the percentage point amount determined in (b);
(b) for the purpose of (a), the percentage point amount is equal to 20% of the nearest equivalent (in respect of the method of calculation) to the long term gilt yield.

3.1.24

PRA

R

For the purposes of ■ INSPRU 3.1.23 R (1), an appropriate fall in the *market value* of equities invested in a significant territory must be determined having regard to:

- (1) an appropriate equity market index for that territory; and
- (2) the historical volatility of the equity market index selected in (1).

3.1.25

PRA

G

For the purpose of ■ INSPRU 3.1.24 R (1), an appropriate equity market index for a territory is such that:

- (1) the constituents of the index are reasonably representative of the nature of the equities held in that territory which are included in the range of assets identified in accordance with ■ INSPRU 3.1.10 R; and
- (2) the frequency of, and historical data relating to, published values of the index are sufficient to enable an average value(s) and historical volatility of the index to be calculated over at least the three preceding *financial years*.

3.1.26

FCA PRA

R

Where the assets of a *firm* invested in a significant territory of a kind referred to in ■ INSPRU 3.1.23 R (1), ■ INSPRU 3.1.23 R (2) or ■ INSPRU 3.1.23 R (3)(a) represent less than 0.5% of the *firm's long-term insurance assets* (excluding assets held to cover *index-linked liabilities* or *property-linked liabilities*), measured by *market value*, the *firm* may assume for those assets the *market risk* scenario for assets of that kind invested in the *United Kingdom* set out in ■ INSPRU 3.1.16 R instead of the *market risk* scenario set out in ■ INSPRU 3.1.23 R.

Interest rates: general insurance liabilities

3.1.27

PRA

G

The rates of interest to be used for the calculation of the present values of *general insurance liabilities* are specified in the *insurance accounts rules*, except where benefits resulting from a *claim* must be paid in the form of an annuity, in which case the rules require calculation by recognised actuarial methods. In the case of *claims* not payable in the form of an annuity, the *insurance accounts rules* state that the rate of interest to be used must not exceed the lowest of:

- (1) a rate prudently estimated by the *firm* to be earned by assets of the *firm* that are appropriate in magnitude and nature to cover the provisions for *claims* being discounted, during the period necessary for the payment of such *claims*;
- (2) a rate justified by the performance of such assets over the preceding five years; and
- (3) a rate justified by the performance of such assets during the year preceding the balance sheet date.

Interest rates: long-term insurance liabilities

3.1.28

PRA

R

- (1) The rates of interest required by ■ INSPRU 1.2.33 R to be used by a *firm* for the calculation of the present value of a *long-term insurance liability* must not exceed 97.5% of the risk-adjusted yield (see ■ INSPRU 3.1.30 R to ■ INSPRU 3.1.48 G) that is expected to be achieved on:
 - (a) the assets allocated to cover that liability;
 - (b) the reinvestment of sums expected to be received from those assets (see ■ INSPRU 3.1.45 R to ■ INSPRU 3.1.48 G); and

(c) the investment of future *premium* receipts (see ■ INSPRU 3.1.45 R to ■ INSPRU 3.1.48 G).

(2) (1) does not apply to a *long-term insurance contract* in respect of which the *firm* has calculated a negative value for the *mathematical reserves* in accordance with ■ INSPRU 1.2.24 R.

3.1.29

PRA

R

For the purposes of ■ INSPRU 3.1.28 R, the rates of interest assumed must allow appropriately for the rates of tax that apply to the investment return on policyholder assets. The rates of tax assumed must be such that the *firm's* total implied liability for tax arising from the allocation of assets to liabilities is not less than the *firm's* actual expected liability for tax for the period in respect of which tax is to be assessed.

3.1.29A

PRA

G

■ INSPRU 3.1.28 R only applies to a *long-term insurance contract* in respect of which a *firm* has calculated *mathematical reserves* with a positive value. A *firm* may, however, also have *long-term insurance contracts* where the value of future cash inflows under and in respect of the contract exceeds that of outflows, allowing the *firm* to calculate a negative value for the *mathematical reserves* for that contract (see ■ INSPRU 1.2.24 R). In calculating the present value of future net cash flows under and in respect of the contract, the *firm* must include margins for adverse variation in accordance with ■ INSPRU 1.2.13 R. These margins should include margins for *market risk* and, where relevant, credit risk. For those margins to be sufficiently prudent as required by ■ INSPRU 1.2.13 R, the rate of interest used may need to be higher than that which would apply under ■ INSPRU 3.1.28 R.

Risk-adjusted yield

3.1.30

PRA

R

A risk-adjusted yield on an asset must be calculated by:

- (1) taking the asset together with any covering *derivatives*, forward transactions and *quasi-derivatives*;
- (2) assuming that the factors which affect the yield will remain unchanged after the valuation date (see ■ INSPRU 3.1.33 R);
- (3) valuing the asset (together with any offsetting transaction) in accordance with ■ GENPRU 1.3 (Valuation);
- (4) making reasonable assumptions as to whether, and if so when, any options or other rights embedded in the asset (or in any offsetting transaction) will be exercised.

3.1.31

PRA

G

Examples of calculating a combined yield for the purposes of ■ INSPRU 3.1.30 R (1):

- (1) 1000 1 *shares* (fully paid) of ABC plc covered by a sold *future* on the *shares*. Calculating the combined yield effectively results in a position that behaves like cash (with dividend income but no capital gain or loss on the value of the assets); and

- (2) where a covering *derivative* contains an *option* exercisable by the *firm* (e.g. a bought put *option* or receiver swaption), the calculation of the risk adjusted yield should take into account the fact that on the valuation assumptions any time value will reduce over time (known as the 'wasting' nature of the time value of the *option*), for example, an at-the money *option* will expire worthless and hence the covering *derivative* will effectively be a negative yielding asset. There are various ways of allowing for this, for example a *firm* could treat the covering *derivative* and the asset as a single asset and calculate an internal rate of return on this combined asset. Alternatively, an explicit reserve could be set up equal and opposite to the time value of the covering *derivative* which would be written off in the same way as the time value on the covering *derivative*.

3.1.32

PRA

G

The requirements in relation to offsetting transactions are set out in ■ INSPRU 3.2. The options and other rights referred to in ■ INSPRU 3.1.30 R (4) include those exercisable by the *firm* as well as those exercisable by other parties.

3.1.33

PRA

R

For the purpose of ■ INSPRU 3.1.30 R (2), the factors that affect yield should be ascertained as at the valuation date (that is, the date to which present values of cash flows are being calculated). All changes known to have occurred by that date must be taken into account including:

- (1) changes in the rental income from real estate;
- (2) changes in dividends or audited profit on equities;
- (3) known or forecast changes in dividends which have been publicly announced by the issuer by the valuation date;
- (4) known or forecast changes in earnings which have been publicly announced by the issuer by the valuation date;
- (5) alterations in capital structure; and
- (6) the value (at the most recent date at or before the valuation date for which it is known) of any determinant of the amount of any future interest or capital payment.

3.1.34

PRA

R

The risk-adjusted yield is either:

- (1) (for equities and real estate) a running yield (see ■ INSPRU 3.1.36 R to ■ INSPRU 3.1.38 R, ■ INSPRU 3.1.41 R and ■ INSPRU 3.1.44 R); or
- (2) (for all other assets) the internal rate of return (see ■ INSPRU 3.1.39 R, ■ INSPRU 3.1.41 R and ■ INSPRU 3.1.44 R).

3.1.35

PRA

R

The risk-adjusted yield on a basket of assets is the arithmetic mean of the risk-adjusted yield on each asset weighted by that asset's *market value*.

The running yield for real estate

3.1.36

PRA

R

For real estate the running yield is the ratio of:

- (1) the rental income arising from the real estate over the previous 12 months; to
- (2) the *market value* of the real estate.

The running yield for equities

3.1.37

PRA

R

For equities the running yield is:

- (1) the dividend yield, if the dividend yield is more than the earnings yield;
- (2) otherwise, the sum of the dividend yield and the earnings yield, divided by two.

3.1.38

PRA

R

For the purposes of ■ INSPRU 3.1.37 R:

- (1) the dividend yield is the ratio (expressed as a percentage) of dividend income over the previous 12 months from the equities for which the running yield is being calculated ("the relevant equities") to the *market value* of those equities;
- (2) the earnings yield is the ratio (expressed as a percentage) of the audited profit (including exceptional items and extraordinary items) for the preceding *financial year* of the issuer of the relevant equities to the *market value* of those equities;
- (3) the earnings yield must be calculated in accordance with whichever is most appropriate (to the issuer of the relevant equities) of *United Kingdom*, US or international generally accepted accounting practice.

The internal rate of return

3.1.39

PRA

R

The internal rate of return on an asset is the annual rate of interest which, if used to calculate the present value of future income (before deduction of tax) and of repayments of capital (before deduction of tax) would result in the sum of those amounts being equal to the *market value* of the asset.

3.1.40

PRA

G

The risk adjusted yield for a *collective investment scheme* may be determined as the weighted average of the yields on each of the investments held by the *collective investment scheme*.

Credit risk

3.1.41

PRA

R

In both the running yield and internal rate of return the yield must be reduced to exclude that part of the yield that represents compensation for credit risk arising from the asset.

3.1.42

PRA

G

An allowance for credit risk should be made for all securities except risk-free securities.

3.1.43

PRA

G

Provision for credit risk for credit-rated securities may be made by reference to historic default rates of securities with a similar credit rating. However, allowance should be made both for any recent or expected changes in market conditions that may invalidate historic default rates and for the likelihood that the credit ratings on securities may deteriorate or (following such deterioration) that the issuer may default.

3.1.44

PRA

R

Provision for credit risk for securities that are not credit-rated must be made on principles at least as prudent as those adopted for credit-rated securities.

Investment and reinvestment

3.1.45

PRA

R

Except as provided in ■ INSPRU 3.1.46 R:

- (1) the risk-adjusted yield assumed for the investment or reinvestment of sterling sums (other than sums expected to be received within the next three years) must not exceed the lowest of:
 - (a) the higher of:
 - (i) the long-term gilt yield; and
 - (ii) the greater of:
 - (A) the forward gilts yield; and
 - (B) the forward rate on sterling interest rate swaps, reduced to exclude that part of the rate that represents compensation for credit risk;

where the forward yields and forward rates corresponding to the time when the sums are expected to be received are weighted so as to reflect the investment and reinvestment characteristics of the liabilities covered;
 - (b) 3% per annum, increased by two thirds of the excess, if any, of the percentage in (a) over 3% per annum; and
 - (c) 6.5% per annum; and
- (2) the risk-adjusted yield assumed for the investment or reinvestment of those sterling sums expected to be received within the next three years must not exceed the risk-adjusted yield on the assets actually held adjusted linearly over the three-year period to the risk-adjusted yield determined under (1).

3.1.46

PRA

R

For the *with-profits insurance contracts of a realistic basis life firm*, the risk-adjusted yield assumed for the investment or reinvestment of sums denominated in sterling must be no more than the greater of:

- (1) the forward gilts yield; and
- (2) the forward rate on sterling interest rate *swaps*, reduced to exclude that part of the rate that represents compensation for credit risk;

where the forward yields and forward rates corresponding to the times when the sums are expected to be received are weighted so as to reflect the investment and reinvestment characteristics of the liabilities covered .

3.1.47

PRA

R

The risk-adjusted yield assumed for the investment or reinvestment of sums denominated in a currency other than sterling must be at least as prudent as in ■ INSPRU 3.1.45 R and ■ INSPRU 3.1.46 R taking into account the yields on government securities denominated in that currency.

3.1.47A

PRA

R

For the purpose of ■ INSPRU 3.1.47 R the yields on the government securities must be reduced to exclude that part of the yield that represents compensation for credit risk unless the following conditions are satisfied in relation to the issuer of those securities:

- (1) a credit rating is available from at least one of the rating agencies listed in ■ INSPRU 1.3.93 R; and
- (2) the credit rating description in the first column of Table ■ INSPRU 1.3.90 R corresponding to the lowest such credit rating is either exceptional or extremely strong or very strong.

3.1.48

PRA

G

The purpose of ■ INSPRU 3.1.45 R to ■ INSPRU 3.1.47 R is to help protect against 'reinvestment risk'. Reinvestment risk is the risk that, when the sums are actually received, interest rates (and so yields available on assets) might have fallen below current expectations.

Currency risk

3.1.49

PRA

G

Fluctuations in foreign exchange rates may impact adversely upon a *firm*, including where it holds an open position in a foreign currency. This is where future cash outflows (that is liabilities) in one currency are matched by future cash inflows (that is assets) in a different currency. The circumstances in which this could arise include where the *firm*:

- (1) has entered into contracts for the purchase or sale of foreign currency; or
- (2) has entered into *contracts of insurance* under which *claims* are payable in, or determined by reference to a value or price expressed in, a foreign currency; or
- (3) holds assets denominated in a foreign currency.

Cover for spot and forward currency transactions

3.1.50

PRA

R

A *firm* must cover a contract providing for the purchase or sale of foreign currency by:

- (1) holding the currency that must be paid by the *firm* under the contract; or
- (2) being subject to an offsetting transaction.

3.1.51

PRA

G

The requirements in relation to cover and offsetting transactions are set out in ■ INSPRU 3.2.

Currency matching of assets and liabilities

3.1.52

PRA

G

■ INSPRU 1.1.34 R requires a *firm* to cover its liabilities with assets that enable it to match, in timing, amount and currency, the cash inflows and outflows from those assets and liabilities. This permits some currency mismatching of assets and liabilities, but only if sufficient excess assets are held to cover the exposure arising from such mismatching. The level of permitted currency mismatching is also limited by ■ INSPRU 3.1.53 R.

3.1.53

PRA

R

- (1) Subject to ■ INSPRU 3.1.54 R, a *firm* must hold *admissible assets* in each currency of an amount equal to at least 80% of the amount of its liabilities in that currency arising under or in connection with *contracts of insurance* (but excluding, for a *firm* that carries on *general insurance business*, any *non-credit equalisation provision*), except where the amount of those assets does not exceed 7% of the assets in other currencies.
- (2) In (1) references to an asset in a currency are to an asset which is expressed in or capable of being realised (without exchange risk) in that currency, and an asset is capable of being so realised if it is reasonably capable of being realised in that currency without risk that changes in exchange rates would reduce the cover for liabilities in that currency.

3.1.53A

PRA

G

For the purpose of ■ INSPRU 3.1.53 R, a *firm* may allocate the total *credit equalisation provisions* to different currencies in proportion to the split by currency of the *technical provisions* for credit *insurance business* established in accordance with ■ GENPRU 1.3.4 R. Alternatively, another allocation which the *firm* is able to justify as broadly appropriate may be used.

3.1.54

PRA

R

■ INSPRU 3.1.53 R does not apply to:

- (1) a *pure reinsurer*; or
- (2) assets held to cover *index-linked liabilities* or *property-linked liabilities*.

3.1.55

PRA

R For the purpose of ■ INSPRU 3.1.53 R, the currency of the liability under a *contract of insurance* is the currency in which the cover under the *contract of insurance* is expressed or, if the contract does not specify a currency:

- (1) the currency of the country or territory in which the risk is situated; or
- (2) if the *firm* on reasonable grounds so decides, the currency in which the *premium* payable under the contract is expressed; or
- (3) if, taking into account the nature of the risks insured, the *firm* considers it more appropriate:
 - (a) the currency (based on past experience) in which it expects the *claims* to be paid; or
 - (b) if there is no past experience, the currency of the country or territory in which the *firm* or relevant branch is established:
 - (i) for contracts covering risks falling within general insurance business classes 4, 5, 6, 7, 11, 12 and 13 (producer's liability only); and
 - (ii) for contracts covering risks falling within any other general insurance business class where, in accordance with the nature of the risks, the *firm's* liabilities are liabilities to be provided in a currency other than that which would result from the application of (1) or (2); or
- (4) (where a *claim* has been notified to the *firm* and the *firm's* liability in respect of that *claim* is payable in a currency other than that which would result from the application of (1), (2) or (3)) the currency in which the *claim* is to be paid; or
- (5) (where a *claim* is assessed in a currency known to the *firm* in advance and is a currency other than that which would result from the application of (1), (2), (3) or (4)) the currency in which the *claim* is to be assessed.

3.1.56

PRA

G The reasonable grounds in ■ INSPRU 3.1.55 R (2) include if, from the time the contract is entered into, it appears likely that a *claim* will be paid in the currency of the *premium* and not in the currency of the country in which the risk is situated.

Covering linked liabilities

3.1.57

FCA

PRA

R A *firm* must cover its *property-linked liabilities* with:

- (1) (as closely as possible) the assets to which those liabilities are linked; or
- (2) a property-linked *reinsurance* contract; or

3.1.58

FCA PRA

R

A *firm* must cover its *index-linked liabilities* with:

- (1) either:
 - (a) the assets which represent that index; or
 - (b) assets of appropriate security and marketability which correspond, as closely as possible, to the assets which are comprised in, or which form, the index or other reference of value to which those liabilities are linked; or
- (2) a portfolio of assets whose value or yield is reasonably expected to correspond closely with the *index-linked liability*; or
- (3) an index-linked *reinsurance* contract; or
- (4) an index-linked *approved derivative*; or
- (5) an index-linked *approved quasi-derivative*; or
- (6) a combination of any of (1) to (5).

3.1.58A

PRA

R

■ INSPRU 3.1.57 R and ■ INSPRU 3.1.58 R do not apply to a *pure reinsurer*.

3.1.59

FCA PRA

G

For the purposes of ■ INSPRU 3.1.57 R and ■ INSPRU 3.1.58 R, a *firm* is not permitted to hold different assets and to cover the mismatch by holding excess assets.

3.1.60

FCA PRA

G

If a *firm* has incurred a *policy* liability which cannot be exactly matched by appropriate assets (for example the Limited Price Index (LPI)), the *firm* should seek to match assets that at least cover the liabilities. For example, an LPI limited to 5% per annum may be matched by an RPI bond or a fixed interest investment matching cash flows increasing at 5% per annum compound. Orders made by the Department for Work and Pensions under section 148 of the Social Security Administration Act 1992, and which are limited to 5% per annum, may also be matched by a fixed interest investment matching cash flows increasing at 5% per annum compound (see also ■ INSPRU 3.1.61A G).

3.1.61

FCA PRA

G

In selecting the appropriate cover, the *firm* should ensure that both credit risk, and the risk that the value or yield in the assets will not, in all circumstances, match fluctuations in the relevant index, are within acceptable limits. *Rules* and *guidance* relating to credit risk are set out in ■ INSPRU 2.1.

3.1.61-A

FCA PRA

G

Where liabilities are linked to orders made under section 148 of the Social Security Administration Act 1992, *firms* are required by COBS 21.3.5R to notify the *PRA* before effecting any such business and to explain how the risks associated with this business will be safely managed. This requirement does not apply in respect of liabilities for which a limited revaluation premium has been paid to the Department for Work and Pensions so that the liability for revaluation, while still linked to section 148

orders, is limited to 5%. The risks may be mitigated by holding assets to cover an alternative index which is reasonably expected to at least cover the section 148 order (e.g. RPI plus a margin) over the duration of the link. The *firm's* exposure to an order under section 148 exceeding this index should be appropriately limited by putting a cap on the liabilities linked to the order so that risks are within acceptable limits.

Pure reinsurers

3.1.61A

R

FCA PRA

A *pure reinsurer* must invest its assets in accordance with the following requirements:

- (1) the assets must take account of the type of business carried out by the *firm*, in particular the nature, amount and duration of expected *claims* payments, in such a way as to secure the sufficiency, liquidity, security, quality, profitability and matching of its investments;
- (2) the *firm* must ensure that the assets are diversified and adequately spread and allow the *firm* to respond adequately to changing economic circumstances, in particular developments in the financial markets and real estate markets or major catastrophic events; the *firm* must assess the impact of irregular market circumstances on its assets and must diversify the assets in such a way as to reduce such impact;
- (3) investment in assets which are not admitted to trading on a *regulated market* must be kept to prudent levels;
- (4) investment in *derivatives* and *quasi-derivatives* must contribute to a reduction of investment risks or facilitate efficient portfolio management and such investments must be valued on a prudent basis, taking into account the underlying assets, and included in the valuation of the *firm's* assets. The *firm* must avoid excessive risk exposure to a single *counterparty* and to other *derivative* or *quasi-derivative* operations;
- (5) the assets must be properly diversified in such a way as to avoid:
 - (a) excessive reliance on any one particular asset, *issuer* or *group* of *undertakings*; and
 - (b) accumulations of risk in the portfolio as a whole.

Investments in assets issued by the same *issuer* or by *issuers* belonging to the same *group* must not expose the *firm* to excessive risk concentration; and
- (6) (5) does not apply to investment in government bonds.

Application of INSPRU 3.1 to Lloyd's

3.1.62

FCA PRA

R

■ INSPRU 3.1 applies to *managing agents* and to the *Society* in accordance with:

- (1) for *managing agents* ■ INSPRU 8.1.4 R, subject to ■ INSPRU 3.1.65 R below; and
- (2) for the *Society*, ■ INSPRU 8.1.2 R.

Resilience capital requirement (applicable to long-term business only)

3.1.63

PRA

R

Managing agents must calculate the amount of the *resilience capital requirement* for the *long-term insurance business* carried on through the *syndicates* they manage.

3.1.64

PRA

R

The *Society* must determine the *resilience capital requirement* for the *insurance business* of each *member* under ■ INSPRU 3.1.10 R as the *member's* proportionate share of the *resilience capital requirement* calculated by the *managing agent* for the *long-term insurance business* carried on through the *syndicate*.

Currency risk: matching of assets and liabilities

3.1.65

PRA

R

For the purposes of ■ INSPRU 3.1.53 R, a *managing agent* must ensure that:

- (1) *syndicate liabilities* are covered by matching *syndicate assets* as required by ■ INSPRU 3.1.53 R; or that
- (2) it immediately notifies to the *Society* the nature and extent of any *syndicate liabilities* not covered by matching assets under (1).

3.1.66

PRA

R

On receipt of a notification by a *managing agent* under ■ INSPRU 3.1.65 R (2), the *Society* must ensure that the liabilities in respect of the *insurance business* of the members in aggregate are covered with matching assets complying with ■ INSPRU 3.1.53 R.

3.2 Derivatives in insurance

Application

3.2.1

FCA PRA

R

This section applies to an *insurer*, unless it is:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*; or
- (4) a *pure reinsurer*.

3.2.2

FCA PRA

G

The scope of application of ■ INSPRU 3.2 is not restricted to *firms* that are subject to the relevant *EU* directives.

3.2.3

FCA PRA

R

- (1) This section applies to a *firm* in relation to the whole of its business, except where a particular provision provides for a narrower scope.
- (2) Where a *firm* carries on both *long-term insurance business* and *general insurance business*, this section applies separately to each type of business.

3.2.3A

FCA PRA

G

References in this section to *GENPRU* are to *GENPRU* in the *PRA Handbook*.

Purpose

3.2.4

FCA PRA

G

■ GENPRU 2.2.17 R requires a *firm* to calculate its *capital resources* for the purpose of *GENPRU* in accordance with the *capital resources table*, subject to the limits in ■ GENPRU 2.2.32 R to ■ GENPRU 2.2.41 R. The *capital resources table* and ■ GENPRU 2.2.251 R require a *firm* to deduct from total *capital resources* the value of any asset included in an insurance fund which is not an *admissible asset* as listed in ■ GENPRU 2 Annex 7 R. ■ GENPRU 2 Annex 7 R provides that a *derivative*, *quasi-derivative* or *stock lending transaction* will only be an *admissible asset* if it is approved. This section sets out the criteria for determining when a *derivative*, *quasi-derivative* or *stock lending transaction* is approved for this purpose. ■ INSPRU 3.2.5 R to ■ INSPRU 3.2.35 R set out the criteria for *derivatives* and *quasi-derivatives*. ■ INSPRU 3.2.36 R to ■ INSPRU 3.2.41 R set out the criteria for *stock lending transactions*.

Derivatives and quasi-derivatives

3.2.5

FCA PRA

R

For the purpose of ■ GENPRU 2 Annex 7 R (Admissible assets in insurance), and also in relation to *permitted links*, a *derivative* or *quasi-derivative* is approved if:

- (1) it is held for the purpose of efficient portfolio management (■ INSPRU 3.2.6 R to ■ INSPRU 3.2.7 R) or reduction of investment risk (■ INSPRU 3.2.8 R to ■ INSPRU 3.2.13 G);
- (2) it is covered (■ INSPRU 3.2.14 R to ■ INSPRU 3.2.33 G); and
- (3) it is effected or issued:
 - (a) on or under the rules of a *regulated market*; or
 - (b) off-market with an *approved counterparty* and, except for a forward transaction, on approved terms and is capable of valuation (■ INSPRU 3.2.34 R to ■ INSPRU 3.2.35 R).

3.2.5A

FCA PRA

G

- (1) ■ GENPRU 2 Annex 7 R (3) requires *firms* to consider first whether an asset is a *derivative* or *quasi-derivative* transaction notwithstanding that it is also capable of falling within one or more other categories in ■ GENPRU 2 Annex 7 R (1). If it is a *derivative* or *quasi-derivative* transaction it is only admissible if it satisfies the conditions for it to be approved under ■ INSPRU 3.2.5 R. *Firms* should be able to justify whether or not their assets are *derivatives* or *quasi-derivatives*.
- (2) A *quasi-derivative* is defined as a contract or asset that has the effect of a *derivative* contract. *Quasi-derivatives* may be regarded as those contracts or assets which are not *derivatives* but which effectively contain an embedded *derivative* component which significantly impacts the contracts or assets cash flow and risk profile so as to mirror the economic effect of a *derivative*. A *derivative* is defined in the *Glossary* as a *contract for differences*, a *future* or an *option* and includes a *securitised derivative*, which is an *option* or *contract for differences* that is *listed*. A *securitised derivative* may also be a *debenture*.
- (3) A deposit with interest or other return calculated by reference to an index or other factor is excluded from the definition of *contract for differences* by article 85(2) of the *Regulated Activities Order*. However, if the return on the deposit is in the nature of that on a *derivative* (for example, an *option* or a *future*) then the deposit is a *quasi-derivative*.
- (4) A holding in a fund investing in *derivatives* may or may not be a *quasi-derivative* depending on its ongoing investment policy and governance and any investment decisions from time to time which might deviate significantly from the investment policy. It should be treated as a *quasi-derivative* if its risk profile is such that the value of *units* in the fund is expected to mirror the value of a *derivative*.
- (5) The assets in the following list, which is illustrative and not exhaustive, all have features which could lead to their being assumed to be *quasi-derivatives*:

- (a) a bond whose redemption proceeds are directly linked to the performance of the FTSE 100 index but with a guaranteed minimum;
- (b) an investment fund that is managed to give high leverage that mirrors a call option;
- (c) an investment whose value it is reasonably foreseeable could become negative; and
- (d) a credit-linked note, that is, a security with an embedded credit default swap.

Efficient portfolio management

3.2.6

FCA PRA

R

A *derivative* or *quasi-derivative* is held for the purpose of efficient portfolio management if the *firm* reasonably believes the *derivative* or *quasi-derivative* (either alone or together with any other covered transactions) enables the *firm* to achieve its investment objectives by one of the following (or, in relation to *permitted links*, in a manner which includes but is not limited to) :

- (1) generating additional capital or income in one of the ways described in ■ INSPRU 3.2.7 R; or
- (2) reducing tax or investment cost in relation to *admissible assets* or *permitted links* ; or
- (3) acquiring or disposing of rights in relation to *admissible assets* or *permitted links* , or their equivalent, more efficiently or effectively.

Generation of additional capital or income

3.2.7

FCA PRA

R

The generation of additional capital or income falls within ■ INSPRU 3.2.6 R (1) where it arises from:

- (1) taking advantage of pricing imperfections in relation to the acquisition and disposal (or disposal and acquisition) of rights in relation to assets the same as, or equivalent to, *admissible assets* or *permitted links*; or
- (2) receiving a premium for selling a covered call *option* or its equivalent, the underlying of which is an *admissible asset* or *permitted link* , even if that additional capital or income is obtained at the expense of surrendering the chance of greater capital or income.

Reduction of investment risk

3.2.8

FCA PRA

R

A *derivative* or *quasi-derivative* is held for the purpose of reducing investment risk if the *derivative* or *quasi-derivative* (either alone or together with other fully covered transactions) reduces any aspect of investment risk without significantly increasing any other aspect of that risk.

3.2.9

FCA PRA

R

Significant increase in risk

For the purposes of ■ INSPRU 3.2.8 R, an increase in risk from a *derivative* or *quasi-derivative* is significant unless:

- (1) relative to any reduction in investment risk it is both small and reasonable; or
- (2) the risk is remote.

3.2.10

FCA PRA

G

■ INSPRU 3.2.8 R does not require that a *derivative* or *quasi-derivative* has no possible adverse consequences. Often a *derivative* or *quasi-derivative* is effected to protect against a severe adverse consequence that only arises in one circumstance. In all other circumstances it may itself lead to adverse consequences, even if only because it expires worthless resulting in the loss of the purchase price. Conversely a *derivative* or *quasi-derivative* may reduce risk in a wide range of circumstances but lead to adverse consequences when a particular circumstance arises, e.g. the default of the *counterparty*. Only rarely does a *derivative* or *quasi-derivative* give rise to no adverse consequences in any circumstances. The test is merely that the increase in risk should not be significant, that is it should be both small and reasonable, or the risk should be remote.

3.2.11

FCA PRA

G

Firms are reminded that ■ INSPRU 2.1 (Credit risk in insurance) sets out the different types of loss mitigation techniques.

Investment risk

3.2.12

FCA PRA

R

For the purposes of ■ INSPRU 3.2.8 R, investment risk is the risk that the assets held by a *firm*:

- (1) (where they are *admissible assets* held by the *firm* to cover its *technical provisions*) might not be:
 - (a) of a value at least equal to the amount of those *technical provisions* as required by ■ INSPRU 1.1.20 R; or
 - (b) of appropriate safety, yield and marketability as required by ■ INSPRU 1.1.34 R (1)(a); or
 - (c) of an appropriate currency match as required by ■ INSPRU 3.1.53 R;
- (2) (where they are held to cover *index-linked liabilities*) might not be appropriate cover for those liabilities as required by ■ INSPRU 3.1.58 R; and
- (3) (where they are held to cover *property-linked liabilities*) might not be appropriately selected in accordance with contractual and constructive liabilities as required by ■ INSPRU 1.5.36 R and appropriate cover for those liabilities as required by ■ INSPRU 3.1.57 R.

3.2.13

FCA PRA

G

In assessing whether investment risk is reduced, the impact of a transaction on both the assets and liabilities should be considered. In particular, where the amount of liabilities depends upon the fluctuations in an index or other factor, investment risk is reduced where assets whose value fluctuates in the same way match those liabilities. In appropriate circumstances this may include:

- (1) a *derivative* or *quasi-derivative* that is linked to the same index as the liabilities from the index-linked contracts; and
- (2) a *derivative* or *quasi-derivative* whose value depends upon the factors which give rise to general insurance claims, e.g. a weather *quasi-derivative*.

Cover

3.2.14

FCA PRA

R

A *firm* must cover an obligation to transfer assets or pay monetary amounts that arises from:

- (1) a *derivative* or *quasi-derivative*; or
- (2) a contract (other than a *contract of insurance*) for the purchase, sale or exchange of assets.

3.2.15

FCA PRA

R

An obligation to transfer assets or pay monetary amounts (see ■ INSPRU 3.2.14 R) must be covered:

- (1) by assets, a liability or a provision (see ■ INSPRU 3.2.16 R to ■ INSPRU 3.2.24 R); or
- (2) by an offsetting transaction (see ■ INSPRU 3.2.25 R to ■ INSPRU 3.2.27 R).

3.2.16

FCA PRA

R

An obligation to transfer assets (other than *money*) or to pay monetary amounts based on the value of, or income from, assets is covered if the *firm* holds:

- (1) those assets; or
- (2) in the case of an index or basket of assets, a reasonable approximation to those assets.

3.2.17

FCA PRA

R

An obligation to pay a monetary amount (whether or not falling in ■ INSPRU 3.2.16 R) is covered if:

- (1) the *firm* holds *admissible assets* or *permitted links* that are sufficient in value so that the *firm* reasonably believes that following reasonably foreseeable adverse variations (relying solely on cashflows from, or from realising, those assets) it could pay the monetary amount in the right currency when it falls due; or

- (2) the obligation to pay the monetary amount is offset by a liability. An obligation is offset by a liability where an increase in the amount of that obligation would be offset by a decrease in the amount of that liability; or
- (3) a provision at least equal to the value of the assets in (1) is implicitly or explicitly set up. A provision is implicitly set up to the extent that the obligation to pay the monetary amount is recognised under ■ GENPRU 1.3 (Valuation) either by offset against an asset or as a separate liability. A provision is explicitly set up if it is in addition to an implicit provision.

3.2.18

FCA PRA

R

A *firm* must implicitly or explicitly set up a provision equal to the value of the assets or offsetting transactions held to cover a non-approved *derivative* or *quasi-derivative* transaction.

3.2.19

FCA PRA

G

A *firm* is required to cover a *derivative* under ■ INSPRU 3.2.14R whether it satisfies the other conditions for approval under ■ INSPRU 3.2.5R or not. Under ■ INSPRU 3.2.17R a *firm* may cover an obligation to pay a monetary amount by setting up a provision. If the *derivative* is not covered at any time by other means then a provision needs to be set up to complete the cover taking into account obligations to pay monetary amounts that would arise if, for example, an obligation to transfer assets could not be met in full. By doing so, a *derivative* becomes covered. If it satisfies the other conditions under ■ INSPRU 3.2.5R it is an *approved derivative* and may be taken into account for solvency purposes to the extent permitted by the large exposure limits and market risk and counterparty limits.

3.2.20

FCA PRA

G

Exposure to a transaction includes exposure that arises from a right at the *firm's* (or its *subsidiary undertaking's*) option to dispose of assets.

3.2.21

FCA PRA

G

Cover serves three purposes. First, it protects against exposure to loss from the transaction which is being covered. The value of the cover increases (or if the cover is a liability the amount of that liability decreases) to match any increase in obligations under the transaction.

3.2.22

FCA PRA

G

The second purpose of cover is that it prevents excessive gearing in the investment portfolio by the use of *options* and their equivalent. A *firm* is required to cover all obligations under an admissible transaction including obligations that would arise only at the option of the *firm*, e.g. the liability to pay the exercise price under a bought *option*.

3.2.23

FCA PRA

G

The third purpose of cover is that it protects against the risk that the *firm* may not be able to deliver assets (including *money* in any currency) of the right type when the obligation falls due under the transaction. An obligation to deliver assets is covered only if the *firm* holds those assets or has entered into an offsetting transaction that would deliver those assets when needed. An obligation to pay *money* is offset only if the *firm* holds cash in the right currency, its equivalent or assets that could reliably be converted into cash in the right currency.

3.2.24

FCA PRA

R

Cover used for one transaction must not be used for cover in respect of another transaction or any other agreement to acquire, or dispose of, assets or to pay or repay *money*.

Offsetting transactions

3.2.25

FCA PRA

R

An offsetting transaction means:

- (1) an *approved derivative*, *approved stock lending transaction* or an *approved quasi-derivative*; or
- (2) a covered transaction with an *approved counterparty* for the purchase of assets.

3.2.26

FCA PRA

R

A transaction offsets an obligation to transfer assets away from the *firm* only if it provides for the transfer to the *firm* of those assets, or their value, at the time, or before, the obligation falls due.

3.2.27

FCA PRA

R

A transaction offsets an obligation to pay a monetary amount only if it provides for that monetary amount to be paid to the *firm* at or before the earliest date on which the obligation might fall due.

Lending and borrowing assets

3.2.28

FCA PRA

R

Assets that have been lent by the *firm* are not available for cover, unless:

- (1) they are non-monetary assets that have been lent under a transaction that fulfils the conditions in ■ INSPRU 3.2.36 R; and
- (2) the *firm* reasonably believes the assets to be obtainable (by return or re-acquisition) in time to meet the obligation for which cover is required.

3.2.29

FCA PRA

R

Assets that have been borrowed by the *firm* are not available for cover except as allowed by ■ INSPRU 3.2.30 R.

3.2.30

FCA PRA

R

Borrowed *money* may be used as cover only where:

- (1) the *money* has been advanced or an *approved credit institution* has committed itself to advance the *money*; and
- (2) the borrowing is or would be covered.

3.2.31

FCA PRA

G

■ INSPRU 3.2.30 R in effect allows borrowings to be used to bridge the gap between an obligation under a transaction that might fall due at one date and cash or its equivalent that would only become due at a later date. Borrowings may not be used to gear the investment portfolio.

Examples of cover requirements

3.2.32

FCA PRA

G

Examples of cover by assets for the purposes of ■ INSPRU 3.2.16 R:

- (1) a bought put *option* (or a sold call *option*) on 1000 1 *shares* (fully paid) of ABC plc is covered by an existing holding in the fund of 1000 1 *shares* (fully paid) of ABC plc;
- (2) a bought call *option* (or sold put *option*) on 1000 ordinary 1 *shares* (fully paid) of ABC plc is covered by cash (or its equivalent) which is sufficient in amount to meet the purchase price of the *shares* on exercise of the *option*;
- (3) a bought or sold *contract for differences* on short-dated sterling is covered by cash (or its equivalent), the value of which together at least match the notional principal of the contract. For example, a LIFFE short sterling contract, or a successive series of such contracts, is covered by 500,000; and
- (4) a sold *future* on the FT-SE 100 index is covered by holdings of equities, which satisfy the reasonable approximation test for cover in ■ INSPRU 3.2.16 R (2) in relation to that *future*, and the values of which together at least match the current mark to market valuation of the *future*. For example, if the multiplier per full point is 10, and if the eventual obligation under the *future* is currently 2800, the valuation of the *futures* position is $2800 \times 10 = 28,000$.

3.2.33

FCA PRA

G

Examples of cover by offsetting transactions for the purpose of ■ INSPRU 3.2.25 R would include a bought *future* which is guaranteed to deliver to the *firm* at the relevant time sufficient assets to cover liabilities under a sold call *option*.

Off-market transactions

3.2.34

FCA PRA

R

For the purpose of ■ INSPRU 3.2.5 R (3)(b), a *derivative* or *quasi-derivative* is on approved terms only if the *firm* reasonably believes that it could, in all reasonably foreseeable circumstances and under normal market conditions, readily enter into a further transaction with the *counterparty* or a third party to close out the *derivative* or *quasi-derivative* at a price not less than the value attributed to it by the *firm*, taking into account any valuation adjustments or reserves established by the *firm* under ■ GENPRU 1.3.29 R to ■ GENPRU 1.3.34 R.

3.2.34A

FCA PRA

G

In considering whether the first transaction could be readily closed out in all reasonably foreseeable circumstances under normal market conditions, the *firm* should satisfy itself that it cannot reasonably foresee any circumstances in which it would need to close out all or part of the contract at a few days' notice, and would not be able to do so.

3.2.35

FCA PRA

R

For the purpose of ■ INSPRU 3.2.5 R (3)(b), a *derivative* or *quasi-derivative* is capable of valuation only if the *firm*:

- (1) is able to value it with reasonable accuracy on a reliable basis in compliance with ■ GENPRU 1.3.4 R; and

- (2) reasonably believes that it will be able to do so throughout the life of the transaction.

3.2.35A

FCA PRA

G

The purpose of ■ INSPRU 3.2.34 R and ■ INSPRU 3.2.35 R is to ensure the appropriate application of ■ GENPRU 1.3 to *derivatives* and *quasi-derivatives* effected or issued off-market with an *approved counterparty*.

Stock lending

3.2.36

FCA PRA

R

- (1) For the purposes of ■ GENPRU 2 Annex 7 R (Admissible assets in insurance), a *stock lending* transaction (including a *repo* transaction) is approved if:
- (a) the assets lent are *admissible assets*;
 - (b) , the *counterparty* is an *authorised person*, an *approved counterparty*, a *person* registered as a broker-dealer with the Securities and Exchange Commission of the United States of America or a bank, or a branch of a bank, supervised, and authorised to deal in investments as principal, with respect to *OTC derivatives* by at least one of the following federal banking supervisory authorities of the United States of America:
 - (i) the Office of the Comptroller of the Currency;
 - (ii) the Federal Deposit Insurance Corporation;
 - (iii) the Board of Governors of the Federal Reserve System; and
 - (iv) the Office of Thrift Supervision; and
 - (c) adequate and sufficiently immediate *collateral* (■ INSPRU 3.2.38 R to ■ INSPRU 3.2.41 R) is obtained to secure the obligation of the *counterparty*.
- (2) ■ INSPRU 3.2.36 R (1)(c) does not apply to a *stock lending* transaction made through Euroclear Bank SA/NV's Securities Lending and Borrowing Programme.

3.2.36A

FCA PRA

R

- (1) For the purposes of the *rules* on *permitted links*, a *stock lending* transaction (including a *repo* transaction) is approved if:
- (a) the assets lent are *permitted links*;
 - (b) the *counterparty* is an *authorised person*, an *approved counterparty*, a *person* registered as a broker-dealer with the Securities and Exchange Commission of the United States of America or a bank, or a branch of a bank, supervised, and authorised to deal in investments as principal, with respect to *OTC derivatives* by at least one of the following federal banking supervisory authorities in the United States of America:
 - (i) the Office of the Comptroller of the Currency;

- (ii) the Federal Deposit Insurance Corporation;
 - (iii) the Board of Governors of the Federal Reserve System; and
 - (iv) the Office of Thrift Supervision; and
- (c) adequately and sufficiently immediate *collateral* (■ INSPRU 3.2.38 R to ■ INSPRU 3.2.41 R) is obtained to secure the obligation of the *counterparty*; and
- (d) provided that, for the purposes of *property-linked assets* only:
- (i) where the *linked policyholder* bears the whole of the risk associated with the *stock lending* transaction, they must receive the whole of the recompense (net of fees and expenses);
 - (ii) the extent of any risk that the *linked policyholder* bears in relation to the *stock lending* transaction must be disclosed to them; and
 - (iii) where the risk associated with the *stock lending* transaction is borne outside the *linked fund*, the *linked fund* should receive a fair and reasonable recompense for the use of the *linked policyholders'* funds.

- (2) ■ INSPRU 3.2.36 R (1)(c) does not apply to a *stock lending* transaction made through Euroclear Bank SA/NVs Securities Lending and Borrowing Programme.

3.2.37

FCA PRA

G

■ INSPRU 3.2.36 R refers only to *stock lending* transactions where the *firm* is the lender. There are no special *rules* for a transaction under which the *firm* borrows securities.

Collateral

3.2.38

FCA PRA

R

For the purposes of ■ INSPRU 3.2.36 R (1)(c), *collateral* is adequate only if it:

- (1) is transferred to the *firm* or its agent or, in the case of a letter of credit, meets the conditions described in ■ INSPRU 3.2.38A R;
- (2) is, at the time of the transfer or, in the case of a letter of credit, at the time of issue, at least equal in value to the value of the securities transferred, or consideration provided, by the *firm*; and
- (3) is of adequate quality.

3.2.38A

FCA PRA

R

The conditions referred to in ■ INSPRU 3.2.38 R (1) are that the letter of credit is:

- (1) direct, explicit, unconditional and irrevocable; and
- (2) issued by an *undertaking* which is:
 - (a) not a *related undertaking* of the *counterparty*; and
 - (b) either an *approved credit institution* or a bank, or a branch of a bank, whether chartered by the federal government of the United States of America or a US state, that is supervised and examined by at least one of the following US federal banking supervisory authorities:
 - (i) the Office of the Comptroller of the Currency;
 - (ii) the Federal Deposit Insurance Corporation;
 - (iii) the Board of Governors of the Federal Reserve System; and
 - (iv) the Office of Thrift Supervision.

3.2.39

FCA PRA

G

For the purposes of assessing adequate quality in ■ INSPRU 3.2.38 R (3), reference should be made to the criteria for credit risk loss mitigation set out in ■ INSPRU 2.1.16 R. The valuation rules in ■ GENPRU 1.3 apply for the purpose of determining the value of both *collateral* received, and the *securities* transferred, by the *firm*. In addition, where *collateral* takes the form of assets transferred, under the *rules* in *GENPRU* any such asset that is not an *admissible asset* (see ■ GENPRU 2 Annex 7 R) does not have a value.

3.2.40

FCA PRA

R

For the purposes of ■ INSPRU 3.2.36 R (1)(c), *collateral* is sufficiently immediate only if:

- (1) it is transferred or, in the case of a letter of credit, issued before, or at the same time as, the transfer of the *securities* by the *firm*;
or
- (2) it will be transferred or, in the case of a letter of credit, issued, at latest, by the close of business on the day of the transfer.

3.2.41

FCA PRA

R

Collateral continues to be adequate only if its value is at all times at least equal to the value of the *securities* transferred by the *firm*. This will be satisfied in respect of *collateral* where the validity of the *collateral* or the *firm's* interest in the *collateral* is about to expire or has expired if sufficient *collateral* will again be transferred or issued at the latest by the close of business on the day of expiry.

3.2.42

FCA PRA

G

References in ■ INSPRU 3.2.40 R (2) and ■ INSPRU 3.2.41 R to the close of business on the day of the transfer or the day of expiry are to close of business on that day in all time regions.

Application of INSPRU 3.2 to Lloyd's

3.2.43

PRA

R

■ INSPRU 3.2 applies to *managing agents* and to the *Society* in accordance with:

- (1) for *managing agents*, ■ INSPRU 8.1.4 R; and
- (2) for the *Society*, ■ INSPRU 8.1.2 R.

3

Chapter 4

Liquidity risk management

4.1 Application

4.1.1 **R** ■ INSPRU 4.1 applies to an *insurer* unless ■ INSPRU 4.1.4 R applies.

PRA

4.1.2

PRA

R All of ■ INSPRU 4.1, except ■ INSPRU 4.1.16 G, applies to:

- (1) an *EEA-deposit insurer*; and
- (2) a *Swiss general insurer*;

but only in respect of the activities of the *firm* carried on from a *branch* in the *United Kingdom*.

4.1.3

PRA

R If a *firm* carries on:

- (1) *long-term insurance business*; and
- (2) *general insurance business*;

this section applies separately to each type of business.

4.1.4

PRA

R This section does not apply to:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

Purpose

4.1.5

PRA

G The purpose of this section is to amplify parts of *INSPRU* in their application to *liquidity risk* and, in so doing, to suggest minimum standards for management of that risk. The main relevant part, ■ SYSC 14 (Prudential risk management and associated systems and controls), itself amplifies *Principle 3* (Management and control) and SYSC (Senior management arrangements, Systems and Controls).

4.1.6

PRA

G Appropriate management of *liquidity risk* will vary with the scale, nature and complexity of the *firm's* activities. Most of the material in this section is, therefore, *guidance*. The section lays out some of the main issues that the *PRA* expects a *firm* to consider in relation to *liquidity risk*. A *firm* should assess the appropriateness of any

particular item of *guidance* in the light of the scale, nature and complexity of its activities as well as its obligations as set out in *Principle 3* to organise and control its affairs responsibly and effectively.

4.1.7

PRA

G

For *insurers*, references to *liquidity risk* in this section are intended to cover only those aspects of *liquidity risk* that do not fall under the heading of insurance risk. For such *firms*, the PRA sees the coverage of this section, broadly, as the management of risk arising from short-term cash-flows, rather than the risk arising from longer-term matching of assets and liabilities, which is part of insurance risk. *guidance* on systems and controls for managing insurance risk is set out in ■ SYSC 17 (Insurance risk systems and controls).

4.1.8

PRA

G

This section addresses the need to deal both with liquidity management issues under normal market conditions, and with stressed or extreme situations resulting from either general market turbulence or firm-specific difficulties.

Requirements

4.1.9

PRA

G

High level requirements for prudential systems and controls including for *liquidity risk* are set out in ■ SYSC 14 (Prudential risk management and associated systems and controls). In particular:

- (1) ■ SYSC 14.1.18 R requires a *firm*, among other things, to take reasonable steps to ensure the establishment of a business plan and appropriate systems for the management of prudential risk; and
- (2) ■ SYSC 14.1.19 R (2) requires a *firm*, among other things, to document its policy for managing *liquidity risk*, including its appetite or tolerance for this risk and how it identifies, measures, monitors and controls this risk.

4.1.10

PRA

G

This section sets out *guidance* on each of these areas, and notes a number of matters which the PRA would expect a *firm* to deal with in its *liquidity risk* policy statement as follows:

- (1) its *liquidity risk* strategy (see ■ INSPRU 4.1.12 G to ■ INSPRU 4.1.14 G), including:
 - (a) the role of marketable, or otherwise realisable, assets (see ■ INSPRU 4.1.21 G); and
 - (b) its strategy for mitigating *liquidity risk* on the liability side (see ■ INSPRU 4.1.26 G);
- (2) its method for measuring *liquidity risk* (see ■ INSPRU 4.1.44 G)

Managing liquidity risk

4.1.11

PRA

G

This section amplifies the general requirements in ■ SYSC 14 by describing the key high level arrangements that the PRA would normally expect to be in place to ensure that a *firm's liquidity risk* management system is adequate.

Governing body and senior management oversight

4.1.12

PRA

G

■ SYSC 14.1.11 G amplifies ■ SYSC 2.1.1 R and ■ SYSC 2.1.3 R which require the apportionment, and allocation, of significant responsibilities to be such that the business and affairs of the *firm* can be adequately monitored and controlled by the *directors*, relevant senior executives and *governing body* of the *firm*. Effective *liquidity risk* management entails an informed board, capable management and appropriate staffing. The *governing body* and senior management are responsible for understanding the nature and level of *liquidity risk* assumed by the *firm* and the tools used to manage that risk.

4.1.13

PRA

G

In relation to *liquidity risk*, the *governing body's* responsibilities should normally include:

- (1) approving the *firm's liquidity risk* policy, which includes taking reasonable steps to ensure that it is consistent with the *firm's* expressed risk tolerance (see ■ INSPRU 4.1.15 G to ■ INSPRU 4.1.17 G);
- (2) establishing a structure for the management of *liquidity risk* including the allocation of appropriate senior managers who have the authority and responsibility to manage *liquidity risk* effectively, including the establishment and maintenance of the *firm's liquidity risk* policy;
- (3) monitoring the *firm's* overall *liquidity risk* profile on a regular basis and being made aware of any material changes in the *firm's* current or prospective *liquidity risk* profile; and
- (4) taking reasonable steps to ensure that *liquidity risk* is adequately identified, measured, monitored and controlled.

4.1.14

PRA

G

A *firm* should have an appropriate senior management structure in place to oversee the daily and long-term management of *liquidity risk* in line with the *governing body*-approved *liquidity risk* policy (see ■ INSPRU 4.1.15 G to ■ INSPRU 4.1.17 G). The PRA would normally expect the senior management to:

- (1) oversee the development, establishment and maintenance of procedures and practices that translate the goals, objectives and risk tolerances approved by the *governing body* into operating standards that are consistent with the *governing body's* intent and understood by the relevant members of a *firm's* personnel;
- (2) adhere to the lines of authority and responsibility that the *governing body* has established for managing *liquidity risk*;
- (3) oversee the establishment and maintenance of management information (see ■ INSPRU 4.1.53 G to ■ INSPRU 4.1.55 G) and other systems that identify, measure, monitor and control the *firm's liquidity risk*; and
- (4) oversee the establishment of effective *internal controls* over the *liquidity risk* management process (see ■ INSPRU 4.1.56 G to ■ INSPRU 4.1.68 G (Controlling liquidity risk)).

Liquidity risk policy

4.1.15

PRA

G

■ SYSC 3.2.17 G gives *guidance*, which amplifies ■ SYSC 3.2.6 R, on the need for a *firm* to plan its business appropriately so that it is able to identify, measure, monitor and control risks of regulatory concern. A *firm* should, therefore, have an agreed policy for the day-to-day and longer term management of *liquidity risk* which is appropriate to the nature, scale and complexity of the activities carried on.

4.1.16

PRA

G

The *liquidity risk* policy should cover the general approach that the *firm* will take to *liquidity risk* management, including, as appropriate, various quantitative and qualitative targets. This general approach should be communicated to all relevant functions within the organisation and be included in the *firm's liquidity risk* policy statement.

4.1.17

PRA

G

The policy for managing *liquidity risk* should cover specific aspects of *liquidity risk* management. So far as appropriate to the nature, scale and complexity of the activities carried on, such aspects might include:

- (1) the basis for managing liquidity (for example, regional or central);
- (2) the degree of concentrations, potentially affecting *liquidity risk*, that are acceptable to the *firm*;
- (3) a policy for managing the liability side of *liquidity risk* (see ■ INSPRU 4.1.26 G);
- (4) the role of marketable, or otherwise realisable, assets (see ■ INSPRU 4.1.21 G);
- (5) ways of managing both the *firm's* aggregate foreign currency liquidity needs and its needs in each individual currency;
- (6) ways of managing market access;
- (7) the use of *derivatives* to minimise *liquidity risk*; and
- (8) the management of intra-day liquidity, where this is appropriate, for instance where the *firm* is a member of or participates (directly or indirectly) in a system for the intra-day settlement of payments or transactions in investments.

Identifying liquidity risk

4.1.18

PRA

G

In order to manage *liquidity risk* successfully, a *firm* should be aware of the ways in which its activities can affect its *liquidity risk* profile, and how outside influences may affect its liquidity position. A *firm* should consider not only its current *liquidity risk*, but how existing activities may affect its *liquidity risk* profile in the future; it should also consider the implications of new products or business lines. This section identifies the main sources of *liquidity risk* and the key factors that a *firm* might consider when analysing its *liquidity risk* profile.

4.1.19

PRA

G

The *overall financial adequacy rule* states that a *firm* must maintain overall financial resources adequate, both as to amount and quality, to ensure that there is no significant risk that its liabilities cannot be met as they fall due. The *firm* should, therefore, ensure that, overall, its financial resources are of appropriate maturity, and in a form which is sufficiently marketable or otherwise realisable, having regard to the expected timing of liabilities and the risk that liabilities may fall due earlier than expected (for which prudent

allowance must be made when assessing whether assets are of appropriate maturity or sufficiently realisable).

Asset liquidity

4.1.20

PRA

G

A *firm's* asset portfolio can provide liquidity in three major ways:

- (a) through the maturity of an asset;
- (b) the sale of an asset for cash; or
- (c) the use of an asset as *collateral* to back other transactions, such as for secured borrowing (including repos), or for deposits with insureds or cedants to back insurance or *reinsurance* transactions.

4.1.21

PRA

G

A *firm* may incur *liquidity risk* where inflows from the realisation of assets (at either maturity or time of sale) are less than anticipated because of the crystallisation of credit risk or *market risk*. Inflows arising from the renewal of secured funding, including repos, are similarly affected, if the haircut (the difference between the value of an asset and the amount lent to the *firm* by the counterparty using that security as *collateral*) required by a *firm's* counterparty is larger than anticipated (see ■ INSPRU 4.1.28 G).

4.1.22

PRA

G

Asset concentrations often increase these sources of *liquidity risk*. A *firm* should, therefore, identify significant concentrations within its asset portfolio, including in relation to:

- (1) individual counterparties or related groups of counterparties;
- (2) credit ratings of the assets in its portfolio;
- (3) the proportion of an issue held;
- (4) instrument types;
- (5) geographical regions; and
- (6) economic sectors.

Marketable assets

4.1.23

PRA

G

Criteria for the marketability of its assets should be decided by the *firm* and may reflect the *firm's* access to, and expertise in, individual markets. In determining the appropriateness of the marketability or realisability of assets, a *firm* may take into account:

- (1) the depth and liquidity of the market, including:
 - (a) the speed with which assets may be realised;
 - (b) the likelihood and extent of forced-sale loss; and
 - (c) the potential for using the asset as *collateral* in secured funding and the size of the haircut (see ■ INSPRU 4.1.18 G) likely to be required by the counterparty;

- (2) the expected date of maturity, redemption, repayment or disposal;
- (3) the proportion of an issue held;
- (4) the credit ratings of the assets;
- (5) the impact of exchange rate risk on the realised value of the asset, where assets are denominated in different currencies from its liabilities; and
- (6) where applicable, the impact on certain assets' liquidity of their use as eligible *collateral* either in open-market operations conducted by, or in real-time or other payment systems operated by, a central bank.

4.1.24

PRA

G

The role of marketable, or otherwise realisable, assets in a *firm's liquidity risk* policy, in both normal and stressed conditions, should be set out in its *liquidity risk* policy statement.

4.1.25

PRA

G

In considering the marketability of an asset, a *firm* should assess how its value and liquidity would be affected in a variety of scenarios (see ■ SYSC 11 (Liquidity risk management systems and controls) at ■ SYSC 11.1.18 G, ■ SYSC 11.1.20 G, ■ SYSC 11.1.21 E and ■ SYSC 11.1.22 G).

Adjusting for the behavioural characteristics of assets

4.1.26

PRA

G

In order to manage its *liquidity risk* effectively, a *firm* should be able to adjust for the behavioural characteristics of the repayment profiles of assets, that is how their actual behaviour may vary from that suggested by their contractual terms. Such an adjustment may be necessary in order to reduce the risk of wrongly estimating the inflows in relation to, in particular:

- (1) standby facilities or other commitments that have already been drawn down;
- (2) retail and wholesale overdrafts;
- (3) mortgages; and
- (4) credit cards.

4.1.27

PRA

G

The repayment profiles should be considered under both normal market conditions and stressed conditions resulting from either general market turbulence or *firm-specific* difficulties (see ■ SYSC 11 (Liquidity risk management systems and controls) at ■ SYSC 11.1.18 G, ■ SYSC 11.1.20 G, ■ SYSC 11.1.21 E, ■ SYSC 11.1.22 G, ■ SYSC 11.1.23 G and ■ SYSC 11.1.24 E).

Inflows from off balance sheet items

PAGE
7

4.1.28

PRA

G

Where a *firm* has in place a committed facility for the provision of a portion of its funding, it should take care to monitor any covenants included in the agreement. It should also make efforts to retain a good relationship with the provider of the facility and, where possible without jeopardising that relationship, regularly test access to the funds. A *firm* should also assess the extent to which committed facilities can be relied upon under stressed conditions (see ■ SYSC 11.1.22 G and ■ SYSC 11.1.24 E).

Liability liquidity

4.1.29

PRA

G

Holding marketable, or otherwise realisable, assets is not the only way for a *firm* to mitigate the *liquidity risk* it faces. There are a number of liability-side strategies that can be used to reduce a *firm's liquidity risk*, such as ensuring a spread of maturities and lengthening the term structure of its liabilities. In order to manage its *liquidity risk* effectively a *firm* should have a liability-side policy that is appropriate to the nature and scale of its activities; this policy should be described in its *liquidity risk* policy statement.

4.1.30

PRA

G

When determining the appropriate mix of liabilities, a *firm's* management should consider potential concentrations. A concentration exists when a single decision or factor could cause a significant and sudden claim on liabilities. What constitutes a liability concentration depends on the nature and scale of a *firm's* activities. A *firm* should, however, normally consider:

- (1) the term structure of its liabilities;
- (2) the credit-sensitivity of its liabilities;
- (3) the mix of secured and unsecured funding;
- (4) concentrations among its liability providers, or related groups of liability providers;
- (5) reliance on particular instruments or products;
- (6) the geographical location of liability providers; and
- (7) reliance on intra-group funding.

4.1.31

PRA

G

A *firm* with credit-sensitive liabilities should be aware that, in times of market turbulence, a proportion of that funding may be withdrawn, particularly funding which is unsecured. Secured funding may also be affected, with counterparties seeking better quality *collateral* or larger haircuts (see ■ INSPRU 4.1.18 G) on *collateral*. A *firm* should recognise these characteristics of its credit-sensitive liabilities and take account of them in its stress testing and scenario analysis and *contingency funding plan* (see ■ SYSC 11 (Liquidity risk management systems and controls) at ■ SYSC 11.1.18 G, ■ SYSC 11.1.20 G, ■ SYSC 11.1.21 E, ■ SYSC 11.1.22 G, ■ SYSC 11.1.23 G and SYSC 11.1.24E).

4.1.32

PRA

G

A *firm* should consider the dynamics of its *liquidity risk* including, for example, the normal level of roll-overs, and growth, of liabilities.

Adjusting for the behavioural characteristics of liabilities

4.1.33

PRA

G

In order to meet the requirement to maintain sufficient liquid financial resources (see ■ INSPRU 4.1.16 G), a *firm* should consider the behavioural characteristics of its liabilities, that is how their actual behaviour may vary from that suggested by their contractual terms.

4.1.34

PRA

G

In assessing how to adjust for the behavioural characteristics of its liabilities in the context of *liquidity risk*, an *insurer* may take into account:

- (1) the type of *insurance business*;
- (2) the past history of volatility in the pattern of *claims* payment;
- (3) options available to *policyholders* and the circumstances in which they are likely to be exercised;
- (4) options available to the *insurer* and any incentive for the *insurer* to exercise them;
- (5) any relevant requirements to deposit *collateral* either with the insured (or cedants) under the terms of the insurance Treaty or by requirements of overseas regulators as a condition for covering risks in a particular territory; and
- (6) the other cash flow needs of the business.

Outflows from off balance sheet items

4.1.35

PRA

G

The contingent or optional nature of many off balance sheet instruments adds to the complexity of managing off balance sheet cash flows. In particular, in stressed conditions off balance sheet commitments may be a significant drain on liquidity.

4.1.36

PRA

G

A *firm* should consider how its wholesale off balance sheet activities affect its cash flows and *liquidity risk* profile under both normal and stressed conditions. In particular, as appropriate, it should consider the amount of funding required by:

- (1) commitments given;
- (2) standby facilities given;
- (3) wholesale overdraft facilities given;
- (4) proprietary *derivatives* positions; and
- (5) liquidity facilities given for securitisation transactions.

4.1.37

PRA

G

Similarly, a *firm* with retail *customers* should be able to assess the likely draw-down on retail products under a variety of circumstances and taking into account seasonal factors. In particular, as appropriate, it should consider the amount of funding required in relation to:

- (1) mortgages that have been agreed but not yet drawn down;
- (2) overdrafts; and
- (3) credit cards.

Asset securitisations

4.1.38

PRA

G

If controlled properly, asset securitisation can be a useful tool in enhancing a *firm's* liquidity. However, features of certain securitisations, such as early amortisation triggers, as well as excessive reliance on a single funding vehicle, can increase *liquidity risk*.

4.1.39

PRA

G

The implications of securitisations on a *firm's* liquidity position should be considered for both day-to-day liquidity management and its contingency planning for *liquidity risk*. A contemplated securitisation should be analysed for its impact on *liquidity risk*. A *firm* using securitisation should consider:

- (1) the volume of securities issued in connection with the securitisation that are scheduled to amortise during any particular period;
- (2) the existence of early amortisation triggers (see also ■ SYSC 11.1.22 G);
- (3) its plans for meeting its funding requirements (including their timing);
- (4) strategies for obtaining substantial amounts of liquidity at short notice (see also ■ SYSC 11.1.24 E); and
- (5) operational issues associated with the rollover of short-dated securities, particularly commercial paper.

4.1.40

PRA

G

If a *firm* is a provider of liquidity facilities for securitisation transactions it should be able to assess the probability and scale of draw-down and make provision for it.

4.1.41

PRA

G

A *firm* using securitisation should also be aware that its ability to securitise assets may diminish in stressed market conditions and take account of this in its stress testing and *contingency funding plan*. In addition, the time taken to organise a securitisation transaction may mean that it cannot be relied upon to provide liquidity at short notice.

Foreign currency liquidity

4.1.42

PRA

G

Foreign currency *liquidity risk* arises where a *firm* faces actual or potential future outflows in a particular currency which it may not be able to meet from likely available inflows in that currency. A *firm's* exposure to foreign currency *liquidity risk* depends on the nature, scale and complexity of its business. Where a *firm* has significant, unhedged liquidity mismatches in particular currencies, it should consider:

- (1) the volatilities of the exchange rates of the mismatched currencies;
- (2) likely access to the foreign exchange markets in normal and stressed conditions; and
- (3) the stickiness of deposits in those currencies with the *firm* in stressed conditions.

4.1.43

PRA

G

A possible strategy for mitigating foreign currency *liquidity risk*, which is effective and simple, is for a *firm* to hold assets in a particular currency in an amount equal to, and realisable at maturities no later than, its liabilities in that currency. This strategy may

be worth considering particularly where, as a result of the nature, scale and complexity of its business, a *firm's liquidity risk* is relatively small.

Intra-day liquidity

4.1.44

PRA

G

■ SYSC 3.1.1 R requires a *firm* to take reasonable care to establish and maintain systems and controls appropriate to its business. This includes appropriate systems and controls over activities that give rise to significant *market*, credit, *liquidity*, insurance, operational or group risk, including over the processes of settling and paying debts and other commitments that arise from those activities.

4.1.45

PRA

G

Structural and operational changes in payment systems have increased the importance of intra-day liquidity for many *firms*. Within real time gross settlement systems, for example, a *firm* needs to take appropriate steps to ensure that it has sufficient *collateral* to cover cash positions and has systems capable of monitoring intra-day liquidity positions and cash needs.

4.1.46

PRA

G

A *firm* should be aware that in stressed conditions it is likely to require more intra-day liquidity than in normal market conditions, for a variety of reasons including payments due to the *firm* being delayed and wholesale depositors withdrawing from the market. A *firm* should take account of this in its stress testing and scenario analysis.

Measuring liquidity risk

4.1.47

PRA

G

A *firm* should establish and maintain a process for the measurement of *liquidity risk*, using a robust and consistent method which should be described in its *liquidity risk* policy statement.

4.1.48

PRA

G

A number of techniques can be used for measuring *liquidity risk*, ranging from simple calculations to highly sophisticated modelling; a *firm* should use a measurement method which is appropriate to the nature, scale and complexity of its activities.

4.1.49

PRA

G

The method that a *firm* uses for measuring *liquidity risk* should be capable of:

- (1) measuring the extent of the *liquidity risk* it is incurring;
- (2) dealing with the dynamic aspects of a *firm's* liquidity profile (for example, rollovers of funding and assets or new business);
- (3) assessing the behavioural characteristics of its on and off balance sheet instruments; and
- (4) where appropriate, measuring the *firm's* exposure to foreign currency *liquidity risk*.

Monitoring liquidity risk

4.1.50

PRA

G

A *firm* should establish and maintain an appropriate system for monitoring its *liquidity risk*, which should be described in its *liquidity risk* policy statement.

4.1.51 **PRA** **G** A *firm* should establish and maintain a system of management reporting which provides clear, concise, timely and accurate *liquidity risk* reports to relevant functions within the *firm*. These reports should alert management when the *firm* approaches, or breaches, predefined thresholds or limits, including quantitative limits imposed by the *PRA* or another regulator.

4.1.52 **PRA** **G** Where a *firm* is a member of a *group*, it should be able to assess the potential impact on it of *liquidity risk* arising in other parts of the *group*.

Management information systems

4.1.53 **PRA** **G** A *firm* should have adequate information systems for controlling and reporting *liquidity risk*. The management information system should be used to check for compliance with the *firm's* established policies, procedures and limits.

4.1.54 **PRA** **G** Reports on *liquidity risk* should be provided on a timely basis to the *firm's governing body*, senior management and other appropriate personnel. The appropriate content and format of reports depends on a *firm's* liquidity management practices and the nature, scale and complexity of the *firm's* business. Reports to the *firm's* governing body may be less detailed and less frequent than reports to senior management with responsibility for managing *liquidity risk*.

4.1.55 **PRA** **G** When considering what else might be included in *liquidity risk* management information, a *firm* should consider other types of information that may be important for understanding its *liquidity risk* profile.

Controlling liquidity risk

4.1.56 **PRA** **G** A *firm* should establish and maintain an appropriate system for controlling its *liquidity risk*, which should be described in its *liquidity risk* policy statement. Such a system should allow the *firm's governing body* and senior management to review compliance with established limits and operating procedures.

4.1.57 **PRA** **G** A *firm* should have in place appropriate approval processes, limits and other mechanisms designed to provide reasonable assurance that the *firm's liquidity risk* management processes are adhered to.

4.1.58 **PRA** **G** When revisions or enhancements to *internal controls* are warranted, a *firm* should implement them in a timely manner.

4.1.59 **PRA** **G** The effectiveness of a *firm's liquidity risk* management system should be regularly reviewed and evaluated by individuals unconnected with day-to-day *liquidity risk* management in order to check that personnel are following established policies and procedures, and that procedures accomplish the intended objectives.

4.1.60 **PRA** **G** In addition to the regular review and evaluation described in **INSPRU 4.1.59 G**, a *firm's* internal audit function (see **SYSC 3.2.16 G** or, as the case may be, **SYSC 6.2.1 R**) should periodically review the *liquidity risk* management process in order to identify any weaknesses or problems. Any weaknesses should be addressed by management in a timely and effective manner.

Limit Setting

4.1.61

PRA

G

A *firm's* senior management should decide what limits need to be set, in accordance with the nature, scale and complexity of its activities. The structure of limits should reflect the need for a *firm* to have systems and controls in place to guard against a spectrum of possible risks, from those arising in day-to-day *liquidity risk* management to those arising in stressed conditions.

4.1.62

PRA

G

■ SYSC 14.1.18 R states that a *firm* must take reasonable steps to ensure the establishment and maintenance of a business plan and appropriate systems for the management of prudential risk.

4.1.63

PRA

A

(1) If a *firm* has *liquidity risk* that arises because it has substantial exposures in foreign currencies, the risk management systems of the *firm* referred to in ■ SYSC 14.1.18 R should include systems and procedures that are designed to ensure that the *firm* does not, except in accordance with those procedures, exceed limits that are designed to limit:

- (a) the aggregate amount of its *liquidity risk* for all exposures in foreign currencies; and
- (b) the amount of its *liquidity risk* for each individual currency in which it has a significant exposure.

(2) Contravention of (1) may be relied upon as tending to establish contravention of ■ SYSC 14.1.18 R.

4.1.64

PRA

G

A *firm* should periodically review and, where appropriate, adjust its limits when conditions or risk tolerances change.

4.1.65

PRA

G

Policy or limit exceptions should receive the prompt attention of the appropriate management and should be resolved according to processes described in approved policies.

Managing market access

4.1.66

PRA

G

A *firm* should periodically review its efforts to establish and maintain relationships with liability providers, to maintain adequate diversification of liabilities, and to ensure adequate capacity to sell assets, or use them as *collateral* in secured funding. Where possible the *firm* should aim regularly to test its access to the individual markets in assets that it holds for liquidity purposes.

4.1.67

PRA

G

Market access should be assessed under a variety of normal and stressed conditions.

4.1.68

PRA

G

In some circumstances, the disclosure of information about a *firm* may be useful in managing the public perception of its organisation and soundness. A *firm* should consider the role of disclosure in managing the *liquidity risk* to which it is exposed.

Application of INSPRU 4.1 to Lloyd's

4.1.69

PRA

G

■ INSPRU 4.1 applies to *managing agents* and to the *Society* in accordance with:

- (1) for *managing agents*, ■ INSPRU 8.1.4 R; and
- (2) for the *Society*, ■ INSPRU 8.1.2 R

4.1.70

PRA

G

In accordance with ■ INSPRU 8.6.2 R, the *rules* and *guidance* in ■ INSPRU 4.1 relating to the establishment and maintenance of a business plan do not apply to the *Society*.

Chapter 5

Operational Risk Management

5.1 Application

5.1.1

PRA

G

■ INSPRU 5.1 applies to an *insurer* unless it is:

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

5.1.2

PRA

G

■ INSPRU 5.1 applies to:

- (1) an *EEA-deposit insurer*; and
- (2) a *Swiss general insurer*;

only in respect of the activities of the *firm* carried on from a *branch* in the *United Kingdom*.

Purpose

5.1.3

PRA

G

This section provides *guidance* on how to interpret ■ SYSC 14.1.18 R and ■ SYSC 14.1.19 R (2) (which relate to the design and documentation of risk management systems) . Operational risk has been described by the Basel Committee on Banking Supervision as "the risk of loss, resulting from inadequate or failed internal processes, people and systems, or from external events". Thus this section covers management of risks concerning any of the *firm's* operations, whether caused by internal or external matters. However, it does not cover management of credit, market, liquidity and insurance risk. Examples of operational risk exposures that this section is meant to address include internal and external fraud; failure to comply with employment law or meet workplace safety standards; damage to physical assets; business disruptions and system failures; and transaction processing failures.

5.1.4

PRA

G

Operational risk concerns the *PRA* because inappropriate management of operational risk can adversely affect the solvency or business continuity of a *firm*, threatening the *statutory objectives* of promoting the *firm's* safety and soundness and contributing to the securing of an appropriate degree of protection for those who are or may become *policyholders* .

5.1.5 **PRA** **G** This section contains *guidance* on how a *firm* should determine its policy for operational risk management and its processes for the identification, assessment, monitoring and control of operational risk. In addition, *guidance* is provided on record keeping in relation to operational risk.

5.1.6 **PRA** **G** The *guidance* contained within this section is not designed to be exhaustive. When establishing and maintaining its systems and controls for operational risk, a *firm* should have regard to other parts of the *Handbook* as well as the material that is issued by other industry or regulatory bodies. In particular, a *firm* should read this section in conjunction with ■ SYSC 13 (Operational Risk Systems and Controls) which contains high level *guidance* on the management of people, processes and systems, and external events in relation to operational risk. ■ SYSC 13 also outlines some *guidance* on the areas that are covered by operational risk systems and controls (including the *PRA*'s interpretation of some frequently used risk management terms in relation to operational risk), business continuity management, outsourcing, and the role of insurance in financing operational risk. In addition, a *firm* should read ■ SYSC 14, which contains the *PRA*'s general policy on prudential systems and controls. ■ SYSC 14 contains some *rules* and *guidance* on which this section offers additional *guidance*.

5.1.7 **PRA** **G** *Guidance* on the application of this section to a *firm* that is a member of a *group* is provided in ■ SYSC 12 (Group Risk Systems and Controls).

5.1.8 **PRA** **G** Appropriate management of operational risk will vary with the scale, nature and complexity of a *firm*'s activities. Therefore the material in this section is *guidance*. A *firm* should assess the appropriateness of any particular item of *guidance* in the light of the scale, nature and complexity of its activities as well as its obligations as set out in *Principle 3* to organise and control its affairs responsibly and effectively.

Operational risk policy

5.1.9 **PRA** **G** Much of the management of operational risk is about identifying, assessing, monitoring and controlling failures or inadequacies in a *firm*'s systems and controls. As such, a *firm* may often find that there is no clear boundary between its risk management systems for operational risk and all its other systems and controls. When drafting its operational risk policy, a *firm* should try to distinguish between its systems and controls for credit, market, liquidity and insurance risk, and its systems and controls for operational risk. Where such a distinction is not possible a *firm* should still try to identify those systems and controls that are used in the management of operational risk, even when they have other purposes as well.

5.1.10 **PRA** **G** A *firm* should document its policy for managing operational risk. This policy should outline a *firm*'s strategy and objectives for operational risk management and the processes that it intends to adopt to achieve these objectives. In complying with ■ SYSC 14.1.19 R (2), the documented operational risk policy of a *firm* should include:

- (1) an analysis of the *firm*'s operational risk profile (see the *PRA*'s interpretation of this term in ■ SYSC 13.5.1 G (3)), including where relevant some consideration of the effects that operational risk may have on the firm, including consideration of those operational risks within a *firm* that may have an adverse impact upon the quality of service afforded to its *clients*;

- (2) the operational risks that the *firm* is prepared to accept and those that it is not prepared to accept, including where relevant some consideration of its appetite or tolerance (see ■ INSPRU 5.1.12 G) for specific operational risks;
- (3) how the *firm* intends to identify, assess, monitor, and control its operational risks, including an overview of the people, processes and systems that are used; and
- (4) where assessments of the *firm's* risk exposures are used for internal capital allocation purposes, a description of how operational risk is incorporated into this methodology.

5.1.11
PRA

G

A *firm* may also wish to set threshold levels in its operational risk policy for particular types of operational risk (based on its risk appetite or tolerance for risk), which when exceeded trigger a response (such as the allocation of more resources to control the risk or a reappraisal of business plans).

5.1.12
PRA

G

Given its association with a willingness to take risk, a *firm* may wish to replace the term appetite for tolerance when drafting its operational risk policy. Tolerance describes the types and degree of operational risk that a *firm* is prepared to incur (based on factors such as the adequacy of its resources and the nature of its operating environment). Tolerance may be described in terms of the maximum budgeted (that is, expected) costs of an operational risk that a *firm* is prepared to bear, or by reference to risk indicators such as the cost or number of system failures, available spare capacity and the number of failed trades.

5.1.13
PRA

G

The term risk assessment can be used to represent both the qualitative and quantitative evaluation or measurement of operational exposures.

Risk identification

5.1.14
PRA

G

In order to understand its operational risk profile, a *firm* should identify the types of operational risk that it is exposed to as far as reasonably possible. This might include, but is not limited to, consideration of:

- (1) the nature of a *firm's* customers, products and activities, including sources of business, distribution mechanisms, and the complexity and volumes of transactions;
- (2) the design, implementation, and operation of the processes and systems used in the end-to-end operating cycle for a *firm's* products and activities;
- (3) the risk culture and human resource management practices at a *firm*; and
- (4) the business operating environment, including political, legal, socio-demographic, technological, and economic factors as well as the competitive environment and market structure.

5.1.15
PRA

G

A *firm* should recognise that it may face significant operational exposures from a product or activity that may not be material to its business strategy. A *firm* should consider the appropriate level of detail at which risk identification is to take place,

and may wish to manage the operational risks that it faces in risk categories that are appropriate to its organisational and legal structures.

5.1.16
PRA

G The PRA's interpretation of the term operational exposure is provided in ■ SYSC 13.5.1 G (2).

Risk assessment

5.1.17
PRA

G The PRA recognises that risk management systems for operational risk are still developing, and that it may be neither feasible nor appropriate to measure certain types of operational risk in a quantitative way. A *firm* may wish to take a qualitative approach to the assessment of its operational risks using, for example, relative estimates (such as high, medium, low) to understand its exposure to them.

5.1.18
PRA

G In order to understand the effects of its operational exposures a *firm* should continually assess its operational risks. This might include, but is not limited to, consideration of:

- (1) actual operational losses that have occurred within a *firm*, or events that could have resulted in significant operational losses, but were avoided (for example, the waiving of financial penalties by a third party as a gesture of goodwill or where by chance the *firm* realised profits);
- (2) internal assessment of risks inherent in its operations and the effectiveness of controls implemented to reduce these risks (through activities such as self-assessment or stress testing and scenario analysis);
- (3) other risk indicators, such as *customer* complaints, processing volumes, *employee* turnover, large numbers of reconciling items, process or system failures, fragmented systems, systems subject to a high degree of manual intervention and transactions processed outside a *firm's* mainstream systems;
- (4) reported external (peer) operational losses and exposures; and
- (5) changes in its business operating environment.

5.1.19
PRA

G When assessing its operational risks, a *firm* may be able to differentiate between expected and unexpected operational losses. A *firm* should consider whether it is appropriate to adopt a more quantitative approach to the assessment of its expected operational losses, for example by defining tolerance, setting thresholds, and measuring and monitoring operational losses and exposures. In contrast, a *firm* may wish to take a more qualitative approach to assessing its unexpected losses.

5.1.20
PRA

G Although a *firm* may currently be unable to assess certain operational risks with a high degree of accuracy or consistency, it should, according to the nature, scale and complexity of its business, consider the use of more sophisticated qualitative and quantitative techniques as they become available.

Risk monitoring

5.1.21

PRA

G

In monitoring its operational risks, a *firm* should:

- (1) as appropriate, regularly report to the relevant level of management its operational exposures, loss experience (including if possible cumulative losses), and authorised deviations from the *firm's* operational risk policy;
- (2) engage in exception-based escalation to management of:
 - (a) unauthorised deviations from the *firm's* operational risk policy;
 - (b) likely or actual breaches in predefined thresholds for operational exposures and losses, where set; and
 - (c) significant increases in the *firm's* exposure to operational risk or alterations to its operational risk profile.

Risk control

5.1.22

PRA

G

A *firm* should control its operational risks, as appropriate, through activities for the avoidance, transfer, prevention or reduction of the likelihood of occurrence or potential impact of an operational exposure. This might include, but is not limited to, consideration of:

- (1) adjusting a *firm's* risk culture and creating appropriate incentives to facilitate the implementation of its risk control strategy (see ■ SYSC 13.6 People);
- (2) adapting internal processes and systems (see ■ SYSC 13.7 Processes and systems);
- (3) transferring or changing the operational exposure through mechanisms such as *outsourcing* (see ■ SYSC 13.9 Outsourcing) and insurance (see ■ SYSC 13.10 Insurance);
- (4) the active acceptance of a given operational risk within the *firm's* stated risk appetite or tolerance; and
- (5) providing for expected losses, and maintaining adequate financial resources against unexpected losses that may be encountered in the normal course of a *firm's* business activities.

Record keeping

5.1.23

PRA

G

The PRA's high level *rules* and *guidance* for record keeping are outlined in ■ SYSC 3.2.20 R (Records). Additional *rules* and *guidance* in relation to the *prudential context* are set out in ■ SYSC 14.1.51 G to ■ SYSC 14.1.64 G (Record keeping). In complying with these *rules* and all associated *guidance*, a *firm* should retain an appropriate record of its operational risk management activities. This may, for example, include records of:

- (1) the results of risk identification, measurement, and monitoring activities;
- (2) actions taken to control identified risks;

- (3) where relevant, any exposure thresholds that have been set for identified operational risks;
- (4) an assessment of the effectiveness of the risk control tools that are used; and
- (5) actual exposures against stated risk appetite or tolerance.

Application of INSPRU 5.1 to Lloyd's

5.1.24

PRA

G

■ INSPRU 5.1 applies to *managing agents* and to the *Society* in accordance with:

- (1) for *managing agents*, ■ INSPRU 8.1.4 R; and
- (2) for the *Society*, ■ INSPRU 8.1.2 R

5.1.25

PRA

G

In accordance with ■ INSPRU 8.5.2 G, the *rules* and *guidance* in ■ INSPRU 5.1 relating to the establishment and maintenance of a business plan do not apply to the *Society*.

5

Chapter 6

Group Risk: Insurance Groups

6.1 Application

6.1.1

PRA

R

■ INSPRU 6.1 applies to an *insurer* that is either:

- (1) a *participating insurance undertaking*; or
- (2) a member of an *insurance group* which is not a *participating insurance undertaking* and which is not:
 - (a) a *non-EEA insurer*; or
 - (b) a *friendly society*.

6.1.2

PRA

R

■ INSPRU 6.1 does not apply to:

- (1) a *non-directive friendly society*; or
- (2) a *Swiss general insurer*; or
- (3) an *EEA-deposit insurer*; or
- (4) an *incoming EEA firm*; or
- (5) an *incoming Treaty firm*.

6.1.3

PRA

G

■ INSPRU 6.1 applies to a *firm*:

- (1) on a solo basis, as an adjusted solo calculation, where that *firm* is a *participating insurance undertaking*; and
- (2) on a group basis where that *firm* is a member of an *insurance group*.

6.1.4

PRA

G

For the purposes of ■ INSPRU 6.1, an *insurer* includes a *friendly society* (other than a *non-directive friendly society*) and a *non-EEA insurer*.

6.1.5

PRA

G

Purpose

The purpose of this section is to implement the *Insurance Groups Directive* on supplementary supervision of *firms* in an *insurance group*, as amended by the *Financial Groups Directive* and the *Reinsurance Directive*. The *Financial Groups Directive* (by

amending the *Insurance Directives* and the *Insurance Groups Directive*) introduces specific requirements for the treatment of *related undertakings* of an *insurance parent undertaking* or a *participating insurance undertaking* that are *credit institutions, investment firms* or *financial institutions*. The *Reinsurance Directive* (by amending the *Insurance Directives* and the *Insurance Groups Directive*) introduces supplementary supervision for *firms* that are *reinsurance undertakings* in an *insurance group*.

6.1.6
PRA

G

■ INSPRU 6.1 sets out the *sectoral rules* for *insurers* for:

- (1) *firms* that are *participating insurance undertakings* carrying out an adjusted solo calculation as contemplated by ■ GENPRU 2.1.13 R (2)
- (2) *insurance groups*; and
- (3) *insurance conglomerates*.

6.1.6A
PRA

G

In accordance with the definition, an *insurance holding company* ceases to be an *insurance holding company* if:

- (1) it is a *mixed financial holding company*; and
- (2) notice has been given in accordance with Article 4(2) of the *Financial Groups Directive* that the *financial conglomerate* of which it is a *mixed financial holding company* is a *financial conglomerate*;

otherwise it remains an *insurance holding company* for the purposes of this chapter.

6.1.7
PRA

G

For a *firm* that is a *participating insurance undertaking*, the *rules* in ■ INSPRU 6.1 out the minimum capital adequacy requirements for the *firm* itself. A *firm* that satisfies the test in ■ INSPRU 6.1.9 R in relation to its *group capital resources* is deemed by ■ GENPRU 2.1.13 R (2) to be in compliance with the capital adequacy requirement set out in ■ GENPRU 2.1.13 R (1).

Requirement to calculate GCR and GCRR

6.1.8
PRA

R

A *firm* must on a regular basis calculate the *group capital resources (GCR)* and *group capital resources requirement (GCRR)* of each *undertaking* referred to in ■ INSPRU 6.1.17 R.

Requirement to maintain group capital

6.1.9
PRA

R

Where a *firm* is the *undertaking* referred to in ■ INSPRU 6.1.17 R (1)(c) or ■ INSPRU 6.1.17 R (2), it must maintain at all times *tier one capital resources* and *tier two capital resources* of such an amount that its *group capital resources* are equal to or exceed its *group capital resources requirement*.

6.1.10
PRA

R

A *firm* that is both:

- (1) a *composite firm*; and

- (2) an *undertaking* referred to in ■ INSPRU 6.1.17 R (1)(c) or ■ INSPRU 6.1.17 R (2);

must comply with ■ INSPRU 6.1.9 R separately in respect of its *long-term insurance business* and its *general insurance business*.

6.1.11
PRA

R

For the purposes of ■ INSPRU 6.1.10 R, a *firm* must include in the calculation of the *group capital resources* and *group capital resources requirement* of its *long-term insurance business* the *regulated related undertakings* and *ancillary services undertakings* that are *long-term insurance assets*.

6.1.12
PRA

G

■ INSPRU 1.5 sets out the detailed requirements for the separation of *long-term* and *general insurance business*.

6.1.13
PRA

G

In order to comply with ■ INSPRU 6.1.10 R, a *composite firm* will need to:

- (1) establish the *group capital resources requirement* of its *general insurance business* and its *long-term insurance business* separately; and
- (2) allocate its *group capital resources* between its *general insurance business* and its *long-term insurance business* so that:
 - (a) the *group capital resources* allocated to its *general insurance business* are equal to or in excess of the *group capital resources requirement* of its *general insurance business*; and
 - (b) the *group capital resources* allocated to its *long-term insurance business* are equal to or in excess of the *group capital resources requirement* of its *long-term insurance business*.

6.1.14
PRA

G

Surplus *group capital resources* in the *long-term insurance business* cannot be used towards meeting the requirements of the *general insurance business* (see ■ INSPRU 6.1.41 R) but surplus *group capital resources* in the *general insurance business* may be used towards meeting the amount of the *group capital resources requirement* that relates to the *long-term insurance business*.

6.1.15
PRA

R

- (1) Subject to ■ INSPRU 6.1.27 R, a *firm* must ensure that at all times its *capital resources* are of such an amount that the *group capital resources* of each *undertaking* referred to in ■ INSPRU 6.1.17 R (excluding those referred to in ■ INSPRU 6.1.9 R) are equal to or exceed that *undertaking's group capital resources requirement*
- (2) (1) does not apply to a *pure reinsurer* which became a *firm in run-off* before 10 December 2007 and whose *Part 4A permission* has not subsequently been varied to add back the *regulated activity of effecting contracts of insurance*.

6.1.16
PRA

G

Principle 4 requires a *firm* to maintain adequate financial resources, taking into account any activity of other members of the *group* of which the *firm* is a member. ■ INSPRU 6.1

sets out provisions that deal specifically with the way the activities of other members of the *group* should be taken into account. This results in the *firm* being required to hold sufficient capital resources so that the *group capital resources* are at least equal to the *group capital resources requirement*. However, the adequacy of the *group capital resources* needs to be assessed both by the *firm* and the *PRA*. *Firms* are required to carry out an assessment of the adequacy of their financial resources under the *overall financial adequacy rule*, the *overall Pillar 2 rule* and ■ GENPRU 1.2.39 R, and the *PRA* will review this and may provide individual guidance on the amount and quality of *capital resources* the *PRA* considers adequate. As part of such reviews, the *PRA* may also form a view on the appropriateness of the *group capital resources requirement* and *group capital resources*. Where necessary, the *PRA* may also give individual *guidance* on the *capital resources* a *firm* should hold in order to comply with *Principle 4* expressed by reference to ■ INSPRU 6.1.9 R and ■ INSPRU 6.1.15 R.

Scope - undertakings whose group capital is to be calculated and maintained

6.1.17
PRA

R

The *undertakings* referred to in ■ INSPRU 6.1.8 R, ■ INSPRU 6.1.9 R, ■ INSPRU 6.1.10 R and ■ INSPRU 6.1.15 R are:

- (1) for any *firm* that is not within (2), each of the following:
 - (a) its *ultimate insurance parent undertaking*;
 - (b) its *ultimate EEA insurance parent undertaking* (if different); and
 - (c) the *firm* itself, if it is a *participating insurance undertaking*; and
- (2) the *firm* itself, where the *firm* is a *participating insurance undertaking* and is:
 - (a) a *non-EEA insurer*; or
 - (b) a *friendly society*.

6.1.18
PRA

G

Article 3(3) of the *Insurance Groups Directive* allows an *undertaking* to be excluded from supplementary supervision if:

- (1) its head office is in a non-EEA State where there are legal impediments to the transfer of the necessary information; or
- (2) in the opinion of the *competent authority* responsible for exercising supplementary supervision, having regard to the objectives of supplementary supervision:
 - (a) its inclusion would be inappropriate or misleading; or
 - (b) it is of negligible interest.

PAGE
5

6.1.19
PRA

G

If an application is made for a *waiver*, it is the policy of the *PRA* to consider the effect, in the circumstances described in ■ INSPRU 6.1.18 G, of granting a *waiver* allowing the exclusion of a *related undertaking* from the calculation of *group capital resources* and the *group capital resources requirement* required by ■ INSPRU 6.1.8 R.

6.1.20
PRA

G

Examples of *related undertakings* which may be excluded from supplementary supervision by Article 3(3) of the *Insurance Groups Directive* include *insurance holding companies* in the *insurance group* that are not the *ultimate insurance parent undertaking* or, if different, the *ultimate EEA insurance parent undertaking* of a *firm*.

6.1.21
PRA

G

If more than one member of the *insurance group* is to be excluded in the circumstances described in ■ INSPRU 6.1.18 G (2)(b), they may only be excluded if, considered together, they are of negligible interest in the context of the *insurance group*.

6.1.22
PRA

G

When giving a *waiver* in the circumstances described in ■ INSPRU 6.1.18 G, the *PRA* may impose a condition requiring the *firm* to provide information about any member of the *insurance group* excluded pursuant to a *waiver* granted in the circumstances described in ■ INSPRU 6.1.18 G.

Optional alternative method of calculation for firms subject to supplementary supervision by another EEA competent authority

6.1.23
PRA

R

If the *competent authority* in an *EEA State* other than the *United Kingdom* has agreed to be the *competent authority* responsible for exercising supplementary supervision of an *insurance group* of which a *firm* is a member under Article 4(2) of the *Insurance Groups Directive*, the *firm* may prepare the calculations required under ■ INSPRU 6.1.8 R in relation to the *ultimate EEA insurance parent undertaking* in accordance with the requirements of supplementary supervision in that *EEA State*.

6.1.24
PRA

G

The *PRA* will notify the *firm* if it has reached agreement with the *competent authority* in an *EEA State* other than the *United Kingdom* in accordance with Article 4(2) of the *Insurance Groups Directive*.

Non-EEA ultimate insurance parent undertakings

6.1.25
PRA

R

Where the *ultimate insurance parent undertaking* of a *firm* has its head office in a non-*EEA State*, the *firm* may:

- (1) calculate the *group capital resources* and the *group capital resources requirement* of its *ultimate insurance parent undertaking* in accordance with accounting practice applicable for the purposes of the regulation of *insurance undertakings* in the state or territory of the head office of the *ultimate insurance parent undertaking* adapted as necessary to apply the general principles set out in Annex I (1) paragraphs B, C and D of the *Insurance Groups Directive*; and
- (2) elect (see ■ INSPRU 6.1.26 R) to carry out the calculation referred to in (1) in accordance with the accounting consolidation method set out in Annex I (3) of the *Insurance Groups Directive*.

6.1.26 **R** A *firm* may elect to use the calculation method referred to in
PRA ■ INSPRU 6.1.25 R (2) if it has made the election by written notice to the *PRA* in a way that complies with the requirements for written notice in
 ■ SUP 15.7.

6.1.27 **R** ■ INSPRU 6.1.15 R does not apply in respect of the *group capital resources* of a firm's *ultimate insurance parent undertaking* if that *ultimate insurance parent undertaking* has its head office in a non-EEA State.
PRA

Proportional holdings

6.1.28 **R** Subject to ■ INSPRU 6.1.30 R and ■ INSPRU 6.1.31 R, when calculating *group capital resources* and the *group capital resources requirement* of an
PRA *undertaking* in ■ INSPRU 6.1.17 R, a *firm* must take only the relevant proportion of the following items ("calculation items") into account:

- (1) the *solo capital resources* of a *regulated related undertaking*;
- (2) the assets of a *regulated related undertaking* which are required to be deducted as part of the calculation of *group capital resources*; and
- (3) the *individual capital resources requirement* of a *regulated related undertaking*.

6.1.29 **R** In ■ INSPRU 6.1.28 R, the relevant proportion is either:
PRA

- (1) the proportion of the total number of issued *shares* in the *regulated related undertaking* held, directly or indirectly, by the *undertaking* in ■ INSPRU 6.1.17 R; or
- (2) where a *consolidation Article 12(1) relationship* exists between *related undertakings* within the *insurance group*, such proportion as the *PRA* determines in accordance with Article 28(5) of the *Financial Groups Directive* and Regulation 15 of the *Financial Groups Directive Regulations*.

6.1.30 **R** Where the *undertaking* in ■ INSPRU 6.1.17 R is a *firm*, if the *individual capital resources requirement* of a *regulated related undertaking* that is a *subsidiary undertaking* and not an *insurer* exceeds the *solo capital resources* of that *undertaking* less the amount calculated in
PRA ■ INSPRU 6.1.74 R (if any), the full amount of the calculation items of that *regulated related undertaking* less the amount in ■ INSPRU 6.1.74 R (3) must be taken into account in the calculation of *group capital resources* and the *group capital resources requirement*.

6.1.31 **R** Except where ■ INSPRU 6.1.30 R applies, if the *individual capital resources requirement* of a *regulated related undertaking* that is a *subsidiary undertaking* of the undertaking in ■ INSPRU 6.1.17 R exceeds its *solo capital resources*, the full amount of the calculation items of that *regulated related*
PRA

undertaking must be taken into account in the calculation of *group capital resources* and the *group capital resources requirement*.

6.1.32

PRA

R

For the purposes of ■ INSPRU 6.1.10 R, where a *composite firm* that is an *undertaking* in ■ INSPRU 6.1.17 R (1)(c) or (2):

- (1) holds directly or indirectly *shares* in a *regulated related undertaking*; and
- (2) the *shares* in (1) are held partly by its *long-term insurance business* and partly by its *general insurance business*;
- (3) the relevant proportion of the calculation items calculated in accordance with ■ INSPRU 6.1.29 R, subject to ■ INSPRU 6.1.30 R and ■ INSPRU 6.1.31 R, must be allocated between the *long-term insurance business* and *general insurance business* in proportion to their respective holdings, directly or indirectly, in the *shares* in that *regulated related undertaking*.

Calculation of the GCRR

6.1.33

PRA

R

Subject to ■ INSPRU 6.1.23 R and ■ INSPRU 6.1.25 R, a *firm* must calculate the *group capital resources requirement* of an *undertaking* in ■ INSPRU 6.1.17 R as the sum of the *individual capital resources requirement* of that *undertaking* and the *individual capital resources requirement* of each of its *regulated related undertakings*.

6.1.34

PRA

R

For the purposes of ■ INSPRU 6.1, an *individual capital resources requirement* is:

- (1) in respect of any *insurer*:
 - (a) its *capital resources requirement* calculated in accordance with ■ GENPRU 2.1; less
 - (b) where the *capital resources requirements* of both the *insurer* and its *insurance parent undertaking* that is an *insurer* include *with-profits insurance capital components*, any element of double-counting that may arise from the aggregation of the *individual capital resources requirements* for the purposes of ■ INSPRU 6.1.33 R;
- (2) in respect of an *EEA insurer* or an *EEA pure reinsurer*, the equivalent of the *capital resources requirement* as calculated in accordance with the applicable requirements in its *Home State*;
- (3) in respect of an *EEA ISPV*, the solo capital resources requirement that applies to the *ISPV* under the *sectoral rules* for the *insurance sector* of the member State of the *competent authority* that authorised the *ISPV*;

- (4) in respect of an *insurance undertaking* that is not within (1), (2) or (3) and whose head office is in a *designated State or territory*, either:
 - (a) its *proxy capital resources requirement*; or
 - (b) the solo capital resources requirement that applies to it under the *sectoral rules* for the *insurance sector* of the *designated State or territory*;
- (5) in respect of an *insurance undertaking* within (4) which is not subject to a solo capital resources requirement under the *sectoral rules* for the *insurance sector* of that *designated State or territory*, its *proxy capital resources requirement*;
- (6) in respect of an *insurance undertaking* that is not within (1) to (5), its *proxy capital resources requirement*;
- (7) in respect of an *insurance holding company*, zero;
- (8) [intentionally blank]
- (9) in respect of a *regulated entity* (excluding an *insurance undertaking*), its *solo capital resources requirement*;
- (10) in respect of an *asset management company*, the *solo capital resources requirement* that would apply to it if, in connection with its activities, it were treated as being in the *investment services sector*; and
- (11) in respect of a *financial institution* that is not a *regulated entity* (including a *financial holding company*), the *solo capital resources requirement* that would apply to it if, in connection with its activities, it were treated as being within the *banking sector*.
- (12) [deleted]

6.1.34A
PRA

G

For the purposes of ■ INSPRU 6.1.34 R (4)(b), where the solo capital resources requirement under the *sectoral rules* for the *insurance sector* in a *designated State or territory* is ascertained by reference to the trigger for regulatory intervention, the PRA considers that the solo capital resources requirement of the *insurance undertaking* in such a *designated State or territory* will generally correspond to the highest point at which any regulatory or corrective action is triggered or which is at least comparable to the *capital resources requirement* which would apply if the *insurance undertaking* were an *insurer*.

6.1.35
PRA

G

■ INSPRU 6.1.34R sets out the rules for calculating an *insurer's individual capital resources requirement*. Among other things, this allows the use of local rules for related entities in designated states and territories. Paragraphs 6.5 and 6.6 of ■ GENPRU 3 Annex 1R include the equivalent provisions for *related undertakings* in the *banking sector* and *investment services sector*. The provisions of paragraphs 6.4 to 6.6 extend to the calculation of *solo capital resources*, with the references to *sectoral rules* in paragraphs 1.2, 2.3 and 3.2 of

■ GENPRU 3 Annex 1R (that is, the capital resources requirement of a *related undertaking* must be met by capital resources that are eligible under the relevant *sectoral rules*).

Calculation of GCR

6.1.36
PRA

R For the purposes of ■ INSPRU 6.1.8 R and subject to ■ INSPRU 6.1.23 R and ■ INSPRU 6.1.25 R, a *firm* must calculate the group capital resources of an *undertaking* in ■ INSPRU 6.1.17 R in accordance with the table in ■ INSPRU 6.1.43 R, subject to the limits in ■ INSPRU 6.1.45 R.

6.1.37
PRA

R For the purposes of ■ INSPRU 6.1, the following expressions when used in relation to either an *undertaking* in ■ INSPRU 6.1.17 R or a *regulated related undertaking* which is not subject to the *capital resources table*, are to be construed as if that *undertaking* were required to calculate its capital resources in accordance with the *capital resources table*, but with such adjustments being made to secure that the *undertaking's* calculation of its *solo capital resources* complies with the relevant *sectoral rules* applicable to it:

- (1) *tier one capital resources*;
- (2) *tier two capital resources*;
- (3) *upper tier two capital resources*;
- (4) *lower tier two capital resources*;
- (5) *innovative tier one capital resources*; and
- (6) *core tier one capital*.

6.1.38
PRA

R For the purposes of ■ INSPRU 6.1.37 R, the *sectoral rules* applicable to:

- (1) an *insurance holding company* whose main business is to acquire and hold participations in *subsidiary undertakings* which are either exclusively or mainly *reinsurance undertakings* are the *sectoral rules* that would apply to it if, in connection with its activities, it were treated as a *pure reinsurer*;
- (2) an *insurance holding company* not within (1) are the *sectoral rules* that would apply to it if, in connection with its activities, it were treated as an *insurer*;
- (3) an *asset management company* are the *sectoral rules* that would apply to it if, in connection with its activities, it were treated as an *investment firm*; and
- (4) subject to ■ INSPRU 6.1.39 R, a *financial institution*, that is not a *regulated entity*, are the *sectoral rules* that would apply to it

if, in connection with its activities, it were treated as being within the *banking sector*.

6.1.39

PRA

R

Where a *financial institution*, that is not a *regulated entity*, has invested in *tier one capital* or *tier two capital* issued by a *parent undertaking* that is:

- (1) an *insurance holding company*; or
- (2) an *insurer*;

the *sectoral rules* that apply to that *financial institution* are the *sectoral rules* for the *insurance sector*.

6.1.40

PRA

R

For the purposes of ■ INSPRU 6.1.36 R, the capital resources of a *financial institution* within ■ INSPRU 6.1.39 R that can be included in the calculations in ■ INSPRU 6.1.48 R (2), ■ INSPRU 6.1.50 R (2), ■ INSPRU 6.1.53 R (2), ■ INSPRU 6.1.55 R (2) and ■ INSPRU 6.1.57 R (2) are:

- (1) the issued *tier one capital* or *tier two capital* of that *financial institution* held, directly or indirectly, by its *parent undertaking* referred to in ■ INSPRU 6.1.39 R; and
- (2) the lower of:
 - (a) the *tier one capital* or *tier two capital* issued by the *parent undertaking* referred to in ■ INSPRU 6.1.39 R pursuant to the investment by the *financial institution*; and
 - (b) the *tier one capital* or *tier two capital* issued by the *financial institution* to raise funds for its investment in the capital resources of the *parent undertaking* referred to in (a).

6.1.41

PRA

R

- (1) In calculating *group capital resources*, a *firm* must exclude the restricted assets of a *regulated related undertaking* except insofar as those assets are available to meet the *individual capital resources requirement* of that *regulated related undertaking*.
- (2) In (1), "restricted assets" means assets of a *regulated related undertaking* which are subject to a legal restriction or other requirement having the effect that those assets cannot be transferred or otherwise made available to another *regulated related undertaking* for the purposes of meeting its *individual capital resources requirement* without causing a breach of that legal restriction or requirement.

6.1.42

PRA

G

For the purposes of ■ INSPRU 6.1.41 R, in respect of an *insurance undertaking* that is a member of an *insurance group*, the assets of a *long-term insurance fund* are restricted assets within the meaning of ■ INSPRU 6.1.41 R. Any excess of assets over liabilities in the *long-term insurance fund* may only be included in the calculation of the *group capital resources* up to the amount of the *undertaking's individual capital resources requirement*

which relates to the *long-term insurance business* in respect of which that *long-term insurance fund* is held.

6.1.42A
PRA

R For the purposes of calculating *group capital resources*, a *firm* must exclude:

- (1) the book value of any investment by a *related undertaking* of the *undertaking* in ■ INSPRU 6.1.17 R in shares of, or loans to, an *undertaking* that is not a *related undertaking*, where that *undertaking* has invested in the *capital resources* of a *regulated related undertaking* of the *undertaking* in ■ INSPRU 6.1.17 R; and
- (2) any item of capital not in (1) to the extent that it is the result of or otherwise attributable to reciprocal financing arrangements entered into by the *undertaking* in ■ INSPRU 6.1.17 R or by a *related undertaking* of an *undertaking* in ■ INSPRU 6.1.17 R.

6.1.42B
PRA

G The *Insurance Groups Directive* gives an example of reciprocal financing as when an *insurance undertaking*, or any of its *related undertakings*, holds shares in, or makes loans to, another *undertaking* which, directly or indirectly, holds an element eligible for the solvency margin of the first undertaking. However, there are other instances of reciprocal financing, for example where a *group undertaking* provides a guarantee to an *undertaking* outside the *group*, in whole or partial reliance on which the non-*group undertaking* invests in or provides any kind of financial accommodation to support the *capital resources* of a *group undertaking* whose *capital resources* are relevant to the *group capital resources* calculation. ■ INSPRU 6.1.42AR (2) requires that *firms* exclude from *group capital resources* those items of capital resulting from or attributable to such reciprocal financing arrangements.

PRA

R

This section applies to a *firm* if another member of its *group* intends to issue a *capital instrument* on or after 1 March 2012 for inclusion in the *group capital resources* of the *firm* or its *ultimate EEA insurance parent undertaking*.

6.1.43B

PRA

R

A *firm* must notify the *PRA* in writing of the intention of another member of its *group* which is not a *firm* to issue a *capital instrument* which it intends to include within its *group capital resources*, or the *group capital resources* of its *ultimate EEA insurance parent undertaking*, as soon as it becomes aware of the intention of the *group undertaking*. When giving notice, a *firm* must:

- (1) provide details of the amount of capital to be raised through the intended issue and whether the capital is intended to be issued to external investors or within its *group*;
- (2) identify the stage of the *capital resources table* the *capital instrument* is intended to fall within;
- (3) include confirmation from a *senior manager* of the *firm* responsible for authorising the inclusion of the issue within *group capital resources* that the *capital instrument* complies with the *rules* applicable to instruments included in the stage of the *capital resources table* identified in (2); and
- (4) provide details of any features of the *capital instrument* which are novel, unusual or different from a *capital instrument* of a similar nature previously issued by the *firm* or widely available in the market or not specifically contemplated by ■ GENPRU 2.2.

This *rule* does not apply to a *firm* if a *group undertaking* intends to issue a *capital instrument* listed in ■ INSPRU 6.1.43E R.

6.1.43C
PRA

R

A *firm* must provide a further notification to the *PRA* in writing including all the information required in ■ INSPRU 6.1.43BR (1) to ■ (4) as soon as any changes are proposed to the intended date of issue, amount of issue, type of investors, stage of capital or any other feature of the *capital instrument* to that previously notified to the *PRA* .

6.1.43D
PRA

R

If a *group undertaking* proposes to establish a debt securities program for the issue of *capital instruments* which the *firm* intends to include within its *group capital resources* or the *group capital resources* of its *ultimate EEA insurance parent undertaking*, it must:

- (1) notify the *PRA* of the establishment of the program; and
- (2) provide the information required by ■ INSPRU 6.1.43BR (1) to ■ (4)

as soon as it becomes aware of the proposed establishment. The *PRA* must be notified of any changes, in accordance with ■ INSPRU 6.1.43C R.

6.1.43E
PRA

R

The *capital instruments* to which ■ INSPRU 6.1.43B R does not apply are;

- (1) ordinary *shares* issued by a *group undertaking* which
 - (a) are the most deeply subordinated *capital instrument* issued by that *group undertaking*;
 - (b) meet the criteria set out in ■ GENPRU 2.2.83 R (2) and ■ (3); and
 - (c) are the same as ordinary *shares* previously issued by that *group undertaking*;
- (2) debt instruments issued from a debt securities program established by a *group undertaking*, provided that program was notified to the *PRA* prior to its first draw down in accordance with ■ INSPRU 6.1.43D R; and
- (3) *capital instruments* which are not materially different in terms of their characteristics and eligibility for inclusion in a particular tier of capital to *capital instruments* previously issued by that *group undertaking* and included in the *group capital resources* of the *firm* or the *group capital resources* of its *ultimate EEA insurance parent undertaking*.

6.1.43F
PRA

R

A *firm* must notify the *PRA* in writing, no later than the date of issue, of the intention of a *group undertaking* to issue a *capital instrument* listed in ■ INSPRU 6.1.43E R which the *firm* intends to include within its *group capital resources* or the *group capital resources* of its *ultimate EEA insurance parent undertaking*. When giving notice a *firm* must

- (1) provide the information set out at ■ INSPRU 6.1.43BR (1) to ■ (3); and
- (2) confirm that the terms of the *capital instrument* have not changed since the previous issue of that type of *capital instrument* by that *group undertaking*.

Calculation of GCR - Limits on the use of different forms of capital

6.1.44

PRA

G

As the various components of capital differ in the degree of protection that they offer the *insurance group*, restrictions are placed on the extent to which certain types of capital are eligible for inclusion in the *group capital resources* of the *undertaking* in ■ INSPRU 6.1.17 R. These restrictions are set out in ■ INSPRU 6.1.45 R.

6.1.45

PRA

R

- (1) For the purposes of ■ INSPRU 6.1.9 R, ■ INSPRU 6.1.10 R and ■ INSPRU 6.1.15 R, a *firm* must ensure that at all times its *tier one capital resources* and *tier two capital resources* are of such an amount that the *group capital resources* of the *undertaking* in ■ INSPRU 6.1.17 R comply with the following limits:
 - (a) $(P - Q) = (R - S)$;
 - (b) $(P - Q + T - W) = (R - S)$;
 - (c) $V = P$;
 - (d) Q 15% of P ;
 - (e) T P ; and
 - (f) W P
- (2) For the purposes of ■ INSPRU 6.1.9 R and ■ INSPRU 6.1.10 R, a *firm* must ensure that at all times its *tier one capital resources* and *tier two capital resources* are of such an amount that its *group capital resources* comply with the following limit, subject to (4)

$$(P - Q + T) = 1/3 X + (R - S - U - X).$$
- (3) For the purposes of (1) and (2):
 - (a) P is the *total group tier one capital* of the *undertaking* in ■ INSPRU 6.1.17 R;
 - (b) Q is the sum of the *innovative tier one capital resources* calculated in accordance with ■ INSPRU 6.1.53 R;
 - (c) R is the *group capital resources requirement* of the *undertaking* in ■ INSPRU 6.1.17 R;
 - (d) S is the sum of all the *with-profits insurance capital components* of an *undertaking* in ■ INSPRU 6.1.17 R that is an *insurer* and each of its *regulated related undertakings* that is an *insurer*;

6

- (e) T is the *total group tier two capital* of the *undertaking* in ■ INSPRU 6.1.17 R;
 - (f) U is the sum of all the *resilience capital requirements* of an *undertaking* in ■ INSPRU 6.1.17 R that is an *insurer* and each of its *regulated related undertakings* that is an *insurer*;
 - (g) V is the sum of all the *core tier one capital* calculated in accordance with ■ INSPRU 6.1.55 R;
 - (h) W is the sum of the *lower tier two capital resources* calculated in accordance with ■ INSPRU 6.1.57 R; and
 - (i) X is the MCR of the *firm* less its *resilience capital requirement*, if any.
- (4) For the purposes of (2):
- (a) ■ INSPRU 6.1.45 R (1)(a) does not apply;
 - (b) the *innovative tier one capital* of the *firm* or its *regulated related undertakings* that meets the conditions for it to be *upper tier two capital* may be included as *upper tier two capital* for the purpose of the calculation in ■ INSPRU 6.1.50 R; and
 - (c) the *firm* must exclude from the calculation of (P - Q + T) in (2) the higher of:
 - (i) any amount by which the *total group tier two capital* exceeds the *group capital resources* of the *firm* less any *innovative tier one capital* excluded by (b); and
 - (ii) any amount by which the sum of *lower tier two capital resources* calculated in accordance with ■ INSPRU 6.1.57 R exceeds one third of the *group capital resources* of the *firm* less any *innovative tier one capital* excluded by (b).

6.1.46

PRA

G

The amount of any capital item excluded from *group capital resources* under ■ INSPRU 6.1.45 R (1)(d) may form part of *total group tier two capital* calculated in accordance with ■ INSPRU 6.1.50 R subject to the limits in ■ INSPRU 6.1.45 R (1)(e) and ■ INSPRU 6.1.45R (1)(f).

6.1.47

PRA

R

For the purposes of ■ INSPRU 6.1.10 R, a *firm* must ensure that the *tier one capital resources* and *tier two capital resources* of each of its *long-term insurance business* and its *general insurance business* are of such an amount that the *group capital resources* of each its *long-term insurance business* and its *general insurance business* comply with the limits in ■ INSPRU 6.1.45 R separately for each type of business.

Calculation of GCR - Total group tier one capital

6.1.48
PRA

R For the purposes of ■ INSPRU 6.1.43 R, the *total group tier one capital* of an *undertaking* in ■ INSPRU 6.1.17 R is the sum of:

- (1) the *tier one capital resources* of the *undertaking* in ■ INSPRU 6.1.17 R; and
- (2) subject to ■ INSPRU 6.1.40 R, the *tier one capital resources* of each of the *related undertakings* of that *undertaking* that is a *regulated related undertaking* after the deduction in ■ INSPRU 6.1.49 R.

6.1.49
PRA

R The deduction referred to in ■ INSPRU 6.1.48 R is the sum of:

- (1) the book value of the investment by the *undertaking* in ■ INSPRU 6.1.17 R in the *tier one capital resources* of each of its *related undertakings* that is a *regulated related undertaking*; and
- (2) the book value of the investments by *related undertakings* of the *undertaking* in ■ INSPRU 6.1.17 R in the *tier one capital resources* of the *undertaking* in ■ INSPRU 6.1.17 R and each of its *related undertakings* that is a *regulated related undertaking*.

Calculation of GCR - Total group tier two capital

6.1.50
PRA

R For the purposes of ■ INSPRU 6.1.43 R, the *total group tier two capital* of an *undertaking* in ■ INSPRU 6.1.17 R is the sum of:

- (1) the *upper tier two capital resources* and the *lower tier two capital resources* of that *undertaking*; and
- (2) subject to ■ INSPRU 6.1.40 R, the *upper tier two capital resources* and the *lower tier two capital resources* of each of the *related undertakings* of that *undertaking* that is a *regulated related undertaking* after the deduction in ■ INSPRU 6.1.51 R.

6.1.51
PRA

R The deduction referred to in ■ INSPRU 6.1.50 R is the sum of:

- (1) the book value of the investments by the *undertaking* in ■ INSPRU 6.1.17 R in the *upper tier two capital resources* and the *lower tier two capital resources* of each of its *related undertakings* that is a *regulated related undertaking*; and
- (2) the book value of the investments by *related undertakings* of the *undertaking* in ■ INSPRU 6.1.17 R in the *upper tier two capital resources* and the *lower tier two capital resources* of the *undertaking* in ■ INSPRU 6.1.17 R and each of its *related undertakings* that is a *regulated related undertaking*.

6.1.52
PRA

G

For the purposes of ■ INSPRU 6.1.50 R (2), the limits in ■ GENPRU 2.2.37 R apply to the *upper tier two capital resources* and the *lower tier two capital resources* of any *regulated related undertaking* that is an *insurer*. Similar limits may apply to other *regulated related undertakings* under the relevant *sectoral rules*.

Calculation of GCR - Innovative tier one capital resources, lower tier two capital resources and core tier one capital

6.1.53
PRA

R

For the purposes of ■ INSPRU 6.1.45 R (4)(b), the *innovative tier one capital resources* is the sum of:

- (1) the *innovative tier one capital resources* of the *undertaking* in ■ INSPRU 6.1.17 R; and
- (2) subject to ■ INSPRU 6.1.40 R, the *innovative tier one capital resources* of each of the *related undertakings* of that *undertaking* that is a *regulated related undertaking* after the deduction in ■ INSPRU 6.1.54 R.

6.1.54
PRA

R

The deduction referred to in ■ INSPRU 6.1.53 R is the sum of:

- (1) the book value of the investments by the *undertaking* in ■ INSPRU 6.1.17 R in the *innovative tier one capital resources* of each of its *related undertakings* that is a *regulated related undertaking*; and
- (2) the book value of the investments by *related undertakings* of the *undertaking* in ■ INSPRU 6.1.17 R in the *innovative tier one capital resources* of the *undertaking* in ■ INSPRU 6.1.17 R and each of its *related undertakings* that is a *regulated related undertaking*.

6.1.55
PRA

R

For the purposes of ■ INSPRU 6.1.45 R (3)(g), the *core tier one capital* is the sum of:

- (1) the *core tier one capital* of the *undertaking* of ■ INSPRU 6.1.17 R; and
- (2) subject to ■ INSPRU 6.1.40 R, the *core tier one capital* of each of the *related undertakings* of that *undertaking* that is a *regulated related undertaking* after the deduction in ■ INSPRU 6.1.56 R.

6.1.56
PRA

R

The deduction referred to in ■ INSPRU 6.1.55 R is the sum of:

- (1) the book value of the investments by the *undertaking* in ■ INSPRU 6.1.17 R in the *core tier one capital* of each of its *related undertakings* that is a *regulated related undertaking*; and

6.1.57
PRA

R (2) the book value of the investments by *related undertakings* of the *undertaking* in ■ INSPRU 6.1.17 R in the *core tier one capital* of the *undertaking* in ■ INSPRU 6.1.17 R and each of its *related undertakings* that is a *regulated related undertaking*.

For the purposes of ■ INSPRU 6.1.45 R (3)(h), the *lower tier two capital resources* is the sum of:

- (1) the *lower tier two capital resources* of the *undertaking* in ■ INSPRU 6.1.17 R; and
- (2) subject to ■ INSPRU 6.1.40 R, the *lower tier two capital resources* of each of the *related undertakings* of that *undertaking* that is a *regulated related undertaking* after the deduction in ■ INSPRU 6.1.58 R.

6.1.58
PRA

R The deduction referred to in ■ INSPRU 6.1.57 R is the sum of:

- (1) the book value of the investments by the *undertaking* in ■ INSPRU 6.1.17 R in the *lower tier two capital resources* of each of its *related undertakings* that is a *regulated related undertaking*; and
- (2) the book value of the investments by *related undertakings* of the *undertaking* in ■ INSPRU 6.1.17 R in the *lower tier two capital resources* of the *undertaking* in ■ INSPRU 6.1.17 R and each of its *related undertakings* that is a *regulated related undertaking*.

Calculation of GCR - Inadmissible assets

6.1.59
PRA

R For the purpose of ■ INSPRU 6.1.43 R, a *firm* must deduct from the group capital resources before deduction (calculated at stage C in the table in ■ INSPRU 6.1.43 R) of the *undertaking* in ■ INSPRU 6.1.17 R, the value of all assets of the *undertaking* in ■ INSPRU 6.1.17 R and each of its *regulated related undertakings* that are not admissible assets as set out in ■ INSPRU 6.1.60 R.

6.1.60
PRA

R For the purposes of ■ INSPRU 6.1.59 R, an asset is not an admissible asset if:

- (1) in respect of a *regulated related undertaking* or *undertaking* in ■ INSPRU 6.1.17 R that is an *insurer* (other than a *pure reinsurer*), it is not an *admissible asset* as listed in ■ GENPRU 2 Annex 7 R;
- (2) in respect of a *regulated related undertaking* or *undertaking* in ■ INSPRU 6.1.17 R that is a *pure reinsurer*, the holding of the asset is inconsistent with compliance by that *undertaking* with ■ INSPRU 3.1.61A R; or

- (3) in respect of a *regulated related undertaking* or *undertaking* in ■ INSPRU 6.1.17 R that is not an *insurer*, it is an asset of the *undertaking* that is not admissible for the purpose of calculating that *undertaking's solo capital resources* in accordance with the *sectoral rules* applicable to it.

6.1.61
PRA

R For the purposes of ■ INSPRU 6.1.60 R (3), the *sectoral rules* applicable to:

- (1) an *asset management company* are the *sectoral rules* that would apply to it if, in connection with its activities, it were treated as an *investment firm*; and
- (2) a *financial institution* that is not a *regulated entity* are the *sectoral rules* that would apply to it if, in connection with its activities, it were treated as being within the *banking sector*.

Calculation of GCR - Deductions under requirement deduction method from group capital resources

6.1.62
PRA

R For the purposes of ■ INSPRU 6.1.43 R, a *firm* must deduct from the group capital resources before deduction (calculated at stage C in the table in ■ INSPRU 6.1.43 R) of an *undertaking* in ■ INSPRU 6.1.17 R, the sum of the value of the direct or indirect investments by the *undertaking* in ■ INSPRU 6.1.17 R in each of its *related undertakings* which is an *ancillary services undertaking*, calculated in accordance with ■ INSPRU 6.1.63 R.

6.1.63
PRA

R The value of an investment in an *undertaking* referred to in ■ INSPRU 6.1.62 R is the higher of the book value of the direct or indirect investment by the *undertaking* in ■ INSPRU 6.1.17 R and the notional capital resources requirement of that *undertaking*.

6.1.64
PRA

R For the purposes of ■ INSPRU 6.1.63 R, the notional capital resources requirement is:

- (1) for an *ancillary insurance services undertaking*, zero;
- (2) for any other *ancillary services undertaking*, the *capital resources requirement* that would apply to that *undertaking*, if it were a *regulated related undertaking*, in accordance with the *sectoral rules* applicable to a *regulated related undertaking* whose activities are closest in nature and scope to the activities of that *undertaking*.

Calculation of GCR - Deductions of ineligible surplus capital

6.1.65
PRA

R Where the *undertaking* in ■ INSPRU 6.1.17 R is a *participating insurance undertaking*, the *firm* must, for the purposes of ■ INSPRU 6.1.43 R, deduct from its group capital resources before deduction (calculated at stage C in the table in ■ INSPRU 6.1.43 R) the sum of the ineligible surplus capital

of each of its *regulated related undertakings* that is an *insurance undertaking*, calculated in accordance with ■ INSPRU 6.1.67 R.

6.1.66

PRA

G

The purpose of ■ INSPRU 6.1.65 R is to ensure that, where the *undertaking* in ■ INSPRU 6.1.17 R is a *firm*, *group capital resources* are not overstated by the inclusion of capital that, although surplus to the requirements of the relevant *regulated related undertaking* that is an *insurance undertaking*, cannot practically be transferred to support requirements arising elsewhere in the group. Therefore, ineligible surplus capital in a *regulated related undertaking* that is an *insurance undertaking* is deducted in arriving at *group capital resources*. Surplus capital in such a *regulated related undertaking* is regarded as transferable only to the extent that:

- (1) it can be transferred without the *regulated related undertaking* breaching its own limits on the use of different forms of capital;
- (2) it does not contain assets that are restricted within the meaning of ■ INSPRU 6.1.41 R; and
- (3) in the case of a *regulated related undertaking* that has a *long-term insurance business*, it does not contain any assets allocated to the *capital resources* of that *undertaking* for the purposes of the *capital resources* of its *long-term insurance business* meeting the *capital resources requirement* of its *long-term insurance business*.

6.1.67

PRA

R

- (1) For the purposes of ■ INSPRU 6.1.65 R, the ineligible surplus capital of a *regulated related undertaking* that is an *insurance undertaking* is calculated by deducting B from A where:
 - (a) A is the *regulatory surplus value* of that *insurance undertaking* less any restricted assets of the *insurance undertaking* that have been excluded under ■ INSPRU 6.1.41 R; and
 - (b) B is the transferable capital of that *undertaking*.

- (2) If A minus B is negative, the ineligible surplus capital is zero.

6.1.68

PRA

R

For the purposes of ■ INSPRU 6.1.67 R (1)(b), the transferable capital is calculated by deducting the sum of the following from the *tier one capital resources* of the *regulated related undertaking* that is an *insurance undertaking*:

- (1) any restricted assets of that *insurance undertaking* that have been excluded under ■ INSPRU 6.1.41 R;
- (2) any *tier one capital resources* of that *insurance undertaking* that have been allocated towards meeting the *individual capital resources requirement* of its *long-term insurance business*; and
- (3) the higher of:

- (a) 50% of the *individual capital resources requirement* of the *general insurance business* of that *insurance undertaking*; and
- (b) the *individual capital resources requirement* of the *general insurance business* of that *insurance undertaking* less the difference between E and F where:
 - (i) E is its *tier two capital resources*; and
 - (ii) F is the amount of its *tier two capital resources* that have been allocated towards meeting the *individual capital resources requirement* of its *long-term insurance business*.

Examples of transferable and ineligible surplus capital:

6.1.69

PRA

G

Example 1

Share capital	Audited reserves	FFA	Tier two	Requirement
30	20	0	40	50

- (i) Under ■ INSPRU 6.1.68 R, transferable capital = *tier one capital resources* of 50, less the sum of:
 - (1) restricted assets excluded under ■ INSPRU 6.1.41 R = (none);
 - (2) *tier one capital resources* allocated to the *long-term insurance business* = (none); and
 - (3) higher of (50% of 50 = 25 and 50 - 40 = 10) = (25) = (50 - 25) = 25
- (ii) Under ■ INSPRU 6.1.67 R, ineligible surplus capital = *regulatory surplus value* (40) less restricted assets excluded under ■ INSPRU 6.1.41 R (0) less transferable capital (25) = 15.

Example 2

Share capital	Audited reserves	FFA (of which 5 is restricted)	Tier two	Requirement (of which 4 relates to the <i>long-term insurance business</i>)
30	20	10	40	50

- (i) Under ■ INSPRU 6.1.68 R, transferable capital = *tier one capital resources* of 60, less the sum of:
 - (1) restricted assets excluded under ■ INSPRU 6.1.41 R = (5);
 - (2) *tier one capital resources* allocated to the *long-term insurance business* = (5); and

(3) the higher of (50% of 45 = 22.5; and 45 - 40 = 5) = (22.5) = 60 - 32.5 = 27.5

(ii) Under I ■ INSPRU 6.1.67 R, ineligible surplus capital = *regulatory surplus value* (50) - restricted assets excluded under ■ INSPRU 6.1.41 R of (5) - transferable capital (27.5) = 17.5.

Example 3

Share capital	Audited re-serves	FFA (of which 0 is restricted)	Tier two (40, of which 5 is excluded at the solo level - see below)	Requirement (of which 25 relates to the <i>long-term insurance business</i>)
20	10	20	35	50

The requirement relating to the *long-term insurance business* is met by the FFA of 20 and *tier two capital resources* of 5. Of the remaining *tier two capital resources* of 35, 5 is excluded at the solo level because the *tier one capital resources* allocated to the *general insurance business* are 30.

(i) Under ■ INSPRU 6.1.68 R, transferable capital = *tier one capital resources* of 50, less the sum of:

- (1) restricted assets excluded under ■ INSPRU 6.1.41 R = (none);
- (2) *tier one capital resources* allocated to the *long-term insurance business* = (20); and
- (3) the higher of (50% of 25 = 12.5; and 25 - (35 - 5) = -5) = (12.5) = 50 - 32.5 = 17.5.

(ii) Under ■ INSPRU 6.1.67 R, ineligible surplus capital = *regulatory surplus value* (35) - restricted assets excluded under ■ INSPRU 6.1.41 R of (0) - transferable capital (17.5) = 17.5.

Calculation of GCR - Assets in excess of market risk and counterparty exposure limits

6.1.70
PRA

R

Subject to ■ INSPRU 6.1.70A R, where the *undertaking* in ■ INSPRU 6.1.17 R is a *participating insurance undertaking*, the *firm* must deduct from its group capital resources before deduction (calculated at stage C in the table in ■ INSPRU 6.1.43 R) the assets in excess of *market risk* and *counterparty* exposure limits calculated in accordance with ■ INSPRU 6.1.74 R.

PAGE 23
6.1.70A
PRA

R

Where the *undertaking* in ■ INSPRU 6.1.17 R is a *pure reinsurer* that is a *participating insurance undertaking*, the *firm* must calculate assets in accordance with ■ INSPRU 6.1.74A R and deduct from its group capital resources before deduction (calculated at stage C in the table in ■ INSPRU 6.1.43 R) those assets the holding of which is inconsistent with compliance by that *undertaking* with ■ INSPRU 3.1.61A R.

6.1.71
PRA

G

For the purposes of ■ INSPRU 6.1.43 R, where the *undertaking* in ■ INSPRU 6.1.17 R is a *participating insurance undertaking*, the investments referred to in ■ INSPRU 6.1.48 R and ■ INSPRU 6.1.50 R are not subject to the *market risk* and *counterparty* exposure limits.

6.1.72
PRA

R

The *firm* (A) must, subject to ■ INSPRU 6.1.73 R, include in the calculation in ■ INSPRU 6.1.74 R or, where A is a *pure reinsurer*, ■ INSPRU 6.1.74A R each *related undertaking* (B) that is:

- (1) a *regulated related undertaking* that is a *subsidiary undertaking*; or
- (2) a *related undertaking* where the *firm* has elected to value the *shares* held in that *undertaking* by the *firm* in accordance with ■ GENPRU 1.3.47 R for the purposes of calculating the *tier one capital resources* of the *firm*.

6.1.73
PRA

R

The *related undertakings* in ■ INSPRU 6.1.72 R need only be included in the calculation in ■ INSPRU 6.1.74 R or ■ INSPRU 6.1.74A R if:

- (1) where B is a *regulated related undertaking*, the *solo capital resources* of that *undertaking* exceed its *individual capital resources requirement*; or
- (2) where B is an *undertaking* in ■ INSPRU 6.1.72 R (2), its assets that fall within one or more of the categories in ■ GENPRU 2 Annex 7 R exceed its accounting liabilities.

6.1.74
PRA

R

A's assets in excess of the *market risk* and *counterparty* exposure limits are calculated as follows:

- (1) Subject to (2), a *firm* must apply the *market risk* and *counterparty* exposure limits in ■ INSPRU 2.1.22 R (3) to:
 - (a) where B is an *insurer* (other than a *pure reinsurer*), the *admissible assets* of B;
 - (b) where B is a *pure reinsurer*, the assets of that *undertaking* less those assets identified in ■ INSPRU 6.1.60 R (2) as not being admissible; and
 - (c) where B is a *regulated related undertaking* that is not an *insurer*, the assets of that *undertaking* less those assets identified in ■ INSPRU 6.1.60 R (3) as not being admissible assets.
- (2) The *market risk* and *counterparty* exposure limits do not need to be applied to an *undertaking* in ■ INSPRU 6.1.72 R (2).

- (3) Where the assets of B in ■ INSPRU 6.1.74 R (1) exceed the limits in ■ INSPRU 2.1.22 R (3), the assets of B in excess of the limits must be deducted by the *firm* from B's *solo capital resources* for the purposes of ■ INSPRU 6.1.30 R.
- (4) After the application of (1) and (2), the surplus assets of B are aggregated with the *admissible assets* of A, where the surplus assets of B are:
 - (a) where B is a *firm* (other than a *pure reinsurer*), the *admissible assets* of B that represent the amount by which the *capital resources* of B exceed its *capital resources requirement*, subject to ■ INSPRU 6.1.77 R, and limited to the amount of transferable capital calculated in accordance with ■ INSPRU 6.1.68 R;
 - (b) where B is a *regulated related undertaking* that is not in (a), the assets of the *undertaking* in ■ INSPRU 6.1.74 R (1)(b) or ■ INSPRU 6.1.74 R (1)(c) that represent the amount by which the *solo capital resources* of B exceed its *individual capital resources requirement* and, where B is an *insurance undertaking* that is not in (a), limited to the amount of transferable capital calculated in accordance with ■ INSPRU 6.1.68 R; and
 - (c) where B is an *undertaking* in ■ INSPRU 6.1.72 R (2), the assets of the *undertaking* which represent those assets that fall within one or more of the categories in ■ GENPRU 2 Annex 7 R which exceed its accounting liabilities.
- (5) The *market risk* and *counterparty* exposure limits are then applied to the aggregate of A's *admissible assets* and the surplus assets in ■ INSPRU 6.1.74 R (4).

6.1.74A

PRA

R

A must apply ■ INSPRU 3.1.61A R to the aggregate of:

- (1) the assets of A, less any assets already identified in ■ INSPRU 6.1.60 R (2) as not being admissible; and
- (2) the surplus assets of B calculated in accordance with ■ INSPRU 6.1.74 R (1) to ■ INSPRU 6.1.74 R (4) as if that *rule* applied to B.

6.1.75

PRA

R

- (1) Subject to (2), A must then deduct the amount by which the *admissible assets* aggregated in accordance with ■ INSPRU 6.1.74 R (5) exceed the *market risk* and *counterparty* exposure limits from A's group capital resources before deduction (calculated at stage C in the table in ■ INSPRU 6.1.43 R) in accordance with ■ INSPRU 6.1.70 R.

- (2) Where A is a *pure reinsurer*, A must then deduct the amount of any assets identified by ■ INSPRU 6.1.74A R as not complying with ■ INSPRU 3.1.61A R in accordance with ■ INSPRU 6.1.70A R.

6.1.76

PRA

R

In relation to any of its *regulated related undertakings* that is not an *insurer*, A may modify the calculation in ■ INSPRU 6.1.74 R by:

- (1) omitting the calculation in ■ INSPRU 6.1.74 R (1) and ■ INSPRU 6.1.74 R (3); and
- (2) aggregating all of the assets of B identified in ■ INSPRU 6.1.74R (1)(c) as *admissible assets* with the *admissible assets* of A in ■ INSPRU 6.1.74 R (4).

6.1.77

PRA

R

The *admissible assets* of either A or B that are part of a *long-term insurance fund* of A or B are excluded for the purposes of the calculation in ■ INSPRU 6.1.74 R and ■ INSPRU 6.1.74A R except insofar as those assets are available to meet the liabilities and *capital resources requirement* of that *long-term insurance fund*.

6.1.78

PRA

R

If B is itself either a *participating insurance undertaking* or an *insurance parent undertaking*, the *admissible assets* of B for the purposes of ■ INSPRU 6.1.74 R (1) must be calculated as in ■ INSPRU 6.1.75 R but as if B were A.

Chapter 7

Individual Capital Assessment

7.1 Application

7.1.1
PRA

R ■ INSPRU 7.1 applies to an insurer unless it is:

- (1) a *non-directive friendly society*; or
- (2) a *Swiss general insurer*; or
- (3) an *EEA-deposit insurer* ; or
- (4) an *incoming EEA firm* ; or
- (5) an *incoming Treaty firm*.

7.1.2
PRA

R Subject to ■ INSPRU 7.1.3 R, ■ INSPRU 7.1 applies to managing agents and to the Society in accordance with:

- (1) for *managing agents*, ■ INSPRU 8.1.4 R; and
- (2) for the *Society*, ■ INSPRU 8.1.2 R.

7.1.3
PRA

R *Managing agents* must carry out assessments of capital adequacy for each *syndicate* they manage by reference to all open *syndicate years* taken together.

7.1.3A
FCA PRA

G A *firm* should refer to ■ GEN 2.2.23 R to ■ GEN 2.2.25 G (cutover: application of provisions made by both the *FCA* and the *PRA*) when applying the *rules* and *guidance* in ■ INSPRU 7. In particular:

- (1) ■ INSPRU 7.1.16 G to ■ 7.1.18 Gand ■ INSPRU 7.1.20 G are made by the *FCA* for the purpose of applying this *guidance* to *insurers* pursuant to the *statutory objectives*; and
- (2) certain *rules* and *guidance* in ■ INSPRU 7.1 are also made by the *FCA* for the purpose of their application to *dormant account operators*. These provisions are ■ INSPRU 7.1.4 G to ■ 7.1.21 G, ■ INSPRU 7.1.25 G to ■ 7.1.27 G, ■ INSPRU 7.1.29 G to ■ 7.1.73 G and ■ 7.1.91 G? ■ 7.1.99 G.

Purpose

7.1.4

FCA PRA

G

Principle 4 requires a *firm* to maintain adequate financial resources. ■ GENPRU 2 deals specifically with the adequacy of the *capital resources* element of a *firm's* financial resources.

7.1.5

FCA PRA

G

The adequacy of a *firm's capital resources* needs to be assessed both by the *firm* and the *appropriate regulator*. In ■ GENPRU 2.1, the *appropriate regulator* sets minimum *capital resources requirements* for *firms*.

7.1.6

FCA PRA

G

The *appropriate regulator* also assesses whether the minimum *capital resources requirements* are appropriate by reviewing:

- (1) a *firm's* own assessment of its capital needs; and
- (2) the processes and systems by which that assessment is made.

7.1.7

FCA PRA

G

In assessing whether the minimum *capital resources requirements* are appropriate, the *appropriate regulator* is principally concerned with capital resources as calculated in accordance with ■ GENPRU 2.2.17 R. However, in carrying out its own assessment of its capital needs, a *firm* may take into account other capital available to it (see ■ GENPRU 1.2.30 R and ■ GENPRU 1.2.36 R), although it should be able to explain and justify its reliance on these other forms of capital.

7.1.8

FCA PRA

G

There are two main aims in this section:

- (1) to enable *firms* to understand the issues which the *appropriate regulator* would expect to see assessed and the systems and processes which the *appropriate regulator* would expect to see in operation for ICAs by *firms* to be regarded as thorough, objective and prudent; and
- (2) to enable *firms* to understand the *appropriate regulator's* approach to assessing whether the minimum *capital resources requirements* of ■ GENPRU 2.1 are appropriate and what action may be taken if the *appropriate regulator* concludes that those requirements are not appropriate to a *firm's* circumstances.

General approach

7.1.9

FCA PRA

G

The *rules* in ■ GENPRU 1.2 require a *firm* to identify and assess risks to its being able to meet its liabilities as they fall due, to assess how it intends to deal with those risks and to quantify the financial resources it considers necessary to mitigate those risks. To meet these requirements, a *firm* should consider:

- (1) the extent to which capital is an appropriate mitigant for the risks identified; and
- (2) assess the amount and quality of capital required.

7.1.9A

FCA PRA

G

This section sets out in greater detail the approach to be taken by a *firm* when carrying out the assessment of capital described in the preceding paragraph. This is the assessment referred to as an *individual capital assessment*. ■ GENPRU 1.2.42 R is a general requirement

for a *firm* to carry out stress tests and scenario analyses taking into account an appropriate range of adverse circumstances and events relevant to the *firm's* business and risk profile and to estimate the financial resources it would need to continue to meet the *overall financial adequacy rule* in the stress scenarios considered. As part of its obligations under ■ GENPRU 1.2.42 R, the *firm* must carry out stress tests and scenario analyses to estimate the financial resources it would need to support its business plans and continue adequately to cover its *CRR* and meet the *overall financial adequacy rule* over a time horizon of 3 to 5 years. This is a separate requirement from that to carry out an *ICA*, and *guidance* on this requirement is provided in ■ GENPRU 1.2.73A G and ■ GENPRU 1.2.73C G. In particular, *firms* should note that there is no requirement that the level of capital required as identified by the *ICA* should be equal to, or exceed, the *CRR*.

7.1.9B
FCA PRA

G The requirements and *guidance* in this section are drafted so as to apply to a *firm* on a solo basis. As noted in ■ GENPRU 1.2.17 G, however, in some cases the requirements in ■ GENPRU 1.2 apply on a consolidated basis. In these cases, a *firm* should read and apply this section making appropriate adjustments to reflect the application of the ■ GENPRU 1.2 requirements on a consolidated basis.

7.1.10
FCA PRA

G A *firm* may choose to carry out its *ICA* in another way than through the use of stress tests and scenario analyses. The method should be proportionate to the size and nature of its business.

7.1.11
FCA PRA

G In accordance with ■ GENPRU 1.2.60 R, these assessments must be documented so that they can be easily reviewed by the *appropriate regulator* as part of the *appropriate regulator's* assessment of the adequacy of the *firm's capital resources*.

7.1.12
FCA PRA

G The *appropriate regulator* may ask for the results of these assessments to be provided to it together with a description of the processes by which the assessments have been made, the range of results from each stress test or scenario analysis performed and the main assumptions made. The *appropriate regulator* may also carry out a more detailed examination of the details of the *firm's* processes and calculations.

7.1.13
FCA PRA

G Based upon this information and other information available to it, the *appropriate regulator* will consider whether the *capital resources requirement* applicable to the firm is appropriate. Where relevant, the *firm's ECR* will be a key input to the *appropriate regulator's* assessment of the adequacy of the *firm's capital resources*. For *firms* carrying on *general insurance business*, the *ECR* is calculated in accordance with ■ INSPRU 1.1.72C R. For *realistic basis life firms*, the *ECR* forms part of the *CRR* and is calculated in accordance with ■ GENPRU 2.1.38 R.

7.1.14
FCA PRA

G *Firms* that are required to calculate an *ECR* may wish to note that the *ECR* as calculated is based upon the assumptions that a *firm's* business is well diversified, well managed with assets matching its liabilities and good controls, and stable with no large, unusual, or high risk transactions. *Firms* may find it helpful to assess the extent to which their actual business differs from these assumptions and therefore what adjustments it might be reasonable to make to the *CRR* or *ECR* to arrive at an adequate level of *capital resources*.

Methodology of capital resources assessment

7.1.15

FCA PRA

R

Where a *firm* is carrying out an assessment in accordance with ■ GENPRU 1.2 of the adequacy of its overall financial resources to cover the risk in the *overall financial adequacy rule*, that is, the risk of its being unable to meet its liabilities as they fall due, the assessment of the adequacy of the *firm's* capital resources must:

- (1) reflect the *firm's* assets, liabilities, intra-group arrangements and future plans;
- (2) be consistent with the *firm's* management practice, systems and controls;
- (3) consider all material risks that may have an impact on the *firm's* ability to meet its liabilities to *policyholders*; and
- (4) use a valuation basis that is consistent throughout the assessment.

Representative of the firm's characteristics

7.1.16

FCA PRA

G

The *ICA* should reflect both the *firm's* desire to fulfil its business objectives and its responsibility to meet liabilities to *policyholders*. This means that the *ICA* should demonstrate that the *firm* holds sufficient capital to be able to make planned investments and take on new business (within an appropriate planning horizon). It should also ensure that if the *firm* had to close to new business (if it has not already done so), it would be able to meet its existing commitments. The costs of writing new business, the expenses incurred in servicing all liabilities, including liabilities to non-*policyholders*, and the nature of intra-group arrangements and *reinsurance* arrangements should be considered as part of the assessment as well as the costs that would be incurred in the event of closure to new business.

7.1.17

FCA PRA

G

Where a *firm* has not already closed to new business, the *ICA* should be made on the basis that the *firm* closes to new business after an appropriate period. This period should allow for the time it would take for the *firm* to identify the need for closure and to implement the necessary action.

7.1.18

FCA PRA

G

Where including new business would increase the capital resources by more than any increase in the capital required, or reduce the capital required by more than any reduction in available capital, new business should be excluded. To the extent that including new business increases the required capital, a *firm* should consider whether it is appropriate to include the additional amount within the *ICA*.

7.1.19

FCA PRA

G

Any contract that the *firm* is legally obliged to renew should be considered part of the *firm's* existing liabilities and not treated as new business. Such contractual obligations include multi-year *general insurance contracts* and the exercise of options by long-term *policyholders*.

7.1.20

FCA PRA

G

For a *firm* to discharge its financial obligations to *policyholders*, it will incur certain expenses, including payments to the *firm's* own staff, contributions to any pension scheme and fees to outsourcing suppliers or service companies. All of these expenses, and risks associated with these payments, should be considered when carrying out the *ICA*. When

considering the appropriate level of expenses in a projection, the *firm* should consider the acceptability of the service provided to *policyholders* and the resources required by the senior management to manage the *firm*.

7.1.21
FCA PRA

G

Where a *firm's* liabilities include payments which are subordinated to liabilities to *policyholders*, these payments do not need to be included within the *ICA*. However, the *ICA* should include all payments that must be made to avoid putting *policyholders'* interests at risk, including any payment on which a default might trigger the winding up of the *firm*. For example, if the principal of a loan could be recalled on default of a coupon payment, coupon payments over the lifetime of *policyholder* liabilities should be included in the *ICA*. As a further example, declared dividends should be treated as a liability. However, planned dividends that have not been declared need not be included in the *ICA*.

Intra-group capital considerations

7.1.22
PRA

G

It is common for *firms* whose corporate *group* consists of a number of separate legal entities to have intra-group transactions in place. Capital and risk may originate within the *firm* and be passed to another company or may originate in another company and be passed to the *firm*. The *ICA* should consider the underlying effect of intra-group arrangements.

7.1.23
PRA

G

Risks may exist within the individual legal entity from these intra-group transactions. Intra-group transactions should not be treated differently from external transactions just because they are intra-group. However, some intra-group transactions may carry less credit risk than the equivalent external transactions if the *firm* has access to more information regarding the financial position of an internal *reinsurer*. In assessing intra-group risks, consideration should be given, but should not be limited, to:

- (1) future defaults on intra-group *reinsurance* arrangements: *Firms* should consider, for example, a test akin to the credit risk assessment undertaken on external *reinsurance* assets held or future anticipated recoveries; in other cases it may be more appropriate to perform a more explicit assessment of the *group* counterparty's own capital position, to inform the *firm's* exposure to default;
- (2) non-recoverability on intra-group loans: Even though these transactions occur within the same *group*, there is a risk that an entity may default on such intra-group payments; and
- (3) non-payment of future internal dividends or transfers: Many entities or funds within a *group* rely on these payments as a means to maintaining their solvency position. There is a risk that the entity paying the dividend or making the transfer may not be able to do so, and *ICAs* performed for separate regulated legal entities or funds within a *group* should consider these risks as appropriate.

7.1.24
PRA

G

A *firm's* capital should normally be restricted to resources within the *firm*. Where the *firm* is relying on resources outside the direct control of the *firm*, these should only be included to the extent that the *firm* has a right to call on those resources and the provider has the ability to provide those resources without recourse to the assets of the *firm* itself, in the circumstances considered as part of the *ICA*.

Consistency with a firm's practice, systems and controls

7.1.25 FCA PRA G The ICA should reflect the *firm's* ability to react to events as they occur. When relying on prospective management actions, *firms* should understand the implications of taking such actions, including the financial effect, and taking into consideration any preconditions that might affect the value of management actions as risk mitigants.

7.1.26 FCA PRA G The ICA should assume that a *firm* will continue to manage its business having regard to the PRA's and FCA's Principles for Businesses. In particular, a *firm* should take into account how the Principles for Businesses may constrain its prospective management actions, for example, the FCA's *Principle 6* (Treating Customers Fairly).

7.1.27 FCA PRA G *Firms* should also consider whether their systems and controls provide sufficient information to permit senior management to identify the crystallisation of risks in a timely manner so as to provide them with the opportunity to respond and allow the *firm* to obtain the full value of the modelled management action. *Firms* should also analyse the wider implications of the management actions, particularly where they represent significant divergence from the business plan and use this information to consider the appropriateness of taking this action.

7.1.28 PRA G Where the ICA assumes that the *firm* may move capital from one part of its business to another across legal or geographical boundaries, the *firm* should explain the mechanisms that it would apply and satisfy itself that it could achieve the necessary capital movements in times of distress (see ■ GENPRU 1.2.51 R). The *firm* should also consider any associated costs or restrictions in the amount of capital that would be able to be relocated.

Considering all material risks

7.1.29 FCA PRA G The ICA should give the required level of confidence that the *firm's* liabilities to *policyholders* will be paid. The ICA should consider all material risks which may arise before the *policyholder* liabilities are paid (including those risks set out in ■ GENPRU 1.2.30 R).

7.1.30 FCA PRA G *Firms* should not ignore risks simply because they relate to events that occur with an expected likelihood beyond the confidence level. However, the capital required in the face of these tail events may be reduced for the purpose of carrying out the ICA. For example, while an A-rated bond may be assumed not to default within the required confidence level, allowance should be made for the devaluation of that bond through a more likely downgrade or change in credit spreads or other method which reflects that this investment includes a default risk to the *firm*.

7.1.31 FCA PRA G Notwithstanding ■ INSPRU 7.1.30 G, risks which have an immaterial effect on the *firm's* financial position or only occur with an extreme probability may be excluded from the ICA.

7.1.32 FCA PRA G The number of *claims*, the amount paid and the timing of a *firm's* liabilities may be uncertain. The ICA should consider risks which result in a change in the cost of those liabilities.

7.1.33

FCA PRA

G

The assets that a *firm* holds will include assets to back both the liabilities and any capital requirement. These assets carry risk, both in their own right and to the extent that they do not match the liabilities that they are backing. The risk associated with these assets should be considered over the full term for which the *firm* expects to carry the liabilities.

7.1.34

FCA PRA

G

Where the *firm* is relying on systems and controls in order to mitigate risks, the *firm* should consider the risk of those systems and controls failing at the confidence level at which the *ICA* is being carried out.

7.1.35

FCA PRA

G

If a *firm* summarises cash flows over part of the lifetime of the portfolio using a balance sheet but is exposed to risks which emerge after the balance sheet date, then these longer-dated risks may be captured by adjusting the assumptions used in the closing balance sheet.

Valuation basis

7.1.36

FCA PRA

G

The valuation of the assets and of the liabilities should reflect their economic substance. A realistic valuation basis should be used for assets and liabilities taking into account the actual amounts and timings of cash flows under any projections used in the assessment.

7.1.37

FCA PRA

G

In carrying out the *ICA*, wherever possible the value of assets should be marked to market. Where marking to market is not possible, the *ICA* should use a method suitable for assessing the underlying economic benefit of holding each asset.

7.1.38

FCA PRA

G

The methods and assumptions used in valuing the liabilities should contain no explicit margins for risk, nor should the approach be optimistic. The valuation of liabilities should be consistent with the valuation of assets. To the extent the market price includes an implicit allowance for risk, this should be included within the valuation.

7.1.39

FCA PRA

G

The methodology used to place a value on an asset or a liability following a risk event should be consistent with the methodology used prior to the risk event.

7.1.40

FCA PRA

G

Approximate valuation methods may be used by the *firm* for minor lines of business or to capture less material types of risk. However, the *firm* should avoid methods which under-estimate the risk in aggregate.

7.1.41

FCA PRA

G

The *firm* should carry out a broad reconciliation of key parts of any balance sheet used in the *ICA* with the corresponding entry from audited results.

ICA submitted to appropriate regulator: confidence level

7.1.42

FCA PRA

R

Where the *appropriate regulator* requests a *firm* to submit to it a written record of the *firm's* assessments of the adequacy of its capital resources carried out in accordance with ■ INSPRU 7.1.15 R, those assessments must include an assessment comparable to a 99.5% confidence level over a one year timeframe that the value of assets exceeds the value of liabilities,

whether or not this is the confidence level otherwise used in the *firm's* own assessments.

7.1.43

FCA PRA

G

In considering the value of liabilities for the purpose of ■ INSPRU 7.1.42 R, *firms* should have regard to the guidance in ■ INSPRU 7.1.21 G, ■ INSPRU 7.1.26 G and ■ GENPRU 1.2.27 G to ■ GENPRU 1.2.29 G.

7.1.44

FCA PRA

G

The *appropriate regulator* requires *firms* to submit a capital assessment calibrated to a common confidence level, as set out in ■ INSPRU 7.1.42 R, to enable the *appropriate regulator* to assess whether the minimum *capital resources requirements* in ■ GENPRU 2.1 are appropriate. This then allows the *appropriate regulator* to give a consistent level of *individual capital guidance* across the industry.

7.1.45

FCA PRA

G

If a *firm* selects a longer time horizon than one year it may choose to use a lower confidence level than 99.5%. In such a case, the *firm* should be prepared to justify its choice and explain why this confidence interval is appropriate and how it is comparable to a 99.5% confidence level over a one year timeframe. An assessment based on a longer timeframe should also demonstrate that there are sufficient assets to cover liabilities at all future dates. This may be illustrated by future annual balance sheets.

Measurement

7.1.46

FCA PRA

G

In determining the strength of the *ICA*, a *firm* should consider all risks in aggregate making appropriate allowance for diversification such that the assessment meets the required confidence level overall. The *firm* should be able to describe and explain each of the main diversification benefits allowed for.

7.1.47

FCA PRA

G

For risks that can be observed to crystallise over a short period of the order of a year, the confidence level may be measured with reference to the probability distribution for the impact of the risks over one year. For example, catastrophic events such as hurricanes can be measured in this way by estimating the ultimate capital cost.

7.1.48

FCA PRA

G

For risks that are not observable over a short period (such as long-tailed liability business or annuitant mortality), the confidence level may be measured with reference to the probability distribution for the emergence of that risk over the lifetime of the liabilities.

Documenting ICAs submitted to the appropriate regulator

7.1.49

FCA PRA

R

The written record of a *firm's individual capital assessments* carried out in accordance with ■ INSPRU 7.1.15 R submitted by the *firm* to the *appropriate regulator* must:

- (1) in relation to the assessment comparable to a 99.5% confidence level over a one year timeframe that the value of assets exceeds the value of liabilities, document the reasoning and judgements underlying that assessment and, in particular, justify:
 - (a) the assumptions used;
 - (b) the appropriateness of the methodology used; and

(c) the results of the assessment; and

(2) identify the major differences between that assessment and any other assessments carried out by the *firm* using a different confidence level.

7.1.50
PRA

G

A *firm's* management should determine their own risk appetite or confidence level and a risk measure that they believe is suitable for the management of the business. The *appropriate regulator* expects that the *firm's* capital resources assessment under ■ GENPRU 1.2 which it uses in the management of its business may well be at a different confidence level than the 99.5% one required by ■ INSPRU 7.1.42 R for a number of reasons, for example, because its view of capital adequacy is different, or to satisfy the demands of rating agencies, or to meet the proposition to *policyholders* as to the strength of the *firm*. A *firm* will maintain its own written assessment of the adequacy of its financial resources, as required by ■ GENPRU 1.2, through the written record requirement of ■ GENPRU 1.2.60 R.

7.1.51
PRA

G

■ INSPRU 7.1.49 R (2) recognises that a *firm* may carry out a number of different assessments of the adequacy of its capital resources, using different confidence levels, in reaching its overall assessment of the adequacy of its financial resources under ■ GENPRU 1.2. The purpose of asking the *firm* to identify the major differences between those assessments and the assessment documented under ■ INSPRU 7.1.49 R (1) is to enable the *appropriate regulator* better to understand the *firm's* approach to capital adequacy and risk management in running its business. Understanding the written record made under ■ GENPRU 1.2.60 R is therefore key to the *appropriate regulator's* understanding of the *firm's* risk and capital management processes.

7.1.52
PRA

G

The written record of any other assessment by the *firm* required by ■ GENPRU 1.2.60 R is not itself part of the submission to the *appropriate regulator*, but the *appropriate regulator* is interested in the connection between that other assessment, as documented in the written record required by ■ GENPRU 1.2.60 R, and the assessment documented under ■ INSPRU 7.1.49 R (1) in terms of the *firm's* compliance with ■ GENPRU 1.2, and the use of capital measures within the *firm*.

7.1.53
PRA

G

For the purpose of the written record submitted to the *appropriate regulator*, the submitted comparison should include:

- (1) A description of any direct difference in the strength of the *firm's* own assessment compared to the assessment submitted to the *appropriate regulator*. This is likely to be expressed as a different confidence level to the assessment undertaken to a 99.5% confidence level or the targeting of a defined margin about the 99.5% assessment.
- (2) A description of any major differences in the definition of the assets or liabilities, the management actions used, the risks considered or the valuation methodology and assumptions included within the assessment.

7.1.54
PRA

G

Some *firms* may not undertake an assessment at a separate confidence level because they consider that a 99.5% confidence level is appropriate to manage their business

and meets the requirements of ■ GENPRU 1.2. In the case of these *firms*, no analysis of the major differences is required to be submitted.

Justifying assumptions used

7.1.55 **G** *Firms* should provide evidence to support the choice of assumptions used within the *ICA*.

PRA

7.1.56 **G** Where the choice of assumptions is supported by data, the *firm* should consider the relevance of that data to the *firm's* current and future circumstances and the robustness of any estimates derived.

PRA

7.1.57 **G** Where the choice of assumptions is supported by expert judgement, the *firm* should consider the nature and value of the expertise being used to support this judgement and any biases that may exist. Where possible, the *firm* should use data to test and support these expert judgements.

PRA

Approach taken for significant assumptions

7.1.58 **G** *Firms* should be able to demonstrate how they have identified the most financially significant assumptions and calculate the sensitivity of the *ICA* to changes in these assumptions. The choice of assumption may be decided using the results of sensitivity testing.

PRA

7.1.59 **G** *Firms* may seek to justify their assumptions by considering the process used to determine those assumptions from relevant data. Alternatively, where historical data is either limited or not considered to be indicative of likely future experience, *firms* may justify their assumptions by reference to the suitability of the calibration for the purpose of the *ICA*. However, relatively more attention should be given to the justification where the choice of assumption has a more significant effect on the *ICA*.

PRA

7.1.60 **G** Where there is a concentration of business from a single source (for example, a single sales channel or cedant), consideration should be given to the greater impact of a risk crystallising, compared to that for a well-diversified portfolio.

PRA

Justification of prospective management actions

7.1.61 **G** Where projection of the value of assets and liabilities reflects the *firm's* prospective management actions, the *firm* should justify the choice of prospective management actions and the assumptions used.

PRA

7.1.62 **G** Where the prospective management action is identical to those used in another regulatory assessment of solvency (e.g. calculation of the *WPICC* for *realistic basis life firms*), no further justification is required.

PRA

7.1.63 **G** Where the prospective management action is not similar to those used in another regulatory assessment of solvency, or uses different assumptions, the *firm* should show the financial impact of the management action.

PRA

Regular review of assumptions

7.1.64
PRA

G

Firms should regularly review key parameters, both to ensure their continued applicability and to reduce uncertainty over the current level of capital required. *Firms* using assumptions that are very different from past experience should present robust arguments in support of the differences.

Methodology

7.1.65
PRA

G

The methodology used within the *ICA* should allow the *firm* to quantify the financial effect of material risks at the required confidence level. The methodology used should also reflect the nature of the *firm's* business and be consistent with the way in which the *firm* identifies and manages risk.

7.1.66
PRA

G

Firms should be able to explain their rationale for choosing their approach to risk and assessment of capital required. There are no simple classifications of approach to risk and capital assessment, so the rationale should be considered in the context of a number of defining characteristics in the structure of the capital model.

7.1.67
PRA

G

Generally, larger *firms* would be expected to take a more sophisticated approach to capital modelling than smaller ones.

Stress tests and scenario analyses

7.1.68
PRA

G

Where a *firm* chooses to carry out its *ICA* through the use of stress testing and scenario analysis, such testing should reflect the potential range of outcomes for the risks being quantified, consistent with the prescribed confidence level for the *ICA*.

7.1.69
PRA

G

The overall assessment of capital required may require the aggregation of results from the stress and scenario testing. The *firm* should explain its choice of aggregation approach and its understanding of the implications of combining the individual risks. The *firm* should be satisfied that the resultant capital provides the required degree of confidence, given the variability of the underlying risks and the uncertainty associated with modelling those risks. A useful component of this process is the characterisation and explanation of a range of possible circumstances that could give rise to a loss of this magnitude.

Documenting the results

7.1.70
PRA

G

The conclusion of the *ICA* should consider whether the *firm* has adequate capital to meet its assessment of the required capital. Furthermore, the *firm* should consider any implications for its approach to risk management arising from the work carried out. The *ICA* should be supported by an explanation of the material sources of risk and financial impact of the management actions that the *firm* may take to manage those risks. Where possible, the reasonableness of the results should be supported by considering other evidence of the capital needed.

7.1.71
PRA

G

The objective of capital modelling is to consider all possible outcomes, however unlikely any one outcome might be, and set capital as protection against all but the most extreme losses. It is therefore important to focus not only on the assumptions and methodology used to quantify individual risks, but also on the approach to aggregating the capital required for each risk.

7.1.72 **G** However the risks have been aggregated to give the *firm's* capital requirement, checks should be made as to the reasonableness of the outcome. It should be possible to characterise scenarios, or combinations of loss events, that would result in a loss of similar magnitude to that indicated by the *ICA*. *Firms* should consider a range of scenarios that could give rise to such a loss.

PRA

7.1.73 **G** The results of the *ICA* should be supplemented by analysis of the sources of the risks to which the *firm* is exposed, discussion of the events which are most likely to threaten the financial stability of the *firm* and the potential mitigating actions which are available to senior management.

PRA

Additional guidance for Lloyd's

7.1.74 **G** Responsibility for:

PRA

- (1) managing the risks associated with the *insurance business*; and
- (2) holding the *capital resources* that support those risks;

is divided between *managing agents* and the *Society*. To clarify the respective responsibilities of *managing agents* and the *Society* for ensuring the adequacy of financial resources, the *PRA* distinguishes between the *managing agents'* responsibility to carry out capital adequacy assessments of the *capital resources* held at *syndicate* level for each *syndicate* that they manage, and the *Society's* responsibility to carry out an assessment for each *member*.

7.1.75 **R** In carrying out *ICAs* in respect of the *insurance business* carried on through each *syndicate* (the *syndicate ICA*), *managing agent* must consider the risks, controls and the financial resources relevant to each *syndicate*.

PRA

7.1.76 **R** When carrying out the *syndicate ICA*, *managing agents* must not take into account risks to which a *member* may be exposed or controls from which a *member* may benefit:

PRA

- (1) because that *member* carries on *insurance business* through another *syndicate* or more than one *syndicate year* (whether or not managed by the same *managing agent*); or
- (2) because that *member's* financial resources include *funds at Lloyd's* or *central assets*.

7.1.77 **R** The *Society* must have regard to *syndicate ICAs* in arriving at its own capital assessment for each *member*.

PRA

7.1.78 **G** In assessing the adequacy of the *capital resources* supporting the *insurance business* of each *member*, the *Society* should consider the risks, controls and financial resources relevant to the totality of the *member's insurance business*, including:

PRA

- (1) the adequacy of *syndicate ICAs*;
- (2) the *member's* share of *syndicate ICAs*;

- (3) adjustments in respect of risks and controls relating to *funds at Lloyd's*, *central assets* and the interaction of risks underwritten by the *member* through different *syndicates* and in respect of different *syndicate years*; and
- (4) the ongoing validity of any relevant assumptions it makes.

7.1.79

PRA

G

In taking account of a *syndicate ICA* under ■ INSPRU 7.1.77 R:

- (1) if the *Society* considers a *syndicate ICA* to be adequate, it should use the *managing agent's* risk and capital assessments in carrying out its *ICA* in relation to any *member* of that *syndicate*, or it should be able to justify why it will not; and
- (2) if the *Society* considers a *syndicate ICA* to be less than adequate, the *Society* should increase the *syndicate ICA* so that it is adequate for the purpose of carrying out its *ICA* in relation to the *members* of that *syndicate*.

7.1.80

PRA

G

The assessment of capital adequacy for a *member* will rarely equal the proportionate share of a *syndicate ICA* (or sum of those shares, where the *member* participates on more than one *syndicate*) as attributed to that *member*, because, in determining the capital assessments for each *member*, the *Society* may make adjustments to take account of:

- (1) risks and controls associated with *funds at Lloyd's* and *central assets*, which can increase the assessment for that *member*;
- (2) diversification effects, including as a result of *members'* participations on more than one *syndicate year*, which can reduce the assessment for that *member*; and
- (3) its own assessment of *syndicate* risks, which can be higher than the *managing agent's* and so increase the assessment for that *member*.

7.1.81

PRA

G

Capital resources to meet each *syndicate ICA* could be:

- (1) held within a *syndicate* and managed by the *managing agent*; or
- (2) held and managed by the *Society*; or
- (3) not needed in full, because of effects such as diversification that the *Society* takes into account.

7.1.82

PRA

G

The *balancing amount* is a function of the relationship between the *syndicate ICA* and the amount of assets held within the *syndicate*. As illustrations:

- (1) if the *syndicate* holds no *capital resources* (but its liabilities are fully covered by relevant assets), the *balancing amount* equals the *syndicate ICA* (as there are no capital resources at *syndicate* level, all the *capital resources* must be held as *funds at Lloyd's* or *central assets*);
- (2) if *capital resources* held at *syndicate* level are negative (i.e. if relevant assets do not fully cover liabilities for the *syndicate*), the *balancing amount* should

be higher than the *syndicate ICA* by an amount corresponding to the negative *capital resources* held by *managing agents* on behalf of the *syndicate*; and

- (3) conversely, if a *syndicate* holds positive *capital resources* for the *syndicate*, the *balancing amount* should be lower than the *syndicate ICA* by a corresponding amount.

7.1.83
PRA

R *Managing agents* must periodically notify the *Society* of the *syndicate ICA* and the *balancing amount* in respect of each *syndicate*.

7.1.84
PRA

R For the purpose of assessing the adequacy of *capital resources* held as *funds at Lloyd's* and *central assets*, the *Society* must have regard to *balancing amounts* notified to it by *managing agents*.

7.1.85
PRA

R After notification of a *balancing amount* by a *managing agent*, the *Society* must:

- (1) confirm to the *managing agent* that *capital resources* held as *funds at Lloyd's* and *central assets* are adequate to support the *balancing amount*; or
- (2) notify the *managing agent* that it cannot give that confirmation.

7.1.86
PRA

G *Managing agents* should submit *syndicate ICAs* and notify *balancing amounts* to the *Society* as part of the annual capital-setting process at *Lloyd's*. The submission of the *syndicate ICA* and the notification of the *balancing amount* should be made in good time for the *Society* to review them and place appropriate reliance on them when it determines the capital assessments for each *member*.

7.1.87
PRA

G When communicating the *syndicate ICA* and *balancing amount* for each *syndicate* to the *Society*, *managing agents* should agree with the *Society* an allocation of the *syndicate ICA* between *syndicate years*. The purpose of the allocation is to ensure that there is an appropriate matching of assets to risk and liabilities and an equitable treatment between the *members* reflecting the provision of capital in each *syndicate year*.

7.1.88
PRA

G For the purposes of complying with their obligations under *INSPRU*, *managing agents* may assume that any *balancing amount* confirmed by the *Society* under **INSPRU 7.1.85 R** is supported by *capital resources* held as *funds at Lloyd's* and *central assets*.

7.1.89
PRA

R If a *managing agent* has, at any time, a significant doubt about the adequacy of a *syndicate ICA* or *balancing amount* with respect to *syndicate risks* and controls, it must notify the *Society* immediately.

PAGE 15
7.1.90
PRA

R If the *Society* has, at any time, a significant doubt about the adequacy of any *member's capital resources* held by it in support of any *balancing amount*, it must notify the relevant *managing agent* immediately.

Appropriate regulator assessment process - all firms

- 7.1.91** FCA PRA G

In assessing the adequacy of a *firm's capital resources*, the *appropriate regulator* draws on more than just a review of the submitted *ICA*. Use is made of wider supervisory knowledge of a *firm* and of wider market developments and practices. When forming a view of any *individual capital guidance* to be given to a *firm*, the review of the *firm's ICA* along with the regulator's risk assessment and any other issues arising from day-to-day supervision will be considered.
- 7.1.92** FCA PRA G

The *appropriate regulator* will take a risk-based and proportionate approach to the review of a *firm's ICA*, focusing on the *firm's* approach to dealing with the key risks it faces. Any *individual capital guidance* given will reflect the judgements reached through the regulator's review process as well as the review of the *firm's ICA*.
- 7.1.93** FCA PRA G

A *firm* should not expect the *appropriate regulator* to accept as adequate any particular model that the *firm* develops or that the results from the model are automatically reflected in any *individual capital guidance* given to the *firm* for the purpose of determining adequate *capital resources*. However, the *appropriate regulator* will take into account the results of any sound and prudent model when giving *individual capital guidance* or considering applications for a waiver under sections 138A and 138B of the *Act* of the *capital resources requirement* in ■ GENPRU 2.1.
- 7.1.94** FCA PRA G

Where the *appropriate regulator* considers that a *firm* will not comply with ■ GENPRU 1.2.26 R (adequate financial resources, including *capital resources*) by holding the *capital resources* required by ■ GENPRU 2.1, the *appropriate regulator* may give the *firm individual capital guidance* advising it of the amount and quality of *capital resources* which the *appropriate regulator* considers it needs to hold in order to meet that *rule*.
- 7.1.95** FCA PRA G

In giving *individual capital guidance*, the *appropriate regulator* seeks a balance between delivering consistent outcomes across the *individual capital guidance* it gives to all *firms* and recognising that such guidance should reflect the individual features of the *firm*. Comparison with the assumptions used by other *firms* will be used to trigger further enquiry. Debate will be sought where good arguments are made for a particular result that differs markedly from those of a *firm's* peers. The *appropriate regulator* also takes account of the quality of the wider risk management around the development of the numbers used in the *ICA*. The aim is to deliver *individual capital guidance* that comes closest to ensuring that there is no significant risk that a *firm* is unable to pay its liabilities as they fall due.
- 7.1.96** FCA PRA G

Following an internal validation process, the *appropriate regulator* will write to the Board of the *firm* being assessed providing both quantitative and qualitative feedback on the results of the *appropriate regulator's* assessment. This letter will notify the *firm* of the *individual capital guidance* considered appropriate. The letter will include reasons for any capital add-ons identified, where applicable.
- 7.1.97** FCA PRA G

If a *firm* considers that the individual capital guidance is inappropriate to its circumstances, then the *firm* should inform the *appropriate regulator* that it does not intend to follow that *guidance*. Informing the *appropriate regulator* of such an intention would be expected if a *firm* is to comply with *Principle 11* (Relations with regulators).

7.1.98

FCA PRA

G

The *appropriate regulator* expects most disagreements about the adequacy of capital will be resolved through further analysis and discussion. The *appropriate regulator* may consider the use of its powers under section 166 of the *Act* (Reports by skilled persons) to assist in such circumstances. If the *appropriate regulator* and the *firm* still do not agree on an adequate level of capital, then the *appropriate regulator* may consider using its powers under section 55J of the *Act* to, on its own initiative, vary a *firm's Part 4A permission* so as to require it to hold capital in accordance with the *appropriate regulator's* view of the capital necessary to comply with ■ GENPRU 1.2.26 R. ■ SUP 7 provides further information about the *appropriate regulator's* powers under section 55J.

7.1.99

FCA PRA

G

Where a *firm* considers that the *capital resources requirements* of ■ GENPRU 2.1 require the holding of more capital than is needed for the *firm* to comply with ■ GENPRU 1.2.26 R then the *firm* may apply to the *appropriate regulator* for a *waiver* of the requirements in ■ GENPRU 2.1 under sections 138A and 138B of the *Act*. In addition to the statutory tests under sections 138A and 138B in deciding whether to grant a *waiver* and, if granted, its terms, the *appropriate regulator* will consider the thoroughness, objectivity and prudence of a *firm's ICA* and the extent to which the *guidance* in this section has been followed. The *appropriate regulator* will not grant a *waiver* that would cause a breach of the minimum capital requirements under the *Insurance Directives* or *Reinsurance Directive*.

7

Chapter 8

General provisions applying INSPRU and GENPRU to Lloyd's

8.1 Application

8.1.1

FCA PRA

R

■ INSPRU 8.1 applies to:

- (1) the *Society*;
- (2) *managing agents*.

8.1.2

FCA PRA

R

If a provision in *INSPRU* or *GENPRU* applies to the *Society* "in accordance with" this *rule*, the *Society* must:

- (1) manage each *member's funds at Lloyd's*;
- (2) manage its *central assets*; and
- (3) supervise the *insurance business* carried on by each *member* at Lloyd's;

so as to achieve in relation to those assets and that *insurance business* the same effect as the relevant *INSPRU* or *GENPRU* provision would have (that is, conforming with the requirements of any *rule* and taking appropriate account of any applicable *guidance*,) when applied to a *firm* or to the *insurance business* of a *firm*.

8.1.3

FCA PRA

G

The *Society* is subject to *INSPRU* and *GENPRU rules* in respect of the *insurance business* of each Lloyd's *member*. These include *rules* in respect of:

- (1) the calculation of the *capital resources requirements* for each *member*;
- (2) the financial resources it manages on behalf of *members*; and
- (3) the *Society's* own financial resources.

8.1.4

FCA PRA

R

If a provision in *INSPRU* or *GENPRU* applies to a *managing agents* "in accordance with" this *rule*, the *managing agent* must, in relation to each *syndicate* managed by it and for each *syndicate year*, manage:

- (1) the *syndicate assets*; and

(2) the *insurance business* carried on by the *members* of the *syndicate* through that *syndicate*;

so as to achieve in relation to those assets and that *insurance business* the same effect as the relevant *INSPRU* or *GENPRU* provision would have (that is, conforming with the requirements of any *rule* and taking appropriate account of any applicable *guidance*) when applied to a *firm* or to the *insurance business* of a *firm*.

8.1.5

FCA PRA

G

Syndicate membership may change from year to year or it may remain constant. *Managing agents* are required to apply *INSPRU* and *GENPRU* to the *insurance business* carried on through each *syndicate* for each *syndicate year*. This should ensure that *INSPRU* and *GENPRU* are applied to Lloyd's in a way that is consistent with the provision of capital to support the *insurance business* underwritten.

8.1.6

PRA

G

Where common systems and controls or processes are appropriate for all the *insurance business* carried on through more than one *syndicate year*, a single response may be adequate for all *syndicate years*. However, in some cases it will be important to consider the business of each open *syndicate year* separately, particularly for quantitative *rules*. For example, it is important that *managing agents* separately assess the financial resources (including capital) that are required and are available to support the *insurance business* carried on through each *syndicate year*, where the *syndicate membership* changes from year to year. This is because each *member's* assets are only available to support its own business, so the assets supporting one year of account may not be available to support another. For example, if a *managing agent* were to assess the financial requirements of two or more *syndicate years* together where the capital structure had changed, there would be a risk that the *managing agent* might take account of diversification effects that were not reflected in the capital supporting the *insurance business*.

8.1.7

PRA

G

There is no requirement on *managing agents* to carry out separate individual capital assessments for *syndicates* for each *syndicate year*. *Managing agents* are required to carry out individual capital assessments for each *syndicate* as if that *syndicate* were a *firm*; this would normally be on the basis of a going concern but, just as in a *firm*, account needs to be taken of any restrictions on the availability of assets (e.g. deposits with cedants), and some account needs to be taken of changes in the capital participation in the *syndicate*. The *Society* is responsible for the individual capital assessment for each *member*, which must take into account the assessments made by *managing agents* of any *syndicates* on which the *member* participates. ■ *INSPRU* 7.1 contains *rules* and guidance on the assessment of capital adequacy for *firms* and ■ *INSPRU* 7.1.74 G to ■ *INSPRU* 7.1.90 R provide for the application of ■ *INSPRU* 7.1 to the *Society* and *managing agents*.

8.1.8

PRA

G

The assessment which a *firm* makes should be based upon its future business plans and projections. This is the main area where the *firm's* assessment may diverge from its prescribed *capital resources requirement* which, necessarily, is based upon historic data.

8.1.9

PRA

G

Key *INSPRU* and *GENPRU* requirements for Lloyd's

Key *INSPRU* and
GENPRU require-
ments

INSPRU

GENPRU

Risk management, systems and
controls

Key <i>INSPRU</i> and <i>GENPRU</i> requirements	<i>INSPRU</i>	<i>GENPRU</i>
The <i>Society</i> to establish and maintain systems and controls to address risks affecting the Lloyd's market	INSPRU 8.2	
The <i>Society</i> to manage prudential, credit, market, liquidity and operational risks affecting <i>funds at Lloyd's</i> and <i>central assets</i>	INSPRU 4.1, INSPRU 5.1, INSPRU 8.2 & INSPRU 8.5	
<i>Managing agents</i> to establish and maintain systems and controls for the management of prudential, credit, market, liquidity, operational, and insurance risks affecting each <i>syndicate</i>	INSPRU 4.1, INSPRU 5.1, INSPRU 8.2 & INSPRU 8.5	
Adequacy of financial resources		
The <i>Society</i> to ensure that <i>members'</i> financial resources are adequate		GENPRU 1.2 & GENPRU 1.5
<i>Members</i> taken together to maintain adequate financial resources in respect of the <i>insurance business</i> conducted at Lloyd's		GENPRU 1.5
<i>Managing agents</i> to ensure that financial resources are adequate for each <i>syndicate</i>		GENPRU 1.2 & GENPRU 1.5
Valuation		
The <i>Society</i> and <i>managing agents</i> to apply generally accepted accounting principles to valuing assets, liabilities, equity and income statement items for the purposes of the <i>rules</i> and <i>guidance</i> in <i>GENPRU</i> , <i>INSPRU</i> and <i>IPRU (INS)</i> unless the contrary is expressly stated	INSPRU 3.1 & INSPRU 3.2	GENPRU 1.3 & GENPRU 1.5
Capital resources requirements		
The <i>Society</i> to calculate the <i>MCR</i> in respect of the <i>general insurance business</i> of each <i>member</i>		GENPRU 2.1 & GENPRU 2.3
The <i>Society</i> to calculate the <i>CRR</i> (higher of <i>MCR</i> and		GENPRU 2.1 & GENPRU 2.3

Key <i>INSPRU</i> and <i>GENPRU</i> requirements	<i>INSPRU</i>	<i>GENPRU</i>
<i>ECR</i>) in respect of the <i>long-term insurance business</i> of each <i>member</i>		
Capital resources		
The <i>Society</i> and <i>managing agents</i> to calculate <i>capital resources</i> in accordance with the <i>rules</i> and <i>guidance</i> in <i>GENPRU</i>		GENPRU 2.2 & GENPRU 2.3
Adequacy of capital resources		
<i>Managing agents</i> to assess the adequacy of <i>capital resources</i> held at <i>syndicate</i> level in respect of <i>insurance business</i> carried on through each <i>syndicate</i> (annual ICA for each <i>syndicate</i>)	INSPRU 7.1	
The <i>Society</i> to assess the adequacy of <i>capital resources</i> available to support each <i>member's insurance business</i> (ICA for each <i>member</i>), both at <i>syndicate</i> level (taking account of <i>syndicate ICAs</i>), and as <i>funds at Lloyd's</i>	INSPRU 7.1	

8.2 Special provisions for Lloyd's

Management of insurance business

- 8.2.1 **R** Neither the *Society* nor *managing agents* may permit a *member* to carry on any *insurance business* except as a participant on one or more *syndicates*.
PRA

Obligations under INSPRU and GENPRU

- 8.2.2 **R** The *Society* must ensure that all participants in the Lloyd's market are made aware of their obligations under *INSPRU* and *GENPRU*.
FCA PRA

Management of risk

- 8.2.3 **R** The *Society* must establish and maintain systems and controls to enable it appropriately to address the risks to which the Lloyd's market is exposed.
PRA

- 8.2.4 **R** The systems and controls in ■ INSPRU 8.2.3 R must include systems and controls to enable the *Society* to ensure that any assumptions made in calculating a *member's capital resources* or in determining the individual capital assessment for each *member* are regularly reviewed and that appropriate action is taken if any assumption is no longer valid.
PRA

- 8.2.5 **R** The *Society* must take all reasonable steps, including establishing and maintaining adequate systems and controls to enable it:
- (1) to manage the risks to which *funds at Lloyd's* and *central assets* are exposed; and
 - (2) to ensure that *funds at Lloyd's* and *central assets* are adequate to support all *balancing amounts*.

- 8.2.6 **R** A *managing agent* must establish and maintain adequate systems and controls to manage the risks to which the *insurance business* carried on through each *syndicate* it manages is exposed.
PRA

- 8.2.7 **G** In complying with ■ INSPRU 8.2.6 R, *managing agents* should have particular regard to:
- (1) transactions which may give rise to a conflict of interest, such as those to which the *counterparties* are:

- (a) other members of the *managing agent's* own *group*;
 - (b) any *members* of any *syndicates* managed by the *managing agent*; or
 - (c) any entity that is part of a *group* to which one or more *members* of any *syndicates* managed by the *managing agent* belong; and
- (2) transactions involving:
- (a) the provision of capital;
 - (b) the provision of *reinsurance*; or
 - (c) the provision of other services.

8.2.8

PRA

R

In complying with ■ INSPRU 8.2.6 R a *managing agent* need not take account of risks associated with assets that are not *syndicate assets*.

8.2.9

PRA

R

The *Society* must take reasonable steps to ensure that systems and controls established and maintained by *managing agents* are adequate to ensure that risks to which the *insurance business* carried on through each *syndicate* is exposed do not have a detrimental effect on *funds at Lloyd's* or *central assets*.

8.2.10

PRA

G

Managing agents and the *Society* each hold and manage some of the financial resources held to support the *insurance business* carried on through *syndicates*. In particular:

- (1) the *Society* holds and manages *funds at Lloyd's* and *central assets* which must be held to support *balancing amounts*. The *Society* is required to manage the risks that affect *funds at Lloyd's* and *central assets* directly, once the effects of any aggregation and diversification have been taken into account;
- (2) *managing agents* hold and manage some of the financial resources in respect of the *insurance business* carried on through each *syndicate* that they manage. *Managing agents* are required to manage all risks affecting a *syndicate* except for the risk that *funds at Lloyd's* and *central assets* are not available to support the *balancing amount*.

8.2.11

FCA PRA

R

The *Society* must establish and maintain effective arrangements to monitor and manage risk arising from:

- (1) conflicts of interest (including in relation to (2) to (4));
- (2) inter-*syndicate* transactions, including *reinsurance to close* and *approved reinsurance to close*;
- (3) related party transactions; and
- (4) transactions between *members* and itself.

8.2.12

FCA PRA

R

The arrangements in ■ INSPRU 8.2.11 R must enable the *Society* to identify any significant overstatement of financial resources resulting from any

transaction falling within ■ INSPRU 8.2.11 R (2) to ■ INSPRU 8.2.11 R (4), including as a result of:

- (1) any differences in the amounts recorded as due or payable by each party to any such transaction; or
- (2) any actual or likely disputes between the parties to any such transaction.

8.2.13

FCA PRA

R

If the *Society* identifies a significant overstatement of the kind referred to in ■ INSPRU 8.2.12 R, it must ensure that an appropriate adjustment is made, including if appropriate by a deduction from or reduction in the value attributed to:

- (1) the *capital resources* of any *member* concerned; or
- (2) the *Society's capital resources*.

Approved reinsurance to close

8.2.14

PRA

G

As defined in the *Glossary*, "approved reinsurance to close" excludes:

- (1) *reinsurance* between parties other than *members*; and
- (2) balance transfers between *syndicate years* of *syndicates* having only one *member*, which have no effect on the overall liabilities of that *member*.

8.2.15

PRA

G

The "approved" status of an *approved reinsurance to close* does not alter the legal status or effect of the original *contract of insurance*, or the liability of a reinsured *member* to the *policyholder* under or in respect of the original *contract of insurance*.

8.2.16

PRA

R

Notwithstanding that the liability of a reinsured *member* to a *policyholder* is unaffected by an *approved reinsurance to close* as described in ■ INSPRU 8.2.15 G, for the purposes of INSPRU and GENPRU only:

- (1) for an *approved reinsurance to close* which is not to a *subsidiary* of the *Society*:
 - (a) a *contract of insurance* reinsured under an *approved reinsurance to close* must be treated as if the reinsuring *member* and not the reinsured *member* had effected the original *contract of insurance*; and
 - (b) any payment received by a *member* as consideration for or in connection with an *approved reinsurance to close* must be treated as a *Lloyd's member's contribution* and not as *premium* or as a *reinsurance recovery*;

- (2) for an *approved reinsurance to close* to a *subsidiary* of the *Society*, a *contract of insurance* reinsured under that *approved reinsurance to close* must be treated as if the reinsured *member* had not effected the original *contract of insurance* but:
- (a) for the purposes of the calculation of the *Society GICR*, *general insurance business* carried on by *members* and *former underwriting members* which has been reinsured to a *subsidiary* of the *Society* under an *approved reinsurance to close* must be treated as reinsured to a third party; and
 - (b) for the purposes of the calculation of the *capital resources requirement* of a *subsidiary* of the *Society*, the *approved reinsurance to close* must be treated as a *reinsurance*.

Provision of information by managing agents

8.2.17 FCA PRA R A *managing agent* must, as soon as possible, give the *Society* any information the *managing agent* has concerning material risks to *funds at Lloyd's* or *central assets*.

8.2.18 FCA PRA R A *managing agent* need not comply with ■ INSPRU 8.2.17 R if the *managing agent* knows that the *Society* already has the relevant information.

Insurance receivables to be carried to trust funds

8.2.19 FCA PRA R The *Society* must take all reasonable steps to ensure that each *member*:

- (1) executes the appropriate *Lloyd's trust deeds*; and
- (2) carries to the appropriate *Lloyd's trust fund* all amounts received or receivable by the *member*, or on its behalf, in respect of any *insurance business* carried on by it.

8.2.20 FCA PRA R The *Society* must carry all amounts it receives on behalf of any *member* in respect of that *member's insurance business* to the appropriate *Lloyd's trust fund*.

8.2.21 FCA PRA R A *managing agent* must carry all amounts it receives on behalf of any *member* in respect of that *member's insurance business* to the appropriate *Lloyd's trust fund*.

8.2.22 FCA PRA R In complying with ■ INSPRU 8.2.19 R to ■ INSPRU 8.2.21 R, the *Society* and *managing agents* must take all reasonable steps to ensure that amounts received or receivable by a *member* in respect of *general insurance business* and *long-term insurance business* are carried to separate *Lloyd's trust funds*.

Amendments to byelaws, trust deeds and standard form letters of credit and guarantees

8.2.23
FCA PRA

R

The *Society* must, as soon as it is practical to do so, notify the *appropriate regulator* of its intention to approve the form of any new *Lloyd's trust deed*.

8.2.24
FCA PRA

R

The *Society* must, as soon as it is practical to do so, notify the *appropriate regulator* of its intention to make any amendment which may alter the meaning or effect of any *byelaw*, including:

- (1) any *Lloyd's trust deed*;
- (2) any standard form letter of credit prescribed by the *Society* from time to time; or
- (3) any standard form guarantee agreement prescribed by the *Society* from time to time.

8.2.25
FCA PRA

R

The *Society* must provide the *appropriate regulator* with full details of:

- (1) the form of any new *Lloyd's trust deed* it intends to approve, as described in ■ INSPRU 8.2.23 R and
- (2) any amendments falling within ■ INSPRU 8.2.24 R.

8.2.26
FCA PRA

R

The *Society* must consult interested parties in relation to any new *Lloyd's trust deed* and in relation to any amendment falling within ■ INSPRU 8.2.24 R.

8.2.27
FCA PRA

G

Except in urgent cases, the *Society* should consult in relation to any new *Lloyd's trust deed* or amendments before the new deed or amendments take effect.

8.2.28
FCA PRA

R

The information provided to the *appropriate regulator* by the *Society* under ■ INSPRU 8.2.25 R must include:

- (1) a statement of the purpose of any proposed amendment or new *Lloyd's trust deed* and the expected impact, if any, on *policyholders, managing agents, members, and potential members*; and
- (2) a description of the consultation undertaken under ■ INSPRU 8.2.26 R including a summary of any significant responses to that consultation.

8.2.29
FCA PRA

G

The *appropriate regulator* would normally expect to receive the information required under ■ INSPRU 8.2.25 R and ■ INSPRU 8.2.28 R not less than three months in advance of the proposed change.

8.3 The Central Fund

Application

8.3.1 **R** This section applies to the *Society*.

PRA

Purpose

8.3.2 **G** The *rules* and *guidance* in this section are intended to promote confidence in the market at Lloyd's, and to protect certain *consumers* of services provided by the *Society* in carrying on, or in connection with or for the purposes of, its *regulated activities*. They do this by:

PRA

- (1) giving guidance to the *Society* about the protection that the *Central Fund* should provide for policyholders; and
- (2) enabling the *PRA* to keep under review the protection the *Central Fund* provides for policyholders.

Enabling Provision

8.3.3 **D** The directions in this section are given under section 318 of the *Act* (Exercise of powers through Council) for the purpose of achieving the objective specified, as required by section 318(2) of the *Act*.

PRA

8.3.4 **D** The directions given in this section are given in relation to the exercise of the powers by the *Society* in respect of the *Central Fund* and are given with a view to achieving the objective of ensuring that the *Society* in making payments or in providing any other financial assistance from the *Central Fund* does so on a basis which takes no account of amounts of compensation which policyholders may receive under the provisions of the *compensation scheme* in respect of *protected claims* against *members*.

PRA

8.3.5 **G** The *Society* should seek to ensure that the *Central Fund* provides protection for policyholders so as to minimise the need for Lloyd's policyholders to have recourse to the *compensation scheme*.

PRA

8.3.6 **G** The *Society* should seek, and take appropriate account of, the *PRA*'s views on all proposed changes in its arrangements relating to the *Central Fund*.

PRA

8.3.7 **D** The *Society* must, in the exercise of its powers to make payments from the *Central Fund* or to provide other forms of financial assistance from the *Central Fund*, ensure that in calculating and determining the amount of any such payment or the amount of any other financial assistance, it takes no account of the amounts

PRA

of compensation which policyholders may receive under the provisions of the compensation scheme in respect of protected claims against *members*.

8.4 Capacity Transfer Market

Application

8.4.1

R

This section applies to the *Society*.

FCA PRA

Purpose

8.4.2

G

The *rules* and *guidance* in this section are intended to promote confidence in the market at Lloyd's, and to protect certain *consumers* of services provided by the *Society* in carrying on, or in connection with or for the purposes of, its *regulated activities*. They do this by ensuring that the *Society* appropriately and effectively regulates the *capacity transfer market* so that it operates in a fair and transparent manner.

FCA PRA

Requirement to make byelaws governing conduct in the capacity transfer market

8.4.3

R

The *Society* must make appropriate *byelaws* governing conduct in the *capacity transfer market*.

FCA PRA

8.4.4

G

The *byelaws* referred to in ■ INSPRU 8.4.3 R should:

FCA PRA

- (1) ensure that adequate and effective arrangements are in place to enable *members* and *persons* applying to be admitted as *members* to enter into transactions to transfer *syndicate* capacity and settle these transactions in a timely manner;
- (2) give clear and comprehensive guidance about the dissemination of information that is, or may be, relevant to the price of *syndicate* capacity and the transparency of the *capacity transfer market*; and
- (3) prohibit unfair and abusive practices (including market manipulation), the misuse of information not generally available, and the dissemination of false or misleading information.

8.4.5

G

The *Society* should have adequate and effective arrangements to:

FCA PRA

- (1) record and monitor transactions in the *capacity transfer market*, and maintain adequate audit trails; and
- (2) suspend or annul transactions where appropriate.

8.4.6

FCA PRA

G

The *Society* should regularly review the *byelaws* referred to in ■ INSPRU 8.4.3 R, taking account of the standards of conduct required in other *UK* financial markets.

8.4.7

FCA PRA

G

The *Society* should consult *members* and *underwriting agents* before it finalises material changes in the *byelaws* referred to in ■ INSPRU 8.4.3 R, and should have timely and effective arrangements for notifying them of changes in these *byelaws*.

8.5 Former underwriting members

Application

8.5.1 **R** This section applies to the *Society*.

PRA

Purpose

8.5.2 **G** The *rules* and *guidance* in this section are intended to promote confidence in the market at Lloyd's and to protect certain *consumers* of services provided by the *Society* in carrying on or in connection with or for the purposes of its *regulated activities* by:

PRA

- (1) protecting policyholders against the risk that *former underwriting members* may not be able to meet any liabilities to carry out *contracts of insurance* that they underwrote at Lloyd's; and
- (2) enabling the *PRA* to impose requirements under section 320(3) of the *Act* (Former underwriting members) if it considers this appropriate to protect policyholders.

Requirements relating to former underwriting members

8.5.3 **R** The *Society* must draw sections 320 to 322 of the *Act* (Former underwriting members, Requirements imposed under section 320, Rules applicable to former underwriting members) to the attention of any *person* ceasing to be an *underwriting member* on or after *commencement*.

PRA

8.5.4 **R** The *Society* must require any *person*, other than a *body corporate*, ceasing to be an *underwriting member* on or after *commencement* to:

PRA

- (1) notify the *Society* of any change in his address within one month of the change;
- (2) in the case of a natural person, to make arrangements for the *Society* to be notified in the event of his death.

8.6 Prudential risk management and associated systems and controls

Application of SYSC 14

8.6.1
PRA

R Subject to ■ INSPRU 8.6.2 R, ■ SYSC 14 (Prudential risk management and associated systems and controls) applies to *managing agents* and to the *Society* in accordance with:

- (1) for *managing agents*, ■ INSPRU 8.1.4 R; and
- (2) for the *Society*, ■ INSPRU 8.1.2 R.

8.6.2
PRA

R The requirement in ■ SYSC 14.1.18 R to take reasonable steps to ensure the establishment and maintenance of a business plan does not apply to the *Society*.

Application of SYSC 11, 15 and 16

8.6.3
PRA

R Subject to ■ INSPRU 8.6.5 R, ■ SYSC 11 (Liquidity risk management systems and controls), ■ SYSC 15 (Credit risk management systems and controls) and ■ SYSC 16 (Market risk management systems and controls) apply to *managing agents* and to the *Society* in accordance with:

- (1) for *managing agents*, ■ INSPRU 8.1.4 R; and
- (2) for the *Society*, ■ INSPRU 8.1.2 R

Application of SYSC 17

8.6.4
PRA

R Subject to ■ INSPRU 8.6.5 R, ■ SYSC 17 (Insurance risk systems and controls) applies to *managing agents* in accordance with ■ INSPRU 8.1.4 R.

8.6.5
PRA

R In accordance with ■ INSPRU 8.6.2 R, the *rules* and *guidance* in ■ SYSC 11, ■ SYSC 15, ■ SYSC 16 and ■ SYSC 17 relating to the establishment and maintenance of a business plan do not apply to the *Society*.

Chapter 9

Actions for damages

9.1 Actions for damages

9.1.1

FCA

R

A contravention of the *rules* in *INSPRU* does not give rise to a right of action by a *private person* under section 138D of the *Act* (and each of those *rules* is specified under Section 138D(3) of the *Act* as a provision giving rise to no such right of action).

Prudential sourcebook for Insurers

INSPRU TP Transitional provisions

Application		
1.1	R	<p><i>INSPRU</i> TP 1 applies to an insurer unless it is:</p> <p>[FCA] [PRA]</p> <ol style="list-style-type: none"> (1) a <i>non-directive friendly society</i>; or (2) an <i>incoming EEA firm</i>; or (3) an <i>incoming Treaty firm</i>. <p>Version of IPRU to be used</p>
1.2	R	<p>Any reference in <i>INSPRU</i> TP to <i>IPRU(INS)</i> is to the version in force on 30 December 2004.</p> <p>[FCA] [PRA]</p> <p>Duration of transitional</p>
1.3	R	<p><i>INSPRU</i> TP 1 applies until the relevant <i>rule</i> is revoked.</p> <p>[FCA] [PRA]</p> <p>Continuing effect of waivers</p>
1.4	R	<p>A <i>rule</i> in <i>INSPRU</i> listed in the Table at <i>INSPRU</i> TP Table 2 is disappplied, or is modified in its application, to a <i>firm</i>:</p> <p>[FCA] [PRA]</p> <ol style="list-style-type: none"> (1) in order to produce the same effect, including any conditions, as a <i>waiver</i> had on the corresponding <i>rule</i> in <i>IPRU(INS)</i>; (2) for the same period as the <i>waiver</i> would have lasted, if shorter than the period in <i>INSPRU</i> TP 1.3; <p>provided the conditions set out in <i>INSPRU</i> TP 1.5 are satisfied.</p>
1.5	R	<p>The conditions referred to in <i>INSPRU</i> TP 1.4 are:</p>

Application		
[FCA] [PRA]		<p>(1) the <i>rule</i> is shown in the Table at <i>INSPRU</i> TP Table 2 as corresponding with the <i>rule</i> in <i>IPRU(INS)</i> in relation to which the <i>waiver</i> was granted to the <i>firm</i>;</p> <p>(2) the <i>waiver</i> was current as respects the <i>firm</i> immediately before 31 December 2004; and</p> <p>(3) there is no specific transitional <i>rule</i> relating to the <i>waiver</i>.</p>
1.6	R	<i>INSPRU</i> TP 1.4 does not have effect if, and to the extent that, it would be inconsistent with any <i>EU</i> law obligation of the <i>United Kingdom</i> .
[FCA] [PRA]		
1.7	R	A <i>firm</i> which has the benefit of a <i>waiver</i> to which <i>INSPRU</i> TP 1.4 applies must:
[FCA] [PRA]		<p>(1) notify the <i>appropriate regulator</i> immediately if it becomes aware of any matter which is material to the relevance or appropriateness of the <i>waiver</i>;</p> <p>(2) maintain a written record of the <i>rule</i> in <i>INSPRU</i> to which it considers the <i>waiver</i> applies; and</p> <p>(3) make the record available to the <i>appropriate regulator</i> on request.</p>

PRU waivers

Application

3.1 R *INSPRU* TP 3 applies to an *insurer* unless it is:

[FCA]
[PRA]

- (1) a *non-directive friendly society*; or
- (2) an *incoming EEA firm*; or
- (3) an *incoming Treaty firm*.

Version of PRU to be used

3.2 R A reference in *INSPRU* TP 3 to *PRU* is to the version in force on 30 December 2006.

[FCA]
[PRA]

Duration of transitional

3.3 R *INSPRU* TP 3 applies until the relevant *INSPRU rule* is revoked.

[FCA]
[PRA]

Continuing effect of waivers

3.4 R A *rule* in *INSPRU* is disapplied, or is modified in its application, to a *firm*:

[FCA]
[PRA]

- (1) in order to produce the same effect, including any conditions, as a *waiver* had on the *rule* in *PRU*;
- (2) for the same period as the *waiver* would have lasted, if shorter than the period in *INSPRU* TP 3.3;

provided the conditions set out in *INSPRU* TP 3.5 are satisfied.

3.5 R The conditions referred to in *INSPRU* TP 3.4 are:

[FCA]
[PRA]

- (1) the *rule* in *PRU* in relation to which the *waiver* was granted to the *firm* was redesignated as the relevant *rule* in *INSPRU* by the Prudential Sourcebook for Insurers Instrument 2006;
- (2) the *waiver* was current as respects the *firm* immediately before 31 December 2006; and
- (3) there is no specific transitional *rule* relating to the *waiver*.

3.6 R *INSPRU* TP 3.4 does not have effect if, and to the extent that, it would be inconsistent with any *EU* law obligation of the *United Kingdom*.

[FCA]
[PRA]

3 PRU waivers		
3.7	R	A <i>firm</i> which has the benefit of a <i>waiver</i> to which <i>INSPRU</i> TP 3.4 applies must:
[FCA] [PRA]		
	(1)	notify the <i>appropriate regulator</i> immediately if it becomes aware of any matter which is material to the relevance or appropriateness of the <i>waiver</i> ;
	(2)	maintain a written record of the <i>rule</i> in <i>INSPRU</i> to which it considers the <i>waiver</i> applies; and
	(3)	make the record available to the <i>appropriate regulator</i> on request.

4 EEA pure reinsurers		
Application		
4.1	R	<i>INSPRU</i> TP 4 applies to a <i>pure reinsurer</i> :
	(1)	whose head office is in an <i>EEA State</i> other than the <i>United Kingdom</i> ; and
	(2)	which is not an <i>incoming Treaty firm</i> .
Duration of transitional		
4.2	R	<i>INSPRU</i> TP 4 has effect in relation to a <i>firm</i> until 10 December 2008 or, if earlier, the date on which it becomes:
	(1)	an <i>incoming EEA firm</i> by reason of having exercised its right to carry on the <i>regulated activity</i> of <i>effecting or carrying out contracts of insurance</i> in the <i>United Kingdom</i> in accordance with Schedule 3 to the <i>Act</i> (EEA Passport Rights); or
	(2)	an <i>incoming Treaty firm</i> by reason of having exercised its right to carry on the <i>regulated activity</i> of <i>effecting or carrying out contracts of insurance</i> in the <i>United Kingdom</i> in accordance with Schedule 4 to the <i>Act</i> (Treaty Rights).
50% premiums and claims uplift for classes 11, 12 and 13; credit equalisation provision		
4.3	R	The following <i>rules</i> or paragraphs of a <i>rule</i> do not apply to a <i>firm</i> :
	(1)	<i>INSPRU</i> 1.1.56 R (1);
	(2)	<i>INSPRU</i> 1.1.60 R (1); and
	(3)	<i>INSPRU</i> 1.4.39 R to <i>INSPRU</i> 1.4.46 R.

5 Pure reinsurance groups	
Application	

5		Pure reinsurance groups
5.1	R	<i>INSPRU</i> TP 5 applies to a <i>pure reinsurer</i> whose <i>ultimate EEA insurance parent undertaking</i> is the <i>parent undertaking</i> of a group comprised solely of <i>reinsurance undertakings</i> .
		Duration of transitional
5.2	R	<i>INSPRU</i> TP 5 applies until 10 December 2007.
		Group capital resources requirement
5.3	R	A <i>firm</i> need not comply with <i>INSPRU</i> 6.1.15 R.
6		Admissible assets
		Application
6.1	R	<i>INSPRU</i> TP 6 applies to an <i>insurer</i> which is not a <i>pure reinsurer</i> .
		Duration of transitional
6.2	R	<i>INSPRU</i> TP 6 applies until 30 December 2007.
		GENPRU 2 Annex 7R
6.3	R	(1) In determining whether its assets are <i>admissible assets</i> , instead of applying <i>GENPRU 2 Annex 7 R</i> , a <i>firm</i> may elect to treat as an <i>admissible asset</i> an asset that would have been an <i>admissible asset</i> for the purposes of the Integrated Prudential Sourcebook (PRU) as it was in force on 30 December 2006.
		(2) (1) does not apply when determining whether a <i>derivative</i> or <i>quasi-derivative</i> is an <i>approved derivative</i> or <i>approved quasi-derivative</i> .
		(3) If a <i>firm</i> applies (1) to any of its assets, it must do so for all of its assets except <i>derivatives</i> and <i>quasi-derivatives</i> .
7		Mathematical reserves
		Application
7.1	R	<i>INSPRU</i> TP 7 applies to an <i>insurer</i> to which <i>INSPRU</i> 1.2 applies.
		[PRA]
		Duration of transitional
7.2	R	<i>INSPRU</i> TP 7 applies until the relevant <i>rule</i> is revoked.
		[PRA]
7.3	R	<i>INSPRU</i> 1.2.79A R does not apply in respect of <i>reinsurance</i> and analogous non- <i>reinsurance</i> financing agreements entered into and the terms of which came into effect before 10 December 2009, provided that immediately before
		[PRA]

7 Mathematical reserves

6 October 2010 the *firm* had the benefit of INSPRU 1.2.79 R (2) in relation to those *reinsurance* or analogous non-*reinsurance* financing agreements.

Prudential sourcebook for Insurers

Schedule 3 Fees and other requirement payments

G

FCA PRA

There are no requirements for fees or other payments in *INSPRU*.

Prudential sourcebook for Insurers

Schedule 4 Powers exercised

Schedule 4.1 G

The following powers and related provisions in the *Act* have been exercised by the *FSA* to make the rules in *INSPRU*:

Section 138 (General rule-making power)

Section 141 (Insurance business rules)

Section 149 (Evidential provisions)

Section 150(2) (Actions for damages)

Section 156 (General supplementary powers)

Section 316(1) (Direction by Authority)

Section 318(1) (Exercise of powers through Council)

Schedule 4.2 G

The following power in the *Act* has been exercised by the *FSA* to give the *guidance* in *INSPRU*:

Section 157(1) (Guidance)

Prudential sourcebook for Insurers

Schedule 5 Rights of action for damages

Schedule 5.1 G

FCA

The table below sets out the *rules* in *INSPRU* contravention of which by an *authorised person* may be actionable under section 138D(2) of the *Act* (Actions for damages) by a *person* who suffers loss as a result of the contravention.

Schedule 5.2 G

FCA

If a "Yes" appears in the column headed "For *private person*", the *rule* may be actionable by a *private person* under section 138D(2) (or, in certain circumstances, his fiduciary or representative; see article 6(2) and (3)(c) of the Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001/2256)). A "Yes" in the column headed "Removed" indicates that the *FCA* has removed the right of action under section 138D(3) of the *Act*. If so, a reference to the *rule* in which it is removed is also given.

Schedule 5.3 G

FCA

The column headed "For other *person*" indicates whether the *rule* may be actionable by a *person* other than a *private person* (or his fiduciary or representative) under article 6(2) and (3) of those Regulations. If so, an indication of the type of *person* by whom the *rule* may be actionable is given.

Chapter/Appendix	Section/Annex	Right of action under section 138D(2)		
		For <i>private person</i>	Removed	For other <i>person</i>
All <i>rules</i> in <i>INSPRU</i>	No	Yes (INSPRU 9.1.1R)	No	

Prudential sourcebook for Insurers

Schedule 6 Rules that can be waived

G

FCA **PRA**

The rules in *INSPRU* can be waived by the *appropriate regulator* under sections 138A and 138B of the *Act* (Modification or waiver of rules), except for ■ *INSPRU* 9.1.1 R (Actions for damages). However, if the *rules* incorporate requirements laid down in European directives, it will not be possible for the *appropriate regulator* to grant a *waiver* that would be incompatible with the *United Kingdom's* responsibilities under those directives. It therefore follows that if a *rule* in *INSPRU* contains provisions which derive partly from a directive, and partly not, the *appropriate regulator* will be able to consider a *waiver* of the latter requirements only, unless the directive provisions are optional rather than mandatory.

Chapter 1

Application and general provisions

1.1 Application

Application

1.1.1

FCA PRA

G

This sourcebook applies to a *firm* with *Part 4A permission* to carry on:

- (1) *insurance mediation activity*;
- (2) *home finance mediation activity*;
- (3) *home financing*;
- (4) *home finance administration*; and
- (5) *insurance business*;

as specified in the beginning of each of the remaining chapters.

1.2 Actions for damages

1.2.1

FCA

R

A contravention of the *rules* in this sourcebook does not give rise to a right of action by a *private person* under section 138D of the *Act* (and each of those *rules* is specified under section 138D(3) of the *Act* as a provision giving rise to no such right of action).

Chapter 2

Insurance mediation activity: responsibility, knowledge, ability and good repute

2.1 Application and purpose

2.1.1

FCA PRA

R

Application

This chapter applies to a *firm* with *Part 4A permission* to carry on *insurance mediation activity*.

2.1.2

FCA PRA

G

Purpose

The main purpose of this chapter is to implement in part the provisions of the *Insurance Mediation Directive* as these apply to *firms* regulated by the *appropriate regulator*.

2.2 Allocation of the responsibility for insurance mediation activity

Responsibility for insurance mediation activity

2.2.1

FCA PRA

R

A *firm*, other than a sole trader, must allocate the responsibility for the *firm's insurance mediation activity* to a director or senior manager.

[Note: Article 3(1), fourth paragraph, of the *Insurance Mediation Directive*]

2.2.2

FCA PRA

R

The *firm* may allocate the responsibility for its *insurance mediation activity* to an *approved person* (or *persons*) performing:

- (1) a *governing function* (other than the *non-executive director function*); or
- (2) the *apportionment and oversight function*; or
- (3) the *significant management function* in so far as it relates to *dealing in investments as principal*, disregarding article 15 of the *Regulated Activities Order* (Absence of holding out etc) (or agreeing to do so) or an activity which is not *designated investment business*.

2.2.3

FCA PRA

G

- (1) Typically a *firm* will appoint a *person* performing a *governing function* (other than the *non-executive director function*) to direct its *insurance mediation activity*. Where this responsibility is allocated to a *person* performing another function, the *person* performing the *apportionment and oversight function* with responsibility for the apportionment of responsibilities must ensure that the *firm's insurance mediation activity* is appropriately allocated.
- (2) The descriptions of *significant influence functions*, other than the *required functions*, do not extend to activities carried on by an *insurance intermediary* with *permission* only to carry on *insurance mediation activity* and whose principal purpose is to carry on activities other than *regulated activities* (see ■ SUP 10A.1.18 R). In this case, the *firm* may allocate the responsibility for the *firm's insurance mediation activity* to one or more of the *persons* performing the *apportionment and oversight function* who will be required to be an *approved person*.
- (3) In the case of a *sole trader*, the *sole trader* will be responsible for the *firm's insurance mediation activity*.

2.2.4

FCA

G

Where a *firm* has appointed an *appointed representative* to carry on *insurance mediation activity* on its behalf, the *person* responsible for the *firm's insurance mediation activity* will also be responsible for the *insurance mediation activity* carried on by an *appointed representative*.

2.2.5

FCA

G

The *FCA* will specify in the *Financial Services Register* the name of the *persons* to whom the responsibility for the *firm's insurance mediation activity* has been allocated by inserting after the relevant *controlled function* the words "(insurance mediation)". In the case of a *sole trader*, the *FCA* will specify in the *Financial Services Register* the name of the *sole trader* as the 'contact person' in the *firm*.

2.3 Knowledge, ability and good repute

2.3.1

FCA PRA

R

A *firm* (other than a *connected travel insurance intermediary*) must establish on reasonable grounds that:

- (1) a reasonable proportion of the *persons* within its management structure who are responsible for *insurance mediation activity*; and
- (2) all other *persons* directly involved in its *insurance mediation activity*;

demonstrate the knowledge and ability necessary for the performance of their duties; and

- (3) all the *persons* in its management structure and any staff directly involved in *insurance mediation activity* are of good repute.

[Note: Article 4(1) and (2) of the *Insurance Mediation Directive*]

2.3.2

FCA

G

In determining a *person's* knowledge and ability, the *firm* should have regard to matters including, but not limited to, whether the :

- (1) has demonstrated by experience and training that he is able or will be able to perform his duties related to the *firm's insurance mediation activity*; and
- (2) satisfies the relevant requirements in the *FCA's Training and Competence sourcebook* and the *Senior Management Arrangements, Systems and Controls sourcebook*.

2.3.2A

PRA

G

In determining a *person's* knowledge and ability, the *firm* should have regard to matters including, but not limited to, whether the *person*:

- (1) has demonstrated by experience and training that he is able or will be able to perform his duties related to the *firm's insurance mediation activity*; and
- (2) satisfies the relevant requirements in the *Senior Management Arrangements, Systems and Controls sourcebook* (■ SYSC).

2.3.3

FCA PRA

R

In considering a *person's* repute the *firm* must ensure that the *person*:

- (1) has not been convicted of any serious criminal offences linked to crimes against property or other crimes related to financial activities (other than spent convictions under the Rehabilitation of Offenders Act 1974 or any other national equivalent); and
- (2) has not been adjudged bankrupt (unless the bankruptcy has been discharged);

under the law of any part of the *United Kingdom* or under the law of a country or territory outside the *United Kingdom*.

[Note: Article 4(2) of the *Insurance Mediation Directive*]

2.3.4

FCA PRA

G

The *firm* should give particular consideration to offences of dishonesty, fraud, financial crime or other offences under legislation relating to banking and financial services, companies, insurance and consumer protection.

2.3.5

FCA PRA

G

Firms are reminded that *Principle 3* requires *firms* to take reasonable care to organise and control their affairs responsibly and effectively. *Principle 3* is amplified by the *rule* which requires *firms* to take reasonable care to establish and maintain such systems and controls as are appropriate to its business (■ SYSC 3.1.1 R and ■ SYSC 4.1.1 R). A *firm's* systems and controls should enable it to satisfy itself of the suitability of anyone who acts for it (■ SYSC 3.2.13 G and ■ SYSC 5.1.2 G). This includes the assessment of an individual's honesty and competence. In addition, the *competent employees rule* (■ SYSC 3.1.6 R and ■ SYSC 5.1.1 R) sets out a high-level competence requirement which every *firm* should follow.

Chapter 3

Professional indemnity insurance

3.1 Application and purpose

Application

3.1.1

FCA PRA

R

This chapter applies to a *firm* with *Part 4A permission* to carry on any of the activities:

- (1) *insurance mediation activity*;
- (2) *home finance mediation activity*;

unless any of the following exemptions apply:

- (3) in relation to *insurance mediation activity*, this chapter does not apply to a *firm* if another *authorised person* which has net tangible assets of more than £10 million provides a comparable guarantee; for this purpose:
 - (a) if the *firm* is a member of a *group* in which there is an *authorised person* with net tangible assets of more than £10 million, the comparable guarantee must be from that *person*;
 - (b) A 'comparable guarantee' means a written agreement on terms at least equal to those in a contract of professional indemnity insurance (see ■ MIPRU 3.2.4 R) to finance the claims that might arise as a result of a breach by the *firm* of its duties under the *regulatory system* or civil law.
- (4) in relation to *home finance mediation activity*, this chapter does not apply to a *firm* if:
 - (a) it has net tangible assets of more than £1 million; or
 - (b) the comparable guarantee provisions of (3) apply (as if the *firm* was carrying on *insurance mediation activity*) but substituting £1 million for £10 million in (3)(a) and (b);
- (5) This chapter does not apply to:
 - (a) an *insurer*; or
 - (b) a *managing agent*; or

- (c) a *firm* to which IPRU(INV) 13.1.4(1) (Financial resource requirements for personal investment firms: requirement to hold professional indemnity insurance) applies; or
 - (d) an *exempt CAD firm* to which IPRU(INV) 9.2.5R (Initial capital and professional indemnity insurance requirements - exempt CAD firms that are also IMD insurance intermediaries) applies.
- (6) in relation to *home finance mediation activity*, this chapter does not apply to an *authorised professional firm*:
- (a) that is required by another *rule* to hold professional indemnity insurance (see IPRU(INV) 2.3.1R); and
 - (b) whose *home finance mediation activity*, is incidental to its main business.

3.1.2

FCA PRA

G

The definition of *insurance mediation activity* is any of several activities 'in relation to a *contract of insurance*' which includes a contract of reinsurance. This chapter, therefore, applies to a reinsurance intermediary in the same way as it applies to any other *insurance intermediary*.

Purpose

3.1.3

FCA

G

The purposes of this chapter are to:

- (1) implement article 4.3 of the *Insurance Mediation Directive* in so far as it requires *insurance intermediaries* to hold professional indemnity insurance, or some other comparable guarantee, against any liability that might arise from professional negligence; and
- (2) meet the *statutory objectives* of consumer protection and protecting and enhancing the integrity of the *UK financial system* by ensuring that *firms* have adequate resources to protect themselves, and their *customers*, against losses arising from breaches in its duties under the *regulatory system* or civil law.

3.1.3A

PRA

G

The purposes of this chapter are to:

- (1) implement article 4.3 of the *Insurance Mediation Directive* in so far as it requires *insurance intermediaries* to hold professional indemnity insurance, or some other comparable guarantee, against any liability that might arise from professional negligence; and
- (2) meet the *statutory objective* of promoting the safety and soundness of *PRA-authorised persons* by ensuring that *firms* have adequate resources to protect themselves against losses arising from breaches in its duties under the *regulatory system* or civil law.

3.1.4

FCA PRA

G

Any breach in the duty of a *firm* or of its agents under the *regulatory system* or civil law can give rise to claims being made against the *firm*. Professional indemnity insurance has an important role to play in helping to finance such claims. In so doing, this chapter

amplifies *threshold condition 4* (Adequate resources). This *threshold condition* provides that a *firm* must have, on a continuing basis, resources that are, in the opinion of the *appropriate regulator*, adequate in relation to the *regulated activities* that the *firm* carries on.

3.1.5
FCA PRA

G

Under *Principles 3* and *4* a *firm* is required to take reasonable care to organise and control its affairs responsibly and effectively with adequate risk management systems and to maintain adequate financial resources. Under *Principle 9* a *firm* is obliged to take reasonable care to ensure the suitability of its *advice on investments* and discretionary decisions for any *customer* who is entitled to rely upon its judgement.

3.1.5A
PRA

G

Under *Principles 3* and *4* a *firm* is required to take reasonable care to organise and control its affairs responsibly and effectively with adequate risk management systems and to maintain adequate financial resources.

3.1.6
FCA PRA

G

Although financial resources and appropriate systems and controls can generally mitigate operational risk, professional indemnity insurance has a role in mitigating the risks a *firm* faces in its day to day operations, including those arising from not meeting the legally required standard of care when *advising on investments*. The purpose of this chapter is to ensure that a *firm* has in place the type, and level, of professional indemnity insurance necessary to mitigate these risks.

3.2 Professional indemnity insurance requirements

3.2.1

FCA PRA

R

A *firm* must take out and maintain professional indemnity insurance that is at least equal to the requirements of this section from:

- (1) an *insurance undertaking* authorised to transact professional indemnity insurance in the *EEA*; or
- (2) a *person* of equivalent status in:
 - (i) a *Zone A country*; or
 - (ii) the Channel Islands, Gibraltar, Bermuda or the Isle of Man.

[Note: Article 4(3) of the *Insurance Mediation Directive*]

3.2.2

FCA PRA

G

The minimum *limits of indemnity* for a *firm* whose *Part 4A permission* covers both *insurance mediation activity* and *home finance mediation activity* is the higher of the *limits of indemnity* for these activities. If the *firm* opts for a single comparable guarantee to finance the claims which might arise as a result of both activities, the requirements for *insurance mediation activity* apply.

3.2.3

FCA PRA

G

A non-*EEA firm* (such as a captive insurance company outside the *EEA*) will be able to provide professional indemnity insurance only if it is authorised to do so in one of the specified countries or territories.. The purpose of this provision is to balance the level of protection required for the *policyholder* against a reasonable level of flexibility for the *firm*.

Terms to be incorporated in the insurance

3.2.4

FCA PRA

R

The contract of professional indemnity insurance must incorporate terms which make provision for:

- (1) cover in respect of claims for which a *firm* may be liable as a result of the conduct of itself, its *employees* and its *appointed representatives* (acting within the scope of their appointment);
- (2) the minimum *limits of indemnity* per year set out in this section;
- (3) an excess as set out in this section;

- (4) appropriate cover in respect of legal defence costs;
- (5) continuous cover in respect of claims arising from work carried out from the date on which the *firm* was given *Part 4A permission* for the *insurance mediation activity* or *home finance mediation activity* concerned; and
- (6) cover in respect of *Ombudsman* awards made against the *firm*.

3.2.5
FCA PRA

G

A *firm* is responsible for the conduct of all of its *employees*. The *firm's employees* include, but are not limited to, its *partners*, *directors*, individuals that are self-employed or operating under a contract hire agreement and any other individual that is employed in connection with its business.

3.2.6
FCA PRA

G

A *firm* is responsible for the conduct of all of its *appointed representatives*.

Minimum limits of indemnity: insurance intermediary

3.2.7
FCA PRA

R

If the *firm* is an *insurance intermediary*, then the minimum *limits of indemnity* are:

- (1) for a single claim, €1,120,200 ; and
- (2) in aggregate, €1,680,300 or, if higher, 10% of annual income up to £30 million.

[Note: Article 4(3) of the *Insurance Mediation Directive*]

3.2.7A
FCA PRA

G

Article 4(7) of the *Insurance Mediation Directive* requires the *limits of indemnity* to be reviewed every five years to take into account movements in European consumer prices. These limits will therefore be subject to further adjustments on the basis of index movements advised by the European Commission.

3.2.8
FCA PRA

R

If a *policy* is denominated in any currency other than euros, a *firm* must take reasonable steps to ensure that the *limits of indemnity* are, when the *policy* is effected and at *renewal*, at least equivalent to those required.

Minimum limits of indemnity: home finance intermediary

3.2.9
FCA PRA

R

If the *firm* is a *home finance intermediary*, then the minimum *limit of indemnity* is the higher of 10% of *annual income* up to £1 million, and:

- (1) for a single claim, £100,000; or
- (2) in aggregate, £500,000.

Excess

3.2.10
FCA PRA

R

In this chapter, "*client assets*" includes a *document* only if it has value, or is capable of having value, in itself (such as a bearer instrument).

3.2.11 **R** For a *firm* which does not hold *client money* or other *client* assets, the excess must not be more than the higher of:

FCA **PRA**

- (1) £2,500; and
- (2) 1.5% of *annual income*.

3.2.12 **R** For a *firm* which holds *client money* or other *client* assets, the excess must not be more than the higher of:

FCA **PRA**

- (1) £5,000; and
- (2) 3% of annual income.

Policies covering more than one firm

3.2.13 **R** If a *policy* provides cover to more than one *firm*, then:

FCA **PRA**

- (1) the *limits of indemnity* must be calculated on the combined *annual income* of all the *firms* named in the *policy*; and
- (2) each *firm* named in the *policy* must have the benefit of the relevant minimum *limits of indemnity*.

Additional capital

3.2.14 **R** If a *firm* seeks to have an excess which is higher than the relevant limit, it must hold additional capital as calculated in accordance with the appropriate table below:

FCA **PRA**

Table: Calculation of additional capital for firm not holding client money or other client assets (£000's)

3

3.2.15

FCA PRA

R

The *rule* on the items which are eligible to contribute to the capital resources of a *firm* applies (see ■ MIPRU 4.4.2 R).

Chapter 4

Capital resources

4.1 Application and purpose

Application

4.1.1

FCA PRA

R

This chapter applies to a *firm* with *Part 4A permission* to carry on any of the following activities, unless an exemption in this section applies:

- (1) *insurance mediation activity*;
- (2) *home finance mediation activity*;
- (3) *home financing* ;
- (4) *home finance administration* .

4.1.2

FCA PRA

G

As this chapter applies only to a *firm* with *Part 4A permission* , it does not apply to an *incoming EEA firm* (unless it has a *top-up permission*). An incoming EEA firm includes a firm which is passporting into the United Kingdom under the *Insurance Mediation Directive* .

4.1.3

FCA PRA

G

The definition of *insurance mediation activity* refers to several activities 'in relation to a *contract of insurance*' which includes a contract of reinsurance. This chapter, therefore, applies to a reinsurance intermediary in the same way as it applies to any other *insurance intermediary*.

Application: banks, building societies, insurers and friendly societies

4.1.4

FCA PRA

R

This chapter does not apply to:

- (1) a *bank*; or
- (2) a *building society*; or
- (3) a solo consolidated *subsidiary* of a *bank* or a *building society* ; or
- (4) an *insurer*; or
- (5) a *friendly society*.

4.1.5 G The capital resources of the *firms* above are calculated in accordance with the appropriate prudential sourcebook.

FCA PRA

Application: firms carrying on designated investment business only

4.1.6 R This chapter does not apply to a *firm* whose *Part 4A permission* is limited to *regulated activities* which are *designated investment business*.

FCA PRA

4.1.7 G A *firm* which carries on *designated investment business*, and no other *regulated activity*, may disregard this chapter. For example, a *firm* with *permission* limited to *dealing in investments as agent* in relation to *securities* is only carrying on *designated investment business* and the Interim Prudential sourcebook for investment businesses or the Prudential sourcebook for Banks, Building Societies and Investment Firms, as appropriate, will apply. However, if its *permission* is varied to enable it to arrange motor insurance as well, this activity is not *designated investment business* so the *firm* will be subject to the higher of the requirements in this chapter and those sourcebooks (see ■ MIPRU 4.2.5 R).

FCA PRA

Application: credit unions

4.1.8 R This chapter does not apply to:

PRA

- (1) a 'small *credit union*', that is one with:
 - (a) assets of £5 million or less; and
 - (b) a total number of members of 5,000 or less (see ■ CREDS 5.3.13 R) ; or
- (2) a *credit union* whose *Part 4A permission* includes *mortgage lending* or *mortgage administration* (or both) but not *insurance mediation activity* or *mortgage mediation activity*.

4.1.9 G (1) For *credit unions* to which this chapter applies and which are not *CTF providers*, the capital requirements will be the higher of the requirements in this chapter and in the Credit Unions sourcebook (see ■ MIPRU 4.2.6 R).

PRA

- (2) For *credit unions* to which this chapter applies and which are *CTF providers* with permission to carry on *designated investment business*, the capital requirements will be the highest of the requirements in this chapter, those in the Credit Unions sourcebook and in the Interim Prudential sourcebook for investment businesses (see ■ MIPRU 4.2.6 R).
- (3) A *credit union* cannot carry on *home purchase activities* or *reversion activities* because the Credit Unions Act 1979 (in relation to *Great Britain credit unions*) and the Credit Unions (Northern Ireland) Order 1985 (in relation to *Northern Ireland credit unions*) restricts the circumstances whereby *credit unions* can hold land.

Application: professional firms

4.1.10 R (1) This chapter does not apply to an *authorised professional firm*:

FCA

- (a) whose main business is the practice of its profession; and

(b) whose *regulated activities* covered by this chapter are incidental to its main business.

(2) A *firm's* main business is the practice of its profession if the proportion of income it derives from professional fees is, during its annual accounting period, at least 50% of the *firm's* total income (a temporary variation of not more than 5% may be disregarded for this purpose).

(3) Professional fees are fees, commissions and other receipts receivable in respect of legal, accountancy, actuarial, conveyancing and surveying services provided to clients but excluding any items receivable in respect of *regulated activities*.

Application: Lloyd's managing agents

4.1.11

R

This chapter does not apply to a managing agent.

PRA

4.1.12

G

The reason for excluding *managing agents* from the provisions of this chapter is twofold: first, a *member* will have accepted full responsibility for those activities under the *Society's managing agent* agreement. Secondly, the *member* is itself subject to capital requirements which are equivalent to those applying to an *insurer* (to which this chapter is also disappplied).

PRA

Application: social housing firms

4.1.13

G

There are special provisions for a *social housing firm* when it is carrying on *home financing* or *home finance administration* (see ■ MIPRU 4.2.7 R).

FCA

Purpose

4.1.14

G

This chapter amplifies *threshold condition 4* (Adequate resources) by providing that a *firm* must meet, on a continuing basis, a basic solvency requirement and a minimum capital resources requirement. This chapter also amplifies *Principle 4* which requires a *firm* to maintain adequate financial resources by setting out capital requirements for a *firm* according to the *regulated activity* or activities it carries on.

FCA PRA

4.1.15

G

Capital has an important role to play in protecting consumers and complements the roles played by professional indemnity insurance and *client money* protection (see the *client money rules*). Capital provides a form of protection for situations not covered by a *firm's* professional indemnity insurance and it provides the funds for the *firm's* PII excess, which it has to pay out of its own finances (see ■ MIPRU 3.2.11 R and ■ MIPRU 3.2.12 R for the relationship between the *firm's* capital and its excess).

FCA PRA

4.1.16

G

More generally, having adequate capital gives the *firm* a degree of resilience and some indication to consumers of creditworthiness, substance and the commitment of its owners. It reduces the possibility of a shortfall of funds and provides a cushion against disruption if the *firm* ceases to trade.

FCA PRA

4.1.17 G There is a greater risk to consumers, and a greater adverse impact on market confidence, if a *firm* holding *client money* or other *client* assets fails. For this reason, the capital resources *rules* in this chapter clearly distinguish between *firms* holding *client* assets and those that do not.

FCA PRA

Purpose: social housing firms

4.1.18 G *Social housing firms* undertake small amounts of home finance business even though their main business consists of activities other than *regulated activities*. Their *home financing* is only done as an adjunct to their primary purpose (usually the provision of housing) and is substantially different in character to that done by commercial lenders. Furthermore, they are *subsidiaries* of local authorities or registered social landlords which are already subject to separate regulation. The FCA does not consider that it would be proportionate to the risks involved with such business to impose significant capital requirements for these *firms*. The capital resources requirement for *social housing firms* therefore simply provides that, where their *Part 4A permission* is limited to *home financing* and *home finance administration*, their net tangible assets must be greater than zero.

FCA

4.1.19 G A registered social landlord is a non-profit organisation which provides and manages homes for rent and sale for people who might not otherwise be able to rent or buy on the open market. It can be a housing association, a housing society or a non-profit making housing company. The Homes and Communities Agency and the Tenant Services Authority were set up by Parliament in 2008 and cooperate in providing financial assistance for social housing.

FCA

4.2 Capital resources requirements

General solvency requirement

4.2.1

FCA PRA

R

A *firm* must at all times ensure that it is able to meet its liabilities as they fall due.

General capital resource requirement

4.2.2

FCA PRA

R

A *firm* must at all times maintain capital resources equal to or in excess of its relevant capital resources requirement.

Capital resources: relevant accounting principles

4.2.3

FCA PRA

R

A *firm* must recognise an asset or liability, and measure its amount, in accordance with the relevant accounting principles applicable to it for the purpose of preparing its annual financial statements unless a *rule* requires otherwise.

Capital resources: client assets

4.2.4

FCA PRA

R

In this chapter, "*client assets*" includes a *document* only if it has value, or is capable of having value, in itself (such as a bearer instrument)

Capital resources requirement: firms carrying on regulated activities including designated investment business

4.2.5

FCA PRA

R

The capital resources requirement for a *firm* (other than a *credit union*) carrying on *regulated activities*, including *designated investment business*, is the higher of:

- (1) the requirement which is applied by this chapter according to the activity or activities of the *firm* (treating the relevant *rules* as applying to the *firm* by disregarding its *designated investment business*); and
- (2) the financial resource requirement which is applied by the Interim Prudential sourcebook for investment businesses or the Prudential sourcebook for Banks, Building Societies and Investment Firms.

Capital resources requirement: credit unions

4.2.6
PRA

R The capital resources requirement for a *credit union* to which this chapter applies is the highest of:

- (1) the requirement which is applied to *firms* carrying on mediation activities only (see ■ MIPRU 4.2.11 R) treating that *rule* as applying to the *credit union* by disregarding activities which are not *insurance mediation activity* or *mortgage mediation activity*;
- (2) the amount which is applied by the Credit Unions sourcebook; and
- (3) if the *credit union* is a *CTF provider* that has a *permission* to carry on *designated investment business*, the amount which is applied by Chapter 8 of the Interim Prudential sourcebook for investment businesses.

Capital resources requirement: social housing firms

4.2.7
FCA

R The capital resources requirement for a *social housing firm* whose *Part 4A permission* is limited to carrying on the *regulated activities* of:

- (1) *home financing*; or
- (2) *home finance administration* (or both);

is that the *firm's* net tangible assets must be greater than zero.

4.2.8
FCA

G If a *social housing firm* is carrying on *home financing* or *home finance administration* (and no other *regulated activity*), its net tangible assets must be greater than zero. However, if it carries on *insurance mediation activity* or *home finance mediation activity*, there is no special provision and the capital resources requirement for *firms* carrying on *designated investment business* or mediation activities only applies to it as appropriate.

Capital resources requirement: application according to regulated activities

4.2.9
FCA PRA

R Unless any of the *rules* on capital resources for *firms* carrying on *designated investment business*, for *credit unions* or for *social housing firms* apply, the capital resources requirement for a *firm* varies according to the *regulated activity* or activities it carries on.

4.2.10
FCA PRA

R Table: Application of capital resources requirements

	Regulated activities	Provisions
1.	(a) <i>insurance mediation activity</i> ; or (b) <i>home finance mediation activity</i> (or both); and no other <i>regulated activity</i> .	MIPRU 4.2.11 R

	Regulated activities	Provisions
2.	(a) <i>home financing</i> ; or (b) <i>home financing and home finance administration</i> ; and no other regulated activity.	MIPRU 4.2.12 R to MIPRU 4.2.17 E
3.	<i>home finance administration</i> ; and no other regulated activity.	MIPRU 4.2.18 R to MIPRU 4.2.19 R
4.	<i>insurance mediation activity</i> ; and (a) <i>home financing</i> ; or (b) <i>home finance administration</i> (or both).	MIPRU 4.2.20 R
5.	<i>home finance mediation activity</i> ; and (a) <i>home financing</i> , or (b) <i>home finance administration</i> (or both).	MIPRU 4.2.21 R
6.	Any combination of regulated activities not within rows 1 to 5.	MIPRU 4.2.22 R

Capital resources requirement: mediation activity only

4.2.11

FCA PRA

R

- (1) If a *firm* carrying on *insurance mediation activity* or *home finance mediation activity* (and no other regulated activity) does not hold *client money* or other *client* assets in relation to these activities, its capital resources requirement is the higher of:
- (a) £5,000; and
 - (b) 2.5% of the *annual income* from its *insurance mediation activity* or *home finance mediation activity* (or both).
- (2) If a *firm* carrying on *insurance mediation activity* or *home finance mediation activity* (and no other regulated activity) holds *client money* or other *client* assets in relation to these activities, its capital resources requirement is the higher of:
- (a) £10,000; and

- (b) 5% of the *annual income* from its *insurance mediation activity* or *home finance mediation activity* (or both).

Capital resources requirement: home financing and home finance administration (but not home finance administration only)

4.2.12

R

FCA PRA

- (1) The capital resources requirement for a *firm* carrying on *home financing*, or *home financing and home finance administration* (and no other *regulated activity*) is the higher of:
- (a) £100,000; and
- (b) 1% of:
- (i) its total assets plus total undrawn commitments and unreleased amounts under the *home reversion plan*; less:
- (ii) excluded loans or amounts plus intangible assets (see Note 1 in the table in ■ MIPRU 4.4.4 R).
- (2) Undrawn commitments and unreleased amounts means the total of those amounts which a *customer* has the right to draw down or to receive from the *firm* but which have not yet been drawn down or received, excluding those under an agreement:
- (a) which has an original maturity of up to one year; or
- (b) which can be unconditionally cancelled at any time by the lender or provider.

4.2.13

G

FCA PRA

When considering what is an undrawn commitment or unreleased amount, the *appropriate regulator* takes into account an amount which a *customer* has the right to draw down or to receive under a *home finance transaction*, but which has not yet been drawn down or received, whether the commitment or obligation is revocable or irrevocable, conditional or unconditional.

4.2.14

R

FCA PRA

When calculating total assets, the *firm* may exclude a loan or plan which has been transferred to a third party only if it meets the following conditions:

- (1) the first condition is that the loan or the plan has been transferred in a legally effective manner by:
- (a) novation; or
- (b) legal or equitable assignment; or
- (c) sub-participation; or
- (d) declaration of trust; and
- (2) the second condition is that the *home finance provider*:

4.2.15

FCA PRA

- (a) retains no material economic interest in the loan or the plan; and
- (b) has no material exposure to losses arising from it.

- (1) When seeking to rely on the second condition, a *firm* should ensure that the loan or plan qualifies for the 'linked presentation' accounting treatment under Financial Reporting Standard 5 (Reporting the substance of transactions) issued in April 1994, and amended in December 1994 and September 1998 (if applicable to the *firm*).
- (2) Compliance with (1) may be relied upon as tending to establish compliance with the second condition.

4.2.16

FCA PRA

The requirement that the loan qualifies for the 'linked presentation' accounting treatment under FRS 5 is aimed at those *firms* which report according to FRS 5. Other *firms* which report under other standards, including International Accounting Standards, need not adopt FRS 5 in order to meet the second condition.

4.2.17

FCA PRA

- (1) When seeking to rely on the second condition, a *firm* should not provide material credit enhancement in respect of the loan or plan unless it deducts the amount of the credit enhancement from its capital resources before meeting its capital resources requirement.
- (2) Credit enhancement includes:
 - (a) any holding of subordinated loans or notes in a transferee that is a special purpose vehicle; or
 - (b) over collateralisation by transferring loans or plans to a larger aggregate value than the *securities* to be issued; or
 - (c) any other arrangement with the transferee to cover a part of any subsequent losses arising from the transferred loan or plan.
- (3) Contravention of (1) may be relied upon as tending to establish contravention the second condition.

4.2.18

FCA PRA

Capital resources requirement: home finance administration only

The capital resources requirement for a *firm* carrying on *home finance administration* only, which has all or part of the *home finance transactions* that it administers on its balance sheet, is the amount which is applied to a *firm* carrying on *home financing* or *home financing and home finance administration* (and no other *regulated activity*) (see ■ MIPRU 4.2.12 R).

4.2.19

FCA PRA

R

The capital resources requirement for a *firm* carrying on *home finance administration* only, which has all the *home finance transactions* that it administers off its balance sheet, is the higher of:

- (1) £100,000; and
- (2) 10% of its *annual income*.

Capital resources requirement: insurance mediation activity and home financing or home finance administration

4.2.20

FCA PRA

R

The capital resources requirement for a *firm* carrying on *insurance mediation activity* and *home financing* or *home finance administration* is the sum of the requirements which are applied to the *firm* by :

- (1) the capital resources *rule* for a *firm* carrying on *insurance mediation activity* or *home finance mediation activity* (and no other *regulated activity*) (see ■ MIPRU 4.2.11 R); and
- (2) (a) the capital resources requirement *rule* for a *firm* carrying on *home financing* or *home financing* and *home finance administration* (and no other *regulated activity*) (see ■ MIPRU 4.2.12 R); or
 - (b) if, in addition to its *insurance mediation activity*, the *firm* carries on *home finance administration* with all the assets that it administers off balance sheet, the capital resources *rule* for such a *firm* (see ■ MIPRU 4.2.19 R).

Capital resources requirement: home finance mediation activity and home financing or home finance administration

4.2.21

FCA PRA

R

- (1) If a *firm* carrying on *home finance mediation activity* and *home financing* or *home finance administration* does not hold *client money* or other *client* assets in relation to its *home finance mediation activity*, the capital requirement is the amount applied to a *firm*, according to the activities carried on by the *firm*, by:
 - (a) the capital resources requirement *rule* for a *firm* carrying on *home financing* or *home financing* and *home finance administrator* (and no other *regulated activity*) (see ■ MIPRU 4.2.12 R); or in the case of a *firm* carrying on *home financing* which is not connected to *regulated mortgage contracts* or *home finance administration* which is not connected to *regulated mortgage contracts*, the amount applied to a *firm* under ■ MIPRU 4.2.12 R; or
 - (b) if, in addition to its *home finance mediation activity*, the *firm* carries on *home finance administration* with all the assets that it administers off balance sheet, the capital resources *rule* for such a *firm* (see ■ MIPRU 4.2.19 R).

- (2) If the *firm* holds *client money* or other *client* assets in relation to its *home finance mediation activity*, the capital resources requirement is:
- (a) the amount calculated under (1); plus
 - (b) the amount which is applied to a *firm* carrying on *insurance mediation activity* or *home finance mediation activity* (and no other *regulated activity*) that holds *client money* or other *client* assets in relation to these activities (see ■ MIPRU 4.2.11 R (2)).

Capital resources requirement: other combinations of activities

4.2.22

FCA PRA

R

The capital resources requirement for a *firm* carrying any other combination of *regulated activities* is the amount which is applied to a *firm* carrying on *insurance mediation activity* and *home financing* or *home finance administration* (see ■ MIPRU 4.2.20 R).

4.2A [Not yet in force]

4.2B [Not yet in force]

4.2C [Not yet in force]

4.2D [Not yet in force]

4.3 Calculation of annual income

Annual income

4.3.1

FCA PRA

R

This section contains provisions relating to the calculation of *annual income* for the purposes of:

- (1) the *limits of indemnity* for professional indemnity insurance; and
- (2) the capital resources requirements.

4.3.2

FCA PRA

R

'Annual income' is the annual income given in the *firm's* most recent annual financial statement from the relevant *regulated activity* or activities.

4.3.3

FCA PRA

R

For a *firm* which carries on *insurance mediation activity* or *home finance mediation activity*, *annual income* is the amount of all brokerage, fees, *commissions* and other related income (for example, administration charges, overrides, profit shares) due to the *firm* in respect of or in relation to those activities.

4.3.4

FCA PRA

G

- (1) The purpose of the *rule* on *annual income* that applies to *insurance intermediaries* and *mortgage intermediaries* is to ensure that the capital resources requirement is calculated on the basis only of brokerage and other amounts earned by a *firm* which are its own income.
- (2) *Annual income* includes *commissions* and other amounts the *firm* may have agreed to pay to other *persons* involved in a transaction, such as sub-agents or other intermediaries.
- (3) A *firm's annual income* does not, however, include any amounts due to another *person* (for example, the product provider) which the *firm* has collected on behalf of that other *person*.

4.3.5

FCA PRA

R

If a *firm* is a *principal*, its *annual income* includes amounts due to its *appointed representative* in respect of activities for which the *firm* has accepted responsibility.

4.3.6

FCA PRA

G

If a *firm* is a *network*, it should include the relevant income due to all of its *appointed representatives* in its *annual income*.

4.3.7

FCA PRA

R

Annual income for home finance administration

For the purposes of the calculation of the capital resources of a *firm* carrying on *home finance administration* only with all the assets it administers off balance sheet, *annual income* is the sum of:

- (1) revenue (that is, *commissions*, fees, net interest income, dividends, royalties and rent); and
- (2) gains;
- (3) arising in the course of the ordinary activities of the *firm*, less profit:
 - (a) on the sale or termination of an operation;
 - (b) arising from a fundamental reorganisation or restructuring having a material effect on the nature and focus of the *firm's* operation; and
 - (c) on the disposal of fixed assets, including *investments* held in a long-term portfolio.

4.3.8

FCA PRA

R

Annual income: periods of less than 12 months

If the *firm's* most recent annual financial statement does not cover a 12 *month* period, the *annual income* is taken to be the amount in the statement converted, proportionally, to a 12 *month* period.

4.3.9

FCA PRA

R

Annual income: no financial statements

If the *firm* does not have annual financial statements, the *annual income* is to be taken from the forecast or other appropriate accounts which the *firm* has submitted to the *appropriate regulator*.

4.4 Calculation of capital resources

The calculation of a firm's capital resources

4.4.1

FCA PRA

R

- (1) A *firm* must calculate its capital resources only from the items which are eligible to contribute to a *firm's* capital resources from which it must deduct certain items (see ■ MIPRU 4.4.4 R).
- (2) If the *firm* is subject to the Interim Prudential sourcebook for investment businesses, the Prudential sourcebook for Banks, Building Societies and Investment Firms or the Credit Unions sourcebook , the capital resources are the higher of:
 - (a) the amount calculated under (1); and
 - (b) the financial resources calculated under those sourcebooks.

4.4.2

FCA PRA

R

Table: Items which are eligible to contribute to the capital resources of a firm

Item	Additional explanation
1. <i>Share capital</i>	<p>This must be fully paid and may include:</p> <ol style="list-style-type: none"> (1) <i>ordinary share capital</i>; or (2) <i>preference share capital</i> (excluding <i>preference shares</i> redeemable by shareholders within two years).
2. <i>Capital other than share capital</i> (for example, the capital of a <i>sole trader</i> , <i>partnership</i> or <i>limited liability partnership</i>)	<p>The capital of a <i>sole trader</i> is the net balance on the <i>firm's</i> capital account and current account. The capital of a <i>partnership</i> is the capital made up of the <i>partners'</i>:</p> <ol style="list-style-type: none"> (1) <i>capital account</i>, that is the account: <ol style="list-style-type: none"> (a) into which capital contributed by the <i>partners</i> is paid; and

Item	Additional explanation
	<p>(b) from which, under the terms of the <i>partnership</i> agreement, an amount representing capital may be withdrawn by a <i>partner</i> only if:</p> <p>(i) he ceases to be a <i>partner</i> and an equal amount is transferred to another such account by his former <i>partners</i> or any <i>person</i> replacing him as their <i>partner</i>; or</p> <p>(ii) the <i>partnership</i> is otherwise dissolved or wound up; and</p> <p>(2) current accounts according to the most recent financial statement.</p> <p>For the purpose of the calculation of capital resources, in respect of a <i>defined benefit occupational pension scheme</i>:</p> <p>(1) a <i>firm</i> must derecognise any <i>defined benefit asset</i>;</p> <p>(2) a <i>firm</i> may substitute for a <i>defined benefit liability</i> the <i>firm's deficit reduction amount</i>, provided that the election is applied consistently in respect of any one financial year.</p>
3. Reserves (Note 1)	<p>These are, subject to Note 1, the audited accumulated profits retained by the <i>firm</i> (after deduction of tax, dividends and proprietors' or <i>partners</i>' drawings) and other reserves created by appropriations of share premiums and similar realised appropriations. Reserves also include gifts of capital, for example, from a <i>parent undertaking</i>.</p> <p>For the purposes of calculating capital resources, a <i>firm</i> must make the following adjustments to its reserves, where appropriate:</p> <p>(1) a <i>firm</i> must deduct any unrealised gains or, where applicable, add back in any unrealised losses on debt instruments held, or formerly held, in the available-for-sale financial assets category;</p> <p>(2) a <i>firm</i> must deduct any unrealised gains or, where applicable, add back in any unrealised losses on cash flow hedges of financial instruments measured at cost or amortised cost;</p>

Item	Additional explanation
	<p>(3) in respect of a <i>defined benefit occupational pension scheme</i>:</p> <p>(a) a <i>firm</i> must derecognise any <i>defined benefit asset</i>;</p> <p>(b) a <i>firm</i> may substitute for a <i>defined benefit liability</i> the <i>firm's deficit reduction amount</i>, provided that the election is applied consistently in respect of any one financial year.</p>
4. Interim net profits (Note 1)	If a <i>firm</i> seeks to include interim net profits in the calculation of its capital resources, the profits have, subject to Note 1, to be verified by the <i>firm's</i> external auditor, net of tax, anticipated dividends or proprietors' drawings and other appropriations.
5. Revaluation reserves	
6. General/ collective provisions (Note 1)	These are provisions that a <i>firm</i> carrying on <i>home financing</i> or <i>home finance administration</i> holds against potential losses that have not yet been identified but which experience indicates are present in the <i>firm's</i> portfolio of assets. Such provisions must be freely available to meet these unidentified losses wherever they arise. Subject to Note 1, general/collective provisions must be verified by external auditors and disclosed in the <i>firm's</i> annual report and accounts.
7. Subordinated loans	Subordinated loans must be included in capital on the basis of the provisions in this chapter that apply to subordinated loans.
Note:	
1	Reserves must be audited and interim net profits, general and collective provisions must be verified by the <i>firm's</i> external auditor unless the <i>firm</i> is exempt from the provisions of Part VII of the Companies Act 1985 (section 249A (Exemptions from audit)) or, where applicable, Part 16 of the Companies Act 2006 (section 477 (Small companies: Conditions for exemption from audit)) relating to the audit of accounts .

A *firm* should keep a record of and be ready to explain to its supervisory contacts in the *appropriate regulator* the reasons for any difference between the *deficit reduction amount* and any commitment the *firm* has made in any public document to provide funding in respect of a *defined benefit occupational pension scheme*.

4.4.4

FCA PRA

R

Table: Items which must be deducted from capital resources

1	<i>Investments in own shares</i>
2	Intangible assets (Note 1)
3	Interim net losses (Note 2)
4	Excess of drawings over profits for a <i>sole trader</i> or a <i>partnership</i> (Note 2)
Notes	<p>Notes 1. Intangible assets are the full balance sheet value of goodwill (but not until 14 January 2008 - see transitional provision 1), capitalised development costs, brand names, trademarks and similar rights and licences.</p> <p>2. The interim net losses in row 3, and the excess of drawings in row 4, are in relation to the period following the date as at which the capital resources are being computed.</p>

Personal assets

4.4.5

FCA PRA

R

In relation to a *sole trader's firm* or a *firm* which is a *partnership*, the *sole trader* or a *partner* in the *firm* may use personal assets to meet the general solvency requirement and the general capital resource requirement, to the extent necessary to make up any shortfall in meeting those requirements, unless:

- (1) those assets are needed to meet other liabilities arising from:
 - (a) personal activities; or
 - (b) another business activity not regulated by the *appropriate regulator*; or
- (2) the *firm* holds *client money* or other *client* assets.

4.4.6

FCA PRA

G

A *sole trader* or a *partner* may use any personal assets, including property, to meet the capital requirements of this chapter, but only to the extent necessary to make up a shortfall.

4.4.7

FCA PRA

R

Subordinated loans

A subordinated debt must not form part of the capital resources of the *firm* unless it meets the following conditions:

- (1) (for a *firm* which carries on *insurance mediation activity* , *home finance mediation activity* (or both) but not *home financing* or *home finance administration*) it has an original maturity of:
 - (a) at least two years; or
 - (b) it is subject to two years' notice of repayment;
- (2) (for all other *firms*) it has an original maturity of:
 - (a) at least five years; or
 - (b) it is subject to five years' notice of repayment;
- (3) the claims of the subordinated creditors must rank behind those of all unsubordinated creditors;
- (4) the only events of default must be non-payment of any interest or principal under the debt agreement or the winding up of the *firm*;
- (5) the remedies available to the subordinated creditor in the event of non-payment or other default in respect of the subordinated debt must be limited to petitioning for the winding up of the *firm* or proving the debt and claiming in the liquidation of the *firm*;
- (6) the subordinated debt must not become due and payable before its stated final maturity date except on an event of default complying with (4);
- (7) the agreement and the debt are governed by the law of England and Wales, or of Scotland or of Northern Ireland;
- (8) to the fullest extent permitted under the rules of the relevant jurisdiction, creditors must waive their right to set off amounts they owe the *firm* against subordinated amounts owed to them by the *firm*;
- (9) the terms of the subordinated debt must be set out in a written agreement or instrument that contains terms that provide for the conditions set out in this *rule*; and
- (10) the debt must be unsecured and fully paid up.

4.4.8

FCA PRA

R

- (1) This *rule* applies to a *firm* which:
 - (a) carries on:

- (i) *insurance mediation activity*; or
- (ii) *home finance mediation activity* (or both); and

- (b) in relation to those activities, holds *client money* or other *client assets*;

but is not carrying on *home financing* or *home finance administration*.

- (2) In calculating its capital resources, the *firm* must exclude any amount by which the aggregate amount of its subordinated loans and its redeemable preference *shares* exceeds the amount calculated as follows:

four times (a - b - c);

where:

a	=	items 1 to 5 in the Table of items which are eligible to contribute to a <i>firm's</i> capital resources (see MIPRU 4.4.2 R)
b	=	the <i>firm's</i> redeemable preference <i>shares</i> ; and
c	=	the amount of its intangible assets (but not goodwill until 14 January 2008 - see transitional provision 1).

4.4.9

FCA PRA

G

If a *firm* wishes to see an example of a subordinated loan agreement which would meet the required conditions, it should refer to the Forms page.

4.4.10

FCA PRA

R

Reversion providers: additional requirement for instalment reversions

- (1) If the *reversion provider* agrees under the terms of an *instalment reversion plan* to pay the *reversion occupier* for the *qualifying interest in land* over a period of time, then the *provider* must:
 - (a) take out and maintain adequate insurance from an *insurance undertaking* authorised in the *EEA* or a *person* of equivalent status in:
 - (i) a *Zone A country*; or
 - (ii) the Channel Islands, Gibraltar, Bermuda or the Isle of Man; or
 - (b) enter into a written agreement with a *credit institution*;

to meet these obligations in the event that the *reversion provider* is unable to do so.

- (2) This rule does not apply if:
- (a) the *instalment reversion plan* is linked to an *investment* and it is reasonably anticipated that the amounts due to the *reversion occupier* under the plan will be paid out of the proceeds of the *investment* to the *occupier* by a *product provider* other than the *reversion provider*; or
 - (b) the *reversion provider* acquires its interest in the property in steps proportionate to the instalments paid.

4.4.11

FCA PRA

G

The additional requirement for *reversion providers* aims to protect the *reversion occupier* against the insolvency of the *reversion provider* where the *reversion occupier* has agreed to receive the price for the part of the *qualifying interest in land* sold in instalments rather than in a lump sum. The requirement does not arise, for example, in relation to reversions linked to annuities as the *reversion occupier* has no credit risk on the *reversion provider*. Also, the requirement does not arise in relation to 'mini-reversions' (or 'staged reversions') as under these plans the *reversion occupier* continues to own the *qualifying interest in land*.

Regulated sale and rent back agreements: additional requirement

4.4.12

FCA PRA

R

If a *SRB agreement provider* agrees, under the terms of a *regulated sale and rent back agreement*, to account to the *SRB agreement seller* for any monetary sum, whether after a qualifying period, over a period of time, on the occurrence of a contingent event or otherwise, the provider must:

- (1) take out and maintain adequate insurance from an *insurance undertaking* authorised in the *EEA* or a *person* of equivalent status in:
 - (a) a *Zone A country*; or
 - (b) the Channel Islands, Gibraltar, Bermuda, or the Isle of Man; or
- (2) enter into a written agreement with a *credit institution*;

to meet these obligations in the event that the *SRB agreement provider* is unable to do so.

4.4.13

FCA PRA

G

An example of where this additional requirement would apply would be a term of a *regulated sale and rent back agreement* under which the *SRB agreement seller* was to receive from the *SRB agreement provider* a refund of an agreed percentage of the discount on the sale price of the property to which the agreement relates after an agreed qualifying period.

Chapter 5

Insurance undertakings and home finance providers using insurance or home finance mediation services

5.1 Application and purpose

Application

5.1.1
FCA

R

This chapter applies to a *firm* with a *Part 4A permission* to carry on:

- (1) *insurance business*; or
- (2) *home financing*;
- (3) and which uses, or proposes to use, the services of another person consisting of:
 - (a) *insurance mediation*; or
 - (b) *insurance mediation activity*; or
 - (c) *home finance mediation activity*.

5.1.2
FCA

G

The purpose of this chapter is to implement article 3.6 of the *Insurance Mediation Directive* in relation to *insurance undertakings*. The provisions of this chapter have been extended to *home finance providers* in relation to *insurance mediation activity*, and to *insurance undertakings* and *home finance providers* in relation to *home finance mediation activity*, to ensure that *firms* using these services are treated in the same way and to ensure that *clients* have the same protection. To avoid the loss of protection where an intermediary itself uses the services of an *unauthorised person*, this chapter also ensures that each person in the chain of those providing services is authorised.

5.1.3
FCA

G

This chapter supports the more general duties in *Principles 2* and *3*, and the relevant *rule* in the Senior Management Arrangements, Systems and Controls sourcebook (see ■ SYSC 3.1.1 R and ■ SYSC 4.1.1 R).

5.2 Use of intermediaries

5.2.1

FCA PRA

R

A *firm* must not use, or propose to use, the services of another person consisting of:

- (1) *insurance mediation*; or
- (2) *insurance mediation activity*; or
- (3) *home finance mediation activity*;

unless ■ MIPRU 5.2.2 R is satisfied.

[Note: Article 3(6) of the *Insurance Mediation Directive*]

5.2.1A

FCA PRA

G

The *appropriate regulator* regards a *firm* as 'using' the services of, in particular, its immediate counterparty (typically the intermediary that passed the business to the *firm*) and of all other *persons* who have been granted the right or authority directly by the *firm* to effect a *contract of insurance* or *enter into a home finance transaction*.

5.2.2

FCA PRA

R

For the purposes of ■ MIPRU 5.2.1 R, the person, in relation to the activity must:

- (1) have *permission*; or
- (2) be an *exempt person*; or
- (3) be an *exempt professional firm*; or
- (4) be registered in another *EEA State* for the purposes of the *Insurance Mediation Directive* ; or
- (5) in relation to *insurance mediation activity*, not be carrying this activity on in the *EEA*; or
- (6) in relation to *home finance mediation activity*, not be carrying this activity on in the *United Kingdom*.

[Note: Article 3(6) of the *Insurance Mediation Directive*]

5.2.3

FCA PRA

- (1) A *firm* should:
 - (a) before using the services of the intermediary, check:
 - (i) the *Financial Services Register*; or
 - (ii) in relation to *insurance mediation* carried on by an *EEA firm*, the register of its *Home State regulator*;

for the status of the person; and
 - (b) use the services of that person only if the relevant register indicates that the person is registered for that purpose.
- (2) (a) Checking the *Financial Services Register* before using the services of the intermediary and using the services of that person only if the *Financial Services Register* indicates that the person is registered for that purpose may be relied on as tending to establish that:
 - (i) the person, in relation to the activity, has *permission*;
or
 - (ii) the person, in relation to *insurance mediation activity*, also is an *exempt person* or an *authorised professional firm*.
- (b) In relation to *insurance mediation* carried on by an *EEA firm*, checking the register of the *firm's Home State regulator* and using the services of the *EEA firm* only if the register indicates that the *firm* is registered for that purpose may be relied on as tending to establish that the *firm* is registered for the purposes of the *Insurance Mediation Directive* .

All other <i>rules</i> in <i>MIPRU</i>		No	Yes, MIPRU 1.2.1 R	No

Prudential sourcebook for Mortgage and Home Finance Firms, and Insurance Intermediaries

Schedule 6 Rules that can be waived

Sch 6.1 G

FCA **PRA**

The *rules* in *MIPRU* may be waived by the *appropriate regulator* under section 138A and 138B of the *Act* (Modification or waiver of rules). However, if the *rules* incorporate requirements laid down in European directives, it will not be possible for the *appropriate regulator* to grant a *waiver* that would be incompatible with the *United Kingdom's* responsibilities under those directives. It therefore follows that if a *rule* in *MIPRU* contains provisions which derive partly from a directive, and partly not, the *appropriate regulator* will be able to consider a *waiver* of the latter requirements only, unless the directive provisions are optional rather than mandatory.

Chapter 1

UCITS firms

1.1 Introduction

Application

1.1.1

FCA

R

This sourcebook and any provisions of the Interim Prudential sourcebook for investment businesses incorporated into this sourcebook by reference, apply to every *UCITS firm*.

1.1.2

FCA

G

Firms are reminded that a *UCITS management company* can be either:

- (1) a *UCITS firm*; or
- (2) a *UCITS investment firm*.

1.1.3

FCA

G

This sourcebook only applies to *UCITS firms*. *UCITS investment firms* are *BIPRU limited licence firms* and the prudential requirements for those *firms* are set out in the Prudential sourcebook for banks, building societies and investment firms and the General prudential sourcebook. The difference between the two types of *UCITS management companies* is that a *UCITS investment firm* in addition to carrying on the activities permitted by Article 6(2) of the *UCITS Directive* (scheme management), may also carry on the activities permitted by Article 6(3) such as portfolio management.

1.2 Purpose

1.2.1

FCA

G

- (1) The purpose of this sourcebook is to amplify *Principle 4* (Financial prudence) which requires a *firm* to maintain adequate financial resources to meet its *designated investment business* commitments and to withstand the risks to which its business is subject. This assists in the achievement of the *statutory objectives* of consumer protection and protecting and enhancing the integrity of the *UK financial system*.
- (2) This sourcebook also implements certain requirements of the *UCITS Directive* which among other matters imposes capital requirements on a *UCITS management company*.

Chapter 2

Prudential requirements

2.1 Financial resources and financial resources requirements

Financial resources

2.1.1
FCA

R

A *firm* must ensure that it has at all times *financial resources* which equal or exceed the applicable *financial resources requirement*.

Financial resources requirement

2.1.2
FCA

R

The *financial resources requirement* for a *firm* is the higher of:

- (1) subject to a maximum requirement of €10,000,000:
 - (a) *initial capital* requirement of €125,000; plus
 - (b) if the *funds under management* exceed €250,000,000, an additional amount of 0.02% of the excess; or
- (2) 13/52 of its annual audited fixed expenditure.

Annual fixed expenditure

2.1.3
FCA

R

For the purposes of this sourcebook, a *firm's* annual fixed expenditure is:

- (1) the sum of the amounts described as total expenditure in the four *quarterly financial returns* up to (and including) that prepared at the *firm's* most recent *accounting reference date*, less the following items (if they are included within that expenditure):
 - (a) staff bonuses, except to the extent that they are guaranteed;
 - (b) *employees'* and *directors'* shares in profits, except to the extent that they are guaranteed;
 - (c) other appropriations of profits;
 - (d) shared *commission* and fees payable which are directly related to *commission* and fees receivable which are included within total revenue;
 - (e) interest charges in respect of borrowings made to finance the acquisition of the *firm's* *readily realisable investments*;

- (f) interest paid to *customers on client money*;
 - (g) interest paid to *counterparties*;
 - (h) fees, brokerage and other charges paid to *clearing houses, exchanges and intermediate brokers* for the purposes of *executing*, registering or clearing transactions;
 - (i) foreign exchange losses;
 - (j) other variable expenditure; or
- (2) where the previous accounting period does not include twelve months' trading, an amount calculated in accordance with (1) pro-rated to an equivalent annual amount; or
- (3) where a *firm* has not prepared four *quarterly financial returns* since the commencement of its *permitted business*, an amount based on forecast expenditure included in the budget for the first twelve months' trading, as submitted with its application for authorisation.

2.1.4

FCA

G

A *firm's financial resources requirement* will be recalculated annually when its fourth *quarterly financial return* is prepared. The *firm* should maintain *financial resources* sufficient to meet its new *financial resources requirement* from the date on which the fourth *quarterly financial return* is prepared (and no later than 80 business days after the *accounting reference date*). The expenditure based requirement applicable at the *accounting reference date* will be based on the four *quarterly financial returns* prepared up to and on that date.

2.2 Method of calculation of financial resources

2.2.1
FCA

R

PART I			
A firm must calculate its <i>financial resources</i> as shown below, subject to the detailed requirements set out in Part II.			
Financial resources	Category	Part II	
Para			
TIER 1			
(1)	Paid-up share capital (excluding preference shares)	A	2
(2)	Share premium account		
(3)	Audited reserves		3

(13)	Other cumulative preference share capital and debt capital		
(14)	Qualifying arrangements		9
Own funds = (C+D) =		E	
TIER 3			
(15)	Illiquid assets	F	11
Financial resources = (E - F) =		G	

PART II

DETAILED REQUIREMENTS

1 Ratios

(Items 11 and 12)

- (a) the total of fixed term cumulative preference shares (item 11) and long-term *qualifying subordinated loans* (item 12) that may be included in Tier 2 capital is limited to 50 per cent of Tier 1 capital ;
- (b) Tier 1 capital must equal or exceed €125,000 at all times; and
- (c) Tier 2 capital must not exceed 100 per cent of Tier 1 capital.

2 Non corporate entities

- (a) In the case of partnerships or sole traders, the following terms should be substituted, as appropriate, for items 1 to 4 in Tier 1 capital:
 - (i) partners' capital accounts (excluding loan capital);
 - (ii) partners' current accounts (excluding unaudited profits and loan capital);
 - (iii) proprietor's account (or other term used to signify the sole trader's capital but excluding unaudited profits).
- (b) Loans other than *qualifying subordinated loans* shown within partners' or proprietors' accounts must be classified as Tier 2 capital under item 13.
- (c) For the calculation of *financial resources*, partners' current accounts figures are subject to the following adjustments in respect of a *defined benefit occupational pension scheme*:
 - (i) a *firm* must derecognise any *defined benefit* asset:

- (ii) a firm may substitute for *defined benefit liability* the *firm's deficit reduction amount*. The election must be applied consistently in respect of any one financial year.

Note

A firm should keep a record of and be ready to explain to its supervisory contacts in the *FCA* the reasons for any difference between the *deficit reduction amount* and any commitment the firm has made in any public document to provide funding in respect of a *defined benefit occupational pension scheme*.

3 Audited Reserves

For the calculation of *financial resources*, the following adjustments apply to the audited reserves figure:

- (a) a firm must deduct any unrealised gains or, where applicable, add back in any unrealised losses on cash flow hedges of financial instruments measured at cost or amortised cost;
- (b) in respect of a *defined benefit occupational pension scheme*, a firm must derecognise any *defined benefit asset*;
- (c) a firm may substitute for a *defined benefit liability* the firm's *deficit reduction amount*. The election must be applied consistently in respect of any one financial year.

Note

A firm should keep a record of and be ready to explain to its supervisory contacts in the *FCA* the reasons for any difference between the *deficit reduction amount* and any commitment the firm has made in any public document to provide funding in respect of a *defined benefit occupational pension scheme*.

- (d) a firm must not include any unrealised gains from investment property.

Note

Unrealised gains from investment property should be reported as part of revaluation reserves.

- (e) where applicable, a firm must deduct any asset in respect of deferred acquisition costs and add back in any liability in respect of deferred income (but excluding from the deduction or addition any asset or liability which will give rise to future cash flows), together with any associated deferred tax.

4 Eligible LLP members' capital (Item 5)

Members' capital of a *limited liability partnership* may only be included in Tier 1 of the calculation (see item 5) if the conditions in *IPRU(INV)*

Annex A 2.2R (Specific conditions for eligibility) and IPRU(INV) Annex A 2.3R (General conditions for eligibility) are satisfied.

5 Intangible assets (Item 7)

Intangible assets comprise:

- (a) formation expenses to the extent that these are treated as an asset in the *firm's* accounts;
- (b) goodwill, to the extent that it is treated as an asset in the *firm's* accounts; and
- (c) other assets treated as intangibles in the *firm's* accounts.

6 Material current year losses (Item 8)

Losses in current year operating figures must be deducted when calculating Tier 1 capital if such losses are material. For this purpose profits and losses must be calculated quarterly, as appropriate. If this calculation reveals a net loss it shall only be deemed to be material for the purposes of this Table if it exceeds 10 per cent of the *firm's* Tier 1 capital.

7 Material holdings in credit and financial institutions (Item 9)

Material holdings comprise:

- (a) where the *firm* holds more than 10 per cent of the equity share capital of the institution, the value of that holding and the amount of any subordinated loans to the institution and the value of holdings in *qualifying capital items* or *qualifying capital instruments* issued by the institution;
- (b) in the case of holdings other than those mentioned in (a) above, the value of holdings of equity share capital in, and the amount of subordinated loans made to, such institutions and the value of holdings in *qualifying capital items* or *qualifying capital instruments* issued by such institutions to the extent that the total of such holdings and subordinated loans exceeds 10 per cent of the *firm's own funds* calculated before the deduction of item 9.

8 Long term *qualifying subordinated loans* (Item 12)

Loans having the characteristics prescribed by IPRU(INV) 5.2.5(1) R may be included in item 12, subject to the limits set out in paragraph (1) above.

9 Qualifying arrangements (Item 14)

A *firm* may only include a *qualifying undertaking* or other arrangement in item 14 if it is a *qualifying capital instrument* or a *qualifying capital item*.

10 Interim profits

Non-trading book interim profits may only be included in Tier 1 of the calculation if they have been independently verified by the *firm's* external auditors.

For this purpose, the auditor should normally undertake at least the following:

- (a) satisfy himself that the figures forming the basis of the interim profits have been properly extracted from the underlying accounting records;
- (b) review the accounting policies used in calculating the interim profits so as to obtain comfort that they are consistent with those normally adopted by the *firm* in drawing up its annual financial statements;
- (c) perform analytical review procedures on the results to date, including comparisons of actual performance to date with budget and with the results of prior periods;
- (d) discuss with management the overall performance and financial position of the *firm*;
- (e) obtain adequate comfort that the implications of current and prospective litigation, all known claims and commitments, changes in business activities and provisions for bad and doubtful debts have been properly taken into account in arriving at the interim profits; and
- (f) follow up problem areas of which the auditors are already aware in the course of auditing the *firm's* financial statements.

A *firm* wishing to include interim profits in Tier 1 capital in a *financial return* should submit to the *FCA* with the *financial return* a verification report signed by its auditor which states whether the interim results are fairly stated.

Profits on the sale of capital items or arising from other activities which are not directly related to the *designated investment business* of the *firm* may also be included within the calculation of *financial resources* if they can be separately verified by the *firm's* auditors. In such a case, such profits can form part of the *firm's* Tier 1 capital as audited profits.

11 Illiquid assets (Item 15)

Illiquid assets comprise:

- (a) tangible fixed assets;

Note

In respect of tangible fixed assets purchased under finance leases the amount to be deducted as an illiquid asset shall be limited to the excess of the asset over the amount of the related liability shown on the balance sheet.

- (b) holdings in, including subordinated loans to, *credit* or *financial institutions* which may be included in the *own funds* of such *institutions* unless they have been deducted under item 9;

- (c) any *investment* in undertakings other than *credit institutions* and other *financial institutions* where such *investments* are not readily realisable;
- (d) any deficiency in net assets of a *subsidiary*;
- (e) deposits not available for repayment within 90 days or less (except for payments in connection with margined futures or options contracts);

Note

Where cash is placed on deposit with a maturity of more than 90 days but is repayable on demand subject to the payment of a penalty, then this is not required to be deducted as an illiquid asset but a deduction is required for the amount of the penalty.

- (f) loans, other debtors and accruals not falling due to be repaid within 90 days or which are more than one month overdue by reference to the contractual payment date;
- (g) physical stocks;
- (h) prepayments to the extent that the period of prepayment exceeds thirteen weeks; and
- (i) if not otherwise covered, any holding in eligible capital instruments of an insurance undertaking, insurance holding company, or reinsurance undertaking that is a *subsidiary* or *participation*. Eligible capital instruments include ordinary share capital, cumulative preference shares, perpetual securities and long-term subordinated loans, that are eligible for insurance undertakings under *GENPRU 2* or, as the case may be, *INSPRU 7*.

2.3 Application of certain rules in the interim prudential sourcebook for investment businesses

2.3.1

FCA

R

- (1) The following *rules* in the Interim Prudential sourcebook for investment businesses apply to a *firm* in respect of *qualifying subordinated loans, qualifying undertakings* and records:
 - (a) ■ IPRU(INV) 5.2.5(1), (2) and (4) to (7) R; and
 - (b) ■ IPRU(INV) 5.2.6(3) R .
- (2) References in those *rules* to:
 - (a) ■ IPRU(INV) Table 5.2.2(1) R are to be construed as references to ■ UPRU Table 2.2.1 R;
 - (b) ■ IPRU(INV) 5.2.3(1) R are to be construed as references to ■ UPRU 2.1.1 R; and
 - (c) ■ IPRU(INV) 5.2.1(2) are to be construed as references to ■ UPRU 2.1.1 R.

2.4 Records

2.4.1

FCA

R

A *firm* must ensure that proper accounting records are kept in English to show and explain the *firm's own account transactions*.

Schedule 4 Powers exercised

Sch 4.1 G

The following powers and related provisions in or under the *Act* have been exercised by the *FSA* to make the *rules* in *UPRU*:

Section 138 (General rule-making power)

Section 140 (Restrictions on managers of authorised unit trust schemes)

Section 156 (General supplementary powers)

Section 242 (Applications for authorisation of unit trust schemes)

Section 247 (Trust scheme rules)

Section 248 (Scheme particulars rules)

Regulations 6 (*FSA* rules) and 12 (Applications for authorisation) of the Open-Ended Investment Companies Regulations 2001 (SI 2001/1228)

Sch 4.2 G

The following powers in the *Act* have been exercised by the *FSA* to give the *guidance* in *UPRU*:

Section 157(1) (Guidance)

Prudential sourcebook for UCITS Firm

Schedule 5 Rights of action for damages

Sch 5.1 G

FCA

The table below sets out the rules in this sourcebook contravention of which by an authorised person may be actionable under Section 138D of the Act (Actions for damages) by a person who suffers loss as a result of the contravention.

1. If a Yes appears in the column headed For private person, the rule may be actionable by a private person under Section 138D unless a Yes appears in the column headed Removed. A Yes in the column headed Removed indicates that the *FCA* has removed the right of action under Section 138D(3) of the Act. If so, a reference to the rule in which it is removed is also given.
2. In accordance with The Financial Services and Markets Act 2000 (Rights of Action) Regulations 2001 (SI 2001\2256), a private person is:
 - (1) any individual, except when acting in the course of carrying on a regulated activity; and
 - (2) any person who is not an individual, except when acting in the course of carrying on business of any kind;

but does not include a government, a local authority or an international organisation.
3. The column headed "For other person?" indicates whether the rule is actionable by a person other than a private person, in accordance with those Regulations. If so, an indication of the type of person by whom the rule is actionable is given.

Prudential sourcebook for UCITS Firm

Schedule 6 Rules that can be waived

Sch 6.1 G

FCA

1. The rules in this sourcebook can be *waived* by the *FCA* under Sections 138A and 138B or 250 of the *Act* (Modification or waiver of rules) or regulation 7 of the *OEIC Regulations* (Modification or waiver of *FCA* rules).
2. Although the *FCA* has the formal power of *waiver* under the *Act* in relation to these *rules*, much of this sourcebook implements the requirements of the *UCITS Directive* by ensuring that *UCITS firms* as *UCITS management companies* comply with such requirements. Accordingly, while formal power may exist to waive such *UCITS Directive* derived rules, the *FCA's* ability to do so is severely constrained.

Interim Prudential Sourcebook

Friendly Societies

THE INTERIM PRUDENTIAL SOURCEBOOK FOR FRIENDLY SOCIETIES

GUIDANCE: THE PURPOSE OF THE PRUDENTIAL RULES FOR FRIENDLY SOCIETIES AND AN OVERALL DESCRIPTION

1 The prudential rules for a *friendly society* are to be seen in the context of the Principles for Businesses. These are high level obligations applying to all authorised persons and are set out in the High Level Standards part of the *Handbook* (PRIN).

PRA

2 So far as a *friendly society* is concerned, the Principles for Businesses are particularly relevant to its internal systems and controls. Principle 3, for example, requires a firm to take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems. Principle 4 requires a firm to maintain adequate financial resources.

PRA

3 In addition to the general obligations placed on a *friendly society*, certain staff of all authorised persons are subject to a number of high level obligations, referred to as Statements of Principle. The FSA has issued a Code of Practice to help determine whether an approved person's conduct has complied with a Statement of Principle. The Statements and the Code are set out in the High Level Standards part of the *Handbook* (APER).

PRA

4 One of the features of a *contract of insurance* is the long period of risk the contract may cover. The prudential rules for *friendly societies* seek to protect the *policyholder* against the risk that a *friendly society* will fail to meet a valid claim as it falls due.

PRA

6 Chapter 2 covers compliance and supervision of *registered branches* and *subsidiaries* and jointly controlled bodies.

PRA

7 Chapter 3 focuses on systems and controls. *Friendly societies* should also refer to the provisions on senior management arrangements, systems and controls in the High Level Standards part of the *Handbook* (SYSC) and to Annex 3 of *IPRU(FSOC)*.

PRA

8 The rules in Chapter 4 set out the *required margins of solvency* for a *friendly society* having regard to the type of its business.

PRA

9 The extent to which an asset may be taken into account for prudential purposes, and the method of valuing it, is determined in accordance with the rules in the Appendices. It is a fundamental part of the approach to prudential regulation for *friendly societies* that the rules limit the assets which are 'admissible' for solvency purposes and specify the methods of valuation. Similarly, the amount of a liability is determined in accordance with the rules in the Appendices.

PRA

11 As part of the continuing supervision of a *friendly society*, the rules in Chapter 5 require the

PRA *friendly society* to prepare certain accounts and statements in accordance with the rules and deposit them with the *PRA*.

12 Chapter 7 contains the definitions used throughout *IPRU(FSOC)* and some general provisions.

PRA

13 Chapter 8 contains transitional provisions.

PRA

14 The Appendices are part of the rules.

PRA

15 *Guidance* is set out in the Annexes and *friendly societies* may also wish to refer to the guidance in *IPRU(INS)*, *GENPRU* and *INSPRU*.

1 Chapter 1: Application

APPLICATION

1.1 These rules apply to a *non-directive friendly society* which has permission under the *Act* to effect or carry out *contracts of insurance*.

FCA PRA

1.1A The rules in Chapters 1, 2, 3 (with the exception of rule 3.1(7)), rule 4.20, rule 5.1A, Chapters 7 and 8 also apply to a *directive friendly society* which has permission under the *Act* to effect or carry out *contracts of insurance*.

FCA PRA

Actions for damages

1.2 Section 138D(2) of the *Act* does not apply.¹

FCA PRA

Restriction of business to insurance

1.3 [deleted]

¹ A private person therefore has no right of action under this section against a *friendly society* for breach of the prudential rules.

2 Chapter 2: Integrity, Skill, Care and Diligence

LEGAL COMPLIANCE

2.1 A *friendly society* must take reasonable steps to ensure that –

- | | |
|-----|-----|
| FCA | PRA |
|-----|-----|
- (a) it does not carry on activities beyond its powers;
 - (b) it and its *registered branches* comply with –
 - (i) any requirements of or under the *1992 Act* or the *Act* which relate to the conduct of its *insurance business*, and
 - (ii) any requirement (whether of the law of any part of the United Kingdom or of the law of another *EEA State*) which gives effect to the *insurance Directives* or is otherwise applicable to the insurance activities of the *friendly society*.

SUPERVISION OF SUBSIDIARIES AND JOINTLY-CONTROLLED BODIES

2.2 (1) A *friendly society* must supervise the activities –

- | | |
|-----|-----|
| FCA | PRA |
|-----|-----|
- (a) of any *subsidiary* or of any body of which the *friendly society* has joint control; and
 - (b) of any *registered branch* of the *friendly society*;
- with due care and diligence, having due regard to the interests of its *policyholders* and without detriment to the conduct of the *friendly society's* activities.

2.3 (1) A *friendly society* should ensure that its *subsidiaries, jointly controlled bodies, or registered branches* are –

- | | |
|-----|-----|
| FCA | PRA |
|-----|-----|
- (a) directed and managed with prudence, integrity and adequate professional skill; and
 - (b) comply with any applicable requirements of or under the *Act* and the *1992 Act*.
- (2) Contravention of (1) may be relied upon as tending to establish contravention of rule 2.2.

3 Chapter 3: Management and Control

ACCOUNTING RECORDS AND SYSTEMS OF CONTROL

- 3.1 (1) Every *friendly society* must and must procure that every *registered branch* –
- | | |
|-----|-----|
| FCA | PRA |
|-----|-----|
- (a) keep (or keeps) adequate accounting records; and
- (b) establish and maintain (or establishes and maintains) adequate systems of control of its business and records and of inspection and report.
- (2) The accounting records must be sufficient to –
- (a) comply with the requirements of section 68 of the *1992 Act*; and
- (b) enable the *friendly society* acting through the *committee* properly to discharge the duties imposed on it and them by or under the *1974 Act*,
- as the case may be.
- (3) The systems of control which are to be established and maintained by a *friendly society* or a *registered branch* are systems for the control of the conduct of their activities in accordance with the *Act* and the *1992 Act* and the decisions of the *committee*, and for the control of the accounting and other records of its activities.
- (4) The system of inspection and report which is to be established and maintained by a *friendly society* or *registered branch* is a system of inspection on behalf of and report to the *committee* on the operation of the systems of control required by (1)(b).
- (5) The systems of control and of inspection and report must be adequate to enable the *committee* properly to discharge the duties imposed on it by or under the *Act*, the *1992 Act* or the *1974 Act* and the functions of direction of the affairs of the *friendly society* or *registered branch*. No such system of control will be treated as adequate unless there is kept available to the *committee* a detailed statement in writing of the system as in operation for the time being.
- (6) Without prejudice to the generality of (5), the systems of control and of inspection and report must be such as to secure that the activities of the *friendly society* or *registered branch* are so conducted and its records so kept that –
- (a) the information necessary to enable the *committee* to discharge its duties and functions is sufficiently accurate, and is available with sufficient regularity or at need and with sufficient promptness, for those purposes; and

- (b) the information regularly obtained by or furnished to the *appropriate regulator* under or for the purposes of this *Act* or the *1992 Act* is sufficiently accurate for the purpose for which it is obtained or furnished and is furnished at the regularity required by or under the *Act* or the *1992 Act*.
- (7) Every *non-directive friendly society* must within the period of 6 months beginning with the end of each *financial year* make and send to the *appropriate regulator* a statement of their opinion whether the requirements of this rule have been complied with in respect of that year by the *friendly society* and the statement must be signed by the chairman on behalf of the *committee* and by the chief executive.³

3.2 [deleted]³

³See SUP 16.3.6 to 16.3.10R for rules on the submission of periodic reports.

4 Chapter 4: Financial Prudence

I. MARGINS OF SOLVENCY

Basic requirement⁴

- 4.1 PRA
- (1) Subject to (3), a *friendly society* (other than a *flat rate benefits business friendly society*) must maintain a *margin of solvency* equal to or greater than the *required margin of solvency* calculated in accordance with rules 4.2 to 4.10.
 - (2) Where a *friendly society* carries on both *long-term insurance business* and *general insurance business*, (1) has effect as if the requirement to maintain a margin of solvency were a requirement to maintain separate margins in respect of the two kinds of business.
 - (3) As long as the society maintains an excess of the value of its assets over the amount of its liabilities, (1) does not apply to a *non-directive friendly society* which does not have permission to effect *contracts of insurance* and is only carrying out contracts of *long-term or general insurance business* which were effected before 13 September 1993 (or effected pursuant to the terms of such a contract).
 - (4) A margin of solvency is the excess of the value of the *friendly society's* assets over the amount of its liabilities, that value and amount being determined in accordance with the *asset valuation rules* and *liability valuation rules* and rule 4.7.

⁴The requirement for a plan for the restoration of a sound financial position to be submitted by a *friendly society* which breaches this rule is in SUP, App II

Calculating the required margin of solvency

- 4.2 PRA
- (1) Subject to (2) to (7), the *required margin of solvency* must be determined –
 - (a) with respect to a *friendly society* which carries on *long-term insurance business*, in accordance with Appendix 1; and
 - (b) with respect to a *friendly society* which carries on *general insurance business*, by taking the greater of:
 - (i) the higher of the two sums resulting from the application of the method of calculation set out in Part I of Appendix 2, and
 - (ii) the sum resulting from the application of the method of calculation set out in Part II of Appendix 2.
 - (2) For a *contract of insurance* to which rule 7.6(a) applies, the *required margin of solvency* must be determined by taking the aggregate of the results arrived at by applying –

- (a) in the case of so much of the contract as is within any *class of long-term insurance business*, the appropriate method under Appendix 1 for that *class*; and
 - (b) in the case of so much of the contract as is within *general insurance business class 1 or 2*, the method of calculation set out in (1)(b).
- (3) Where a *friendly society* carries on *long-term insurance business* and owing to the nature of that business more than one *required margin of solvency* is produced in respect of that business by the operation of these rules, the margins in question must be aggregated.
- (4) Where a *friendly society* carries on both *long-term insurance business* and *general insurance business* and is accordingly required to maintain separate margins of solvency in respect of the two kinds of business –
- (a) the provisions in (1) to (3) apply for determining the *required margin of solvency* for each kind of business separately; and
 - (b) assets other than those representing the funds maintained by the *friendly society* in respect of its *long-term insurance business*, if they are not included among the assets covering the liabilities and the *required margin of solvency* relating to the *friendly society's general insurance business*, may be included among the assets taken into account in covering the liabilities and the *required margin of solvency* for the *friendly society's long-term insurance business*.
- (5) Subject to (6), in each case in which (1)(b) applies, if the *required margin of solvency* under (1)(b) is lower than the *required margin of solvency* of the preceding *financial year*, then the *required margin of solvency* must be adjusted so it is at least equal to the *required margin of solvency* of the preceding *financial year* multiplied by the ratio of the amount of the *technical provisions* for *claims* outstanding at the end of the preceding *financial year* and the amount of the *technical provisions* for *claims* outstanding at the beginning of the preceding *financial year*.
- (6) For the purpose of (5) –
- (a) *technical provisions* must not be discounted, or reduced, to take account of investment income, unless –
 - (i) they relate to risks in *classes 1 or 2*; or
 - (ii) they are reduced to reflect the discounting of annuities; and
 - (b) *technical provisions* must be calculated net of reinsurance; but
 - (c) the ratio must not be higher than 1.

- (7) Where the nature or quality of reinsurance relied on to reduce the *required margin of solvency* changes significantly during the *financial year*, a *friendly society* must notify the *PRA* forthwith of the change.

The guarantee fund⁵

4.3 A *non-directive incorporated friendly society* must ensure that its *margin of solvency* does not fall below the *guarantee fund*.

PRA

Calculating the guarantee fund

4.4 (1) Subject to (2) to (5), one-third of the *required margin of solvency* constitutes the *guarantee fund*.

PRA

(2) In the case of a *friendly society* which is a *non-directive incorporated friendly society* the *guarantee fund* must not be less than an amount (the *minimum guarantee fund*) arrived at in accordance with rule 4.5 for *long-term insurance business* and rule 4.6 for *general insurance business*, whether the *required margin of solvency* is greater or less than that amount.

(3) In the case of *long-term insurance business*, items that are not *implicit items* must be at least large enough to cover either the *minimum guarantee fund* or 50% of the *guarantee fund*, whichever is the greater.

(4) In the case of *general insurance business*, the unpaid initial fund of a *friendly society* and, in the case of a *friendly society* with variable contributions, any claim which the *friendly society* has against its members by way of a call for supplementary contributions for a *financial year* may not be taken into account in complying with (1).

⁵The requirement for a short term plan to be submitted by a *friendly society* which breaches this rule is imposed by *SUP*, App 2

- (5) In the case of *long-term insurance business*, the unpaid initial fund of a *friendly society* and *implicit items* which relate to future profits and *zillmerising* may not be taken into account in complying with (1).

Minimum guarantee fund: long-term insurance business

4.5 (1) [deleted]

PRA

(2) For a *non-directive incorporated friendly society*, in the *financial year* during which the *friendly society* first obtains permission under the *Act* to carry on *long-term insurance business*, the *minimum guarantee fund* is the amount in column 2 of the table, which corresponds to the *friendly society's annual contribution income* in respect of that business in the last preceding *financial year*, as shown in column 1 of the table.

Contribution Income (in Euro)	Minimum guarantee fund (in Euro)
1,000,000 or less	115,000

1,000,001 - 1,500,000	230,000
1,500,001 - 2,000,000	350,000
2,000,001 - 2,500,000	460,000
2,500,001 - 3,000,000	580,000
3,000,001 or more	700,000

But where the *friendly society* had no *annual contribution income* in respect of *long-term insurance business* in the last preceding *financial year* or has not been in existence long enough to have a preceding *financial year*, the *minimum guarantee fund* is 115,000 Euro.

- (3) In any subsequent *financial year* during which a *non-directive incorporated friendly society* has permission to carry on *long-term insurance business*, the *minimum guarantee fund* is the greater of either –
- (a) the amount in column 2 of the table in (2) that corresponds to the *friendly society's annual contribution income* in respect of *long-term insurance business* in the last preceding *financial year*; or
 - (b) the amount of the *minimum guarantee fund* required to be maintained by the *friendly society* in the last preceding *financial year*.
- (4) Where a *non-directive incorporated friendly society* obtains permission under the *Act* (or has obtained permission under the *Act* or authorisation under its predecessor legislation) to carry on *long-term insurance business*–
- (a) of a *class* additional to that in respect of which it already has permission; or
 - (b) in a part of the United Kingdom additional to that in respect of which it already has permission,
- a *minimum guarantee fund* of 700,000 Euro must be maintained by that *friendly society* for the whole of its *long-term insurance business* (that is to say, not only for the additional business carried on but also for the business previously carried on).

Minimum guarantee fund: general insurance business

4.6

(1) [deleted]

PRA

(2) For *non-directive incorporated friendly societies*, the *minimum*

guarantee fund for general insurance business is 260,000 Euro.

(3) [deleted]

(4) [deleted]

(5) [deleted]

Valuation of solvency margins

4.7

PRA

- (1) Where a *friendly society* has assets equal to or in excess of its liabilities as valued in accordance with the *asset valuation rules* and *liability valuation rules*, then (2) to (5) have effect for determining the extent to which the value of the assets exceeds the amount of liabilities in connection with the *margin of solvency*, the *required margin of solvency*, the *guarantee fund* and the *minimum guarantee fund*.
- (2) In the case of a *friendly society* with variable contributions carrying on *general insurance business*, any claim which a *friendly society* has against its members by way of a call for supplementary contributions for a *financial year* must be treated as having no value.
- (3) The items which relate to future surpluses, *zillmerising* and hidden reserves (referred to as implicit items) must be treated as having no value. A *friendly society* which applies for a waiver of this rule under section 138A of the *Act* with respect to future profits must submit with the application for waiver:
- (a) an actuarial report substantiating the likelihood of the emergence of the future profits in the future; and
 - (b) a plan as to how it intends to comply with the future limits on, and termination of use of, implicit items for future profits required by the Life Directive (2002/83/EC).
- (4) The unpaid initial fund of a *friendly society* must be treated as having no value.
- (5) Subject to (6), in the case of a *friendly society* which discounts or reduces its *technical provisions* for *claims* outstanding to take account of investment income as permitted by article 60(1)(g) of the *Insurance Accounts Directive*, the *margin of solvency* must be reduced by the difference between: -
- (a) the undiscounted *technical provisions* for *claims* outstanding or the *technical provisions* for *claims* outstanding before deductions; and
 - (b) the discounted *technical provisions* for *claims* outstanding or the *technical provisions* for *claims* outstanding after deductions.

For these purposes, *technical provisions* must be calculated net of *reinsurance*.

- (6) (5) does not apply to risks in *classes 1 or 2* or in respect of the discounting of annuities.
- (7) For the purposes of the rules in Chapter 4 and the definition of *non-directive friendly society*, the exchange rate from the Euro to the pound sterling for each year beginning on 31 December is the rate applicable on the last day of the preceding October for which the exchange rates for the currencies of all the European Union member states were published in the Official Journal of the European Union.

4.8 – 4.10 [Moved to Annex 4]

PRA

II. ADEQUACY OF ASSETS

4.11 Except for rule 4.24, which applies to all *friendly societies*, the remaining rules in this chapter do not apply to *registered friendly societies*.

FCA PRA

4.12 (1) A friendly society must secure-

FCA PRA

- (a) that its liabilities under *contracts of insurance*, other than liabilities in respect of *linked benefits*, are covered by assets of appropriate safety, yield and marketability having regard to the *classes of business carried on*; and
- (b) without prejudice to the generality of (a), that its investments are appropriately diversified and adequately spread and that excessive reliance is not placed on investments of any particular category or description.
- (2) A *friendly society* which has entered into a *linked long-term contract* must secure that, as far as practicable, its liabilities under the contract in respect of *linked benefits* are covered as follows-
- (a) if those benefits are linked to the value of units in an undertaking for collective investments in transferable *securities* or to the value of assets contained in an internal fund, by those units or assets;
- (b) if those benefits are linked to a share index or other reference value not mentioned in (a), by units which represent that reference value, or by assets of appropriate safety, yield and marketability which correspond, as nearly as may be, to the assets on which that reference value is based⁶.
- (3) A *friendly society* which has entered into a *linked long-term contract* must also secure that its liabilities under the contract in respect of

linked benefits which are not covered by contracts of reinsurance are covered by assets of a description contained in COBS 21.3.1R.

- (4) In (3), "*linked long-term contract*" does not include a *pension fund management contract* unless it is combined with a *contract of insurance* covering either conversation of capital or payment of a minimum interest.

V. SEPARATION BETWEEN LONG-TERM INSURANCE BUSINESS ASSETS AND OTHER ASSETS

4.20 A *friendly society* which has permission to carry on *long-term insurance business* must –

FCA | PRA

- (a) secure that the assets representing the funds maintained by the *friendly society* in respect of its *long-term insurance business* are only applicable for the purposes of that business; and
- (b) ensure that adequate arrangements are in force for securing that transactions affecting the assets of the *friendly society* (other than transactions outside its control) do not operate unfairly between the assets representing the funds maintained by the *friendly society* in respect of its *long-term insurance business* and the other assets of the *friendly society*.

VI. LIQUIDITY

4.24 **A *friendly society* must maintain liquid assets sufficient to meet its liabilities as they become due.**

PRA

5 Chapter 5: Prudential Reporting

ANNUAL ACTUARIAL INVESTIGATION

5.1

PRA

(1) **A friendly society which is a non-directive incorporated friendly society (other than a flat rate benefits business friendly society), must cause an investigation to be made, in accordance with the methods and assumptions determined by the friendly society, by the person or persons who for the time being are appointed to perform the actuarial function under the rules in SUP into the financial condition of the friendly society in respect of its long-term insurance business as at the end of each financial year.**

(2) **When such an investigation has been made, or when at any other time an investigation into the financial condition of the friendly society in respect of its long-term insurance business has been made with a view to the distribution of profits, or the results of which are made public the friendly society must –**

(a) **cause an abstract of the report of the investigation to be made; and**

(b) **deposit three copies of that abstract with the PRA within 6 months of the end of the financial year to which it relates,**

and one of those copies must be signed as required by rule 5.12. The copies must be sent to Insurance Returns, Regulatory Data Group, Statistics and Regulatory Data Division (HO5 A-B), Bank of England, Threadneedle Street, London EC2R 8AH (and must not be addressed to the friendly society's normal supervisory contact).

(3) **An investigation under this rule must include –**

(a) **a determination of the liabilities of the friendly society attributable to its long-term insurance business; and**

(b) **a valuation of any excess over those liabilities of the assets representing the fund or funds maintained by the friendly society in respect of that business and, where any rights of any long-term policyholders to participate in profits relate to particular parts of such a fund, a determination of any excess of assets over liabilities in respect of each of those parts.**

(4) **Rules 5.5 to 5.12 apply in respect of the abstract required by (2)(a) (referred to as the “FSC1 return”).**

(5) **A friendly society that submits an FSC1 return in respect of the financial year ending on 31 December 2003 must also send to its normal supervisory contact at the PRA, by 30 June 2004, Form 60 and associated Forms 11 and 12 as amended by the Interim Prudential Sourcebook for Friendly Societies (Solvency I Directive) Instrument 2003 and the Interim Prudential Sourcebook for Friendly Societies**

(Amendment of Form 12) Instrument 2004.

- 5.1A (1) **A *directive friendly society* must comply with rules 9.1 to 9.36, 9.37, and 9.39 of *IPRU (INS)* as if references to an *insurer* in those rules included a *directive friendly society*.**
- PRA
- (2) **In relation to a *directive friendly society*, references in Form 13, 14, and 15 in Appendix 9.1 of *IPRU (INS)* to the *insurance accounts rules* must be taken as referring to the *Accounts Regulations*.**

TRIENNIAL ACTUARIAL INVESTIGATION

- 5.2 (1) **Subject to (1A) and at least once in every *period* of 3 years, a *friendly society* (other than a *flat rate benefits business friendly society*) which –**
- PRA
- (a) **is a *non-directive unincorporated friendly society* must cause an investigation to be made by the *appropriate actuary* into the financial condition of the *friendly society* in respect of its *insurance business*; and**
- (b) **is a *non-directive incorporated friendly society* must cause an investigation to be made by the *appropriate actuary* into the financial condition of the *friendly society* in respect of its *general insurance business*.**
- (1A) (1)(a) **does not apply to a *partnership pension society*.**
- (2) **Subject to (8) or (9), when an investigation under this rule has been made, the *friendly society* must –**
- (a) **cause an abstract of the actuary's report of the investigation to be made; and**
- (b) **deposit three copies of that abstract with the *PRA* within 6 months of the end of the *period* to which it relates,**
- and one of those copies must be signed as required by rule 5.20. The copies must be sent to Insurance Returns, Regulatory Data Group, Statistics and Regulatory Data Division (HO5 A-B), Bank of England, Threadneedle Street, London EC2R 8AH (and must not be addressed to the *friendly society's* normal supervisory contact).**
- (3) **Subject to (4), a *friendly society* must deposit with the *PRA*, not later than 6 months after each anniversary of the date to which the accounts of the *friendly society* were made up for the purposes of the last investigation into its financial condition under this rule –**
- (a) **a certificate given by the *appropriate actuary*, in the format of Form FSC4, that there has been no material change in its financial condition in respect of its insurance business since it**

sent the last abstract under (2); or

- (b) a statement by the *appropriate actuary* that he is unable to give such a certificate.⁷
- (4) A *friendly society* is not under the duty imposed by (3)(b) if, before a date by which a certificate or statement must be deposited, a further investigation under this rule has been carried out and the requisite abstract has been deposited with the *PRA*.
- (5) If a *friendly society* deposits with the *PRA* a statement under (3)(b), the *friendly society* must cause an investigation to be carried out under this rule, and in such a case –
 - (a) the date to which the *friendly society's* accounts are made up for the purposes of the investigation must be the latest anniversary of the date to which its accounts were made up for the purposes of the last investigation under this rule; and
 - (b) the abstract required by (2) must be deposited with the *PRA* within 6 months of the date by which that statement was required to be deposited under (3).
- (6) An investigation under this rule into the financial condition of a *friendly society* which falls within (1)(a) must include –
 - (a) a valuation of the liabilities of the *friendly society* attributable to its *insurance business*; and
 - (b) a determination of any excess over the liabilities so attributable of the assets representing the fund or funds maintained by the *friendly society* in respect of its *insurance business* and, where any rights of any long-term *policyholders* to participate in profits relate to particular parts of such a fund, a determination of any excess of assets over liabilities in respect of each of those parts.
- (7) An investigation under this rule into the financial condition of a *friendly society* falling within (1)(b) must include –
 - (a) a valuation of the liabilities of the *friendly society* attributable to its *general insurance business*; and
 - (b) a determination of any excess over the liabilities so attributable of the assets representing the fund or funds maintained by the *friendly society* in respect of that business.
- (8) A *non-directive unincorporated friendly society* must complete an abstract in the Form required under rule 5.13 (referred to as the “FSC2 return”).
- (9) A *non-directive incorporated friendly society* (other than a *flat rate benefits business friendly society*) which is carrying on *general insurance business* must complete an abstract in the Form required

under rules 5.14 to 5.19 (referred to as the “FSC3 return”).

(10) **A *friendly society* that submits an FSC3 return in respect of the *financial year* ending on 31 December 2003 must also send to its normal supervisory contact at the *PRA*, by 30 June 2004: -**

- (a) **Forms 11 and 12 as amended by the Interim Prudential Sourcebook for Friendly Societies (Solvency I Directive) Instrument 2003 and the 31 December 2010 22 Interim Prudential Sourcebook for Friendly Societies (Amendment of Form 12) Instrument 2004; and**
- (b) **the amounts at line 12 of amended Form 15 and line 61 of amended Form 13, if these lines contain amounts different from the amounts at the same lines of the un-amended forms.**

⁷Ibid.

Correction of abstracts

5.3

PRA

- (1) **If within 24 months of the date of deposit, the *PRA* notifies the *friendly society* that any Form (including any supplementary note to a Form) included in the FSC1, FSC2 or FSC3 return appears to it to be inaccurate or incomplete, the *friendly society* must consider the matter and within one month of the date of notification it must correct any inaccuracies and make good any omissions and deposit the relevant parts of the documents again.**
- (2) **One of the copies referred to in (1) must be signed –**
 - (a) **by the *appropriate actuary* if the Form is the actuary’s certificate;**
 - (b) **by the auditor if the Form is the auditor’s report;**
 - (c) **in the case of all other Forms by the chief executive, the secretary and one *committee* member of the *friendly society* (or two members of the *committee* if the offices of chief executive and secretary are held by the same person).**

The FSC1 return

5.5

PRA

- (1) **The FSC1 return must include:**
 - (a) **Form FSC1**
 - (b) **a balance sheet;**
 - (c) **revenue accounts;**
 - (d) **a valuation abstract;**

- (e) a certificate and a statement that the *friendly society* consents to the FSC1 return being placed on its *public file*; and
- (f) a report of the auditors.

(2) Rules 5.6 to 5.12 apply to the preparation of the FSC1 return.

Balance sheet

5.6

PRA

- (1) The balance sheet must consist of Forms 9, 13, 14, 15 and 17 (as appropriate) prepared in accordance with the instructions in Appendix 6.
- (2) Form 13 must be completed in respect of –
 - (a) the total *long-term insurance business* assets of the *friendly society*; and
 - (b) the *long-term insurance business* assets appropriated by it in respect of each separate *long-term insurance business* fund or group of funds for which separate assets have been appropriated.
- (3) A separate Form 13 must be completed in respect of its total assets other than *long-term insurance business* assets and its corresponding liabilities must be shown in Form 15.
- (4) Form 14 must be completed in respect of –
 - (a) the total *long-term insurance business liabilities* and margins of the *friendly society*; and
 - (b) the *long-term insurance business liabilities* and margins for each separate *long-term insurance business* fund or group of funds for which separate assets have been appropriated.

5.7

PRA

For each Form 13 which a *friendly society* is required to complete in accordance with rule 5.6(2) and (3), it must complete Form 17 in respect of the same business; except that where in respect of that Form all amounts required to be shown would be zero and no supplementary note would be required, Form 13 may instead be accompanied by a supplementary note to that effect and Form 17 may be omitted.

Revenue Account

5.8

PRA

- (1) The revenue account must consist of Forms 40, 40A, 40B and 40C (as appropriate) prepared in accordance with the instructions in Appendix 8 and so that –
 - (a) a separate Form 40 is prepared in respect of each *long-term insurance business* fund, Form 40A for each other revenue account fund and Form 40B for each management fund

maintained;

- (b) where there is more than one fund for ordinary *long-term insurance* business or for *industrial assurance business*, the *friendly society* must also complete a summary Form for ordinary *long-term insurance business* or for *industrial assurance business*, as the case may require; and
 - (c) where there is more than one fund for other revenue account funds the *friendly society* must also complete a summary Form.
- (2) The revenue account must also include Forms 41 to 45 prepared separately in respect of ordinary *long-term insurance business* and *industrial assurance business* and in accordance with the instructions in Appendix 8.

Valuation abstract

- 5.9 The valuation abstract must consist of Forms 46 to 49, 51 to 58, 60, 11, 12 and 61A (as appropriate) prepared in accordance with the instructions in Appendix 9.

PRA

Certificate

- 5.10 A *friendly society* must ensure that a certificate is given in the terms, as appropriate, of Form 61B.

PRA

Auditor's Report

- 5.11 (1) The auditor's report in Form 61C must state whether in his opinion the balance sheet, revenue accounts, valuation abstract and certificate (Forms 9 to 45, 48, 49, 56, 58 and 60, including any supplementary notes) and information relating thereto have been properly prepared and presented in accordance with the rules in chapters 4 & 5.
- (1A) To the extent that the auditor's opinion relates to matters covered by the investigation in rule 5.1
- (a) the *friendly society* must ensure that the auditor takes appropriate advice from a suitably qualified *actuary* who is independent of the *friendly society*;
 - (b) the auditor's report in Form 61C must include a statement that the auditor has taken such advice.
- (2) [deleted]
- (3) In giving the opinion in Form 61C, where the auditor undertaking the central audit has relied on work done at the branches by other firms of accountants, he must state that he has relied on other accountants for this work. In this case, he must ensure that a list of these firms is appended together with details of the particular branches for which they

undertook the audit.

- (4) Where the auditor refers in his report or any note attached thereto to any uncertainty, the report must state whether, in the auditor's opinion, that uncertainty is material to determining whether the *friendly society* has available assets in excess of its *required minimum margin*.

Signatures

5.12 (1) [deleted]

PRA

- (2) The auditor must sign the report in Form 61C.
- (3) The FSC1 Return must be signed, in Form 61B, by the chief executive, the secretary and one *committee* member of the *friendly society* (or two members of the *committee* if the offices of chief executive and secretary are held by the same person).

FSC2 Return

5.13 (1) The FSC2 return must include –

PRA

- (a) Forms FSC2, 9, 9A, 9B and 9C; and
 - (b) a statement that the *friendly society* consents to the FSC2 return being placed on its *public file*.
- (2) Form 9A must provide a synopsis of the report by the *appropriate actuary* into the investigation into the financial condition of the *friendly society* in respect of its *insurance business* including the statements, information and comments set out in that Form, together with the *appropriate actuary's* assessment of the 31 December 2010 25 financial viability of the *friendly society* and any changes that are necessary or desirable and the likely consequences of taking no action.
 - (3) The *appropriate actuary* must give and sign a certificate in the terms, as appropriate, of Form 9B.
 - (4) Form 9C must be signed by the chief executive, the secretary and one *committee* member of the *friendly society* (or two members of the *committee* if the offices of chief executive and secretary are held by the same person).

FSC3 return

5.14 (1) The FSC3 return must include:

PRA

- (a) Form FSC3
- (b) a balance sheet;

- (c) a revenue account;
- (d) a certificate by the *appropriate actuary*; and
- (e) a report of the auditors.
- (f) a statement that the *friendly society* consents to the FSC3 return being placed on its *public file*.

(2) Rules 5.15 to 5.19 apply to the preparation of the FSC3 return.

Balance sheet

- 5.15 (1) The balance sheet must consist of Forms 9, 11, 12, 13, 14, 15 and 17 (as appropriate) prepared in accordance with the instructions in Appendix 6.
- PRA
- (2) Form 13 must be completed in respect of *general insurance business assets*. Where a *friendly society* also carries on *long-term insurance business*, a separate Form 13 must be completed by the *friendly society* in respect of its *long-term insurance business assets* and its corresponding liabilities and margins must be shown in Form 14.

Revenue Account and Additional Information

- 5.16 (1) The revenue account must comply with the instructions in Appendix 7 and must be as set out in Form 20 and a *friendly society* must complete a separate account in Form 20 in respect of each *class of general insurance business* and a summary account in that Form in respect of the whole of the *general insurance business* carried on by it.
- PRA
- (2) A *friendly society* must in respect of each *class of general insurance business*, and in accordance with the instructions in Appendix 7, complete Forms 21 to 23.
- (3) Form 23A must be completed, in accordance with the instructions in Appendix 7, by a *friendly society* in respect of its *general insurance business*.

Actuary's Certificate

5.17 The *appropriate actuary* must give a certificate in the terms, as appropriate, of Form 23B.

PRA

Auditor's Report

5.18 (1) The auditor's report in Form 23C must state whether in his opinion the balance sheet, revenue accounts and *general insurance business* statements (Forms 9 to 23 including any supplementary notes) and information relating thereto have been properly prepared and presented in accordance with the rules and guidance in this part of the

PRA

IPRU(FSOC).

- (2) In giving this opinion, the auditor must state whether he has relied on the identity and value of any *implicit items* valued in accordance with a waiver under section 138A of the *Act*. Where the auditor undertaking the central audit has relied on work done at the branches by other firms of accountants, he must state that he has relied on other accountants for this work. In this case, he must ensure that a list of these firms is appended together with details of the particular branches for which they undertook the audit.
- (3) Where the auditor refers in his report or any note attached thereto to any uncertainty, the report must state whether, in the auditor's opinion, that uncertainty is material to determining whether the *friendly society* has available assets in excess of its *required minimum margin*.

Signatures

- 5.19 (1) The *appropriate actuary* must sign the certificate in Form 23B.
- PRA (2) The auditor must sign the report in Form 23C.
- (3) The FSC3 Return must be signed, in Form 23D, by the chief executive, the secretary and one *committee* member of the *friendly society* (or two members of the *committee* if the offices of chief executive and secretary are held by the same person).

Completion of Forms

- 5.20 Rules 5.21 to 5.24 apply to the completion of any Form to be included in the *FSC return*.

PRA

Headings

- 5.21 The *friendly society's* register number is to be entered on every page in the relevant box. Boxes marked 'period ended 31 December' must be completed so as to show, in numerals, the date of the last day of the *period* to which the *FSC return* relates. Boxes marked "OB/IB" must be completed to indicate whether the Form is completed in respect of ordinary assurance business (OB) or industrial assurance (IB). No entry must be made in a box which is shaded or is not labelled.

PRA

Information to be fairly stated

- 5.22 Every Form (including supplementary notes to Forms) required to be prepared under the rules in this chapter must fairly state the information provided in it on the basis required by the rules.

PRA

Valuation of assets and liabilities

- 5.23 Unless the context otherwise requires, the value or amount given for an asset or a liability of the *friendly society* included in any Form (or supplementary note to a Form) must be the value or amount of that asset or liability as

PRA

determined in accordance with the *asset valuation rules* and *liability valuation rules* in Appendices 4 and 5.

Presentation of amounts

5.24

Some Forms permit amounts to be entered in £000 but advantage may be taken of this only if none of the entries in the relevant Form is less than £500. All entries in a Form must be in the same monetary units. Negative amounts must be shown between round brackets.

PRA

Intra-group transactions

5.25

(1) If, during the *financial year* in question, a *friendly society*, has agreed to, or carried out, a *material connected-party transaction*, it must provide a brief description of that transaction by way of supplementary note to Form 20 or Form 40.

PRA

(2) The description to be provided in accordance with (2) must state –

- (a) the names of the transacting parties;
- (b) a description of the relationship between the parties;
- (c) a description of the transaction;
- (d) the amounts involved;
- (e) any other elements of the transaction necessary for an understanding of its effect upon the financial position or performance of the *friendly society*; and
- (f) amounts written off in the period in respect of *debts* due to or from *connected parties*.

(3) Transactions with the same *connected party* may be disclosed on an aggregated basis unless separate disclosure is needed for a proper understanding of the effect of the transactions upon the financial position or performance of the *friendly society*.

6 Chapter 6

[deleted]

7 Chapter 7: Definitions

PART I DEFINITIONS

7.1 In this Part of the *IPRU(FSOC)*, unless the contrary intention appears, the following definitions apply –

FCA PRA

Accounts Regulations means the Friendly Societies (Accounts and Related Provisions) Regulations 1994, S.I. 1994/1983;

accumulating with-profits policy means a *with-profits policy* which has a readily identifiable current benefit, whether or not this benefit is currently realisable, which is adjusted by an amount explicitly related to the amount of any *premium* payment and to which additional benefits are added in respect of participation in profits by additions directly related to the current benefit, or a policy with similar characteristics;

1974 Act means the Friendly Societies Act 1974;

1992 Act means the Friendly Societies Act 1992;

Accounts Directives means Council Directives 78/660/EEC for companies, 91/674/EEC for insurance companies, 86/635/EEC for banks and 83/349/EEC for consolidated accounts;

ancillary risk, in relation to a *friendly society* with permission under the *Act* to insure a principal risk belonging to one *class of general insurance business*, means a risk included in another such *class* which is –

- (a) connected with the principal risk;
- (b) concerned with the object which is covered against the principal risk; and
- (c) the subject of the same contract insuring the principal risk;

annual contribution income means, in relation to a *friendly society's long-term insurance business*, the income of the *friendly society* in a *financial year* without any deduction for reinsurance cessions;

annuities on human life does not include superannuation allowances and annuities payable out of any fund applicable solely to the relief and maintenance of persons engaged or who have been engaged in any particular profession, trade or employment, or of the dependants of such persons;

approved counterparty means any of the following –

- (a) an *approved credit institution*
- (b) a person who is exempt pursuant to section 43 of the Financial Services Act 1986
- (c) a person who is permitted under the *Act* to conduct investment business of a kind which includes entering into *unlisted derivative contracts* as principal; or
- (d) in respect of a transaction involving a new issue of *securities* which are to be *listed*, the *issuer* or an *approved investment firm* acting on behalf of the *issuer*;

approved credit institution means an institution recognised or permitted under the law of an *EEA State* to carry on any of the activities set out in Annex 1 to the *Banking Consolidation Directive*;

approved derivative contract has the meaning given in 13(6) of Appendix 4;

approved investment firm means an investment firm as defined in article 2 of Council Directive 93/22/EEC of 10 May 1993 on investment services in the *securities* field;

approved securities means any of the following –

- (a) any *securities* issued or guaranteed by, or the repayment of the principal of which, or the interest on which is guaranteed by, and any loans to or deposits with, any of the following, namely, any government, public or local authority or nationalised industry or undertaking, which belongs to Zone A as defined in the *Banking Coordination Directive*; and
- (b) any loan to, or deposit with, an *approved financial institution*;

asset valuation rules are the rules in Appendix 4;

associate means –

- (a) the wife or husband or *minor son* or *daughter* of that person;
- (b) the trustees of any settlement under which that person has a life interest in possession, or, in Scotland, a life interest;
- (c) any *company* of which that person is a director; or
- (d) any person who is an employee or partner of that person; and

if that person is a *company* –

- (i) any director of that *company*,
- (ii) any subsidiary undertaking of that company, or
- (iii) any director or employee of any such *subsidiary undertaking*; and

if that person has made an agreement or arrangement with any other person –

- (iv) with respect to the acquisition, holding or disposal of *shares* or other interests in the *company* concerned or another *company* of which it is a *subsidiary undertaking*, or business, identifying monetary amounts and the percentages of premiums.
- (v) under which they undertake to act together in exercising their voting power in relation to the *company* concerned or another *company* of which it is such an undertaking,

that other person;

business amount means –

- (a) for a *friendly society* carrying on only *general insurance business*, the *general insurance business amount*;
- (b) for a *friendly society* carrying on only *long-term insurance business*, the *long-term insurance business amount*; and
- (c) for a *friendly society* carrying on both *general insurance business* and *long-term insurance business*, in the case of its *general insurance business assets*, the *general insurance business amount* and in the case of its *long-term insurance business assets*, the *long-term insurance business amount*;

charges for management means amounts chargeable in respect of the management of an *internal linked fund* in accordance with the rules of the *friendly society* and the conditions of those *contracts of insurance* under which *property linked benefits* are linked to the value of the fund or units of the fund;

claim means a claim against a *friendly society* under a contract of insurance;

claims-made policy means a contract of liability insurance which provides that no liability is incurred by the *friendly society* in respect of an incident unless –

- (a) the incident is notified to the *friendly society* (or its agent or representative), and
- (b) such notification is received by the *friendly society* (or its agent or representative) before the end of a specified *period* which is no longer than three years following the final date for which cover is provided under the contract;

claims management costs refers to those *claims management costs* required by the *Accounts Regulations* (note (4) to the income and expenditure account format) to be included in *claims* incurred other than those which, whether or not incurred through the employment of the *friendly society's* own staff, are directly attributable to particular *claims*;

class, in relation to *insurance business*, means a class of *long-term insurance business* or a class of *general insurance business* listed in Part III of chapter 7;

collective investment scheme has the meaning given in section 235 of the *Act*;

commission payable means the amounts recorded during a *financial year* of a *friendly society* as due to intermediaries and cedants in respect of the inception, amendment or renewal of *contracts of insurance*, whether or not paid during that year;

commitment means a commitment represented by *insurance business* of any of the *classes* of *long-term insurance business* specified in Part III of chapter 7

committee means the committee of management or other directing body of a *friendly society* or *registered branch*;

company includes a body corporate;

connected, in relation to two bodies corporate (A and B), means that:

- (a) B is a *related undertaking* of A;
- (b) B is a *participating undertaking* in A; or

(c) B is a *related undertaking* of a *participating undertaking* in A;

connected individual of a *friendly society* means a person who –

- (a) controls, or is a partner of a person who controls, the *friendly society*; or
- (b) is a member of the *committee* of the *friendly society* or the wife or husband or a *minor son* or *daughter* of such a member,

and for the purposes of the above a person controls a *company* if he is –

- (c) a person in accordance with whose directions or instructions the *committee* is accustomed to act; or
- (d) a person who either alone or with any *associate* or *associates* is entitled to exercise, or control the exercise of, 15 % or more of the voting power at any general meeting of the *friendly society*;

connected-party transaction means the transfer of assets or liabilities or the performance of services by, to or for a *connected* person irrespective of whether or not a price is charged;

contract for differences means a contract which falls within article 85 of the Financial Services and Markets Act (Regulated Activities) Order 2001;

counterparty in relation to a *friendly society* means –

- (a) any one individual;
- (b) any one unincorporated body of persons;
- (c) any one *company* not being a member of a *group*;
- (d) any group of *companies* excluding any *companies* within the *group* which are *subsidiary undertakings* of the *friendly society*; or
- (e) any government of a State together with all the public bodies, local authorities or nationalised industries of that State,

in which the *friendly society* has made investments or against whom it has rights whether in pursuance of a contract entered into by the *friendly society* or otherwise;

court except in relation to the winding-up of an *incorporated friendly society*, means –

- (a) in the case of a body whose registered office is situated in England and Wales or in Northern Ireland, the county *court* for the district in which the office is situated;
- (b) in the case of a body whose registered office is situated in Scotland, the sheriff in whose jurisdiction the office is situated; and, in relation to the winding-up of an *incorporated friendly society*, means the court which has jurisdiction under the applicable winding-up legislation to wind-up the *friendly society*;

daughter includes stepdaughter;

debt includes an obligation to pay a sum of money under a negotiable instrument;

debt security includes bonds, notes, debentures and debenture stock;
debts due or to become due includes any <i>debts</i> which would become due if the <i>friendly society</i> were to exercise any right to which it is entitled to require payment or repayment of the same;
deferred acquisition costs means those items referred to at G II under the heading "Assets" in Part I of Schedule 2 to the <i>Accounts Regulations</i> ;
dependant of a <i>friendly society</i> means – (a) a <i>subsidiary</i> of that <i>friendly society</i> ; or (b) a body jointly controlled by that <i>friendly society</i> and another person, within the meaning of section 13 of the <i>1992 Act</i> , the value of whose <i>shares</i> is taken to be the value of its <i>surplus assets</i> under paragraph 3(1) or (2)(a) of Appendix 4;
deposit back arrangement , in relation to a contract of reinsurance, means an arrangement whereby an amount is deposited by the reinsurer with the cedant;
derivative contract means a <i>contract for differences</i> , a <i>futures contract</i> or an <i>option</i> and includes a contract under which the amount payable by either party is calculated by reference to the amortised value of any property;
direct insurance business has the meaning given in IPRU(INS);
diversified contract for differences means a <i>contract for differences</i> whose value does not depend to a significant extent on fluctuations in the value of, or the income from, assets of any of the descriptions in B19 to B28, B30 or B32 to B38 of Part II of this Annex and <i>undiversified contract for differences</i> must be construed accordingly;

EEA insurer has the meaning given in IPRU(INS);
EEA State in which a risk or commitment is situated in relation to a <i>contract of insurance</i> means – (a) where the person who entered into the contract with the <i>friendly society</i> on any date is an individual, the <i>EEA State</i> where he has his habitual place of residence on that date; and (b) in any other case, the <i>EEA State</i> where the establishment of that person is situated on that date;
equivalent securities means <i>securities</i> issued by the same <i>issuer</i> being of an identical type and having the same nominal value, description and amount;
established surplus has the meaning given in 6(7) of Appendix 5;
excess concentration with a number of counterparties has the meaning given in B17 of Annex B to Appendix 4;
exposure – (a) in relation to assets, means an amount determined in accordance with B4 to B12 of

Annex B to Appendix 4;

- (b) in relation to a *counterparty*, means an amount determined in accordance with B13 to B17 of Annex B to Appendix 4;

financial year means the period of 12 months ending with 31 December and the initial *financial year* of a *friendly society* must be such period as expires at the end of the calendar year in which it is registered under the *1974 Act* or incorporated under the *1992 Act* and the final *financial year* of the *friendly society* must be such shorter period than 12 months as expires on the date as at which the *friendly society* makes up its final accounts;

fixed interest securities means *securities* which under their terms of issue provide for fixed amounts of interest;

FSC return means any of FSC1 return, FSC2 return and FSC3 return;

Futures contract means a contract which falls within article 84 of the Financial Services and Markets Act (Regulated Activities) Order 2001;

general insurance business means *insurance business* of any of the *classes* of general insurance specified in Part III of chapter 7;

general insurance business amount means the higher of –

(a) the total of:

(i) the *friendly society's insurance liabilities* (net of reinsurance ceded) in respect of *general insurance business* less *debts*:-

(A) which are due from *dependants* to which paragraph B11C of Part 1 of Annex B of Appendix 4 relates,

(B) which are not reinsurance which has already been netted off the *friendly society's insurance liabilities*, and

(C) which are included in *general insurance business assets*;

which amount is to be zero where the *debts* are greater than the *friendly society's insurance liabilities*, and

(ii) an amount equal to whichever is the greater of 400,000 Euro or 20% of the *general premium income*; or

(b) such other amount as the *friendly society* may select not exceeding:-

(i) the value of its *general insurance business assets* as determined in accordance with the asset valuation rules;

(ii) excluding *debts* due from *dependants* to which paragraph B11C of Part 1 of Annex B of Appendix 4 relates and *reinsurance recoveries*; and

(iii) less *debts* due to *dependants* of the *friendly society* included in *general insurance business liabilities* (excluding *reinsurance recoveries*, other than amounts due or that relate to claims already paid by the *dependant*) except that for a *dependant* to which paragraph B11C of Part 1 of Annex B of Appendix 4 does not relate, the amount deducted will not exceed the

dependant's surplus assets (or proportional share);

general insurance business assets means assets of a *friendly society* or *insurance company* which are, for the time being, identified as representing the *general insurance business* fund or funds maintained by that body in respect of its *general insurance business*, and

general insurance business liabilities means liabilities of the body which are attributable to its general insurance business;

general premium income means, in any year, the net amount, after deduction of any *premiums* payable for reinsurance, of the *premiums receivable* in that year in respect of all *insurance business* other than *long-term insurance business*;

gross premiums, in relation to a *friendly society* and a financial year –

- (a) means *premiums* after deduction of discounts, refunds and rebates of *premium* but before deduction of *premiums* for reinsurance ceded and before deduction of *commission payable* by the *friendly society*; and
- (b) includes *premiums receivable* by the *friendly society* under reinsurance contracts accepted by the *friendly society*;

gross premiums earned in respect of a *financial year* means such proportion of *gross premiums receivable* as is attributable to risk borne by the *friendly society* during that *financial year*;

group has the meaning given in section 262(1) of the Companies Act 1985 where applicable, otherwise section 474(1) of the Companies Act 2006;

guarantee fund has the meaning given in rule 4.4(1);

hybrid linked contract means a *contract of insurance* the effecting of which constitutes the carrying on of *long-term insurance business* and which contains an option or options such that at some future time the contract may, according to how such option or options are exercised, constitute either a *linked contract* or a *non-linked contract*;

implicit items has the meaning given in rule 4.7(3);

incepted refers to the time when the liability to risk of a *friendly society* under a *contract of insurance* commenced and, for this purpose, a contract providing continuous cover is deemed to commence on each anniversary date of the contract;

initial margin in respect of a *derivative contract* or a contract or *asset* having the effect of a *derivative contract* means assets which, before or at the time the contract is entered into, are transferred by the *friendly society* subject to a condition that such assets (or, where the assets transferred are *securities, equivalent securities*) will be returned to the *friendly society* on completion of that contract;

insurance company means a person or body of persons (whether incorporated or not) carrying on *insurance business* other than a *friendly society*;

insurance Directives means –

- (a) the *first non-life Directive*, the *second non-life Directive* and the *third non-life Directive*, and such other Directives as make provision with respect to the business of direct insurance other than long-term assurance; and
- (b) the *Consolidated Life Directive*, and such other Directives as make provision with respect to the business of direct long-term assurance;

insurance holding company means a parent undertaking whose main business is to acquire and hold *participations in subsidiary undertakings*, where

- (a) those *subsidiary undertakings* are exclusively or mainly *insurance undertakings*;
- (b) at least one of those *subsidiary undertakings* is a *UK insurer* or an *EEA firm* that is a *regulated insurance entity*; and
- (c) it is not a *mixed financial holding company*.

insurance liabilities means amounts calculated in accordance with *liability valuation rules* in respect of those items shown at C and D under the heading "Liabilities" in Part I of Schedule 2 to the *Accounts Regulations*;

intermediary means a person who in the course of any business or profession invites other persons to make offers or proposals or to take other steps with a view to entering into *contracts of insurance* with a *friendly society*, other than a person who only publishes such invitations on behalf of, or to the order of, some other person;

internal linked fund means an account to which a *friendly society* appropriates certain *linked assets* and which may be sub-divided into units the value of which is determined by the *friendly society* by reference to the value of those *linked assets*;

issuer in respect of a *collective investment scheme* means the manager or operator of the scheme and in respect of an interest in a limited partnership means the partnership;

jointly controlled body is to be construed in accordance with section 13 of the *1992 Act*;

liability valuation rules are the rules in Appendix 5;

linked assets means, in relation to a *friendly society*, *long-term insurance business assets* of the *friendly society* which are, for the time being, identified in the records of the *friendly society* as being assets by reference to the value of which *property linked benefits* are to be determined;

linked benefits, in relation to a *linked long-term contract*, means benefits payable to the *policyholder* which are determined by reference to the value of or the income from property of any description (whether or not specified in the contract) or by reference to fluctuations in, or in an index of, the value of property of any description (whether or not so specified);

linked contract means a contract falling within *class III*, and *non-linked contract* must be construed accordingly;

linked long-term contract means a *contract of insurance*, the effecting of which constitutes the carrying on of *long-term insurance business*, and under which *linked benefits* are payable;

listed means, in relation to an investment –

- (a) that the investment is included in an *official list*, or
- (b) that facilities have been granted for dealing in that investment on a *regulated market*, and *unlisted* must be construed accordingly;

long-term insurance business means *insurance business* of any of the *classes* of long-term insurance specified in Part III of chapter 7;

long-term insurance business amount means the higher of –

- (a) the total of:
 - (i) the *friendly society's insurance liabilities* in respect of *long-term insurance business* (net of reinsurance ceded and the amount of any deposit back under a *deposit-back arrangement* in relation to a contract of reinsurance in respect of *long-term insurance business*;
 - (A) excluding *property linked liabilities*; and
 - (B) less:
 - (i) the amount of any *debt*, that is a *long-term insurance business asset* (excluding reinsurance ceded which has already been deducted from the *friendly society's insurance liabilities*), due from a *dependant* to which paragraph B11C of Part 1 of Annex B of Appendix 4 relates, and
 - (ii) the amount of any *implicit item* valued in accordance with a waiver under section 148 of the *Act*;
 - (which amount is to be zero where the result is negative); and
 - (ii) the amount of the *required minimum margin* for its *long-term insurance business* determined in accordance with rules 4.2 and 4.5 and Appendix 1 (or, in the case of a *friendly society* whose head office is not in the United Kingdom, that amount which would apply if its head office were in the United Kingdom); or
- (b) such other amount as the *friendly society* may select not exceeding the value of its assets determined in accordance with the *asset valuation rules*,
 - (i) excluding:
 - (A) reinsurance recoveries;
 - (B) assets required to match property linked liabilities;
 - (C) *debts* due from *dependants* of the *friendly society* to which paragraph B11C of Part 1 of Annex B of Appendix 4 relates; and
 - (D) if the *friendly society* is a *general insurer*, *general insurance business assets*, and
 - (ii) less:
 - (A) if the *friendly society* is a *general insurer*, *debts* due to *dependants of the friendly society* included in *long-term insurance business liabilities*

(excluding reinsurance recoveries (other than amounts due or that relate to claims already paid by the dependant)), or

- (B) if the *friendly society* is not a *general insurer*, debts due to dependants of the *friendly society* (excluding *reinsurance recoveries* (other than amounts due or that relate to claims already paid by the *dependant*)),

but for the purposes of (ii) above, for *dependants* to which paragraph B11C of Part 1 of Annex B of Appendix 4 does not relate, the amount deducted will not exceed the *dependant's surplus assets* (or *proportional share*);

except that for the purposes of determining the *permitted asset exposure limit* under paragraph B3 of Annex B of Appendix 4, *index linked liabilities* must also be excluded from (a)(i) and assets required to match such liabilities must be also excluded from (b);

long-term insurance business assets means assets of a *friendly society* or *insurance company* which are, for the time being, identified as representing the *long-term insurance business* fund or funds maintained by that body in respect of its *long-term insurance business*; and

long-term insurance business liabilities means liabilities of the body which are attributable to its long-term insurance business;

long-term gilt yield means the annualised equivalent of the 15 year medium coupon yield for United Kingdom Government fixed-interest *securities* jointly compiled by the Financial Times, the Institute of Actuaries and the Faculty of Actuaries;

long-term liabilities means liabilities of a *friendly society* arising under or in connection with contracts for *long-term insurance business* including *liabilities* arising from *deposit back arrangements*;

management expenses means all expenses, other than commission, incurred in the administration of a *friendly society* or its business;

margin of solvency has the meaning given in rule 4.1(4);

market value means the market value as determined in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate to societies;

material connected-party transaction means a *connected-party transaction* for which (together with any similar transactions):

- (a) the price actually paid or received for the transfer of assets or liabilities or the performance of services; or
- (b) the price which would have been paid or received had that transaction been negotiated at arm's length between unconnected parties,

exceeds:

- (c) in the case of a *friendly society* that carries on either general insurance business or long-term insurance business, but not both, 5% of the general business amount or long-term business amount, as applicable; or
- (d) in the case of a *friendly society* that carries on both types of business either –

- (i) 5% of the *long-term business amount* where the transaction is in connection with the *friendly society's long-term business*; and
- (ii) in other cases, 5% of the *general business amount*;

mathematical reserves means the provision made by a *friendly society* to cover liabilities (excluding liabilities which have fallen due and liabilities arising from *deposit back arrangements*) arising under or in connection with contracts for *long-term insurance business*;

memorandum has the meaning given by paragraph 4(3) of Schedule 3 to the 1992 Act;

minimum guarantee fund has the meaning given in rule 4.4(2);

minor, in relation to Scotland, means not having attained the age of sixteen;

modifications, in relation to *enactments*, includes additions, omissions and amendments;

non-directive incorporated friendly society means a *non-directive friendly society* which is an *incorporated friendly society*;

non-directive registered friendly society means a *non-directive friendly society* which is a *registered friendly society*;

non-linked contract see *linked long term contract*;

non-profit policy see *with-profits policy*;

notional required minimum margin means:

- (a) in the case of an *insurance undertaking* (other than a *pure reinsurer*) that has its head office in a designated state or territory, the amount of the required minimum margin or general insurance capital requirement, or the equivalent requirement under the regulatory requirements of that state or territory;
- (b) in the case of a *pure reinsurer* that has its head office in a *designated state or territory*, the amount that would be the *required minimum margin or general insurance capital requirement*, or the equivalent requirement under the regulatory requirements of that state or territory, if the regulatory requirements of that state or territory applicable to undertakings carrying on *direct insurance business* were applied to the *pure reinsurer* (whether they are or not); and
- (c) in all other cases, the amount of the *required minimum margin or general insurance capital requirement* that would apply if the *insurance undertaking* were an *insurer* (other than a *pure reinsurer*), with its head office in the *United Kingdom* (whether it is or not)

officer means –

- (a) in relation to a registered friendly society or a registered branch –
 - (i) a trustee;

- (ii) the treasurer, secretary and chief executive (however described);
 - (iii) a member of the *committee*; and
 - (iv) a person appointed by the *friendly society* or branch to sue or be sued on its behalf; or
- (b) in relation to an *incorporated friendly society*, a member of the *committee*, the chief executive (however described) and the secretary;

option means an *option* which falls within article 83 of the Financial Services and Markets Act (Regulated Activities) Order 2001 or a *warrant*;

ordinary long term insurance business means long-term *insurance business* which is not industrial assurance business;

participating undertaking means an *undertaking* which is either a *parent undertaking* or other undertaking which holds a participation in or is linked by a consolidation Article 12(1) relationship with the undertaking in question

participation means:

- (a) the holding of a participating interest within the meaning of section 421(2) of the *Act*, or
- (b) the holding, directly or indirectly, of 20% or more of the voting rights or capital;

partnership pension society means an unincorporated *friendly society*, which satisfies the following conditions –

- (a) the purpose of the society is to effect or carry out unit-linked contracts to pay *annuities on human life*, which are approved by the Commissioners for HM Revenue and Customs under Section 620 of the Income and Corporation Taxes Act 1988;
- (b) the assets of each member of the society are separately identifiable;
- (c) the assets of each member of the society are invested solely or primarily by him or in accordance with his instructions;
- (d) the value of each member of the society's assets is dependent entirely on the performance of those assets;
- (e) no member of the society has a contract which comprises, or includes, a cash guarantee; and
- (f) no member of the society has a contract which is an annuity in payment.

pension fund management contract means a contract to manage the investments of pension funds (other than funds solely for the benefit of the officers or employees of the person effecting or carrying out the contract and their dependants or, in the case of a *company*, partly for the benefit of officers or employees and their dependants of its *subsidiary* or holding company or a *subsidiary* of its holding company);

period means –

- (a) for the purposes of completion of the FSC2 or FSC3 return, the date since the last

<p>return or three years if there was no previous actuarial investigation; and</p> <p>(b) for the purpose of completion of the FSC1 return the <i>financial year</i> to which the return relates;</p>
<p>permanent health contract means a contract falling within <i>class IV</i>;</p>
<p>permitted asset exposure limit for assets of any of the descriptions in Part II of Annex B of Appendix 4 is the percentage of the <i>business amount</i> set out opposite the relevant paragraph; in the case of an asset which is not covered by any of the descriptions in Part II of Annex B of Appendix 4 (other than a <i>derivative contract</i>), the permitted asset exposure limit is nil;</p>
<p>permitted counterparty exposure limit means –</p> <p>(a) where the <i>counterparty</i> is an individual or an unincorporated body of persons, 5% of the <i>business amount</i>;</p> <p>(b) where the <i>counterparty</i> is a <i>counterparty</i> of the type mentioned in (e) in the definition of <i>counterparty</i>, 5% of the <i>business amount</i>;</p> <p>(c) where the counterparty is a body corporate or group, each of</p> <p>(i) 20% of the <i>business amount</i> or £2 million, whichever is the larger,</p> <p>(ii) 10% of the <i>business amount</i> where the <i>exposure</i> arises otherwise than by reason that <i>debts</i> are due, or are to become due, as a result of <i>short term deposits</i> made with an <i>approved credit institution</i>, and</p> <p>(iii) 5% of the <i>business amount</i> where the <i>exposure</i> is other than to bodies which are <i>approved counterparties</i>;</p> <p>(a) satisfies the conditions in 13(6) to 13(8) of Appendix 4 except that the references in 13 of Appendix 4 to "an asset for the valuation of which provision is made in this chapter" is construed as reference to <i>permitted connected property</i>;</p>
<p>premium includes a contribution in respect of an insurance benefit and the consideration for the granting of an annuity;</p>
<p>proper valuation means, in relation to land, a valuation made by a qualified valuer not more than three years before the <i>relevant date</i> which determined the amount which would be realised at the time of the valuation on an open market sale of the land free from any mortgage or charge;</p>
<p>property linked benefits means benefits other than index linked benefits –</p> <p>(a) provided for under a <i>linked long-term contract</i>; and</p> <p>(b) determined by reference to the value of, or income from, property of any description (whether specified in the contract or not);</p>
<p>property linked contract means a linked contract conferring property linked benefits;</p>
<p>property linked liabilities means insurance liabilities in respect of property linked benefits;</p>
<p>proportional share means, in relation to a <i>related undertaking</i>, the percentage which is the percentage holding (directly or indirectly) in the <i>related undertaking's</i> capital;</p>

provision of insurance by a directive friendly society in the United Kingdom or any other EEA State means –

- (a) the covering (otherwise than by way of reinsurance) of a risk situated there through an establishment in another *EEA State* ('the provision of general insurance'); and
- (b) the covering (otherwise than by way of reinsurance) of a *commitment* situated there through an establishment in another *EEA State* ('the provision of long-term insurance');

proxy capital resources requirement means the *solo capital resources requirement* to which an *undertaking* would have been subject if it had a *permission* for each activity it carries on anywhere in the world, so far as that activity is a *regulated activity*.

public file, in relation to a *friendly society*, means the file relating to the *friendly society* which the *FCA* is required to maintain under section 104 of the *1992 Act*;

qualified valuer, in relation to any particular type of land in any particular area, means a person who is a fellow or professional associate of the Royal Institution of Chartered Surveyors or a fellow or associate of the Incorporated Society of Valuers and Auctioneers or a fellow or associate of the Rating and Valuation Association and either –

- (a) has knowledge of and experience in the valuation of that particular type of land in that particular area; or
- (b) has knowledge of and experience in the valuation of land and has taken advice from a valuer who he is satisfied has knowledge of and experience in the valuation of that particular type of land in that particular area;

readily realisable in relation to a *listed* investment means a *listed* investment in respect of which 9(4) of Appendix 4 does not apply or, by virtue of 9(5) of Appendix 4, is to be taken not to apply;

receivable in relation to a *friendly society*, a *period*, a *financial year* and a *premium* means, unless otherwise specified, such amounts as become due to the *friendly society*, whether or not received by the *friendly society* during that *period* or *financial year*, including (where appropriate) income which has accrued, except that in Appendix 2, "receivable" only includes amounts *receivable* in respect of *contracts of insurance* *incepted* in that *period* or *financial year*;

recoverable, in relation to a *friendly society* and a *financial year*, means recorded in the *friendly society's* books as due in that year, whether or not the *friendly society* has received any payment;

reference period, in relation to a *friendly society*, means the three last preceding *financial years*;

registered address, in relation to a member of an *incorporated friendly society*, has the meaning given in paragraph 14(6) of Schedule 3 to the *1992 Act*;

registered branch means a branch of a *registered friendly society* which is separately registered within the meaning of the *1974 Act*;

regulated institution means any of the following –

- (a) an EEA insurer or UK insurer;
- (b) an approved credit institution;
- (c) a *friendly society* which is authorised to carry on *insurance business*; and
- (d) an approved investment firm;

regulated market means a market which is characterised by –

- (a) regular operation;
- (b) the fact that regulations issued or approved by the appropriate authority of the state where the market is situated –
 - (i) define the conditions for the operation of and access to the market,
 - (ii) define the conditions to be satisfied by a financial instrument in order for it to be effectively dealt in on the market, and
 - (iii) require compliance with reporting and transparency requirements comparable to those laid down in articles 20 and 21 of the Council Directive 93/22/EEC of 10 May 1993 on investment Services in the securities field; and
- (c) in the case of a market situated outside the *EEA States*, the fact that the financial instruments dealt in are of a quality comparable to those in a *regulated market* in the United Kingdom;

regulated related undertaking means a *related undertaking* that is any of the following:

- (a) a *regulated entity*;
- (b) an *insurance undertaking* which is not a *regulated insurance entity*;
- (c) an *asset management company*;
- (d) a *financial institution* which is neither a *credit institution* nor an *investment firm*;
- (e) a *financial holding company*; or
- (f) an *insurance holding company*.

reinsurance business means the effecting and carrying out of contracts of reinsurance;

related undertaking means in relation to an *undertaking 'U'*:

- (a) any *subsidiary undertaking* of U;
- (b) any *undertaking* in which U or any of U's *subsidiary undertakings* holds a participation;
- (c) any *undertaking* linked to U by a *consolidation Article 12(1) relationship*; or
- (d) any *undertaking* linked by a *consolidation Article 12(1) relationship* to an *undertaking* in (a), (b) or (c).

relevant capital sum means –

- (a) subject to (b) and (c):
 - (i) for whole life assurances, the sum assured,
 - (ii) for policies where a sum is payable on maturity (including policies where a sum is also payable on earlier death), the sum payable on maturity,
 - (iii) for deferred annuities, the capitalised value of the annuity at the vesting date (or the cash option if it is greater),
 - (iv) for capital redemption contracts, the sums payable at the end of the contract period, and
 - (v) for *linked long-term contracts*, notwithstanding (i) to (iv), the lesser of:
 - (A) the amount for the time being payable on death, and
 - (B) the aggregate of the value for the time being of the units allocated to the contract (or, where entitlement is not denoted by means of units, the value for the time being of any other measure of entitlement under the contract equivalent to units) and the total amount of the *premiums* remaining to be paid during such part of the term of the contract as is appropriate for *zillmerising*, or, if such *premiums* are payable beyond the age of seventy five, until that age,
- excluding in all cases any vested reversionary bonus,
- (b) notwithstanding (a), where, under a contract relating to any such business as is mentioned in (a), the payment of *premiums* is to stop before the sum assured becomes due, the *mathematical reserves* appropriate for that contract at the end of the *premium-paying term*; and
- (c) notwithstanding (a), for temporary assurances, the sum assured on the *valuation date*;

relevant date means, in relation to the valuation of any asset for any purpose for which the *asset valuation rules* apply, the date when the asset falls to be valued for that purpose;

relevant regulatory requirements means:

- (a) in the case of a related undertaking that is an insurance undertaking, established in a designated state or territory, at the option of the friendly society:
 - (i) the regulatory requirements of that state or territory applicable to an undertaking carrying on direct insurance business (even if 31 December 2010 50 it only carries on reinsurance business or is an insurance holding company), or
 - (ii) the requirements referred to in (b);
- (b) in the case of any other *insurance undertaking* or *insurance holding company*, the rules in *IPRU(INS)* applicable to an *insurer* (other than a *pure reinsurer*) with its head office in the United Kingdom (whether or not it is such an *insurer*)

required margin of solvency has the meaning given in rule 4.2

required minimum margin means the greater of the appropriate required margin of solvency and the amount of the appropriate minimum guarantee fund;

securities includes *shares*, *debt securities*, Treasury Bills, Tax Reserve Certificates and Certificates of Tax Deposit;

settlement date means any date on which the fulfilment of an obligation under a *derivative contract* is or may be required;

share has the meaning given in section 1161(2) of the Companies Act 2006;

short term deposit means a sum of money which may be withdrawn at the discretion of the lender without penalty or loss of accrued interest by giving notice of withdrawal of one month or less;

son includes stepson;

subsidiary is construed in accordance with section 13 of the *1992 Act*;

subsidiary undertaking has the meaning given in section 1162 of the Companies Act 2006;

surplus assets has the meaning given in paragraph 3(3) of Appendix 4;

taxes included in premiums has the same meaning as the words "taxes pertaining to the *premiums*" in the third indent of the first sub-paragraph of article 16(3) of the *first non-life Directive*;

valuation date, in relation to an actuarial investigation, means the date to which the investigation relates;

variation margin means –

- (a) in respect of a *derivative contract*, or a contract having the effect of a *derivative contract*, assets (other than assets transferred by way of *initial margin*) which, at the *relevant date*, have been transferred by, to, or for the benefit of, the *friendly society* in pursuance of a condition in that contract or a related contract; and
- (b) in respect of an asset having the effect of a *derivative contract*, assets which, at the *relevant date*, have been transferred by, to, or for the benefit of, the *friendly society* in pursuance of a contractual right conferred, or obligation imposed, by the holding of the asset having the effect of a *derivative contract*;

warrant means an instrument which falls within article 79 of the Financial Services and Markets Act (Regulated Activities) Order 2001 (SI 2001, No 544);

weighted average of the yield has the meaning given in 19(5)(d) of Appendix 9;

with-profits fund for the purposes of Chapter 5 and Appendices 6 to 10 means:

- (a) a *long-term insurance fund* (or that part of such a fund) in which *policyholders* are eligible to participate in any *established surplus*; and
- (b) where it is a *friendly society's* usual practice to restrict *policy-holders'* participation in any *established surplus* to that arising from only a part of the fund (or part fund) falling within (a), that part (or that part of the part fund);

with-profits policy means a contract falling within a *class* of long-term insurance which is eligible to participate in any part of any *established surplus*, and non-profit policy must be construed accordingly;

working day means any day other than Saturday, Sunday, Good Friday, Christmas Day and any day which is a bank holiday in any part of the United Kingdom under section 1 of the Banking and Financial Dealings Act 1971;

zillmerising means the method known by that name for modifying the net *premium* reserve method of valuing a long-term policy by increasing the part of the future *premiums* for which credit is taken so as to allow for initial expenses.

PART II – GENERAL PROVISIONS

7.2 **A word or phrase which is printed in italics is used in the defined sense. If a defined term does not appear in the IPRU (FSOC) glossary listed in part 1 of Chapter 7, the definition appearing in the main Handbook Glossary applies.**

FCA | PRA

7.3 **Unless the context otherwise requires, a word or phrase which is defined in a related enactment bears the same meaning as in that enactment.**

FCA | PRA

7.4 **Unless the context requires, a word which is related to a defined word is construed by reference to the defined word.**

FCA | PRA

7.5 **In IPRU (FSOC), the cross referencing within Forms follows the sequence "Form.Line.Column".**

FCA | PRA

Subsidiary and ancillary provisions

7.6 **For the purposes of IPRU (FSOC):**

FCA | PRA

- (a) **a *contract of insurance* is to be treated as falling within a *class* of *long-term insurance business* notwithstanding the fact that it contains supplementary provisions falling within *class 1* (accident) or *class 2* (sickness) if:**
 - (i) **its principal object is that of a contract falling within a *class* of *long-term insurance business*, and**

(ii) it is effected or carried out by a *friendly society* which has permission to effect or carry out contracts falling within *class I* (life and annuity); and

(b) a *contract of insurance* whose principal risk falls within any of *classes 1, 2 or 16* is to be treated as falling within that *class* and no other, notwithstanding the fact that it also covers *ancillary risks*.

PART III – CLASSES OF LONG-TERM INSURANCE BUSINESS

FCA	PRA
-----	-----

Number	Description	Nature of business
I	Life and annuity	Effecting or carrying out <i>contracts of insurance</i> on human life or contracts to pay <i>annuities on human life</i> , but excluding (in each case) contracts within <i>class III</i> .
II	Marriage and birth	Marriage or the formation of a civil partnership and birth: Effecting or carrying out <i>contracts of insurance</i> to provide a sum on marriage or the formation of a civil partnership or on the birth of a child, being contracts expressed to be in effect for a period of more
III	Linked long term	Effecting or carrying out <i>contracts of insurance</i> on human life or contracts to pay <i>annuities on human life</i> where the benefits are wholly or partly to be determined by reference to the value of, or the income from, property of any description (whether or not specified in the contracts) or by reference to fluctuations in, or in an index of, the value of property of any description (whether or not so specified).
IV	Permanent health	Effecting or carrying out <i>contracts of insurance</i> providing specified benefits against risks of persons becoming incapacitated in consequence of sustaining injury as a result of an accident or of an accident of a specified class or of sickness or infirmity, being contracts that – (a) are expressed to be in effect for a period of not less than five years, or until the normal retirement age for the persons concerned, or without limit of time; and (b) either are not expressed to be terminable by the <i>friendly society</i> , or are expressed to be so terminable only in special circumstances mentioned in the contract.
V	Tontines	Effecting or carrying out tontines.
VI	Capital redemption	Effecting or carrying out capital redemption contracts.
VII	Pension fund management	Effecting or carrying out – (a) <i>pension fund management contracts</i> ; or (b) contracts of the kind mentioned in (a) that are combined with <i>contracts of insurance</i> covering either conservation of capital or

		payment of a minimum interest.
--	--	--------------------------------

CLASSES OF GENERAL INSURANCE BUSINESS

FCA	PRA
-----	-----

Number	Description	Nature of business
1	Accident	<p>Effecting or carrying out <i>contracts of insurance</i> providing fixed pecuniary benefits or benefits in the nature of indemnity (or a combination of both) against risks of the person insured or, in the case of a contract made by virtue of section 140, 140A or 140B of the Local Government Act 1972, a person for whose benefit the contract is made –</p> <p>(a) sustaining injury as the result of an accident or of an accident of a specified class, or</p> <p>(b) dying as the result of an accident or of an accident of a specified class, or</p> <p>(c) becoming incapacitated in consequence of disease or of disease of a specified class,</p> <p>inclusive of contracts relating to industrial injury and occupational disease but exclusive of contracts falling within <i>class 2</i> or within <i>class IV</i>.</p>
2	Sickness	<p>Effecting or carrying out <i>contracts of insurance</i> providing fixed pecuniary benefits or benefits in the nature of indemnity (or a combination of the two) against risks of loss to the persons insured attributable to sickness or infirmity, but exclusive of contracts falling within <i>class IV</i>.</p>
16	Miscellaneous financial loss	<p>Effecting or carrying out <i>contracts of insurance</i> against any of the following risks, namely –</p> <p>(a) risks of loss to the persons insured attributable to them being unemployed;</p> <p>(b) risks of loss to the persons insured attributable to them being in distressed circumstances; or</p> <p>(c) risks of loss to the persons insured attributable to sickness or infirmity,</p> <p>but not including of contracts falling within <i>class 2</i> or <i>class IV</i>.</p>

8 Chapter 8: Transitional provisions

GUIDANCE

FCA	PRA
-----	-----

GEN (the part of the *Handbook* in High Level Standards which has the title General Provisions) contains some technical transitional provisions that apply throughout the *Handbook* and which are designed to ensure a smooth transition at commencement of the *Act*. These include transitional provisions relevant to record keeping and notification rules.

SUP contains transitional provisions which carry forward written concessions relating to pre-commencement provisions.

Table 1

(1)	(2) Material to which the transitional provision applies	(3)	(4) Transitional provision	(5) Transitional provision: Dates in force	(6) Handbook provision: coming into force
2 PRA	<i>Rules in IPRU (FSOC)</i>	G	Further transitional provisions concerning waivers and written concessions are contained in <i>GENPRU</i>	See <i>GENPRU</i>	See <i>GENPRU</i>
3	<i>IPRU (FSOC) Rule 5.1A</i>	R	(1) This paragraph and Table 2 below apply to a <i>directive friendly society</i> . (2) <i>IPRU (FSOC) rule 5.1A</i> is modified so that a <i>directive friendly society</i> must comply with <i>IPRU (INS) rule 9.6(1)</i> varied as set out in Table 2.	From 31 December 2004 to 30 December 2007	31 December 2004
4	<i>IPRU (FSOC) rules 4.21, 4.22, 7.1 (Definitions), Appendix 3 paragraphs 9 and 12</i>	R	For the period given in column (5), for the purposes of the <i>rules</i> specified in column (2), a <i>directive friendly society</i> must apply the definition of <i>permitted derivative contract</i> as it takes effect in relation to a <i>non-directive incorporated friendly society</i> .	31 December 2004 to 30 December 2005	31 December 2004
5	<i>IPRU (FSOC) rules 4.21, 4.22, 7.1 (Definitions), Appendix 3 paragraphs 9</i>	R	(1) This paragraph applies to a contract concluded on or before 30 December 2005 which satisfies the definition of <i>permitted derivative contract</i> as	31 December 2004 until the relevant <i>rule</i> is revoked	31 December 2004

and 12	it takes effect in relation to a <i>non-directive incorporated friendly society</i> .	(2) In relation to a contract to which this paragraph applies, for the purposes of the <i>rules</i> specified in column (2), a <i>directive friendly society</i> may continue to apply the definition of <i>permitted derivative contract</i> as it takes effect in relation to a <i>non-directive incorporated friendly society</i> .

<i>Financial year ending on or after</i>	Deposit period following the <i>financial year end</i>	
	Where the deposit is made electronically	Otherwise
31 December 2004	6 months	6 months
31 December 2005	6 months	6 months
31 December 2006	4 months	3 months and 15 days
31 December 2007	3 months	2 months and 15 days

Appendix 1:

Long-Term Insurance Business Margin of Solvency

Long-term classes I and II

1. PRA
- (1) For *long-term insurance business* of class I or II the *required margin of solvency* must be determined by taking the aggregate of the results arrived at by applying the calculation described in (2) ("the first calculation") and the calculation described in (3), (4) and (5) ("the second calculation").
- (2) For the first calculation –
- (a) a sum equal to 4% of the *mathematical reserves* for direct insurance business and reinsurance acceptances without any deduction for reinsurance cessions must be taken;
 - (b) the amount of the *mathematical reserves* at the end of the last preceding *financial year* after the deduction of reinsurance cessions must be expressed as a percentage of the amount of those *mathematical reserves* before any such deduction; and
 - (c) the sum mentioned in (a) must be multiplied –
 - (i) where the percentage arrived at under (b) is greater than 85% by that greater percentage, and
 - (ii) in any other case, by 85%.
- (3) For the second calculation –
- (a) subject to (4) and (5), a sum equal to 0.3% of the capital at risk for contracts on which the capital at risk is not a negative figure must be taken;
 - (b) the amount of the capital at risk at the end of the last preceding *financial year* for contracts on which the capital at risk is not a negative figure, after the deduction of reinsurance cessions, must be expressed as a percentage of the amount of that capital at risk before any such deduction; and
 - (c) the sum arrived at under (a) must be multiplied –
 - (i) where the percentage arrived at under (b) is greater than 50% by that greater percentage, and
 - (ii) in any other case, by 50%.
- (4) Where a contract provides for benefits payable only on death within a specified period and is valid for a period of not more than three years from the date when the contract was first made, the percentage to be taken for the purposes of (3)(a) must be 0.1%; and where the period of validity from that date is more than three years but not more than five

years, the percentage to be so taken must be 0.15%.

- (5) For the purposes of (4), the period of validity of the contract evidencing a group policy is the period from the date when the *premium rates* under the contract were last reviewed for which the *premium rates* are guaranteed.
- (6) For the purposes of the second calculation, the capital at risk is –
- (a) in any case in which an amount is payable in consequence of death other than a case falling within (b), the amount payable on death; and
- (b) in any case in which the benefit under the contract in question consists of the making, in consequence of death, of the payment of an annuity, payment of a sum by instalments or any other kind of periodic payments, the present value of that benefit,

less in either case the *mathematical reserves* in respect of the relevant contracts.

- (7) When the amount of the *mathematical reserves* referred to in (2)(a), or the amount of the capital at risk referred to in (3)(a), is to be calculated for the purposes of determining the margin of solvency, the day as on which that amount is calculated must be the same as that on which the margin of solvency is determined; and the *mathematical reserves* referred to in (6) must also be calculated as on that day when the capital at risk in question is that referred to in (3)(a), but must be calculated as at the end of the last preceding *financial year* when the capital at risk in question is that referred to in (3)(b).

Long-term classes III and VII

2. (1) For *long-term insurance business* of class III or VII the margin of solvency must be determined in accordance with (2) to (5).
- PRA (2) In so far as a *friendly society* bears an investment risk, the first calculation must be applied.
- (3) In so far as –
- (a) a *friendly society* bears no investment risk; and
- (b) the allocation to cover *management expenses* in the relevant contract has a fixed upper limit which is effective as a limit for a period exceeding five years,
- the first calculation must be applied, but as if 1(2)(a) contained a reference to 1% instead of 4%.
- (4) In so far as –
- (a) a *friendly society* bears no investment risk; and

(b) the allocation to cover *management expenses* in the relevant contract does not have a fixed upper limit which is effective as a limit for a period exceeding five years, the *margin of solvency* is an amount equivalent to 25% of the preceding *financial year's* net administrative expenses pertaining to such business.

(5) Where a *friendly society* covers a death risk, a sum arrived at by applying the second calculation (disregarding 1(4) and (5)) must be added to the *margin of solvency*, including a *margin of solvency* of zero, arrived at under (2), (3) or (4).

Long-term classes IV and VI

3. (1) For *long-term insurance business* of class IV, the *margin of solvency* must be determined by applying the first calculation plus the sum arrived at by applying rule 4.2(1)(b) as though it were *general insurance business* of class 2.

PRA

(2) For *long-term insurance business* of class VI, the *margin of solvency* must be determined by applying the first calculation.

(3) If both (1) and rule 4.2(2)(b) apply, a single combined *margin of solvency* must be calculated under rule 4.2(1)(b) in respect of the class IV business and subsidiary provisions in classes 1 and 2.

Long-term class V

4. For *long-term insurance business* of class V the margin of solvency must be 1% of the assets of the relevant tontine.

PRA

Appendix 2:

General Insurance Business Solvency Margin

PART I: THE PREMIUMS BASIS

1. **The *gross premiums receivable* (or contributions, as the case may be) in respect of the *friendly society's* entire *general insurance business* for the last preceding *financial year* must be aggregated and the method of calculation set out in 2 to 14 applied.**
PRA
- 1A. **The *gross premiums earned* (or contributions, as the case may be) in respect of the *friendly society's* entire *general insurance business* for the last preceding *financial year* must be aggregated and the method of calculation set out in 2 to 14 applied.**
PRA
2. **From each of the aggregates arrived at under 1 and 1A there must be deducted –**
PRA
 - (a) any taxes included in the *premiums*; and
 - (b) any levies that are related to *premiums* and are recorded in the *friendly society's* books as payable in the last preceding *financial year* in respect of *general insurance business*.
3. **The amount arrived at under 2 must be multiplied by twelve and divided by the number of months in the *financial year*.**
PRA
4. **If the amount arrived at under 3 is more than 61.3 million Euro, it must be divided into two portions, the former consisting of 61.3 million Euro and the latter comprising the excess.**
PRA
5. **Where there has been a division into two portions pursuant to 4, there must be calculated and added together 18% and 16% of the two portions respectively; and where there has been no such division, there must be calculated 18% of the amount arrived at under 3.**
PRA
6. **In the case of *general insurance business* consisting of health insurance based on actuarial principles, 5 applies with the substitution of 6% for 18% and 5 and one third % for 16%, but only if all the necessary conditions are satisfied.**
PRA
7. **For the purposes of 6, the necessary conditions are as follows –**
PRA
 - (a) the *gross premiums* paid are calculated on the basis of sickness tables appropriate to *insurance business*;
 - (b) the reserves include provision for increasing age or, in the case of *class IV*, either the reserves include provision for increasing age, or the business is conducted on a group basis;

- (c) an additional *premium* is collected in order to set up a safety margin of an appropriate amount;
- (d) the contract does not allow the *friendly society* to cancel the contract after the end of the third year of the contract; and
- (e) the contract provides for the possibility of increasing *premiums* or reducing payments during its currency.

8. **Where 6 applies to a *friendly society* whose *general insurance business* consists partly of health insurance based on actuarial principles and partly of other business, the procedure provided in 1 to 6 must operate separately for each part of the *general insurance business*, so as to produce a sum under 6 for the health insurance and a sum under 5 for the other business.**

PRA

9. (1) **If the provision for *claims* outstanding at the end of the last preceding *financial year* exceeds the provision for *claims* outstanding at the beginning of the *financial year* two years prior to the last preceding *financial year*, then the amount of the excess must be added to the amount of *claims* paid in the 3 year period.**

PRA

(2) **If the provision for *claims* outstanding at the beginning of the *financial year* two years prior to the *financial year in question* exceeds the provision for *claims* outstanding at the end of the *financial year in question*, then the amount of the excess must be deducted from the amount of *claims* paid in the 3 year period.**

10. (1) **For the purposes of 9, the “amount of *claims* paid”, in relation to a *friendly society* and a *financial year*, is the amount that is recorded in the *friendly society's* books at the end of the *financial year* as paid by it (whether or not payment has been effected in that year) in full or partial settlement of –**

PRA

(a) the *claims* described in (2); and

(b) the expenses described in (3),

less any *recoverable* amounts within the meaning of (4).

(2) **The *claims* mentioned in (1) are *claims* including *claims* relating to business accounted for over a longer period than a *financial year*.**

(3) **The expenses mentioned in (1) are expenses (such as, for example, legal or medical costs) which are incurred by the *friendly society*, whether through the employment of its own staff or otherwise, and are directly attributable to the settlement of individual *claims*, whether or not the individual *claims* in question are those mentioned in (1).**

(4) ***Recoverable* amounts for the purposes of (1) are amounts *recoverable* by the *friendly society* in respect of the *claims* mentioned in (1) or other *claims*, including amounts *recoverable* from third parties and amounts *recoverable* from other *insurance undertakings* but excluding amounts *recoverable* in respect of reinsurance ceded by the *friendly society*.**

11. (1) For the purposes of 9, the “provisions for *claims* outstanding”, in relation to a *friendly society* and a *financial year*, is the amount set aside by the *friendly society* as at the beginning or end of the *financial year* as being an amount likely to be sufficient to meet –
- PRA
- (a) the *claims* described in (2); and
- (b) the expenses described in (3),
- less any recoverable amounts within the meaning of (4).
- (2) The *claims* mentioned in (1) are *claims* in respect of incidents occurring –
- (a) in the case of an amount set aside as at the beginning of the *financial year*, before the beginning of that year; and
- (b) in the case of an amount set aside as at the end of a *financial year*, before the end of that year,
- being *claims* which have not been treated as *claims* paid and including *claims* relating to business accounted for over a longer period than a *financial year*, *claims* the amounts of which have not been determined and *claims* arising out of incidents that have not been notified to the *friendly society*.
- (3) The expenses mentioned in (1) are expenses (such as, for example, legal or medical costs) which are likely to be incurred by the *friendly society*, whether through the employment of its own staff or otherwise and are directly attributable to the settlement of individual *claims*, whether or not the individual *claims* in question are those mentioned in (1).
- (4) *Recoverable* amounts for the purposes of (1) are amounts estimated by the *friendly society* to be *recoverable* by it in respect of the *claims* mentioned in (1), including amounts *recoverable* from third parties and amounts *recoverable* from other *insurance undertakings* but excluding amounts *recoverable* in respect of reinsurance ceded by the *friendly society*.
12. From the amount determined under 9(1) or (2) there must be deducted the total sum *recoverable* in respect of that amount under reinsurance contracts ceded during the relevant period.
- PRA
13. The amount determined under 12 must be expressed as a percentage of the amount determined under 9(1) or (2).
- PRA
14. The sum arrived at under 5 or 6 or the aggregate of the sums arrived at under 5 and 6, as the case may be, must be multiplied –
- PRA
- (a) where the percentage arrived at under 13 is greater than 50% but not greater than 100%, by the percentage so arrived at;

- (b) where the percentage so arrived at is greater than 100%, by 100%; and
- (c) in any other case, by 50%.

PART II: THE CLAIMS BASIS

15. If a *friendly society* has not been in existence long enough to acquire a *reference period*, this Part II does not apply to the *friendly society*, and Part I must be applied.
- PRA
16. (1) If the provision for *claims* outstanding at the end of the *reference period* exceeds the provision for *claims* outstanding at the beginning of the *reference period*, the amount of the excess must be added to the *amount of claims* paid in the *reference period*.
- PRA
- (2) If the provision for *claims* outstanding at the beginning of the *reference period* exceeds the provision for *claims* outstanding at the end of the *reference period*, the amount of the excess must be deducted from the amount of *claims* paid in the *reference period*.
- (3) For the purposes of this paragraph, the expressions "amount of *claims* paid" and provision for *claims* outstanding have, in relation to a *reference period*, the same meaning as they have in 9 in relation to a *financial year*.
17. The aggregate obtained under 16(1) or (2) must be divided by the number of months in the *reference period* and multiplied by twelve.
- PRA
18. If the amount arrived at under 17 is more than 42.9 million Euro, it must be divided into two portions, the former consisting of 42.9 million Euro and the latter comprising the excess.
- PRA
19. Where there has been a division into two portions pursuant to 18, there must be calculated and added together 26% and 23% of the two portions respectively; and where there has been no such division, there must be calculated 26% of the amount arrived at under 17.
- PRA
20. In the case of *general insurance business* consisting of health insurance based on actuarial principles, 19 applies with the substitution of "8 2/3%" for "26%" and "7 2/3%" for "23%", but only if all the necessary conditions are satisfied.
- PRA
21. The necessary conditions for the purposes of 20 are the same as those set out in 7.
- PRA
22. In a case of the kind mentioned in 8, that paragraph applies (with the necessary modifications) so as to produce separate sums under 19 and 20.
- PRA
23. The sum arrived at under 19 or 20 or the aggregate of the sums arrived at under 19 and 20, as the case may be, must be multiplied by the same percentage as is applicable for the purposes of 14.
- PRA

Appendix 3:

[deleted]

Appendix 4:

Asset Valuation Rules

Interpretation

1 (1) [deleted]

PRA (2) For the purposes of this Appendix and Appendix 6, a *debt* owed to (or an obligation to be fulfilled for the benefit of) a *friendly society* must be regarded as being secured only to the extent that it is –

(a) secured by –

(i) a letter of credit established with an *approved credit institution*; or

(ii) a guarantee provided by an *approved credit institution*,

and the sum of the aggregate amount available under all letters of credit established for the benefit of the *friendly society* with the same *counterparty*, the aggregate amount of all guarantees issued for the benefit of the *friendly society* by that *counterparty* and the amount of any *exposure* of the *friendly society* to that *counterparty* does not exceed the *permitted counterparty exposure limit* for that *counterparty*; or

(b) secured by assets for the valuation of which provision is made in this Appendix and –

(i) the value of such assets (after deducting reasonable expenses of sale and the amount of any other *debt* or obligation secured thereon having priority to or ranking equally with the *debt* or obligation) is sufficient to enable the *debt* or obligation to be discharged in full;

(ii) the value of the assets when aggregated with the *friendly society's exposure* to assets of the same description does not exceed the *permitted asset exposure limit* for assets of that description (as set out in Part II of Annex B); and

(iii) where the assets give rise to *exposure* to a *counterparty*, the *exposure* of the *friendly society* to that *counterparty*, when added to the sum of the aggregate amount available under all letters of credit established for the benefit of the *friendly society* with that *counterparty*, and the aggregate amount of all guarantees issued for the benefit of the *friendly society* by that *counterparty*, does not exceed the *permitted counterparty exposure limit* for that *counterparty*.

(3) For the purposes of (2) –

- (a) the aggregate amount available under letters of credit established with a *counterparty* must be taken not to exceed the sum of the aggregate amount of all *debts* and the aggregate value of all obligations in respect of which those letters of credit were established;
- (b) the aggregate amount of guarantees issued by a *counterparty* must be taken not to exceed the sum of the aggregate amount of all *debts* and the aggregate value of all obligations so guaranteed; and
- (c) assets which are securing any other *debt* owed to (or obligation to be fulfilled for the benefit of) the *friendly society* must be treated as if they were assets of the *friendly society*.

Application

2

PRA

- (1) Subject to rule 4.12(1), this Appendix (the ‘asset valuation rules’) applies with respect to the determination of the value of assets of a *friendly society* for the purposes of chapters 4 and 5.
- (2) Where a *friendly society* has entered into any contracts for the payment of *property linked benefits*, 3 to 15 do not apply with respect to the determination of the value of the *linked assets* to the extent that they are held in compliance with the requirements of rule 4.12(2) and (3) to match liabilities in respect of such benefits under such contracts and the value of such assets must be determined in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate for *insurance business*.
- (3) Any asset to which 2 to 15 apply (other than cash) for the valuation of which no provision is made in those paragraphs must be left out of account for the purposes specified in (1).
- (4) Where in all the circumstances of the case it appears that any asset is of a lesser value than the amount calculated in accordance with the *asset valuation rules*, such lesser value must be the value of the asset.
- (5) For the purposes of (4), in determining whether it appears that an asset is of a lesser value than the amount calculated in accordance with the *asset valuation rules*, regard must be had to the underlying security and in, the case of bonds, *debt securities* and other money and capital market instruments, the credit rating of the *issuer*, including whether the *issuer* belongs to Zone A as defined in the Council Directive 89/647/EEC of 18 December 1989 on a solvency ratio for credit institutions and, where the *issuer* is an international organisation, whether it includes at least one *EEA State* among its members.
- (6) Notwithstanding (1) (but subject to the conditions set out in (7) and subject to (10)) and in relation to an actuarial investigation of its *long-term insurance business* only, a *friendly society* may elect to assign to any of its assets the value given to the asset in question in the books or other records of the *friendly society*.

- (7) The conditions referred to in (6) are –
- (a) that the election must not enable the *friendly society* to bring into account any asset for the valuation of which no provision is made in this Appendix;
 - (b) that the value assigned to the aggregate of the assets must not be higher than the aggregate of the value of those assets as determined in accordance with the *asset valuation rules*.
- (8) Where a *friendly society* has entered into a contract for the conversion of currency which satisfies the conditions set out in (9), then for any of the purposes for which the *asset valuation rules* apply, the *friendly society* must treat the conversion as having been made on the *relevant date*.
- (9) The conditions referred to in (8) are that –
- (a) either –
 - (i) the contract provides for the conversion into another currency of an amount representing the sale of an asset which has, on the *relevant date*, been sold but not delivered, or
 - (ii) the contract provides for the purchase of currency for the purpose of settling the purchase of an asset which has, on the *relevant date*, been purchased but not delivered;
 - (b) the conversion is to take place during a period which is –
 - (i) where the contract is in connection with the delivery of a *listed security* or a *security admitted to trading*, a period commencing on the date of the contract and extending for the usual period of settlement as laid down by the rules of the relevant stock exchange or *regulated market*; or
 - (ii) where the contract is in connection with the delivery of any other asset, a period commencing on the date of the contract and extending for *twenty working days* thereafter; and
 - (c) the contract is *listed* or has been entered into with an *approved counterparty*.
- (10) a *friendly society* must derecognise any *defined benefit asset*.

Shares in a related undertaking

3

PRA

- (1) Where any *shares* are held by a *friendly society* in a *related undertaking*, which is a *regulated related undertaking* the value of the *shares* may be taken as, and in any event must not exceed, the value (or, where the shareholding, whether held directly or indirectly, is less

than 100%, the relevant *proportional share* of the value), determined in accordance with this Appendix (other than paragraph 15(1)(a) to (c)), of the *surplus assets* of the *regulated related undertaking*.

- (2) Where any *shares* are held by a *friendly society* in a *related undertaking* which is not a *regulated related undertaking*, the value of the *shares* must not exceed the greater of:
- (a) the value (or, where the shareholding, whether held directly or indirectly, is less than 100%, the relevant *proportional share* of the 31 December 2010 value), determined in accordance with this Appendix (other than 15(1)(a) to (c)), of the *related undertaking's surplus assets*; and
 - (b) the value of those *shares* as determined under paragraph 9 reduced:
 - (i) by an appropriate amount, to the extent that the *shares* cannot effectively be made available or realised to meet losses (if any) arising in the *friendly society*,
 - (ii) by an appropriate amount, to the extent needed to exclude value attributable to goodwill generated from business with the *friendly society* or any *related undertaking* of the *friendly society* that is a *regulated related undertaking*, and
 - (iii) by the amount by which the value of any *shares* held by the *related undertaking* in a *related undertaking* of the *friendly society* which is a *regulated related undertaking* exceeds the value (or *proportional share*), determined in accordance with this Appendix (other than 15(1)(a) to (c)), of the *surplus assets* of the *related undertaking*.
- (3) The surplus assets of a *related undertaking* are its total assets excluding:
- (a) the assets that are selected to cover liabilities and, in the case of a *related undertaking* which is a *regulated related undertaking*, to cover its regulatory requirement;
 - (b) the regulatory requirement of a *regulated related undertaking* is:
 - (i) in respect of an *insurance undertaking*, the *notional required minimum margin*;
 - (ii) in respect of a *regulated entity* with its head office in the *EEA* (excluding an *insurance undertaking*), the *solo capital resources requirement* calculated in accordance with the *sectoral rules* for the *financial sector* applicable to it;
 - (iii) in respect of a *regulated entity* not within (ii) (excluding an *insurance undertaking*), its *proxy capital resources*

requirement;

- (iv) in respect of *asset management company*, the *solo capital resources requirement* that would apply to it if, in connection with its activities, it were treated as an *investment firm* for the purposes of calculating the *solo capital resources requirement*;
 - (v) in respect of a *financial institution* (including a *financial holding company*) which is not a *regulated entity*, the *solo capital resources requirement* that would apply to it if, in connection with its activities, it were treated as being within the *banking sector*; and
 - (vi) in respect of an insurance holding company, zero.
- (c) assets that are interests directly or indirectly held in the *related undertaking's* own capital (as defined in the *relevant regulatory requirements* for that undertaking);
 - (d) where the *related undertaking* carries on *long-term insurance business*, profit reserves and future profits;
 - (e) assets which represent either a *long-term insurance fund* or a fund the allocation of which as between *policy holders* and other purposes has yet to be determined;
 - (f) amounts due, or to become due, in respect of *share capital*, or other contributions from members of the *related undertaking*, subscribed or called for but not fully paid up; and
 - (g) assets that cannot effectively be made available or realised to meet losses (if any) arising in the *friendly society*, including assets that represent capital not owned, directly or indirectly, by the *friendly society*.
- (4) The assets selected in (3)(a) to be excluded from the total assets:
- (a) where the *related undertaking* is an *insurance undertaking*, must be identified and valued in accordance with *relevant regulatory requirements* as to the value, admissibility, nature, location or matching that apply to the assets available to cover its liabilities (determined under the *relevant regulatory requirements*) and the *notional required minimum margin*;
 - (b) where the *group undertaking* is a *regulated related undertaking* (excluding an *insurance undertaking*), must be identified and valued in accordance with the relevant *sectoral rules* applicable to the *regulated related undertaking* as to cover its liabilities and the applicable regulatory requirement identified in paragraph 3(3)(b);
 - (c) where the *group undertaking* is not a *regulated related undertaking*, must be of a value at least equal to the amount of

its liabilities, determining that value and that amount in accordance with this Appendix (other than 15(1)(a) to (c)) and Appendix 5; and

- (d) in all cases, must not include:
- (i) assets falling within (3)(c), or
 - (ii) assets falling within (3)(f) where the amount is due, or to become due, from a *related undertaking*; but
- (e) notwithstanding (a), (b) and (c), a liability of a *related undertaking* which is a *debt* due to the *friendly society* is not required to be determined at an amount which is higher than the value placed on that *debt* as an asset of the *friendly society*.
- (5) For the purposes of (4), the *relevant regulatory requirements* must be treated as if paragraphs 15(1)(a) to (c) (or their equivalent in a *designated State or 31 December 2010 73 territory*) do not apply for the purpose of valuing *shares* in *related undertakings* that are not *dependants*.
- (6) For the purposes of this Appendix, any value attributed to any *shares* held directly or indirectly in a *related undertaking* which is an *ancillary insurance service undertaking*, an *ancillary investment services undertaking* or an *ancillary banking services undertaking*, calculated in accordance with paragraph 3, must be deducted from the assets of the *friendly society*.

Value of non capital interests in a group undertaking

4A

(1) A *friendly society* must notify the PRA of:

PRA

- (a) any *related undertaking* which:
- (i) no *participation* is held in by another *related undertaking*; and
 - (ii) is not a *subsidiary undertaking*; but
 - (iii) is linked by a *consolidation Article 12(1) relationship* with another *related undertaking*; and
- (b) the value of that *undertaking* calculated on the basis of paragraph 3.
- (2) For the purposes of this Appendix, the *related undertaking* referred to in (1)(a)(iii)'s proportional share of the value of the *related undertaking* in (1)(a) is determined in accordance with Article 28(5) of the *Financial Groups Directive*.

Debts due or to become due from a related undertaking

4

The value of any *debt* due, or to become due, from a *related undertaking* must not exceed the amount reasonably expected to be recovered in respect of the

PRA

debt taking into account only the value of:

- (a) the assets identified in 3(3)(a) and, in the case of a *related undertaking* which is an *insurance undertaking*, to cover the *required minimum margin* that would apply if the undertaking were a *directive friendly society* (other than a *flat rate benefits business friendly society*) to which *IPRU(FSOC)* applies (whether it is or not); and
- (b) any security held in respect of the *debt*.

Assets sold to or purchased from an approved credit institution or an approved investment firm subject to an agreement for resale or repurchase

5

PRA

(1) Where a *friendly society* has sold *securities* to or purchased *securities* from an *approved credit institution* or an *approved investment firm* and such sale or purchase was made subject to an agreement that the *approved credit institution* or *approved investment firm* would, either on demand by the *friendly society* or within six months of such sale or purchase, subsequently sell to or purchase from the *friendly society* *equivalent securities*, then if at the *relevant date* such subsequent sale or purchase has not taken place and the conditions specified in (2) and either (3) or (4) (as appropriate) are satisfied, the *friendly society* –

(a) must value –

(i) *securities* sold by it under such agreement as if such *securities* had been retained by it, and

(ii) assets provided by it as consideration for the purchase of *securities* under such agreement as if such consideration had not been provided by it; and

(b) must not ascribe a value to –

(i) any consideration received for the sale of *securities* under such agreement (or any assets purchased by it with such consideration) up to the limit of the value of the *securities* sold, or

(ii) any *securities* purchased by it under such agreement (or any assets purchased with the proceeds of the sale of any such *securities*) up to the limit of the consideration (valued in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate to *friendly societies*) provided by it.

(2) The condition specified in this paragraph is that, where at any time after the sale or purchase of *securities* by the *friendly society* under an agreement described in (1) either –

(a) the amount of the consideration received by the *friendly society* for the sale of the *securities* fell below the value of the *securities*

sold by it; or

- (b) the value of the *securities* purchased by the *friendly society* fell below the value of the consideration provided by it,

by more than 2.5% of the value of the *securities* sold or purchased (as the case may be), the *friendly society* demanded additional consideration whose amount was equal to the shortfall and such demand was complied with before the end of the *working day* next following the day on which such shortfall occurred.

- (3) The conditions specified in this paragraph are that, if the *friendly society* purchases *securities* from an *approved credit institution* or an *approved investment firm* and the consideration provided by the *friendly society* is other than by way of sale of *securities* –

- (a) the *securities* purchased are –

- (i) *approved securities*,
- (ii) *listed securities*, or
- (iii) *securities* issued by an *approved credit institution*; and

- (b) the *securities* purchased do not include –

- (i) *securities* (other than *approved securities*) issued by the same *counterparty* whose aggregate value amounts to more than 15% of the value of the *securities* purchased, or
- (ii) if the condition in (b)(i) is not satisfied, *securities* whose value when aggregated with the *friendly society's* existing *exposure* to assets of the same description or to the same *counterparty* would exceed the appropriate *permitted asset exposure limit* or *permitted counterparty exposure limit* as determined in accordance with 15 and Annex B.

- (4) The conditions specified in this paragraph are that, if the *friendly society* sells *securities* to an *approved credit institution* or an *approved investment firm* –

- (a) the consideration provided by the approved credit institution or approved investment firm is –

- (i) cash,
- (ii) *approved securities*,
- (iii) *listed securities*,
- (iv) *securities* issued by an *approved credit institution*,

- (v) a charge over assets set out in (i) to (iv),
 - (vi) a letter of credit established with an *approved credit institution*, or
 - (vii) a guarantee provided by an *approved credit institution*; and
- (b) the consideration does not include –
- (i) except to the extent that the condition in (b)(ii) is satisfied, consideration whose amount when aggregated with the *friendly society's* existing *exposure* to assets of the appropriate description or to the relevant *counterparty* would exceed the appropriate *permitted asset exposure limit* or *permitted counterparty exposure limit* as determined in accordance with 15 and Annex B, or
 - (ii) consideration of more than 15% of the aggregate amount of which takes the form of *securities* (other than *approved securities*) issued by, letters of credit established with, guarantees provided by, cash deposited with, a charge over cash deposited with or a charge over *securities* issued by, the same *counterparty*; and
- (c) the consideration to be provided by the *friendly society* for the subsequent purchase of *equivalent securities* is-
- (i) where the consideration for the original purchase by the *approved credit institution* or *approved investment firm* was (wholly or in part) cash, cash denominated in the same currency, and
 - (ii) where the consideration was (wholly or in part) *securities*, *securities* equivalent to the *securities* provided by way of consideration.
- (5) For the purposes of this paragraph, where the *friendly society* has received consideration in respect of a sale of the kind described in (1), in addition to any other *exposure* to assets or to a *counterparty* –
- (a) if such consideration takes the form of a letter of credit established with, or a guarantee provided by, an *approved credit institution*, it must be considered to give rise to *exposure* to that institution by the amount of the consideration;
 - (b) if such consideration takes the form of a charge over *securities*, it must be considered to give rise to *exposure* to *securities* of the same description and to the *issuer* of those *securities* by the amount of the consideration; and
 - (c) if such consideration takes the form of cash deposited with another party for the benefit of the *friendly society*, or a charge

over cash deposited with another party, it must be considered to give rise to *exposure* to that party by the amount of the consideration.

- (6) For the purposes of this paragraph, the amount of any consideration must be –
- (a) where the consideration is a letter of credit established with an *approved credit institution*, the lower of the amount made available under the letter of credit and the value of the assets sold;
 - (b) where the consideration is a guarantee provided by an *approved credit institution*, the lower of the amount of the guarantee and the value of the assets sold;
 - (c) where the consideration takes the form of assets of any of the types mentioned in (4)(a)(i) to (iv), or a charge over such assets, the value of the assets as determined in accordance with the *asset valuation rules*; and
 - (d) where the consideration takes the form of a Talisman short term certificate, the value of the *securities* represented by that certificate.
- (7) Where a *friendly society* has entered into a number of agreements described in (1), for the purposes of (3) and (4) of this paragraph –
- (a) any or all agreements under which the subsequent sale or purchase has not taken place at the *relevant date* may be treated as one agreement; and
 - (b) in such case, the 15% limits referred to in (3)(b)(i) and (4)(b)(ii) must be calculated by reference to the aggregate of the value of the *securities* purchased under (3) and the amount of any consideration under (4).

Debts and other rights

6

PRA

- (1) The value of any *debt* due, or to become due, to a *friendly society*, other than a *debt* to which 4, 11 or 13 applies or to which (2), (3), (4) or (6) of this rule applies, must be –
- (a) in the case of a *debt* which is due, or will become due, within twelve months of the *relevant date* (including any *debt* which would become due within that period if the *friendly society* were to exercise any right to which it is entitled to require payment of the same), the amount which can reasonably be expected to be recovered in respect of that *debt*; and
 - (b) in the case of any other *debt*, the amount which would reasonably be paid by way of consideration for an immediate assignment of the *debt*,

in either case due account being taken of the terms and conditions for payment of the *debt* and, where the *debt* is secured, the nature and quality of the security.

- (2) Any *debt* due, or to become due, to a *friendly society* under a letter of credit must be left out of account for the purposes for which the *asset valuation rules* apply.
- (3) In the case of *long-term insurance business* carried on by a *friendly society*, the value of any *debt* due, or to become due, to the *friendly society* which is secured on a policy of insurance issued by the *friendly society* and which (together with any other *debt* secured on that policy) does not exceed the amount payable on a surrender of that policy at the *relevant date* must be the amount of that *debt*.
- (4) Subject to (5), the value of any rights of the *friendly society* under a contract of reinsurance to which it is a party must be the amount which can reasonably be expected to be recovered in respect of those rights.
- (5) (4) does not apply to –
 - (a) rights under a contract of reinsurance in respect of *long-term insurance business* except to the extent that *debts* are due under such contracts; or
 - (b) *debts* to which 4 applies which are due or are to become due.
- (6) Any *debt* due, or to become due, to a *friendly society* –
 - (a) from an *intermediary* in respect of money advanced on account of commission to which that *intermediary* is not absolutely entitled at the *relevant date*; or
 - (b) which is a *debt* owed in respect of *premiums* (due account being taken of rebates, refunds and commissions payable) which is recorded in the *friendly society's* accounting records as due and payable and has been outstanding for more than three months,

must be left out of account for the purposes of the *asset valuation rules*.
- (7) The value of any right to recover assets transferred by way of *initial margin* in respect of a *derivative contract* or a contract or asset having the effect of a *derivative contract* must be determined –
 - (a) where the *initial margin* was a payment in cash, as if there were a *debt* owed to the *friendly society* for that amount; and
 - (b) where the *initial margin* took the form of a transfer of *securities*, as if there were a *debt* owed to the *friendly society* of an amount equal to the value of such *securities* as determined in accordance with the *asset valuation rules*.

- (8) The value of any rights arising under a *derivative contract* to which 13 does not apply, or under a contract or asset having the effect of such a contract, must be the value of any right to recover assets transferred by way of *initial margin* together with the value of any other unconditional right to receive a specified amount.
- (9) This rule must not apply to any rights (other than *debts due*) in respect of –
- (a) investments in *related undertakings*;
 - (b) *securities* or beneficial interests in a limited partnership;
 - (c) units or other beneficial interests in a *collective investment scheme*;
 - (d) a *derivative contract*, except as provided under (7) or (8); or
 - (e) a contract or asset which has the effect of a *derivative contract* except as provided under (7) or (8) or under 14(4) or (5).

Land

- 7
- PRA
- (1) The value of any land of a *friendly society* (other than land held by the *friendly society* as security for a *debt* or to which (2) or 12 applies) must be not greater than the amount which (after deduction of the reasonable expenses of sale) would be realised if the land were sold at a price equal to the most recent *proper valuation* of that land which has been provided to the *friendly society* and any such land of which there is no *proper valuation* must be left out of account for the purposes for which the *asset valuation rules* apply.
- (2) The value of any interest in land which is determinable upon the death of any person or upon the happening of some other future event or at some future time must be the amount which would reasonably be paid by way of consideration for an immediate transfer thereof.

Equipment

- 8
- PRA
- (1) The value of any computer equipment of a *friendly society* –
- (a) in the *financial year* of the *friendly society* in which it is purchased, must not be greater than three-quarters of the cost thereof to the *friendly society*;
 - (b) in the first *financial year* thereafter, must not be greater than one-half of that cost;
 - (c) in the second *financial year* thereafter, must be not greater than one-quarter of that cost; and
 - (d) in any subsequent *financial year*, must be left out of account for the purposes for which the *asset valuation rules* apply.

- (2) The value of any office machinery (other than computer equipment), furniture, motor vehicles and other equipment of a *friendly society*, must be, in the *financial year* of the *friendly society* in which it is purchased, not greater than one-half of the cost thereof and must be, in any subsequent *financial year*, left out of account for the purposes for which the *asset valuation rules* apply.

Securities and beneficial interests in limited partnerships

9

PRA

- (1) Subject to (2), this paragraph applies to the valuation of investments comprising *securities* and beneficial interests in limited partnerships and, for the purposes of (6), investments includes loans.
- (2) This paragraph does not apply to the valuation of *securities* which are –
- (a) *derivative contracts*;
 - (b) [deleted]
 - (c) units or other beneficial interests in *collective investment schemes*, except as provided in 10(2); or
 - (d) contracts or assets having the effect of *derivative contracts*, except as provided in 14(4).
- (3) Subject to (6), the value of an investment to which this rule applies must be –
- (a) where the investment is transferable and (4) does not apply, the *market value*;
 - (b) where the investment is transferable and (4) applies, the lower of –
 - (i) the *market value*, and
 - (ii) the amount which would reasonably be expected to be received by way of consideration for an assignment or transfer of the investment at a date not later than twelve months after the relevant date, it being assumed that negotiations for the assignment or transfer commenced on the *relevant date* and the assignment or transfer was made other than to the *issuer* or to an *associate* or an *associate company* of the issuer or of the *friendly society*; or
 - (c) where the investment is not transferable –
 - (i) the amount payable on redemption on the *relevant date* or the most recent date before the *relevant date* on which the *issuer* of 31 December 2010 80 the investment could have been required to redeem the investment, or

- (ii) where the investment cannot be redeemed, the amount which would reasonably be paid by way of compensation for the surrender of the interest in the investment.
- (4) Subject to (5), this paragraph applies where it is not reasonable to assume that, had negotiations for the assignment or transfer of the investment commenced not more than seven *working days* before the *relevant date*, the investment could have been assigned or transferred on the *relevant date* for an amount not less than 97.5% of the *market value* other than to the *issuer* or to an *associate* or an *associate company* of the *issuer* or of the *friendly society*.
- (5) (4) must be taken not to apply if it applies by reason only that –
- (a) the *listing* or *admission to trading* of the investment has been temporarily suspended following receipt of price sensitive information by the stock exchange on which the investment is *listed*, or *admitted to trading* or the *regulated market* on which facilities for dealing have been granted; or
 - (b) the extent of the holding would prevent an orderly disposal of the investment for an amount equal to or greater than 97.5% of the *market value*.
- (6) Where a *friendly society* has made more than one *unlisted* investment (other than a number of investments exclusively comprising loans) and the value of such investments when taken together is greater than the aggregate of the values of each investment valued separately, then such higher value may be ascribed to the investments if it is reasonable to assume that none of the investments would be assigned or transferred separately.

Beneficial interests in collective investments schemes

10

PRA

- (1) Subject to (3), this rule applies to holdings of units, or other beneficial interests in –
- (a) a scheme falling within the *UCITS Directive*;
 - (b) an authorised unit trust scheme or a recognised scheme within the meaning of the *Act* (not falling within (a)); or
 - (c) any other collective investment scheme where –
 - (i) the scheme does not employ *derivative contracts* unless they are contracts to which 13 applies,
 - (ii) the scheme does not employ contracts or assets having the effect of *derivative contracts* unless they have the effect of *derivative contracts* to which 13 applies, and
 - (iii) the property of the scheme does not include assets other than those for the valuation of which provision is made in

the *asset valuation rules*.

- (2) The value of units or other beneficial interests in a *collective investment scheme* to which this rule applies must be –
- (a) where the *issuer* can be required to purchase the units or other beneficial interests from the holder upon the holder giving notice of one month or less, the price at which the *issuer* would have purchased the units or other beneficial interests on the *relevant date* or the most recent date before the *relevant date* on which it could have been required to make such a purchase; or
 - (b) where the *issuer* cannot be required to purchase the units or other beneficial interests as set out in (a), a value determined in accordance with 9.
- (3) Other than as provided in 14(4), this rule must not apply to units or other beneficial interests in a *collective investment scheme* which has the effect of a *derivative contract*.

Deferred acquisition costs

11

PRA

In the case of *general insurance business*, the value of *deferred acquisition costs* must be the value as determined in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate to *friendly societies*.

Reversionary interests etc.

12

PRA

The value of any *long-term insurance business asset* of a *friendly society* consisting of an interest in property which is a remainder, reversionary interest, right of fee subject to a life rent or other future interest, whether vested or contingent must be the amount which would reasonably be paid by way of consideration for an immediate transfer or assignment of it.

Derivative contracts

13

PRA

- (1) The value of rights (other than rights to recover assets transferred by way of *initial margin*) under a *derivative contract* to which this rule applies must be –
- (a) in the case of a *listed derivative contract*, the *market value*; and
 - (b) in the case of an *unlisted derivative contract*, the amount which would reasonably be paid by way of consideration for closing out that contract,
- in either case taking into account the *market value* of any assets which, at the *relevant date*, have been transferred by way of *variation margin*.
- (2) This rule applies to an *approved derivative contract* which is covered and –

- (a) which is held in connection with a contract or asset of the type described in (3) for the purposes of reduction of investment risks or efficient portfolio management; or
 - (b) which has effect as if so held for such purposes.
- (3) The contract or asset described in this paragraph must be either –
- (a) an *approved derivative contract* or a contract or asset having the effect of an *approved derivative contract* which, when taken together with the *approved derivative contract* the rights under which are being valued in accordance with this rule, would have the effect that the *friendly society* either holds an asset for the valuation of which provision is made in this chapter or holds an *approved derivative contract* in connection with such an asset; or
 - (b) an asset for the valuation of which provision is made in this chapter, being neither a *derivative contract* nor a contract or asset having the effect of a *derivative contract*.
- (4) For the purposes of this rule an *approved derivative contract* is covered if it does not require a significant provision to be made in respect of it pursuant to 3 of Appendix 5.
- (5) For the purposes of determining in accordance with (4) whether a required provision is significant, regard must be had to the obligations of the *friendly society* under the contract and the volatility of the assets identified by the *friendly society* as being suitable to cover such obligations, and the required provision in respect of any one *derivative contract* must be deemed to be significant if –
- (a) the aggregate provision required in respect of all contracts having a similar effect is significant; or
 - (b) the aggregate provision required in respect of all contracts with which it is connected is significant.
- (6) In this rule, an ‘approved derivative contract’ is a *derivative contract* entered into by a *directive friendly society* which –
- (a) either is *listed* or has been entered into with an *approved counterparty*;
 - (b) the *friendly society* reasonably believes may be readily closed out; and
 - (c) is either a *contract for differences* to which (7) applies or a *futures contract* or an *option* to either of which (8) applies.
- (7) This paragraph applies to

- (a) **a *contract for differences* under which the amount payable by either party is calculated solely by reference to fluctuations in any of the following –**
 - (i) **the value of an asset for the valuation of which provision is made in this chapter,**
 - (ii) **the amount of income from such an asset over a defined period,**
 - (iii) **an index of such assets, being an index in respect of which a *derivative contract* is *listed*, or**
 - (iv) **a national index of retail prices published by or under the authority of a government of a State belonging to Zone A as defined in Council Directive 89/647/EEC of 18 December 1989 on a solvency ratio for credit institutions, or an arithmetic average thereof; and**
 - (b) **a contract under which the amount payable by either party is calculated by reference to the difference between the *market value* and the amortised value of any asset for the valuation of which provision is made in this Appendix.**
- (8) **This paragraph applies to a *futures contract* or an *option* which in either case provides for the acquisition or disposal of assets for the valuation of all of which provision is made in this Appendix at a price which is determined by one or more of the following methods –**
- (a) **for each date on which the contract may be completed or the *option* exercised, the price is a fixed amount under the terms of the contract or *option*;**
 - (b) **it is determined by reference to the *market value* or the amortised value of an asset for the valuation of which provision is made in this chapter or the amount of income over a defined period from such an asset;**
 - (c) **it is determined by reference to an index of the kind mentioned in (7)(a)(iii) or (iv).**

Contracts and assets having the effect of derivatives

14

PRA

- (1) **Subject to (3), for the purposes of this Appendix, a contract has the effect of a *derivative contract* if it is a contract (other than a *derivative contract*) which provides whether upon the exercise of a right by the *friendly society* or otherwise –**
 - (a) **for payment (at any time) of amounts which are determined by fluctuations in –**
 - (i) **the value of property of any description,**

- (ii) an index of the value of property of any description,
 - (iii) income from property of any description, or
 - (iv) an index of income from property of any description;
 - (b) for delivery of an asset (other than an asset for the valuation of which provision is made in 8) to or by the *friendly society*; or
 - (c) for the conversion of an asset held by the *friendly society* or another party to –
 - (i) an asset of a different type, or
 - (ii) a different asset of the same type.
- (2) Subject to (3), for the purposes of this Appendix an asset has the effect of a *derivative contract* if the asset is an asset (other than an *approved security* or an asset falling within 10(1)(a)) and the holding of the asset confers contractual rights or imposes contractual obligations to make or accept payment, delivery or conversion as set out in (1)(a) to (c).
- (3) A contract or asset does not have the effect of a *derivative contract* by reason only that –
- (a) it provides for the unconditional delivery of assets, or for the payment for unconditional delivery of assets, such delivery or payment to be made within a period not exceeding the period commencing at the date of the contract and extending –
 - (i) in the case of a *listed security* or a *security admitted to trading*, for the usual period for delivery or payment as determined by the rules of the stock exchange or *regulated market* on which the *securities* are *listed* or *admitted to trading*, or facilities for dealing have been granted, or
 - (ii) in any other case, for twenty *working days*;
 - (b) it is a contract of the type described in 2(8) in respect of which the conditions set out in 2(9) have been satisfied; or
 - (c) it is a transaction to which 5(1) applies.
- (4) Rights in respect of a contract or asset whose effect is that of a *derivative contract* to which 13 applies must –
- (a) where the asset is a security, be valued in accordance with 9;
 - (b) where the asset comprises units or other beneficial interests in a *collective investment scheme*, be valued in accordance with 10; and

- (c) where the asset is a *debt* or other right, be valued in accordance with 6.
- (5) Rights in respect of a contract or asset whose effect is that of a *derivative contract* to which 13 does not apply must have a value determined in accordance with 6(8).
- (6) For the purposes of determining whether a contract or asset has the effect of a *derivative contract* to which 13 applies, it must be deemed to have the effect of a *derivative contract* which is *listed* or transacted with an *approved counterparty* if it is itself *listed* or so transacted.

Assets to be taken into account only to a specified extent

15

PRA

- (1) Subject to (2) to (6), the aggregate value of the assets of a *non-directive incorporated friendly society* as determined in accordance with the *asset valuation rules* must, for any of the purposes for which the *asset valuation rules* apply, be reduced by an amount representing the aggregate of –
 - (a) the amount by which the society is exposed to assets of any description in excess of the *permitted asset exposure limit* for assets of that description;
 - (b) the amount by which the society is exposed to a *counterparty* in excess of the *permitted counterparty exposure limit* for such *counterparty*;
 - (c) the amount by which the society has an *excess concentration with a number of counterparties*;
 - (d) the value of any assets transferred to or for the benefit of the society in pursuance of a condition in a *derivative contract* to which 13 does not apply or a related contract; and
 - (e) the value of any assets transferred to or for the benefit of the society in pursuance of a contract whose effect is that of a *derivative contract* to which 13 does not apply or a related contract,

as determined in accordance with Annex B.
- (2) Where a *non-directive incorporated friendly society* is exposed to assets of any description in excess of the *permitted asset exposure limit* for such assets, the reduction required to be made by (1)(a) must be made –
 - (a) by deducting (as far as possible) the amount of the excess from the assets of that description held by the society; and
 - (b) where the society does not hold sufficient assets of that description to eliminate the excess (or does not hold any assets of that description) by making an appropriate deduction from the aggregate value of the assets which the society would otherwise

be permitted to take into account for any of the purposes for which the *asset valuation rules* apply.

- (3) Where a society is required to make a reduction in accordance with (1)(b), (c), (d) or (e), the reduction must be made by making a deduction from the aggregate value of the assets which the society would otherwise be permitted to take into account for any of the purposes for which the *asset valuation rules* apply.
- (4) Where a *non-directive incorporated friendly society* carrying on *long-term insurance business* has attributed assets partly to a *long-term insurance business* fund and partly to its other assets, any reduction required to be made by this rule must be made in the same proportion as the attribution.
- (5) Assets of a *friendly society* comprising –
- (a) *approved securities* or any interest accrued thereon;
 - (b) *debts* to which 6(3) applies;
 - (c) rights to which 6(4) applies;
 - (d) *debts* in respect of *premiums*;
 - (e) moneys due from, or guaranteed by, the government of any State which belongs to Zone A as defined in Council Directive 89/647/EEC of 18 December 1989 on a solvency ratio for credit institutions;
 - (f) *shares* in or *debts due or to become due* from a dependant *falling* within 3;
 - (g) holdings in a scheme falling within the *UCITS Directive*; or
 - (h) *deferred acquisition costs*,
- must not be taken into account in any of the calculations described in (1).
- (5A) Assets of *dependants* of the *friendly society* that are *debts* due or to become due from the *friendly society* or from a *dependant* of the *friendly society* must not be taken into account in any of the calculations described in (1).
- (6) Where a *friendly society* has entered into any contracts providing for the payment of *index linked benefits*, the provisions of (1)(a) must not apply to assets of that *friendly society* to the extent that they are held to match liabilities in respect of such benefits.

**Annex A to Appendix 4:
Valuation of *Dependants***

[Deleted]

Annex B to Appendix 4:

Assets to be Taken Into Account Only to a Specified Extent

PART I: THE METHOD OF CALCULATION OF EXCESS EXPOSURE

B1 [deleted]

B2 [deleted]

B3 [deleted]

Calculation of exposure to assets

B4 A value must be ascribed to assets of each description which must be an amount determined in accordance with the *asset valuation rules* or, PRA where the assets are of a description for the valuation of which no provision is made in those rules, an amount which would reasonably be paid by way of consideration for an immediate assignment or transfer of such assets. The amount by which the *friendly society* is exposed to assets of each description must be determined by adjusting the value of the assets in accordance with B5 to B11A.

Adjustments in respect of futures contracts

B5 The value ascribed under B4 in respect of assets of each description must be increased or decreased by the value of assets of that PRA description which the *friendly society* is deemed to have acquired or disposed of pursuant to a *futures contract*.

B6 For the purposes of B5, the *friendly society* must be deemed to have acquired or disposed of assets pursuant to a *futures contract* if, at the PRA *relevant date*, it has entered into (and not closed out) a *futures contract* which –

- (a) provides for the acquisition of assets by the *friendly society*;
- (b) is *listed* and provides for the disposal of assets by the *friendly society*; or
- (c) is not *listed* but provides for the disposal of assets by the *friendly society* to an *approved counterparty* and it is prudent to assume that such disposal will take place within one year of the *relevant date*.

Adjustments in respect of options

B7 The figure arrived at under B4 to B6 in respect of assets of each description must be increased or decreased by the value of assets of that description which the *friendly society* is deemed to have acquired or disposed of pursuant to an *option*. PRA

B8 For the purposes of B7, the *friendly society* must be deemed to have acquired or disposed of assets pursuant to an *option* if, at the *relevant date*, it is a party to an *option* and it is prudent to assume that the *option* will be exercised and the *option* is one which –

PRA

- (a) provides for the acquisition of assets by the *friendly society*;
- (b) is *listed* and provides for the disposal of assets by the *friendly society*; or
- (c) is not *listed* but provides for the disposal of assets by the *friendly society* to an *approved counterparty* and it is prudent to assume that such disposal will take place within one year of the *relevant date*.

Adjustments in respect of initial margins

B9 The figure arrived at under B4 to B8 in respect of assets of each description must be increased by an amount representing the value of any assets of that description which have been transferred by the *friendly society* by way of *initial margin*.

PRA

Adjustments in respect of an undiversified contract for differences or a contract or asset having the effect of a derivative contract

B10 The amount arrived at in accordance with B4 to B9 must be increased or decreased by an amount representing the value of assets which the *friendly society* is deemed to have acquired or disposed of under –

PRA

- (a) an *undiversified contract for differences*; or
- (b) a contract or asset other than a *diversified contract for differences* which has the effect of a *derivative contract*.

B11 For the purposes of B10, the *friendly society* must be deemed to have achieved the effect of such contract by entering into appropriate *futures contracts* or *options*. The assets deemed to be acquired or disposed of must be dealt with in accordance with the provisions in B5 and B7 respectively.

PRA

Adjustment in respect of subsidiary undertakings

B11A Subject to B11B and B11C, the amount of the *friendly society's* exposure to assets arrived at under B4 to B11 must be increased by an amount representing the exposure, if any, of the *friendly society's* dependants to assets of that description.

PRA

B11B For the purposes of B11A, the exposure of each *dependant* must be calculated by applying B4 to B11 to that *dependant* as if it were a *friendly society* to which those provisions apply (whether it is or not).

PRA

B11C In relation to a *dependant*:

PRA

- (a) which is an *insurance undertaking*; or
- (b) for which 15(1)(a) to (c) have (notwithstanding 3(4)(a)) been applied when valuing the assets selected under 3(3)(a),

11A applies only in relation to the *dependant's surplus assets* (or *proportional share*).

Excess asset exposure

B12 The amount by which the *friendly society* is exposed to assets of a particular description in excess of the *permitted asset exposure limit* must be calculated by subtracting the *permitted asset exposure limit* for assets of that description from the corresponding amount of the *exposure*, calculated in accordance with B4 to B11A. For this purpose, *exposure* to assets must be excluded to the extent that such *exposure* has caused the recognition of excess *exposure* to assets of a different description. If the figure arrived at is negative, it must be taken to be zero.

PRA

Calculation of exposure to a counterparty

B13 Subject to B14 to B15A, the value of all investments (determined in accordance with 9 of Appendix 4) issued by any one *counterparty* and the value of all rights (determined in accordance with 6, 13 and 14 of Appendix 4) against that *counterparty*, in each case up to the amount of the appropriate *permitted asset exposure limit*, must be aggregated. Where the *counterparty* is an *issuer* of a *collective investment scheme* falling within 10(1)(c) of Appendix 4, the value of units or other beneficial interest in the *collective investment scheme* must be included.

PRA

B14 Where a *friendly society* has rights in respect of an obligation to be fulfilled by a *counterparty* and –

PRA

- (a) the obligation is a secured obligation which –
 - (i) is secured by cash deposited with, or a letter of credit established with, or *securities* issued by, or a guarantee provided by, an *approved credit institution* or an *approved financial institution*; and
 - (ii) is due to be fulfilled within 12 months of the *relevant date*; or
- (b) the obligation is a secured obligation which is secured by *listed securities* which are *readily realisable* or by *approved securities* which in either case –
 - (i) have been deposited with an *approved credit institution*, an *approved financial institution* or an *approved investment firm*; and

- (ii) are beneficially owned by the *counterparty* but will not be available for the benefit of creditors generally in the event of the winding-up of the *counterparty*,

the aggregation required by B13 need not include the value of such rights.

B15 If the *friendly society* has liabilities to the *counterparty* which may be offset against the above mentioned assets in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate for *friendly societies*, then such liabilities may be offset for the purposes of the aggregation required by B13.

PRA

B15A Subject to B15B, the amount arrived at under B13 to B15 must be increased by the amount by which any *dependant* of the *friendly society* is exposed to the same *counterparty*.

PRA

B15B In relation to a *dependant*:

PRA

- (a) which is an *insurance undertaking*; or
- (b) for which 15(1)(a) to (c) have (notwithstanding 3(4)(a)) been applied when valuing the assets selected under 3(3)(a),

B15A applies only in relation to the *dependant's surplus assets (or proportional share)*.

Excess counterparty exposure

B16 The amount by which the *friendly society* is exposed to a *counterparty* in excess of the *permitted counterparty exposure limit* must be calculated by subtracting from the amount of the *exposure* to such *counterparty* the amount of the *permitted counterparty exposure limit* for such *counterparty*. If the figure arrived at is negative, it must be taken to be zero. If the *friendly society* is exposed to a *counterparty* in excess of the *permitted counterparty exposure limit* in more than one of the circumstances set out in (c) of the definition of *permitted counterparty exposure limit*, it must make the deduction required under 15(1)(b) of Appendix 4 only in respect of the circumstances leading to the greatest excess *exposure*.

PRA

Excess concentration with a number of counterparties

B17 Where there is *exposure* to a *counterparty* of the type mentioned in (c)(ii) of the definition of *permitted counterparty exposure limit*, 40% of the *business amount* must be deducted from the aggregate of such *exposures*. The amount so arrived at is the excess concentration with a number of counterparties. Where this amount is negative, it must be taken to be zero. For the purposes of this paragraph –

PRA

- (a) *exposure* to a *counterparty* must be taken into account only up to the level of the *permitted counterparty exposure limit* for that *counterparty*;

- (b) *exposure to a counterparty* must not be taken into account if it does not exceed 5% of the *business amount*; and
- (c) *exposure to a counterparty* must not be taken into account if the corresponding *permitted counterparty exposure limit* does not exceed 5% of the *business amount*.

PART II: DESCRIPTION OF ASSET AND CORRESPONDING BUSINESS AMOUNT

B18	A piece of land or a number of pieces of land (or one or more interests in such pieces of land) to which in the most recent <i>proper valuation</i> of such pieces of land an aggregate value is ascribed which is greater than the aggregate of the value of each of such pieces of land or interests valued separately.	5%
PRA		
B19	A reversionary interest or a remainder not falling within B18.	1%
PRA		
B20	All <i>debts due or to become due</i> from any one individual (other than a <i>connected individual</i> of the <i>friendly society</i>), being <i>debts</i> which are fully secured on any dwelling or any land appurtenant (or in Scotland, appertaining) thereto owned or to be purchased by the individual and used or to be used by him for his own residence.	1%
PRA		
B21	All <i>debts due or to become due</i> from any one individual, other than <i>debts</i> specified in B20.	0.25%
PRA		
B22	All unsecured <i>debts</i> (other than <i>debts</i> arising under the terms of <i>debt securities</i> or <i>debts</i> from a <i>regulated institution</i>) <i>due or to become due</i> from any one <i>counterparty</i> other than an individual, body corporate or group.	1%
PRA		
B23	All unsecured <i>debts</i> (other than <i>debts</i> arising under the terms of <i>debt securities</i> or <i>debts</i> from a <i>regulated institution</i>) <i>due or to become due</i> from any one <i>company</i> , taken together with all such <i>debts due or to become due</i> from a connected company of that <i>company</i> .	1%
PRA		
B24	All unsecured <i>debts</i> (other than <i>debts</i> arising under the terms of <i>debt securities</i> or <i>debts</i> from an <i>approved counterparty</i>) <i>due or to become due</i> from any one <i>regulated institution</i> , taken together with (where that institution is a <i>company</i>) all such <i>debts due or to become due</i> from a connected company of that institution.	2.5%

PRA		

⁸The amendment to paragraph B31 comes into force on 31 December 2002.

Appendix 5:

Liability Valuation Rules

Application

- 1 (1) This Appendix (the 'liability valuation rules') applies with respect to the determination of the amount of liabilities of a *friendly society* for the purposes of chapters 4 and 5.

PRA

Long-term and general insurance business

- 2 (1) Subject to the provisions below, the amount of liabilities of a *friendly society* in respect of *long-term insurance business* and *general insurance business* and other lawful activities must be determined in accordance with generally accepted accounting concepts, bases and policies or other generally accepted methods appropriate for *insurance business*.
- (2) In determining under (1) the amount of liabilities of a *friendly society*, all contingent and prospective liabilities must be taken into account.
- (3) A *friendly society* may substitute for a *defined benefit liability* its *deficit reduction amount*.

PRA

Provision for adverse changes

- 3 (1) A *friendly society* which has or may have (following the exercise of any right by the *friendly society* or any other party) an obligation to which this rule applies to deliver assets or make a payment must –
- (a) at all times identify the assets held by it which it considers to be the most suitable to cover such obligation; and
- (b) make prudent provision for the effect on the amount of its excess assets of adverse variations between the value of the assets identified and the value of the assets which it is or may be obliged to deliver or the amount of the payment which it is or may be obliged to make.
- (2) For the purposes of (1) the *friendly society* must take into account all reasonably foreseeable adverse variations and must have particular regard to past volatility in the value of the assets concerned (or assets of a similar nature) and the possibility of adverse changes in such volatility in the future.
- (3) For the purposes of this rule "the amount of its excess assets" means the difference between the aggregate value of its assets (other than *linked assets* to the extent that they are held to match *property linked liabilities*) determined in accordance with Appendix 4 and the amount of its liabilities (other than *property linked liabilities* or liabilities for which provision is made in accordance with this rule).
- (4) Subject to (5), this rule applies to an obligation –

PRA

- (a) under a contract relating to investments of the kinds mentioned in item B under the heading "Assets" in Part I of Schedule 2 to *Accounts Regulations* (whether such contract constitutes an asset or liability of the *friendly society*);
 - (b) undertaken for the purposes of, or in connection with the making of, investments of the kind mentioned in (a); or
 - (c) under a contract providing for the purchase, sale or exchange of currency.
- (5) This rule does not apply to a contract to the extent that it relates to, or is for the purposes of the making of an investment in, or is in connection with the making of an investment in, a building which is to be occupied by the *friendly society* and used by the *friendly society* for the conduct of its business.

Provision for related undertakings

3A

PRA

- (1) Except to the extent that provision for the deficit has been made (whether in the calculation of *surplus assets* or otherwise) in another *related undertaking* the value of whose *shares* is taken to be the value of its *surplus assets* under paragraph 3(1) or (2) of Appendix 4 (but only to the extent of the *friendly society's proportional share* of that *undertaking*), a *friendly society* must make provision in respect of a *related undertaking* that is a *regulated related undertaking*:
- (a) where the *related undertaking* is also a *subsidiary undertaking* of the *friendly society*, for the whole of any *solvency deficit*; and
 - (b) in any other case, for the *friendly society's proportional share* of any such deficit.
- (2) For the purposes of (1), the identification and valuation of assets of *regulated related undertaking* available to cover liabilities and the regulatory requirement, set out in paragraph 3(3)(b) of Appendix 4 must be determined in accordance with paragraph 3(4) of Appendix 4.

General insurance business liabilities

4

PRA

The amount of *insurance liabilities* which are *general insurance business liabilities* must be determined in accordance with the regulations set out in Part VI of Schedule 6 to the *Accounts Regulations*.

Long-term insurance business liabilities

5

PRA

- (1) The determination of the amount of *long-term liabilities* (other than liabilities which have fallen due for payment before the *valuation date*) must be made on actuarial principles which must have due regard to the reasonable expectations of *policyholders* and must make proper provision for all liabilities on prudent assumptions that must include appropriate margins for adverse deviation of the relevant factors.

- (2) The determination must take account of all prospective liabilities as determined by the policy conditions for each existing contract, taking credit for *premiums* payable after the *valuation date*.
- (3) Without prejudice to the generality of (1), the amount of the *long-term liabilities* must be determined in compliance with each of 6 to 16 and must take account, inter alia, the following factors:
 - (a) all guaranteed benefits, including guaranteed surrender values;
 - (b) vested, declared or allotted bonuses to which *policyholders* are already either collectively or individually contractually entitled;
 - (c) all options available to the *policyholder* under the terms of the contract;
 - (cc) discretionary charges and deductions, in so far as they do not exceed the reasonable expectations of *policyholders*;
 - (d) expenses, including commissions; and
 - (e) any rights under contracts of reinsurance in respect of *long-term insurance business*.

Method of calculation

6

PRA

- (1) Subject to (2), (3) and (4), the amount of the *long-term liability* must be determined separately for each contract by a prospective calculation.
- (2) A retrospective calculation may be applied to determine the liabilities where a prospective method cannot be applied to a particular type of contract or benefit, or where it can be demonstrated that the resulting amount of liabilities would be no lower than would be required by a prudent prospective calculation.
- (3) Appropriate approximations or generalisations may be made where they are likely to provide the same, or a higher, result than individual calculations of the same amount of the liabilities in respect of each contract.
- (4) Where necessary, additional amounts must be set aside on an aggregated basis for general risks which are not individualised.
- (5) The method of calculation of the amount of the liabilities and the assumptions used must not be subject to discontinuities from year to year arising from arbitrary changes and must be such as to recognise the distribution of profits in an appropriate way over the duration of each policy.
- (6) The liabilities for contracts under which the *policyholder* is eligible to participate in any *established surplus* must have regard to the level of the *premiums* under the contracts, to the assets held in respect of those liabilities, and to the custom and practice of the *friendly society* in the manner and timing of the distribution of profits or the granting of

discretionary additions, as the case may be.

- (7) In this paragraph 'established surplus' means an excess of assets representing the whole or a particular part of the fund or funds maintained by the *friendly society* in respect of its *long-term insurance business* over the liabilities, or a particular part of the liabilities, of the *friendly society* attributable to that business as shown by an investigation to which rule 5.1 or 5.2 applies.

Avoidance of future valuation strain

- 7 The amount of the liability determined in respect of a group of contracts must not be less than such amount as, if the assumptions adopted for the valuation were to remain unaltered and were fulfilled in practice, would enable liabilities similarly determined at all times in the future to be covered from resources arising solely from the contracts and the assets covering the amount of the liability determined at the current valuation.
- PRA

Valuation of future premiums

- 8 (1) Where further specified *premiums* are payable by the *policyholder* under a contract (not being a *linked long-term contract*) under which the *policyholder* is eligible to participate in any *established surplus* and benefits (other than benefits arising from a distribution of surplus) are determined from the outset in relation to the total *premiums* payable thereunder, then, subject to (4) and 9 –
- PRA

- (a) where the *premiums* under the contract are at a uniform rate throughout the period for which they are payable, the *premiums* to be valued must not be greater than such level *premiums* as, if payable for the same period as the actual *premiums* under the contract and calculated according to the rates of interest and rates of mortality or disability which are to be employed in calculating the liability under the contract, would have been sufficient at the outset to provide for the benefits under the contract according to the contingencies upon which they are payable, exclusive of any additions for profits, expenses or other charges;
- (b) where the *premiums* under the contract are not at a uniform rate throughout the period for which they are payable, the *premiums* to be valued must not be greater than such *premiums* as would be determined on the principles set out in (a) modified as appropriate to take account of the variations in the *premiums* payable by the *policyholder* in each year,

save that a *premium* to be valued must in no year be greater than the amount of the *premium* payable by the *policyholder*.

- (2) Where the terms of the contract have changed since the contract was first made (the terms of the contract being taken to change for the purposes of this paragraph if the change is indicated in an endorsement on the policy but not if a new policy is issued), then, for the purposes of (1) one of the following assumptions must be made, namely that –

- (a) the change from the date it occurred was provided for in the contract when it was made;
 - (b) the terms of the contract are those which apply from the date of the change except that a single *premium* is payable, at the date of the change, of an amount equal to the liability under the policy immediately before the change, calculated on a basis consistent with the *liability valuation rules* and with the *premiums* actually payable from the date of the change; or
 - (c) the contract is in two parts, the first of which is for the benefits purchased by the actual *premiums* payable from the date of the change under the *friendly society's* scales of *premiums* at that date, and the second of which is for all other benefits under the policy for which no *premiums* are payable after that date.
- (3) Where under a contract (not being a *linked long-term contract*) the *policyholder* is eligible to participate in any *established surplus*, and
- (a) each *premium* paid increases the benefits (other than benefits arising from a distribution of surplus) provided under the contract; or
 - (b) the amount of a *premium* payable in future is not determinable until it comes to be paid,

future *premiums* and the corresponding liability may be left out of account so long as adequate provision is made against any risk that the increase in the liabilities of the *friendly society* resulting from the payment of future *premiums* might exceed the amount of the *premiums*.

- (4) An alternative valuation method to that described in (1) to (3) may be used where it can be demonstrated that the alternative method results in reserves no less, in aggregate, that would result from use of the method described in (1) to (3).

Acquisition expenses

9

PRA

- (1) In order to take account of acquisition expenses, the maximum annual *premium* to be valued under 8 may (subject to (2)) be increased by an amount not greater than the equivalent, taken over the whole period of *premium* payments and calculated according to the rates of interest and rates of mortality or disability employed in valuing the contract, of 3.5% (or the defined percentage, if it is lower than 3.5%) of the *relevant capital sum* under the contract.
- (2) For the purposes of (1) "the defined percentage" is the percentage arrived at by taking (for all contracts of the same type as the contract in question for which an adjustment is made) the average of the percentages of the *relevant capital sum* under each such contract that represent the acquisition costs incurred which, after allowing for the effects of taxation, might reasonably be recovered from the *premiums* payable under the contract.

- (3) The increase permitted by (1) must be subject to the limitation that the amount of a future *premium* valued must not in any event be greater than the amount of the *premium* actually payable by the *policyholder*.

Rates of interest

10

PRA

- (1) The rates of interest to be used in calculating the present value of future payments by or to a *friendly society* must be no greater than the rates of interest determined from a prudent assessment of the yields on existing assets attributed to the *long-term insurance business* and, to the extent appropriate, the yields which it is expected will be obtained on sums to be invested in the future.
- (2) For the purposes of (1), the assumed yield on an asset attributed to the *long-term insurance business*, before any adjustment to take account of the effect of taxation, must not exceed the yield on that asset calculated in accordance with (3) to (7), reduced by 2.5% of that yield.
- (3) For the purpose of calculating the yield on an asset –
- (a) the asset must be valued in accordance with the *asset valuation rules*, excluding any provision under which assets may be taken at lower book values for the purposes of an investigation to which rule 5.1 or rule 5.2 applies; and
 - (b) the future income from the asset required to be taken into account (whether interest, dividends or repayment of capital) must be reduced by a proportion corresponding to such part of any *excess exposure* to assets of that description, calculated in accordance with B11 of Annex B to Appendix 4, as may reasonably be attributed to such assets.
- (4) For *fixed interest securities* the yield on an asset, subject to (7), must be that annual rate of interest which, if used to calculate the present value of future payments of interest before the deduction of tax and the present value of repayments of capital, would result in the sum of those amounts being equal to the value of the asset.
- (5) For *variable interest investments* (that is to say, investments which are not *fixed interest securities*) that are equity *shares* other than those within (5A) or land, the yield on an asset, subject to (7), must be the ratio to the value of the asset of the income before deduction of tax which would be received in the period of twelve months following the *valuation date* on the assumption that the asset will be held throughout that period and that the factors which affect income will remain unchanged, so however that account must be taken of any changes in those factors known to have occurred by the *valuation date* and in particular, without prejudice to the generality of the foregoing, of –
- (a) any known changes in the rental income from property or in dividends on equity *shares*;
 - (b) any forecast changes in dividends which have been publicly

announced by the *valuation date*;

- (c) the effect of any alterations in capital structure; and
- (d) the value (at the most recent date for which it is known at the *valuation date*) of any determinant of the amount of any future interest payment, the said value being deemed to remain unaltered for all subsequent dates.

(5A) For variable interest investments that are equity *shares* in *companies* subject to, or drawing up accounts as if subject to, legislation implementing the *Accounts Directives*, or which draw up a set of accounts in accordance with International Accounting Standards Committee accounting standards or US generally accepted accounting practice, the yield on an asset, subject to (7A), must be the ratio to the value of the asset of –

(a) $A + B$; or

(b) 2 times A,

whichever is lower,

where A = the income which would be received if it were calculated in accordance with (5),

and B = half the excess (if any) of the relevant amount over A, but B must not be less than zero.

(5B) For the purposes of (5A), the ‘relevant amount’ in relation to equity *shares* is the issuing *company’s* profits after taxation from its ordinary activities for the most recent financial year ending on or before the *valuation date* which is reported in accounts in accordance with (5C) which are publicly available, in so far as attributable to those equity *shares*, so however, without prejudice to the generality of the foregoing, that account is taken of the effect of any alterations in capital structure.

(5C) For the purposes of (5B), the issuing *company’s* profits after taxation from its ordinary activities for the relevant financial year must be derived from accounts drawn up in accordance with legislation implementing the *Accounts Directives* or, if accounts are not drawn up in accordance with the *Accounts Directives*, from accounts drawn up in accordance with International Accounting Standards Committee accounting standards or US generally accepted accounting practice.

(5D) Where (5A) applies, and a *company’s* accounting period is longer or shorter than a year, the amount of profits or losses for that period must be annualised, and the annualised figure must be used to calculate the yield.

(5E) If the requirements in (5B) and (5C) are not, or cannot be, met, then the relevant amount is zero.

- (6) Subject to (6a), for variable interest investments (that is to say, investments which are not *fixed interest securities*) other than equity *shares* or land, the yield on an asset, subject to (7), must be that annual rate of interest which, if used to calculate the present value of future payments of interest, before deduction of tax, and the present value of repayments of capital, where applicable, would result in the sum of these amounts being equal to the value of the asset, on the assumption that –
- (a) the value of any determinant of the amount of the next interest rate payment and capital repayment made during the following twelve months will be the value of that determinant at the most recent date for which it is known at the *valuation date*;
 - (b) the amount of future interest payments and capital repayments will take account, where appropriate, of –
 - (i) the right of either party to have the investment repaid, and
 - (ii) an assumed yield on other comparable investments made in the future not exceeding an amount determined in accordance with (8) to (10); and
 - (c) indices and all other factors which affect future income payments or capital repayment will remain unchanged after the *valuation date*.
- (6A) For investments in *collective investment schemes* given a value as an asset in accordance with paragraph 10 of Appendix 4, the yield may be determined as the weighted average of the yields (as determined by this rule) on each of the investments held by the *collective investment scheme*.
- (7) In calculating the yield on an asset under this rule –
- (a) if the asset does not consist of equity *shares* or land –
 - (i) a prudent adjustment must be made to exclude that part of the yield estimated to represent compensation for the risk that the income from the asset might not be maintained or that capital repayments might not be received as they fall due; and
 - (ii) in making that adjustment, regard must be had wherever possible to the yields on risk-free investments of a similar term in the same currency;
 - (b) for assets which are equity *shares* or land, adjustments to yields must be made as appropriate to exclude that part, if any, of the yield from each category of asset that is needed to compensation for the risk that the aggregate income from that category of asset, taking one year with another, might not be maintained; for the purposes of this paragraph, a "category of

asset" comprises assets of a similar nature, type and degree of risk.

- (7A) Notwithstanding (7)(b), for equity *shares* within (5A), adjustments to yields must be made as appropriate to exclude that part, if any, of the yield from each 'category of asset' that is needed to compensate for the risk that the aggregate profits earned by a *company* might not be maintained; and for the purposes of this paragraph, category of asset has the same meaning as in (7)(b).**
- (8) To the extent that it is necessary to make an assumption about the yields which will be obtained on sums to be invested in future, the yield must be determined in accordance with (9) and (10).**
- (9) Where the liabilities are denominated in sterling, the yield assumed, before any adjustments to take account of the effect of taxation –**
- (a) on any investment to be made more than three years after the *valuation date*, must not exceed the lowest of –**
 - (i) the long-term gilt yield current on the *valuation date*,**
 - (ii) 3% per annum, increased by two-thirds of the excess, if any, of the long-term gilt yield current on the *valuation date* over 3% per annum, or**
 - (iii) 6.5% per annum,**

where "the long-term gilt yield" means the annualised equivalent of the 15 year yield for United Kingdom Government *fixed-interest securities* 31 December 2010 103 jointly compiled by the Financial Times, the Institute of Actuaries and the Faculty of Actuaries; and
 - (b) on any investment to be made at any time not more than three years after the *valuation date* must not exceed the assumed yield determined under (2) adjusted linearly over the said three years to the yield determined in accordance with (a).**
- (10) Where the liabilities are denominated in currencies other than sterling, the yield must be determined on assumptions that are as prudent as those made under (9).**
- (11) In no case must a rate of interest determined for the purposes of (1) exceed, the adjusted overall yield on assets calculated as the weighted average of the reduced yields on the individual assets arrived at under (2); and when that weighted average is calculated –**
- (a) the weight given to each investment must be its value as an asset determined in accordance the *asset valuation rules*, excluding any provision under which assets may be taken at lower book values for the purposes of any investigation to which rule 5.1 or rule 5.2 applies; and**

(b) except in relation to the rate of interest used in valuing payments of *property linked benefits*, both the yield and the value of any *linked assets* (as so defined) must be omitted from the calculation.

(12) For the purpose of determining the rates of interest to be used in valuing a particular category of contracts the assets may, where appropriate, be notionally apportioned between different categories of contracts.

Rates of mortality and disability

11 The amount of the liability in respect of any category of contract must, where relevant, be determined on the basis of prudent rates of mortality and disability and any other decrement that take into account –

PRA

- (a) where the *policyholder* is an individual, the state in which he has his habitual residence; and
- (b) where the *policyholder* is not an individual, the state in which the establishment of the *policyholder* to which the *commitment* covered by the contract relates is situated.

Expenses

12 (1) Provision for expenses, whether implicit or explicit, must be not less than the amount required, on prudent assumptions, to meet the total net cost, after taking account of the effect of taxation, that would be likely to be incurred in fulfilling contracts if the *friendly society* were to cease to transact new business twelve months after the *valuation date*.

PRA

(2) The provision mentioned in (1) must have regard to, among other things, the *friendly society's* actual expenses in the last twelve months before the *valuation date* and to the effects of inflation on future expenses on prudent assumptions as to the future rates of increase in prices and earnings.

Options

13 (1) Provision must be made on prudent assumptions to cover any increase in liabilities caused by *policyholders* exercising *options* under their contracts.

PRA

(2) Where a contract includes an *option* whereby the *policyholder* could secure a guaranteed cash payment within twelve months following the *valuation date*, the provision for that *option* must be such as to ensure that the value placed on the contract is not less than the amount required to provide for the payments that would have to be made if the *option* were exercised.

(3) Where a contract includes an option whereby the *policyholder* could secure a cash payment but (2) does not apply, the provision for that option must be such as to ensure that, if the assumptions adopted for the valuation of the contract are fulfilled in practice –

- (a) the resulting value (and therefore the provision) is not less than the amount required to provide for the payment which would have to be made if the option were exercised; and
 - (b) the payment when it falls due is covered from resources arising solely from the contract and from the assets covering the amount of the liability determined at the current valuation.
- (4) For the purposes of (3) the amount of a cash payment secured by the exercise of an option is assumed to be –
- (a) in the case of an *accumulating with-profits policy*, the lower of –
 - (i) the amount which would reasonably be expected to be paid if the option were exercised, having regard to the representations of the *friendly society*; and
 - (ii) that amount, disregarding all discretionary adjustments; and
 - (b) in the case of any other policy to which this paragraph applies, the amount which would reasonably be expected to be paid if the option were exercised, having regard to the representations of the *friendly society*, without taking into account any expectations regarding future distributions of profits or the granting of discretionary additions in respect of an *established surplus* or in anticipation of such additions.

Contracts not to be treated as assets

14 No contract for *long-term insurance business* must be treated as an asset.

PRA

No credits for profits from voluntary discontinuance

15 Allowance must not be made in the valuation for the voluntary discontinuance of any contract if the amount of the liability so determined would thereby be reduced.

PRA

Nature and term of assets

16 The determination of the amount of *long-term liabilities* must take into account the nature and term of the assets representing those liabilities and the value placed upon them and must include prudent provision against the effects of possible future changes in the value of the assets on –

PRA

- (a) the ability of the *friendly society* to meet its obligations arising under contracts for *long-term insurance business* as they arise; and
- (b) the adequacy of the assets to meet the liabilities as determined in accordance with 6 to 15.

Appendix 6:

Balance Sheet (Forms 9 to 17)

1 All the Forms included in the part of the *FSC return* to which this Appendix relates (Forms 9 to 17) must be completed as required by this Appendix.

PRA

Currency

2 A supplementary note to Form FSC1 or Form FSC3 (as appropriate) must be included in the *FSC return* stating the bases of conversion employed for –

PRA

- (a) amounts of *premiums* and other income *receivable* in a currency other than sterling; and
- (b) the amounts of *claims* and other expenditure payable in a currency other than sterling.

Presentation of Amounts

3 (1) Where in any Form an amount which is shown as brought forward from a previous period differs from the corresponding amount shown as carried forward from that period and the difference is not due solely to the fact that a different rate has been used to express other currencies in sterling, an explanation of the reason for the difference must be given by way of a supplementary note to that Form.

PRA

- (2) Except to the extent permitted by (3), amounts due to or from the *friendly society* must be shown gross.
- (3) In calculating amounts due from or to the *friendly society* (other than for the completion of Form 17),
 - (a) amounts due from any person may, unless expressly provided otherwise, be included net of amounts which are due to that person, provided that such amounts may be set-off against each other under generally accepted accounting practice; and
 - (b) amounts due to any person may, unless expressly provided otherwise, be included net of amounts due from that person, provided that such amounts may be set-off against each other under generally accepted accounting practice.
- (4) If the amounts shown include amounts calculated on the basis set out in (3), a supplementary note to Form 13 to that effect must be provided.

4 In Form 9 –

PRA

- (a) for a *friendly society* carrying on only *long-term insurance business*, lines 11 to 13 may be omitted;
- (b) for a *friendly society* carrying on only *general insurance business*, lines

21 to 44 may be omitted;

- (c) the *implicit items* at lines 11a, 31, 32 and 33 are those admitted under rule 4.8 to 4.10;
- (d) the entry at lines 51 and 52 must not include provision for any liability to tax on capital gains referred to in 9(2)(b); and
- (e) in the FSC1 return the entries at lines 11 to 13 may be a prudent estimate with reference to the last periodic investigation into the financial condition of the *friendly society* in respect of its *general insurance business*.

Margin of solvency for general insurance

5 (1) Amounts included in Forms 11 and 12 in respect of –

PRA

- (a) gross premiums receivable,
- (b) *claims* paid,
- (c) *claims* outstanding, and
- (d) reinsurance recoveries,

must be determined in accordance with rule 4.6 and Appendix 2.

(2) Where any amount included in Form 11 or 12 pursuant to (1) above differs from the aggregate of the corresponding amounts included in Forms 21 and 22, there must be stated by way of supplementary note to Form 11 or 12, as the case may be,

- (a) the amount of such difference, and
- (b) an explanation for such difference.

Investment

6 In Form 13 –

PRA

- (a) a Form 13 must be completed for the total *long-term insurance business* assets of the *friendly society* and for each fund or group of funds for which separate assets are appropriated. The words "Total *long-term insurance business* assets" or the name of the fund must be shown against the heading "Category of assets";
- (b) a separate Form 13 must be completed in respect of the total assets of the *friendly society* other than any *long-term insurance business* assets. The words "Total other than *long-term insurance business* assets" must be shown against the heading "Category of assets";
- (c) in lines 11 to 86: for the purpose of classifying (but not valuing) assets, headings and descriptions used in the Form, whenever

they also occur in the balance sheet format prescribed by the *Accounts Regulations*, must have the same meaning as in those *Accounts Regulations*; assets must be valued in accordance with the *asset valuation rules*; and assets of any particular description must be shown after deduction of assets of that description which (for any reason) fall to be left out of account under 15(2)(a) of Appendix 4;

- (d) the aggregate value of those investments which are:
- (i) *unlisted* investments falling within any of lines 41, 42, 46 or 48 which have been valued in accordance with 9 of Appendix 4, or
 - (ii) *listed* investments falling within any of lines 41, 42, 46 or 48 which have been valued in accordance with 9 of Appendix 4 and which are not *readily realisable*, or
 - (iii) units or other beneficial interests in *collective investment schemes* falling within 10(1)(c) of Appendix 4, or
 - (iv) reversionary interests or remainders in property other than land or buildings,

must be stated by way of a supplementary note to this Form, together with a description of such investments;

- (e) the aggregate value of those investments falling within lines 46 or 48 which are hybrid *securities* must be stated by way of a supplementary note to this Form; and
- (f) lines 60 to 63 and 85 relate only to *general insurance business*

Counterparty exposure

7

- (1) There must be given by way of a supplementary note to Form 13 –

PRA

- (a) the maximum extent to which, in accordance with any investment guidelines operated by the *friendly society*, it was permitted to be exposed to any one *counterparty* during the period;
- (b) the maximum extent to which, in accordance with such guidelines, it was permitted to be exposed to any one *counterparty*, other than by way of *exposure* to an *approved counterparty*, during the period; and
- (c) an account of any occasions during the period on which either of those amounts was exceeded.

- (2) In each case where the *exposure* of the *friendly society* to a *counterparty* (calculated in accordance with Annex B of Appendix 4) at the end of the period exceeds 5% of its *long-term insurance business* or *general insurance business amount*, as appropriate, the amount of that *exposure* and the nature of the assets held which give rise to that

exposure, must be stated by way of a note to Form 13.

Provision for adverse changes

- 8
- PRA**
- There must be stated by way of a note to Form 14 (and in Form 15 in respect of any *general insurance business*) the methods and assumptions used to determine the amount of any provision made pursuant to 4 in Appendix 5 or, if there is no such provision, the methods and assumptions used to determine that no provision is required.

Liabilities

- 9
- PRA**
- (1) Form 14 must be completed for the total *long-term insurance business liabilities* and margins of the *friendly society* and for each fund or group of funds for which separate assets are appropriated. The words "Total *long-term insurance business assets*" or the name of the fund must be shown against the heading "Category of assets".
- (2) Subject to (4) and (5), the following information must be given by way of a supplementary note to Form 14 or 15 –
- (a) in the case of any charge over the assets of the *friendly society* (including any arrangement whatsoever, whether contractual or otherwise, which operates to secure the prior claim of any person over general creditors to any assets on a winding up of a *friendly society*), the particulars specified in (3) or a statement that there are no such charges;
- (b) the total potential liability, and the amount provided for that liability, to taxation on capital gains which might arise if the *friendly society* disposed of its assets, or a statement that there is no such potential liability;
- (c) a brief description of any other liabilities being contingent liabilities not included in Form 14 or 15 (other than liabilities arising under an inwards *contract of insurance*) including, where practicable, the amounts or estimated amounts of those liabilities, or a statement that there are no such contingent liabilities;
- (d) a brief description of any guarantee, indemnity or other contractual *commitment*, effected by the *friendly society* other than in the ordinary course of its *insurance business*, in respect of the existing or future liabilities of any *associate bodies*, including –
- (i) the maximum liability of the *friendly society* specified in such guarantee, indemnity or contractual *commitment*, or a statement that no such amount is specified,
- (ii) the amount of any provision made in respect of such liability, and

- (iii) the amount reported under (c) in respect of such liability, or a statement that there are no such guarantees, indemnities or contractual *commitments*; and
 - (e) a description of any other uncertainty where such a description is, in the opinion of the *committee*, necessary for a proper understanding of the financial position of the *friendly society*.
- (3) The particulars referred to in (2)(a) are –
- (a) the nature of the charge, including a brief description of the terms which are relevant to securing the prior claim of any person to assets which are subject to the charge;
 - (b) for each line in Form 13, the amount included in respect of assets which are subject to the charge; and
 - (c) for each line in Form 14 or 15, the amount included in respect of liabilities which are secured by the charge.
- (4) (2)(a) and (c) may be disregarded by a *friendly society* in the case of –
- (a) one or more charges over assets which are attributable to either the *long-term insurance business assets* or the *general insurance business assets* and whose aggregate value (as shown on Form 13) does not exceed 2.5% of the long-term or *general insurance business amount*, as the case may be;
 - (b) one or more contingent liabilities whose aggregate value does not exceed 2.5% of the long-term or *general insurance business amount*, as the case may be.
- (5) (2)(d) may be disregarded by a *friendly society* in respect of one or more guarantees, indemnities or contractual *commitments* where the aggregate of the maximum liabilities specified in such guarantees, indemnities or contractual *commitments* does not exceed 2.5% of the *long-term* or *general insurance business amount*, as the case may be.

Derivative contracts

10

PRA

- (1) Form 17 must be completed in respect of the total *long-term insurance business assets* and in respect of the total other than *long-term insurance business assets* of the *friendly society*. Form 17 must also be completed for each fund or group of funds for which separate assets are appropriated. The words "*Total long-term insurance business assets*" or "*Total other than long-term insurance business assets*" or the name of the fund must be shown against the heading "*Category of assets*".
- (2) Any *derivative contract* entered into by the *friendly society* –
- (a) the value of which is taken into account for the purpose of calculating benefits payable to *policyholders* and members

under *property linked contracts*; or

- (b) in order to match its liabilities in respect of the payment of *index-linked benefits*,

must be excluded from Form 17. Rights to recover assets transferred by way of *initial margin* must not be shown on Form 17.

- (3) *Derivative contracts* must be analysed according to the description of assets shown in the second column to Form 17 which represents the principal subject of the contract, and must be reported as assets in column 1 of Form 17 if their value (gross of *variation margin*) to the *friendly society* is positive and as liabilities in column 2 of Form 17 if their value (gross of *variation margin*) to the *friendly society* is negative.
- (4) All amounts included in lines 11 to 35 of Form 17 in respect of *derivative contracts* must be determined without making any allowance for *variation margin* and the effect of any *variation margin* upon those amounts must be shown at line 41.
- (5) Amounts in respect of a *derivative contract* may only be included net of amounts in respect of any other *derivative contract* if –
- (a) obligations of the *friendly society* under the contracts may be set-off against each other under generally accepted accounting practice; and
- (b) such other contract has the effect (in whole or in part) of closing out the obligations of the *friendly society* under the first mentioned contract.
- (6) Where, in respect of any *derivative contract* included in Form 17, assets have been transferred to or for the benefit of a *friendly society* by way of *variation margin* there must be stated by way of a supplementary note to Form 17 –
- (a) the aggregate amount of any liability to repay such assets or equivalent assets;
- (b) for each line in Form 13, the amount included in respect of such assets; and
- (c) to what extent any amounts included in Form 13 have taken account of any requirement to repay such assets or equivalent assets.
- (7) If –
- (a) the aggregate value of rights, under contracts or in respect of assets, either of which have the effect of *derivative contracts*, exceeds 2.5% of the aggregate value of assets shown at line 89 of Form 13; or

- (b) the aggregate amount of liabilities under contracts or in respect of assets, either of which have the effect of *derivative contracts*, exceeds 2.5% of the aggregate of the amounts shown in lines 17 to 39 of Form 14 or lines 31 to 51 of Form 15, as appropriate,

the corresponding value, if not zero, must be stated by way of a supplementary note to Form 17 for each line in Forms 13, 14 and 15 and (6) applies to the *friendly society* as if such contracts had been included in Form 17.

- (8) Every *friendly society* must, in respect of the period, annex to Form 17 a supplementary note comprising a brief description of
- (a) any investment guidelines operated by the *friendly society* for the use of *derivative contracts* (including a contract or asset which, wholly or in part, has the effect of a *derivative contract*);
 - (b) any provision made by such guidelines for the use of contracts under which the *friendly society* had a right or obligation to acquire or dispose of assets which was not, at the time when the contract was entered into, reasonably likely to be exercised and, if so, the circumstances in which, pursuant to that provision, such contracts would be used;
 - (c) the extent to which the *friendly society* was during the period a party to any contracts of the kind described in (b);
 - (d) the extent to which any of the amounts recorded in Form 13 would be changed if assets which the *friendly society* had a right or obligation to acquire or dispose of under *derivative contracts* outstanding at the end of the period (being in the case of *options*, only those *options* which it is prudent to assume would be exercised) had been so acquired or disposed of;
 - (e) how different the information provided pursuant to (d) would have been if such *options* as were outstanding at the end of the period had been exercised in such a way as to change the amounts referred to in (d) to the maximum extent;
 - (f) how different the information provided pursuant to (d) and (e) would have been if, instead of applying to contracts outstanding at the end of the period, they had applied to *derivative contracts* outstanding at such other time during the period as would have changed the amounts referred to in (d) and (e) to the maximum extent;
 - (g) the maximum loss which would be incurred by the *friendly society* on the failure by any one other person to fulfil its obligations under *derivative contracts* outstanding at the end of the period, both under existing market conditions and in the event of other foreseeable market conditions, together with an assessment of whether such maximum loss would have been materially different at any other time during the period;

- (h) the circumstances surrounding the use of any *derivative contract* held at any time during the period which did not fall within 13(2) of Appendix 4, or (where appropriate) within the definition of *permitted derivative contract*; and
 - (i) the total value of any fixed consideration received by the *friendly society* (whether in cash or otherwise) during the period in return for granting rights under *derivative contracts* and a summary of contracts under which such rights have been granted.
- (9) For the purposes of 10, a *friendly society* which is a party to –
- (a) a *contract for differences*; or
 - (b) any other contract which is to be, or may be, settled in cash,
- must be taken to have a right or obligation to acquire or dispose of the assets underlying the contract.

Appendix 7:

General Insurance Business: Revenue Account and Additional Information (Forms 20 to 23A)

1 All the Forms included in the part of the FSC3 Return to which this Appendix relates (Forms 20 to 23A) are to be completed as required by this Appendix.

PRA

Premiums

2 In all Forms to which this Appendix relates, amounts required to be shown in respect of *premiums* must be shown before deduction for commissions.

PRA

3 For the purposes of Form 23 –

PRA

- (a) *gross premiums* earned in respect of a period must be such proportion of *gross premiums* written as is attributable to risks borne by the *friendly society* during that period; and
- (b) the reinsurers' share of *premiums* earned must be attributed to the same period as the corresponding *gross premiums* earned, so as to calculate the net earned *premium* for the period.

Unearned premiums

4 In Form 21, the basis on which unearned *premiums* are calculated and the reason for adopting this basis must be stated by way of supplementary note.

PRA

Acquisition costs

5 The basis used for the determination of amounts for acquisition costs (other than commission) payable in the period in question and carried forward to the next period, as shown at line 22 of Form 22, must be stated by way of a supplementary note to that Form.

PRA

Claims

6 In all Forms to which this Appendix relates, amounts required to be shown for *claims* must not include amounts in respect of *claims management costs*.

PRA

7 (1) In Form 23, where an amount or number is required to be shown for *claims* in respect of a period, that amount or number must be determined on the basis of *claims* arising from incidents occurring during that period.

PRA

- (2) For the purposes of (1), an incident giving rise to a claim under a *claims-made policy* must be deemed to occur on the earlier of -
 - (a) the date on which it is notified in accordance with the terms of that policy; or
 - (b) the date on which the period for which cover is provided under that policy expires.

Reinsurance

- 8 **Where the reinsurers' share of *claims* incurred (as stated in Form 22) includes amounts expected to be recovered from reinsurers more than twelve months after the payment of the underlying gross *claims* by the *friendly society*, the amount of such recoveries must be stated by way of note to Form 22.**

PRA

Administration

- 9 **Where arrangements have been made for the provision of management services to a *friendly society* by another organisation, there must be given by way of supplementary note to Form 20 a summary of the arrangements in force including details of the organisation providing the service.**

PRA

Claims management costs

- 10 (1) **In Form 22, the basis used for the determination of amounts for *claims management costs* payable in the period in question and carried forward to the following period must be stated by way of note.**

PRA

- (2) **If, in respect of any class of general insurance business –**
- (a) **no amount for *claims management costs* is shown as being carried forward to the following period, and**
 - (b) **an amount for net *claims* is shown as being carried forward to that period,**

the reason for anticipating that there will be no *claims management costs* incurred during the following period must be included in the note required by (1).

- (3) **If, within a *class of general insurance business*, a *friendly society* has ceased to effect new contracts of insurance (that is any *contract of insurance* effected by the *friendly society* other than in fulfilment of its obligations under subsisting contracts) during the period in question, the basis upon which any additional costs arising as a result of such cessation have been determined or the reason for anticipating that no such additional costs will be incurred must be included in the note required by (1).**

- (4) **Where the amount in respect of *claims management costs* carried forward included in any Form 22 has been determined after taking into account the expected investment return, the following must be stated by way of supplementary note –**

- (a) **the rates of investment return assumed; and**
- (b) **the average interval between the end of the period in question and the date by which the *claims management costs* are expected to be expended.**

Provision for unexpired risks

- 11 (1) **The amount included for the provision for unexpired risks in any Form 22 prepared in respect of a *class of general insurance business* must**

PRA

include any amount determined to be a necessary provision in relation to the reasonable expectations of the *friendly society's* policyholders and must further be determined without taking into account any surplus expected to arise on the unexpired risks falling within other *classes of general insurance business*.

- (2) Where in determining the amount of the overall provision for unexpired risks (line 13 in Form 15 less line 62 of Form 13) credit has been taken for any aggregate surplus expected to arise on the unexpired risks falling in any *class of general insurance business*, the amount of that credit must be included as a negative amount at line 19 of Form 22 for that *class of general insurance business*.
- (3) Where the amount included at column 3 of line 19 (provision for unexpired risks) in any Form 22 has been determined after taking into account the expected investment return, the following must be stated by way of supplementary note –
 - (a) the provision for unexpired risks before taking such investment return into account;
 - (b) the rates of investment return assumed; and
 - (c) the average interval between the end of the period in question and the date at which *claims* are expected to be settled in cash.

Cessation of business

12

If the *friendly society* has not effected any new contracts of insurance (that is any *contract of insurance* effected by the *friendly society* other than in fulfilment of its obligations under subsisting contracts of insurance) of any one or more *classes of general insurance business* during the period, the date on which the last new contract of each such *class* was effected must be stated by way of supplementary note to Form 20.

PRA

General insurance business statement

13

The following information must be given in Form 23A –

PRA

- (a) the date to which the investigation relates;
- (b) the date to which the latest previous investigation under rule 5.2; and
- (c) a synopsis of the report by the *appropriate actuary* on his investigation into the financial condition of the *friendly society* in respect of its *general insurance business*, including the actuary's assessment of the financial viability of the *friendly society* and his interpretation of the reasonable expectations of its members.

Appendix 8:

Long-Term Insurance Business: Revenue Account, Other Revenue Account and Additional Information (Forms 40 To 45)

1 Forms 40 to 45 are to be completed as required by this Appendix.

PRA

2 (1) All amounts must be shown in sterling and, except for valuation unit prices, may only be shown to the nearer £1,000 in the circumstances described in rule 5.25.

PRA

(2) A note must be included in the *FSC return* stating the bases of conversion for amounts in currencies other than sterling in accordance with 2 of Appendix 6.

(3) Valuation unit prices must be shown to the same accuracy as used in the valuation.

3 Where a *friendly society* maintains more than one *long-term insurance business* fund, other revenue account fund or members surplus and savings accounts, a statement must be annexed to Forms 40, 40A and 40C giving the principles and methods applied to apportioning the investment income, increase or decrease in the value of assets brought into account, expenses and taxation between the different funds and accounts.

PRA

4 The box marked “Name of Fund/Summary” in each Form must be completed by the inclusion of a discrete name or number to identify each fund or, if the Form relates to a part of the fund, the fund of which it is part. Where there is only one fund for ordinary *long-term insurance business* or for *industrial assurance business* or for some other revenue account fund, as the case maybe, the number “1” must be shown in the box marked “No. of Fund/Summary”. Where the Form is a summary Form the number “99” must be inserted in that box. The box marked “No. of part of fund” must show a discrete number for each part of a fund or the figure “0” if the Form is a statement of the whole fund.

PRA

5 In Form 40 –

PRA

(a) any item of income which cannot properly be allocated to lines 11, 12, 13, 14, or 14a must be entered in line 15, and similarly, any item of expenditure which cannot properly be allocated to lines 21, 22, 23 or 24 must be entered in line 25. Particulars of such items must be specified in a supplementary note;

(b) where a *friendly society* decides to allocate to the *long-term insurance business* the whole or any part of investment income and/or net capital gains arising from assets not attributable to its *long-term insurance business*, the amounts in question must be shown as a transfer in line 14a or 26 and particulars must be specified in a supplementary note;

(c) the entry at line 12 is to exclude value re-adjustments on investments and gains on the realisation of investments, which must be shown in lines 13 or

14 as appropriate;

- (d) the entry at line 11 is to exclude any change in the provision for unearned *premiums*; and
- (e) the entry at line 21 is to exclude *claims management costs*, which must be included in line 21 of Form 40B, and any change in the provisions of *claims*.

6 Where arrangements have been made for the provision of management services to a *friendly society* by another organisation, there must be given by way of supplementary note to Form 40B a summary of the arrangements in force including details of the organisation providing the service.

PRA

7 Societies conducting combined sickness and savings business must, in respect of members surplus and savings accounts, complete separate Forms 40C for the transactions which have been classified as relating to *long-term insurance business* and for the transactions which have been classified as not relating to *long-term insurance business*.

PRA

8 Forms 41 to 45 are to be completed separately in respect of each fund for which a separate *long-term insurance business* revenue account fund is required to be prepared in Forms 40.

PRA

9 In Form 41, in dividing the *management expenses* between lines 43, 44 and 45;

PRA

- (a) costs of a non-recurring nature, such as those incurred in developing new systems, new premises, or the costs of corporate re-structuring, must normally be shown in line 45;
- (b) the costs incurred in writing new business (or in obtaining incremental (but not indexed) *premiums* on existing business), such as underwriting, policy issue, setting up (or amending) records and the maintenance and development of the sales and marketing organisation must be reported in line 43; and
- (c) the balancing item will be expenses related to the ongoing costs throughout the year of maintaining the business in force (including any investment management costs) and must be reported in line 44.

10 In Form 43 –

PRA

- (a) the basis on which assets have been valued must be stated in a supplementary note;
- (b) the aggregate value of rights (gross of *variation margin*) and the aggregate amount of liabilities (gross of *variation margin*) under *derivative contracts* (or in respect of contracts or assets which have the effect of a *derivative contract*) must be stated in a supplementary note. The corresponding figures net of *variation margin* must also be stated. For this purpose, rights and liabilities must not be set off against one another unless
 - (i) such rights and liabilities may be set off against each other in accordance with generally accepted accounting principles, and

- (ii) such set off results (in whole or in part) from the closing out of obligations under a contract; and
- (c) where there is a liability to repay *variation margin* and there are no arrangements for netting of amounts outstanding or the arrangements would not permit the accounting of such amounts on a net basis in accordance with generally accepted accounting principles it must be so stated in a supplementary note.

11 In Form 44 –

- PRA**
- (a) double counting of items arising from cross investment between *internal linked funds* is to be eliminated;
 - (b) any item of income which cannot properly be allocated to lines 11, 12 or 13 must be entered in line 14, and similarly, any item of expenditure which cannot properly be allocated to lines 21, 22, 23, 24 or 25 must be entered in line 26 and particulars of such items must be specified in a supplementary note; and
 - (c) the gross value of units created must be shown in line 11 and the gross value of units cancelled must be shown in line 21.

12 In Form 45 –

- PRA**
- (a) Column 3 must show the provision for tax on unrealised capital gains as a percentage of the taxable unrealised capital gain. Similarly, column 4 must show the provision for tax on realised capital gains as a percentage of the taxable realised capital gain;
 - (b) the liquidity percentage in column 5 must be the sum of the values of *approved securities*, short-term deposits and cash held by the fund, less any liabilities included in column 6 or 7 of Form 43 shown as a percentage of the *net asset value* in column 8 of Form 43; and
 - (c) where there is more than one series of units for any *internal linked fund* the valuation price of each series of unit must be given in column 6 together with the name of that series of unit.

13 In Forms 43 and 45, self-invested *internal linked funds* (where the *policyholder* selects the investments to which his or her policy is linked) or adviser *internal linked funds* (where a financial adviser selects the investments to which a policy is linked) may be aggregated if (in either case) they meet the following conditions:

- PRA**
- (a) there is a precise matching of the assets of the fund with the corresponding unit liabilities;
 - (b) there is no negative liquidity in the fund (that is, the sum of the values of approved securities, short-term deposits and cash held in the fund exceeds the total of the liabilities in columns 6 and 7 of Form 43); and
 - (c) the *policyholder* is periodically (at least annually) provided (by the *friendly society* or the financial adviser) with the information on the investments that would otherwise be provided in the return if the funds were not aggregated,

whether in the format of the relevant Forms or not.

Appendix 9:

Abstract of Actuarial Investigation (Forms 46 to 61A)

The following information must be given in Form 61A of the *FSC return* and

- (i) the answers must be numbered to accord with the corresponding numbers of this Appendix;
- (ii) all amounts must be shown in sterling and, except for valuation unit prices, may only be shown to the nearer £1,000 in the circumstances described in rule 5.25;
- (iii) valuation unit prices must be shown to the same accuracy as used in the valuation; and
- (iv) yields must be shown as percentages to two decimal places.

1. The *valuation date*.

PRA

2. The date to which the latest previous investigation under rule 5.1 related.

PRA

3. A statement that the valuation has been made in conformity with 5 in Appendix 5 or, where this was not the case, such qualification, amplification or explanation as necessary.

PRA

4. (1) Subject to (2), for each category of *non-linked contract* which –

PRA

- (a) comprises *accumulating with-profit policies*, a full description of the benefits, including –
 - (i) the circumstances in which, and method by which, an adjustment to the identifiable current benefit attributable to a policy could be made on the payment of any claim, including by full or partial surrender, or upon the determination of the amount of any charges deducted under the policy together with a description of the *friendly society's* policy and past practice in this regard;
 - (ii) where the discounted value of the liability in respect of current benefits including vested bonuses shown in column 12 of Form 52 is less than the full amount of the current benefit shown in column 11 and the discounted value assumes the exercise of any discretionary adjustments of the type referred to in (a)(i), a general description of such adjustments made during the period;
 - (iii) any guaranteed investment returns or bonus rates;

- (iv) any guaranteed surrender values; and
 - (v) any material options;
- (b) comprises policies (other than those included in (a)) which provide for benefits to be determined on the basis of interest accrued (at a rate to be determined from time to time) in respect of *premiums* paid, a full description of the benefits, including –
- (i) the method used to calculate surrender values;
 - (ii) any guaranteed investment returns;
 - (iii) rates of interest applied during the period;
 - (iv) any guaranteed surrender values; and
 - (v) any material options; and
- (c) does not fall within (a) or (b) and which is not sufficiently described by the entry in column 1 of Form 51, a full description of the benefits, including any *premium* rate guarantees and material options.
- (2) Information required under (1) need not be provided for any category of contract –
- (a) where no contracts were effected by the *friendly society* during the period; and
 - (b) which has been included in Forms 51 or 52 under the miscellaneous headings specified in 20(3)(e)(vi) and 20(3)(e)(x).

5. (1) Subject to (4), for each category of *linked long-term contract* –

PRA

- (a) the name given to that category;
- (b) the type of contract, classified according to the categories set out in 20(3)(a), (b), (c), (d) and (e);
- (c) a statement of the frequency of *premiums*;
- (d) a brief description of the benefits under the contract, including any eligibility to participate in profits, any guarantees and any material options;
- (e) details of any guaranteed investment returns;
- (f) a description of the way in which the *friendly society* recovers out of policies its costs (including acquisition expenses and commission, renewal expenses and commission and the costs attributable to the provision of policy benefits). Where the policy provides for the allocation of units, the annual rate of any management charges must be given. Where the amount of

***premiums* deemed to be invested after allowing for the effect of any charges is greater than the amount of the *premiums*, an explanation must be given;**

- (g) details of any restrictions on increases in charges;
 - (h) the method used to calculate surrender or transfer values;
 - (i) whether benefits are (or may be) determined (whether wholly or in part) by reference to the value of an *internal linked fund* or to the value of assets or an index. Where the link is to the value of assets or an index, those assets or that index must be specified and details of the relationship between their value and benefits payable to *policyholders* must be given;
 - (j) a brief description of any other features of the contract not disclosed which are material to the method and basis of valuation;
 - (k) whether the contract was open to new business in the period to the *valuation date*; and
 - (l) any increases in the rates of charges applied generally to contracts during the period, including charges for the provision of policy benefits met by the cancellation of units notionally allocated to contracts.
- (2) Where the terms and conditions and the method and basis for determining the amount of the *long-term liabilities* are not materially different for a number of categories of contract, only one description need be given pursuant to (1), provided that the name of each such category is given in the *friendly society's* response to (1)(a).
- (3) For each category of *linked long-term contract* which contains a with-profits option, the information required by 4(1)(a) must also be given.
- (4) Information required under (1)(a) to (k) and (3) need not be provided for any category of contract
- (a) where no contracts were effected by the *friendly society* during the period; and
 - (b) which has been included under the miscellaneous heading in Form 53 or 54.
- (5) A description of the method, or if there is more than one method of the methods and the types of unit to which each applies, used for the creation and cancellation of units in the *internal linked fund* and determining unit prices for the allocation of units to, and the cancellation of units from, policies.
- (6) A description of the method, or if there is more than one method of the methods and the types of unit to which each applies, used to determine the provision for tax on realised and unrealised capital gains and the

percentage or percentages of these gains deducted or provided for during the period.

- (7) Whenever units of the type referred to in 5 of Appendix 3 are held by an *internal linked fund*, or where *property linked benefits* are linked to such units, the rate of discount, commission or other allowance made to the *friendly society* on the purchase, sale or holding of units and the extent to which the *policyholder* or member benefits from such discount, commission or other allowance.

6. (1) The general principles and methods adopted in the valuation including specific reference to the following

PRA

- (a) the method by which account has been taken of *derivative contracts* or contracts or assets having the effect of *derivative contracts* in the determination of the amount of the *long-term liabilities*;
- (b) the method by which due regard has been given to the reasonable expectations of *policyholders* as required by 5 in Appendix 5 by which account has been taken of the custom and practice of the *friendly society* in the manner and timing of the distribution of profits or the grant of discretionary additions over the duration of each policy, as required by 6(6) in Appendix 5;
- (c) where the net *premium* method has been used, whether and to what extent it has been modified, for what purposes any such modification has been made and whether any modifications on account of *zillmerising* conform to 9 in Appendix 5;
- (d) whether any negative reserves arose and the steps taken to ensure that no *contract of insurance* was treated as an asset, as required by 14 in Appendix 5;
- (e) whether any specific reserve has been made for future bonuses and, if so, at what rate or rates;
- (f) the basis of the provision made for any prospective liability for tax on unrealised capital gains;
- (g) in the case of *linked long-term contracts* and contracts falling within 4(1)(a) and 4(1)(b), the basis of the reserve made for any investment performance guarantees; and
- (h) the basis of the reserve made for any guarantees and options (other than investment performance guarantees included in (g)).
- (2) For the purpose of (1) where, in determining the provisions referred to in (1)(f) or the reserves referred to in 7(7) or 7(8), account has been taken of the fact that the fund has been brought into Form 58 at book value in accordance with 2(6) of Appendix 4, that fact must be stated.

7. PRA
- (1) Unless shown in Forms 51, 52, 53 or 54, the rates of interest and tables of mortality and morbidity assumed in the valuation of each category of contracts.
 - (2) If the tables used have not been published, full details of the rates of mortality or morbidity used.
 - (3) A general description of how the tables of mortality and morbidity assumed in the valuation of the various categories of contract have regard to the State of the *commitment*.
 - (4) Details of any allowance made for future reductions in the rates of mortality in the tables of mortality assumed in the valuation of annuity contracts.
 - (5) Details of any allowance made, and the amount of any reserve held, for any possible detrimental impact of significant changes in the incidence of disease or developments in medical science on the mortality and morbidity experience of the *friendly society* in the tables of mortality and morbidity assumed in the valuation of contracts.
 - (6) A description of all the scenarios of future changes in the value of assets which have been tested in order to take account of the nature (including currency) and term of the assets held in determining the amount of the *long-term liabilities* in accordance with 16 in Appendix 5 identifying that scenario which produces the most onerous requirement (whether or not a reserve is thereby required).
 - (7) The amount of any reserve made pursuant to 16(a) in Appendix 5, together with a brief description of the method used and assumptions made to calculate any such reserve.
 - (8) In respect of that scenario described under (6) which produces the most onerous requirement (whether or not a reserve is thereby required), the amount of any reserve made pursuant to 16(b) in Appendix 5, together with –
 - (a) a description of the changed assumptions made (other than the changed interest rate stated in Form 57) in calculating such requirement;
 - (b) a brief description of the method used to calculate such requirement; and
 - (c) resulting from the application of such changed assumptions –
 - (i) the change in the aggregate amount of the *long-term liabilities*, and
 - (ii) the aggregate amount by which the assets allocated to match such liabilities in the scenario have changed in value from the amount of those assets shown in Form 13.

- (9) A general description of how the rates of interest assumed in the valuation of the various categories of contract with liabilities denominated in currencies other than sterling have taken into account the currency of the liabilities.

8. (1) In respect of *non-linked contracts* –

PRA

- (a) where appropriate, the proportion of the office *premiums* explicitly or implicitly reserved for expenses and profits for each type of insurance (as shown in column 8 of Form 51 or column 10 of Form 52);
- (b) the method by which a reserve has been made for expenses after *premiums* have ceased or where no future *premiums* are payable or where the method of valuation does not take credit for future *premiums* as an asset;
- (c) where a prospective method of valuation has not been used, details of the tests made of the adequacy of the method used; and
- (d) where in valuing contracts falling within the circumstances described in 8 of Appendix 5, future *premiums* brought into account are not in accordance with that rule, such additional information as is necessary to demonstrate whether the *mathematical reserves* determined in the aggregate for each of the main categories of contract are greater than an amount for each such category calculated in accordance with 6 to 16 in Appendix 5.

- (2) Where the *mathematical reserves* (after deduction of reinsurance cessions) determined in the aggregate for all categories of contracts referred to in (1)(d) represent less than 5% of the total *mathematical reserves* (after deduction of reinsurance cessions) for all *non-linked contracts*, it is sufficient for the actuary to state that the *mathematical reserves* for each such category of contracts are not less than the *mathematical reserves* that would be determined on a net *premium* reserving basis which, in that case, must be specified by the actuary in the abstract.

9. For each category of *linked long-term contract*: -

PRA

- (a) all assumptions made in calculating the valuation net liability in columns 12 and 13 of Form 53 and 54; and
- (b) where an explicit reserve has not been made for meeting the expenses likely to be incurred in future in fulfilling the existing contracts on the basis of specific assumptions in regard to the relevant factors, details of the basis used in testing the adequacy of the reserves to satisfy 12(1) of Appendix 5.

10. (1) The assumed levels of inflation of expenses and the basis used in the valuation to allow for such future inflation.

PRA

- (2) The aggregate amount, grossed up for taxation where appropriate, arising during the twelve months after the *valuation date* from implicit and explicit reserves made in the valuation to meet expenses in fulfilling contracts in force at the *valuation date* and a general description of the sources of such amounts.
- (3) The method and basis of calculation of the requirement (whether or not a reserve is thereby required) in respect of the expenses of continuing to transact new business during the twelve months following the *valuation date* and the amount of the reserve so calculated.
- (4) The method and basis of calculation of the requirement (whether or not a reserve is thereby required) to provide for the costs of closure to new business, if the *friendly society* were to cease to transact new business twelve months after the *valuation date* and the amount of the reserve so calculated.

11.

- (1) A schedule of the sum of the *mathematical reserves* (other than liabilities for *property linked benefits*) and the liabilities in respect of deposits received from reinsurers as shown in Form 14, analysed by reference to the currencies in which the liabilities are expressed to be payable together with the value of the assets, analysed by reference to currency, which match such liabilities.

PRA

- (2) In the schedule required by (1), liabilities totalling up to 2% of the total required to be analysed may be grouped together as "other currencies", and the assets matching those liabilities need not be analysed provided that the proportion of such liabilities which are matched by assets in the same currency is stated.

12.

- (1) For *long-term insurance business* ceded on a facultative basis to a reinsurer who is not authorised to carry on *insurance business* in the United Kingdom at any time during the period, the aggregate of *premiums* payable by the *friendly society* to all such reinsurers (divided according to *financial years*, if appropriate) and the aggregate amount deposited at the *valuation date* under any *deposit back arrangement*; and the amount of any such *premiums* payable by the *friendly society* to a reinsurer with whom the *friendly society* is connected and the aggregate amount deposited at the *valuation date* under any *deposit back arrangement*.

PRA

- (2) For each treaty of reinsurance where the *friendly society* is the cedant and under which business is in force at the *valuation date* –
 - (a) the name of the reinsurer;
 - (b) whether the reinsurer is authorised to carry on *insurance business* in the United Kingdom;
 - (c) whether the *friendly society* and the reinsurer are connected;

- (d) an indication of the nature and extent of the cover given under the treaty, including a description of any material contingencies, such as credit risk or legal risk, to which the treaty is subject;
 - (e) the *premiums* payable by the *friendly society* under the treaty during the period;
 - (f) the amount deposited at the *valuation date* in respect of the treaty under any *deposit back arrangements*;
 - (g) the extent to which provision has been made for any liability of the *friendly society* to refund any amounts of reinsurance commission in the event of lapses or surrender of the contract; and
 - (h) whether the treaty is closed to new business.
- (3) For each 'financing arrangement' –
- (a) the amount of any undischarged obligation of the *friendly society* and a brief description of the conditions for the discharge of such obligation; and
 - (b) a description of how, if at all, all such undischarged obligations have been taken into account in the valuation, including a description of the impact of the arrangement on the reported valuation result and any allowance made for material contingencies, such as credit risk or legal risk, associated with the financing arrangement for the purposes of the return.
- (4) In this paragraph –
- (a) financing arrangement means any contract entered into by the *friendly society*, in respect of *contracts of insurance* of the *friendly society*, which has the effect of increasing the amount of assets included at line 34 of Form 9, representing assets of the *friendly society* which are available to meet its *required minimum margin for long-term insurance business*, and which includes terms for –
 - (i) the transfer of assets to the *friendly society*, the creation of a *debt* to the *friendly society* or the transfer of liabilities to *policyholders* from the *friendly society* (or any combination of these), and
 - (ii) an obligation on the *friendly society* to return (with or without interest) some or all of such assets, a provision for the diminution of such *debt* or a provision for the recapture of the liabilities, in each case, in specified circumstances; and
 - (b) a reinsurer is connected with a *friendly society* if it is a *related undertaking* of the *friendly society*.

13. (1) Subject to (2), for each *with-profits fund*⁹, except where such information is provided elsewhere in the FSC 1 return –
- PRA**
- (a) a revenue account in the format of Form 40 with a supplementary note stating the amount, if any, of investment income relating to *linked assets* included in line 12; and
 - (b) a statement of liabilities and margins in the format of Form 14 with a supplementary note stating the amount, if any, of the increase or decrease, as the case may be, in the value of *non-linked assets*.
- (2) Where the amount (or part of the amount) of any increase or decrease in *non-linked assets* has yet to be allocated between *with-profits funds* or between one or more *with-profits funds* and other purposes, the information required by (1)(b) in aggregate for that amount or part amount, with a supplementary note which:

⁹*With-profits fund* includes subfunds (whether notional or real).

- (a) identifies the *with-profits funds* to which the information relates;
 - (b) provides the information in lines 11 to 49 of Form 14 separately in respect of each *with-profits fund*; and
 - (c) without prejudice to 14(2), describes the basis upon which increases or decreases in the value of *non-linked assets* are, or will be, allocated between the *with-profits funds* or between the *with-profits funds* and other purposes.
14. (1) The principles on which the distribution of profits among *policyholders* and members is based as described in any of the following documents:
- PRA**
- (a) the *memorandum*, if any, and the registered rules of the *friendly society*;
 - (b) *committee* resolutions of the *friendly society*;
 - (c) any policy or contract issued by the *friendly society*
 - (d) any advertisement issued by or on behalf of the *friendly society*;
 - (e) any document required to be issued under the rules in the Conduct of Business Sourcebook or which was required to be issued by any regulatory body recognised under the Financial Services Act 1986; and
 - (f) any other relevant document.
- (2) For each *with-profits fund*, a description of the *friendly society's* policy and (insofar as it may be relevant to *policyholders' reasonable*

expectations) its past practice as to:

- (a) how the *with-profits fund* is defined, which assets, liabilities, income and expense are allocated to it and how the amounts of such assets, liabilities, income and expense are determined;
 - (b) whether any non-profits *insurance business*, or any profit on it, is attributed to the *with-profits fund* and, if so, the nature and volume of such business;
 - (c) how assets within the *with-profits fund* are invested;
 - (d) the level of surplus or free reserves to be maintained in the *with-profits fund*; and
 - (e) the relationship between the performance of the *with-profits fund* and discretionary benefits allocated to *policyholders* including:
 - (i) whether an asset-share methodology, or equivalent methodology, is used or is to be used and, if so, how asset shares are calculated (including whether and how investment income, increases or decreases in the value of investments or other assets, expenses, miscellaneous surpluses and deficits, taxation and other items of income and expense are attributed to asset shares) and how they relate to the benefits actually allocated to *policyholders*;
 - (ii) an indication of how, under different scenarios as to the performance of the fund, discretionary benefits are to be smoothed from period to period;
 - (iii) the pattern of allocation for discretionary benefits over the life of a *with-profits policy*, including the balance between annual and terminal bonuses;
 - (iv) how fairness is maintained between different categories of policy and different categories of *policyholder* and between *policyholders* collectively and the *friendly society* itself; and
 - (v) any other factors which are material to the allocation of discretionary benefits to *policyholders*; and
 - (vi) the principles followed by the *friendly society* in setting actual proportions of profits distributed to *policyholders* and shareholders.
- (3) A description of the methods used to ensure that the aims described in (2) are achieved.
- (4) Subject to (5), if different principles or bonus policies apply to different categories of *with-profit policies* issued by the *friendly society*, the

information in (1) to (3) must be given in respect of each category.

- (5) Categories of *with-profits policies* which, apart from this paragraph would require separate information in accordance with (4) need only be listed under this paragraph, and the information in (1) to (3) need not be supplied, provided that
- (a) the aggregate amount of *established surplus* allocated to *policyholders* in all such categories is less than 10% of the aggregate amount of *established surplus* allocated to all *policyholders* (as reported at line 46 of Form 58);
 - (b) the amount of *established surplus* allocated to *policyholders* in any one such category is less than 5% of the aggregate amount of *established surplus* allocated to all *policyholders* (as reported at line 46 of Form 58); and
 - (c) none of the categories was introduced during the period.

15.

PRA

- (1) Particulars of the bonus allocated to each category of contract, including the basis of calculation and the circumstances and the form in which the bonus is payable, together with –
- (a) where the rates of bonus allocated depend on the original term of the contract or on the period of years a contract has been in force, specimen rates at 5-year intervals of original term or duration, as the case may be;
 - (b) where the rates of bonus allocated depend on the age of the life assured, specimen rates at 10-year intervals of age;
 - (c) where the rates of bonus allocated depend on the date of each previous *premium* payment, specimen rates at 5-year intervals of time since the *premium* was paid, and for *premiums* paid in each of the five years ending with the current year; and
 - (d) in all other cases, full details of the rates of bonus allocated.
- (2) Where the rates of bonus allocated depend on a formula or a series of formulae, then the formula or formulae must be listed instead of the specimen rates. Wherever appropriate, rates of bonus are to be expressed as a fraction of the attribute of the contract to which they are related, e.g. as rates per £1000 of the sum assured and existing bonuses.
- (3) Information required under (1) need not be provided for any category of contract –
- (a) where no contracts were effected by the *friendly society* during the report period; and
 - (b) which has been included under the miscellaneous heading in Forms 51, 52, 53 or 54.

16. (1) A statement of practice regarding any bonus payments (in addition to those for which the *friendly society* had become contractually liable) to be made on *claims* arising in the period up to the next investigation, including the basis of calculation and the form in which the bonus is payable, together with –
- PRA
- (a) where the rates of bonus depend on the original term of the contract or on the period of years a contract has been in force, specimen rates at 5- year intervals of original term or duration, as the case may be;
 - (b) where the rates of bonus depend on the age of the life assured, specimen rates at 10-year intervals of age;
 - (c) where the rates of bonus depend on the date of each previous *premium* payment, specimen rates at 5-year intervals of time since the *premium* was paid, and for *premiums* paid in each of the five years ending with the current year; and
 - (d) in all other cases, full details of the rates of bonus.
- (2) Where the rates of bonus depend on a formula or a series of formulae, then the formula or formulae must be listed instead of the specimen rates. Wherever appropriate, rates of bonus are to be expressed as a fraction of the attribute of the contract to which they are related, e.g. as rates per £1000 of the sum assured and existing bonuses.

Form 46

17. (1) A statement in Form 46 summarising changes in *long-term insurance business* for all non-group contracts. Information is to be given gross of reinsurance ceded and must be provided separately for United Kingdom and overseas business, taxable and non-taxable business, and in each case for *non-linked contracts* and *linked long-term contracts*. For group contracts only the number of contracts in force at the end of the period is to be given in a note to the appropriate statement.
- PRA
- (2) In Form 46 –
- (a) the figures for annual *premiums* must include repeated or recurrent single *premiums* where the level of *premium* is defined;
 - (b) for *hybrid-linked contracts*, movements between linked and non-linked business must be shown in lines 13 and 27 as appropriate; and
 - (c) only claim payments which result in the termination of a contract providing cover for other insured events must be shown in line 22.

Form 47

18. (1) Separate statements in the form set out in Form 47 analysing new *long-term insurance business* for United Kingdom business and overseas business, taxable and non-taxable business, and in each case for *non-linked contracts* and *linked long-term contracts*. New business must be
- PRA

shown gross of reinsurance ceded and must include increases to *premiums* on existing policies, and in dealing with such increases, columns 2 and 5 must be left blank.

- (2) Single *premium* contracts must consist of those contracts under which there is no expectation of continuing *premiums* being paid at regular intervals and additional single *premiums* paid in respect of existing individual contracts must be included. Regular *premium* contracts must include those contracts under which *premiums* are paid at regular intervals during the policy year, including repeated or recurrent single *premiums* where the level of *premium* is defined.
- (3) The information must be shown separately and totalled within each section in the sequence
 - (i) tax exempt business
 - (ii) taxable business.
- (4) The information must be shown separately and totalled within each section in the sequence –
 - (i) United Kingdom direct written business
 - (ii) United Kingdom reinsurance accepted
 - (iii) overseas direct written business
 - (iv) overseas reinsurance accepted.
- (5) The information is to be analysed and totalled within each type of business in the following sequence –
 - (i) life assurance and general annuity business
 - (ii) pension business
 - (iii) permanent health business
 - (iv) other business.
- (6) The information is to be further analysed and sub-totalled in the following sequence –
 - (i) *accumulating with-profit policies*
 - (ii) *non-linked with-profits policies*
 - (iii) *non-linked non-profit policies*
 - (iv) *index linked contracts*
 - (v) *other linked long-term contracts*

and where a policy falls within more than one of the categories, it must be placed in the first appropriate category.

- (7) Within each sub-division required under (5) and (6), the appropriate types of insurance from the following list are to be shown separately –
- (i) whole life assurance
 - (ii) endowment assurance
 - (iii) pure endowment assurance
 - (iv) term assurance
 - (v) other assurance (to be specified)
 - (vi) deferred annuity
 - (vii) annuity in payment
 - (viii) other annuity (to be specified)
 - (ix) permanent health insurance
 - (x) capital redemption assurance
 - (xi) annuity certain
 - (xii) group pension
 - (xiii) group life
 - (xiv) group permanent health
 - (xv) other group (to be specified).
- (8) In the case of group contracts, the information to be given is to relate to new contracts and increments under existing contracts. The amount of the increment under an existing contract must be taken to be the increase in the annual *premium* shown in Form 51, 52, 53 or 54 as appropriate, over the previous highest level shown in those Forms. Decreases in any year for an existing contract are to be ignored.

Forms 48 and 49

19. (1) Separate statements of *long-term insurance business assets* (other than assets held to match *property linked or index linked liabilities*) are to be given in Forms 48 and 49 in respect of each fund or group of funds for which separate assets are appropriated. The word "Total" or the name of the fund must be shown against the heading "Category of assets".
- (2) A brief description of the extent to which any of the amounts recorded in Form 48 would be changed if assets which the *friendly society* had a

right or obligation to acquire or dispose of under *derivative contracts* or contracts having the effect of *derivative contracts* outstanding at the end of the period (being in the case of *options*, only those *options* which it would have been prudent to assume would be exercised) had been so acquired or disposed of.

- (3) A brief description of how different the information provided pursuant to (2) would have been if such *options* as were outstanding at the end of the period had been exercised in such a way as to change the amounts referred to in (2) to the maximum extent.
- (4) A brief description of how different the information provided pursuant to (2) and (3) would have been if, instead of applying to contracts outstanding at the end of the period, they had applied to *derivative contracts* outstanding at such other time during the period as would have changed the amounts referred to in (2) and (3) to the maximum extent.
- (5) In Form 48 –
 - (a) the expected income is to be given as the amounts before deduction of tax which would be received in the next period on the assumption that the assets will be held throughout the period and that the factors which affect income will remain unchanged but account must be taken of any changes in those factors known to have occurred by the *valuation date* (in particular, changes of the type (a), (b), (c) or (d) denoted in 10(5) of Appendix 5). The expected income shown in this Form must be that determined before any adjustments considered necessary because of 10(6) or (7) of Appendix 5;
 - (b) where a particular asset is required to be taken into account only to a specified extent by the application of the admissibility limits, the expected income from that asset must be included only to the same extent;
 - (c) the treatment of the expected income from any asset where the payment of interest is in default and the amount of interest involved must be stated in a supplementary note;
 - (d) where the yield in column 3 for a type of asset shown in line 17, 18 or 19 of the Form (assumed to be zero for assets in line 19) is significantly different from the *weighted average of the yields* for each asset of that type determined in accordance with 10(7) of Appendix 5, then the latter yield figure must be shown in a note to the Form. For this purpose, the *weighted average of the yields* means an average yield weighted by the value of each asset of that type as entered in column 1; and
 - (e) where an entry at 13.87.1 has resulted from excess *exposure* to a *counterparty* or *excess concentration with a number of counterparties*, the aggregate value of the assets of the *friendly society* giving rise to *exposure* to such *counterparties* must be stated in a supplementary note, together with the expected

income from those assets.

- (5A) In Form 48, to the extent that paragraph 10(5A) of Appendix 5 has not been, or would otherwise not be required to be, applied to calculate the yield on equity *shares* or holdings in *collective investment schemes*, that rule may be ignored (in which case paragraph 10(5) will apply) for an amount up to the higher of £5 million or 5% of the value of equity *shares* and holdings in *collective investment schemes* required to be reported in Form 48.
- (5B) To the extent that a yield greater than zero on equity *shares* or holdings in *collective investment schemes* is not needed for the purpose of determining rates of interest under paragraph 10 of Appendix 5, paragraphs 10(5) and (5A) may be ignored for an amount of up to 1% of the value of equity *shares* and holdings in *collective investment schemes* required to be reported in Form 48, and the relevant yield will be taken as zero.
- (6) In Form 49 –
- (a) the gross redemption yield in columns 2 and 5 for each asset must be calculated as in 10(3), (4) and (6) of Appendix 5, leaving out of account any adjustment considered necessary because of 10(7) of Appendix 5. Where a number of assets with different gross redemption yields are held, the weighted average gross redemption yield must be calculated using as weights the value of the asset applicable for entry into columns 1 and 4 respectively;
- (b) the value of admissible higher yielding assets to be shown in columns 3 and 6 must be the value of admissible assets as shown in Form 13 where the gross redemption yield on those assets exceeds the gross redemption yield shown in columns 2 and 5 respectively by at least 1.5%; and
- (c) where *securities* may be redeemed over a period at the option of the guarantor or the *issuer*, they must be classified on the assumption that they will be redeemed at the latest possible date or, if it is assumed that they will be redeemed at any earlier date, a note must be provided explaining what assumption has been made.

Forms 51, 52, 53 and 54

20. (1) Separate statements in Forms 51, 52, 53 and 54 and separate valuation summaries must be completed in respect of each separate fund or part of a fund for which a surplus is determined under rule 5.1.
- (2) Separate totals for column 5 on Form 51 and columns 5, 6 and 7 on Forms 52, 53 and 54 must be shown for sums insured, for annuities per annum and for other measures of benefit.
- (3) In relation to Forms 51, 52, 53 and 54 –

PRA

- (a) information must be shown separately and totalled for each of the following –
 - (i) United Kingdom business
 - (ii) Overseas business;
- (b) the information must be shown on separate pages and totalled for each type of business in the following sequence –
 - (i) life assurance and general annuity business – taxable
 - (ii) life assurance and general annuity business – non-taxable
 - (iii) pension business
 - (iv) permanent health business – taxable
 - (v) permanent health business – non-taxable
 - (vi) other business;
- (c) the information is to be further analysed and sub-totalled for –
 - (i) direct written business
 - (ii) reinsurance accepted
 - (iii) reinsurance ceded

and totals net of reinsurance ceded are also to be shown, provided that where any information to be provided in accordance with (c)(iii) duplicates any information required to be provided in accordance with (d), (e) and (f) in respect of (c)(i) or (ii), then for the purpose of (c)(iii), the total of the reinsurance ceded may be shown in respect of the duplicated information;
- (d) the information must be further analysed and sub-totalled within each basis of participation in profits in the following sequence –
 - (i) *with-profits policies*
 - (ii) *non-profit policies*;
- (e) within each sub-division required under (b), (c) and (d) the appropriate types of insurance from the following list must be shown separately –
 - (i) whole life assurance
 - (ii) endowment assurance

- (iii) pure endowment assurance
- (iv) term assurance
- (v) other assurance (to be specified)
- (vi) miscellaneous assurance
- (vii) deferred annuity
- (viii) annuity in payment
- (ix) other annuity (to be specified)
- (x) miscellaneous annuity
- (xi) permanent health insurance
- (xii) capital redemption assurance
- (xiii) annuity certain,
- (xiv) group pension
- (xv) group life
- (xvi) group permanent health
- (xvii) other group (to be specified)

and particulars must also be shown of any subsidiary provisions within *general insurance business class 1 or 2*;

- (i) Forms 51 and 52 – each category of contract which is valued on a different valuation basis;
 - (ii) Form 53 – each category of contract which provides different guarantees or options, and each category of unit link. For the purpose of determining the category of the unit link, all authorised unit trusts may be considered to be one category and all *internal linked funds* may be considered to be one category;
 - (iii) Form 54 – each category of contract which provides different guarantees or options, and each category of index. Where the link is to a proportion of an index each different proportion must be treated as a different category;
- (g) any contract which consists of a combination of different types of insurance, as described in (e), must be treated as a number of separate contracts each dealing with one of the different types of insurance so combined and the amount by which the total number of contracts shown in column 4 of any valuation

summary exceeds the actual number of contracts to which that valuation summary relates must be stated in a supplementary note;

- (h) for *linked contracts* with both *property linked* and *index linked benefits*, each benefit must be shown on Form 53 or 54 as appropriate, and a note must be attached describing the manner in which details relating to the number of contracts and the amounts of benefits, *premiums* and other liabilities have been treated. Where the number of contracts is overstated in aggregate, the amount of the overstatement must be stated in a supplementary note;
- (i) for *linked contracts* which are also *accumulating with-profits policies*, that part of the benefits which are with-profits must be shown on Form 52 and the remainder of the benefits on Form 53 and/or 54 as appropriate, and a note must be attached describing the manner in which details relating to the number of contracts and the amounts of benefits, *premiums* and other liabilities have been treated. Where the 31 December 2010 136 number of contracts is overstated in aggregate, the amount of the overstatement must be stated in a supplementary note;
- (j) reserves calculated on an aggregate basis (including reserves for taxation on capital gains, for investment performance guarantees or other special reserves) or adjustments must be shown on separate lines in the *mathematical reserves* column and the particulars of such reserves or adjustments must be specified;
- (k) contracts the nature of which or the method of valuation of which makes it impossible or inappropriate to give the information in the exact form required by Forms 51, 52, 53 and 54 must be shown on a separate valuation summary with appropriately modified column headings and the reason for the modification stated in a supplementary note; and
- (l) where a net premium method of valuation is not used for contracts reported on Form 51 then, notwithstanding (k)–
 - (a) columns 7 and 8 must be left blank;
 - (b) if the method used does not separately identify suitable values to be entered in columns 9 and 10, then the total amount of *mathematical reserves* must be entered in columns 9 and 12, and columns 10 and 11 must be left blank; and
 - (c) if the method used does separately identify suitable values to be entered in columns 9 and 10, then the entry in column 11 must be the amount entered in column 10 less the amount reserved for future expenses, so that the amount in column 12 equals the

amount in column 9 less the amount in column 11.

Forms 55 and 56

21.

PRA

- (1) **Separate analyses of unit liabilities in Forms 55 and 56 in respect of each separate fund or part of a fund for which a surplus is determined under rule 5.1.**
- (2) **The analyses of unit liabilities must also include liability in respect of any amounts deposited with the *friendly society* under a *deposit back arrangement* which are either unit liabilities in respect of *property linked benefits* or investment liabilities in respect of *index linked benefits*.**
- (3) **In the event that the liability for a specific fund link is wholly reinsured so that entries in columns 8 and 9 of Form 55 are omitted in accordance with (4)(g), if such be the case, a statement to the effect that the provisions of rule 4.11 have been complied with in accordance with any published guidance in relation to the liabilities so reinsured.**
- (4) **In Form 55 –**
 - (a) **separate Forms must be prepared in respect of *internal linked funds* and directly held assets;**
 - (b) **separate line must be used for each asset to which benefits are linked and each different type of unit of each *internal linked fund*;**
 - (c) **columns 5, 6, 7, 8, 9 and 10 must be sub-totalled for each fund link and totalled for all links;**
 - (d) **the aggregate of the total figures shown for column 8 (excluding any amount shown in column 8 pursuant to (h)) and 9 in each Form prepared in respect of a separate fund or part of a fund must equal the appropriate figure shown as the total of column 12 of Form 53;**
 - (e) **for links to directly held assets, column 6 must not be used;**
 - (f) **for *internal linked funds*, the total of column 5 must equal the total of column 8 of the summarised Form 43, and the total of column 6 must equal the total of column 3 of the summarised Form 43;**
 - (g) **where the liability shown in column 11 of Form 53 for a specific fund link is wholly reinsured with a reinsurer, being an insurer (other than an EEA firm) with permission under the Act to effect or carry out contracts of reinsurance or another *friendly society*, so that entries in columns 8 and 9 of this Form would otherwise be identical, the entries in respect of that fund link must be aggregated and shown on a separate line with the name of the fund link to be shown in column 1 as "wholly reinsured"; and**

- (h) any amounts included in this analysis in accordance with (2), being unit liabilities in respect of *property linked benefits* deposited with the *friendly society* under a *deposit back arrangement*, must (for each *internal linked fund* or directly held asset), be shown on a separate line with the name of the unit type to be shown in column 2 as "amounts deposited back".
- (4A) In Form 55, where the conditions in paragraph 13 of Appendix 8 are met, selfinvested *internal linked funds* and adviser *internal linked funds* may (in either case) be aggregated.
- (5) In Form 56 –
 - (a) assets and liabilities in column 2 must be listed individually except that where a group of assets of similar type is held which is intended to mirror the performance of an index, a description of the type of assets held may be given. Liabilities must be shown between round brackets and must be fully described;
 - (b) a separate sub-total of assets and liabilities must be used for each index link and for each combination of assets and liabilities matching the *friendly society's* liability under any *deposit back arrangement*. Links to different percentages of an index must be treated as different index links;
 - (c) for each index link, the sub-totalled values in column 2 (excluding those held in respect of any *deposit back arrangement*) must match the appropriate entries in column 12 of Form 54 net of reinsurance ceded;
 - (d) assets and liabilities arising from *derivative contracts* (or contracts or assets which have the effect of a *derivative contract*) must be shown separately. Amounts must be shown net of *variation margin* in column 31 December 2010 138 2 and gross of *variation margin* in column 3. Rights to recover assets transferred by way of *initial margin* must not be shown on Form 56;
 - (e) where there is a liability to repay *variation margin* and there are no arrangements for netting of amounts outstanding or the arrangements would not permit the accounting of such amounts on a net basis in accordance with generally accepted accounting practice, it must be so stated in a supplementary note to the Form; and
 - (f) any provision for adverse changes must be determined in accordance with 4 of Appendix 5 and shown in a supplementary note to the Form.

Form 57

22. (1) Separate statements in Form 57 for each fund or group of funds for which separate assets are appropriated in respect of all *long-term*

PRA

liabilities except –

- (a) the unit liabilities in respect of *property linked benefits* as shown in column 12 of Form 53;
 - (b) the investment liabilities in respect of *index linked benefits* as shown in column 12 of Form 54;
 - (c) any reserve in respect of provisions made for tax on unrealised capital gains in arriving at the valuation price of *internal linked funds*; and
 - (d) the liabilities in respect of any amounts deposited with the *friendly society* under a *deposit back arrangement* which are either unit liabilities in respect of *property linked benefits* or investment liabilities in respect of *index linked benefits*.
- (2) A general description of the method by which the yield on assets other than equity *shares* and land was adjusted in accordance with 10(7) of Appendix 5.
- (3) For assets which are equity *shares* or land, a description of the categories into which such assets were divided for the purposes of 10(7) of Appendix 5, together with the method and basis by which the yield on such assets was adjusted in accordance with that rule.
- (4) In relation to Form 57 –
- (a) a separate Form must be completed in respect of each fund or group of funds for which separate assets are appropriated. The word "Total" or the name of the fund must be shown against the heading "Category of assets";
 - (b) separate Forms must be prepared for sterling and non-sterling liabilities;
 - (c) separate Forms are required for with-profit and non-profit contracts within the following types of business –
 - (i) life assurance and annuity business
 - (ii) pension business
 - (iii) permanent health business
 - (iv) other business;
 - (d) separate Forms are required for each rate of interest used in the valuation in pursuance of 10(12) of Appendix 5 and may include all contracts valued at the same rate, subject to (b) and (c). Contracts valued at a lower rate of interest but subject to the same apportionment of assets may also be included provided that the rationale for such inclusion is given in a supplementary note. Each of the valuation rates of interest used must be shown

against the heading "Rate of interest". The highest valuation rate of interest used must be shown in line 31 or 32 as appropriate;

- (e) the Forms specified in (a), (b), (c) and (d) must exclude the liabilities described in (1)(a) to (d) and must cover at least 90% of the remaining *long-term liabilities*. The balance of the remaining *long-term liabilities* must be shown in a separate Form in which lines 31 and 32 must be left blank, and details of the contracts covered by the Form must be given in a supplementary note to the Form. The word "Balance" must be shown against the heading "Rate of interest";
- (f) a summary of all the separate Forms must be produced as a separate Form in which lines 31 and 32 must be left blank. The word "Total" must be shown against the heading "Rate of interest";
- (g) the risk adjusted yield in columns 2 and 6 for each asset included in column 1 and 5 respectively must be that calculated as in 10(3) to (6) of Appendix 5, taking account of any adjustment considered necessary because of 10(7) of Appendix 5. Where a number of assets with different risk adjusted yields are held, the weighted average risk adjusted yield must be calculated using as weights the value of the asset applicable for entry into columns 2 and 6;
- (h) the value of each asset included in column 1 must be the value attributed to it in Form 13 and the assets will be grouped according to Note 1 to Form 48 including adjustments in respect of accrued interest as required by that Note;
- (i) where the valuation has been carried out at a net rate or rates of interest the figure in line 31 must be the net rate grossed up at the corresponding effective rate of tax in respect of the highest valuation rate of interest used in the Form;
- (j) the mathematical reserve in line 33 must include any increase in reserve resulting from the bonus declaration for the year and must be net of reinsurance ceded;
- (k) the entries shown at columns 3, 4, 5 and 6 must be those applicable to the scenario described in the answer to 7(8). The entries in column 3 must be the value of the assets shown in column 1 according to the changed assumptions of that scenario. The entries in column 4 must be the value of assets on the changed assumptions for each type of asset notionally re-allocated to cover the mathematical reserve or other liability, net of reinsurance, in the resilience scenario. The entries in column 5 must equal the sum of the entries in columns 3 and 4; and
- (l) the entries in line 29, column 1 must equal the entries in line 33, column 1. The entries in line 29, column 5 must not be less than

the entries in line 33, column 5.

Form 58

23. (1) Separate statements of the results of the valuation in Form 58 in respect of each separate fund or part of a fund for which a surplus is determined under rule 5.1.
- PRA
- (2) In relation to Form 58 –
- (a) where interim, mortuary or terminal bonuses are determined in advance of a valuation and are paid in anticipation of surplus arising at the valuation, the amounts of such bonus actually paid in the period up to *valuation date* must be entered in lines 12 and 41. To the extent that it is the practice of the *friendly society* to make specific provision for the cost of such bonuses payable on future *claims* out of surplus arising at a valuation, such amounts must be treated as amounts allocated to *policyholders* and members at the valuation in question and included in line 44 and the actual amounts paid must not appear at lines 12 and 41 at future valuations. An appropriate note must be appended identifying the various items where necessary; and
- (b) where policies have been transferred from one fund to another, the associate transfer of reserves must not be included as a "transfer" in this Form. Where any other transfer has been made, only one positive figure must be inserted in either line 15 or line 34 (depending on the direction of the net transfer) leaving the other line blank.

Forms 60, 11 and 12

24. (1) A statement of the *required minimum margin* for *long-term insurance business* in Form 60 and of the *required margin of solvency* for *Class IV* business and the subsidiary provisions in Forms 11 and 12, in accordance with instruction 8 for completion of Form 60.
- PRA
- (2) If the gross annual office *premiums* for *Class IV* business and the subsidiary provisions in force on the *valuation date* do not exceed 1% of the gross annual office *premiums* in force on that date for all *long-term insurance business*, Forms 11 and 12 need not be completed provided it can be stated that the entry in line 51 of Form 60 exceeds the amount that would be obtained if Forms 11 and 12 were to be completed. In this circumstance, the method of estimating the entry in line 51 of Form 60, together with a statement of the gross annual office *premiums* in force at the *valuation date* in respect of *Class IV* business and the subsidiary provisions, must be given. When completing Forms 11 and 12, the accounting conventions appropriate for *general insurance business* should be followed, but reasonable approximations may be used if they are unlikely to result in an underestimate of the *required margin of solvency*.

FSC 1 – Notes to Forms 48 and 49

1. Where Form 13 is for the same fund or group of funds:-

- the entry at 48.11.1 must be equal to 13.11.1.
- the entry at 48.12.1 must be equal to 13.45.1 and the appropriate part of 13.84.1.
- the entry 48.13.1 must be equal to 13.46.1 and the appropriate part of 13.84.1.
- the entry 48.14.1 must be equal to 13.47.1 and the appropriate part of 13.84.1.
- the entry at 48.15.1 must be equal to 13.42.1 + 13.48.1 and the appropriate part of 13.84.1.
- the entry at 48.16.1 must be equal to 13.41.1 + 13.43.1.
- the entry at 48.17.1 must be equal to 13.50.1 and the appropriate part of 13.84.1.
- the entry at 48.29.1 must be equal to 13.87.1 + 13.89.1 – 13.58.1 – 13.59.1.

The appropriate part of the entry at 13.84.1 to be included in lines 12 to 15 is that part which represents accrued interest on assets included in the relevant line of Form 48. The amounts so included shall be stated in a supplementary note to Form 48.

- 2.
- The entries at 48.12.3, 48.13.3, 48.14.3 and 48.15.3 must be equal to 49.19.2, 49.29.2, 49.19.5 and 49.29.5 respectively. Subject to paragraphs 19(5A) and (5B) of Appendix 9, the yields to be inserted in column 3 of form 48 for other categories of asset must be the running yields determined in accordance with paragraphs 10(3) to (6A) in Appendix 5.
 - The entry at 48.29.3 must be the weighted average of the yields in column 3 of Form 48, where the weight given to each asset is the value of that asset applicable for entry into column 1; assets not producing income must be included in the calculation.
 - The entries at 49.19.1, 49.19.2, 49.19.4, 49.19.5, 49.29.1, 49.29.2, 49.29.4 and 49.29.5 must be equal to the values at 48.12.1, 48.12.3, 48.14.1, 48.14.3, 48.13.1, 48.13.3, 48.15.1 and 48.15.3 respectively.
 - The entries at 49.19.2, 49.19.5, 49.29.2 and 49.29.5 must be the weighted average of the yields in columns 2 and 5 as appropriate for lines 11 to 18 and 21 to 28 respectively, where the weight given to each yield is the value shown in columns 1 and 4 respectively.

NOTES

1. The appropriate factor specified in rule 1(2)(a) and 2(3) and (4) of Appendix 1.
2. Line 19 equals line 13 x Line 17 x relevant factor.
3. Capital at risk must be shown after distribution of surplus.
4. Line 39 equals line 32 x [line 21 x .001 + line 22 x .0015 + line 23 x .003] for Classes I and II or line 32 x line 29 x 0.003 for classes III and VII.
5. Any additional mathematical reserves shown at line 63 to Form 14 must be included in this Form (applied to all relevant classes)
6. For Class V business, the amount of the required margin of solvency must be stated in a note to the form and must be included in line 51
7. For class III and VII business, the entry at line 20 is 25% of the financial year's net administrative expenses pertaining to business for which the friendly society bears no investment risk and the allocation to cover management expenses is not fixed for a period exceeding five years. (Appendix 1 para 2(4)).
8. For class IV business and subsidiary provisions taken together, Forms 11 and 12 in Appendix 10 must be completed and appended to Form 60 (unless the Forms would be blank or paragraph 24(2) of Appendix 9 permits the friendly society not to complete the Forms). Lines 44 and 49 of Form 12 should be left blank. For the purposes of these Forms "health insurance" is health insurance based on actuarial principles that meets the conditions set out in paragraph 7 of Appendix 2. The entry at line 51 of Form 60 must equal the entry at 51.43 of Form 12 plus the amount to be included for class V business (see note 6).

We certify that:

- (a) (i) the information in this Return complies with the rules in IPRU(FSOC) and proper records have been kept by the society adequate for the purpose of the valuation of the liabilities of its long term insurance business;
- (ii) the sum of the mathematical reserves and the deposits received from reinsurers as shown in Form 14 together, if the case so requires, with £..... (being part of the excess of the value of the admissible assets representing the long term insurance business funds over the amount of those funds shown in Form 14) constitute proper provision at the end of the financial year for the long term insurance liabilities (including all liabilities arising from deposit back arrangements, but excluding liabilities which have fallen due before the end of the financial year) including any increase in those liabilities arising from a distribution of surplus as a result of any investigation as at that date into the financial condition of the long term insurance business; and
- (iii) for the purpose of sub-paragraph (ii) above the liabilities have been assessed in accordance with Appendix 5 in the context of assets valued in accordance with Appendix 4, as shown in Form 13;
- (iv) premiums for contracts entered into during the financial year and income earned thereon are sufficient, on reasonable actuarial assumptions, and taking into account the other financial resources of the society that are available for the purpose, to enable the society to meet its commitments in respect of those contracts, and, in particular, to establish adequate mathematical reserves; and
- (v) In preparing this Return, we have taken and paid due regard to advice from every *actuary* appointed by the society to perform the *actuarial function* in accordance with SUP 4.3.13R

- (b) The amount of the required minimum margin of solvency applicable to the society's long term insurance business immediately following the end of the financial year (including any amounts resulting from any increase in liabilities arising from a distribution of surplus as a result of the investigation into the financial condition of the long term insurance business) is £.....
- (c) We have the following additional comments (use extra pages).

We confirm also that the society consents to a copy of this Return being placed on the public file of the society.

2 As at the end of the previous period

Deductions (under paragraphs 15(2)(b) and 15(3) of Appendix 4) from the aggregate value of assets

87

Total (71 to 86 less 87)

88

Grand total of admissible assets (39 + 69 + 88)

89

RECONCILIATION TO ASSET VALUES
DETERMINED IN ACCORDANCE WITH
ACCOUNTS REGULATIONS (Note 1):

Total admissible assets (as per line 89 above)

91

Total assets in excess of the admissibility limits of Appendix 4 (as valued in accordance with those rules before applying admissibility limits) (Note 2)

92

[deleted]

93

Other differences in the valuation of assets (other than for assets not valued above)

94

Assets of a type not valued above (as valued in accordance with the Accounts Regulations) (Note 3)

95

Total assets determined in accordance with the Accounts Regulations (91 to 95)

99

Amounts included in line 89 attributable to debts due from associated bodies, other than those under contracts of insurance or reinsurance

100

FSC 3 – Notes to Form 13

1

The Accounts Regulations refer to the Friendly Societies (Accounts and Related Provisions) Regulations 1994.

2

The admissibility limits are those applied under Annex B to Appendix 4.

3

‘Assets of a type not valued above’ refers to assets left out of account under 2(3) of Appendix 4.

4

If the amount shown at line 12 of Form 15 has had to be increased because of restrictions on discounting (see note 2 to Form 15), the reinsurers' share shown at line 61 must be adjusted to be consistent with the amount shown in Form 15.

CERTIFICATE OR STATEMENT FORM FSC4

given by the appropriate actuary pursuant to rule 5.2(3)

Period ended 31 December

The appropriate actuary is requested to complete the certificate in section A, or if unable to do so, the statement in section B. The chief executive of the society is requested to sign section C.

SECTION A

CERTIFICATE

I, ⁽¹⁾, CERTIFY that in my opinion there has been no material change in the financial condition of ⁽²⁾ in respect of its insurance business since the society sent the last abstract of the appropriate actuary's report (on the society's financial condition as at ⁽³⁾) to the appropriate regulator under rule 5.2(2) which would be likely to result in the value of the liabilities (including any required margin of solvency) exceeding the value of the assets should a full investigation be undertaken as at ⁽⁴⁾. I am unaware of any circumstances arising between the year end to which the certificate relates and the date on which it is signed which would cause the society to fail to meet its minimum solvency requirement ⁽⁵⁾ / the society's liabilities to exceed its assets ⁽⁵⁾.

Signed Date

Fellow of the of Actuaries

SECTION B

STATEMENT

I, ⁽¹⁾, am unable to give a certificate in the form set out in section A above in respect of ⁽²⁾.

Signed Date

Fellow of the of Actuaries

SECTION C

Signed (Chief Executive) Date

Notes to sections A, B and C

- (1) insert full name of appropriate actuary*
- (2) insert name of friendly society*
- (3) insert effective date of last actuarial abstract*
- (4) insert date of year end to which the certificate relates*
- (5) delete as appropriate – on the basis of rule 4.1*

***The form should be sent to
Regulatory Data Group, Statistics and Regulatory Data Division (HO5 A-B), Bank of England,
Threadneedle Street, London, EC2R 8AH***

Annex 1:

Guidance on Corporate Governance of Friendly Societies

This Annex sets out the *PRA*'s view of best practice in the corporate governance of *friendly societies*.

The committee of management

1.

FCA	PRA
-----	-----
- (1) The *committee* should meet regularly, retain full and effective control over the *friendly society* and monitor the executive management, subject always to the authority vested in members either directly or through delegate bodies, either annually or at other properly constituted meetings.
 - (2) The effectiveness of a *committee's* arrangements for monitoring the performance of executive management and for the overall control and direction of the *friendly society* are important tests of its compliance with the *PRA* principles for business in particular principles 2 (“Skill, care and diligence”) and 3 (“Management and control”).
 - (3) There should be appropriate arrangements such as a clearly accepted division of responsibilities at the head of a *friendly society*, which will ensure a balance of power and authority, such that no one individual can exert undue influence.
 - (4) The *1992 Act* envisages that the offices of Chairman and Chief Executive would be separately held.
 - (5) In relation to the size of the *friendly society*, the *committee* should include nonexecutive members of sufficient number for their views to carry significant weight in the *committee's* decisions.
 - (6) A *committee* should have non-executive members of sufficient quality, breadth of experience and calibre for their views to carry weight in the *committee's* decisions and who, individually, can devote the necessary time and attention to the *friendly society's* business.
 - (7) There should be an agreed procedure for any member of the *committee* to seek additional information from the executives and to take independent professional advice at the *friendly society's* expense; as may be necessary in the furtherance of his/her duties.

Non-Executive members of the committee of management

2.

FCA	PRA
-----	-----
- (1) Non-executive members of the *committee* should bring an independent judgement to bear on issues of strategy, performance, resources, including key appointments, and standards of conduct.
 - (2) In assessing whether a candidate for election has an appropriate level of competence, consideration should be given to his or her previous experience of similar responsibilities, the record in

performing them and, where appropriate, whether the candidate has relevant qualifications and training. Also important is the individual's ability to bring informed, independent judgement to bear on the issues considered by the *committee*.

- (3) They should be independent of management and free from any business or other relationship which could materially interfere with the exercise of their independent judgement.
- (4) If fees are paid they should reflect the time which non-executives commit to the *friendly society* and the particular responsibilities related to the size, complexity and diversity of the *friendly society's* business.
- (5) Non-executive members should be elected for specified terms subject to the ceiling imposed by paragraph 6(1)(a) of Schedule 11 to the *1992 Act*; and re-election should not be automatic. Candidates for election as non-executive members should be selected from as wide a constituency as possible.

Executive members of the committee of management

3.

FCA	PRA
-----	-----

- (1) Where appointments of senior executives are subject to a formal service contract for a fixed term, the term should not exceed 3 years.
- (2) In the case of any other service contract the period of notice which the *friendly society* has to give to terminate the contract should not exceed 1 year.
- (3) There should be full and clear disclosure of the total emoluments and terms of appointment (including notice) of all of the members of the *committee*.
- (4) Such disclosure would normally be given in the accounts issued by the *friendly society* to its members.

Annex 2:

Guidance on Officers' Liability Insurance

Introduction

1. PRA This Annex draws attention to the need for a *committee of a friendly society* to consider whether to purchase and maintain liability insurance for *officers* and to make sure that the terms of any such policy are fully understood and meet the *friendly society's* needs. A *committee* should disclose the fact that the *friendly society* has purchased or maintained such insurance in the *committee's* annual report.

Section 106

2. PRA Section 106 of the 1992 Act provides that a *friendly society* cannot exempt its *officers* (including the *appropriate actuary*) or auditors from liability for negligence, default, breach of duty or breach of trust, or indemnify them against such liability. A *friendly society* may, however, indemnify its *officers* or auditors against liability for defence against proceedings where judgement is favourable or the person is acquitted. Section 106 also provides that a *friendly society* can purchase and maintain insurance against any such liability.

3. FCA PRA A *friendly society* which attempts either directly or indirectly (eg, via a year end bonus) to compensate its *officers* for any liabilities arising as a result of error or omission would contravene the provisions of section 106. Such contravention would also clearly risk breaching principle 2 of the *PRA* Principles for Businesses (conduct of business with due skill, care and diligence).

Duty of care

4. PRA Annex 3 (Guidance on Systems of Accounting, Control of Business and Inspection and Report) draws attention to the increasing risks faced by *friendly societies* in the light of the increasing complexity of operations and the increasing pace of change and risks in the financial markets. These factors have led to an increase in the risk that errors and omissions will occur which may give rise to substantial liabilities for *officers*.

5. FCA PRA Annex 3 also draws attention to the special duty of care that the *officers* of a *friendly society* have in respect of protecting the interests of *policyholders*. This duty is recognised in the *PRA* and *FCA's* Principles for Business, including principle 6 of the *FCA's* Principles for Businesses (paying due regard to *policyholders* interests and treating them fairly). In the *PRA's* view, because of the increasing risk of error and omission, and the possibility that any liabilities which may arise as a result could be substantially greater than an *officer's* or *officers'* financial resources to cover them, that duty of care places a responsibility on a *committee* to consider whether the *friendly society* should obtain indemnity insurance cover for appropriate *officers* in the interests of members (see 6).

Liability insurance

6. **The PRA will expect any committee that has not already done so to give formal consideration to whether to obtain indemnity insurance cover against error and omission for appropriate officers (eg. committee and senior executives). The committee may wish to take into account a number of factors including: the implications of the risks inherent in the nature and scale of the friendly society's business; the cost of the indemnity insurance premiums; and officers' concerns about the risk of liability that they face because of their duties and responsibilities for the friendly society. The minutes of the meeting at which the issue was formally discussed by the committee should record the decision reached and underlying reasoning.**

PRA

7. **A committee which decides to obtain and maintain indemnity insurance cover for its officers will need to ensure that the implications of the policy terms and conditions, and particularly of the list of exclusions, are fully understood. The best starting point may be for the committee to decide the key elements it thinks are essential for such a policy before considering, in conjunction with its professional advisers, whether the terms and conditions of specific policies adequately meet those requirements.**

PRA

8. **The committee of a friendly society which has obtained suitable indemnity cover should not relax its approach to minimising the risks of liability arising from error and omission. It is very important that a committee takes every step it can to ensure its friendly society's systems are adequate to minimise the risks: systems of control should be sufficient to minimise the risk of errors or omissions occurring; systems of inspection and report need to be capable of identifying any such problems at an early stage, so that matters can be rectified quickly before substantial damage has occurred.**

PRA

Reporting requirements

9. **For companies subject to the requirements of the Companies Acts the fact of the purchase and/or maintenance of indemnity insurance against officers' and auditors' liabilities should be disclosed in the directors' report to the annual accounts. The PRA considers that the committee of a friendly society which obtains and/or maintains such an insurance policy should similarly disclose the fact to members in the committee's annual report.**

PRA

Annex 3

Part I:

Guidance on Systems of Accounting, Control of Business and Inspection and Report

1. FCA PRA This Part of the Annex sets out the key issues that the *PRA* considers the *committee* and the management of a *friendly society* need to address if the *friendly society's* systems are to satisfy the principle 3 of the *PRA* Principles for Business. That principle requires a *friendly society* to take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems. The *PRA* expects that these issues will have been considered by a *non-directive friendly society's committee* in preparing its reports under rule 3.1.

A. INTRODUCTION

Background

2. PRA Rule 3.1 requires the *committee* of a *friendly society* to send a statement of opinion (also referred to in this note as the rule 3.1 report) to the *PRA* each year on the compliance of the *friendly society* with that section.

3. PRA This Annex provides practical guidance to *friendly societies* about the key issues in the *PRA's* view that:

- (a) need to be addressed if the requirements of rule 3.1 are to be satisfied; and
- (b) need to be considered by the *friendly society's committee* in preparing its reports to the *PRA*,

and also provides guidance on the format of reports.

Application of rule 3.1

4. PRA Experience among financial institutions generally continues to demonstrate the importance for the protection of investors of adequate systems of control. As far as *friendly societies* are concerned the powers under the 1992 Act, the increasing complexity of *friendly societies' operations* (including activities carried on by the controlled bodies of *incorporated friendly societies*) combined with the increased pace of change in financial markets emphasises the need for such systems. Rule 3.1 requires *friendly societies* to:

- (a) cause adequate accounting records to be kept; and
- (b) establish and maintain systems of control of business and records and of inspection and report.

These requirements are intended to form a sound basis for the control of *friendly societies' businesses* and the protection of *policyholders' funds*. The

requirements of rule 3.1 apply to *friendly societies* and *registered branches*.

5. Chapter 3 covers the roles of *committees*, and the *PRA* with regard to systems and reporting. As with other prudential provisions, it is the responsibility of the *committee* of a *friendly society* to ensure the requirements of rule 3.1 are met and to be able to demonstrate that to the *PRA*. The *PRA* sees the main elements of the *committee's* responsibilities to be:

FCA PRA

- (a) establishing and maintaining arrangements for the continuous review of systems, including those for new business;
- (b) [deleted]
- (c) assessing whether the *friendly society* (including any *registered branches*), or the *friendly society* and any controlled bodies (“the group”), has complied with the relevant requirements of the Act, *PRA* rules made under the Act and the 1992 Act for the period under review and, as necessary, identifying any shortcomings in compliance with the requirements, together with the corrective actions taken or proposed, including timetable;
- (d) preparing and submitting the rule 3.1 reports required by the *PRA* from the *committee* by the due date; and
- (e) discussing with the *PRA* any issues arising from these reports and, where appropriate, corrective actions taken or planned.

Satisfying the requirements of rules 3.1

6. It would not be practical to document all the possible considerations the *committee* and management of a *friendly society* will have to take into account in considering whether their *friendly society* satisfies the requirements of rule 3.1. This note therefore focuses on the main issues which, in the opinion of the *PRA*, need to be addressed by the *committee* and by the management of a *friendly society* if the *friendly society* is to satisfy the requirements of rule 3.1. Where the chief executive of a *friendly society* is not also a member of the *committee*, it is nevertheless still important that he or she gives full consideration to these issues - not least because the chief executive is required to be a signatory to the *committee's* reports to the *PRA* under rule 3.1. This note includes a framework which the *PRA* believes can be applied to all *friendly societies* but also recognises the considerable diversity in nature, scale and scope of *friendly societies' operations*.

PRA

7. The *PRA* expects that the issues set out in this Annex will have been addressed prior to the preparation of the rule 3.1 report.

PRA

Friendly societies with registered branches

9. Rules 2.2 and 2.3 require a *friendly society* with *registered branches* to supervise the activities of the branches, notwithstanding the duties of the *committees* and managements of those branches. This includes supervision of compliance with the requirements of rule 3.1. The management information provided to the *committee* and management of a *friendly society* which has

PRA

registered branches will need to include information about the activities of the *friendly society* as a whole (see 18).

Business standards

10. Principle 3 of the *PRA* Principles for Businesses requires a *friendly society* to take reasonable care to organise and control its affairs responsibly and effectively, with adequate risk management systems. The high standards needed for the management of a *friendly society* apply not only to accounting records and controls, but more broadly to business controls over all aspects – including key management information – of the business carried on by a *friendly society*.

FCA PRA

B. ACCOUNTING RECORDS AND SYSTEMS

11. The principal reasons why a *friendly society* (including any *registered branch*) or a group is required by rule 3.1 to maintain adequate accounting and other records are:

FCA PRA

- (a) to provide the *committee* and management of a *friendly society* (or a branch) with adequate financial and other information to enable them to conduct its business in a prudent manner on a day to day basis;
- (b) to enable members of the *committee* to fulfil their statutory duties in relation to the preparation of annual accounts in accordance with sections 69 and 70 and the regulations made under section 70 of the *1992 Act* (currently the *Accounts Regulations*);
- (c) to safeguard the assets of the *friendly society* (or branch) and to protect the interests of *policyholders*;
- (d) to enable the *friendly society* (or branch) properly to discharge the duties imposed on it by or under the *Act*, *PRA* rules made under the *Act* and the *1974 Act* and/or the *1992 Act*; and
- (e) to provide the *committee* and the management of the *friendly society* (or branch) with sufficiently timely and accurate information to enable them to submit the information required or requested by the *PRA*.

12. When forming their opinion on whether the accounting and other records are adequate, the *committee* and chief executive of a *friendly society* should assess the scope and nature of the records in the context of the *friendly society's* needs and particular circumstances. They should have regard to the manner in which the business is structured, organised and managed, as well as the size and nature of the *friendly society* and the volume and complexity of its transactions and commitments. In particular, they will need to satisfy themselves that the records:

FCA PRA

- (a) are kept in legible form and/or are capable of reproduction in a legible form to be inspected or made available for inspection;
- (b) are such that adequate precautions are taken for guarding against the possibility of falsification and for facilitating the discovery of

falsification should that occur;

- (c) are such that sufficient information is available to enable the rights and reasonable expectations of the *policyholders* to be determined;
- (d) capture and record on a timely basis, and in an orderly fashion every transaction and commitment which a *friendly society* or any *registered branch* enters into with sufficient information about each to explain:
 - (i) its nature and purpose;
 - (ii) the assets and/or liabilities, actual and contingent, which arise or may arise from it;
 - (iii) the income and/or expenditure, current and deferred, which arise from it;
- (e) disclose in an orderly and integrated manner, and with reasonable accuracy and promptness, the state of the business at any time.

The *committee* and management of a *registered branch* will also need to have regard to the matters in (a) to (e).

13. The records should be maintained so as to enable the financial and business information to be extracted promptly so that the *committee* and management can monitor and control the performance of the business, the state of its affairs and the risks to which it is exposed.

PRA

C. SYSTEMS OF BUSINESS CONTROL

General

14. It is important for a *friendly society* to identify the risks associated with each area of the business it undertakes and the manner in which it carries out that business. Risks associated with the activities of any *registered branches* or controlled bodies should be similarly identified. Control objectives may then be set for each area of the business, and controls established and maintained which address appropriately the identified risks with the aim of ensuring:

PRA

- (a) the conduct of the business in a prudent manner and in accordance with the *friendly society's* statements of policy and business practice and any applicable registered rules;
- (b) that the *committee* and management have sufficient, and sufficiently reliable, financial information to enable them to effectively direct, control and monitor the business and manage the risks identified; and
- (c) compliance with all relevant statutory and regulatory requirements.

15. It is not practical for this section of the Annex to set out a comprehensive list of the risks that arise or the controls that might be established to address the risks. This section therefore focuses on general areas of concern to *friendly societies* and, in particular on the “high level” controls (see 16 to 24) that

PRA

need to be established in these areas. “High level” controls would, in this context, be the overall supervisory controls available to and exercised by the *committee* and other senior *officers* (eg chief executive) - see also B4 in Attachment B of this Annex and C2(e) and C5(b) in Attachment C of this Annex.

Organisational control systems

16. *A friendly society needs:*

PRA

- (a) clearly defined organisational arrangements together with a defined structure of authorities and responsibilities - including reporting lines – distinguishing between decisions to be reserved for the *committee* and those to be delegated to managers and other employees; and
- (b) arrangements for reviewing compliance with, and effectiveness of, organisational controls.

17. In forming their opinion on systems of business control the *committee* and chief executive of a *friendly society* need to establish whether:

FCA PRA

- (a) the *friendly society's* overall organisational arrangements are adequately defined and documented, for example in an organisational manual;
- (b) the *friendly society's* decision-making processes together with authority limits and responsibilities are adequately defined and documented, for example in operating manuals; and
- (c) compliance with approved authority limits and stipulated segregation of duties is effectively monitored and controlled.

Management information systems

18. Rule 3.1(5) requires the *committee* of a *friendly society* (including a *friendly society* with *registered branches*, see 9) or the *committee* of a *registered branch* to maintain information systems which, amongst other matters:

FCA PRA

- (a) enable the respective *committee* to direct and control the *friendly society's* business or the *registered branch's* business; and
- (b) provide information required by the *PRA* in its role of prudential supervisor.

19. In evaluating whether a *friendly society* has complied with the requirements, the *committee* and management of the *friendly society* need to satisfy themselves that:

FCA PRA

- (a) the information is sufficient to enable the *committee* to determine whether the *friendly society* is meeting the requirement to maintain adequate financial resources (see the rules in chapter 4 and also the guidance in 21);

- (b) the information available for the different areas of a *friendly society's* activities, including those of controlled bodies, is sufficient for the proper assessment of the risks (including those arising from current relevant market conditions and trends) and the proper determination of the need for capital and liquidity;
- (c) the information about the relative assets and liabilities attributable to different classes of members is sufficient to enable the *friendly society* to determine whether the reasonable expectations of each class of *policyholders* are likely to be met;
- (d) the information available is sufficiently comprehensive to provide the *committee* with a clear statement of the performance and financial position of the *friendly society* (including any *registered branches*) and, if appropriate, the group;
- (e) management information reports are prepared as regularly as necessary to ensure that the *committee* is given timely information about all aspects of the business;
- (f) actual performance is compared with planned or budgeted performance on a regular basis and significant variations are highlighted and explained (see also A6 of Attachment A of this Annex);
- (g) sufficient attention is focused on key factors affecting income and expenditure, including capital expenditure, and that appropriate performance indicators are employed; and
- (h) management information is accurately prepared from the underlying accounting and other records and is presented in a form which is clear, consistent and understandable to those persons for whom it is provided.

The *committee* and management of a *registered branch* will also need to have regard to the matters in (a) to (h) in so far as they are relevant to a branch.

20. It is important that the form and content of management information is regularly reviewed to ensure that it remains appropriate and relevant to the current pattern of a *friendly society's* business and to market conditions.

FCA PRA

21. In forming a view on whether the management information system is sufficiently comprehensive, the *committee* and management of a *friendly society* need to consider whether the information made available to them provides, where relevant, a clear statement of:

PRA

- (a) the solvency position;
- (b) the liquidity position;
- (c) surpluses and shortfalls, assets and liabilities, profits and losses in respect of controlled bodies;
- (d) the performance of investments;

- (e) for a *friendly society* which makes use of *derivative contracts* the *exposures* and uncovered transactions arising from off-balance sheet transactions; and
- (f) the financial viability of products and controlled bodies.

The *committee* and management of a *registered branch* will also need to have regard to the matters in (a) to (f) in so far as they are relevant to a branch.

22. Where the *friendly society* has controlled bodies it is particularly important that information covers all the component activities and also the overall group position.

PRA

Information for the PRA

23. Rule 3.1(5)(b) requires the systems of control and of inspection and report to be maintained to ensure that the information reported to the *PRA* is sufficiently accurate for the purpose for which it is obtained and is regularly provided. In the case of items requiring estimates or judgement by management there will inevitably be a degree of approximation involved. In these cases, the approximations should be capable of being clearly explained, and should be based on stated assumptions. Financial information should be reviewed prior to submission to the *PRA* at sufficiently senior levels in the *friendly society* to ensure, amongst other matters, consistency with any applicable guidance notes and consistency of information provided in different returns but drawn from the same data source.

PRA

Planning systems

24. The *committee* and management of a *friendly society* have to satisfy the *PRA* Principles for Businesses in respect of the *friendly society's* current and its future business. For this reason the *committee* and management need to satisfy the *PRA* that the *friendly society* currently meets the requirements of the *PRA* Principles for Businesses and in addition that there is the capacity and intention to continue to do so. A satisfactory planning system is essential for this latter purpose. Further details are set out in Attachment A of this Annex.

PRA

Documentation of systems

27. Rule 3.1(4)(b) provides that systems of control should not be treated as if they have been established or maintained unless a detailed statement in writing of the systems as in operation for the time being is kept available for the *committee*. Further details are set out in Attachment B of this Annex.

PRA

D. SYSTEM OF INSPECTION AND REPORT

28. The requirement for a *friendly society* or a *registered branch* to establish and maintain a system of inspection and report is distinct from the requirement to establish and maintain systems of control. The *PRA* expects that the system of inspection will be undertaken by one or more independent inspectors ("the inspection function"). In this context independent means independent of the functions inspected, see C3(a) at Attachment C of this Annex. The precise arrangements will depend upon the size and nature of the *friendly society* and

PRA

could therefore vary considerably. Suitable arrangements would include a department (eg an internal audit department) of one or more members of staff appointed on a full or part-time basis or inspection services provided from outside the *friendly society*, for example from an auditing firm other than the *friendly society's* auditors (who would not normally be expected to provide inspection services - see C6(a) of Attachment C of this Annex). The inspection function should report direct to the *committee* or the audit sub-committee (see 29). The needs of the smallest *friendly societies* with respect to a system of inspection and report may be very simple and it is for the *committee* of such a *friendly society* to consider how best to fulfil the requirements. Further details are set out in Attachment C of this Annex.

E. COMMITTEE REVIEW AND OVERSIGHT

29. The ultimate responsibility for ensuring a *friendly society* complies with the requirements of rule 3.1 rests with the *committee* (see 5). The *committee* will therefore need effective oversight and review procedures to be able to discharge its responsibilities, including those under rule 3.1. An audit sub-committee can assist a *committee* in this respect - although such a sub-committee cannot have delegated to it the responsibilities of the full *committee* for the systems of control and of inspection and report. The *committee* of a *friendly society* may wish to consider whether to establish an audit sub-committee, which would normally be expected to consist of nonexecutive *committee* members, to advise it on at least some of the issues it will need to consider. As with any sub-committee of the *committee*, the audit sub-committee will need to have documented terms of reference which make clear its role, responsibilities and reporting lines. It would not be appropriate for an audit sub-committee, or any of its members, to carry out inspections themselves, since this would put the members of the sub-committee in the position of being responsible for reviewing the effectiveness of their own work. The matters on which an audit sub-committee might advise include:

PRA

- (a) the review of the adequacy of the *friendly society's* system of business control;
- (b) the preparation and supervision of the *friendly society's* inspection programme;
- (c) the receiving of reports from the inspection function and reporting to the *committee* on the inspection programme together with recommendations for improvements;
- (d) the review of the effectiveness of the *friendly society's* system of inspection and report, including an assessment of the scope of work performed by the inspection function, the nature and timing of inspection reports and the adequacy of resources available to the inspection function;
- (e) the review of the adequacy of management information and other reports made available to the *committee*;

- (f) the review of the annual accounts prior to their approval by the *committee*;
- (g) any major problems arising which might have a detrimental impact upon the *friendly society's* solvency position or reputation; and
- (h) liaison with the *friendly society's* auditors, including discussion on the scope of and matters arising from the audit.

If a *friendly society* has not established an audit sub-committee the matters in (a) to (h) will need to be dealt with directly by the full *committee*.

F. ANNUAL REPORTS BY THE COMMITTEE

Statement of opinion of committee of management and chief executive

30. PRA As explained in 2 the *committee* of a *friendly society* is required to send a statement of opinion to the *appropriate regulator* every year stating whether the *friendly society* has complied with the requirements of rule 3.1 and in the case of a *friendly society* with *registered branches*, stating whether its branches have complied with the requirements.

31. The purposes of requiring an annual statement of opinion by the *committee* and chief executive are:

PRA

- (a) to focus the attention of the *committee* on the need to review and develop systems in line with the changing business environment and risks associated with it, in order to provide adequate protection to members' funds; and
- (b) to take the first step in satisfying the *appropriate regulator* that the *committee* has done so.

In forming their opinion, the *committee* and chief executive will need to consider the matters which are set out in rule 3.1 and in this Annex.

Criteria for determining compliance and non-compliance

32. PRA The *PRA* considers that rule 3.1(6) requires matters to be reported which individually or collectively are significant and which result in there not being reasonable assurance that the requirements of rule 3.1 have been complied with in some significant respect at any time during the year. The matters reported should be confined to significant shortcomings and exceptions only (see 34). It is not necessary for the reports to detail how the *friendly society* has achieved compliance with the provisions of rule 3.1. Where significant deficiencies have been identified and reported, the *PRA* expects the report to include: explanations of the shortcomings or exceptions which are sufficiently detailed to enable the *PRA* to understand the matters being reported and their seriousness without the necessity to refer to other sources of information; a statement of the corrective measures taken and/or to be taken; and date of full rectification or target timetable for completion of the corrective action. A shortcoming that has been rectified before the year end will still need to be reported, with details provided of the corrective action that

was taken and the date rectification was achieved.

34. **PRA** The *PRA* does not consider that minor deficiencies identified in the accounting records, or systems of control and of inspection and report, need to be reported provided that the *committee* and the chief executive have satisfied themselves that those deficiencies were not symptomatic of more serious problems. If a *committee* is undecided as to whether a particular marginal matter is of sufficient significance to require inclusion in its rule 3.1 report, it should seek the advice of the *friendly society's* auditors.

Matters to be reported to the PRA

35. **PRA** Circumstances in which the *PRA* would normally expect exceptions to be included in the rule 3.1 report include:

- (a) the absence of accounting records, or of systems of control, or of the system of inspection and report, or of the documentation of the systems of control necessary to enable *committee* members and other *officers* to discharge their duties;
- (b) a significant weakness or failure in any of the records or systems or documentation of those systems which occurred during the year; and
- (c) other matters which resulted, individually or collectively, in there not being reasonable assurance that the requirements of rule 3.1 have been complied with.

36. **PRA** A format for rule 3.1 reports is provided in Attachment D of this Annex.

37. **PRA** The *PRA* intends the rule 3.1 reporting process to be beneficial for the *committee* of a *friendly society*, as well as fulfilling the purposes of prudential supervision. In the normal course of events the *PRA* would not expect a qualified report to trigger the exercise of any of its powers provided there was evidence that the *committee* was carrying out its duties conscientiously and taking appropriate corrective action. Conversely, in the context of maintaining a frank and open supervisory relationship between the *PRA* and a *friendly society*, the *PRA* would view seriously any failure to disclose known significant shortcomings.

The PRA's response to reports received

39. **PRA** The reports received from *friendly societies* will, together with other information available to it, be used by the *PRA* as part of its evaluation of the position of each *friendly society* in relation to:

- (a) the requirements of rule 3.1; and
- (b) the *PRA* Principles for Businesses.

40. **PRA** When a qualified report is received the *PRA* will consider whether the corrective action appears sufficient, and whether it calls in question the adequacy of the protection of the interests of *policyholders* of the *friendly*

society. A qualification of the rule 3.1 report may not call such protection into question, provided that the report also indicates timely and effective corrective action. Before reaching any conclusions, however, a meeting with a *friendly society's committee* and/or management may be arranged, which the *friendly society's* auditors may also be asked to attend. The purposes of such a meeting would be to:

- (a) establish whether or not the matters reported are prudentially significant;**
- (b) understand fully any proposals in the report for corrective action; and**
- (c) where appropriate, agree a basis for monitoring the implementation and effectiveness of the proposals.**

Whether or not a report is qualified, the *PRA* may wish to explore the basis of the assessment by the *committee* in its report. In so doing, the *committee* may be asked to satisfy the *PRA* on how it has dealt with the various issues in this Annex.

Annex 3

Part II:

Guidance on Systems of Control Over Investments

1. **This Part of the Annex provides guidance on the main elements of systems of control over investments in conjunction with Part I of this Annex which provides guidance on Systems of Accounting, Control of Business and Inspection and Report. A and B of this Part of the Annex include guidance of general application to *friendly societies*. C provides guidance to *friendly societies* which make use of *derivative contracts*.**

PRA

A. BACKGROUND

2. **Chapter 3 includes a number of provisions with implications for the establishment and maintenance of systems of control over a society's investments - the main provisions are listed below. For ease of reference the provisions listed are split into two elements, those with general implications for the accounting records of, systems of control over, and inspection and report on a society's investments (see 3 to 5) and those which have specific implications for a society's investment policy (see 6 to 13). These lists are not intended to be exhaustive.**

PRA

3. **Principle 3 of the *PRA Principles for Businesses* requires a *friendly society* to take reasonable care to organise and control its affairs responsibly and effectively with adequate risk management systems.**

PRA

4. **Rule 3.1(1) requires every society and branch to "establish and maintain adequate systems of control of its business and records and of inspection and report".**

PRA

5. **Rule 3.1(4) requires the systems of control and inspection and report to be such as to enable the *committee* properly to discharge the duties imposed on them under the *Act*, the *1992 Act* or the *1974 Act*, and for the *committee*, the functions of direction of the affairs of the society or branch.**

PRA

Requirements with implications for investment policy

General

6. **Section 46 of the *1974 Act* (as amended by the *1992 Act*): this section provides information about the investments into which societies registered under the *1974 Act* may place funds, and includes any investment in which trustees are authorised by law to invest funds.**

PRA

7. **Section 14 of the *1992 Act*: this section provides information about the investments into which incorporated societies may place funds.**

PRA

Applicable to non-directive incorporated friendly societies

9. Rule 4.12(1) requires the assets backing insurance liabilities (other than in respect of *linked benefits*) for a *non-directive incorporated friendly society* to satisfy the following conditions:

PRA

- (a) “.....of appropriate safety, yield and marketability having regard to the *classes* of business carried on”; and
- (b) “..... investments are appropriately diversified and adequately spread and that excessive reliance is not placed on investments of any particular category or description”.

10. Rule 4.12(2) applies to the *linked long-term contracts* of a *non-directive incorporated friendly society* for which liabilities are covered by the value of assets in an internal fund, or units in a collective investment in transferable *securities*, or by reference to a share index, or by assets of appropriate safety, yield and marketability which correspond, as nearly as may be, to the assets on which the reference value is based.

PRA

11. Rule 4.12(3) also applies in respect of the *linked long-term contracts* of a *non-directive incorporated friendly society* and requires the society to secure that its liabilities under the contract in respect of *linked benefits* are covered by assets of a description specified in Appendix 3.

PRA

12. 15 of, and Annex B to, Appendix 4 specify the reductions that should be applied to the aggregate value of a *non-directive incorporated friendly society's* assets for the purposes of the determination of the society's *required margin of solvency* taking account, amongst other matters, of *permitted asset* and *counterparty exposure limits* and *excess concentration with a number of counterparties* (see 20 to 22).

PRA

B. SYSTEMS OF CONTROL

Importance of adequate controls

14. The investments a *friendly society* makes on behalf of its *policyholders* are an important area of its operations: the transactions may be large in relation to other areas of the society's business; and the effects on the society arising from negligence, error or irregularity could be significant. It is therefore important for a society to have preventative controls in place. The nature of those controls will vary with the size and nature of the society and whether or not it makes use of complex investment instruments such as *derivative contracts*. The following guidance on the systems of control over investments should be considered within the overall context of the guidance in Annex 3.

PRA

15. The systems of control over investments of societies will generally include the following features:

PRA

- (a) **documentation:** this is usually in the form of the investment policy (see 17 to 23);

- (b) a comprehensive management information system (see 24); and
- (c) adequate operational controls over investments (see 25 to 27).

16. Additional considerations for *friendly societies* which make use of *derivative contracts* are included in C (see 31 and 32).

PRA

Investment policy - general

17. It is important that the *committee* gives consideration to documenting the investment policy and takes the necessary steps to ensure that the current investment policy is being applied, and that there are systems of control which would result in the *committee* being consulted before any decision is made which may not be in accordance with the current policy. In establishing the policy a *committee* will need to take account of these rules, any requirements in the society's registered rules and advice from the *appropriate actuary* or from the person or persons appointed to perform the *actuarial function*.

PRA

18. The *committee* should ensure that the society's investment policy is one which is appropriate for the society's type of business and its business plans. The policy needs to be appropriate to the size and nature of the society, and recognise changing market circumstances and be reviewed and revised as necessary from time to time. Where a *friendly society* instructs an investment adviser to make investments for it, the society's investment policy should be reflected in any contracts or agreements made with the organisation engaged to invest the funds of the society.

PRA

Investment policy of a society doing linked long-term business

19. The *committee* of a society which has been authorised to write *class III* business (linked longterm), will need to ensure that the investment policy with respect to the assets of its linked long-term funds takes into account fully the requirements of the rules in chapter 4.

PRA

Investment policy of a non-directive incorporated society - exposure limits

20. The *committee* of a *non-directive incorporated friendly society* should consider whether to include limits in its investment policy on the following matters:

PRA

- (a) the society's *exposure* to particular assets, taking the provisions and limits in Annex B to Appendix 4 (see 12) into account; and
- (b) the society's *exposure* to particular *counterparties* taking the limits in B2 of Annex B to Appendix 4 into account (see also 22).

21. The *committee* of a society which has, or is likely to have, significant aggregate exposures to one or more *counterparties* will need to ensure the society has appropriate procedures in place for assessing the creditworthiness of those *counterparties*. The *committee* may, as a result of the assessments, consider it prudent to set lower internal limits than those in Annex B to Appendix 4. The *committee* of a society which uses a third party to manage some of its investments should ensure that for monitoring purposes (see 24) the exposure to a particular *counterparty* in the funds under third party management is aggregated with the *exposure* to that *counterparty* in the funds

PRA

managed by society staff.

22. PRA In considering counterparty exposure limits, and for the purposes of monitoring aggregate *exposures* to particular *counterparties* (see 24), the *committee* will need to take into account the requirements in B13 to B15A of Annex B to Appendix 4. These provide for the aggregation of *exposures* arising from all types of investment in or with a *counterparty*, together with the value of all rights against that *counterparty* (subject to the exceptions in B14 and B15 of Annex B to Appendix 4) in each case up to the permitted asset exposure limits. The *committee* should also take into account the provisions of B16 of Annex B to Appendix 4 with respect to *excess concentration with a number of counterparties*. The *committee* will need to remember that the permitted *exposure* limits set out in Annex B to Appendix 4 represent the maximum amounts which can be valued for solvency purposes.

Exposure limits - additional considerations

23. PRA The *committee* of a *non-directive incorporated friendly society*, particularly if it makes use of the powers under section 14 of the 1992 Act, should consider whether, in addition to any policy limits arising from the *exposure* and concentration provisions in Annex B to Appendix 4 (see 20 to 22), internal policy limits for aggregate exposures to certain categories of assets should be included in the investment policy. The limits for certain categories of assets will need to take account, where applicable, of rule 4.12(1) (see 9). In addition the level of the society's free assets should be taken into account, bearing in mind the possibility that such assets might in future be needed to cover *insurance liabilities* or minimum margin of solvency.

Management information

24. PRA It is important for a society to have adequate monitoring and reporting arrangements commensurate with the size and nature of the investment activities. The management information needs to be designed to: enable monitoring against policy limits (and statutory limits where applicable); help assess, in conjunction with the inspection function, the effectiveness of existing operations and controls over the management of investments; and provide a basis on which to determine future investment policy. In this context a *committee* will need to ensure a record of investment decisions, and who made them, is kept for reference purposes. Reports should be provided at regular intervals to the society's *committee* and senior management; frequent reporting being essential where material investment transactions are regularly made and/or where complex investment instruments such as *derivative contracts* are being used.

Operational controls

25. PRA The operational controls necessary for a satisfactory control system will vary with the size and nature of the society, the investment strategy and whether third parties are used to manage the investments (see 26). The control system will need to be sufficient to match the complexity of the investment instruments being used. Controls need to be designed to ensure:

- (a) the safeguarding of the assets of the society;

- (b) compliance with the documented investment policy;
- (c) investment deals are performed in an orderly and efficient manner; and
- (d) the risk of loss from negligence, error or irregularity is minimised.

Third party investment managers

26. PRA Where a third party has been appointed to manage part or all of a society's investments, the *committee* should be satisfied that the third party is able to comply with, and adhere to, the society's investment policy criteria and policy limits. In addition the *committee* will need to be satisfied that there are appropriate and effective controls in place. This is particularly important for an *incorporated friendly society* if the investment manager holds funds on its behalf. Before appointing such a third party, or in reviewing the appointment of the existing investment manager, the *committee* will need to be satisfied as to the following:

- (a) the standing of the third party, including whether it is subject to a regulatory regime;
- (b) compliance by the third party with the parameters the *committee* considers essential for the society's investment manager. Such parameters might include: performance requirements, minimum staff size (e.g. so that there are sufficient staff to allow for adequate segregation of duties, particularly if complex investment instruments such as derivatives are to be used) and capitalisation requirements;
- (c) the terms of the agreement with the third party:
 - (i) that the agreement sets out clearly the parameters within which the third party may operate, in particular:
 - does it take account of the relevant legislative constraints?
 - does it take account of the society's investment policy criteria and policy limits?
 - (ii) that the agreement provides adequate safeguard for the society in the event of negligence, error or irregularity by the third party;
- (d) the management information (see 24) to be provided by the third party, in particular is the information sufficient for the *committee* to be able to assess performance and monitor compliance with legislative constraints, investment policy criteria and policy limits.

27. PRA The service provided by the investment manager should not only be monitored throughout the year but should also be subject to more fundamental review on a regular basis.

Audit

28. Internal audit will have a role in the operation of the systems of control over

PRA

investments. Internal audit may:

- (a) advise on design of systems of control or improvements to existing systems
- (b) assess the effectiveness of systems from time to time
- (c) test compliance with existing procedures.

Committee responsibilities

30. The *committee* of a *friendly society* will need to assess the effectiveness of the arrangements for the systems of control over the society's investments (including where transactions are carried out by a third party on a society's behalf) drawing on the auditors' advice as appropriate, in order to satisfy the requirements of rule 3.1 on this aspect of their responsibilities.

PRA

C. ADDITIONAL CONSIDERATIONS FOR CONTROLS OVER DERIVATIVE CONTRACTS

31. 13 to 15 of, and Annex B to, Appendix 4 includes specific provisions with respect to *derivative contracts* and contracts or assets having the effect of *derivative contracts*. This includes provisions restricting those contracts which may be counted as assets for the purposes of determining a *friendly society's required margin of solvency*. Annex 7 refers to *INSPRU 3.2* which discusses the valuation issues surrounding the use of *derivative contracts*. That Annex also draws attention to the need for the *committee* and management of a society which uses *derivative contracts* to have sufficient understanding of the nature and risks of the contracts it uses to ensure there are effective systems in place to monitor the use of derivatives.

PRA

32. The *committee* of a society which uses *derivative contracts* will need to take all steps which are reasonable, taking into account the nature and scale of the use of derivatives, to ensure that:

PRA

- (a) the nature of the derivatives being used and the related risks (including interest rate risk, foreign exchange risk and operational risk) are fully understood by management even where a third party manages derivative transactions as part of the investment management service supplied to the society;
- (b) the investment policy document sets out the objectives and policies for the use of derivatives; there are documented exposure limits for: total exposure to, and/or volume of, derivative transactions; maximum exposures to, and/or volumes of, permitted types of derivative transactions; exposure to counterparties; and exposure to uncovered transactions; where a society's staff manage derivative transactions dealer limits for individual dealers will need to be documented;
- (c) the society has control and/or monitoring procedures which:

- (i) ensure that transactions are in line with the *committee's* policies and new types of instrument are not dealt with without prior consideration at *committee* level;
 - (ii) ensure the *committee* and senior management are provided regularly with statistics and information (appropriately summarised) on the trading volumes of derivatives by type of product including regular reports of all off-balance sheet transactions, mark-to-market position, contingencies and commitments; and
 - (iii) focus particular attention on uncovered transactions (which may only be undertaken in relation to assets which do not match technical provisions) so that in no circumstances is the minimum margin of solvency endangered nor are members' reasonable expectations adversely affected. Systems are needed which are adequate to prevent exposure to unacceptable volatile risks, and to monitor transactions with a frequency commensurate with volatility and risk. The systems in place need to be designed to trigger the society's strategy to hedge or close out a transaction whenever adverse movements or events threaten a significant worsening of the solvency position;
- (d) where derivative transactions are managed by society staff:
- (i) staff authorised to carry out derivative transactions are suitably qualified and competent to transact the range and type of transactions being undertaken and understand the nature of the exposures (including both *counterparty* and market risk) which the use of *derivative contracts* will create;
 - (ii) the resources (including staff resources) and systems are sufficient to cope with the volume and volatility of transactions undertaken. This applies to back office (e.g. accounting staff, record keepers), as well as front office (e.g. fund managers, dealers) systems;
 - (iii) control procedures include independent agreement and reconciliation of positions, independent checking of prices, agreement of profits to accounting profit, appropriate authorisation where dealing limits have been exceeded;
 - (iv) to ensure effective control, those with responsibility for the control systems in respect of derivative transactions are independent of the dealers; and
 - (v) senior managers have the capacity and resources to be able to analyse and monitor the risk of all derivative transactions undertaken both by individual transaction and in aggregate (including interest rate risk, foreign exchange risk, fraud, error, unauthorised access to confidential information and other operational risks). Basic monitoring information may be needed in a daily report to managers. Monitoring information (including that supplied by third party managers) will need to include mark-

to-market information in respect of all outstanding derivative transactions, valuing derivatives and underlying assets hedged at their current market price to check whether instruments are fulfilling expectations; and

- (e) there are adequately tested and approved valuation models which are used to value open positions and derivative instruments and that amendment to their programmes are controlled. Such models should include an appropriate test of the robustness of the portfolio to stress in changing investment conditions.**

Attachment A To Annex 3:

Business Planning

Introduction

A1. **PRA** The *committee* of a *friendly society* should be aware of the importance of having an integrated system for planning, budgeting, financial accounting, monitoring of actual against budget and feedback of results into management decisions and back into the planning process. However, just how sophisticated a *friendly society's* planning systems need to be will depend upon the size and nature of the *friendly society's* operations. The information in this Annex is neither intended to be prescriptive of what elements of a *friendly society* should be included in its system of business planning, nor can it be comprehensive of all matters that might be appropriate to the business planning of a *friendly society* - there are other publications available on such matters. The information in this Annex is intended to be helpful to *committees* and management, in particular, in providing information on key elements of a full planning system which the *committee* and management of a *friendly society* need to consider before determining on or revising the *friendly society's* system of business planning and documented plans. The *committee* and management will need to decide on the appropriate planning horizon for their *friendly society*, consistent with the *friendly society's* circumstances and appropriate to the effective management of the risks the *friendly society* faces, including any risks that may arise from its own initiatives as well as those arising from the changing business environment.

A2. The key features of an integrated planning system include:

- PRA**
- (a) clearly defined and documented short, medium and long-term planning, with clear allocation of responsibilities within the *friendly society* for the development, review and approval of plans, and the subsequent monitoring of performance against them;
 - (b) the conclusions, recommendations, financial projections and assumptions set out in any plan need to be based on adequate data obtained from internal and external sources, and by appropriate critical analysis;
 - (c) a range of possible outcomes need to be considered, relating to varying levels of risk and/or uncertainty, and the financial impact on a *friendly society's* solvency margin should be considered by the *friendly society's* actuary; and
 - (d) key indicators should be identified against which actual performance can be tracked. Actual data should be prepared on a basis consistent with the plan, to enable proper comparison to be made.

Strategic planning

A3. A corporate plan focusing on longer term strategic issues may be developed. Such a plan should be reviewed regularly in the light of experience and

PRA

changing circumstances and could include elements of the *friendly society's* medium term planning, see A5. The key elements for a strategic plan include:

- (a) views on the markets in which the *friendly society* competes or proposes to compete in;
- (b) identification of the *friendly society's* strengths and weaknesses, market and other opportunities open to it, and threats to the *friendly society's* market and financial strength;
- (c) the *friendly society's* strategic aims and the action which needs to be taken to achieve those aims;
- (d) any major resource implications of the strategic aims – including for information technology, senior management and staff as well as financial implications; and
- (e) financial projections – including cash flow forecasting and projections based on different assumptions (eg. on optimistic, pessimistic and expected bases).

A4. A corporate plan including a *friendly society's* strategic aims should not simply consist of a number of desirable aims, but should set out the processes whereby these will be achieved. It will then be important to monitor the extent of achievement of the specified action steps, so that, if necessary, appropriate corrective action may be taken.

PRA

Medium term planning

A5. The medium term planning of a *friendly society*:

PRA

- (a) may provide for the setting, review and revision of medium term financial and other objectives, as appropriate, consistent with the *friendly society's* longer term strategic aims and targets; and
- (b) as appropriate, may include new business activities, which need to be adequately researched, analysed and appraised in terms of feasibility, financial returns and requirements for capital.

Short term planning

A6. Adequate short term financial and operating plans are necessary as a basis for measuring performance and taking tactical decisions. In general terms this means that a *friendly society's* short term planning will need to include the setting of an annual budget (which may include cash flow forecasting), against which actual performance can be monitored (see also 19(f) of Part I of this Annex).

PRA

Business continuity planning

A7. A *friendly society* will need to consider its arrangements to ensure continuity of business in the event of some unforeseen disaster such as a fire or bomb damage. A business continuity plan should, as appropriate, deal with the possibility of major computer hardware or software failure as well as other wider aspects such as premises, personnel and external communications.

PRA

These arrangements should be regularly reviewed and tested to ensure that they work in practice.

Information technology

A8. Information technology (IT) will be a major feature of the business of a number of *friendly societies*. IT brings significant benefits to such *friendly societies*, but also brings considerable risks. The issues which the *committee* and management of a *friendly society* will need to address, as appropriate, include:

PRA

- (a) the extent to which a *friendly society's* IT strategy is consistent with its longer term strategic aims;
- (b) whether the procedures for evaluating significant IT investments are sufficiently comprehensive to ensure that the technical and business cases for the investments are clearly demonstrated;
- (c) within the *friendly society*, at *committee* as well as operational level, there should be an appropriate allocation of responsibility for IT issues;
- (d) the security of data and systems is of paramount importance, controls will therefore need to be in place to minimise the risk of unauthorised access or the loss of data. Such controls should cover not only centralised mainframe processing but also remote terminals and stand-alone or linked PCs;
- (e) the exercise of strong control by the *committee* over the development of new or significantly modified IT systems. Appropriate technical and project management skills are likely to be required and a *committee* will need to determine whether it is appropriate to seek expert assistance from outside the *friendly society* in order to facilitate the process; and
- (f) appropriate skills and experience are needed to enable the inspection function to assess the effectiveness of IT controls. The involvement of the inspection function in an advisory capacity during the development of significant new IT systems, will be needed to help ensure that appropriate controls are in place.

Human resources planning

A9. The *committee* and management of a *friendly society*, in particular one which has taken, or proposes to take, advantage of the opportunities afforded by the 1992 Act, may need to consider the overall current and future human resources requirements. Such considerations include the planning for, and development of, human resources where a *friendly society* is proposing to enter a field of business activity with which it is not familiar. The matters on which the *committee* and management may need to be satisfied include that:

PRA

- (a) the *friendly society* has identified its present and future staffing and skill requirements relative to its business activities and has defined recruitment, training and development plans to achieve them; and
- (b) there are arrangements for securing the supply of appropriately skilled members of the *committee*, directors of controlled bodies, managers

and staff.

Attachment B to Annex 3:

Documentation of Systems

Introduction

B1. The need for the documentation of systems is primarily twofold:

PRA

- (a) whilst control systems might be operated satisfactorily for a time without documentation, the absence of documentation makes it impossible to ensure that the systems of control are maintained over time; and
- (b) the *committee* and others (e.g. external auditors and those carrying out the inspection function) have specific responsibilities in respect of the control systems. The absence of documentation makes it impossible for those reviewing the systems to satisfy themselves that the controls being operated are those that have been authorised, that they are complete and that they are adequate for their purpose.

B2. Whilst the overall content of such documentation should be comprehensive (see B3(a)), it will of course vary from *friendly society* to *friendly society*,

PRA

according to the nature and scale of business and may only need to be relatively simple for a small *friendly society* with few staff. The specific content of documents may also need to vary within a *friendly society* appropriate to the levels of staff for whose use it has been prepared. Documentation prepared for the *committee* and/or management (see also B4) may need to be wider in scope and to include a greater emphasis on controls, but less detail about operational procedures, than documentation for more junior staff. Documentation prepared for more junior staff will need to include detailed information about the procedures to be followed but may only need to cover the control procedures applicable to the work of the staff concerned.

Form of documentation

B3. The *committee* and management of a *friendly society* will determine the form of control system documentation to be adopted. They should, however, take into account a number of considerations about the documentation, including that:

PRA

- (a) it should be comprehensive: and should cover all material aspects of the operations and business of the *friendly society*;
- (b) it should be integrated: separate elements of the system should be interrelated and cross-referred in such a way that the system can be viewed as an integrated whole;
- (c) it should identify risks, and the controls established to guard against those risks: the controls need to be identified and their purpose defined so that their effectiveness can be evaluated and so that the relationship and interdependency with other controls can be established;

- (d) it should attribute responsibility for operating the controls: there need to be named persons or posts for each control operation, alternatives in case of absence and continuity of standards of control during absence;
- (e) it should state how the operation of the control is to be evidenced: methods of evidencing include - signatures or initials; records and registers; retention of control documents; staff attendance records;
- (f) it should establish a comprehensive and unambiguous control discipline: the instructions should be clear and precise, avoiding expressions in relation to control functions such as “normally” and “if possible”;
- (g) it should be suitable for practical day to day use: the separate specifications of controls should have a practical role in the review and improvement of systems, for example, through the inspection function;
- (h) it should be up to date: there should be an accurate description of the system that has been established and is operating. When changes or modifications are made, the appropriate systems of control will need to be established and documented by the time the changes become operative; and
- (i) it should require confirmation of compliance: managers of different areas of a *friendly society's* business are key control points within the overall control system. They should periodically be required to confirm to the *committee*, to the best of their knowledge and belief, compliance of controls within the system which has been established.

B4. Documentation should not be restricted to “lower level” clerical and authorisation controls applied in transaction processing, but should also cover “high level” controls (see 15 of Part I of this Annex), including:

PRA

- (a) powers to be exercised only by the *committee*, and powers delegated to others;
- (b) the purpose, composition and reporting lines of *committee* member subcommittees and senior management to whom powers and responsibilities have been delegated;
- (c) the role, responsibilities and reporting lines of *committee* members; and
- (d) the timing, form and purpose of *committee* meetings and the mechanism whereby agreed *committee* strategies, policies and decisions are recorded and their implementation monitored.

Computer controls

B5. The documentation of computer controls need to be integrated within the overall documentation of a *friendly society's* system of business control. Where operating manuals are provided by a computer supplier these can often form a useful part of a *friendly society's* procedures documentation but it is unlikely that such manuals will be in a form which enables them to form part of

PRA

the control documentation. The matters set out in B3 apply equally to the controls surrounding computer systems.

B6. There will be a number of key controls performed within the computer programs and a *friendly society* will need to ensure that it documents all such controls if reliance is being placed on them.

PRA

Attachment C to Annex 3:

System of Inspection and Report

Purpose of the system

C1. The purpose of a system of inspection is:

- PRA**
- (a) to provide a continuous appraisal for management and the *committee* as to the overall effectiveness of the control systems, including all proposed changes, and to recommend improvements where considered desirable or necessary;
 - (b) to determine whether the systems and controls established by the management and the *committee* have operated as laid down in the control documentation of the *friendly society* or *registered branch* and comply with policies, procedures, laws, regulations and any other requirements; and
 - (c) to assess whether financial and operating information supplied to management and the *committee* is accurate, appropriate, timely and complete.

C2. *A friendly society* should ensure that, in addition to coverage of operational activities, its system of inspection adequately covers the following areas – as appropriate to the scale and nature of the business:

- PRA**
- (a) controls to verify the accuracy and completeness of returns and other information provided to the *PRA*;
 - (b) controls to ensure compliance with relevant statutory and regulatory requirements;
 - (c) broader management controls, such as controls over business planning, systems for monitoring and reporting on financial performance and other key business indicators;
 - (d) controls over new areas of business and other initiatives, whether carried out within the *friendly society* or through controlled bodies; and
 - (e) the “high level” controls referred to Part I of this Annex.

C3. The *committee* and management of a *friendly society* will need to satisfy themselves that the following considerations have been properly addressed within the context of the scale, range, complexity and pace of development of the *friendly society*'s business:

- PRA**
- (a) the inspection function is independent of the functions it inspects in order to maintain its objectivity;
 - (b) sufficient resources are available to achieve the agreed objectives of

the inspection function;

- (c) qualifications, experience and training of individuals performing the inspection function are adequate in relation to the objectives; and
- (d) the status and reporting relationship of the head of the inspection function is sufficient to maintain the independence and objectivity of the function. It is important to ensure that, in addition to regular reporting to management and the *committee* (see C5(f)), the head of the inspection function has the right of direct access to the highest level of management and the *committee*.

C4. An audit sub-committee can have a key role to play in controlling the work of the inspection function and receiving its reports. The role of the audit sub-committee is covered in more detail in paragraph 29 of Part I of this Annex.

PRA

Key elements of a system

C5. The key elements of a satisfactory system of inspection include:

PRA

- (a) **Terms of reference:** these should be specified with precision and should include, amongst other matters, scope and objectives of the inspection function, access to records, powers to obtain information/explanations from staff, and reporting requirements. The terms of reference should be approved by management and the *committee*. The *friendly society's* inspectors (or internal auditors) will require a wide-ranging access to records and documents, including material prepared for and by the *committee*. They will also need to be empowered to obtain information and explanations from staff at all levels, and *committee* members.
- (b) **Risk analysis:** risks identified and the controls put in place by management to address those risks should be considered in each area or cycle of the *friendly society's* business. The adequacy of the controls should be assessed. Weaknesses in control should be drawn to the attention of the *committee* or audit sub-committee and other senior *officers* of the *friendly society* as specified in the terms of reference. In this context risk factors may include more than just the risk of pecuniary loss, or error or mis-statement in the accounting records. As appropriate, reputational risk, and wider business and operational risk, may also need to be considered. Full consideration should be given to the high level controls in place within the *friendly society*. These include the controls referred to in 15 of Part I of this Annex and C2(e) – see also B4 in Attachment B of this Annex.
- (c) **Inspection plan:** an inspection plan should be developed covering all aspects of the *friendly society's* business and which, in the opinion of the *committee*, satisfies the requirements of rule 3.1. The inspection function should focus in particular on those areas identified in the risk analysis as higher risk, taking into account the related inherent risk factors and controls in place. However, all areas of the *friendly society's* business should be covered over a set time frame and the inspection plan should identify the scope and frequency of the work to be carried out in each area. The plan should be reviewed and approved at

committee level, or by the audit sub-committee on behalf of the *committee*, before work commences.

- (d) **Detailed programmes:** these will set out the specific tests to be performed in each area of the inspection plan.
- (e) **Working papers:** adequate working papers should be maintained to record audit planning and execution, principal findings and follow-up action. Amongst other matters, the papers should provide: evidence of the individual who performed the programmed work; how it was controlled and supervised; and record the conclusions reached - with cross-referencing to the reports made and action taken.
- (f) **System of reporting:** the results of the work performed should be reported to senior management and any audit sub-committee and the *committee* in accordance with the terms of reference. Such reporting should be carried out on a regular and timely basis. Obviously serious matters should be raised immediately. The reports should briefly describe the area(s) covered, significant matters arising, recommendations and overall conclusions. Procedures should be established to make sure the recommendations have been implemented or non-implementation validly justified.

Reporting and review

C6. **The *committee* and management of a *friendly society* need to satisfy themselves that the system of inspection is being properly carried out. In order to review the overall effectiveness of the inspection function, the *committee* needs to consider the following aspects:**

PRA

- (a) **adequacy of resources, including number, experience and skills of those providing inspection services. There may be areas (eg computer audit) for which specific skills may need to be obtained from an external source. A *friendly society's* auditors would not normally be expected to provide such inspection services, as there is potential for a conflict of interest to arise;**
- (b) **adequacy and scope of planning and work performed, including the allocation of inspection effort to each area of the *friendly society's* business;**
- (c) **frequency, quality and timeliness of reporting on matters arising from the inspections;**
- (d) **consideration and resolution of points and recommendations raised, and reasons for any rejection of major points; and**
- (e) **review of overall effectiveness of the inspection function.**

Attachment D to Annex 3:

PRA

Report by the Committee of Management of [NAME OF FRIENDLY SOCIETY] under rule 3.1 of IPRU(FSOC)

In our opinion during the year ended _____, the requirements of rule 3.1 were* (complied with)/ (complied with except in the respects set out in the attached Schedule [A]).

Signed by:

_____ **Chairman**

_____ **Chief Executive**

Date _____

*** Delete as appropriate**

1. Exceptions arising in previous years:

(a) Remedied during 20__ [current report year]

Under each appropriate heading provide a clear description of the exception, remedial action(s) taken and date of full rectification.

(b) Exceptions not fully rectified during 20__ [current report year]

Under each appropriate heading provide a clear description of the exception, the action(s) taken and/or remaining to be taken and timetable for completion.

2. Exceptions arising in 20__ [current report year]

(a) Remedied during 20__ [current report year]

Under each appropriate heading provide a clear description of the exception, remedial action(s) taken and date of full rectification.

(b) Exceptions not rectified during 20__ [current report year]

Under each appropriate heading provide a clear description of the exception, action(s) taken and/or to be taken and timetable for completion.

Annex 4:

Guidance on Margins of Solvency and the Guarantee Fund

Introduction

1. **PRA** This Annex gives guidance to *friendly societies* on the application of rules 4.1 to 4.7 which set out the requirements for maintenance of a *required margin of solvency* and a *guarantee fund*. It explains how different categories of *friendly societies* are affected. This Annex does not apply to *flat rate benefits business friendly societies*.

The required margin of solvency

2. **PRA** Rule 4.1 provides that a *friendly society* which has permission to carry on *general insurance business* and/or *long-term insurance business* is required to maintain a margin of solvency of an amount prescribed in rules 4.2 to 4.10.
3. **PRA** Rules 4.2 to 4.10 do not apply to any *friendly society* which does not have permission to effect new contracts of insurance and is only carrying out contracts of *long-term or general insurance business* which were effected before 13 September 1993. Such societies must maintain an excess of the value of the *friendly society's* assets over the amount of its liabilities.
4. A *friendly society's* failure to maintain a *required margin of solvency* would be an early warning sign of difficulty. The *PRA* would under *SUP* require the *friendly society* to submit a suitable restoration plan within a specified reasonable time and give effect to the plan. The *required margin of solvency* might be restored by, for example, tighter budgetary control, restriction of new business, reassurance arrangements or changes in investment mix.
- 4A **PRA** Guidance in *GENPRU 2 Annex 8G* (Guidance on applications for waivers relating to implicit items) is relevant to *friendly societies* applying for a waiver of rule 4.7(3) of *IPRU(FSOC)* under section 138A of the *Act* (Modification or waiver of rules).¹⁰

4B. [deleted]

4C. [deleted]

Guarantee fund

5. **PRA** Rules 4.3 to 4.7 provide for the maintenance of the *guarantee fund*. The *guarantee fund* is generally one-third of the calculated *required margin of solvency*. For *non-directive incorporated friendly societies*, the *guarantee fund* should be not less than the amount set out in rules 4.5 and 4.6 and this is known as the *minimum guarantee fund*.

¹⁰ This paragraph comes into effect on 1 June 2002.

6. **PRA** Failure to meet the *guarantee fund* requirement would be regarded as very serious. The *PRA* would require the *friendly society* to submit and effect a short-term financial scheme if a *friendly society's* *guarantee fund* or *minimum guarantee fund* falls below requirement. Reasonable time would be granted to have discussions and to convene a meeting, and this would be expected

normally to be followed by immediate action, for example, increased contributions or reduced benefits.

Minimum Requirements

7. Chapters 4 and 5 which are based on the *insurance Directives*, set out the current solvency and valuation requirements for *friendly societies* carrying on *insurance business*. Rules of this type cannot take into account the individual needs of a particular *friendly society*, but should be regarded as an absolute minimum requirement which will be supplemented by explicit or implicit margins on the advice of the actuary.

PRA

8. There are some important modifications contained in Chapter 4 by way of relaxation of the requirements for *friendly societies* which are *non-directive registered friendly societies* in recognition of their different status or much smaller size. These modifications are:

PRA

- (a) a *non-directive friendly society* which does not have permission to effect new contracts of insurance and is only carrying out contracts of *long-term or general insurance business*, which were effected before 13 September 1993, will not be subject to the specific margin of solvency requirements, as rules 4.2 to 4.10 are not applied to such *friendly societies* (rule 4.1);
- (b) the requirement to have a *minimum guarantee fund* does not apply to a *nondirective friendly society* which is not incorporated (rule 4.4); and
- (c) [deleted]
- (d) the limits placed on the extent to which certain assets may be taken into account in determining their value in the insurance fund apply only to *non-directive incorporated friendly societies* (15(1) of Appendix 4).

9. In addition to these modifications, the *PRA* has power under section 138A of the *Act* to direct that certain requirements do not apply to any particular *friendly society*, and there may be circumstances where the *minimum guarantee fund* may be varied in the case of certain *friendly societies*.

PRA

10. These waivers or modifications do not lessen the requirement for prudent management, and may be accompanied by conditions.

PRA

11.1 *The requirements for the various categories are summarised below.*

PRA

Non-Directive Incorporated Friendly Societies

11.4 *Long-term business*

PRA

- (1) These may fall outside the EC requirements but fall within the scope of rule 5.1 and are required to be valued annually. The *required margin of solvency* is set out in rules 4.1 to 4.7. New *friendly societies* should have *margins of solvency* at least equal to the appropriate *minimum guarantee fund*. Rule 4.5 specifies a *minimum guarantee fund* with a threshold of 100,000 Euro increasing in steps. This may be varied by

the exercise of the *PRA*'s power under section 138A of the *Act*.

- (2) Accordingly, a *non-directive incorporated friendly society* carrying on *long-term insurance business* will be expected to meet the solvency margin requirement immediately following incorporation. However, a valuation at that date is not necessarily required unless that date would otherwise be a normal *valuation date*.

General insurance business

11.5 Similar considerations will apply in the case of *non-directive incorporated friendly societies* carrying on *general insurance business*. The minimum guarantee fund is 225,000 Euro. These societies are required to be valued triennially.

PRA

Other non-directive Friendly Societies

11.6 (1) *Non-directive registered friendly societies* which have permission to carry on *long-term or general insurance business* are within the scope of rule 4.1 and are required to be valued triennially.

PRA

(2) The margin of solvency requirements for these societies are set out in Chapter 4. However the specific requirements in respect of the maintenance of a *minimum guarantee fund* (rules 4.5 and 4.6) and 4.11 to 4.19 (including those in respect of matching and localisation) do not apply to them. These societies are also not subject to the admissibility limit rules in paragraph 15(1) of Appendix 4.

(3) Societies which do not have permission to effect new *contracts of insurance* and are only carrying out contracts of *long-term or general insurance business*, which were effected before 13 September 1993 are not required to maintain a specified margin of solvency. Such societies should maintain an excess of the value of the *friendly society's* assets over the amount of its liabilities. They will be required to carry out triennial valuations unless exempted under the *Act*. If any valuation nevertheless discloses a level of concern then the *PRA* may take appropriate remedial action.

12.1 *Resilience Test*

PRA

12.2 The resilience test is a requirement for prudent provision to be made against the effects of possible future changes in the value of assets on the adequacy of these assets to meet liabilities. This requirement is in paragraph 16 of Appendix 5 of *IPRU(FSOC)* and applies to the determination of the amount of *long-term liabilities*. A *friendly society* should for this purpose treat *INSPRU* 3.1.16G to *INSPRU* 3.1.26R as providing guidance on the scenarios that may be appropriate for this purpose. (Any additional reserve required by the resilience test is part of *mathematical reserves* and not a capital requirement).

PRA

12.3 [deleted]

12.4 [deleted]

12.5 [deleted]

12.6 The *friendly society* should also take account of the nature of the assets and liabilities. For example, a *friendly society* which has only unit linked business, some of which carries a guaranteed annuity rate, should not necessarily assume that equity values fall in applying tests for lower fixed interest rates. Indeed *friendly societies* should consider their resilience to a rise in equity values combined with falling interest rates.

PRA

12.7 The *PRA* also expects that *friendly societies* will continue to investigate a wide range of possible future investment scenarios for the purpose of their own stress testing and risk management.

PRA

13. [deleted]

Annex 5:

Guidance on Exemption from Triennial Valuation

1. This Annex gives guidance to *friendly societies* who may wish to seek exemption from the requirement in rule 5.2 to cause an actuarial investigation to be carried out.
PRA
2. Rule 5.1 requires any *friendly society* with permission to carry on *long-term insurance business* which is an *incorporated friendly society*, to cause the *actuary* appointed to perform the *actuarial function* under the rules in *SUP* to carry out an annual investigation into the *friendly society's* financial condition in respect of its *long-term insurance business*.
PRA
3. Rule 5.2 provides that any *friendly society* which carries on any *insurance business* which is not subject to the annual valuation requirement under rule 5.1 should cause the *appropriate actuary* to carry out an investigation into the financial condition of that *insurance business* at least once every 3 years. Generally this would be as at the 3rd anniversary of the 31 December when the previous valuation was due. The requirements in relation to this triennial valuation are set out in rule 5.2(1) to (6).
PRA
4. The *PRA* has power under section 138A of the *Act* to waive or modify the application of rule 5.2 to a particular *friendly society* (see *SUP*). This may include dispensing with the valuation requirement entirely or modifying it, e.g. to substitute a quinquennial valuation or to restrict the scope of the valuation to only part of the *insurance business*.
PRA
5. Notwithstanding the fact that a *friendly society* may have been exempted from the requirement to carry out an actuarial investigation under rule 5.2, there may be circumstances when the *committee* may, in order to comply with the *PRA* Principles for Businesses, nonetheless need to cause an actuarial valuation to be carried out.
PRA
6. Applications for exemption should be made as soon as possible after the *financial year* end for which valuation is due. Initial enquiries may be made before the end of the *financial year*.
PRA
7. An application form for a waiver or modification of rule 5.2 is set out below.
PRA

Dear Sir or Madam,

Request for dispensation from actuarial investigation

The _____(insert name of friendly society)_____ hereby requests dispensation from the requirement to cause an actuarial investigation to be carried out as at under rule 5.2 of the Interim Prudential Sourcebook for Friendly Societies for one or more of the following reasons –

(a) the purposes of the friendly society are such that (1)

(b) the nature of the friendly society's business is such that (1)

(c) the manner in which the friendly society's business is carried on is such that (1)

(d) the scale of the business is such that the contribution income for each year since the previous valuation date has been as follows, _____ the assets as at the valuation date are £_____ and no changes in rates of benefits or contributions have been made since the previous valuation date.

[I am also attaching a certificate signed by the friendly society's appropriate actuary supporting the friendly society's request for a dispensation (2)].

(Signed) Chief Executive

Notes

(1) Please provide details of why the friendly society is seeking dispensation;

(2) The actuary's certificate is optional - please delete this sentence if the certificate is not provided. If an actuary's certificate is to be attached it should be in the form set out overleaf.

[where supporting actuary's certificate is to be attached it should read as follows]

I have performed an initial investigation as follows:-

I am of the opinion that the friendly society's margin of solvency as at [] was/is likely to be in excess of the required margin of solvency and is expected to remain so for the foreseeable future and for so long as there is no significant change in the nature or volume of business transacted or in the nature or distribution of the assets held by the friendly society and I support the application on the ground(s) that

(Signed) Fellow of the

of Actuaries

Annex 6:

[deleted]

Annex 7:

Guidance on the Use of Derivative Contracts by Friendly Societies

Introduction

1. **PRA** The main purpose of this Annex is to draw attention to the rules which cover whether a *derivative contract* has an admissible value which can count towards a *friendly society's* solvency margin.

Approved derivatives contracts

2. **PRA** An *approved derivative contract*, if held by a *friendly society* which maintains the *required margin of solvency*, in accordance with Part I of Chapter 4, may have an admissible value which can count towards a *friendly society's required solvency margin*. However, any *derivative contract* which is a liability to a *friendly society* (whether or not it falls within the definition of an *approved derivative contract* and is held for the purposes specified in 13 of Appendix 4) will count as a liability for solvency purposes.

3. [deleted]

Information for the FCA and PRA

4. **PRA** A *friendly society* which proposes to make use of *derivative contracts* for the first time is asked to inform *FCA and PRA* staff of its proposals. Societies should note that they are likely to be strongly discouraged from using *derivative contracts* unless they can demonstrate robust systems and controls and a full understanding of the implications of the arrangement.

Note of caution

5. **PRA** You will no doubt be aware, from the publicity given to a number of cases, that the use of *derivative contracts* can, if not properly controlled, adversely affect the financial viability of an institution. It is important that any institution which decides to use such contracts has sufficient understanding at board/*committee* and senior executive level of the nature and risks of the *derivative contracts* it is proposed to use, to ensure there are effective systems in place to monitor and control the use of derivatives – including where derivative transactions are carried out by investment managers on behalf of the institution. The *committee* of a *friendly society* which is considering using *derivative contracts* will need to be satisfied that there is sufficient understanding at appropriate levels, and that effective control systems are in place, before the *friendly society* commences to use *derivative contracts*.

1 Chapter 1: Application Rule

CONTENTS

Application

- 1.1 Insurers
- 1.2 The Society of Lloyd's
- 1.3 [deleted]

1 Chapter 1: Application Rule

APPLICATION

Insurers

1.1 An insurer must comply with *IPRU (INS)* unless it is –

FCA **PRA**

(a) a *friendly society*¹; or

(b) an *EEA insurer* or an *EEA pure reinsurer* qualifying for authorisation under Schedules 3 or 4 to the Act.

The Society of Lloyd's

1.2 No provisions of *IPRU (INS)* apply to the *Society of Lloyd's*, or *members of the Society of Lloyd's* except rules 9.37 and 9.38, and Part VII of Chapter 9.

FCA **PRA**

1.3 [deleted]

1. A *non-directive friendly society* must comply with *IPRU(FSOC)*; a *directive friendly society* must comply with *GENPRU* and *INSPRU*; with Chapters 1, 2 and 3, 4 (rules 4.20 to 4.23 only), 5 (rule 5.1A only) 7, 8 and Appendix 3 of *IPRU(FSOC)*. Rule 5.1A of *IPRU(FSOC)* effectively applies most of Chapter 9 of *IPRU(INS)* to *directive friendly societies*, notwithstanding *IPRU(INS)* 1.1(a)

- 3.6 [deleted]**
- 3.7 [deleted]**

3 Chapter 3: Long-Term Insurance Business

PART I: IDENTIFICATION AND APPLICATION OF ASSETS AND LIABILITIES

3.1 (1) [deleted]

(2) [deleted]

Application of assets of insurer with long-term insurance business

Limitation on use of assets in long-term insurance fund

3.2 [(1) to (5) deleted]

PRA *Restriction in relation to dividends*

(6) **A long-term insurer must not declare a dividend at any time when the value of the long-term insurance assets, as determined in accordance with GENPRU 1.3 and INSPRU 2.1 is less than the amount of the long-term insurance business technical provisions and any other liabilities connected with the long-term insurance business.¹**

Allocations to policy holders

Allocation of established surplus

3.3 (1) **Where –**

FCA (a) **there is an ‘established surplus’ in which long-term policy holders of any category are eligible to participate; and**

(b) **an amount has been allocated to policy holders of that category in respect of a previously ‘established surplus’ in which policy holders of that category were eligible to participate,**

an insurer must not by virtue of INSPRU 1.5.27R transfer or otherwise apply assets representing any part of the surplus mentioned in (a) unless the insurer has –

(i) **allocated to policy holders of that category in respect of that surplus an amount not less than the ‘relevant minimum’, or**

(ii) **complied with the requirements of (3) and made to those policy holders any allocation of which notice is given under (3)(a).**

(2) **Subject to (6) and (7), the relevant minimum is the amount represented by the formula –**

$$\frac{b \times c}{a} - \frac{c}{200}$$

where –

- a** is the last previously 'established surplus' in respect of which an amount was allocated to *policy holders* of the category in question;
- b** is the amount so allocated; and
- c** is the surplus referred to in (1)(a).

Requirements where less than the relevant minimum is to be allocated

- (3) The requirements referred to in (1)(ii) are that the *insurer* –
- (a) at least 14 days before publication has given the *FCA* written notice stating that it proposes to make no allocation or an allocation of an amount (specifying it) which is smaller than the 'relevant minimum', and a copy of the statement that it proposes to publish in accordance with (b); and

- (b) has published a statement in the London, Edinburgh and Belfast Gazettes and in two national newspapers explaining the allocation it proposes to make to *policy holders* and the reasons for it,

and that a period of not less than 56 days has elapsed since the date, or the last date, on which the *insurer* has published the statement mentioned in (b) as required by that paragraph.

- (4) In this rule, established surplus means an excess of assets representing the whole or a particular part of the *long-term insurance fund or funds* over the liabilities, or a particular part of the liabilities, of the *insurer* attributable to that business as shown by an *actuarial investigation*.

Amounts to be treated as allocated to policy holders

- (5) For the purposes of this rule, an amount is allocated to *policy holders* if, and only if –

- (a) bonus payments are made to them; or
- (b) reversionary bonuses are declared in their favour or a reduction is made in the premiums payable by them,

and the amount of the allocation is, in a case within (a), the amount of the payments and, in a case within (b), the amount of the liabilities assumed by the insurer in consequence of the declaration or reduction.

Bonus payments in anticipation of established surplus

- (6) For the purposes of this rule, the amount of any bonus payments made in anticipation of an 'established surplus' is treated as an amount allocated in respect of the next 'established surplus' in respect of which an amount is allocated to eligible *policy holders* generally; and for the purposes of (2) the amount of any surplus in respect of which such an allocation is made is treated as increased by the amount of any such payments.

Unappropriated surplus carried forward

- (7) (1) does not authorise the application for purposes other than those mentioned in *INSPRU* 1.5.30R of assets representing any part of the surplus mentioned in (1)(a) which the *insurer* has decided to carry forward unappropriated; and for the purposes of (2) the amount of any surplus is treated as reduced by any part of it which the *insurer* has decided to carry forward unappropriated.

Eligibility to participate in an established surplus

- (8) For the purposes of (1), *policy holders* are taken to be eligible to participate in an 'established surplus' in any case where they would be eligible to participate in a later 'established surplus' representing it if it were carried forward unappropriated.

Restriction on transactions with connected persons

3.4 [deleted]

Arrangements to avoid unfairness between separate insurance funds

3.5 (1) An *insurer* which carries on *long-term insurance business* in the UK must have adequate arrangements for securing that transactions affecting assets of the *insurer* (other than transactions outside its control) do not operate unfairly between the *long-term insurance fund or funds* and the other assets of the *insurer* or, in a case where the *insurer* has more than one 'identified fund', between those funds.

FCA

(2) In this rule, **identified fund** means assets representing the *insurer's* receipts from a particular part of its *long-term insurance business* which can be identified as such by virtue of accounting or other records maintained by the *insurer*.

8.4 [deleted]

8.5 [deleted]

9 Chapter 9: Financial Reporting

PART I: ACCOUNTS AND STATEMENTS

Application

9.1 These *Accounts and Statements Rules* apply to every *insurer* other than –

- PRA**
- (a) an *EEA-deposit insurer*, in relation to *insurance business* carried on by it outside the United Kingdom; or
 - (b) a *Swiss general insurer*, in relation to *general insurance business* carried on by it outside the United Kingdom.

Interpretation

9.2 (1) In rules 9.25 to 9.27, 9.29, 9.30 and 9.32, and in the Appendices relevant to the *Accounts and Statements Rules*, unless the context otherwise requires, words and expressions not defined in *IPRU (INS)* or the *Glossary* which are used in the *insurance accounts rules* have the same meanings as in those rules.

PRA

(2) In the *Accounts and Statements Rules* –

- (a) any reference to *long-term insurance business* or *general insurance business* is, in relation to an *EEA-deposit insurer*, to *long-term insurance business* or *general insurance business* carried on by it through a branch in the United Kingdom; and
- (b) any reference to *general insurance business* is, in relation to a *Swiss general insurer*, to *general insurance business* carried on by it through a branch in the United Kingdom,

and accordingly any reference to, or requirement imposed in respect of, the accounts and balance sheet (including any notes, statements, reports and certificates annexed to them) is to, or imposes a requirement in respect of, *insurance business* carried on through that branch.

(3) In the *Accounts and Statements Rules*, any reference to *long-term insurance business* or to *general insurance business* is -

- (a) in relation to an *external insurer*, to its entire *long-term insurance business* or to its entire *general insurance business* and (except in the case of a *non-EEA insurer* whose *insurance business* in the United Kingdom is restricted to *reinsurance* or an *insurer* whose head office is in any *EEA State* except the United Kingdom whose *insurance business* in the *EEA* is restricted to *reinsurance*), to any *long-term insurance business* or *general insurance business* carried on by it through a branch in the United Kingdom; and
- (b) in relation to a *UK-deposit insurer*, to its entire *long-term insurance business* or to its entire *general insurance business*

and to any *long-term insurance business* or *general insurance business* carried on by it through a branch in any *EEA State*,

and accordingly any reference to, or requirement imposed in respect of, the accounts and balance sheet (including any notes, statements, reports and certificates annexed to them) relevant to *long-term insurance business* or to *general insurance business* is to, or imposes a requirement in respect of –

- (i) accounts prepared in respect of its entire *long-term insurance business* or entire *general insurance business*; and
- (ii) accounts prepared in respect of the *long-term insurance business* or the *general insurance business* carried on, in the case of an *external insurer*, by the branch in the United Kingdom and, in the case of a *UK-deposit insurer* (other than a *non-EEA insurer* whose *insurance business* in the United Kingdom is restricted to *reinsurance* or an *insurer* whose head office is in any *EEA State* except the United Kingdom whose *insurance business* in the *EEA* is restricted to *reinsurance*), by the branches in question in the *EEA States* taken together.

(4) In the *Accounts and Statements Rules* and in Chapter 12 –

- (a) any reference to a numbered Form is a reference to the Form so numbered in Appendices 9.1 to 9.3;
- (b) references to a numbered *class of insurance business* are references to the *class* so numbered in either Annex 11.1 or 11.2; and
- (c) references to a numbered PRA *general insurance business reporting category* are references to the PRA *general insurance business reporting category* so numbered in Annex 11.3.

(5) To the extent there is a contradiction between *SUP 16.3* and the *Accounts and Statements Rules*, the *Accounts and Statements Rules* apply.

Annual accounts and balance sheets

9.3

PRA

- (1) Subject to (2) and (3), an *insurer* which does not fall within (5) must, with respect to each of its *financial years*, prepare –
 - (a) a revenue account for the year;
 - (b) a balance sheet as at the end of the year; and
 - (c) a *profit and loss account* for the year.
- (2) An *insurer* not trading for profit must, with respect to each of its *financial years*, prepare an income and expenditure account for the year.
- (3) If a form is required for –

- an account
- a balance sheet
- a note
- a statement
- a report, or
- a certificate attached to any of the above,

the account etc. must be in that form.

- (4) *An insurer's financial year* must be a 12 month period.
- (5) *A long-term insurer* which:
- (a) has transferred all of its *long-term insurance business* to another insurer;
 - (b) has no intention to carry on further *long-term insurance business*; and
 - (c) is not carrying on *general insurance* business,

must provide to the *PRA* within three months of the date of transfer Forms 40, 41, 42, 43, 45, 46 and 47 in respect of the period from the end of the *financial year* most recently ended to the date of transfer together with a certificate in accordance with Appendix 9.6 paragraphs 1(1)(a) and 1(1)(b)(i) and a statement that no *long-term insurance business* has been carried on by the *insurer* since then, there is no intention to carry on further any such business and the *insurer* is not carrying on *general insurance business*.

- (6) The Forms 40, 41, 42, 43, and 45 provided under (5) must be audited by a person qualified to do so, in accordance with the rules in SUP, who must make and annex to those documents a report in accordance with Appendix 9.6 paragraph 4(a)(i) in respect of those documents.

Half-yearly balance sheet and report for realistic valuation

- 9.3A
- PRA
- (1) Every *long-term insurer* which is a *realistic basis life firm* must in respect of each *financial year* prepare Forms 2, 18 and 19 of Appendix 9.1, as at the end of the first six months of that *financial year*.
 - (2) The Forms in (1) must be prepared in accordance with Appendix 9.1, and Form 2 must be completed in respect of the *long-term insurance business* of the *firm* and Forms 18 and 19 must be completed in respect of each of the *firm's with-profit funds*.
 - (3) The Forms in (1) must be accompanied by a report (instead of the reports required under rule 9.4(1)(b)) identifying any changes to the methods and assumptions used from those set out in the report for the realistic

valuation as at the end of the *preceding financial year*.

- (4) Rules 9.4, 9.6, 9.10, 9.11, 9.12, 9.33 and 9.34, Appendices 9.1 and 9.4A and Part I of Appendix 9.6 apply to this rule and to any documents required under this rule as if –
- (a) an additional balance sheet were required under rule 9.3;
 - (b) the documents required by (1), and only those documents, were required by rule 9.12 for the purposes of the balance sheet in (a) above;
 - (c) an additional investigation were required under rule 9.4(1)(a) in respect of the six-month period covered by this rule;
 - (d) any document required by (3) were a document required by rule 9.31(b) for the purposes of the investigation in (c) above;
 - (e) any reference to the *financial year in question* (however expressed) were a reference to the six-month period referred to in (1);
 - (f) any reference to the preceding year were a reference to the end of the *preceding financial year*;
 - (g) the required signatory in each case were any director of the *insurer*;
 - (h) any reference to a particular amount shown in a document not required under (1) or (3) were a reference to the amount which would be shown in that document (subject to any modifications in (a) to (f) above) in accordance with the *Accounts and Statements Rules* if that document were required to be produced;
 - (i) any requirement (other than in this rule) to refer in the *return* or any certificate annexed to it by virtue of rule 9.34 to a document not required under (1) or (3) were omitted; and
 - (j) in 9.6(2)(a) a single printed copy is required and for both 9.6(2)(a) and 9.6(2)(b) the printed copy must be sent to the *insurer's* normal supervisory contact.
- (5) Instead of a valuation report under rule 9.31(a), the report referred to in (3) must include, in an additional numbered answer following the answers to the 5 31 December 2009 paragraphs in Appendix 9.4A –
- (a) a full description of each of the changes in the methods and assumptions used in the investigation for the purposes of rule 9.4(2)(a) and (b) since the previous investigation at the end of the *preceding financial year*; or
 - (b) if there has been no such change, a statement to that effect.

Rules 9.3, 9.5, 9.7, 9.13 to 9.30, 9.31, 9.32 and 9.35 to 9.39 do not apply in respect of the documents required under this rule.

Periodic actuarial investigation of long-term insurer

9.4 (1) Every *long-term insurer* –

PRA

- (a) must, once in every period of 12 months, cause an investigation to be made into its financial condition in respect of its *long-term insurance business*, in accordance with the methods and assumptions determined by the *insurer*, by the person or persons who for the time being are appointed to perform the *actuarial function* under the rules in *SUP*; and
- (b) when such an investigation has been made, or when at any other time an investigation into the financial condition of the *insurer* in respect of its *long-term insurance business* has been made with a view to the distribution of profits, or the results of which are made public, must cause an abstract of the report or reports of the investigation to be made.

(2) An investigation to which (1) relates must include –

- (a) a determination of the liabilities of the *insurer* attributable to its *long-term insurance business*;
- (b) a valuation of any excess over those liabilities of the assets representing the *long-term insurance fund* or *funds* and, where any rights of any long-term *policy holders* to participate in profits relate to particular parts of such a fund, a valuation of any excess of assets over liabilities in respect of those parts; and
- (c) for the investigation in (1)(a), for every *long-term insurer* which is a *realistic basis life firm*, a calculation of the *with-profits insurance capital component*.

(3) For the purposes of any investigation to which this rule applies, the value of any assets and the amount of any liabilities must be determined in accordance with *GENPRU 1.3*, *INSPRU 2.1* and *INSPRU 1*.

(4) The form and contents of any abstract under this rule must be in accordance with rule 9.31.

Audit of accounts

9.5 (1) The ‘accounts and balance sheets’ of every *insurer* must be audited in accordance with rule 9.35 by a person qualified in accordance with the rules in *SUP*.

PRA

- (2) In (1), the reference to *accounts and balance sheets* includes a reference to any notes or statement or report annexed to them, save for –
 - (a) the *directors’ certificate* annexed pursuant to rule 9.34, and

(b) **Forms 46 to 47A, 50 to 55, 57 and 59.**

Deposit of accounts etc. with the PRA

9.6

PRA

- (1) Every 'account', 'balance sheet', abstract or statement required by rules 9.3, 9.3A, 9.4 and 9.36A and any report of the auditor of the *insurer* made in pursuance of rules 9.5 or 9.36E must be printed, and the 'required copies' must be deposited with the PRA within the periods set out in the table below.

deposit period following the <i>financial year</i> end or, for documents required by rule 9.3A, the end of the first six months of the <i>financial year</i>			
3	where the deposit is made electronically or under rule 9.36A	4	otherwise
5	3 months		2 months and 15 days

- (1A) If the due date for deposit of documents required by (1) falls on a day which is not a *business day*, the documents must be submitted no later than the first *business day* after the due date.
- (1B) [deleted]
- (2) In (1), the reference to the *required copies* is to –
- (a) five printed copies of the document; or
- (b) one printed copy of the document and one copy of it in an electronic form which may be readily used or translated by the PRA sent by email to InsuranceData@bankofengland.co.uk. The title of the email must be: <firm name> PRA returns <dd/mm/yyyy>.
- The printed copies must be sent to Regulatory Data Group, Statistics and Regulatory Division (HO5 A-B), Bank of England, Threadneedle Street, London EC2R 8AH (and must not be addressed to the *insurer's* normal supervisory contact).
- (3) In the case of any document deposited under (1), except an auditor's report, one of the printed copies, or, as the case may be, the printed copy, of the document must be signed in accordance with rule 9.33.
- (4) In the case of any auditor's report deposited under (1), one of the printed copies, or, as the case may be, the printed copy, of the document must be signed by the auditor.
- (5) If within 24 months of the date of deposit, the PRA notifies the *insurer* that a document deposited under (1) appears to it to be inaccurate or incomplete, the *insurer* must consider the matter and within one month of the date of notification it must correct any inaccuracies and make good

any omissions and deposit the relevant parts of the documents again.

- (6) There must be deposited with every revenue 'account' and 'balance sheet' of an *insurer* any statement or report on the affairs of the *insurer* made or submitted:
- (a) to the *insurer's* shareholders or *policyholders*; or
 - (b) to the *insurer's with-profits policyholders* under COBS 20.4.7R or SUP 4.3.16AR(4) of the FCA Handbook,

in respect of the *financial year* to which the 'account' and 'balance sheet' relate.

The *insurer* may either send a printed copy or an electronic copy of these reports. The requirements in (2) above as to postal address, email address and email title apply.

- (6A) Where a statement or report has not been made or submitted at the time the revenue 'account' and 'balance sheet' are deposited (see (6)), it must be deposited as soon as possible thereafter.
- (7) In this rule, any reference to an account or balance sheet includes a reference to any note, or statement or report annexed to it by virtue of rule 9.3 and any certificate annexed to it by virtue of rule 9.34.

Right to receive copies of deposited documents

9.7 An *insurer* must provide to any person (or the person who has already been provided with a copy under (a)) within 30 days of the date of request (or, in the case of (b), the date of deposit under rule 9.6(5)):

PRA

- (a) a copy of any of the documents last deposited by the *insurer* under rule 9.6(1) in respect of the *financial year in question*, and the two *financial years* preceding the financial year in question;
- (b) a copy of any document deposited under rule 9.6(5) which corrects or makes good any document provided under (a); and
- (c) a copy of any report deposited with any such document under rule 9.6(6),

where the deposit is made electronically, in the form (whether printed or electronic) requested or, if the deposit is not made electronically, in printed form, but (except in the case of (b)) the *insurer* may make a charge to cover its reasonable costs, including those of printing and postage.

Value of assets and amount of liabilities

9.10 Unless otherwise provided in the *Accounts and Statements Rules*, in the documents which an *insurer* is required to prepare in accordance with the *Accounts and Statements Rules* –

PRA

- (a) the value or amount given for an asset or a liability of the *insurer* is the value or amount of that asset or liability as determined in accordance with *GENPRU 1.3* and *INSPRU 1* at the end of the *financial year in question*;
- (b) no value shall be given to exposures in excess of the limits set out in *INSPRU 2.1.22R (3)*;
- (c) notwithstanding (a) and (b) (but subject to the conditions set out in (d)), an *insurer* may, for the purposes of an *actuarial investigation*, elect to assign to any of its assets the value given to the asset in question in the books or other records of the *insurer*; and
- (d) the conditions referred to in (c) are that –
 - (i) the election does not enable the *insurer* to bring into account any asset that is not an *admissible asset*; and
 - (ii) the value assigned to the aggregate of the *insurer's* assets is not higher than the aggregate of the value of those assets as determined in accordance with (a) and (b), without taking 9 31 December 2009 advantage of (c).

Content and form of accounts

9.11 Every account, balance sheet, note, statement, report and certificate required to be prepared by an *insurer* pursuant to rule 9.3(1), (2) and (3) (annual accounts and balance sheets) or 9.3(5) must be prepared in the manner set out in the *Accounts and Statements Rules* and must fairly state the information provided on the basis required by the *Accounts and Statements Rules*. Where the *rules* in *IPRU(INS)* require a Form to be submitted, but all entries (including comparatives) would be blank, that Form may be omitted provided that a note coded FF00 (where F is the Form number) is included stating that this why the Form has been omitted. Where a Form is omitted because of the operation of a de minimis limit, a note coded FF00 must be included stating that this is why the Form has been omitted. This note is not needed where a Form is omitted because the *rules* do not require it for a reason other than the operation of a de minimis limit.

PRA

Balance sheet

- 9.12
- (1) The balance sheet required to be prepared by an *insurer* under rule 9.3(1) must comply with the requirements of Appendix 9.1 and must be in Forms 1 to 3, 10 to 15 and 17 to 19 of that Appendix completed (as may be appropriate) as specified in (2) to (9).
 - (2) Form 1 must be completed by every *insurer* that carries on *general insurance business*, other than a *Swiss general insurer* or an *EEA-deposit insurer*.

PRA

- (2A) **Form 2** must be completed by every *long-term insurer*, other than an *EEA-deposit insurer*.
- (3) **Form 3** must be completed by every *insurer* other than a *Swiss general insurer* or an *EEA-deposit insurer*.
- (3A) **Form 10** must be completed by an *external insurer* (other than a *non-EEA insurer* whose *insurance business* in the United Kingdom is restricted to *reinsurance* or an *insurer* whose head office is in any *EEA State* except the United Kingdom whose *insurance business* in the *EEA* is restricted to *reinsurance*), an *EEA-deposit insurer* or a *Swiss general insurer*.
- (4) **Forms 11 and 12** must be completed by every *insurer* which carries on *general insurance business*, other than a *Swiss general insurer* or an *EEA deposit insurer* and, except when the instructions for completion of *Forms 11 and 12* specify otherwise, by every *insurer* which carries on *long-term insurance business*.
- (5) **Form 13** must be completed (as appropriate) –
- (a) by every *insurer* which carries on *long-term insurance business* in respect of –
 - (i) its total *long-term insurance assets*; and
 - (ii) the *long-term insurance assets* appropriated by it in respect of each *long-term insurance fund* or, where such assets have been appropriated for a group of funds, those assets;
 - (b) by every *insurer* in respect of its total assets other than *long-term insurance assets*;
 - (c) by every *external insurer* (other than a *non-EEA insurer* whose *insurance business* in the United Kingdom is restricted to *reinsurance* or an *insurer* whose head office is in any *EEA State* except the United Kingdom whose *insurance business* in the *EEA* is restricted to *reinsurance*) in respect of *long-term insurance business* or *general insurance business* carried on by it through a branch in the United Kingdom in respect of those assets which are –
 - (i) deposited under *INSPRU 1.5.54R*,
 - (ii) maintained in the United Kingdom, and
 - (iii) maintained in the United Kingdom and the other *EEA States*; and
 - (d) by every *UK-deposit insurer* in respect of *long-term insurance business* or *general insurance business* carried on by it through branches in the *EEA States* in respect of those assets which are –

- (i) deposited under *INSPRU 1.5.54R*,
 - (ii) maintained in the United Kingdom and such other *EEA States* where *insurance business* is carried on, and
 - (iii) maintained in the United Kingdom and the other *EEA States*.
- (6) **Form 14** must be completed by every *long-term insurer* in respect of –
- (a) its total *long-term insurance liabilities* and margins;
 - (b) the *long-term insurance liabilities* and margins for each *long-term insurance fund* or where *long-term insurance assets* have been appropriated in respect of a group of funds, for the group; and
 - (c) subject to (6A), except where the information is provided by virtue of (a) or (b), each *with-profits fund*, with a supplementary note (code 1406) stating the amount, if any, of the increase or decrease, as the case may be, in the value of *non-linked assets*.
- (6A) Where the amount (or part of the amount) of any increase or decrease in the value of *non-linked assets* has yet to be allocated between *with-profits funds* or between one or more *with-profits funds* and other purposes, the note required by (6) must state the total amount which has yet to be aggregated:
- (a) identifying the *with-profits funds* to which the information relates; and
 - (b) describing the basis upon which increases or decreases in the value of *non-linked assets* are, or will be, allocated between the *with-profits funds* or between the *with-profits funds* and other purposes.
- (7) **Form 15** must be completed by every *insurer* except an *insurer* not trading for profit which carries on only *long-term insurance business*.
- (8) For each **Form 13** which an *insurer* is required to complete under (5)(a) or (b), the *insurer* must complete **Form 17** in respect of the same *insurance business*, subject to the de minimis requirement set out in instruction 1 to **Form 17**.
- (9) **Forms 18 and 19** must be completed by every *long-term insurer* which is a *realistic basis life firm*, in respect of each of its *with-profits funds*.

Profit and loss account

9.13 The *profit and loss account* required to be prepared by every *insurer* under rule 9.3 must comply with the requirements of **Appendix 9.1** and must be in **Form 16**.

PRA

Revenue account

9.14 The revenue account to be prepared by every *insurer* under rule 9.3 –

PRA

- (a) in the case of an *insurer* carrying on *general insurance business*, must comply with the requirements of Appendix 9.2 and must be in Form 20 in respect of the whole of the *general insurance business* carried on by it; and
- (b) in the case of an *insurer* carrying on *long-term insurance business*, must comply with the requirements of Appendix 9.3 and must be in Form 40 and –
 - (i) separate accounts must be prepared in Form 40 in respect of:
 - (A) each *long-term insurance fund* maintained by it, and
 - (B) except where the information is provided by virtue of (A), each *with-profits fund*, with a supplementary note [code 4010] stating the amount, if any, of investment income relating to *linked assets* included at line 12; and
 - (ii) where there is more than one Form 40 under (i) above, the *insurer* must also prepare a summary Form 40 for the total *long-term insurance business*.

Allocation of general insurance business to risk categories

9.14A Every *insurer* preparing the Forms required under rules 9.15, 9.17, 9.19, 9.20 and 9.20A must allocate its *general insurance business* to one or more *risk categories*.

PRA

Allocation of contracts of insurance covering more than one risk category

9.14B (1) This rule applies in any case where a *contract of insurance* falls within the description of more than one *risk category*.

PRA

- (2) If the *contract of insurance* falls, to any extent, within the description of *risk category* 274, 590 or 690, an *insurer* must allocate all the *general insurance business* represented by that *contract of insurance* to that *risk category*.
- (3) In any other case, an *insurer* must, unless (4) applies, allocate all the *general insurance business* represented by the *contract of insurance* to the single *risk category* that, in the reasonable opinion of the *insurer's governing body*, best describes the risk covered by the *contract of insurance*.
- (4) If:
 - (a) the premium payable under the *contract of insurance* is separable into the components relating to different *risk categories*; or

- (b) in the reasonable opinion of the *insurer's governing body*, allocation under (3) would be misleading;

then the *insurer* must apply a reasonable method to allocate the *general insurance business* represented by the *contract of insurance* amongst the appropriate *risk categories* and must apportion the amounts it reports in the Forms accordingly.

General insurance business (content of revenue account and additional information as to balance sheet)

- 9.15 (1) Every *insurer* which carries on *general insurance business* must, in accordance with the requirements of Appendix 9.2, prepare –

PRA

- (a) Form 20A in respect on the whole of the *general insurance business* carried on by it;
- (b) Form 20 in respect of each *required category*;
- (c) Forms 21, 22 and 23 for *insurance business* accounted for on an 'accident year basis' in respect of each *required category*; and
- (d) Forms 24 and 25 for *insurance business* accounted for on an 'underwriting year basis' in respect of each *required category*.

- (2) For the purposes of this rule and rules 9.17(1), 9.19(1) and 9.22(2), business must be taken to be *accounted for* on an underwriting year basis where it relates to risks –

- (a) which have been reported previously under the *Accounts and Statements Rules* on Forms 24 and 25;
- (b) in respect of which the *claims* outstanding for such *insurance business* are calculated using the method described in paragraph 52 of *the insurance accounts rules*; or
- (c) which have not previously been reported on any Form under the *Accounts and Statements Rules* and which the *insurer* accounts for on an 'underwriting year basis',

and business not *accounted for* on an 'underwriting year basis' is taken to be *accounted for* on an accident year basis.

- (3) Every *insurer* which, in respect of any *financial year*, includes in Form 22 or 25 amounts relating to adjustments for *discounting* must prepare Form 30 in accordance with the requirements of Appendix 9.2.

- 9.16 [deleted]

Additional information on general insurance business (treaty reinsurance business)

- 9.17 (1) Every *insurer* which carries on *general insurance business* must, in accordance with the requirements of Appendix 9.2 prepare –

PRA

- (a) **Forms 26 and 27** for *treaty reinsurance business* accounted for on an 'accident year basis' in respect of each *required category*; and
- (b) **Forms 28 and 29** for *treaty reinsurance business* accounted for on an 'underwriting year basis' in respect of each *required category*.

(2) [deleted]

(3) [deleted]

9.18 [deleted]

Additional information on general insurance business (direct and facultative business)

9.19 (1) Every *insurer* which carries on *general insurance business* must, in accordance with the requirements of **Appendix 9.2**, prepare –

PRA

- (a) **Form 31 or 32** for *direct and facultative insurance business* accounted for on an 'accident year basis' in respect of each *required category*; and
- (b) **Form 34** for *direct and facultative insurance business* accounted for on an 'underwriting year basis' in respect of each *required category*.

(2) [deleted]

(3) Where any of **Forms 31, 32 or 34** has been prepared in respect of the entire *insurance business* of an *insurer*, no separate forms need be prepared –

- (a) in the case of an *external insurer*, in respect of *insurance business* carried on by it through a branch in the United Kingdom; and
- (b) in the case of a *UK deposit insurer*, in respect of *insurance business* carried on by it through a branch in any *EEA State*.

PRA general insurance business reporting categories falling below de minimis criteria

9.20 (1) This rule applies to any *financial year* after the first *financial year* ended on or after 31 December 2005 in any case where –

PRA

- (a) for the previous *financial year*, an *insurer* was required to prepare a **Form 20 to 34** for a category of business (as set out in column 2 of paragraph 2B of **Appendix 9.2**) that was not *category number* 001 to 003, 409 or 709; and
- (b) for the *financial year in question*, the 'reporting criteria' for that Form and category of business are not met.

- (2) In this rule, any references to 'reporting criteria', in relation to a Form, are the reporting criteria specified for that Form in column 3 in the Table in paragraph 2B of Appendix 9.2.
- (3) Unless paragraph (4) applies, any such business that satisfies (1) must be reported in the same category of business (as set out in column 2 of paragraph 2B of Appendix 9.2) in the same Form for the *financial year in question*.
- (4) An *insurer* may cease to report such business on that Form in that category of business if –
- (a) the *gross written premiums* in the *financial year in question* and the 'gross undiscounted provisions' at the end of that *financial year* for that category of business are each less than £0.5m; or
 - (b) the following conditions are met –
 - (i) the *financial year in question* ended on or after 31 December 2008;
 - (ii) the business in 1(a) has been reported on that Form for that category of business in each of the three previous *financial years*; and
 - (iii) the *gross written premiums* in the *financial year in question* and the 'gross undiscounted provisions' at the end of that *financial year* for that category of business are each less than 50% of the amounts respectively specified in the 'reporting criteria' for that Form in respect of that category of business.
- (5) For the purpose of this rule, rule 9.20A and paragraph 2B of Appendix 9.2, *gross undiscounted provisions* are gross undiscounted reported claims outstanding plus gross undiscounted incurred but not reported claims plus gross provision for unearned premiums plus provision for unexpired risks.

Further information on general insurance business to ensure adequate coverage in the return

- 9.20A (1) Subject to (2) and (3), if the total of all 'gross undiscounted provisions' in all the Forms 26 to 29, 31, 32 and 34 required under rules 9.17, 9.19 and 9.20, or included despite rule 9.20(4), is less than 80% of the *insurer's* total 'gross undiscounted provisions', the *insurer* must prepare Forms 26 to 29, 31, 32 and 34, as appropriate, for further categories of business (as set out in column 2 of paragraph 2B of Appendix 9.2) in decreasing order of size (measured in 'gross undiscounted provisions'), until the 80% criterion is met.
- (2) An *insurer* need not prepare a Form 26, 27, 28, 29, 31, 32, or 34 for a category of business (as set out in column 2 of paragraph 2B of Appendix 9.2) if

PRA

- (a) the *insurer's gross written premiums* in the *financial year in question* for that category of business are less than £1m; and
 - (b) the *insurer's 'gross undiscounted provisions'* at the end of the *financial year in question* for that category of business are less than £1m.
- (3) An *insurer* need only prepare a *Form 26, 27, 28, 29, 31, 32 or 34* for a category of business (as set out in column 2 of paragraph 2B of Appendix 9.2) if it is required to prepare a *Form 20* for category number 110, 120, 160, 180, 220, 260, 270, 280, 330, 340, 350, 400, 500, 600, or 700 which includes that category of business.

Currencies other than sterling

- 9.21 (1) Every *insurer* which, in respect of a *financial year*, prepares a Form under rules 9.17 or 9.19 containing figures in a currency other than sterling must prepare Form 36 in accordance with the requirements of Appendix 9.2.

PRA

Additional information on general insurance business (claims equalisation provisions)

- 9.22 (1) This rule applies to non-credit *insurance business* as defined in *INSPRU 1.4.11R (1)* and credit *insurance business* as defined in *INSPRU 1.4.38R*.

PRA

- (2) An *insurer* to which *INSPRU 1.4.11R* to *INSPRU 1.4.37G* apply (unless *INSPRU 1.4.18R* applies) and an *insurer* to which *INSPRU 1.4.43R* applies (unless *INSPRU 1.4.44R* applies) must, in accordance with the requirements of Appendix 9.2, prepare –

- (a) Form 37;
- (b) Form 38 for *general insurance business* accounted for on an 'accident year basis'; and
- (c) Form 39 for *general insurance business* accounted for on an 'underwriting year basis'.

Additional information on long-term insurance business

- 9.23 Every *insurer* which carries on *long-term insurance business* must, in respect of the *financial year in question* and in accordance with the requirements of Appendix 9.3, prepare –

PRA

- (a) Forms 41 to 43 in respect of each revenue account prepared separately under rule 9.14(b)(i);
- (b) summary Forms 41 to 43 if a summary Form 40 is required under rule 9.14(b)(ii); and
- (c) Forms 44 to 59B and, except in the case of an *EEA-deposit insurer*, Form 60.

as appropriate, together with the information specified in relation to those Forms.

Forms to be annexed

9.24 The forms prepared pursuant to rules 9.15, 9.17 and 9.19 to 9.23 must be annexed to the documents referred to in rules 9.12, 9.13 and 9.14.

PRA

Additional information on general insurance business: major treaty reinsurers

9.25 (1) Subject to the provisions of rule 9.28, an *insurer* which carries on *general insurance business* must annex to the documents referred to in rules 9.12, 9.13 and 9.14, and relating to the *financial year in question*, a statement of –

PRA

- (a) the ‘full name’¹ of each of its ‘major treaty reinsurers’ and the address of the registered office or of the principal office in the country where it is incorporated (or, in the case of an unincorporated body, of the principal office) of each such *reinsurer*;
- (b) whether (and, if so, how) the *insurer* was at any time in the *financial year* ‘connected’² with any such *reinsurer*;
- (c) the amount of the *reinsurance* premiums payable in the *financial year* to each such *reinsurer* in respect of –
 - (i) *general insurance business ceded* under proportional *reinsurance* treaties; and
 - (ii) *general insurance business ceded* under non-proportional *reinsurance* treaties;
- (d) the amount of any *debt* of each such *reinsurer* to the *insurer* in respect of *general insurance business ceded* under *reinsurance* treaties, included at line 75 of Form 13;
- (e) the amount of any deposit received from each such *reinsurer* under *reinsurance* treaties as included at line 31 of Form 15; and
- (f) the amount of any anticipated recoveries from each such *reinsurer* under *reinsurance* treaties to the extent that such recoveries have been taken into account by the *insurer* in determining the *reinsurers’* share of *technical provisions* in respect of *claims* outstanding as shown at line 61 of Form 13; except that, in respect of *claims* incurred but not reported, such recoveries need only be included to the extent that they are in respect of any specific occurrences for which provisions have been allocated by the *insurer*,

or a statement that it has no ‘major treaty *reinsurer*’.

(2) For the purposes of this rule, a *major treaty reinsurer* of an *insurer* is another *company* –

- (a) to which (whether alone or with any *company* which is ‘connected’³ with the other *company*) the *insurer* has *ceded*

general insurance business under one or more reinsurance treaties –

- (i) in the case of proportional *reinsurance*, for which the total amount of the *reinsurance* premiums payable is equal to not less than 2% of the *gross premiums receivable* by the *insurer* in respect of *general insurance business*, or
- (ii) in the case of non-proportional *reinsurance*, for which the total amount of the *reinsurance* premiums payable is equal to not less than 5% of the total premiums payable by the *insurer* in respect of all such non-proportional *reinsurance*,

in the *financial year in question* or in any of the five *preceding financial years* of the *insurer*; or

- (b) in relation to which (whether alone or with any *company* which is 'connected' with the other *company*) the aggregate of the amounts referred to in (1)(d) and (f) exceeds the sum of 20,000 Euro and 5% of the *insurer's* liabilities arising from its *general insurance business*, net of *reinsurance ceded*.

¹. for the meaning of 'full name' in this rule, see rule 9.28(4)

². for the meaning of 'connected', in this rule, see rule 9.28(1)

Additional information on general insurance business: major facultative reinsurers

9.26

PRA

- (1) Subject to rule 9.28, an *insurer* which carries on *general insurance business* must annex to the documents referred to in rules 9.12, 9.13 and 9.14, and relating to *the financial year in question*, for each 'major facultative reinsurance contract', a statement in respect of each 'major facultative reinsurer' of –
 - (a) its 'full name'⁴ and the address of the registered office or of the principal office in the country where it is incorporated (or, in the case of an unincorporated body, of the principal office);
 - (b) whether (and, if so, how) the *insurer* was at any time in the *financial year* 'connected' with such *reinsurer*;
 - (c) the amount of the *reinsurance* premiums payable in the *financial year*;
 - (d) the amount of any *debt* to the *insurer* included at line 75 of Form 13;
 - (e) the amount of any deposit received as included at line 31 of Form 15; and
 - (f) the amount of any anticipated recoveries to the extent that such recoveries have been taken into account by the *insurer* in determining the *reinsurers' share of technical provisions* in respect of *claims* outstanding as shown at line 61 of Form 13;

except that, in respect of *claims* incurred but not reported, such recoveries need only be included to the extent that they are in respect of any specific occurrences for which provisions have been allocated by the *insurer*,

or a statement that it has no 'major facultative reinsurer'.

- (2) For the purposes of this rule, a ***major facultative reinsurance contract*** is a contract under which *general insurance business* has been *ceded* by the *insurer* on a facultative basis –
- (a) under which the total amount of premiums payable to any *reinsurer* (a ***major facultative reinsurer***) is equal to not less than 0.5% of *gross premiums receivable* by the *insurer* in respect of *general insurance business*; or
 - (b) in relation to which, in respect of any *reinsurer* (a ***major facultative reinsurer***) the aggregate of amounts in (1)(d) and (f) exceeds the sum of 4,000 Euro and 1% of the *insurer's* liabilities arising from its *general insurance business*, net of *reinsurance ceded*.

³For the meaning of 'connected', in this rule, see rule 9.28(1)

⁴For the meaning of 'full name' in this rule, see rule 9.28(4)

Information on major general insurance business: reinsurance cedants

- 9.27 (1) Subject to rule 9.28, an *insurer* which carries on *general insurance business* must annex to the documents referred to in rules 9.12, 9.13 and 9.14, and relating to the *financial year in question*, a statement of –

PRA

- (a) the 'full name' of each of its 'major cedants' and the address of the registered office or of the principal office in the country where it is incorporated (or, in the case of an unincorporated body, of the principal office) of each such cedant;
- (b) whether (and, if so, how) the *insurer* was at any time in the *financial year* 'connected' with any such cedant;
- (c) the amount of the total of the *gross premiums receivable* in the *financial year* from each such cedant in respect of *general insurance business* accepted under *reinsurance treaties*;
- (d) the amount of any deposit made with any such cedant as included at line 57 of *Form 13*; and
- (e) the amount of any *debt* of each such cedant in respect of *general insurance business* accepted under *reinsurance treaties*, included at line 74 of *Form 13*,

or a statement that it has no 'major cedant'.

- (2) For the purposes of this rule, a ***major cedant*** of an *insurer* is another *company* from which (whether alone or with any *company* which is

'connected' with the other company) the insurer has accepted general insurance business under one or more reinsurance treaties for which the gross premiums receivable exceed the greater of –

- (a) **5% of the gross premiums receivable by the insurer in respect of general insurance business accepted under reinsurance treaties; and**
- (b) **2% of the gross premiums receivable by the insurer in respect of general insurance business,**

in the financial year in question or in any of the three preceding financial years of the insurer.

9.28

PRA

- (1) For the purposes of rules 9.25(1)(b) and (2), 9.26(1)(b) and 9.27(1)(b) and (2), a company and another person are connected with each other if –

- (a) the other person is –
 - (i) a subsidiary undertaking of the company,
 - (ii) a parent undertaking of the company, or
 - (iii) a subsidiary undertaking of the parent undertaking of the company; or
- (b) one of them is 'controlled' by the other or both are 'controlled' by the same person,

but a company is not to be taken to be 'connected' with another person if the insurer furnishing the statement does not know and could not upon reasonable enquiry be expected to discover that it is so 'connected' with the other person.

- (2) Except as provided in (3), for the purposes of (1)(b), a person is taken to control a company if he is a person –
- (a) in accordance with whose directions or instructions the directors of the company or of a company of which it is a subsidiary are accustomed to act; or
 - (b) who, either alone or with an associate is entitled to exercise, or 'control' the exercise of, 15% or more of the voting power at any general meeting of the company or of a company of which it is a subsidiary.
- (3) In relation to an insurer –
- (a) making a statement pursuant to rules 9.25 or 9.26, a reinsurer is not to be taken by virtue of (2) to be 'connected' with another

reinsurer, or

- (b) making a statement pursuant to rule 9.27, a cedant is not to be taken by virtue of (2) to be 'connected' with another cedant,

for the purposes of paragraph (2) of rules 9.25, 9.26 or 9.27, as the case may be, unless it is also 'connected' by virtue of (1) with the *insurer* making the statement.

- (4) In rules 9.25, 9.26 and 9.27 and in this rule, ***full name*** means -
- (a) in the case of a company, its corporate name; and
- (b) in the case of an individual or any unincorporated body, the name under which the individual or body lawfully carries on business.
- (5) The following provisions of ***Appendix 9.1*** apply for the purposes of rules 9.25, 9.26, and 9.27 -
- (a) paragraphs 4 and 5 (which relate to currencies other than sterling);
- (b) paragraphs 8(1) and 8(2) (which, among other things, relate to amounts due to the *insurer*); and
- (c) paragraph 9 (which provides for amounts to be shown to the nearer £1,000).
- (6) Rules 9.25(2), 9.26(1)(a) to (c) and 9.27 apply in relation to the members of the *Society* taken together as they apply in relation to an *insurer* and in relation to the members of the *Society* (1) to (4) of this rule do not apply.

Additional information on derivative contracts

9.29

PRA

- (1) Every *insurer* must, in respect of the *financial year in question*, annex to the documents referred to in rules 9.12, 9.13 and 9.14 a statement comprising a brief description of -
- (a) any investment guidelines operated by the *insurer* for the use of *derivative contracts*;
- (b) any provision made by such guidelines for the use of contracts under which the *insurer* had a right or obligation to acquire or dispose of assets which was not, at the time when the contract was entered into, reasonably likely to be exercised and, if so, the circumstances in which, pursuant to that provision, such contracts would be used;
- (c) the extent to which the *insurer* was during the *financial year* a party to any contracts of the kind described in (b);
- (d) [deleted];

- (e) [deleted];
- (f) [deleted];
- (g) [deleted];
- (h) the circumstances surrounding the use of any *derivative* or *quasi-derivative* held at any time during the *financial year* which required a 'significant' provision to be made for it under *INSPRU 3.2.17R*, or (where appropriate) did not fall within the definition of a *permitted derivatives contract*; and
- (i) the total value of any fixed consideration received by the *insurer* (whether in cash or otherwise) during the *financial year* in return for granting rights under *derivatives* and *quasi-derivatives* and a summary of contracts under which such rights have been granted.

(1A) For the purposes of determining in accordance with (1)(h) whether a required provision is 'significant', the *insurer* must have regard to its obligations under the contract and the volatility of the assets identified by the *insurer* as being suitable to cover such obligations; and the required provision in respect of any one *derivative contract* must be treated as significant if –

- (a) the aggregate provision required in respect of all contracts having a similar effect is significant; or
- (b) the aggregate provision required in respect of all contracts with which it is connected is significant.

(2) [deleted]

(2A) [deleted]

(2B) [deleted]

(2C) [deleted]

(2D) [deleted]

Additional information on controllers

9.30 Every *insurer* with its head office in the United Kingdom must, in respect of the *financial year in question*, annex to the documents referred to in rules 9.12, 9.13 and 9.14 –

PRA

- (a) a statement naming each person who, to the knowledge of the *insurer*, has been, at any time during the *financial year*, a *controller* of that *insurer*; and
- (b) in the case of each person so named, a statement of –

- (i) the percentage of *shares* which, to the knowledge of the *insurer*, he held at the end of the *financial year in question* in the *insurer*, or in another company of which the *insurer* is a *subsidiary undertaking*; and
- (ii) the percentage of the voting power which, to the knowledge of the *insurer*, he was entitled at the end of the *financial year in question* to exercise, or control the exercise of, at any general meeting of the *insurer*, or another company of which it is a *subsidiary undertaking*,

in each case, either alone or with any *associate* or *associates*.

Valuation reports on long-term insurance business

9.31 Every *insurer* which carries on *long-term insurance business* must prepare and annex to the documents referred to in rules 9.12, 9.13 and 9.14 –

PRA

- (a) for the purposes of rule 9.4 other than in relation to the calculation required by rule 9.4(2)(c):
 - (i) where an investigation into the financial condition of the *insurer* has been made in accordance with rule 9.4(1)(a), a valuation report which, complies with the requirements of Appendix 9.4 and contains the information specified in that Appendix; and
 - (ii) where an investigation into the financial condition of the *insurer* has been made at some other time with a view to the distribution of profits or the results of which are made public, Form 58 and a valuation report which, instead of complying with the requirements of Appendix 9.4, includes a full description of each of the changes in the methods and assumptions used in the investigation for the purposes of rule 9.4(2)(a) and (b) since the previous investigation at the end of the *preceding financial year* or if there has been no such change, a statement to that effect; and
- (b) for the purposes of rule 9.4 in relation to the calculation required by rule 9.4(2)(c) (if applicable), a valuation report for the realistic valuation which complies with the requirements of Appendix 9.4A and contains the information specified in that Appendix.

Additional information on general insurance business ceded

9.32 An *insurer* which carries on *general insurance business* must annex to the documents referred to in rules 9.12, 9.13 and 9.14, and relating to the *financial year in question*, a statement of the information required by Appendix 9.5.

PRA

Additional information on financial reinsurance and financing arrangements: general insurers

9.32A (1) An *insurer* which carries on *general insurance business* must annex to the documents referred to in rules 9.12, 9.13 and 9.14, and relating to the *financial year in question*, a statement of the information required by this

rule.

- (2) This rule applies to any *contract of insurance* under which *general insurance business* has been *ceded* by the *insurer*, where –
- (a) the value placed on future payments in respect of the contract in the *return* for the *financial year in question* is not commensurate with the economic value provided by that contract, after taking account of the level of risk transferred; or
 - (b) there are terms or foreseeable contingencies (other than the insured event) that have the potential to affect materially the value placed on the contract in the *insurer's* balance sheet at, or any time after, the end of the *financial year in question*.
- (3) In determining whether a *contract of insurance* meets one or both of the conditions in (2), the *insurer* must –
- (a) treat as part of a contract any agreements, correspondence (including or understandings that amend or modify, or purport to amend or modify, the contract or its operation; and
 - (b) consider whether the contract meets the condition in (2)(a) when considered together with one or more other *contracts of insurance* entered into between:
 - (i) the *insurer* and the reinsurer under the first contract; or
 - (ii) the *insurer* and any other *person*, where it could reasonably be predicted, at the time the most recent contract was entered into, that the contracts when considered together would meet the condition in (2)(a).
- (4) Subject to (9), for each *contract of insurance* to which this rule applies the statement must contain the following information –
- (a) the *financial year* of the *return* in which the contract was first reported in the *return*;
 - (b) the financial effect of the contract on the *insurer's capital resources* as shown in line 13 of *Form 1* of the *return* for the *financial year in question*;
 - (c) the amount of any undischarged obligation of the *insurer* under the contract and a brief description of the conditions for the discharge of such obligation; and
 - (d) how any undischarged obligations, including any contingent obligations, have been taken into account in determining the *insurer's capital resources*.
- (5) The statement must include a general description of how the *insurer* makes the financial assessment that enables it to determine whether a contract satisfies the condition in (2)(a), even if there are no contracts in

respect of which information is required by (4).

- (6) This rule applies to any ***financing arrangement***, which for the purpose of this rule means any contract, other than a ***contract of insurance***, that has been entered into by the ***insurer***, in respect of ***contracts of insurance*** written by the ***insurer***, which has the effect of increasing the ***capital resources*** of the ***insurer*** in line 13 of ***Form 1***, and which includes terms for –
- (a) the transfer of assets to the ***insurer***, the creation of a ***debt*** to the ***insurer*** or the transfer from the ***insurer*** to another party of liabilities to ***policyholders*** (or any combination of these); and
 - (b) either an obligation for the ***insurer*** to return (with or without interest) some or all of such assets, a provision for the diminution of such ***debt*** or a provision for the recapture of such liabilities, in each case, in specified circumstances.
- (7) In determining whether a contract falls within the definition of 'financing arrangement' in (6), the ***insurer*** must –
- (a) treat as part of a contract any agreements, correspondence (including side-letters) or understandings that amend or modify, or purport to amend or modify, the contract or its operation; and
 - (b) consider whether the contract meets the conditions in (6) when considered together with one or more other contracts entered into between:
 - (i) the ***insurer*** and the ***counterparty*** under the first contract; or
 - (ii) the ***insurer*** and any other ***person***, where it could reasonably be predicted, at the time the most recent contract was entered into, that the contracts when considered together would meet the conditions in (6).
- (8) Subject to (9), for each 'financing arrangement' entered into by the ***insurer*** the statement must contain the following information –
- (a) the ***financial year*** of the ***return*** in which the 'financing arrangement' was first reported in the ***return***;
 - (b) the financial effect of the 'financing arrangement' on the ***insurer's capital resources*** as shown in line 13 of ***Form 1*** of the ***return*** for the ***financial year in question***;
 - (c) the amount of any undischarged obligation of the ***insurer*** under the 'financing arrangement' and a brief description of the conditions for the discharge of such obligation; and
 - (d) how any undischarged obligations, including any contingent obligations, have been taken into account in determining the

insurer's capital resources.

(9) No information need be supplied pursuant to (4) or (8) in respect of a *contract of insurance* or 'financing arrangement' if, when it is considered in aggregate with all such contracts with the same *reinsurer* or *counterparty* or any other *person* with whom the *insurer* has entered into a contract in the circumstances described in (3)(b)(ii) or, as the case may be, (7)(b)(ii) –

(a) A is less than 1% of B in the *return* for the *financial year in question*; and

(b) the *insurer* expects A to remain less than 1% of B for the foreseeable future;

where:

(i) A is the financial effect on the *insurer's capital resources* as a result of the existence of the contract(s); and

(ii) B is the *insurer's* total gross amount of *technical provisions*.

(10) Where the statement required by (1) includes information about a *contract of insurance* in respect of which information has been included in the statement required by rule 9.32 relating to the *financial year in question*, the *insurer* must include in the statement under (1) a cross-reference to that other information.

Additional information on financial reinsurance and financing arrangements: guidance

9.32B

PRA

(1) In line with normal practice, an *insurer* may take account of an appropriate risk margin to reflect the nature and level of risk transferred, including any uncertainty in the amount and timing of future payments, when assessing the economic value of the transaction at the end of the *financial year in question* in order to see whether the condition in rule 9.32A(2)(a) is met. In addition, an *insurer* would be expected to take account of any credit or legal risk associated with the transaction when assessing its economic value.

(2) For most *proportional reinsurance treaties* and most standard *non-proportional reinsurance treaties*, such as contracts providing excess-of-loss cover, which include a significant transfer of risk to the *reinsurer* and do not contain any of the features described in (5) below, it is likely that the *insurer* will be able to determine that the contracts do not meet the condition in rule 9.32A(2)(a) without making a detailed calculation. The approach taken to the assessment made for the purpose of rule 9.32A(2)(a) should, however, still be described in the statement provided as required by rule 9.32A(5).

(3) When considering whether these are foreseeable contingencies, other than the insured event, that may affect the contract's given value, the *insurer* should consider the normal commercial uncertainties about the

size of the *claim* that may ultimately be payable (for example, the outcome of any possible court action) to be part of the insured event. These normal commercial uncertainties would not then trigger any disclosure requirement under rule 9.32A.

- (4) It is likely that one or both of the conditions in rule 9.32A(2) will be satisfied if the *contract of insurance* contains features that have the effect of materially limiting the size of the difference between –
- (a) the extent of the indemnity cover provided by the contract and by any related or potentially related contracts, and
 - (b) the *premiums* payable under those contracts,
- relative to the size of the *premiums* payable under those contracts.
- (5) Some characteristic features which the *insurer* should consider carefully in relation to a *contract of insurance* before deciding whether one or both of the conditions in rule 9.32A(2) are satisfied with respect to a particular contract include (but are not limited to) the following –
- (a) sliding scale fees, retrospectively rated *premiums* and profit-sharing formulae which adjust cash flows between the *insurer* and the *reinsurer* based on loss experience (for example, increasing payments from the *insurer* as losses increase and decreasing payments as losses decrease, subject to maximum and minimum limits);
 - (b) provision for an *experience account* or arrangements having similar effect, including arrangements which recognise an assumed rate of investment return;
 - (c) provision for, or a contingent obligation on, the *insurer* to make payments to the *reinsurer* or to any other *person*, where the payments –
 - (i) depend upon the loss experience of *general insurance business* that has been or may be carried on by the *insurer*; and
 - (ii) are not simply reinstatement *premiums*;
 - (d) provision for termination or commutation of the contract at the sole discretion of the *reinsurer*, when there is a positive balance of money due from the *reinsurer*;
 - (e) a provision for, or a contingent obligation on, the *insurer* to make payments to the *reinsurer* or to any other *person*, where the payments are in respect of business carried on in a period outside of the term of the contract;
 - (f) the contract includes a term requiring the *insurer* to enter into a further contract if the loss experience of the business subject to

the contract attains a specific level;

- (g) the term of the contract exceeds, or may exceed, 12 months, and the *premium* or amount of indemnity payable under the contract in subsequent years may be affected by the loss experience of earlier years;
- (h) dual triggers which require the occurrence of both –
 - (i) an insurable event; and
 - (ii) a change in a separate variable specified in the contract;

in order to trigger payment of a benefit/*claim*;

- (i) amounts payable under the contract could affect, or depend on, other contracts or agreements entered into by the *insurer*, or a *person connected* with the *insurer*, except where –
 - (i) that effect or dependence is clear from the description of that other contract or agreement given by the *insurer*; or
 - (ii) that effect or dependence arises solely as part of the normal market mechanism for the pricing of a risk; and
 - (j) terms that defer payment of *claims* –
 - (i) for a period of more than 12 months after the amount payable under the contract has been agreed; or
 - (ii) until some specified date that is more than 12 months after the end of the term of the contract.
- (6) For purpose of rule 9.32A(4), (8) and (9), the 'financial effect' of the transaction (that is, the contract or 'financing agreement') on the *insurer's capital resources* should normally be regarded as the sum of (a) the value placed on the transaction in the *return* for the *financial year in question* plus (b) the net sum of all receipts less payments made in respect of the transaction since the transaction was first reported in the *return*.

Signature of documents

- 9.33
- PRA**
- (1) In respect of any document relating to the *insurance business* of an *insurer*, wherever it may be carried on, the signatories for the purposes of rule 9.6 are –
 - (a) where there are more than two *directors* of the *insurer*, at least two of those *directors* and, where there are not more than two *directors*, all the *directors*, and
 - (b) a chief executive, if any, of the *insurer* or (if there is no chief

executive) the secretary, if any.

- (2) In respect of any document relating to *insurance business* carried on through a branch in the United Kingdom by a *Swiss general insurer*, an *EEA-deposit insurer* or an *external insurer* or through branches in any *EEA State* (taken together) by a *UK-deposit insurer*, the signatories for the purposes of rule 9.6(3) are –
- (a) the authorised UK representative referred to in article 3(1)(a) of The Financial Services and Markets Act 2000 (Variation of Threshold Conditions) Order 2001 (2001/2507), and
 - (b) the chief executive appointed under rule 8.3 or, in the case of a *Swiss general insurer*, a person who alone or jointly with one of more others, is responsible for the conduct of its *insurance business* through the branch.

Certificates by Directors

- 9.34 (1) Except for reporting under rule 9.3A, there must be annexed to the documents referred to in rules 9.12, 9.13 and 9.14 a certificate in accordance with the requirements of Part I of Appendix 9.6 which must be signed by the persons required by rule 9.33 to sign the documents to which the certificate relates.
- PRA
- (2) In respect of reporting under rule 9.3A, there must be annexed to the documents referred to in that rule a certificate in accordance with the requirements of Part IA of Appendix 9.6 which must be signed by a *director of the insurer*.

Audit and auditor's report

- 9.35 (1) The documents referred to in rules 9.12, 9.13 and 9.14, together with Forms 40 to 45, 48, 49, 56, 58 (including a Form 58 completed under rule 9.31(a)(ii)) and 60, and every statement, analysis or report annexed pursuant to rules 9.24 to 9.27, 9.29 and 9.31 must be audited by a person, in accordance with the rules in *SUP*, who must make and annex to those documents a report in accordance with the requirements of Part II of Appendix 9.6.
- PRA
- (1A) For the purposes of rule 9.5 and (1) and Appendix 9.6, to the extent that any document, form, statement, analysis or report to be audited under (1) contains amounts or information abstracted from the *actuarial investigation* performed pursuant to rule 9.4, the *insurer* must ensure that the auditor obtains and pays due regard to advice from a suitably qualified *actuary* who is independent of the *insurer*.
- (2) For the purposes of the *Accounts and Statements Rules* –
- (a) section 237(1), (2) and (3) and section 389A(1) of the Companies Act 1985 and article 245(1), (2) and (3) and article 397A(1) of the 1986 Order where applicable, otherwise sections 498(1), (2) and (3) and 499(1) of the Companies Act 2006 apply as if –

- (i) the references to the *profit and loss account* in ‘individual accounts’ in section 226(1) of the Companies Act 1985 and article 234(1) of that Order, and section 394 of the Companies Act 2006 respectively, included references to the revenue account; and
 - (ii) the auditors of the *insurer* were not under a duty for the purposes of preparing their report to carry out any investigation into information given in Forms 31, 32 and 34 relating wholly or partly to the number of *claims* notified or the amount of payments made prior to the *financial year* of the *insurer* in which the Insurance Companies (Accounts and Statements) Regulations 1980 first applied; and
- (b) section 389A(3) and (4) of the Companies Act 1985 and article 397A(3) and (4) of the 1986 Order, where they are applicable, otherwise section 500(1) of the Companies Act 2006 apply as if the references in them to a ‘parent company’ were references to the *insurer*.

Information on the actuary who has been appointed to perform the with-profits actuary function

9.36

PRA

- (1) Subject to the provisions of this rule, there must be annexed to the documents referred to in rules 9.12, 9.13 and 9.14, with respect to every person who, at any time during the *financial year in question*, was the *actuary* who has been appointed to perform the *with-profits actuary function* for the *insurer*, a statement of the following information –
- (a) particulars of any *shares* in, or debentures of, ‘the *insurer*’ in which the ‘actuary’ was ‘interested’ at any time during that year;
 - (b) particulars of any pecuniary interest of ‘the actuary’ in any transaction between ‘the actuary’ and ‘the *insurer*’ and subsisting at any time during that year or, in the case of transactions of a minor character, a general description of such interests;
 - (c) the aggregate amount of –
 - (i) any remuneration and the value of any other benefits (other than a pension or other future or contingent benefit) under any contract of service of ‘the actuary’ with, or contract for services by ‘the actuary’ to, ‘the *insurer*’, and
 - (ii) any emoluments, pensions or compensation as *director* of the *insurer* which are required by regulation 8 of and schedule 5 to the Large and Medium Sized Companies and Groups (Accounts and Reports) Regulations 2008 (SI 2008/410) to be included in a note to the accounts of ‘the *insurer*’, receivable by ‘the actuary’ in respect of

any period in that year; and

- (d) a general description of any other pecuniary benefit (including any pension and other future or contingent benefit) received by 'the actuary' from 'the *insurer*' in that year or receivable by him from 'the *insurer*',

together with the statement specified in (2).

- (2) The statement referred to in (1) is a statement that 'the *insurer*' has made a request to 'the actuary' to furnish to it the particulars specified in that paragraph and identifying any particulars furnished pursuant to that request.

- (3) For the purposes of (1)(a) to (d) –

- (a) references to the actuary include reference to –

- (i) the spouse, civil partner and any minor child (including stepchild) of 'the actuary',
- (ii) any person who is a business partner of 'the actuary',
- (iii) any person (other than 'the *insurer*') of which 'the actuary' is an employee, and
- (iv) any person (other than 'the *insurer*') of which 'the actuary' is a *director* or which is 'controlled' by him;

- (b) a person is deemed to be *interested* in *shares* or debentures if he is interested in them according to the rules set out in Schedule 1 to the Companies Act 2006 with the addition, in paragraph 6(4) of that Schedule, of a reference to a scheme under section 25 of the Charities Act (Northern Ireland) 1964; and

- (c) a person is deemed to have an *interest* or benefit if he has a beneficial interest.

- (4) For the purposes of (1)(a) to (d) and of (3)(a), references to *the insurer* include references to any *body corporate* which is 'the *insurer's* subsidiary undertaking or parent undertaking' and to any other *subsidiary undertaking* of its *parent undertaking*.

- (5) For the purposes of (3), a person is taken to *control* a *body corporate* if he is a person –

- (a) in accordance with whose directions or instructions the *directors* of that *body corporate* or of a *body corporate* of which it is a *subsidiary* are accustomed to act; or
- (b) who, either alone or with any other person falling within (3)(a), is entitled to exercise, or control the exercise of, 15% or more of the voting power at any general meeting of the *body corporate* or of

a body corporate of which it is a subsidiary.

Part II

ACCOUNTS AND STATEMENTS FOR A MARINE MUTUAL

Returns

9.36A Subject to rules 9.36B, 9.36C, 9.36D and 9.36E and Appendix 9.8, a *marine mutual* may complete an abbreviated *return* which comprises –

PRA

- (1) Forms 1, 3, 11 and 12; and
- (2) Forms M1 to M5 in Appendix 9.8,

and, if so, rules 9.3 to 9.4, 9.12 to 9.28, 9.31 and 9.32 and 9.34 to 9.36 do not apply.

Information to be annexed to the forms

9.36B A *marine mutual* must annex to the *return* provided under rule 9.36A –

PRA

- (1) a description of the significant *reinsurance* arrangements which will be in operation in the *financial year* following the *financial year in question*;
- (2) in respect of *insurance business* ceded by way of non-facultative *reinsurance* in respect of the *financial year in question* or any *previous financial year* ended on or after 20 February 1998, a statement of –
 - (a) in the case of contracts which are subject to no or a limited number of reinstatements, any contract not previously reported to the *PRA* under which it is anticipated that any such limit will be exhausted by such *claims* (including *claims* incurred, but not reported, in respect of any specific occurrence for which provisions have been allocated);
 - (b) the percentage of cover, if in excess of 10%, and if such information was not included in the *return* of the *marine mutual* for the *previous financial year*, which has been ceded to *reinsurers* which have ceased to pay *claims* to their reinsureds in full, whether because of insolvency or for any other reason; and
 - (c) if the percentage specified in (b) has increased by more than 10% since the *previous financial year* in which it was included in the *marine mutual's return*, that percentage unless, in the opinion of the *directors*, the likelihood of any *claim* being incurred under that *policy* is minimal;
- (3) a statement concerning:
 - (a) the default rates of members (or adjusted default rates, as the case may be) on the supplementary calls collectable during the

financial year in question and the two *previous financial years*, respectively; and

- (b) the total amount of each such call, the *financial year* to which it relates, the amount paid and the amount remaining outstanding; and
- (4) a copy of the rules of association of the marine mutual in force on the date of deposit of the return, unless there has been no change in a copy of the rules deposited with the return for a previous financial year.

Information to PRA

9.36C **A marine mutual** which provides a *return* under rule 9.36A must, with effect from the date of its deposit with the *PRA* until the date of deposit of the *return* for the following *financial year*, provide the *PRA* with written notice of:

PRA

- (1) any change which is proposed in the rules of association of the *marine mutual*, not less than 14 days before the change is put to a meeting;
- (2) any change which has been made in the rules of association, within 7 days of the change;
- (3) any significant change in the *reinsurance* arrangements, a description of which has been annexed to the *return* in accordance with rule 9.36B(1), within 7 days of the change;
- (4) a fall in tonnage entered by its members of 10% net or more since the end of the *financial year in question*, within 7 days of the *marine mutual* becoming aware of this; and
- (5) whether tonnage entered by its members who have withdrawn from membership or who have defaulted on their obligations has increased so as to exceed 10% or more of total tonnage entered, whether before, on or after the date of deposit of the *return*, within 7 days of the date of deposit or of the *marine mutual* becoming aware of this, whichever is earlier.

Directors' certificate

9.36D **A marine mutual** must annex to the *return* provided under rule 9.36A a *directors' certificate* in accordance with Part II of [Appendix 9.8](#).

PRA

Auditors' report

9.36E **A marine mutual** must annex to the *return* provided under rule 9.36A an *auditors' report* in accordance with Part III of [Appendix 9.8](#).

PRA

Part III

STATISTICAL RULES

Insurance statistics: EEA States

- 9.37 (1) Every *UK insurer* which in any calendar year –
- PRA** (a) carries on *general insurance business* in an *EEA State* other than the United Kingdom through a branch in that State; or
- (b) provides general insurance in such a State through an establishment in the United Kingdom or another *EEA State*,
- must prepare in respect of the *direct general insurance business* so carried on by it a statement in *Form 91* (analysis of financial particulars – branches), or the direct general insurance so provided by it a statement in *Form 92* (analysis of financial particulars – provision of insurance), in accordance with the requirements of *Appendix 9.7*.
- (2) Every *UK insurer* which in any calendar year –
- (a) carries on *long-term insurance business* in an *EEA State* other than the United Kingdom through a branch in that State; or
- (b) provides long-term insurance in such a State through an establishment in the United Kingdom or another *EEA State*,
- must prepare in respect of the *direct long-term insurance business* so carried on by it a statement in *Form 93* (analysis of financial particulars – branches), or the direct long-term insurance so provided by it a statement in *Form 94* (analysis of financial particulars – provision of insurance), in accordance with the requirements of *Appendix 9.7*.
- (3) The forms mentioned in (1) and (2) must be prepared separately in respect of each *EEA State* in which the *insurer* carries on the *insurance business* or provides the insurance.
- (4) The statements required by this rule must be printed, and three copies must be deposited with the *PRA* within four months after the end of the calendar year to which they relate; but if in any case it appears to the *PRA* that the circumstances are such that a longer period than four months should be allowed, the *PRA* may extend that period by such period not exceeding three months as it thinks fit. If the due date for deposit of documents required by this rule falls on a day which is not a *business day*, the documents must be submitted no later than the first *business day* after the due date.
- (5) One of the copies of the statement deposited under (4) must be signed by a *director*, a chief executive or the secretary of the *insurer*.

- (6) Subject to (7), where a *UK insurer* which has notified the *PRA* –
- (a) in accordance with the rules in *SUP*, of its intention to establish a branch in a *EEA State* other than the United Kingdom; or
 - (b) in accordance with those rules, of its intention to provide insurance in such a State,
- does not in any calendar year carry on *insurance business* or, as the case may be, provide insurance in that State, it must send to the *PRA* a notification of that fact within four months after the end of the calendar year to which the notification relates, signed by a *director*, a chief executive or the secretary of the *insurer*.
- (7) (6) does not apply if the *insurer* has, before the beginning of the calendar year, informed the *PRA*, in accordance with the rules in *SUP*, that it has ceased to carry on *insurance business* or, as the case may be, to provide insurance in the State in question.
- (8) If within 24 months of the date of deposit under (4), the *PRA* notifies the *insurer* that a document deposited appears to it to be inaccurate or incomplete, the *insurer* must consider the matter and within one month of the date of notification it must correct any inaccuracies and make good any omissions and deposit the relevant parts of the documents again.

Application of rule 9.37 to the Society of Lloyd's

- 9.38 (1) Subject to (2) and (3), rule 9.37 applies in relation to the *Society* as it applies in relation to a *UK insurer*.
- PRA (2) The information required in the case of the *Society* to be included in the statements referred to in rule 9.37(4), or the notification referred to in rule 9.37(6), is that relating to the members of the *Society* taken together.
- (3) Any such statements, forms or notification must be signed by the Chairman or a Deputy Chairman, for and on behalf of the Council of Lloyd's.

PART IV

MATERIAL CONNECTED-PARTY TRANSACTIONS

- 9.39 (1) If, during the *financial year in question*, an *insurer* has agreed to, or carried out, a *material connected-party transaction*, it must provide a brief description of that transaction by way of a supplementary note to *Form 20* (note 2007) or *Form 40* (note 4009).
- PRA (2) The description to be provided in accordance with (1) must state –
- (a) the names of the transacting parties;

- (b) a description of the relationship between the parties;
 - (c) a description of the transaction;
 - (d) the amounts involved;
 - (e) any other elements of the transaction necessary for an understanding of its effect upon the financial position or performance of the *insurer*; and
 - (f) amounts written off in the period in respect of *debts* due to or from *connected* parties.
- (3) Transactions with the same *connected* party may be disclosed on an aggregated basis unless separate disclosure is needed for a proper understanding of the effect of the transactions upon the financial position or performance of the *insurer*.

PART V

GROUP CAPITAL ADEQUACY

- 9.40 (1) Subject to (2), an *insurer* to which *INSPRU* 6.1 applies must, in respect of its *ultimate insurance parent undertaking* and its *ultimate EEA insurance parent undertaking* (if different), report:
- PRA**
- (a) the name, location of the head office and principal activity of that *undertaking*;
 - (b) the *group capital resources* of that *undertaking* (calculated in accordance with *INSPRU* 6.1.36R);
 - (c) the group capital resources requirement of that undertaking (calculated in accordance with *INSPRU* 6.1.33R); and
 - (d) the difference between (b) and (c).
- (1A) Subject to (2), an *insurer* to which *INSPRU* 6.1 applies must, in respect of its *ultimate EEA insurance parent undertaking*, report:
- (a) where its *ultimate EEA insurance parent undertaking* has published annual consolidated accounts prepared in accordance with accounting standards, policies and legislation applicable to it, a reconciliation between:
 - (i) the *group capital resources* of the *ultimate EEA insurance parent undertaking*; and
 - (ii) the shareholders' funds, subordinated liabilities and other relevant amounts included in the published annual consolidated accounts, of the ultimate EEA

- insurance parent undertaking; and
- (b) where its *ultimate EEA insurance parent undertaking* includes a capital statement in the form prescribed by the Accounting Standards Board's Financial Reporting Standard 27, an explanation of any differences between:
 - (i) the amounts included in that capital statement; and
 - (ii) the amounts in (1)(b).
- (2) No report is required if:
- (a) the *insurer* is an *undertaking* listed in *INSPRU 6.1.17R(2)*; or
 - (b) under Article 4(2) of the *Insurance Groups Directive*, a *competent authority* of an *EEA State* other than the *United Kingdom* has agreed to be the *competent authority* responsible for exercising supplementary supervision in accordance with *INSPRU 6.1.23R*.
- (3) The report in (1) must:
- (a) comply with the requirements of *SUP 16.3*;
 - (b) subject to (4), be signed by the persons described in *IPRU(INS) 9.33(1)*; and
 - (c) include a statement from the auditors of the *insurer* (or of an *insurer* under (4)) that, in their opinion, the report in (1) has been properly compiled in accordance with *INSPRU 6.1* from information provided by members of the *insurance group* and from the *insurer's* own records.
- (4) The reports in (1) and (1A) must be provided by either the *insurer* or on behalf of the *insurer* (the first *insurer*) by any other *insurer* to which *INSPRU 6.1* applies and which is a member of the *insurance group* (the second *insurer*) where:
- (a) it is signed by two *directors* of the second *insurer*, and
 - (b) it contains a statement that it has been copied to the board of *directors* of the first *insurer*.
- 9.41 (1) Subject to (2), an *insurer* must include, in the report in rule 9.40(1), the details of any *regulated related undertaking* in the *insurance group* where the *individual capital resources requirement* of that *undertaking* exceeds its *solo capital resources*, stating in each case:
- PRA
- (a) where the *undertaking* in rule 9.41(1)(a) is a *subsidiary undertaking* of the *ultimate insurance parent undertaking* or *ultimate EEA insurance parent undertaking* (if different), the full amount of the calculation items set out in *INSPRU 6.1.28R* of that *undertaking* in accordance with *INSPRU 6.1.30R* and *INSPRU*

6.1.31R; or

- (b) where the *undertaking* in rule 9.41(1)(a) is not a *subsidiary undertaking*, the *ultimate insurance parent undertaking's* or *ultimate EEA insurance parent undertaking's* relevant proportion, as set out in *INSPRU 6.1.29R*, of the calculation items set out in *INSPRU 6.1.28R* of that *undertaking*.
- (2) Subject to paragraph (4) an *insurer* can exclude a *regulated related undertaking* where the *individual capital resources requirement* of that *undertaking* exceeds its *solo capital resources* if:
- (a) the *group capital resources* of the *ultimate insurance parent undertaking* or the *ultimate EEA insurance parent undertaking* (as the case may be) exceed its *group capital resources requirement*;
 - (b) paragraph 3 applies to the *regulated related undertaking*.
- (3) This paragraph applies to a *regulated related undertaking* if:
- (a) in respect of the *insurance group*, it is not;
 - (i) the *insurer*; or
 - (ii) a *parent undertaking* of the *insurer*; or
 - (iii) a *participating undertaking* in the *insurer*; or
 - (iv) a *related undertaking* of the *insurer*; and
 - (b) the amount by which its *individual capital resources requirement* exceeds its *solo capital resources* does not exceed 5% of the amount that the *group capital resources* exceed the *group capital resources requirement* referred to in rule (2)(a).
- (4) An *insurer* must include *regulated related undertakings* to which paragraph (2) would apply if the amount of D less E exceeds 10% of the amount that the *group capital resources* exceed the *group capital resources requirement* referred to in rule (2)(a), where:
- (a) D is the sum of the *individual capital resources requirements* of the *regulated related undertakings*; and
 - (b) E is the sum of the *solo capital resources* of the *regulated related undertakings*.

9.42 (1) The reports in rule 9.40(1) and rule 9.40(1A) must include information and calculations required by rule 9.40 and rule 9.41:

PRA

- (a) as at the end of the *financial year* of:

- (i) the *insurer*, or
 - (ii) the *ultimate EEA insurance parent undertaking*; or
 - (iii) the *ultimate insurance parent undertaking*;
- (b) subject to (2), as at the same date for every member of the *insurance group* to which the report relates. Where the *financial year end* of a member of the *insurance group* differs from the date chosen for the purposes of 1(a), interim calculations must be prepared for that member as at the date chosen for the purposes of 1(a); and
- (c) as at a date no later than 12 months from the day after the end of the *financial year* by reference to which the information and calculations required in the report were last provided under this chapter or Chapter 10 of *IPRU(INS)*.
- (2) If it is not practical to prepare interim calculations for a member of the *insurance group* whose *financial year end* differs from the date chosen for the purposes of 1(a), calculations as at the member's last *financial year end* may be used, provided that:
- (a) the member's *financial year end* is not more than three months before the date chosen for the purposes of 1(a); and
 - (b) the calculations are adjusted to take account of any changes between the *financial year end* and the date chosen for the purposes of 1(a) that materially affect the information and calculations required by rules 9.40 and 9.41.
- (3) If for any reason the end of the *financial year* chosen for the purposes of (1)(a) is changed so as to end on a date later than that specified in 1(c):
- (a) the report after the change takes effect must be as at the later date; but
 - (b) unless the report contains information and calculations that do not materially differ from what they would be as at the date specified in 1(c), the *insurer* must also provide the *PRA* with an interim statement.

The insurer must send one printed copy and one electronic copy to the appropriate addresses set out in rule 9.6(2) above. The electronic copy must be sent by email and the title of the email must be:

<firm name> group capital adequacy <dd/mm/yyyy>.

- (4) Subject to (4A) and (4B), an *insurer* must submit the reports in rule 9.40(1) and in rule 9.40(1A) to the *PRA* no later than 4 months from the end of:
- (a) the *financial year in question*; or

- (b) the *financial year* of the relevant parent, where the report is provided as at the end of its *financial year* under (1)(a).

The *insurer* must send one printed copy and one electronic copy to the appropriate addresses set out in rule 9.6(2) above. The electronic copy must be sent by email and the title of the email must be:

<firm name> group capital adequacy <dd/mm/yyyy>.

- (5) If within 24 months of receipt, the *PRA* notifies the *insurer* that a report appears to be inaccurate or incomplete, the *insurer* must, within one month of notification, provide a revised report correcting any inaccuracies and making good any omissions.
- (4A) Where an *insurer's ultimate EEA insurance parent undertaking* publishes annual consolidated accounts in accordance with accounting standards, policies and legislation applicable to it, the report required by rule 9.40(1A) must be submitted to the *PRA* by no later than the date which is 30 days after publication of those consolidated accounts or the final date of submission required by (4), whichever is the later.
- (4B) If the due date for submission of reports under (4) or (4A) falls on a day which is not a *business day*, the reports must be submitted no later than the first *business day* after that date.

9.42A (1) An *insurer* that reports under rule 9.40(1) must, subject to rule 9.42B, provide to any person, within 30 days, of the date of request (or the date of submission to the *PRA* if later):

PRA

- (a) the following information from the report in respect of the *financial year in question*:
- (i) the name, location of the head office and principal activity of the *ultimate EEA insurance parent undertaking*;
 - (ii) the amount of the *group capital resources* of the *ultimate EEA insurance parent undertaking*;
 - (iii) the amount of the *group capital resources requirement* of the *ultimate EEA insurance parent undertaking*;
 - (iv) the difference between (ii) and (iii); and
- (b) a copy of the report in rule 9.40(1A) in respect of the *financial year in question*; and
- (c) a copy of any information provided under rule 9.42(5) that revises any information provided in (a) and (b),

where the information is available in an electronic form, in the form requested or, if the information is not available electronically, in printed form, but (except in the case of (c)) the *insurer* may make a change to

cover its reasonable costs, including those of printing and postage.

- (2) (1) does not apply to a *pure reinsurer* which became a *firm in run-off* before 10 December 2007 and whose *Part 4A permission* has not subsequently been varied to add back the *regulated activity of effecting contracts of insurance*.

9.42B (1) An *insurer* identified at stage F of the decision tree in rule 9.42C must provide to any person within 30 days of the request the information in rule 9.42D.

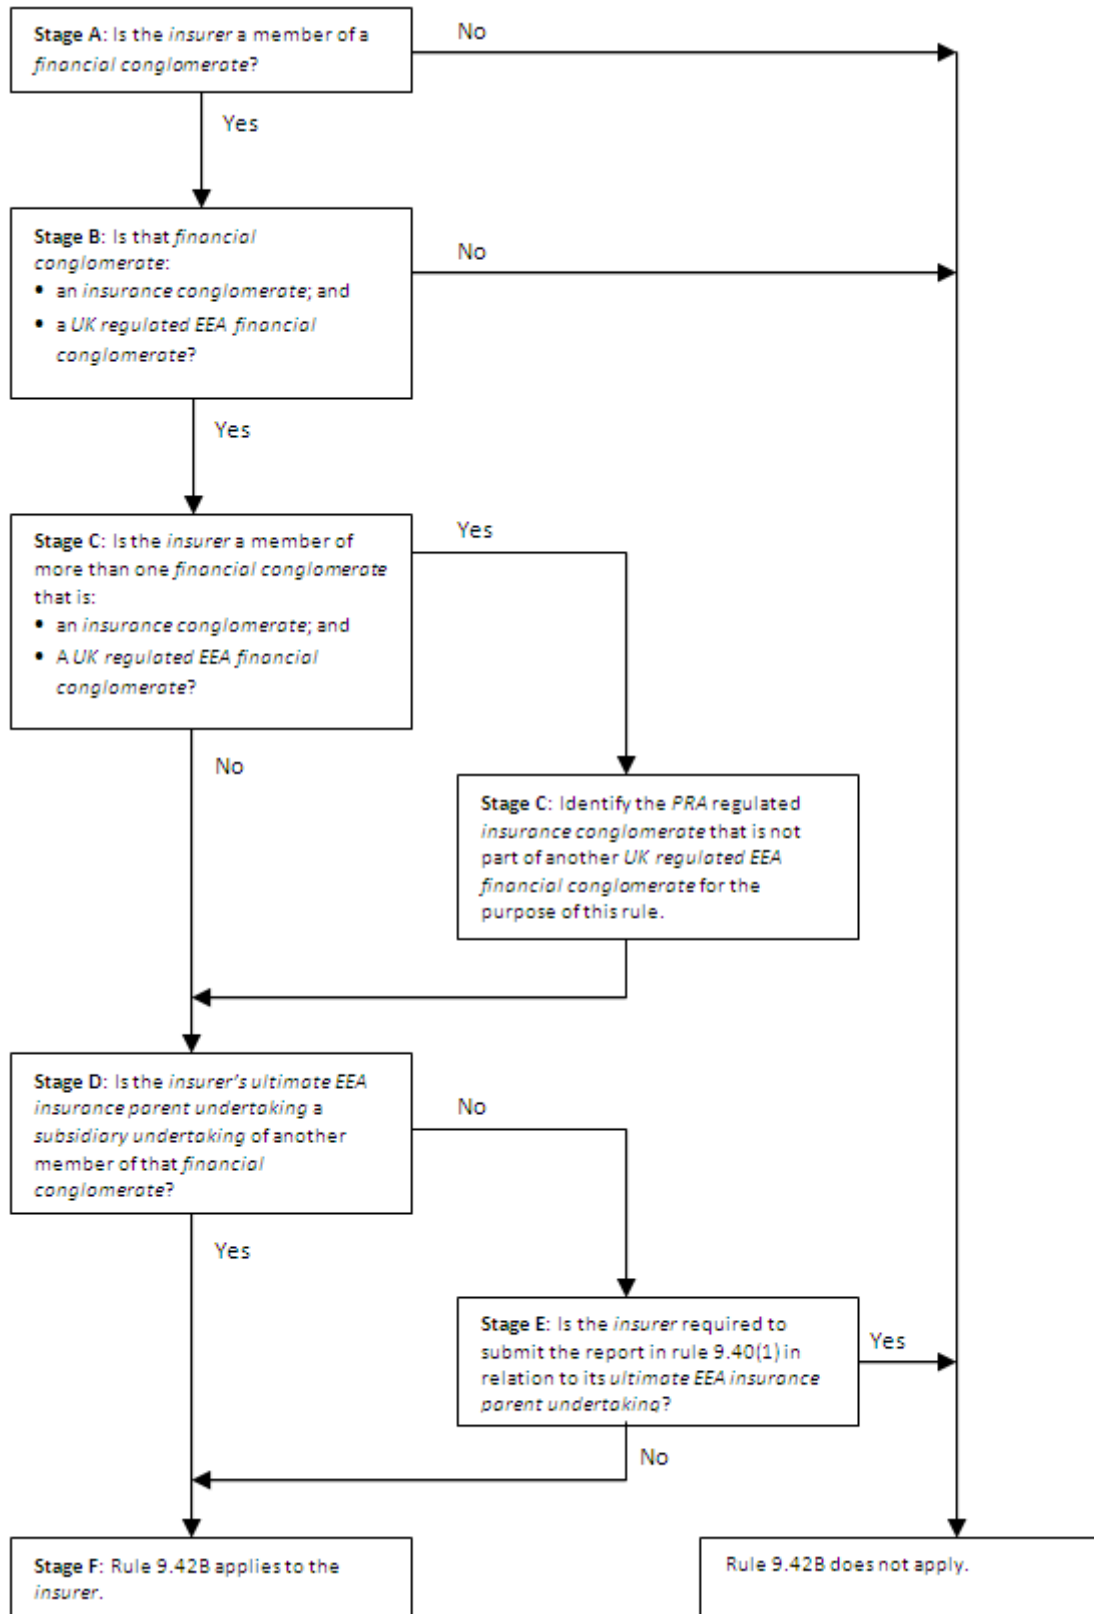

PRA

- (2) The information referred to in (1) must be provided, where the information is available to an electronic form, in the form requested or, if the information is not available electronically, in printed form, but the *insurer* may make a charge to cover its reasonable costs, including those of printing and postage.

9.42C

The decision tree determining application of 9.42B.

PRA

9.42D

PRA

- (1) An *insurer* must provide the following information from the report prepared in accordance with SUP 16.12.33R in respect of the *financial year in question* of the *financial conglomerate* identified at Stage C of the decision tree in rule 9.42C:
- (a) the capital resources and capital resources requirement identified in (2) of the *financial conglomerate*;
 - (b) the difference between the capital resources and capital resources requirement of the *financial conglomerate* referred to in (a);
 - (c) where the *parent undertaking* in the *financial conglomerate* that is not a *subsidiary* of another member of the *financial conglomerate* has published annual consolidated accounts prepared in accordance with accounting standards, policies and legislation applicable to it, a reconciliation between:
 - (i) the amount of capital resources of the *financial conglomerate* in (2); and
 - (ii) the shareholders' funds, subordinated liabilities and other relevant amounts included in the published annual consolidated accounts of that *parent undertaking*; and
 - (d) where the *parent undertaking* in the *financial conglomerate* that is not a *subsidiary undertaking* of another member of the *financial conglomerate* includes a capital statement in the form prescribed by the Accounting Standards Board's Financial Reporting Standard 27, an explanation of any differences between:
 - (i) the capital resources of the *financial conglomerate* in (2); and
 - (ii) the amounts included in that capital statement.
- (2) The capital resources and capital resources requirement of the *financial conglomerate* identified at Stage C of the decision tree in rule 9.42C are:
- (a) where GENPRU 3.1.26R applies to the *financial conglomerate*, the capital resources of the *financial conglomerate* and the minimum amount of capital resources that the *financial conglomerate* must have to meet the requirement in GENPRU 3.1.26R; or
 - (b) where GENPRU 3.1.29R applies to the *financial conglomerate*, its *conglomerate capital resources* and its *conglomerate capital resources requirement*.

Guidance

- 9.43
- PRA**
- (1) An *insurer* may use Appendix 9.9 Form 95 for the purposes of the report required by rule 9.40(1).
 - (2) The reports required by rule 9.40 do not form part of the *insurer's* return.
 - (3) Where several *insurers* to which rule 9.40 applies have the same *ultimate insurance parent undertaking* or *ultimate EEA insurance parent undertaking* or both, rule 9.40 applies to all of them. In these circumstances one *insurer* may submit the reports in rule 9.40 on behalf of the other *insurers* in the *insurance group* as set out in rule 9.40(4). This should consist of one package of the relevant information with confirmation that the *insurer* submitting the information has made it available to the boards of directors of the other *insurers* in the *insurance group*. The purpose of this requirement is to ensure that all the *insurers* in the *insurance group* are aware of the relevance of the group information to themselves.
 - (4) Where an *insurance group* consists of an *ultimate insurance parent undertaking* or *ultimate EEA insurance parent undertaking* which is itself an *insurer* whose head office is in the *United Kingdom* and which has a *United Kingdom insurance subsidiary* or *subsidiaries* which is or are themselves *insurers*, the reports in 9.40(1) and 9.40(1A) will cover the same *group undertakings*. The subsidiary *insurer* need not in these circumstances deposit the reports in 9.40(1) and 9.40(1A). However, this does not affect the requirement to provide information under rule 9.41.

PART VI

ENHANCED CAPITAL REQUIREMENT

- 9.44
- PRA**
- (1) An *insurer* to which *INSPRU* 1.1.72BR applies must, in respect of each *financial year*, report its *enhanced capital requirement* (calculated in accordance with *INSPRU* 1.1.72CR) as at the end of that *financial year*.
 - (2) The report must be in the form of ECR1 set out in Appendix 9.10.
 - (3) An *insurer* must deposit a printed copy of the report with the *PRA* within 2 months and 15 days of the *financial year* end unless, in addition to depositing a printed copy, an *insurer* also deposits an electronic copy, then the period for deposit is within 3 months of the *financial year* end. The copies must be sent to the appropriate addresses set out in rule 9.6(2) above.

If the due date for deposit of documents required by (1) falls on a day which is not a *business day*, the documents must be submitted no later than the first *business day* after the due date.

- (4) The printed copy of the report must be signed by the persons described in *IPRU(INS)* 9.33(1).
- (5) The electronic copy deposited under (3) above must be in an electronic form which may be readily used or translated by the *PRA* and must be sent by email to the appropriate address set out in rule 9.6(2) above. The title of the email must be:

<firm name> Form ECR1 <dd/mm/yyyy>.

Guidance

9.45 The report required by rule 9.44(1) does not form part of the *insurer's return*.

PRA

9.46 An electronic copy that is not completed Form ECR1 spreadsheet file template from the *PRA* website that can be accessed by Microsoft Excel is unlikely to be readily used or translated by the *PRA*.

PRA

Part VII

LLOYD'S OF LONDON

Application

9.47 PART VII of *IPRU(INS)* chapter 9 applies to the *Society* and to *managing agents*.

FCA PRA

Requirement to report to the PRA

9.48 (1) The *Society* must report to the *PRA* within 6 months of the end of each *financial year* on its financial situation and solvency and on the whole of the *insurance business* carried on by *members*.

PRA

(2) The report in *IPRU(INS)* 9.48 (1) must be prepared in accordance with GENPRU 1.3.4 R and this chapter.

(3) The report in *IPRU(INS)* 9.48 (1) must include:

- (a) the *Lloyd's Return* which comprises a completed set of the forms set out in *IPRU(INS)* Appendix 9.11, together with any statements, notes, reports or certificates required by this chapter; and
- (b) a copy of the *syndicate* accounts for each *syndicate* that is required by *byelaw* to prepare accounts for the *financial year*.

(4) With the exception of the statements required to be annexed to the *Lloyd's Return* by *IPRU(INS)* 9.49 (6), the *Lloyd's Return* must be examined and reported on by the auditors appointed to audit the

affairs of the *Society*.

- (5) The *Society* must provide a printed copy of the *Lloyd's Return* to the *PRA*, with Form 1 signed by three signatories who are senior officers of the *Society* each duly authorised by the *Council* to sign the *Lloyd's Return* on behalf of the *Society*.
- (6) If the *PRA* notifies the *Society* that any part of the *Lloyd's Return* is not in conformity with this chapter, the *Society* must promptly make any appropriate corrections or adjustments and if necessary re-submit the *Lloyd's Return* (or relevant part of it).

Content and form of the Lloyd's Return

9.49

(1) In preparing the *Lloyd's Return*, the *Society* must:

PRA

- (a) complete the forms in *IPRU(INS)* Appendix 9.11, following the requirements of and making the disclosures required under Appendices 9.1, 9.2, 9.3 and 9.4 of *IPRU(INS)* as if in the documents referred to in those Appendices references to an *insurer* were references to the *Society* and *members*, and adapting the requirements in those Appendices where necessary;
 - (b) complete the forms in *IPRU(INS)* Appendix 9.11 using standard accounting *classes* as set out in *IPRU(INS)* Appendix 9.16 where the forms require reporting by accounting class;
 - (c) report treaty reinsurance general business falling in accounting *classes* 9 to 10 as set out in *IPRU(INS)* Appendix 9.16 in Forms 28 and 29 in *IPRU (INS)* Appendix 9.11 by reference to the categories in the underlying accounting classes; and
 - (d) complete forms 13, 14, 40-60 in *IPRU(INS)* Appendix 9.11 for each *long-term insurance business syndicate*.
- (2)
- (a) Where a reinsurance contract in *IPRU(INS)* 9.49 (1)(c) covers more than one underlying accounting class as set out in *IPRU(INS)* Appendix 9.16 it must be apportioned between accounting classes in the way that best reflects its underlying composition.
 - (b) However, where the apportionment in (a) cannot be made with reasonable accuracy or without disproportionate effort, then the contract must be allocated to the accounting class as set out in *IPRU (INS)* Appendix 9.16 that most closely reflects its underlying composition.
 - (c) Whether apportioned under (a) or allocated under (b), a consistent approach must be taken to reporting:
 - (i) the progress of a treaty in subsequent years; and

- (ii) substantially similar *insurance business* in subsequent years.
- (d) Where a different policy is subsequently followed a suitable explanatory note must be provided.
- (3) If, during the financial year in question, the *Society* has agreed to, or carried out, a material connected party transaction, it must provide a brief description of that transaction by way of a supplementary note to the *Lloyd's Return*.
- (4) The description to be provided under *IPRU(INS) 9.49 (3)* must state:
 - (a) the names of the transacting parties;
 - (b) a description of the connection between the parties;
 - (c) a description of the transaction;
 - (d) the amounts involved;
 - (e) any other elements of the transaction needed for an understanding of its effect or potential effect upon the financial position of the *Society*; and
 - (f) amounts written off in the period in respect of debts due to or from transacting parties which are connected parties.
- (5) Transactions with the same connected party may be disclosed on an aggregated basis unless separate disclosure is needed for a proper understanding of the effect of the transactions upon the financial position of the *Society*.
- (6) The *Society* must annex to the *Lloyd's Return* a copy of each statement completed by a *managing agent* under *IPRU(INS) 9.60 (7)*.
- (7) For the purposes of the *Lloyd's Return* and *IPRU(INS) 9.49 (6)*, the *Society* must, for each statement annexed, identify the *syndicate* to which the *contract of insurance* or 'financing arrangement' relates.

Risk groups for general insurance business

9.50

PRA

- (1) The *Society* must for the purposes of reporting under this chapter:
 - (a) classify the direct and facultative *general insurance business* of *members* according to appropriate risk groups; and
 - (b) where the risks are material, complete a separate Form 34 in *IPRU(INS) Appendix 9.11* for each group.
- (2) The *Society* must not include:
 - (a) policies falling within *classes 14, 15, 16, 17 or 18* within the same risk group as policies falling within any other *class*,

except that policies falling within *class 14* may be included in the same risk group as policies falling within *class 15*; or

- (b) policies in respect of private motor car risks, within the same risk group as policies in respect of other risks falling within accounting class 2 as set out in *IPRU(INS) Appendix 9.16*; or
 - (c) policies in respect of comprehensive private motor car risks, within the same risk group as policies in respect of non-comprehensive private motor car risks; or
 - (d) policies transferred to *members* by way of a transfer under section 111 of the Act (Sanction of the court for business transfer schemes), within the same risk group as other policies.
- (3) The *Society* must give the *PRA* notice of proposed changes to the definition or classification of the risk groups in *IPRU(INS) 9.50 (1)*, sufficient to allow the *PRA* properly to assess the implications of the proposals.

Major treaty reinsurers

9.51

PRA

- (1) The *Society* must, in connection with the *general insurance business* carried on by *members*, include in the *Lloyd's Return* a statement of major treaty reinsurers.
- (2) A major treaty reinsurer is any insurance company to which in the *financial year* in question or any of the five preceding *financial years*:
- (a) in the case of proportional reinsurance, 2% or more of the gross premiums receivable in respect of *general insurance business* of the *members* in aggregate has been ceded; or
 - (b) in the case of non-proportional reinsurance, 5% or more of the gross premiums receivable in respect of *general insurance business* has been ceded.
- (3) The statement required under *IPRU(INS) 9.51 (1)* must include:
- (a) the full name of each major treaty reinsurer;
 - (b) the amount of the reinsurance premiums payable in the *financial year* to each such reinsurer;
 - (c) whether and if so how the reinsurer was connected to any *member* or any *managing agent*;
 - (d) the amount of any debt of each such reinsurer included at line 75 of Form 13 in *IPRU(INS) Appendix 9.11*;
 - (e) the amount of any deposit received from each such reinsurer under reinsurance treaties included at line 31 of Form 15 in *IPRU(INS) Appendix 9.11*; and

- (f) the *reinsurers'* share of *technical provisions* shown on Form 13 in *IPRU(INS)* Appendix 9.11 except that in respect of claims incurred but not reported, such recoveries need only be included to the extent that they are in respect of specific occurrences for which provisions have been allocated;

or, as the case may be, a statement that having aggregated the reinsurance ceded by *members* no reinsurer is a major treaty reinsurer.

- (4) The requirements of *IPRU(INS)* 9.51 (1), *IPRU(INS)* 9.52 (1) and *IPRU(INS)* 9.53 (1) may be satisfied by giving a fair view and making use of an appropriate degree of approximation. The *Society* may employ any reasonable methods to establish the information required.

Major facultative reinsurers

9.52

PRA

- (1) The *Society* must, in connection with the *general insurance business* carried on by *members*, include in the *Lloyd's Return* a statement of major facultative reinsurers.
- (2) A major facultative reinsurer is an insurance company to which or with respect to which:
- (a) 0.5% or more of the gross premiums *receivable* in respect of *general insurance business* of the *members* in aggregate has been ceded; or
- (b) the addition of the amounts in items (d) and (e) of *IPRU(INS)* 9.51 (3) produces an amount exceeding 1% of the aggregate gross assets of *members*.
- (3) The statement required under *IPRU(INS)* 9.52 (1) must include the matters listed in *IPRU(INS)* 9.51 (3), with appropriate amendments.

Major reinsurance cedants

9.53

PRA

- (1) The *Society* must, in connection with the *general insurance business* carried on by *members*, include in the *Lloyd's Return* a statement of major reinsurance cedants.
- (2) A major reinsurance cedant is an insurance company which in the *financial year* in question or any of the three preceding *financial years*:
- (a) cedes an amount which exceeds 5% of the gross premiums *receivable* by *members* in respect of *general insurance business* accepted under reinsurance treaties; and
- (b) cedes an amount which exceeds 2% of the gross premiums *receivable* by *members* in respect of *general insurance business*.
- (3) The statement required under *IPRU(INS)* 9.53 (1) must include the matters listed in *IPRU(INS)* 9.51 (3), with appropriate amendments.

Derivative contracts

9.54

PRA

- (1) The *Society* must annex a statement to the *Lloyd's Return* comprising a brief description of:
- (a) any *byelaws* and guidelines issued by the *Society* governing the use of *derivative* contracts;
 - (b) any provision in those guidelines governing the use of contracts under which *members* have a right or obligation to acquire or dispose of assets which was not, at the time when the contract was entered into, reasonably likely to be exercised and the circumstances in which, pursuant to that provision, such contracts may be used;
 - (c) the extent to which *members* were during the *financial year* a party to any contracts of the kind described in (b);
 - (d) the extent to which any of the amounts recorded in Form 13 would be changed if assets which *members* had a right or obligation to acquire or dispose of under *derivative* contracts outstanding at the end of the *financial year* (being, in the case of *options*, only those *options* which it would have been prudent to assume would be exercised) had been acquired or disposed of;
 - (e) the difference between (d) and the amount which would result under (d) if such *options* had been exercised and this were reflected in Form 13 to the maximum extent;
 - (f) how different the information provided pursuant to (d) and (e) would have been if, instead of applying to contracts outstanding at the end of the *financial year*, (d) and (e) had applied to *derivative* contracts outstanding at such other time during the *financial year* as would have changed the amounts in Form 13 to the maximum extent;
 - (g) the maximum loss which would be incurred by *members* on the failure by any one other person to fulfil its obligations under *derivative* contracts outstanding at the end of the *financial year*, both under existing market conditions and in the event of other foreseeable market conditions, together with an assessment of whether such maximum loss would have been materially different at any other time during the *financial year*;
 - (h) the circumstances surrounding the use of any *derivative* contract held at any time during the *financial year* which did not fulfil the criteria in *INSPRU 4.2.5 R*; and
 - (i) the total value of any fixed consideration received by *members* (whether in cash or otherwise) during the *financial year* in return for granting rights under *derivative* contracts and a summary of contracts under which such rights have been

granted.

- (2) For the purposes of *IPRU(INS) 9.54 (1)*, if *members* are a party to:
- (a) a *contract for differences*; or
 - (b) any other contract which is to be, or may be, settled in cash they must be treated as having a right or obligation to acquire or dispose of the assets underlying the contract.

General insurance business ceded

- 9.55 (1) The *Society* must annex to the *Lloyd's Return* a statement:
- PRA
- (a) of each major treaty reinsurer and major facultative reinsurer; and
 - (b) for each of the realistic disaster scenarios set by the *Society* when fulfilling its obligations under *INSPRU* and *GENPRU* to monitor aggregation of risk within the *Lloyd's* market of the contribution it is assumed each such reinsurer would provide in the event of that disaster occurring.

The Society

- 9.56 (1) The *Society* must annex to the *Lloyd's Return* a statement naming each individual who has served:
- PRA
- (a) on the *Council*;
 - (b) as Chairman of the *Council*; and
 - (c) as Chief Executive Officer of the *Society*;
- at any time during the *financial year*, including in each case the dates of commencement or end of service (as the case may be) of any individual who has not served for the entire year.

Capacity controlled

- 9.57 (1) The *Society* must annex to the *Lloyd's Return* a statement identifying any *members*, *members' agents* or *managing agents* that control a significant share of the underwriting capacity of the *Society*.
- PRA
- (2) To control a significant share means:
- (a) in relation to a *managing agent*, managing, directing through one or more *Members' Agent Pooling Arrangements* or owning, whether directly or in conjunction with *connected persons*, capacity which in aggregate is greater than 5% of the total underwriting capacity of the *Society*;
 - (b) in relation to a *members' agent*, directing through one or more *Members' Agent Pooling Arrangements* or owing, whether directly or in conjunction with *connected persons*, underwriting

capacity which in aggregate is greater than 2.5% of the total underwriting capacity of the *Society*; and

- (c) in relation to a member, owning, whether directly or in conjunction with *connected persons*, underwriting capacity which, in aggregate, is greater than 2.5% of the total underwriting capacity of the *Society*.

Certificates and audit report

9.58 (1) Certificates

PRA

The *Society* must annex to the *Lloyd's Return*:

- (a) a certificate from the *Council*, including the statements required by *IPRU (INS)* Appendix 9.12;
- (b) a statement from the *Lloyd's actuary*, including the statements required by *IPRU (INS)* Appendix 9.13;
- (c) a certificate from the *syndicate actuary* of each *syndicate* which carries on *long-term insurance business*, including the statements required by *IPRU (INS)* Appendix 9.14, and;
- (d) an abstract from the *syndicate actuary* of each *syndicate* which carries on *long-term insurance business* of the *actuary's* report made under *SUP 4.6.14G*.

(2) Audit report

The *Society* must ensure that the *Lloyd's Return* and every document annexed to or provided with it has been examined by the *Society's* auditors and must provide with the *Lloyd's Return* an audit certificate in respect of that examination.

- (3) The certificate in *IPRU(INS)* 9.58 (2) must be in the form set out in *IPRU(INS)* Appendix 9.15.

Public disclosure

9.59 (1) The *Society* must provide within a period not exceeding 30 days:

PRA

- (a) on demand to any *member* or policyholder a copy of the *Lloyd's Return* and the *global account* most recently submitted to the *PRA*; and
- (b) if specifically requested by a *member* or policyholder, a copy of any *syndicate* account submitted to the *PRA*.

Syndicate-level reporting

9.60 (1) Each *managing agent* must:

PRA

- (a) prepare a return for each *financial year* in respect of the *insurance business* carried on through each *syndicate*

- managed by it; and
- (b) provide the return in (a) to the *Society* as soon as practicable after the end of the financial year but in any event in time to enable the *Society* to report to the *PRA* in accordance with *IPRU(INS) 9.48 (1)*.
- (2) The *Society* must:
- (a) issue instructions to *managing agents* setting out the form and content of the return under *IPRU(INS) 9.60 (1)*; and
 - (b) issue the instructions in (a) as soon as practicable but in any event in time to enable *managing agents* to comply with *IPRU(INS) 9.60 (1)*.
- (3) A *managing agent* must annex to each return which it prepares under *IPRU(INS) 9.60 (1)*, a certificate signed by the persons referred to in *IPRU(INS) 9.60 (4)*, including the statements required by *IPRU(INS) Appendix 9.17*.
- (4) The certificate in *IPRU(INS) 9.60 (3)* must be signed by:
- (a) where there are more than two *directors* of the *managing agent*, at least two of those *directors* and, where there are not more than two *directors*, all the *directors*; and
 - (b) a *chief executive*, if any, of the *managing agent* or (if there is no *chief executive*) the secretary.
- (5) A *managing agent* must ensure for each *syndicate* managed by it that the return required under *IPRU(INS) 9.60 (1)* is examined and reported on by the *syndicate* auditor.
- (6) A *managing agent* must annex to each return required under *IPRU(INS) 9.60 (1)* an audit certificate provided by the *syndicate* auditor including the statements required by *IPRU(INS) Appendix 9.18*.
- (7) A *managing agent* must annex to each return which it prepares under *IPRU(INS) 9.60 (1)* a statement of the information required by *IPRU(INS) rule 9.32A*, as if in that *rule* references to:
- (a) '*insurer*' were to the *members* carrying on *insurance business* through the relevant *syndicate*;
 - (b) the '*return*' were to the return required to be prepared by it in respect of the business carried on through the relevant *syndicate* under *IPRU(INS) 9.60 (1)*
 - (c) the '*insurer's* balance sheet' were to the *syndicate* balance sheet;
 - (d) the '*insurer's capital resources*' were to the *capital resources* managed by or at the direction of the *managing agent* in
-

respect of the *insurance business* carried on through the relevant *syndicate*; and

- (e) the 'insurer's total technical provisions' were to the technical provisions in respect of the insurance business carried on through the relevant *syndicate*.

The Central Fund

9.61

PRA

- (1) The *Society* must give the *PRA* a report on the *Central Fund* as at the end of each calendar quarter.
- (2) The report referred to in *IPRU(INS)* 9.61 (1) must reach the *PRA* within two weeks of the end of each calendar quarter and must include information on:
 - (a) the net market value of the *Central Fund*;
 - (b) payments made from the *Central Fund* in that quarter;
 - (c) the types of investment in which the *Central Fund* is held;
 - (d) the commencement or cessation of, or any changes in the terms of, any insurance policy taken out to protect the *Central Fund*; and
 - (e) any claim made, or circumstances notified that are likely to lead to a claim, under any insurance policy taken out to protect the *Central Fund*.

Information about the capacity transfer market

9.62

FCA

- (1) The *Society* must give the *FCA* a report as at the end of each calendar quarter in which any capacity is transferred.
- (2) The report referred to in (1) must reach the *FCA* within one month of the end of the relevant calendar quarter and must include information on:
 - (a) the total capacity in *syndicates* transferred during the quarter, analysed by *syndicate* and method of transfer;
 - (b) the number, and nature, of all investigations by the *Society* into conduct in the *capacity transfer market* undertaken or continued during the quarter; and
 - (c) the number, and nature, of all complaints received during the quarter about the operation of the *capacity transfer market*.

Guidance

9.63

PRA

- (1) *IPRU(INS)* Chapter 9 Part VII requires the *Society* to report on the *insurance business* carried on by *members* and on the assets and liabilities of *members* and the *Society*, and requires reports from the *Society* on the *Central Fund* and the *capacity transfer market*. It also

requires *managing agents* to report on the *insurance business* carried on through each *syndicate* they manage. Reporting at *syndicate* level is required to enable the *Society* to prepare the *Lloyd's Return*. The statements required to be annexed to the return by *IPRU(INS) 9.60 (7)* should not be included in the audit under *IPRU(INS) 9.49 (6)*.

- (2) The *Lloyd's Return* is made annually and contains the statement required from the *Society* that *capital resources* at least equal to the *capital resources requirements* for *general insurance business* and *long-term insurance business* under *GENPRU 2* have been maintained at all times throughout the *financial year*.
- (3) For *general insurance business*, the *capital resources requirement* for the *Society* is the higher of the aggregate of the *members' capital resources requirements* for *general insurance business*, calculated in accordance with *GENPRU 2.3.5 R*, and the *Society GICR*. For *long-term business*, the *capital resources requirement* for the *Society* is the aggregate of the *members' capital resources requirements*, calculated in accordance with *GENPRU 2.3.7 R*. The *Society* is required to ensure that each *member's capital resources requirement* is covered by that *member's capital resources*, or, where there is a shortfall in the *member's capital resources*, by the *Society's own capital resources*. For *general insurance business*, the *Society* must ensure that the *Society GICR* is covered by the aggregate *capital resources* supporting the *insurance business* of all the *members*.
- (4) Where appropriate, the *Society* is also required to modify prudential reporting to make it more like that of an *insurer*. This is to aid comparisons between *Lloyd's* and *insurers*.

9.64 The *Society* should make the report referred to in *IPRU(INS) 9.48 (1)*, including amendments and corrections, and amalgamated *syndicate* accounts available at its head office for inspection by policyholders and potential policyholders and *members*.

PRA

9.65 (1) In assessing what are appropriate risk groups for reporting purposes the *Society* should ensure where possible that:

PRA

- (a) each risk group should include only risks from within a single accounting class and in relation to a single country;
- (b) policies are not included in the same risk group where, having regard to the patterns of risk, *claims* incurrence and settlement patterns, it is necessary to group them separately for the purposes of applying statistical methods in calculating the provision for *claims* outstanding in accordance with generally accepted accounting practice; and
- (c) claims-made policies are not included in the same risk group as policies which are not claims-made policies, except:
 - (i) where this is not possible without disproportionate

expense; and

- (ii) where the policies within the risk group do not exhibit materially different characteristics.

- (2) Subject to *IPRU(INS) 9.50 (2)(a)* and *IPRU(INS) 9.50 (2)(b)* and *IPRU(INS) 9.65 (1)(c)*, the *Society* may in respect of any accounting class include all *insurance business* carried on by *members* in any country in any *financial year* as a single risk group.
- (3) Notwithstanding the provisions of *IPRU(INS) 9.50 (2)(a)* and *IPRU(INS) 9.50 (2)(b)* and *IPRU(INS) 9.65 (1)(c)*, the *Society* may classify all *insurance business* carried on by *members* in any country in respect of any accounting class in any financial year as a single risk group, as long as gross premiums written for that year in respect of that *insurance business* are less than 5% of the world-wide gross premiums written for all accounting classes for that year.
- (4) The requirements to report a separate risk group in *IPRU(INS) 9.50 (2)(a)* do not apply where, in the case of any *financial year*, the gross premiums receivable for that year in respect of that risk group would be less than £1million.

9.66 The *Society* should be treated as if it were a major treaty reinsurer when *intersyndicate reinsurance* in aggregate exceeds the amounts set out in *IPRU(INS) 9.51 (2)*

PRA

9.67 The *Society* should be treated as if it were a major facultative reinsurer when *inter-syndicate reinsurance* in aggregate exceeds the amounts set out in *IPRU(INS) 9.52 (2)*.

PRA

9.68 The *Society* should be treated as if it were a major reinsurance cedant when inter-syndicate cessions in aggregate exceed the amounts set out in *IPRU(INS) 9.53 (2)*.

PRA

9.69 In relation to required disclosures of *derivative* contracts in *IPRU(INS) 9.54 (1)*, references to a *derivative* contract and related expressions should be taken to include:

PRA

- (1) any *derivative* contract entered into by a *managing agent* on behalf of a *member* as part of that *member's insurance business*; and
- (2) any *derivative* contract entered into by the *Society*.

9.70 Contracts that are *quasi-derivative contracts* should be treated as *derivative* contracts.

PRA

9.71 The requirements of *IPRU(INS) 9.55(1)* may be satisfied by giving a fair view and may make use of an appropriate degree of approximation. The *Society* may employ any reasonable methods to establish the information required. The *Society* may also include such explanation as it considers to be necessary to allow a reasonable interpretation to be put on this statement.

PRA

9.72

PRA

- (1) Because of the significance of the *Central Fund* in the protection of policyholders, the *Society* should notify the *appropriate regulator* under *IPRU(INS) 9.61 (2)(e)* of all matters relevant to any actual or potential claim. These include but are not limited to the facts on which that claim is based, the circumstances under which those facts arose and any relevant response to the claim from any *insurer* or reinsurer concerned.
- (2) The report referred to in *IPRU(INS) 9.61 (1)* must be submitted in writing in accordance with *SUP 16.3.7* to *SUP 16.3.10* (see *SUP 16.3.6*).

11 Chapter 11: Definitions

PART I: DEFINITIONS

11.1 For the purposes of *IPRU (INS)*, the term or phrase in the first column has the meaning given to it in the second column unless the context otherwise requires.

FCA	PRA
-----	-----

Term or phrase	Definition
<i>1981 Regulations</i>	Insurance Companies Regulations 1981 (S.I. 1981 No. 1654)
<i>1982 Act</i>	Insurance Companies Act 1982
<i>1983 Regulations</i>	Insurance Companies Regulations 1983 (S.I. 1983 No. 1811)
<i>1986 Order</i>	Companies (Northern Ireland) Order 1986
<i>1994 Regulations</i>	Insurance Companies Regulations 1994 (S.I. 1994 No.1516)
<i>1996 Regulations</i>	Insurance Companies (Accounts and Statements) Regulations (S.I. 1996 No. 943)

<i>accounted for</i>	reported pursuant to the <i>Accounts and Statements Rules</i>
<i>Accounts and Statements Rules</i>	rules 9.1 to 9.36E and rule 9.39 of Chapter 9
<i>actuarial investigation</i>	an investigation to which rule 9.4 applies
<i>admissible asset</i>	an asset that falls into one or more categories in <i>GENPRU 2 Annex 7R</i>
<i>annuities on human life</i>	does not include superannuation allowances and annuities payable out of any fund applicable solely to the relief and maintenance of persons engaged, or who have been engaged, in any particular profession, trade or employment, or of the dependants of such persons
<i>approved investment firm</i>	an investment firm as defined in the <i>Investment Services Directive</i>
<i>associate</i>	has the meaning given in rule 11.2
<i>available assets</i>	the excess of an <i>insurer's</i> assets (other than <i>implicit items</i>) over its liabilities, in each case valued in accordance with <i>GENPRU 1.3, INSPRU 2.1 and INSPRU 1</i>

<i>balancing category</i>	a <i>PRA general insurance business reporting category</i> to
---------------------------	---

	which any of the <i>category numbers</i> 409 or 709 has been allocated in column 1 of Annex 11.3
--	---

<i>category number</i>	the category number for the <i>PRA general insurance business reporting category</i> listed in column 1 of Annex 11.3
<i>cede and cession</i>	in relation to <i>reinsurance</i> , include retrocede and retrocession
<i>claim</i>	a <i>claim</i> against an <i>insurer</i> under a <i>contract of insurance</i>
<i>claims-made policy</i>	a contract of liability insurance which provides that no liability is incurred by the <i>insurer</i> in respect of an incident unless – (a) the incident is notified to the <i>insurer</i> (or its agent or representative); and (b) such notification is received by the <i>insurer</i> (or its agent or representative) before the end of a specified period which is no longer than three years following the final date for which cover is provided under the contract
<i>claims management costs</i>	refers to those claims management costs required by the <i>insurance accounts rules</i> (note (4) to the profit and loss account format) to be included in <i>claims</i> incurred other than those which, whether or not incurred through the employment of the <i>insurer's</i> own staff, are directly attributable to particular <i>claims</i>
<i>class</i>	a class of <i>long-term insurance business</i> , listed in Annex 11.1 or a class of <i>general insurance business</i> listed in Annex 11.2
<i>collecting book</i>	includes any book or document held by a <i>collector</i> in which payments of premiums are recorded
<i>collector</i>	includes every person, howsoever remunerated, who, by himself or by any deputy or substitute, makes house to house visits for the purpose of receiving premiums payable on <i>policies</i> of insurance on human life, or holds any interest in a <i>collecting book</i> , and includes such a deputy or substitute
<i>combined category</i>	a <i>PRA general insurance business reporting category</i> to which any of the <i>category numbers</i> 001, 002, 003, 110, 120, 180, 220, 260, 270, 280, 330, 340, 500 or 600 has been allocated in column 1 of Annex 11.3
<i>commitment</i>	a commitment represented by <i>insurance business</i> of any of the <i>classes</i> of <i>long-term insurance business</i>
<i>company</i>	(a) for the purposes of the <i>Accounts and Statements Rules</i> means an <i>insurance undertaking</i> ; and

	(b) otherwise, includes any <i>body corporate</i>
<i>connected</i>	<p>a <i>body corporate</i> “A” and another <i>body corporate</i> “B” are connected with each other if:</p> <p>(a) B is a <i>related undertaking</i> of A;</p> <p>(b) B is a <i>participating undertaking</i> in A; or</p> <p>(c) B is a <i>related undertaking</i> of a <i>participating undertaking</i> in A</p> <p>a <i>body corporate</i> “C” and a natural person “D” are connected if D holds a <i>participation</i> in:</p> <p>(d) C or any of its <i>related undertakings</i>;</p> <p>(e) a <i>participating undertaking</i> in C; or</p> <p>(f) a <i>related undertaking</i> of a <i>participating undertaking</i> in A</p>
<i>connected company</i>	<p>of any <i>company</i> means –</p> <p>(a) that <i>company’s holding company</i>;</p> <p>(b) a <i>subsidiary</i> of that <i>company</i>; or</p> <p>(c) a <i>subsidiary</i> of the <i>holding company</i> of that <i>company</i></p>
<i>connected-party transaction</i>	the transfer of assets or liabilities or the performance of services by, to or for a <i>connected</i> person irrespective of whether or not a price is charged
<i>consequential loss risk</i>	risk falling within <i>general insurance business class 16</i> comprising risks of the persons insured sustaining loss attributable to interruptions of the carrying on of business carried on by them or to reduction of the scope of business so carried on
<i>controller</i>	has the meaning given in rule 11.2
<i>counterparty</i>	<p>in relation to an <i>insurer</i> –</p> <p>(a) any one individual;</p> <p>(b) any one unincorporated body of persons;</p> <p>(c) any one <i>company</i> not being a member of a <i>group</i>;</p> <p>(d) any <i>group</i> of <i>companies</i> excluding any <i>companies</i> within the <i>group</i> which are <i>subsidiary undertakings</i> of the <i>insurer</i>; or</p> <p>(e) any government of a State together with all the public bodies, local authorities or nationalised industries of that State,</p> <p>in which the <i>insurer</i> has made investments or against whom it has rights whether in pursuance of a contract</p>

	entered into by the <i>insurer</i> or otherwise
<i>credit default swap</i>	a <i>swap</i> contract in which a buyer makes a series of payments to a seller and, in exchange, receives the right to a payment if a credit instrument issued by a named borrower (the reference entity) goes into default or on the occurrence of a specified credit event, for example bankruptcy or restructuring of the reference entity, during the currency of the contract

<i>debt</i>	includes an obligation to pay a sum of money under a negotiable instrument
<i>dependant</i>	a dependant for a <i>firm</i> is any <i>subsidiary undertaking</i> of the <i>firm</i> that is valued in accordance with GENPRU 1.3.47R
<i>derivative contract</i>	has the meaning given to <i>derivative</i> in the <i>Glossary</i>
<i>direct and facultative</i>	<i>direct insurance business</i> and inwards facultative <i>reinsurance business</i>
<i>direct insurance business</i>	<i>insurance business</i> other than <i>reinsurance business</i>
<i>discounting</i>	refers to discounting or deductions to take account of investment income within the meaning of paragraph 48 of the <i>insurance accounts rules</i>

<i>equivalent securities</i>	<i>securities</i> issued by the same <i>issuer</i> being of an identical type and having the same nominal value, description and amount
<i>established surplus</i>	has the same meaning as in rule 3.3(4)
<i>exemption category</i>	a <i>PRA general insurance business reporting category</i> to which the <i>category numbers</i> 114(p) or 710(p) have been allocated in column 1 of Annex 11.3
<i>experience account</i>	<p>an account (whether real or notional) established under a <i>contract of insurance</i> where:</p> <p>(a) <i>premiums</i> payable or paid, or amounts related to <i>premiums</i> payable or paid, under the contract are credited to the account;</p> <p>(b) <i>claims</i> payable or paid or incurred, or amounts related to <i>claims</i> payable or paid or incurred, under the contract are deducted from the account; and</p> <p>(c) either:</p> <p>(i) some part of the amount held in the account is paid out on expiry or termination of the contract in accordance with rights specified in the contract; or</p>

	(ii) the amount held in the account affects the amount payable under the contract.
<i>external insurer</i>	an <i>insurer</i> whose head office is outside the United Kingdom, other than an <i>EEA-insurer</i> , a <i>Swiss general insurer</i> or an <i>UK- or EEA-deposit insurer</i> .

<i>facultative business</i>	facultative <i>reinsurance</i> business
<i>financial year</i>	each period at the end of which the balance of the accounts of the <i>insurer</i> is struck or, if no such balance is struck, the calendar year
<i>financial year in question</i>	the <i>financial year</i> which last ended before the date on which accounts and statements (as specified in the <i>Accounts and Statements Rules</i>) of the <i>insurer</i> relating to that <i>financial year</i> are required to be deposited with the <i>PRA</i> pursuant to rule 9.6, and the preceding financial year and previous financial years are construed accordingly

<i>group</i>	has the meaning given in section 262 of the Companies Act 1985 where applicable, otherwise section 474(1) of the Companies Act 2006
--------------	---

<i>home foreign business</i>	<i>general insurance business</i> carried on in the United Kingdom primarily relating to risks situated outside the United Kingdom, but excluding <i>insurance business</i> in category numbers 330, 340, 350, 500, 600 and 700 and <i>insurance business</i> where the risk commences in the United Kingdom
<i>hybrid security</i>	a <i>debt security</i> , other than an <i>approved security</i> , the terms of which provide or have the effect that the holder does not or would not have an unconditional entitlement to payment of interest and repayment of capital in full within 75 years of the <i>relevant date</i>

<i>incepted</i>	refers to the time when the liability to risk of an <i>insurer</i> under a <i>contract of insurance</i> commenced and, for this purpose, a contract providing continuous cover is deemed to commence on each anniversary date of the contract, and incepting and inception are construed accordingly
<i>index linked contract</i>	a <i>linked long-term contract of insurance</i> conferring <i>index linked benefits</i>
<i>industrial assurance</i>	the business of effecting <i>contracts of insurance</i> on human

<i>business</i>	<p>life, premiums in respect of which are received by means of <i>collectors</i>;</p> <p>But such <i>insurance business</i> does not include –</p> <p>(a) <i>contracts of insurance</i>, the premiums in respect of which are payable at intervals of two months or more;</p> <p>(b) <i>contracts of insurance</i>, effected whether before or after the passing of the Industrial Assurance Act 1923 by a society or company established before the date of the passing of that Act which at that date had no <i>contracts of insurance</i> outstanding the premiums on which were payable at intervals of less than one month so long as the society or company continues not to effect any such contracts;</p> <p>(c) <i>contracts of insurance</i> effected before the passing of the Industrial Assurance Act 1923, premiums in respect of which are payable at intervals of one month or more, and which have up to the passing of that Act been treated as part of the business transacted by a branch other than the industrial branch of the society or company; or</p> <p>(d) <i>contracts of insurance</i> for £25 or more effected after the passing of the Industrial Assurance Act 1923, premiums in respect of which are payable at intervals of one month or more, and which are treated as part of the business transacted by a branch other than the industrial branch of the society or company, in cases where the relevant authority certified prior to 1 December 2001 under section 1(2)(d) of that Act that the terms and conditions of such contracts are on the whole not less favourable to the <i>policy holders</i> than those imposed by that Act</p>
<i>initial margin</i>	<p>in respect of a <i>derivative</i> or <i>quasi-derivative</i>, means assets which, before or at the time the contract is entered into, are transferred by the <i>insurer</i> subject to a condition that such assets (or where the assets transferred are <i>securities, equivalent securities</i>) will be returned to the <i>insurer</i> on completion of that contract</p>
<i>insurance liabilities</i>	<p>amounts calculated in accordance with GENPRU 1.3 (Valuation) in respect of those items shown at C and D under the heading 'Liabilities' set out in paragraph 9 of the <i>insurance accounts rules</i></p>
<i>internal linked fund</i>	<p>an account to which an <i>insurer</i> appropriates certain <i>linked assets</i> and which may be sub-divided into units the value of each of which is determined by the <i>insurer</i> by reference to the value of those <i>linked assets</i></p>

<i>linked assets</i>	in relation to an <i>insurer</i> , <i>long-term insurance business assets</i> of the <i>insurer</i> which are, for the time being, identified in the records of the <i>insurer</i> as being assets by reference to the value of which <i>property linked benefits</i> are to be determined, and non-linked assets is construed accordingly
<i>long-term policy holder</i>	a <i>policy holder</i> in respect of a <i>policy</i> the effecting of which by the <i>insurer</i> constituted the carrying on of <i>long-term insurance business</i>

<i>management expenses</i>	in relation to <i>long-term insurance business</i> , means all expenses, other than commission, incurred in the administration of an <i>insurer</i> or its business
<i>marine mutual</i>	<p>an <i>insurer</i> -</p> <p>(a) whose <i>insurance business</i> is restricted to the insurance of its members or their <i>associates</i> against loss, damage or liability arising out of marine adventures (including losses on inland waters or any risk incidental to any sea voyage); and</p> <p>(b) whose articles of association, rules or bye laws provide for the calling of additional contributions from, or the reduction of benefits to, the majority of its members, in either case without limit, in order to ensure that the <i>insurer</i> has sufficient financial resources to meet any valid <i>claims</i> as they fall due</p>
<i>material connected-party transaction</i>	<p>a <i>connected-party transaction</i> for which (together with any similar transactions):</p> <p>(a) the price actually paid or received for the transfer of assets or liabilities or the performance of services; or</p> <p>(b) the price which would have been paid or received had that transaction been negotiated at arm's length between unconnected parties, exceeds:</p> <p>(c) in the case of an <i>insurer</i> that carries on <i>long-term insurance business</i> but not <i>general insurance business</i>, 5% of the <i>insurer's</i> liabilities arising from its <i>long-term insurance business</i>, excluding <i>property-linked liabilities</i> and net of <i>reinsurance ceded</i>; or</p> <p>(d) in the case of an <i>insurer</i> that carries on <i>general insurance business</i>, but not <i>long-term insurance business</i>, the sum of Euro 20,000 and 5% of the <i>insurer's</i> liabilities arising from its <i>general insurance business</i>, net of <i>reinsurance ceded</i>; or</p>

	(e) in the case of an <i>insurer</i> that carries on both types of business either – <ul style="list-style-type: none"> (i) 5% of the <i>insurer's</i> liabilities arising from its <i>long-term insurance business</i>, excluding <i>property-linked liabilities</i>, net of <i>reinsurance ceded</i> where the transaction is in connection with the <i>insurer's long-term insurance business</i>, or (ii) in other cases, the sum of Euro 20,000 and 5% of the <i>insurer's</i> liabilities arising from <i>general insurance business</i> net of <i>reinsurance ceded</i>
<i>miscellaneous category</i>	a <i>PRA general insurance business reporting category</i> to which the <i>category numbers</i> 400 or 700 have been allocated in column 1 of Annex 11.3
<i>mortgage</i>	in relation to Scotland, means a heritable security within the meaning of section 9(8) of the Conveyancing and Feudal Reform (Scotland) Act 1970

<i>non-linked assets</i>	see <i>linked assets</i>
<i>non-profit policy</i>	see <i>with-profits policy</i>
<i>non-proportional reinsurance treaty</i>	see <i>proportional reinsurance treaty</i>

<i>ordinary long-term insurance business</i>	<i>long-term insurance business</i> which is not <i>industrial assurance business</i>
--	---

<i>PRA general insurance business reporting category</i>	a category of <i>general insurance business</i> that consists of the effecting or carrying out of <i>contracts of general insurance</i> falling within the description in column 2 of Annex 11.3
<i>preceding financial year</i>	see <i>financial year in question</i>
<i>previous financial years</i>	see <i>financial year in question</i>
<i>preceding financial year</i>	see <i>financial year in question</i>
<i>previous financial years</i>	see <i>financial year in question</i>
<i>Product code</i>	has the meaning given in paragraph 3 of the Instructions for completion of Form 47 in Appendix 9.3
<i>profit and loss account</i>	in relation to an <i>insurer</i> not trading for profit, an income and expenditure account

<i>property linked benefits</i>	benefits other than <i>index linked benefits</i> provided for under a <i>linked long-term contract of insurance</i>
<i>property linked liabilities</i>	<i>insurance liabilities</i> in respect of <i>property linked benefits</i>
<i>proportional reinsurance treaty</i>	<p>(a) a <i>reinsurance</i> treaty under which a predetermined proportion of each <i>claim</i> payment by the <i>cedant</i> under <i>policies</i> subject to the treaty is recoverable from the <i>reinsurer</i>, and</p> <p>(b) for the purposes of the <i>Accounts and Statements Rules</i>, a <i>reinsurance</i> treaty under which in return for a proportion of the premium a pre-determined proportion of each <i>claim</i> payment by the <i>cedant</i> under <i>policies</i> subject to the treaty is recoverable from the <i>reinsurer</i>, and</p> <p>non-proportional reinsurance treaty is construed accordingly</p>

<i>readily realisable</i>	<p>in relation to an investment:</p> <p>(a) an investment which, had negotiations for the assignment or transfer of the investment commenced not more than seven working days before the <i>relevant date</i>, it is reasonable to assume could have been assigned or transferred on the <i>relevant date</i> for an amount not less than 97.5% of the <i>market value</i> to a person other than the <i>issuer</i> or an <i>associate</i> or <i>associated company</i> of the <i>issuer</i> or of the <i>insurer</i>, or</p> <p>(b) a <i>listed</i> investment with respect to which (a) does not apply by reason only that –</p> <p>(i) the listing of the investment has been temporarily suspended following receipt of price sensitive information received by the stock exchange on which the investment is <i>listed</i> or the <i>regulated market</i> on which facilities for dealing have been granted, or</p> <p>(ii) the extent of the holding would prevent an orderly disposal of the investment for an amount equal to or greater than 97.5% of <i>market value</i></p>
<i>receivable</i>	in relation to an <i>insurer</i> , a <i>financial year</i> and a premium, means due to the <i>insurer</i> whether or not the premium is received during that <i>financial year</i>
<i>reinsurance recoveries</i>	amounts in respect of <i>claims</i> receivable by an <i>insurer</i> from a <i>reinsurer</i> under a contract of <i>reinsurance</i>
<i>related company</i>	in relation to an <i>insurer</i> –

	<p>(a) a subsidiary undertaking of the insurer;</p> <p>(b) a company of which the insurer is a subsidiary undertaking; or</p> <p>(c) a subsidiary undertaking of a company of which the insurer is a subsidiary undertaking</p>
<i>relevant company</i>	an insurer whose insurance business is restricted to reinsurance of the marine mutual on terms that provide that the marine mutual can cancel the reinsurance arrangements at any time and can require the insurer immediately to transfer its assets and liabilities to the marine mutual
<i>relevant date</i>	in relation to the valuation of any asset or liability, the date at which the value of the asset or liability falls to be determined for the purposes of reporting under the Accounts and Statements Rules
<i>required category</i>	<p>in relation to a Form in the return, a category of general insurance business set out in column 2 of the Table in Paragraph 2B of Appendix 9.2 that –</p> <p>(a) is, or is included in, a PRA general insurance business reporting category for which the Table in Paragraph 2A of Appendix 9.2 contains a tick in the row for that PRA general insurance business reporting category and in the column for that Form; and</p> <p>(b) either:</p> <p>(i) meets the reporting criteria specified in the entry in column 3 of that Table that corresponds to the entry in column 2 for that the category of general insurance business and the entry in column 1 for that Form, or</p> <p>(ii) is required for that Form under rule 9.20.</p>
<i>return</i>	the documents required (taken together) to be deposited under rule 9.6(1)
<i>risk category</i>	any PRA general insurance business reporting category that is not a combined category, or balancing category or exemption category

<i>secured debt</i>	<p>a debt fully secured on:</p> <p>(a) assets whose value at least equals the amount of debt; or</p> <p>(b) a letter of credit or guarantee from an approved counterparty.</p>
---------------------	--

<i>securities</i>	includes <i>shares</i> , <i>debt securities</i> , <i>Treasury Bills</i> , Tax Reserve Certificates and Certificates of Tax Deposit
<i>share</i>	has the meaning given in section 1161(2) of the Companies Act 2006
<i>Statistical Rules</i>	rules 9.37 to 9.38
<i>Stock Exchange</i>	London Stock Exchange plc
<i>subsidiary undertaking</i>	has the meaning given in section 1162 of the Companies Act 2006
<i>swaption</i>	an <i>option</i> granting its owner the right but not the obligation to enter into an underlying <i>swap</i>

<i>technical provisions</i>	the items required by the <i>insurance accounts rules</i> to be shown in the balance sheet of an <i>insurer</i> at liabilities items C.1 to 6
<i>total capital resources</i>	the sum calculated at stage O of the calculation in GENPRU 2 Annex 1R
<i>total return swap</i>	a financial contract which transfers both the credit risk and market risk of an underlying asset
<i>Treasury Bills</i>	includes bills issued by Her Majesty's Government in the United Kingdom and Northern Ireland Treasury Bills

<i>unlisted</i>	see <i>listed</i>
-----------------	-------------------

<i>variable interest securities</i>	<i>securities</i> which under their terms of issue provide for variable amounts of interest
<i>variation margin</i>	<p>(a) in respect of a <i>derivative contract</i>, or a <i>quasi-derivative contract</i>, assets (other than assets transferred by way of <i>initial margin</i>) which, at the <i>relevant date</i>, have been transferred by, to, or for the benefit of the <i>insurer</i> in pursuance of a condition in that contract or a related contract; and</p> <p>(b) in respect of an asset having the effect of a <i>derivative contract</i>, assets which, at the relevant date, have been transferred by, to, or for the benefit of, the <i>insurer</i> in pursuance of a contractual right conferred, or obligation imposed, by the holding of the asset having the effect of a <i>derivative contract</i></p>

<i>with-profits fund</i>	for the purposes of the <i>Accounts and Statements Rules</i> – (a) a <i>long-term insurance fund</i> (or that part of such a fund) in which <i>policy holders</i> are eligible to participate in any <i>established surplus</i> ; and (b) where it is an <i>insurer's</i> usual practice to restrict <i>policy holders'</i> participation in any <i>established surplus</i> to that arising from only a part of the fund (or part fund) falling within (a), that part (or that part of the part fund)
<i>with-profits policy</i>	a contract falling within a <i>class of long-term insurance business</i> which is eligible to participate in any part of any <i>established surplus</i> , and non-profit policy is construed accordingly

Controller

11.2

PRA

- (1) For the purpose of *IPRU (INS)*, **controller**, in relation to an undertaking ("A"), means a person who falls within any of the cases in (2).
- (2) The cases are where the 'person' –
- (a) holds 10% or more of the 'shares' in A;
 - (b) is able to exercise significant influence over the management of A by virtue of his shareholding in A;
 - (c) holds 10% or more of the 'shares' in a parent undertaking ("P") of A;
 - (d) is able to exercise significant influence over the management of P by virtue of his shareholding in P;
 - (e) is entitled to exercise, or control the exercise of, 10% or more of the 'voting power' in A;
 - (f) is able to exercise significant influence over the management of A by virtue of his 'voting power' in A;
 - (g) is entitled to exercise, or control the exercise of, 10% or more of the 'voting power' in P; or
 - (h) is able to exercise significant influence over the management of P by virtue of his 'voting power' in P.
- (3) In (2) the *person* means –
- (a) the person;
 - (b) any of the person's *associates*; or

- (c) the person and any of his *associates*.
- (4) **Associate**, in relation to a 'person' ("H") holding '*shares*' in an undertaking ("C") or entitled to exercise or control the exercise of 'voting power' in relation to another undertaking ("D"), means –
- (a) the spouse or civil partner of H;
 - (b) a child or stepchild of H (if under 18);
 - (c) the trustee of any 'settlement' under which H has a life interest in possession (or in Scotland a life interest);
 - (d) an undertaking of which H is a *director*;
 - (e) a person who is an employee or partner of H;
 - (f) if H is an undertaking –
 - (i) a *director* of H,
 - (ii) a *subsidiary undertaking* of H,
 - (iii) a *director* or employee of such a *subsidiary undertaking*; and
 - (g) if H has with any other person an agreement or arrangement with respect to the acquisition, holding or disposal of '*shares*' or other interests in C or D or under which they undertake to act together in exercising their 'voting power' in relation to C or D, that other person.
- (5) **Settlement**, in (4)(c), includes any disposition or arrangement under which property is held on trust (or subject to a comparable obligation).
- (6) **Shares** –
- (a) in relation to an undertaking with *share* capital, means allotted shares;
 - (b) in relation to an undertaking with capital but no *share* capital, means rights to share in the capital of the undertaking; and
 - (c) in relation to an undertaking without capital, means interests –
 - (i) conferring any right to share in the profits, or liability to contribute to the losses, of the undertaking, or
 - (ii) giving rise to an obligation to contribute to the debts or expenses of the undertaking in the event of a winding up.
- (7) **Voting power**, in relation to an undertaking which does not have general meetings at which matters are decided by the exercise of

voting rights, means the right under the constitution of the undertaking to direct the overall policy of the undertaking or alter the terms of its constitution.

PART 2: GENERAL PROVISIONS

Powers under which the rules are made

11.3 [deleted]

FCA PRA

Actions for damages

11.4 Section 138D(2) of the *Act* does not apply to a contravention of the rules in the *IPRU (INS)*.

FCA PRA

Use of definitions

11.5 A word or phrase which is printed in italics is used in the defined sense. If a defined term does not appear in the *IPRU(INS)* glossary listed in part 1 of Chapter 11, the definition appearing in the main Handbook *Glossary* applies.

FCA PRA

11.6 Unless the context otherwise requires, a word or phrase which is defined in a related enactment bears the same meaning as in that enactment.

FCA PRA

11.7 Unless the context otherwise requires, a word which is related to a defined word is construed by reference to the defined word.

FCA PRA

Supplementary and ancillary provisions

11.8 For the purposes of this *IPRU (INS)*:

PRA

- (a) a *contract of insurance* is to be treated as falling within *Annex 11.1*, notwithstanding the fact that that it contains supplementary provisions falling within *class 1* or *class 2* of *Annex 11.2* if:
 - (i) its principal object is that of a contract falling within *Annex 11.1*, and
 - (ii) it is effected or carried out by an *insurer* who has permission to effect or carry out contracts falling within *class 1* of *Annex 11.1*; and
- (b) a *contract of insurance* whose principal risk falls within any of *classes 1* to *18* of *Annex 11.2* is to be treated as falling within that *class* and no other, notwithstanding the fact that it also covers *ancillary risks*.

Annex 11.1: Classes of Long-Term Insurance Business

FCA | PRA

Number	Description	Nature of business
I	Life and annuity	Effecting or carrying out <i>contracts of insurance</i> on human life or contracts to pay <i>annuities on human life</i> , but excluding (in each case) contracts within class III.
II	Marriage and birth	Marriage or the formation of a civil partnership and birth: Effecting or carrying out <i>contracts of insurance</i> to provide a sum on marriage or the formation of a civil partnership or on the birth of a child, being contracts expressed to be in effect for a period of more than one year.
III	Linked long term	Effecting or carrying out <i>contracts of insurance</i> on human life or contracts to pay <i>annuities on human life</i> where the benefits are wholly or partly to be determined by reference to the value of, or the income from, property of any description (whether or not specified in the contracts) or by reference to fluctuations in, or in an index of, the value of property of any description (whether or not so specified).
IV	Permanent health	Effecting or carrying out <i>contracts of insurance</i> providing specified benefits against risks of persons becoming incapacitated in consequence of sustaining injury as a result of an accident or of an accident of a specified class or of sickness or infirmity, being contracts that – (a) are expressed to be in effect for a period of not less than five years, or until the normal retirement age for the persons concerned, or without limit of time; and (b) either are not expressed to be terminable by the insurer, or are expressed to be so terminable only in special circumstances mentioned in the contract.
V	Tontines	Effecting or carrying out tontines.
VI	Capital redemption	Effecting or carrying out capital redemption contracts.
VII	Pension fund management	Effecting or carrying out – (a) <i>pension fund management contracts</i> ; or (b) contracts of the kind mentioned in (a) that are combined with <i>contracts of insurance</i> covering either conservation of capital or payment of a minimum interest.
VIII	Collective insurance etc	Effecting or carrying out contracts of a kind referred to in Article 2(2)(e) of the <i>Consolidated Life Directive</i> .
IX	Social insurance	Effecting or carrying out contracts of a kind referred to in Article 2(3) of the <i>Consolidated Life Directive</i> .

Annex 11.2: Classes, and Groups of Classes, of General Insurance Business

PART I: CLASSES OF GENERAL INSURANCE BUSINESS

FCA	PRA
-----	-----

Number	Description	Nature of business
1	Accident	<p>Effecting or carrying out <i>contracts of insurance</i> providing fixed pecuniary benefits or benefits in the nature of indemnity (or a combination of both) against risks of the person insured or, in the case of a contract made by virtue of section 140, 140A or 140B of the Local Government Act 1972, a person for whose benefit the contract is made –</p> <p>(a) sustaining injury as the result of an accident or of an accident of a specified class, or</p> <p>(b) dying as the result of an accident or of an accident of a specified class, or</p> <p>(c) becoming incapacitated in consequence of disease or of disease of a specified class,</p> <p>inclusive of contracts relating to industrial injury and occupational disease but exclusive of contracts falling within <i>class 2</i> or within <i>class IV</i> in Annex 11.1.</p>
2	Sickness	<p>Effecting or carrying out <i>contracts of insurance</i> providing fixed pecuniary benefits or benefits in the nature of indemnity (or a combination of the two) against risks of loss to the persons insured attributable to sickness or infirmity, but exclusive of contracts falling within <i>class IV</i> in Annex 11.1.</p>
3	Land vehicles	<p>Effecting or carrying out <i>contracts of insurance</i> against loss of or damage to vehicles used on land, including motor vehicles but excluding railway rolling stock.</p>
4	Railway rolling stock	<p>Effecting or carrying out <i>contracts of insurance</i> against loss of or damage to railway rolling stock.</p>
5	Aircraft	<p>Effecting or carrying out <i>contracts of insurance</i> upon aircraft or upon the machinery, tackle, furniture or equipment of aircraft.</p>
6	Ships	<p>Effecting or carrying out <i>contracts of insurance</i> upon vessels used on the sea or on inland water, or upon the machinery, tackle, furniture or equipment of such vessels.</p>
7	Goods in transit	<p>Effecting or carrying out <i>contracts of insurance</i> against loss of or damage to merchandise, baggage and all other goods in transit, irrespective of the form of transport.</p>
8	Fire and natural forces	<p>Effecting or carrying out <i>contracts of insurance</i> against loss of or damage to property (other than property to which <i>classes 3</i> to <i>7</i></p>

		above relate) due to fire, explosion, storm, natural forces other than storm, nuclear energy or land subsidence.
9	Damage to property	Effecting or carrying out <i>contracts of insurance</i> against loss of or damage to property (other than property to which <i>classes 3 to 7</i> above relate) due to hail or frost or to any event (such as theft) other than those mentioned in <i>class 8</i> above.
10	Motor vehicle liability	Effecting or carrying out <i>contracts of insurance</i> against damage arising out of or in connection with the use of motor vehicles on land including third-party risks and carrier's liability.
11	Aircraft liability	Effecting or carrying out <i>contracts of insurance</i> against damage arising out of or in connection with the use of aircraft, including third-party risks and carrier's liability.
12	Liability for ships	Effecting or carrying out <i>contracts of insurance</i> against damage arising out of or in connection with the use of vessels on the sea or on inland water, including third-party risks and carrier's liability.
13	General liability	Effecting or carrying out <i>contracts of insurance</i> against risks of the persons insured incurring liabilities to third parties, the risks in question not being risks to which <i>class 10, 11 or 12</i> above relates.
14	Credit	Effecting or carrying out <i>contracts of insurance</i> against risks of loss to the persons insured arising from the insolvency of debtors of theirs or from the failure (otherwise than through insolvency) of debtors of theirs to pay their debts when due.
15	Suretyship	Effecting or carrying out— (a) <i>contracts of insurance</i> against risks of loss to the persons insured arising from their having to perform contracts of guarantee entered into by them; (b) contracts for fidelity bonds, performance bonds, administration bonds, bail bonds or customs bonds or similar contracts of guarantee.
16	Miscellaneous financial loss	Effecting or carrying out <i>contracts of insurance</i> against any of the following risks, namely – (a) risks of loss to the persons insured attributable to interruptions of the carrying on of business carried on by them or to reduction of the scope of business so carried on; (b) risks of loss to the persons insured attributable to their incurring unforeseen expense (other than loss such as is covered by contracts falling within <i>class 18</i>); (c) risks neither falling within (a) or (b) nor being of a kind such that the carrying on of the business of effecting or carrying out <i>contracts of insurance</i> against them constitutes the carrying on of <i>insurance business</i> of some other class.
17	Legal expenses	Effecting or carrying out <i>contracts of insurance</i> against risks of loss to the persons insured attributable to their incurring legal expenses (including costs of litigation).

18	Assistance	Effecting or carrying out <i>contracts of insurance</i> providing either or both of the following benefits, namely – (a) assistance (whether in cash or in kind) for persons who get into difficulties while travelling, while away from home or while away from their permanent residence, or (b) assistance (whether in cash or in kind) for persons who get into difficulties otherwise than as mentioned in paragraph (a) above.
----	------------	--

PART II: GROUPS OF CLASSES OF GENERAL INSURANCE BUSINESS

FCA | PRA

Number	Description	Nature of business
1	Accident and health	<i>Classes 1 and 2.</i>
2	Motor	<i>Class 1 (to the extent that the relevant risks are risks of the person insured sustaining injury, or dying, as the result of travelling as a passenger) and classes 3, 7 and 10.</i>
3	Marine and transport	<i>Class 1 (to the said extent) and classes 4, 6, 7 and 12.</i>
4	Aviation	<i>Class 1 (to the said extent) and classes 5, 7 and 11.</i>
5	Fire and other damage to property	<i>Classes 8 and 9.</i>
6	Liability	<i>Classes 10, 11, 12 and 13.</i>
7	Credit and suretyship	<i>Classes 14 and 15.</i>
8	General	<i>All classes.</i>

Annex 11.3: Descriptions of *PRA* General Insurance Business Reporting Categories

PART I: CATEGORIES TO WHICH CONTRACTS OF GENERAL INSURANCE BUSINESS ARE TO BE ALLOCATED FOR THE PURPOSE OF REPORTING IN THE RETURN

PRA

Category Number	<i>PRA</i> general insurance business reporting category	Map to classes of business in Annex A of 73/239/EEC
001	Total Business (<i>category numbers</i> 002 and 003 combined).	N/A
002	Total Primary (Direct) and Facultative Business (<i>category numbers</i> 110, 120, 160, 180, 220, 260, 270, 280, 330, 340, 350 and 400 combined).	N/A
003	Total Treaty Reinsurance Accepted Business (<i>category numbers</i> 500, 600 and 700 combined).	N/A
Primary (Direct) and Facultative Personal Lines Business		
110	Total primary (direct) and facultative accident & health (<i>category numbers</i> 111 to 114 combined).	
111	Medical expenses <i>Contracts of insurance</i> (other than treaty reinsurance contracts) providing benefits in the nature of indemnity, with or without limit, against risks of loss to the persons insured attributable to their incurring the cost of medical treatment for sickness or infirmity or injuries sustained.	1, 2
112	HealthCare cash plan <i>Contracts of insurance</i> (other than treaty reinsurance contracts) providing fixed pecuniary benefits against risks of the persons insured requiring health care for sickness, infirmity or injuries sustained.	2
113	Travel <i>Contracts of insurance</i> (other than treaty reinsurance contracts) against a combination of risks of loss to the persons insured attributable to their travelling, or to their making of travel arrangements, and which fall within <i>classes</i> 1, 2, 8, 9, 17 or 18 and do not fall within <i>category number</i> 160 (Household and domestic all risks).	1, 2, 8, 9, 17, 18
114	Personal accident or sickness <i>Contracts of insurance</i> (other than treaty reinsurance contracts) which fall within <i>classes</i> 1 or 2 and which do not fall within <i>category numbers</i> 111 (Medical expenses), 112 (HealthCare cash plans), 113 (Travel), 114(p), 182 (Creditor).	1, 2

114(p)	<p>Personal accident as a result of insured travelling as a passenger</p> <p><i>Contracts of insurance</i> (other than treaty reinsurance contracts) against risks of death of, or injury to, passengers which the insurer elects to allocate to <i>category numbers</i> 121 to 123, 221 to 223, 331 to 333 or 341 to 347, notwithstanding that they would also fall within the definition of <i>category number</i> 114.</p>	1
120	<p>Total primary (direct) and facultative personal motor business</p> <p>(<i>category numbers</i> 121 to 123 combined).</p>	3, 10
121	<p>Private motor comprehensive</p> <p><i>Contracts of insurance</i> (other than treaty reinsurance contracts) against loss of, or damage to, motor vehicles used on land and against the risks of the persons insured incurring liabilities to third parties arising out of or in connection with the use of motor vehicles on land, where the motor vehicle has more than two wheels and is not a motorcycle with side-car and:</p> <p>(a) the primary purpose of each vehicle insured on the contract is to transport nine or fewer non-fare paying persons and each motor vehicle insured on the contract is individually rated;</p> <p>(b) the primary purpose of each vehicle insured on the contract is to transport nine or fewer non-fare paying persons, the persons insured are not a body corporate or partnership, and the number of vehicles insured on the contract is three or less; or</p> <p>(c) the primary purpose of each vehicle insured on the contract is to transport ten or more non-fare paying persons, the persons insured are not a body corporate or partnership and each motor vehicle insured on the contract is individually rated.</p> <p><i>Contracts of insurance</i> (other than treaty reinsurance contracts) that fall within the definition of <i>category number</i> 114(p) which the insurer elects to allocate to this category.</p>	3, 10
122	<p>Private motor non-comprehensive</p> <p><i>Contracts of insurance</i> (other than treaty reinsurance contracts) against the risks of the persons insured incurring liabilities to third parties arising out of or in connection with the use of motor vehicles on land or against loss of or damage to motor vehicles used on land arising only from fire or theft, where the motor vehicle has more than two wheels and is not a motorcycle with side-car and:</p> <p>(a) the primary purpose of each vehicle insured on the contract is to transport nine or fewer non-fare paying persons and each motor vehicle insured in the contract is individually rated;</p> <p>(b) the primary purpose of each vehicle insured on the contract is to transport nine or fewer non-fare paying persons, the persons insured are not a body corporate or partnership, and the number of vehicles insured on the contract is three or less; or</p> <p>(c) the primary purpose of each vehicle insured on the contract is to transport ten or more non-fare paying persons and the persons insured are not a body corporate or partnership and each motor</p>	3, 10

	<p>vehicle insured on the contract is individually rated.</p> <p><i>Contracts of insurance</i> (other than treaty reinsurance contracts) that fall within the definition of <i>category number 114(p)</i> which the insurer elects to allocate to this category.</p>	
123	<p>Motor cycle</p> <p><i>Contracts of insurance</i> (other than treaty reinsurance contracts) against loss of or damage to two-wheeled motor vehicles or motor cycles with a side car used on land and or against the risks of the persons insured incurring liabilities to third parties arising out of or in connection with the use of such vehicles on land.</p> <p><i>Contracts of insurance</i> (other than treaty reinsurance contracts) that fall within the definition of <i>category number 114(p)</i> which the insurer elects to allocate to this category</p>	3, 10
160	<p>Primary (direct) and facultative household and domestic all risks.</p> <p><i>Contracts of insurance</i> (other than treaty reinsurance contracts) against loss of or damage to any of:</p> <p>(a) structure of domestic properties,</p> <p>(b) contents of domestic properties, or</p> <p>(c) contents of domestic properties and personal items.</p> <p><i>Contracts of insurance</i> (other than treaty reinsurance contracts) against loss of or damage to structure of domestic properties and against risks to the persons insured incurring liabilities to third parties arising out of injuries sustained within the boundary of a domestic property.</p>	8, 9
180	<p>Total primary (direct) and facultative personal lines financial loss business</p> <p>(<i>category numbers 181 to 187</i> combined).</p>	
181	<p>Assistance</p> <p><i>Contracts of insurance</i> (other than treaty reinsurance contracts) which:</p> <p>(a) fall within <i>class 18</i> (such as contracts relating to vehicle assistance, household assistance and legal expense helpline); and</p> <p>(b) do not fall within <i>category number 113</i> (Travel).</p>	18
182	<p>Creditor</p> <p><i>Contracts of insurance</i> (other than treaty reinsurance contracts) against the risk that the persons insured sustain injury, suffer sickness or infirmity, suffer loss of income due to causes that may or may not be specified in the contract, where the benefits payable under the contract relate to loans, credit card balances or other debts and the contract does not fall within <i>category number 185</i> (Mortgage indemnity).</p>	1, 2, 16
183	<p>Extended warranty</p> <p><i>Contracts of insurance</i> (other than treaty reinsurance contracts) against the</p>	16

	risks of loss to the persons insured attributable to failure of a product, where the purpose of the contract is to put the persons insured in the position as if the manufacturer's or vendor's warranty on the product is extended for a period of time or is extended in scope.	
184	<p>Legal expenses</p> <p><i>Contracts of insurance</i> (other than treaty reinsurance contracts) against the risks of loss to the persons insured attributable to their incurring legal expenses including cost of litigation that do not fall within <i>category number</i> 120.</p>	17
185	<p>Mortgage indemnity</p> <p><i>Contracts of insurance</i> (other than treaty reinsurance contracts) against risks of loss to the persons insured arising from the failure of debtors of theirs to pay debts relating to the purchase of a property when due and the persons insured being unable to recover the full amount of any outstanding debt by selling the property concerned.</p>	14

12 Chapter 12: Transitional Arrangements

Reporting of information relating to financial years prior to the financial year ending on or after 31 December 2005

12.1

PRA

- (1) An *insurer* that is required to report the information in (2) in respect of any *financial year* ending on or after 31 December 2005, may report that information as set out in (3).
- (2) The information in (1) is information that is required to be inserted in –
 - (a) column 1 to 3 or 11 and rows relating to accident years prior to 1995 of Forms 23, 26 or 27;
 - (b) column 1,3 or 10 and rows relating to accident years prior to 1995 of Forms 31 and 32; or
 - (c) column 1 or 8 and rows relating to underwriting years prior to 1995 of Form 34.
- (3) Information relating to –
 - (a) aggregate treaty business falling within the definition of *category number 590 or 690*, may be reported in *category numbers 510 to 580 or 610 to 680*;
 - (b) commercial package business falling within the definition of *category number 274* business, may be reported in *category numbers 261, 271 or 273*;
 - (c) business that was reported under a single risk group or business category in the *return* for the *financial year* immediately preceding the first *financial year* that ended on or after 31 December 2005, may be reported in a single *risk category* if and 90% or more of the claim liabilities reported under the risk group or business category fall into that single *risk category*;
 - (d) any business covering risks relating to hovercraft which was classified under the heading 'Aviation' in the *return* for the *financial year* immediately preceding the first *financial year* that ended on or after 31 December 2005, may be reported in any of *category numbers 331 to 333* (aviation);
 - (e) any business covering liability for loss of, or damage to, goods in transit which was classified under the heading 'Transport' in the *return* for the *financial year* immediately preceding the first *financial year* that ended on or after 31 December 2005, may be reported in *category number 350* (transport);
 - (f) any business which was classified under the heading 'Accident and Health' in the *return* for the *financial year* immediately preceding the first *financial year* that ended on or after 31 December 2005, and which would otherwise be allocated to

category number 114(p), may be reported in *category number 114*;

- (g) any business which was classified under the heading 'Marine, Aviation or Transport Treaty' in the *return* for the *financial year* immediately preceding the first *financial year* that ended on or after 31 December 2005, and which would otherwise be allocated to *category number 550* or *650*, may be reported in *category numbers 530, 540, 630* or *640*; and
- (h) any business which was classified under the heading '*accounting class 11*' in the *return* for the *financial year* immediately preceding the first *financial year* that ended on or after 31 December 2005, may be reported in *category number 510* to *590* (non-proportional treaty reinsurance).

Reporting of historical information relating to Forms 26, 27, 28, 29, 31, 32 and 34

- 12.2
- (1) An *insurer* that is required by rule 9.17 or 9.19 to prepare any of Forms 26, 27, 28, 29, 31, 32 or 34 in respect of the first *financial year* ending on or after 31 December 2005 must send to the *PRA* the additional information in (2).
 - (2) The additional information in (1) –
 - (a) is historical development data in respect of business reported on each relevant Form;
 - (b) must be prepared as set out in (3) to (8);
 - (c) must be submitted in the format of the 2005 Return Transitional Tables A, B, C and D in the form laid out in rule 12.4;
 - (d) must be submitted as a computer spreadsheet file that can be accessed by Microsoft Excel; and
 - (e) must be submitted to *PRA* by electronic email or a CDROM disk, in either case at the same time as the *return* to which it relates.
 - (3) An *insurer* must prepare –
 - (a) 2005 Return Transitional Tables A and B in respect of each required category for which it is required to prepare Form 26, 27, 28, 29, 31, 32 or 34 except where the *required category* is *category number 400* or *700*; and
 - (b) 2005 Transitional Table C and D in respect of each *required category* for which it is required to prepare Form 31 or 32 except where the *required category* is *category number 400*.
 - (4) An *insurer* must show years of origin in the first two columns of each Table where –

- (a) a year of origin is a *financial year* and the columns contain the month and year, on the Gregorian calendar, in which that *financial year* ends;
 - (b) the month and year are to be in MM and YYYY date format, where MM is a two digit month of the year (between 01 and 12) and YYYY is a calendar year;
 - (c) years of origin are entered in sequence with the latest year of origin (i.e. the first *financial year* ended on or after 31 December 2005) in row 33;
 - (d) not report more than the 30 latest years of origin are reported;
 - (e) the years of origin reported on a Table are consistent with how the *insurer* has allocated claims to accident or underwriting years on the *Forms 27, 29, 31, 32 or 34*, as the case may be, on which the same business is reported.
- (5) If an *insurer* is reporting business on a Table that is reported on a *Form 27, 31 or 32*, the year of origin must be an accident year and the entries along the rows of the Table must relate to claims that occurred in that origin year. If an *insurer* is reporting business on a Table that is reported on a *Form 29 or 34*, the year of origin must be an underwriting year and the entries along the rows of the Table must relate to claims arising from business written in that origin year.
- (6) Historical development data must be prepared in the same currency as the Form that gave rise to the requirement to prepare the Table.
- (7) In preparing any of the 2005 Return Transitional Tables A, B C and D, an *insurer* must, subject to (9), complete
- (a) all entries relating to years of origin ending between 31/12/1996 and 30/12/2006 inclusive and all entries for the "prior years" row; and
 - (b) subject to the total number of years of origin reported on a Table being no more than 30, all entries relating to:
 - (i) years of origin ending between 23/12/1993 and 30/12/1996 inclusive for business in *category numbers* 610, 620, 650, 660 and 680.
 - (ii) years of origin ending between 31/12/1983 and 30/12/1996 inclusive for business in *category numbers* 510 to 580, 630, 640 and 670, and
 - (iii) years of origin ending prior to 31/12/1996 for business in *category numbers* 271 to 273;
- (8) an *insurer* that does not maintain records of historical development data by a *required category* for which it is required to prepare any of 2005 Return Transitional Tables A, B, C and D, may make a reasonable

estimate of an entry required under (7) in the Table for that *required category*;

- (9) an *insurer* may omit an entry required under (7) in a Table for a *required category* if –
- (a) in the opinion of its *governing body*, the *insurer* does not have the information needed to complete, or make a reasonable estimate of, the entry;
 - (b) it does not use any data required for that entry when setting its provisions for claim liabilities for business in the *required category*; and
 - (c) it states in a supplementary note to the Table an explanation for the entry omitted.
- (10) If for any year of origin the duration of any development year is not 12 months, an *insurer* must identify each such development year and state its duration in a supplementary note to the Tables (code TA02).

Reconciliation of information reported in the return for the first financial year ended on or after 31 December 2005 to equivalent information reported in the previous return

12.3

An *insurer* must carry out and send to the appropriate regulator, at the same time as it submits its *return* in respect of the first *financial year* ending on or after 31 December 2005, the following reconciliations –

- (a) the sum of the amounts reported in column 1 plus column 3 on each Form 27 in the *return* for the first *financial year* ended on or after 31 December 2005 to the sum of the amounts reported in the column 1 plus column 3 plus column 4 on each Form 27 in the previous *return*;
- (b) the amounts reported in the column headed 'Gross claims paid / In previous financial years' on each of Forms 31, 32 and 34 in the *return* for the first *financial year* ended on or after 31 December 2005 to the sum of the amounts reported in the column headed 'Gross claims paid / In previous financial years' plus the amounts reported in the column headed 'Gross claims paid / In this financial year' on each Forms 31, 32, and 34 in the previous *return*;
- (c) the amounts reported in the column headed 'Gross claims outstanding brought forward / Reported' on each of Forms 27, 31, 32 and 34 in the *return* for the first *financial year* ended on or after 31 December 2005 to the amounts reported in the column headed 'Gross claims outstanding carried forward / Reported' on each of Forms 27, 31, 32 and 34 in the previous *return*;
- (d) the amounts reported in the line titled 'Technical provisions / Brought forward / Undiscounted' (line 51) on Form 28 in the

return for the first financial year ended on or after 31 December 2005 to the amounts reported in the line titled 'Technical provisions / Carried forward / Undiscounted' (line 53) on Form 28 in the previous return;

- (e) the amounts in the column headed 'Total number of claims settled at non-zero cost at end of the 2004 financial year' on each Table D to the amounts reported in the column headed 'Number of claims / Closed at some cost during this or previous financial years' (column 1) on each Form 31 and 32 in the previous return.

2005 return Transitional Tables A, B, C and D

12.4 **These tables belong to rule 12.2.**

Instructions to Table A

In these instructions "the 2005 *financial year*" means the first *financial year* ending on or after 31 December 2005.

Table A instruction 1

In the columns 1 and 2 year of origin is the *financial year* ending in the month and year shown.

Table A instruction 2

In the columns 1 and 2 the years of origin may be accident years or underwriting years.

In row 1 columns 1 and 2 replace "[year of origin]" with "accident year" if the business reported on the Table is reported on **Forms 26, 27, 31 or 32** or "underwriting year" if the business reported on the Table is reported on **Forms 28, 29 or 34**.

If the years of origin in columns 1 and 2 are accident years, the gross paid claims in each of the years of development 0 to 29 must be in respect of all claims in the *required category* that occurred in the year of origin.

If the years of origin in columns 1 and 2 are underwriting years, the gross paid claims in each of the years of development 0 to 29 must be in respect of all policies in the *required category* written in the year of origin.

Table A instruction 3

In row 3 column 33 the gross claims paid after the last reported year of development are gross claims paid in the 2005 *financial year* in respect of all the years of origin prior to the earliest year of origin for which historic data must be reported in the Table under rule 12.2(7).

Table A instruction 4

In column 34 the total gross claims paid to end of the 2005 *financial year* for a year of origin is the sum of all incremental payments for that year of origin and should equal:

Form 27 columns 1+3+4 for the row that matches that year of origin

Form 31 or 32 columns 3+4 for the row that matches that year of origin

Form 34 columns 1+2 for the row that matches that year of origin

for treaty, accident year;

for direct & facultative, accident year; or

for direct & facultative, underwriting year.

Table A instruction 5

In column 35 the total gross claims paid in the 2005 *financial year* for a year of origin is equal to the final entry on each diagonal for that year of origin and should equal:

Form 27 column 4 for the row that matches that year of origin
Form 28 line 21 for the row that matches that year of origin
Form 31 or **32** column 4 for the row that matches that year of origin
Form 34 column 2 for the row that matches that year of origin

for treaty, accident year;
for treaty, underwriting year;
for direct & facultative, accident year; or
for direct & facultative, underwriting year.

Table A instruction 6

The box marked "category number" must be completed by inserting the 3 digit *category number* to which the *risk category* relates.

The box marked "currency" must be completed by inserting the relevant 3 character currency code from the list in the Table in **Appendix 9.2 Paragraph**

31.

The box marked "reporting territory" must be completed by inserting the relevant 2 character code from the list in the Table in **Appendix 9.2 Paragraph**

32.

Table A instruction 7

The number of *financial years* required may differ from the number of rows against the relevant description where for instance the *insurer* has had *financial years* that are not 12 months.

2005 Return Transitional Table B

Development of gross cumulative incurred claims:

Risk category:	Category number:	Currency:	Reporting Territory:
----------------	------------------	-----------	----------------------

Gross incurred claims (cumulative paid claims plus reported outstanding claims) at the end of each development year in respect of each year of origin

On this Table "the 2005 financial year" means the first financial year ending on or after 31 December 2005

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34
[Year of origin] ended		Year of development																													Total gross reported claims at end of the 2005 financial year = final entry of each diagonal	Total gross reported outstanding claims at end of the 2005 financial year	
Month	Year	0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28			29
prior years																																(see in struction 3)	
		Data for years of origin prior to 30/12/1983 is only required for <i>category numbers</i> 271 to 273 (see rule 12.2(7) and instruction 6)																													Data for years of origin prior to 30/12/1983 is only required for <i>category numbers</i> 271 to 273 (see rule 12.2(7) and instruction 6)		
		Data for years of origin between 31/12/1983 and 22/12/1993 inclusive only required for <i>category numbers</i> 271 to 273, 510 to 580, 630, 640 and 670 (see rule 12.2(7) and instruction 6).																													Data for years of origin between 31/12/1983 and 22/12/1993 inclusive only required for <i>category numbers</i> 271 to 273, 510 to 580, 630, 640 and 670 (see rule 12.2(7) and instruction 6).		
		Data for years of origin between 23/12/1993 and 30/12/1996 inclusive only required for <i>category numbers</i> 271 to 273, 510 to 580 and 610 to 680 (see rule 12.2(7) and instruction 6).																													Data for years of origin between 23/12/1993 and 30/12/1996 inclusive only required for <i>category numbers</i> 271 to 273 and 510 to 580 and 610 to 680 (see rule 12.2(7) and instruction 6).		
All origin years																																	

Instructions to Table B

In these instructions "the 2005 *financial year*" means the first *financial year* ending on or after 31 December 2005.

Table B instruction 1

The year of origin is the *financial year* ending in the month and year shown.

Table B instruction 2

In columns 1 and 2 the years of origin may be accident years or underwriting years.

In row 1 columns 1 and 2 replace "[year of origin]" with "accident year" if the business reported on the Table is reported on **Forms 26, 27, 31 or 32** or "underwriting year" if the business reported on the Table is reported on **Forms 28, 29 or 34**.

If the years of origin in columns 1 and 2 are accident years, the gross incurred claims at the end of each of the years of development 0 to 29 must be in respect of all claims in the *required category* that occurred in the year of origin.

If the years of origin in columns 1 and 2 are underwriting years, the gross incurred claims at the end of each of the years of development 0 to 29 must be in respect of all policies in the *required category* written in the year of origin.

Table B instruction 3

In row 3 column 34, the gross reported outstanding claims for prior years of origin are the *insurer's* estimate of total gross reported outstanding claims at the end of the 2005 *financial year* in respect of all the years of origin prior to the earliest year of origin for which historic data must be reported in the Table under rule 12.2(7).

Table B instruction 4

In column 34 gross reported outstanding claims at end of the 2005 *financial year* for a year of origin should equal total gross reported claims at end of the 2005 *financial year* from column 33 of **Table B** less the total gross claims paid to the end of the 2005 *financial year* from column 34 of **Table A** and should also equal:

Form 27 column 5 for the row that matches that year of origin

Form 29 line 11 for the row that matches that year of origin

Form 31 or **Form 32** column 5 for the row that matches that year of origin

Form 34 column 3 for the row that matches that year of origin

for Treaty, accident year;

for Treaty, underwriting year;

for direct & facultative, accident year; or

for direct & facultative, underwriting year.

Table B instruction 5

The box marked "category number" must be completed by inserting the 3 digit *category number* to which the *risk category* relates.

The box marked "currency" must be completed by inserting the relevant 3 character currency code from the list in the Table in **Appendix 9.2 Paragraph 31**.

The box marked "reporting territory" must be completed by inserting the relevant 2 character code from the list in the Table in **Appendix 9.2 Paragraph 32**.

Table B instruction 6

The number of *financial years* required may differ from the number of rows against the relevant description instance where the *insurer* has had *financial years* that are not 12 months.

2005 Return Transitional Table C

Development of incremental numbers of reported claims:

Risk category:	Category number:	Currency:	Reporting Territory:

Number of claims reported in each development year in respect of each year of origin (including any claims ultimately settled at zero cost and excluding any re-opened claims)

On this Table, and the instructions to it, the phrase 'the 2005 financial year' means the first financial year ending on or after 31 December 2005

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34																				
[year of origin] ended		Year of development																													After the last reported year of development (see instruction 3)	Total number of claims reported to end of the 2005 financial year = sum of all number of claims reported in each development year for the year of origin																					
Month	Year	0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28			29																				
prior years																																																					

Data for years of origin prior to 31/12/1996 is only required for category numbers 271 to 273 (see rule 12.2(7) and instruction 5).

Data for years of origin prior to 31/12/1996 is only required for category numbers 271 to 273 (see rule 12.2(7) and instruction 5).

Instructions to Table C

In these instructions "the 2005 *financial year*" means the first *financial year* ending on or after 31 December 2005.

Table C instruction 1

The year of origin is the *financial year* ending in the month and year shown.

Table C instruction 2

In columns 1 and 2 the years of origin are accident years.

In row 1 columns 1 and 2 replace "[year of origin]" with "accident year".

For each year of origin, the number of claims reported in each of the years of development 0 to 29 must be in respect of all claims in the *required category* that occurred in the year of origin.

Table C instruction 3

In row 3 column 33, the number of claims reported after the last year of development are all claims reported in the 2005 *financial year* in respect of all the years of origin prior to the earliest year of origin for which historic data must be reported in the Table under rule 12.2(7).

Table C instruction 4

The box marked "category number" must be completed by inserting the 3 digit *category number* to which the *risk category* relates.

The box marked "currency" must be completed by inserting the relevant 3 character currency code from the list in the Table in **Appendix 9.2 Paragraph 31**.

The box marked "reporting territory" must be completed by inserting the relevant 2 character code from the list in the Table in **Appendix 9.2 Paragraph 32**.

Table C instruction 5

The number of *financial years* required may differ from the number of rows against the relevant description for instance where the *insurer* has had *financial years* that are not 12 months.

Number of claims settled at non-zero cost excluding any claims re-opened and not yet re-closed at the end of each development year in respect of each year of origin

On this Table "the 2005 financial year" means the first financial year ending on or after 31 December 2005 and the "2004 financial year" means the financial year immediately preceding the 2005 financial year.

1		2		3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34	35

Instructions to Table D

In these instructions "the 2005 *financial year*" means the first *financial year* ending on or after 31 December 2005.

Table D instruction 1

The year of origin is the *financial year* ending in the month and year shown.

Table D instruction 2

The year of origin is an accident year.

In row 1 columns 1 and 2 replace "[year of origin]" with "accident year".

For each year of origin, the number of claims settled at non-zero cost at the end of each of the development years 0 to 29 must be in respect of all claims in the *required category* that occurred in that year of origin.

Table D instruction 3

In row 3 column 34, the number of reported outstanding claims for prior years of origin is the number of reported outstanding claims at the end of the 2005 *financial year* in respect of all the years of origin prior to the earliest year of origin for which historic data must be reported in the Table under rule 12.2(7).

Table D instruction 4

Total number of claims settled at non-zero cost at end of the 2005 *financial year* for each year of origin should equal **Form 31** or **Form 32** column 1.

Table D instruction 5

The box marked "category number" must be completed by inserting the 3 digit *category number* to which the *risk category* relates.

The box marked "currency" must be completed by inserting the relevant 3 character currency code from the list in the Table in **Appendix 9.2 Paragraph 31**.

The box marked "reporting territory" must be completed by inserting the relevant 2 character code from the list in the Table in **Appendix 9.2 Paragraph 32**.

Table D instruction 6

The number of *financial years* required may differ from the number of rows against the relevant description for instance where the *insurer* has had *financial years* that are not 12 months.

Table D instruction 7

Claims settled at non-zero cost in column 35 are the figures for which the reconciliation is required in rule 12.3(e).

Financial year ending on or after 31 December 2005

12.5 The amendments to *IPRU(INS)* made by the interim Prudential Sourcebook for insurers (Regulatory Reporting) Instrument 2005 first apply to a *firm* with respect to its *financial year* ending on or after 31 December 2005.

PRA

- (e) the amounts in the column headed 'Total number of claims settled at non-zero cost at end of the 2004 financial year' on each *Table D* to the amounts reported in the column headed 'Number of claims / Closed at some cost during this or previous financial years' (column 1) on each *Form 31 and 32* in the previous *return*.

Pure Reinsurance Groups

12.5A A *pure reinsurer* whose *ultimate EEA insurance parent undertaking* is the *parent undertaking* of a *group* comprised solely of *reinsurance undertakings* need not comply with rule 9.40 (Group capital adequacy) before 10 December 2007.

Guidance

- 12.6 (1) Rule 12.2 requires *insurers* to prepare historical development data in triangular format for each 'required category of business' for which a *Form 26 to 29, 31, 32 or 34* is required in the *return* for the first *financial year* ended on or after 31 December 2005. The purpose of the rule is to enable users of the *return* to carry out independent analysis of the development of paid and incurred claims and claim numbers in the new categories. When preparing data required by this rule an *insurer* should consider the need of the user and provide the data as accurately as reasonable possible.
- (2) Under the reporting requirements of risk groups and *business categories* (i.e. the requirements that applied from 1996 to 2004), it has been common practice for users of the *return* to accumulate data from many returns to create the past claims development, usually in triangular form, for each risk group and business category. With the introduction of a new categorisation of *general insurance business*, users of the *return* will not have past claims development for the new categories without this transitional rule.
- (3) Under rule 12.2(6), an *insurer* that is required to prepare any of Tables A to D for a *required category* may make a reasonable estimate of entries in the Table in the case where the *insurer* maintains its internal records in such a way that there is not a one-one or many-one mapping of its internal classification to the *required category*. For example, if an *insurer* is required to prepare Table A and B for a *category number XXX* carried on in GBP and the insurer's classification of business that it uses for its internal analysis and management reporting is such that business in XXX in GBP is recorded in two of its internal classes both of which also contain business other than XXX in GBP, the insurer may make a reasonable estimate of the data needed in Table A and B for XXX in GBP from the business it has recorded in those two internal classes.

- (4) When an *insurer* does not have all the data required for Tables A to D, it should provide the data that it has available. For example an *insurer* may not hold data for all the years of origin prior to 1996 specified in the Tables, or an *insurer* may not hold data relating to some of the earlier diagonals specified in the Tables. In particular, if an *insurer's* internal classification of its claim development data is such that it would be highly burdensome to extract the data specified in Tables A to D in respect of business that falls into *category numbers* 590 or 690, it need not prepare the Tables for these *category numbers*. An *insurer* need not prepare Tables A to D for *category numbers* 400 and 700 (the *miscellaneous categories*).
- (5) Under rule 12.2(7), an *insurer* that is required to prepare any of Tables A to D for a *required category* may omit an entry for a Table if it does not have the data needed to complete the entry and does not use that data for setting provisions for claim liabilities for business in that *required category*. An *insurer* should not omit data required to be reported on the Tables if it uses that data for its internal claim reserving. For example if an *insurer* is required to prepare Table A for *category number* 570 carried on in GBP and it does not have records of gross claims paid in development years 0 to 5 in respect of year of origin 1986 and it does not use incremental gross claims paid data to set claims provisions in respect of that business and year of origin 1986, it may omit the incremental gross claims paid in development years 0 to 5 in respect of year of origin 1986 in Table A for that *required category*.
- (6) If, for example, an *insurer* has had a 30 September *financial year end* and in, say, 2002 it decided to change to a 31 March *financial year end*, the years of origin it is required to report on a Table under 12.2(4)(a) to (c) could be any of the following unless 12.2(4)(e) requires otherwise:

Actual <i>financial year end</i>	Year of origin shown on Table	Actual <i>financial year end</i>	Year of origin shown on Table	Actual <i>financial year end</i>	Year of origin shown on Table
	A		B	C	
30/09/2000	09-2000	30/09/2000	09-2000		
30/09/2001	09-2001	30/09/2001	09-2001	30/09/2000	09-2000
31/03/2002	03-2002	30/09/2002	09-2002	30/09/2001	09-2001
31/03/2003	03-2003	31/03/2003	03-2003	31/03/2003	03-2003
31/03/2004	03-2004	31/03/2004	03-2004	31/03/2004	03-2004
31/03/2005	03-2005	31/03/2005	03-2005	30/03/2005	03-2005
31/03/2006	03-2006	31/03/2006	03-2006	31/03/2006	03-2006

Under 12.2(4)(e) if, for example the business reported on the Table is reported on a *Form 31* and claims reported on that *Form 31* relating to accident years 2002 and 2003 are claims that occurred in the periods 1

October 2001 to 31 March 2002 and 1 April 2002 to 31 March 2003 respectively, the *insurer* would be required to report the years of origin under option A.

If option C applies, a calendar year (in this case 2002) would be missing from the sequence of years of origin. If the example instead had the *financial year end* changing from 31 March to 30 September in 2002, then a calendar year (in this case 2002) could appear twice in the sequence of years of origin. Thus under 12.2(4)(a) to (c) a calendar year may appear more than once or not at all in the sequence of years of origin in column 1 of a Table.

- (7) If an *insurer* is unable to submit the information required in 12.2(2) to *PRA* in a computer spreadsheet file that can be accessed by Microsoft Excel, it should request guidance from *PRA* as to the format in which to submit the information. The computer spreadsheet file that an *insurer* is required to send to the *PRA*, under 12.2(2)(d), should be the computer spreadsheet file that *PRA* makes available on its website or sends to *insurers* by electronic mail, with the relevant entries completed. An *insurer* should complete a template for each 2005 Return Transitional Tables A, B, C and D it is required to prepare. An *insurer* should submit a single computer spreadsheet file with each tab (or page) of the spreadsheet containing a single 2005 Return Transitional Table. An *insurer* should request guidance from *PRA* as to how to send the computer spreadsheet file if it is unable to send it by electronic mail or on a CD-ROM disk.

12.7

FCA PRA

- (1) GEN (the part of the appropriate regulator Handbook in High Level Standards which has the title General Provisions) contains some technical transitional provisions that apply throughout the Handbook and which are designed to ensure a smooth transition at commencement of the *Act*. These include transitional provisions relevant to record keeping and notification rules.
- (2) *SUP* contains transitional provisions which carry forward written concessions relating to pre-commencement provisions.

Off-market derivatives in linked funds

12.8

- (1) This transitional rule has effect from 31 December 2006 to 30 December 2007.
- (2) For the purpose of the definition of *permitted derivative contract* in *IPRU (INS) 11.1*:
- (a) *INSPRU 3.2.5R(3)(b)* has effect as if the words "and is capable of valuation" and "to *INSPRU 3.2.35R*" were omitted;
- (b) *INSPRU 3.2.34R* has effect as if it read "For the purpose of *INSPRU 2.3.5R(3)(b)*, a transaction is on approved terms only if the *firm* reasonably believes that it may be readily closed out"; and

(c) **INSPRU 3.2.35R** does not apply.

Admissible assets

- 12.9**
- (1) This transitional *rule* has effect from 31 December 2006 to 30 December 2007.
 - (2) In determining whether its assets are *admissible assets* for the purpose of any *rule* in *IPRU (INS)*, instead of applying *GENPRU 2 Ann 7R*, an *insurer* may elect to treat as an *admissible asset* an asset that would have been an *admissible asset* for the purposes of the Integrated Prudential Sourcebook (PRU) as it was in force on 30 December 2006.
 - (3) (2) does not apply when determining whether a *derivative* or *quasi-derivative* is an *approved derivative* or *approved quasi-derivative*.
 - (4) If an *insurer* applies (2) to any of its assets, it must do so for all of its assets except *derivatives* and *quasi-derivatives*.
- 12.10**
- (1) This transitional *rule* has effect from 31 December 2006 to 30 December 2007.
 - (2) Subject to (3), an *insurer* may use a definition of 343 (Energy) that is as stated in *IPRU (INS) Annex 11.3 Part I* but with the words "or against risks of loss to the persons insured attributable to interruptions of business carried on by them" omitted.
 - (3) If an *insurer* uses a modified definition of 343 (Energy) under (2), it must use a definition of 262 (Consequential loss) that is as stated in *IPRU (INS) Annex 11.3 Part I* but with the words "or 343 (energy)" omitted.

Balance Sheet and Profit and Loss Account

(Forms 1 to 3 and 10 to 19)

Introduction

- 1 (1) All the forms included in the part of the *return* to which this Appendix relates (*Forms 1 to 3 and 10 to 19*) are to be laid out as shown in this Appendix, except that the instructions for the completion of the forms need not be reproduced.
- PRA
- (2) All amounts, descriptions or other text required to be shown as supplementary notes to a form must not be presented on the face of that form, but must be presented as a separate statement. The title of that statement must identify the form to which it relates.
- 3 (1) An *insurer* making a *return* must complete the 'company registration number box' using the full registration number given by the Registrar of Companies. If the insurer does not have such a number, it must agree a suitable number with the *PRA*. An *overseas insurer* must use its F-series number issued by the Registrar of Companies.
- PRA
- (2) Boxes marked 'GL/UK/CM' must be completed by inserting –
- (a) 'UK' in the case of a form which is -
- (i) prepared by *EEA-deposit insurer* in respect of *long-term* or *general insurance business* carried on through a branch in the United Kingdom;
- (ii) prepared by an *external insurer* (other than a *non-EEA insurer* whose *insurance business* in the United Kingdom is restricted to *reinsurance* or an *insurer* whose head office is in any *EEA State* except the United Kingdom whose *insurance business* in the *EEA* is restricted to *reinsurance*) in respect of *long-term* or *general insurance business* carried on through a branch in the United Kingdom; or
- (iii) prepared by a *Swiss general insurer* in respect of *general insurance business* carried on through a branch in the United Kingdom;
- (b) 'CM' in the case of a form which is prepared by a *UK-deposit insurer* in respect of *long-term* or *general insurance business* carried on through branches in the *EEA States* concerned; or
- (c) 'GL' in any other case.
- (3) Boxes marked 'Period ended' must be completed so as to show, in

numerals, the date of the last day of the *financial year in question*.

- (4) No entry should be made in a box which is shaded or is not labelled.
- (5) In the forms 'this financial year' means the *financial year in question*.

Currency

4 The value of any asset or the amount of any liability denominated in a currency other than sterling must be expressed in sterling as if conversion had taken place at the closing middle rate on the last day for which the appropriate rate is available in the financial year to which the asset or liability relates.

PRA

5 (1) The amount of any income or expenditure must be expressed in sterling using such bases of conversion as are in accordance with generally accepted accounting practice.

PRA

(2) The bases of conversion adopted must be stated by way of supplementary note (code 1601) to *Form 16* or, if there is no *Form 16*, by way of supplementary note (code 4005) to *Form 40*.

Presentation of amounts

6 Negative amounts must be shown between round brackets.

PRA

7 Firms should not normally restate comparatives unless restatement is necessary in order to allow the appropriate comparison to be made. Where in any Form an amount which is a comparative (i.e. shown in a "previous year" column) or shown brought forward from a previous year differs from the corresponding amount shown in a "this financial year" column in a return for a previous year or as carried forward from that year, as the case may be, and the difference is not due solely to the use of a different rate to express other currencies in sterling, an explanation of the reason for the difference must be given by way of a supplementary note to that form. (For *Forms 1, 2, 3, 10, 11, 12, 13, 14, 15, 16, 18* and *19* the code for the supplementary note is 0111, 0211, 0311, 1011, 1111, 1211, 1311, 1411, 1511, 1611, 1811 and 1911 respectively.)

PRA

8 (1) Except to the extent permitted by (2), amounts due to or from the *insurer* must be shown gross.

PRA

(2) In calculating amounts due to or from the *insurer* –

- (a) amounts due from any person may, unless expressly provided otherwise, be included net of amounts which are due to that person, provided that such amounts may be set off against each other under generally accepted accounting practice; and
- (b) amounts due to any person may, unless expressly provided otherwise, be included net of amounts which are due from that person, provided that such amounts may be set off against each other under generally accepted accounting practice.

(3) If amounts shown include amounts calculated on the basis set out in (2), a supplementary note to *Form 13* (code 1304 for other than *long-term insurance business* and code 1310 for *long-term insurance business*) to that effect must be provided.

(4) This paragraph does not apply to *Form 17*.

9 All amounts are to be shown to the nearer £1,000. Calculations must be performed using unrounded figures. Figures which are determined from other figures (whether or not on the same form) must be rounded after performing calculations on the unrounded component figures.

PRA

Premiums

10 (1) Notwithstanding the requirements of the *insurance accounts rules*, amounts included in *Forms 11* and *12* in respect of –

PRA

(a) *gross written premiums*;

(b) *gross earned premiums*;

(c) *claims paid*;

(d) *claims outstanding*; and

(e) *reinsurance recoveries*,

must be determined in accordance with *INSPRU 1.1.66R* and *INSPRU 1.1.71R*.

(2) Where any amount included in *Form 11* or *12* pursuant to (1) differs from the aggregate of the corresponding amounts included in *Forms 21, 22, 24* and *25*, there must be stated by way of supplementary note to *Form 11* or *12* (code 1105 or 1205), as the case may be –

(a) the amount of such difference; and

(b) an explanation for such difference.

Counterparty exposure

11 (1) There must be given by way of a supplementary note to *Form 13* (code 1305 for other than *long-term insurance business* and code 1319 for *long-term insurance business*) –

PRA

(a) the maximum extent to which, in accordance with any investment guidelines operated by the *insurer*, it was permitted to be exposed to any one *counterparty* during the *financial year in question*;

(b) the maximum extent to which, in accordance with such guidelines, it was permitted to be exposed to any one *counterparty*, other than by way of exposure to an *approved*

counterparty, during the *financial year in question*; and

(c) an account of any occasions during the *financial year* on which either of those amounts was exceeded.

(2) In each case where a *counterparty exposure* of the *insurer* which is subject to any of the limits in *INSPRU 2.1.22R(3)* exceeds at the end of the *financial year in question*:

(a) 5% of the sum of its *base capital resources requirement* and its *long-term insurance liabilities*, excluding *property linked liabilities* and net of *reinsurance ceded*, or

(b) the sum of 20,000 Euro and 5% of its liabilities arising from its *general insurance business*, net of *reinsurance ceded*,

as appropriate –

(a) the amount of that *exposure*; and

(b) the nature of the assets held which give rise to that *exposure*,

must be stated by way of a supplementary note to *Form 13* (code 1306 for other than *long-term insurance business* and code 1312 for *long-term insurance business*).

(3) There must be stated by way of supplementary note to *Form 13* (code 1307 for other than *long-term insurance business* and code 1313 for *long-term insurance business*) the aggregate value of any rights to which *INSPRU 2.1.35R* or *INSPRU 2.1.36R* and *INSPRU 2.1.37R* relates.

Provision for reasonably foreseeable adverse variations

12 There must be stated by way of supplementary note to *Form 14* (code 1401) or *Form 15* (code 1501) the methods and assumptions used to determine the amount of any adjustment or provision made pursuant to *GENPRU 1.3.30R* to *GENPRU 1.3.33R* or *INSPRU 3.2.17R* to *INSPRU 3.2.18R* or, if there is no such adjustment or provision, the methods and assumptions used to determine that no adjustment or provision is required.

PRA

Liabilities

13 (1) Subject to (3), the following information must be given by way of a supplementary note to *Form 14* (code 1402) or *Form 15* (code 1502) –

PRA

(a) in the case of any ‘charge’ over assets of the *insurer*, the particulars specified in (2) or a statement that there are no such ‘charges’;

(b) the total potential liability, and the amount provided for that liability, to taxation on capital gains which might arise if the *insurer* disposed of its assets, or a statement that there is no such potential liability;

- (c) a brief description of any other liabilities being contingent liabilities not included in *Form 14* or *15* (other than liabilities arising under an inwards *contract of insurance* or *reinsurance*) including, where practicable, the amounts or estimated amounts of those liabilities, or a statement that there are no such contingent liabilities;
 - (d) a brief description of any guarantee, indemnity or other contractual commitment, effected by the *insurer* other than in the ordinary course of its *insurance business*, in respect of the existing or future liabilities of any *related companies*, including –
 - (i) the maximum liability of the *company* specified in such guarantee, indemnity or contractual commitment or, where no such amount is specified, a statement to that effect,
 - (ii) the amount of any provision made in respect of such liability, and
 - (iii) the amount reported under (c) in respect of such liability,
 or a statement that there are no such guarantees, indemnities or contractual commitments; and
 - (e) a description of any other uncertainty where such a description is, in the opinion of the directors, necessary for a proper understanding of the financial position of the *insurer*.
- (2) The particulars referred to in (1)(a) are –
- (a) the nature of the ‘charge’, including a brief description of the terms which are relevant to securing the prior claim of any person to assets which are subject to the ‘charge’;
 - (b) for each line in *Form 13*, the amount included in respect of assets which are subject to the ‘charge’; and
 - (c) for each line in *Form 14* or *15*, the amount included in respect of liabilities which are secured by the ‘charge’.
- (3) (1)(a) and (c) may be disregarded by an *insurer* in the case of –
- (a) one or more ‘charges’ over assets which are attributable to either the *long-term insurance assets* or the ‘other assets’ and whose aggregate value (as shown on *Form 13*) does not exceed 2.5% of the *long-term insurance assets* (other than reinsurance recoveries and assets required to match *property linked liabilities*) or the ‘other assets’ (other than *reinsurance recoveries*), as the case may be; or
 - (b) one or more contingent liabilities whose aggregate value does not exceed 2.5% of the *long-term insurance assets* (other than *reinsurance recoveries* and assets required to match *property*

linked liabilities) or the 'other assets' (other than *reinsurance recoveries*), as the case may be.

- (4) (1)(d) may be disregarded by an *insurer* in respect of one or more guarantees, indemnities or contractual commitments where the aggregate of the maximum liabilities specified in such guarantees, indemnities or contractual commitments does not exceed 2.5% of the *long-term insurance assets* (other than *reinsurance recoveries* and assets required to match *property linked liabilities*) or the 'other assets' (other than *reinsurance recoveries*), as the case may be.
- (5) For the purposes of this paragraph, *charge* includes any arrangement whatsoever, whether contractual or otherwise, which operates to secure the prior claim of any person over general creditors to any assets on a winding up of the *insurer*, and other assets means assets that are not *long-term insurance assets*.

Derivative contracts

15 Any *derivative contract* entered into by an *insurer* –

- PRA (a) the value of which is taken into account for the purposes of calculating benefits payable to *policy holders* under *property linked contracts*; or
- (b) in order to match its liabilities in respect of the payment of *index linked benefits*,

must be excluded from *Form 17*.

16 Where, in respect of any *derivative contract* included in *Form 17*, assets have been transferred to or for the benefit of the *insurer* by way of *variation margin* there must be stated by way of supplementary note (code 1701) to *Form 17* –

- PRA (a) the aggregate amount of any liability to repay such assets or equivalent assets;
- (b) for each line in *Form 13*, the amount included in respect of such assets; and
- (c) to what extent any amounts included in *Form 13* have taken account of any requirement to repay such assets or equivalent assets.

17 If –

- PRA (a) the aggregate value of rights under contracts or in respect of assets, either of which have the effect of derivative contracts, exceeds 2.5% of the aggregate value of assets shown at line 89 of *Form 13*; or
- (b) the aggregate amount of liabilities under contracts or in respect of assets, either of which have the effect of derivative contracts, exceeds 2.5% of the aggregate of the amounts shown in lines 17 to 39 of *Form 14* or lines 31 to 51 of *Form 15*, as appropriate,

the corresponding value, if not zero, must be stated (by way of supplementary note (code 1702) to Form 17) for each line in *Form 13, 14 or 15* and paragraph 16 applies to the insurer as if such contracts or assets had been included in *Form 17*.

FORMS

[Forms 1-3 and 10-19 to follow]

Statement of solvency – general insurance business

Name of insurer

Global business/UK branch business/EEA branch business

Financial year ended

Solo solvency calculation / Adjusted solo solvency calculation

Contingent liabilities

Quantifiable contingent liabilities in respect of other than long-term insurance business as shown in a supplementary note to Form 15	51		
---	----	--	--

Instructions for completion of Form 1

PRA

- 1 An insurer (other than a Swiss general insurer or an EEA-deposit insurer) carrying on general insurance business must complete Form 1 in respect of its entire general insurance business. An external insurer (other than a non-EEA insurer whose insurance business in the United Kingdom is restricted to reinsurance or an insurer whose head office is in any EEA State except the United Kingdom whose insurance business in the EEA is restricted to reinsurance) that is carrying on general insurance business must complete Form 1 in respect of business carried on through a branch in the United Kingdom. An UK-deposit insurer that is carrying on general insurance business must complete Form 1 in respect of business carried on through its branches in EEA States taken together. Form 1 is not required for Swiss general insurers or EEA-deposit insurers.
- 2 In the case of a *marine mutual* completing an abbreviated *return* under rule 9.36A, units must be the same as those used in Form M1.
- 3 For *financial years* commencing on or before 31 December 2004 lines 11 to 42, column 2 must be blank.
- 4 The entry at line 13 must be equal to the *total capital resources* after deductions at line 79, column 1 on Form 3. The entry at line 11 includes also *capital resources* allocated towards the *long-term insurance business* (and included in column 2 on Form 3) that arise outside the *long-term insurance fund*. For a *branch* the entry at line 11 is equal to Form 10 line 23.
- 5 For a *firm* carrying on *long-term insurance business* the entry at line 12 on Form 1 must equal the entry at line 12 on Form 2. For a *firm* not carrying on *long-term insurance business* the entry at line 12 on Form 1 is nil.

Instructions 6-12 only apply to firms that do not meet the conditions specified in GENPRU 2.1.13R(2), i.e. that are not required to perform an adjusted solo calculation under INSPRU 6.1.

- 6 For an *insurer* other than a *pure reinsurer* writing both non-life and life business, the *guarantee fund* requirement at line 21 is calculated by reference to *GENPRU 2.2.34R* as the higher of line 33 and 1/3 of line 31. For a *pure reinsurer* writing both non-life and life business, the *guarantee fund* calculated by reference to *GENPRU 2.2.34AR* must be allocated between F1.21 and F2.21 in the ratio of the *general insurance capital requirement* to the sum of the *long-term insurance capital requirement* and the *resilience capital requirement*.
- 7 The excess (deficiency) of available *capital resources* to cover the *guarantee fund* requirement at line 22 is equal to line 81 on Form 3 less line 21, except for a *branch*. For a *branch* this is equal to line 13 less line 21 less an adjustment because assets held to cover the *guarantee fund* must be held in the *United Kingdom* (or for *UK-deposit insurers*, in the *EEA States* where the *firm* carries on *insurance business*); the adjustment is the difference between Form 13 line 89 for categories 1 and 3 (or 5), except for *branches* carrying on both *long-term insurance business* and *general insurance business* (composite branches); composite *branches* will need to state

how the difference is allocated between *general insurance business* and *long-term insurance business* in a note to the Form (Note 0102).

- 8 The *general insurance capital requirement* at line 31 must be equal to the amount shown at line 43 of Form 12, which is calculated in accordance with *GENPRU 2.1.34R*.
- 9 The *base capital resources requirement* at line 33 must be taken from *GENPRU 2.1.30R*. For a branch, this figure should be halved. For a *pure reinsurer* writing both non-life and life business, the *base capital resources requirement* must be allocated between F1.33 and F2.33 in the ratio of the *general insurance capital requirement* to the sum of the *long-term insurance capital requirement* and the *resilience capital requirement*.
- 9A The individual *minimum capital requirement* at line 34 is calculated in accordance with *GENPRU 2.1.24R* and is the higher of lines 31 and 33.
- 9B The capital requirements of *regulated related undertakings* at line 35 must be nil.
- 9C The *minimum capital requirement* at line 36 is equal to the sum of lines 34 and 35.
- 10 The excess (deficiency) of available *capital resources* to cover 50% of the *minimum capital requirement* at line 37 is equal to line 82, column 1 on Form 3 less 50% of line 36. For a *branch*, line 37 is to be left blank.
- 11 The excess (deficiency) of available *capital resources* to cover 75% of the *minimum capital requirement* at line 38 is equal to line 83, column 1 on Form 3 less 75% of line 36. For a *branch*, line 38 is to be left blank.
- 12 The *capital resources requirement* at line 41 is calculated in accordance with *GENPRU 2.1.17R* and is equal to line 36.

Instructions 13-20 only apply to firms that meet the conditions specified in GENPRU 2.1.9 R(2), i.e. that perform the adjusted solo solvency calculation in accordance with INSPRU 6.1.

- 13 The *guarantee fund requirement* at line 21 is calculated as the share of the *general insurance business* of
 $\frac{1}{3}X + (R - S - U - X)$ by reference to *INSPRU 6.1.45R*.
- 14 The excess (deficiency) of available *capital resources* to cover the *guarantee fund requirement* at line 22 is equal to line 81, column 1 on Form 3 less line 21.
- 15 The *general insurance capital requirement* at line 31 is taken from the amount shown at line 43 of Form 12, which is calculated in accordance with *GENPRU 2.1.34R*.
- 16 The *base capital resources requirement* at line 33 must be taken from *GENPRU 2.1.30R*. For a *branch* this figure should be halved. For a *pure reinsurer* writing both non-life and life business, the *base capital resources requirement* must be allocated between F1.33 and F2.33 in the ratio of the *general insurance capital requirement* to the sum of the *long-term insurance capital requirement* and the *resilience capital requirement*.

- 16A The *individual minimum capital requirement* at line 34 is calculated in accordance with *GENPRU 2.1.24R* and is the higher of lines 31 and 33.
- 16B The capital requirements of *regulated related undertakings* at line 35 is line 36 less line 34.
- 17 The *minimum capital requirement* at line 36 must equal the amount represented by (R-S) with reference to *INSPRU 6.1.45R*.
- 18 The excess (deficiency) of available *capital resources* to cover 50% of the *minimum capital requirement* at line 37 is equal to line 82, column 1 on Form 3 less 50% of line 36.
- 19 The excess (deficiency) of available *capital resources* to cover 75% of the *minimum capital requirement* at line 38 is equal to line 83, column 1 on Form 3 less 75% of line 36.
- 20 The entry at line 41 must equal the amount represented by R with reference to *INSPRU 6.1.45R*.

Instructions 21 onwards apply to all firms

- 21 The entry at line 51 must not include provision for any liability to tax on capital gains referred to in paragraph 13(1)(b) of Appendix 9.1. Amounts in *related undertakings* must not be included.
- 22 Where a direction under section 148 of the Act has been issued disapplying or modifying any of the provisions of the *Accounts and Statements Rules*, a note to *Form 1* explaining the effect of the order is usually required. The requirement for such a note would be specified in the direction itself. [Code 0101].

Statement of solvency – long-term insurance business

Name of insurer

Global business/UK branch business/EEA branch business

Financial year ended

Solo solvency calculation / Adjusted solo solvency calculation

	Company registration number	GL/ UK/ CM	day	month	year	units
R2						£000
					As at end of this financial year 1	As at end of the previous year 2

Capital resources

Capital resources arising within the long-term insurance fund	11		
Capital resources allocated towards long-term insurance business arising outside the long-term insurance fund	12		
Capital resources available to cover long-term insurance business capital resources requirement (11+12)	13		

Guarantee fund

Guarantee fund requirement	21		
Excess (deficiency) of available capital resources to cover guarantee fund requirement	22		

Minimum capital requirement (MCR)

Long-term insurance capital requirement	31		
Resilience capital requirement	32		
Base capital resources requirement	33		
Individual minimum capital requirement	34		
Capital requirements of regulated related undertakings	35		
Minimum capital requirement (34+35)	36		
Excess (deficiency) of available capital resources to cover 50% of MCR	37		
Excess (deficiency) of available capital resources to cover 75% of MCR	38		

Enhanced capital requirement

With-profits insurance capital component	39		
Enhanced capital requirement	40		

Capital resources requirement (CRR)

Capital resources requirement (greater of 36 and 40)	41		
Excess (deficiency) of available capital resources to cover long-term insurance business CRR (13-41)	42		

Contingent liabilities

Quantifiable contingent liabilities in respect of long-term insurance business as shown in a supplementary note to Form 14	51		
--	----	--	--

Instructions for completion of Form 2

PRA

- 1 An insurer (other than an EEA-deposit insurer) carrying on long-term insurance business must complete Form 2 in respect of its entire long-term insurance business. An external insurer (other than a non-EEA insurer whose insurance business in the United Kingdom is restricted to reinsurance or an insurer whose head office is in any EEA State except the United Kingdom whose insurance business in the EEA is restricted to reinsurance) or EEA-deposit insurer that is carrying on long-term insurance business must complete Form 2 in respect of business carried on through a branch in the United Kingdom. An UK-deposit insurer that is carrying on long-term insurance business must complete Form 2 in respect of business carried on through its branches in EEA States taken together.
- 2 The entry at line 13 must be equal to the *total capital resources* after deductions at line 79, column 2 on Form 3. The entry at line 11 represents items relating to the *long-term insurance fund*, and that at line 12 represents amounts arising outside the *long-term insurance fund*. For a *branch*, line 11 is equal to the sum of any *implicit items* plus Form 10 line 11 less the sum of lines 11, 12 and 49 in Form 14: when there are implicit items an analysis of line 11 must be given in a supplementary note (code 0202); if the *insurer* is not carrying on *general insurance business* through the *branch*, line 12 will be equal to Form 10 line 23.
- 3 For *financial years* commencing on or before 31 December 2004 lines 11 to 42, column 2 must be blank.
- 4 For *EEA-deposit insurers*, lines 21 to 42 must be blank.

Instructions 5-14 only apply to firms that do not meet the conditions specified in GENPRU 2.1.13 R(2), i.e. that are not required to perform an adjusted solo calculation under INSPRU 6.1.

- 5 For an *insurer* other than a *pure reinsurer* writing both non-life and life business, the *guarantee fund* requirement at line 21 is calculated by reference to *GENPRU 2.2.33R* as the higher of line 33 and 1/3 of line 31. For a *pure reinsurer* writing both non-life and life business, the *guarantee fund* calculated by reference to *GENPRU 2.2.34AR* must be allocated between F1.21 and F2.21 in the ratio of the *general insurance capital requirement* to the sum of the *long-term insurance capital requirement* and the *resilience capital requirement*.
- 6 The excess (deficiency) of available *capital resources* to cover the *guarantee fund* requirement at line 22 is equal to line 81, column 2 on Form 3 less line 21, except for a *branch*. For a *branch* this is equal to line 13 less line 21 less an adjustment because assets held to cover the *guarantee fund* must be held in the *United Kingdom* (or for *UK-deposit insurers*, in the *EEA States* where the *firm* carries on *insurance business*) and cannot include *implicit items*; an analysis would be appropriate in a note (code 0203) to the Form.
- 7 The *long-term insurance capital requirement* at line 31 must be equal to the amount shown at line 51 of Form 60, which is calculated in accordance with *GENPRU*

2.1.36R.

- 8 The *resilience capital requirement* at line 32 is calculated in accordance with the rules in *INSPRU 3.1*.
- 9 The *base capital resources requirement* at line 33 must be taken from *GENPRU 2.1.30R*. For a branch, this figure should be halved. For a *pure reinsurer* writing both non-life and life business, the *base capital resources requirement* must be allocated between F1.33 and F2.33 in the ratio of the *general insurance capital requirement* to the sum of the *long-term insurance capital requirement* and the *resilience capital requirement*.
- 9A The individual *minimum capital requirement* at line 34 is calculated in accordance with *GENPRU 2.1.24AR* or *GENPRU 2.1.25R* and is the greater of line 33 and the sum of lines 31 and 32.
- 9B The capital requirements of *regulated related undertakings* at line 35 must be nil.
- 9C The *minimum capital requirement* at line 36 is equal to the sum of lines 34 and 35.
- 10 The excess (deficiency) of available *capital resources* to cover 50% of the *minimum capital requirement* at line 37 is equal to line 82, column 1 on Form 3 less 50% of line 36. For a *branch*, line 37 must be blank.
- 11 The excess (deficiency) of available *capital resources* to cover 75% of the *minimum capital requirement* at line 38 is equal to line 83, column 1 on Form 3 less 75% of line 36. For a *branch*, line 38 is to be left blank.
- 12 The *with-profits insurance capital component* at line 39 must be the total of the amounts shown at line 66 on Forms 18, calculated in accordance with the rules in *INSPRU 1.3*.
- 13 The *enhanced capital requirement* at line 40 is calculated as the sum of lines 31, 32 and 39.
- 14 The *capital resources requirement* at line 41 is calculated in accordance with *GENPRU 2.1.18R*.
- Instructions 15-23 only apply to firms that meet the conditions specified in GENPRU 2.1.13R(2), i.e. that perform the adjusted solo solvency calculation in accordance with INSPRU 6.1.*
- 15 The *guarantee fund requirement* at line 21 is calculated as the share of the *general insurance business* of $\frac{1}{3}X + (R - S - U - X)$ by reference to *INSPRU 6.1.45R*.
- 16 The excess (deficiency) of available *capital resources* to cover the *guarantee fund requirement* at line 22 is equal to line 81, column 2 on Form 3 less line 21.
- 17 The *long-term insurance capital requirement* at line 31 is taken from the amount shown at line 51 of Form 60, which is calculated in accordance with *GENPRU 2.1.36R*.
- 17A The *resilience capital requirement* at line 32 is calculated in accordance with the rules in *INSPRU 3.1*.

- 17B The *base capital resources requirement* at line 33 must be taken from *GENPRU 2.1.30R*. For a *branch* this figure should be halved. For a *pure reinsurer* writing both non-life and life business, the *base capital resources requirement* must be allocated between F1.33 and F2.33 in the ratio of the *general insurance capital requirement* to the sum of the *long-term insurance capital requirement* and the *resilience capital requirement*.
- 17C The individual *minimum capital requirement* at line 34 is the greater of line 33 and the sum of lines 31 and 32.
- 17D The capital requirements of *regulated related undertakings* at line 35 is the amount shown at line 36 less line 34.
- 18 The entry at line 36 must include the amount represented by (R-S) with reference to *INSPRU 6.1.45R*.
- 19 The excess (deficiency) of available *capital resources* to cover 75% of the *minimum capital requirement* at line 37 is equal to line 82, column 2 on Form 3 less 50% of line 36.
- 20 The excess (deficiency) of available *capital resources* to cover 75% of the *minimum capital requirement* at line 38 is equal to line 83, column 2 on Form 3 less 75% of line 36.
- 21 The *with-profits insurance capital component* at line 39 must be the total of 'S' with reference to *INSPRU 6.1.45R*.
- 22 The entry at line 40 must be the sum of lines 36 and 39.
- 23 The entry at line 41 must equal the amount represented by R with reference to *INSPRU 6.1.45R*.

Instructions 24 onwards apply to all firms

- 24 The entry at line 51 must not include provision for any liability to tax on capital gains referred to in paragraph 13(1)(b) of Appendix 9.1. Amounts in *related undertakings* must not be included.
- 25 Where a direction under section 148 of the *Act* has been issued disapplying or modifying any of the provisions of the *Accounts and Statements Rules*, a note to Form 2 explaining the effect of the direction is usually required. The requirement for such a note would be specified in the direction itself. (Code 0201).

Components of capital resources

Name of insurer
Global business
Financial year ended

	Company registration number	GL/ UK/ CM	day	month	year	units
	R3					£000
		General insurance business	Long-term insurance business	Total as at the end of this financial year	Total as at the end of the previous year

Instructions for completion of Form 3

PRA

- 1 **An insurer (other than a Swiss general insurer or an EEA-deposit insurer) must complete Form 3 in respect of its entire business. An external insurer (other than a non-EEA insurer whose insurance business in the United Kingdom is restricted to reinsurance or an insurer whose head office is in any EEA State except the United Kingdom whose insurance business in the EEA is restricted to reinsurance), an EEA-deposit insurer or a Swiss general insurer must complete Form 10 in respect of business carried on through a branch in the United Kingdom. An UK-deposit insurer must complete Form 10 in respect of business carried on through its branches in EEA States taken together.**
- 2 **An insurer that is carrying on long-term insurance business, other than a mutual not carrying on general insurance business, that includes within its capital resources any capital instruments issued by its long-term insurance fund, must include a supplementary note (code 0302) analysing those instruments.**
- 3 **In the case of a marine mutual completing an abbreviated return under rule 9.36A, units must be the same as those used in Form M1. If units are in US\$ or US\$000, then the bases of conversion used in determining the base capital resources requirement must be those used in Forms 11 and 12.**
- 4 **Amounts in columns 1 and 2 refer to capital supporting the general insurance business and the long-term insurance business respectively. For a firm carrying on only general insurance business column 2 should be blank. For a firm carrying on only long-term insurance business column 1 should be blank. All items relating to the long-term insurance fund should be included in column 2. For a composite firm capital items arising outside the long-term insurance fund should be allocated between general insurance business and long-term insurance business in a manner consistent with the firm's view of what business that capital supports. Where there is a material change in way capital items are allocated from one year to the next, the firm should explain the change in a supplementary note (code 0303).**
- 5 **Column 3 is the sum of columns 1 and 2.**
- 6 **For financial years commencing on or before 31 December 2004 column 4 must be blank.**
- 7 **Amounts at lines 11-13 should be taken from the firm's stand-alone accounts prepared under the Companies Acts 1985 or 2006, as appropriate, or (for firms not preparing accounts under the Companies Act legislation) equivalent overseas legislation or the applicable UK legislation.**
- 8 **The entry at line 15.2 must be the FFA taken from the firm's stand-alone accounts prepared under the Companies Acts 1985 or 2006, as appropriate, or (for firms not preparing accounts under the Companies Act legislation) equivalent overseas legislation or the applicable United Kingdom legislation. The entry at line 15**

column 1 must be blank.

- 9 **GENPRU 2.2.105R and 2.2.106G explain how to calculate the valuation differences for inclusion at line 14 or 35. Inadmissible assets or assets in excess of *market risk* and *counterparty* limits are not to be included in the valuation differences. Net valuation differences are shown at line 14 if positive or in line 35 if negative. The *firm* must state in a supplementary note (code 0310) to this form –**
- (a) The amount of positive valuation differences included within line 14 or 35 in respect of assets where valuation in *GENPRU* and *INSPRU* exceeds the valuation that the *firm* uses for external financial reporting purposes, together with a brief explanation indicating the nature of those assets;
 - (b) The amount of positive valuation differences included within line 14 or 35 in respect of liabilities where valuation in *GENPRU* and *INSPRU* is lower than the valuation that the *firm* uses for external financial reporting purposes, together with a brief explanation indicating the nature of those liabilities;
 - (c) The amount of negative valuation included within line 14 or 35 in respect of assets where valuation in *GENPRU* and *INSPRU* is lower than the valuation that the *firm* uses for external financial reporting purposes (excluding inadmissible assets and assets in excess of *market risk* and *counterparty* limits), together with a brief explanation indicating the nature of those assets; and
 - (d) The amount of negative valuation included within line 14 or 35 in respect of liabilities where valuation in *GENPRU* and *INSPRU* exceeds the valuation that the *firm* uses for external financial reporting purposes (excluding amounts deducted from *technical provisions* for discounting shown at line 34), together with a brief explanation indicating the nature of those liabilities.

The amount in (a) plus the amount in (b) less the amount in (c) less the amount in (d) should equal the amount shown at line 14 if positive or at line 35 if negative."

Instructions 10-32 only apply to firms that do not meet the conditions specified in GENPRU 2.1.9R(2), i.e. that are not required to perform an adjusted solo calculation under INSPRU 6.1.

- 10 The entries at line 16 must be nil.
- 11 Amounts may only appear in lines 21 and 22 if the *PRA* has issued a *waiver* permitting these amounts to count as *tier one capital* (tier one waivers). These amounts are restricted by *GENPRU 2.2.29R (1)*, so that amounts in line 24 may not be greater than the sum of the corresponding amounts in lines 19 and 37. If the *PRA* has issued a *waiver* permitting amounts to count as *tier two capital* (tier two waivers), these are to be included at line 41, together with any amounts that arise from the restriction at *GENPRU 2.2.29R(1)*.
- 12 The entries at line 23 must be nil.
- 13 The entries at lines 25 and 27 must be restricted to comply with *GENPRU 2.2.29R* and *2.2.30R*, so that the total of the amounts in lines 24, 25 and 27 is not greater than the total amount in line 19 plus line 37, and the amount in line 27 is not greater than 15/85 of the total of the amounts in lines 19, 24 and 25 minus line 37. Amounts

in excess of the limits are entered at lines 42 and 43 respectively.

- 14 The entries at lines 26 and 28 must be nil.
- 15 The entries at line 32 for investments in own *shares* should, in the majority of cases, be zero.
- 16 For the purpose of completing line 33, the *firm* should refer to *GENPRU 2.2.155R* and *GENPRU 2.2.156G*.
- 17 The amounts in line 34 must be calculated in accordance with *GENPRU 2.2.107R(1)* and *GENPRU 2.2.107R(2)*.
- 18 The entries at line 36 must be nil.
- 19 The entries at lines 45 and 46 for perpetual cumulative *preference shares*, subordinated *debt* and *securities* must be the total, unrestricted, amounts that the *firm* can include in *upper tier two capital* in accordance with *GENPRU 2.2.159R* to *2.2.174R*, *GENPRU 2.2.177R* to *2.2.181R* and *GENPRU 2.2.270R* to *2.2.271R*.
- 20 The entries at line 47 must be nil.
- 21 The types of capital instrument that a *firm* can include within its *lower tier two capital* are set out at *GENPRU 2.2.159R* to *2.2.174R*, *GENPRU 2.2.194R* to *2.2.196R* and *GENPRU 2.2.270R* to *2.2.271R*. These should be split between fixed term *preference shares* and other *tier two instruments* and entered at lines 51 and 52 respectively.
- 22 The entries at line 53 must be nil.
- 23 The effect of the restrictions at *GENPRU 2.2.37R* applying to *tier two capital* are shown at lines 62 and 63. Line 62 relates to *tier two capital* as a whole and equals the excess (if any) of line 61 over line 39. Line 63 relates to *lower tier two capital* and equals the excess (if any) of line 59 over the sum of line 62 and 1/2 line 39.
- 24 Line 71 must show positive adjustments for *related undertakings* that are *regulated related undertakings* (other than *insurance undertakings*) required by *GENPRU 2.2.256R*.
- 25 Line 73 must show the deductions for assets that are not *admissible assets* required by *GENPRU 2.2.251R*.
- 26 Line 74 must show the assets in excess of *market risk* and *counterparty limits* in *INSPRU 2.1.22R*.
- 27 Line 75 must show negative adjustments for *related undertakings* that are *ancillary services undertakings* required by *GENPRU 2.2.255R*.
- 28 Line 76 must show negative adjustments for *related undertakings* that are *regulated related undertakings* (other than *insurance undertakings*) required by *GENPRU 2.2.256R*.
- 29 The entries at line 77 must be nil.

- 30 The entry at line 81 is determined as the amount of the *firm's capital resources* available to meet its *guarantee fund* requirement, having regard to *GENPRU 2.2.33R*, *GENPRU 2.2.34R*, *GENPRU 2.2.34AR* and *GENPRU 2.2.35R*. Unless some *innovative tier one capital* does not meet the conditions for it to be treated as *upper tier two capital* (when an adjustment may be needed), line 81 must be either:
- line 79; or
 - (if less) the sum of lines 19, 25, 27, 42, 43, 45, 46 and 59 less the sum of lines 37, 62 and 63 less the greatest of:
 - zero;
 - the sum of lines 27, 37, 43, 45, 46, 59, 73, 74, 75 and 76 less the sum of lines 19, 25, 42, 62, 63 and 71; and
 - line 59 plus one-third of the sum of lines 37, 73, 74, 75 and 76 less the sum of lines 62 and 63 less one-third of the sum of lines 19, 25, 27, 42, 43, 45, 46 and 71
- 31 The entry at line 82 is determined as the amount of the *firm's capital resources* available to meet 50% of its *minimum capital requirement*, having regard to *GENPRU 2.2.32R*. Line 82 must be either:
- line 79; or
 - (if less) the sum of lines 19, 24, 25 and 42 less line 37.
- 32 The entry at line 83 is determined as the amount of the *firm's capital resources* available to meet 75% of its *minimum capital requirement*, having regard to *GENPRU 2.2.38R* and *GENPRU 2.2.39R*. Unless some *innovative tier one capital* does not meet the conditions for it to be treated as *upper tier two capital* (when an adjustment may be needed), line 83 must be either:
- line 79; or
 - (if less) the sum of lines 19, 24, 25, 27, 41, 42, 43, 45 and 46 less the sum of line 37 and any excess of the sum of lines 27, 37, 41, 43, 45 and 46 over the sum of lines 19, 24, 25 and 42.

Instructions 33-57 only apply to firms that meet the conditions specified in GENPRU 2.1.13R(2), i.e. that perform the adjusted solo solvency calculation in accordance with INSPRU 6.1.

- 33 *Tier one capital resources* must be calculated in accordance with the *rules* in *INSPRU 6.1.41R* in relation to restricted assets.
- 34 The entries at line 16 must equal the net contribution to core *tier one capital resources* of the *firm's related undertakings* in accordance with the calculation in *INSPRU 6.1.55R (2)*.
- 35 Amounts may only appear in lines 21-23 if the *PRA* has issued a *waiver* permitting these amounts to count as *tier one capital* (tier one waivers). These amounts are restricted by *INSPRU 6.1.45R (1)(c)*, so the amounts in line 24 may not be greater than the sum of the corresponding amounts in lines 19 and 37. If the *PRA* has

issued a *waiver* permitting amounts to count as *tier two capital* (tier two waivers), these are to be included at line 41, together with any amounts that arise from the restriction at *INSPRU 6.1.45R (1)(c)*.

- 36 The entries at line 26 must include the net contribution to the *firm* of perpetual non-cumulative *preference shares* issued by the *firm's related undertakings* – ie. the capital represented by perpetual non-cumulative *preference shares* of each of the *firm's related undertakings* that is a *regulated related undertaking* after deduction of the sum of the book value of the investments by the *firm* in the perpetual non-cumulative *preference shares* of each of its *related undertakings* that is a *regulated related undertaking* and the book value of the investments by *related undertakings* of the *firm* in the perpetual non-cumulative *preference shares* of each of its *related undertakings* that is a *regulated related undertaking* – in a manner consistent with the calculation of GCR in *INSPRU 6.1*.
- 37 The entries at line 28 must equal the net contribution to innovative *tier one capital resources* of the *firm's related undertakings* in accordance with the calculation in *INSPRU 6.1.53R (2)*.
- 38 The entries at lines 25-28 must be restricted to comply with *INSPRU 6.1.45R*, so that the total of the amounts in lines 24-28 is not greater than the total amount in line 19 plus line 37, and the total amount in lines 27 and 28 is not greater than 15/85 of the total of the amounts in lines 19, 24, 25, and 26 minus line 37. Amounts in excess of the limits are entered at lines 42 and 43 as appropriate. If line 42 or 43 includes amounts excluded from line 26 or 28, these amounts must be stated in a supplementary note (code 0304).
- 39 The entries at line 32 for investments in own *shares* should, in the majority of cases, be zero.
- 40 For the purpose of completing line 33, the *firm* should refer to *GENPRU 2.2.155R* and *2.2.156R*.
- 41 The amounts in line 34 must be calculated in accordance with *GENPRU 2.2.107R(1)* and *2.2.107R(2)*.
- 42 The entries at line 36 must equal the total of any of the deductions of the type specified in lines 32-35 that apply to the *firm's related undertakings*.
- 43 The entries at lines 45 and 46 for perpetual cumulative *preference shares*, subordinated *debt* and *securities* must be the total, unrestricted, amounts that the *firm* can include in *upper tier two capital* in accordance with *GENPRU 2.2.159R* to *2.2.174R*, *GENPRU 2.2.177R* to *2.2.181R* and *GENPRU 2.2.270R* to *2.2.271R*.
- 44 The entries at line 47 must equal the net contribution to *upper tier two capital resources* of the *firm's related undertakings* – ie. the sum of the *firm's* share of the *upper tier two capital resources* of each *related undertaking* less the book value of the *firm's* investment in the *upper tier two capital* of its *related undertakings* – in a manner consistent with the calculation of GCR in *INSPRU 6.1*.
- 45 The types of capital instrument that a *firm* can include within its *lower tier two capital* are set out at *GENPRU 2.2.159R* to *2.2.174R*, *GENPRU 2.2.194R* to *2.2.196R* and *GENPRU 2.2.271R*. These should be split between fixed term *preference shares*

and other *tier two instruments* and entered at lines 51 and 52 respectively.

- 46 The entries at line 53 must equal the net contribution to *lower tier two capital resources* of the *insurer's related undertakings* in accordance with the calculation in *INSPRU 6.1.57R(2)*.
- 47 The effect of the restrictions at *INSPRU 6.1.45R* applying to *tier two capital* are shown at lines 62 and 63. Line 62 relates to *tier two capital* as a whole and equals the excess (if any) of line 61 over line 39. Line 63 relates to *lower tier two capital* and equals the excess (if any) of line 59 over the sum of line 62 and 1/2 line 39.
- 48 The entries at line 71 must be nil.
- 49 Line 73 must show the deductions for inadmissible assets required by *INSPRU 6.1.59R*.
- 50 Line 74 must show the assets in excess of *market risk* and *counterparty* limits in *INSPRU 6.1.70R*.
- 51 Line 75 must show negative adjustments for *related undertakings* that are *ancillary services undertakings* required by *INSPRU 6.1.62R*.
- 52 The entries at line 76 must be nil.
- 53 The entries in line 77 must show the total amount calculated in respect of ineligible surplus in accordance with *INSPRU 6.1.65R*.
- 54 The entry at line 81 is determined as the amount of the *firm's capital resources* available to meet its *guarantee fund* requirement, having regard to *INSPRU 6.1.45R(2)*. Unless some innovative tier one capital does not meet the conditions for it to be treated as *upper tier two capital* (when an adjustment may be needed), line 81 must be either:
- line 79; or
 - (if less) the sum of lines 39 and 69 less the sum of lines 24 and 41 less the greatest of:
 - zero;
 - the sum of lines 27, 28, 37, 43, 45, 46, 47, 59 and 72 less the sum of lines 19, 25, 26, 42, 62, 63, 71 and 79.
 - line 59 plus one-third of the sum of lines 24, 41 and 72 less the sum of lines 62 and 63 less one-third of the sum of lines 49, 71 and 79.
- 55 The entry at line 82 is determined as the amount of the *firm's capital resources* available to meet 50% of its *minimum capital requirement*, having regard to *INSPRU 6.1.45R(1)(a)*. Line 82 must be either:
- line 79; or

- (if less) sum of lines 19, 24, 25, 26 and 42 less line 37.

56 The entry at line 83 is determined as the amount of the *firm's capital resources* available to meet 75% of its *minimum capital requirement*, having regard to INSPRU 6.1.45R(1)(b). Line 83 must be either:

- line 79; or
- (if less) the sum of lines 19, 24, 25, 26, 41, 42, 45, 46 and 47 less line 37 and any excess of line 62 over line 59.

57 Amounts relating to financial engineering shown in lines 91-96 must not include amounts in *related undertakings*.

Instructions 58 onwards apply to all firms

58 Any arrangement relating to *long-term insurance business* which is not entered in lines 91 to 95, but which falls within the definition of financing arrangement in paragraph 9(3) of Appendix 9.4 (Abstract of valuation report) must be disclosed in a supplementary note (code 0305) to this Form.

59 The entry at line 91 (implicit items) must equal the sum of the entries at lines 22 and 41. Lines 92 to 95 do not apply to *general insurance business* and line 91 is only likely to apply to *long-term insurance business*.

60 The entry at line 92 must equal the gross amount of any contingent liability to repay a *debt* to or recapture a liability from a *reinsurer* not already recognised in Form 14. The *firm* must provide in a supplementary note (code 0306) to this Form the following information on each material *reinsurance* arrangement:

- the amount of any *reinsurance* offset (i.e. the amount of the difference between the *mathematical reserves* at the end of the *financial year in question* were that *reinsurance* to be ignored and the amount of the *mathematical reserves* after deducting the *mathematical reserves* reinsured);
- the amount of the contingent liability for payment to the *reinsurer*; and
- the commutation value at the end of the *financial year in question* of the *reinsurance* arrangement.

61 The entry at line 93 must equal the amount of any contingent asset receivable from a *cedant* not already recognised in Form 13 or 14. The *firm* must provide in a supplementary note (code 0307) to this Form the following information on each material outgoing *reinsurance* arrangement:

- the amount of any *reinsurance* liability (i.e. the amount of the difference between the *mathematical reserves* at the end of the *financial year in question* including the *mathematical reserves* reinsured 'in', and the amount of the *mathematical reserves* were that *reinsurance* to be ignored);
- the amount of the contingent asset for payments from *cedants*; and
- the commutation value at the end of the *financial year in question* of the

reinsurance arrangement.

- 62 The amount to be shown for contingent loans at line 94 must be the amount, including any interest accrued, still to be repaid from future profits under the arrangements, as at the end of the *financial year in question*, not already recognised in Form 14.
- 63 Line 95 must include the potential charge against future profits in respect of any other types of financial engineering not included in lines 91 to 94 where the gross amount of any contingent liability is not already recognised in Form 14.
- 64 The *firm* must provide an explanation of the nature of the adjustments in line 94 and 95 in a supplementary note (code 0308) to this Form, together with the amount of the adjustment for each material arrangement. As part of this note, the commutation value of each of the items included at lines 94 and 95, to the extent that value is not already a component of line 79, must be disclosed.
- 65 Details of any promises to *long-term insurance business policyholders* conditional upon future profits (other than bonuses not yet declared), or other charges to future profits not already disclosed, must be provided in a supplementary note (code 0309) to this Form.
- 66 A reconciliation of net *admissible assets* to *total capital resources* after deductions (line 79) must be provided as a supplementary note (code 0301). The reconciliation must contain the following items:
- (i) Net *admissible assets* [Form 13 line 89 (other than long-term business) plus Form 13 line 89 (long-term) less the sum of lines 11, 12 and 49 in Form 14 less Form 15 line 69]
 - (ii) Any components of *capital resources* that are treated as a liability in Form 14 or 15 (each to be specified and identified to the entries on Forms 3 and 14/15). (In particular this would include any subordinated loan capital.) [These items would be added to net *admissible assets* in the reconciliation]
 - (iii) Any components of *capital resources*, not included in (ii), that arise as a result of a *waiver* and are not represented by *admissible assets* included in Form 13 (each to be specified and identified to the entries on Form 3). (In particular this would include any *implicit items* included as a result of a *waiver* within *capital resources*.) [These items would be added to net *admissible assets* in the reconciliation]
 - (iv) Any other items, each such item to be separately specified. An explanation of each such item is to be provided together with, if applicable, the reference to where the item is included elsewhere in the *return* or in the *firm's* stand-alone accounts prepared under the Companies Acts 1985 or 2006, as appropriate, or (for *firms* not preparing accounts under the Companies Act legislation) equivalent overseas legislation or the applicable *United Kingdom* legislation). [These items would be added to or deducted from net *admissible assets* in the reconciliation as appropriate.]

The net *admissible assets* in item (i) plus or minus the additions and deductions in items (ii) to (iv), should equal line 79 (Total capital resources after deductions).

- 67 **Where a direction under section 148 of the *Act* has been issued to an *insurer* permitting it to take into account *implicit items* on *long-term insurance business*, that direction may specify that a note is to be included in the *return* explaining such items. That note must be included as a note to *Form 3* (Code 0312).**
- 68 **A reconciliation of profit and loss account and other reserves (line 12) as at the end of this financial year and the end of the previous financial year (columns 3 and 4) to the profit and loss retained (*Form 16* line 59) must be provided as a supplementary note (code 0313).**

Instructions for completion of Form 10

PRA

- 1** **An external insurer (other than a non-EEA insurer whose insurance business in the United Kingdom is restricted to reinsurance or an insurer whose head office is in any EEA State except the United Kingdom whose insurance business in the EEA is restricted to reinsurance), an EEA-deposit insurer or a Swiss general insurer must complete Form 10 in respect of business carried on through a branch in the United Kingdom. An UK-deposit insurer must complete Form 10 in respect of business carried on through its branches in EEA States taken together.**
- 2** **[deleted]**
- 3** **[deleted]**
- 4** **Line 64 must be Form 15.61.2 less 15.61.1.**
- 5** **Line 65 should include transfers from or to head office (note 1002).**

Calculation of general insurance capital requirement– premiums amount and brought forward amount

Form 11

Name of insurer
 Global business / UK branch business / EEA branch business
 Financial year ended
 General/long-term insurance business

R11	Company registration number	GL/UK/CM	day	month	year	units	£000

Gross premiums written
 Premium taxes and levies (included in line 11)
 Premiums written net of taxes and levies (11-12)
 Premiums for classes 11, 12 or 13 (included in line 13)
 Premiums for "actuarial health insurance" (included in line 13)
Sub-total A (13 + 1/2 14 - 2/3 15)
 Gross premiums earned
 Premium taxes and levies (included in line 21)
 Premiums earned net of taxes and levies (21-22)
 Premiums for classes 11, 12 or 13 (included in line 23)
 Premiums for "actuarial health insurance" (included in line 23)
Sub-total H (23 + 1/2 24 - 2/3 25)
Sub-total I (higher of sub-total A and sub-total H)
Adjusted sub-total I if financial year is not a 12 month period to produce an annual figure
 Division of gross adjusted premiums amount: x 0.18
 sub-total I (or adjusted sub-total I if appropriate) Excess (if any) over 57.5M EURO x 0.02
Sub-total J (32-33)
 Claims paid in period of 3 financial years
 Claims outstanding carried forward at the end of the 3 year period For insurance business accounted for on an underwriting year basis
 Claims outstanding brought forward at the beginning of the 3 year period For insurance business accounted for on an underwriting year basis
 For insurance business accounted for on an accident year basis
Sub-total C (41+42+43-44-45)
 Amounts recoverable from reinsurers in respect of claims included in Sub-total C
Sub-total D (46-47)
Reinsurance ratio
 (Sub-total D / sub-total C or, if more, 0.50 or, if less, 1.00)
Premiums amount (Sub-total J x reinsurance ratio)
 Provision for claims outstanding (before discounting and net of reinsurance)
 Provision for claims outstanding (before discounting and gross of reinsurance) if both 51.1 and 51.2 are zero, otherwise zero.
 Brought forward amount (See instruction 4)

Instructions for completion of Forms 11 and 12

PRA

Long-term insurance business

- 1 For a *composite firm*, Forms 11 and 12 must be completed separately for the total *general insurance business* and for the total *long-term insurance business* which is *class IV* or supplementary accident and sickness insurance business or *life protection reinsurance business* written by a *pure reinsurer* or a *mixed insurer*. For other *firms*, the forms must be completed for the total *general insurance business* or for the total *long-term insurance business* which is *class IV*, or supplementary accident and sickness insurance business or *life protection reinsurance business* written by a *pure reinsurer* or a *mixed insurer*, as appropriate.
- 2 Notwithstanding instruction 1, if the gross annual office premiums for *class IV* business, *life protection reinsurance business* written by a *pure reinsurer* or a *mixed insurer* and supplementary accident and sickness insurance in force on the 'valuation date' do not exceed 1% of the gross annual office premiums in force on that date for all *long-term insurance business*, Forms 11 and 12 need not be completed for *long-term insurance business* as long as it can be stated that the entry in line 21 of Form 60 exceeds the amount that would be obtained if Forms 11 and 12 were to be completed for *long-term insurance business*. In this circumstance, the method of estimating the entry in line 21 of Form 60, together with a statement of the gross annual office premiums in force at the 'valuation date' in respect of *Class IV* business, *life protection reinsurance business* written by a *pure reinsurer* or a *mixed insurer* and supplementary accident and sickness insurance, must be given in a supplementary note (code 6001).
- 3 When completing Forms 11 and 12 for *long-term insurance business* the accounting conventions for *general insurance business* should be followed, but reasonable approximations may be used if they are unlikely to result in an underestimate of the *insurance health risk and life protection reinsurance capital component*.

Marine mutuals

- 4 In the case of a *marine mutual* completing an abbreviated *return* under rule 9.36A, units must be the same as those used in Form M1. If units are in US\$ or US\$000, then references to the sterling equivalent of Euro in line 33 of Form 11 and lines 33 of Form 12 must be taken to be references to the US\$ equivalent of the specified amount of Euro and the Forms must be amended to reflect the use of US\$. The bases of conversion adopted must be stated by way of a supplementary note to Form 11 (code 1101).

Pure reinsurers

- 5 Lines 14 and 24 of Form 11 and line 27 of Form 12 must be left blank for a *pure reinsurer* which became a *firm in run-off* before 31 December 2006 and whose *Part 4A permission* has not subsequently been varied to add back the *regulated activity of effecting contracts of insurance*.

Prior year figures

- 6 **INSPRU 1.1.71R** requires recalculation of the *gross adjusted premiums amount* and the *gross adjusted claims amount* (but not during *financial years* beginning before 31 December 2004, because of the transitional provisions) if there has been a significant change to the business portfolio. This may alter the *claims amount* or the *premiums amount* used in calculating the *general insurance capital requirement* for the *financial year* in question. For this reason, entries in column 2 (but not the *brought forward amount*: this should (errors excepted) equal the *brought forward amount* calculated in the previous year's return) may differ from the corresponding entries from the previous year. Any restatement of the figures should be explained by way of a supplementary note to Form 11 (code 1102) and Form 12 (code 1202).

Prior year figures

- 7 If the *financial year* ends after 30 December 2006, the amounts to be shown in column 2 must be the amounts shown in column 1 for the previous *financial year*, unless Forms 11 and 12 were not completed for the previous *financial year*. In that event column 2 must be left blank, apart from the amounts in 11.51.2, 11.52.2 and 12.43.2. The amounts in 11.51.2 and 12.43.2 must be calculated in accordance with the rules in force at the date to which they relate, so for a previous *financial year* ending prior to 31 December 2006 they must exclude *life protection re insurance business*.
- 8 Where the *financial year* began between 1 January 2004 and 31 December 2004 (inclusive), the previous *financial year's* figures would normally be those sent under rule 9.6(1B) and may be unaudited.
- 9 If the *financial year* began before 1 January 2005:
- the treatment of "actuarial health insurance" in the calculation will have changed and prior year figures in lines 32 and 33 of Form 11 and lines 32 and 33 of Form 12 may be inappropriate because the form does not represent the calculation at the time. If so, these figures should be left blank and an explanation should be provided by way of a supplementary note to Form 11 (code 1103) and Form 12 (code 1203).
 - the *firm* would not have had a reference period in relation to the *previous financial year* if it had been in existence for less than 3 or 7 *financial years* (as appropriate). If it had no reference period, then lines 11 to 41, column 2, of Form 12 should be left blank.

Premiums and claims

- 10 **Premiums** and **claims** are defined by references to *contracts of insurance* and these themselves are defined by the *Regulated Activities Order* so that *premiums* or *claims* may be included for contracts that would not be treated as insurance under normal accounting conventions. All direct and indirect costs related to the *claims* must be included. For *life protection reinsurance business* and *permanent health reinsurance business* the discount to the *premium*, during any initial period, to allow for acquisition expenses of the cedant must be ignored, i.e. an adjustment must be made to *premiums* written and *premiums* earned as if the *premium* is the amount excluding the discount and the discount had been accounted for as an

expense.

Euro

- 11** The Euro amounts in the calculation of line 33 of Form 11 and line 33 of Form 12 will change from time to time as the result of indexation in accordance with *INSPRU 1.1.49R*. The conversion rate to be used is described in *INSPRU 1.1.50R*. Changes in the Euro amounts or conversion rates will not affect prior year figures.

Actuarial health insurance

- 12** "Actuarial health insurance" refers to health insurance business that meets the conditions of *INSPRU 1.1.72R* or for *class IV insurance business* those conditions as modified by *INSPRU 1.1.86R*.

Instructions for completion of Form 11

- 1** Line 30 represents the *gross adjusted premiums amount* calculated in accordance with *INSPRU 1.1.56R*, if the *financial year* has 12 months. Otherwise line 31 represents the *gross adjusted premiums amount*.
- 2** In accordance with *INSPRU 1.1.54R*, the reinsurance ratio calculated at line 49 must be:
- 1.00 if sub-total C is zero
 - 1.00 if sub-total D / sub-total C exceeds 1.00;
 - 0.50 if sub-total D / sub-total C is less than 0.50; and
 - sub-total D / sub-total C, otherwise.

The ratio at line 49 must be shown to two decimal places, but the unrounded ratio must be used for calculating *Form 11* line 50 and *Form 12* line 41.

- 3** The provisions in line 51 must be net of *reinsurance* and must not be discounted or reduced to take account of investment income, except for:
- risks in *classes 1* or *2*;
 - reductions to reflect the discounting of annuities; and
 - a *pure reinsurer* that does not have *permission* under the *Act* to effect *contracts of insurance*.

For these exceptions, the discount must be calculated in accordance with *GENPRU 1.3.4R* and, if any amounts in line 51 are discounted, a supplementary note to the *Form 11* (code 1104) must describe the items that are discounted.

- 4** *Form 11* line 53 column 1 is determined as follows:
- If *Form 11* line 51 columns 1 and 2 and line 52 column 2 are all zero then *Form 11* line 53 column 1 equals *Form 12* line 43 column 2.
 - If *Form 11* line 51 columns 1 and 2 are both zero but line 52 column 2 is non-

zero then *Form 11* line 53 column 1 equals the lesser of *Form 12* line 43 column 2 and (*Form 12* line 43 column 2 multiplied by the ratio of *Form 11* line 52 column 1 to line 52 column 2).

- If *Form 11* line 51 column 2 is zero but line 51 column 1 is non-zero then *Form 11* line 53 column 1 equals *Form 12* line 43 column 2.
- If *Form 11* line 51 column 2 is non-zero then *Form 11* line 53 column 1 equals the lesser of *Form 12* line 43 column 2 and (*Form 12* line 43 column 2 multiplied by the ratio of *Form 11* line 51 column 1 to line 51 column 2)

Instructions for completion of Form 12

- 1** The reference period in line 11 is specified in ***INSPRU 1.1.63R***.
- 2** Statistical methods may be used to allocate the ***claims***, provisions and recoveries in respect of ***classes 11, 12 and 13*** in line 27.
- 3** Line 31 represents the ***gross adjusted claims amount*** calculated in accordance with ***INSPRU 1.1.60R***.

Line 43 represents the ***general insurance capital requirement*** that relates to the following ***financial year***: that is the year commencing on the day after the year end to which the ***returns*** relate.

Instructions for completion of Form 13

PRA

- 1 Form 13 must be completed for the total *long-term insurance business assets* of the *insurer or branch* and for each fund or group of funds for which separate assets are appropriated. The words "*total long-term insurance business assets*" or the name of the fund must be shown against the heading "Category of assets". The corresponding code box must contain "10" for the total assets and, in the case of separate funds, code numbers allocated sequentially beginning with code "11".
- 2 Form 13 must be completed in respect of the total assets of the *insurer or branch* other than any *long-term insurance business assets*. The words "total other than *long-term insurance business assets*" must be shown against the heading "Category of assets", and the corresponding code box must contain "1".
- 3 (a) In the case of the *United Kingdom branch return of an external insurer (other than a non-EEA insurer whose insurance business in the United Kingdom is restricted to reinsurance or an insurer whose head office is in any EEA State except the United Kingdom whose insurance business in the EEA is restricted to reinsurance)* Form 13 must be completed for the following categories of assets –

Category	Code – other than <i>long-term insurance business assets</i>	Code – <i>long-term insurance business assets</i>
In the case of a <i>non-EEA insurer</i> , assets deposited under <i>INSPRU 1.5.54R</i>	2	6
Assets maintained in the <i>United Kingdom</i>	3	7
Assets maintained in the <i>United Kingdom</i> and the other <i>EEA States</i>	4	8

- (b) In the case of an *EEA branch return of a UK-deposit insurer which has made a deposit under INSPRU 1.5.54R*, Form 13 must be completed for the following categories of assets –

Category	Code – other than <i>long-term insurance business assets</i>	Code – <i>long-term insurance business assets</i>
Assets deposited under <i>INSPRU 1.5.54R</i>	2	6
Assets maintained in the <i>United Kingdom</i> and the other <i>EEA States</i>	4	8
Assets maintained in the <i>United Kingdom</i> and the <i>EEA</i>	5	9

States where *insurance business* is carried on

4 In lines 11 to 86 –

- (a) for the purpose of classifying (but not valuing) assets, headings and descriptions used above, wherever they also occur in the balance sheet format in Schedule 9A to the Companies Act 1985, where applicable, otherwise Schedule 3 to the Large and Medium Sized Companies and Groups (Accounts and Reports) Regulations 2008 (SI 2008/410), must have the same meaning as in those Schedules,
- (b) *dependants* of the *firm* must be valued in accordance with *GENPRU 1.3.47R*,
- (c) a *related undertaking* that is not a *dependant* of the *firm* must be valued in accordance with *GENPRU 1.3.47R* unless:
 - It is an *ancillary services undertaking* which must be valued at zero;
 - It is a *related undertaking* that is not a *regulated related undertaking* which must be valued in accordance with *GENPRU 1.3.41R*; or
 - [deleted]
- (d) other assets must be valued in accordance with rule 9.10,
- (e) assets of any particular description must be shown after deduction of assets of that description which (for any reason) fall to be left out of account under *INSPRU 2.1.22R(3)(a), (b), (c), (g) and (h)*. Negative amounts should not be shown at lines 11 to 86. If a deduction is more than the value of the assets to which it relates, the excess element of the deduction should be shown at line 87; and
- (f) deductions in respect of *market risk* and *counterparty risk* are to be shown in line 87, to the extent that (e) does not require them to be recognised in other lines.

5 The aggregate value of those investments which are:

- (a) *unlisted* investments falling within any of lines 41, 42, 46 or 48 which have been valued in accordance with the *rules* in *GENPRU 1.3*;
- (b) *listed* investments falling within any of lines 41, 42, 46 or 48 which have been valued in accordance with the *rules* in *GENPRU 1.3* and which are not *readily realisable*;
- (c) units or other beneficial interests in *collective investment schemes* that:
 - (i) are not schemes falling within the *UCITS Directive*;
 - (ii) are not authorised unit trust schemes or recognised schemes within the meaning of Part XVII of the *Act*;
 - (iii) do not employ *derivative contracts* unless they meet the criteria in

INSPRU 3.2.5R;

- (iv) do not employ contracts or assets having the effect of *derivative contracts* unless they have the effect of *derivative contracts* that meet the criteria in *INSPRU 3.2.5R*; and
- (v) do not include assets other than *admissible assets* among their property; or
- (d) reversionary interests or remainders in property other than land or buildings,

must be stated by way of a supplementary note (code 1301 for other than *long-term insurance business* and code 1308 for *long-term insurance business*) to this Form, together with a description of such investments.

- 6 The aggregate value of those investments falling within lines 46 or 48 which are *hybrid securities* are to be stated by way of a supplementary note (code 1302 for other than *long-term insurance business* and code 1309 for *long-term insurance business*) to this Form.
- 7 Amounts in respect of salvage or subrogation included above other than at line 73 are to be stated by way of a supplementary note (code 1303) to this Form.
- 8 The entry at line 85 must be gross of any related reinsurance commission.
- 9 The amount to be shown in line 93 must equal the total of the relevant proportions in accordance with *GENPRU 1.3.49R* and *GENPRU 1.3.50R* of the *individual capital resources requirements* of the *regulated related undertakings*.
- 10 The amount to be shown in line 94 must equal the ineligible surplus capital and any restricted assets of any *regulated related undertaking* that is an *insurance undertaking* that are deducted in accordance with *GENPRU 1.3.47R (3)(b)*.
- 11 Lines 60 to 63 and 85 relate only to *general insurance business*. The amount in lines 60-62 recoverable from *Insurance Special Purpose Vehicles* must be disclosed in a supplementary note (code 1320).
- 12 Lines 60 to 63 and 85 must be left blank for "Category of assets" code "2".
- 13 Since the *technical provisions* for *claims* outstanding shown in *Form 15* may only be discounted or reduced to take account of investment income in limited circumstances, the amount shown at line 12 of *Form 15* may need to be increased (see instruction 4 to *Form 15*). In such cases, the reinsurers' share shown at line 61 must be adjusted to be consistent with the amount shown in line 12.
- 14 The amount of any tangible leased asset included at line 80 must be disclosed by way of a supplementary note (code 1314 for other than *long-term insurance business* and code 1316 for *long-term insurance business*) to this Form.
- 15 Particulars of any other assets included at line 83 must be stated by way of a supplementary note (code 1315 for other than *long-term insurance business* and code 1317 for *long-term insurance business*) to this Form.

- 16** Lines 99-102 must be completed in accordance with the *insurance account rules* or *international accounting standards* as applicable to the *firm* for the purpose of its external financial reporting if the *firm* is required to produce such accounts. Otherwise these lines must be left blank. Line 100 includes the discounting adjustment for the *reinsurers'* share of claims outstanding – see instruction 4 of *Form 15*. Details of amounts in line 101 must be disclosed in a supplementary note (code 1318). For years ending on or before 30 December 2008, the previous year figure for line 93 must be left blank and that for line 101 must equal line 100 from the previous *return*.

Amounts included in line 59 attributable to liabilities in respect of property linked benefits	62		
Total liabilities (11+12+49)	71		
Increase to liabilities – DAC related	72		
Reinsurers' share of technical provisions	73		
Other adjustments to liabilities (may be negative)	74		
Capital and reserves and fund for future appropriations	75		
Total liabilities under insurance accounts rules or international accounting standards as applicable to the firm for the purpose of its external financial reporting (71 to 75)	76		

Instructions for completion of Form 14

PRA

- 1** The Form must be completed for the total *long-term insurance business liabilities* and margins of the *insurer* or *branch* and for each fund or group of funds for which separate assets are appropriated and each *with-profits fund*.
- 2** The entry at line 11 must equal the sum of lines 21, 43, 44 and 45 of the appropriate Form or Forms 58.
- 3** The entry at line 12 must equal line 42 of the appropriate Form or Forms 58.
- 4** The entry at line 13 must equal line 49 of the appropriate Form or Forms 58.
- 5** The entry at line 14 must equal line 59 of the appropriate Form or Forms 40.
- 6** Where the provision required by *INSPRU 3.2.17R(3)* is implicit (i.e. the obligation to pay the monetary amount is recognised under the *rules* in *GENPRU 1.3*), *insurers* must state the amount of the provision, in a supplementary note (code 1404).
- 7** The entry at line 51 must be:
 - (a)** the value of the *admissible assets* (as included in line 89 of the appropriate Form 13) representing the *long-term insurance funds*, fund or group of funds to which the Form relates, less
 - (b)** the amount of those funds, fund or group of funds, being the sum of the amounts shown at lines 14 and 49.
- 8** Lines 72-76 must be completed in accordance with the *insurance accounts rules* or *international accounting standards* as applicable to the *insurer* for the purpose of its external financial reporting if the *insurer* is required to produce such accounts. Otherwise, and for *Forms 14* at subfund level, these lines must be left blank. The amount of DAC in line 72 must be adjusted for any associated deferred tax. Details of amounts in line 74 must be disclosed in a supplementary note (code 1405). The previous year figures must be left blank for financial years ending on or before 30 December 2006.
- 9** The amount of each provision, included in line 22, in respect of a deficit in a *regulated related undertaking* and the identity of the *undertaking* must be disclosed in a supplementary note (code 1403) to this Form.

Capital and reserves	84		
Total liabilities under insurance accounts rules or international accounting standards as applicable to the firm for the purpose of its external financial reporting (69-82+83+84)	85		

Instructions for completion of Form 15

PRA

- 1 Amounts in lines 11 to 13 and 16 must be stated gross of *reinsurers' share*.
- 2 The aggregate amount of any accrued dividend in respect of cumulative *preference shares* issued by the *insurer* must be shown by way of a supplementary note (code 1503) to this Form.
- 3 Only equalisation provisions that are created as a result of a regulatory requirement are to be included at lines 14 and 15
- 4 The amount shown in line 12 may only be discounted or reduced to take account of investment income:
 - (a) for *Class 1 or 2 business*; or
 - (b) in respect of annuities; or
 - (c) if the *insurer* is a *pure reinsurer* which became a *firm in run-off* before 31 December 2006 and whose *Part 4A permission* has not subsequently been varied to add back the *regulated activity of effecting contracts of insurance*.

So, if the *technical provisions for claims* outstanding for other business are discounted or reduced to take account of investment income, then they must be increased by the difference between the undiscounted and the discounted provisions. If the *technical provisions* are increased the amount of the increase must be shown in line 82 and the corresponding increase in the *reinsurers' share* must be included as a negative item in line 99 of *Form 13*.

- 5 The amount of each provision, included in line 22, in respect of a deficit in a *regulated related undertaking* and the identity of the *undertaking* must be disclosed in a supplementary note (code 1504).
- 6 Where the provision required by *INSPRU 3.2.17R(3)* is implicit (i.e. the obligation to pay the monetary amount is recognised under the *rules in GENPRU 1.3*), the amount of the provision must be stated in a supplementary note (code 1506).
- 7 The amount shown in line 51 must include reinsurance commissions related to *deferred acquisition costs* corresponding to the allowance included in *Form 13* line 85.
- 8 Lines 82-85 must be completed in accordance with the *insurance accounts rules* or *international accounting standards* as applicable to the *insurer* for the purpose of its external financial reporting if the *insurer* is required to produce such accounts. Otherwise these lines must be left blank. Details of amounts in line 83 must be disclosed in a supplementary note (code 1507).
- 9 The amount at line 48 column 1 is dividends which are foreseeable in accordance with *GENPRU 2.2.87AG*. Where the previous financial year ends before 31 December 2007 the amount shown in column 2 must be the amount shown in the previous annual return (where a different definition for this item may have been

used).

Profit and loss account (non-technical account)

Profit or loss retained for the financial year (49-51)		59					

Instructions for completion of Form 16

PRA

- 1** In addition to the supplementary note (code 1601) required under *Appendix 9.1* paragraph 5(2), where any brought forward amounts on any Form are restated due to currency reversion it would be appropriate to briefly state this fact in a supplementary note (code 1602) to this Form in order to facilitate the *PRA's* computerised validation of the *return*. This fact may be stated by a simple statement, e.g. 'Some of the brought forward amounts shown in the forms xx to xx have been restated from the corresponding carried forward amounts included in the previous year's *return* due to the reversion of foreign currency amounts at a different rate of exchange'. No further details need be given.
- 1a** Unrealised gains and losses on investments (other than for investments in the long term fund) must be included in their entirety at lines 15 and 18, even if a different accounting treatment is adopted in the Companies Act accounts. Unrealised gains and losses must be measured by reference to the value included for the investment at line 102 on Form 13, i.e. the Companies Act accounts value.
- 2** Particulars of any amounts included at lines 21 must be stated by way of a supplementary note (code 1603) to this Form.
- 3** Particulars of any amounts included at lines 41 must be stated by way of a supplementary note (code 1604) to this Form.
- 4** The amount at line 51 column 1 includes dividends which are foreseeable in accordance with *GENPRU 2.2.87AG*. Where the previous financial year ends before 31 December 2007 the amount shown in column 2 must be the amount shown in the previous annual return (where a different definition for this item may have been used).

Total (11 to 46)		51						
Adjustment for variation margin		52						
Total (51 + 52)		53						

Instructions for completion of Form 17

PRA

- 1 Where the year end total notional amount (line 51.3 + line 51.4) exceeds the lesser of £100m and 5% of assets not held to match linked liabilities (Form 13 line 89.1 – Form 13 line 58.1 – Form 13 line 59.1) for the total *long-term insurance business* assets or the total assets other than *long-term insurance business* assets, Form 17 must be completed in respect of that total category of assets of the *insurer* or branch. Form 17 must also be completed for each fund or group of funds referred to in instruction 1 to Form 13 if Form 17 must be completed in respect of the total *long-term insurance business* assets.
- 2 The codes specified in instructions 1 to 3 to Form 13 must be used as appropriate.
- 3 *Derivative contracts* must be analysed according to the description of assets shown in the second column of Form 17 which represents the principal subject of the contract. Credit derivatives include credit default swaps and total return swaps. An option is in the money (and conversely out of the money) if it could be exercised based on market conditions as at the end of the financial year.
- 4 *Derivative contracts* must be reported as assets in column 1 of Form 17 if their value to the *insurer* (gross of *variation margin*) is positive and as liabilities in column 2 of Form 17 if their value (gross of *variation margin*) to the *insurer* is negative.
- 5 All amounts included at lines 11 to 51 columns 1 and 2 of Form 17 in respect of *derivative contracts* must be determined without making any allowance for *variation margin*.
- 6 Amounts in respect of a derivative contract may only be included net of amounts in respect of any other derivative contract if -
 - (a) obligations of the *insurer* under the contracts may be set off against each other under generally accepted accounting practice; and
 - (b) such other contract has the effect (in whole or in part) of closing out the obligations of the *insurer* under the first mentioned contract.
- 7 The effect of any *variation margin* upon amounts included at lines 11 to 51 of Form 17 and columns 1 and 2 must be shown at line 52 columns 1 and 2.
- 8 The entry at 17.53.1 must be included at 13.44.1.
- 9 The entry at 17.53.2 must be included at 14.38.1 or 15.49.1. as appropriate.
- 10 Rights to recover assets transferred by way of *initial margin* must not be shown on Form 17.
- 11 In columns 3 and 4, the notional amount is:

- (a) For interest rate and inflation *swaps*, the cash amount on which the *swap* is based.
- (b) For *credit default swaps*, the nominal value of the bonds on which the *swap* is based.
- (c) For mortality *swaps*, the market value of the fixed future payments.
- (d) For *swaptions*, the nominal amount on which conversion to a fixed interest rate will be applied.
- (e) For *options* other than *swaptions*, the market value of the assets subject to the *option*.
- (f) For *futures*, the market value of the asset that is contracted to be bought / sold.
- (g) For other *contracts for differences*, the nominal value of the property, index or other value referenced by the contract.

12 For the purposes of columns 3 and 4, a contract is bought / long (and conversely sold / short) if it is:

- (a) For currency *futures* and *contracts for differences*, a contract where the *insurer* pays sterling. Currency contracts not involving sterling must be replicated as a contract into sterling and a contract out of sterling. For example, a *future* to buy a currency other than sterling at a price expressed in another non-sterling currency must be replicated by a long *future* to buy the first currency with sterling and a short *future* to sell the second currency for sterling.
- (b) For interest rate and inflation *swaps*, a contract where the *insurer* receives a fixed rate in exchange for paying a variable (short term deposit) rate. A *swap* between a short term deposit rate and inflation must be replicated as a deposit / fixed and a fixed / inflation *swap*.
- (c) For *credit default swaps*, a contract where the *insurer* receives a fixed payment in exchange for taking on credit risk.
- (d) For mortality *swaps*, a contract where the *insurer* receives a fixed payment in exchange for taking on mortality risk.
- (e) For *options*, a contract where the *insurer* has the option to buy the underlying or has provided the option to a counterparty to sell the underlying.

Additional amount potentially available for inclusion in line 63	82		

Instructions for completion of Form 19

PRA

- 1 The entry at line 11 must equal the value at Form 18, Line 19.
- 2 The entry at line 12 must equal the value at Form 18, Line 12.
- 3 The entry at line 13 must be the amount determined in accordance with *GENPRU* 1.3 and excluded from the amount calculated in accordance with *INSPRU* 1.3.33R(1)(a).
- 4 The entry at line 21 must be the amount of the fund's excess *admissible assets*, determined in accordance with *INSPRU* 1.3.33R(1)(b).
- 5 The entry at line 22 must be the present value of future profits (or losses) on any *non-profit insurance contracts* written in the *with-profits fund*, determined in accordance with *INSPRU* 1.3.33R(1)(c).
- 6 The entry at line 23 must be the market value of any *derivative* or *quasi-derivative* determined in accordance with *INSPRU* 1.3.33R(1)(d).
- 7 The entry at line 24 must be the amount determined in accordance with *INSPRU* 1.3.33R(1)(e).
- 8 The entry at line 25 must be the amount determined in accordance with *INSPRU* 1.3.33R(1)(f).
- 9 The entry at line 26 must be the amount determined in accordance with *INSPRU* 1.3.32R(1).
- 10 The entry at line 27 must be any other amount providing capital support to the fund under a support arrangement, included with the prior agreement of the *PRA*.
- 11 The entry at line 31 must be the amount determined in accordance with *INSPRU* 1.3.40R(1).
- 12 The entries at lines 32, 33, 34, 35, 36, 41, 42, 43, 44, 45, 46 and 47 must be the amounts determined in accordance with *INSPRU* 1.3.137R(1) to (11).
- 13 The entry at line 32 is the (positive) amount determined in accordance with *INSPRU* 1.3.137R(1) if this represents a surplus.
- 14 The entry at line 33 is the (positive) amount determined in accordance with *INSPRU* 1.3.137R(1) if this represents a deficit.
- 15 The entries at lines 34, 35, 36, 41, 42, 43, 44 and 45 are the amounts determined in accordance with *INSPRU* 1.3.137R(2) to (9) respectively.
- 16 The entries at lines 46 and 47 are the values determined in accordance with

INSPRU 1.3.137R(10) and (11).

- 17** The entry at line 49 must be the amount determined in accordance with *INSPRU 1.3.40R(2)*.
- 18** The entry at line 51 must be the amount determined in accordance with *INSPRU 1.3.40R(3)*.
- 19** The entry at line 59 must be the amount determined in accordance with *INSPRU 1.3.32R(2)(a)*.
- 20** The entry at line 62 must be the amount described as **A** and determined in accordance with *INSPRU 1.3.43R(3)(a)* adjusted to exclude any amount taken into consideration under *INSPRU 1.3.45R(2)(c)*.
- 21** The entry at line 63 must be any amount taken into consideration under *INSPRU 1.3.45R(2)(c)* in determining the amount described as **A** in accordance with *INSPRU 1.3.43R(3)(a)*.
- 22** The entry at line 64 must be the amount described as **A** and determined in accordance with *INSPRU 1.3.43R(3)(a)*.
- 23** The entry at line 65 must be the amount determined in accordance with *INSPRU 1.3.32R(2)(b)*.
- 24** The entry at line 66 must be the amount determined in accordance with *INSPRU 1.3.32R*.
- 24A** The entry at line 69 must be shown as a percentage to two decimal places.
- 25** The entry at line 81 must be an amount not exceeding the sum of the value of the net shareholders assets of the *firm* and the surplus assets of the *firm's non-profit funds*, to the extent not included at any Form 19 line 27 or at any Form 19 line 62 and to the extent not required to meet regulatory capital requirements in respect of any business written outside the fund.
- 26** The entry at line 82 must be an amount not exceeding 50% of the present value of future profits arising from insurance contracts written by the firm outside its *with-profits funds* reduced by the sum of any amounts included at any Form 19 line 63.

Appendix 9.2 (rules 9.14 to 9.22)

General Insurance Business: Revenue Account and Additional Information

(Forms 20A and 20 to 39)

Introduction

1 All the Forms included in the part of the *return* to which this Appendix relates (*Forms 20A and 20 to 39*) are to be laid out as shown in this Appendix, except that the instructions to Forms need not be reproduced.

PRA

2 The provisions of paragraph 1(2) and paragraphs 2 to 7 of *Appendix 9.1*, unless otherwise provided, also apply for the purposes of this Appendix.

PRA

Cases where forms are required

2A Table: Forms required for the *PRA general insurance business reporting categories*:

PRA

PRA general insurance business reporting category	Form			
	F20, F21, F22, F23, F24, F25	F26, F27 F28 F29	F31 F34	F32 F34
<i>Combined categories</i>	✓			
<i>Category numbers 160 and 350</i>	✓		✓	
<i>Risk categories with category numbers 121, 122, 123, 221, 222, 223 (i.e. direct and facultative motor)</i>				✓
<i>Risk categories with category numbers below 400 other than category numbers 121, 122, 123, 221, 222, 223, 160 and 350 (i.e. all direct and facultative that is not motor, household or goods in transit and has not been allocated to a miscellaneous category)</i>			✓	
<i>Risk categories with category numbers 510 to 590 and 610 to 690 (i.e. treaty reinsurance)</i>		✓		
<i>Miscellaneous primary (direct) and facultative business (category number 400)</i>	✓		✓	
<i>Miscellaneous treaty reinsurance accepted business (category number 700)</i>	✓	✓		
<i>Balancing categories (category numbers 409, 709)</i>	✓			

2B (1) In the Table in (2) a Form, specified in the first column, is required for a category of business, specified in the second column, if the criteria, specified in the third column, are met for that category of business.

PRA

(2) **Table: Criteria (if any) for whether a Form is required for a category of general insurance business. Paragraph 2C belongs to this Table.**

Form	Category of business	Reporting criteria (if any)
F20 to F25 Technical provisions and profit & loss account	Category number 001	Forms always required
	Category numbers 002,003	Either - (a) the <i>insurer's</i> 'gross undiscounted provisions' in the category of business at the end of the <i>financial year</i> exceed zero; or (b) the <i>insurer's gross written premiums</i> in the category of business in the <i>financial year</i> exceed zero.
	Category numbers 110, 120, 160, 180, 220, 260, 270, 280, 330, 340, 350, 400, 500, 600, 700	Either - (a) the <i>insurer's</i> 'gross undiscounted provisions' in the category of business at the end of the <i>financial year</i> exceed: (i) £100m; or (ii) the higher of 5% of the <i>insurer's</i> total 'gross undiscounted provisions' and £1 million or (b) the <i>insurer's gross written premiums</i> in the category of business in the <i>financial year</i> exceed: (i) £100m; or (ii) the higher of 5% of the <i>insurer's</i> total <i>gross written premiums</i> and £1 million.
	Category number 409	Some business in <i>category number</i> 002 is not reported on Forms 20 to 25 for <i>category numbers</i> 110 to 400.
	Category number 709	Some business in <i>category number</i> 003 is not reported on Forms 20 to 25 for <i>category numbers</i> 500, 600 and 700.
F26 to F29 Results by year of origin for treaties accepted	Category numbers 510 to 590 and 610 to 690 denominated in any one currency. Category number 700	Either - (a) the <i>insurer's</i> 'gross undiscounted provisions' in the category of business at the end of the <i>financial year</i> exceed: (i) £100m; or (ii) the higher of 5% of the <i>insurer's</i> total 'gross undiscounted provisions' and £1 million or (b) the <i>insurer's gross written premiums</i> in the category of business in the <i>financial year</i> exceed: (i) £100m; or

		(ii) the higher of 5% of the <i>insurer's</i> total <i>gross written premiums</i> and £1 million.
F31, F32, F34 Gross results by year of origin for direct and facultative business	<p><i>Category numbers</i> 331 to 333 and 341 to 350 denominated in any one currency.</p> <p><i>Category numbers</i> 111 to 114, 121 to 160, 181 to 187, 221 to 223, 261 to 263, 271 to 274 and 281 to 284 denominated in any one currency carried on in any 'reporting territory'</p> <p><i>Category number</i> 400</p>	<p>Either -</p> <p>(a) the <i>insurer's</i> 'gross undiscounted provisions' in the category of business at the end of the <i>financial year</i> exceed:</p> <p>(i) £100m; or</p> <p>(ii) the higher of 5% of the <i>insurer's</i> total 'gross undiscounted provisions' and £1 million</p> <p>or</p> <p>(b) the <i>insurer's gross written premiums</i> in the category of business in the <i>financial year</i> exceed:</p> <p>(i) £100m; or</p> <p>(ii) the higher of 5% of the <i>insurer's</i> total <i>gross written premiums</i> and £1 million.</p>

2C For the purpose of column 2 of the Table in Paragraphs 2B and Paragraphs 3(1) and 3(3) –

PRA

- (a) a currency in which a *contract of insurance* is denominated is –
- (i) the currency in which the contract requires settlement of claims or the successor to that currency if it has been superseded,
 - (ii) the currency in which the *insurer* records claim payments under the contract, if the contract permits settlement of claims in more than one currency or if it is the *insurer's* internal practice to convert claim payments to that currency, or
 - (iii) the currency in which the *insurer* maintains records of the development of *premiums* or *claims* under the contract in order to determine *technical provisions*;
- (b) business denominated in British pound, converted to British pound, or British pound and converted to British pound combined are to be treated as though they were denominated in different currencies from each other; and
- (c) a *reporting territory* is one of –

- (i) 'United Kingdom' if the business is carried on in the United Kingdom and is not *home foreign business*,
- (ii) 'Home Foreign' if the business is *home foreign business*, or
- (iii) 'Non-United Kingdom' if the business is carried on outside the United Kingdom.

Currency

3

PRA

- (1) Notwithstanding the provisions of 2, amounts on *Forms 26 to 29, 31, 32, and 34* submitted in accordance with rules 9.17, 9.19 or 9.20A must be shown in the currency in which the business on the Form is denominated except that figures must be shown in sterling in those columns and lines which the forms indicate are always to contain figures expressed in sterling –
 - (a) in those columns and lines which the forms indicate are always to contain figures expressed in sterling; and
 - (b) if business on the form is *category number 400 or 700*.
- (2) For every currency other than sterling in which amounts are shown on the Forms referred to in (1), an entry must be made on *Form 36* to show the rate used to convert those amounts to sterling for inclusion elsewhere in the *returns*.
- (3) Notwithstanding the provisions of 2, all amounts included in
 - (a) columns 1, 2, 3 and 11 of *Form 23*;
 - (b) columns 1, 2, 3, and 11 of any *Form 26 or 27* for *category number 700*;
 - (c) columns 3 and 10 of any *Form 31* for *category number 400*; and
 - (d) columns 1 and 8 of any *Form 34* for *category number 400*,
 must be expressed in sterling, and these amounts that are in respect of business denominated in a non-sterling currency must be expressed in sterling as if conversion of every currency had taken place at the closing middle rate on the last day for which the appropriate rate is available in the *financial year in question*.
- (4) For the purpose of (3), the currencies 'Converted to British pound' and 'British pound and converted to British pound combined' are not non-sterling currencies.
- (5) A *insurer* need not apply (3) to amounts shown in any line of any of the forms mentioned in that subparagraph representing an accident year or underwriting year ending before 23 December 1996.

4

PRA

All amounts shown in sterling must be shown to the nearer £1,000. Amounts in any other currency on *Forms 26 to 29, 31, 32 and 34* must be shown to the nearer 1,000 principal monetary units of that currency except that, where the rate of exchange of the currency in relation to £1 sterling on the last day of the *financial year in question* exceeded 1,000

principal monetary units of that currency, the amounts must be shown to the nearer 1,000,000 principal monetary units and '000,000' must be inserted in the box labelled 'Monetary units'. In other cases, this box must be completed by inserting '000'.

7

PRA

- (1) The following information must be stated by way of supplementary notes (codes 20Aa to 20Af) to *Form 20A* –
- (a) (code 20Aa) in respect of each *risk category* (other than *risk categories* with *category numbers* 274, 590 or 690) to which an *insurer* has allocated *general insurance business* under rule 9.14B –
 - (i) the name of the *risk category*,
 - (ii) a description of the *general insurance business* allocated to the relevant *risk category*,
 - (iii) the rationale for the allocation decision made,
 - (iv) the amounts included in *Form 20A* under the *risk category* in respect of *general insurance business* allocated to the *risk category* under rule 9.14B, and
 - (v) in the case of an allocation made under rule 9.14B(4), a description of the method used to make that allocation;
 - (b) (code 20Ab) the *risk categories* to which any *contracts of insurance* against risks of death of, or injury to, passengers has been allocated;
 - (c) (code 20Ac) a detailed explanation of business allocated to each of *category numbers* 187, 223, 400 and 700 ('Other personal financial loss', 'motor other', 'miscellaneous direct' and 'miscellaneous reinsurance' categories);
 - (d) (code 20Ad) in respect of each *risk category* (other than *risk categories* 510 to 590, 610 to 690 and 700) for which the amounts reported in *Form 20A* contain both *claims-made policies* and policies which are not *claims-made*:
 - (i) the name of the *risk category*,
 - (ii) the amounts reported in *Form 20A* under the *risk category* that have arisen from *claims-made policies*, and
 - (iii) the amounts reported in *Form 20A* under the *risk category* that have arisen from policies which are not *claims-made*;
 - (e) (code 20Ae) the amounts reported in *Form 20A* under *category number* 002 ("Total primary (direct) and facultative business") that is *facultative business*;
 - (f) (code 20Af) the amounts reported in *Form 20A* under each of *category numbers* 113 (Travel), 274 (Mixed commercial package)

and 343 (Energy) that has arisen from business falling within

- (i) each group of classes in *Annex 11.2 Part II*, and
- (ii) *classes 16, 17 and 18 combined (miscellaneous financial loss, legal expenses and assistance)*.

- (2) The insurer may make reasonable estimates of the amounts required under (1)(d) to (f).

Presentation of amounts

8A Where in any Form an amount which is a comparative (i.e. shown in a "previous year" column) or shown brought forward from a previous year differs from the corresponding amount shown in a "this financial year" column or as carried forward from that year, as the case may be, and the difference is not due solely to the use of a different rate to express other currencies in sterling, an explanation of the reason for the difference must be given by way of a supplementary note to that Form. For *Forms 20, 21, 22, 23, 24, 26, 27, 28, 31, 32 or 34*, the code for the supplementary note is 2011, 2101, 2201, 2301, 2401, 2601, 2701, 2801, 3101, 3201 or 3401 respectively.

PRA

8B Calculations must be performed using unrounded figures. Figures which are determined from other figures (whether or not on the same form) must be rounded after performing calculations on the unrounded component figures. Ratios must be reported to two decimal places.

PRA

Premiums

9 In *Forms 23, 26, 27, 31 and 32* –

PRA

- (a) *gross premiums earned* in respect of an accident year must be such proportion of *gross premiums written* as is attributable to risks borne by the *insurer* during that accident year; and
- (b) the *reinsurers'* share of premiums earned must be attributed to the same accident years as the corresponding *gross premiums earned*, so as to calculate the *net earned premiums* for each accident year.

10 In *Forms 24, 25, 28, 29 and 34* –

PRA

- (a) *gross premiums written* in an underwriting year must be the amount of such premiums arising in respect of *contracts of insurance incepted* during that year, whether or not they are received during that year; and
- (b) the *reinsurers'* share of premiums written must be attributed to the same underwriting years as the corresponding *gross premiums written*.

11 For the purposes of 10 and 14, where an *insurer* has acquired *policies* under a transfer approved under Part VII of the *Act* or its predecessor legislation or approved by the competent authority of another *EEA State* under Article 12 of the *Third Non-Life Directive*, the *policies* transferred to the *insurer* must be taken to have *incepted* on the date of such transfer.

PRA

12 In all Forms to which this Appendix relates, amounts required to be shown in respect of premiums must be shown before deduction for commissions.

PRA

Claims

- 13
- PRA**
- (1) In *Forms 23, 26, 27, 31 and 32*, where an amount or number is required to be shown for *claims* in respect of an accident year, that amount or number must be determined on the basis of *claims* arising from incidents occurring during that accident year.
- (2) For the purposes of (1), an incident giving rise to a claim under a *claims-made policy* is deemed to occur on the earlier of –
- (a) the date on which it is notified in accordance with the terms of that *policy*; or
- (b) the date on which the period for which cover is provided under that *policy* expires.
- (3) For the purposes of (1), where an *insurer* has assumed, pursuant to a contract, responsibility (whether wholly or in part) for the payment or reimbursement of *claims* made under *policies* effected by another *insurer*, all incidents occurring prior to the date of such contract and giving rise to *claims* under those *policies* are deemed to have occurred on the date of such contract.
- (4) In the application of (3), the reference to responsibility assumed by an *insurer* includes responsibility assumed as a *reinsurer* or under a transfer under Part VII of the Act or its predecessor legislation or approved by the competent authority of another *EEA State* under Article 12 of the *Third Non-Life Directive*; and in the case of such a transfer the date of the contract is taken to be the date of the transfer.
- 14
- PRA**
- In *Forms 24, 25, 28, 29 and 34*, where an amount is required to be shown for *claims* in respect of a *financial year*, that amount must be determined on the basis of *claims* arising under *contracts of insurance incepted* during that year.
- 15
- PRA**
- In all *Forms* to which this Appendix relates, amounts required to be shown for *claims* must not include amounts in respect of *claims management costs*.
- UK and overseas business*
- 16
- PRA**
- (1) For each *risk category* there must be stated by way of supplementary note (code 20Ag) to *Form 20A* –
- (a) if any of the *gross written premiums* reported in *Form 20A* under the *risk category* is attributable to *home foreign business* or overseas business, the amount of the *gross written premiums* in the *risk category* attributable to overseas business, *home foreign business*, and other UK business;
- (b) If the *risk category* is not 510 to 590, 610 to 690 or 700, and any of the business reported in *Form 20A* under the *risk category* is attributable to overseas business, the countries in which the business in the *risk category* is carried on; and
- (c) the name of the *risk category*.
- (2) For the purposes of this Appendix, and (1)(a) in particular, *gross written premiums* must be shown or included as UK premiums if, in the case of

direct and facultative insurance business the **contract of insurance** was effected in the United Kingdom or if, in the case of a **reinsurance treaty**, the cedant was an **insurer** having its head office in the United Kingdom or was a member of the **Society**; and overseas premiums must be construed accordingly.

- (3) In a **Form 31, 32 or 34**, an **insurer** must enter in the space alongside 'reporting territory' –
- (a) 'World wide' if the business on the Form is a subset of **category numbers 330 or 340 or category number 350 or 400**; or
 - (b) one of the following if the business on the Form is otherwise
 - (i) 'United Kingdom other than home foreign' for business carried on in the **United Kingdom** that is not **home foreign business**,
 - (ii) 'Home Foreign' for home foreign business, or
 - (iii) 'Overseas' for business carried on outside the United Kingdom.

Transfers of general insurance business

17

PRA

- (1) If, during the **financial year**, **policies** already effected by another **insurer** have been transferred to the **insurer**, an **insurer** must state, in respect of each **risk category**, the following by way of supplementary note to **Form 20A** (code 20Ah) –
- (a) the date of the transfer;
 - (b) whether the transfer was approved under Part VII of the **Act** or its predecessor legislation or approved by the competent authority of another **EEA State** under Article 12 of the **Third Non-Life Directive** or was effected by novation;
 - (c) any amounts included in columns 1, 2, 3 and 4 on **Form 20A** in respect of consideration for the transfer;
 - (d) [deleted]
 - (e) the earliest and latest dates upon which the relevant **policies** **incept**; and
 - (f) whether or not any of the **policies** has a duration of longer than 12 months and, if so, the date by which all those **policies** will have expired.
- (2) (1) does not apply in respect of any transfer by way of novation unless the amounts mentioned in (1)(c) exceed in aggregate 2.5% of the insurer's gross premium income for the financial year in question.
- (3) (a) For each **risk category** that contains **general insurance business** for which an **insurer** is required, by rules 9.17 and 9.19, to prepare a **Form 26 to 29, 31, 32 or 34** in the **return** for the **financial year in question**, the **insurer** must, subject to (b), state

the amount included in columns 2 plus 3 and the amount included in column 4 on *Form 20A* that arise from *policies* already effected by another *insurer* that have been transferred to the *insurer*, by way of supplementary note to *Form 20A* (code 20Ai).

- (b) For each *risk category* (a) only applies if the amount included in columns 2 plus 3 plus 4 on *Form 20A* that arises from transferred *policies* exceeds £10m or the higher of £1m and 10% of the amount shown in columns 2 plus 3 plus 4 on *Form 20A* for that *risk category*.

Unearned premiums

- 18 In *Forms 21* and *25*, the basis on which unearned premiums are calculated and the reason for adopting this basis must be stated by way of supplementary note (code 2102 in the case of *Form 21* and code 2501 in the case of *Form 25*).

PRA

Provision for unexpired risks

- 19 (1) The amount included for the provision for unexpired risks in *Form 22* or *25* prepared in respect of a *PRA general insurance business reporting category* must be determined without taking into account any surplus expected to arise on the unexpired risks falling within other *PRA general insurance business reporting categories*.

PRA

- (2) Where in determining the amount of the overall provision for unexpired risks (line 13 in *Form 15* less line 62 in *Form 13*) credit has been taken for any aggregate surplus expected to arise on the unexpired risks falling in any *PRA general insurance business reporting category*, the amount of that credit must be included as a negative amount at line 19 of *Form 22* or line 23 of *Form 25*, as appropriate, for that category.

- 20 (1) Where the amount included at column 3 line 19 (provision for unexpired risks) in any *Form 22* or at column 9999 of line 23 (provision for unexpired risks) in any *Form 25* has been determined after taking into account expected investment return, the following must be stated by way of supplementary note (code 2205 in the case of *Form 22* and code 2502 in the case of *Form 25*) –

PRA

- (a) the provision for unexpired risks before taking such investment return into account;
- (b) the rates of investment return assumed; and
- (c) the average interval between the end of the *financial year in question* and the date at which *claims* are expected to be settled in cash.

Cessation of business

- 21 (1) If the *insurer* has effected no ‘new contracts of insurance’ of any one or more *classes of general insurance business* during the *financial year*, the date on which the last ‘new contract’ of each such *class* was effected must be stated by way of supplementary note (code 20Aj) to *Form 20A*.

PRA

- (2) For the purposes of this paragraph and 22, a *new contract of insurance* is any *contract of insurance* effected by the *insurer* other than in fulfilment of its obligations under subsisting *contracts of insurance*.

Claims management costs

22

PRA

- (1) In *Forms 22* and *24*, the basis used for the determination of amounts for *claims management costs* payable in the *financial year in question* and carried forward to the following *financial year* must be stated by way of supplementary note (code 2202 in the case of *Form 22* and code 2404 in the case of *Form 24*).

- (2) If, in respect of any *PRA general insurance business reporting category* –

- (a) no amount for *claims management costs* is shown as being carried forward to the following *financial year*; and
- (b) an amount for net claims is shown as being carried forward to that year,

the reason for anticipating that there will be no *claims management costs* incurred during the following *financial years* must be included in the note required by (1).

- (3) If, within a *PRA general insurance business reporting category*, an insurer has ceased to effect ‘*new contracts of insurance*’ during the *financial year in question*, the basis upon which any additional costs arising as a result of such cessation have been determined or the reason for anticipating that no such additional costs will be incurred must be included in the note required by (1).
- (4) Where the amount in respect of *claims management costs* carried forward and included in any *Form 22* or *24* has been determined after taking into account expected investment return, there must be stated by way of supplementary note to *Form 22* (code 2203) or *Form 24* (code 2405) –
- (a) the rates of investment return assumed; and
- (b) the average interval between the end of the *financial year in question* and the date by which the *claims management costs* are expected to be expended.

Acquisition costs

23

PRA

The basis used for the determination of amounts for acquisition costs (other than commission) payable in the *financial year in question* and carried forward to the next *financial year*, as shown at line 22 of *Form 22* and line 42 of *Form 24*, must be stated by way of a supplementary note to *Form 22* (code 2204) and *Form 24* (code 2406).

Underwriting year accounting

24

PRA

- (1) With reference to the *financial year in question* and in respect of each *PRA general insurance business reporting category*, the following information must be stated by way of supplementary note (code 2402)

to Form 24 –

- (a) the reason for accounting for such business on an underwriting year basis;
 - (b) the basis for distinguishing between such business and any other business falling within the same *PRA general insurance business reporting category* accounted for on an accident year basis;
 - (c) the accounting policy adopted for determining the provision for *claims* outstanding; and
 - (d) if the information provided in (a) to (c) differs in respect of risks *incepted* in the *financial year in question* from risks of a similar description *incepted* in *previous financial years*, the reason for that difference.
- (2) Where the provision for *claims* outstanding is set in respect of any business using the ‘non-annual method’, the note required by (1)(a) must include the following information –
- (a) the reason for using the ‘non-annual method’;
 - (b) the basis for distinguishing between such business and other business accounted for on an underwriting year basis falling within the same *PRA general insurance business reporting category*;
 - (c) the normal period for which an underwriting year is left ‘open’ or, if that period differs for different types of business within a *PRA general insurance business reporting category* –
 - (i) the basis for distinguishing between the types of business,
 - (ii) the normal period for each type, and
 - (d) where an underwriting year is left ‘open’ for longer than the normal period, the reason for not ‘closing the year’.
- (3) For the purposes of this Appendix –
- (a) *Non-annual method* refers to the method described by paragraph 52 of the *insurance accounts rules*; and
 - (b) a year is open with respect to any business *incepted* during that year if the provision for outstanding *claims* in respect of that business is set using the ‘non-annual method’ and if so set previously has not now been replaced in accordance with the requirements of paragraph 52(4) of the *insurance accounts rules*, and *closed year and closing a year* is construed accordingly.

Business managed together

25

PRA

- (1) For the purposes of *Forms 25 and 29*, risks may be regarded as managed together if –
- (a) they *incept* in the same *financial year* and are accounted for using the ‘non-annual method’; and
 - (b) they may be treated as managed together under generally accepted accounting practice.
- (2) Where any amount is shown on *Form 25 or 29* for the transfer of anticipated surplus, the following must be stated by way of supplementary note to *Form 25* (code 2504) or *Form 29* (code 2901) –
- (a) a description of the business in respect of which the anticipated surplus arises and of the business in respect of which the deficit to be offset arises (including in the case of *Form 25* the *risk categories* into which such business falls); and
 - (b) the reason for treating the business as managed together.

Application of accounting practice

26

PRA

- (1) Amounts in respect of inward and outward *contracts of insurance* must be classified for inclusion in *Forms 20A, 20 to 39* according to their economic substance and in accordance with generally accepted accounting practice.
- (2) Where amounts in respect of an inwards or outwards *contract of insurance* have been excluded from the revenue account, the following must be shown by way of supplementary note (code 20Ak) to *Form 20A*
- (a) a description of the terms of that contract;
 - (b) a description of the accounting treatment adopted and an explanation for adopting that treatment;
 - (c) a statement of the amounts paid and received during the *financial year* under that contract; and
 - (d) a statement of the amounts in respect of that contract included in each Form prepared under this Appendix or *Appendix 9.1*.
- (3) A *insurer* may elect to show the information required by (1) in respect of groups of contracts which were effected in the same *financial year* with substantially the same contract terms and in respect of which the same accounting treatment has been adopted.

Discounting

27

PRA

- (1) Sheet 2 of *Form 30* need only be completed if the provision for *claims* outstanding being discounted (before deduction for discounting) exceeds 25% of the total provision for *claims* outstanding (before deduction for discounting).
- (2) Where in accordance with (1) no Sheet 2 is prepared –

- (a) lines 21 and 29 of Sheet 1 need not be completed; and
 - (b) lines 11 to 20 need only be completed in respect of those currencies for which the provision for *claims* outstanding being discounted (before deduction for discounting) exceeds 25% of the total provision for that currency for *claims* outstanding (before deduction for discounting).
- (3) For the purposes of *Form 30*, a *major currency* is a currency in respect of which the provision for *claims* outstanding (before deduction for discounting) is not less than 10% of the total provision for *claims* outstanding (before deduction for discounting).
- (4) In *Form 30*, the value of an asset or liability which would be treated as an asset or liability in a particular currency for the purposes of *INSPRU* 3.1.53R (notwithstanding *INSPRU* 3.1.54R) must be shown in that currency.
- (5) The following must be stated by way of supplementary note (code 3003) to *Form 30* –
- (a) the *risk categories* where adjustments for discounting have been made; and
 - (b) in respect of each such *risk category* –
 - (i) the methods used in calculating the deduction for discounting,
 - (ii) the rate of interest used for the calculation of present values,
 - (iii) the expected average interval between the date for settlement of *claims* being discounted and the end of the *financial year in question*, and
 - (iv) the criteria adopted for estimating the period that will elapse before *claims* are settled.

Reinsurance

28 Where the *reinsurers'* share of *claims* incurred (as stated in any *Form 22* or *25*) includes amounts expected to be recovered from *reinsurers* more than 12 months after the payment of the underlying gross *claims* by the *insurer*, the following must be stated by way of supplementary note to *Form 22* (code 2206) or *25* (code 2503) as appropriate –

PRA

- (a) the amount of such recoveries; and
- (b) the accounting treatment which has been adopted in respect of discounting such recoveries.

Continuation sheets

30 Continuation sheets to *Forms 31* and *34* need only be prepared in respect of *PRA general insurance business reporting categories 271 to 274*.

PRA

Country codes

31 The currency codes required for *Forms 26 to 29, 31, 32 and 34* and country codes must be in accordance with the following Table:

Instructions for completion of Form 20A

PRA

- 1 The amount to be shown under *gross written premiums* for a *PRA general insurance business reporting category* must equate to F21. (11+12+13+14+15). (1+2) plus F24.11.12 as if Forms 21 or 24 were required for that *PRA general insurance business reporting category*.
- 2 The amount to be shown under provision for gross unearned premium for a *PRA general insurance business reporting category* must equate to F21.19.2 + F25.22.12 as if *Forms 21* or *25* were required for that *PRA general insurance business reporting category*, plus the *reinsurers'* share of provision for gross unearned premiums for business in the *PRA general insurance business reporting category* accounted for on an underwriting year basis.
- 3 The amounts to be shown under provisions for gross claims outstanding/ reported for a *PRA general insurance business reporting category* must equate to the sum of (F27.29.5 + F29.11.12, converted to sterling if appropriate) over all currencies or the sum of (F31 or F32.30.5 + F34.30.3) over all the currencies and territories, for that *PRA general insurance business reporting category* as if *Forms 27, 29, 31, 32* or *34* were required for all business in that *PRA general insurance business reporting category*.
- 4 The amounts to be shown under provisions for gross claims outstanding/incurred but not reported for a *PRA general insurance business reporting category* must equate to the sum of (F27.29.6 + F29.13.12, converted to sterling if appropriate) over all currencies or the sum of (F31 or F32.30.6 + F34.30.4) over all the currencies an territories, for that *PRA general insurance business reporting category* as if *Forms 27, 29, 31, 32* or *34* were required for all business in that *PRA general insurance business reporting category*.
- 5 Where the unrounded value for one of the columns is zero for a particular *PRA general insurance business reporting category*, the relevant cell should be left blank.
- 6 Lines 1, 20 and 111 should all be the same and equal to the total *insurance business*.
- 7 If the entry at line 1 column 1 does not equal the amount shown at line 11 column 1 of Form 11, or the entry at line 1 column 4 does not equal the amount shown at line 11 column 1 of Form 15, the *insurer* must provide an explanation for the difference in a supplementary note (code 20A1).

General insurance business : Technical account (excluding equalisation provisions)

Name of insurer
 Global business/UK branch business/EEA branch business
 Financial year ended
 PRA general insurance business reporting category

		Company registration number	GL/UK/CM	day	month	year	units	Category number
R20							£000	
Items to be shown net of reinsurance				This financial year 1	Previous year 2			
This year's underwriting (accident year accounting)	Earned premium (21. 19. 5)	11						
	Claims incurred (22. 17. 4)	12						
	Claims management costs (22. 18. 4)	13						
	Adjustment for discounting (22. 52. 4)	14						
	Increase in provision for unexpired risks (22. 19. 4)	15						
	Other technical income or charges (particulars to be specified by way of supplementary note)	16						
	Net operating expenses (22. 42. 4)	17						
	Balance of year's underwriting (11-12-13+14-15+16-17)	19						
Adjustment for prior years' underwriting (accident year accounting)	Earned premium (21.11. 5)	21						
	Claims incurred (22. 13. 4)	22						
	Claims management costs (22. 14. 4)	23						
	Adjustment for discounting (22. 51. 4)	24						
	Other technical income or charges (particulars to be specified by way of supplementary note)	25						
	Net operating expenses (22. 41. 4)	26						
	Balance (21-22-23+24+25-26)	29						
Balance from underwriting year accounting	Per Form 24 (24. 69. 99-99)	31						
	Other technical income and charges (particulars to be specified by way of supplementary note)	32						
	Total	39						
Balance of all years' underwriting (19+29+39)		49						
Allocated investment income		51						
Transfer to non-technical account (49+51)		59						

Instructions for completion of Form 20

PRA

- 1. Particulars of any amounts included at lines 16, 25 or 32 ('other technical income or charges') are required to be stated by way of a supplementary note (code 2005) to the form.**

General insurance business (accident year accounting): Analysis of premiums

Name of insurer
 Global business/UK branch business/EEA branch business
 Financial year ended
 PRA general insurance business reporting category

		Company registration number	GL/UK/CM	day	month	year	units	Category number
		R21					£000	
Premiums receivable during the financial year		Gross premiums written		Reinsurers' share			Net of reinsurance	
		Earned in previous financial years 1		Earned in previous financial years 3		Earned in previous financial years 5		
In respect of risk incepted in previous financial years	11							
		Earned in this financial year	Unearned at end of this financial year	Earned in this financial year	Unearned at end of this financial year	Earned in this financial year	Unearned at end of this financial year	
		1	2	3	4	5	6	
In respect of risks incepted in previous financial years	12							
In respect of risks incepted in this financial year	For periods of less than 12 months	13						
	For periods of 12 months	14						
	For periods of more than 12 months	15						
Premiums receivable (less rebates and refunds) in previous financial years not earned in those years and brought forward to the financial year	16							
Total (12 to 16)	19							

Instructions for completion of Form 21

PRA

- 1 **Lines 13 to 15 of *Form 21* should include *premiums* actually received prior to the *financial year*, but relating to risks incepted in the *financial year* and exclude *premiums* received during the *financial year*, but relating to risks incepting after the end of the *financial year*. In *Forms 13* and *15* the accounting treatment adopted for *premiums* received in respect of risks incepting in future *financial years* should be the same as that adopted in the shareholder accounts, or, if there are no shareholder accounts, should be in accordance with generally accepted accounting practice. If this results in different amounts for the provision of unearned premium (either gross or the *reinsurers'* share) being shown in *Forms 13* or *15* as compared to *Form 21*, it would be appropriate to identify, and provide an explanation, of the difference in a supplementary note (code 2103) to the form.**

General insurance business (accident year accounting) : Analysis of claims, expenses and technical provisions

Name of insurer
 Global business/UK branch business/EEA branch business
 Financial year ended
 PRA general insurance business reporting category

		Company registration number	GL/UK/CM	day	month	year	units	Category number

	Incidents occurring in this financial year	52						

Instructions for completion of Form 22

PRA

- 1** Amounts included at lines 11 to 18 must be shown undiscounted and related adjustments for discounting must be shown at lines 31 to 39.
- 2** The values in column 4 are calculated as follows:

for lines 11 to 18 values in columns 2+31;
for lines 21 to 29 and lines 41 to 42 values in columns 1+23;
for line 19, lines 31 to 39 and lines 51 to 52 values in columns 31.
- 3** Amounts shown at lines 11 to 13, lines 15 to 17 and lines 31 and 32 must exclude amounts in respect of *claims management costs*.

Instructions for completion of Form 23

PRA

- 1 All figures are to be shown net of the *reinsurers'* share.
- 2 The accident years shown at lines 11 to 20 must correspond to the *financial year in question* and the nine *previous financial years* respectively.
- 3 Columns 1 to 9 must be shown before deduction for discounting.
- 4 All amounts shown must exclude *claims management costs*.
- 5 The percentage shown at column 12 must be the ratio of the columns 3+4+5+6 to column 2.
- 6 The percentage shown at column 13 must be the ratio of columns 1+3+4+5+6 to column 11.
- 7 $23.29.5 + 23.29.6 = 22.13.3 + 22.17.3$; $23.29.7 + 23.29.8 = 22.13.1$;
 $23.29.10 = 22.31.3 + 22.32.3$; and $23.29.4 = 22.13.2 + 22.17.2$.
- 8 [deleted]
- 9 [deleted]
- 10 The percentages shown at columns 12 and 13 must be expressed as percentages to one place of decimals.
- 11 Line 22 is to be left blank.

Instructions for completion of Form 24

PRA

1 The underwriting years shown between the columns headed "29 29" and "99 99" must correspond (in reverse order) to the *financial year in question* and the nine *previous financial years* respectively.

2 Amounts shown in lines 21 to 29 must exclude *claims management costs*.

3 [deleted]

4 The amounts shown at lines 51 to 54 must exclude equalisation provisions.

The amounts shown at lines 11 to 49 must be amounts payable or *receivable* during the *financial year in question*.

Instructions for the completion of Form 25

PRA

- 1 **The underwriting years shown between the columns headed "29 29" and "99 99" must correspond (in reverse order) to the *financial year in question* and the nine *previous financial years*, respectively.**
- 2 **Lines 11 to 15, 19 to 21 and 29 must be completed for open years and lines 11 to 18 and 21 to 29 for closed years.**
- 3 **Line 29 must equal line 53 less 54 on Form 24.**
- 4 **Lines 11 to 15 must be shown before adjustment for *discounting*.**
- 5 **Lines 11 to 14, 16 and 17 must exclude *claims management costs*.**
- 6 **[deleted]**
- 7 **Amounts may only be included at line 19 in so far as they arise from the offset of anticipated surpluses and deficits on *insurance business* managed together as defined by paragraph 25 of Appendix 9.2.**
- 8 **Particulars of any amounts included at line 25 on must be stated in a supplementary note (code 2505) to the form.**

Instructions for completion of Form 26

PRA

- 1 All figures are to be shown net of the *reinsurers'* share.
- 2 The accident years shown at lines 11 to 20 must correspond to the *financial year in question* and the nine *previous financial years* respectively.
- 3 Columns 1 to 9 must be shown before deduction for *discounting*.
- 4 All amounts shown must exclude *claims management costs*.
- 5 The percentage shown at column 12 must be the ratio of the columns 3+4+5+6 to column 2.
- 6 The percentage shown at column 13 must be the ratio of columns 1+3+4+5+6 to column 11.
- 7 [deleted]
- 8 The percentages shown at columns 12 and 13 must be expressed as percentages to one place of decimals.
- 9 The amounts shown in line 21 must be analysed on continuation sheets by accident year subject to instructions 10, 10A and 10B below.
- 10 On the continuation sheet, for *category numbers* 590 and 690, the amounts in columns 4 to 10 for accident years ending prior to 31 December 1996 may be shown in the aggregate and columns 1 to 3, 11 to 13 need not be completed for accident years ending prior to 31 December 1996.
- 10A On the continuation sheet, for *category numbers* 610, 620, 650, 660 and 680 the amounts in columns 4 to 10 for accident years ending prior to 23 December 1993 may be shown in the aggregate and columns 1 to 3 and 11 to 13 need not be completed for accident years ending prior to 23 December 1993.
- 10B On the continuation sheet, for *category numbers* other than those listed in 10 and 10A above, the amounts in columns 4 to 10 for accident years ending prior to 31 December 1983 may be shown in the aggregate and columns 1 to 3 and 11 to 13 need not be completed for accident years ending prior to 31 December 1983.
- 11 The box marked "category number" must be completed by inserting the 3 digit *category number* to which the *PRA general insurance business reporting category* relates.
- 12 The box marked "currency code" must be completed by inserting the relevant 3 character currency code from the list in the Table in *Appendix 9.2 Paragraph 31*.
- 13 Line 22 is to be left blank.

Instructions for completion of Form 27

PRA

- 1 All figures must be shown gross of the *reinsurers'* share.
- 2 The accident years shown at lines 11 to 20 must correspond to the *financial year in question* and the nine *previous financial years* respectively.
- 3 Columns 1 to 9 are to be shown before deduction for *discounting*.
- 4 All amounts shown must exclude *claims management costs*.
- 5 The percentage shown at column 12 must be the ratio of the columns 3+4+5+6 to column 2.
- 6 The percentage shown at column 13 must be the ratio of columns 1+3+4+5+6 to column 11.
- 7 [deleted]
- 8 The percentages shown at columns 12 and 13 must be expressed as percentages to one place of decimals.
- 9 The amounts shown in line 21 must be analysed on continuation sheets by accident year subject to instruction 10, 10A and 10B below.
- 10 On the continuation sheet, for *category numbers* 590 and 690, the amounts in columns 4 to 10 for accident years ending prior to 31 December 1996 may be shown in the aggregate and columns 1 to 3 and 11 to 13 need not be completed for accident years ending prior to 31 December 1996.
- 10A On the continuation sheet, for *category numbers* 610, 620, 650, 660 and 680 the amounts in columns 4 to 10 for accident years ending prior to 23 December 1993 may be shown in the aggregate and columns 1 to 3 and 11 to 13 need not be completed for accident years ending prior to 23 December 1993.
- 10B On the continuation sheet, for *category numbers* other than those listed in 10 and 10A above, the amounts in columns 4 to 10 for accident years ending prior to 31 December 1983 may be shown in the aggregate and columns 1 to 3 and 11 to 13 need not be completed for accident years ending prior to 31 December 1983.
- 11 The box marked "category number" must be completed by inserting the 3 digit *category number* to which the *PRA general insurance business reporting category* relates.
- 12 The box marked "currency code" must be completed by inserting the relevant 3 character currency code from the list in the Table in *Appendix 9.2 Paragraph 31*.
- 13 Line 22 is to be left blank.

Instructions for completion of Form 28

PRA

- 1 **The underwriting years shown between the columns headed "29 29" and "99 99" must correspond (in reverse order) to the *financial year in question* and the nine *previous financial years*.**
- 2 **Amounts shown in lines 21 to 29 must exclude *claims management costs*.**
- 3 **The amounts shown at lines 51 to 54 must exclude equalisation provisions.**
- 4 **[deleted]**
- 5 **The amounts shown in the first column must be analysed on continuation sheets by underwriting year (although for *category numbers* 590 and 690 amounts in respect of underwriting years ended before 31 December 1996 may be shown in aggregate, for *risk categories* 610, 620, 650, 660 and 680 amounts in respect of underwriting years ended before 23 December 1993 may be shown in aggregate and for other business amounts in respect of underwriting years beginning prior to 1 January 1983 may be shown in aggregate).**
- 6 **The box marked "category number" must be completed by inserting the 3 digit *category number* to which the *PRA general insurance business reporting category* relates.**
- 7 **The amounts shown at lines 11 to 49 must be amounts payable or *receivable* during the *financial year in question*.**
- 8 **The box marked "currency code" must be completed by inserting the relevant 3 character currency code from the list in the Table in *Appendix 9.2 Paragraph 31*.**

PRA

- 1 The underwriting years shown between the columns headed "29 29" and "99 99" must correspond (in reverse order) to the *financial year in question* and the nine *previous financial years*, respectively.
- 2 Lines 11 to 15, 19 to 21 and 29 must be completed for open years and lines 11 to 18 and 21 to 29 for closed years.
- 3 Line 29 equals line 53 less 54 on Form 28.
- 4 Lines 11 to 15 must be shown before adjustment for *discounting*.
- 5 Lines 11 to 14, 16 and 17 must exclude *claims management costs*.
- 6 [deleted]
- 7 The amounts shown in the first column must be analysed on continuation sheets by underwriting year (although for *category numbers 590 and 690* amounts in respect of underwriting years ended before 31 December 1996 may be shown in aggregate, for *category numbers 610, 620, 650, 660 and 680* amounts in respect of underwriting years ended before 23 December 1993 may be shown in aggregate, and for other business amounts in respect of underwriting years beginning prior to 1 January 1983 may be shown in aggregate).
- 8 The box marked "category number" must be completed by inserting the 3 digit *category number* to which the *PRA general insurance business reporting category* relates.
- 9 Amounts may only be included at line 19 in so far as they arise from the offset of anticipated surpluses and deficits on business managed together (as defined by paragraph 25 of Appendix 9.2).
- 10 The box marked "currency code" must be completed by inserting the relevant 3 character currency code from the list in the Table in *Appendix 9.2 Paragraph 31*.

General insurance business : Expected income and yield from admissible assets covering discounted provisions

Name of insurer
Global business/UK branch business/EEA branch business
Financial year ended

		Company registration number	GL/UK/CM	day	month	year	units
		R30					£000
Type of asset		Value of admissible assets as shown on Form 13	Admissible assets hypothecated to cover the provision for outstanding claims being discounted	Expected income from assets included in column 2	Yield %		
		1	2	3	4		
Land and buildings		31					
Fixed interest securities	Approved securities	32					
	Other	33					
Variable interest and variable yield securities (excluding items shown at line 36)	Approved securities	34					
	Other	35					
Equity shares and holding in collective investment schemes		36					
Loans secured by mortgages		37					
All other assets	Producing income	38					
	Not producing income	39					
Total		49					

Instructions for completion of Form 30

PRA

- 1** **The entry at –**

30.31.1 must equal 13.11.1
30.32.1 must equal 13.45.1 + the appropriate part of 13.84.1
30.33.1 must equal 13.46.1 + the appropriate part of 13.84.1
30.34.1 must equal 13.47.1 + the appropriate part of 13.84.1
30.35.1 must equal 13.42.1 +13.48.1 + the appropriate part of 13.84.1
30.36.1 must equal 13.41.1 +13.43.1
30.37.1 must equal 13.50.1 + the appropriate part of 13.84.1
30.49.1 must equal 13.87.1 +13.89.1 - 13.60.1 - 13.61.1 - 13.62.1 - 13.63.1 – 13.85.1.
- 2** **The hypothecated assets shown in column 2 must not be less than (but need not equal) the provision for outstanding *claims* being discounted (column 6 less column 7 on sheet 1). Where specific assets are not hypothecated to cover the provision for outstanding *claims* being discounted, column 2 equals column 1.**
- 3** **The income in column 3 must be the amounts before deduction of tax which would be received in the next *financial year* on the assumption that –**

 - (i) the assets are held throughout that year, and**
 - (ii) the factors which affect income remain unchanged but account is to be taken of any changes in those factors known to have occurred.**
- 4** **The yield in column 4 must be –**

 - (i) for *securities* with a redemption value, the rate of interest which, when used to obtain a present value of expected future income or capital payments, gives the current asset value, and**
 - (ii) for all other assets the ratio of the income included in column 3 to the value included in column 2,**

or where appropriate an average of the above weighted by reference to the values included in column 2.
- 5** **The methods and assumptions used in determining the yield in accordance with instruction 4 must be stated by way of a supplementary note (code 3001) to this Form.**
- 6** **Where a particular asset is required to be taken into account only to a specified extent by the application of admissibility limits, the expected income and capital payments from that asset must be included only to the same extent.**
- 7** **The treatment of expected income payments from any asset where such payment is in default must be stated by way of a supplementary note (code 3002) to this Form.**

- 8 In column 8 "Unwind in discount in the next *financial year*" refers to the expected reduction in the deduction for the discounting between –
- (i) that shown at the end of the *financial year in question*, and
 - (ii) that expected to be shown at the end of the next *financial year* but in respect of *claims* incurred prior to the end of the *financial year in question*.
- 9 Columns 4 and 9 to 11 must be expressed as a percentage to one place of decimals.
- 10 In the above instructions, income excludes capital gains or losses or value adjustments.
- 11 The discount rate in column 11 must be the average rate of interest at which the provisions are being discounted, weighted by the provisions contained in column 6.
- 12 The references in the Form to "outstanding claims" and "technical provisions" are to those amounts net of *reinsurance*.
- 13 The entry under the column headed 'reporting territory code' must be one of the codes listed in *Appendix 9.2 Paragraph 32*. "WW" must be used for treaty reinsurance. Otherwise the code must be as defined in *Appendix 9.2 Paragraph 16(3)*.

Instructions for completion of Form 31

PRA

- 1 All figures must be shown gross of the reinsurers' share and before any deduction for *discounting*.
- 2 The accident years at lines 11 to 20 must correspond to the *financial year in question* and the nine *previous financial years* respectively.
- 3 All amounts shown must exclude *claims management costs*.
- 4 The percentage shown at column 11 is the ratio of the sum of columns 3 to 6 to column 10.
- 5 Columns 10 and 11 need not be completed in respect of accident years ended before 23 December 1994.
- 6 The percentages shown at column 11 must be expressed as percentages to one place of decimals.
- 7 For *risk categories 271 to 274* the amounts shown in line 21 must be analysed by accident year on continuation sheets subject to instructions 8 to 9A below.
- 8 On the continuation sheet columns 10 and 11 need not be completed in respect of accident years ended before 23 December 1994.
- 9 On the continuation sheet, for *category number 274*, the amounts in columns 2 and 4 to 8 for accident years ending prior to 31 December 1996 may be shown in the aggregate and columns 1 and 3 need not be completed for accident years ending prior to 31 December 1996.
- 9A On the continuation sheet, for *category numbers 271 to 273*, the amounts in columns 2 and 4 to 8 for accident years ending prior to 31 December 1976 may be shown in the aggregate and columns 1 and 3 need not be completed for accident years ending prior to 31 December 1976.
- 10 Columns 1 and 2 need not be completed in respect of *risk categories 331 to 400*.
- 11 The box marked "category number" must be completed by inserting the 3 digit *category number* to which the *PRA general insurance business reporting category* relates.
- 12 The box marked "currency code" must be completed by inserting the relevant 3 character currency code from the list in the Table in *Appendix 9.2 Paragraph 31*.
- 13 The entry alongside "reporting territory" must be that required by *Appendix 9.2 Paragraph 16(3)* and the entry in the box marked "reporting territory code" must be the relevant 2 character code from the list in the Table in *Appendix 9.2 Paragraph 32*.

Instructions for completion of Form 32

PRA

- 1** All figures must be shown gross of the *reinsurers'* share and before any deduction for *discounting*.
- 2** The accident years at lines 11 to 20 must correspond to the *financial year in question* and the nine *previous financial years* respectively.
- 3** All amounts shown must exclude *claims management costs*.
- 4** The percentage shown at column 11 must be the ratio of the sum of columns 3 to 6 to column 10.
- 5** Columns 10 to 13 need not be completed in respect of accident years ended before 23 December 1994.
- 6** The number of vehicle years insured in any accident year is the aggregate of the product for each *contract of insurance* of the period (being the period during that accident year when the contract was in force) and the number of vehicles insured under the contract. Figures are to be rounded to the nearest thousand-vehicle years only after aggregating component figures.
- 7** For accident years ended on or after 31 December 2006, the percentage shown at column 13 must be the ratio of the sum of columns 1 and 2 to unrounded number of years underpinning column 12. For accident years ended before 31 December 2006, the percentage shown at column 13 must be the ratio of the sum of columns 1 and 2 to either the unrounded number of years underpinning column 12 or the product of 1000 and column 12.
- 8** The percentages shown at columns 11 and 13 must be expressed as percentages to one place of decimals.
- 9** The box marked "category number" must be completed by inserting the 3 digit *category number* to which the *PRA general insurance business reporting category* relates.
- 10** The entry alongside "currency code" must be the relevant 3 character currency code from the list in the Table in *Appendix 9.2 Paragraph 31*.
- 11** The entry alongside "reporting territory" must be that required by *Appendix 9.2 Paragraph 16(3)* and the entry in the box marked "reporting territory code" must be the relevant 2 character code from the list in the Table in *Appendix 9.2 Paragraph 32*.

Instructions for completion of Form 34

PRA

- 1** All figures must be shown gross of the *reinsurers'* share and before any deduction for *discounting*.
- 2** The underwriting years at lines 11 to 20 must correspond to the *financial year in question* and the nine *previous financial years* respectively.
- 3** All amounts shown must exclude *claims management costs*.
- 4** The percentage shown at column 9 must be the ratio of the sum of columns 1 to 4 to column 8.
- 5** Columns 8 and 9 need not be completed in respect of *financial years* ended before 23 December 1994.
- 6** The percentages shown at column 9 must be expressed as percentages to one place of decimals.
- 7** For risk categories 271 to 274, the amounts shown in line 21 must be analysed by underwriting year on continuation sheets subject to instructions 8 to 9A below.
- 8** On the continuation sheet columns 8 and 9 need not be completed in respect of underwriting years ended before 23 December 1994.
- 9** On the continuation sheet, for *category number 274*, the amounts in columns 2 to 6 for underwriting years ending prior to 31 December 1996 may be shown in the aggregate and column 1 need not be completed for underwriting years ending prior to 31 December 1996.
- 9A** On the continuation sheet, for *category numbers 271 to 273*, the amounts in columns 2 to 6 for underwriting years ending prior to 31 December 1976 may be shown in the aggregate and column 1 need not be completed for underwriting years ending prior to 31 December 1976.
- 10** The box marked "category number" must be completed by inserting the 3 digit *category number* to which the *PRA general insurance business reporting category* relates.
- 11** The box marked "currency code" must be completed by inserting the relevant 3 character currency code from the list in the Table in *Appendix 9.2 Paragraph 31*.
- 12** The entry alongside "reporting territory" must be that required by *Appendix 9.2 Paragraph 16(3)* and the entry in the box marked "reporting territory code" must be the relevant 2 character code from the list in the Table in *Appendix 9.2 Paragraph 32*.

Instructions for completion of Form 36

PRA

- 1** **Where any of Forms 26 to 29 or 31, 32 or 34 contains a figure in a currency other than sterling the rate of conversion of those figures into sterling must be stated in column 1 to this Form.**

- 2** **Where the rate of conversion differs according to whether it applies to income and expenditure items, or asset and liability items, the former rate must be used.**

Equalisation provisions

Form 37

Name of insurer

Global business/UK branch business/EEA branch business

Financial year ended

Instructions for completion of Form 37

PRA

- 1 Lines 11 & 12, columns 1 to 5, must include net written premium from Form 21 (accident year *insurance business*) and/or Form 24 (underwriting year *insurance business*) that in whole or in part covers each *insurance business grouping*.
- 2 Only premium for *financial years* covered by the scheme may be included in lines 11 & 12, columns 1 to 5 (see *INSPRU 1.4.20R*). Adjustments in respect of prior years must be included at line 12.
- 3 Any *insurance business* that has been transferred must be excluded from lines 11 & 12, columns 1 to 5 (see *INSPRU 1.4.32R* to *INSPRU 1.4.37G*).
- 4 Line 13, columns 1 to 5 must show the maximum provision for each *insurance business grouping* calculated in accordance with *INSPRU 1.4.24R*. If *insurance business* in a group has been written for less than 5 years, the average of the qualifying years must be used.
- 5 If all rights and obligations in an *insurance business grouping* have been transferred, line 13 columns 1 to 5 must be left blank at the appropriate column.
- 6 Line 22, columns 1 to 5 must be calculated by multiplying the figure at line 12 for each *insurance business grouping* by the % in *INSPRU 1.4.27R*.
- 7 Line 23 must be, for each *insurance business grouping*, the total of abnormal losses, if any, brought forward from Forms 38 and 39, line 19. These must be entered in the same columns as they were on Forms 38 and 39.
- 8 The transfer out for each *insurance business grouping* at line 24, columns 1 to 5 must not exceed the line 13 maximum provision for that group.
- 9 The sum of columns 1 to 5 of lines 13, 22 and 24 must be entered in column 6 of the relevant line.
- 10 In the first year of the scheme, line 21 column 6 must be left blank. In subsequent years this figure must be brought forward from the previous year's figure (normally the figure at Form 15, line 15). Only equalisation provisions required by the *rules* in *INSPRU 1.4.11R* to *INSPRU 1.4.37G* may be included.
- 11 The calculations for lines 25 to 29, column 6 must be carried out and the net transfer in or out for the year must be entered at Form 16, line 12, and the provision carried forward entered at Form 15, line 15.
- 12 Line 13, column 7 must be 150% of the highest annual amount of net premiums written in the last 5 years.
- 13 Line 21, column 7 must equal the statutory credit equalisation provision, if any, brought forward from the previous year at Form 15, line 14.
- 14 Line 22, column 7 must be 75% of the technical surplus, if any, brought forward

from Forms 38 and/or 39, line 29, subject to a limit of 12% of line 12.

- 15** Line 24, column 7 must equal the technical deficit, if any, brought forward from Forms 38 and/or 39, line 29.
- 16** The calculations for lines 25 to 29, column 7 must be carried out and the net transfer in or out for the year must be entered at Form 16, line 12, and the provision carried forward entered at Form 15, line 14.

- 7 **The entry at line 22 must be that part of the amount that would appear on Form 24 for *combined categories 180 and 280*, at line 29, column 99-99, plus line 53, column 99-99 less line 51 column 99-99 (whether or not a Form 24 for *combined categories 180 or 280* is required) that relates only to *credit insurance business*.**
- 8 **The entry at line 23 must be that part of the amount that would appear on Form 24 for *combined categories 180 and 280*, at line 39, column 99-99 (whether or not a Form 24 for *combined categories 180 or 280* is required) that relates only to *credit insurance business*.**
- 9 **The entry at line 24 must be that part of the amount that would appear on Form 24 for *combined categories 180 and 280*, at line 49 column 99-99 (whether or not a Form 24 for *combined categories 180 or 280* is required) that relates only to *credit insurance business*.**

Appendix 9.3 (rule 9.14 and 9.23)

Long-Term Insurance Business

Revenue Account and Additional Information

(FORMS 40 TO 60)

- 1 **PRA** All the Forms included in the part of the *return* to which this Appendix relates (*Forms 40 to 60*) are to be laid out as shown in this Appendix, except that the instructions to Forms need not be reproduced.
- 2 **PRA** The provisions of paragraph 1(2) and paragraphs 3 to 7 of *Appendix 9.1* must, unless otherwise provided, also apply for the purposes of this Appendix. All amounts must be shown in sterling to the nearer £1,000 except valuation unit prices in Form 55 where the currency and rounding must be that used in the valuation. Calculations must be performed using unrounded figures. Figures which are determined from other figures (whether or not on the same form) must be rounded after performing calculations on the unrounded component figures. Percentages must be shown to two decimal places.
- 2A **PRA** *Insurers* should not normally restate comparatives unless restatement is necessary in order to allow the appropriate comparison to be made. Where in any Form an amount which is a comparative (i.e. shown in a "previous year" column) differs from the corresponding amount shown in a "this financial year" column in a return for a previous year and the difference is not due solely to the use of a different rate to express other currencies in sterling, an explanation of the reason for the difference must be given by way of a supplementary note to that Form. (For *Forms 40, 41, 42, 43, 44, 45, 46, 50, 58 and 60* the code for the supplementary note is 4011, 4111, 4211, 4311, 4411, 4511, 4611, 5011, 5811 and 6011 respectively.)
- 3 For the purposes of this Appendix:
- PRA**
- (a) "overseas business" means *long-term insurance business* which is Overseas Life Assurance Business or Overseas PHI and Sickness Business as defined by the Income and Corporation Taxes Act 1988 or business written overseas by an *insurer* which does not report its Overseas Life Assurance Business separately for taxation purposes;
 - (b) "regular premiums" means premiums under *contracts of insurance* which are payable at regular intervals during the *policy* year, including repeated or recurring single premiums where the level of premium is defined;
 - (c) "single premiums" means premiums under *contracts of insurance* under which there is no expectation of continuing premiums being paid at regular intervals, additional single premiums paid in respect of existing individual contracts and National Insurance rebates received from the Department of Work and Pensions;

- (d) "UK life business" means *long-term insurance business* which is not overseas business or UK pension business;
- (e) "UK pension business" means *long-term insurance business* which is Pension Business as defined by the Income and Corporation Taxes Act 1988.

4 (1) Where an *insurer* maintains more than one *long-term insurance fund*, there must be stated by way of a supplementary note to *Form 40* the principles and methods applied to apportioning the investment income, increase or decrease in the value of assets brought into account, expenses and taxation between the different funds.

PRA

5 Where arrangements have been made for the provision of management services to an *insurer* by another *company* (whether an *insurer* or not) which are a substantial part of the day-to-day administration of the undertaking receiving the services

PRA

- (a) the *insurer* receiving the services must state, by way of a supplementary note to *Form 40*; and
- (b) the *company* (if an *insurer*) providing the services must state, by way of a supplementary note to *Form 40*,

that the arrangements have been in force in the *financial year* and naming the parties to them.

6 Where neither the *mathematical reserves* nor the *gross premiums* with respect to the total overseas business exceeds £50m or 5% of the total *mathematical reserves*, an *insurer* may treat that business –

PRA

- (a) in the case of business which would fall within 3(e) if it were business effected in the United Kingdom, as UK pension business, or
- (b) otherwise, as UK life business.

7 For *financial years* ending on or before 30 December 2006, an *insurer* is not required to complete entries in the 'previous year' column in *Forms 40 to 46, 50 and 58* if the entry cannot be obtained directly from the previous year's *return*.

PRA

8 The full amount of *premiums* and *claims* under a *contract of insurance* must be reported under heading relating to these items. *Forms 40 to 60* must not be completed on the basis of deposit accounting, regardless of whether the *insurer* or any *group* of which it is part uses this basis in accordance with *international accounting standards*.

PRA

Expenses payable	22		
Interest payable before deduction of tax	23		
Taxation	24		
Other expenditure	25		
Transfer to (from) non technical account	26		
Total expenditure	29		
Business transfers-in	31		
Business transfers-out	32		
Increase (decrease) in fund in financial year (19 - 29 + 31 - 32)	39		
Fund brought forward	49		
Fund carried forward (39+49)	59		

Instructions for completion of Form 40

PRA

- 1 The entry at 40.11.1 must be equal to 41.21.4, the entry at 40.21.1 must be equal to 42.46.4, and the entry at 40.22.1 must be equal to 43.46.4.
- 2 Line 13 is the amount of the increase or decrease (realised or unrealised) in the admissible value of assets (other than linked assets) or, where advantage has been taken by virtue of Rule 9.10 to apply a different value for the purposes of the Actuarial investigation under rule 9.4, the increase or decrease in that value.
- 3 Line 14 must include all gains and losses in respect of *linked assets*.
- 4 Any item of income which cannot properly be allocated to lines 11, 12, 13 or 14 must be entered at line 15, and similarly, any item of expenditure which cannot properly be allocated to lines 21, 22, 23 or 24 must be entered at line 25. Particulars of such items must be specified in a supplementary note [Code 4002]. Lines 15 and 25 must be used for transfers of unit management charges into or out of the fund or subfund. Where there are subfunds, inter-subfund other income and other expenditure must be excluded from the total Form 40.
- 5 Where an *insurer* decides to allocate to the *long-term insurance business* the whole or any part of investment income or net capital gains arising from assets not attributable to its *long-term insurance business*, the amounts in question must first be shown in Form 16 at lines 14 to 16, and then as a transfer at line 26 and particulars must be specified in a supplementary note [Code 4003].
- 6 Interest payable must be included at line 23 and not line 22.
- 7 Taxation at line 24 is that attributable to the *long-term insurance business* including payments received in consideration of surrendering losses as group relief.
- 8 Where a transfer is made to the non-technical account, the entry at line 26 must show amounts which have been included at line 47 of Form 58. However, if there is a net transfer into the fund the entry at line 26 will be negative. The sum of Form 58 lines 32 and 33 will be positive, lines 13, 14 and 47 remaining blank.
- 9 The entry at line 12 must exclude value readjustments on investments and gains on the realisation of investments, which must be shown at lines 13 or 14 as appropriate.
- 10 The entry at line 11 must exclude any change in the provision for unearned premiums, even though it may be included in statutory (e.g. Companies Acts 1985 to 2006) accounts.
- 11 The entry at line 21 must exclude *claims management costs*, which must be

included at line 22, and any change in the provision for *claims*.

- 12 Transfers of contracts from or to other funds or from or to another insurer must be included at line 31 or 32, with details specified in a supplementary note [Code 4004]. Where there are subfunds, inter-subfund transfer must be excluded from the total Form 40.
- 13 If any of the brought forward amounts differs from the corresponding carried forward amounts in the previous *return* and the difference is not due solely to the use of a different rate to express other currencies in sterling then the reason must be stated in a supplementary note [Code 4001].
- 14 If the bases of conversion adopted in respect of foreign currency for income and expenditure have not already been stated in a note to Form 16, the bases must be stated in a supplementary note as specified in paragraph 5(2) of Appendix 9.1 [Code 4005].
- 15 Where an *insurer* maintains more than one *long-term insurance business fund*, the principles and methods applied to apportioning the investment income, the increase or decrease in the value of assets brought into account, expenses and taxation between the different funds must be stated in a supplementary note as specified in paragraph 4(1) of Appendix 9.3 [Code 4006].
- 16 Where arrangements have been in force during the *financial year* for the provision either by or to the *insurer* of management services, this fact must be stated in a supplementary note together with the name of the other party (to whom or from whom such services were provided or received) - see paragraph 5 of *Appendix 9.3*. This statement is only needed where a substantial part of the daytoday administration of an *insurer* is undertaken by another company or vice versa. [Code 4008]
- 17 Details of any *material connected-party transactions* as required under rule 9.39 must be stated in a supplementary note [Code 4009].

Instructions for completion of Form 43

PRA

- 1 In allocating *management expenses* to the relevant lines:
 - (a) subject to (b), costs of a nonrecurring nature, such as those incurred in developing new systems or new premises, or the costs of corporate restructuring, must be reported as 'management – other';
 - (b) where they do not exceed 2% of the total *management expenses*, non-recurring costs may be included as 'management – acquisition' or 'management maintenance' ;
 - (c) the costs incurred in writing new business (or in obtaining incremental (but not indexed) premiums on existing business), such as underwriting, *policy* issue, setting up (or amending) records, and the maintenance and development of the sales and marketing organisation must be reported as management – acquisition'; and
 - (d) the balancing item will be expenses related to the ongoing costs throughout the year of maintaining the business in force (including any investment management costs) which must be reported as 'management – maintenance'.
- 2 Commission payable to employees of the *insurer* whose job is to sell *policies* must be included as 'management – acquisition' or 'management – maintenance'. Commission payable to employees who sell *policies* on a casual basis must be treated in the same way as that paid to *intermediaries* and to *cedents* and so must be included as 'commission – acquisition' or 'commission – other', as the case may be.
- 3 Expenses must be those which relate only to the *insurer's long-term insurance business*. Those relating to any other business of the *insurer* cannot, by virtue of *INSPRU 1.5.30R*, be paid out of the *long-term insurance fund* and must therefore be shown in the *general insurance business* technical account (Form 20) or the nontechnical account (Form 16).
- 4 The entries in line 41 must equal line 11 less the sum of lines 21 and 31.
The entries in line 42 must equal line 12 less the sum of lines 22 and 32.
The entries at line 43 must equal line 13 less the sum of lines 23 and 33.
The entries at line 44 must equal line 14 less the sum of lines 24 and 34.
The entries at line 45 must equal line 15 less the sum of lines 25 and 35.
The entries at line 46 must equal line 16 less the sum of lines 26 and 36.

Instructions for completion of Form 44

PRA

- 1 Double counting of items arising from cross investment between *internal linked funds* must be eliminated.
- 2 The basis on which the assets have been valued must be stated in a supplementary note [Code 4401].
- 3 The aggregate value of rights (gross of *variation margin*) and the aggregate amount of liabilities (gross of *variation margin*) under *derivative contracts* (or in respect of contracts or assets which have the effect of a *derivative contract*) must each be stated in a supplementary note. The corresponding figures net of *variation margin* must also be stated [Code 4402]. For this purpose, rights and liabilities must not be set off against one another unless -
 - (a) such rights and liabilities may be set off against each other in accordance with generally accepted accounting practice; and
 - (b) such set off results (in whole or in part) from the closing out of obligations under a *contract of insurance*.
- 4 Where there is a liability to repay *variation margin* and there are no arrangements for netting of amounts outstanding, or the arrangements would not permit the accounting of such amounts on a net basis in accordance with generally accepted accounting practice, it must be so stated in a supplementary note [Code 4403].
- 5 The total of the net asset value at line 18 must equal line 59 of Form 45.
- 6 If the surplus units exceed 1% of the net unit liability, a statement of the purpose of the surplus units must be given in a supplementary note [Code 4404].
- 7 A supplementary note setting out the name of the fund, the net asset value and the liquidity ratio [Code 4405] must be provided for any fund –
 - (a) whose net asset value is greater than £10m, and with respect to which there is negative liquidity ratio exceeding 0.05 in magnitude; and
 - (b) whose net asset value is greater than £500,000, and with respect to which there is a negative liquidity ratio exceeding 0.5 in magnitude.

where the liquidity ratio is the sum of *approved securities*, short term deposits and cash held in the fund less the liabilities of the fund expressed as a ratio of the net asset value of the fund.
- 8 ‘Connected company’ has the meaning given in rule 11.1.

Long-term insurance business: revenue account for internal linked funds

Codes 100215 are for with-profits business in Form 51.
Codes 300445 are for non-profits business in Form 51.
Codes 500610 are for Form 52.
Codes 700800 are for Form 53.
Codes 900915 are for Form 54.

Life regular *premium product codes* include paid-up policies. Compulsory purchase annuities (CPA) include those arising from group death in service *policies*. "Bulk transfer" annuities referred to in codes 401 and 906 cover all annuities in payment as part of a bulk transfer of liabilities from an occupational pension scheme or a reinsurance contract; these codes are to be used for new business instead of codes 400, 405 and 905. Transfers from insurers under Part VII of the *Act* are recorded in Form 40, there being no premiums passing through the revenue account.

For the purposes of allocation to product codes (e.g. code 175), group business is where there is another party in the arrangement, normally an employer. An *insurer* may use an internal definition to allocate between individual and group business for schemes with less than ten members.

Group money purchase pensions product codes (535, 540, 735, 740) cover policies where the *insurer* holds details at member level. Trustee investment plan product codes (571, 755) cover policies which are not in the name of or earmarked for an individual member. Group managed fund product code (765)

covers unit-linked investments for final salary pension schemes.

- 4 There may be more than one line for the same *product code* within a type and source of business to identify specific brands.
- 5 For direct individual *policies*, columns 3 and 5 are the number of new plans, i.e. eliminating the effect of multiple policies being issued as part of the same premium, identifiable increments and rider benefits. A *policy holder* who takes out plans of the same product code during the year will contribute to column 3 or 5 for each such plan. For direct group scheme business, where the *insurer* has records of benefits at member level, columns 3 and 5 are the number of new members. For group scheme business, where the *insurer* has no records of benefits at member level, columns 3 and 5 must be zero. For business without such records, the number of new group schemes, divided by *product code*, must be set out in a supplementary note (code 4701). Details of approximations made in determining columns 3 and 5 must be given in a note (code 4703). For reinsurance accepted columns 3 and 5 are nil.
- 6 To avoid double counting, a new scheme member for a plan offering a choice of funds may be treated as contributing to column 3 or 5 for unitised with-profits business if all the premiums in the plan are invested in the *with-profits fund*. For *policies* with protection rider benefits, the entry in column 3 or 5 must be for the main benefit in the plan.
- 7 Details must be given in a supplementary note (code 4702) of approximations used to apportion between product codes.

Instructions for completion of Form 48

PRA

- 1 Line 11.1 + 21.1 must equal 13.11.1.
Line 12.1 + 22.1 must equal 13.45.1 + the relevant part of 13.84.1.
Line 13.1 + 23.1 must equal 13.46.1 + the relevant part of 13.84.1.
Line 14.1 + 24.1 must equal 13.47.1 + 13.48.1 + the relevant part of 13.84.1.
Line 15.1 + 25.1 must equal the relevant part of 13.41.1.
Line 16.1 + 26.1 must equal the relevant part of 13.41.1.
Line 17.1 + 27.1 must equal the relevant part of 13.41.1 + 13.21.1 + 13.23.1 + 13.25.1 + 13.27.1.
Line 19.1 must equal line 19.2.
Line 29.1 must equal line 29.2.
Line 19.1 + 29.1 must equal Form 13.89.1 – 13.58.1 – 13.59.1.
- 2 **Collective investment schemes** (in line 13.43) and **collective investment pools** (in line 13.49) must be allocated in column 1 to line 18 or 28. In column 2 they must be allocated according to the underlying assets, but holdings of a type of asset within a collective investment scheme or pool of less than 5% of the assets for that collective investment scheme or pool may be grouped with the main type of underlying asset for that collective investment scheme or pool. An amount of *collective investment scheme* and *collective investment pool* assets not exceeding 1% of the total non-linked assets may be reallocated from column 1 to column 2 based on the stated investment objective instead of the actual underlying assets at the valuation date. Any gearing will reduce the amounts shown in “other assets” (which may therefore be negative in column 2).
- 3 **Equity shares** (lines 21, 23, 25 and 27 of Form 13) must be allocated in column 2 to lines 11, 15, 16, 21, 25 or 26 as appropriate if the undertaking is principally a holding company for *equity shares* or property. An amount of unlisted *equity shares* not exceeding 1% of the total non-linked assets may be reallocated from column 1 to column 2 based on the stated investment objective instead of the actual underlying assets at the valuation date.
- 4 Where there is an obligation to purchase any of the underlying assets or they are ‘in the money’ at the *relevant date*, *derivative contracts* must be allocated in column 2 as if the underlying asset had been purchased on the *relevant date*. Any assumed purchase of assets in respect of ‘in the money’ derivatives will reduce the amounts shown as “other assets” (which may therefore be negative in column 2).
- 5 For a *with-profits fund* the assets backing the non-profit business must equal the amount of the non-profit *mathematical reserves* (lines 42, 45 and 47 of Form 50), plus the relevant part of the *long-term insurance capital requirement* and *resilience capital requirement* if these are backed by assets in that fund). The remaining assets must be treated as backing the with-profits business. For a fund without with-profits business all assets are to be included in lines 11-19. Allocation of assets to back *mathematical reserves* in the base scenario between lines 11-19 and 21-29 does not prevent switches between these lines for the purposes of the *market risk scenario* used in calculating the *resilience capital requirement*.

- 6 Where part of the with-profits business is with respect to business which falls within paragraph (1)(b) of the definition of *with-profits fund* and that part represents more than 10% of the total with-profits *mathematical reserves*, the *insurer* must set out in a supplementary note (code 4801):
- (a) where the *insurer's* 'asset share' philosophy for the block of business assumes a variation of asset mix by duration of *policy*, the brand names of the bonus series in the block of business; and
 - (b) where the *insurer's* 'asset share' philosophy for the block of business assumes an asset mix which is 5% more or less for any of the asset categories in lines 21 to 28 than the asset mix derived from lines 21 to 29 of column 2, the brand names of the bonus series in, and the asset mix for, the block of business.
- 7 The expected income in column 3 must be the amounts before deduction of tax which would be received in the next *financial year* on the assumption that the assets will be held throughout the year and that the factors which affect income will remain unchanged, but account must be taken of any changes in those factors known to have occurred by the *relevant date* (in particular changes of the type (1), (2), (3), (4), (5) and (6) in *INSPRU* 3.1.33R). The expected income shown in this Form must be that determined before any adjustments considered necessary because of rule *INSPRU* 3.1.41R and *INSPRU* 3.1.44R
- 8 Where a particular asset is required to be taken into account only to a specified extent by the application of the admissibility limits, the expected income from that asset must be included only to the same extent.
- 9 The treatment of the expected income from any asset where the payment of interest is in default and the amount of interest involved must be stated in a supplementary note (code 4802).
- 10 The gross redemption yield in column 4 for fixed and variable interest securities must be calculated as in *INSPRU* 3.1.34R(2) before any allowance for tax required by *INSPRU* 3.1.29R, leaving out of account any adjustment considered necessary because of *INSPRU* 3.1.41R and *INSPRU* 3.1.46R. Where a number of assets with different gross redemption yields are held, the weighted average gross redemption yield must be calculated using as weights the value of the asset applicable for entry into column 2. Where *securities* may be redeemed over a period at the option of the guarantor or the issuer, the yield must be determined on the assumption that they will be redeemed at the date implied by the market valuation. If these *securities* represent more than 1% of fixed and variable interest assets (Form 49 line 61) a supplementary note (code 4803) must be provided explaining how the assumed redemption date was determined and stating the value of these assets. Subject to paragraphs 13 and 14, the yields to be inserted in column 4 for other categories of asset must be the running yields determined in accordance with *INSPRU* 3.1.33R to *INSPRU* 3.1.34R before any allowance for tax required by *INSPRU* 3.1.29R. The entries at 48.19.4 and 48.29.4 must be the weighted average of the yields in column 4, where the weight given to each asset is the value of that asset applicable for entry into column 2. Assets not producing income must be included in the calculation.
- 11 Where the yield in column 4 for a type of asset shown at line 18 or 28 is significantly different from the weighted average of the yields for each asset of that type determined in accordance with *INSPRU* 3.1.34R(2) before any allowance for tax required by *INSPRU* 3.1.29R, then the latter yield figure must be shown in a
-

supplementary note (code 4804). For this purpose, the weighted average of the yields means an average yield weighted by the value of each asset of that type as entered in column 2.

- 12 Where an entry at 13.87.1 has resulted from excess *exposure to a counterparty or excess concentration with a number of counterparties*, the aggregate value of the assets of the *insurer* giving rise to *exposure to such counterparties* must be stated in a supplementary note (code 4805), together with the expected income from those assets.
- 13 To the extent that *INSPRU 3.1.34R(2)* has not been, or would otherwise not be required to be, applied to calculate the yield on equity *shares* or holdings in *collective investment schemes*, that rule may be ignored (in which case *INSPRU 3.1.33R* and *INSPRU 3.1.34R(1)* will apply, before any allowance for tax required by *INSPRU 3.1.29R*) for an amount up to the higher of £5 million or 5% of the value of equity *shares* and holdings in *collective investment schemes* required to be reported in Form 48.
- 14 To the extent that a yield greater than zero on equity *shares* or holdings in *collective investment schemes* is not needed for the purpose of determining rates of interest under *INSPRU 3.1.28R*, *INSPRU 3.1.33R* and *INSPRU 3.1.34R* may be ignored for an amount of up to 1% of the value of equity *shares* and holdings in *collective investment schemes* required to be reported in Form 48, and the relevant yield will be taken as zero.
- 15 Firms must state in a supplementary note (code 4806) which assets have been used to calculate the investment returns shown in lines 21-29 column 5. If the firm identifies a portfolio of assets to back asset shares the returns must be based on these assets. If there are several asset share portfolios the return must be based on the largest. The assets used to calculate the investment returns in column 5 will not necessarily be the same as those assets in columns 1 and 2. The returns in lines 21-29 are before allowance for tax and investment costs, as is the return disclosed in Appendix 9.4A paragraph 4(7).
- 16 Column 5 must be expressed as a percentage.

Long-term insurance business: Fixed and variable interest assets

2 Lines 21 to 28 are just for reinsurance ceded external.

Line 21 is the sum of column 9 of Form 51 for *product codes 100-299*.
Line 22 is the sum of column 9 of Form 51 for *product codes 300-499*.
Line 23 is the sum of column 9 of Form 52.
Line 24 is the sum of column 7 of Form 53.
Line 25 is the sum of column 8 of Form 53.
Line 26 is the sum of column 7 of Form 54.
Line 27 is the sum of column 8 of Form 54.
Line 28 is the sum of lines 21 to 27.

3 Lines 31 to 38 are just for reinsurance ceded intra-group.

Line 31 is the sum of column 9 of Form 51 for *product codes 100-299*.
Line 32 is the sum of column 9 of Form 51 for *product codes 300-499*.
Line 33 is the sum of column 9 of Form 52.
Line 34 is the sum of column 7 of Form 53.
Line 35 is the sum of column 8 of Form 53.
Line 36 is the sum of column 7 of Form 54.
Line 37 is the sum of column 8 of Form 54.
Line 38 is the sum of lines 31 to 37.

4

Line 41 = line 11 – line 21 – line 31.
Line 42 = line 12 – line 22 – line 32.
Line 43 = line 13 – line 23 – line 33.
Line 44 = line 14 – line 24 – line 34.
Line 45 = line 15 – line 25 – line 35.
Line 46 = line 16 – line 26 – line 36.
Line 47 = line 17 – line 27 – line 37.
Line 48 = line 18 – line 28 – line 38.

5 Separate Forms must be completed for the total business and each subfund.

Long-term insurance business: Valuation summary of non-linked contracts(other than accumulating with-profits contracts)

Name of insurer

Total business / subfund

Financial year ended

Units

UK Life / UK Pension / Overseas (State or Territory) / Gross / Reinsurance ceded external / Reinsurance ceded intra-group

Product code number	Product description	Number of policyholders / scheme members	Amount of benefit	Amount of annual office premiums	Nominal value of units	Discounted value of units	Other liabilities	Amount of mathematical reserves
1	2	3	4	5	6	7	8	9
					n/a	n/a	n/a	
					n/a	n/a	n/a	

Instructions for completion of Forms 51, 52, 53 and 54

PRA

- 1 Separate valuation summaries must be completed in respect of each separate fund or part of a fund for which a surplus is determined.
- 2 Information must be shown separately for each type of *insurance business* for each of the following:
 - (a) UK life;
 - (b) UK pension; and
 - (c) overseas.

Overseas business may, at the discretion of the insurer, be subdivided by state or territory.
- 3 The information must be shown separately for each source of business for each type of *insurance business* in the sequence specified below:
 - (a) *gross insurance business*;
 - (b) *reinsurance ceded* which is external to the *insurance group*; and
 - (c) *reinsurance ceded* which is to another member of the *insurance group*.
- 4 Subject to 11, information must be further divided by *product code*. 'Product description' in column 2 is the narrative description beside the number of the product code in the table in paragraph 3 of the Instructions for completion of Form 47 but may, at the discretion of the *insurer*, include the brand name. Subdivision of pensions business into increments and DWP National Insurance rebates is not required in Forms 5154. Subdivision of annuities in payment into those arising from bulk transfers is not required in Forms 51-54, i.e. new business reported under codes 401 and 906 is reported under codes 400, 405 and 905 for in force business.
- 5 There may be more than one line for the same *product code* within a type and source of business to identify specific brands or *policies* with special features.
- 6 For direct individual *policies*, column 3 is the number of plans, i.e. eliminating the effect of multiple policies being issued as part of the same premium, identifiable increments and rider benefits. A *policy holder* who holds plans of the same product code taken out at different dates will contribute to column 3 for each such plan. For direct group scheme business, where the *insurer* has records of benefits at member level, column 3 is the number of members. For group scheme business, where the *insurer* has no records of benefits at member level, column 3 must be zero. For business without such records, the number of group schemes, analysed by the *product code*, must be set out in a

supplementary note (codes 5101-5401). Details of approximations made in estimating the number of policyholders from the number of contracts must be given in a supplementary note (codes 5102-5402). For reinsurance accepted and reinsurance ceded column 3 is nil.

- 7 A plan must only contribute once to column 3 in Forms 51-54. The total of *premiums* for the plan shown in Forms 51-54 must equal the total *premiums* for the plan. For plans where the *policyholder* has the option for *premiums* to be invested in both with-profits and internal linked funds, the preferred presentation is as follows. If all the *premiums* are invested in with-profits units and the plan is written in the *with-profits fund* the contribution to column 3 should be shown in Form 52, otherwise the contribution to column 3 should be shown in Form 53. The entry in column 3 is for the investment element of the plan, and the entry in column 3 for protection rider benefits is nil. The annual *premium* in column 5 should be allocated between Form 52 and Form 53 based on the current *premium* allocation percentages. If all the *premiums* are invested in with-profits units and the plan is written in the *with-profits fund* the protection rider benefits should be shown in Form 52, otherwise the protection rider benefits should be shown in Form 53. Where the protection rider benefits are paid for by cancelling units the entry in column 5 for the riders should be shown as nil, and all the *premiums* for the plan should be reported in column 5 under the *product code(s)* for the investment element.
- 8 Columns 6, 7 and 8 must be left blank on Form 51. The purpose of the unused columns in Form 51 is the standardisation of column headings in Forms 51-54.
- 9 For *non-linked contracts* the amount of benefit in column 4 is the current death benefit (excluding any interim and terminal bonus) for assurances, the amount payable on claim for standalone critical illness, the annual amount of annuity for deferred annuities and annuities in payment and the annual amount of benefit for income protection and waiver of premium. For *linked long-term contracts* including life assurance, column 4 must be the current amount payable on death.
- 10 For *property linked long-term contracts*, unitised *with-profits policies* and deposit administration contracts, column 6 must be the current value of the units or fund as presented to the *policy holder*. For *index linked contracts* column 6 must be the index linked liability with no allowance for discounting. The amount in column 7 is the amount in column 6 allowing for any discounting in the valuation. The amount in column 9 is the sum of columns 7 and 8.
- 11 Notwithstanding 4, where neither the *gross mathematical reserves* nor the gross annual premiums with respect to products with the same product code exceed the lesser of £10m and 1% of the total *gross mathematical reserves*, the products may be entered as the appropriate miscellaneous product code in column 1 and 2. The test of whether the appropriate miscellaneous product code may be used must be carried out at firm level combining all subfunds. The product code for reinsurance must correspond to the product code for the related gross business.
12. Where a product does not appear to fit into any other product code, the miscellaneous product code can be used. Details must be disclosed in a supplementary note (codes 5103-5403) if the amount of business for the

product exceeds the threshold in instruction 11.

- 13 Details must be given in a supplementary note (codes 5104-5404) of approximations used to apportion between product codes.**
- 14 Reserves for non-attributable expenses must be included with the appropriate additional reserves product code, i.e. they are not allocated back to and included with reserves at product code level.**

Instructions for completion of Form 55

PRA

- 1** Where the net assets held by the *insurer* for all the *internal linked funds* sharing the same underlying assets for pricing purposes exceed the lesser of £100m and 10% of the total *internal linked funds* (line 59 of Form 45), with the exception of share index tracker funds, any such *internal linked fund* which is in one of the categories listed in 2 must be reported in Form 55. Where a life fund and a pension fund share the same underlying assets, the fund must be reported for the main life series and the main pension series.

- 2** The fund types for column 2 are as follows:

01 - life - stock market managed fund
02 - life - balanced managed fund
03 - life - defensive managed fund
04 - life - other managed fund
05 - life - UK equity
06 - life - overseas equity
07 - life - property
11 - individual pension - stock market managed fund
12 - individual pension - balanced managed fund
13 - individual pension - defensive managed fund
14 - individual pension - other managed fund
15 - individual pension - UK equity
16 - individual pension - overseas equity
17 - individual pension - property
21 - group managed fund - stock market managed fund
22 - group managed fund - balanced managed fund
23 - group managed fund - defensive managed fund
24 - group managed fund - other managed fund
25 - group managed fund - UK equity
26 - group managed fund - overseas equity
27 - group managed fund - property.

- 3** The amount in column 3 is the total net assets attributable to the fund.

- 4** Column 4 is the name of the largest series (by unit liability).

- 5** Column 5 is the annual unit management charge shown to 2 decimal places for the largest series, e.g. 0.75 for an annual charge of 0.75%.

- 6** Columns 6 and 7 are the prices used to value the unit liabilities. Where there has been a transfer of business during the financial year, the price shown in column 6 is from the previous *insurer*.

- 7** Column 8 is $100 \times (\text{column 7} - \text{column 6}) / \text{column 6}$ shown to 2 decimal places, e.g. 20.00 for a 20% increase in unit price during the year.

Long-term insurance business: index linked business

Instructions for completion of Form 56

PRA

- 1** Where index-linked assets (13.58.1) exceed £100m they must be analysed in Form 56. The value of assets in line 20 column 1 must correspond to the value of assets in Form 13.58.1.
- 2** The mean term in column 2 may be calculated by using the expected yearly cashflows discounted by the internal rate of return, or an alternative actuarial method. Undated stocks must be assumed to be redeemed after 40 years.
- 3** Where the sum of other variable interest securities (line 12) and other fixed interest securities (line 14) exceeds £100m, these must be analysed in lines 31-39. A supplementary note (code 5601) must be provided stating which rating agency has been used to provide the split by credit rating.
- 4** Amounts in lines 16 and 17 (column 1) must be shown net of any *variation margin*.

1	2	3	4	5
Total		n/a	n/a	n/a

CHAPTER 1 Instructions for completion of Form 57

PRA

- 1** This Form must be completed for each fund or sub-fund where *mathematical reserves* for non-linked business exceed £100m. Form 57 must not be completed for the total business where the firm has subfunds.
- 2** Separate lines are required for UK Life, UK Pension and overseas business and for with-profits and non-profit business.
- 3** Separate lines are required for each separate asset mix determined by the notional allocation of assets to contracts.
- 4** Separate lines are required for each valuation interest rate.
- 5** The product group in column 1 must be a narrative description of the products included in the line sufficient to give a cross reference to Forms 51-54, e.g. 'UK L&GA WP Form 51 assurances'.
- 6** The *mathematical reserves* in column 2 must include any increase in reserves resulting from the bonus declaration for the year and must be net of *reinsurance ceded*.
- 7** Up to 10% of the total relevant liabilities for the fund may be shown in a line labelled 'Misc' in column 1. In this case columns 3 and 4 must be 'n/a'. The relevant liabilities are the total *mathematical reserves* including cost of bonus plus any deposit back, less property linked unit liabilities and index linked investment liabilities.
- 8** The risk adjusted yield in column 5 must allow for the adjustments from *INSPRU 3.1.41R*.
- 9** The *insurer* must include a supplementary note (code 5701) where negative *mathematical reserves* on one group of products have been used to offset positive *mathematical reserves* on another group of products, giving details of the amounts and products involved.

Instructions for completion of Form 58

PRA

- 1 Separate Forms must be completed for the total business and each subfund.
- 2 The entry at line 11 must be equal to the entry at line 59 in Form 40 for the relevant subfund.
- 3 Where interim, mortality or terminal bonuses are determined in advance of a valuation and are paid in anticipation of surplus arising at the valuation, the amounts of such bonus actually paid in the period up to the *relevant date* must be entered at lines 12 and 41. To the extent that it is the practice of the *insurer* to make special provision for the cost of such bonuses payable on future *claims* out of surplus arising at a valuation, such amounts must be treated as amounts allocated to *policy holders* at the valuation in question and included at line 44, and the actual amounts paid must not appear at lines 12 and 41 at future valuations. An appropriate supplementary note (code 5801) must identify the various items where necessary.
- 4 Where *policies* have been transferred from one subfund to another, the associated transfer of reserves must not be included as a “transfer” in this Form. Where any other transfer has been made, only one block of lines must be used (lines 13 and 14 or 32 and 33, depending on the direction of the net transfer) leaving the other block blank.
- 5 When the *insurer* records a transfer to the nontechnical account or to another fund or part fund in a revenue account (Form 40) for a particular period, the amount of which has been derived from a valuation completed at the end of that period, that transfer must be shown at line 13 or 14 as appropriate, so that the true surplus appears in line 29.
- 6 Where the *insurer* decides to allocate to the *long-term insurance business* the whole or any part of the investment income or net capital gains arising from assets not attributable to its *long-term insurance business*, the allocation must be included in Form 58 as a transfer from the non-technical account. This transfer must be included at lines 13 or 32, depending on whether, for the *financial year in question*, there is an overall net transfer out of, or into, the fund (or part fund).
- 7 Where the entry at line 14 or line 33 represents more than one transaction, each transfer must be separately identified in a supplementary note (code 5802).
- 8 Line 61 is line 46 expressed as a percentage of line 48.
- 9 For each fund/subfund, the entry at line 21 must equal the total liabilities shown at line 48 in column 4 of Form 50.
- 10 The figure at lines 39 and 59 must equal the figure at line 29.

- 11** **The figure at line 47 must equal the sum of lines 13 and 14.**
- 12** **Lines 61-64 are not applicable for the total business where there is more than one subfund.**

Long-term insurance business: With-profits payouts on maturity (normal retirement)

Instructions for completion of Forms 59A and 59B

PRA

- 1 **‘Original insurer’ means the insurance undertaking which effected the *policy* (which may be same entity as the *insurer*).**
- 2 **Where the with-profits *mathematical reserves* relating to the business of the original insurer exceed £100m, Forms 59A and 59B must be completed for the original insurer.**
- 3 **The date of the maturity value, open market option or surrender value is two months and one day after the valuation date, for example 1st March for a 31st December valuation.**
- 4 **In Form 59A, column 3 is the maturity value for endowment assurances or the open market option for regular and single premium pension business.**
- 5 **Maturity values for endowment assurances must be based on a £50 monthly premium paid by a male non-smoker aged 30 next birthday at the date the *policy* commenced.**
- 6 **Open market options for regular premium pension must be based on a personal pension or s226 *policy* with a £200 monthly premium paid by a male aged 65 at retirement, for a selected retirement age of 65 at outset. The *insurer* must assume that the *policy* commenced on the relevant birthday date appropriate to the term of the *policy* with the final premium payable one month before retirement aged 65.**
- 7 **Open market options for single premium pensions must be based on a personal pension or s226 *policy* with a £10,000 single premium paid by a male aged 65 at retirement, for a selected retirement age of 65 at outset. The *insurer* must assume that the *policy* commenced on the relevant birthday date appropriate to the term of the *policy*.**
- 8 **Surrender values for endowment assurances must be based on a £50 monthly premium paid by a male non-smoker aged 30 next birthday with an original term of 25 years at the date the *policy* commenced.**
- 9 **Surrender values for with-profits bonds must be based on a £10,000 single premium paid by a male aged 50 at the date the *policy* commenced. The *insurer* must assume that no prior withdrawals have taken place.**
- 10 **Surrender values for single premium pensions must be based on a personal pension or s226 *policy* with a £10,000 single premium paid by a male aged 40 at the date the *policy* commenced.**
- 11 **Where the *insurer* did not effect *policies* in a particular category or the *policy* category was not open to new business (apart from increments) at the date the *policy* is assumed to have commenced, the entry in columns 3 to 8 must be**

'n/a'.

- 12 **Column 4 is the amount of terminal bonus included in column 3. If a market value (or similar) adjustment has been applied, then that amount must be shown as a negative amount in column 5.**
- 13 **Column 6 is CWP (conventional with-profits) or UWP (unitised with-profits).**
- 14 **Column 7 is Y if an MVA is permitted by the policy conditions at the date of maturity / date of surrender for that policy, otherwise N.**
- 15 **Where there is more than one version or premium rate for one of the data lines, the data shown must be for the version where there is the largest amount of business.**

Long term insurance capital requirement	51						

Instructions for completion of Form 60

PRA

- 1 The *insurance death risk capital component* in lines 11-15 column 5 is based on capital at risk for those contracts where it is not negative. Capital at risk is the benefit payable as a result of death less the *mathematical reserves* after distribution of surplus. *Life protection reinsurance business* written by a *pure reinsurer* or a *mixed insurer* is reported in line 11. Other business in classes I, II and IX must be split between lines 12, 13 and 14 in accordance with *INSPRU 1.1.82R*. Line 12 is for temporary insurance on death where the original term of the contract is 3 years or less. Line 13 is for temporary insurance where the original term is 5 years or less but more than 3 years. Line 14 is for other *class I, II or IX* business. For a *pure reinsurer* the factor of 0.3% in column 1 of line 15 must be replaced by 0.1%.
- 2 In lines 11-15 columns 2 and 3 are the gross and net capital at risk in accordance with *INSPRU 1.1.83R*. For lines 12-14 the reinsurance factor is calculated in aggregate, so column 4 is the sum of lines 12-14 column 3 divided by the sum of lines 12-14 column 2, subject to a minimum of 0.5 in accordance with *INSPRU 1.1.81R*. For line 15 column 4 is column 3 divided by column 2, subject to a minimum of 0.5 in accordance with *INSPRU 1.1.81R*. Column 5 is column 1 x column 2 x column 4.
- 3 The *insurance health risk and life protection reinsurance capital component* in line 21 column 5 must be equal to the entry at line 43 in Form 12 for *long-term insurance business*, unless an estimate has been made in accordance with instruction 2 to Forms 11 and 12. In this case a supplementary note (code 6001) is required as described in that instruction.
- 4 For the purpose of calculating the *insurance expense risk capital component* and the *insurance market risk capital component* linked contracts must be allocated to:
 - lines 33 and 43 where the *firm* bears an investment risk,
 - lines 34 and 44 where the *firm* does not bear an investment risk but where the allocation to cover *management expenses* is fixed for a period exceeding 5 years from the commencement of the contract, and
 - lines 35 and 45, otherwise.

Life protection reinsurance business and *permanent health reinsurance business* written by a *pure reinsurer* or a *mixed insurer* must be allocated to lines 31 and 41.
- 5 The *insurance expense risk capital component* for linked contracts where the *firm* bears no investment risk and the allocation to cover *management expenses* does not have a fixed upper limit for a period exceeding 5 years from the commencement of the contract in line 35 is 25% of net *administrative expenses* in accordance with *INSPRU 1.1.88R(1)*.

- 6 The *insurance expense risk capital component* for class V in line 37 column 5 is 1% of the assets of the tontine in accordance with *INSPRU 1.1.88R(2)*.
- 7 The *insurance expense risk capital component* for other business in lines 32, 33, 34, 36 and 38 column 5 is 1% of adjusted *mathematical reserves* after distribution of surplus in accordance with *INSPRU 1.1.88R(3)*. Column 4 is column 3 divided by column 2, subject to a minimum of 85% (50% for a pure reinsurer) in accordance with *INSPRU 1.1.90R*. Column 5 is column 1 x column 2 x column 4.
- 8 The *insurance market risk capital component* in lines 44 and 45 column 5 for class III, VII and VIII contracts where the *firm* does not bear any investment risk and in line 46 for class V contracts is nil in accordance with *INSPRU 1.1.89R*.
- 9 The *insurance market risk capital component* in line 42, 43, 46 and 48 column 5 is 3% of adjusted *mathematical reserves* after distribution of surplus in accordance with *INSPRU 1.1.89R*. Column 4 is column 3 divided by column 2 subject to a minimum of 85% (50% for a pure reinsurer) in accordance with *INSPRU 1.1.90R*. Column 5 is column 1 x column 2 x column 4. The amount in line 49 column 3 must equal the amount in Form 14 line 11.
- 10 The *long term insurance capital requirement* in line 51 column 5 is the sum of column 5 in lines 16, 21, 39 and 49.
- 11 The ratios in column 4 must be shown to 2 decimal places, but the unrounded ratios must be used for the purposes of calculating column 5.
- 12 Where the previous financial year ends before 31 December 2006, column 6 must be completed using the corresponding figures from the previous return, e.g. line 12 column 6 contains the amount previously shown in line 11 column 5.

Appendix 9.4 (rule 9.31)

Abstract of Valuation Report

The following information must be provided in the abstract of the report required under rule 9.31, the answers being numbered to accord with the numbers of the corresponding paragraphs of this Appendix. For the purposes of this Appendix, the “report period” means the period from the date to which the previous investigation under rule 9.4 related to the ‘valuation date’ (as defined in 1).

Introduction

- 1 (1) The date to which the actuarial investigation relates, namely, the *valuation date*.
- PRA (2) The previous valuation.
- (3) The dates of any interim valuations (for the purposes of rule 9.4) carried out since the previous ‘valuation date’.

Product range

- 2 (1) Any significant changes in products during the *financial year* (new products, new bonus series, products withdrawn, changes to options or guarantees under existing products), including product brand names and charging methods, but not the amounts of the charges where these form part of the product terms. A statement for each with-profits subfund categorising that subfund into one of the categories (a), (b), (c) or (d) below:
- PRA (a) open to new with-profits business;
- (b) open only to new non-profit business;
- (c) open but was not actively marketing in the previous financial year; or
- (d) closed to new business except by increment.

Discretionary charges and benefits

- 3 (1) For each accumulating with-profits product where the *insurer* has the option to apply a market value reduction (or equivalent), a statement of the period when this has been applied during the year and a summary of the policy years of entry to which it applied.
- PRA (2) Any changes to premiums on reviewable non-linked protection policies, including for each product affected, the range of the changes (x% to y%), the amount of business affected by a change, and the amount of business where a change was permitted but did not occur at this review date. For yearly renewable term assurance a change means a change in the underlying premium rates.
- (3) For non-profit deposit administration benefits, the interest rate

added during the year.

- (4) For service charges on linked *policies*, the percentage changes to service charges for in force *policies*.
- (5) For benefit charges on linked *policies*, any changes to benefit charges (mortality, morbidity, etc) on linked *policies*, including for each product affected the range of the changes (x% to y%), and the amount of business affected by the change.
- (6) Any changes to unit management charges or notional charges to accumulating with-profits *policies*, and the amount of business affected by the change.
- (7) For unit pricing of *internal linked funds*:
 - (a) a description of the methods, and the types of unit to which each applies, used for:
 - (i) the creation and cancellation of units in *internal linked funds*, and
 - (ii) determining unit prices for the allocation of units to, and the de allocation of units from, *policies*including information on:
 - (iii) the basis of the valuation of assets and how the basis is selected (for example, offer basis for net creations of units and bid basis for net cancellations), and
 - (iv) the timing of the asset valuation used in respect of such operations in relation to the time at which the operation is decided upon and effected;
 - (b) when at any one time different pricing bases apply to different *policies*, details of the circumstances which give rise to the difference; and
 - (c) where assets are units in *collective investment schemes* or similar assets, the price used and the relationship between the last opportunity to deal at that price and the time of the valuation.
- (8) For tax deductions from internal linked funds, the allowance and timing of withdrawal from the fund for tax on realised and unrealised gains and losses, including notional gains on unit trusts, specifying the tax rate used.
- (9) For tax provisions for internal linked funds, a description of the methods and the types of unit to which each applies, used to determine the provision for tax on realised and unrealised capital gains and the percentage of these gains deducted or provided for

during the report period.

- (10) Wherever *units* in *permitted scheme interests* are held in an *internal linked fund*, or where *property linked benefits* are linked to such *units*, the rate of discount, commission or other allowance made to the *insurer* on the purchase, sale or holding of *units* and the extent to which the *policyholder* benefits from such discount, commission or other allowance.

Valuation basis (other than for special reserves)

Where either the gross *mathematical reserves* or the gross annual premiums for a group of products using the same valuation method and basis exceed the lesser of £10m and 1% of the total gross *mathematical reserves*, the method and basis of valuation must be given in accordance with 4(1) to 4(9). Where a prospective method has not been used, the basis reported must be the basis used by the *insurer* to test the adequacy of the reserves.

4

PRA

- (1) The valuation methods used and the types of product to which each method applies, including a description of any non-standard method. See 5 to 8 for special reserves.
- (2) A table of the interest rates used, showing the product group, the rate used at the end of the *financial year in question*, and the rate used at the end of the previous *financial year*. Where the valuation with respect to a product involves more than one interest rate (e.g. a rate in deferment and a rate in possession), both interest rates must be shown.
- (3) How the yield was adjusted to allow for risk for equity *shares*, property and other *fixed interest securities* to determine the risk adjusted yield in Form 57.
- (4) A table of mortality bases used, showing the product group and the bases used at the end of the *financial year in question* and at the end of the previous *financial year*. If a mortality basis cannot be expressed as a flat percentage of a standard table or as a standard table subject to a flat age rating, then the mortality basis should be shown as 'modified <name of table>'. For assurance where the 'modified table' description is used, rates must be provided for ages 25, 35, 45 and 55. For all annuitant mortality bases covered by this paragraph, the complete expectation of life at age 65 and 75 for annuities in payment and the complete expectation of life at age 65 for current ages 45 and 55 for deferred annuities must be provided. Allowances made for future changes in mortality where not implicit in the basis, and details of any allowance made and the amount of any reserve held, for any possible detrimental impact of significant changes in the incidence of disease or developments in medical science on the mortality experience of the *insurer* assumed in the valuation of the *contracts of insurance* must be provided.
- (5) A table of morbidity bases used, showing the product group and the bases used at the end of the *financial year in question* and at the end of the previous *financial year*. If a basis cannot be expressed as

a simple modification to a standard table (e.g. flat percentage, age rating), the basis must be shown as 'modified <name of table>'. Where the 'modified table' description is used the morbidity rates and recovery rates must be provided for ages 25, 35, 45 and 55. Inception and recovery rates for income protection business are only required for the most common deferred period in the firm's business and for occupation class 1. The deferred period must be stated. Recovery rates must be provided at durations of 2 and 5 years. Allowances made for future changes in morbidity, and details of any allowance made and the amount of any reserve held, for any possible detrimental impact of significant changes in the incidence of disease or developments in medical science on the morbidity experience of the *insurer* assumed in the valuation of the *contracts of insurance* must be provided.

- (6) A table of expense bases used, showing the product group, the basis for the *financial year in question*, and the basis for the previous *financial year*. The table must show zillmer adjustments, expense assumptions for prospective methods where no further premiums are payable, expense assumptions for gross premium valuations of with-profits and non-profit premium paying business and expense assumptions for non-unit liability calculations for linked business, identifying monetary amounts and the percentages of premiums.

Per policy amounts are only required for the following classes:

CWP savings endowment (product code 120)

CWP target cash endowment (125)

CWP pensions (155 / 165)

Term assurance (325 / 330)

Critical illness (340/ 345 / 350/ 355)

Income protection (360 / 365)

Income protection claims in payment (385)

Annuity (400)

UWP bond (500)

UWP savings endowment (510)

UWP target cash endowment (515)

UWP regular premium pension (525 / 545)

UWP single premium pension (525 / 545)

UWP group regular premium pension (535)

UWP group single premium pension (535)

UL bond (700)

UL savings endowment (715)

UL target cash endowment (720)

UL regular premium pension (725)

UL single premium pension (725)

UL group regular premium pension (735)

UL group single premium pension (735).

Where different expense bases apply to variants within the classes shown above in the same subfund, the basis shown must be that applicable to the largest category by number of policies. Where the expense basis varies by subfund, the table is required at subfund level. Expense bases are not required for other products. Where the *insurer* has treated some expenses as non-attributable, the amount to be shown in the table is the attributable expenses.

Expenses must be shown before adjustment for tax relief and the assumed rate of tax relief must be stated.

- (7) A table showing the unit growth rates for gross and net linked business before management charges and the inflation rates assumed for future expenses and future increases in *policy* charges.
- (8) Future bonus rates for gross premium valuations of with-profits business and for valuations of unitised with-profits business.
- (9) A summary of the lapse, surrender and paid-up assumptions using the format of the table below.

Product		Average lapse / surrender / paid-up rate for the policy years			
		1-5	6-10	11-15	16-20
Level term	lapse				
Decreasing term	lapse				
Accelerated critical illness	lapse				
Income protection	lapse				
CWP savings endowment	surrender				
CWP target cash endowment	surrender				
UWP savings endowment	surrender				
UWP target cash endowment	surrender				
UL savings endowment	surrender				

UL target cash endowment	surrender				
UWP bond	surrender				
UWP bond	automatic withdrawals				
UL bond	surrender				
UL bond	automatic withdrawals				
CWP pension regular premium	PUP				
CWP pension regular premium	surrender				
CWP pension single premium	surrender				
UWP indiv pension regular premium	PUP				
UWP indiv pension regular premium	surrender				
UWP indiv pension single premium	surrender				
UL indiv pension regular premium	PUP				
UL indiv pension regular Premium	surrender				
UL group pension regular premium	PUP				
UL group pension regular premium	surrender				
UL indiv pension single premium	surrender				

The *insurer's* lapse, surrender and paid-up rates must be converted into average annual rates over the 5 year period. A simple arithmetic average of the individual annual rates is acceptable. For example, the figure for the period 610 means the average of the lapse rates in policy years 6, 7, 8, 9 and 10. For pension business assume age 40 at entry and retirement at age 65, e.g. 1620 represents surrenders from age 55 to 60. Surrender rates exclude additional surrenders at the end of the period where surrender penalties no longer apply. These additional surrenders must be disclosed in a separate note. For automatic bond withdrawals enter 'x% of current' where the current amount of withdrawal is used at policy level.

The distinction between individual and group pension business is the same as in Form 47 instruction 3 to allocate between product

codes.

Where the *insurer* uses alternative bases for the same product (e.g. a basis which differentiates by source of business or subdivisions of that product), the lapse rates in an individual cell may be calculated from a basis which is used by at least 50% of the business for that product. In other circumstances an estimated weighted average must be calculated. The basis is not required for cells where the assumption will not apply to any business other than increments, or where the business is reported under a miscellaneous product code.

Where the *insurer* uses lapse rates which vary with calendar year, the rates in the table must be the average of the rates which apply to a policy of exact duration 0, 5, 10 or 15 in the five years following the valuation. A note must be provided explaining how lapse rates vary with calendar year.

Where the *insurer* uses lapse rates which vary according to whether the *mathematical reserves* are positive or negative, the table must show both sets of rates. A note must be provided explaining how the *insurer* determines which set of rates is applied.

The lapse basis is not required for products not shown in the table above. Where no allowance is made for lapses in the valuation, this must be stated.

- (10) Any other material basis assumptions not stated elsewhere.
- (11) How the valuation of liabilities allowed for *derivative contracts* (or contracts or assets having the effect of *derivative contracts*). Derivatives held in connection with options or guarantees must be included in 5. If the valuation does not correspond to the *Form 48* presentation, an explanation and reconciliation must be provided. A statement of how any out-of-the-money derivatives have been used to back liabilities must be provided.
- (12) An estimate in £m of the effect on *mathematical reserves* of specified changes in valuation methodology as at the valuation date arising from changes in *INSPRU* valuation rules effective from 31 December 2006. The effect of the changes must be analysed into the categories below.

Allowance for lapses on valuation of protection business
Allowance for negative reserves on valuation of protection business
Allowance for lapses on valuation of unit linked business
Allowance for attributable expenses on valuation of unitlinked business

For protection business, the changes are assumed to be applied in the order shown, e.g. the effect of negative reserves is after the effect of lapses.

Options and guarantees

Where the basic reserve exceeds the lesser of £10m and 1% of the total gross *mathematical reserves*, the methods and bases used for the calculation of the reserves options and guarantees must be given in accordance with 5(1) to 5(4). The bases must include the assumptions for the takeup of the options and guarantees. For the purposes of 5, guarantees do not include those which have already been explicitly valued (e.g. the guaranteed sum assured on endowment contracts).

5

PRA

(1) **Guaranteed annuity rate options (where the ‘asset share’ or amount of benefit may be converted, at the option of the *policy holder* from cash to annuity at a guaranteed rate), including:**

- (a) a description of the method used; and
- (b) a table showing:
 - (i) product name,
 - (ii) basic reserve,
 - (iii) spread of outstanding durations,
 - (iv) guarantee reserve,
 - (v) guaranteed annuity rate (expressed as a percentage of the cash sum for a male age 65). If there are categories of business with guaranteed annuity rates differing by more than one percentage point, these categories must be shown separately,
 - (vi) whether *policy holders* may make increments to the *policy*
 - (vii) form of the annuity (e.g. yearly in arrears, single or joint life, and so on), and
 - (viii) retirement ages.

(2) **Guaranteed surrender values and guaranteed unit linked maturity values, including:**

- (a) a description of the method and basis used; and
- (b) a table showing:
 - (i) product name,
 - (ii) basic reserve,
 - (iii) spread of outstanding durations,

- (iv) guarantee reserve,
- (v) guaranteed amount,
- (vi) MVA free conditions,
- (vii) in force premiums, and
- (viii) whether *policy holders* may make increments to the *policy*.

(3) Guaranteed insurability options, including:

- (a) a description of the method and basis used; and
- (b) for conversion and renewal options where the total sum assured exceeds £1b, a table showing:
 - (i) product name,
 - (ii) in force premiums,
 - (iii) sum assured,
 - (iv) description of the option, and
 - (v) guarantee reserve.

(4) The nature of any other guarantees and options, including a description of the method and basis used, the amount of business (premium, sum assured or reserve), and the amount of additional reserve.

Expense reserves

- (6)**
- PRA
- (1) The aggregate amount of expense loadings, grossed up for taxation where appropriate, expected to arise during the 12 months from the ‘valuation date’ from implicit and explicit reserves made at the ‘valuation date’ to meet expenses in fulfilling contracts in force at the ‘valuation date’. Where all expenses for the *insurer* are attributable, the amounts arising from each of the implicit allowances, explicit allowances for investment expenses and explicit allowances for other maintenance expenses. Where the *insurer* has treated some expenses as nonattributable (*INSRU* 1.2.54AG), the *insurer* must complete the table below. The name of each risk group must be sufficient to identify the products in the group. The penultimate line is for products where all expenses are attributable.**

Homogeneous risk group	Implicit allowances	Explicit allowances (investment)	Explicit allowances (other)	Non – attributable expenses	Total
<group 1>					
...					
All expenses attributable				n/a	
Total					

- (2) A brief statement of the basis of calculating implicit allowances.
- (3) Where the amount of maintenance expenses is significantly different from the maintenance expenses shown at line 14 of *Form 43*, an explanation of this.
- (4) New business expense overrun reserve, including the method and basis of calculation (whether or not a reserve is required) in respect of the expenses of continuing to transact new business during the 12 months following the ‘valuation date’ and the amount of the reserve so calculated.
- (5) The maintenance expense overrun reserve or, where an explicit reserve has not been made for meeting the expenses likely to be incurred in future in fulfilling the existing contracts on the basis of specific assumptions in regard to the relevant factors, details of the basis used to test the adequacy of the reserves to satisfy *INSPRU 1.2.50R*, in either case stating whether redundancy costs or costs of terminating management agreements have been taken into account (with or without stating the amount of such costs).
- (6) Where the *insurer* has treated some expenses as nonattributable, details of the method used to calculate the reserve for these expenses and a table showing the reserve for each homogeneous risk group.

Mismatching reserves

- 7
- (1) Subject to (2), a table of the sum of the *mathematical reserves* (other than liabilities for *property linked benefits*) and the liabilities in respect of the deposits received from *reinsurers* as shown in *Form 14*, analysed by reference to the currencies in which the liabilities are expressed to be payable, together with the value of the assets, analysed by reference to currency, which match the liabilities.

PRA

- (2) Liabilities totalling up to 2% of the total under (1) may be grouped together as 'other currencies', and the assets matching those liabilities are not required to be analysed by reference to currencies as long as the proportion of such liabilities which are matched by assets in the same currency is stated.
- (3) The amount of reserve for currency mismatching and a description of the method used to calculate the reserve.
- (4) A statement of the most onerous scenario under *INSPRU* 3.1.16R for assets invested in the UK and other assets that fall under *INSPRU* 3.1.16R for the purposes of calculating the resilience capital requirement in *INSPRU* 3.1.10R.
- (5) A statement of the most onerous scenario under *INSPRU* 3.1.23R for each significant territory in which assets are invested outside the UK for the purposes of calculating the resilience capital requirement in *INSPRU* 3.1.10R.
- (6) In respect of the scenarios described under (4) and (5) which produce the most onerous requirement (whether or not a resilience capital requirement is required),
 - (a) the amount of the *resilience capital requirement* if such a requirement arises,
 - (b) the change in the aggregate amount of the *longterm insurance liabilities*, and
 - (c) the aggregate amount by which the assets allocated to match such liabilities in the scenario have changed in value from the amount of those assets shown in Form 13.
- (7) A statement of any further reserve made arising from the test on assets in *INSPRU* 1.1.34R together with a brief description of the method used and assumptions made to calculate any such reserve.

Other special reserves

- 8 PRA For other special reserves which exceed the lesser of £10m and 0.1% of total *mathematical reserves*, the nature and amount of the reserves, including (where the reserve is greater than the lesser of £10m and 0.5% of total *mathematical reserves*) a description of the method and basis used to calculate each reserve.

Reinsurance

- 9 PRA (1) For long-term insurance business ceded on a facultative basis to a reinsurer who is not authorised to carry on insurance business in the United Kingdom at any time during the report period –
- (a) the aggregate of premiums payable by the *insurer* to all such *reinsurers* (subdivided according to financial years, if appropriate) and the aggregate amount deposited at the

'valuation date' under any *deposit back arrangement*; and

- (b) the amount of any such premiums payable by the insurer to any reinsurer which is a connected company of the insurer and the aggregate amount deposited at the 'valuation date' under any deposit back arrangement.**

(2) Where:

- (a) the treaty is a 'financing arrangement'; or**
- (b) premiums under (f) exceed the lesser of £10m and 1% of *gross premiums*; or**
- (c) reserves under (j) exceed the lesser of £10m and 1% of total *mathematical reserves*,**

a table showing for each treaty, or group of similar treaties, of *reinsurance* where the *insurer* is the *cedent* and under which business is in force at the 'valuation date':

- (d) the name of the reinsurer;**
- (e) an indication of the nature and extent of the cover given under the treaty;**
- (f) the premiums payable by the *insurer* under the treaty during the report period;**
- (g) the amount deposited at the 'valuation date' in respect of the treaty under any *deposit back arrangements*;**
- (h) whether the treaty is closed to new business.**
- (i) the amount of any undischarged obligation of the insurer;**
- (j) the amount of mathematical reserves ceded under the treaty; and**
- (k) the retention by the *insurer* (e.g., x% up to £Y) for new *policies* being *reinsured*,**

with a note setting out:

- (l) whether the *reinsurer* is authorised to carry on *insurance business* in the United Kingdom;**
- (m) whether the *reinsurer* is a *connected company* of the *insurer*;**
- (n) a description of any material contingencies, such as credit risk or legal risk, to which the treaty is subject;**

- (o) the extent to which provision has been made for any liability of the *insurer* to refund any amounts of *reinsurance* commission in the event of lapses or surrender of the contract; and
- (p) for each 'financing arrangement':
 - (i) a brief description of the conditions for the discharge of any undischarged obligation of the *insurer*, and
 - (ii) a description of how, if at all, all such undischarged obligations have been taken into account in the valuation, including a description of the impact of the arrangement on the reported valuation result and any allowance made for contingencies, such as credit risk or legal risk, associated with the financing arrangement for the purposes of the *return*.

(3) In this paragraph 9:

- (a) *financing arrangement* means any contract entered into by the *insurer*, in respect of *contracts of insurance* of the *insurer*, which has the effect of increasing the long term capital resources in line 11 of *Form 2*, and which includes terms for
 - (i) the transfer of assets to the *insurer*, the creation of a *debt* to the *insurer* or the transfer of liabilities to *policy holders* from the *insurer* (or any combination of these), and
 - (ii) either an obligation for the *insurer* to return (with or without interest) some or all of such assets, a provision for the diminution of such *debt* or a provision for the recapture of such liabilities, in each case, in specified circumstances; and
- (b) paragraphs (1), (2) and (3)(a) of rule 9.28 (which relate to connected persons) have effect for the purposes of this paragraph as they have effect for the purposes of those rules.

Reversionary (or annual) bonus

10

PRA

- (1) Where the *mathematical reserves* under (b) exceed the lesser of £10m and 1% of the total *mathematical reserves*, a table showing (by bonus series):
 - (a) name of bonus series;
 - (b) amount of *mathematical reserves*;

- (c) reversionary bonus rate for the *financial year in question*;
 - (d) reversionary bonus rate for the preceding *financial year*,
and
 - (e) total guaranteed bonus rate for the *financial year in question* (whether in the form of a guaranteed cash benefit, guaranteed investment return or reversionary bonus).
- (2) For unitised with-profits business, the table under (1) must show the percentage increase in unit price during the year or the equivalent in bonus units added.
- (3) For super compound bonuses, the table under (1) must show both rates (e.g., 2%/3% for 2% bonus on the sum assured and 3% bonus on the existing bonus).
- (4) For bonus series where bonus rates vary (e.g., by age or term), the table must show an approximate weighted average reversionary bonus and a note must be included stating the factors by which reversionary bonus rates vary. If they vary according to premium paying status, bonus rates must be shown in separate lines.

Appendix 9.4A (rule 9.31(b))

Abstract of Valuation Report for Realistic Valuation

The following information must be provided in the abstract of the report required under rule 9.31(b), the answers being numbered to accord with the numbers of the corresponding paragraphs of this Appendix. For the purposes of this Appendix, the “report period” means the period from the previous calculation of the *with-profits insurance capital component* under rule 9.4(2)(c) related to the ‘valuation date’ (as defined in 1).

Introduction

- 1
- (1) The date to which the actuarial investigation relates, namely, the *valuation date*.
- PRA
- (2) The date of the previous valuation.
- (3) The dates of any interim valuations carried out since the previous ‘valuation date’.

Assets

- 2
- (1) For each *with-profits fund* in which any *non-profit insurance contracts* are written, a table of the economic assumptions used to determine the value of future profits (or losses) on those contracts, showing the economic assumptions used at the end of the *financial year in question*, and used at the end of the *preceding financial year*.
- PRA
- (2) For each *with-profits fund* in respect of which the *realistic value of the assets* includes an amount determined under *INSPRU 1.3.33R(2)*, a table of the economic assumptions used to determine any additional amount by reference to the value of future profits (or losses) on *non-profit insurance contracts* according to *INSPRU 1.3.33R(3)(b)(iii)*.
- (3) For each *with-profits fund* in respect of which an asset not exceeding 50% of the present value of future profits arising from insurance contracts written outside the *with-profits funds* is included in the relevant assets for the purpose of *INSPRU 1.3.43R* in accordance with *INSPRU 1.3.45R(2)(c)* and *INSPRU 1.3.45R(5)*, a table of the economic assumptions used to determine that present value.
- (4) Where the valuation of the future profits (or losses) on *non-profit insurance contracts* in (1) or of any additional amount in (2) or of any present value in (3) involves more than one set of economic assumptions, (for example, different sets of economic assumptions are used for different *with-profits funds*), each different set of economic assumptions must be shown.

With-profits benefits reserve liabilities

- 3
- (1) For each *with-profits fund*, a table of the retrospective methods (see *INSPRU 1.3.119R*) and/or prospective methods (see *INSPRU 1.3.128R*) used to calculate the *with-profits benefits reserve* for that fund,
- PRA

showing:

- (a) the types of product or classes of *with-profits insurance contracts* to which each of the retrospective methods and/or prospective methods applies;
 - (b) for each type of product or class of *with-profits insurance contracts* and method, the corresponding amounts of the *with-profits benefits reserve* and the *future policy related liabilities*; and
 - (c) the aggregate amount of the *with-profits benefits reserve* and the *future policy related liabilities* for those types of product or classes of *with-profits insurance contracts* which are not required to be disclosed separately (in accordance with 3(3)).
- (2) If the total of the amounts of the *with-profits benefits reserve* and *future policy related liabilities* shown in the table under (1) do not correspond to the respective amounts shown at lines 31 and 49 of the appropriate Form 19, an explanation and reconciliation must be provided.
 - (3) The separate disclosure of the retrospective methods and prospective methods used to calculate the *with-profits benefits reserve* of a *with-profits fund* is not required for types of products and/or classes of *with-profits insurance contracts* to the extent the aggregate amount of the *realistic value of liabilities* for all types of products and/or classes of *with-profits insurance contracts* in respect of which the valuation methods are not disclosed is less than the higher of 5% of the *realistic value of liabilities* for that fund and £20 million.
 - (4) References in paragraph 3 of this Appendix to types of product and/or classes should be taken as meaning the constituent elements of a division of the portfolio of *with-profits insurance contracts* by grouping those contracts having regard to materially different guarantees and options such as pension contracts with minimum bonuses and annuity rate options, pension contracts with minimum bonuses, pension contracts with no minimum bonuses, life bonds issued with no Market Value Reduction / Market Value Adjustment type clauses (MVR/MVAs), life bonds with spot MVR/MVA free dates (dates on which the MVR/MVAs do not apply), life bonds with no MVR/MVA free dates, etc.. The extent of disclosure should be sufficient to permit an identification of material groupings of contracts which offer significant variance in terms of the nature of benefits provided to *policyholders*.

With-profits benefits reserve – Retrospective method

- 4
- PRA
- (1) For each *with-profits fund*, a table of the retrospective methods used to calculate the *with-profits benefits reserve* showing for each retrospective method:
 - (a) the proportion of the *with-profits benefit reserve* calculated using that retrospective method for which contracts have been valued on an individual basis;

- (b) the proportion of the *with-profits benefit reserve* calculated using that retrospective method for which contracts have been valued on a grouped basis; and
 - (c) in relation to any *with-profits insurance contracts* that have been grouped:
 - (i) a statement of the basis used to group contracts;
 - (ii) the number of individual contracts and the number of model points used to represent them; and
 - (iii) the nature of the validations made to ensure that significant attributes of the contract groupings have not been lost.
- (2) For each *with-profits fund*:
- (a) a description of any significant changes to the valuation method for any types of product or classes of *with-profits insurance contracts* written in that fund compared to the previous valuation; and
 - (b) where the changes in (a) have resulted in any types of product or classes of *with-profits insurance contracts* written in that fund being valued using approaches more approximate than used for the previous valuation, a statement of the types of product or classes of *with-profits insurance contracts* affected.
- (3) For each *with-profits fund*, a description of the basis of allocating expenses to that fund during the *financial year in question* identifying:
- (a) the date of the previous expense investigation;
 - (b) the frequency of expense investigations;
 - (c) a table of the total expenses allocated to the *with-profits benefits reserve* during the *financial year in question* showing:
 - (i) the nature and amount of expenses identified as initial expenses;
 - (ii) the nature and amount of expenses identified as maintenance expenses;
 - (iii) how expenses are charged to the *with-profits benefits reserve* in respect of individual contracts (for example, by way of an average expense charge deducted from all contracts); and
 - (iv) the nature and amount of any expenses charged other than to the *with-profits benefits reserve*.

- (4) For each *with-profits fund*, a description of the nature and amount of any significant charges (for example for the costs of guarantees or the use of capital) deducted from the *with-profits benefits reserve* during the *financial year in question* and a comparison to the charges in the *preceding financial year*.
- (5) For each *with-profits fund*, a description of the nature and amount of any charges deducted from that fund for noninsurance risk (for example, charges deducted from investment only accumulating with-profit business).
- (6) For each *with-profits fund*, a statement (expressed as a percentage) of the ratio of A to B for each of the three *preceding financial years* where:
- A is the total *claims* paid during the financial year on *with-profits insurance contracts* written in that fund; and
- B is the sum of:
- (i) *with-profits benefits reserve* for those *claims*; plus
 - (ii) any past miscellaneous surplus attributed to the *with-profits benefits reserve* in respect of those *claims*; less
 - (iii) any past miscellaneous deficit attributed to the *with-profits benefits reserve* in respect of those *claims*;

Where there has been a change in procedures such that the ratio of A to B would not be directly comparable from year to year, details should be disclosed as to the change in procedures.

- (7) For each *with-profits fund*, the investment return before tax and expenses allocated to the *with-profits benefits reserve* in respect of the *financial year in question*. If the investment return allocated to the *with-profits benefits reserve* in respect of any types of product or classes of *with-profits insurance contracts* differs materially from that allocated to the *with-profits benefits reserve* in respect of other types of product or classes of *with-profits insurance contracts*, other than because of tax, an explanation and reconciliation must be provided.

With-profits benefits reserve – Prospective method

5

PRA

- (1) For each *with-profits fund*, a table of the key assumptions used in the prospective method(s) of calculating the *with-profits benefits reserve* showing:
- (a) the discount rate, together with an explanation of any difference between this rate and the risk free rates denoted "r" in the table required by 6(4)(a)(iii) below;
 - (b) the investment returns and risk adjustments made to assets (categorised as in Form 48);

- (c) expense inflation;
 - (d) future assumed *annual* and *final bonus* rates for major types of products and/or classes of *with-profits insurance contracts*;
 - (e) assumptions as to future expenses and future charges for expenses for major types of products and/or classes of *with-profits insurance contracts*; and
 - (f) any significant persistency assumptions at quinquennial durations.
- (2) Where any of the prospective methods in (1) involves more than one set of key assumptions, each different set of key assumptions must be shown.

Costs of guarantees, options and smoothing

6

PRA

- (1) For each *with-profits fund*, where the costs of guarantees, options and smoothing do not exceed the lesser of £50m and 0.5% of the total *realistic value of liabilities*, disclosure of the valuation methods in accordance with the following subparagraphs is not required.
- (2) For each *with-profits fund*, a table of the valuation methods used to calculate the costs of guarantees, options and smoothing showing:
- (a) the types of product and/or classes of *with-profits insurance contracts* to which each valuation method applies;
 - (b) for each valuation method and each type of product and/or class of *with-profits insurance contract*:
 - (i) the proportion, measured by reference to the underlying asset shares, of the *with-profits insurance contracts* being valued for which costs have been valued on an individual basis;
 - (ii) the proportion, measured by reference to the underlying asset shares, of the *with-profits insurance contracts* being valued for which costs have been valued on a grouped basis; and
 - (iii) in relation to any *with-profits insurance contracts* that have been grouped,
 - a statement of the basis used to group contracts;
 - the number of individual contracts and the number of model points used to represent them; and
 - the nature of the validations made to ensure that significant attributes of the contract groupings have not been lost;

- (c) if applicable to the disclosures in (a) and (b), a description of any significant approximations in method used for any residual types of product or classes of *with-profits insurance contracts*.
- (3) A description of any significant changes to the valuation methods for valuing the costs of guarantees, options or smoothing since the previous valuation.
- (4) For each of the valuation methods under (2)(b), the following information must be disclosed:
- (a) for each of the costs of guarantees, options and smoothing which have been valued using a full stochastic approach:
- (i) the nature of the guarantee, option or smoothing being valued, including a description of the extent to which the guarantee or option is in or out of the money at the valuation date;
- (ii) a description of the nature of the asset model(s), including the choice of parameters for each model (including the assumed volatility of assets both short term and long term) and any assumed correlations between asset classes and/or between asset classes and economic indicators (such as inflation), and a justification for these assumptions;
- (iii) completion of the following table showing the annualised compound equivalent of the risk free rate(s) assumed for each duration (n) and values derived from the asset model(s) of specified assets/options as shown in the table:

	n	Asset type (all UK assets)	K=0.75				K=1				K=1.5			
			5	15	25	35	5	15	25	35	5	15	25	35
r		Annualised compound equivalent of the risk free rate assumed for the period. (to two decimal places)					x	x	x	x	x	x	x	x
1		Risk-free zero coupon bond					x	x	x	x	x	x	x	x
2		FTSE All Share Index (p=1)												
3		FTSE All Share Index (p=0.8)												

All references to 15 year bonds mean rolling bonds traded to maintain the 15 year duration at all future dates. The corporate bonds should be assumed to be rolling AA rated zero coupon bonds.

Row 16 should be completed showing the value of sterling receiver swaptions with a strike of 5% exercisable n years after the valuation date with swap durations on exercise of L years.

The values should be expressed as a percentage of nominal.

In carrying out the calculations required to complete the table above firms must assume, where appropriate, that the options for which a value is to be included in the table are options which, where appropriate, are based on underlying asset portfolios which are continuously rebalanced to the stated proportions. Swaptions in relation to which a value must be included in the table must be based on swaptions with monthly payments. Firms must include in the table the value that their liability model would produce for such options and values will thus reflect the actual time-intervals underlying their valuation models. The property put options should be assumed to relate to a well diversified portfolio of *United Kingdom* commercial property.

A zero trend growth in property prices should be assumed where this is relevant.

In each case the options should be valued with reinvestment of any dividend income into the FTSE All Share index and reinvestment of any rental or other property income into *United Kingdom* property.

Tax should be ignored in all calculations.

All options should be assumed to be European-style.

A *firm* may consider that its model does not need to be calibrated to produce a reasonable value for a particular entry in the table because that entry is insignificant to the valuation of its assets and liabilities. In such circumstances the *firm* may leave an entry in the table blank, but must give an explanation as a note to the table.

- (iv) a statement of the initial equity and property rental yields assumed for the *United Kingdom* and each significant territory as applicable;**
- (v) for each significant territory other than the *United Kingdom* a statement of the entries that would be appropriate (for K=1 only) for the risk free rate and lines 1 and 2;**
- (vi) a table showing the outstanding durations of significant guarantees within material types of products and/or classes of *with-profits insurance contracts* together with the details of the fit of the asset model(s) to specimen relevant market-traded instruments at these durations;**
- (vii) a statement of the nature of the validations of the asset model(s) by projecting future income, gains and losses on asset values and comparing the net present value of these amounts to the current asset values;**
- (viii) a statement of the number of projections of assets and liabilities carried out and the nature of the validations to ensure reasonable convergence of the model results;**
- (b) for each of the costs of guarantees, options and smoothing which have been valued using the market costs of hedging:**
 - (i) a description of the method and assumptions used to determine the option points and amounts implied by the**

- underlying guarantee or option or smoothing;
- (ii) a description of the method and assumptions used to value the implied options and hence to determine the costs of the underlying guarantee, option or smoothing (including the assumed volatility of assets both short term and long term and any assumed correlations between asset classes and/or between asset classes and economic indicators (such as inflation) and also including a description as to how those assumptions relate to available market traded instruments and have been assumed to apply in respect of nonavailable instruments);
 - (iii) completion of a table as at 6(4)(a)(iii) above showing the risk free rate(s) assumed and values derived from the asset model(s) of assets/options as shown in the table;
 - (iv) a statement of the equity and property rental yields assumed for the *United Kingdom* and each significant territory as applicable;
 - (v) a table showing the outstanding durations of significant guarantees within material types of products and/or classes of *with-profits insurance contracts*;
- (c) for each of the costs of guarantees, options and smoothing which have been valued using a series of deterministic projections using attributed probabilities:
- (i) a description of the number of projections of assets and liabilities carried out, the attributed probability to each projection and the range of key assumptions underlying the projections of assets and liabilities;
 - (ii) a description of how the range of projections was selected and how the attributed probabilities were determined;
 - (iii) completion of a table as at 6(4)(a)(iii) above showing the risk free rate(s) assumed and values derived from the asset model(s) of assets/options as shown in the table;
 - (iv) a table showing the outstanding durations of significant guarantees within material types of products and/or classes of *with-profits insurance contracts*.
- (5) Where management actions have been assumed in the projection of assets and liabilities used to determine the costs in (4) (a), (b) and (c):
- (a) a description of the nature of the management actions assumed in the projection of assets and liabilities; and

(b) a table of the *firm's* best estimates as to the future proportions of the assets backing the *with-profits benefits reserve* which would consist of equities (whether UK or non-UK) and as to future bonus rates, in each case as at the end of the *financial year in question*, in 5 years time and in 10 years time, making the three sets of assumptions described in this paragraph as to annual investment returns over the periods in question. The table must show, in addition to the specimen equity backing ratios (for the fund), *annual bonus* rates on significant accumulating with-profits business (for each of life and pensions business separately). Calculations should be made assuming that the annual investment return on all assets over the period in question is (i) based on forward rates derived from the risk free interest rate curve as calibrated at the valuation date (ii) based on forward rates derived from the risk free interest rate curve increased across the period by 17.5 % of the long-term gilt yield and (iii) based on forward rates derived from the risk free interest rate curve reduced across the period by 17.5 % of the long-term gilt yield. The effect of any significant assumed equity *derivative contracts* or contracts having the effect of *derivative contracts* on the values disclosed in the table should be described by note. The long-term gilt yield is as defined in *INSPRU 1.3.11R*.

(6) A summary of the surrender and paid-up assumptions used to determine the costs in (4) (a), (b) and (c) using the format of the table below, and where appropriate a statement of the assumed take-up rates of guaranteed annuity options and the rates of annuitant mortality assumed.

Product		Average lapse / surrender / paid-up rate for the policy years			
		1-5	6-10	11-15	16-20
CWP savings endowment	surrender				
CWP target cash endowment	surrender				
UWP savings endowment	surrender				
UWP target cash endowment	surrender				
UWP bond	surrender				
UWP bond	automatic withdrawals				
CWP pension regular premium	PUP				
CWP pension regular premium	surrender				

CWP pension single premium	surrender				
UWP indiv pension regular premium	PUP				
UWP indiv pension regular premium	surrender				
UWP indiv pension single premium	surrender				

The instructions for completing the table are as for Appendix 9.4 paragraph 4(9).

- (7) A statement of the assumptions made, regarding the foreseeable actions that would be taken by *policyholders*, in the projection of assets and liabilities in (4) (a), (b) and (c).

Financing costs

- 7
PRA Where financing arrangements exist in connection with any *with-profits fund(s)*, a statement of the type of financing, the sources available for repayment of capital and interest, the extent to which repayments are subordinated to *policyholders'* interests, the face amount outstanding, the rate of interest payable, the level of fees payable, the expected amount to be repaid and the expected time period for such repayment (or, in the case of reinsurance arrangements, recapture).

Other long-term insurance liabilities

- 8
PRA For each *with-profits fund*, a statement of the nature and amount of *long-term insurance liabilities* which have been included within the amounts of 'any other liabilities related to regulatory duty to treat customers fairly' and 'any other long-term insurance liabilities' shown at lines 46 and 47 of Form 19, including disclosure of any value attributed to future tax relief.

Realistic current liabilities

- 9
PRA A statement of the nature and amount of current liabilities which have been included within the amount of the *realistic current liabilities* shown at line 51 of Form 19 together with a reconciliation to the amount of the *regulatory current liabilities*.

Risk capital margin

- 10 For the calculation of the *risk capital margin* for each *with-profits fund*:

- PRA (a) a statement of the amount of the *risk capital margin* and of information relating to the individual scenarios in *INSPRU* 1.3.44R which comprise the most adverse scenario for the purposes of calculating that margin in accordance with *INSPRU* 1.3.43R, including:
- (i) the percentage change assumed in accordance with *INSPRU* 1.3.68R for each of the market values of equities and real estate for the purpose of the *market risk* scenario for *United Kingdom* assets and each significant territory in *INSPRU* 1.3.62R(1)(a), and a statement as to whether a rise or fall was the most onerous in

each case;

- (ii) the nominal change in yields assumed in accordance with *INSPRU 1.3.68R* for fixed interest securities for the purpose of the *market risk* scenario for *United Kingdom* assets and each significant territory in *INSPRU 1.3.62R(1)* together with a statement of the percentage change in and level of the long-term gilt yield or nearest equivalent assumed in each case and a statement as to whether a fall or rise in yields is the more onerous in each case);
 - (iii) the average change in spread for bonds (weighted by value) and the total percentage change in asset value separately for (a) bonds, (b) debts, (c) *reinsurance* (d) analogous non-*reinsurance* financing agreements and (e) other assets (by reference to *INSPRU 1.3.78R*), where the total percentage change is, in each case, calculated as the overall percentage change that results from applying the credit risk scenario to the actual assets of each type held by a firm;
 - (iv) the overall percentage change in the *realistic value of liabilities* that results from applying the persistency risk scenario according to *INSPRU 1.3.100R*, that is, the impact of the persistency risk scenario assuming the market and credit risk stress scenarios have occurred; and
 - (v) to the extent any change in asset value in (iii) is not materially independent of the change in liability values in (iv), a description of the approach to deriving the disclosed changes in asset and liability values;
- (b)
- (i) a statement of the nature of any management actions assumed in the *risk capital margin* calculation that are in addition to those set out in 6(5)(a) above; and any material changes to other assumptions;
 - (ii) a statement of the impact of such actions and assumption changes on the *risk capital margin*; namely the difference between the *risk capital margin* with such actions and assumption changes, and without. An approximate split of the effect of actions and the effect of actions and the effect of assumption changes must be given;
 - (iii) a statement of the approximate change to the table in 6(5)b, that shows future proportions of equity assets and bonus rates, resulting from any such additional actions and assumptions changes being integrated into the projection of assets and liabilities and thus disclosed in 6(5)(a);
 - (iv) a statement as to whether the requirements of *INSPRU 1.3.188R* would be met if any such additional actions and assumptions changes had been integrated into the protection of assets and liabilities and thus disclosed in 6(5)(a);

- (c) (i) a statement of the nature of the assets (categorised as in Form 48) and location of assets held to cover the *risk capital margin*;
- (ii) if any of the assets to cover the *risk capital margin* are located outside of the *with-profits fund*, a statement as to the way the firm would intend to make such assets available to the *with-profits fund* should the need arise.

Tax

- 11 A statement of the *firm's* treatment of tax included on assets backing (i) the *with-profits benefits reserve(s)*, (ii) any *future policy related liabilities* and (iii) any *realistic current liabilities*, including any simplifying assumptions.

Derivatives

- 12 A full description of any major positions in relation to *derivative contracts* or contracts having the effect of *derivative contracts* held by the *with-profits fund* or located outside the *with-profits fund* to cover the *risk capital margin* in part or in full at the valuation date.

Analysis of change in working capital

- 13 For each *with-profits fund*, a reconciliation of the significant movements in the working capital of the *with-profits fund* from that shown at line 68 of Form 19 at the end of the *preceding financial year* and that same entry shown for the *financial year in question*. Such movements may be grouped by the underlying cause of movements such as investment market changes and insurance variation. However, the analysis should at least include, where material:

- (a) the investment return on the opening working capital;
- (b) mismatched profits and losses on assets backing the *future policy related liabilities* (may include associated assumption changes);
- (c) assumption changes split by economic, noneconomic and *policyholder actions* assumptions;
- (d) other variances split at least as to economic and noneconomic variances;
- (e) the impact of new business;
- (f) changes in other liabilities of lines 47 and 51 of Form 19;
- (g) modelling changes and opening adjustments.

Where a closed fund zeroises its working capital (e.g. by assigning any balance to planned enhancements or financial reinsurance), it should analyse the change in working capital prior to such zeroisation showing the opening and closing zeroisation impact.

Optional disclosure

- 14 At the option of the *firm*, a statement may be made for each *with-profits fund* of the amount of the *realistic value of liabilities* which relates to contractual

obligations to *policyholders*, with a description of the approach taken to distinguishing contractual and non-contractual obligations to *policyholders*.

Instructions to the report

Adhere to numbering above, enter 'not applicable' or 'de minimis' for sections where there is nil or de minimis data.

Appendix 9.5 (rule 9.32)

General Insurance Business

Additional Information on Business Ceded

For the purposes of rule 9.32, an *insurer* which carries on *general insurance business* must, in respect of the *financial year in question*, prepare a statement of the following information.

- 1 **PRA** Subject to 2, for each *contract of insurance* entered into or modified during the *financial year in question* under which *general insurance business* has been ceded by the *insurer* on a non-facultative basis, the *insurer* must prepare a statement of –
- (a) the type of business covered by reference to *risk categories* and if only part of a *risk category* is covered, a description of that part;
 - (b) the type of cover, including such details of the terms and conditions of the contract as are necessary for a proper understanding of the nature of the cover;
 - (c) the type of business covered by reference to *risk categories* and if only part of a *risk category* is covered, a description of that part;
 - (d) the period of cover.
- 2 **PRA** Where a contract of *reinsurance* has been modified during the *financial year in question* –
- (a) no information need be supplied pursuant to 1 in respect of a contract of reinsurance which was entered into before the beginning of the *financial year* of the *insurer* to which the Insurance Companies (Accounts and Statements) Regulations 1996 first applied; and
 - (b) in any other case, the information to be supplied pursuant to 1 must be limited to any changes to the information previously supplied pursuant to that paragraph or its predecessor legislation in respect of that contract.
- 3 **PRA** For every contract reported pursuant to 1, whether in the *return* for the *financial year in question* or any previous *return*, the *insurer* must also prepare, if relevant, a statement of –
- (a) in the case of contracts which are subject to no or a limited number of reinstatements, any contract not previously reported pursuant to this provision (or its predecessor) under which it is anticipated that such limit will be exhausted by claims (including claims incurred, but not reported, in respect of any specific occurrence for which provisions have been allocated);

- (b) the percentage of cover, if in excess of 10% and if such information has not already been included in the return of the insurer for any previous financial year, which has been ceded to reinsurers which have ceased to pay claims to their reinsureds in full, whether because of insolvency or for any other reason; and
- (c) if the percentage specified in (b) has increased by more than 10 percentage points since the previous financial year in which it was included in the insurer's return, a statement of that percentage unless, in the opinion of the directors, the likelihood of any claim being incurred under that policy is minimal.

4

PRA

- (1) For each *risk category*, or part thereof, in respect of which separate non-facultative *reinsurance* cover has been obtained, the *insurer* must prepare a statement of the 'maximum net probable loss' to the *insurer* from any one *contract of insurance* effected by it and from all such contracts taken together.
- (2) For the purposes of (1), the *maximum net probable* loss is the maximum loss (net of *reinsurance*) arising from any one incident, or any one series of incidents from the same originating cause, which –
 - (a) the *directors*, at the time they decided upon the *reinsurance* cover in respect of the *financial year in question*, reasonably contemplated to be of a type which might take place during that *financial year*; or
 - (b) has actually occurred during the *financial year in question*.
- (3) The disclosure required by (1) must be given in respect of all *risk categories*, or parts thereof, of the *insurance business* carried on by the *insurer* whether or not the *insurer* has purchased any *reinsurance* cover for that *risk category*, or part thereof, and in (2) deciding upon the *reinsurance* cover includes deciding not to obtain any *reinsurance* cover.

5

PRA

For each *combined category* (other than *category numbers* 500 and 600) and *risk category* with *category numbers* 160, 350, 400, 510 to 590, 610 to 690 and 700 and separately for contracts of facultative and non-facultative *reinsurance* ceded in respect of the *financial year in question* the amount of the *reinsurers'* share of *gross premiums* must be stated.

Appendix 9.6 (rules 9.34 and 9.35)

Certificates by Directors and Report of the Auditor

Part I: Certificate by directors

- 1 (1) Subject to 3, the certificate required by rule 9.34 must state –
- PRA**
- (a) that the *return* has been properly prepared in accordance with the requirements in *IPRU(INS)*, *GENPRU* and *INSPRU*; and
 - (b) that the *directors* are satisfied that:
 - (i) throughout the *financial year in question*, the *insurer* has complied in all material respects with the requirements in *SYSC* and *PRIN* as well as the provisions of *IPRU(INS)*, *GENPRU* and *INSPRU*; and
 - (ii) it is reasonable to believe that the *insurer* has continued so to comply subsequently, and will continue so to comply in future.
- (2) An *insurer* does not comply in all material respects with the requirements specified in (1)(b) if it commits a breach of any of those requirements which is significant, having regard to the potential financial loss to *policyholders* or to the *insurer*, frequency of the breach, implications for the *insurer's* systems and controls and if there were any delays in identifying or rectifying the breach.
- 2 Subject to 3, if the *insurer* carries on *long-term insurance business*, the certificate required by rule 9.34(1) must also state that –
- PRA**
- (a) in the *directors' opinion*, *premiums* for contracts entered into during the *financial year* and the resulting income earned are sufficient, under reasonable actuarial methods and assumptions, and taking into account the other financial resources of the *insurer* that are available for the purpose, to enable the *insurer* to meet its obligations in respect of those contracts and, in particular, to establish adequate *mathematical reserves*;
 - (b) the sum of the *mathematical reserves* and the deposits received from *reinsurers* as shown in *Form 14* constitute proper provision at the end of the *financial year in question* for the *long-term insurance liabilities* (including all liabilities arising from *deposit back arrangements*, but excluding other liabilities which had fallen due before the end of the *financial year*) including any increase in those liabilities arising from a distribution of surplus as a result of an *actuarial investigation* as at that date into the financial condition of the *long-term insurance business*;
 - (c) the *with-profits fund* has been managed in accordance with the *Principles and Practices of Financial Management*, as established, maintained and recorded under *COBS 20.3* of the *FCA Handbook*; and

- (d) the *directors* have, in preparing the *return*, taken and paid due regard to –
- (i) advice from every *actuary* appointed by the *insurer* to perform the *actuarial function* in accordance with SUP 4.3.13R; and
 - (ii) if applicable, advice from every *actuary* appointed by the *insurer* to perform the *with-profits actuary function* in accordance with SUP 4.3.16AR.

- 3
- PRA
- (1) Where, in the opinion of those signing the certificate, the circumstances are such that any of the statements required by 1 and 2 cannot truthfully be made, the relevant statements must be omitted.
 - (2) Where, by virtue of (1), any statements have been omitted from the certificate, this fact, and the reasons for omission, must be stated in a note to the certificate.

Part IA – Certificate by a director on the half-yearly balance sheet and report for realistic valuation

- 3A
- PRA
- Subject to 3C, the certificate required by rule 9.34(2) must state that the *return* has been properly prepared in accordance with the requirements in *IPRU(INS)*, *GENPRU* and *INSPRU*.

- 3B
- PRA
- Subject to 3C, the certificate required by rule 9.34(2) must also state that –
- (a) the amount provided for *long-term insurance liabilities* for the purpose of determining the *insurer's capital resources* as shown in *Form 2* constitutes proper provision at the end of the six month period referred to in rule 9.3A(1) for those liabilities (including all liabilities arising from *deposit back arrangements*); and
 - (b) the *director* has, in preparing the *return*, taken and paid due regard to –
 - (i) advice from every *actuary* appointed by the *insurer* to perform the *actuarial function* in accordance with SUP 4.3.13R; and
 - (ii) advice from every *actuary* appointed by the *insurer* to perform *with-profits actuary function* in accordance with SUP 4.3.16AR of the *FCA Handbook* and SUP 4.3.16R of the *PRA Handbook*.

- 3C
- PRA
- (1) Where, in the opinion of the *director* signing the certificate, the circumstances are such that any of the statements required by 3A and 3B cannot truthfully be made, the relevant statements must be omitted.
 - (2) Where, by virtue of (1), any statements have been omitted from the certificate, this fact, and the reasons for omission, must be stated in a note to the certificate.

Part II – Auditor's report

- 4
- The report required by rule 9.35 must, in addition to any statement required under rule 9.35, state:

PRA

- (a) whether, in the auditor's opinion:
- (i) the documents referred to in rules 9.12, 9.13 and 9.14, together with *Forms 40 to 45, 48, 49, 56, 58 and 60* and the statements, analyses and reports annexed pursuant to rules 9.24 to 9.27, 9.29 and 9.31 have been properly prepared in accordance with the *Accounts and Statements Rules, GENPRU and INSPRU*; and
 - (ii) the methods and assumptions determined by the *insurer* and used to perform the *actuarial investigation* (as set out in the valuation reports) appropriately reflect the requirements of *INSPRU 1.2 and INSPRU 1.3*.
- (b) that, in accordance with rule 9.35(1A), to the extent that any document, Form, statement, analysis or report to be audited under rule 9.35(1) contains amounts or information abstracted from the *actuarial investigation* performed pursuant to rule 9.4, the auditor has obtained and paid due regard to advice from a suitably qualified *actuary* who is independent of the *insurer*.

5 [deleted]

6 [deleted]

7 [deleted]

8 [deleted]

9 [deleted]

10 [deleted]

11 [deleted]

12 Where the auditors refer in their report or in any note attached to it to any uncertainty, the report must state whether, in the auditors' opinion, that

PRA

uncertainty is material to determining whether the *insurer* has available assets in excess of its *capital resources requirement*.

Appendix 9.8 (rule 9.36A)

Marine Mutuels: Items to be Disregarded, Directors' Certificates and Auditors' Reports

PART I

Items to be disregarded

- 1 In completing the Forms required under rule 9.36A, a *marine mutual* must disregard *reinsurance* arrangements with any *relevant company* and must treat income and expenditure and assets and liabilities of any *relevant company* as, respectively, income and expenditure and assets and liabilities of the *marine mutual*.

PRA

Completion of Forms

- 1A Where 'source' appears at the head of a column on a Form, the information to be included in the preceding columns of a particular line is to be taken from those items in the *return* to which reference is made on that line in the column headed 'source'. No entries are to be made in the column headed 'source'.

PRA

PART II

Directors' certificates

- 2 Subject to 4, every *return* provided by a *marine mutual* under rule 9.36A must include a certificate signed by the persons required by rule 9.33 to sign the documents to which the certificate relates –

PRA

- (a) confirming that –
- (i) the *return* has been prepared in accordance with the requirements in *IPRU(INS)*, *GENPRU* and *INSPRU*,
 - (ii) the *directors* are satisfied that throughout the *financial year in question*, the *marine mutual* has complied in all material respects with the requirements in *SYSC* and *PRIN* as well as the provisions of *IPRU(INS)*, *GENPRU* and *INSPRU* and that it is reasonable to believe that the *marine mutual* has continued so to comply subsequently, and will continue so to comply in future,
 - (iii) each member of the *marine mutual* which is subject to them has accepted those parts of the *marine mutual's* rules which oblige members to pay their share of any supplementary calls for the year and of calls to meet the *minimum capital requirement* (including any sum needed to make good failure by other members to pay calls made on them), and
 - (iv) the *marine mutual* is empowered to make supplementary calls on its members which, if met, would produce sufficient assets to

meet the *minimum capital requirement*; and

- (b) giving information about the number of –
- (i) members of the *marine mutual* which are not reinsured members,
 - (ii) fixed premium members (on which supplementary calls may not be made),
 - (iii) reinsured members (that is, members whose *contract of insurance* with the *marine mutual* is a contract of *reinsurance*), and
 - (iv) the tonnage of shipping attributable to each of the above classes of members, taken separately, and covered by the *marine mutual* at the end of the *financial year in question*.

3 [deleted]

4 (1) Where, in the opinion of the *directors*, the circumstances are such that any of the matters specified in 2 cannot be confirmed or provided, the relevant statements or information must be omitted.

PRA

(2) Where any statements or information have been omitted from the certificate in accordance with (1), this fact, and the reasons for omission, must be explained in a note to the certificate.

PART III

Auditor's reports

5 Every *marine mutual* must procure an auditor's report, pursuant to *SUP*, stating whether, in the auditors' opinion –

PRA

- (a) the Forms, information and statements required (except for the additional information required by rules 9.30, 9.32A and 9.36B and the directors' certificate prepared in accordance with Part II of this Appendix) have been properly prepared in accordance with the *Accounts and Statements Rules*; and
- (b) where the auditors refer in their report or in any note to any uncertainty, that uncertainty is material to determining whether the *marine mutual* has *available assets* in excess of its *capital resources requirement*.

Instructions for completion of Form M3

PRA

- 1** Units must be the same as those used in Form M1.
- 2** In lines 11 to 85 –
 - (a) for the purpose of classifying (but not valuing) assets, headings and descriptions used above, wherever they also occur in the balance sheet format in the *insurance accounts rules*, have the same meaning as in those rules,
 - (b) assets must be valued in accordance with rule 9.10; and
 - (c) assets of any particular description must be shown after deduction of assets of that description which (for any reason) fall to be left out of account under the rules in *INSPRU 2.1*.
- 3** The aggregate value of those investments which are:
 - (a) *unlisted* investments falling within any of lines 41, 42, 46 or 48 which have been valued in accordance with the rules in *GENPRU 1.3*;
 - (b) *listed* investments falling within any of lines 41, 42, 46 or 48 which have been valued in accordance with the rules in *GENPRU 1.3* and which are not *readily realisable*;
 - (c) units or other beneficial interests in *collective investment schemes* that:
 - (i) are not schemes falling within the *UCITS Directive*;
 - (ii) are not authorised unit trust schemes or recognised schemes within the meaning of Part XVII of the *Act*;
 - (iii) do not employ *derivative contracts* unless they meet the criteria in *INSPRU 3.2.5R*;
 - (iv) do not employ contracts or assets having the effect of *derivative contracts* unless they have the effect of *derivative contracts* that meet the criteria in *INSPRU 3.2.5R*; and
 - (v) do not include assets other than *admissible assets* among their property; or
 - (d) reversionary interests or remainders in property other than land or buildings, must be stated by way of a supplementary note, together with a description of such investments.
- 4** The aggregate value of those investments falling within lines 46 or 48 which are *hybrid securities* must be stated by way of a supplementary note to this

Form.

- 5 Amounts in respect of salvage or subrogation included above other than at line 73 must be stated by way of a supplementary note to this Form.
- 6 The amount to be shown in line 93 must equal the total of the relevant proportions in accordance with *GENPRU 1.3.49R* and *GENPRU 1.3.50R* of the *individual capital resources requirements of the regulated related undertakings*.
- 7 The amount to be shown in line 94 must equal the ineligible surplus capital and any restricted assets of any *regulated related undertaking* that is an *insurance undertaking* that are deducted in accordance with *GENPRU 1.3.47R (3)(b)*.
- 8 Lines 99-102 must be completed in accordance with the *insurance account rules* or *international accounting standards* as applicable to the *insurer* for the purpose of its external financial reporting if the *insurer* is required to produce such accounts. Otherwise these lines must be left blank. Details of amounts in line 101 must be disclosed in a supplementary note. For years ending on or before 30 December 2008, the previous year figure for line 93 must be left blank and that for line 101 must equal line 100 from the previous *return*.

Instructions for completion of Form M4

PRA

- 1** Separate Forms must be completed for each *class of insurance business*. The relevant description below must be entered against the 'Marine class' heading and the corresponding *class* code entered in the M4 box.

<u>Code</u>	<u>Description</u>
01	Protection and Indemnity
02	Hull and Machinery
03	Freight Demurrage and Defence
04	War risks
05	Strikes
06	Other - nature of business to be detailed in a supplementary note.

- 2** Units must be the same as those used in Form M1.
- 3** The *financial year in question* must be stated at line 11 and *preceding financial years* must be listed in reverse chronological order in lines 12 to 25.

G1 G2 G3 G4 G5 (page 4)	<p>These entries represent the contribution to <i>group capital resources</i> of the <i>regulated related undertaking</i>. G1 is calculated as the difference between column F1 and E1. (G1 can be positive or negative. A negative figure would principally represent goodwill on acquisition).</p> <p>Similarly G2 is the difference between F2 and E2, G3 is the difference between F3 and E3 etc. (G2, G3, G4 & G5 would normally be positive).</p> <p>The totals of columns G1, G2 and G3 respectively represent the group's <i>core tier one capital</i>, perpetual non-cumulative <i>preference shares</i> and <i>innovative tier one capital resources</i> (see H1 to H3 on page 1).</p> <p>The sum of columns G4 and G5 represent the group's <i>tier two capital resources</i> (see H5 and H6).</p>
Parent's capital resources (page 4)	<p>The entries in this line represent the <i>ultimate insurance parent undertaking</i> or <i>ultimate EEA insurance parent undertaking's capital resources</i>, after deduction of the book value of the investments taken together of the individual members of the <i>insurance group</i> in those <i>capital resources</i>. The deduction excludes any holding by the <i>ultimate insurance parent undertaking</i> or <i>ultimate EEA insurance parent undertaking</i> (as applicable) of its own <i>shares</i>; such holdings are deducted in calculating the parent's <i>tier one capital resources</i>.</p>
H1 H2 H3 H4 (page 1)	<p>H1 to H3 represent the total contribution of the <i>regulated related undertakings</i> and the <i>ultimate insurance parent undertaking</i> or <i>ultimate EEA insurance parent undertaking</i> to <i>total group tier one capital</i>. H4 represents the sum of the Tier 1 deductions for all members of the <i>insurance group</i>.</p>

FORM 95: INSURANCE GROUP CAPITAL ADEQUACY REPORTING FORM "

<i>Ref</i>	<i>Instructions</i>
TT1 (page 1)	<p>This entry is <i>total group tier one capital</i> (see stage A of <i>INSPRU</i> 6.1.43R) after application of limits 1, 2 and 3 below:</p> <p>Limit 1: <i>Total group tier one capital</i>, less <i>innovative tier one capital resources</i> included in <i>total group tier one capital</i>, must account for at least 50% of the <i>group capital resources requirement</i> less any <i>with-profits insurance capital components</i> included in the <i>group capital resources requirement</i> (see <i>INSPRU</i> 6.1.45R(1)(a)).</p> <p>Limit 2: <i>Core tier one capital resources</i> included in <i>total group tier one capital</i> must account for at least 50% of <i>total group tier one capital</i> (see <i>INSPRU</i> 6.1.45R(1)(c)).</p> <p>Limit 3: <i>Innovative tier one capital resources</i> included in <i>total group tier one capital</i> must not exceed 15% of <i>total group tier one capital</i> (see <i>INSPRU</i> 6.1.45R(1)(d)).</p> <p>Any capital item excluded by limit 3 may form part of <i>total group tier two capital</i> (see <i>INSPRU</i> 6.1.46G).</p>
H5 H6 (page 1)	<p>These entries represent the total contribution of the <i>regulated related undertakings</i> and the <i>ultimate insurance parent undertaking</i> or <i>ultimate EEA insurance parent undertaking</i> to <i>total group tier two capital</i>.</p>
TT2 (page 1)	<p>This entry is calculated as the sum of H5 and H6 which represents <i>total group tier two capital</i> (stage B in <i>INSPRU</i> 6.1.43R) after application of limits 4 and 5 as follows:</p> <p>Limit 4: <i>Total group tier two capital</i> must not exceed <i>total group tier one capital</i> (see <i>INSPRU</i> 6.1.45R(1)(e)).</p> <p>Limit 5: <i>Lower tier two capital resources</i> calculated in accordance with <i>INSPRU</i> 6.1.57R included in <i>total group tier two capital</i> must not exceed 50% of <i>total group tier one capital</i> (see <i>INSPRU</i> 6.1.45R(1)(f)).</p>

FORM 95: INSURANCE GROUP CAPITAL ADEQUACY REPORTING FORM "

<i>Ref</i>	<i>Instructions</i>
TCR (page 1)	<p>This entry is calculated as the sum of TT1 and TT2 and represents group capital resources before deductions (stage C in <i>INSPRU</i> 6.1.43R) after application of limit 6 as follows:</p> <p>Limit 6: <i>Total group tier one capital less innovative tier one capital resources included in total group tier one capital, plus total group tier two capital less any lower tier two capital resources included in total tier two capital must account for at least 75% of the group capital resources requirement less any with-profits insurance capital components included in the group capital resources requirement (INSPRU 6.1.45R(1)(b)).</i></p>
H7 (page1)	<p>This entry is the sum of columns D1 and D2 on page 2 which represent deductions to be made from total <i>group capital resources</i> in respect of the group's interest in inadmissible assets (see 8.3.59R), and <i>ancillary services undertakings</i> (see <i>INSPRU</i> 6.1.62R).</p>
GCR (page1)	<p>This entry is calculated as TCR less H7. This represents <i>group capital resources</i> (stage H in <i>INSPRU</i> 6.1.43R).</p>
GCCR (page 1)	<p>This entry is calculated as the sum of column B on page 2 which represents the <i>group capital resources requirement (INSPRU</i> 6.1.33R).</p>
I (page 1)	<p>This is calculated as total <i>group capital resources</i> less total <i>group capital resources requirement (GCR – GCCR)</i>. This represents the amount by which <i>group capital resources</i> exceed or fail to exceed the <i>group capital resources requirement</i>.</p>

- 1 The amounts entered in the cells in column 1 of sheet 2 and columns 1, 2 and 3 of sheets 3 and 4 must reconcile to the 'PRA return source' column, shown alongside that cell, except where:
- (a) no PRA return source is shown e.g. sheet 3, lines 14 to 22, columns 1 and 3;
 - (b) in the case of sheets 3 and 4 column 1, the *return* for the *financial year* ended, shown on sheet 1, is for a non 12 month period; or
 - (c) in the case of a cell in sheet 3 or 4, the Form referred to in the 'PRA return source' column, was not prepared for the relevant *combined category* or *risk category* in that *return*.

Where the latter exception applies, the amount entered in that cell must be the amount that would have been reported in that *return* at the 'PRA return source' had the *insurer* prepared that Form for that *combined category* or *risk category*.

ECR Calculation – Summary (Sheet 1)

- 2 The amount shown on the ICG line must be the most recent Individual Capital Guidance (ICG) amount given by the PRA. The ICG will usually be based on a percentage of the ECR gross of Equalisation Provisions. In this case the percentage should be applied to the current ECR gross of Equalisation Provisions to obtain the ICG amount. If no ICG has been given, enter "N/A".
- 2A If ICG is based on a percentage of the ECR gross of Equalisation Provisions and that percentage is different to the ratio that appears on line 14, an explanation for the difference must be provided in a supplementary note.
- Asset-related Capital Requirement Sheet (Sheet 2)*
- 3 The amounts shown in column 1 must be the value, in accordance with *GENPRU 1.3*, of the listed asset items as at the *financial year* ended date shown on sheet 1.
- 4 In column 2, derivative adjustments, where a *firm* has entered into a *derivative* then, for the purposes of applying the appropriate capital charge factor as set out in *INSPRU 2.2.16R*, it must treat the value of the *derivative* and the value of the asset associated with the *derivative* as a single asset of a type and value which most closely reflects the economic risk to the *firm* of the combined rights and obligations associated with the *derivative* and the asset associated with the *derivative* (*INSPRU 2.2.11R(4)*).
- 5 Include money market funds as defined in *INSPRU 2.2.14R* in the line for the asset item "Money market funds".
- 6 The amount shown under the columns for "Assets" and "Derivative adjustment" for the asset item "Shares, other variable-yield securities, units in unit trusts and Participation in investment pools" should be after deductions of amounts held in money market funds included in *Form 13* at column 1 lines 41,

42, 43 or 49 of the *return* or the *financial year in question*.

7 The sum of the amounts shown in the "Asset" column for the asset items "Shares, other variable-yield securities, units in unit trusts and Participation in investment pools" and "Money market funds" should be equal to the sum of lines 41, 42, 43 and 49 at column of *Form 13* of the *return* for the *financial year in question*.

7A To give effect to *INSPRU 2.2.11R (2)*, the asset related capital charge shown in column 4 is the asset related capital charge factor in column 3 multiplied by the higher of:

(a) the sum of columns 1 and 2; and

(b) zero.

Insurance related Capital Requirement - Accident and Underwriting Year Accounted Business (Sheets 34)

8 Amounts shown in the "Net Written Premium" column must be *net written premiums* before any deduction for commissions in the twelve months preceding the financial year ended date shown on sheet 1.

9 Amounts shown in the "Net claims outstanding carried forward" column must be net of reinsurance and comprise: outstanding claims, provisions for incurred but not reported (IBNR) claims, provisions for incurred but not enough reported (IBNER) claims and related claims management costs as at the financial year ended date shown on sheet 1.

10 Amounts shown in the "Net unearned premium and unexpired risks net of deferred acquisition costs" column must be net of reinsurance and comprise provision for unexpired risk and unearned premium less deferred acquisition costs as at the financial year ended date shown on sheet 1.

10A To give effect to *INSPRU 1.1.77R (2)*, the amount derived in the "Net Written Premium capital charge" column is the net written premium capital charge factor in column 4 multiplied by the higher of:

(a) the net written premium in column 1; and

(b) zero.

11 To give effect to *INSPRU 1.1.77R (2)*, the amount derived in the "Net technical provision capital charge" column is the net technical provision capital charge factor in column 5 multiplied by the higher of:

(a) the sum of the net claims outstanding carried forward and the net unearned premium less deferred acquisition costs; and

(b) zero.

Appendix 9.11

Reporting Forms

- 1 **This appendix consists of only one or more forms or templates. Forms and templates are to be found through the 'Forms' link under Useful Links section at www.fshandbook.info or on the Handbook CD-ROM.**

PRA

Appendix 9.12 (rules 9.58 (1)(a))

CERTIFICATE BY THE COUNCIL

1 Subject to 5, the certificate required by *IPRU (INS) 9.58 (1)* must state:

PRA

- (a) in relation to Forms 1 to 3, 13 to 17, 20 to 42, the supplementary notes to the forms and the statements required under rules 9.51 (1), 9.52 (1) and 9.53 (1), 9.54 (1), and 9.57 (1), that:
- (i) the *Lloyd's Return* has been prepared in accordance with *IPRU (INS) Chapter 9 Part VII, INSPRU and GENPRU*;
 - (ii) proper accounting records have been maintained and adequate information has been obtained by the *Society*; and
 - (iii) an appropriate system of control has been established and maintained by the *Society* over its transactions and records;
- (b) that, as applicable, the assets held by *members* throughout the *financial year* in question enabled the *Society* to comply with *INSPRU 1.1.30R (Localisation (UK firms only))* and *INSPRU 1.1.34R (Matching of assets and liabilities)*; and
- (c) in relation to the statement required by rule 9.58 (1)(b) to be made by the *Lloyd's actuary*, that:
- (i) for the purpose of preparing the statement, proper accounts and records have been maintained; and
 - (ii) the information given has been ascertained in conformity with *IPRU (INS) 9.58 (1)*.

2 Subject to 5, the certificate required by rule 9.58 (1) (a) must state that *capital resources* at least equal to the *capital resources requirements* under *GENPRU 2*, have been maintained at all times during the *financial year* in question.

PRA

3 Subject to 5, the certificate required by rule 9.58 (1)(a) must also state in relation to the *long-term insurance business* carried on by *members*:

PRA

- (a) that the requirements of *INSPRU 1.5.18R* to *INSPRU 1.5.33R* have been fully complied with and in particular that, subject to the provisions of *INSPRU 1.5.27R* assets attributable to *long-term insurance business*, the income arising, the proceeds of any realisation of such assets and any other income or proceeds allocated to the *long-term insurance fund* or *funds* have not been applied otherwise than for the purpose of the *long-term insurance business*;
- (b) that all guarantees given by a *member* of the performance by a related *insurer* which would fall to be met by any *long-term insurance fund* have been disclosed in the *Lloyd's Return*, and that the fund or

funds on which each of those guarantees would fall has been identified in it;

- (c) that the return in respect of *long-term insurance business* is not distorted by agreements between the *members* concerned or by any arrangements which could affect the apportionment of expenses and income; and

4 Subject to 5, where the *Council* is satisfied that:

PRA

- (a) the systems of control established and maintained by *managing agents* complied, at the end of the *financial year* in question, with any relevant guidance and it is reasonable to believe that those systems continued so to comply and will continue to so comply; or
- (b) the *Lloyd's Return* has been prepared in accordance with any relevant guidance; this must be so stated, by listing that guidance, in the certificate required by *IPRU (INS) 9.58 (1)(a)*.

5 Where, in the opinion of those signing the certificate, the circumstances are such that any of the statements required by 1 to 4 cannot truthfully be made, the relevant statements must be omitted.

PRA

6 Where, by virtue of 5, any statements have been omitted from the certificate this fact must be stated in a note.

PRA

Appendix 9.13 (rules IPRU (INS) 9.58 (1)(b))

STATEMENT BY THE LLOYD'S ACTUARY

1 The statement required by *IPRU (INS) 9.58 (1)(b)* must be prepared and signed by the *Lloyd's actuary*, and must:

PRA

- (a) state whether, for every *syndicate year* in which members carry on *general insurance business* either:
 - (i) the *syndicate actuary* has provided an unqualified opinion, which:
 - (1) is in a form conforming to guidance from the *actuarial bodies*; and
 - (2) confirms that the *technical provisions* set by the *managing agent* are at least equal to the *syndicate actuary's* best estimate; or
 - (ii) the *Lloyd's actuary* has set the *technical provisions* (both gross and net of reinsurance recoveries); and
- (b) describe any source of uncertainty in the liabilities covered by the *technical provisions*, which in his opinion is material to the *Society* as a whole:
 - (i) which any *syndicate actuary* mentions in his opinion; or
 - (ii) which affects any *syndicate year* for which the *Lloyd's actuary* has set the *technical provisions*.

2 If the *Lloyd's actuary* has set the *technical provisions* for any *syndicate year*, the statement must include an opinion covering those *technical provisions*, which:

PRA

- (a) confirms that they are at least equal to his best estimate; and
- (b) is in a form conforming to guidance for *syndicate actuaries* from the *actuarial bodies*, modified to show:
 - (i) that he is retained by the *Society* and not the *managing agent*;
 - (ii) that he, and not the *managing agent*, set the *technical provisions*; and
 - (iii) separately, the *technical provisions* of each *syndicate year* covered.

3

If the *Lloyd's actuary* considers it necessary, such qualification, amplification or explanation as may be appropriate must be added to the statement.

PRA

Appendix 9.14 (rule IPRU (INS) 9.58 (1))

CERTIFICATE BY SYNDICATE ACTUARY

1 The certificate required by *IPRU (INS) 9.58 (1)(c)* to be signed by the *syndicate actuary* appointed to a *syndicate* in which *members* carry on *long-term insurance business* must state:

PRA

- (a) whether in his opinion, proper records have been kept by the *managing agent* adequate for the purpose of the valuation of the liabilities of the *syndicate*;
- (b) whether the sum of the *mathematical reserves* and the deposits received from reinsurers as shown in Form 14 constitute proper provision at the end of the *financial year* for the *long-term insurance liabilities* where these liabilities:
 - (i) include any increase in liabilities arising from a distribution of surplus as a result of an investigation as at the end of the *financial year* into the financial condition of the *long-term insurance business*; and
 - (ii) include all liabilities arising from *deposit back arrangements*;but exclude liabilities which had fallen due before the end of the *financial year*, other than those arising from deposit back arrangements;
- (c) whether the liabilities have been valued in accordance with *INSPRU* and *GENPRU* in the context of assets valued in accordance with *GENPRU*, as shown in Form 14;
- (d) by way of a list, the professional guidance that has been complied with;
- (e) whether in his opinion, premiums for contracts entered into during the *financial year* and the income earned on them are sufficient on reasonable actuarial assumptions, taking into account other financial resources of the *members* and the *Society* that are available for the purpose, to enable the *members* to meet their commitments and, in particular, to establish adequate *mathematical reserves*; and
- (f) whether the amounts in Form 60 are accurate.

2 If the *syndicate actuary* considers it necessary, such qualification, amplification or explanation as may be appropriate must be added to the certificate.

PRA

Appendix 9.15 (rule 9.31 IPRU(INS)9.58(3))

Auditors' Report

- 1 The certificate required by *IPRU (INS) 9.58 (2)* must, in addition to any statement required by section 498 of the Companies Act 2006, state:
- PRA**
- (a) that in the auditors' opinion, Forms 9 to 17, 20 to 42, the supplementary notes to the forms and the statements required under *IPRU (INS) 9.51 (1)*, *IPRU(INS) 9.52 (1)*, *IPRU (INS) 9.53 (1)* and *IPRU (INS) 9.54 (1)* have been properly prepared in accordance with *IPRU (INS) Chapter 9 Part VI, INSPRU* and *GENPRU*;
 - (b) that according to the information and explanations that the auditors have received:
 - (i) in their opinion, the certificate required to be signed in accordance with *IPRU (INS) 9.58 (1)(a)*, otherwise than in relation to statements to which paragraph 1(c) of this table relates, has been properly prepared in accordance with *IPRU (INS) Chapter 9 Part VII, INSPRU* and *GENPRU*; and
 - (ii) subject to paragraph 1(c), it was or was not unreasonable for the persons giving the certificate to have made the statements in it (other than statements to which paragraph 1(c) relates); and
 - (c) the extent to which, in giving their opinion, the auditors have relied:
 - (i) in respect of financial information supplied to the *Society* by *managing agents* on behalf of *syndicates*, on work carried out by *syndicate* auditors; and
 - (ii) in respect of *long-term insurance business* carried on by *members*, on the certificates of the *syndicate actuaries* given in accordance with the requirements of *IPRU (INS) Chapter 9 Part VII, INSPRU* and *GENPRU* with respect to the amounts in Form 60.
- 2 The audit opinion required by 1(b)(i) does not extend to cover the statements required under:
- PRA**
- (a) *IPRU (INS) 9.55 (1)* and ; and *IPRU (INS) 9.57 (1)*
 - (b) *IPRU (INS) Appendix 9.12 1(d)*, but only in so far as it relates to relevant guidance which either states that compliance with the guidance need not be 2 1 October 2009 audited or which relates to controls with respect to money laundering.
- 3 To the extent that the information and explanations they have received do not allow the auditors to express an opinion on whether it was or was not unreasonable for the *Council* to have made the statement required by *IPRU (INS) Appendix 9.12 1(a)(iii)* the auditors must add to their report such
- PRA**

qualification, amplification or explanation as may be appropriate.

4

PRA

Where the auditors refer in their report or in any note attached to their report to any uncertainty, the report must state whether, in the auditors' opinion, that uncertainty is material to determining whether the *Society* is able to meet the solvency requirements of *IPRU (INS)* Chapter 9 Part VII, *INSPRU* and *GENPRU*.

Appendix 9.16 (Rule IPRU(INS)9.49(1)(b))

Accounting Classes

1 For the purposes of *IPRU (INS) Chapter 9 Part VII*, the accounting classes for *general insurance business* are those set out in the following table:

PRA

Accounting class	Description	Corresponding classes of <i>general insurance business</i>
1	Accident and health	1 (other than 1(p) and 2)
2	Motor	1(p), 3 and 10
3	Aviation	1(p), 5 and 11
4	Marine	1(p), 6 and 2
5	Transport	7
6	Property	4, 8, and 9
7	Third-party liability	13
8	Miscellaneous and pecuniary loss	14, 15, 16, 17 and 18
9	Non-proportional treaty	
10	Proportional treaty	
11	Marine, aviation and transport treaty	

Appendix 9.17 (rule 9.31 IPRU(INS)9.60(3))

Accounting Records

1 The certificate in *IPRU(INS) 9.60 (3)* must state that:

PRA

- (a) the return has been properly prepared in accordance with the instructions referred to in *IPRU(INS) 9.60 (2)*;
- (b) proper accounting records have been maintained and adequate information has been obtained by the *managing agent*;
- (c) an appropriate system of control has been established and maintained by the *managing agent* over the *syndicate's* transactions and records;
- (d) in relation to the statement by the *syndicate actuary of a syndicate* carrying on *long-term insurance business* required by *IPRU(INS) 9.58 (1)(c)*:
 - (i) proper accounts and records have been maintained for the purpose of preparing the statement; and
 - (ii) the information given has been ascertained in conformity with *IPRU (INS) Appendix 9.14*.

Appendix 9.18 (rule 9.31 IPRU(INS)9.60(7))

Auditors' Report

1 The certificate in *IPRU(INS) 9.60 (7)* must state:

- PRA**
- (a) that in the auditors' opinion, the return has been properly prepared in accordance with the instructions referred to in *IPRU(INS) 9.60 (2)*;
 - (b) that according to the information and explanations that the auditors have received:
 - (i) in their opinion, the certificate required to be signed in accordance with *IPRU(INS) 9.60 (3)* (other than statements to which paragraph 1(c) relates) has been properly prepared in accordance with the instructions; and
 - (ii) it was or was not unreasonable for the *persons* giving the certificate to have made the statements in it (other than statements to which paragraph 1(c) relates);
 - (c) the extent to which, in giving their opinion, the auditors have relied, in respect of *long-term insurance business*, on the work of the *syndicate actuary*.

2 The audit opinion required by paragraph 1 does not extend to cover information on major treaty reinsurers or major facultative reinsurers.

PRA

3 To the extent that the information and explanations they have received do not allow the auditors to express an opinion as to whether it was or was not unreasonable for the persons giving the certificate required to be signed in accordance with *IPRU(INS) 9.60 (3)* to have made the statements therein, the auditors must add to their report such qualification, amplification or explanation as may be appropriate.

INTERIM PRUDENTIAL SOURCEBOOK FOR INVESTMENT BUSINESSES

1 Chapter 1: Application and General Provisions

1.1 PURPOSE

1.1.1 Before 1 January 2007, the Interim Prudential Sourcebook for Investment Businesses (*IPRU(INV)*) was the part of the *Handbook* that dealt with capital requirements for *investment firms* subject to the position risk requirements of the previous version of the *Capital Adequacy Directive*. Now, however, *investment firms* which are subject to the risk-based capital requirements of the *Capital Adequacy Directive* are subject to the General Prudential sourcebook (*GENPRU*) and the Prudential sourcebook for Banks, Building Societies and Investment Firms (*BIPRU*).

FCA PRA

1.1.2 The *rules* and *guidance* in this sourcebook will assist the *appropriate regulator* to meet the statutory objectives. This sourcebook does so by setting minimal capital and other risk management standards thereby mitigating the possibility that firms will be unable to meet their liabilities and commitments to *consumers* and counterparties.

FCA PRA

1.1.3 The general scheme of this sourcebook is, wherever appropriate, to apply the financial and other prudential standards which applied to a *firm* immediately prior to it becoming authorised by the *appropriate regulator* under the *Act*. For convenience, the chapter numbers adopted in this sourcebook correspond with those of the rulebooks of *previous regulators*.

FCA PRA

1.1.3A This sourcebook does not apply to *BIPRU* investment firms except as follows:

FCA PRA

- (1) it does apply to certain exempt *BIPRU commodities firms*; and
- (2) chapter TP of *BIPRU* applies parts of *IPRU(INV)* to certain *BIPRU investment firms* on a transitional basis.

1.1.4 This sourcebook does not apply to *banks, building societies, insurers, the Society of Lloyd's* (except in relation to underwriting agents), *friendly societies* and certain other categories of *firm* and *members' advisers*.

FCA PRA

1.1.5 On becoming authorised by the *appropriate regulator* a *firm* will have to comply with the particular chapter of this sourcebook appropriate to its business. The *firm* will be able to seek guidance on this during the authorisation procedure. If subsequently, the business for which a *firm* has *permission* changes it may be necessary for it to comply with a different set of financial resources requirements. *Firms* will be able to discuss this aspect with the appropriate regulator during the application process.

FCA PRA

1.1.6 The *Supervision manual* sets out provisions relating to the periodic reporting and notification of financial information to the *appropriate regulator* or to the auditing of accounts. However, this sourcebook contains a few additional notification requirements (*notification rules*).

FCA PRA

1.2 APPLICATION

1.2.1 R The *Glossary* applies to the transitional provisions, this chapter (*IPRU(INV) 1*, *IPRU(INV) 2*, *IPRU(INV) 4*, *IPRU(INV) 6* and *IPRU(INV) 13*).

FCA PRA

1.2.2 R (1) *IPRU (INV)* applies to:

FCA PRA

- (a) a *members' adviser*;
 - (b) an *investment management firm*;
 - (c) a *personal investment firm*;
 - (d) an *authorised professional firm*;
 - (e) a *securities and futures firm*;
 - (f) a *service company*;
 - (g) the *Society of Lloyd's* (in relation to *underwriting agents*);
 - (h) [deleted]
 - (i) a *credit union* which is a *CTF provider*; and
 - (j) an *exempt CAD firm*.
- (2) *IPRU (INV)* does not apply to:
- (a) a *lead regulated firm*; or
 - (b) a *media firm*;
 - (c) a *BIPRU investment firm* (unless it is an *exempt BIPRU commodities firm*).
- (3) The definitions in the *Glossary* (which is applicable to the *Handbook* generally) apply to this chapter.

1.2.3 G For the avoidance of doubt, *IPRU (INV)* does not apply to any of the following:

FCA PRA

- (a) a *bank*; or
- (b) a *building society*; or
- (c) a *friendly society*; or
- (d) an *ICVC*; or

- (e) an *incoming EEA firm* or an *incoming Treaty firm* which does not have a *top up permission*; or
- (f) an *insurer*, or
- (g) a *UCITS qualifier*, or
- (h) a *UCITS management company*.

OBLIGATION TO COMPLY

1.2.4 R A *firm* of a kind listed in the left-hand column of Table 1.2.4R must comply with the provisions of IPRU (INV) shown in the right hand column and, where relevant, the provisions of Chapter 14.

FCA	PRA
-----	-----

1.2.5 R Table

<i>Personal investment firm</i>	Chapters 1 and 13
<i>Credit union which is a CTF provider</i>	Chapters 1 and 8

CAPITAL SUBSTITUTES: TRANSITIONAL PROVISION

1.2.6 G The financial resource requirements of the Financial Services Act regulators permitted certain types of borrowings or facilities to be treated as part of a *firm's* capital resources. The most common example is that of a subordinated loan which met the relevant conditions. The following provisions permit *firms* to continue to use these borrowings or facilities in the same way as under the relevant *previous regulator's* rules, provided that certain conditions are met.

FCA	PRA
-----	-----

1.2.7 R (1) If a *firm* was, immediately before *commencement* permitted to treat "relevant funds" as part of its capital resources under the financial resource rules of a *previous regulator* applicable to the

FCA	PRA
-----	-----

firm, it may treat those funds in an equivalent manner under the corresponding provisions of *IPRU (INV)*, provided that the conditions in (3) are met.

- (2) For the purposes of this *rule* “relevant funds” are funds provided to the *firm* under the terms of
- (a) a subordinated loan agreement; or
 - (b) qualifying undertaking; or
 - (c) any other instrument treated in an equivalent manner under the financial resources *rules* applicable to the *firm*.
- (3) The conditions referred to in (1) are either:
- (a) in the case of a subordinated loan agreement, qualifying undertaking or other relevant instrument to which the *firm’s previous regulator* is not party:
 - (i) the parties to it treat all rights (including, without limitation, rights to notice) which the agreement, undertaking or instrument grants to the *firm’s previous regulator* as having been granted to the *appropriate regulator*; and
 - (ii) if there is a variation of the commercial terms the parties include, in the terms of the instrument executed to effect the variation, provision to substitute reference to the *appropriate regulator* in place of any reference to the *firm’s previous regulator*; or
 - (b) in the case of a subordinated loan agreement, qualifying undertaking or other relevant instrument to which the *firm’s previous regulator* is party, the parties treat the rights accorded to the self regulating organisation under the relevant instrument as having been assigned to the *appropriate regulator* immediately before *commencement*.

1.2.8 G An instrument treated in an equivalent manner would, for example, include (in relation to a *personal investment firm*) a "PASS loan".

FCA	PRA
-----	-----

2 Chapter 2: Authorised professional firms

2.1 APPLICATION

- 2.1.1 R (1) This chapter applies to an *authorised professional firm* in accordance with *IPRU (INV) 2.1.2R* and *2.1.3R*.
- FCA
- (2) The definitions in the *Glossary* apply to this Chapter.
- 2.1.2 R (1) An *authorised professional firm* of a kind falling within (2) must comply with such of *IPRU (INV) 3, 5, 9* or *13* which in accordance with *IPRU (INV) 2.1.4R*, most appropriately correlates to the type and scale of the business which it conducts.
- FCA
- (2) The type of *authorised professional firm* to which (1) applies is one:
- (a) which is also an *exempt CAD firm*;
 - (b) which acts as a *market maker*;
 - (c) which acts as a *stabilising manager*;
 - (d) which acts as the trustee or operator of a *regulated collective investment scheme*;
 - (e) which acts as a *broker fund adviser* or otherwise participates in a *broker fund* arrangement;
 - (f) whose main business, having regard to (3), is not the practice of its profession or professions;
 - (g) whose *permission* includes a requirement that it acts in conformity with the financial resources *rules* applicable to another type of *firm*; or
 - (h) whose *permission* includes *establishing, operating or winding up a personal pension scheme*.
- (3) For the purposes of (2)(f), a *firm's* professional business practice is not the “main business” of the *firm* unless the proportion of income it derives from *professional fees* is, during its annual accounting period, at least 50% of the *firm's* total income (a temporary variation of not more than 5% may be disregarded for this purpose).
- (4) An *authorised professional firm* which, in accordance with (1), is required to comply with *IPRU (INV) 3, 5, 9* or *13* must immediately give notification of that fact to the *FCA* in accordance with *SUP 15.7* (Forms and method of notification).
- 2.1.3 R An *authorised professional firm* which does not fall within *IPRU (INV) 2.1.2R* must comply with sections 2.2, 2.3 and 2.4 of this chapter.
- FCA

2.1.4 R This table belongs to *IPRU (INV) 2.1.1R*

FCA

TYPE OF BUSINESS ACTIVITY	CHAPTER OF SOURCEBOOK
<p>(i) <i>managing investments</i> other than for <i>retail clients</i>; or</p> <p>(ii) <i>OPS activity</i>; or</p> <p>(iii) [deleted]</p> <p>(iv) acting as the <i>ACD</i> or <i>depository</i> of an <i>ICVC</i>; or</p> <p>(v) <i>establishing, operating or winding-up</i> other <i>collective investment schemes</i>; or</p> <p>(va) <i>establishing, operating or winding up</i> a <i>personal pension scheme</i>; or</p> <p>(vi) <i>safeguarding and administering investments</i>;</p>	<p><i>Investment management firm - IPRU (INV) 5</i></p> <p><i>Investment management firm</i> (which is an exempt <i>CAD</i> firm) – <i>IPRU(INV) 5</i> and <i>9</i></p>
<p>(i) <i>advising on, or arranging deals in, packaged products</i>; or</p> <p>(ii) <i>managing investments for retail clients</i>;</p>	<p><i>Personal investment firm - IPRU (INV) 13</i></p>
<p>(i) a <i>regulated activity</i> carried on as a member of an <i>exchange</i>; or</p> <p>(ii) acting as a <i>market maker</i> in <i>securities</i> or <i>derivatives</i>; or</p> <p>(iii) <i>corporate finance business</i>; or</p>	<p><i>Securities and futures firm</i> (which is an exempt <i>CAD</i> firm) - <i>IPRU(INV) 9</i></p> <p><i>Securities and futures firm</i> (which is not a <i>MiFID investment firm</i>) - <i>IPRU (INV) 3</i></p>
<p>(iv) <i>dealing or arranging deals in securities</i> or <i>derivatives</i>, other than <i>inter-professional investments</i>; or</p> <p>(v) the provision of clearing services as a <i>clearing firm</i>; or</p> <p>(vi) <i>spread betting</i>;</p>	

2.1.5 G An *authorised professional firm* will be a *MiFID investment firm* if its business activities include the provision of *investment services and/or activities* for a third party. An *authorised professional firm* will not however be a *MiFID investment firm* if it falls within one of the exclusions contained in Article 2 of *MiFID*. Article 2(1)(c) provides an exclusion for an *authorised professional firm* which provides *investment services and/or*

FCA

activities in an incidental manner in the course of a professional activity and that activity is regulated by the *firm's designated professional body*.

- 2.1.6 G The *FCA* considers the scope of this exclusion cannot be precisely defined. Ultimately questions of interpretation are for the Court to determine. The *FCA* considers that to satisfy the exclusion the services cannot be the major part of the practice of the *firm*. The *FCA* also considers the following factors to be among those that are relevant:
- FCA**
- (1) the scale of *regulated activity* in proportion to other professional services provided;
 - (2) whether and to what extent activities that are *regulated activities* are held out as separate services;
 - (3) the impression given as to how the *firm* provides *regulated activities*, for example through its advertising or other promotions of its service.

2.2 FINANCIAL RESOURCES REQUIREMENTS

- 2.2.1 R (1) **A *firm* must be able to meet its liabilities as they fall due.**

- FCA**
- (2) **In complying with (1) a *firm* may use any assets which are available to meet any of its liabilities.**

- 2.2.2 G *Firms* are reminded that:

- FCA**
- (1) requirements relating to the systems and controls which *firms* must establish and maintain for ensuring compliance with financial resources and other requirements are set out in *SYSC*.
 - (2) the financial reports that a *firm* is required to make to the *FCA* are set out in *SUP 16*.

2.3 PROFESSIONAL INDEMNITY INSURANCE

- 2.3.1 R **A *firm* must effect and maintain at all times adequate professional indemnity insurance cover for all the business activities which it carries on, or for which it is responsible.**

- 2.3.2 G In assessing the adequacy of a *firms'* professional indemnity insurance cover for the purposes of *IPRU(INV) 2.3.1R*, the *FCA* may have regard to a *firm's* compliance with the professional indemnity insurance requirements of its *designated professional body* in force at the time.
- FCA**

2.4 BONDING REQUIREMENT FOR ACCOUNTANTS

- 2.4.1 R **This section applies to a *firm* of accountants practising as such in the UK.**

FCA

- 2.4.2 R (1) **If the aggregate value of *client money* and *bonded investments* a *firm* holds for a *client* is over £50,000 then the *firm* must ensure that it holds a bond for the excess over £50,000.**
- FCA
- (2) **A *firm* must:**
- (a) **ensure that the bond is in the form prescribed by the *FCA*;**
 - (b) **ensure that the *person* specified to act as trustee in the bond is a *designated professional body* or a solicitor practising as such in the UK;**
 - (c) **ensure that the bond is lodged with the trustee; and**
 - (d) **be able at all times to show that the amount of the bond is sufficient to meet the requirements of (1).**
- 2.4.3 R **A *firm* must notify the *FCA* immediately:**
- FCA
- (1) **of any bond taken out specifying the amount and where it is lodged; and**
 - (2) **of the arrangements it has made to comply with *IPRU (INV) 2.4.2R* if a bond is not renewed or is cancelled.**
- 2.4.4 G (1) *Firms* which hold *client money* or bonded investments for more than one *client*, may hold one bond to cover all of the *clients* concerned. The bonding requirements may be complied with by taking out a global bond. In firms with numerous offices compliance may be achieved in practice by calculating the requirement based on figures supplied by offices which is likely to be at least quarterly. These figures would need to be supplied and assessed soon after the end of each quarter.
- FCA
- (2) To ensure the global cover is sufficient, this approach would require an estimated safety margin to be incorporated, to allow for changes in the amounts of *client money*, *investments* or assets held. An additional prudent measure would be to ensure that exceptional amounts of these assets are notified by branch offices so that the *firm* can check whether the safety margin can absorb them and reconsider whether the total global bond cover remains sufficient.
- 2.4.5 G *Firms* which do not expect to hold *bonded investments* or *client money* in excess of the value limit need not hold a bond. However, *firms* may wish to make contingency arrangements with a surety whereby a bond facility is available and can be executed and delivered at short notice.
- FCA

3 Chapter 3: Financial resources for Securities and Futures Firms which are not MiFID Investment Firms or which are Exempt BIPRU Commodities Firms

3-A R The definitions in the glossary at Appendix 1 apply to this chapter.

FCA

3-1 R This chapter applies to a *securities and futures firm* which:

FCA

- (a) is not a *MiFID investment firm*;
- (b) is an exempt *CAD firm* that carries on any *regulated activity* other than *MiFID business*; or
- (c) is an exempt *BIPRU commodities firm*.

FCA

G An exempt *BIPRU commodities firm* is subject to the non-capital requirements of *GENPRU* and *BIPRU* as indicated in *BIPRU* TP 15.

3-1A R This chapter does not apply to an *oil market participant* unless it is a member of a *recognised or designated investment exchange* which is, under the rules of that exchange, entitled to trade with other members.

FCA

G An *oil market participant* to which this chapter does not apply is still subject to the requirement of *Principle 4* to have adequate financial resources.

3-1B R The provisions on concentrated risk in this chapter do not apply to an exempt *BIPRU commodities firm* which applies the *large exposure* requirements in *BIPRU 10*.

FCA

G *BIPRU 10* applies to an exempt *BIPRU commodities firm* unless it qualifies for exemption under *BIPRU* TP 16.

3-1C G The table in *IPRU(INV)* 3-1D G sets out the parts of the *Handbook* containing provisions on *large exposure* or concentrated risk which apply to a *securities and futures firm*.

FCA

3-1D G Table

FCA

Applicability of the provisions to securities and futures firms

This table belongs to *IPRU(INV)* 3-1C G

(1)	(2)	(3)
Type of securities and futures firm	Whether conditions in <i>BIPRU</i> TP 16 are satisfied	Part of <i>Handbook</i> applicable for large exposure or concentrated risk requirements
<i>Energy market participant</i> (which is an exempt <i>BIPRU commodities firm</i>)	Yes	Not applicable

with a waiver from <i>IPRU(INV) 3</i>	No	<i>BIPRU 10</i> applies
<i>Energy market participant</i> (which is an exempt <i>BIPRU commodities firm</i>) to which <i>IPRU(INV) 3</i> applies	Yes	<i>IPRU(INV) 3</i> applies
	No	<i>BIPRU 10</i> applies
<i>Oil market participant</i> (which is an exempt <i>BIPRU commodities firm</i>) if it is a member of a <i>recognised investment exchange</i> or a <i>designated investment exchange</i> which is, under the rules of that exchange, entitled to trade with other members to which <i>IPRU(INV) 3</i> applies	Yes	<i>IPRU(INV) 3</i> applies
	No	<i>BIPRU 10</i> applies
<i>Other oil market participant</i> (which is an exempt <i>BIPRU commodities firm</i>) to which <i>IPRU(INV) 3</i> does not apply	Yes	Not applicable
	No	<i>BIPRU 10</i> applies
<i>Exempt BIPRU commodities firm</i> which is not an <i>energy market participant</i> or <i>oil market participant</i>	Yes	<i>IPRU(INV) 3</i> applies
	No	<i>BIPRU 10</i> applies
<i>Securities and futures firm</i> (which is not a <i>MiFID investment firm</i>)	Not applicable	<i>IPRU(INV) 3</i> applies

3-2 R A firm must at all times have available the amount and type of financial resources required by the rules of the FCA.

FCA

3-5 R A firm must notify the FCA immediately it becomes aware that it is in breach of, or that it expects shortly to be in breach of, rule 3-2.

FCA

*Valuation of positions **

3-41(9) R A firm must value a position on a prudent and consistent basis, as well as having regard to the liquidity of the instrument concerned and any special factors which may adversely affect the closure of the position, and must adopt the following general policies:

FCA

- (a) a position must be valued at its close out price (close out price means that a long position shall be valued at current bid price and a short position at current offer price); where firm two way prices are not available a firm must value its position in accordance with the notes to this rule;*
- (b) where a firm is entitled to use a risk assessment model in the calculation of its *PRR* on *options* positions, it may value its *options* using the values derived from the model;
- (c) where a firm does not use a model as described in (b) above and prices are not published for its *options* positions, a firm

must determine the *mark to market* value as follows:

- (i) for purchased *options*, the *mark to market* value must be the product of:
 - (aa) the *in the money* amount; and
 - (bb) the quantity underlying the *option*;
- (ii) for written *options* the *mark to market* value must be the initial premium received for the *option* plus the product of:
 - (aa) the amount by which the current *in the money* amount exceeds either the *in the money* amount at the time the contract was written, or zero if the contract was *out of the money* at the time it was written; and
 - (bb) the quantity underlying the *option*;
- (d) a *firm* must calculate the value of a *swap* contract or an *FRA* having regard to the net present value of the *future* cash flows of the contract, using current interest rates relevant to the periods in which the cash flows will arise;
- (e) notwithstanding (d) above, a *firm* may refrain from marking a *swap* or an *FRA* to market where it enters into such transactions on a matched principal basis, provided that it is confident that such positions are fully matched;
- (f) a *firm* that is a partnership which experiences *exceptional* administrative or technical difficulties complying with the valuation procedure outlined above should notify the *FCA* immediately; and
- (g) in the case of interest rate *swaps*, currency *swaps* and *FRAs*, a *firm* may limit the bid/offer valuation required under (a) to its net position.

FCA

G The *FCA* does not lay down a precise formula for calculating the value of *swaps* and *FRAs* for the purposes of this rule. However, it will expect a *firm* to employ a valuation formula which accords with generally accepted market practice.

FCA

G The *FCA* may permit by modification or waiver of this rule an alternative arrangement if it is satisfied that neither the *firm* nor its *counterparties* will be put at risk by the adoption of that alternative procedure.

* For notes on the valuation of positions, see **Appendix 21**

3-60 FIRMS TO WHICH RULES 3-61 TO 3-182 APPLY

Broad scope firms

3-60(1) R Rules 3-61 to 3-182 apply to a *broad scope firm* except that rules 3-80 to 3-178 do not apply to a *venture capital firm* or in respect of *bidding in emissions auctions* carried on by a *firm* that is exempt from *MiFID* under article 2(1)(i).

FCA

Arrangers

3-60(2) R Rules 3-61 to 3-182 apply to an *arranger*, except that:

FCA

- (a) Rule 3-61 and rules 3-63 to 3-182 do not apply to a *corporate finance advisory firm* or a *derivative fund manager*; and
- (b) rules 3-80 to 3-178 do not apply to a *venture capital firm*.

Corporate finance advisory firms

3-60(3) R Rule 3-61 and rules 3-63 to 3-182 do not apply to a *corporate finance advisory firm* which must instead comply with the following two capital requirements at all times:

FCA

- (a) *tangible net worth* must exceed £10,000; and
- (b) net current assets must exceed £10,000.

3-60(3A) R (a) Net current assets for the purposes of rule 3-60(13)R(b) shall be as calculated for the purposes of producing a balance sheet in accordance with the following provisions, as applicable:

FCA

- (i) Format 1 of the Balance Sheet Format of Schedule 4 to the Companies Act 1985; or
- (ii) Schedule 1 to the Small Companies and Groups (Accounts and Directors' Report) Regulations 2008 (SI 2008/409); or
- (iii) Schedule 1 to the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 (SI 2008/410); or
- (iv) Schedule 1 to the Small Limited Liability Partnerships (Accounts) Regulations 2008 (SI 2008/1912); or
- (v) Schedule 1 to the Large and Medium-sized Limited Liability Partnerships (Accounts) Regulations 2008 (SI 2008/1913).

Advisers and locals/traded options market makers

3-60(4) R Rules 3-61 to 3-182 do not apply to an *adviser* or *local/traded options market maker* which must instead comply with the following capital requirements at all times:

FCA

- (a) *tangible net worth* must be positive;
- (b) in the case of an *adviser*, net current assets must be positive; and
- (c) in the case of a *local traded options market maker*, the *firm* must be able to meet its liabilities as they fall due.

3-60(4A) R (a) Net current assets for the purposes of rule 3-60(4)R(b) shall be as calculated for the purposes of producing a balance sheet in accordance with the following provisions as applicable:

FCA

- (i) Format 1 of the Balance Sheet Format of Schedule 4 to the Companies Act 1985; or
- (ii) Schedule 1 to the Small Companies and Groups (Accounts and Directors' Report) Regulations 2008 (SI 2008/409); or
- (iii) Schedule 1 to the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 (SI 2008/410); or
- (iv) Schedule 1 to the Small Limited Liability Partnerships (Accounts) Regulations 2008 (SI 2008/1912); or
- (v) Schedule 1 to the Large and Medium-sized Limited Liability Partnerships (Accounts) Regulations 2008 (SI 2008/1913).

Derivative fund managers

3-60(5) R Rule 3-61 and rules 3-63 to 3-182 do not apply to a *derivative fund manager* which must instead comply with the following two capital requirements at all times:

FCA

- (a) *tangible net worth* must exceed £10,000; and
- (b) net current assets, excluding investment in any pooled fund or *unregulated collective investment scheme* which it manages, must exceed £10,000.

3-60(5A) R (a) Net current assets for the purposes of rule 3-60(5)R(b) shall be as calculated for the purposes of producing a balance sheet in accordance with the following provisions as applicable:

FCA

- (i) Format 1 of the Balance Sheet Format of Schedule 4 to the Companies Act 1985; or
- (ii) Schedule 1 to the Small Companies and Groups (Accounts and Directors' Report) Regulations 2008 (SI 2008/409); or
- (iii) Schedule 1 to the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 (SI

2008/410); or

- (iv) Schedule 1 to the Small Limited Liability Partnerships (Accounts) Regulations 2008 (SI 2008/1912); or
- (v) Schedule 1 to the Large and Medium-sized Limited Liability Partnerships (Accounts) Regulations 2008 (SI 2008/1913).

Dematerialised instruction transmitters

3-60(6) R Rules 3-61 to 3-182 apply to a *dematerialised instruction transmitter*.

FCA

3-60(7) R Rules 3-61 to 3-182 apply to a *firm* whose *permission* includes *establishing, operating or winding-up a personal pension scheme*.

FCA

Exempt CAD firms

3-60(8) R Rules 3-61 to 3-182 do not apply to an *exempt CAD firm*, unless it carries on any *regulated activity* other than *MiFID business*.

FCA

Exempt BIPRU commodities firms

3-60(9) G An *exempt BIPRU commodities firm* should determine whether it is a *broad scope firm* or one of the other categories in this *rule*.

FCA

3-61 THE BASIC COMPUTATION

3-61(1) R A *firm* must, at all times, maintain *financial resources* in excess of its *financial resources requirement*.

FCA

3-61(2) R A *firm* must calculate its *financial resources* and its *financial resources requirement* in accordance with the table below and rules 3-62 to 3-182.

FCA

FCA

R Table 3-61. The basic financial resources calculation

Financial resources	Financial resources requirement
Capital ("A")	Primary requirement ("E")
the sum of -	the sum of -
- ordinary share capital	- base requirement
- preference share capital	- total liquidity adjustment
- share premium account	- charged assets
- profit and loss account	- <i>contingent liabilities</i>
- other approved reserves, and	- deficiencies in <i>subsidiaries</i>
- partners' current and capital	

accounts, and - eligible LLP members' capital Intangible assets and excess LLP members' drawings ("B") A - B = <i>tangible net worth</i> ("C")	
Eligible capital substitutes ("D") the sum of - - subordinated loans - approved bank bonds - approved undertakings	Total PRR ("F") Total CRR ("G")
C + D = <i>financial resources</i>	E + F + G = <i>financial resources requirement</i>

3-62 TANGIBLE NET WORTH

Calculation

3-62(1) R A firm must calculate its *tangible net worth* in accordance with table 3-61, subject to (2), (3) and (4) below.

FCA

Redeemable shares

3-62(2) R A firm may include redeemable *share* capital as part of *tangible net worth* only if:

FCA

- (a) the firm's memorandum and articles of association or a shareholders' agreement contain provisions that:
 - (i) redemption may not occur if the firm's *financial resources* after redemption would be less than or equal to 120% of its *financial resources requirement*;
 - (ii) dividends may not be paid if the firm's *financial resources* after payment would be less than or equal to 120% of its *financial resources requirement*; and
 - (iii) in the case of a shareholder's agreement, any assignee of the shares is subject to the provisions of the agreement; and
- (b) the firm, before issuing any preference shares, notifies the FCA of its intention to do so.

Notice of redemption

3-62(3) R A firm must provide the FCA with six months' written notice of redemption of any of its redeemable shares.

FCA

Approved reserves

3-62(4) R **A firm may not include reserves other than retained profits as part of tangible net worth.**

FCA

FCA

G A firm that wishes to include other reserves will need to apply for a modification or waiver of this rule.

Profit and loss account/partners' current and capital accounts

3-62(5) R **For the calculation of tangible net worth, a firm must:**

FCA

- (a) deduct any unrealised gains or, where applicable, add back in any unrealised losses on cash flow hedges of financial instruments measured at cost or amortised cost;
- (b) in respect of a defined benefit occupational pension scheme, derecognise any defined benefit asset.

3-62(6) R **A firm may, for the purposes of calculating tangible net worth, substitute for a defined benefit liability the firm's deficit reduction amount. The election must be applied consistently in respect of any one financial year.**

FCA

3-62(7) G A firm should keep a record of and be ready to explain to its supervisory contacts in the FCA the reasons for any difference between the deficit reduction amount and any commitment the firm has made in any public document to provide funding in respect of a defined benefit occupational pension scheme.

FCA

3-62(8) R **Where applicable, a firm must deduct any asset in respect of deferred acquisition costs and add back in any liability in respect of deferred income (but excluding from the deduction or addition any asset or liability which will give rise to future cash flows), together with any associated deferred tax.**

FCA

3-63 ELIGIBLE CAPITAL SUBSTITUTES

Calculation

3-63(1) R **A firm must calculate its eligible capital substitutes in accordance with table 361, subject to (2) to (9) below.**

FCA

Approved eligible capital substitutes

3-63(2) R **A firm may treat a subordinated loan, approved bank bond or approved undertaking as an eligible capital substitute only if it is:**

FCA

- (a) drawn up in accordance with the relevant standard form obtained from the FCA; and
- (b) signed by authorised signatories of all the parties.

FCA G If a *firm* wishes to use a form which differs from the standard form it will need to seek a modification to, or modification or waiver of, this rule.

FCA G A *firm* may, under the provisions of IPRU(INV) 1.2.5R continue to treat a subordinated loan, bank bond or approved undertaking as an eligible capital substitute if it was entitled to do so immediately prior to the *specified day*, and the other conditions set out in IPRU(INV) 1.2.5R are met.

Approved lenders

3-63(3) R A *firm* may treat a subordinated loan as an *eligible capital substitute* only if the lender is:

- FCA**
- (a) the *firm's* controller;
 - (b) a *regulated banking institution*;
 - (c) an *approved person*; or
 - (d) a *regulated financial institution*.

FCA G If the *firm* wishes to include as an *eligible capital substitute* a subordinated loan from a lender not within the above list, it will need to apply for a modification or modification or waiver of 3-63.

Notice of repayment and termination

3-63(4) R A *firm* must provide the *FCA* with five *business days* written notice of any repayment, prepayment or termination of a subordinated loan, *approved bank bond* or approved undertaking, except when the *firm's financial resources* after payment of interest or principal etc would be less than or equal to 120% of its *financial resources requirement*, in which case the *firm* must not repay, prepay or terminate any subordinated loan, *approved bank bond* or approved undertaking otherwise than in accordance with the terms of the relevant agreement.

FCA

Amounts repayable within three months

3-63(5) R A *firm* may not treat any amount of a subordinated loan which is repayable within three months as an *eligible capital substitute*.

FCA

Limit on eligible capital substitutes

3-63(6) R The total amount of *eligible capital substitutes* which a *firm* may take into account in its *financial resources* must not exceed four times *tangible net worth*.

FCA

Limit on approved bank bonds

3-63(7) R The total of *approved bank bonds* which a *firm* may treat as an *eligible capital substitute* must not exceed:

FCA

- (a) 30% of the base requirement; and

- (b) **CRR on exchange-traded-margined-transactions plus concentrated risk to one counterparty arising from exchange-traded-margined-transactions calculated under rules 3-173A and 3-175.**

Limit on approved undertakings

- 3-63(8) R A firm may only treat approved undertakings as an *eligible capital substitute* to the extent that its *approved bank bonds* are less than 30% of its base requirement.

FCA

Approved undertakings

- 3-63(9) R A firm may treat an undertaking as an *eligible capital substitute* only if the provider of the undertaking is:

FCA

- (a) a *regulated banking institution*; or
(b) a *regulated financial institution*;

FCA

- G A firm that wishes to include an undertaking where the provider is neither of the above, it will need to seek a modification or waiver from the FCA.

PRIMARY REQUIREMENT

Definition of primary requirement – General rule

- 3-70 R A firm's *primary requirement* is the sum of:

FCA

- (a) the base requirement calculated in accordance with rule 3-71;
(b) the total liquidity adjustment calculated in accordance with rule 3-75;
(c) charged assets calculated in accordance with rule 3-76;
(d) *contingent liabilities* calculated in accordance with rule 3-77;
and
(e) deficiencies in *subsidiaries* calculated in accordance with rule 3-78;

Base requirement – General rule

- 3-71 R A firm's base requirement is the highest of:

FCA

- (a) the absolute minimum requirement, calculated in accordance with rule 3-72;
(b) the expenditure requirement, calculated in accordance with

rule 3-73; or

- (c) the volume of business requirement, calculated in accordance with rule 3-74.

Absolute minimum requirement General rule

3-72 R A firm's absolute minimum requirement is:

FCA

- (a) for an *arranger*: £10,000;
- (b) for a *financial bookmaker*: £50,000;
- (c) for an *agency broker*: £50,000;
- (d) for a *firm* which handles *client money* and assets relating to *marginised transactions* and segregates all *money* received from clients as *client money*: £50,000;
- (e) for a *non clearing floor member*: £50,000;
- (ea) for a *dematerialised instruction transmitter*: £50,000;
- (eb) for a *firm* that is exempt from *MiFID* under article 2(1)(i) and whose *permitted activities* include *bidding in emissions auctions*: £50,000;
- (f) for a *broad scope firm* other than one within (b) to (eb) above: £100,000.

3-73 EXPENDITURE REQUIREMENT

General rule

3-73(1) R A firm's expenditure requirement is:

FCA

- (a) for an *investment manager*, an *introducing broker* who is not responsible for its *counterparties'* performance; a *venture capital firm* which is an *arranger*, a *model A clearing firm*; a *dematerialised instruction transmitter*, or a *firm* that does not hold *client money* or assets but whose *permission* includes *establishing, operating or winding-up a personal pension scheme*: 6/52nds of *relevant annual expenditure*; or
- (b) for any other *firm*: 1/4 of *relevant annual expenditure*.

Calculation of relevant annual expenditure

3-73(2) R Subject to (3), (4) and (5) below, a *firm* must calculate its *relevant annual expenditure* with reference to the *firm's* most recent *annual financial statements*, as follows:

FCA

- (a) its total revenue; and
 - (b) any loss before taxation;
- less the aggregate of the following items:
- (c) profit before taxation;
 - (d) *bonuses*;
 - (e) *profit shares* and other appropriations of profit, except for fixed or guaranteed remuneration of a partner which is payable even if the *firm* makes a loss for the year;
 - (f) paid *commissions shared*, other than to *employees, directors, half commission men* or *appointed representatives* of the *firm*;
 - (g) fees, brokerage and other charges paid to *clearing houses, exchanges, approved exchanges* and *intermediate brokers* for the purposes of executing, registering or clearing transactions;
 - (h) interest payable to *counterparties*;
 - (i) interest payable on borrowings to finance the *firm's investment business* and *associated business*; and
 - (j) *exceptional or extraordinary items*, provided that it first notify the *FCA* in writing of the nature and amount of the item(s) concerned.

Absence of annual financial statements

3-73(3) R If a *firm* does not have *annual financial statements*, it must:

FCA

- (a) where it has just commenced trading, base its *relevant annual expenditure* on budgeted or other accounts which it submitted to the *FCA* as part of its application; or
- (b) where its accounts do not represent a 12 month period, calculate *relevant annual expenditure* on a proportionate basis agreed by the *FCA*.

Adjustments to relevant annual expenditure

3-73(4) R A *firm* must use a *relevant annual expenditure* adjusted to take account of its circumstances where:

FCA

- (a) there has been a significant change in the circumstances or activities of the *firm*; or

- (b) **the firm has a material proportion of its expenditure incurred on its behalf by third parties and such expenditure is not fully recharged to the firm.**

FCA G *FCA* would for example consider an application to vary a *firm's* permitted activity as a significant change.

FCA G *FCA* would consider 10% of a firm's expenditure incurred on its behalf by third parties to be material.

FCA G If a *firm* is in any doubt, it should always seek guidance from the FCA.

Recent Authorisation

3-73(5) R **If a firm has not been authorised long enough to have prepared annual financial statements after authorisation, it must base its relevant annual expenditure on budgeted or other accounts which it submitted to the FCA as part of its application.**

FCA

Application

3-74(1) R **The volume of business requirement applies only to a firm which settles margined transactions for counterparties.**

FCA

Margined transactions

3-74(2) R **A firm's volume of business requirement is 3.5% of the aggregate gross amounts of any initial margin (as calculated in (3) below) of the firm's counterparties at the relevant time.**

FCA

Initial margin

3-74(3) R **A counterparty's initial margin for the purposes of (2) above is the sum of the following amounts:**

FCA

- (a) **in respect of exchange traded transactions, the counterparty's initial margin requirement; and**
- (b) **in respect of OTC transactions, the amount of margin that the counterparty is required by the firm to deposit.**

3-75 LIQUIDITY ADJUSTMENT

General rule

3-75(1) R **A firm's total liquidity adjustment is the sum of amounts specified as liquidity adjustments below.**

FCA

Intangible assets

3-75(2) R **The liquidity adjustment for intangible assets is nil (these must be deducted from capital to arrive at tangible net worth under 3-62).**

FCA

Intangible assets do not include a deferred acquisition cost asset.

Tangible fixed assets

- 3-75(3) R The liquidity adjustment for tangible fixed assets is the total net book value of such assets, with the exception of land and buildings used as *security for non recourse loans* or other loans which a *firm* must treat under (4) and (5) below.
- FCA

Land and buildings used as security for non recourse loans

- 3-75(4) R The liquidity adjustment for land or buildings used as security for a *non recourse loan* is the difference between the net book value of the land or building and the loan principal outstanding, except where the loan principal outstanding is higher than the net book value in which case there is no liquidity adjustment.
- FCA

Land and buildings used as security for other loans

- 3-75(5) R The liquidity adjustment for land or buildings used as security for loans other than *non recourse loans* is the difference between the net book value of the land or building and the lower of:
- FCA
- (a) 85% of a professional valuation of the land and buildings (which must have been carried out in the last two years); or
 - (b) the principal outstanding,
- except where both (a) and (b) are higher than the net book value in which case there is no liquidity adjustment.

Physical stocks

- 3-75(6) R The liquidity adjustment for physical stocks is the balance sheet value of such stocks, except for stock positions associated with the *firm's investment business* which are:
- FCA
- (a) *physical commodities* for which the full contract price has been paid;
 - (b) work in progress and finished goods which result from the processing of *physical commodities*; or
 - (c) raw materials which will be combined with *physical commodities* to produce a finished processed commodity,
- in which case there is no liquidity adjustment (but see *PRR* rules).

Investments in connected companies

- 3-75(7) R The liquidity adjustment for an *investment* in a *connected company* is the balance sheet value of the *investment*, except where the *investment* is a *marketable investment* which is not in a *subsidiary*, in which case there is no liquidity adjustment but such *investment* must
- FCA

be subject to the *PRR* rules.

Other investments

- 3-75(8) R Other *investments* have no liquidity adjustment but instead are subject to the *PRR* rules.

FCA

Prepayments

- 3-75(9) R The liquidity adjustment for a prepayment is the balance sheet value of that prepayment, except that there is no liquidity adjustment to the extent that it relates to goods and services to be received or performed in the next three months (or six weeks in the case of an *investment manager*, an *introducing broker* who is not responsible for its *counterparties'* performance; a *venture capital firm* which is an *arranger*, or a *model A clearing firm*).

FCA

Debtors arising from investment business or dealing activities

- 3-75(10) R Debtors arising from *investment business* or *dealing activities* have no liquidity adjustment but instead are subject to the *CRR* rules.

FCA

Other debtors

- 3-75(11) R The liquidity adjustment for debtors other than debtors arising from *investment business* or *dealing activities* is the balance sheet value of the debtor, except that there is no liquidity adjustment in the following circumstances:
- (a) amounts due from *connected companies* which are *adequately secured* and are repayable within 90 days;
 - (b) unsecured amounts due at the request of the *firm* from a *connected company* which is a *regulated banking institution* within 90 days;
 - (c) unsecured amounts due at the request of the *firm* from a *connected company* which is a *regulated financial institution* within seven days;
 - (d) having given prior written notice to the *FCA*, unsecured amounts receivable at the request of the *firm* from a *connected company* within seven days under an *approved treasury arrangement*, up to a maximum of the *firm's* excess of *financial resources* over its *financial resources requirement* before taking into account the *approved treasury arrangement*;
 - (e) amounts receivable in respect of cash dividends declared by either *exchange traded companies* or *authorised persons* which have been outstanding for 30 days or less from the date the dividends were due to be paid;
 - (f) amounts accrued or receivable in respect of interest on *marketable investments* which have been outstanding for 30

days or less from the date the interest was due to be paid;

- (g) amounts receivable on U.K. value added tax which have been outstanding for 30 days or less from the date that the value added tax return was due to be received by HM Customs & Excise; and
- (h) amounts receivable on taxation other than U.K. value added tax which have been agreed with the appropriate tax authorities and have been outstanding for 30 days or less from the date that the amounts were due to be received.

Cash deposits

- 3-75(12) R The liquidity adjustment for a cash deposit is the balance sheet value of the deposit, except for *qualifying deposits* and those other deposits which are subject to rule 3-180.

FCA

Other assets

- 3-75(13) R The liquidity adjustment for assets other than those specifically stated above is the balance sheet value of the asset concerned. Other assets do not include a *defined benefit asset* or a deferred acquisition cost asset.

FCA

Charged assets – General rule

- 3-76 R A *firm* must calculate the *primary requirement* for charged assets as the aggregate balance sheet value of each asset of the *firm* over which a third party has the right of *sale* or retention on default by the *firm* except:

FCA

- (a) to the extent of any liability of the *firm* plus a reasonable margin in respect of the charged asset; or
- (b) where the asset is collateral for a transaction which is subject to the *CRR* rules.

Contingent liabilities – General rule

- 3-77 R A *firm* must calculate a *primary requirement* for each of its *contingent liabilities*.

FCA

Deficiencies in subsidiaries – General rule

- 3-78 R A *firm* must calculate the *primary requirement* for deficiencies in *subsidiaries* as an amount equal to any deficiency in shareholders' funds at any time of a *subsidiary* of the *firm* except to the extent that:

FCA

- (a) provision has already been made by the firm; or
- (b) the firm has already calculated a liquidity adjustment or CRR because the deficiency arises or partially arises out of a liability of the subsidiary to the firm.

SECONDARY REQUIREMENT

Risk Profile

- 3-79(1) R A firm must include in its secondary requirement any amount specified in any *requirement* to cover an unusual risk profile

FCA

Operational risks

- 3-79(2) A firm must include in its secondary requirement any amount specified in any *requirement* to cover the inadequate management of operational risk to which a firm is exposed.

FCA

FCA

- G In assessing whether to impose a *requirement* on a firm to cover an unusual risk profile or operational risks, the FCA will consider various criteria. In addition, the FCA will take into account material group risks to a firm, where these have not been captured in a group financial resources test. Secondary requirements may be applied, for example, where there has been a major failure on the part of a firm to maintain adequate controls, as a means of providing an additional capital buffer whilst these problems are addressed.

POSITION RISK REQUIREMENT

3-80 GENERAL PRINCIPLES OF PRR

Application

- 3-80(1) R Rules 3-80 to 3-169B apply to any *arranger* or *broad scope firm*, except a *venture capital firm* or a *corporate finance advisory firm*.

FCA

*Obligation to calculate PRR**

- 3-80(2) R A firm must calculate a minimum PRR in respect of any position according to one of the methods available to it under the rules below, as appropriate, but may calculate a higher PRR in any other way at its option.

FCA

FCA

- G Notwithstanding the methods available for calculating the PRR, a firm may, in respect of any individual position, calculate a PRR which is more conservative than that calculated under the appropriate rule. However, in that case, the firm will need to be able to demonstrate that, in all circumstances, the calculation being employed does give rise to a higher PRR for the position.

* For guidance notes as to which methods to apply, see **Appendix 20**

Frequency of calculation

- 3-80(3) R A firm must be able to monitor its *total PRR* on an intra-day basis and must re-calculate it in a full and detailed manner before executing any trade which is likely to increase it to such a level that the *firm's financial resources requirement* might exceed the *firm's financial resources*.
- FCA

Marking to market

- 3-80(4) R A firm must *mark to market* its positions, whether or not on the balance sheet, in accordance with the valuation rule 3-41(9) at least once every *business day* and more frequently as appropriate.
- FCA
- 3-80(4A) R A firm must calculate the *PRR* for any position which is a *marketable investment* as 8% of the *mark to market* value of the position, other than in respect of a derivative (whatever the nature of the underlying instrument) or off balance sheet contract, when the *PRR* is 8% of the value of the notional position underlying the contract.
- FCA

Non marketable investments

- 3-80(5) R A firm must calculate the *PRR* for any position which is not a *marketable investment* as 100% of the *mark to market* value of the position, other than in respect of a derivative (whatever the nature of the underlying instrument) or off balance sheet contract, when the *PRR* is 100% of the value of the notional position underlying the contract.
- FCA

Instruments for which no percentage risk addition has been specified

- 3-80(6) R A firm must calculate the *PRR* for any on or off balance sheet position in a *marketable investment* for which no *percentage risk addition* is specified under the *PRR* rules as an appropriate percentage of the current *mark to market* value of any position or notional position underlying the contract and must notify the *FCA* of the terms of the instrument and the proposed *PRR* treatment.
- FCA
- 3-80(6A) E (1) In 3-80(6) "an appropriate percentage" is:
- FCA
- (a) 100%; or
 - (b) A percentage which takes account of the characteristics of the instrument concerned and of discussions with the *FCA* or a predecessor regulator;
- (2) Compliance with (1) may be relied on as tending to establish compliance with 3-80(6).
- (3) Contravention of (1) may be relied on as tending to establish contravention of 3-80(6).

Group hedging arrangements

- 3-80(7) R A *firm* may amend its PRR to take account of a group hedging arrangement to which the *firm* is party, provided the group hedging arrangement is recorded by an agreement in writing between all the relevant parties and the *firm* first notifies the FCA in writing of the terms of the arrangement and of the proposed amendment to the PRR.

FCA

Alternative treatments

- 3-80(8) R Where a *firm* has the alternative of treating a position under two or more different methods or treatments within methods, it must treat the position under one of those methods.

FCA

Simpler approach to PRR calculation

- 3-80(9) R As a simpler approach to calculating PRR, a *firm* may calculate the total PRR by multiplying all positions in *marketable investments* by the relevant percentage stated in the table below and summing the results.

FCA

TABLE 3-80(9)

Position risk requirement – simpler approach

C: Stock positions in *physical commodities*

Stock positions in <i>physical commodities</i> associated with a <i>firm's investment business</i>	30% of realisable value
--	-------------------------

D: Certain *derivatives* and foreign exchange

<i>Exchange traded futures and written options</i>	4 x <i>initial margin requirement</i>
<i>OTC futures and written options</i>	Apply the percentage shown in C above to the <i>mark to market</i> value of the underlying position
<i>Purchased options</i>	Apply the percentage shown in C above to the <i>mark to market</i> value of the underlying position but the result may be limited to the <i>mark to market</i> value of the <i>option</i>
<i>Contracts for differences</i>	20% of the <i>mark to market</i> value of the contract
<i>Foreign exchange exposure</i>	10% of the net open long position

F: Other investments

Single premium unit linked bonds and units in a <i>regulated collective investment scheme</i>	50% of realisable value
Any other <i>investments</i>	100% of <i>mark to market</i> value of <i>investment</i> or underlying instrument
Notes	
	Percentage
1	A percentage means, unless otherwise indicated, a percentage of the <i>mark to market</i> value of the aggregate of the long and the short positions in the particular category.
	Netting
2	The long or (short position) in a particular instrument is the net of any long or short positions held in that same instrument (i.e. a long position in ICI shares can be offset on a <i>share for share</i> basis against a short position in ICI shares) but positions in similar instruments (e.g. ICI shares against BP shares) cannot be offset in this way.
	Stock positions in physical commodities
3	A stock position in <i>physical commodities</i> is the <i>mark to market</i> value of the sum of –
	(i) commodities where the full contract price has been paid;
	(ii) work in progress and finished goods which result from the processing of commodities; and
	(iii) raw materials which will be combined with commodities to produce a finished processed commodity.
4	A stock position in <i>physical commodities</i> is regarded as being associated with a <i>firm's investment business</i> if the contract associated with the <i>physical commodity</i> was made for <i>investment</i> rather than commercial purposes. Indications of this are –
	(i) the contract is <i>exchange traded</i> or
	(ii) the performance of the contract is guaranteed by an <i>exchange</i> an <i>approved exchange</i> or a <i>clearing house</i> .

Models approach to PRR calculation

3-80(10)

G A *firm* that wishes to use its internal model to calculate *PRR* in respect of all, or some, of its positions will need to apply for a modification or waiver of the relevant *FCA* rules.

FCA

FCA

G Further guidance on the criteria which such models must meet, and the review process, can be obtained from the *FCA*.

FOREIGN CURRENCY EXPOSURES AND FOREIGN CURRENCY DERIVATIVES

METHODS

Summary of foreign currency exposures and derivatives methods

- 3-150 R A firm must calculate an additional *PRR* under the *foreign currency exposures or foreign currency derivatives method* where it has any asset or liability or any off-balance sheet contract which is denominated in a currency other than the currency of its books of account. For these purposes, gold must be treated as another currency.

FCA

3-151 TYPES OF EXPOSURES TO BE TREATED AS FOREIGN CURRENCY EXPOSURES

General rule

- 3-151(1) R A firm must apply the *foreign currency exposures or foreign currency derivatives method* to the following positions, identifying each currency separately including the currency of its books of account:

FCA

- (a) any currency *future* at the nominal value of the contract;
- (b) any currency *option*;
- (c) any forward contract for the purchase or *sale* at the contract value, including any future exchange of principal associated with cross-currency *swaps*, but excluding any purchase or *sale* of known but unaccrued future income or expense;
- (d) any other balance sheet asset or liability; and
- (e) any other off balance sheet commitment to purchase or sell an asset denominated in that currency.

Dual currency bonds

- 3-152(2) R In respect of a *dual currency bond*, a firm must include within the *foreign currency exposures method* a notional *forward contract*:

FCA

- (a) for the purchase of the redemption currency derived from the *dual currency bond*, for an amount determined by reference to the terms of issue of the *dual currency bond*; or
- (b) for the *sale* of the issue currency, for an amount equal to the *mark to market* value of the *dual currency bond*, with a deemed settlement date equal to the maturity of the bond.

Determining the currency of investments

- 3-151(3) R For the purposes of determining the currency in which a position in an *investment* is denominated, a firm must apply the following principles:

FCA

- (a) where the price of an instrument is quoted in only one currency, a position in that instrument must be treated as an asset or liability in that currency;
- (b) where the price of an instrument is quoted in more than one currency, a position in that instrument must be treated as an asset or liability in the currency in which the *firm* accounts for the instrument; and
- (c) notwithstanding (a) and (b) above, a position in an American depository receipt or similar form of instrument must be treated as a position, translated at current spot rate, in the currency of the underlying instrument.

3-152 APPLICATION OF FOREIGN CURRENCY EXPOSURES AND DERIVATIVES METHODS TO FOREIGN CURRENCY DERIVATIVES

Risk assessment models

- 3-152(1) G A *firm* may seek a modification or waiver from the *FCA* to use a risk assessment model in respect of its currency *options* to calculate notional positions which may be included in the *foreign currency exposures method*, provided the model forms part of the day to day management supervision of the *firm's options* business and meets other criteria (further guidance on the criteria for the approval of such models can be obtained from the *FCA*).

FCA

Obligatory use of foreign currency derivatives method

- 3-152(2) R A *firm* must apply the foreign currency derivatives method to any currency option which is less than 5% “in the money”.

FCA

Optional use of foreign currency derivatives method

- 3-152(3) R Subject to (2) above, a *firm* may apply the foreign currency derivatives method to any exchange traded currency option or future instead of applying the foreign currency exposures method.

FCA

Obligatory use of foreign currency exposures method

- 3-152(4) R A *firm* must apply the foreign currency exposures method to any OTC currency future.

FCA

Calculation of “in the money”

- 3-152(5) R For the purposes of this rule, a *firm* must determine the extent to which the *option* contract is “in the money” by reference to the difference between the exercise price and the current forward rate for the final date on which the *option* may be exercised as a percentage of that forward rate.

FCA

3-153 FOREIGN CURRENCY DERIVATIVES METHOD

Exchange traded futures and options

- 3-153(1) R (a) **A firm must calculate the *PRR* of an *exchange traded* foreign currency *future* or *option* as 100% of the *initial margin requirement* of the *exchange* or *approved exchange* or, where the *initial margin requirement* is zero, under (2) below.**
- FCA
- (b) **Where the *exchange* or *approved exchange* calculates the margin requirement on an overall basis, the *PRR* must equal that margin requirement.**
- (c) **Where the *exchange* offsets *futures* and *options* in the margin calculations, the *firm* may take into account such offsetting.**

OTC foreign currency options

- 3-153(2) R **A firm must calculate the *PRR* of an *OTC* foreign currency *option* as 5% of the nominal value of the contract, adjusted as follows:**
- FCA
- (a) **long position: the *PRR* may be restricted to the *mark to market* value of the *option*; and**
- (b) **short position: the *PRR* may be reduced (but to no less than zero) by any excess of the exercise value over the *mark to market* value for a *call option* or vice versa for a *put option*.**

3-154 FOREIGN CURRENCY EXPOSURE METHOD

Application

- 3-154(1) R **A firm must apply the *foreign currency exposure method* to any foreign currency exposure for which the *firm* has not calculated a *PRR* under the *foreign currency derivatives method*.**
- FCA

Calculation of PRR

- 3-154(2) R **A firm must calculate a *PRR* for its *foreign currency exposures* as 5% of the aggregate of its net open long positions in each currency, including the currency of the *firm's* books of account when this is a long open position.**
- FCA

Calculation of net open position

- 3-154(3) R (a) **A firm must calculate a net open position for all currencies including the currency of the *firm's* books of account by netting all *foreign currency exposures* to which the method applies.**
- FCA

- (b) The net open position for the currency of the *firm's* books of account may be calculated as the difference between the aggregate net open long positions and aggregate net open short positions of all other currencies.

COMMODITIES METHOD

Types of positions to be included in the commodities method

3-166 GENERAL RULE

- 3-166(1) R **A firm must calculate PRR on all positions in commodities in accordance with one of the four approaches set out in rules 3-167 to 3-169A. All spot, physical trading, derivative and other off balance sheet items whose price is affected by changes in commodities prices must be included in the calculation.**
- FCA
- FCA G In general, a commodity is a physical product which is or can be traded on the secondary market. Commodities include precious metals (except gold, which is to be treated as a foreign currency), agricultural products, minerals and base metals, oil and other energy products.
- 3-166(2) R **A firm must calculate the PRR for each commodity separately, except that:**
- FCA
- (a) **different subcategories of the same commodity that are deliverable against each other may be treated together; and**
- (b) **commodities which are close substitutes for each other, and whose price movements over a minimum period of one year can be shown by the firm to exhibit a stable and reliable correlation of at least 0.9, may be treated together.**
- FCA G The onus is on the *firm* to show that the correlation referred to in (b) above exists on a continuing basis.
- 3-166(3) R (a) **Positions which are purely stock financing may be omitted from the calculation of PRR on commodities positions under rule 3-166 and a firm may net notional long and short government securities arising from swaps, FRAs, futures and options on interest rates and debt securities, cash borrowings, qualifying deposits, the cash legs of "repurchase or similar agreements", forward foreign exchange and foreign currency futures against each other, provided:**
- FCA
- (i) **they are in the same currency;**
- (ii) **the interest rates are within 15 basis points;**
- (iii) (aa) **if the maturity dates are less than one month, the dates are the same;**

- (bb) if the maturity dates are between one month and one year, the dates are within seven days of each other; or
 - (cc) if the maturity dates are over one year, the dates are within 30 days of each other;
 - (iv) for a cash borrowing, the next interest rate refix date is within two years and repayment is within two years; and
 - (v) for a *qualifying deposit*, the next interest rate refix date is within three months.
- (b) In respect of a cash borrowing or *qualifying deposit*, the maturity date is the earlier of the *repayment date* and the next interest rate refix date.
- (c) “Repurchase or similar agreement” means a *repurchase, reverse repurchase, securities or physical commodities lending, securities or physical commodities borrowing, sale and buy back, buy and sale back, undocumented sale and buy back, or undocumented buy and sale back agreement*.

G Stock financing is defined under the *Capital Adequacy Directive*. Where physical stock has been sold forward, the cost of funding must be locked in until the date of the forward sale.

3-167 SIMPLIFIED APPROACH

- 3-167(1) R All positions in commodities or commodity *derivatives* must be expressed in terms of the standard unit of measurement for that commodity (such as tonnes, barrels or kilos).
- FCA
- 3-167(2) R A *firm* must multiply the position in each commodity by the current spot price for the commodity converted to the *firm's* reporting currency at current spot rates, and calculate the *PRR* as the sum of:
- FCA
- (a) the overall net position multiplied by 15%; and
 - (b) the gross position multiplied by 3%.
- 3-167(3) R A *firm* must sum the results for each commodity to arrive at the total *PRR* for positions treated under the simplified approach.
- FCA

3-168 MATURITY LADDER APPROACH

- 3-168(1) R All positions in each commodity or commodity *derivatives* must be expressed in terms of the standard unit of measurement for that commodity (such as tonnes, barrels or kilos) or in terms of value. A *firm* must allocate net positions on any given day to the appropriate maturity band in the table below. Physical stock must be assigned to
- FCA

the first band.

Table 3-168

Maturity Bands for Maturity Ladder Approach	
0-1 month	1-2 years
1-3 months	2-3 years
3-6 months	over 3 years
6-12 months	

- 3-168(2) R A *firm* may then offset long and short positions within and between maturity bands in accordance with the following:
- FCA**
- (a) For markets which have daily delivery dates, a *firm* may offset contracts in the same commodity against each other provided that the expiry dates are within 10 *business days* of each other.
 - (b) For each maturity band, the *firm* must sum all the open long positions, and sum all the open short positions. The *firm* may then subtract the shorts from the longs to form the overall net position. The amount subtracted is the “matched amount”. The *firm* must multiply twice the matched amount by the spread rate of 1.5%, and then by the spot price for the commodity to arrive at the spread risk charge.
- FCA** G If the total of all longs in a maturity band is 100, and the total of all shorts is 75, the “matched amount” is 75 and the overall net position 25. Algebraically, if the total of all longs is A, and the total of all shorts is B, the “matched amount” is $\min\{A,B\}$, and the overall net position is $A-B$.

- (c) The *firm* may then carry backwards or forwards all or part of the overall net position within a band to an adjacent maturity band for further netting allowances. Where this is the case, the *firm* must calculate:
- (i) a carry charge by multiplying the amount carried by the carry rate of 0.6%, and
 - (ii) a spread charge, in accordance with (b) above, where the carried position is matched against a position in an adjacent maturity band.

The *firm* may repeat the procedure for carrying positions through to other maturity bands as appropriate. An additional carry charge and spread charge must be calculated at each stage of the process.

- (d) The *firm* must multiply any positions remaining after the permitted offsetting by the outright rate of 15%, and then by the spot price of the commodity to arrive at the outright charge.
- (e) The total *PRR* for each commodity is the sum of the spread risk charge, the carry charge, and the outright charge converted to the *firm's* reporting currency at current spot rates.

Extended maturity ladder approach

3-169

FCA

R A *firm* may adopt the same approach as that outlined under rule 3-168(2), but apply the rates in the table below, if the *firm*:

- (a) undertakes significant commodities business, and
- (b) has a diversified commodities portfolio.

Table 3-169

	Precious metals	Base metals	Soft commodities	Other commodities
Spread rate %	1.0	1.2	1.5	1.5
Carry rate %	0.3	0.5	0.6	0.6
Outright rate %	8.0	10.0	12.0	15.0

Models approach

3-169A

FCA

G A *firm* may seek a modification or waiver from the *FCA* to use a VaR model as the basis for calculating the *PRR* on its commodity positions.

FCA

- G The *FCA* will grant a modification or waiver permitting the use of a VaR model only where a number of qualitative and quantitative standards are met. In assessing the VaR model the *FCA* will have regard to the matters set out in *BIPRU* 7.10.

3-169B OPTIONS

Proprietary options pricing models

- 3-169B(1) G A *firm* may seek a modification or waiver from the *FCA* permitting it to use its proprietary *options* pricing model to calculate the *PRR* on *options* positions and their related hedges. The application for a modification or waiver may request that the *firm* be permitted to include an *option* in the maturity ladder approach.

FCA

FCA

- G A *firm* may propose any methodology that it believes will capture spread, carry and outright risks and that reflects its own day-to-day risk management. A *firm* is strongly advised to contact the *FCA* at the earliest point if it is considering introducing a model or adapting an existing one.

No models

- 3-169B(2) R A *firm* may only include an *option* in the maturity ladder approach, the extended maturity ladder approach or the simplified approach if it is in the money by more than the appropriate outright rate. Such *options* must be included as a position in the underlying commodity, of an amount equal to the “tonnage” underlying the *option* (long or short as appropriate), and with a maturity equal to the expiry date of the spot, *forward* or *futures* contract underlying the *option*.

FCA

- 3-169B(3) R An *option* which does not satisfy the condition in rule 3-169B(2) attracts a *PRR* in accordance with the following:

FCA

- (a) In the case of a purchased *option*, the *PRR* must be the *mark to market* value of the full position underlying the *option* multiplied by the appropriate outright rate, but the result may be limited to the *mark to market* value of the *option*.
- (b) In the case of a written *option*, the *PRR* must be the *mark to market* value of the full position underlying the *option* multiplied by the appropriate outright rate, reduced by the out-of-the-money amount. The *PRR* must be limited to zero if the calculation results in a negative number.

FCA

- G The out-of-the-money amount is any excess of the exercise value over the *mark to market* value of the underlying commodity in the case of a *call option*, or vice versa for a *put option*.

COUNTERPARTY RISK REQUIREMENT

3-170 GENERAL PRINCIPLES OF CRR

Application

3-170(1) R (a) Rules 3-170 to 3-182 apply to a *broad scope firm*, except a *venture capital firm* which is subject only to rules 3-180 to 3-182.

FCA

(b) Rules 3-180 to 3-182 apply to an *arranger*, except a *corporate finance advisory firm*.

General rule

3-170(2) R A firm must calculate its total *CRR* on exposures to *counterparties* as the sum of all the amounts calculated in accordance with the rules referred to in the table below.

FCA

FCA

R Table 3-170(2) – Counterparty Risk Requirement

Rules

3-171	Cash against documents transactions
3-173	Free deliveries of physical securities and commodities
3-173A	Derivatives transactions
3-175	Concentrated risk to one counterparty
3-176	Repurchase and reverse repurchase, securities lending and borrowing and sale and buy back agreements
3-177	Money brokers
3-178	Options purchased for a counterparty
3-180	Qualifying and other deposits
3-181	Loans to counterparties
3-182	Other amounts owed to a firm arising out of investment business or investment dealing activities

Frequency of calculation

3-170(3) R A firm must calculate its *CRR* at least once each *business day*; for the purposes of the relevant calculations the *firm* may use prices of *investments* and *physical commodities* as at the close of business on the previous day.

FCA

Negative amounts

3-170(4) R A firm must not include any *CRR* if it is a negative amount.

FCA

Instruments for which no CRR has been specified

3-170(5) R Where a *firm* is in doubt as to the classification of an item for the purposes of *CRR*, the *firm* must add to its *CRR* an appropriate part of the exposure on the item concerned and must immediately notify the FCA in writing of details of the transaction, the counterparty and the proposed *CRR* treatment.

FCA

3-170(5A) E (1) In 3-170(5) “an appropriate part” is:

FCA

(a) the whole; or

(b) A proportion which takes account of the characteristics of the transaction and the counterparty concerned, and of discussions with the *FCA* or a predecessor regulator.

(2) Compliance with (1) may be relied on as tending to establish compliance with 3-170(5).

(3) Contravention of (1) may be relied on as tending to establish contravention of 3-170(5).

Provisions

3-170(6) R A *firm* may reduce the exposure on which its *CRR* is calculated to the extent that it makes provision for a specific *counterparty* balance.

FCA

Connected companies

3-170(7) R For the avoidance of doubt, a *firm* must calculate a *CRR* as appropriate on exposures to or from *connected companies*.

FCA

Basis of valuation

3-170(8) R For the purposes of valuing instruments and *physical commodities* at market value in the calculation of *CRR*, a *firm* must be consistent in the basis it chooses and may use either mid market value or bid and offer prices (as appropriate).

FCA

Acceptable collateral

3-170(9) R A *firm* may reduce the exposure to a *counterparty* on which its *CRR* is calculated to the extent that it holds *acceptable collateral* from that *counterparty*.

FCA

Nil weighted counterparty exposures

3-170(10) R A *firm* may disregard any *counterparty* exposure calculated in accordance with rules 3-171 to 3-182, if the *counterparty* is or the contract is guaranteed by or is subject to the full faith and credit of a sovereign government or province or state thereof (or a corporation over 75% owned by such government, province or state), which is a

FCA

member of the *OECD* and the government, province, state or corporation has not defaulted, or entered into any rescheduling or similar arrangement, or announced the intention of so doing, in respect of itself or its agency's debt within the last five years.

Netting

3-170(11) R A *firm* which has offsetting exposures in similar types of transactions with a *counterparty* may offset these in accordance with rules 3-171(2A), 3-173(2A), 3-173A(3), 3-176(3), 3-180(2A), 3-181(1) and 3-182(4A) when calculating *CRR* if it has a contractual netting agreement with that *counterparty*, which:

FCA

- (a) covers the transactions which the *firm* is seeking to net;
- (b) creates a single obligation in each currency or a single overall obligation to pay (or receive) a net sum of cash in the event of default, bankruptcy, liquidation or similar circumstances;
- (c) does not include a *walkaway clause*;
- (d) is supported by written and reasoned independent legal opinions to the effect that, in the event of a legal challenge, the relevant courts would find the *firm's* exposure to be the single net amount mentioned in (b) above.

FCA

G Legal opinions should relate to:

- (a) the law of the jurisdiction in which the *counterparty* is organised;
- (b) the law of the jurisdiction in which any branch involved is located;
- (c) the law that governs the agreement and, if different, the law that governs individual transactions pursuant to it; and
- (d) the law that governs the legal status of the *counterparty* who is entering into transactions of the type which the *firm* is seeking to net.

FCA

G Where a *firm* uses an industry standard agreement and the *firm's* netting/setoff clauses follow the form of that standard agreement, provided a legal opinion has already been obtained on the standard agreement which addresses the capacity of *counterparties* of the type with which the *firm* wishes to contract, that may be relied upon.

FCA

G Legal opinions on netting agreements should be obtained from independent legal advisers with sufficient expertise and experience in this area of law. Opinions from in-house counsel will not be acceptable. Where the regulator of the *counterparty* is not satisfied that the netting agreement is enforceable under its laws, the netting agreement cannot be relied upon regardless of the opinions obtained by the *firm*.

3-171 CASH AGAINST DOCUMENTS TRANSACTIONS

General rule

3-171(1) R A *firm* which enters into a transaction on a cash against documents basis must calculate the *counterparty* exposure for transactions still unsettled 16 calendar days after *settlement day* as set out in (2) below and must then multiply this by the appropriate percentage set out in the table below to calculate a *CRR* for each separate unsettled transaction.

FCA

FCA R Table 3-171(1) - Percentage to be applied to the counterparty exposure

Calendar days after settlement day	Percentage
0-15	Nil
16-30	25%
31-45	50%
46-50	75%
Over 60	100%

Counterparty exposure calculation

3-171(2) R (a) Where a *firm* has neither delivered *securities* or *physical commodities* nor received payment when purchasing *securities* or *physical commodities* for, or selling *securities* or *physical commodities* to, a *counterparty*, the positive *counterparty* exposure is the excess of the contract value over the market value of the *securities* or *physical commodities*.

FCA

(b) Where a *firm* has neither received *securities* or *physical commodities* nor made payment when selling *securities* or *physical commodities* for, or purchasing *securities* or *physical commodities* from, a *counterparty*, the positive *counterparty* exposure is the excess of the market value over the contract value of the *securities* or *physical commodities*.

Netting

3-171(2A) R A *firm* may offset positive and negative *counterparty* exposures, calculated in accordance with (2) above, before it multiplies the residual exposure by the appropriate percentage in Table 3-171(1) provided that:

FCA

- (a) the exposures arise on transactions with the same *counterparty*; and
- (b) the *firm* has a written agreement supported by a legal opinion obtained in accordance with rule 3-170(11).

Sub-total

3-171(3) R The sum of the amounts calculated in accordance with (1) above is the *firm's* total *CRR* for cash against documents transactions.

FCA

3-173 FREE DELIVERIES OF PHYSICAL COMMODITIES AND SECURITIES

General rule

- 3-173(1) R When a *firm* makes delivery to a *counterparty* of *physical commodities* or *securities* without receiving payment or pays for *securities* without receiving the certificates of good title, the *firm* must calculate the *free delivery* value for each transaction.

FCA

Free delivery value calculation

- 3-173(2) R A *firm* must calculate the *free delivery* value for each transaction as set out below and multiply this value by the appropriate percentage in Table 3-173(2) A for free deliveries of *physical commodities* and Table 3-173(2) B for free deliveries of *securities* as follows:

FCA

- (a) if the *firm* has delivered *physical commodities* or *securities* to a *counterparty* and has not received payment, the *free delivery* amount is the full amount due to the *firm* (i.e. the contract value);
- (b) if the *firm* has made payment to a *counterparty* for *securities* and not received the certificates of good title, the *free delivery* amount is the market value of the *securities*; and
- (c) if a *firm* pays for *physical commodities* without receiving delivery or *documents of title* the exposure is to be treated as an unsecured loan to which rule 3-181 applies.

FCA

- R Table 3-173(2)A - Percentage to be applied to free deliveries relating to physical commodities
-

	Nature of counterparty to whom free delivery is made	Business days since delivery		
		0-3	4-15	earlier of 15 days or agreed contractual payment date
1	<i>Firm does not have an ACMP and delivery of physical commodities is made</i>	15% of contract value	100% of contract value	100% of contract value
2	<i>Firm has an ACMP and delivery of physical commodities is made with a settlement day longer than three days from delivery date</i>	15% of contract value		100% of contract value

FCA

R Table 3-173 (2)B - Percentage to be applied to free deliveries relating to securities

	Nature of counterparty to whom free delivery is made	Business days since delivery		
		0-3	4-15	Over 15
1	<i>A counterparty to whom securities have been delivered or to whom payment for securities has been made</i>	Nil	100% of contract or market value	100% of contract or market value
2	<i>A regulated financial institution or regulated banking institution to whom securities have been delivered or payment made with the expectation that market practice will result in a settlement day longer than three days from delivery date</i>	15% of contract or market value		100% of contract or market value
2A	<i>A counterparty to whom securities have been delivered which settle through the Crest system or to whom payment for such securities has been made</i>	15% of contract or market value		100% of contract or market value
3	<i>A manager, underwriter, sub-underwriter or member of a selling syndicate or issuer to whom</i>	nil		100% of contract or market value

	payment for <i>securities</i> has been made; or a manager of a <i>regulated collective investment scheme</i> to whom units of the scheme have been delivered or payment for units of the scheme has been made		or, if the issue is in one of the countries specified in Appendix 46, 15% of contract or market value until the end of the period referred to in that Appendix
--	---	--	--

Netting

3-173 (2A) R A *firm* may reduce the *free delivery* value for a transaction calculated in accordance with (2) above, before it multiplies the residual exposure by the appropriate percentage in Table 3-173(2)A or B, by:

FCA

- (a) the value of any free payment received from the *counterparty*; or
- (b) the contract value of any *securities* received free from the *counterparty*,

provided that:

- (i) the exposures arise on transactions with the same *counterparty*; and
- (ii) the *firm* has a written agreement supported by a legal opinion obtained in accordance with rule 3-170(11).

Partners and connected persons

3-173 (3) R For the purpose of this rule, a *firm* must treat any amount due from a partner or his connected person in respect of *investment business* as a free delivery to a *counterparty*.

FCA

Sub-total

3-173 (4) R The sum of the amounts calculated in accordance with (1), (2) and (3) above is the *firm's* total *CRR* for free deliveries of *physical commodities* and *securities*.

FCA

3-173A DERIVATIVE TRANSACTIONS

General rule

3-173A (1) R A *firm* must calculate for each *derivative* transaction a *CRR* either:

FCA

- (a) by multiplying the *counterparty* exposure calculated in accordance with (2) and (3) below by the appropriate percentage in Table 3-173A(4)A or B, except for single premium *options* purchased on behalf of a *counterparty* and *traditional options* purchased for the *firm's* own account or on behalf of a *counterparty*, which shall be subject to rule 3-178; or
- (b) after notifying the *FCA* in writing, in accordance with rule 3-173B.

Counterparty exposure

3-173A (2) R A *firm* must calculate the *counterparty* exposure on *derivative* transactions in accordance with either (a) or (b) below:

FCA

- (a) where a *counterparty* has not fully paid an *initial margin requirement* or *variation margin requirement* on a transaction in a *derivative* listed on an *exchange* or *approved exchange* or met it through the deposit of *acceptable collateral* not otherwise used, the *firm* must calculate the *counterparty* exposure as the shortfall;
- (b) where the *counterparty* exposure arising from a transaction in a *derivative* is not listed on an *exchange* or *approved exchange*, the *counterparty* exposure is the credit equivalent amount calculated in accordance with Table 3-173A(2A).

FCA

R Table 3-173A(2A) – Method of calculating credit equivalent amount

Type of derivative transaction	Credit equivalent amount	
	If A is positive	If A is negative
Interest rate swaps: single currency		
(a) floating rate swapped against floating rate	A	nil
(b) fixed rate swapped against floating rate:		
- under one year to maturity	A	nil
- over one year to five years	A + 0.5% of N	0.5% of N
- over five years	A + 1.5% of N	1.5% of N
Cross-currency interest rate swaps		
- under one year to maturity	A + 1% of N	1% of N
- over one year to five years	A + 5% of N	5% of N
- over five years	A + 7.5% of N	7.5% of N
Other interest rate contracts*		
- under one year to maturity	A	nil
- over one year to five years	A + 0.5% of N	0.5% of N
- over five years	A + 1.5% of N	1.5% of N

<p>Foreign exchange and gold contracts*</p> <ul style="list-style-type: none"> - exchange rate contracts with an original maturity of 14 days or less - under one year to maturity - over one year to five years - over five years 	<p>nil</p> <p>A + 1% of N</p> <p>A + 5% of N</p> <p>A + 7.5% of N</p>	<p>nil</p> <p>1% if N</p> <p>5% of N</p> <p>7.5% of N</p>
<p>Equity contracts*</p> <ul style="list-style-type: none"> - under one year to maturity - over one year to five years - over five years 	<p>A + 6% of N</p> <p>A + 8% of N</p> <p>A + 10% of N</p>	<p>6% of N</p> <p>8% of N</p> <p>10% of N</p>
<p>Precious metal (not gold) contracts*</p> <ul style="list-style-type: none"> - under one year to maturity - over one year to five years - over five years 	<p>A + 7% of N</p> <p>A + 7% of N</p> <p>A + 8% of N</p>	<p>7% of N</p> <p>7% of N</p> <p>8% of N</p>

In the case of interest-rate contracts that meet these criteria and have a remaining maturity of over one year, the percentage is no lower than 0.5%.</p>		

Netting

3-173A R A firm may offset counterparty exposures arising on derivative transactions calculated in accordance with (2) above before it

(3)

FCA

multiplies the residual exposure by the appropriate *CRR* percentage as follows:

- (a) variation margin payable to a *counterparty* against an *initial margin requirement* or *variation margin requirement* receivable from a *counterparty*;
- (b) variation margin payable to a *counterparty* against a positive “A” as calculated in accordance with Table 3-173A(2A);
- (c) a negative “A” as calculated in accordance with Table 3-173A(2A) against an *initial margin requirement* or *variation margin requirement* receivable from a *counterparty*;
- (d) a negative “A” against a positive “A” in each case as calculated in accordance with Table 3-173A(2A);
- (e) losses on a closed out *derivative* transaction which has not been settled against variation margin payable to a *counterparty*; or
- (f) losses on a closed out *derivative* transaction which has not been settled against negative “A” calculated in accordance with Table 3173A(2A),
- (g) profit on a closed out *derivative* transaction which has not been settled against an *initial margin requirement* or *variation margin requirement* receivable from a *counterparty*;
- (h) profit on a closed out *derivative* transaction which has not been settled against a loss on a closed out *derivative* transaction;
- (i) profit on a closed out *derivative* transaction which has not been settled against a positive “A” as calculated in accordance with Table 3-173A(2A);
- (j) premium receivable in respect of written *options* against variation margin payable, initial margin payable or a closed out profit payable to the *counterparty* or a negative “A” as calculated in accordance with Table 3-173A(2A);
- (k) positive “A” on purchased *options* calculated in accordance with Table 3-173A(2A) against negative “A” on written *options*; or
- (l) in the case of *perfectly matched contracts* these may be treated as a single contract with a notional principal equivalent to the net receipts; or
- (m) where transactions are subject to (3)(c) above, the potential future credit exposures (PFCE) on transactions with the

same *counterparty* (i.e. % on N) may be netted in accordance with Table 3-173A(3) below,

provided that:

- (i) the exposures arise on transactions with the same *counterparty*; and
- (ii) the *firm* has a written agreement, supported by a legal opinion obtained in accordance with rule 3-170(11).

FCA

Table 3-173A(3)

The netted PFCE is the sum of:	
step one	40% of gross PFCE
step two	60% of gross PFCE multiplied by the net-to-gross ratio (NGR)
Notes:	
NGR =	$\frac{\text{(gross replacement cost)}}{\text{(net replacement cost)}}$
The NGR must be calculated on all contracts included in a legally valid bilateral netting agreement with a given <i>counterparty</i> .	

CRR percentages

3-173A
(4)

R (a) Where a *firm* does not offset *counterparty* exposures arising on *derivative* transactions in accordance with (3) above, it must multiply the *counterparty* exposure by the appropriate percentage from:

FCA

- (i) Table 3-173A(4)A if the *counterparty* exposure arises on a transaction in a *derivative* listed on an *exchange* or *approved exchange*; or
- (ii) Table 3-173A(4)B if the *counterparty* exposure arises on a transaction in a *derivative* not listed on an *exchange* or *approved exchange*,

but may opt to calculate *CRR* using the highest available credit percentage in Tables 3-173A(4)A or B below in order to avoid undue complication.

(b) Where a *firm* does offset *counterparty* exposures on *derivative* exposures in accordance with (3) above, it must multiply the residual net *counterparty* exposure by the appropriate percentage from Table 3-173A(4)A or B.

- (c) A firm may opt to calculate the CRR using the highest available CRR percentage in the tables below in order to avoid undue complication.

FCA

Table 3-173A(4)A – CRR percentages for transactions in derivatives listed on an exchange or approved exchange

Counterparty		Business days since exposure occurred	
		0 - 3	over 3
1	Firm has an ACMP and counterparty is not a market counterparty	10%	10%
2	Firm has an ACMP and counterparty is a market counterparty	5%	5%
3	Firm does not have an ACMP	10%	100%

FCA

Table 3-173A(4)B – CRR percentages for transactions in derivatives not listed on an exchange or approved exchange

	Status of the counterparty	%
1	A firm, a supranational organisation, a United Kingdom discount house, a gilt edged market maker, a stock exchange money broker, a regulated banking institution, a building society under the Building Societies Act 1986, a United Kingdom local authority, a regulated financial institution.	2%
2	Any other counterparty	5%

Exposures to locals

3-173A
(5)

R A firm must calculate a 100% CRR for amounts of initial and variation margin not met with *acceptable collateral* or a positive *equity balance* owed to a firm by a local in respect of transactions in derivatives listed on an exchange or approved exchange from the date of any shortfall. However, a firm may use an alternative treatment if it:

FCA

- (a) participates in the profits or losses of the local for 25% or more when the firm may include the local position in its own position which will then be subject to PRR; or
- (b) calculates PRR for locals in which case its requirement will

be the sum of the following:

- (i) 10% of the *PRR* result for each *local*; and
- (ii) the excess over the “net liquidating balance” of the *PRR* applied to the positions of each *local*; and
- (c) for the purposes of (b) above, “net liquidating balance” means the cash amount which would remain in a *local* account if all positions were liquidated and there were added (1) cash balances (2) the value of *marketable investments*, and (3) letters of credit and guarantees issued by a *regulated banking institution* which is not the *counterparty* or an *associate* of the *counterparty* in the control of the *firm*; and there were deducted all loans and overdrafts from, and other liabilities to the *firm*; and to the extent that a *firm* includes an exposure in the net liquidating balance calculation, it does not also need to apply the liquidity adjustment in rule 3-75 or the *CRR* to those exposures.

Sums due for payment or owed on closed out derivative transactions

3-173A (6) R When a *counterparty* has not fully met amounts owed to a *firm* arising out of losses on closed out *derivative* transactions by depositing, *acceptable collateral* or, has not fully settled amounts owed in respect of periodic or final settlement of transactions, a *firm* must calculate a *CRR* equal to the amount outstanding after three days, unless:

FCA

- (a) the *firm* has offset the amount owed against variation margin payable in accordance with (3)(e) above; or
- (b) the *firm* has offset the amount owed against a negative “A” in accordance with (3)(f) above,

in which case the *firm* must calculate a *CRR* equal to the residual amount outstanding after three days.

Equivalent contracts

3-173A (7) R Rule 3-173A (2)(b) also applies to contracts which, although they are listed on an *exchange* or *approved exchange*, are fully dependent upon the issuer for performance (e.g. covered *warrants*).

FCA

Regulated connected companies

3-173A (8) R Where a *firm* carries out significant *swaps* business with a *connected company* which has adequate regulation applied to it, the *firm* need not comply with all or part of rule 3-173A so far as it applies to interest rate or foreign exchange *swaps* with that *connected company*, provided that it has given prior written

FCA

notice of this to the *FCA*.

Sub-total

3-173A (9) R The sum of the amounts calculated in accordance with this rule is the *firm's* total *CRR* for *derivative* transactions other than those subject to rule 3-178.

FCA

3-173B CRR for derivative transactions under 3-173A(1)(b)

General rule

3-173B (1) R A *firm* must calculate for each *derivative* transaction a *CRR* by multiplying the *counterparty* exposure calculated in accordance with (2) and (3) below, by the appropriate percentage in Table 3-173B(5) below.

FCA

Collateral

3-173B (2) R A *firm* may:

FCA

- (a) reduce the *counterparty* exposure on which its *CRR* is calculated to the extent that it holds *acceptable collateral* to cover that exposure; and
- (b) where it does not have an *ACMP*, may continue to multiply the *counterparty* exposure by 8% multiplied by the *counterparty* weight, to the extent that the *firm* holds *adequate collateral* to cover that exposure.

Counterparty exposure

3-173B (3) R A *firm* must calculate the *counterparty* exposure on *derivative* transactions in accordance with either (a), (b) or (c) below:

FCA

- (a) where a *counterparty* has not fully paid a *margin requirement* on a *derivative* transaction listed on an *exchange* or cleared through a *clearing house*, or met it through the deposit of *acceptable collateral* not otherwise used, a *firm* must calculate the *counterparty* exposure as the shortfall;
- (b) where a *firm* sells or writes an *option* to a *counterparty* or buys an *option* on behalf of a *counterparty* and the *counterparty* has not paid the full *option* premium, or met it through the deposit of *acceptable collateral* not otherwise used, it must calculate the *counterparty* exposure as the uncovered premium on the transaction; or

- (c) a firm must calculate the *counterparty* exposure arising from a *derivative* transaction other than a written or sold *option* or a *derivative* transaction listed on an *exchange* or cleared through a *clearing house*, as the credit equivalent amount calculated in accordance with Table 3-173B(3A), not covered by the deposit of *acceptable collateral* not otherwise used.

FCA

R Table 3-173B(3A) – Method of calculating credit equivalent amount

Type of derivative transaction	Credit equivalent amount	
	If A is positive	If A is negative
Interest rate swaps: single currency		
(a) floating rate swapped against floating rate A nil	A	nil
(b) fixed rate swapped against floating rate:		
- under one year to maturity	A	nil

Other commodity		
- under one year to maturity	A + 4% of N	4% of N
- over one year to five years	A + 6% of N	6% of N
- over five years	A + 10% of N	10% of N
<p>Notes</p> <p><i>FRAs, swaps, futures, purchased options, and other contracts for differences</i></p> <p>A = the replacement cost of the contract</p> <p>N = the notional or actual principal amount or value underlying the contract</p> <p>For contracts with multiple exchanges of principal, the % of N has to be multiplied by the remaining number of payments still to be made according to the contract.</p> <p>In the case of a derivative referenced on a bond which satisfies the criteria for a <i>qualifying debt security</i>, the %N applicable to interest rate derivatives may be utilised to calculate the credit equivalent amount. For a derivative referenced on a 'non-qualifying' bond, the credit equivalent amount must be calculated with reference to the %N applicable to equity derivatives.</p>		

For contracts that are structured to settle outstanding exposure following specified payment dates and where the terms are reset such that the market value of the contract is zero on these specified dates, the residual maturity would be equal to the time until the next reset date. In the case of interest-rate contracts that meet these criteria and have a remaining maturity of over one year, the percentage is no lower than 0.5%.

Sums due for payment or owed on closed out derivative transactions

3-173B (4) **R** When a *counterparty* has not fully met amounts owed to a *firm* arising out of losses on closed out *derivative* transactions through the deposit of *acceptable collateral* not otherwise used, or has not fully settled amounts owed in respect of periodic or final settlement of transactions, a *firm* must calculate *CRR* equal to the unpaid loss multiplied by the appropriate percentage from the Table 3-173B(5) below.

FCA

3-173B (4A) **R** In the case of a failed FX transaction (whether originally contracted for *forward* settlement, or undertaken in the spot market) where the *firm* has released funds to its *counterparty*, but has not received the funds in the alternative currency, the *CRR* must be calculated as the gross value of the funds not received, multiplied by the appropriate percentage from Table 3-173B(5) below.

FCA

CRR percentages

3-173B (5) **R** A *firm* must multiply the *counterparty* exposure by the appropriate percentage from the table below, but:

FCA

- (a) may opt to calculate *CRR* using the highest available credit percentage in the table below in order to avoid undue complication; and
- (b) may reduce the *counterparty* weight applicable to *counterparty* exposures calculated in accordance with (3)(c) above to 50%, where the *counterparty* would normally attract a *counterparty* weight of 100% in accordance with Table 1 in Appendix 47.

FCA

R TABLE 3-173B(5) – CRR percentages

Type of contract	Nature of <i>counterparty</i> to whom <i>counterparty</i>	Business days after <i>counterparty</i> exposure first	
		0 - 5	6 or more
Failed FX transaction	Any	8% x <i>counterparty</i> weight*	100%

Other	A <i>counterparty</i> granted a credit line under an <i>ACMP</i>	8% x <i>counterparty</i> weight*	
	A <i>counterparty</i> not granted a credit line under an <i>ACMP</i>	8% x <i>counterparty</i> weight*	100%

Netting

3-173B
(6)

FCA

R A *firm* may offset *counterparty* exposures arising on *derivative* transactions calculated in accordance with (2), (3) and (4) above before it multiplies the residual exposure by the appropriate *CRR* percentage as follows:

- (a) variation margin payable to a *counterparty* against an initial *margin requirement* or variation *margin requirement* receivable from a *counterparty*;
- (b) variation margin payable to a *counterparty* against a positive “A” as calculated in accordance with Table 3-173B (3A);
- (c) a negative “A” as calculated in accordance with Table 3-173B(3A) against an initial *margin requirement* or variation *margin requirement* receivable from a *counterparty*;
- (d) a negative “A” against a positive “A” in each case as calculated in accordance with Table 3-173B(3A);
- (e) loss on a closed out *derivative* transaction which has not been settled against variation margin payable to a *counterparty*;
- (f) loss on a closed out *derivative* transaction which has not been settled against negative “A” calculated in accordance with Table 3-173B(3A);
- (g) profit on a closed out *derivative* transaction which has not been settled against an initial *margin requirement* or variation *margin requirement* receivable from a *counterparty*;
- (h) profit on a closed out *derivative* transaction which has not been settled against a loss on a closed out *derivative* transaction;
- (i) profit on a closed out *derivative* transaction which has not been settled against a positive “A” as calculated in accordance with Table 3-173B(3A);
- (j) premium receivable in respect of written *options* against variation margin payable, initial margin payable or a closed out profit payable to the *counterparty* or a negative “A” as

calculated in accordance with Table 3-173B(3A);

- (k) where the *firm* has received the premium due for a written *option*, a negative “A” (the replacement cost) for the written *option* against a positive “A” in each case as calculated in accordance with Table 3-173B(3A); or
- (l) in the case of *perfectly matched contracts* these may be treated as a single contract with a notional principal equivalent to the net receipts; or
- (m) where transactions are subject to (3)(c) above, the potential future credit exposures (PFCE) on transactions with the same *counterparty* (i.e. % o N) may be netted in accordance with Table 3-173B(6) below,

provided that:

- (i) the exposures arise on transactions with the same *counterparty*; and
- (ii) the *firm* has a written agreement, supported by a legal opinion obtained in accordance with rule 3-170(11).

FCA

Table 3-173B(6)

The netted PFCE is the sum of:	
step one	40% of gross PFCE
step two	60% of gross PFCE multiplied by the net-to-gross ratio (NGR)
Notes:	
NGR =	(net replacement cost)
	(gross replacement cost)
The NGR must be calculated on all contracts included in a legally valid bilateral netting agreement with a given counterparty.	

Equivalent contracts

- 3-173B (7)** **R** Rule 3-173B(3)(c) also applies to contracts, which, although they are listed on an *exchange* are fully dependent upon the issuer for performance (e.g. covered warrants).

FCA

Sub-total

- 3-173B (8)** **R** The sum of the amounts calculated in accordance with this rule is the *firm's CRR* for *derivative* transactions.

FCA

3-175 CONCENTRATED RISK TO ONE COUNTERPARTY

General rule

- 3-175(1) R When the total amount due to a *firm* arising from *exchange traded* variation margins or free deliveries of *physical commodities* from a single *counterparty* (or several *counterparties* grouped together by the *firm* for margin or credit treatment) is outstanding under a credit line granted in accordance with an *ACMP* and exceeds 25% of the *firm's financial resources*, the *firm* must calculate an additional *CRR* according to the table below.

FCA

FCA

Table 3-175(1) – Concentrated risk percentages

% of financial resources exposed to counterparty	Standard CRR for variation margin	Standard CRR for free delivery	Additional CRR
0-25%	10%	15%	nil
25%-50%	10%	15%	lower of (1) the excess or (2) the sum of 15% for variation margin plus 10% for free deliveries
over 50%	10%	15%	lower of (1) the excess or (2) the sum of 40% for variation margin plus 35% for free deliveries

Use of approved bank bonds

- 3-175(2) R If an *approved bank bond* forms a part of a *firm's financial resources*, a *firm* may include it in *financial resources* for the purposes of (1) above at its face value.

FCA

Sub-total

- 3-175(3) R The sum of the amounts calculated in accordance with (1) above is the total *CRR* for concentrated risk to one *counterparty*.

FCA

- 3-176 R All *repurchase, reverse repurchase, securities or physical commodities* (10) lending or borrowing *sale and buy back* and *buy and sale back agreements* with a stock exchange, *clearing house*, Clearstream or Euroclear are exempt from this rule.

FCA

Repurchase, securities lending and sale and buy back agreements

3-176(1) R Where a *firm* has entered into any *repurchase, securities or physical commodities lending or sale and buy back agreement* in respect of *securities or physical commodities*, it must calculate, subject to (3) below, a *CRR* for each such agreement in accordance with the table below.

FCA

FCA

Table 3-176(1) - Repurchase, securities lending and sale and buy back agreements

Type of security sold or lent	CRR
<i>Qualifying debt securities</i>	The “mark to market value” of the <i>securities</i> less 105% of the <i>acceptable collateral</i> under the agreement, if the net figure is positive.
Other <i>securities or physical commodities</i>	The “mark to market value” of the <i>securities or physical commodities</i> less 110% of the <i>acceptable collateral</i> under the agreement, if the net figure is positive.

Reverse repurchase, securities borrowing and buy and sale back agreements

3-176(2) R Where a *firm* has entered into any *reverse repurchase, securities or physical commodities borrowing or buy and sale back agreement* in respect of *securities or physical commodities*, it must calculate, subject to (3) below, a *CRR* for each such agreement in accordance with the table below.

FCA

FCA

Table 3-176(2) – Reverse repurchase, securities borrowing and buy and sale back agreements

Type of security purchased or borrowed	CRR
1 For all transactions where the <i>firm</i> has in its possession a “written agreement” evidencing the transaction, in accordance with rule 3-176(5)	
a) <i>qualifying debt securities</i>	The amount paid or collateral given for the <i>securities</i> less 105% of the current “mark to market value” of the <i>securities</i> received (see note), if the net figure is positive
b) <i>other securities or physical</i>	The amount paid or collateral given for the <i>securities or physical commodities</i> less 110% of the current “mark to market value” of the <i>securities or physical</i>

		<i>commodities</i>	<i>commodities</i> received (see note), if the net figure is positive
2	Where a <i>firm</i> does not have in its possession a “written agreement” evidencing the transaction, in accordance with rule 3-176(5)		The appropriate requirements from 1 <i>plus</i> the market value of the <i>securities</i> or <i>physical commodities</i> multiplied by the appropriate <i>percentage risk addition</i> .
<p>Note:</p> <p>the <i>securities</i> or <i>physical commodities</i> received can be included only where they are held under the control of the <i>firm</i> or where they were delivered into the control of the <i>firm</i> upon initiation of the agreement.</p>			

Netting

3-176(3) R **A *firm* may reduce the *CRR* by netting where it has more than one exposure to an individual *counterparty* provided that it has a written agreement supported by a legal opinion obtained in accordance with rule 3-170(11) as follows:**

FCA

- (a) **in the case of *sale and buy back, repurchase* or *securities* or *physical commodities* lending agreements (Table 3-176(1)), a *firm* may reduce the *CRR* by the excess of the total value of collateral received, including accrued interest, over the “mark to market” value of any other *sale and buy back, repurchase* or *securities* or *physical commodities* lending agreements with the same *counterparty*;**
- (b) **in the case of *sale and buy back, reverse repurchase* or *securities* or *physical commodities* borrowing agreements (Table 3-176(2)), a *firm* may reduce the *CRR* by the excess of the “mark to market value” over the total value of collateral given, including accrued interest, of any other of *buy and sale back, reverse repurchase* or *securities* or *physical commodities* borrowing agreements with the same *counterparty*; and**
- (c) **to the extent that an excess has not been used under (a) or (b) above to reduce the *CRR*, a *firm* may use an excess on a *sale and buy back, repurchase* or *securities* or *physical commodities* lending agreement respectively to reduce the *CRR* on a *buy and sale back, reverse repurchase* or *securities* or *physical commodities* borrowing agreement and vice versa provided the agreements are with the same *counterparty*.**

Margin percentages

3-176(4) R **A *firm* may opt to calculate the *CRR* using the lower collateral**

FCA

rate (105%) in order to avoid undue complication.

“Written agreement”

3-176(5)

R For the purpose of this rule and rule 3-177(2), a “written agreement” must, whether in a general agreement or in respect of specific occasions, include the following elements:

FCA

- (a) the names of the persons involved;
- (b) the type and quantity of *securities* or *physical commodities* subject to the *reverse repurchase, securities or physical commodities* borrowing, or *buy and sale back agreement*;
- (c) the type and quantity of collateral;
- (d) the commencement date of the *reverse repurchase, securities or physical commodities* borrowing or *buy and sale back agreement*;
- (e) the completion date of the *reverse repurchase, securities or physical commodities* borrowing or *buy and sale back agreement*, where appropriate;
- (f) interest or fee arrangements, where appropriate;
- (g) arrangements for adjustments in the amount or type of *securities or physical commodities* to be returned, if appropriate;
- (h) arrangements for the calling of margin, if appropriate; and
- (i) agreements for completion,

except that having given prior written notice to the *FCA*, a *firm* may disregard certain of the “written agreement” requirements where it can show there are adequate *internal controls* to evidence the arrangements.

“Mark to market value”

3-176(6)

R For the purposes of this rule, the current “mark to market value” of *securities* and the value of cash lodged must include accrued interest.

FCA

Daily valuation

3-176(7)

R A *firm* must value collateral and *securities* or *physical commodities* lent or sold, or borrowed or purchased, at least daily.

FCA

Settlement failure and pre deliveries

3-176(8) R Where:

FCA

- (a) simultaneous delivery of *securities* or *physical commodities* and collateral cannot be confirmed immediately due to settlement failure, or
- (b) a *firm* has delivered collateral or *securities* or *physical commodities* prior to the receipt of *securities* or *physical commodities* or collateral,

the *firm* is not required to calculate a *CRR* for three *business days* from the date of payment or delivery by the *firm*.

Additional acceptable collateral

3-176(9) R Where the *firm* has called for additional *acceptable collateral* from the other party to the agreement, a *firm* is not required to calculate a *CRR* if that call has been outstanding for no more than one *business day*.

FCA

Exclusions

3-176(10) R All *repurchase, reverse repurchase, securities* or *physical commodities* lending or borrowing *sale and buy back* and *buy and sale back agreements* with a stock exchange, *clearing house*, Clearstream or Euroclear are exempt from this rule.

FCA

Sub-total

3-176(11) R The sum of the amounts calculated in accordance with this rule is the total *CRR* for *repurchase* and *reverse repurchase, securities* or *physical commodities* lending and borrowing and *sale and buy back agreements*.

FCA

3-177 MONEY BROKERS

Application

3-177(1) R This rule applies to *money brokers*.

FCA

Lending money

3-177(2) R When a *money broker* is lending money it must calculate a 100% *CRR* except to the extent that it holds *acceptable collateral*; except where the broker does not have a “written agreement” in accordance with rule 3-176(5) between the *firm* and *counterparty* specifying, inter alia, the interest rate on the loan and stating that the loan is repayable on demand or for a term no longer than 30 days, when the *CRR* is 100% of the amount outstanding.

FCA

Lending and borrowing securities etc

- 3-177(3) R For all *reverse repurchase* and *repurchase agreements*, *securities borrowing* and *lending agreements* and *buy and sale back* and *sale and buy back agreements* other than where *securities* are lent or sold or borrowed or purchased through an approved payments system, a *money broker* must calculate an additional *CRR* of 0.5% applied to the value of all *securities* transferred.

FCA

Sub-total

- 3-177(5) R The sum of the amounts calculated in accordance with (2) and (3) above is the *firm's* total *CRR* for *money brokers*.

FCA

3-178 OPTIONS PURCHASED FOR A COUNTERPARTY

Single premium options

- 3-178(1) R Where a *firm* has purchased a single premium *option* on behalf of a *counterparty* and the *counterparty* has not paid the full *option* premium cost by three *business days* after trade date, a *firm* must calculate a *CRR* as the amount by which the *option* premium owed to the *firm* exceeds the market value of the *option* or *acceptable collateral*.

FCA

Traditional options

- 3-178(2) R Where a *firm* has purchased a *traditional option* for its own account or a *counterparty* and paid the *option* premium, it must calculate a *CRR* equal to the value of the *option* premium.

FCA

Sub-total

- 3-178(3) R The sum of the amounts calculated in accordance with (1) and (2) above is the *firm's* *CRR* in respect of purchased *options*.

FCA

3-180 QUALIFYING AND OTHER DEPOSITS

General rule

- 3-180(1) R Subject to (2) below, a *firm* must calculate a *CRR* for a deposit referred to in the table below by multiplying the value of the deposit by the appropriate percentage contained in the table below.

FCA

- FCA R Table 3-180(1) Qualifying and other deposit risk percentages

Type of deposit	%
-----------------	---

<i>Qualifying deposits</i>	nil
Other deposits with an <i>approved bank</i> related to a transaction creating an offsetting liability for the <i>firm</i> or subject to an agreement with the bank allowing its use as collateral for a loan that may be withdrawn within –	
- three months to one year	2.5%
- over one year	4.0%
Note: All other deposits are subject to a liquidity adjustment (see rule 3-75(12))	

Timing

- 3-180(2) R ***Qualifying deposits* and other deposits outstanding three days after a repayment request has been made or more than three days past maturity date are subject to a full *CRR*.**

FCA

Netting

- 3-180(2A) R **A *firm* may reduce the value of the deposit by an amount owed by the *firm* to a *counterparty* before it multiplies the residual exposure by the appropriate percentage in Table 3-180(1) provided that:**

FCA

- (a) the exposures arise with the same *counterparty*; and
- (b) the *firm* has a written agreement supported by a legal opinion obtained in accordance with rules 3-170(11).

Sub-total

- 3-180(3) R **The sum of the amounts calculated in accordance with Table 3-180(1) is the *firm's CRR* for *Qualifying deposits* and other deposits.**

FCA

3-181 LOANS TO COUNTERPARTIES

General rule

- 3-181(1) R **A *firm* must calculate a 100% *CRR* on the amount by which a loan to a *counterparty* is not:**

FCA

- (a) **secured by *acceptable collateral*; or**

- (b) offset against amounts owed by the *firm* to the *counterparty* where the *firm* has a written agreement supported by a legal opinion obtained in accordance with rule 3-170(11).

Sub-total

- 3-181(2) R The sum of the amounts calculated in accordance with this rule is the *firm's CRR* for loans to *counterparties*.

FCA

3-182 OTHER AMOUNTS OWED TO A FIRM ARISING OUT OF INVESTMENT BUSINESS OR INVESTMENT DEALING ACTIVITIES

Nil CRR items

- 3-182(1) R The following receivables arising out of *investment business* or *investment dealing activities* do not require a *CRR* at any time:

FCA

- (a) any debt not covered elsewhere in the *CRR* rules to the extent that it is *adequately secured*;
- (b) amounts in respect of 30 day items specified in (3) below which have been outstanding for less than 30 days from the date on which they were first recorded on the *firm's* balance sheet; and
- (c) accrued income for interest on *marketable investments*, except where it has been outstanding for more than 30 days after the date that the interest was due to be received.

CRR on amounts owed to a firm in respect of international underwriting and stabilisation activities

- 3-182(2) R (a) Where management or other fees are owed to a *firm* in respect of international underwriting or stabilisation activities, the *firm* must calculate full *CRR* on any amounts remaining unpaid 30 days after they first appeared on the *firm's* balance sheet.

FCA

- (b) A *firm* acting as stabilising manager must also calculate a *CRR* equal to 100% of any income accrued as a result of net profit on stabilising activities while the stabilising account remains open.

CRR on 30 day items

- 3-182(3) R A *firm* must calculate a 100% *CRR* in respect of the following receivables due to the *firm* if they have been outstanding for more than 30 days from the date on which they were first

FCA

recorded on the *firm's* balance sheet:

- (a) commissions and fees earned in connection with the *firm's investment business*;
- (b) commissions and fees earned which are due and payable from *client* bank accounts;
- (c) repayments of *marketable investments* at maturity or call;
- (d) the value of scrip issues and rights issues;
- (e) proceeds arising from takeovers and mergers;
- (f) domestic *underwriting* or stabilisation fees; and
- (g) accrued income and work in progress.

100% CRR items

- 3-182(4) R A *firm* must calculate a 100% CRR in respect of other receivables arising from *investment business* and *investment dealing activities* not covered elsewhere in this rule from the time that the receivable is recorded on the balance sheet.

FCA

Netting

- 3-182(4A) R A *firm* may reduce the value of the amounts owed to the *firm* by an amount owed by the *firm* to a *counterparty* before it multiplies this by 100% provided that:

FCA

- (a) the exposures arise with the same *counterparty*; and
- (b) the *firm* has a written agreement supported by a legal opinion obtained in accordance with rule 3-170(11).

Sub-total

- 3-182(5) R The sum of the amounts calculated in accordance with this rule is the CRR for other amounts owed to the *firm* arising out of *investment business* or *investment dealing activities*

FCA

Consolidated Supervision

Under the Financial Conglomerates and Other Financial Groups Instrument 2004, the rules in Chapter 14 shall (with respect to a particular firm, group or financial conglomerate) apply from the first day of its financial year beginning in 2005 in place of rules 3-190(1) to 3-195.

3-300 ACMPs

- 3-300(1) R A *firm* may only use an ACMP for the purposes of rules 3-170 to

FCA

3-182 if:

- (a) **the policies and procedures making up the proposed *ACMP* are at all times adequate and appropriate to the *firm* and its business; and**
- (b) **the *firm* gives to the *FCA* at least three months' notice in writing of its intention to use an *ACMP* for the purposes of these rules.**

3-300(2) R The notice referred to in (1)(b) above must include all relevant details of the policies and procedures making up the proposed *ACMP*.

FCA

3-300(3) R The notice referred to in (1)(b) is not required if the *firm* was permitted under the relevant requirements of a predecessor regulator, as they were in force immediately prior to the specified day, to use the proposed *ACMP* for the purposes of those requirements.

FCA

3-300(4) E (a) A *firm's* policies and procedures should take full account of the principles described in Appendix 56.

FCA

- (b) Compliance with 3-300(4)(a) may be relied on as tending to establish compliance with 3-300(1)(a).
- (c) Contravention of 3-300(4)(a) may be relied on as tending to establish contravention of 3-300(1)(a).

FCA

G On receipt of notice under (1)(b) the *FCA* is likely to review the policies and procedures proposed by the *firm* and the degree to which they take full and appropriate account of the matters described in Appendix 56. The *FCA's* review will take account of the context in which the policies and procedures are to operate and the relevant circumstances of the *firm*. The *FCA* will indicate to the *firm* its views on the adequacy and appropriateness of the proposals in the light of its review and may make recommendations of improvements.

FCA

G The *FCA* may make a further review of the policies and procedures making up an *ACMP* at any time after their implementation for the purposes of these rules as part of its supervision of the *firm*. Any review after implementation will broadly follow the lines described above.

APPENDIX 1 – GLOSSARY OF TERMS FOR IPRU(INV) 3

FCA

If a defined term does not appear in the IPRU(INV) glossary below, the definition appearing in the main Handbook *Glossary* applies.

- acceptable collateral*
- (1) (other than for the purposes of rule 3-173B) means any of the following items of collateral provided to a *firm* by a *counterparty* -
 - (a) cash;
 - (b) letters of credit and guarantees to the extent of their face value, issued by a *regulated banking institution* which is not the *counterparty* nor an *associate* of the *counterparty*;
 - (c) letters of credit and guarantees to the extent of their face value, issued by a bank which is not a *regulated banking institution* (not being the *counterparty*, an *associate* of the *counterparty* nor an *affiliated company*) which has been accepted under the *firm's ACMP*;
 - (d) gold and silver bullion and coinage; and
 - (e) *marketable investments*,to which the following conditions apply -
 - (i) the *firm* must have an unconditional right to apply or realise the *acceptable collateral* for the purpose of repaying the *counterparty's* obligations;
 - (ii) *marketable investments* must -
 - (aa) be *marked to market* daily using the valuation principles in rule 3-41(9);
 - (bb) not be issued by the *counterparty* nor by an *associate* of the *counterparty*; and
 - (cc) be discounted by 8% (before allowances for hedging or diversification); and
 - (iii) each item of *acceptable collateral* must be discounted by 5% if it is denominated in a different currency to the *counterparty's* obligation;
 - (2) (for the purposes of rule 3-173B) means any of the following items of collateral provided to a *firm* by a *counterparty*:
 - (a) cash;
 - (b) gold and silver bullion and coinage;
 - (c) certificates of deposit issued by and lodged with the *firm*;

- (d) securities issued by *Zone A* central governments and *Zone A* central banks; and
- (e) *securities* issued by the *EU* or Euratom (the European Atomic Energy Community),

to which the following conditions apply:

- (i) the *firm* must have an unconditional right to apply or realise the *acceptable collateral* for the purpose of repaying the counterparty's obligations to the *firm*; and
- (ii) *securities* must be *marked to market* daily using the valuation principles in rule 3-41(9);

ACMP

means, subject to rule 3-300, a credit management policy and procedures according with the principles discussed in **Appendix 56**;

adequate collateral

means any of the following items of collateral provided to a *firm* by a *counterparty*:

- (a) cash;
- (b) standby letters of credit and unconditional, irrevocable first on demand guarantees to the extent of their face value, issued by a *Zone A credit institution* which is not the counterparty nor an *associate* of the *counterparty*, and which is not an *affiliated company*, *associate* or a *controller* of the *firm*;
- (c) standby letters of credit and unconditional, irrevocable first on demand guarantees to the extent of their face value, issued by a bank which is not a *Zone A credit institution* (not being the *counterparty* nor an *associate* of the *counterparty*) which has been accepted under the *firm's ACMP* and which is not an *affiliated company*, *associate* or a *controller* of the *firm*;
- (d) certificates of deposit;
- (e) gold and silver bullion and coinage;
- (f) *securities*;
- (g) *physical commodities*; and
- (h) the performance guarantees issued in support of the securities lending and borrowing programmes of Euroclear and Clearstream, in respect only of exposure arising from participation in such programmes,

to which the following conditions apply -

- (i) the *firm* must have an unconditional right to apply or realise the collateral for the purpose of repaying the *counterparty's* obligations to the *firm*; and
- (ii) *securities* must -
 - (aa) be *marked to market* daily using the valuation principles in rule 3-41(9); and

	(bb) not be issued by the <i>counterparty</i> nor by an associate of the <i>counterparty</i> ;
<i>adequately secured</i>	means secured by cash or by <i>marketable investments</i> - <ul style="list-style-type: none"> (a) in respect of which the firm has an unconditional right to apply or realise for the purpose of repaying the <i>counterparty's</i> obligations to the <i>firm</i>; (b) which, in the case of <i>marketable investments</i>, are marked to market daily by the <i>firm</i> using the valuation principles in rule 3-41(9); (c) with, in the case of <i>marketable investments</i>, a marked to market value not lower than the current value of that obligation after being discounted - <ul style="list-style-type: none"> (i) by 8% (before allowances for hedging or diversification); and (ii) at an additional 5% if it is denominated in a different currency to the obligation; and (d) which, in the case of <i>marketable investments</i>, must not be issued by the <i>counterparty</i> nor by an associate of the <i>counterparty</i>;
<i>adviser</i>	means a <i>firm</i> which - <ul style="list-style-type: none"> (a) has <i>counterparties</i> who are investors or potential investors; (b) restricts its <i>investment business</i> to activities within article 53 (advising on investments) of <i>the Regulated Activities Order</i>; (c) does not hold, receive or control money or property belonging to another person, nor has a mandate over a <i>customer's</i> bank account; (d) does not introduce its <i>counterparties</i> to other persons as its main business; and (e) does not deal as principal or <i>agent</i> in <i>investments</i> or <i>physical commodities</i>;
<i>affiliated company</i>	in relation to a <i>firm</i> , means any <i>body corporate</i> controlled by the <i>firm</i> , any parent company of the <i>firm</i> , and any <i>body corporate</i> controlled by a parent company of the <i>firm</i> ;
<i>agency broker</i>	means a <i>broad scope firm</i> which deals as principal only on an incidental basis;

put option means an *option* to sell an *investment*, other instrument, foreign currency or *physical commodity* at a given price on or before a given date;

qualifying debt security means a *debt security* which:

- (1) (other than for the purposes of rule 3-173B):
 - (a) represents or evidences indebtedness;
 - (b) is a *marketable investment*;
 - (c) if it or “equivalent debt” is rated by a “relevant agency” (and there has been no announcement that the rating will be cancelled) -
 - (i) the *security* or the “equivalent debt” is so rated at or higher than the level indicated in the table in **Appendix 34**;
 - (ii) there has been no announcement that the rating will be down-graded below the level so indicated; and
 - (iii) the *firm* has no reasonable cause to believe that another “relevant agency” has rated the security or “equivalent debt” below the level so indicated; and
 - (d) if neither it nor any “equivalent debt” is rated by a “relevant agency” (or there has been an announcement that such a rating will be cancelled), it satisfies one or more of the following -
 - (i) it is issued or guaranteed by or is subject to the full faith and credit of a sovereign government or province or state thereof (or a corporation over 75% owned by such sovereign government, or province or state), which is a member of the *OECD* and the government, province, state or corporation has not defaulted, or entered into any rescheduling or similar arrangement, or announced the intention of so doing, in respect of itself or its agency’s debt within the last five years;
 - (ii) it is issued or guaranteed by a *supranational organisation*;
 - (iii) it is issued or guaranteed by a corporation (not being a bank, for which see (iv) below) the ordinary *shares* of which are included within the following categories -
 - (aa) UK : constituents of the FT All Share Index;
 - (bb) Japan : constituents of the First Section of the Tokyo Stock Exchange;
 - (cc) USA: constituents of the NYSE, AMEX or NASDAQ NMS; or
 - (dd) countries listed below: the constituents of the FT-

Actuaries World Indices in respect thereof;

Australia

Belgium

Canada

Denmark

France

Germany

Hong Kong

Italy

Netherlands

Norway

Singapore

Spain

Sweden

Switzerland

(iv) it is issued or guaranteed by a bank which is supervised by an authority in a state such as is referred to above and has capital and reserves (including subordinated loans which are not repayable within five years) of not less than £100,000,000 or the equivalent as shown by its latest published audited consolidated accounts (or, in the absence of consolidated accounts, unconsolidated accounts); or

(iv) is it issued or guaranteed by a local authority or building society in the United Kingdom;

provided that the issuer or guarantor of the *security* is not in default as to any payment on any other *security* issued or guaranteed by it; and

(2) for the purposes of (1) above -

(a) in respect of any *security* of, or guaranteed by, any issuer or guarantor, “equivalent debt” means any debt which ranks *pari passu* with, or subordinate to, the *security* or (as the case may be) the guarantee; and

(b) in relation to any issuer or guarantor, a “relevant agency” means one of the agencies named in **Appendix 34** by reference to the category of issuer or guarantor;

- (3) (for the purposes of rule 3-173B) meets the following conditions:
- (a) it attracts zero specific risk under Table 2 in **Appendix 47**; or
 - (b) it is issued by, or fully guaranteed by:
 - (i) a *Zone B* central government or central bank and the *security* is denominated in the local currency of the issuer;
 - (ii) a *multilateral development bank*;
 - (iii) a *Zone A* public sector entity;
 - (iv) a company whose *share* is a constituent of one of the indices making up the FTSE All-World Index; or
 - (v) an issue of, or fully guaranteed by an investment firm or recognised third-country investment firm; or
 - (c) it is issued by, fully guaranteed by, endorsed or accepted by:
 - (i) a *credit institution* incorporated in a *Zone A* country; or
 - (ii) a *credit institution* incorporated in a *Zone B* country and the debt *security* has a residual maturity of one year or less; or
 - (d) it is a mortgage backed *security* relating to residential real estate of the type referred to in *BIPRU 3.4.94R(1)(d)(i)* which meets the requirements about legal certainty referred to in *BIPRU 3.4.62R*; or
 - (e) it is rated by at least one of the agencies shown in Table 3 Appendix 47, and every such rating equals or exceeds the corresponding minimum shown in that table;

qualifying deposit means a deposit which is one of the following -

- (a) balance on current account with an *approved bank*;
- (b) money on deposit with an *approved bank*, United Kingdom local authority, member of the Finance Houses Association, *stock exchange moneybroker*, *regulated clearing firm*, the National Savings Bank, *exchange*, *approved exchange* or *approved depository* which may be withdrawn within three months;
- (c) money on deposit with an *approved bank* directly related to a transaction creating an offsetting liability for the *firm* or subject to an agreement with the bank allowing its use as collateral for a loan that may be withdrawn within three months, which relates to a liability of the same maturity and arises out of a transaction;
- (d) amount evidenced by a certificate of tax deposit;
- (e) amount evidenced by a *certificate of deposit* issued by a *regulated banking institution* which matures within three months; or

	(f) deposit of cash by way of margin with an <i>exchange</i> , <i>approved exchange</i> , <i>clearing house</i> or <i>intermediate broker</i> ;
<i>regulated banking institution</i>	means any banking institution which has paid up share capital and reserves of over £5,000,000 as shown by its latest published audited accounts, and which is authorised under the <i>Act</i> or supervised by the central bank or other regulatory authority of a member state of the <i>OECD</i> in which the bank is incorporated;
<i>regulated business</i>	means <i>investment business</i> which is <ul style="list-style-type: none"> (a) business carried on from a permanent place of business maintained by a <i>firm</i> (or its <i>appointed representative</i>) in the United Kingdom; and (b) other business carried on with or for <i>customers</i> in the United Kingdom, unless that business is - <ul style="list-style-type: none"> (i) business carried on from an office of a <i>firm</i> outside the United Kingdom which, if that office were a separate person, would fall within the overseas persons exclusions set out in article 72 of the Regulated Activities Order; or (ii) business of an <i>appointed representative</i> of the <i>firm</i> which is not carried on in the United Kingdom;
<i>regulated clearing firm</i>	means a clearing firm which is an authorised person;
<i>regulated financial institution</i>	means a <i>firm</i> , or an institution which is authorised to conduct <i>investment business</i> involving the execution of transactions on <i>exchanges</i> or on <i>securities</i> or <i>derivatives exchanges</i> by one or more of the following regulators - <ul style="list-style-type: none"> (a) any regulator of <i>investment business</i> in any member state of the <i>EU</i> (other than the United Kingdom) established by law in that state; or (b) a body referred to in Part 1 of Appendix 35; <p>provided, in the case of any such institution that the <i>firm</i> has no reason to suppose that the institution is in breach, in any material respect, of the rules enforceable by the relevant regulator;</p>
<i>relevant annual expenditure</i>	means the relevant annual expenditure of a <i>firm</i> calculated in accordance with rule 3-73;
<i>reporting statement</i>	means any one or more of the following types of report as required by the <i>Supervision manual</i> : <ul style="list-style-type: none"> (a) audited <i>annual financial statements</i>; (b) <i>annual reporting statement</i>; (c) [deleted]; (d) internal control letter; (e) quarterly reporting statement; (f) position risk reporting statement;

	(g) counterparty risk reporting statement;
	(h) annual reconciliation;
	(i) monthly reporting statement; and
	(j) the audited accounts of a <i>subsidiary</i> of the <i>firm</i> ;
<i>repurchase agreement</i>	(and <i>sale and buy back agreement</i>) means an agreement for the sale of <i>securities</i> or <i>physical commodities</i> subject to a commitment to repurchase from the same person the same or similar <i>securities</i> or <i>physical commodities</i> ;
<i>reverse repurchase agreement</i>	(and “ <i>buy and sale back agreement</i> ”) means an agreement for the purchase of <i>securities</i> or <i>physical commodities</i> subject to a commitment to resell to the same person the same or similar <i>securities</i> or <i>physical commodities</i> ;
<i>Sale</i>	includes any disposal for valuable consideration;
<i>sale and buy back agreement</i>	see repurchase agreement;
<i>scheme management activity</i>	means the management by an <i>operator</i> of a <i>collective investment scheme</i> of the property held for or within a <i>collective investment scheme</i> of which it is the <i>operator</i> and includes the management of the property of an <i>open-ended investment company</i> by the company itself as its <i>operator</i> but excludes the management of an <i>open-ended investment company</i> by another person as its <i>operator</i> (and excludes in all cases activities relating to transactions in units, <i>shares</i> or interests in the <i>collective investment scheme</i>);
<i>settlement day</i>	means the day on which under the recognised practice of an <i>exchange</i> or <i>approved exchange</i> , bargains are contracted for settlement; and in the case of bargains not transacted on an <i>exchange</i> or <i>approved exchange</i> , or entered into for forward settlement, 20 days from the date of the transaction, or, if earlier, the contractual due date;
<i>stock exchange moneybroker</i>	is a <i>moneybroker</i> which is an <i>authorised person</i> and acts as an intermediary in the gilt market;
<i>supranational organisation</i>	means any organisation referred to in Part 2 of Appendix 35 ;
<i>swap</i>	means a transaction in which two <i>counterparties</i> agree to exchange streams of payments over time according to a predetermined basis;
<i>takeover or related operation</i>	means: <ul style="list-style-type: none"> (a) any offer to which the <i>Takeover Code</i> applies and any transaction or arrangement which is of such a nature that the <i>Takeover Code</i> would have applied to it had it concerned a company whose shares are listed under Part VI of the <i>Act</i> and whose head office and place of central management are in the United Kingdom; (b) any offer, transaction or arrangement relating to the purchase of <i>securities</i> with a view to establishing or increasing a strategic holding of a person, or of a person together with his <i>associates</i> in the <i>securities</i> concerned;

	(c) any transaction or arrangement entered into in contemplation or furtherance of any offer, transaction or arrangement falling within (a) or (b) above; and
	(d) any transaction or arrangement entered into by way of defence or protection against any offer, transaction or arrangement falling within (a), (b) or (c) above which has taken place or which is contemplated;
<i>tangible net worth</i>	is the tangible net worth of a <i>firm</i> calculated in accordance with rule 3-62;
<i>total PRR</i>	means the sum of all the amounts calculated as a <i>PRR</i> under rules 3-80 to 3-169B;
<i>traditional option</i>	means any <i>option</i> arranged but not traded under the rules of the London Stock Exchange;
<i>trust beneficiary</i>	means a beneficiary under a trust (not being the settlor) who benefits from the performance by a <i>firm</i> as trustee of <i>investment services</i> relating to the management of the trust assets;
<i>underwriting</i>	means a commitment to take up <i>securities</i> where others do not acquire or retain them;
<i>underwriting price</i>	means the price at which the <i>firm</i> is committed to take up the securities or the price at which it is committed to do so if required under the <i>underwriting</i> commitment less any commissions or discounts paid or allowed in connection with the transaction, except to the extent that the <i>firm</i> has taken credit for them in its accounts;
<i>variable rate note</i>	means a debt <i>security</i> with the characteristics of an <i>FRN</i> except that the margin with respect to the index rate of interest is subject to variation depending on periodic negotiations;
<i>variation margin requirement</i>	means in relation to a <i>counterparty</i> the value of any amounts which the <i>firm</i> or <i>intermediate broker</i> would be required to pay under the rules of an <i>exchange</i> , <i>approved exchange</i> or <i>clearing house</i> to meet any <i>marked to market</i> losses occurring on contracts undertaken for that <i>counterparty</i> at that time on the assumption that those transactions were the only transactions undertaken on the <i>exchange</i> , <i>approved exchange</i> or <i>clearing house</i> by the <i>firm</i> or <i>intermediate broker</i> at that time;
<i>venture capital schemes</i>	means a scheme for providing capital to a <i>body corporate</i> whose equity is not traded or listed on an <i>exchange</i> ;
<i>walkaway clause</i>	means a provision which permits a non-defaulting counterparty to make only limited payments, or no payment at all, to the estate of the defaulter, even if the defaulter is a net creditor;
<i>warrant fund</i>	means a scheme which is dedicated to <i>transferable securities</i> except that it is permitted to invest entirely in <i>warrants</i> ;
<i>zone A</i>	see definition of <i>Zone A country</i> in the <i>Glossary</i> ; and
<i>zone B</i>	means any country not in <i>Zone A</i> .

ⁱ These are the same activities as are included in the definition of "designated investment business" used in the Main Handbook Glossary.

ⁱⁱ For guidance notes on *money brokers*, see **Appendix 37**.

Appendix 20: Guidance Notes on Reconciliation of Firm's Balances with a Counterparty which is a Member of an Exchange (Rule 3-11(1)(D)) and IPRU(INV) 9.6.1r (For An Exempt CAD Firm))

INTRODUCTION

- 1 The purpose of this guidance is to state how under rule 3-11(1)(d) and *IPRU(INV)* 9.6.1.R (for an *exempt CAD firm*) the reconciliation process with counterparties which are also members of exchanges should be performed.

FCA

SCOPE

- 2 The reconciliation to be performed with counterparties should cover all outstanding balances and *securities* positions with such counterparties from all sources except to the extent that the components of such balances and *securities* positions have been agreed by other means. Agreement by other means shall include (but is not to be limited to) those which have been–

FCA

- (a) matched or cleared through an exchange, clearing house or clearing system; or
- (b) verified by dispatch to or receipt from the counterparty of a confirmation or statement. Such verification should have been evidenced in writing or by electronic media.

- 3 The reconciliation should cover all remaining outstanding items including, for example, fee-based items, dividends where these are on the *firm's* balance sheet, coupons, amounts arising under *OTC* contracts, *repurchase* and *reverse repurchase agreements* and *securities* lending and borrowing.

FCA

- 4 The items to be included should be all those past trade date which is consistent with *trade date accounting*.

FCA

- 5 Where necessary a *firm* should initially circularise a list of all relevant open items as set out above rather than a net balance. A *firm* should identify the assumptions made by them in ascertaining which balances (or types of balances) have been included in the reconciliation. A *firm* should also identify where the balances or *securities* positions with a counterparty arise from different accounts operated by them with that counterparty.

FCA

- 6 The scope of the rule is intended to cover nil balances although these may be covered on a sample basis only. They are included because discrepancies in such balances may only come to light as being incorrectly stated on the performance of a circularisation. However, reconciliations of nil balances do not need to be performed where–

FCA

- (a) the counterparty is also a *firm*; or
- (b) there has been no outstanding balance with the counterparty at any point during the year.

TIMING

- 7 It is considered preferable for a *firm* to be aware in advance at which periods of the year they will receive reconciliations requests. This may be of use to a *firm* in enabling it to plan in advance the allocation of staff for the performance of the reconciliations. Thus, it is suggested that a *firm* submits such circularisations, where possible, at calendar quarter end

FCA

dates. It is considered that, in any case, the majority of *firms* would be likely to circularise such statements at these dates. However, a *firm* will be eligible to circularise at other dates as, for example, when its own *annual* or *quarterly accounting reference dates* do not coincide with the calendar quarter end.

- 8 A *firm* may perform the reconciliation in conjunction with the work undertaken by its auditors for the purposes of the annual audit.

FCA

THE OBLIGATION ON FIRMS

- 9 It is considered preferable for a *firm* to be aware in advance at which periods of the year they will receive reconciliations requests. This may be of use to a *firm* in enabling it to plan in advance the allocation of staff for the performance of the reconciliations. Thus, it is suggested that a *firm* submits such circularisations, where possible, at calendar quarter end dates. It is considered that, in any case, the majority of *firms* would be likely to circularise such statements at these dates. However, a *firm* will be eligible to circularise at other dates as, for example, when its own *annual* or *quarterly accounting reference dates* do not coincide with the calendar quarter end.

FCA

- 10 A recipient of a circularisation request from another *firm* must use its best endeavours to respond. Notwithstanding paragraphs 7 and 8 above, this obligation will apply even if this request is received more frequently than once a year from the same counterparty or is wider in scope than required by paragraphs 2 to 6 above (for example, by also covering balances which have already been agreed by other means). Rule 3-11 (or *IPRU(INV)* 9.6.1R for an *exempt CAD firm*) only requires that specific balances be covered. This is intended as a minimum requirement and not necessarily as the norm. If a *firm* need not reply to a request more than once a year or which covered balances of a wider scope, *firms* would be discouraged from requesting such reconciliations.

FCA

- 11 Rule 3-11(3) (or *IPRU(INV)* 9.6.1(1)R(4) for an *exempt CAD firm*) requires a *firm* to respond, within one month of receipt, to a circularisation request received from another *firm*. The one month response period should also be observed in relation to circularisation requests received under rule 3-11(1)(d) (or *IPRU(INV)* 9.6.1(1)R for an *exempt CAD firm*).

FCA

- 12 It is not considered necessary to issue detailed guidance for the procedure to be adopted in cases where the recipient does not reply to a circularisation request sent by a *firm*. It is intended that a *firm* need only take reasonable steps to obtain any such reply. However, before a *firm* has taken such steps, it should not assume that the circularisation is agreed merely due to the absence of a reply from the counterparts.

FCA

Appendix 21: Guidance Notes on the Valuation of Positions

(rule 3-41(9))

INTRODUCTION

1 Rule 3-41(9) states that a position must be valued at its close out price, where close out price means that a long position should be valued at current bid price and a short position at current offer price. In addition, rule 3-41(9) states that a *firm* must value a position on a prudent and consistent basis, and have regard to the liquidity of the instrument concerned and any special factors that may adversely affect the closure of the position.

FCA

2 The following paragraphs give general indications to *firms* on the appropriate valuation methodology. However, it is emphasised that prudence should be the overriding influence in the valuation exercise and that, where uncertainty exists as to the most appropriate price, the *firm* should use that price which gives the most conservative valuation.

FCA

GENERAL PRINCIPLES

3 *Firms* should value positions by reference to market prices, but where necessary should add a prudent and appropriate buffer to the bid or offer price to account for factors which would adversely affect the *firm's* ability to realise the close-out value, such as -

FCA

- (a) the liquidity of the *security* in question;
- (b) the size of the position held in that *security* relative to the sizes at which prices are quoted;
- (c) the direction of the position (long or short) relative to the current direction of the market;
- (d) the exposure of the *firm* to the relevant market as a whole;
- (e) any conversion or foreign exchange costs that would be incurred if the position were closed out;
- (f) any other factors which may affect the close-out price.

4 Where a mid-market or single price only is available for the *security* in question, *firms* must adjust this price by a prudent and appropriate buffer as outlined in paragraph 3 above.

FCA

5 With respect to paragraphs 3 and 4 above, *firms* should be able to demonstrate at all times how they determined the final price applied to any position in a *security*.

FCA

Appendix 26 (rules 3-81 to 3-165):

Summary Tables of Which Method of PRR to Apply to an Instrument

INSTRUMENT		CIRCUMSTANCES	METHOD	RULES
1 FCA	<i>note issuance facilities</i>	all circumstances	note issuance facilities	3-80
2 FCA	foreign currency asset or capital or liability	all circumstances	foreign currency exposures	3-150 to 3-154
3 FCA	<i>currency option and future</i>	see rule 3-152	foreign currency exposures or foreign currency derivatives	3-150 to 3-154
4 FCA	<i>physical commodity, actual and forward</i>	all circumstances	commodities	3-166 to 3-169B
5 FCA	<i>physical commodity, option and future</i>	all circumstances	commodities	3-166 to 3-169B
6 FCA	concentrated position	all circumstances	method relevant to position + <i>concentrated position</i>	As above
7 FCA	forward	equity foreign currency <i>physical commodities</i>	<i>equity</i> <i>foreign currency exposures</i> <i>commodities</i>	3-80 3-150 to 3-154 3-166 to 3-169B
8 FCA	<i>regulated collective investment scheme</i>	all circumstances	<i>equity derivatives</i>	3-80
9 FCA	<i>non marketable investments and others</i>	all circumstances	100% PRR	3-80

Appendix 33 (exchanges): List of Approved Exchanges

FCA

The following exchanges are approved for the purposes of the definition of “approved exchange” –

Athens Stock Exchange (ASE)

Barcelona Stock Exchange (Bolsa de Valores de Barcelona)

Belgian Futures & Options Exchange (BELFOX)

Berlin Stock Exchange (Berliner Börse)

Bilbao Stock Exchange (Bolsa de Valores de Bilbao)

BVLP (Bolsa de Valori de Lisboa e Porto)

Bolsa de Mercadorios & Futures (BM&F)

Boston Stock Exchange

Bovespa (The São Paulo Stock Exchange)

Bremen Stock Exchange (Bremer Wertpapierbörse)

BVRJ (The Rio de Janeiro Stock Exchange)

Cincinnati Stock Exchange

Copenhagen Stock Exchange (Københavns Fondsbørs)

Düsseldorf Stock Exchange (Rheinisch-Westfälische Börse zu Düsseldorf)

Frankfurt Stock Exchange (Frankfurter Wertpapierbörse)

Hannover (Niedersächsische Börse zu Hannover)

Italian Exchange

Kuala Lumpur Stock Exchange

Luxembourg Stock Exchange (Société de la Bourse de Luxembourg SA)

Madrid Stock Exchange (Bolsa de Valores de Madrid)

Mercato Italiano Futures (MIF)

Munich Stock Exchange (Bayerische Börse in München)

Nagoya Stock Exchange

New Zealand Stock Exchange

Oslo Stock Exchange (Oslo Børs)

Stuttgart Stock Exchange (Baden-Württembergische Wertpapierbörse zu Stuttgart)

Swiss Exchange (SWX)

Taiwan Stock Exchange

Tel Aviv Stock Exchange

The Stock Exchange of Thailand

Valencia Stock Exchange (Bolsa de Valores de Valencia)

Appendix 34 (“qualifying debt security”): Relevant Agency

The agencies in the table below are “relevant agencies” for the purposes of the definitions of “*qualifying debt security*”.

		Securities minimum category	Money market obligations minimum category
1 FCA	For all issuers Moody’s Investors Service Standard and Poor’s Corporation Fitch Ratings Ltd	Baa3 BBB- BBB-	P3 A3 A3

The International Monetary Fund;

APPENDIX 37 (rule3-177): Guidance Notes for Money Brokers

Application of the Counterparty Risk Requirement

INTRODUCTION

- 1 This Appendix offers guidance to *money brokers* on the application of rule 3-177 relating to the counterparty risk requirement.

FCA

CALCULATION OF 0.5% ADDITIONAL CRR

- 2 A *money broker* should calculate the additional *CRR* requirement as follows -

FCA

- (a) if a *money broker* is satisfied that it has a legal right to net off exposures with an individual *counterparty*, valid and enforceable in the United Kingdom or any other relevant country, it may do so in accordance with the rule 3-176(3). The obligation rests with the broker to demonstrate that the method it uses is reasonable and justifiable. It is stressed that this right to net is at the option of the *firm* and is not mandatory;
- (b) a *money broker* should then aggregate its total level of *securities* subject to a *repurchase* or *reverse repurchase agreement*, *securities* lending or borrowing agreement and *sale and buy back* or *buy and sale back agreement* (either net or gross) to or from individual *counterparties* outside an *approved payments system* and money lent against *Talisman short-term certificates*. A capital requirement of 0.5% of this sum should then be calculated.

APPROVED PAYMENTS SYSTEMS

- 3 The following are *approved payment systems* when the systems concerned provide for settlement on a delivery versus payment basis -

FCA

- Austraclear New Zealand
- Banca D'Italia's Giornaliera
- Banque Nationale de Belgique
- Bank of Spain Interbank Bond Settlements System
- Banque de France's SATURNE
- BOJ-NET DVP
- Central Gilts Office
- Clearstream
- Depository Trust Company
- Euroclear
- Fedwire - see The Federal Reserve System
- Kassenverein

- Necigef
- SICOVAM (Relit settlement only)
- Sociedad de Compensacion y Liquidacion de Valores
- The Canadian Depository for Securities Ltd
- The Federal Reserve System (Fedwire), and
- Vardepapperscentralen VPC AB

COLLATERAL

4

FCA

It is recognised that letters of credit may be used as collateral and may have a value in excess of the amount of the *securities* transferred. Provided it is clearly established that claims cannot be made on the letter of credit in excess of the value of the *securities* borrowed, no *CRR* will be imposed on the amount by which the letter of credit exceeds the value of the *securities* borrowed. *Firms* are reminded that the definition of *acceptable collateral* includes *marketable investments* which may take the form of money market instruments.

Appendix 43: Guidance Notes on the Financial Resources and Accounting Treatment of Soft Commission Agreements

(rules 3-73 and 3-182(3))

INTRODUCTION

1 This Appendix contains detailed guidance to the following rules–

FCA

Rules	
3-73	Expenditure requirement
3-182(3)	<i>CRR</i> requirement on other amounts owed to a <i>firm</i> arising out of <i>investment business</i> or <i>investment dealing activity</i>

2 The *FCA* is of the view that it is not responsible for setting accounting policies in relation to a *firm's audited annual financial statements*. However, the *FCA* considers that it is preferable for all *firms* participating in "soft commission agreements" to have consistent accounting policies. Without such consistency, certain *firms* would have a competitive advantage in terms of their *financial resources*. Therefore, for the purposes of completing *financial reporting statement* submitted to the *FCA*, appropriate accounting policies should be used. The guidance and interpretations made in this Appendix should be considered in this context.

FCA

3 The guidance applies to all *firms* which participate in "soft commission agreements" whether or not this is the sole *investment business* of the *firm*.

FCA

DEFINITION

4 A soft commission agreement means–

FCA

"any agreement, whether oral or written, under which a *firm* which deals in *securities* on an advisory basis, or in the exercise of discretion, receives goods or services in return for an assurance that not less than a certain amount of such business will be put through or in the way of another person;"

DESCRIPTION

5 A "soft commission agreement" is understood as being one in which a fund manager agrees, either formally or informally, to provide a broker with a certain amount of commission in any one period in return for the provision of services "free". Those services may be provided in-house or by third parties and may take the form of specific research provided by analysts, portfolio valuation systems, or information packages, plus the associated computer hardware and software.

FCA

- 6 Under traditional broking arrangements, the full service broker normally receives commission in return for the total servicing of a fund manager's account, a package which includes execution, perhaps custodianship and, almost certainly, research, also "free". The services provided under traditional broking arrangements are in-house i.e. within a broking group, and mostly are not conditional upon receipt by the broker of a certain level of commission, although there is usually an understanding which may never be articulated, that a certain volume of business will be generated.

FCA

EXISTING DIFFERENCE IN ACCOUNTING POLICIES

- 7 The accounting policies used can in general be divided into those which are "profit & loss" based and those which are "balance sheet" based. Under the former, the *firm* will write-off such expenditure to its profit & loss account but will usually not accrue a liability in its *financial reporting statements* for commissions received in advance. Consequently, the "normal" profit & loss based accounting systems for expenses incurred and commissions received will be used. It should be noted that such *firms*, as they are fundamentally participating in traditional broking arrangements, may not have legally enforceable "soft commission agreements" with their counterparties, such that there may be no absolute contractual liability on the *firm* or counterparty to provide expenditure or commission.

FCA

- 8 *Firms* using the "balance sheet" approach will accrue for liabilities but will also tend to capitalise their expenditure under "soft commission agreements". This may be the policy used by *firms* which specialise in legally enforceable "soft commission agreements" and reflects the legal status of such agreements. These may contract the counterparty to pay a level of commission related to the level of expenditure incurred by the *firm* (and vice versa if the counterparty has paid advance commission in excess of the expenditure paid by the *firm*).

FCA

EXPENDITURE AND BALANCES RECEIVABLE

- 9 Once expenditure is incurred for a counterparty, the soft commission broker may claim that contractually the counterparty is bound to pay him a certain multiple of that expenditure in the form of commission within a certain period of time from the date the expenditure was incurred. Consequently, certain *firms* have previously capitalised their expenditure and shown it as an asset for the purposes of calculating their *financial resources*.

FCA

REQUIRED TREATMENT

- 10 Where a *firm* incurs expenditure on behalf of a counterparty or counterparties in respect of "soft commission agreements" (whether or not it is incurred in relation to a written contract), the *firm* should immediately write off such expenditure to its profit & loss account.

FCA

- 11 Notwithstanding the above, expenditure may be capitalised (as an asset) in the balance sheet of the company which incurred the expenditure, **only where this amount is recoverable under a legally enforceable contract** (see paragraph 18 below). Where such expenditure is capitalised it will be subject to rule 3-182(3).

FCA

INCOME AND BALANCES PAYABLE

- 12 Once commission income is received from a counterparty, the *firm* may recognise that contractually it is bound to pay the counterparty a certain proportion of that income, in the form of the counterparty's expenses, within a certain period. Although certain *firms* are including this amount as a liability on their balance sheet (and thus reducing their *financial*

FCA

resources), other *firms* are making no such provision.

REQUIRED TREATMENT

13

FCA

Where a *firm* has a contractual liability to, or on behalf of, a counterparty or counterparties which arises from a legally enforceable "soft commission agreement", the *firm* should accrue in its *financial reporting statements* a liability for the relevant proportion of any advanced commission income received from the counterparty that will have to be subsequently incurred as an expense by the *firm* in the form of a payment on behalf of the counterparty for allowable goods and services.

EXPENDITURE REQUIREMENT

14

FCA

Once expenditure is incurred for a counterparty, the soft commission broker may claim that contractually the counterparty is bound to pay him a certain multiple of that expenditure in the form of commission within a certain period and thus such expenditure should not be included in the *firm's* expenditure requirement.

REQUIRED TREATMENT

15

FCA

Expenditure incurred by soft commission brokers should be included in a *firm's* expenditure requirement, unless it is incurred under a legally enforceable "soft commission agreement" when it may be excluded from the expenditure requirement calculation.

16

FCA

The reasoning behind this treatment is that the expenditure of a *firm* participating in soft commission arrangements is similar to shared commissions and can, therefore, be treated as though it were shared commissions under rule 3-73(2)(f), except to the extent that such expenses are irrecoverable, i.e. except where there is no enforceable legal agreement.

17

FCA

It is considered that certain *firms* may have been under the misapprehension that there was a concession for all expenditure related to "soft commission agreements" regardless of whether the agreement was legally enforceable. Where a *firm* undertakes a mixture of business between legally enforceable contracts and informal arrangements (all of which the *firm* would classify as "soft commission agreements"), it must take great care in allocating expenditure between legally enforceable contracts and others. Alternatively, it may decide to include all expenditure in the expenditure requirement regardless of source.

LEGALLY ENFORCEABLE CONTRACTS

18

FCA

For the purposes of this guidance, for a "soft commission agreement" to be legally enforceable there should be a specific written legal contract governing the arrangements. The contract should be legally enforceable by the *firm* involved, both in the UK and in any other relevant country.

Appendix 46 (Table 3-173(2)B): Countries/Territories in which CRR on Issuing Market Free Deliveries may be Relaxed

FCA

INTRODUCTION

This Appendix lists the countries/territories in which *free deliveries* made in the issuing market are subject to a reduced *CRR* of 15% of the *free delivery* value, and the time limit on this reduced *CRR*.

Country/Territory	Business days since delivery
Hong Kong SAR	20
Indonesia	30
Malaysia	30
Philippines	75
Singapore	21
Thailand	45

Appendix 47: Tables applicable to CRR for derivative transactions under the rule 3-173B

FCA

TABLE 1

Counterparty Weights to be Applied in Calculating Liquidity Adjustment and CRR (rule 3-173B(5)(b))

Type of counterparty	Counterparty weight
claims on, or explicitly guaranteed by, or collateralised with <i>securities</i> issued by: <ul style="list-style-type: none"> - the central government or central bank of a <i>Zone A</i> country; - the <i>EU</i> or Euratom (the European Atomic Energy Community); or <ul style="list-style-type: none"> - any other government or central bank, provided the <i>exposure</i> is denominated in that country's national currency. 	NIL
claims on discount houses, gilt-edged <i>market makers</i> , institutions with a <i>money</i> market dealing relationship with the Bank of England and those <i>Stock Exchange money brokers</i> which operate in the gilt-edged market, where the claims are secured on gilts, UK Treasury bills, eligible <i>local</i> authority and eligible bank bills, or London CDs	10%
claims on, or explicitly guaranteed by: <ul style="list-style-type: none"> - a <i>multilateral development bank</i>; - the regional government or <i>local</i> authority of a <i>Zone A</i> country; - a <i>Zone A credit institution</i>; - a <i>recognised clearing house</i> or <i>recognised exchange</i>; - a recognised third country or <i>EEA investment firm</i>; - a <i>Zone B credit institution</i>, provided the <i>exposure</i> has a maturity of one year or less. 	20%
any other counterparty	100%

Guidance

The guarantee should be explicit and be legally enforceable by the *firm* and should prevent a *firm's* capital from becoming deficient as a result of experiencing a loss on such an exposure. The exposure must be retained on the *firm's* balance sheet.

FCA

TABLE 2

Specific risk *percentage risk additions*

Issuer	Residual maturity	Percentage risk addition
An issue of, or fully guaranteed by, or fully collateralised by a <i>Zone A</i> central government or central bank or the <i>EU</i> or Euratom (the European Atomic Energy Community)	Any	0%
An issue of, or fully guaranteed by, a <i>Zone B</i> central government or central bank denominated in the local currency	Zero to 12 months	0%

Appendix 56: Guide to Adequate Credit Management Policy (ACMP)

(rules 3-73 to 3-175, 3-300 and “ACMP”)

INTRODUCTION

- 1 This appendix contains general guidance on the standards which the FCA expects a *firm's* ACMP to meet.

FCA

OBJECTIVE

- 2 The FCA's objective is to ensure that adequate procedures and controls are in place to manage effectively the granting of credit and the monitoring and controlling of credit risk.

FCA

SCOPE

- 3 The guidance applies to any *firm* which wishes to take advantage of the lower CRR percentages (by which counterparty exposures must be multiplied).

FCA

- 4 Before a *firm* may use the lower percentages in calculating CRR and in preparing its financial reporting statements, it must meet the requirements set by 3-300. The ACMP and its operation will be reviewed periodically by the FCA and, where it is no longer operating effectively, the *firm* may be in breach of those requirements.

FCA

BACKGROUND

- 5 The FCA is aware that *firms* grant credit to counterparties in many different ways, including for example, loans to cover actual margin calls as a result of delays between trade date and final settlement or of late settlement etc. This guidance is designed to cover all instances where a *firm* becomes exposed to credit risk although, depending on the way in which credit risk arises, the procedures for managing it may differ.

FCA

- 6 In considering the credit management policies of a *firm*, the FCA will expect the *firm* to operate a robust control structure which is appropriate to the size, scale and nature of its business and the diversity and complexity of its exposures. The FCA recognises that different approaches to and styles of credit management can create an effective operational control environment. Therefore, it is not appropriate for the FCA to lay down prescriptive standards which it would expect a *firm* to meet, but rather to suggest a broad framework which is flexible, allows for individualised solutions and can accommodate and encourage evolutionary developments.

FCA

- 7 The prime components of a sound credit risk management process are:

FCA

- the definition by a *firm* of what constitutes a credit exposure/risk and is therefore covered by the *firm's* ACMP;
- a comprehensive credit risk measurement approach;

- the existence of guidelines and other parameters used to determine credit limits and govern the level and types of risk taken; together with
- a strong management information system for controlling, monitoring and reporting exposures.

Thus, when the *FCA* reviews a *firm's* credit management process, it will seek comfort that credit exposures are managed and controlled in a highly disciplined manner and that the relevant staff are well versed in the *firm's* credit procedures.

- 8** Where a *firm's* credit risk management is controlled or overseen by its parent or an affiliate in the same group, provided that the *firm* can identify reasonable grounds for believing that the level of control is suitable, this should not impede use of the *firm's* *ACMP*.

FCA

GENERAL PRINCIPLES

- 9** In forming its view as to the adequacy of a *firm's* credit risk management process, the general characteristics which the *FCA* may take into account include the following:

FCA

Role of senior management

- (a) whether the framework of credit risk management, i.e. a *firm's* policies and procedures, is overseen by the board of directors or an equivalent management body;

Procedures

- (b) whether there are clearly established lines of responsibility and levels of authority for:
- the granting of credit to a counterparty;
 - extending its permitted use to cover risk arising on a product new to the counterparty;
 - increasing existing credit facilities; and
 - the monitoring and controlling of all credit risk;
- (c) the extent to which the functions of granting, measuring, monitoring and controlling credit risk are managed independently of the front office with a direct reporting line to the senior management ultimately responsible for credit risk management;
- (d) whether good channels of communication exist which ensure that the *firm's* credit management procedures are well understood and followed by all relevant personnel;
- (e) whether procedures exist for identifying unintentional credit exposures and dealing with counterparty which has failed to settle its obligations to the *firm*, (whether merely due to a delay or actual default), or which is expected not to settle its obligations on the due date; including arrangements for closing out transactions. In addition, the *FCA* may consider whether a *firm* has the ability to identify and attempt to predict, as well as quantify, any shortfall as it arises and on an aged basis;

- (f) whether mechanisms exist for a daily comparison of exposures with credit limits, including the production of exception reports, and the procedures to be followed to deal with the results of those exception reports;

Documentation

- (g) whether a *firm's* credit management policies and procedures are properly documented and reviewed by the *firm* on a regular and thorough basis to ensure that they continue to remain appropriate and sound;
- (h) whether records are kept in respect of each counterparty (identified on an individual legal entity basis) indicating in sufficient detail, the level of credit risk to a counterparty to which the *firm* is willing to expose itself. Where a *firm* grants a credit facility similar to a loan to cover, for example, margin calls, such records might give details of the credit facility extended to a counterparty together with any information gathered in support of the decision to grant that credit facility, the types of transaction which the *firm* may enter into with the counterparty and to which the credit facility may be allocated. Credit information relating to counterparties should be regularly updated and reviewed by the *firm* to ensure that any credit facility granted remains appropriate;

Collateral and margin

- (i) whether the *firm* has written policies relating to the margining and collateral arrangements with its counterparties. Terms of business or customer agreements would normally detail the circumstances when margin might be called, and the type and level of collateral which would be acceptable to the *firm* on the basis of its liquidity, volatility and ability to be realised. In addition, it may be relevant to consider the degree to which a *firm's* collateral records are kept up to date and include detail of the practical procedures for the realisation of such collateral.

Measurement and monitoring of exposures

- (j) whether a *firm* has mechanisms for identifying the level of concentration of credit risk exposures to each individual counterparty, and each group of connected counterparties, etc on a regular and timely basis;
- (k) where a *firm* uses risk reduction techniques (such as master agreements, netting agreements, collateralisation arrangements or the taking of third party credit enhancements, including letters of credit and guarantees), whether the *firm* has procedures for scrutinising documents and assessing their impact on the credit risk of the *firm* and assessing the quality of any guarantees or letters of credit;
- (l) depending on the nature of the credit exposures to which a *firm* is subject, whether the *firm's* mechanisms for measuring such exposures are appropriate to cover the type or level of risk to which they give rise.

Additional Guidance on the FCA's Assessment of ACMPs

FCA

PREAMBLE

This document is intended as a guide to those areas of Credit Management Policies which the FCA will address when considering their adequacy.

A DEFINITION OF CREDIT AND THE MEASUREMENT OF CREDIT RISK

The FCA expects that firms have a clear definition of what is considered to be “credit risk” (by whatever name it is known) within the firm.

The FCA expects firms to consider in depth the measurement of the extent of Credit Risk which is incurred vis a vis any given counterparty. Firms should be aware that the extent of credit risk incurred will not necessarily be the same as the nominal value of contracts entered into (“value at risk” concept).

The FCA will expect that firms measure and monitor the extent of Credit Risk incurred vis a vis any given counterparty by reference to a system of limits showing the maximum Credit Risk which the firm considers it prudent to incur vis a vis that counterparty having regard for the financial strength of the counterparty.

The FCA expects there to be adequate procedures within the firm for the recognition of where credit risk may be incurred, for the approval of incurring such risk, and, once incurred, for the monitoring of that risk to ensure the satisfactory recovery of all amounts owed to the firm by a counterparty.

THE DECISION TO GRANT CREDIT

If there is a formal decision making body (e.g. a “Credit Committee”) which reviews applications for credit:

- How does it derive its authority?
- What is the extent of any Credit Committee’s authority as regards:
 - amount of credit granted
 - tenor of credit granted
 - products for which credit lines may be approved
 - industry sectors for which credit lines may be approved?
- How is any Credit Committee constituted?
- What are the qualifications of any Credit Committee’s members to make the decisions required of them?
- Independence of Committee from profit centres
- Recording of Approvals

If there is no formal committee, what procedures exist to ensure adequate collective responsibility for credit decisions giving regard for the duality (“four eyes”) principle and independence of decisions made from profit centres likely to benefit from income? e.g.

- “round robin” circulation of papers to Directors/Credit Management
- individual sign off on each transaction/deal

Many of the comments noted above concerning a “Credit Committee” will be relevant also where no

formal Committee meets, as will the following remarks concerning the documentation provided to those making credit decisions.

What documentation is provided to those charged with reaching decision to grant credit?

Cover sheet detailing proposed credit.

- Name of proposed counterparty (identify correct legal entity)
- Address of proposed counterparty
- Amount of credit
- Currency of credit
- Tenor of credit
- Collateral/Security proposed (where applicable)
- Remuneration for credit granted
- Products
- Existing exposure to counterparty (in case of increase/review)
- Previous payment performance of counterparty (in case of increase/review)

Financial information on proposed counterparty.

In order to ascertain the financial strengths and weaknesses of a proposed counterparty the *FCA* expects *firms* to revert to financial information, some examples of which are given below.

- Annual report and accounts
- Analysis of annual reports and accounts
- Credit reference agency reports e.g. Dun and Bradstreet
- Rating agency reports e.g. Standard and Poors, Moody's
- Brokers reports
- Bank status reports
- Statements of net worth

"Credit memorandum" or other internally produced paper outlining the reason for proposing the granting of credit to the counterparty.

Some areas which might be covered by such a memorandum are as follows:

- Background information on relationship with proposed counterparty
- Commentary/analysis of financial information
- Future prospects (for profitability, growth etc.)
- Reason for present proposal
- What benefit will it bring to a *firm's* relationship with company?
- Perceived risks in providing the credit proposed
- What measures have been taken to mitigate these risks?
- Provision of management accounts
- imposition of financial covenants
- Taking of security
- Comments on the collateral or security to be taken
- Comments on legal documentation to be employed
- Industry exposure
- Country exposure
- Spread of counterparties - large exposures

THE MONITORING OF CREDIT EXPOSURES

Once a proposal to grant credit has been approved the *FCA* will expect that there are adequate

procedures in place to ensure the proper monitoring of all credit exposures entered into.

The *FCA* expects the monitoring function to be separate from and managed independently of those profit centres which may benefit from the incurring of credit risk.

In order to ensure adequate monitoring of credit exposure it will be necessary for firms to ensure that decisions concerning credit matters are communicated promptly and efficiently to those who are responsible for their utilisation and monitoring. firms may wish to consider how such matters are communicated to:

- Those entitled to commit the *firm*
- Credit Control Officers
- Senior Management
- Documentation Staff

The *FCA* will consider the methods by which this information is communicated e.g. memorandum, manual lists, credit procedures manuals etc.

COMPUTER SYSTEMS

Where use is made of computer systems the *FCA* will consider the various methods by which the integrity of databases is ensured. These could include

- Password protection/access rights
- Accuracy/key verification
- Duality principle
- Physical security of systems
- Back up

Where information is transferred between computer systems e.g. for reporting purposes or to PC based systems the *FCA* will consider any reconciliations which are performed.

REPORTING

The *FCA* expects there to be an adequate reporting system for the monitoring of credit exposure. Many *firms* make use of a series of reports, analysing their credit exposure based on a number of different criteria. Examples of the kinds of reports which may be found useful by *firms* are given below.

- Excess reports/Exception reports
- Exposure reports
 - by customer/group/connected customers
 - by industry
 - by country
- Overdue payments reports
- Facilities due for review
- Facilities by collateral/security type
- Collateral/security held
- Large Exposures

The *FCA* will give consideration to the frequency of production of reports used in monitoring credit risk.

CREDIT RISK MANAGEMENT/CONTROL

The *FCA* will expect to be given details of the action taken where monitoring shows that any aspect of credit exposure is not in line with previously agreed parameters.

For example where exposure is in excess of approved limits the *FCA* will expect to be informed about what action is taken, where payments are not received, how this is followed up. If a counterparty's financial standing deteriorates, what action is taken to attempt to mitigate possible credit loss?

DOCUMENTATION

The *FCA* expects *firms* to have adequate procedures in place to be certain that all transactions which require documentation are documented and that this occurs within an acceptable time frame, and that any transactions which fail to be documented are identified and reported to Senior Management for appropriate action to be taken.

The *FCA* expects any staff responsible for documentation to be separate from front office/profit centres and have an independent reporting structure. This will ensure that the commercial wish to trade and do business does not cloud the negotiation of effective and binding legal documentation.

- Suitability of documentation to be used
- Preparation of documentation
- Qualification of staff (or choice of solicitors to be instructed)
- Training of documentation staff
- Tenacity of documentation staff

Basic documentation to be obtained from all counterparties might include

- Certificate of incorporation
- Memorandum and articles of association (M&AA)
- Board Resolution

Other documents which a *firm* may wish to call for prior to entering into transactions would include:

- a statement of officers authorised to act for the counterparty and to commit it to transactions
- a list of authorised signatories where one exists
- an audited annual report or interim figures
- credit reference report or bank status report

Other areas for consideration could include:

- Prompt execution of documentation
- Monitoring response to documents sent out
- Chasing where no response
- Reporting missing documentation to senior management
- Proper execution
- Secure storage of documentation
- Regular review of documentation held

ONGOING REVIEW OF CREDIT RISK

The *FCA* expects firms to have in place adequate procedures for the annual (or more frequent) review of

credit risk.

- Scope of the review
- Financial information
- Action where concern is raised
- Possible need for more frequent review
- Monitoring of counterparties' performance
- Defaults and delinquent and bad debts
- Provisioning policy

The *FCA* will expect a *firm* to be able to explain what action may be taken as the result of review e.g. reduction of credit limit, calling for further collateral etc. Where the review indicates cause for concern.

DOCUMENTATION OF CREDIT POLICIES AND PROCEDURES AND CUSTOMER FILES

The *FCA* will expect *firms* to consider the manner in which their Credit Policies are documented. Areas for comment could include:

- Credit Procedures manuals and the context in which they are used
- Internal Board Minutes showing delegated authority
- Credit Committee Minutes
- Operations manuals
- Training material for staff
- Internal memorandum detailing credit policy
- Customer Credit files, to contain
 - credit analysis information
 - copies of decisions to grant credit
 - copies of relevant documentation
 - press cuttings
 - copies of data input documents

Appendix 62: Netting

SIMILAR TYPES OF TRANSACTIONS

The rules set out the requirements to be met by firms before offsetting exposures in 'similar types of transactions' with a counterparty (i.e. being those transactions falling under a particular counterparty risk rule). The netting of exposures within a particular rule is to be applied on a first in first out basis.

DERIVATIVE TRANSACTIONS

Firms may offset the negative replacement cost on written OTC options against the positive replacement cost of OTC purchased options with the same counterparty.

Guidance on the Netting of Counterparty Exposures

INTRODUCTION

1. This appendix contains guidance on the requirements to be attained in order for firms to net counterparty exposures assessed under the following areas.

FCA

Subject
Cash against documents transactions
Free deliveries of securities
Repurchase and reverse repurchase, securities lending and borrowing and sale and buy back agreements
Derivative transactions
Other amounts owed to a firm arising out of trading book business

SCOPE

2. The guidance applies to any firm subject to the CRR rules and which takes advantage of the netting provisions contained therein.

FCA

BACKGROUND

3. Agreements which can effect set-off of counterparty exposures exist in two forms:

FCA

- (a) novation agreements (referred as netting by novation) which replace existing contracts with one new contract and therefore can only be used to cover similar

transactions with payments in the same currency for the same value dates;and

- (b) netting agreements which can be used to cover transactions of very different types.

The guidance below applies to both novation agreements and netting agreements.

PRINCIPLES OF OFFSET

- 4. Before offsetting exposures in similar types of transactions with a counterparty a firm must have a contractual netting agreement with that counterparty which:

FCA

- (a) covers the transactions which the firm is seeking to net;
- (b) creates a single obligation in each currency or a single obligation to pay a net sum of cash in the event of default, bankruptcy, liquidation or similar circumstances;
- (c) does not include a walkaway clause; and
- (d) is supported by written and reasoned independent legal opinions to the effect that, in the event of a legal challenge, the relevant courts would find the firm's exposure to be the single net amount mentioned in (b) above.

PRINCIPLES OF OFFSET

- 5. The prerequisite of holding a netting agreement supported by an independent legal opinion in order to offset exposures is not required where the Financial Law Panel's (November 1993) Statement of Law on netting applies. This Statement of Law indicates that under English law rule 4-90 of the Insolvency Rules 1986 imposes a requirement for complete set-off of transactions between parties incorporated in England and Wales, provided the transactions are mutual (i.e. credits, debts or claims arise from dealings between the same parties and that the parties are acting in the same capacity). Furthermore, it indicates that set-off is mandatory, applies whether or not there is any contractual entitlement to set-off and cannot be excluded by agreement between the parties.

FCA

- 6. As mentioned above mutuality is required in order for there to be complete set-off of transactions. Accordingly, firms are expected to have procedures in place to identify the counterparty and the capacity in which the counterparty is acting. Firms proposing to rely on the Statement of Law on netting must satisfy themselves of the appropriateness of such reliance and, where in doubt, obtain legal advice. It is important to note that Insolvency Rule 4.90 does not apply to building societies, statutory organisations generally, mutual societies, partnerships and individuals.

FCA

LEGAL REQUIREMENTS

- 7. Legal opinions will be needed for the:

FCA

- law of the jurisdiction in which the counterparty is organised;
- law of the jurisdiction in which any branch involved is located;

- law that governs the agreement and, if different, the law that governs individual transactions pursuant to it; and
 - law that governs the legal status of the counterparty who is entering into transactions of the type which the firm is seeking to net.
8. Where a firm uses an industry standard agreement which contains netting/setoff clauses the firm may rely only on a legal opinion relating to the netting/setoff clauses in that standard agreement where no amendment has been made to the agreement which would materially affect these clauses and where the legal opinion addresses the capacity of counterparties of the type with which the firm wishes to contract, the contract type and the relevant jurisdictions.
- FCA**
9. Where a netting agreement provides that one or both parties may enter into transactions with each other under the agreement through any of its (or certain designated) branches, then all such branches included in the agreement will be considered to be located in relevant jurisdictions for the purpose of this guidance.
- FCA**
10. Where a netting agreement involves more than one jurisdiction, a legal opinion is required for each to the effect that the agreement creates a single obligation in each currency or a single obligation to pay a net sum of cash in the event of default, bankruptcy, liquidation or similar circumstances.
- FCA**
11. As mentioned above legal opinions should relate to the law of the jurisdiction in which the counterparty is organised (i.e. incorporated or resident). However, certain circumstances may arise where this requirement could be considered not to be applicable; for example where:
- FCA**
- a firm has no assets or exposure in that jurisdiction;
 - any judgement obtained in that jurisdiction against a firm would not be enforceable under any of the rules in the UK relating to the enforcement of foreign judgements; or
 - there are no other factors relating to that jurisdiction which would affect the ability of a firm to make net payments as contemplated by the netting agreement.
12. Where a firm believes that the law of the jurisdiction in which a counterparty is organised is not relevant, that point must be addressed in the legal opinion supporting the netting agreement. The ability to exclude the law of the jurisdiction in which a counterparty is organised does not extend to the netting of those off balance sheet exposures listed in the Solvency Ratio Directive: the amendment to this directive (to permit netting) specifically requires this matter to be addressed in the legal opinion.
- FCA**
13. It is recognised that, with certain aspects of the agreement, it may not be possible to obtain a definite opinion or that a positive opinion regarding enforceability of the netting agreement can only be obtained subject to certain assumptions and/or qualifications. Where qualifications are made, they should be specific and their effect adequately explained. In the same way, assumptions should be specific, of a factual nature (except in relation to matters subject to the law of a jurisdiction other than that covered by the opinion) and should be explained in the opinion.
- FCA**
14. Legal opinions on netting agreements must be obtained from independent legal advisers with sufficient expertise and experience in this area of law. Opinions from in-house counsel will not be acceptable. Where the regulator in the jurisdiction of the counterparty is satisfied that the netting agreement is not enforceable under the laws of that jurisdiction, the netting agreement cannot be relied upon regardless of the opinions obtained by a firm.
- FCA**

COMPLIANCE WITH THE LEGAL REQUIREMENTS

15. It is the responsibility of firms to ensure that the legal requirements set out above are met (firms are to calculate CRR on the gross value of exposures to counterparties where this is not the case). Firms do not need to apply to the FCA in order to net exposures. Similarly, legal opinions on netting agreements and the agreements themselves are not required to be submitted to the FCA for approval. The FCA will establish the existence of legal opinions and netting agreements when compliance with the above requirements is being monitored by its staff.

FCA

16. Firms are expected to put procedures in place to ensure that the legal characteristics of netting arrangements are kept under review in light of possible changes in the relevant law.

FCA

17. Firms are expected to maintain records demonstrating that, in relation to the legal requirements, the following considerations have been addressed:

FCA

- the applicability of the netting agreement to the counterparties, jurisdictions and transactions involved;
- the applicability of the opinions to the counterparties, jurisdictions and transactions involved;
- where more than one jurisdiction is involved, the potential for conflicts in law;
- all documentation is complete and still valid and that the agreement has been properly executed (i.e. that the acceptance of terms have been evidenced);
- the nature and effect of any qualifications in the legal opinions and assessment that these do not impair the obligation to pay a net sum of cash in the event of default, bankruptcy, liquidation or similar circumstances; and
- where an industry standard agreement is used upon which a generic legal opinion has been obtained, identification of those clauses which if altered during the course of negotiating the agreement would affect the right to offset. Internal legal counsel is to evidence review of these agreements to ensure that the effectiveness of the set off clauses has not been altered directly or indirectly by virtue of other clauses being added or deleted.

18. Firms are expected to hold a copy of the legal opinion and the agreement to which it relates.

FCA

19. Firms are to net exposures within a particular rule on a FIFO basis. Firms may net only current exposures and cannot net potential future exposures.

FCA

CROSS-PRODUCT NETTING

Introduction

The FCA will consider granting rule waivers in order to permit firms to take account of cross-product netting in the calculation of their Counterparty Risk Requirement (CRR) in instances where the FCA regards it appropriate.

The current drafting of the FCA's Financial Rules for securities and futures firms allows 'similar' types of transactions to be netted (where those transactions are covered by a valid netting agreement, with a supporting legal opinion). In practice, 'similar' has been defined as all transactions which fall within a particular CRR Rule treatment. Thus, currently, for the calculation of CRR in relation to exposures to a counterparty which are covered by valid netting arrangements, a firm would be required to assess, for example, a net exposure for all derivative transactions with that counterparty and a separate net

exposure for all repo type transactions with that counterparty.

The FCA will consider granting waivers in accordance with SUP 8, though in general it will expect the following conditions to be met:

1. For the types of transaction which the firm is seeking to net, the firm must have the capability to monitor, and must in practice manage, the resultant exposures on a net basis.
2. All transactions which the firm is seeking to net must be covered by valid netting agreements and supported by legal opinions, in accordance with the requirements of the FCA's Financial Rules; and
3. Where underlying netting agreements are linked by a master netting agreement, the legal opinion must address the enforceability of the netting arrangements in their entirety;

One factor that the FCA will consider in assessing whether a particular applicant meets these requirements is whether the firm has had the use of its ACMP sanctioned for the purposes of calculating CRR.

4 Chapter 4: Lloyd's firms

4.1 APPLICATION

4.1.1 R This chapter applies to the *Society* and *members' advisers*.

FCA PRA

4.1.2 R This chapter does not apply to a *members' adviser* which is subject to another chapter of *IPRU(INV)*.

FCA

4.1.3 D The directions in *IPRU(INV)* 4.4.1D to 4.4.5D and 4.5.1D are given to the *Council* and to the *Society* acting through the *Council*.

FCA PRA

4.2 PURPOSE

4.2.1 G This chapter identifies the financial resource requirements and requirements as to accounts and statements to be met by certain *firms* conducting business at Lloyd's.

FCA PRA

4.2.2 G The directions in *IPRU(INV)* 4.4.1D to 4.4.5D and 4.5.1D are given under section 318 of the *Act* (Exercise of powers through Council), for the purpose of achieving the objective specified, as required by section 318(2) of the *Act*, in *IPRU(INV)* 4.3.1D.

FCA PRA

4.2.3 G *Underwriting agents* are subject to regulation by the *Society* as well as by the *appropriate regulator*. In particular, they are subject to requirements as to their financial resources and as to making and maintaining accounting records, set by the *Society*. The *appropriate regulator* is satisfied that *underwriting agents* will be subject to adequate financial resource and accounting requirements as long as they remain subject to and comply with requirements at least equivalent to Lloyd's Capital and Solvency Requirements 2001 and the relevant parts of, or requirements made under Lloyd's Underwriting Agents Byelaw (No. 4 of 1984), in each case as amended and in force immediately before *commencement*. Accordingly, instead of imposing an obligation directly on *underwriting agents*, the directions in *IPRU(INV)* 4.4.1D to 4.4.5D and 4.5.1D require the *Society* to require those firms to comply with the relevant requirements.

FCA PRA

4.2.4 G A *members' adviser* is not regulated by the *Society* and accordingly this chapter specifies the financial resource and accounting requirements to be met. *Firms* which fall within the scope of this chapter will be *firms* with *permission* only to advise persons on *syndicate* participation at Lloyd's. The nature of that advisory business is akin to corporate finance advice and so the applicable requirements are those in *IPRU(INV)* 3 relevant to *firms* giving corporate finance advice. *Firms* with other *permissions* will fall within the scope of other chapters of *IPRU(INV)*, *GENPRU*, *BIPRU* or *INSPRU*.

FCA PRA

4.3 SPECIFICATION OF OBJECTIVE

4.3.1 D The directions in *IPRU(INV)* 4.4.1D to 4.4.5D and 4.5.1D are given in relation to the exercise of the powers of the *Society* and of the *Council* generally, with a view to achieving the objective that *underwriting agents* have adequate financial resources to

FCA PRA

support, and keep and preserve adequate accounting records in respect of their business at Lloyd's.

4.4 FINANCIAL RESOURCE REQUIREMENTS

- FCA** **PRA** D The *Society* must maintain appropriate and effective arrangements to require *underwriting agents* to meet and continue to meet financial resource requirements at least equivalent to the requirements set out in Lloyd's Capital and Solvency Requirements 2001, as they are in force immediately before *commencement*.
- 4.4.2 **FCA** **PRA** D The *Society* must give the *appropriate regulator* a report on each *underwriting agent's* compliance with the financial resource requirements referred to in *IPRU(INV)* 4.4.1D as at the end of each quarter (determined by reference to each *underwriting agent's accounting reference date*).
- 4.4.3 **FCA** **PRA** D The report referred to in *IPRU(INV)* 4.4.2D must reach the *appropriate regulator* within two months of the end of the relevant quarter and must state:
- (1) whether the *Society* has any information indicating or tending to indicate that, during the quarter to which the report relates, the *underwriting agent* failed to meet the financial resource requirements referred to in *IPRU(INV)* 4.4.1D;
 - (2) whether, at the end of the quarter to which the report relates, the *underwriting agent* failed to meet the financial resource requirements referred to in *IPRU(INV)* 4.4.1D; and
 - (3) the nature and extent of any failure to comply reported under (1) or (2) and the actions taken or to be taken by the *Society* in response to this.
- 4.4.4 **FCA** **PRA** D In addition to the reports required under *IPRU(INV)* 4.4.2D, the *Society* must give the *appropriate regulator* an annual report on each *underwriting agent's* compliance or non-compliance with financial resource requirements as at the end of that *underwriting agent's* financial year.
- 4.4.5 **FCA** **PRA** D The report in *IPRU(INV)* 4.4.4D must reach the *appropriate regulator* within seven months of that *underwriting agent's* accounting reference date and must:
- (1) confirm that:
 - (a) the *Society* has received from that *underwriting agent* in respect of the financial year to which the report relates, all relevant attachments to the Annual Financial Return that the *underwriting agent* is required to make to the *Society* under the

requirements identified in *IPRU(INV)* 4.4.1D;

- (b) that *underwriting agent* met the applicable financial resource requirements at the end of the financial year to which the report relates; and
 - (c) the *Society* is not aware of any matters likely to be of material concern to the *appropriate regulator* relating to that *underwriting agent's* compliance with financial resource requirements during the year to which the report relates, or arising from the attachments referred to in (a); or
- (2) if the *Society* is unable to give any of the confirmations required under *IPRU(INV)* 4.4.5D (1)(a), (b) or (c), set out in each case the reasons why it is unable to give that confirmation.

4.4.5A D The *Society* must submit the reports in *IPRU(INV)* 4.4.2D to *IPRU(INV)* 4.4.5D in accordance with the *rules* in *SUP* 16.3 (General provision on reporting).

FCA PRA

4.4.6 R A *members' adviser* must comply with the requirements of *IPRU(INV)* 3-60(3) and 3-62.

FCA

4.5 ACCOUNTING RECORDS

4.5.1 D The *Society* must maintain appropriate and effective arrangements to require *underwriting agents* to meet the obligation to keep and preserve accounting records, set out in Lloyd's Underwriting Agents Byelaw (No 4 of 1984), Section III, paragraph 53B, as it is in force immediately before *commencement*.

FCA PRA

4.5.2 R A *members' adviser* must comply with the requirements of *IPRU(INV)* 3-10 to 3-14.

FCA

5 Chapter 5: Financial Resources

5.1.1 APPLICATION

Application of Chapter 5

5.1.1 R (1) (a) This chapter applies to an *investment management firm*, other than an *incoming EEA firm* or *MiFID investment firm* (unless it is an exempt *CAD firm* for the purpose of calculating its *own funds* and if it carries on any *regulated activity* other than *MiFID business*), as set out in Table 5.1.1(1)(a).

FCA

(b) [deleted]

TABLE 5.1.1(1)(a)		APPLICATION OF CHAPTER 5		
	Exempt <i>CAD</i> firms	OPS Firms (see Note 1 below)	Non-OPS Life Offices and Non-OPS Local Authorities	Individuals admitted to membership collectively
Financial resources rules				
5.2.1(1) to 5.2.7(5)	No (see Note 3 below)	No	No	Yes
Accounting records rules				
5.3.1(1) to 5.3.1(6)	No	Yes	Yes	Yes
	Individuals whose sole <i>investment business</i> is giving investment advice to institutional or corporate investors		<i>Firms</i> subject to “lead regulator arrangements”	All other <i>Firms</i>
Financial resources rules				
5.2.1(1) to 5.2.7(5)	No		No (see Note 2 below)	Yes

Accounting records rules

5.3.1(1) No Yes Yes
to
5.3.1(6)

Note 1. *Firms* are referred to the specific compliance reports for *OPS firms* required by Chapter 16 of the Supervision Manual.

Note 2. A *firm* subject to "lead regulator arrangements" whereby a body other than *the FCA* is responsible for its financial regulation shall comply with the corresponding financial resources rules and financial returns rules of that body, and a breach of such rules shall be treated as a breach of the rules of *the FCA*.

Note 3. The financial and nonfinancial resources rules for an *exempt CAD firm* are set out in *IPRU(INV)* chapter 9. However, rules 5.2.1(1) to 5.2.7(5) apply to an *exempt CAD firm* for the purpose of calculating its *own funds* (see *IPRU(INV)* 9.2.9R(2)(a)) (although the Category A items of Tier 1 capital as set out in Table 5.2.2(1) are replaced by all the items in *IPRU(INV)* 9.3.1R) and if it carries on any *regulated activity* other than *MiFID business* (see *IPRU(INV)* 9.2.3R).

INTERPRETATION

FCA R (c) The definitions in the glossary at Appendix 1 apply to this chapter.

5.2.1 GENERAL REQUIREMENT

Adequacy of financial resources

5.2.1(1) R A *firm* must at all times have available the amount and type of *financial resources* required by the *rules* in this chapter.

FCA

Basic requirement

5.2.1(2) R A *firm* must ensure that, at all times, its *financial resources* are not less than its *financial resources requirement*.

FCA

Financial resources

5.2.1(3) R A firm's financial resources means:

FCA

- (a) its *own funds*, if the *firm* is subject to an *own funds requirement* under rule 5.2.3(2); or
- (b) its *liquid capital*, if the *firm* is subject to a *liquid capital requirement* under paragraph (a) of rule 5.2.3(1).

(c) [deleted]

(d) [deleted]

5.2.2 FINANCIAL RESOURCES

Own funds

5.2.2(1) R A *firm* must calculate its *own funds* in accordance with Table 5.2.2(1).

FCA

Liquid capital

5.2.2(2) R A *firm* must calculate its *liquid capital* in accordance with Table 5.2.2(1).

FCA

5.2.3 FINANCIAL RESOURCES REQUIREMENT

Determination of requirement

5.2.3(1)(a) R The *financial resources requirement* for a *firm* is a *liquid capital requirement*, determined in accordance with paragraph (a) of rule 5.2.3(4), unless the *firm* falls within any of the exceptions in rule 5.2.3(2).

FCA

(b) R [deleted]

(c) R [deleted]

Exceptions from the liquid capital requirement

5.2.3(2) R The *financial resources requirement* is an *own funds requirement* determined in accordance with paragraph (a) of rule 5.2.3(3) for a *firm* if its *permitted business* does not include *establishing, operating or winding up a personal pension scheme* and which:

FCA

(i) is an *exempt CAD firm* which is also an *operator* of a *collective investment scheme* and that scheme only invests in *venture capital investments* for *non-retail clients*; or

(ii) is not an *exempt CAD firm* if:

(a) the *firm's permitted business* does not include the holding of *customers' monies* or assets and it neither executes transactions (or otherwise arranges deals) in *investments* nor has such transactions executed for itself or its *customers*; or

(b) the *firm's permitted business* includes the activities as in (a) above, but only in respect of *venture capital investments* for *non-retail clients*; or

- (c) the *firm* is a *trustee of an authorised unit trust scheme* whose *permitted business* consists only of trustee activities and does not include any other activity constituting *specified trustee business* or the *firm* is a *depository of an ICVC* whose *permitted business* consists only of *depository activities*.
- (d) the *firm's permitted business* limits it to acting as the *operator of a collective investment scheme* whose main purpose is to invest in *permitted immovables* whether in the *UK* or abroad.

Own funds requirement

5.2.3(3)(a) R The *own funds requirement* for a *firm* subject to rule 5.2.3(2) is:

FCA

- (i) £4,000,000 for a *firm* which is a *trustee of an authorised unit trust scheme* or a *depository of an ICVC*;
- (ii) £5,000 for any other *firm*.

(b) R [deleted]

Liquid capital requirement

5.2.3(4)(a) R The *liquid capital requirement* for a *firm* subject to paragraph (a) of rule 5.2.3(1) is the greater of:

FCA

- (i) £5,000; and
- (ii) its *total capital requirement* calculated in accordance with rule 5.2.3(5).

(b) R [deleted]

(c) R [deleted]

Total capital requirement

5.2.3(5) R A *firm's total capital requirement* is the sum of its:

FCA

- (a) *expenditure based requirement* calculated in accordance with Table 5.2.3(5)(a);
- (b) *position risk requirement* calculated in accordance with Table 5.2.3(5)(b);
- (c) *counterparty risk requirement* calculated in accordance with Table 5.2.3(5)(c);
- (d) *foreign exchange requirement* calculated in accordance

with Table 5.2.3(5)(d); and

(e) **other assets requirement** calculated in accordance with Table 5.2.3(5)(e).

- 5.2.3(6) G A *firm* which discloses clients' money or assets on its balance sheet need not calculate the requirements under paragraphs (b) to (e) of rule 5.2.3(5) on such items where these do not represent assets or liabilities of the *firm* itself.

FCA

5.2.4 ANNUAL EXPENDITURE

Determination

- 5.2.4(1) R **Annual expenditure** is:

FCA

- (a) the sum of the amounts described as total expenditure in the four *quarterly financial returns* up to (and including) that prepared at the *firm's* most recent *accounting reference date*, less the following items (if they are included within such expenditure):
- (i) staff bonuses, except to the extent that they are guaranteed;
 - (ii) *employees'* and *directors'* shares in profits, except to the extent that they are guaranteed;
 - (iii) other appropriations of profits;
 - (iv) shared commission and fees payable which are directly related to commission and fees receivable which are included within total revenue;
 - (v) interest charges in respect of borrowings made to finance the acquisition of the *firm's* *readily realisable investments*;
 - (vi) interest paid to *customers* on *client money*;
 - (vii) interest paid to counterparties;
 - (viii) fees, brokerage and other charges paid to clearing houses, exchanges and intermediate brokers for the purposes of executing, registering or clearing transactions;
 - (ix) foreign exchange losses; or
- (b) where the previous accounting period does not include twelve months' trading, an amount calculated in accordance with paragraph (a) above prorated to an equivalent annual amount; or

- (c) where a *firm* has not prepared four *quarterly financial returns* since the commencement of its *permitted business*, an amount based on forecast expenditure included in its budget for the first twelve months' trading, as submitted with its application for membership.

5.2.4(2) G A *firm's financial resources requirement* will be recalculated annually when its fourth *quarterly financial return* is prepared. The *firm* must maintain *financial resources* sufficient to meet its new *financial resources requirement* from the date on which the fourth *quarterly financial return* is prepared and no later than 80 business days after the *firms' accounting reference date*. The *expenditure based requirement* applicable at the *accounting reference date* will be based on the four *quarterly financial returns* prepared up to and on that date.

FCA

5.2.4(3) R [deleted]

5.2.5 QUALIFYING SUBORDINATED LOANS

Characteristics of Long Term Qualifying Subordinated Loans

5.2.5(1) R A long term *qualifying subordinated loan* (item 11 of Table 5.2.2(1)) must have the following characteristics:

FCA

- (a) the loan is repayable only on maturity or on the expiration of a period of notice in accordance with paragraph (c) below or on the winding up of the *firm*;
- (b) in the event of the winding up of the *firm*, the loan ranks after the claims of all other creditors and is not to be repaid until all other debts outstanding at the time have been settled;
- (c) either:
- (i) the minimum original maturity of the loan is 5 years; or
- (ii) the loan does not have a minimum or fixed maturity but requires 5 years notice of repayment; and
- (d) the loan is fully paid-up.

Amount allowable in the calculation of own funds

5.2.5(2) R A *firm* may only take into account the paid-up amount of a long term *qualifying subordinated loan* in the calculation of its *own funds*. This amount must be amortised on a straight-line basis over the five years prior to the date of repayment.

FCA

Requirements applicable to short-term qualifying subordinated loans

5.2.5(3)(a) R A short term *qualifying subordinated loan* (item 15 of Table 5.2.2(1)) must have the characteristics set out in rule 5.2.5(1) save

FCA that the minimum period set out in paragraph (c) of rule 5.2.5(1) shall be two years.

(b) **R** A firm must not make any payment of principal or interest which would result in a breach of rule 5.2.1(2).

Form of qualifying subordinated loan agreement

5.2.5(4) **R** A qualifying subordinated loan must be in the form prescribed by the FCA for the purposes of this rule.

FCA

5.2.5(5) **G** Firms wishing to initiate a subordinated loan agreement other than in the prescribed form are advised to contact the FCA.

FCA

Conditions applicable to qualifying subordinated loans

5.2.5(6) **R** A firm wishing to include a qualifying subordinated loan in its calculation of liquid capital must:

FCA

- (a) provide the FCA with a copy of the agreement not less than 10 business days before the loan is to be made; and
- (b) certify to the FCA that the loan agreement complies with the FCA's prescribed subordinated loan agreement.

Requirements on a firm in relation to qualifying subordinated loans

5.2.5(7) **R** A firm including a qualifying subordinated loan in its calculation of liquid capital must not:

FCA

- (a) secure all or any part of the loan;
- (b) redeem, purchase or otherwise acquire any of the liabilities of the borrower in respect of the loan;
- (c) amend or concur in amending the terms of the loan agreement;
- (d) repay all or any part of the loan otherwise than in accordance with the terms of the loan agreement; or
- (e) take or omit to take any action whereby the subordination of the loan or any part thereof might be terminated, impaired or adversely affected.

5.2.6 QUALIFYING PROPERTY AND QUALIFYING UNDERTAKINGS

Qualifying property and qualifying amount defined

5.2.6(1) **R** Qualifying property is any freehold or leasehold (or the equivalent tenure in Scotland or other territories) land and buildings purchased or secured by way of a mortgage (or other

FCA

form of secured long-term arrangement) where the security for the liability is the property (and does not include any other allowable assets). The *qualifying amount* is the lowest of:

- (a) 85 per cent of the current market value of the property (if known);
- (b) 85 per cent of the net book value of the property;
- (c) the amount of the liability outstanding under mortgage or other secured long term arrangement, excluding any part of the liability repayable within one year.

5.2.6(2) G Rule 5.2.6(1) can be illustrated as follows:

FCA

Current market value	£200,000
Net book value	£100,000
Mortgage	£70,000, including £5,000 payable within one year

Qualifying amount is the lowest of:

- (a) $85\% \times £200,000 =$ £170,000
- (b) $85\% \times £100,000 =$ £85,000
- (c) $£70,000 - £5,000 =$ £65,000

i.e. £65,000

Qualifying undertakings

5.2.6(3) R **A *qualifying undertaking* is an arrangement between a *firm* and an *approved bank* which:**

FCA

- (a) **is in the form prescribed by *the FCA* for the purposes of this rule; and**
- (b) **complies with the appropriate limitations set out in paragraph (7) of Part II to Table 5.2.2(1).**

TABLE 5.2.2(1) CALCULATION OF OWN FUNDS AND LIQUID CAPITAL

FCA

PART I

METHOD OF CALCULATION

A firm must calculate its *own funds* and *liquid capital* as shown below, subject to the detailed requirements set out in Part II.

Financial resources	Category	Part II Para
Tier 1		
(1) Paid-up share capital (excluding preference shares)	A	2
(1A) <i>Eligible LLP members' capital</i>		
(2) Share premium account		
(3) Reserves		2A
(4) Non-cumulative preference shares		
Less: (5) Investments in own shares	B	
(6) Intangible assets		3
(7) Material current year losses		4
(8) Material holdings in credit and financial institutions and, for <i>exempt CAD firms</i> only, <i>material insurance holdings</i> .		5 and 5A
(8A) <i>Excess LLP members' drawings</i>		
Tier 1 capital = (A-B)	C	
Plus: TIER 2		1
(9) Revaluation reserves	D	
(10) Fixed term cumulative preference share capital		1(a)
(11) Long-term Qualifying Subordinated Loans		1(a); 6
(12) Other cumulative preference share capital and debt capital but, for <i>exempt CAD firms</i> , only perpetual cumulative preference share capital and <i>qualifying capital instruments</i>		6A
(13) Qualifying arrangements		7
"Own Funds" = (C+D)	E	
Plus: TIER 3		
(14) Net trading book profits	F	1(b)(i); 8
(15) Short-term Qualifying Subordinated Loans and excess Tier 2 capital		1(b)(ii); 1(c); 9
Less:(16) Illiquid assets	G	10
Add:(17) Qualifying Property		11
"Liquid Capital" = (E+F+G)		

PART II

DETAILED REQUIREMENTS

1 Deductions and Ratios (Items 10, 11 and 15)

- (a) Notwithstanding Table 5.2.2(1) for an *exempt CAD firm*, in calculating *own funds*, all of Item 8 must be deducted after the total of Tier 1 and Tier 2 capital and the following restrictions apply:
- (i) the total of fixed term cumulative preference shares (item 10) and long-term *qualifying subordinated loans* (item 11) that may be included in Tier 2 capital is limited to 50 per cent of Tier 1 capital;
 - (ii) Tier 2 capital must not exceed 100 per cent of Tier 1 capital.
- (b) [deleted]
- (c) A *firm* which is not an *exempt CAD firm* and which is subject to a *liquid capital requirement* under rule 5.2.3(1)(a) may take into account *qualifying subordinated loans* in the calculation of *liquid capital* up to a maximum of 400% of its Tier 1 capital.

2 Non corporate entities

- (a) In the case of partnerships or sole traders, the following terms should be substituted, as appropriate, for items 1 to 4 in Tier 1 capital:
- (i) partners' capital accounts (excluding loan capital);
 - (ii) partners' current accounts (excluding unaudited profits and loan capital);
 - (iii) proprietors' account (or other term used to signify the sole trader's capital but excluding unaudited profits).
- (b) Loans other than *qualifying subordinated loans* shown within partners' or proprietors' accounts must be classified as Tier 2 capital under item 12.
- (c) For the calculation of *own funds*, partners' current accounts figures are subject to the following adjustments in respect of a *defined benefit occupational pension scheme*:
- (i) a *firm* must derecognise any *defined benefit asset*;
 - (ii) a *firm* may substitute for a *defined benefit liability* the *firm's deficit reduction amount*. The election must be applied consistently in respect of any one financial year.

Note

A *firm* should keep a record of and be ready to explain to its supervisory contacts in the *FCA* the reasons for any difference between the *deficit reduction amount* and any commitment the *firm* has made in any public document to provide funding in respect of a *defined benefit occupational pension scheme*.

2A Reserves

For the calculation of *own funds* the following adjustments apply to the audited reserves figure:

- (a) a *firm* must deduct any unrealised gains or, where applicable, add back in any unrealised losses on cash flow hedges of financial instruments measured at cost or amortised cost;
- (b) in respect of a defined benefit occupational pension scheme, a firm must derecognise any defined benefit asset;
- (c) a *firm* may substitute for a *defined benefit liability* the *firm's deficit reduction amount*. The election must be applied consistently in respect of any one financial year

Note 1

A *firm* should keep a record of and be ready to explain to its supervisory contacts in the *FCA* the reasons for any difference between the *deficit reduction amount* and any commitment the *firm* has made in any public document to provide funding in respect of a *defined benefit occupational pension scheme*.

- (d) a *firm* must not include any unrealised gains from investment property.

Note

Unrealised gains from investment property should be reported as part of revaluation reserves.

- (e) where applicable, a *firm* must deduct any asset in respect of deferred acquisition costs and add back in any liability in respect of deferred income (but exclude from the deduction or addition any asset or liability which will give rise to future cash flows), together with any associated deferred tax.

Note 2

Reserves must be audited unless the *firm* is exempt from the provisions of Part VII of the Companies Act 1985 (section 249A (Exemptions from audit)), or where applicable, Part 16 of the Companies Act 2006 (section 477 (Small companies: Conditions for exemption from audit)) relating to the audit of accounts.

3 Intangible assets (Item 6)

Intangible assets comprise:

- (a) formation expenses to the extent that these are treated as an asset in the *firm's* accounts;
- (b) goodwill, to the extent that it is treated as an asset in the *firm's* accounts; and
- (c) other assets treated as intangibles in the *firm's* accounts.

Intangible assets do not include a deferred acquisition cost asset.

4. Material current year losses (Item 7)

Losses in current year operating figures must be deducted when calculating Tier 1 capital if such losses are material. For this purpose profits and losses must be calculated quarterly or monthly, as appropriate. If this calculation reveals a net loss it shall only be deemed to be material for the purposes of this Table if it exceeds 10 per cent of the *firm's* Tier 1 capital.

5 Material holdings in credit and financial Institutions (Item 8)

Material holdings comprise:

- (a) where the *firm* holds more than 10 per cent of the equity share capital of the institution, the value of that holding and the amount of any subordinated loans to the institution and the value of holdings in *qualifying capital items* or *qualifying capital instruments* issued by the institution;
- (b) in the case of holdings other than those mentioned in (a) above, the value of holdings of equity share capital in, and the amount of subordinated loans made to, such institutions and the value of holdings in *qualifying capital items* or *qualifying capital instruments* issued by such institutions to the extent that the total of such holdings and subordinated loans exceeds 10 per cent of the *firm's own funds* calculated before the deduction of item 8.

5A Material insurance holdings (Item 8)

- (a) A *material insurance holding* means the holdings of an *exempt CAD firm* of items of the type set out in (b) in any:
 - (i) *insurance undertaking*; or
 - (ii) *insurance holding company*;that fulfils one of the following conditions:
 - (iii) it is a *subsidiary undertaking* of that *firm*; or
 - (iv) that *firm* holds a participation in it
- (b) An item falls into this provision for the purpose of (a) if it is:
 - (i) an *ownership share*; or
 - (ii) subordinated debt or another item of capital that falls into Article 16(3) of the *First Non-Life Directive* or, as applicable, Article 27(3) of the *Consolidated Life Directive*.

6 Long term *qualifying subordinated loans* (Item 11)

Loans having the characteristics prescribed by rule 5.2.5(1) may be included in item 11, subject to the limits set out in paragraph (1) above.

6A Perpetual cumulative preference share capital

Perpetual cumulative preference share capital may not be included in the calculation of *own funds* by an *exempt CAD firm* unless it meets the following requirements:

- (a) it may not be reimbursed on the holder's initiative or without the prior agreement of the *FCA*;
- (b) the instrument must provide for the *firm* to have the option of deferring the dividend payment on the share capital;
- (c) the shareholder's claims on the *firm* must be wholly subordinated to those of all non-subordinated creditors;
- (d) the terms of the instrument must provide for the loss-adsorption capacity of the share capital and unpaid dividends, whilst enabling the *firm* to continue its business; and

7 Qualifying arrangements (Item 13)

- (e) it must be fully paid-up.
- (a) An *exempt CAD firm* may only include a *qualifying undertaking* or other arrangement in item 13 if it is a *qualifying capital instrument* or a *qualifying capital item*.
- (b) A *firm* which is not an *exempt CAD firm* may only include *qualifying undertakings* in its calculation of *liquid capital* if:
 - (i) it maintains *liquid capital* equivalent to 6/52 of its *annual expenditure* in a form other than *qualifying undertakings*; and
 - (ii) the total amount of all *qualifying undertakings* plus *qualifying subordinated loans* does not exceed the limits set out in paragraph (1)(c) above.

8 Net trading book profits (Item 14)

For *firms* which are not *exempt CAD firms* unaudited profits can be included at item 14.

Note

Non-trading book interim profits may only be included in Tier 1 of the calculation if they have been independently verified by the *firm's* external auditors, unless the *firm* is exempt from the provisions of Part VII of the Companies Act 1985 (section 249A (Exemptions from audit)), or where applicable, Part 16 of the Companies Act 2006 (section 477 (Small companies: Conditions for exemption from audit)) relating to the audit of accounts.

For this purpose, the external auditor should normally undertake at least the following:

- (a) satisfy himself that the figures forming the basis of the interim profits have been properly extracted from the underlying accounting records;
- (b) review the accounting policies used in calculating the interim profits so as to obtain comfort that they are consistent with those normally adopted by the *firm* in drawing up its annual financial statements;
- (c) perform analytical review procedures on the results to date, including comparisons of actual performance to date with budget and with the results of prior periods;
- (d) discuss with management the overall performance and financial position of the *firm*;
- (e) obtain adequate comfort that the implications of current and prospective litigation, all known claims and commitments, changes in business activities and provisions for bad and doubtful debts have been properly taken into account in arriving at the interim profits; and
- (f) follow up problem areas of which the auditors are already aware in the course of auditing the *firm's* financial statements.

A *firm* wishing to include interim profits in Tier 1 capital in a *financial return* should submit to *the FCA* with the *financial*

return a verification report signed by its external auditor which states whether the interim results are fairly stated, unless the *firm* is exempt from the provisions of Part VII of the Companies Act 198 (section 249A (Exemptions from audit)), or where applicable, Part 16 of the Companies Act 2006 (section 477 (Small companies: Conditions for exemption from audit)) relating to the audit of accounts.

Profits on the sale of capital items or arising from other activities which are not directly related to the *investment business* of the *firm* may also be included within the calculation of *liquid capital*, but (unless the firm is exempt as above) only if they can be separately verified by the *firm's* auditors. In such a case, such profits can form part of the *firm's* Tier 1 capital as profits.

9 Short term qualifying subordinated loans (Item 15)

Loans having the characteristics prescribed by rule 5.2.5(3) may be included in item 15 subject to the limits set out in paragraph (1) above. Tier 2 capital which exceeds the ratios prescribed by paragraph (1)(a) and (b) may be included in item 15 subject to paragraph (1) above.

10 Illiquid assets (Item 16)

Illiquid assets comprise:

- (a) tangible fixed assets;

Note

In respect of tangible fixed assets purchased under finance leases the amount to be deducted as an illiquid asset shall be limited to the excess of the asset over the amount of the related liability shown on the balance sheet.

- (b) holdings in, including subordinated loans to, *credit* or *financial institutions* which may be included in the *own funds* of such *institutions* unless they have been deducted under item 8;
- (c) any *investment* in undertakings other than *credit institutions* and other *financial institutions* where such *investments* are not readily realisable;
- (d) any deficiency in net assets of a *subsidiary*;
- (e) deposits not available for repayment within 90 days or less (except for payments in connection with margined futures or options contracts);

Note

Where cash is placed on deposit with a maturity of more than 90 days but is repayable on demand subject to the payment of a penalty, then this is not required to be deducted as an illiquid asset but a deduction is required for the amount of the penalty.

- (f) loans, other debtors and accruals not falling due to be repaid within 90 days or which are more than one month overdue by reference to the contractual payment date;
- (g) physical stocks (except where subject to the *position risk requirement* as set out in Table 5.2.3(5)(b)); and
- (h) prepayments to the extent that the period of prepayment exceeds six weeks in the case of a

firm subject to the 6/52 *expenditure based requirement* or thirteen weeks in the case of a *firm* subject to the 13/52 *expenditure based requirement* or where a *firm* is required to meet the requirement in rule 5.2.3(4)(c)(i).

- (i) if not otherwise covered, any holding in eligible capital instruments of an insurance undertaking, insurance holding company, or reinsurance undertaking that is a *subsidiary* or *participation*. Eligible capital instruments include ordinary share capital, cumulative preference shares, perpetual securities and long-term subordinated loans, that are eligible for insurance undertakings under PRU 2.

Illiquid assets do not include a *defined benefit asset* or a deferred acquisition cost asset.

11 Qualifying property (Item 17)

This item comprises the qualifying amount calculated in accordance with rule 5.2.6(1).

Table 5.2.3(3)(b)

[deleted]

Table 5.2.3(5)(a) EXPENDITURE BASED REQUIREMENT

FCA

PART I

CALCULATION OF REQUIREMENT

A *firm's expenditure based requirement* is a fraction of its *annual expenditure* determined in accordance with Part II of this Table.

PART II

FRACTIONS

1: The fraction is 6/52 where:

- (a) the *firm* is an *authorised unit trust manager*, or
(b) the *firm* acts only as an *authorised corporate director* of an *ICVC*; or
(c) the *firm* is an *investment manager* (including the *operator* of an *unregulated collective investment scheme* in relation to which the *firm* carries on the activity of an *investment manager*), unless paragraph 2 applies.

2: The fraction is 13/52 where the *firm* is an *investment manager* as in paragraph 1(c) above, or is a *custodian*, and the *firm* either:

- (a) itself holds *customers' monies* or assets; or
(b) procures the appointment as *custodian* of its *customers' monies* or assets of an *associate* of the *firm* which is not an *approved bank*.

Note: Paragraph 1(a) above includes a *firm* which acts as both an *authorised unit trust manager* and as an *authorised corporate director* of an *ICVC*.

Table 5.2.3(5)(b) POSITION RISK REQUIREMENT

FCA

PART I

CALCULATION OF REQUIREMENT

A *firm's* position risk requirement is determined by calculating on a daily mark to market basis, the sum of the weighted value of each position held by the *firm*. The weighted value for each position must be calculated by multiplying its current market value by the appropriate factor set out in Part II.

Note: This requirement does not attach to items deducted in full as illiquid assets.

PART II

WEIGHTINGS

Instrument	Requirement			
A Debt	Maturity	<i>0-2 years</i>	<i>2-5 years</i>	<i>>5 years</i>
Central Government		2%	5%	13%
Qualifying debt securities				
• fixed rate		8%	8%	15%
• floating rate		10%	10%	15%
Non-qualifying debt securities				
• fixed rate		10%	20%	30%
• floating rate		30%	30%	30%
B Equities				
• Traded on a recognised or designated investment exchange.	25%			
• other	100%			
C Stock position in physical commodities				
• Physical positions associated with <i>firm's investment business</i>	30% of realisable value			
D Derivatives				
• Exchange traded futures and written options	4 x initial margin requirement.			
• otc futures and written options	Apply the appropriate percentage shown in Sections A, B, & C above to the market value of the underlying position.			
• Purchased options	Apply the appropriate percentage shown in Sections A, B & C above to the market value of the underlying position but the result may be limited to the market value of the option.			
• Contracts for differences	20% of the market value of the contract.			
E Other investments				
• units in regulated collective investment schemes	25% of realisable value (see Section F).			

- with profit life policies 20% of surrender value.
- other 100% of the value of investment or underlying instrument.

F Determination of disallowed value of units

The disallowed value of units held in a *UCITS management company's* box is the difference between:

(a) the amount at which stocks of units in the box are valued in the balance sheet; and

(b) the adjusted value of the units, being the value of the units calculated at cancellation prices less the value calculated at cancellation prices of the units multiplied by the following percentages based on the types of *investments* in the individual *UCITS schemes*:

Quoted, fixed or floating rate interest bearing securities: 3%

Equities:

USA, Japan, Canada	5%
Europe	6%
Far East and other	10%

Note

This can be illustrated as follows: 100 units, comprising Far East equities, with unit cancellation price of 100 pence.

	£	£
Balance sheet value		104
Value of cancellation price	100	
Less £100 x 10%	10	90
		14
Disallowed		14

Note

The percentages in the requirement column are applied to the market value (unless otherwise stated) of gross positions i.e. both longs and shorts in each category; netting and offsetting are prohibited. The long or short position in a particular instrument is the net of any long or short positions held in that same instrument.

Table 5.2.3(5)(c) COUNTERPARTY RISK REQUIREMENT (CRR)

FCA

1	Receivables	<p>In the case of receivables due to the <i>firm</i> in the form of fees, commission, interest, dividends and margin in exchange-traded futures or options contracts, which are directly related to items included in the <i>trading book</i>, the CRR is calculated as follows:</p> <p>CRR = A x RF, where</p> <p>A = the amount of the sum due; and</p> <p>RF = the appropriate risk factor derived from Table 5.2.3(5)(c)(ii).</p> <p>Note</p> <p>This requirement attaches only to balances arising from proprietary activity falling within the definition of the <i>trading book</i>.</p> <p>Note</p> <p>This requirement does not attach to items deducted in full as illiquid assets.</p>
2	Delivery of cash against documents	<p>Where a <i>firm</i> enters into a <i>trading book</i> transaction and the transaction is to be settled by delivery of cash against documents, the <i>firm's</i> CRR in respect of that transaction is calculated as follows:</p> <p>CRR = (SP – MV) x RF, where</p> <p>SP = agreed settlement price;</p> <p>MV = current market value;</p> <p>RF = the appropriate risk factors derived from Table 5.2.3(5)(c)(i).</p> <p>The CRR should only be calculated where the difference between SP and MV would involve a loss if borne by the <i>firm</i>.</p>
3	Free deliveries	<p>Where a <i>firm</i> enters into a <i>trading book</i> transaction and the <i>firm</i> pays for the securities before it receives documents of title or delivers documents of title before receiving payment, the CRR in respect of that transaction is calculated as follows:</p> <p>CRR = V x RF, where</p> <p>V =</p> <ul style="list-style-type: none"> (i) the full amount due to the <i>firm</i> (i.e. the contract value) where the <i>firm</i> has delivered securities to a counterparty and has not received payment; or (ii) the market value of the securities, where the <i>firm</i> has made payment to a counterparty for securities and has not received documents of title; and <p>RF = the appropriate risk factor derived from Table 5.2.3(5)(c)(ii).</p>
4	Settlement outstanding 30 days or more	<p>In the case of trading book transactions entered into by a <i>firm</i> where the <i>firm</i> pays for the securities before it receives documents of title or delivers documents of title before receiving payment and settlement has not been effected within 30 days of</p>

5 Repos/Stock Lending and Reverse Repos/Stock Borrowing

falling due, $CRR = V$.

Where a *firm* enters into a transaction based on securities included in the trading book under the terms of a repurchase agreement or a securities lending agreement the *firm's* CRR in respect of that transaction is calculated as follows:

$CRR = V \times RF$, where

RF = the appropriate risk factor derived from Table 5.2.3(5)(c)(ii); and

for repos/stock lending:

V = the excess of the market value of the securities over the value of the collateral provided under the agreement, if the net figure is positive; or

for reverse repos/stock borrowing:

V = the excess of the amount paid or the collateral given for the securities received under the agreement, if the net figure is positive.

6 otc derivatives

In the case of a transaction entered into by a *firm* as principal in an *otc derivative* the CRR is calculated as follows:

$CRR = A \times RF$, where

A = the appropriate credit equivalent amount derived from Table 5.2.3(5)(c)(iii); and

RF = the appropriate risk factor derived from Table 5.2.3(5)(c)(ii).

This calculation shall not apply to contracts for interest rate and foreign exchange which are traded on a *recognised investment exchange* or *designated investment exchange* where they are subject to a daily margin requirement and foreign exchange contracts with an original maturity of 14 calendar days or less.

A *firm* may net off contracts with the same counterparty in the same *otc derivative* contract for settlement on the same date in the same currency provided that the *firm* is legally entitled under the terms of the contracts with such a counterparty to net such contracts by novation.

Table 5.2.3(5)(c)(i) COUNTERPARTY RISK FACTOR – CASH SETTLEMENTS

Number of working days after due settlement date	FCA	Risk Factor
0-4		0%
5-15		8%
16-30		50%
31-45		75%
46 or more		100%

Table 5.2.3(5)(c)(ii) COUNTERPARTY RISK REQUIREMENT

		FCA		
Type of <i>counterparty</i>		Risk Weighting	Solvency Ratio	Risk Factor
1	A counterparty which is, or the contract of which is, explicitly guaranteed by a <i>category a body</i> .	NIL	8%	NIL
2	A counterparty which is, or the contract of which is, explicitly guaranteed by a <i>category b body</i> .	20%	8%	1.6%
3	Any other counterparty.	100%	8%	8%

Table 5.2.3(5)(c)(iii) OTC DERIVATIVES CALCULATION OF CREDIT EQUIVALENT AMOUNT

- FCA
- A** By attaching current market values to contracts (marking to market), obtain the current replacement cost of all contracts with positive values.
- B** To obtain a figure for potential future credit exposure, the notional principal amounts or values underlying the firm's aggregate positions are multiplied by the following percentages:
- | Residual Maturity | Interest-Rate Contracts | Foreign-Exchange Contracts |
|-------------------|-------------------------|----------------------------|
| One year or less | nil | 1% |
- C** The credit equivalent amount is the sum of current replacement cost and potential future credit exposure.

Note

Except in the case of single-currency "floating/floating interest rate" swaps in which only the current replacement cost will be calculated, bought OTC equity options and covered warrants shall be subject to the treatment accorded to exchange rate contracts.

Table 5.2.3(5)(d) FOREIGN EXCHANGE REQUIREMENT

- FCA
- Calculation of Requirement**
- (1) A firm's *foreign exchange requirement* is determined by calculating the excess of its *foreign exchange position* (FEP) above 2 per cent of its *own funds* and multiplying this excess by 8 per cent.
- (2) The FEP is the greater of:
- (a) the total in the *reporting currency* of the net short positions in each currency other than the *reporting currency*; and
 - (b) the total in the *reporting currency* of the net long positions in each currency other than the *reporting currency*;

where the conversion to the *reporting currency* is performed using spot rates.

Note

For this purpose, long and short positions in the same currency can be netted to produce the net position.

(3) In calculating the FEP, a *firm* must include relevant *foreign exchange items*.

EXCHANGE POSITION FOR HEDGING PURPOSES

Any positions which the *firm* has taken in order to hedge against the adverse effect of exchange rates on an item already deducted in the calculation of *liquid capital* may not be excluded from the calculation of net open currency positions

Table 5.2.3(5)(e) OTHER ASSETS REQUIREMENT

FCA

PART I

CALCULATION OF REQUIREMENT

The requirement to be met in respect of the assets set out in Part II of this Table, other than those to which *position risk requirements* and *counterparty risk requirements* apply or which have been deducted in full as illiquid assets, and in respect of off-balance sheet items set out in Part II of this Table, must be calculated as follows:

A = AV x RF where

A = the amount of the requirement;

AV = the current asset value; and

RF = the appropriate risk factor derived from Part II of this Table.

PART II

RISK FACTORS

Assets and Off-Balance Sheet Items	Risk Factor
---	--------------------

Assets

Cash at bank and in hand and equivalent items	NIL
---	-----

Assets secured by acceptable collateral including deposits and certificates of deposit with lending institutions

Amount due from trustees of authorised unit trusts	NIL
--	-----

Note

This only applies to *firms* who are *authorised unit trust managers* in relation to authorised unit trusts they manage.

Amount due from <i>depositaries of ICVCs</i>	NIL
--	-----

Note

This only applies to *firms* who are *authorised corporate directors* in relation to *ICVCs* they operate

Other receivables due from or explicitly guaranteed by or deposits with <i>category a bodies</i>	NIL
--	-----

Other receivables due from or explicitly guaranteed by or deposits with <i>category b bodies</i>	1.6%
--	------

Pre-payments and accrued income (See paragraph 10 of Part II of Table 5.2.2(1))	8%
Defined benefit asset	NIL
Deferred acquisition cost asset	NIL
All other assets	8%

OFF-BALANCE SHEET ITEMS

Full Risk Items e.g.

Charges granted against assets 8% x counterparty weight (see Table 5.2.3(5)(c)(ii))

Guarantees given

Medium Risk Items e.g.

Undrawn credit facilities granted by the *firm* with an original maturity of more than one year 4% x counterparty weight (see Table 5.2.3(5)(c)(ii))

Low Risk Items e.g.

Undrawn credit facilities granted by the *firm* with an original maturity of one year or less NIL

Note

- (1) In determining the appropriate *other assets requirement* (OAR) for guarantees given in a group context, a *firm* should follow the calculation below:
 - (a) Categorise the guarantee agreements into:
 - (i) those with the character of credit substitutes; or
 - (ii) those not having the character of credit substitutes; or
 - (iii) agreements to provide guarantees.
 - (b) Calculate the weighted value.
 - (i) For guarantees falling under (1)(a)(i), the weighted value will be 100% of the estimated current year liability under the guarantee.
 - (ii) For guarantees falling under (1)(a)(ii) the weighted value will be 50% of the estimated current year liability under the guarantee.
 - (iii) For guarantees falling under (1)(a)(iii), the weighted value will be nil.
 - (c) The OAR is calculated as:
Weighted value x 8% x counterparty weighting (Table 5.2.3(5)(c)(ii))
- (2) For the purpose of this requirement, in assessing whether the guarantee has the characteristics of a credit substitute the following factors should be considered:
 - (a) do the agreements allow for periodic or ad-hoc calling of funds;
 - (b) have the guarantees been drawn upon on a regular basis;
 - (c) do *firms* in the group rely on such guarantees to meet their working capital or regulatory capital requirements.
- (3) Where a *firm* is part of a group including other *FCA* regulated entities which together have entered into cross group guarantee arrangements which give rise to an OAR, the estimate of the potential liability under the guarantee may be apportioned between the regulated entities for the purpose of calculating each *firm's* OAR.

FCA

Glossary of terms for Chapter 5 (Former IMRO Firms)

The following words or terms throughout Chapter 5 are to have the meanings given to them below if not inconsistent with the subject or context. If a defined term does not appear in the IPRU(INV) 5 glossary below, the definition appearing in the main Handbook *Glossary* applies.

Term	Meaning
<i>accounting reference date</i>	means: (a) the date to which a <i>firm's</i> accounts are prepared in order to comply with the relevant Companies Act legislation. In the case of a firm not subject to Companies Act legislation, the equivalent date selected by the <i>firm</i> ; and (b) in the case of an <i>OPS firm</i> which is not subject to the relevant Companies Act legislation, the date to which the accounts of the <i>OPS</i> in respect of which the <i>firm</i> acts are prepared.
<i>admission procedures</i>	means the procedures set out in the Authorisation Manual together with any other procedures which the <i>Board</i> resolves, either generally or in relation to any specific case, should apply to the admission of <i>firms</i> and the admission of <i>approved persons</i> .
<i>annual accounts</i>	means accounts prepared to comply with relevant Companies Act legislation and their equivalent in Northern Ireland or other statutory obligations.
<i>Annual expenditure</i>	has the meaning given in rule 5.2.4(1) (Determination).
<i>authorised unit trust manager</i>	means the manager of an <i>authorised unit trust scheme</i> .
<i>best execution</i>	in relation to the effecting of a transaction, means the effecting of that transaction in compliance with <i>COBS 11.2</i> .
<i>Board</i>	means the board of <i>directors</i> of the <i>FCA</i> or any duly authorised committee of such board.
<i>category a body</i>	means: (a) the government or central bank of a <i>zone a country</i> ; or (b) <i>EU</i> or Euratom (the European Atomic Energy Community); or (c) the government or central bank of any other country, provided the receivable in question is denominated in that country's national currency.
<i>category b body</i>	means: (a) the <i>EIB</i> or a multi-lateral development bank; or (b) the regional government or local authority of a <i>zone a country</i> ; or

- (c) an *investment firm* or *credit institution* authorised in a *zone* a *country*; or
- (d) a *recognised clearing house* or *exchange*; or
- (e) an *investment firm* or *credit institution* authorised in any other country, which applies a financial supervision regime at least equivalent to the *Capital Adequacy Directive*.

Client Money Rules CASS 4.1 to 4.3.

company means a *body corporate* or an unincorporated association and, where the context permits, includes a partnership.

compliance officer means the individual from time to time appointed by a *firm* as responsible for compliance matters.

connected company and connected credit institution means, in relation to a *firm* which:

- (a) is a *body corporate*, a *body corporate* or *credit institution* satisfying any of the following conditions:
 - (i) the same person is the *controller* of each *body corporate* or *credit institution*; or
 - (ii) if a *group* of two or more persons are *controllers* of each *body corporate* or *credit institution*, the *group* either consists of the same persons or could be regarded as consisting of the same persons by treating a member of either *group* as replaced by:
 - (A) that member's *close relative*; or
 - (B) a person with whom the member is in partnership; or
 - (C) a *body corporate* of which the member is an officer; or
 - (iii) both *bodies corporate* are members of the same *group*; or
- (b) is not a *body corporate* or *credit institution* which is controlled:
 - (i) by the *firm*; or
 - (ii) by a partner in the *firm*; or
 - (iii) by a *close relative* or partner in the *firm* or, if the *firm* is a sole trader, by a *close relative* of the sole trader; or
 - (iv) collectively by any of the partners in the *firm* or their *close relatives*.

controller (as defined in section 422 of the *Act* (Controller))

in relation to a *firm* or other undertaking ("A"), means a person who:

- (a) holds 10% or more of the *shares* in A; or
- (b) is able to exercise significant influence over the management of A by virtue

of his shareholding in A; or

- (c) holds 10% or more of the *shares* in a parent undertaking ("P") of A; or
- (d) is able to exercise significant influence over the management of P by virtue of his shareholding in P; or
- (e) is entitled to exercise, or control the exercise of, 10% or more of the voting power in A; or
- (f) is able to exercise significant influence over the management of A by virtue of his voting power in A; or
- (g) is entitled to exercise, or control the exercise of, 10% or more of the voting power in P; or
- (h) is able to exercise significant influence over the management of by virtue of his voting power in P.

and in this definition

- (A) "person" means:
 - (a) the person; or
 - (b) any of the person's *associates*; or
 - (c) the person and any of his *associates*.
- (B) "associate", in relation to a person (H) holding shares in an undertaking ("C") or entitled to exercise or control the exercise of voting power in relation to another undertaking ("D") means:
 - 1. the spouse of H
 - 2. a child or stepchild of H (if under 18);
 - 3. the trustee of any settlement under which H has a life interest in possession (or in Scotland a life interest);
 - 4. an undertaking of which H is a *director*;
 - (e) a person who is an *employee* or *partner* of H;
 - (f) if H is an undertaking:
 - (i) a *director* of H;
 - (ii) a *subsidiary* undertaking of H;
 - (iii) a *director* or *employee* of such a *subsidiary* undertaking; and
 - (g) if H has with any other person an agreement or arrangement with respect to the acquisition, holding or disposal of shares or other interests in C or D or under which they undertake to act together in exercising their voting power in relation to C or D, that other person;

- (a) "settlement" includes any disposition or arrangement under which property is held on trust (or subject to a comparable obligation);
- (b) "shares" means:
 - (a) in relation to an undertaking with a share capital, allotted shares;
 - (b) in relation to an undertaking with capital but no share capital, rights to share in the capital of the undertaking;
 - (c) in relation to an undertaking without capital, interests:
 - (i) conferring any right to share in the profits, or liability to contribute to the losses, of the undertaking; or
 - (ii) giving rise to any obligation to contribute to the debts or expenses of the undertaking in the event of a winding up.

corporate finance business means:

- (a) *designated investment business* carried on by a *firm* with or for:
 - (i) any issuer, holder or owner of *designated investments*, if that business relates to the offer, issue, underwriting, repurchase, exchange or redemption of, or the variation of the terms of, those *investments*, or any related matter;
 - (ii) any *eligible counterparty* or *professional client*, or other *body corporate*, partnership or supranational organisation, if that business relates to the manner in which, or the terms on which, or the persons by whom, any business, activities or undertakings relating to it, or any *associate*, are to be financed, structured, managed, controlled, regulated or reported upon;
 - (iii) any person in connection with:
 - (A) a proposed or actual *takeover or related operation* by or on behalf of that person, or involving investments issued by that person (being a *body corporate*), its *holding company*, *subsidiary* or *associate*; or
 - (B) a merger, de-merger, reorganisation or reconstruction involving any investments issued by that person (being a *body corporate*), its *holding company*, *subsidiary* or *associate*;
 - (iv) any shareholder or prospective shareholder of a *body corporate* established or to be established for the purpose of effecting a *takeover or related operation*, where that business is in connection with that *takeover or related operation*;
 - (v) any person who, acting as a *principal* for his own account:
 - (A) is involved in negotiations or decisions relating to the commercial, financial or strategic intentions or requirements of a business or prospective business; or

- (B) (provided he is acting otherwise than solely in his capacity as an investor) assists the interests of another person with or for whom the *firm*, or another *authorised person* or *overseas person*, is undertaking business as specified in (a)(i),(ii),(iii) or (iv), by himself undertaking all or part of any transactions involved in such business;
- (vi) any person undertaking business with or for a person as specified in (a)(i), (ii), (iii), (iv) or (v) in respect of activities described in those sub-paragraphs;
- (b) *designated investment business* carried on by a *firm* as a *principal* for its own account where such *business*:
 - (i) is in the course of, or arises out of, activities undertaken in accordance with (a); and
 - (ii) does not involve transactions with or for, or *advice* to, any other person who is a *retail client* in respect of such business;
- (c) *designated investment business* carried on by a *firm* as *principal* for its own account if such *business*:
 - (i) is in the course of, or arises out of
 - (A) the offer, issue, underwriting, repurchase, exchange or redemption of, or the variation of the terms of, shares, share warrants, *debentures* or debenture warrants issued by the *firm*, or any related matter; or
 - (B) a proposed or actual *takeover or related operation* by or on behalf of the *firm*, or involving shares, share warrants, *debentures* or debenture warrants issued by the *firm*; or
 - (C) a merger, de-merger, reorganisation or reconstruction involving any shares, share warrants, *debentures* or debenture warrants issued by the *firm*; and
 - (ii) does not involve giving *advice on investments* to any person who is a *retail client*;

in this definition, “share warrants” and “debenture warrants” means any *warrant* which relates to shares in the *firm* concerned or, as the case may be, *debentures* issued by the *firm*.

<i>counterparty</i>	means any person with or for whom a <i>firm</i> carries on <i>regulated business</i> or an <i>ancillary activity</i> .
<i>counterparty risk requirement</i>	has the meaning given in Table 5.2.3(5)(c) (Counterparty risk requirement).
<i>customer</i>	see the meaning given to the term in the <i>Glossary</i>
<i>customer investment</i>	means an <i>investment</i> , or a document of title or a certificate or other record evidencing title to an <i>investment</i> , (other than an <i>investment</i> falling within articles 83, 84 and 85 of the <i>RAO</i>) which is legally or beneficially owned by a <i>customer</i> of a <i>firm</i> .

<i>customer transaction</i>	does not include an <i>own account transaction</i> .
<i>EEA parent</i>	means a <i>firm's</i> direct or indirect <i>parent</i> which has its head office in the <i>EEA</i> .
<i>EIB</i>	means the European Investment Bank.
<i>expenditure based requirement</i>	means the requirement calculated in accordance with Table 5.2.3(5)(a) (Expenditure based requirement).
<i>finance officer</i>	means the most senior individual from time to time directly responsible for the <i>firm's</i> finances and for compliance with the requirements of the Supervision Manual.
<i>financial resources</i>	has the meaning given in rule 5.2.1(3) (Financial resources).
<i>financial resources requirement</i>	has the meaning given in rule 5.2.3(1) (a) to (c) (Determination of requirement).
<i>financial resources rules</i>	has the meaning given in rules 5.2.1 to 5.2.7.
<i>financial return</i>	means <i>quarterly financial return</i> or <i>monthly financial return</i> as the case may be.
<i>foreign exchange position</i>	has the meaning given in Table 5.2.3(5)(d) (Foreign exchange requirement).
<i>funds under management</i>	<p>(1) <i>collective investment schemes</i> other than <i>OEICs</i> managed by the <i>firm</i> including <i>schemes</i> where it has delegated the management function but excluding <i>schemes</i> that it is <i>managing as delegate</i>; and</p> <p>(2) <i>OEICs</i> for which the <i>firm</i> is the designated management company.</p>
<i>Group of connected counterparties</i>	<p>means:</p> <p>(a) two or more natural or legal persons who constitute a single risk because one of them, directly or indirectly, has <i>control</i> over the other or others; or</p> <p>(b) two or more natural or legal persons between whom there is no relationship of <i>control</i> as in (a) but who are to be regarded as constituting a single risk because they are so interconnected that, if one of them were to exercise financial problems, the other or all of the others would be likely to encounter difficulties in performing its or their obligations.</p>
<i>IADB</i>	means the Inter-American Development Bank.
<i>IBRD</i>	means the International Bank for Reconstruction and Development.
<i>IFC</i>	means the International Finance Corporation.
<i>investigation</i>	means an investigation authorised pursuant to the Enforcement Guide.
<i>investment</i>	means a <i>designated investment</i> .

<i>investment business</i>	means <i>designated investment business</i> .
<i>investment firm</i>	has the meaning given to <i>investment firm</i> in the main <i>Glossary</i> except that it excludes persons to which the <i>MIFID</i> does not apply as a result of articles 2 or 3 of <i>MIFID</i> . Note: An <i>investment firm</i> is not necessarily a <i>firm</i> for the purposes of the rules.
<i>investment management firm</i>	see the meaning given to the term in the <i>Glossary</i>
<i>investment manager</i>	means a person who, acting only on behalf of a <i>customer</i> , either: <ul style="list-style-type: none"> (a) manages an account or portfolio in the exercise of discretion; or (b) has accepted responsibility on a continuing basis for advising on the composition of the account or portfolio.
<i>investment services</i>	means activities undertaken in the course of carrying on <i>designated investment business</i> or undertaken as an <i>ISA manager</i> .
<i>ISA cash deposit</i>	means a cash deposit within Regulation 8 of the Individual Savings Account Regulations 1998 (SI 1998/1870) which is held within a cash component ISA.
<i>liquid capital</i>	has the meaning given in rule 5.2.2(1) (Calculation of own funds and liquid capital).
<i>liquid capital requirement</i>	has the meaning given in rule 5.2.3(4) (a) to (c) (Liquid capital requirement).
<i>marketable investment</i>	means: <ul style="list-style-type: none"> (a) an <i>investment</i> which is traded on or under the rules of an exchange; (b) a debt instrument which may be transferred without the consent of the issuer or any other person (including a collateralised mortgage obligation); (c) a commodity; (d) a <i>warrant</i>, option, future or other instrument which entitles the holder to subscribe for or acquire: <ul style="list-style-type: none"> (i) an <i>investment</i> or commodity in (a) to (c); or (ii) any currency; or (iii) any combination of (i) and (ii); (e) a contract for differences (including interest rate and currency swaps) relating to fluctuations in: <ul style="list-style-type: none"> (i) the value or price of an <i>investment</i> or commodity in (a) to (d); or (ii) any currency; or (iii) the rate of interest in any currency or any index of such rates; or

	(iv)	the level of any index which is derived from the prices of an <i>investment</i> or commodity in (a) to (c); or
	(v)	any combination of (i) to (iv);
	(f)	<i>warrants</i> , options, futures or other instruments entitling the holder to obtain the rights of those contracts in (d) or (e);
	(g)	a <i>unit</i> in a <i>regulated collective investment scheme</i> .
<i>marketing group</i>		means a group of persons:
	(a)	who are allied together (either formally or informally) for the purposes of marketing <i>packaged products</i> of the group; and
	(b)	each of whom, if it holds itself out in the UK as marketing any <i>packaged products to retail clients</i> , does so only as an <i>investment manager</i> or in relation to those of the <i>marketing group</i> .
<i>member state</i>		means a member state of the <i>EEA</i> .
<i>monthly financial return</i>		means the return referred to in the Supervision Manual.
<i>non-retail client</i>		means a <i>professional client</i> or an <i>eligible counterparty</i> .
<i>OPS or occupational pension scheme</i>		means any scheme or arrangement which is comprised in one or more instruments or agreements and which has, or is capable of having, effect in relation to one or more descriptions or categories of employment so as to provide benefits, in the form of pensions or otherwise, payable on termination of service, or on death or retirement, to or respect of earners with qualifying service in an employment of any such description or category.
<i>OPS activity</i>		see the meaning given to the term in the <i>Glossary</i>
<i>OPS firm</i>		means:
	(a)	a <i>firm</i> which:
	(i)	carries on <i>OPS activity</i> but not with a view to profit; and
	(ii)	is one or more of the following:
	(A)	a trustee of the <i>occupational pension scheme</i> in question;
	(B)	a <i>company</i> owned by the trustees of the <i>occupational pension scheme</i> in question;
	(C)	a <i>company</i> which is:
	(I)	an employer in relation to the <i>occupational pension scheme</i> in question in respect of its employees or former employees or their dependants; or
	(II)	a <i>company</i> within the <i>group</i> which includes an employer within (I); or

(III) an administering authority subject to the Local Government Superannuation Regulations 1986; or

- (b) a *firm* which:
- (i) has satisfied the requirements set out in (a) at any time during the past 12 *months*; but
 - (ii) is no longer able to comply with those requirements because of a change in the control or ownership of the employer referred to in (a)(ii) during that period.

<i>otc derivative</i>	means interest rate and foreign exchange contracts covered by Annex III to the previous version of the <i>Banking Consolidation Directive</i> (i.e. Directive (2000/12/EC) and off balance sheet contracts based on equities which are not traded on a <i>recognised</i> or <i>designated investment exchange</i> or other exchange where they are subject to daily margin requirements, excluding any foreign exchange contract with an original maturity of 14 calendar days or less.
<i>other assets requirement</i>	has the meaning given in Table 5.2.3(5) (e) (Other assets requirement).
<i>overseas person</i>	see the meaning given to the term in the <i>Glossary</i>
<i>own funds</i>	has the meaning given in rule 5.2.2(1) (Calculation of own funds and liquid capital).
<i>own funds requirement</i>	has the meaning given in rule 5.2.3(3) (a) (Own funds requirement).
<i>parent</i>	means any parent undertaking as defined in section 1162 of the Companies Act 2006 and any undertaking which effectively exercises a dominant influence over another undertaking.
<i>participation</i>	has the meaning given to the term in the <i>Glossary</i> .
<i>permitted business</i>	means <i>regulated activity</i> which a <i>firm</i> has <i>permission</i> to carry on.
<i>plan investment</i>	means an <i>investment</i> included in a <i>PEP</i> or in any <i>ISA</i> component.
<i>position risk requirement</i>	has the meaning given in Table 5.2.3(5)(b) (Position risk requirement).
<i>prescribed subordinated loan agreement</i>	means the subordinated loan agreement prescribed by the <i>appropriate regulator</i> for the purposes of rule 5.2.5(4).
<i>qualifying amount</i>	has the meaning given in the Supervision Manual.
<i>qualifying capital instrument</i>	means that part of a <i>firm's</i> capital which is a security of indeterminate duration, or other instrument, that fulfils the following conditions: <ul style="list-style-type: none">(a) it may not be reimbursed on the bearer's initiative or without the prior agreement of the <i>appropriate regulator</i>;(b) the debt agreement must provide for the <i>firm</i> to have the option of deferring the payment of interest on the debt;

- (c) the lender's claims on the *firm* must be wholly subordinated to those of all non-subordinated creditors;
- (d) the documents governing the issue of the securities must provide for debt and unpaid interest to be such as to absorb losses, whilst leaving the *firm* in a position to continue trading; and
- (e) only fully paid-up amounts shall be taken into account.

qualifying capital item

means that part of a *firm's* capital which has the following characteristics:

- (a) it is freely available to the *firm* to cover normal banking or other risks where revenue or capital losses have not yet been identified;
- (b) its existence is disclosed in internal accounting records; and
- (c) its amount is determined by the management of the *firm* and verified by independent auditors, and is made known to, and is monitored by, the *FCA*.

Note: Verification by internal auditors will suffice until such time as EU provisions making external auditing mandatory have been implemented.

qualifying property

has the meaning given in rule 5.2.6(1) (Qualifying property and qualifying amount defined).

qualifying subordinated loan

has the meaning given in rule 5.2.5 (1) to (7) (Qualifying subordinated loans).

qualifying undertaking

has the meaning given in rule 5.2.6(3) (Qualifying undertakings).

quarterly financial return

means the return referred to in the Supervision Manual.

readily realisable investment

means a unit in a *regulated collective investment scheme*, a *life policy* or any *marketable investment* other than one which is traded on or under the rules of a *recognised* or *designated investment exchange* so irregularly or infrequently:

- (a) that it cannot be certain that a price for that *investment* will be quoted at all times; or
- (b) that it may be difficult to effect transactions at any price which may be quoted.

recognised overseas clearing house

means an *overseas clearing house* which is declared by a recognition order made under section 290 or 292 of the *Act* for the time being in force to be a *recognised clearing house*.

recognised overseas investment exchange

means an *overseas investment exchange* which is declared by a recognition order made under section 290 or 292 of the *Act* for the time being in force to be a *recognised investment exchange*.

recognised third country investment firm

means an *investment firm* which is authorised in a country other than a *member state* and which is subject to and complies with prudential rules equivalent to the requirements of the *Capital Adequacy Directive*.

Note: A *recognised third country investment firm* is not necessarily a *firm* for the purposes of the *rules*.

Note: A list of the non-EEA regulators which are approved by *the FCA or PRA* for the purposes of recognising *recognised third country investment firms* under the Capital Adequacy Directive is available on request from the *FCA*.

<i>registered individual</i>	means an <i>approved person</i> .
<i>registrable activity</i>	in relation to a <i>firm</i> , means any one of the following: <ul style="list-style-type: none">(a) holding the post of <i>director</i> or <i>chief executive</i>;(b) acting as an <i>investment manager</i> in the course of the <i>permitted business</i> of the <i>firm</i>;(c) acting in a senior capacity with responsibility either alone or jointly with one or more other individuals for the management, supervision and control of a part of the <i>firm's permitted business</i> (including the <i>compliance officer</i> and the <i>finance officer</i>);(d) procuring or endeavoring to procure other persons to enter into <i>investment agreements</i>, or giving advice to persons with whom he deals about entering into <i>investment agreements</i> or exercising rights conferred by <i>investments</i>, in the course of the <i>permitted business</i> of the <i>firm</i>;(e) committing the <i>firm</i> or its <i>customers</i> in market dealings or in transactions in <i>securities</i> or in other <i>investments</i> in the course of the <i>firm's permitted business</i>.
<i>regulated activity</i>	see the meaning given to the term in the <i>Glossary</i>
<i>regulated business</i>	means <i>designated investment business</i> .
<i>regulated friendly society</i>	means, as respects <i>investment business</i> carried on for or in connection with any of the purposes mentioned in Schedule 1 to the Friendly Societies Act 1974, or, as the case may be, to the Friendly Societies Act (Northern Ireland) 1970, means a society which is a friendly society within the meaning of section 7(1)(a) of the Friendly Societies Act 1974 and is registered within the meaning of that Act or is a friendly society within the meaning of section 1(1)(a) of the Friendly Societies Act (Northern Ireland) 1970 and is registered or deemed to be registered under that Act; and <ul style="list-style-type: none">(a) under its rules, has its registered office at a place situated in Great Britain or, as the case may be, Northern Ireland; and(b) carries on <i>investment business</i> in the UK.
<i>relevant foreign exchange items</i>	means: <ul style="list-style-type: none">(a) all assets less liabilities, including accrued interest, denominated in the currency (all investments at market or realisable value);(b) any currency future, at the nominal value of the contract;(c) any forward contract for the purchase or sale of the currency, at the contract value, including any future exchange of principal associated with

currency swaps;

- (d) any foreign currency options at the net delta (or delta-based) equivalent of the total book of such options;
- (e) any non-currency option, at market value;
- (f) any irrevocable guarantee;
- (g) any other off-balance sheet commitment to purchase or sell an asset denominated in that currency.

reporting currency means the currency in which the *firm's* books of account are maintained.

specified trustee business 1. means any *investment business* carried on in the UK by a *trustee firm*, but excluding each of the following activities:

(a) **Dealing or arranging deals in *investments***

- (i) where the deal is transacted or arranged by a *trustee firm* with or through a *PTP*; or
- (ii) where the dealing or arranging is done in the course of, or is incidental to, an activity of management falling within paragraph (b) below; or
- (iii) where the trust is a *unit trust scheme* and the deal is or the arrangements are made with a view to either an issue or sale of units in such a *scheme* to, or a redemption or repurchase or conversion of such units or a dealing in investments for such a *scheme* carried out by with or through, the *operator* or on the instructions of the *operator*; or
- (iv) where the *trustee firm*, being a bare trustee (or, in Scotland, a nominee) holding *investments* for another person, is acting on that person's instructions; or
- (v) where any arrangements do not or would not bring about the transaction in question.

(b) **Managing Investments**

- (i) where the *trustee firm* has no general authority to effect transactions in *investments* at discretion; or
- (ii) if and to the extent that all day-to-day decisions in relation to the management of the *investments* or any discrete part of the *investments* are or are to be taken by a *PTP*; or
- (iii) if and to the extent that investment decisions in relation to the *investments* or any discrete part of the *investments* are or are to be taken substantially in accordance with the advice given by a *PTP*; or
- (iv) where the *trustee firm* is a personal representative or executor and is acting in that capacity; or

- (v) where the trust is a *unit trust scheme* and all day-to-day investment decisions in the carrying on of that activity are or are to be taken by the *operator* of the *scheme*.

(c) **Investment Advice**

- (i) where the relevant advice:
 - (A) does not recommend the entry into any investment transaction or the exercise of any right conferred by any *investment* to acquire, dispose of, underwrite or convert such an *investment*; and
 - (B) is accompanied by a recommendation that independent advice be obtained; or
- (ii) if and to the extent that the relevant advice is in substance the advice of a *PTP*; or
- (iii) where the relevant advice is given by the *trustee firm* acting in the capacity of personal representative or executor.

(d) **Establishing, operating or winding up a *collective investment scheme* including acting as *trustee* of an *authorised unit trust scheme*** but only to the extent that such activities do not otherwise constitute *specified trustee business*.

(e) **Any *trustee activity* undertaken as trustee of an issue of debentures or government or public securities**

- (i) where the issue is made by a company listed on a *recognised investment exchange* or on a *designated investment exchange* (or by a wholly-owned subsidiary of such a company); or
- (ii) where the issue is listed or traded either on a *recognised investment exchange* or on a *designated investment exchange* or on the Société de la Bourse de Luxembourg; or
- (iii) where the issue is made by a government, local authority or international organisation; or
- (iv) where the aggregate amounts issued (pursuant to the trust deed or any deed supplemental thereto and ignoring any amounts redeemed, repurchased or converted) exceed the sum of £10,000,000.

2. For the purpose of this definition of “*specified trustee business*”:

- (a) a transaction is entered into through a person if that person:
 - (i) enters into it as agent; or
 - (ii) arranges for it to be entered into as principal or agent by another person and the arrangements are such that they bring about the transaction in question;
- (b) **investment transaction** means a transaction to purchase, sell, subscribe for or underwrite a particular investment and “investment

decision” means a decision relating to an investment transaction;

- (c) **debentures** means any securities falling within article 77 of the RAO;
- (d) **government or public securities** means any securities falling within article 78) of the RAO;
- (e) *government, local authority or international organisation* means:
 - (i) the government of the *United Kingdom*, of Northern Ireland, or of any country or territory outside the United Kingdom;
 - (ii) a local authority in the *United Kingdom* or Anywhere; or
 - (iii) an international organisation the members of which include the *United Kingdom* or another EEA State.
- (f) in determining the size of an issue of debentures or government or public securities made in a currency other than sterling, the amount of the issue shall be converted into sterling at the exchange rate prevailing in London on the date of issue.

statutory rules

means the rules made by the *FCA* under the Act.

total capital requirement

has the meaning given in rule 5.2.3(5) (Total capital requirement).

trading book

in relation to a *firm's* business or exposures, means:

- (a) its proprietary positions in financial instruments:
 - (i) which are held for resale and/or are taken on by the *firm* with the intention of benefiting in the short term from actual and/or expected differences between their buying and selling prices or from other price or interest-rate variations;
 - (ii) arising from matched principal broking;
 - (iii) taken in order to hedge other elements of the *trading book*;
- (b) exposures due to unsettled securities transactions, free deliveries, *OTC derivative* instruments, repurchase agreements and securities lending transactions based on securities included in (a)(i) to (iii) above, reverse repurchase agreements and securities borrowing transactions based on securities included in (a)(i) to (iii) above; and
- (c) fees, commission, interest and dividends, and margin on exchange-traded derivatives which are directly related to the items included in (a) and (b) above.

trust beneficiary

means a beneficiary under a trust (not being the settlor) who benefits from the performance by a *firm* as *trustee of investment services* relating to the management of the trust assets (in accordance with section 2372 of the *Act* (Other definitions)).

trustee activity

means, in relation to a *firm*, any activity undertaken in the course of or incidental to the exercise of any of its powers, or the performance of any of its duties, when

	acting in its capacity as a trustee.
<i>UCITS qualifier</i>	see the meaning given to the term in the <i>Glossary</i>
<i>unit trust manager</i>	means the manager of a <i>unit trust scheme</i> .
<i>zone a country</i>	see definition of <i>Zone A country</i> in the <i>Glossary</i>
<i>zone b country</i>	means a country which is not a <i>zone a country</i> .

6 Chapter 6: Service Companies

6.1 APPLICATION

6.1.1 R This chapter applies to *service companies*.

FCA

FINANCIAL RESOURCES REQUIREMENTS

6.1.2 R (1) *A service company must be able to meet its liabilities as they fall due.*

FCA

(2) *In complying with (1) a firm may use any assets which are available to meet any of its liabilities.*

7 Chapter 7: UCITS Management Companies

[Deleted: material moved to UPRU]

8 Chapter 8: Requirements on credit unions which are CTF providers

8.1 APPLICATION, GENERAL AND PROFESSIONAL INDEMNITY INSURANCE REQUIREMENTS

Application

8.1.1 R (1) This chapter applies to a *credit union* to the extent that it is a **CTF provider whose permissions relate to accepting deposits and making arrangements with a view to transactions in investments.**

PRA

(2) The definitions in the Glossary at Appendix 13(1) apply to this chapter.

General requirements

8.1.2 R A *credit union* to which this chapter applies must:

PRA

(1) have and maintain at all times financial resources of the kinds and amounts specified in, and calculated in accordance with, the *rules* of this chapter, in *CREDS* and, where applicable, in *MIPRU 4 (Capital Resources)*; and

(2) be able to meet its liabilities as they fall due.

8.1.3 G The *rules* in this chapter should be read with the *rules* relating to capital in *CREDS* and, where applicable, *MIPRU*.

PRA

Requirement to hold professional indemnity insurance

8.1.4 G (1) Under *Principles 3 and 4*, a *credit union* is required to take reasonable care to organise and control its affairs responsibly and effectively with adequate risk management systems and to maintain adequate financial resources.

PRA

(2) Although financial resources and appropriate systems and controls can generally mitigate operational risk, professional indemnity insurance has a role in mitigating the risks a *credit union* faces in its day to day operations. The purpose of *IPRU(INV) 8.1.6R* to *IPRU(INV) 8.1.14E* is to ensure that a *credit union* has in place the type, and level, of professional indemnity insurance necessary to mitigate these risks.

8.1.5 R The term "relevant income" in *IPRU(INV) 8.1* refers to all income received or receivable which is commission, brokerage, fees or other related income, whether arising from the *credit union's* activities related to *making arrangements with a view to transactions in investments* or not, for the last accounting year prior to inception or renewal of the professional indemnity insurance policy ("the policy").

PRA

- 8.1.6 R **A credit union must take out and maintain at all times professional indemnity insurance that is at least equal to the requirements of IPRU(INV) 8.1.7R to IPRU(INV) 8.1.14E.**

PRA

Professional indemnity insurance policy terms

- 8.1.7 R **The professional indemnity insurance policy must incorporate terms which are appropriate and must make provision for:**

PRA

- (1) **cover in respect of any claim for loss or damage, for which the credit union may be liable as a result of an act or omission by:**
 - (a) **the credit union; or**
 - (b) **any person acting on behalf of the credit union including employees, appointed representatives or its other agents;**
- (2) **the minimum limits of indemnity in each year if the credit union is an IMD insurance intermediary are as set out in MIPRU 3.2.7R;**
- (3) **the following limits of indemnity if the credit union is an investment intermediary other than an IMD insurance intermediary:**
 - (a) **if the credit union has relevant income of up to £3,000,000, no lower than £500,000 for a single claim against the credit union and £500,000 in the aggregate; or**
 - (b) **if the credit union has relevant income of more than £3,000,000, no lower than £650,000 for a single claim against the credit union and £1,000,000 in the aggregate.**
- (4) **If (2) applies, and the policy is denominated in any currency other than euros, a credit union must take reasonable steps to ensure that the limits of indemnity are, when the policy is effected (i.e. agreed) and at renewal, at least equivalent to those required in IPRU(INV) 8.1.7R.**

Readily realisable own funds

- 8.1.8 G **For the purposes of the following provisions relating to professional indemnity insurance, the PRA expects items included in own funds to be regarded as “readily realisable” only if they can be realised, at any given time, within 90 days.**

PRA

Additional requirements

- 8.1.9 E (1) **In addition to the specific requirements in IPRU(INV) 8.1.7R, to incorporate appropriate terms, the policy should make provision for the following:**

PRA

- (a) for a *credit union* with relevant income of more than £6,000,000, the aggregate limit identified in the table below:

Relevant income is (£)		Minimum aggregate <i>limit of Indemnity</i> (£)
more than	up to	
6,000,000	7,000,000	1,150,000
7,000,000	8,000,000	1,300,000
8,000,000	9,000,000	1,450,000
9,000,000	10,000,000	1,600,000
10,000,000	12,500,000	2,000,000
12,500,000	15,000,000	2,400,000
15,000,000	17,500,000	2,800,000
17,500,000	20,000,000	3,150,000
20,000,000	25,000,000	3,800,000
25,000,000	30,000,000	4,250,000
30,000,000	35,000,000	4,500,000
35,000,000	40,000,000	4,750,000
40,000,000	50,000,000	5,500,000
50,000,000	60,000,000	6,000,000
60,000,000	70,000,000	6,750,000
70,000,000	80,000,000	7,250,000
80,000,000	90,000,000	7,750,000
90,000,000	100,000,000	8,500,000
100,000,000	150,000,000	11,250,000
150,000,000	200,000,000	14,000,000
200,000,000	250,000,000	17,000,000
250,000,000	300,000,000	19,750,000

300,000,000	n/a	22,500,000
-------------	-----	------------

- (b) full retroactive cover in respect of the kinds of liabilities described in *IPRU(INV)* 8.1.7R for claims arising from work carried out by the *credit union*, or on its behalf, in the past; and
- (c) cover in respect of *Ombudsman* awards made against the *credit union*.

- (2) Compliance with (1)(a) may be relied on as tending to establish compliance with the requirement in *IPRU(INV)* 8.1.7R for the professional indemnity insurance terms to be appropriate.
- (3) Contravention of (1)(a) may be relied on as tending to establish contravention of the requirement in *IPRU(INV)* 8.1.7R for the professional indemnity insurance terms to be appropriate.

8.1.10 G A *credit union* should consider whether the overall cover is adequate taking account of *IPRU(INV)* 8.1.13G(2) and whether the *credit union* should seek additional cover or legal expenses insurance. (Legal defence costs are costs of defence against claims that fall under the terms of the policy.)

PRA

8.1.11 G The cover provided by the policy should be wide enough to include the liability of the *credit union*, its *appointed representatives*, *employees* and its agents for breaches of the *credit union's* duty of skill and care, fiduciary duty, duty to look after documents or assets, fraud, and breaches of obligations imposed by or under the *Act*.

PRA

Exclusions

8.1.12 R **The policy must not be subject to conditions or exclusions which unreasonably limit the cover provided for in *IPRU(INV)* 8.1.7R (whether by exclusion of cover, by policy excesses or otherwise).**

PRA

8.1.13 G (1) The *PRA* considers it reasonable for a *credit union's* policy to exclude cover for:

PRA

(a) specific business lines if that type of business has not been carried out by the *credit union* in the past and will not be carried out by the *credit union* during the life of the policy; or

(b) specific claims that have been previously notified to the *credit union's insurer* and claimed for under another policy.

(2) The *PRA* does not consider it reasonable for a *credit union's* policy to treat legal defence costs cover as part of the *limits of indemnity* if this reduces the cover available for any individual substantive claim.

8.1.14 E (1) The policy should not:

PRA

(a) make provision for payment by the *credit union* of an excess on any claim of more than £5,000. (This does not apply to the extent that the *credit union* holds additional *own funds* in a readily realisable form, in accordance with *IPRU(INV)*)

8.1.16E); or

- (b) exclude any type of business or activity that has been carried out by the *credit union* in the past or will be carried out by the *credit union* during the time for which the policy is in force. (This does not apply to the extent that the *credit union* holds, by way of additional *own funds* in a readily realisable form, an amount equivalent to a reasonable provision against its potential liabilities for that business or activity. *Guidance* on this is given in *IPRU(INV)* 8.1.17G and *IPRU(INV)* 8.1.18G); or
- (c) exclude liability which is identified or crystallised as a result of regulatory action against the *credit union* (either individually or as a member of a class of *authorised person*).

- (2) Contravention of (1)(a) may be relied on as tending to establish contravention of *IPRU(INV)* 8.1.12R.

Excess level

- 8.1.15 E The reference to “excess” in *IPRU(INV)* 8.1.14E(1)(a) is to the highest excess level required to be paid under the policy unless that excess relates to a type of business that has not been carried out by the *credit union* in the past. In those circumstances, the reference is to the next highest excess level required by the policy.

PRA

Additional own funds

- 8.1.16 E The amount of additional *own funds* in *IPRU(INV)* 8.1.14E (1)(a) should be calculated by referring to the *credit union*’s relevant income and excess obtained in the following table:

PRA

All amounts are shown in £000s

Relevant income		Excess obtained, up to and including											
more than	up to	5	10	15	20	25	30	40	50	75	100	150	200+
0	100	0	4	7	9	12	14	18	21	28	34	45	54

100	n/a	0	630	800	950	1080	1200	1410	1600	2010	2360	2940	3440

For *firms* with relevant income more than £10m but up to £100m value y is calculated by relevant income/ £10m

Exclusion

8.1.17 G A *credit union* should take into account the following when assessing the amount of additional *own funds* to be held as provision as described in IPRU(INV) 8.1.14E(1)(b):

PRA

- (1) the type of business line or activity excluded and the types of claim which might arise from it;
- (2) the number of contracts written or volume of activity;
- (3) the number of complaints received by the *credit union* relating to the excluded business or activity;

- (4) generally accepted accounting principles applicable to provisions; and
- (5) any other relevant information.

8.1.18 G If the *credit union* holds additional *own funds* in accordance with *IPRU(INV)* 8.1.17G then the amount should be reviewed regularly. The reviews should take account of changes in the status of the policy exclusion(s) and any relevant changes to the *credit union's* circumstances.

PRA

Policies providing cover for more than one credit union

8.1.19 R **If the policy provides cover to more than one *credit union* then in relation to *IPRU(INV)* 8.1.7R:**

PRA

- (1) the relevant income for calculating the *limits of indemnity* is that of all the *credit unions* named in the policy combined;
- (2) each *credit union* named in the policy must have the benefit of the minimum *limits of indemnity* as required in *IPRU(INV)* 8.1.7R;
- (3) each *credit union* named in the policy must notify the *appropriate regulator* if the aggregate cover in the policy falls below the minimum in *IPRU(INV)* 8.1.7R.

Exemption from holding professional indemnity insurance

8.1.20 R (1) A credit union is not required to effect or maintain professional indemnity insurance in relation to insurance mediation activity, if another authorised person which has net tangible assets of more than £10 million provides a comparable guarantee.

PRA

- (2) A 'comparable guarantee' means a written agreement on terms at least equal to those in *MIPRU* 3.2.4R to finance the claims that might arise as a result of a breach by the *credit union* of its duties under the *regulatory system* or civil law.

8.1.21 R **A *credit union* must take out professional indemnity insurance from:**

PRA

- (1) any *insurance undertaking* which is authorised to transact professional indemnity insurance in the *EEA*; or
- (2) a *person* of equivalent status in:
 - (a) a *Zone A country*;
 - (b) the Channel Islands, Gibraltar, Bermuda or the Isle of Man.

Notification requirements

8.1.22 G *Rule IPRU(INV)* 8.1.24R is a *notification rule* and is in addition to any

PRA

notification requirements in the Supervision manual (*SUP 15*).

8.1.23

G *Credit unions* are reminded to comply with *SUP 15.7* (Form and method of notification) when notifying the *PRA* in accordance with *IPRU(INV) 8.1.24R*.

PRA

8.1.24

R **A *credit union* must notify the *PRA* immediately it becomes aware, or has information which reasonably suggests, that any of the matters in Table 8.1(1) has occurred, may have occurred or may occur in the foreseeable future.**

PRA

Table 8.1(1)

This table forms part of IPRU(INV) 8.1.24R

NOTIFIABLE EVENTS

In relation to professional indemnity insurance, required in accordance with *IPRU(INV) 8.1.6R* to *IPRU(INV) 8.1.21R*, if:

- (1) it cannot be obtained within 28 days of the inception or renewal date;
- (2) it is cancelled;
- (3) the amount of aggregate cover is exhausted;
- (4) the *credit union* commences business lines for which it had not obtained cover;
- (5) the *credit union* is relying on *IPRU(INV) 8.1.19R*; or
- (6) the *credit union* is relying on *IPRU(INV) 8.1.20R*.

8.2 CAPITAL REQUIREMENTS

8.2.1

R 'Capital' in this chapter has the meaning described in *CREDS 5.2.1R*.

PRA

8.2.2

R **A *version 1 credit union* with total assets of more than £5 million or a total number of members of more than 5,000, or both, or a *version 2 credit union*, which acts as a *CTF provider* and whose *permissions* include *regulated activities* relating to *accepting deposits* and *making arrangements with a view to transactions in investments* other than *contracts of insurance* or *rights to or interests in a life policy* must maintain at all times capital which is equal to the higher of:**

PRA

- (1) £10,000;
- (2) the capital requirements for the *credit union* under *CREDS*; and

8.2.3

R **A *version 1 credit union* with total assets of more than £5 million or a total number of members of more than 5,000, or both, or a *version 2 credit union*, which acts as a *CTF provider* which *makes arrangements with a view to transactions in investments* including *contracts of insurance* or *rights to or interests in a life policy* must**

PRA

maintain at all times capital which is equal to the highest of:

- (1) £10,000;**
- (2) the capital requirements for the *credit union* under *CREDS*;
and**
- (3) the capital requirements for the *credit union* under *MIPRU 4*.**

9 Chapter 9: Financial resources requirements for an exempt CAD firm

9.1 APPLICATION

9.1.1 R (1) This chapter applies to an *exempt CAD firm* which is:

FCA

- (a) an *investment management firm*; or
- (b) a *securities and futures firm*.

(2) This chapter also applies to a *local firm*.

9.2 GENERAL REQUIREMENTS

9.2.1 G For an *exempt CAD firm*, the *rules* contained within this chapter replace the *rules* in respect of financial resources, financial resources requirements and nonfinancial resources related requirements contained within Chapter 3 or 5, as applicable. However, an *exempt CAD firm* must continue to comply with the requirements of Chapter 3 or 5, to the extent it is referred to Chapter 3 or 5 by a *rule* in this chapter.

FCA

9.2.2 R A *firm* must be able to meet its liabilities as they fall due.

FCA

9.2.3 R An *exempt CAD firm* that carries on any *regulated activity* other than *MiFID business* must also have and maintain at all times financial resources calculated in accordance with the chapter of *IPRU(INV)* to which the *firm* is otherwise subject (Chapters 3 or 5) at least equal to the requirements set out in the relevant chapter (except that if the only *designated investment business* an *exempt CAD firm* is carrying on in addition to *investment services and activities* is *making arrangements with a view to transactions in investments* (article 25(2) *Regulated Activities Order*) or agreeing to carry on that *regulated activity* or both, it only needs to comply with requirements set out in this chapter and not chapters 3 or 5).

FCA

Initial capital and professional indemnity insurance requirements – exempt CAD firms that are not IMD insurance intermediaries

9.2.4 R (1) An *exempt CAD firm* which is not an *IMD insurance intermediary* must have:

FCA

- (a) *initial capital* of €50,000; or
- (b) professional indemnity insurance covering the whole territory of the *EEA* or some other comparable guarantee against liability arising from professional negligence, representing at least €1,000,000 applying to each claim and in aggregate €1,500,000 per year for all claims; or

- (c) a combination of *initial capital* and professional indemnity insurance in a form resulting in a level of coverage equivalent to (a) or (b).

[Note: Article 67(3) of *MiFID* and Article 7 of *CAD*]

- (2) If a *firm* chooses to meet the requirements of either (b) or (c) above, it must nevertheless have *initial capital* of at least £5,000.

Initial capital and professional indemnity insurance requirements – exempt CAD firms that are also IMD insurance intermediaries

9.2.5

FCA

- R (1) A *exempt CAD firm* that is also an *IMD insurance intermediary* must comply with the professional indemnity insurance requirements at least equal to those set out in 9.2.4R(1)(b) (except that the minimum *limits of indemnity* are at least €1,120,200 for a single claim and €1,680,300 in aggregate) and in addition has to have:
 - (a) *initial capital* of €25,000; or
 - (b) professional indemnity insurance covering the whole territory of the *EEA* or some other comparable guarantee against liability arising from professional negligence, representing at least €500,000 applying to each claim and in aggregate €750,000 per year for all claims; or
 - (c) a combination of *initial capital* and professional indemnity insurance in a form resulting in a level of coverage equivalent to (a) or (b).

[Note: Article 67(3) of *MiFID* and Article 8 of *CAD*]

- (2) If a *firm* chooses to meet the requirements of either (b) or (c) above, it must nevertheless have *initial capital* of at least £5,000.

9.2.5A

FCA

- G Article 4(7) of the *Insurance Mediation Directive* requires the *limits of indemnity* to be reviewed every five years to take into account movements in European consumer prices. These *limits* will therefore be subject to further adjustments on the basis of index movements advised by the European Commission.

9.2.6

FCA

- G A trade-off between *initial capital* and professional indemnity insurance is appropriate such that €1 of *initial capital* is the equivalent of professional indemnity insurance cover of €20 for a single claim against the *firm* and €30 in aggregate.

Comparable guarantee

9.2.7

FCA

- R (a) If another *authorised person* which has net tangible assets of more than £10 million provides a comparable guarantee, an *exempt CAD firm* can treat it as an alternative to effecting or maintaining professional indemnity insurance pursuant to the rules relating to professional indemnity insurance above.
- (b) If the *exempt CAD firm* is a member of a *group* in which there is an *authorised person* with net tangible assets of more than £10 million, the comparable guarantee must be from that *person*.

- (c) A comparable guarantee means a written agreement on terms at least equal to those required by the *initial capital* and professional indemnity insurance requirements above to finance the claims that might arise as a result of the breach by the *exempt CAD firm* of its duties under the *regulatory system* or civil law.

Initial capital and ongoing capital requirements for local firms

9.2.8 R A *local firm* must:

FCA

- (a) have *initial capital* of €50,000; and
- [Note: Article 67(2) of *MiFID* and Article 6 of *CAD*]
- (b) maintain *own funds* calculated in accordance with the *rules* relating to *own funds* in 9.5, at least to the requirement for *initial capital*.

Ongoing capital requirements

9.2.9 R (1) An *exempt CAD firm* must, at all times, maintain a combination of professional indemnity insurance and *own funds*, (*own funds* to be calculated in accordance with (2)), at least equal to the requirements in this chapter for professional indemnity insurance and *initial capital*.

FCA

- (2) (a) If the *exempt CAD firm* is an *investment management firm* its *own funds* must be calculated in accordance with the *rules* in *IPRU(INV)* 5.2.1(1) to 5.2.7(5).
- (b) If the *exempt CAD firm* is a *securities and futures firm* its *own funds* must be calculated in accordance with the *rules* relating to *own funds* in 9.5.

9.3 CALCULATING INITIAL CAPITAL

Initial capital

9.3.1 R A *firm's initial capital* consists of the sum of the following items:

FCA

- (1) ordinary *share* capital which is fully paid;
- (2) perpetual non-cumulative *preference share* capital which is fully paid;
- (3) *share* premium account;
- (4) reserves excluding revaluation reserves;
- (5) audited retained earnings;

- (6) externally *verified* interim net profits;
- (7) partners' capital;
- (8) *eligible LLP members' capital* (in accordance with the provisions of *IPRU(INV)* Annex A); and
- (9) *sole trader* capital.

Perpetual noncumulative preference share capital

- 9.3.2 R A *firm* may include *preference share capital* in *initial capital* only where any *coupon* on it is not cumulative, and the *firm* is under no obligation to pay a *coupon* in any circumstances.

FCA

Audited retained earnings

- 9.3.3 R When calculating *initial capital*, a *firm* may include its audited retained earnings only after making the following adjustments:

FCA

- (1) a *firm* must not recognise the fair value reserves related to gains or losses on cash flow hedges of financial instruments measured at amortised cost;
- (2) in respect of a *defined benefit occupational pension scheme*, a *firm* must derecognise any *defined benefit asset*;
- (3) a *firm* must not include any unrealised gains from investment property (these should be reported as part of revaluation reserves);
- (4) where applicable, a *firm* must deduct any asset in respect of *deferred acquisition costs* and add back in any liability in respect of deferred income (but excluding from the deduction or addition any asset or liability which will give rise to future cash flows), together with any associated deferred tax.

Externally verified interim net profits or current account

- 9.3.4 R A *firm* may include interim net profits or current account when calculating *initial capital* to the extent that they have been *verified* by the *firm's* external auditor and are net of any foreseeable tax, dividend and other appropriations.

FCA

- 9.3.5 R When calculating *initial capital*, a *firm* may include its partners' capital only after making the following adjustments:

FCA

- (1) a *firm* must not recognise the fair value reserves related to gains or losses on cash flow hedges of financial instruments measured at amortised cost;
- (2) in respect of a *defined benefit occupational pension scheme*, a *firm* must derecognise any *defined benefit asset*;
- (3) where applicable, a *firm* must deduct any asset in respect of *deferred acquisition costs* and add back in any liability in respect

of deferred income (but excluding from the deduction or addition any asset or liability which will give rise to future cash flows), together with any associated deferred tax.

Defined benefit pension scheme: defined benefit liability

9.3.6 R For the calculation of *initial capital*, a firm may substitute for a *defined benefit liability* the firm's *deficit reduction amount*. The election must be applied consistently in respect of any one financial year.

FCA

9.3.7 G A firm should keep a record of and be ready to explain to its supervisory contacts in the FCA the reasons for any difference between the *deficit reduction amount* and any commitment the firm has made in any public document to provide funding in respect of a *defined benefit occupational pension scheme*.

FCA

9.4 POLICY TERMS FOR PROFESSIONAL INDEMNITY INSURANCE

Insurers whose professional indemnity insurance policies can be used by an exempt CAD firm

9.4.1 R An *exempt CAD firm* that has professional indemnity insurance in accordance with this chapter must take out and maintain professional indemnity insurance that is at least equal to the requirements of the rule below from:

FCA

- (1) an *insurance undertaking* which is authorised to transact professional indemnity insurance in the EEA; or
- (2) a person of equivalent status in:
 - (a) a *Zone A country*;
 - (b) the Channel Islands, Gibraltar, Bermuda or the Isle of Man.

Terms to be incorporated in the professional indemnity insurance policy

9.4.2 R The policy of professional indemnity insurance must incorporate terms which make provision for:

FCA

- (1) cover in respect of claims for which an *exempt CAD firm* may be liable as a result of the conduct of itself, its *employees* and its *appointed representatives* or where applicable, its *tied agent* (acting within the scope of their appointment);
- (2) the minimum *levels of indemnity* per year as set out in the rules relating to professional indemnity insurance above;
- (3) appropriate cover in respect of legal defence costs; and
- (4) cover in respect of *Ombudsman* awards made against the *exempt CAD firm*.

Policies in other currencies

9.4.3 R If a professional indemnity insurance policy is denominated in any currency other than euros, an *exempt CAD firm* must take reasonable

FCA

steps to ensure that the *limits of indemnity* are, when the policy is effected and at *renewal*, at least equivalent to those required for the purposes of the rules relating to professional indemnity insurance above.

Conditions and exclusions

- 9.4.4 R A professional indemnity insurance policy must not be subject to conditions or exclusions which unreasonably limit the cover provided (whether by exclusion of cover, by policy excesses or otherwise).

FCA

9.5 CALCULATION OF OWN FUNDS

- 9.5.1 R A firm's initial capital:

FCA

minus the sum of the items set out against **B**

plus the sum of the items set out against **C**

minus material holdings in credit and financial institutions and material insurance holdings

equals own funds.

- 9.5.2 R Table

FCA

The table forms part of *rule 9.5.1R*

(1)	Investments in own shares at book value	B
(2)	Intangible assets	
(3)	Material current year losses	
(1)	Revaluation reserves	C
(2)	Perpetual cumulative preference share capital	
(3)	Long-term subordinated loans	
(4)	Perpetual long-term subordinated loans	
(5)	Fixed term preference share capital	

Perpetual long-term subordinated loans and perpetual cumulative preference share capital

- 9.5.3 R Perpetual long-term subordinated loans and perpetual cumulative preference share capital may not be included in the calculation of own funds unless they meet the following requirements:

FCA

- (1) it may not be reimbursed on the holder's initiative or without the

prior agreement of the *FCA*;

- (2) the instrument must provide for the *firm* to have the option of deferring the dividend payment on the share capital;
- (3) the shareholder's claims on the *firm* must be wholly subordinated to those of all non-subordinated creditors;
- (4) the terms of the instrument must provide for the loss-absorption capacity of the share capital and unpaid dividends, whilst enabling the *firm* to continue its business; and
- (5) it must be fully paid-up.

Subordinated loans

9.5.4 R A *firm* may include a subordinated loan in the calculation of its *own funds* only:

FCA

- (a) if it is drawn up in accordance with the standard forms obtained from the *FCA*;
- (b) if it is signed by authorised signatories of all the parties; and
- (c) to the extent that it is fully paid up.

Long-term subordinated loans

9.5.5 R A long-term subordinated loan may not be included in the calculation of *own funds* unless it meets the following requirements:

FCA

- (1) it must be fully paid-up;
- (2) it has an original maturity of at least five years;
- (3) the extent to which it may be used in the calculation of *own funds* shall be amortised on a straight line basis during at least the five years before repayment; and
- (4) it must not become repayable before the agreed repayment date other than in the winding-up of the *firm* or unless the *firm* has provided the *FCA* with at least five years' written notice.

9.5.6 R A *firm* must not (except in accordance with the terms of the loan) make any payment of interest if after such action the *firm's own funds* will fall below 120% of its *own funds requirement*.

FCA

Perpetual noncumulative and cumulative preference share capital

9.5.7 R A *firm* may include perpetual non-cumulative and cumulative preference share capital in its *initial capital* and its *own funds* only if there is an agreement between the *firm* and the shareholders which provides that redemption of the shares may not take place, if after such redemption the *firm* would be in breach of its *own funds requirement*.

FCA

Own funds - Restrictions

9.5.8 R (1) In calculating *own funds*:

FCA

- (i) the total amount of revaluation reserves, perpetual cumulative preference *share* capital, long-term subordinated loans, perpetual long-term subordinated loans and fixed term preference *share* capital must not exceed 100% of *initial capital* minus B; and
- (ii) the total amount of fixed term preference *share* capital and long-term subordinated loans must not exceed 50% of *initial capital* minus B.

9.6 NON-FINANCIAL RESOURCE REQUIREMENTS

Reconciliation of balances

9.6.1 R (1) A *firm* must reconcile all balances and positions with:

FCA

- (a) *banks* and *building societies* (other than a client bank account subject to the *client money rules*), *exchanges*, *approved exchanges*, *clearing houses* and *intermediate brokers*; and
- (b) *eligible counterparties* which are members of an *exchange* or *approved exchange*

as recorded by the *firm* to the balance or position on a statement or circularisation obtained by the *firm* from those entities and must correct any differences by agreement on a timely basis, unless:

- (i) the balances and positions due to and from the *eligible counterparty* have been agreed by other means; or
 - (ii) it arises solely as a result of identified differences in timing between the records of the *firm* and the *bank* or *building society*.
- (2) A *firm* must perform reconciliations under (1) above as frequently as is appropriate for the volume of transactions on the accounts and in any event not less than once every five weeks or, in relation to positions with *eligible counterparties*, not less than once every year.
- (3) A *firm* must circularise or request statements from *banks*, *building societies*, *exchanges*, *approved exchanges*, *clearing houses*, *intermediate brokers* and *eligible counterparties* which are members of an *exchange* or an *approved exchange* in good time in order to be able to comply with (1) and (2) above.

- (4) **A firm must use its best endeavours to respond within one month of receipt to any circularisation from another firm requesting confirmation of outstanding balances.**

9.6.2 G For guidance notes on the reconciliation of a firm's balance with market counterparties see Appendix 20 to Chapter 3.

FCA

Financial notification

9.6.3 R **A firm must notify the FCA in writing as soon as it has reason to believe that it is in breach of its own funds requirement.**

FCA

Appendix 9(1): Interpretation

FCA

Glossary of defined terms for Chapter 9

Note: If a defined term does not appear in the glossary below, the definition appearing in the Handbook Glossary applies.

<i>approved exchange</i>	means an investment exchange listed as such in Appendix 33 to <i>IPRU(INV)</i> 3.
<i>exchange</i>	means a <i>recognised investment exchange</i> or <i>designated investment exchange</i> .
<i>initial capital</i>	means the initial capital of a <i>firm</i> calculated in accordance with section 9.3.
<i>intangible assets</i>	the full balance sheet value of a <i>firm's</i> intangible assets including goodwill, capitalised development costs, licences, trademark and similar rights etc.
<i>intermediate broker</i>	in relation to a <i>margined transaction</i> , means any person through whom the <i>firm</i> undertakes that transaction.
<i>material current year losses</i>	means losses of an amount equal to 10% or more of <i>initial capital</i> minus B (with B calculated in accordance with Table 9.5.2R).
<i>material holding</i>	means a <i>firm's</i> holdings of <i>shares</i> and any other interest in the capital of a <i>credit institution</i> or <i>financial institution</i> : (a) which exceeds 10% of the capital of the issuer, and, where this is the case, any holdings of subordinated debt of the same issuer, the full amount is a <i>material holding</i> ; or (b) holdings not deducted under (a) if the total amount of such holdings exceeds 10% of that <i>firm's own funds</i> , in which case only the excess amount is a <i>material holding</i> .
<i>material insurance holdings</i>	(a) means the holdings of an <i>exempt CAD firm</i> of items of the type set out in (b) in any: (i) <i>insurance undertaking</i> ; or (ii) <i>insurance holding company</i> that fulfils one of the following conditions: (iii) it is a <i>subsidiary undertaking</i> of that <i>firm</i> ; or (iv) that <i>firm</i> holds a participation in it. (b) An item falls into this provision for the purpose of (a) if it is: (i) an <i>ownership share</i> ; or (ii) subordinated debt or another item of capital that falls into Article 16(3) of the First Non-Life Directive or, as applicable, Article 27(3) of the Consolidated Life Directive.
<i>own funds</i>	means the own funds of a <i>firm</i> calculated in accordance with 9.2.9R(2) and

9.2.8R(b).

*own funds
requirement*

means the requirement set out in 9.2.9R(1) and 9.2.8R(b).

verified

means checked by an external auditor who has undertaken at least to:

- (a) satisfy himself that the figures forming the basis of the interim profits have been properly extracted from the underlying accounting records;
- (b) review the accounting policies used in calculating the interim profits so as to obtain comfort that they are consistent with those normally adopted by the *firm* in drawing up its annual financial statements and are in accordance with the relevant accounting principles;
- (c) perform analytical procedures on the result to date, including comparisons of actual performance to date with budget and with the results of prior period(s);
- (d) discuss with management the overall performance and financial position of the *firm*;
- (e) obtain adequate comfort that the implications of current and prospective litigation, all known claims and commitments, changes in business activities and provisioning for bad and doubtful debts have been properly taken into account in arriving at the interim profits; and
- (f) follow up problem areas of which he is already aware in the course of auditing the *firm's* financial statements.

13 Chapter 13: Financial Resource Requirements for Personal Investment Firms

APPLICATION, GENERAL REQUIREMENTS AND PROFESSIONAL INDEMNITY INSURANCE REQUIREMENTS

- 13.1.1 R (1) This chapter applies to a *firm* which is a *personal investment firm*.
- FCA
- (2) For a *personal investment firm* which is an *exempt CAD firm*, the following apply:
- (a) sections 13.1 and 13.1A; and
 - (b) if it is not an *opted-in exempt CAD firm*, sections 13.2 to 13.8; or
 - (c) if it is an *opted-in exempt CAD firm*, sections 13.9 to 13.12 (but reading references to *category B firm* as references to the *firm*).
- (3) For a *personal investment firm* which is a *category B firm*, section 13.1 and sections 13.9 to 13.12 apply.

PURPOSE

- 13.1.2 G This chapter amplifies *threshold condition* 2D or 3C as applicable (Adequate resources) by providing that a *firm* must meet, on a continuing basis, a basic solvency requirement and a minimum capital resources requirement. This chapter also amplifies *Principles* 3 and 4 which require a *firm* to take reasonable care to organise and control its affairs responsibly and effectively with adequate risk management systems and to maintain adequate financial resources by setting out capital resources for a *firm* according to the *regulated activity* or activities it carries on.
- FCA
- 13.1.3 G Although financial resources and appropriate systems and controls can generally mitigate operational risk, professional indemnity insurance has a role in mitigating the risks a *firm* faces in its day-to-day operations, including those arising from not meeting the legally required standard of care when *advising on investments*. The purpose of the *rules* in this section is also to ensure that a *firm* has in place the type, and level, of professional indemnity insurance necessary to mitigate these risks. This includes, in the case of a *UK firm* exercising an *EEA right*, cover for breaches of obligations imposed by or under laws, or provisions having the force of law, in each *EEA State* in which the *firm* carries on business.
- FCA

GENERAL REQUIREMENTS

- 13.1.4 R A *firm* must at all times:
- FCA
- (1) have and maintain capital resources of the kinds and amounts specified in, and calculated in accordance with, the *rules* of this

chapter; and

- (2) be able to meet its liabilities as they fall due.

REQUIREMENT TO HOLD PROFESSIONAL INDEMNITY INSURANCE

13.1.5 R A *firm* must take out and maintain at all times professional indemnity insurance that is at least equal to the requirements in this section from:

FCA

- (1) an *insurance undertaking* which is authorised to transact professional indemnity insurance in the *EEA*; or
- (2) a *person* of equivalent status in:
- (a) a Zone A country;
- (b) the Channel Islands, Gibraltar, Bermuda or the Isle of Man.

[Note: Article 4(3) of the *Insurance Mediation Directive*]

13.1.6 R An *exempt CAD firm* is not required to effect and maintain professional indemnity insurance unless it chooses this option (see 13.1A).

FCA

COMPARABLE GUARANTEE

13.1.7 R (1) A *firm* is not required to effect or maintain professional indemnity insurance if a *bank*, *building society* or an *insurer* provides the *firm* with a comparable guarantee.

FCA

- (2) If the *firm* is a member of a *group* in which there is a *bank*, *building society* or an *insurer*, the *firm's* comparable guarantee must be from that *bank*, *building society* or *insurer*.
- (3) A comparable guarantee means an enforceable, written agreement on terms at least equal to those required by *IPRU(INV)* 13.1.9R to 13.1.13R, as appropriate.

13.1.8 R The term "relevant income" in this section refers to all income received or receivable which is commission, brokerage, fees or other related income, whether arising from the *firm's permitted activities* or not, for the last accounting year prior to inception or renewal of the professional indemnity insurance policy ("the policy").

FCA

POLICY TERMS

13.1.9 R The policy must incorporate terms which are appropriate and must make provision for cover in respect of any claim for loss or damage, for which the *firm* may be liable as a result of an act or omission by:

FCA

- (1) the *firm*; or
- (2) any *person* acting on behalf of the *firm* including *employees*, *appointed representatives* or its other agents;

LIMITS OF INDEMNITY

- 13.1.10 R If the *firm* is an *IMD insurance intermediary*, whether or not it is also an *exempt CAD firm*, the appropriate minimum *limits of indemnity* per year are no lower than:
- FCA
- (1) €1,120,200 for a single claim against the *firm*; and
 - (2) €1,680,300 in the aggregate
- [Note: Article 4(3) of the *Insurance Mediation Directive*]
- 13.1.11 R If the *firm* is an *exempt CAD firm* that maintains professional indemnity insurance under 13.1A.3(1)(b), the appropriate minimum *limits of indemnity* per year are no lower than:
- FCA
- (1) €1,000,000 for a single claim against the *firm*; and
 - (2) €1,500,000 in the aggregate;
- [Note: Article 67(3) of *MiFID* and Article 7 of *CAD* (see also rule 13.1A.3)]
- 13.1.12 R If the *firm* is both an *IMD insurance intermediary* and an *exempt CAD firm* that maintains professional indemnity insurance under 13.1A.4(1)(b), the appropriate additional *limits of indemnity* to 13.1.10R per year are no lower than:
- FCA
- (1) € 500,000 for a single claim against the *firm*; and
 - (2) € 750,000 in the aggregate.
- [Note: Article 67(3) of *MiFID* and Article 8 of *CAD* (see also rule 13.1A.4)]
- 13.1.13 R If the *firm* is not an *IMD insurance intermediary* or an *exempt CAD firm*, then the following *limits of indemnity* apply:
- FCA
- (1) if the *firm* has relevant income of up to £3,000,000, no lower than £500,000 for a single claim against the *firm* and £500,000 in the aggregate; or
 - (2) if the *firm* has relevant income of more than £3,000,000, no lower than £650,000 for a single claim against the *firm* and £1,000,000 in the aggregate.
- 13.1.14 G Article 4(7) of the *Insurance Mediation Directive* requires the *limits of indemnity* to be reviewed every five years to take into account movements in European consumer prices. These *limits* will therefore be subject to further adjustments on the basis of index movements advised by the European Commission.
- FCA

- 13.1.15 R If a policy is denominated in any currency other than euros, a *firm* must take reasonable steps to ensure that the *limits of indemnity* are, when the policy is effected (i.e. agreed) and at renewal, at least equivalent to those denominated in euros.
- FCA**
- 13.1.16 G A *firm* should consider whether the overall cover is adequate taking account of 13.1.22G(2) and whether the *firm* should seek additional cover or legal expenses insurance. (Legal defence costs are costs of defence against claims that fall under the terms of the policy.)
- FCA**
- 13.1.17 G The cover provided by the policy should be wide enough to include the liability of the *firm*, its *appointed representatives*, its *tied agents*, *employees* and its agents for breaches under the *regulatory systems* or civil law. If the *firm* operates outside the *United Kingdom* then the policy should cover other regulatory requirements imposed under the laws of other countries in which the *firm* operates.
- FCA**

POLICIES PROVIDING FOR MORE THAN ONE FIRM

- 13.1.18 R If the policy provides cover to more than one *firm* then:
- FCA**
- (1) The relevant income for calculating the *limits of indemnity* is that of all the *firms* named in the policy combined;
 - (2) each *firm* named in the policy must have the benefit of the minimum *limits of indemnity* as required in this section; and
 - (3) each *firm* named in the policy must notify the *appropriate regulator* if the aggregate cover in the policy falls below the minimum *limits of indemnity*.

LIMITS OF INDEMNITY - ADDITIONAL REQUIREMENTS

- 13.1.19 R In addition to the specific requirements in 13.1.9R to 13.1.13R, the policy must make provision for the following:
- FCA**
- (1) for a *firm* with relevant income of more than £6,000,000, the aggregate limit identified in the table below:

Relevant income is (£)		Minimum aggregate <i>limit of indemnity</i> (£)
more than	up to	
6,000,000	7,000,000	1,150,000
7,000,000	8,000,000	1,300,000
8,000,000	9,000,000	1,450,000
9,000,000	10,000,000	1,600,000
10,000,000	12,500,000	2,000,000
12,500,000	15,000,000	2,400,000

15,000,000	17,500,000	2,800,000
17,500,000	20,000,000	3,150,000
20,000,000	25,000,000	3,800,000
25,000,000	30,000,000	4,250,000
30,000,000	35,000,000	4,500,000
35,000,000	40,000,000	4,750,000
40,000,000	50,000,000	5,500,000
50,000,000	60,000,000	6,000,000
60,000,000	70,000,000	6,750,000
70,000,000	80,000,000	7,250,000
80,000,000	90,000,000	7,750,000
90,000,000	100,000,000	8,500,000
100,000,000	150,000,000	11,250,000
150,000,000	200,000,000	14,000,000
200,000,000	250,000,000	17,000,000
250,000,000	300,000,000	19,750,000
300,000,000	n/a	22,500,000

- (2) **full retroactive cover in respect of the kinds of liabilities described in 13.1.9R for claims arising from work carried out by the *firm*, or on its behalf, in the past; and**
- (3) **cover in respect of *Ombudsman* awards made against the *firm*.**

LIMITATIONS

- 13.1.20 R The policy must not be subject to conditions or exclusions which unreasonably limit its cover (whether by exclusion of cover, by policy excesses or otherwise).

FCA

EXCLUSIONS

- 13.1.21 R The policy must not:

FCA

- (1) **exclude any type of business or activity that has been carried out by the *firm* in the past or will be carried out by the *firm* during the time for which the policy is in force; or**
- (2) **exclude liabilities which are identified or crystallised as a result of regulatory action against the *firm* (either individually or as a**

member of a class of *authorised persons*);

unless the *firm* holds additional capital resources, in accordance with 13.1.23R.

13.1.22 G (1) The *FCA* considers it reasonable for a *firm's* policy to exclude cover for:

FCA

- (a) specific business lines if that type of business has not been carried out by the *firm* in the past and will not be carried out by the *firm* during the life of the policy; or
 - (b) specific claims that have been previously notified to the *firm's insurer* and claimed for under another policy.
- (2) The *FCA* does not consider it reasonable for a *firm's* policy to treat legal defence costs cover as part of the *limits of indemnity* if this reduces the cover available for any individual substantive claim.

ADDITIONAL CAPITAL RESOURCES - EXCLUSIONS

13.1.23 R **The amount of additional capital resources that a *firm* must hold as a result of an exclusion under 13.1.21R should be calculated by referring to the *firm's* relevant income in the following table:**

FCA

Relevant income £000s		Minimum additional capital resources £000s (Notes 1 and 2)
more than	up to	
0	100	5
100	200	12
200	300	18
300	400	21
400	500	23
500	600	25
600	700	27
700	800	28
800	900	30
900	1,000	31
1,000	1,500	37
1,500	2,000	42

2,000	2,500	46
2,500	3,000	51
3,000	3,500	55
3,500	4,000	59
4,000	4,500	63
4,500	5,000	67
5,000	6,000	73
6,000	7,000	79
7,000	8,000	85
8,000	9,000	90
9,000	10,000	95
10,000	100,000	95y
100,000	n/a	950
Note 1 – For <i>firms</i> with relevant income of more than £10m but up to £100m value y is calculated by relevant income/ £10m.		
Note 2 – The calculation of a <i>firm's</i> capital resources is set out in sections 13.1A to 13.12 (see <i>rule</i> 13.1.1 for application of these sections to an <i>exempt CAD firm</i> and a <i>category B firm</i>).		

- 13.1.24 G The *firm* should hold additional capital resources in excess of those minimum amounts set out in the table in 13.1.23R where the required amounts of additional capital resources provide insufficient cover, taking into account the *firm's* individual circumstances.
- FCA**

EXCESS LEVEL

- 13.1.25 R The policy must not make provision for payment by the *firm* of an excess on any claim of more than £5,000, unless the *firm* holds additional capital resources, in accordance with 13.1.27R.
- FCA**

- 13.1.26 R The reference to "excess" is to the highest excess level required to be paid under the policy unless that excess relates to a type of business that has not been carried out by the *firm* in the past. In those circumstances, the reference is to the next highest excess level required by the policy applicable to a type of business that has been carried out by the *firm* in the past.
- FCA**

ADDITIONAL CAPITAL RESOURCES - EXCESS

13.1.27 R

FCA

The amount of additional capital resources that a *firm* must hold where the policy's excess on any claim is more than £5,000 must be calculated by referring to the *firm's* relevant income and excess obtained in the following table:

All amounts are shown in £000s (Notes 1 and 2)

Relevant income is		Excess obtained, up to and including											
more than	up to	5	10	15	20	25	30	40	50	75	100	150	200 +
0	100	0	4	7	9	12	14	18	21	28	34	45	54
100	200	0	7	11	14	17	20	25	29	38	46	59	70
200	300	0	9	14	18	21	24	30	35	45	54	69	82
300	400	0	11	16	21	24	28	34	39	50	60	77	91
400	500	0	13	18	23	27	30	37	43	55	66	83	98
500	600	0	14	20	25	29	33	40	46	59	70	89	105
600	700	0	16	22	27	31	35	42	49	63	74	94	111
700	800	0	17	23	28	33	37	45	52	66	78	99	117
800	900	0	18	24	30	35	39	47	54	69	82	103	122
900	1,000	0	19	26	31	36	41	49	56	72	85	107	126
1,000	1,500	0	23	31	37	43	48	57	66	83	99	124	146
1,500	2,000	0	26	35	42	48	54	64	73	93	109	138	161
2,000	2,500	0	29	38	46	53	59	71	81	102	121	152	179
2,500	3,000	0	32	42	51	58	65	78	89	112	132	166	195
3,000	3,500	0	35	46	55	63	71	84	96	121	142	179	210
3,500	4,000	0	38	50	59	68	76	90	102	129	152	191	223
4,000	4,500	0	41	53	63	72	80	95	108	137	161	202	236
4,500	5,000	0	43	56	67	76	85	100	114	144	169	212	248
5,000	6,000	0	48	62	73	84	93	110	125	157	185	231	271
6,000	7,000	0	52	67	79	90	101	119	135	169	199	249	291
7,000	8,000	0	56	72	85	97	107	127	144	181	212	265	310
8,000	9,000	0	59	76	90	103	114	134	152	191	224	280	328
9,000	1,0000	0	63	80	95	108	120	141	160	201	236	294	344
10,000	1,0000 0	0	63 y	80 y	95y	108 y	120 y	141 y	160 y	201 y	236 y	294 y	344 y
100,000	n/a	0	63 0	80 0	950	108 0	120 0	141 0	160 0	201 0	236 0	294 0	344 0
Note 1 - For <i>firms</i> with relevant income more of £10m but up to £100m value y is calculated by relevant income/ £10m.													

Note 2 – The calculation of a *firm's* capital resources is set out in sections 13.1A to 13.12 (see *rule* 13.1.1 for application of these sections to an *exempt CAD firm* and a *category B firm*).

NOTIFICATION REQUIREMENTS

- 13.1.28 R **A *firm* must notify the *FCA* immediately if it becomes aware, or has information which reasonably suggests, that any of the following matters in relation to its professional indemnity insurance has occurred, may have occurred or may occur in the foreseeable future:**
- FCA**
- (1) professional indemnity insurance cannot be obtained within 28 days of the inception or renewal date;
 - (2) professional indemnity insurance is cancelled;
 - (3) the amount of aggregate cover is exhausted;
 - (4) the *firm* commences business lines for which it had not obtained cover;
 - (5) the *firm* is relying on a policy cover for more than one *firm*; or
 - (6) the *firm* is relying on a comparable guarantee provided in accordance with the *rules* in this chapter.
- 13.1.29 G For the purposes of the provisions relating to professional indemnity insurance, “additional capital resources” means readily realisable *own funds*. The *FCA* expects items included in *own funds* to be regarded as “readily realisable” only if they can be realised, at any given time, within 90 days.
- FCA**

13.1A FINANCIAL RESOURCES REQUIREMENTS FOR AN EXEMPT CAD FIRM

Application

- 13.1A.1 R This section applies to a *personal investment firm* which is an *exempt CAD firm*.

FCA

Initial capital and professional indemnity insurance requirements

- 13.1A.2 R The financial resources requirement for a *personal investment firm* which is an *exempt CAD firm* is the higher of:

FCA

- (1) the requirement that is applied by section 13.1A; and
- (2) (a) the requirement that is applied by sections 13.2 to 13.8; or
(b) if it is an *opted-in exempt CAD firm*, the requirement that is applied by sections 13.9 to 13.12 (but reading references to *Category B firm* as references to the *firm*).

- 13.1A.3 R (1) A *firm* which is not an *IMD insurance intermediary* must

FCA

have:

- (a) *initial capital* of €50,000; or
- (b) professional indemnity insurance at least equal to the requirements of 13.1.11R and 13.1.15R to 13.1.27R; or
- (c) a combination of *initial capital* and professional indemnity insurance in a form resulting in a level of coverage equivalent to (a) or (b).

[Note: Article 67(3) of *MiFID* and Article 7 of *CAD* (see also rule 13.1.11R)]

- (2) If a *firm* chooses to comply with either (b) or (c) above, it must nevertheless have *initial capital* of at least £10,000.

13.1A.4 R

- (1) A *firm* that is also an *IMD insurance intermediary* must have professional indemnity insurance at least equal to the limits set out in 13.1.10R and in addition has to have:

FCA

- (a) *initial capital* of €25,000; or
- (b) professional indemnity insurance at least equal to the requirements of 13.1.12R and 13.1.15R to 13.1.27R; or
- (c) a combination of *initial capital* and professional indemnity insurance in a form resulting in a level of coverage equivalent to (a) or (b).

[Note: Article 67(3) of *MiFID* and Article 8 of *CAD* (see also rule 13.1.12R)]

- (2) If a *firm* chooses to comply with either (b) or (c) above, it must nevertheless have *initial capital* of at least £10,000.

13.1A.5 G

A trade-off between *initial capital* and professional indemnity insurance is appropriate such that € 1 of *initial capital* is the equivalent of professional indemnity insurance cover of € 20 for a single claim against the *firm* and € 30 in aggregate.

FCA

Initial capital

13.1A.6 R

A *firm's initial capital* consists of the sum of the following items:

FCA

- (1) ordinary *share capital* which is fully paid;
- (2) perpetual non-cumulative *preference share capital* which is fully paid;
- (3) *share premium account*;
- (4) reserves excluding revaluation reserves;

- (5) audited retained earnings;
- (6) externally *verified* interim net profits;
- (7) partners' capital;
- (8) *eligible LLP members' capital* (in accordance with the provisions of IPRU(INV) Annex A); and
- (9) *sole trader* capital.

Perpetual non-cumulative preference share capital

13.1A.7 R A firm may include *preference share* capital in *initial capital* only where any *coupon* on it is not cumulative, and the *firm* is under no obligation to pay a *coupon* in any circumstances.

FCA

Audited retained earnings

13.1A.8 R When calculating *initial capital*, a *firm* may include its audited retained earnings only after making the following adjustments:

FCA

- (1) a *firm* must not recognise the fair value reserves related to gains or losses on cash flow hedges of financial instruments measured at amortised cost;
- (2) in respect of a *defined benefit occupational pension scheme*, a *firm* must derecognise any *defined benefit asset*;
- (3) a *firm* must not include any unrealised gains from investment property (these should be reported as part of revaluation reserves);
- (4) where applicable, a *firm* must deduct any asset in respect of deferred acquisition costs and add back in any liability in respect of deferred income (but excluding from the deduction or addition any asset or liability which will give rise to future cash flows), together with any associated deferred tax.

Externally verified interim net profits or current account

13.1A.9 R A *firm* may include interim net profits or current account when calculating *initial capital* to the extent that they have been *verified* by the *firm's* external auditor and are net of any foreseeable tax, dividend and other appropriations.

FCA

13.1A.10 R When calculating *initial capital*, a *firm* may include its partners' capital only after making the following adjustments:

FCA

- (1) a *firm* must not recognise the fair value reserves related to gains or losses on cash flow hedges of financial instruments measured at amortised cost;
- (2) in respect of a *defined benefit occupational pension scheme*, a *firm* must derecognise any *defined benefit asset*;

- (3) where applicable, a *firm* must deduct any asset in respect of *deferred acquisition costs* and add back in any liability in respect of deferred income (but excluding from the deduction or addition any asset or liability which will give rise to future cash flows), together with any associated deferred tax.

Defined benefit pension scheme: defined benefit liability

13.1A.11 R For the calculation of *initial capital*, a *firm* may substitute for a *defined benefit liability* the *firm's deficit reduction amount*. The election must be applied consistently in respect of any one financial year.

FCA

13.1A.12 R A *firm* should keep a record of and be ready to explain to its supervisory contacts in the *FCA* the reasons for any difference between the *deficit reduction amount* and any commitment the *firm* has made in any public document to provide funding in respect of a *defined benefit occupational pension scheme*.

FCA

Ongoing capital requirements

13.1A.13 R A *firm* must, at all times, maintain a combination of professional indemnity insurance and *own funds*, at least equal to the requirements in this chapter for professional indemnity insurance and *initial capital*.

FCA

13.1A.14 R A *firm's initial capital*:

FCA

minus the sum of the items set out against **B**

plus the sum of the items set out against **C**

minus *material holdings* in *credit* and *financial institutions* and *material insurance holdings*

equals *own funds*.

13.1A.15 R Table 13.1A.15R

FCA

This table forms part of *rule 13.1A.14*

(1)	Investments in own shares at book value	B
(2)	Intangible assets	
(3)	Material current year losses	
(4)	Excess of current year drawings over current year profits	
(1)	Revaluation reserves	C
(2)	Perpetual cumulative preference share capital and debt capital	
(3)	Long-term subordinated loans (in accordance with <i>IPRU (INV) 13.5.5AR</i>)	
(4)	Fixed term preference share capital (if not	

	redeemable by shareholders within 5 years)	
--	--	--

Perpetual cumulative preference share capital

13.1A.16 R Perpetual cumulative preference *share* capital may not be included in the calculation of *own funds* unless it meets the following requirements:

FCA

- (1) it may not be reimbursed on the holder's initiative or without the prior agreement of the *FCA*;
- (2) the instrument must provide for the *firm* to have the option of deferring the dividend payment on the share capital;
- (3) the shareholder's claims on the *firm* must be wholly subordinated to those of all non-subordinated creditors;
- (4) the terms of the instrument must provided for the loss-absorption capacity of the share capital and unpaid dividends, whilst enabling the *firm* to continue its business; and
- (5) it must be fully paid-up.

Own funds – Restrictions

13.1A.17 R (1) In calculating *own funds*:

FCA

- (i) the total amount of revaluation reserves, perpetual cumulative preference *share* capital, long-term subordinated loans and fixed term preference *share* capital must not exceed 100% of *initial capital* minus the sum of the items set out against B; and
- (ii) the total amount of fixed term preference *share* capital and long-term subordinated loans must not exceed 50% of *initial capital* minus the sum of the items set out against B.

13.2 FINANCIAL RESOURCES TESTS

13.2.1 R An exempt CAD firm must meet:

FCA

- (1) [deleted]
- (2) Financial Resources Test 1A (the Adjusted *Net current assets* Test) calculated in accordance with section 13.4; and
- (3) Financial Resources Test 2 (the Expenditure-based Test) calculated in accordance with section 13.5.

13.2.2 G [deleted]

13.2.3 G Table 13A is a summary of the financial resources test for *exempt CAD firm*.

FCA

Table 13.A

This table forms part of guidance 13.2.3

SUMMARY OF FINANCIAL RESOURCES FOR EXEMPT CAD FIRMS			
Type of firm	Financial Resources Test 1A Adjusted <i>net current assets</i> Test	Financial Resources Test 2 Expenditure-based Test	Rules/section references
<i>Exempt CAD firm</i>	Adjusted net current assets of £1	Financial resources equal to the highest of 4/52 of Relevant Annual Expenditure or 13/52 of Relevant Annual Expenditure without <i>special adjustments</i> or £400 per <i>adviser</i>	13.1A.14 13.4 13.5.1D and 13.5.2 to 13.5.4
<i>Exempt CAD firm which is a network</i>	Adjusted net current assets of £1	Financial resources equal to the higher of 13/52 of Relevant Annual Expenditure or £400 per <i>adviser</i>	13.1A.14 13.4 13.5.1B and 13.5.2 to 13.5.4

13.4 FINANCIAL RESOURCES TEST 1A – ADJUSTED NET CURRENT ASSETS

13.4.1 R An *exempt CAD firm* must adjust its *net current assets* as follows:

FCA

- (1) exclude assets which cannot be realised or recovered within twelve months;
- (2) exclude amounts receivable from *connected persons* to the extent that they are not *properly secured*, except amounts that are *deposits* referred to at item (11) in Part I of table 13.5.4(1) or at item (11) in Part I of table 13.5.4(2);
- (3) value *investments* at current *market value*, using the *bid price* for a *net long position* in an investment and the *offer price* for a *net short position* in an investment;
- (4) where applicable, deduct any asset in respect of deferred acquisition costs and add back in any liability in respect of deferred income (but exclude from the deduction or addition any asset or liability which will give rise to future cash flows), together with any associated deferred tax.

13.4.2 R An *exempt CAD firm* must at all times have adjusted *net current assets* of at least £1.

FCA

13.5 FINANCIAL RESOURCES TEST 2 – EXPENDITURE-BASED REQUIREMENT

Requirement

13.5.1B R An *exempt CAD firm* which is a network must have financial resources calculated in accordance with whichever of (1), or (2) produces the

FCA

higher amount:

- (1) 13/52 of its relevant annual expenditure, calculated in accordance with *rule 13.5.2*; or
- (2) an amount equal to £400 multiplied by the number of its *advisers*.

13.5.1D R

FCA

- (1) [deleted]
- (2) An *exempt CAD firm* which is not permitted to carry on the activity of *managing investments* or to delegate such activity to an *investment firm* must have financial resources calculated in accordance with whichever of (3), (4) or (5) produces the highest amount.
- (3) Financial resources which taking into account all the *special adjustments* amount to 4/52 of its relevant annual expenditure calculated in accordance with *rules 13.5.2*; or
- (4) financial resources which disregarding all the *special adjustments* amount to 13/52 of its relevant annual expenditure, calculated in accordance with *rules 13.5.2*; or
- (5) financial resources taking into account all the *special adjustments* of an amount equal to £400 multiplied by the number of its *advisers*.

CALCULATION OF RELEVANT ANNUAL EXPENDITURE

13.5.2 R

FCA

- (1) An *exempt CAD firm* must calculate its relevant annual expenditure by reference to the amount described as total expenditure in its most recently prepared set of *annual financial statements*. If those statements were for a period other than 12 months, the amounts in the *firm's* profit and loss account must be adjusted proportionately.
- (2) Where an *exempt CAD firm* has just begun trading or has not been authorised long enough to submit such statements, the *firm* must calculate its relevant annual expenditure on the basis of forecast or other appropriate accounts submitted to the *FCA*.
- (3) An *exempt CAD firm* may, subject to *rule 13.5.3*, deduct from its total expenditure the items set out in table 13.5.2.

Table 13.5.2

This table forms part of *rule 13.5.2*

DEDUCTIONS FROM EXPENDITURE	
(a)	Staff bonuses (except to the extent that they are guaranteed);

- (b) *employees' and directors' shares* in profits (except to the extent that the amount is guaranteed);
- (c) other appropriations of profits;
- (d) shared commissions paid which are directly related to commissions received;
- (e) interest charges in respect of borrowing made to finance the acquisition of its *readily realisable investments*;
- (f) interest paid to *clients* on *client money*;
- (g) interest paid to *counterparties*;
- (h) fees, brokerage and other charges paid to *recognised clearing houses, exchanges and intermediate brokers* for the purposes of executing, registering or clearing transactions;
- (i) foreign exchange losses;
- (j) a *firm* must not deduct any exceptional expenditure.

- 13.5.2A G (1) Salaries of *directors* or partners are not eligible for deduction, except to the extent that they can be demonstrated to be non-fixed costs of the *firm*.
- FCA**
- (2) The deduction in item (c) is intended to cover forms of remuneration, other than those set out in (b), that are not fixed or guaranteed.

ADJUSTMENTS TO CALCULATION OF RELEVANT ANNUAL EXPENDITURE

- 13.5.3 R **A *firm* must ensure that the expenditure base properly reflects the ongoing annual operating costs of the *firm* by having proper regard to its circumstances when deciding whether to include or exclude any item of expenditure or to make any other adjustment to the calculation of relevant annual expenditure.**
- FCA**

- 13.5.3A G In *rule* 13.5.3 the *FCA* would expect a *firm* to take proper account of the effect of, for example, the ongoing annual operating costs of the *firm* being met by another party, or of a significant change in the structure of the *firm's* business during the year.
- FCA**

CALCULATION OF FINANCIAL RESOURCES TO MEET TESTS 1, 1A OR 2

- 13.5.4 R **An *exempt CAD firm* must be able to calculate its financial resources at any time on the basis of the balance sheet it could draw up at that time. For this purpose:**
- FCA**

- (1) [deleted]
- (2) **An *exempt CAD firm* must, adjust the assets in the balance sheet as specified in table 13.5.4(2) and include the liabilities after making the adjustments specified in table 13.5.4(2).**

- (3) the assets and liabilities in the balance sheet are also subject to the following adjustments:
- (a) a *firm* must deduct any unrealised gains or, where applicable, back in any unrealised losses on cash flow hedges of financial instruments measured at cost or amortised cost;
 - (b) in respect of a *defined benefit occupational pension scheme*, a *firm* must derecognise any *defined business asset*;
 - (c) a *firm* may substitute for a *defined benefit liability* the *firm's deficit reduction amount*. The election must be applied consistently in respect of any one financial year;
 - (d) where applicable, a *firm* must deduct any asset in respect of deferred acquisition costs and add back in any liability in respect of deferred income (but exclude from the deduction or addition any asset or liability which will give rise to future cash flows), together with any associated deferred tax.

FCA

This table forms part of *rule 13.5.4*

EXEMPT CAD FIRM		
ASSETS	CALCULATION	TYPE OF ADJUSTMENT
(1) Land and Buildings	Exclude in full. (A loan secured by a charge on land and buildings may be deducted from liabilities in accordance with item (14) of Part II of this table.	An Illiquid Adjustment
(2) <i>Investments</i>	Exclude in full the value of <i>shares in connected companies</i> . Include any <i>net long position</i> in any fixed or current asset investment (a) valued at its current <i>bid price</i> (or, in the case of a with profits <i>life policy</i> , at its surrender value), and (b) discounted by the applicable percentage specified in table 13.5.4A.	An Illiquid Adjustment A Position Risk Adjustment
(3) <i>Investments</i> subject to Repurchase, Reverse	Include <i>investments</i> for which the <i>firm</i> has entered as principal into a repurchase, reverse repurchase, stock borrowing or stock lending transaction.	A Position Risk Adjustment A Counterparty

Repurchase, Stock Borrowing or Stock Lending transactions	<p>after making (I) a deduction in accordance with item (2), and (II) a deduction calculated by</p> <p>(a) computing the <i>firm's</i> exposure (the difference between the <i>market value</i> of the <i>securities</i> and the loan or collateral (including accrued interest) where that difference is not in the <i>firm's</i> favour, after adjusting for any excess collateral), and</p> <p>(b) multiplying that exposure by the applicable percentage in table 13.5.4C.</p>	Risk Adjustment
(4) Debtors relating to Unsettled Securities Transactions - Cash against Documents	<p>Include debtors where the <i>firm</i> has entered into a transaction in <i>securities or units in collective investment schemes</i> as agent on a cash against documents basis and the transaction remains unsettled, after deducting an amount calculated by</p> <p>(a) computing the difference between the agreed settlement price for those <i>investments</i> and their current <i>market value</i> where that difference is not in the <i>firm's</i> favour, and</p> <p>(b) multiplying that difference by the applicable percentage specified in table 13.5.4B.</p>	A Counterparty Risk Adjustment
(5) Debtors relating to Unsettled Securities Transactions – Free Deliveries	<p>Where the <i>firm</i> has delivered <i>securities or units in collective investment schemes</i> before receiving payment for them, or paid for such <i>investments</i> before receiving certificates of good title for them, and not more than 3 days have passed since delivery, include debtors after deducting an amount calculated by</p> <p>(a) (i) (where the <i>firm</i> has delivered them) computing the full amount due to a <i>firm</i> under the contract;</p> <p>(ii) (where the <i>firm</i> has paid for them) computing their current <i>market value</i>; and</p> <p>(b) multiplying the amount or value at (a) by the applicable percentage specified in table 13.5.4C.</p> <p>Exclude debtors if more than 3 days have passed since delivery.</p>	A Counterparty Risk Adjustment An Illiquid Adjustment
(6) <i>Regulated collective investment</i>	Include an amount owing in respect of a transaction in <i>units</i> in a <i>regulated</i>	A Counterparty Risk Adjustment

<i>schemes</i>	<p><i>collective investment scheme</i> only</p> <p>(a) if the amount has been due and unpaid for less than 90 days after the settlement date of the transaction to which it relates, and</p> <p>(b) after discounting that amount by the applicable percentage specified in table 13.5.4C.</p> <p>Exclude amounts that have been due and unpaid for more than 90 days.</p>	An Illiquid Adjustment
(7) Debts of <i>group</i> or <i>connected companies</i>	<p>Include an amount due from <i>group</i> or <i>connected companies</i> (which does not relate to trade debts)</p> <p>(a) where the <i>firm</i> has no reason to doubt that it will be repaid in full on demand, and</p> <p>(b) after discounting the amount by the applicable percentage specified in table 13.5.4C.</p> <p>Exclude an amount that the <i>firm</i> has reason to doubt will be repaid in full on demand.</p>	A Counterparty Risk Adjustment An Illiquid Adjustment
(8) Debtors	<p>Include amounts due from debtors (including <i>group</i> or <i>connected companies</i>) which have been due and unpaid for less than 90 days, after discounting the amount by the applicable percentage specified in table 13.5.4C.</p> <p>Exclude amounts that have been due and unpaid for more than 90 days.</p>	A Counterparty Risk Adjustment An Illiquid Adjustment
(9) Prepayments	<p>Include the amount of prepayments which relate to goods or services to be received or performed within 90 days, after discounting the amount by the applicable percentage specified in table 13.5.4C.</p> <p>Exclude the amount of prepayments relating to more than 90 days.</p>	A Counterparty Risk Adjustment An Illiquid Adjustment
(10) Accrued income	<p>Include accrued income, including any such income not yet due and receivable in respect of fees earned in the performance of <i>investment management</i> services that is receivable within 90 days, after discounting the amount by the applicable percentage specified in table 13.5.4C.</p> <p>Exclude accrued income receivable</p>	A Counterparty Risk Adjustment An Illiquid Adjustment

	after 90 days.	
(11) <i>Deposits</i>	<p>Include amounts in respect of</p> <p>(a) cash and balances on current accounts and on <i>deposit</i> accounts with an <i>approved bank</i> or National Savings Bank which can be withdrawn within 90 days;</p> <p>(b) money on <i>deposit</i> with a UK local authority which can be withdrawn within 90 days;</p> <p>(c) money <i>deposited</i> and evidenced by a certificate of tax <i>deposit</i>.</p> <p>Exclude amounts which can only be withdrawn after 90 days.</p>	An Illiquid Adjustment
(12) Other amounts due from Government bodies or local authorities	<p>Include other amounts due from UK Government bodies or local authorities if they are agreed and due within 90 days, after discounting the amounts by the applicable percentage specified in table 13.5.4C.</p> <p>Exclude amounts that are not due to be paid within 90 days.</p>	<p>A Counterparty Risk Adjustment</p> <p>An Illiquid Adjustment</p>
(13) All other assets	<p>Exclude in full.</p> <p>If not otherwise excluded in full in this table, this category should include any holding in eligible capital instruments of an insurance undertaking, insurance holding company, or reinsurance undertaking that is a <i>subsidiary</i> or participation.</p> <p>Eligible capital instruments include ordinary share capital, cumulative preference shares, perpetual securities and long-term subordinated loans, that are eligible for insurance undertakings under PRU 2.</p>	An Illiquid Adjustment
Where applicable - <i>Large exposures</i>	Deduct an amount calculated in accordance with <i>rule</i> 13.6.2.	A <i>Large exposure</i> Adjustment

Table 13.5.4(2) Part II

FCA

This table forms part of rule 13.5.4

EXEMPT CAD FIRM		
LIABILITY	CALCULATION	TYPE OF ADJUSTMENT
(14) Secured Liabilities	<p>Include in full, except the amount of the liabilities secured by a charge on land and buildings which may be reduced by the smallest of the following amounts:</p> <p>(a) the aggregate amount of the <i>firm's</i> secured liabilities which are due more than one year after the balance sheet date;</p> <p>(b) (if the land and buildings have been valued by an independent professional valuer within the past 18 months) 85% of the amount certified by the valuer as their <i>market value</i>; and</p> <p>(c) 85% of the net book value of land and buildings.</p>	An Illiquid Adjustment
(15) Subordinated loans	<p>Include in full except any long term or short term subordinated loan in the standard form prescribed by the <i>FCA</i> which may be treated as capital up to the limits specified in <i>SUP</i> 16.</p>	
(16) Commission on indemnity terms from the sale of <i>life policies</i> or <i>pension contracts</i>	<p>Include as a liability a provision for repayment, in the event that premiums cease within the indemnity period, which must equal or exceed 2.5% of the commissions the <i>firm</i> has received on indemnity terms during the previous twelve months. This provision must be reasonable having regard to the <i>firm's</i> circumstances and, in particular, its previous lapse ratio.</p>	An Illiquid Adjustment

(17) <i>Investments</i> (Short Positions)	Include a <i>net short position</i> (a) valued at its <i>offer price</i> , and (b) increased by the applicable percentage specified in table 13.5.4A.	A Position Risk Adjustment
(18) Deficiency in <i>subsidiary</i>	Include as a liability the amount by which the liabilities of any <i>subsidiary</i> (excluding its capital and reserves) exceed its tangible assets. This requirement applies only to the extent that the <i>firm</i> has not already made such a provision elsewhere in its financial statements.	An Illiquid Adjustment
(19) Liability for tax	Include as a liability a provision for taxation on the whole of the profits of its business up to its balance sheet date.	An Illiquid Adjustment
(20) Creditors relating to Unsettled <i>Securities</i> Transactions Cash against Documents	Include creditors where a <i>firm</i> has entered into a transaction in <i>securities</i> or <i>units in collective investment schemes</i> as agent on a cash against documents basis, and the transaction remains unsettled, after adding an amount calculated by (a) computing the difference between the agreed settlement price for those <i>investments</i> and their current <i>market value</i> , and (b) multiplying that exposure by the applicable percentage specified in table 13.5.4B.	A Counterparty Risk Adjustment
(21) Creditors relating to Unsettled <i>Securities</i> Transactions Free Deliveries	Include an amount for creditors where (acting as agent) the <i>firm</i> has delivered certificates of title for <i>securities</i> or <i>units in collective investment schemes</i> before receiving payment for them, or where the <i>firm</i> has bought such <i>investments</i> before	A Counterparty Risk Adjustment

	<p>receiving certificates of good title for them, after adding an amount calculated by</p> <p>(a) (i) (where the <i>firm</i> has paid for them but not received certificates of good title for them) computing their current <i>market value</i>;</p> <p>(ii) (where the <i>firm</i> has delivered the certificates without receiving payment for them) computing the full amount due to a <i>firm</i> under the contract for sale; and</p> <p>(b) multiplying that exposure by the applicable percentage specified in table 13.5.4C.</p>	
(22) <i>Over the counter derivatives</i>	<p>Include as a liability an amount for its positions in such <i>derivatives</i> calculated by</p> <p>(a) computing the credit equivalent of those positions in accordance with table 13.5.4D, and</p> <p>(b) increasing that credit equivalent by the applicable percentage specified in table 13.5.4C, (in addition to making an adjustment in accordance with item (17) of this table and (in respect of bought <i>OTC</i> equity <i>options</i> and covered <i>warrants</i>) in accordance with item (25)).</p>	A Counterparty Risk Adjustment
(23) Contingent Liabilities	A <i>firm</i> must include a provision for any contingent liabilities which exist at its balance sheet date that must be made.	An Illiquid Adjustment
(24) Preference <i>Shares</i>	Include as a liability any amounts in excess of the amounts which may be treated as financial resources specified in table 13.3.2(2) and <i>SUP</i> 16.	
(25) <i>Net open foreign</i>	Include as a liability an	A Foreign Exchange Risk

<i>currency position</i>	amount in respect of its foreign exchange risk calculated in accordance with table 13.5.4E.	Adjustment
(26) All other liabilities	Include in full.

COUNTERPARTY RISK	
Type of Counterparty	Deduction
A counterparty which is, or the contract of which is, explicitly guaranteed by: - the government or central bank of the <i>United Kingdom</i> or another <i>Zone A country</i> ; or	NIL

- the <i>European Economic Area</i> ; or - any other government or central bank, provided the exposure is denominated in that country's national currency.	
A counterparty which is, or the contract of which is, explicitly guaranteed by: - a local authority or regional government in the <i>United Kingdom</i> or another <i>Zone A country</i> ; or - a credit institution authorised in the <i>United Kingdom</i> or another <i>Zone A country</i> ; or - a recognised <i>clearing house</i> or recognised investment exchange; or - an <i>investment firm</i> or a comparable undertaking regulated by a <i>recognised third country</i> .	1.6%
Any other counterparty	8%

Table 13.5.4D

FCA

This table forms part of *rule 13.5.4*

OVER THE COUNTER DERIVATIVES		
a. By attaching current <i>market values</i> to contracts (marking to market), obtain the current replacement cost of all contracts with positive values.		
b. To obtain a figure for potential future credit exposure (except in the case of single currency "floating/floating interest rate swaps" in which only the current replacement costs will be calculated), multiply the notional principal amounts or values underlying the <i>firm's</i> aggregate positions by the following percentages:		
Residual Maturity	Interest Rate Contracts	Foreign Exchange Contracts
One year or less	Nil	1%
More than 1 year	More than 1 year	5%
c. The credit equivalent is the sum of current replacement cost and potential future credit exposure.		

Table 13.5.4E

FCA

This table forms part of *rule 13.5.4*

FOREIGN EXCHANGE RISK

(a) A firm must deduct a foreign exchange risk requirement for all the following items which are denominated in a foreign currency:

- (i) all assets and liabilities, including accrued interest, denominated in the currency (all *investments* at market or realisable value);
- (ii) any currency future, at the nominal value of the contract;
- (iii) any forward contract for the purchase or sale of the currency, at the contract value, including any future exchange of principal associated with currency swaps;
- (iv) any foreign currency *options* at the net delta (or delta-based) equivalent of the total book of such *options*;
- (v) any non-currency option, at *market value*;
- (vi) any irrevocable guarantee;
- (vii) any other off-balance sheet commitment to purchase or sell an asset denominated in that currency.

(b) The requirement must be calculated as follows:

- (i) using the spot rate, convert the *net long position* and *net short position* in each foreign currency into the currency in which its *annual financial statements* are reported;
- (ii) total the *net open long positions* and the *net open short positions*;
- (iii) the higher of (i) and (ii) above is the *firm's net open foreign currency position*;
- (iv) multiply the *firm's net open foreign currency position* by 10%.

(c) A firm may not include any future income or expense not yet accrued but fully hedged (subject to deduction of an appropriate risk requirement).

SUBORDINATED LOANS

13.5.5 R An exempt CAD firm may treat a subordinated loan as a financial resource, as specified in table 13.1A.15R and subject to rule 13.5.5C, if the long term subordinated loan is eligible for such treatment in accordance with rule 13.5.5A.

FCA

13.5.5A R A long term subordinated loan is eligible for such treatment if:

FCA

- (1) it is fully paid up;
- (2) it has an original maturity of at least five years, or where it has no fixed term, it is subject to five years' notice of repayment;
- (3) repayment, prepayment or termination is only permitted under the loan agreement:
 - (a) on maturity, or on expiration of the period of notice, if after such payment or termination a *firm* meets 120% of its financial resource requirement; or
 - (b) on winding up after the claims of all other creditors and all

outstanding debts have been settled;

- (4) the amount used in the calculation of its financial resources is reduced on a straight line basis over the last five years of its term;
- (5) it is in the standard form prescribed by the *appropriate regulator* for long term subordinated loans.

13.5.5C R The total amount of long term subordinated loans that an *exempt CAD firm* may include in the calculation of its financial resources is restricted as stipulated in 13.1A.17R and in *SUP 16*.

FCA

13.7.2B R An *exempt CAD firm* must, where it is *exposed* to undue risk in consequence of its membership of a *group*, provide against, reduce or eliminate that risk.

FCA

13.9 FINANCIAL RESOURCES TESTS FOR CATEGORY B FIRMS

13.9.1 R A *Category B firm* must meet:

FCA

- (1) financial Resources Test 1 (the *Own funds Test*) calculated in accordance with section 13.10;
- (2) Financial Resources Test 1A (the *Adjusted Net current assets Test*) calculated in accordance with section 13.11, unless the *firm* is a *low resource firm* which is not permitted to carry on the activity of *managing investments* in respect of portfolios containing only *life policies*; and
- (3) Financial Resources Test 2 (the *Expenditure-based Test*) calculated in accordance with section 13.12 unless the *firm* is a *low resource firm*.

13.9.1A G Table 13B is a summary of the financial resources test for a *Category B firm*.

13.10 FINANCIAL RESOURCES TEST 1- OWN FUNDS REQUIREMENT

Requirement

13.10.1 R A Category B firm's own funds must at all times be at least £10,000.

FCA

Calculation

13.10.2 R A Category B firm's own funds must be calculated in accordance with table 13.10(2).

FCA

Table 13.10(2).

This table forms part of rule 13.10.2

OWN FUNDS	
Companies	Sole Traders: Partnerships
Paid-up <i>share</i> capital (excluding preference shares redeemable by shareholders within 2 years) <i>Eligible LLP members' capital</i> Share premium account Retained profits (see 13.10.2AR) and interim net profits (Note 1) Revaluation reserves Short-term subordinated loans <i>Debt capital</i>	Balances on proprietor's or partners' - capital accounts - current accounts (see 13.10.2AR) Revaluation reserves Short-term subordinated loans
less - Intangible assets - Material current year losses - <i>Excess LLP members' drawings</i>	less - Intangible assets - Material current year losses - Excess of current year - drawings over current year profits
<p>Note 1</p> <p>Retained profits must be audited and interim net profits must be verified by the <i>firm's</i> external auditor, unless the <i>firm</i> is exempt from the provisions of Part VII of the Companies Act 1985 (section 294A (Exemptions from audit)), or where applicable, Part 16 of the Companies Act 2006 (section 477 (Small companies: Conditions for exemption from audit)) relating to the audit of accounts.</p>	

13.10.2A R For the purpose of calculating a Category B firm's own funds, the following adjustments apply to retained profits or, (for non-corporate entities), current accounts figures.

FCA

- (1) a Category B firm must deduct any unrealised gains or, where applicable, add back in any unrealised losses on cash flow hedges of financial instruments measured at cost or amortised cost;**
- (2) a Category B firm must derecognise any defined benefit asset;**
- (3) a Category B firm may substitute for a defined benefit liability its deficit reduction amount. The election must be applied**

consistently in respect of any one financial year.

- (4) a **Category B firm** must deduct any unrealized gains on investment property and include these within revaluation reserves.
- (5) where applicable, a **Category B firm** must deduct any asset in respect of deferred acquisition costs and add back in any liability in respect of deferred income (but exclude from the deduction or addition any asset or liability which will give rise to future cash flows), together with any associated deferred tax.

13.10.2B G A *firm* should keep a record of and be ready to explain to its supervisory contacts in the *FCA* the reasons for any difference between the *deficit reduction amount* and any commitment the *firm* has made in any public document to provide funding in respect of a *defined benefit occupational pension scheme*.

FCA

Where a *Category B firm* is a sole trader or a partnership:

- (1) it can use (to the extent necessary to make up any shortfall in the required resources) any of its personal assets (not being needed to meet liabilities arising from its personal activities and any business activities not regulated by the *FCA*);
- (2) the *firm's* total financial resources, from whatever source, must at all times be sufficient to cover its total liabilities.

13.10.3 R (1) Where a **Category B3 firm** with 1-25 advisers has a facility under the **PASS Loan Agreement Scheme** it may make an adjustment in its *own funds* calculation in accordance with (2).

FCA

- (2) a *firm* in (1) can regard as additional to its *own funds* the lower of either:
 - (a) the amount of the loan facility agreed (less any loan repayments already made and less the amount of the facility withdrawn or lapsed); or
 - (b) the amount of the *firm's* provision for redress (net of any professional indemnity insurance recoverable) at the time of its application for the loan facility.

13.11 FINANCIAL RESOURCES TEST 1A - ADJUSTED NET CURRENT ASSETS

Application

13.11.1 R This section does not apply to a *low resource firm*.

FCA

Requirement

13.11.2 R A **Category B firm** must adjust its *net current assets* as follows:

FCA

- (1) exclude assets which cannot be realised or recovered within twelve months;
- (2) exclude amounts receivable from *connected persons* to the extent that they are not *properly secured*, except amounts that are *deposits* referred to in item (11) of table 13.12.3(1) or item (11) in table 13.12.3(2);
- (3) value *investments* at current *market value*, using the *bid price* for a *net long position* in an investment and the *offer price* for a *net short position* in an investment;
- (4) where applicable, deduct any asset in respect of deferred acquisition costs and add back in any liability in respect of deferred income (but exclude from the deduction or addition any asset or liability which will give rise to future cash flows), together with any associated deferred tax.

13.11.3 R A *Category B firm* must at all times have adjusted *net current assets* of at least £1.

FCA

13.12 FINANCIAL RESOURCES TEST 2 - EXPENDITURE-BASED REQUIREMENT

13.12.1 Application

13.12.1A R This section does not apply to a *low resource firm*.

FCA

Requirement

13.12.1B R A *Category B firm* must have at all times financial resources calculated in accordance with *rules* 13.12.2 to 13.12.5 which equal or exceed the amount specified in *rules* 13.12.1C to F as applicable.

FCA

13.12.1C R A *Category B1 firm*, including a *Network* must have financial resources calculated in accordance with whichever of (1), (2) or (3) produces the higher amount.

FCA

- (1) 13/52 of its relevant annual expenditure, calculated in accordance with 13.12.2 to 13.12.2D; or
- (2) an amount equal to £400 multiplied by the number of its *advisers*; or
- (3) £10,000;

13.12.1D R (1) A *Category B2 firm* which is permitted to carry on the activity of *investment management* in respect of portfolios containing only *life policies* or to delegate such activity to an *investment firm* must have financial resources calculated in accordance with whichever of (3) or (4) produces the higher amount.

FCA

- (2) A *Network* in Category B2 or B3 must have financial resources calculated in accordance with whichever of (3) or (4) produces

the higher amount.

- (3) 13/52 of its relevant annual expenditure, calculated in accordance with 13.12.2 to 13.12.2D; or
- (4) an amount equal to £400 multiplied by the number of its *advisers*.

13.12.1E R

FCA

- (1) A *Category B2 firm* with more than 25 *advisers* which is not a *Network* and is not permitted to carry on the activity of *managing investments* in respect of portfolios containing only *life policies* or to delegate such activity to an *investment firm* must have financial resources calculated in accordance with whichever of (3) or (4) produces the higher amount.
- (2) A *Category B3 firm* which is permitted to carry on the activity of *investment management* in respect of portfolios containing only *life policies* or to delegate such activity to an *investment firm* must have financial resources calculated in accordance with whichever of (3) or (4) produces the higher amount.
- (3) 8/52 of its relevant annual expenditure, calculated in accordance with 13.12.2 to 13.12.2D; or
- (4) an amount equal to £400 multiplied by the number of its *advisers*.

13.12.1F R

FCA

- (1) A *Category B2 firm* with fewer than 26 *advisers* which is not a *Network* and is not permitted to carry on the activity of *managing investments* in respect of portfolios containing only *life policies* or to delegate such activity of *investment management* to an *investment firm* must have financial resources calculated in accordance with whichever of (3) or (4) produces the higher amount.
- (2) A *Category B3 firm* which is not permitted to carry on the activity of *investment management* in respect of portfolios containing only *life policies* or to delegate such activity to an *investment firm* must have financial resources calculated in accordance with whichever of (3) or (4) produces the higher amount.
- (3) 4/52 of its relevant annual expenditure, calculated in accordance with 13.12.2 to 13.12.2D; or
- (4) an amount equal to £400 multiplied by the number of its *advisers*.

13.12.1G R

FCA

A *category B firm* whose permission includes *establishing, operating or winding up a personal pension scheme* must have financial resources calculated in accordance with (1) or (2):

- (1) For a *firm* which holds *client money* or assets, the highest of:
 - (a) 13/52 of its relevant annual expenditure, calculated in accordance with 13.12.2 to 13.12.2D;
 - (b) an amount equal to £400 multiplied by the number of its

advisers; and

(c) £10,000.

(2) For a *firm* which does not hold client money or assets, the highest of:

(a) 6/52 of its relevant annual expenditure, calculated in accordance with 13.12.2 to 13.12.2D;

(b) an amount equal to £400 multiplied by the number of its advisers;

(c) £10,000; and

(d) any other expenditure-based requirement set out in 13.12.1 applicable to the *firm*.

Calculation of Relevant Annual Expenditure

13.12.2 R A *Category B firm* must calculate its relevant annual expenditure by reference to the amount described as total expenditure in its most recently prepared set of *annual financial statements*. If those statements were for a period other than 12 months, the amounts in its profit and loss account must be adjusted proportionately.

FCA

13.12.2A R Where a *Category B firm* has just begun trading or have not been

FCA

authorised long enough to submit such statements the *firm* must calculate its relevant annual expenditure on the basis of forecast or other appropriate accounts submitted to the *FCA*.

13.12.2B R A *Category B firm* may deduct from its relevant annual expenditure items (a) to (f) set out in table 13.12.2, unless the *firm* is a *Category B1 firm*, in which case it may not deduct item (e).

FCA

Table 13.12.2

This table forms part of *rule 13.12.2*

DEDUCTIONS FROM EXPENDITURE	
(a)	staff bonuses;
(b)	<i>employees' and directors' shares</i> in profits;
(c)	interest charges in respect of borrowing made to finance the acquisition of its <i>readily realisable investments</i> ;
(d)	shared commissions paid which are directly related to commissions received;

(e)	emoluments of <i>directors</i> , partners or a sole trader;
(f)	a <i>firm</i> must not deduct any exceptional expenditure.

Adjustments to Calculation of Relevant Annual Expenditure

13.12.2C R **A *firm* must ensure that the expenditure base properly reflects the ongoing annual operating costs of the *firm* by having proper regard to its circumstances when deciding whether to include or exclude any item of expenditure or to make any other adjustment to the calculation of relevant annual expenditure.**

FCA

13.12.2D G In *rule* 13.12.2C the *FCA* would expect a *firm* to take proper account of the effect of, for example, the ongoing annual operating costs of the *firm* being met by another party, or of a significant change in the structure of the *firm's* business during the year.

FCA

Calculation of Financial Resources to meet Tests 1, 1a or 2

13.12.3 R (1) This *rule* does not apply to a *low resource firm*;

FCA

- (2) A *Category B firm* must be able to calculate its financial resources at any time on the basis of the balance sheet the *firm* could draw up at that time. For this purpose:**
- (a) a *Category B1 firm* must adjust the assets in the balance sheet as specified in Part I of table 13.12.3(1) and include the liabilities after making the adjustments specified in Part II of table 13.12.3(1);**
 - (b) a *Category B2 or B3 firm* to which 13.12 applies must adjust the assets in the balance sheet as specified in Part I of table 13.12.3(2) and include the liabilities after making the adjustments specified in Part II of table 13.12.3(2).**
- (3) the assets and liabilities in the balance sheet are also subject to the following adjustments:**
- (a) a *Category B firm* must deduct any unrealised gains or, where applicable, add back in any unrealised losses on cash flow hedges of financial instruments measured at cost or amortised cost;**
 - (b) in respect of a *defined benefit occupational pension scheme*, a *Category B firm* must derecognise any *defined benefit asset*;**
 - (c) a *Category B firm* may substitute for a *defined benefit liability* the *firm's deficit reduction amount*. The election must be applied consistently in respect of any one financial year;**
 - (d) where applicable, a *Category B firm* must deduct any asset in respect of deferred acquisition costs and add**

back in any liability in respect of deferred income (but exclude from the deduction or addition any asset or liability which will give rise to future cash flows), together with any associated deferred tax.

Table 13.12.3(1) Part I

FCA

This table forms part of *rule 13.12.3*

FIRMS CATEGORY B1	
Calculation of Assets	
ASSETS	ADJUSTMENTS
(1) Land and Buildings	Exclude in full. (A loan secured by a charge on land and buildings may be deducted from liabilities in accordance with item (14) of Part II of this table.)
(2) <i>Investments</i>	<p>Include any <i>net long position</i> in any fixed or current asset investment (including <i>shares</i> in any connected company)</p> <p>(a) valued at its current <i>bid price</i> (or, in the case of a with-profits <i>life policy</i>, at its surrender value), and</p> <p>(b) discounted by the applicable percentage specified in table 13.12.3A.</p> <p>A <i>firm</i> which acts as a market-maker in second-hand <i>life policies</i> must comply with the relevant requirements in respect of second-hand <i>life policies</i> held by the <i>firm</i> and include such a <i>policy</i>.</p> <p>(a) valued at its surrender value at the date on which the <i>firm</i> acquired it, or its latest available surrender value if different.</p> <p>(b) where a life office whose <i>policy</i> is held by the <i>firm</i> has altered adversely the basis on which it calculates surrender values, the <i>firm</i> must revise its valuation of the second-hand <i>policy</i> as soon as practicable after becoming aware of the alteration.</p>
(3) Investments subject to Repurchase, Reverse Repurchase, Stock Borrowing or Stock Lending transactions	Include <i>investments</i> for which the <i>firm</i> has entered as principal into a repurchase, reverse repurchase, stock borrowing or stock lending transaction on its own behalf, after making (I) a deduction in accordance with item (2), and (II) a deduction calculated by computing its exposure (the difference between the <i>market value</i> of the <i>securities</i> and the loan or collateral (including accrued interest) where that difference is not in the <i>firm's</i> favour, after adjusting for any excess collateral).
(4) Debtors relating to Unsettled Securities Transactions Cash against	<p>Include debtors where the <i>firm</i> has entered into a transaction on its own behalf in <i>securities</i> or <i>units in collective investment schemes</i> on a cash against documents basis, and the transaction remains unsettled, after deducting an amount calculated by</p> <p>(a) computing the difference between the agreed settlement price for those <i>investments</i> and their current <i>bid price</i> where that</p>

Documents	<p>difference is not in the <i>firm's</i> favour, and</p> <p>(b) multiplying that difference by the applicable percentage specified in table 13.12.3B.</p>
(5) Debtors relating to Unsettled Securities Transactions Free Deliveries	<p>(a) Include the full amount due to the <i>firm</i> from debtors if a <i>firm</i> has delivered <i>securities</i> or <i>units in collective investment schemes</i> before receiving payment for them, or paid for such <i>investments</i> before receiving certificates of good title for them, so long as not more than three days have passed since delivery</p> <p>(b) If more than three days have passed since delivery, exclude in full.</p>
(6) <i>Regulated collective investment schemes</i>	<p>Include an amount owing in respect of a transaction in <i>units</i> in a <i>regulated collective investment scheme</i> only if the amount has been due and unpaid for 30 days or less after the settlement date of the transaction to which it relates.</p>
(7) Loans secured on <i>investments</i>	<p>If the <i>firm</i> holds client title documents as security for</p> <p>(a) the repayment of money it has lent; or</p> <p>(b) money due to the <i>firm</i> in connection with the purchase for or sale to another person of those <i>investments</i>, which the <i>firm</i> has for genuine commercial reasons agreed to postpone, the <i>firm</i> may include as an asset the lower of the following:</p> <p>(i) the total amount due;</p> <p>(ii) the <i>market value</i> of the <i>investments</i> multiplied by the appropriate rates set out in table 13.12.3A.</p>
(8) Trade debtors	<p>Include amounts owing only in respect of</p> <p>(a) (i) commission;</p> <p>(ii) <i>investment management</i> fees;</p> <p>(iii) other fees earned in connection with the <i>firm's investment business</i>, which are due from other authorised or <i>EEA firms</i>, <i>recognised investment exchanges</i> or <i>recognised clearing houses</i> and have been due and unpaid for 30 days or less;</p> <p>(b) (i) <i>investment management</i> fees; or</p> <p>(ii) pensions administration which have been due from its customers and unpaid for 30 days or less.</p> <p>(c) All other trade debtors must be deducted in full.</p>
(9) Prepayments	<p>Include prepayments which relate to goods or services to be received or performed within 90 days.</p>
(10) Accrued income	<p>(a) Accrued income relating to <i>investment management</i> fees not yet due and payable may be included if the fees relate to services provided within the previous six months.</p> <p>(b) Other accrued income may be included if it relates to interest on marketable debt instruments or on <i>deposits</i> included in item (11).</p>
(11) <i>Deposits</i>	<p>The following may be included:</p> <p>(a) cash and balances on current accounts and on <i>deposit</i> accounts with an <i>approved bank</i> or National Savings Bank which can be withdrawn within 90 days;</p>

	<p>(b) money on <i>deposit</i> with a UK local authority which can be withdrawn within 90 days;</p> <p>(c) money <i>deposited</i> and evidenced by a certificate of tax <i>deposit</i>.</p>
(12) Other Debts	<p>(a) Amounts owing in respect of</p> <p>(i) interest on <i>investments</i>;</p> <p>(ii) repayments of marketable debt instruments at maturity or call;</p> <p>(iii) dividends declared by authorised or not <i>EEA firms</i> or by companies in respect of <i>shares</i> listed on a recognised or designated investment exchange;</p> <p>which have been due and unpaid for 30 days or less may be included.</p> <p>(b) Other amounts due from UK government bodies may be included if they are agreed and due within 30 days.</p>
(13) All other assets	Exclude in full.

Table 13.12.3(1) Part II

FCA

This table forms part of *rule 13.12.3*

FIRMS IN CATEGORY B1	
Calculation of Liabilities	
LIABILITIES	ADJUSTMENTS
(14) Secured Liabilities	<p>Include in full, except the amount of the liabilities secured by a charge on land and buildings which may be reduced by the smallest of the following amounts:</p> <p>(a) the aggregate amount of the <i>firm's</i> secured liabilities which are due more than one year after the balance sheet date;</p> <p>(b) (if the land and buildings have been valued by an independent professional valuer within the past 18 months) 85% of the amount certified by the valuer as their <i>market value</i>;</p> <p>(c) 85% of the net book value of the land and buildings.</p>
(15) Subordinated loans	Include in full, except any short-term subordinated loan in the standard form prescribed by the <i>FCA</i> which may be treated as capital up to the limits specified in <i>rules 13.12.5</i> and <i>13.12.5A</i> .
(16) Commission on indemnity terms from the	Include as a liability a provision for repayment, in the event that premiums cease within the indemnity period, which must equal or exceed 2.5% of the commissions the <i>firm</i> has received on indemnity terms during the previous twelve

sale of <i>life policies</i> or <i>pension contracts</i>	months. This provision must be reasonable having regard to its circumstances and, in particular, its previous lapse ratio.
(17) Short Positions	Include a <i>net short position</i> (a) valued at its <i>offer price</i> and (b) increased using the applicable percentage rate in table 13.12.3A.
(18) Deficiency in <i>subsidiary</i>	Include as a liability the amount by which the liabilities of any <i>subsidiary</i> (excluding its capital and reserves) exceed its tangible assets. This requirement applies only to the extent that the <i>firm</i> has not already made such a provision elsewhere in its financial statements.
(19) Liability for tax	Include as a liability a provision for taxation on the whole of the profits of the <i>firm's</i> business up to its balance sheet date.
(20) Creditors relating to Unsettled <i>Securities</i> Transactions – Cash against Documents	Include creditors where the <i>firm</i> has entered into a transaction on its own behalf in <i>securities</i> or <i>units in collective investment schemes</i> on a cash against documents basis, and the transaction remains unsettled, after adding an amount calculated by (a) computing the difference between the agreed settlement price for those <i>investments</i> and their current <i>market value</i> where that difference is not in the <i>firm's</i> favour, and (b) multiplying that difference by the applicable percentage specified in table 13.12.3B.
(21) Creditors relating to Unsettled <i>Securities</i> Transactions – Free Deliveries	Include an amount for creditors where (acting on the <i>firm's</i> own behalf) the <i>firm</i> has delivered certificates of title for <i>securities</i> or <i>units in collective investment schemes</i> before receiving payment for them, or where a <i>firm</i> has bought such <i>investments</i> before receiving certificates of good title for them, as follows: (a) (if the <i>firm</i> has paid for them and not more than 3 days have passed since the payment was made) include in full: (b) (if more than 3 days have passed since the payment was made) include the full value of the <i>securities</i> at their current <i>offer price</i> .
(22) <i>Over the counter derivatives</i>	If the <i>firm</i> holds positions in <i>derivatives</i> on its own behalf must (a) make the adjustment in item (17) of this table, and (b) deduct the credit equivalent of those positions computed in accordance with table 13.12.3C. In addition, bought <i>OTC options</i> and covered <i>warrants</i> will be subject to table 13.12.3D.
(23) Contingent Liabilities	A <i>firm</i> must include a provision for any contingent liabilities which exist at its balance sheet date that must be made.
(24) Redeemable	Include as a liability any redeemable preference <i>shares</i> which fall due within two years. If <i>shares</i> are not redeemable by the

Preference Shares	shareholder within 2 years, they must be treated in accordance with <i>rules</i> 13.12.5 and 13.12.5A.
(25) Foreign currency risk	If the <i>firm</i> holds positions on its own behalf in foreign currencies or has assets or liabilities denominated in foreign currencies, the <i>firm</i> must calculate a provision to cover the risk in accordance with table 13.12.3D and include the amount as a liability
(26) All other liabilities	Include in full.

Table 13.12.3(2) Part I

FCA

This table forms part of *rule* 13.12.3

FIRMS IN CATEGORIES B2 AND B3 (except low resource firms)	
Calculation of Assets	
ASSETS	ADJUSTMENTS
(1) Land and Buildings	Include land and buildings which are not subject to any charge only if they have been valued either (a) at 60% of their net book value, or (b) (if valued by an independent professional valuer within the past three years) at 60% of the amount certified by the valuer to be the <i>market value</i> .
(2) Motor vehicles	(a) Include motor vehicles acquired less than 12 months ago valued at 50% of their cost (b) Include motor vehicles acquired within the past 24 months (but more than 12 months ago) valued at 25% of their cost (c) Exclude in full any other motor vehicles.
(3) <i>Investments</i>	Include any <i>net long position</i> in any fixed or current asset investment (including <i>shares</i> in any connected company) (a) valued at its current <i>bid price</i> (or, in the case of a with-profits <i>life policy</i> , at its surrender value), and (b) discounted by the applicable percentage specified in table 13.12.3A.
(4) Debtors relating to Unsettled <i>Securities</i> Transactions Cash against	Include debtors where the <i>firm</i> has entered into a transaction on its own behalf in <i>securities</i> or <i>units in collective investment schemes</i> on a cash against documents basis, and the transaction remains unsettled, after deducting an amount calculated by (a) computing the difference between the agreed settlement price

Documents	for those <i>investments</i> and their current <i>bid price</i> where that difference is not in the <i>firm's</i> favour, and (b) multiplying that difference by the applicable percentage specified in table 13.12.3B.
(5) Debtors relating to Unsettled Securities Transactions Free Deliveries	(a) Where the firm has delivered securities or units in collective investment schemes before receiving payment for them or paid for such investments before receiving certificates of good title for them include the full amount due to a firm from debtors so long as not more than 3 days have passed since delivery. (b) Exclude in full if more than 3 days have passed since delivery.
(6) <i>Regulated collective investment schemes</i>	Include an amount owing in respect of a transaction in <i>units</i> in a <i>regulated collective investment scheme</i> only if the amount has been due and unpaid for 30 days or less after the settlement date of the transaction to which it relates.
(7) Debts of group or connected companies	Include amounts due from group or connected companies (which do not relate to trade debts) where a firm has no reason to doubt that repayment will be made in full on demand.
(8) Trade debtors	Include amounts due from trade debtors (including <i>group or connected companies</i>) which have been due and unpaid for less than 90 days.
(9) Prepayments	Include prepayments which relate to goods or services to be received or performed within 90 days.
(10) Accrued income	(a) Include accrued income not yet due and payable in respect of fees earned in the performance of <i>investment management</i> services that is receivable within six months. (b) Include any other accrued income receivable within 90 days.
(11) <i>Deposits</i>	The following may be included: (a) cash and balances on current accounts and on <i>deposit</i> accounts with an <i>approved bank</i> or National Savings Bank which can be withdrawn within 90 days; (b) money on <i>deposit</i> with a UK local authority which can be withdrawn within 90 days; (c) money <i>deposited</i> and evidenced by a certificate of tax <i>deposit</i> .
(12) Other amounts due from Government bodies or local authorities	Include other amounts due from UK Government bodies or local authorities if they are agreed and due within 90 days.
(13) All other assets	Exclude in full.

Calculation of Liabilities	
LIABILITIES	ADJUSTMENTS
(14) Secured Liabilities	<p>Include in full, except the amount of the liabilities secured by a charge on land and buildings which may be reduced as follows:</p> <p>(a) If the liabilities secured exceed 85% of the value of the land and buildings, then the excess is treated as a liability;</p> <p>(b) If the land and buildings have been valued by an independent professional valuer within the past three years, the value of the land and buildings is the amount certified by the valuer as their <i>market value</i>; otherwise it is their net book value.</p> <p>(If 60% of the value of the land and buildings which are subject to a charge exceeds the liabilities secured, then the amount of that excess may be treated as an asset.)</p>
(15) Subordinated loans	<p>Include in full, except any short-term subordinated loan in the standard form prescribed by the <i>FCA</i> which may be treated as capital up to the limits specified in <i>rules 13.12.5</i> and <i>13.12.5A</i>.</p>
(16) Commission on indemnity terms from the sale of <i>life policies</i> or <i>pension contracts</i>	<p>Include as a liability a provision for repayment, in the event that premiums cease within the indemnity period, which must equal or exceed 2.5% of the commissions the <i>firm</i> has received on indemnity terms during the previous twelve months. This provision must be reasonable having regard to its circumstances and, in particular, its previous lapse ratio.</p>
(17) Short Positions	<p>Include a <i>net short position</i></p> <p>(a) valued at its <i>offer price</i>, and</p> <p>(b) increased using the applicable percentage rate in table 13.12.3A.</p>
(18) Deficiency in <i>subsidiary</i>	<p>Include as a liability the amount by which the liabilities of any <i>subsidiary</i> (excluding its capital and reserves) exceed its tangible assets. This requirement applies only to the extent that the <i>firm</i> has not already made such a provision elsewhere in its financial statements.</p>
(19) Liability for tax	<p>Include as a liability a provision for taxation on the whole of the profits of its business up to its balance sheet date.</p>
(20) Unsettled <i>Securities Transactions - Cash against Documents</i>	<p>Include creditors where the <i>firm</i> has entered into a transaction on its own behalf in <i>securities</i> or <i>units in collective investment schemes</i> on a cash against documents basis, and the transaction remains unsettled, after adding an amount calculated by</p>

	<p>(a) computing the difference between the agreed settlement price for those <i>investments</i> and their current <i>market value</i> where that difference is not in the <i>firm's</i> favour, and</p> <p>(b) multiplying that difference by the applicable percentage specified in table 13.12.3B.</p>
(21) Creditors relating to Unsettled Securities Transactions – Free Deliveries	<p>Include an amount for creditors where (acting on its behalf) the <i>firm</i> has delivered certificates of title for <i>securities</i> or <i>units in collective investment schemes</i> before receiving payment for them, or where a <i>firm</i> has bought such <i>investments</i> before receiving certificates of good title for them, as follows:</p> <p>(a) (if the <i>firm</i> has paid for them and not more than 3 days have passed since the payment was made) include in full:</p> <p>(b) (if more than 3 days have passed since the payment was made) include the full value of the <i>securities</i> at the current <i>offer price</i>.</p>
(22) <i>Over the counter derivatives</i>	<p>Include as a liability an amount for any positions the <i>firm</i> holds on its own behalf in such <i>derivatives</i> calculated by computing the credit equivalent of those positions in accordance with table 13.12.3C. In addition, bought <i>OTC derivatives</i> and covered <i>warrants</i> will be subject to table 13.12.3D.</p>
(23) Contingent Liabilities	<p>A <i>firm</i> must include a provision for any contingent liabilities which exist at its balance sheet date that must be made.</p>
(24) Long term liabilities	<p>Include as a liability any amount which falls due more than 3 years from the balance sheet date and is due to <i>connected persons</i>, in accordance with <i>rules</i> 13.12.5 and 13.12.5A.</p>
(25) Redeemable Preference Shares	<p>Include as a liability any redeemable preference <i>shares</i> which fall due within two years. If <i>shares</i> are not redeemable by the shareholder within two years, they must be treated in accordance with <i>rules</i> 13.12.5 and 13.12.5A.</p>
(26) <i>Net open foreign currency position</i>	<p>A <i>firm</i> must calculate its foreign exchange risk requirement in accordance with table 13.12.3D and include the amount as a liability.</p>
(27) All other liabilities	<p>Include in full.</p>

Table 13.12.3A

FCA

This table forms part of *rule* 13.12.3

DISCOUNTS FOR INVESTMENTS
The percentages in the table are applied to the <i>market value</i> (unless otherwise stated) or <i>gross positions</i> , i.e. both longs and shorts in each category; netting and

offsetting are prohibited. The long or short position in a particular investment is the net of any long or short positions held in that same investment.

Investment	Discount
A. Debt	
UK Government or local authority stocks:	
- with less than one year to final redemption	2%
- with more than one year but less than five years to final redemption	5%
- with five years or more to final redemption	10%
Debt security:	
- debt instruments issued or accepted by an <i>approved bank</i> with less than 90 days to final redemption	2%
- other debt instruments which are <i>marketable investments</i> with less than one year to final redemption	5%
- other debt instruments which are <i>marketable investments</i> with less than five years to final redemption	10%
- other debt instruments which are <i>marketable investments</i>	15%
- floating rate notes which are <i>marketable investments</i> :	
- with no more than 20 years to final redemption	5%
- with more than 20 years to final redemption	10%
B. Equities	
- other <i>investments</i> listed on a recognised or designated investment exchange	25%
- <i>shares</i> traded on a recognised or designated investment exchange	35%
- other <i>shares</i> for which there is a <i>market maker</i> in the UK	35%
C. Derivatives	
- <i>exchange traded futures</i>	4 x initial margin requirement
- <i>OTC futures</i>	Apply the appropriate percentage shown in A and B to the <i>market value</i> of the underlying position
- Purchased <i>options</i>	Apply the appropriate percentage shown in A and B to the <i>market value</i> of the underlying position

	but the result may be limited to the <i>market value</i> of the option
- <i>Contracts for differences</i>	20% of the <i>market value</i> of the contract
D. <i>Other Investments</i>	
- <i>Unit</i> linked bonds and <i>units</i> in <i>authorised unit trust schemes</i> (other than <i>higher volatility funds</i> and <i>property funds</i>) or <i>regulated collective investment schemes</i>	25%
- <i>units</i> in <i>higher volatility funds</i> and <i>property funds</i>	50%
- with profit <i>life policies</i> (only applicable to <i>firms</i> other than <i>traded life policy market makers</i>)	20% of the <i>surrender value</i> of the <i>policy</i>
- <i>shares</i> in <i>subsidiary</i> companies and <i>shares</i> which are not <i>readily realisable securities</i> in <i>connected companies</i>	100%
- <i>traded endowment policies</i> : where a <i>traded life policy</i> is held for resale by a <i>firm</i> which is a <i>traded life policy market maker</i> .	
(a) for 3 months or less	0% of the <i>surrender value</i> of the <i>policy</i>
(b) for more than 3 months	10% of the <i>surrender value</i> of the <i>policy</i>
when a <i>traded life policy</i> is held by a <i>firm</i> which is a <i>traded life policy market maker</i> for investment	10% of the <i>surrender value</i> of the <i>policy</i>
- other	100%

Table 13.12.3B

FCA

This table forms part of *rule 13.12.3*

UNSETTLED SECURITIES TRANSACTIONS		
Number of <i>business days</i> after due settlement date	A %	B %
0 – 15	0	0

16 – 30	25	0
31 – 45	50	25
46 – 60	75	50
61 or more	100	75
over 90	100	100

Note 1: Column A applies to a transaction in a debt or debt-related instrument (unless the debt instrument is settled through the appropriate UK settlement system), and

Note 2: Column B applies in all other cases (and, in particular, applies to equity and equity-related instruments).

Table 13.12.3C

FCA

This table forms part of *rule 13.12.3*

OVER THE COUNTER DERIVATIVES		
a. By attaching current <i>market values</i> to contracts (marking to market), obtain the current replacement cost of all contracts with positive values.		
b. To obtain a figure for potential future credit exposure (except in the case of single currency “floating/floating interest rate swaps” in which only the current replacement costs will be calculated), the notional principal amounts or values underlying the <i>firm's</i> aggregate positions are multiplied by the following percentages:		
Residual Maturity	Interest Rate Contracts	Foreign Exchange Contracts
One year or less	Nil	1%
More than 1 year	0.5%	5%
c. The credit equivalent is the sum of current replacement cost and potential future credit exposure.		

Table 13.12.3D

FCA

This table forms part of *rule 13.12.3*

FOREIGN EXCHANGE RISK

(a) A <i>firm</i> must deduct a foreign exchange risk requirement for all the following items which are denominated in a foreign currency:	
(i)	all assets and liabilities, including accrued interest, denominated in the currency (all <i>investments</i> at market or realisable value);
(ii)	any currency future, at the nominal value of the contract;
(iii)	any forward contract for the purchase or sale of the currency, at the contract value, including any future exchange of principal associated with currency swaps;
(iv)	any foreign currency <i>options</i> at the net delta (or delta-based) equivalent of the total book of such <i>options</i> ;
(v)	any non-currency option, at <i>market value</i> ;
(vi)	any irrevocable guarantee;
(vii)	any other off-balance sheet commitment to purchase or sell an asset denominated in that currency.
(b) The requirement must be calculated as follows:	
(i)	using the spot rate, convert the <i>net long position</i> and <i>net short position</i> in each foreign currency into the currency in which the <i>firm's annual financial statements</i> are reported;
(ii)	total the <i>net open long positions</i> and the <i>net open short positions</i> ;
(iii)	the higher of (i) and (ii) above is its <i>net open foreign currency position</i> ;
(iv)	multiply its <i>net open foreign currency position</i> by 10%;
(c) A <i>firm</i> may not include any future income or expense not yet accrued but fully hedged (subject to deduction of an appropriate risk requirement).	

13.12.4 Short Term Subordinated Loans

13.12.4 R A Category B firm may treat subordinated loan as a financial resource, as specified in rules 13.12.5 to 5A, if the short term subordinated loan is eligible for such treatment in accordance with rule 13.12.4A;

FCA

13.12.4A R A short term subordinated loan is eligible for such treatment if:

FCA

- (1) it has an original maturity of at least two years or, if it has no fixed term, it is subject to two years' notice of repayment;**
- (2) payment of interest is not permitted under the loan agreement unless after such payment a *firm* meet 120% of its financial resource requirement;**
- (3) repayment, prepayment or termination is only permitted under**

the loan agreement

- (a) on maturity, or on expiration of the period of notice, if after such payment or termination a *firm* meets 120% of its financial resources requirement; or
 - (b) on winding up after the claims of all other creditors and all outstanding debts have been settled;
- (4) it is in the standard form for short term subordinated loans prescribed by the *FCA*.

Restrictions

13.12.5 R A *Category B firm* must calculate:

FCA

- (1) the aggregate amount of its short term subordinated loans, its preference *shares* which are not redeemable within two years, and for a *Category B firm* other than a *Category B1 firm* its long term liabilities which are not secured on its assets, if they do not fall due more than three years from the balance sheet date, and are not due to *connected persons*;
- (2) the amount of the *firm's* total capital and reserves excluding preference *share* capital, less the amount of its intangible assets, multiplied by 400%.

13.12.5A R A *Category B firm* must treat as a liability in the calculation or its financial resources any amount by which the sum of 13.12.5(1) exceeds the product of 13.12.5(2).

FCA

Appendix 13(1):
Defined terms for Chapter 13

[deleted]

14 Chapter 14: Consolidated Supervision for Investment Businesses

14.1 APPLICATION

14.1.1 R Subject to rule 14.1.2, *consolidated* supervision and this chapter apply to a *firm* which is a member of a group if:

FCA

- (1) It is:
 - (a) a *securities and futures firm*, subject to the financial rules in Chapter 3, which is a *broad scope firm* but not a *venture capital firm*; and
 - (b) [deleted]
 - (c) [deleted]
- (2) It is not a *BIPRU firm*.
- (3) [Deleted]
- (4) [Deleted]
- (5) [Deleted]

Cases where consolidated supervision under this chapter will not apply

14.1.2 R A *firm* is not subject to *consolidated supervision* under the rules in this Chapter where any of the following conditions are fulfilled:

FCA

- (1) the *firm* is included in the supervision on a consolidated basis of the group of which it is a member by a *competent authority* other than the *FCA*; or
- (2) the *firm* is a member of a *UK consolidation group* already included in the supervision on a consolidated basis of the group of which it is a member by the *FCA* or *PRA* under *BIPRU 8*.

14.1.3 G (1) [Deleted]

FCA

- (2) [Deleted]
- (3) Where there is more than one authorised *firm* in the group, subject to the rules of this chapter, one consolidated supervision return may be submitted on behalf of all the *firms* in the group in accordance with *SUP 16.3.25G*.

Exemption from consolidated supervision

14.1.4 R A firm need not meet the requirements in rules 14.3.1 and 14.3.2 if:

FCA

- (1) there is no *credit institution* in the group;**
- (2) no *firm* in the group *deals in investments as principal*, except where it is an *operator* of a *collective investment scheme* dealing solely as a result of its activity of operating a *collective investment scheme*, or where the *firm's* positions fulfil the *CAD Article 3 exempting criteria*;**
- (3) [Deleted]**
- (4) the *firm* notifies the *FCA* of any serious risk that could undermine the financial stability of the group as soon as it becomes aware of that risk;**
- (5) the *firm* reports to the *FCA* all group *large exposures* as at the end of each quarter, and within the period specified in *SUP 16*;**
- (6) the *firm* meets the conditions in rule 14.1.5; and**
- (7) the *firm* has first notified the *FCA* in writing that it intends to rely on this rule.**

14.1.5 R If the *firm* notifies the *FCA* under rule 14.1.4 that it will not apply the rules in this section, it must:

FCA

- (1) submit to *FCA* a consolidated supervision return within the time period specified by *SUP 16*, together with a consolidated profit and loss account;**
- (2) ensure that each *firm* in the group deducts from its solo financial resources any quantifiable *contingent liability* in respect of other group entities;**
- (3) ensure that the solo financial resources requirement of each *firm* in the group incorporates the full value of the expenditures of the *firm* wherever they are incurred on behalf of the *firm*; and**
- (4) make a note in its audited financial statements that it is not subject to regulatory consolidated capital requirements.**

14.1.6 G (1) [Deleted]

FCA

- (2) The conditions in *rule* 14.1.5 aim to ensure that the *firm* is protected from weaknesses in other group entities.
- (3) In *rule* 14.1.5(2), *contingent liabilities* includes direct and indirect guarantees.
- (4) 14.1.5(3) aims to ensure that the expenditure-based requirement incorporates the *firm's* actual ongoing annual expenditures (including any share of depreciation on fixed assets) where these have been met by another group entity.
- (5) The *FCA* may require further information from the *firm* if it considers that the *firm's* consolidated financial position raises undue risks to consumers. It may also seek reassurance that the *firm* has sufficiently robust *client money* and asset controls - for example, it may require a *skilled person's* report. The *FCA* may also use its own *initiative power* to impose conditions on the *firm*. This could include raising additional capital or further limitations on the *firm's* intra-group exposures.
- (6) Rule 14.1.4(5) refers to *large exposures*, which should be measured against group consolidated own funds or (if this would result in all *exposures* being classified as *large exposures*) by aggregating all the *exposures* of the individual entities in the group and measuring them against the own funds of the individual *firm* giving rise to the consolidated supervision requirement. If there is more than one *firm* in the group giving rise to the consolidated supervision requirement, the group *large exposures* should be measured against the *firm* with the smallest own funds.

14.2 SCOPE OF CONSOLIDATION

14.2.1 R For the purposes of the rules in this chapter, a *firm's* group means the *firm* and:

FCA

- (1) any *EEA parent* in the group which is a *financial holding company*, a *credit institution*, or an *investment firm*;
- (2) any *credit institution*, *investment firm* or *financial institution* which is a *subsidiary* either of the *firm* or of the *firm's EEA parent* as defined in (1); and
- (3) any *credit institution*, *investment firm* or *financial institution* in which the *firm* or one of the entities in (1) or (2) holds a *participation*.

14.2.2 R If a group exists under rule 14.2.1, the *firm* must also include in the scope of consolidation any *ancillary services undertaking* and *asset management company* in the group.

FCA

14.2.3 G Rule 14.1.1 states what type of *firm* may be subject to consolidated supervision (trigger firm). Rule 14.2.1 states what type of relationship triggers the existence of a group for consolidated supervision purposes. Rules 14.2.1

FCA

and 14.2.2 specify what entities should be included in the scope of consolidated supervision.

- 14.2.4 G (1) **FCA** A *firm's parent* is a *financial holding company* if it is either a *financial institution* or a *securities and futures firm* that is subject to the financial rules in Chapter 3 and that is a *broad scope firm* (but not a *venture capital firm*) and if its *subsidiary undertakings* carry out mainly *listed activities*, activities of a *credit institution* or activities undertaken by a Chapter 3 *broad scope firm*. For this purpose the *FCA* interprets the phrases 'mainly' or 'main business' to mean where the balance of business is over 40% of the relevant group or sub-group's balance sheet (measured on the basis of total assets) or profit and loss statement (measured on the basis of gross income). In addition, if the *firm's parent* has significant holdings in *insurance undertakings* or *reinsurance undertakings*, it is a *mixed financial holding company*, and the *firm* is subject to the rules in GENPRU 3.1 instead of the rules in this chapter. This is because a *parent* cannot be a *financial holding company* and a *mixed financial holding company* at the same time. GENPRU 3.1 sets out what constitutes significant insurance holdings (broadly more than 10% of the financial sector activities of the group). A *firm's parent* is a *financial holding company* and not regarded as a *mixed financial holding company* unless:
- (a) the parent has been notified by its *coordinator* that the group it heads is a *financial conglomerate* (in accordance with Article 4(2) of the *Financial Groups Directive*); and
 - (b) it has not been notified that the *coordinator* and the *relevant competent authorities* have agreed not to treat the group as a *financial conglomerate* in accordance with Article 3(3) of the *Financial Groups Directive*.
- (2) A *firm* with an ultimate non-EEA parent may also be subject to the provisions in GENPRU 3.2.
- (3) In the case where undertakings are linked to the domain of consolidation by a relationship within the meaning of article 12(1) of Directive (83/349/EEC), the *FCA* will determine how consolidation is to be carried out.

Exclusions

14.2.5 R **A firm may, having first notified the FCA in writing, exclude from its group the following:**

- FCA**
- (1) **any entity the total assets of which are less than the smaller of the following two amounts:**
- (a) **10 million euros; or**
 - (b) **1% of the total assets of the group's parent or the undertaking that holds the participation;**
- provided that the total assets of such entities do not**

collectively breach these limits.

- (2) **any entity the inclusion of which within the group would be misleading or inappropriate for the purposes of consolidated supervision.**

14.2.6

- G (1) The *FCA* may require a *firm* to provide information about the position in the group of any undertaking excluded from the consolidation under rule 14.2.5.

FCA

- (2) An exclusion under rule 14.2.5(2) would normally be appropriate when an entity would be excluded from the scope of consolidation under the relevant UK generally accepted accounting principles.

14.3 CONSOLIDATED SUPERVISION REQUIREMENT

- 14.3.1 R **A *firm* must at all times ensure that its group maintains group financial resources in excess of its group financial resources requirement.**

FCA

- 14.3.2 R **A *firm*, other than one which is defined in rule 14.1.1(1), must at all times comply with large exposures limits applied on a group basis.**

FCA

14.4 GROUP FINANCIAL RESOURCES

- 14.4.1 R **A *firm* must calculate its group financial resources on the basis of the consolidated accounts of the relevant group, subject to the adjustments in rule 14.4.2 and on the basis specified in rule 14.4.3.**

FCA

- 14.4.2 R (1) **If more than one *firm* in the group is subject to the rules of this chapter, group financial resources are defined according to the relevant rules applicable to the main firm in the group to which this chapter applies, with Tier 1 minority interests being allowed as Group Tier 1 capital and Tier 2 minority interests being allowed as Group Tier 2 capital.**

FCA

- (2) **In calculating the group financial resources, deductions should be made for intangible assets, material unaudited losses incurred since the balance sheet date and investments in own shares.**

- (3) **Material holdings and material insurance holdings must be recalculated on a group basis and deducted in arriving at the group financial resources.**

14.4.3 R **Financial resources will be defined based upon the main *firm* in the group to which this chapter applies as follows:**

FCA

- (1) **if a *broad scope securities and futures firm* (excluding a *venture capital firm*), Table 3-61R;**
- (2) **[Deleted]**
- (3) **[Deleted]**
- (4) **[deleted]**
- (5) **[deleted]**

14.4.4 G (1) The *FCA* interprets 'main' by reference to the share of the *firm's* business in the group, its contribution to the group's balance sheet (measured on the basis of total assets) or profit and loss statement (measured on the basis of gross income).

FCA

- (2) The form in *SUP* 16 Ann 19 R, together with the guidance in *SUP* 16 Ann 20G, shows the mechanics of the calculation.

14.4.5 G A *firm* may apply for a *waiver* of rule 14.4.1 to permit an aggregation approach to determine *group financial resources*. Any *waiver* application should guarantee future compliance with any relevant own funds limit.

FCA

14.5 GROUP FINANCIAL RESOURCES REQUIREMENT

14.5.1 R **A *firm* must calculate its *group financial resources requirement* as the aggregate of:**

FCA

- (1) **the sum of the financial resources requirements of all group entities within the scope of consolidation calculated in accordance with rule 14.5.2, except that:**
 - (a) **requirements in respect of intra-group balances with other entities within the scope of consolidation should be excluded; and**
 - (b) **[deleted]**
- (2) **the sum of any adjustments that are made to each *firm's* financial resources, calculated on a solo basis in accordance with rule 14.4.3, in order to arrive at the amount of financial resources used to meet its solo financial resources requirement. These adjustments must exclude deductions in respect of the investment in and other relationships with other entities that are included within the scope of consolidation.**

(3) [deleted]

The financial resources requirements of entities in which the group holds a *participation* must be included proportionately.

14.5.2 R Financial resources requirements for individual entities in the group are:

FCA

- (1) for *firms* regulated by the *FCA*, their regulatory capital requirement under *FCA* rules;
- (2) for entities regulated by an *EEA regulator* and which is subject to the local regulatory capital requirement of that regulator, that local regulatory capital requirement;
- (2A) for entities that are *recognised third country credit institutions* or *recognised third country investment firms* and which is subject to the local regulatory capital requirement of that regulator, that local regulatory capital requirement;
- (2B) for entities not in (2A) that are regulated by a *third country competent authority* named in the table in *BIPRU 8 Annex 3R* and which is subject to the local regulatory capital requirement of that regulator, that local regulatory capital requirement; and
- (3) for other entities in the group, a notional financial resources requirement calculated as if the entity were regulated by the *FCA*.

14.5.3 G (1) For the purposes of rule 14.5.2(3) the notional financial resources requirements of group entities should normally be calculated as if the entities were subject to the financial rules in IPRU(INV) relevant to the main *firm* in the group. The interpretation of 'main' given in 14.4.4 G applies here.

FCA

(2) For the purposes of calculating an expenditure-based requirement, no account should be taken of expenses that have been recharged to another entity included in the scope of consolidation. For example, in calculating the notional requirement for a service company, the expenditure-based requirement should be calculated net of recharged expenses. This is to avoid double counting of the expenses.

(3) [deleted]

14.5.4 G A *firm* may apply for a *waiver* of rule 14.5.1R, to permit a line-by-line approach to determine its *group financial resources requirement*. A *firm* should also demonstrate that calculating its requirement in this way does not result in a distortion of the *group financial resources requirement*.

FCA

Appendix 14(1): Interpretation

FCA

Glossary of defined terms for Chapter 14

If a defined term does not appear in the IPRU(INV) 14 glossary below, the definition appearing in the main Handbook *Glossary* applies.

<i>ancillary services undertaking</i>	an undertaking the principal activity of which consists of owning or managing property, managing data-processing services, or any other similar activity which is ancillary to the principal activity of one or more of the <i>firms</i> subject to this chapter.
<i>broad scope firm</i>	as in the Glossary in IPRU(INV) chapter 3.
<i>CAD Article 5 exempting criteria</i>	<p>the following criteria in respect of the <i>firm's</i> dealing positions:</p> <ul style="list-style-type: none">- such positions arise only as a result of the <i>firm's</i> failure to match investors orders precisely;- the total market value of all such positions is subject to a ceiling of 15% of the <i>firm's</i> initial capital; and- such positions are incidental and provisional in nature and strictly limited to the time required to carry out the transaction in question.
<i>CAD investment firm</i>	a <i>firm</i> subject to the requirements of the <i>Capital Adequacy Directive</i> excluding a person to whom the CAD does not apply under Article 3.1(b) of that Directive.
<i>contingent liability</i>	<p>the meaning in FRS 12 which states that it is:</p> <ul style="list-style-type: none">(a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the entity's control or(b) a present obligation that arises from past events but is not recognised because:<ul style="list-style-type: none">(i) it is not probable that a transfer of economic benefits will be required to settle the obligation; or(ii) the amount of the obligation cannot be measured with sufficient reliability.
<i>consolidated supervision</i>	the application of the financial rules in the Interim Prudential sourcebook for investment businesses in accordance with rules and guidance in 14.1.1 to 14.5.4.
<i>EEA parent</i>	a <i>firm's</i> direct or indirect <i>parent</i> which has its head office in the <i>EEA</i> .
<i>financial holding company</i>	<p>an undertaking that satisfies the following conditions:</p> <ul style="list-style-type: none">(a) it is:<ul style="list-style-type: none">(i) a <i>financial institution</i>; or

- (ii) a *firm* falling within *IPRU(INV) rule 14.1.1(1)*;
- (b) is *subsidiary undertakings* are either exclusively or mainly:
 - (i) *credit institutions*;
 - (ii) *investment firms*;
 - (iii) *broad scope firms* or *undertakings* carrying on activities which (if they were *firms* doing those activities in the *United Kingdom*) would make them *broad scope firms*; and
 - (iv) *financial institutions*,

one of which at least is a *credit institution*, a *firm* falling within *IPRU(INV) rule 14.1.1(1)* or an investment firm; and

- (c) it is not a *mixed financial holding company*.

<i>financial institution</i>	an undertaking other than a <i>credit institution</i> , the principal activity of which is to acquire holdings or to carry on a <i>listed activity</i> .
<i>group financial resources</i>	the resources of a <i>firm's</i> group calculated in accordance with rules 14.4 (Group financial resources).
<i>group financial resources requirement</i>	the requirement that a <i>firm's</i> group maintains financial resources calculated in accordance with the rules in 14.5 (Group financial resources requirement).
<i>investment firm</i>	<i>investment firm</i> as in the main <i>Glossary</i> except that it excludes persons to which the <i>MiFID</i> does not apply as a result of article 2 or 3 of the <i>MiFID</i> .
<i>Listed activity</i>	<p>a listed activity within the meaning of the <i>BCD</i>, that is one or more of the following activities:</p> <ul style="list-style-type: none"> (a) lending; (b) financial leasing; (c) money transmission services; (d) issuing and administering means of payment; (e) guarantees and commitments; (f) trading for own account or for the account of customers in: <ul style="list-style-type: none"> (i) money market instruments (cheques, bills, certificates of deposit, etc); (ii) foreign exchange; (iii) financial futures and options; (iv) exchange and interest rate instruments; (v) transferable securities;

- (g) participation in share issues and the provision of services related to such issues;
- (h) corporate finance advice;
- (i) money broking;
- (j) portfolio management and advice; or
- (k) safekeeping and administration of securities.

Material holding a holding of –

- (a) ordinary share capital and non cumulative preference share capital; or
- (b) subordinated loan and non fixed-term cumulative preference share capital,

in a *credit institution* or a *financial institution* where –

- (i) (a) or (b) above exceeds 10% of the share capital plus share premium of the issuer; or
- (ii) the aggregate of (a) and (b) above exceeds 10% of the *firm's own funds*, before deducting the holding.

Material insurance holding the higher of –

- (1) the book value of an *investment* held in an insurance undertaking, reinsurance undertaking, or insurance holding company (*investment* for this purpose is either a *participation* or the *investment* in a *subsidiary* undertaking); or
- (2) the group's proportionate share of that undertaking's local or notional regulatory capital requirement."

Non-trading book in relation to a *firm's* business or exposures, means any position, counterparty exposure or balance sheet item not falling within the definition of *trading book*.

parent any parent undertaking as defined in section 1162 of the Companies Act 2006 and any undertaking which effectively exercises a dominant influence over another undertaking.

participation a participation within the meaning of Article 17 of Directive 78/660/EEC or the ownership either direct or indirect of 20% or more of the voting rights or capital of another undertaking which is not a *subsidiary*.

subsidiary as in section 1159(1) of the Companies Act 2006.

trading book as in the Glossary in IPRU(INV) chapter 5.

Annex A: LIMITED LIABILITY PARTNERSHIPS: ELIGIBLE MEMBERS' CAPITAL

1 Introduction

Application

- 1.1 [FCA] R This annex applies to any *firm* :
- (1) that is a *limited liability partnership*; and
 - (2) that is a kind of *firm* to whom the provisions of this sourcebook apply, or which is a *UCITS firm*.
- 1.2 [FCA] R In this annex, an expression in italics has the meaning given in the *Handbook Glossary*.
- 1.3 [FCA] G (1) *Firms* are reminded that a *limited liability partnership* incorporated under the Limited Liability Partnership Act 2000 is a *body corporate* with legal personality separate to that of its members and is not therefore a form of *partnership* for the purposes of this sourcebook.
- (2) A *limited liability partnership* is not a separate prudential categorisation under this sourcebook but a kind of *firm* for whom the appropriate provisions of this sourcebook are modified to the extent indicated in this annex.

Purpose

- 1.4 [FCA] G The purpose of this annex is to amplify *Principle 8* (Financial resources) which requires a *firm* to maintain adequate financial resources to meet its investment business commitments and to withstand the risks to which its business is subject. This annex imposes various conditions that must be satisfied for members' capital to count as "Tier 1" or equivalent grade capital in meeting the *limited liability partnership's* financial resources requirement. These conditions are made up of conditions specific to *limited liability partnerships* and general conditions based for the most part on those set out in article 57 of the *Banking Consolidation Directive*. This assists in the achievement of the *statutory objective* of consumer protection.
- 1.5 [FCA] G The following *rules* allow inclusion of members' capital within a *firm's* capital if it meets the conditions in this annex:

Chapter	<i>IPRU(INV) rule</i>	How <i>eligible LLP members' capital</i> should be treated for the purposes of the <i>IPRU(INV) rule</i>
3	Table 3-61	<i>Eligible LLP members' capital</i> may be counted as Tier 1 capital under item "A" within Table 3-61.
5	Table 5.2.2 (1):	<i>Eligible LLP members' capital</i> may be counted as

	Item (1A)	Tier 1 capital within Category A of Table 5.2.2(1).
9	9.3.1	<i>Eligible LLP members' capital</i> may be counted as initial capital with <i>IPRU(NV)</i> 9.3.1
10	Table 10-61(1)A Table 10-61(1)B Table 10-62(2)A Table 10-62(2)B Table 10-62(2)C	<i>Eligible LLP members' capital</i> may be counted as initial capital within the relevant table.
13	Table 13.3.2(1) Table 13.10(2) 13.1A.7	<i>Eligible LLP members' capital</i> may be counted as <i>own funds</i> relating to companies in Table 13.3.2(1) and Table 13.10(2). <i>Eligible LLP members' capital</i> may be counted as initial capital within <i>IPRU(INV)</i> 13.1A.7.

2. CONDITIONS FOR USE OF MEMBERS' CAPITAL

Members' capital of a limited liability partnership

2.1 R In this sourcebook, members' capital of a *limited liability partnership* may be included within a *firm's* resources if it complies with:

[FCA]

- (1) the specific conditions; and
- (2) the general conditions.

Specific conditions for eligibility

2.2 R The specific conditions are that:

[FCA]

- (1) members' capital is made up of the members' capital account; and
- (2) the members' capital account is an account:
 - (a) into which capital contributed by the members is paid; and
 - (b) from which under the terms of the *limited liability partnership* agreement an amount representing capital may be withdrawn by a member only if:
 - (i) he ceases to be a member and an equal amount is transferred to another such account by his former fellow members or any person replacing him as a member;
 - (ii) the *limited liability partnership* is wound up or otherwise dissolved; or

- (iii) the *firm* has ceased to be *authorised* or no longer has a *Part 4A permission*.

General conditions for eligibility

- 2.3 [FCA] R The general conditions in respect of the members' capital are that:
- (1) it is fully paid and the proceeds are immediately and fully available to the *firm*;
 - (2) it is not capable of being redeemed at all (otherwise than in the circumstances set out in the specific conditions) or can only be redeemed on a winding up of the *firm*;
 - (3) any *coupon* is non-cumulative;
 - (4) it is able to absorb losses to allow the *firm* to continue trading;
 - (5) the amount of the item included is net of any foreseeable tax charge;
 - (6) it is available to the *firm* for unrestricted and immediate use to cover risks and losses as soon as they occur;
 - (7) it ranks for repayment on a winding up of the *firm* no higher than a *share* of a company incorporated under the Companies Act 2006 (whether or not it is such a *share*); and
 - (8) the *firm* is under no obligation to pay a *coupon* on it at any time.

Surplus eligible LLP members' capital

- 2.4 [FCA] G If a *firm* has surplus *eligible LLP members' capital* that it wishes to repay in circumstances otherwise than those in the specific conditions, it may apply to the *FCA* for a *waiver* to allow it to do so. If a *firm* applies for such a *waiver* the information that the *firm* supplies to support the application might include:
- (1) a demonstration that the *firm* would have sufficient financial resources to meet its financial resources requirement immediately after the repayment; and
 - (2) a two to three year capital plan demonstrating that the *firm* would be able to meet the requirements in (1) and (2) at all times without needing further capital injections.

Limited liability partnership excess drawings

- 2.5 [FCA] R A *firm* which is a *limited liability partnership* must in calculating its tier one capital in accordance with the requirements of any chapter of this sourcebook deduct the amount by which the aggregate of the amounts withdrawn by its members exceeds the profits of that *firm* ("*excess LLP members' drawings*"). Amounts of *eligible LLP*

members' capital repaid in accordance with the specific conditions are not to be included in this calculation.

ANNEX D

[Required Forms]

**Interim Prudential
Sourcebook for

**FORM OF BOND FOR AUTHORISED PROFESSIONAL
FIRMS
(SEE IPRU (INV) 2)**

BY THIS BOND AS A DEED WE [] of [] (“the Principal”) and [] of [] (“the Surety”) as witnessed by its common seal (so that the Surety whose seal is affixed below shall alone be bound) are jointly and severally bound upon the terms and conditions herein set out to [] (“the Trustee”) in the sum of £[] ([sum in words]) or such other sum as may from time to time be agreed between the Surety and the Principal (“the Penalty Sum”).

WHEREAS:-

- (1) The Trustee has consented to enter into this bond as trustee and to hold the rights and benefits under this bond upon trust for any Customer of the Principal in accordance with the terms of this bond.**
- (2) The Surety at the request of the Principal has agreed to be bound in the Penalty Sum upon the terms and conditions hereinafter contained.**

NOW THIS DEED WITNESSES as follows:-

- (1) For the purposes of this bond a claim shall arise if the following conditions are satisfied:-**
 - a. the Scheme has determined the Principal to be in default;**
 - b. the Trustee has determined to pay compensation to an eligible claimant whose claim is in respect of a Civil Liability incurred by the Principal in connection with its carrying on of Regulated Activities; and**
 - c. the claim in question relates to a Loss.**
- (2) The Surety and the Principal are held and firmly bound to the Trustee for the payment of any sum arising out of any claim under the provisions of Clause 1 hereof to the extent that any such claim exceeds the sum of fifty thousand pounds (£50,000) provided that the aggregate of any such sum or sums does not exceed the Penalty Sum.**
- (3) The Trustee hereby declares that it holds all its rights and benefits under this bond upon trust for the Customers in respect of whom or for which such claim or claims were made absolutely.**
- (4) The Trustee shall, insofar as it may lawfully do so, notify the Surety of any claim or Matter of which the Trustee is aware which may give rise to any claim hereunder such notice to be addressed to the Surety in writing at its address set out above or to such other address as may have been notified to the**

Trustee in writing by the Surety and any such information which the Trustee shall when serving such notice designate as confidential shall be held and retained by the Surety in confidence.

- (5) Payment of any sum to the Trustee in respect of any claim shall be due thirty (30) days after the giving of notice thereof pursuant to Clause 4 hereof the Surety shall pay any such sum or sums on demand.**
- (6) The Surety may give written notice to the Trustee sent by recorded delivery service to the address set out above or such other address as the Trustee shall from time to time advise in writing (and serving a copy of such notice upon the Principal) terminating its liability under this bond which liability shall accordingly cease sixty (60) days after receipt by the Trustee in writing of such notice (“the Termination Date”) save in respect of any claim rising out of anything notified by the Trustee to the Surety pursuant to Clause 4 prior to or within the period of six months after the Termination Date.**
- (7) Notwithstanding the Release or Discharge of the Principal the Surety shall remain liable in respect of any claim arising during the period in which this bond was in force or which shall be made within six months of the Termination Date.**
- (8) The Principal and its executors administrators or representatives whosoever jointly and severally agree and covenant with the Surety and the Trustee as follows:-**
 - a. That they shall and will from time to time and notwithstanding the Release or Discharge of the Principal indemnify the Surety and its successors and assigns from and against all claims losses costs and expenses which the Surety shall or otherwise might at any time sustain or be put to under or by virtue of this bond.**
 - b. That the Principal is an authorised professional firm which has Permission under the Act to carry on Regulated Activities and will give notice forthwith to the Surety in writing if it shall cease to have such Permission or if it shall become aware of any Matter which might give rise to it being declared in default by the Scheme.**
 - c. That the Principal will calculate the Penalty Sum that may be required under this bond from time to time so as to ensure that it complies with the Rules.**
 - d. That the persons named herein are duly authorised for an on behalf of the Principal to execute this bond in the manner appearing below.**
 - e. That the Trustee is irrevocably authorised to provide such information to the Surety as it shall think fit or as may be required for the purpose of making any claim and the Surety is irrevocably authorised to provide such information to the Trustee in relation to the obligations of the**

Principal secured by this bond as it shall think fit.

f. That the Principal will duly and promptly pay the annual premium due in respect of this bond.

(9) In this bond words and expressions having capitalised initial letters shall have the meanings set out in this bond and where not so defined shall have the meanings set out in the Glossary annexed to the General Provisions Instrument 2001 and as the same may hereafter be varied amended or supplemented from time to time

“the Act”	means the Financial Services and Markets Act 2000 or any amendment or re-enactment of the provisions thereof;
“Civil Liability”	means a civil liability as defined in the Scheme Regulations;
“Customer”	means a customer as defined in the Scheme Regulations;
“Loss”	means a loss which has been the subject of a valid claim determined by the Scheme in respect of which the amount of the Civil Liability is in excess of £50,000;
“Matter”	means any proceedings initiated under the Act against the Principal in relation to its Regulated Activities;
“the Principal”	means the authorised professional firm named herein and includes each of the partners thereof where applicable;
"Release or Discharge"	means the release of the Principal in relation to the termination of any Authorisation under the provisions of the Act;
“Scheme”	means the Financial Services Compensation Scheme;
"Scheme Regulations"	means the Financial Services Compensation Scheme Regulations.

Save where the context otherwise requires words and expressions used herein and in the Act shall bear the meaning given to them in the singular shall include the plural.

3.1 Approved Form of Subordinated Loan Agreement

A. Front Page

THIS AGREEMENT is made on the date set out in the Variable Terms (as set out in **Schedule 1** to this Agreement) and is to be effective on that date unless a different effective date is set out in those terms

BETWEEN -

- (1) **the Lender** (as defined in the Standard Terms set out in **Schedule 2** to this Agreement), and
- (2) **the Borrower** (as defined in the Standard Terms)

WHEREAS the Borrower wishes to use the Loan, or each Advance under the Facility (as those expressions are defined in the Standard Terms) as an eligible capital substitute in accordance with the *FCA's* rule [IPRU(INV) 3-63] and has fully disclosed to the *FCA* the circumstances giving rise to the Loan or Facility and the effective subordination of the Loan and each Advance.

IT IS AGREED THAT this Agreement shall comprise the Variable Terms set out in **Schedule 1** to this Agreement and the Standard Terms set out in **Schedule 2** to this Agreement.

This Agreement is executed by the parties the day and year indicated in the Variable Terms.

Schedule 1

B. Variable Terms

1. Date of Agreement	
2. Effective Date	
3. Lender	
4. Address of Lender	
5. Borrower	
6. Address of Borrower	

7. The Loan or Facility

With reference to paragraph 2 of the Standard Terms,

--

8. Interest

With reference to paragraph 3 of the Standard Terms, interest shall be calculated and paid as follows -

--

9. Repayment

With reference to paragraph 4(2) of the Standard Terms and subject always to paragraphs 4(3) (restrictions on repayment) and 5 (subordination) of the Standard Terms, the terms for repayment are -

--

10. Additional terms

With reference to paragraph 11 of the Standard Terms, the additional terms to this Agreement are -

--

10. **Additional terms (contd)**

--	--

11. **Jurisdiction**

With reference to paragraph 16 of the Standard Terms, the person(s) indicated below is (are) appointed as agents for service of process -

(a) by the Lender -

--	--

of

--	--

(b) by the Borrower -

Schedule 2

C. Standard Terms

Interpretation

1 (1) In this Agreement -

“**Advance**” means, where this Agreement is for a loan facility, an amount drawn or to be drawn down by the Borrower or otherwise made available by the Lender under this Agreement as that amount may be reduced from time to time by any repayment or prepayment permitted under this Agreement;

“**Borrower**” means the person identified as such in the Variable Terms and includes its permitted successors and assigns and, where the Borrower is a partnership, each Partner;

“**Business Day**” means any day except Saturday, Sunday or a bank or public holiday in England;

“**Effective Date**” means the date on which this Agreement is to take effect being the date of this Agreement unless otherwise stated in the Variable Terms;

“**Excluded Liabilities**” means Liabilities which are expressed to be and, in the opinion of the Insolvency Officer of the Borrower, do, rank junior to the Subordinated Liabilities in the Insolvency of the Borrower;

“**Facility**” means the loan facility referred to in paragraph 2(2);

“**Financial Resources**” has the meaning given in the Financial Rules;

“**Financial Resources Requirement**” has the meaning given it in the Financial Rules;

“**Financial Rules**” means the rules in IPRU(INV) Chapter 3 in the *handbook*;

“**Insolvency**” means and includes liquidation, winding up, bankruptcy, sequestration, administration, rehabilitation and dissolution (whichever term may apply to the Borrower) or the equivalent in any other jurisdiction to which the Borrower may be subject;

“**Insolvency Officer**” means and includes any person duly appointed to administer and distribute assets of the Borrower in the course of the Borrower’s Insolvency;

- 1 (1) **“Lender”** means the person identified as such in the Variable Terms and includes its permitted successors and assigns;

“Liabilities” means all present and future sums, liabilities and obligations payable or owing by the Borrower (whether actual or contingent, jointly or severally or otherwise howsoever);

“Loan” means the indebtedness of the Borrower to the Lender referred to in paragraph 2(1) as that indebtedness may be reduced from time to time by any repayment or prepayment permitted under this Agreement;

“Partner” means, where the Borrower is a partnership, each and every partner of the Borrower as a partner and as an individual (see also paragraph 8);

“Senior Liabilities” means all Liabilities except the Subordinated Liabilities and Excluded Liabilities;

“Subordinated Liabilities” means all Liabilities to the Lender in respect of the Loan or each Advance made under this Agreement and all interest payable thereon.

“the FCA” means The Financial Conduct Authority Limited whose registered office is at 25 The North Colonnade, Canary Wharf, London, E14 5HS; and

- (2) Any reference to any rules of the *FCA* is a reference to them as in force from time to time.
- (3) Reference to any gender includes a reference to all other genders.
- (4) Reference to a paragraph is to a paragraph of these Standard Terms, unless otherwise indicated.

The Loan or Facility

- 2 (1) Where as indicated in the Variable Terms this Agreement is for a loan, the Borrower hereby **acknowledges** its indebtedness to the Lender in the sum mentioned in the Variable Terms as an unsecured loan upon and subject to the terms and conditions of this Agreement.

- (2) Where, as indicated in the Variable Terms this Agreement is for a loan facility -

(a) the maximum aggregate principal amount of each Advance outstanding at any time under the Facility shall not exceed the maximum amount specified in the Variable Terms or such other amount as may be agreed between the Borrower and the Lender from time to time;

(b) the Facility will be available until the last available date specified in the Variable Terms; and

- 2 (2) (c) any specific terms dealing with the mechanics of drawdown are contained in the Variable Terms.
- (3) The Lender and the Borrower undertake to provide the FCA, immediately upon request, with details in writing of all principal and interest in respect of the Loan or each Advance outstanding for the time being and all payments of any amount made in the period specified by the FCA in the request.

Interest

- 3 Subject to the provisions of paragraphs 4 and 5, until repayment of the Loan or each Advance in full, the Borrower will pay to the Lender interest on the Loan or each Advance (or on any part or parts of it or them for the time being outstanding under this Agreement) calculated and payable in the manner set out in the Variable Terms.

Repayment

- 4 (1) The provisions of this paragraph are subject in all respects to the provisions of paragraph 5(subordination).
- (2) The terms concerning repayment are set out in the Variable Terms but are subject to paragraph 4(3).
- (3) (a) Unless the *FCA* otherwise permits, no repayment or prepayment of the Loan or any Advance may be made, in whole or in part, until five Business Days have elapsed from the *FCA* confirming in writing to the Borrower receipt of the Borrower's written notice of his intention to do so, except that -
- (i) where, immediately after repayment or prepayment, the Borrower's Financial Resources would be less than or equal to 120% of its Financial Resources Requirement, the prior written approval of the *FCA* shall be obtained before any repayment or prepayment;
 - (ii) any notice under this sub-paragraph or the terms referred to in subparagraph (2) above shall be ineffective if -
 - (aa) the Insolvency of the Borrower commences before the date on which such notice expires; or
 - (bb) the *FCA* notifies the Borrower orally or in writing of its refusal to consent to such repayment or prepayment by the time such notice period expires.
- (b) Payments of interest at a rate not exceeding the rate provided for in paragraph 3 may be made without notice to or consent of the *FCA*, except that where -
- (i) immediately after payment, the Borrower's Financial Resources would be less than or equal to 120% of its Financial Resources Requirement; or

- 4 (3) (b) (ii) before payment, the Insolvency of the Borrower commences,
no such payment may be made without the prior written approval of the *FCA*.
- (4) If in respect of the Loan or any Advance default is made for a period of -
- (a) seven days or more in the payment of any principal due, or
 - (b) 14 days or more in the payment of any interest due,
- the Lender may, at its discretion and after taking such preliminary steps or actions as may be necessary, enforce payment by instituting proceedings for the Insolvency of the Borrower after giving seven Business Day's prior written notice to the *FCA* of its intention to do so.
- (5) Subject to (6) below, the Lender may at its discretion, subject as provided in this Agreement, institute proceedings for the Insolvency of the Borrower to enforce any obligation, condition or provision binding on the Borrower under this Agreement (other than any obligation for the payment of principal moneys or interest in respect the Loan or any Advance) PROVIDED THAT the Borrower shall not by virtue of the institution of any such proceedings for the Insolvency of the Borrower be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it.
- (6) The Lender may only institute proceedings for the Insolvency of the Borrower to enforce the obligations referred to in (5) above if -
- (a) a default under those obligations is not remedied to the satisfaction of the Lender within 60 days after notice of such default has been given to the Borrower by the Lender requiring such default to be remedied;
 - (b) the Lender has taken all preliminary steps or actions required to be taken by it prior to the institution of such proceedings; and
 - (c) the Lender has given seven Business Days' prior written notice to the *FCA* of its intention to institute such proceedings.
- (7) No remedy against the Borrower other than as specifically provided by this paragraph 4 shall be available to the Lender whether for the recovery of amounts owing under this Agreement or in respect of any breach by the Borrower of any of its obligations under this Agreement.

Subordination

- 5** (1) Notwithstanding the provisions of paragraph 4, the rights of the Lender in respect of the Subordinated Liabilities are subordinated to the Senior Liabilities and accordingly payment of any amount (whether principal, interest or otherwise) of the Subordinated Liabilities is conditional upon -
- (a) (if an order has not been made or an effective resolution passed for the Insolvency of the Borrower and, being a partnership, the Borrower has not been dissolved) the Borrower being in compliance with not less than 120% of its Financial Resources Requirement immediately after payment by the Borrower and accordingly no such amount which would otherwise fall due for payment shall be payable except to the extent that -
 - (i) paragraph 4(3) has been complied with; and
 - (ii) the Borrower could make such payment and still be in compliance with such Financial Resources Requirement;
 - (b) (if an order has been made or effective resolution passed for the Insolvency of the Borrower or, if a partnership, the Borrower is to be dissolved) the Borrower being “solvent” at the time of, and immediately after, the payment by the Borrower and accordingly no such amount which would otherwise fall due for payment shall be payable except to the extent that the Borrower could make such payment and still be “solvent”.
- (2) For the purposes of sub-paragraph (1)(b) above, the Borrower shall be “solvent” if it is able to pay its debts (other than the Subordinated Liabilities) in full disregarding -
- (a) obligations which are not payable or capable of being established or determined in the Insolvency of the Borrower, and
 - (b) the Excluded Liabilities.
- (3) Interest will continue to accrue at the rate specified pursuant to paragraph 3 on any payment which does not become payable under this paragraph 5.
- (4) For the purposes of sub-paragraph (1)(b) above, a report given at any relevant time as to the solvency of the Borrower by its Insolvency Officer, in form and substance acceptable to the FCA, shall in the absence of proven error be treated and accepted by the FCA, the Lender and the Borrower as correct and sufficient evidence of the Borrower’s solvency or Insolvency.

- 5** (5) Subject to the provisions of sub-paragraphs (6), (7) and (8) below, if the Lender shall receive from the Borrower payment of any sum in respect of the Subordinated Liabilities -
- (a) when any of the terms and conditions referred to in sub-paragraph (1) above is not satisfied, or
 - (b) where such payment is prohibited under paragraph 4(3), the payment of such sum shall be void for all purposes.
- (6) Any sum referred to in sub-paragraph (5) above shall be received by the Lender upon trust to return it to the Borrower.
- (7) Any sum so returned shall then be treated for the purposes of the Borrower's obligations hereunder as if it had not been paid by the Borrower and its original payment shall be deemed not to have discharged any of the obligations of the Borrower hereunder.
- (8) A request to the Lender for return of any sum referred to in sub-paragraph (5) shall be in writing and shall be made by or on behalf of the Borrower or, as the case may be, its Insolvency Officer.

Representations and undertakings of Borrower

- 6** From and after the date of this Agreement (or the Effective Date if earlier), the Borrower shall not without the prior written consent of the FCA -
- (a) secure all or any part of the Subordinated Liabilities;
 - (b) redeem, purchase or otherwise acquire any of the Subordinated Liabilities;
 - (c) amend any document evidencing or providing for the Subordinated Liabilities;
 - (d) repay any of the Subordinated Liabilities otherwise than in accordance with the terms of this Agreement;
 - (e) take or omit to take any action whereby the subordination of the Subordinated Liabilities or any part thereof to the Senior Liabilities might be terminated, impaired or adversely affected; or
 - (f) arrange or permit any contract of suretyship (or similar agreement) relating to its liabilities under this Agreement to be entered into, and
- other than as disclosed in writing to the FCA, the Borrower represents that it has not done so before the date of this Agreement (or the Effective Date if earlier).

Representations and undertakings of Lender

7 From and after the date of this Agreement (or the Effective Date if earlier), the Lender shall not without the prior written consent of the FCA -

- (a) assign, transfer, dispose of or encumber the whole or any part of the Subordinated Liabilities or purport to do so in favour of any person;
- (b) purport to retain or set off at any time any amount payable by it to the Borrower against any amount of the Subordinated Liabilities except to the extent that payment of such amount of the Subordinated Liabilities would be permitted at such time by this Agreement, and the Lender shall immediately pay an amount equal to any retention or set off in breach of this provision to the Borrower and such retention or set off shall be deemed not to have occurred;
- (c) amend or waive the terms of any document evidencing or providing for the Subordinated Liabilities;
- (d) attempt to obtain repayment of any of the Subordinated Liabilities otherwise than in accordance with the terms of this Agreement;
- (e) take or omit to take any action whereby the subordination of the Subordinated Liabilities or any part of them to the Senior Liabilities might be terminated, impaired or adversely affected; or
- (f) take or enforce any security, guarantee or indemnity from any person for all or any part of the Subordinated Liabilities, and the Lender shall, upon obtaining or enforcing any security, guarantee or indemnity notwithstanding this undertaking, hold the same (and any proceeds thereof) on trust for the Borrower, and

other than as disclosed in writing to the FCA, the Lender represents that it has not done so before the date of this Agreement (or the Effective Date if earlier).

Borrower being a partnership

8 Where the Borrower is a partnership -

- (a) this Agreement shall subsist in full force and effect notwithstanding any change which may take place from time to time in the constitution or title of the Borrower by the retirement of the present Partners or any of them or the assumption of new Partners or by a change of name PROVIDED THAT -
 - (i) a retired Partner shall continue to be liable for the payment of all sums due under this Agreement and implementation of all other obligations in this Agreement until the Lender and the remaining Partner(s) shall agree in writing to release a retired Partner from those obligations and the FCA has agreed in writing to the release; and

- 8** (a) (ii) in the event of a new Partner being assumed as a partner of the Borrower the other Partners shall procure that said assumed Partner shall become bound to the Lender as a party to this Agreement and shall execute such addendum hereto as the Lender and the FCA may consider necessary;
- (b) the obligations and undertakings of the Borrower under this Agreement shall bind the Borrower and the Partners jointly and severally.

Partial invalidity

- 9** If any of the provisions of this Agreement is or becomes invalid, illegal or unenforceable under any law, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired.

The FCA and indemnity

- 10** The FCA shall not, by virtue of having rights under this Agreement, be taken to be a trustee for, or have any obligations to, any person to whom some or all of the Senior Liabilities are owed. Each of the Lender and Borrower shall on demand indemnify the FCA against all claims, losses, costs, expenses and other liabilities made against or incurred by the FCA as a consequence of it having rights, or taking action under this Agreement.

Additional terms

- 11** Any additional terms agreed between the parties are set out in the Variable Terms provided that, if there is any inconsistency between the Variable Terms and the Standard Terms, the Standard Terms shall prevail.

Entire agreement

- 12** This Agreement forms the entire agreement as to the Subordinated Liabilities. If there are any other terms relating to the Subordinated Liabilities existing at the date hereof and not comprised in this Agreement such terms shall be of no further force and effect.

Amendments

- 13** Any amendments to this Agreement must be made by the prescribed Deed of Variation and any amendments made or purported to be made without the consent of the FCA shall be void. For the avoidance of doubt, nothing in this paragraph requires the FCA to be a party to this Agreement.

Notices to the FCA

- 14** A notice given to the FCA under this Agreement shall have no effect, and time shall not start to run in connection with that notice, until the FCA has given to the sender written confirmation of its receipt.

Law

- 15** This Agreement is governed by English law.

Jurisdiction

- 16** For the benefit of the FCA solely, each of the Borrower and the Lender irrevocably submits to the jurisdiction of the English Courts and, to the extent that it does not have a place of business within the jurisdiction, appoints the process agent specified in the Variable Terms as agent for receipt of service of process in such courts. Such jurisdiction shall be non-exclusive except to the extent that non-exclusivity prejudices the submission to the jurisdiction.

Rights of the FCA

- 17** Although not a party to the Agreement, the FCA may in its own right enforce a term of the Agreement to the extent that it purports to confer upon the FCA a benefit.

3.2 FORM OF DEED OF TERMINATION

THIS DEED OF TERMINATION is made on the day of 20.....

BETWEEN -

- (1) * [insert full name of Lender] (registered in [England] number *) whose registered office is at [*if an individual or partnership* of] * (“the **Lender**”).
- (2) * [insert full name of Borrower] (registered in [England] number *) whose registered office is at [*if an individual or partnership* of] * (“the **Borrower**”).
- (3) **The Financial Conduct Authority Limited** whose registered office is at 25 The North Colonnade, Canary Wharf, London, E14 5HS (“**the FCA**”).

WHEREAS -

A subordinated loan agreement was entered in between the Lender (1); the Borrower (2); and the FCA (3) on [date] (“the Agreement”) pursuant to which the Lender agreed to make available to the Borrower a [Loan/Facility] of up to [£]. [insert brief details of any Variations] The parties to the Agreement now wish to terminate the Agreement.

IT IS AGREED THAT -

1. The Agreement shall be deemed terminated [in accordance with its terms] with effect from [the date of this Deed of Termination/insert relevant future date]. All obligations and liabilities arising before that date shall remain continuing.
2. This Deed is governed by English Law.

IN WITNESS WHEREOF this Deed has been executed by the parties and is intended to be and is hereby delivered on the date first above written.

3.3 FORM OF DEED OF VARIATION

THIS DEED OF VARIATION is made on the day of 20.....

BETWEEN -

- (1) * [insert full name of Lender] (registered in [England] number *) whose registered office is at [*if an individual or partnership of*] * (“the **Lender**”);
- (2) * [insert full name of Borrower] (registered in [England] number *) whose registered office is at [*if an individual or partnership of*] * (“the **Borrower**”);
and
- (3) **The Financial Conduct Authority Limited** whose registered office is at 25 The North Colonnade, Canary Wharf, London, E14 5HS (“the **FCA**”).

WHEREAS -

A subordinated loan agreement was entered into between the Lender (1); the Borrower (2); and the FCA (3) on [date] (“the Agreement”) pursuant to which the Lender agreed to make available to the Borrower a (Loan/Facility) of up to [£].

The parties to the Agreement now wish to vary the Agreement to [insert brief details].

IT IS AGREED THAT -

1. The Agreement shall be deemed varied [, in accordance with its terms,] from [the date of this Deed of Variation/insert relevant future date] so that the FCA is no longer a party to the agreement. Any obligation owed to or by, and any requirement for any consent or permission to be given to or by FCA shall be of no further effect. FCA is hereby released from each and every obligation owed by it under the Agreement. Although on execution of this deed the FCA is no longer a party to the Agreement, it may in its own right enforce a term of the Agreement to the extent that it purports to confer upon the FCA a benefit.

[insert additional clauses/details of amended clauses].

[to the extent that any term of the Agreement is inconsistent with their terms and conditions contained in the Approved Form, the terms and conditions in the Approved Form shall prevail (provided that for the purposes of this clause 1, in clauses 11 and 12 of the Approved Form, the expressions “Variable Terms” and “Agreement” shall be deemed to include references to the Agreement and this Deed)*

2. All other terms and conditions of the Agreement remain unchanged.
3. This Deed is governed by English Law.

IN WITNESS WHEREOF this Deed has been executed by the parties and is intended to be and is hereby delivered on the date first above written.

3.4 FORM OF GUARANTOR UNDERTAKING

This undertaking is entered into the [] day of [] 20[] by

[] (the “Guarantor”) of [] in favour of

The Financial Conduct Authority Limited (“the FCA”) whose registered office is at 25 The North Colonnade, Canary Wharf, London, E14 5HS.

WHEREAS:-

- (A) By a subordinated loan agreement (the “Loan Agreement”) [made on]/ [of even date] between [] (the “Lender”), [] (the “Borrower”) and the FCA, the Lender made available to the Borrower a loan [facility] on the terms and conditions contained in the Loan Agreement.
- (B) By a guarantee (the “Guarantee”) made [of even date] between the Guarantor and the Lender, the Guarantor guaranteed the obligations of the Borrower to the Lender under the Loan Agreement on the terms and conditions contained in the Guarantee.

IT IS HEREBY AGREED as follows:-

- 1 The Guarantor hereby undertakes to the FCA that all and any rights which the Guarantor may have against the Borrower in respect of the Guarantee (whether by subrogation or otherwise howsoever) shall be subordinated on the same terms and conditions (mutatis mutandis) set out in the Loan Agreement (as amended from time to time) and further undertakes and confirms that the Guarantor will be bound by the terms of the Loan Agreement as if the Guarantor were a party to it in place of the Lender.
- 2 This undertaking is governed by English law.

IN WITNESS whereof this deed has been executed by the Guarantor on the date first above written.

3.5 Guidance Notes on Completion of Agreements

A GENERAL

Introduction

1. These Notes are designed to accompany the Approved Forms of Subordinated Loan Agreement, each of which is in four parts: the front page, the Variable Terms in Schedule 1, the Standard Terms in Schedule 2 and the signature page. The parties will need to set out details of themselves and the transaction in the Variable Terms and complete the signature page. The front page and the Standard Terms should remain unaltered.
2. All communications with the FCA regarding the proposed Agreement should in the first instance be via the firm's usual contact.
3. Firms are advised to ensure that the appropriate form of subordinated loan agreement is used (Chap 9/Chap 3). This is, of course, dependent on the firm's authorisation categorisation. Should the firm's categorisation change, this should be discussed with the firm's usual contact as it is likely that any subordinated loan agreement in place will have to be revised.

Preparation of the Agreement

4.
 - (a) The form containing the Variable Terms may be completed or re-typed according to preference.
 - (b) Rather than re-type the Standard Terms (Schedule 2), firms should simply **photocopy Schedule 2 of the FCA precedent (or print it from the website) and include it as part of the original Agreement.**
5. [Deleted]

Financial Rule IPRU(INV) 3-63

6. Firms are referred to rule IPRU(INV) 3-63 on the use of subordinated loans, including restrictions on approved lenders, repayment provisions and gearing limits.

B NOTES ON VARIABLE TERMS

Dates

7. If the **Effective Date of the Agreement** is to be different from the Date of the Agreement, care should be taken to record this in paragraph 2. Where this is the case, the Effective Date will normally be expected to be later than the Date of the Agreement. If the Effective Date is to be a date prior to the date of the Agreement (for example because the loan was drawn down before the Agreement was put in place), the firm will be expected to provide a reasonable explanation to the FCA as to why it was not possible to document the loan more promptly.

Addresses

8. Paragraphs 4 and 6: The address given should be the firm's registered office or equivalent.

Partnerships

9. Paragraph 5: Where the Borrower is a partnership, insert "See Additional Terms, paragraph 10() below" and in paragraph 10 of Schedule 1, insert the names and addresses of each of the partners.

The Loan or Facility

10. Paragraph 7: Check that paragraph 2 of the Standard Terms accurately reflects the intentions of the parties.
11. Suggested wording for a loan is:
"This is an agreement for the Loan of £[]."

12. Suggested wording for a facility is:

"This is an agreement for a Facility under which the Lender is committed to make Advances in pounds sterling to the Borrower up to a maximum amount of £[] until the last available date of the Facility being [.....(date)].

The terms (if any) agreed between the parties on the mechanics of drawdown are as follows - ". *

- * For example, the parties may wish to provide that:

“Advances may be drawdown in integral multiples of £100,000.”.

Interest

13. Paragraph 8: the FCA will be concerned if an excessive rate of interest compared with the market rate is charged. Broadly speaking a rate of interest will be regarded by the FCA as excessive if it is not a commercial one. Compound interest is not acceptable.

Repayment

14. Irrespective of the form of agreement being used, the specified notice period runs from the date of drawdown and, therefore, where a loan is in the form of a facility, each advance must be for a minimum of the required period.
15. Repayment clauses have given rise to confusion in the past. Sample wordings are set out below.
16. Under rule IPRU(INV) 3-63(5), an amount repayable within three months of the effective date of the loan or advance is only acceptable as an eligible capital substitute in the absence of a waiver. A notice period of less than three months will accordingly require a waiver which will not normally be given. In many cases the most convenient approach is to provide for repayment on the expiry of three months written notice, such notice to be given to the FCA as well as to the other party to the agreement.
17. Paragraph 9: Examples of suggested wordings for either a fixed repayment date or repayment on notice in relation to IPRU(INV) 3 are as follows:
- (a) "The Borrower shall repay [the Loan/each Advance made to it] on the date which falls three months after the date of drawdown of the [Loan/relevant Advance]."
 - (b) "The Borrower shall repay [the Loan/each Advance made to it] three months after the date on which:
 - (a) the Borrower gives written notice to the Lender and to the FCA; or
 - (b) the Lender gives written notice to the Borrower and to the FCA."

Note: either (a) or (b) above by itself is sufficient.

- (c) "[The Loan / Each Advance made to the Borrower] shall be repayable on the date specified by notice in writing given by the Lender to the Borrower and to the FCA or notice in writing given by the Borrower to the Lender and to the FCA, in either case that date being not less than three months after the date on which the notice is given."

Additional terms

18. Paragraph 10: Additional terms may be agreed between the borrower and lender such as those relating to -

- representations and warranties
- provision of financial and other information
- covenants
- costs and expenses
- taxes and increased costs
- mechanics of payment
- notices
- termination provisions.

However, they should not be inconsistent with the Agreement or the FCA rules. For example, any terms dealing with additional payments by the borrower (eg to compensate for taxes or increased costs) should be subject to the FCA's prior written consent. Covenants and additional representations and warranties should not be inconsistent with the existing representations and warranties in paragraphs 6 and 7 of the Standard Terms. Similarly, any notices clause should take into account paragraph 14 of the Standard Terms (notices to the FCA of no effect until receipt confirmed). Any inconsistency between the Variable Terms and the Standard Terms is resolved in favour of the Standard Terms (paragraph 11 of the Standard Terms).

The lender and borrower should note that the action which can be taken by the lender in response to any breach of representation, warranty or covenant by the borrower is considerably constrained by paragraphs 4 and 5 of the Standard Terms. Therefore the value to the lender of including additional representations, warranties or covenants is very limited.

19. See also note 9 above for the situation where the borrower is a partnership and notes 24 -25 below for additional terms relating to law and jurisdiction.

Law and jurisdiction

20. If the borrower or lender is resident in another jurisdiction and does not have a branch office within the United Kingdom, paragraph 11 of the Variable Terms should be completed.
21. The borrower should not be appointed agent for service of process on the lender in case a dispute arises between them.

C NOTES ON STANDARD TERMS

Representations and undertakings

22. Paragraphs 6(f) and 7(f): The guarantor or other provider of security must waive its right of subrogation against the borrower until all Senior Liabilities of the borrower have been paid in full. A form of deed for this purpose is available from the FCA.
23. On the effect of other terms relating to the subordinated liabilities not contained in this Agreement, see also paragraph 12 of the Standard Terms.
24. Paragraphs 15 and 16: See Notes 24-25 above.

D SIGNATURE PAGE

Arrangements for execution post FCA approval

25. **Two identical original Agreements** (i.e. the front page, the two Schedules and the signature page, each copy stapled or otherwise bound together) should be prepared for signature. Firms and lenders may use any of the execution forms set out in Notes 34-35 below.

E DEEDS OF VARIATION/ DEEDS OF TERMINATION

26. Firms are advised to ensure that the appropriate standard form is used. These forms are available from the FCA on request.
27. The recitals to the deed should refer to the amount of the loan/ each advance and where applicable, briefly summarise the effect of any previous variation of the agreement and of variation of the original agreement which is currently proposed.
28. A variation or termination of a subordinated loan agreement can only be effected by the execution of a further deed. In particular, this means that the formalities for executing a deed (see note 34-36 below) must be observed for all deeds of variation or termination and that all parties to the original agreement must also be parties to the subsequent deed of variation or termination. Only the forms set out at Notes 35(1) and (2) or 36(2) below are appropriate for execution as a deed.
29. A deed of variation will be required where the parties wish to change the terms of a subordinated loan agreement eg. where the amount of the loan or advance is to be increased. A deed of termination is needed where the parties wish to bring to terminate an agreement that is in place before it would otherwise come to an end. This could occur, for example, where the firm wants to substitute a new lender. Please note that where a subordinated loan agreement is terminated in this way, all obligations and liabilities of the parties arising before the date of termination remain in effect.

F Execution

30. In the case of English, Welsh and Northern Irish companies, reference is made to section 43 of the Companies Act 2006 under which a company may contract:
 - by writing under its common seal, or
 - through any person acting under its authority, express or implied.

Section 44 of the Companies Act 2006 governs the execution of documents by English, Welsh and Northern Irish companies.

FORM OF APPROVED BANK BOND

"A"

1. This Bond is issued by [] of [] ("the Bank") for the benefit of [] ("the Firm").
2. The Bank hereby IRREVOCABLY AND UNCONDITIONALLY undertakes to the Firm that forthwith upon receipt of a notice of demand in the form referred to in paragraph 3 of this Bond it shall pay to the Firm the sum of £[] ("the Bonded Amount").
3. The notice of demand referred to in paragraph 2 of this Bond is a notice duly executed by The Financial Conduct Authority Limited ("the FCA") on behalf of the Firm (pursuant to the power of attorney executed contemporaneously herewith) which :-
 - (i) is deposited at any time during the currency of this Bond at the address of the Bank set out in paragraph 1 of this Bond (or such other address as may be notified by the Bank in writing to the FCA for this purpose from time to time);
 - (ii) demands payment in full of the Bonded Amount; and
 - (iii) certifies that the Firm is in default of its financial resources requirement as determined in accordance with the rules in IPRU(INV) 3 in the *Handbook* ("the Financial Rules") as in force at the relevant time. The Bank shall not be entitled to inquire into or require proof of the facts stated in the notice of demand which, as between the Bank, the FCA and the Firm, shall be conclusive.
4. The Bank shall have no recourse to the assets of the Firm in respect of the Bonded Amount and no other person shall have recourse to the assets of the Firm in respect of the Bonded Amount until payment in respect of all present and future sums, liabilities and obligations payable or owing by the Firm (whether actual or contingent, jointly or severally or otherwise howsoever) has been made in full to all other creditors.
5. The Bank may not terminate the Bond unless -
 - (i) the Firm will have financial resources equal to at least 120% of its financial resources requirement as determined in accordance with the Financial Rules of the FCA as in force at the relevant time immediately after termination of the Bond; or
 - (ii) the Bank is authorised by the FCA to terminate the Bond.
6. This Bond will not be terminated before the date specified in paragraph 8 below through any act or default of the Firm or otherwise.
7. This Bond shall not be affected by any change in:-
 - (i) the constitution of the Bank or the Firm; or
 - (ii) the provisions of the Financial Rules of the FCA.

8. This Bond shall remain valid from the date of its issue until [] [and the Bank[and the Firm] hereby irrevocably submit to the non exclusive jurisdiction of the English courts and irrevocably appoint [] as agents for the service of process in the said jurisdiction].*

9. This Bond shall be governed by and construed and take effect in all respects in accordance with English law.

EXECUTED as a deed this [] day of [] 20[].

THE COMMON SEAL of)
[Bank])
was hereunto affixed)
in the presence of:-)

* Words in square brackets only necessary if the Bank or the Firm is incorporated outside the U.K.

POWER OF ATTORNEY

BY THIS POWER OF ATTORNEY given on the [] day of [] a company [incorporated in the United Kingdom] having its registered office at [] ("the Company") appoints The Financial Conduct Authority Limited ("the FCA") whose registered office is 25 The North Colonnade, Canary Wharf, London, E14 5HS to be the true and lawful attorney of the Company for the following purpose:-

By way of security for the obligation of the Company to maintain sufficient financial resources as required by the rules in IPRU(INV) 3 of the *Handbook* as in force from time to time to demand payment on behalf of the Company of the sums payable pursuant to the terms of the Approved Bank Bond (annexed hereto marked "A") in the manner prescribed by the terms of such Approved Bank Bond.

The Company declares the authority hereby conferred to be irrevocable as long as the Company shall remain authorised to conduct investment business in the United Kingdom by the FCA.

The authority hereby conferred may be exercised on behalf of the FCA by any one of its officers or employees duly authorised in that regard by a resolution of the FCA's Board or a duly authorised committee thereof.

This Power of Attorney shall be governed by and construed and take effect in all respects in accordance with English law.

IN WITNESS WHEREOF this deed has been duly executed by the Company and it is intended to be and is hereby delivered the day and year first above written.

THE COMMON SEAL of)
[Company])
was hereunto affixed)
in the presence of:-)

3.7 APPROVED FORM OF UNDERTAKING

THIS UNDERTAKING is entered into the [] day of [] 20[] BETWEEN:

- (1) [] of [] ("the Covenantor");
- (2) THE FINANCIAL CONDUCT AUTHORITY LIMITED ("the FCA") whose registered office is 25 The North Colonnade, Canary Wharf, London, E14 5HS; and
- (3) [] of [] ("the Principal") [and [] of [], [] of [], and [] of []] the individual partners of the Principal as such partners and as individuals **] +].

WHEREAS:

- (A) The Principal is authorised to carry on one or more regulated activities in the United Kingdom (as defined under the Financial Services and Markets Act 2000) by the FCA.
- (B) The Principal is required pursuant to the Financial Rules to maintain a Financial Resources Requirement (and the FCA has agreed that such Financial Resources Requirement may in part be represented by one or more undertakings in the form hereof to the extent that any undertaking(s) will not exceed the excess of 30% of the Principal's Base Requirement over the value of any Approved Bank Bond.
- (C) The Principal has requested the Covenantor to give an undertaking to the FCA for the purposes of the Principal's Financial Resources Requirement which the Covenantor has agreed to do.

NOW IT IS HEREBY AGREED AND DECLARED as follows:

1. Definitions

In this Undertaking:

"Base Requirement" has the meaning given in the Financial Rules;

"Business Day" means a day on which The International Stock Exchange of the United Kingdom Limited is open for business;

"Excluded Liabilities" means Liabilities which are expressed to be and in the opinion of the Insolvency Officer of the Principal [or, where relevant, the Insolvency Officer of a Partner**], do, rank junior to the Subordinated Liabilities in the insolvency of the Principal;

"Financial Resources" has the meaning given in the Financial Rules;

"Financial Resources Requirement" has the meaning given in the Financial Rules;

"the Financial Rules" means the rules in IPRU(INV) 3 of the *Handbook*;

"Insolvency" means and includes liquidation, winding up, bankruptcy and sequestration, administration, rehabilitation and dissolution (whichever term may apply to the Principal) or the equivalent in any other jurisdiction to which the Principal may be subject;

"Insolvency Officer" means and includes any person duly appointed to administer and distribute assets of the Principal in the course of the Principal's insolvency;

"Liabilities" means all present and future sums, liabilities and obligations payable or owing by the Principal [or any Partner**] (whether actual or contingent, jointly or severally or otherwise howsoever); [**"Partner"** means an individual partner of the Principal**];

"Senior Liabilities" means all Liabilities except all Liabilities in respect of any sums paid to the Principal under the terms of this Undertaking and Excluded Liabilities;

"Subordinated Liabilities" means all Liabilities to the Covenantor in respect of repayment of any sums paid to the Principal under the terms of this Undertaking. Any reference to any rules of the FCA is a reference to them as already amended and includes a reference to any revoked rules which may be remade with or without amendments, and to any future rules and/or amendments of them.

2. In consideration of the FCA agreeing to take this Undertaking into account for the purpose of determining compliance by the Principal with its Financial Resources Requirement the Covenantor with intent to bind its successors and assigns and any body corporate with which it may amalgamate or merge HEREBY UNDERTAKES with and to the FCA and the Principal that at any time after the occurrence of any Event of Default specified in paragraph 6 hereof ("Event of Default") and notwithstanding that any other Event of Default may have occurred prior thereto the Covenantor will on demand in writing made upon it by the FCA accompanied by a certificate of the FCA as referred to in paragraph 9 hereof ("the Certificate") pay to the Principal or as the case may be the FCA (as determined in accordance with paragraph 3 below) the sum of £[] ("the Specified Amount").
3. In the case of an Event of Default falling within any of sub-paragraphs (1)(a), (1)(b) or (1)(c) of paragraph 6 below the sum to be paid pursuant to paragraph 2 above shall be paid to the FCA to be used at its discretion for any lawful purpose of the FCA , and in the case of an Event of Default falling within sub-paragraph (1)(d) of paragraph 6 below the sum to be paid pursuant to paragraph 2 above shall be paid to the Principal.
4. The liability of the Covenantor hereunder shall not be affected or discharged and the Covenantor shall not be released from its obligations hereunder by any act, omission, matter or thing whatsoever whereby, if the Covenantor was treated as a surety, guarantor or cautioner for the Principal, its liability would or might have been so affected or discharged or it might have been so released.
5. the FCA may without notification to or the consent of the Covenantor and without affecting or discharging the Covenantor's liability hereunder or releasing the Covenantor from its obligations hereunder from time to time waive or omit or fail to exercise or delay exercising its rights hereunder in respect of any Event of Default and any such waiver, omission, failure or delay shall not prejudice or affect the FCA 's rights hereunder in respect of that Event of Default (except in the case of a waiver) or any other or further Event of Default (whether or not of the same kind).
6. (1) The following shall be Events of Default for the purposes hereof:
 - (a) the Principal is deemed to be insolvent (as determined in accordance with sub-paragraph (2) below);
 - (b) the Principal is unable or admits its inability to pay its debts as they fall due or makes a general assignment for the benefit of, or a compensation with, its creditors;

- (c) an encumbrancer takes possession or a receiver, judicial factor, or similar officer is appointed over all or any part of the undertaking or assets of the Principal;
- (d) the Principal shall in the bona fide opinion of the FCA have failed to maintain an excess of Financial Resources over its Financial Resources Requirement and in the bona fide opinion of the FCA shall not have remedied the same within seven days after being required by the FCA to restore the deficiency.

[(2) The Principal is deemed to become insolvent:

- (a) on the making of a winding-up order against it; or
- (b) on the passing of a resolution for a voluntary winding up in a case in which no statutory declaration has been made under Section 89 of the Insolvency Act 1986 or Article 534 of the Companies (Northern Ireland) Order 1986; or
- (c) on the holding of a creditors meeting summoned under Section 95 of that Act or Article 54 of that Order; or
- (d) on the appointment of an administrator for it under Section 9 of that Act; or
- (e) the occurrence of an event corresponding as nearly as may be to any of those mentioned in sub-paragraphs (a) to (d) above in any other jurisdiction to which the Principal may be subject.*]

[(2) The Principal is deemed to become insolvent:

- (a) in England and Wales on the making of a winding-up order against it under any provision of the Insolvency Act 1986 as applied by an order under Section 420 of that Act; or
- (b) in Scotland, on the making of an award of sequestration on the estate of the partnership; or
- (c) in Northern Ireland, on the making of an adjudication of bankruptcy against any one of the partners; or
- (d) elsewhere on the occurrence of an event corresponding as nearly as may be to any of those mentioned above in this sub-paragraph.**]

[(2) The Principal is deemed to become insolvent if:

- (a) in England and Wales, a bankruptcy order is made against him; or in Scotland, an award of sequestration is made on his estate; or
- (b) in Scotland, and award of sequestration is made on his estate; or
- (c) in Northern Ireland, an adjudication of bankruptcy is made against him; or
- (d) elsewhere than in the United Kingdom, there occurs in relation to him any event corresponding to those mentioned above in this paragraph. *
* *]

7. This Undertaking shall be a continuing undertaking and shall apply irrespective of, and shall not be affected or discharged by, any matter relating to the compliance at any time by the Principal with its Financial Resources Requirement and in particular (but without limitation) the fact (if such be the case) that the Principal at any time complies or is able to comply with the Financial Resources Requirement without making use of this Undertaking or taking the same into account for the purposes of its Financial Resources Requirement.
8. This Undertaking shall apply in relation to any Event of Default occurring at or before the close of business on the earliest (if any) to occur of the following dates ("the Termination Date"):
 - (a) if the Covenantor gives the FCA not less than six months' written notice of its desire to terminate this Undertaking with effect from the date (being a date falling on or after the second anniversary of the date hereof) specified therein, such specified date;
 - (b) if the FCA and the Covenantor agree in writing to terminate this Undertaking with effect from the date specified in such agreement, such specified date; and
 - (c) if this Undertaking shall cease with effect from any day to be eligible to represent (in whole or in part) the Financial Resources Requirement to be maintained by the Principal pursuant to the Financial Rules, the date falling two business days after such day:

provided that no demand may be made upon the Covenantor hereunder later than midnight on the thirtieth business day after the Termination Date.

9.
 - (a) In any demand proceedings or otherwise under this Undertaking the occurrence of any Event of Default shall be conclusively proved by a certificate signed by a duly authorised signatory of the FCA which shall specify the Event of Default which has occurred and to which the certificate relates and shall give brief particulars thereof.
 - (b) If the FCA requires the Principal to remedy a breach of its Financial Resources Requirement as referred to in paragraph 6(1)(d) hereof, it shall notify the Covenantor thereof as soon as reasonably practicable thereafter.
10. A demand shall be duly made upon the Covenantor hereunder if it is signed by a duly authorised signatory of the FCA (accompanied by evidence reasonably satisfactory to the Covenantor of the signatory's authority) and is addressed to the Covenantor at its registered office [principal place of business in the United Kingdom] and posted by first-class mail and (if it has not been received prior thereto) the Covenantor shall be taken to have received such demand forty-eight hours after it is posted.
11. (1) The rights of the Covenantor to repayment of any sums paid to the Principal or, as the case may be, reimbursement by the Principal of any sums paid to the FCA under the terms of this Undertaking are subordinated to the Senior Liabilities and accordingly repayment of any such sums is conditional upon:
 - (a) (if an order has not been made or an effective resolution passed for the insolvency of the Principal) the Principal being in compliance with its Financial Resources Requirement prevailing at the time of payment by the Principal, and accordingly no such amount which would otherwise fall due for payment shall be payable except to the extent that, subject to sub-paragraph (2) below, the Principal could make such payment and still be in compliance with such Financial Resources Requirement immediately thereafter;
 - (b) (if an order has been made or effective resolution passed for the insolvency of the Principal) [or if the Principal shall be

dissolved**] the Principal being solvent at the time of payment by the Principal, and accordingly no such amount which would otherwise fall due for payment shall be payable except to the extent that the Principal could make such payment and still be solvent immediately thereafter. For the purposes of this sub-paragraph, the Principal shall be solvent if it is able to pay its debts in full and in determining whether the Principal is solvent there shall be disregarded obligations which are not payable or capable of being established or determined in the insolvency of the Principal and the Excluded Liabilities.

- (2) No payment of the Subordinated Liabilities shall be made at any time pursuant to sub-paragraph (1)(a) above unless:
 - (a) the Principal has given to the FCA prior written notification that it proposes to make such payment; and
 - (b) the FCA has notified the Principal in writing that it consents to such proposed payment.

The Principal shall give or procure that there are given to the FCA such information and auditor's certificate in relation to such proposed payment as the FCA may require.

- (3) For the purposes of sub-paragraph (1)(b) above a report given at any relevant time as to the solvency of the Principal by its Insolvency Officer, in form and substance acceptable to the FCA, shall in the absence of proven error be treated and accepted by the FCA, the Covenantor and the Principal as correct and sufficient evidence thereof.
- (4) If the Covenantor shall receive from the Principal [or any Partner**] payment of any sum in respect of the Subordinated Liabilities when any of the terms and conditions referred to in sub-paragraphs (1) or (2) above is not satisfied the payment of such sum shall be void for all purposes and [such sums shall be received by the Covenantor upon trust to return the same to the Principal+++] [the Covenantor shall at any time thereafter be bound to return such sum to the Principal or, as the case may be, its Insolvency Officer+] (and any sums so returned shall then be treated for the purposes of the Principal's obligations hereunder as if they had not been paid by the Principal and its original payment shall be deemed not to have discharged any of the obligations of the Principal hereunder). A request to the Covenantor for return of any sum under the foregoing provisions of this sub-paragraph (4) shall be in writing and shall be made by or on behalf of the Principal or, as the case may be, its Insolvency Officer.

12. The Covenantor will not without the prior written consent of the FCA :

- (i) assign or purport to assign to any person the whole or any part of the Subordinated Liabilities;
- (ii) purport to retain or set off at any time any amount payable by it to the Principal [or any Partner* *] against any amount of the Subordinated Liabilities except to the extent that payment of such amount of the Subordinated Liabilities would be permitted at such time by this Undertaking; amend any document evidencing or providing for the Subordinated Liabilities;
- (iii) amend any document evidencing or providing for the Subordinated Liabilities;

- (iv) attempt to obtain repayment of any of the Subordinated Liabilities otherwise than in accordance with the terms of this Undertaking;
 - (v) take or omit to take any action whereby the subordination of the Subordinated Liabilities or any part thereof to the Senior Liabilities might be terminated, impaired or adversely affected;
 - (vi) take any security from any person for all or any part of the Subordinated Liabilities, and the Covenantor shall, upon obtaining security in breach of this Undertaking, hold the same [on trust for+++][as agent of and for the benefit of+] the Principal.
13. The Covenantor acknowledges that the FCA would seek to enforce any breach of the undertaking of the Covenantor contained in Clause 2 hereof by seeking an order for specific performance thereof and the Covenantor acknowledges that an order for specific performance would be the remedy appropriate to be granted to the FCA for such a breach.
14. This Undertaking forms the entire agreement as to the agreement of the Covenantor to provide an undertaking in relation to the Principal's Financial Resources Requirement. If there are any other terms relating thereto existing at the date hereof and not comprised in this Undertaking such terms shall be of no further force and effect. No variation of or amendment to this Undertaking shall be of any effect unless it is in writing subscribed by all the parties hereto. Any amendment to this Undertaking made or purported to be made without the consent of the FCA shall be void.
- [15. This Undertaking shall subsist in full force and effect notwithstanding any change which may take place from time to time in the constitution or title of the Principal by the retirement of the present partners or [either] [any] of them or the assumption of new partners or by a change of name it being provided that:
- (a) A retired partner shall continue to be liable for the payment of all sums due hereunder and implementation of all other obligations herein contained until such time as the Bank and the remaining partner[s] shall agree in writing to release a retired partner from such obligations; and
 - (b) In the event of a new partner being assumed as a partner of the Principal the other partners shall procure that said assumed partner shall become bound to the Covenantor as a party to these presents and shall execute such addendum hereto as the Covenantor and the FCA may consider necessary. **] +]
- [16. The Principal and the Partners hereby acknowledge to the Covenantor and the FCA that subject to the foregoing provisions of the Agreement they will be jointly and severally liable to the Covenantor for any sum paid by the Covenantor hereunder and that irrespective of whether such sum was paid by the Covenantor to the Principal or to the FCA . **] +]
17. This Undertaking is governed by [English law+++++] [the law of Scotland+] [Northern Irish law+++++] [, and for the benefit of the FCA solely the Covenantor irrevocably submits to the jurisdiction of the [English Courts+++++] [Court of Session, Scotland+] [Northern Irish Courts+++++] and appoints [] as agent for receipt of service of process in such courts. Such jurisdiction shall be non-exclusive except to the extent that such non-exclusivity prejudices the submission to such jurisdiction].

Notes:

- (1) To be executed by the Covenantor under seal - other parties to execute either under seal or under hand.
- (2) Words in brackets throughout this document marked with a single asterisk are for use where the Principal is a corporation, those marked with a double asterisk are for use where the Principal is a partnership, and those marked with a triple asterisk where the Principal is an individual.
- (3) Words in brackets marked with a single cross are for use where the agreement is governed by Scottish law, with two crosses where the agreement is governed by either Scottish or Northern Irish law, three crosses where it is governed by either English or Northern Irish law, four crosses where it is governed by Northern Irish law and five crosses where it is governed by English law. Thus, for instance, words marked ++* * would be for use where the Borrower is a partnership and the agreement is governed by either Scottish or Northern Irish law.
- (4) Words in brackets in paragraph 17 above only required where either the Covenantor or the Principal (or both) are not incorporated in any part of the United Kingdom.

[FCA] 5.1	Prescribed Subordinated Loan Agreement	2
[FCA] 5.2	Prescribed Approved Undertaking	12

PRESCRIBED SUBORDINATED LOAN AGREEMENT

THIS SUBORDINATED LOAN AGREEMENT is made the ____ day of ____ 20____ between:

- (1) [____] of [____] (“the Lender” which term includes its permitted successors and assigns);
- (2) [____] of [____] (“the Borrower” which term includes its permitted successors and assigns).

WHEREAS

- (A) The Borrower is [has applied to be] regulated by FCA.
- (B) The Borrower is required to maintain financial resources to meet the provisions of Chapter 5 of the Interim Prudential Sourcebook as they apply to the Borrower at any particular time.
- (C) The Lender has agreed to lend [has lent] to the Borrower an amount as set out herein upon and subject to the terms and conditions contained in this Agreement.

NOW IT IS HEREBY AGREED as follows:

- 1. Definitions In this Agreement:
 - “Business Day” means a day on which banks are open for all banking business in London;
 - “FCA” means the Financial Conduct Authority;
 - “Interest Amount” in respect of an Interest Period means the amount of interest payable in respect of such Interest Period calculated by applying the Rate of Interest in respect of such Interest Period to the average amount (calculated on a daily basis) of the principal of the Loan (together with any interest due but unpaid) outstanding during such Interest Period and multiplying the resulting sum by a fraction of which the numerator is equal to the actual number of days in the Interest Period concerned and the denominator is equal to 365;

“Interest Payment Date”

means [] and [] in each year;

“Interest Period”

means the period starting on the day following an Interest Payment Date and ending on the next following Interest Payment Date provided that the First Interest Period shall commence on the date hereof and end on the next following Interest Payment Date;

“Interim Prudential Sourcebook”

means the Interim Prudential Sourcebook for Investment Businesses made by the FCA;

“LIBOR”

in respect of an Interest Period means the rate determined by such London clearing bank as the Lender and Borrower shall agree to be the arithmetic mean (rounded to the nearest 1/16 of one per cent) of the offered quotations for 6 months sterling deposits in the London inter bank market at 11.00am (London time) on the Business Day prior to the commencement of such Interest Period;

“Loan”

means the Principal Amount (as defined in Clause 2) together with interest accrued thereon as may be outstanding from time to time;

“Rate of Interest”

in respect of an Interest Period means an amount expressed as a percentage per annum equal to the sum of LIBOR in respect of such Interest Period (expressed as a percentage per annum) and [] per cent per annum;

“Senior Creditors”

means all such persons who are:

- (a) unsubordinated creditors of the Borrower; or
- (b) subordinated creditors of the Borrower other than those whose claims are expressed to rank and do rank, pari passu with or junior to the claims of the Lender hereunder.

Clause headings in this Agreement are inserted for ease of reference only and shall not affect the construction of this Agreement.

2. The Loan

- (a) The Lender [hereby agrees to advance]/[has on [] advanced] to the Borrower by way of loan the principal amount of [] (the “Principal Amount”) upon and subject to the terms and conditions contained in this Agreement.
- [(b) [Upon signature hereof]/[On []] the Lender shall pay, or procure the payment of, the Principal Amount to the Borrower in freely available funds at its account number [] with [] bank.]

3. Interest

- (a) Subject to the provisions of Clause 7 of this Agreement:
 - (i) the Borrower will until repayment of the Loan in full pay to the Lender interest on the Loan or on any part or parts thereof for the time being remaining due hereunder in accordance with a written notice given by the Lender to the Borrower;
 - (ii) on each Interest Payment Date the Borrower shall pay to the Lender the Interest Amount in respect of the Interest Period ending on such Interest Payment Date;

provided that at no time during the continuance of this Agreement shall the Rate of Interest exceed an annual rate of 5 per cent above LIBOR.

		(b) No payment on account of interest shall be made at any time to the extent that such payment would cause the Borrower to be in breach of rule 5.2.1(1) of Chapter 5 of the Interim Prudential Sourcebook (or any equivalent Rule for the time being in force). Any amount of interest whose payment is deferred under this provision shall be paid when and to the extent that the Borrower would not be in breach of rule 5.2.1(1) of the Interim Prudential Sourcebook after such payment. [The Agreement may make provision for interest on interest.]
4.	Early Repayment	<p>Subject to the provisions of Clause 7 of this Agreement the Borrower may make an early repayment of the whole or any part of the Loan provided that:</p> <p>(a) the written consent of FCA to such repayment is first obtained by the Borrower;</p> <p>(b) the Borrower must give to the Lender not less than one Business Day's prior notice of its intention to make such repayment, specifying the amount thereof and the date on which it is to be made (such notice to be ineffective if the winding up of the Borrower commences before the date on which such notice expires); and</p> <p>(c) the Borrower shall simultaneously pay all interest accrued to the date of repayment.</p>
5.	Repayment of the Loan	<p>Subject to the provisions of Clause 7 of this Agreement the Loan shall be repayable upon the expiry of [] months' written notice given by the Lender to the Borrower provided that:</p> <p>(a) such notice shall expire on a day falling after [five] [two] years from the date of [drawdown] [hereof]; and</p> <p>(b) the prior written consent of FCA to the repayment has first been obtained by the Borrower and not withdrawn; but</p> <p>(c) such notice shall cease to have effect if the winding up of the Borrower commences before the date on which such notice expires.</p>
6.	Event of Default	<p>Subject to the provisions of Clauses 7 and 10 of this Agreement:</p> <p>(a) if default is made for a period of five Business Days or more in the payment of any of the principal amount of the Loan [or for a period of 15 Business Days or more in the payment of any of the interest due in respect of the Loan] the Lender may, after taking such preliminary steps or actions as may be necessary, institute proceedings to wind up the Borrower;</p>

- (b) if an order is made or an effective resolution is passed for the winding up of the Borrower, the Loan shall forthwith become repayable.

7. Subordination

Notwithstanding the provisions of Clauses 4, 5 and 6 of this Agreement, the rights of the Lender in respect of the Loan are subordinated in all respects to the rights of Senior Creditors in respect of amounts outstanding to them payable by the Borrower (“Senior Liabilities”) and accordingly payment of any amount (whether in respect of principal, interest or otherwise and whether by way of repayment or prepayment) of the Loan shall be in all respects conditional upon compliance with the provisions below:

- (a) The written consent of FCA to such payment is first obtained by the Borrower.
- (b) (i) If at any time or from time to time an order has been made or an effective resolution passed for the winding up of the Borrower, then any payment of any amount (whether in respect of principal, interest or otherwise and whether by way of repayment or prepayment) of the Loan which under any other Clause of this Agreement would fall due for payment whilst the Borrower was insolvent or in insolvent liquidation will not fall so due, and instead such payment will become due for payment only if and when and to the extent that the Borrower could make such payment in whole or in part and still be solvent (whether or not it was in liquidation) thereafter. [Interest pursuant to Clause 3 hereof will continue to accrue on each and every such payment which is suspended under this Clause. Any payment suspended under this Clause but ultimately made will be made according to the amount of principal or interest (as the case may be) due to the Lender and in the event of both principal and interest being so suspended, payment will be made on account of principal before any payment is made on account of interest, but such alteration in order of payment will not prejudice the right of the Lender (which the Borrower acknowledges and confirms) to receive, subject to this Clause 7(b)(i) the full amount to which it would have been entitled if monies from time to time available for payment had been applied instead on account of interest before principal].

(ii) For the purposes of Clause 7(a) and (b) the Borrower may, and will whenever requested by the Lender whilst any payment remains suspended, procure a report or opinion by its auditors or (if it is in liquidation) by its liquidator as to whether or not the Borrower would be solvent at any time in any circumstances or whether or to what extent any payment in respect of the Loan could be made without infringing the provisions of this Sub-Clause and in the absence of proven error such report or opinion shall be treated and accepted by the Borrower and the Lender as correct and sufficient evidence of such fact.

(iii) Nothing in this Clause shall prevent the Lender from presenting or supporting any petition to wind up the Borrower, and the Borrower shall not put forward or rely on the provisions of this Clause as a ground for opposing any petition presented or supported by the Lender.

8. Payments

Subject to the provisions of Clause 7 of this Agreement:

- (a) all payments to be made by the Borrower hereunder shall be made in immediately available funds before [] on the date on which payment is due in such manner as the Lender may from time to time direct;
- (b) if any sum becomes due for payment pursuant to this Agreement on a day which is not a Business Day, such payment shall be made on the next succeeding Business Day and interest shall be adjusted accordingly;
- (c) all sums payable by the Borrower hereunder shall be paid in full without set off or counter claim and free and clear of and without deduction or withholding for or on account of any present or future taxes, duties or other charges. If any payment shall be subject to any such tax or if the Borrower shall be required by law to make any such deduction or withholding, the Borrower will pay such tax, will ensure that such payment, deduction or withholding, will not exceed the minimum legal liability therefore and will simultaneously pay to the Lender such additional amounts as will result in the Lender receiving a net amount equal to the full amount which the Lender would have received had no such payment, deduction or withholding been required.

9.	Regulatory Consent	<p>The Lender will not without the prior written consent of FCA:</p> <ul style="list-style-type: none"> (a) assign or purport to assign to any person this Agreement or the whole or any part of its rights against the Borrower in respect of the Loan; (b) purport to retain or set off at any time any amount of the Loan against any amount otherwise payable by it to the Borrower except to the extent that payment of such amount of the Loan would be permitted at such time by this Agreement; (c) amend or waive or concur in amending or waiving the terms of this Agreement; (d) attempt to obtain repayment of the whole or any part of the Loan otherwise than in accordance with the terms of this Agreement; (e) take or omit to take any action whereby the subordination of the Loan or any part thereof as provided for in Clause 7 of this Agreement might be terminated, impaired or adversely affected; or (f) take any security from any person for all or any part of the Loan and so that the Lender shall, upon obtaining security in breach of this Clause, hold the same on trust for the Borrower.
10.	Sole Remedy	<p>The Lender shall not be entitled to any remedy against the Borrower in respect of any default by the Borrower in repayment or prepayment of the Loan, or to enforce any other term of this Agreement, other than to institute proceedings to wind up the Borrower, provided always that the Borrower shall not, by the institution of such proceedings, become or be obliged to pay any sums or sum sooner than the same would otherwise have been payable by it pursuant to this Agreement.</p>
11.	Trust	<p>Any amounts paid by the Borrower or received or recovered by the Lender or any security taken from any person in respect of the Loan in breach of the provisions of this Agreement and any distributions of any kind or character in respect of the Loan received or recovered by the Lender otherwise than in accordance with the provisions of this Agreement shall be held on trust by the Lender to return the same to the Borrower, or where applicable, the liquidator or other similar such officer.</p>

12.	Entire Agreement	The Borrower and the Lender acknowledge that this Agreement forms the entire agreement relating to the Loan. If there are any other terms relating to the Loan existing at the date hereof and not comprised in this Agreement such terms shall be of no further force and effect.
13.	Continuing Obligations	The obligations of the Borrower and Lender hereunder shall be continuing obligations and shall be and remain fully effective until the repayment of the Loan in full in accordance with the provisions of this Agreement.
14.	Governing Law	This Agreement shall be governed by and construed in accordance with the laws of England and each of the parties hereby irrevocably submits to the non-exclusive jurisdiction of the Courts of England and Wales, Scotland and Northern Ireland.
15.	Rights of the FCA	Although not a party to the agreement, the FCA may in its own right enforce a term of the agreement to the extent that it purports to confer upon the FCA a benefit.
16.	Notices	<p>Any notice of demand to be given or made hereunder may be delivered by hand or sent by first class registered or pre-paid post to the recipient at the address first above mentioned or such other address as it shall last notify to each of the other parties hereto. Such notice shall be deemed to have been received:</p> <p>(a) if delivered by hand, on the day of delivery;</p> <p>(b) if sent by first class registered or pre-paid post three days after the date of despatch (as to which the sender's certificate shall be conclusive).</p>
17.	Counterparts	<p>This Agreement may be executed in any number of counterparts and by the different parties hereto on separate counterparts, each of which when so executed and delivered shall be an original, but all the counterparts shall together constitute one and the same instrument.</p> <p>IN WITNESS whereof the parties hereto have executed this Agreement as a deed the day and date first above written.</p>

Notes for Prescribed Subordinated Loan Agreement

These notes accompany the *prescribed subordinated loan agreement* and are intended to assist those who are or propose to be regulated by FCA. These notes relate solely to the mechanical drafting aspects of the prescribed agreement.

These notes refer to the Clauses in the order in which they appear in the prescribed agreement.

1. Parties Complete the name, registered number and registered office of the Lender and the Borrower.
2. Loan The Specimen Agreement provides for two alternative ways of advancing the Loan:
 - (a) one advance on the date of the Agreement; or
 - (b) one advance at a date other than the date of the Agreement. Firms are requested to specify clearly the date of the advance.
3. Interest The maximum rate of interest is 5 per cent above LIBOR. However, if a fixed rate of interest is charged, the Interest Rate must not exceed 5 per cent above LIBOR on the date the Loan is first taken out.

If the Loan is to be free of interest:
 - (a) Clause 3 should be deleted and replaced by the words “The Loan shall be interest-free”; and
 - (b) the definitions of “Interest Amount”, “Interest Payment Date”, “Interest Period”, LIBOR and “Rate of Interest” should be deleted and consequential changes should be made to Clauses 4(c), 6(a), 7(preamble), 7(b)(i), and 8(b) accordingly.
4. Repayment The specified date of repayment must not be less than two years after:
 - (a) the date of the Agreement; or
 - (b) where the principal amount was advanced after the date of the Agreement, the date the principal amount was advanced.

5.	Execution	The date of the Agreement is the date on which execution of the Agreement by all parties is completed. Execution must accord with the laws and regulations governing the execution of documents in the jurisdiction of the Firm's principal place of business (e.g. a company whose principal place of business is in England, Wales and Northern Ireland must observe the requirements of Part 4 of the Companies Act 2006).
6.	Number of copies of Agreements	Three copies of the Agreement should be executed by both the Lender and the Borrower and forwarded to FCA. FCA will retain one original Agreement and return the other two copies to the Firm.

PRESCRIBED QUALIFYING UNDERTAKING

THIS UNDERTAKING IS ENTERED INTO

THE DAY OF 20 BETWEEN

- (1) [] of [] (“the Bank” or “Holding Company”)
- (2) FINANCIAL CONDUCT AUTHORITY whose registered office is at 25 The North Colonnade, Canary Wharf, London E14 5HS (“FCA”) and
- (3) [] of [] (“the Principal”)

WHEREAS

- (A) The Principal is regulated by FCA
- (B) The Principal is required to maintain financial resources to meet the provisions of Chapter 5 of the Interim Prudential Sourcebook as they apply to the Principal and FCA has agreed that the Financial Resources Requirement may in part be represented by one or more undertakings in the form hereof
- (C) The Principal has requested the Bank or Holding Company to give an undertaking to FCA for the purposes of the Principal’s Financial Resources Requirement which the Bank or Holding Company has agreed to do

NOW THESE PRESENT WITNESS and it is hereby agreed and declared as follows:

1. In this Undertaking:

“Business Day”

means a day on which the Bank or Holding Company is open for business;

“Excluded Liabilities”

means Liabilities which are expressed to be and in the opinion of the liquidator of the Principal, do, rank junior to the Subordinated Liabilities in such liquidation;

“Financial Resources Requirement”

means the amount of liquid capital which the Principal is, pursuant to the Rules, required to maintain at any particular time;

“Interim Prudential Sourcebook”

means the Interim Prudential Sourcebook for Investment Businesses made by the FCA;

“Liabilities”

means all present and future sums, liabilities and obligations payable or owing by the Principal (whether actual or contingent, jointly or severally or otherwise howsoever);

“Senior Liabilities” means all Liabilities except all Liabilities in respect of any sums paid to the Principal under the terms of this Undertaking and Excluded Liabilities;

“Subordinated Liabilities”

means all Liabilities of the Principal to the Bank or Holding Company in respect of repayment of any sums paid to the Principal under the terms of this Undertaking;

“the Rules”

means the Rules of FCA from time to time; the term

“liquid capital”

has the meaning ascribed to it in the Rules;

any reference to an enactment is a reference to it as already amended and includes a reference to any repealed enactment which it may re-enact, with or without amendments, and to any future re-enactment and/or amendment of it.

2. (a) In consideration of FCA agreeing to take this Undertaking into account for the purpose of determining compliance by the Principal with its Financial Resources Requirement the Bank or Holding Company with intent to bind its successors and assigns and any body corporate with which it may amalgamate or merge HEREBY UNDERTAKES with and to FCA and the Principal that at any time after the occurrence of any Event of Default specified in paragraph 5 hereof (“Event of Default”) and notwithstanding that any other Event of Default may have occurred prior thereto the Bank or Holding Company will on demand in writing made upon it by FCA accompanied by a certificate of FCA as referred to in paragraph 8 hereof (“the Certificate”) pay to the Principal the sum of £[] (“the Specified Amount”).

(b) The Bank or Holding Company shall pay the Specified Amount to such account of the Principal as FCA may specify.
3. The liability of the Bank or Holding Company hereunder shall not be affected or discharged and the Bank or Holding Company shall not be released from its obligations hereunder by any act, omission, matter or thing whatsoever whereby, if the Bank or Holding Company was treated as a surety or guarantor for the Principal, its liability would or might have been so affected or discharged or it might have been so released.
4. FCA may without notification to or the consent of the Bank or Holding Company and without affecting or discharging the Bank’s or the Holding Company’s liability hereunder or releasing the Bank or Holding Company from its obligations hereunder from time to time waive or omit or fail to exercise or delay exercising its rights hereunder in respect of any Event of Default and any such waiver, omission, failure or delay shall not prejudice or affect FCA’s rights hereunder in respect of that Event of Default (except in the case of a waiver) or any other or further Event of Default (whether or not of the same kind).

5. The following shall be Events of Default for the purposes hereof:
- (a) the Principal is deemed to be unable to pay its debts in accordance with Section 123 of the Insolvency Act 1986;
 - (b) the Principal is unable or admits its inability to pay its debts as they fall due or makes a general assignment for the benefit of, or a composition with, its creditors;
 - (c) an encumbrancer takes possession, or a receiver, administrator or similar officer is appointed, of all or any part of the undertaking or assets of the Principal;
 - (d) the Principal shall in the opinion of FCA be in breach of its Financial Resources Requirement and in the opinion of FCA shall not have remedied such breach within 5 Business Days after being required by FCA to restore the deficiency.
6. This Undertaking shall be a continuing undertaking and shall apply irrespective of, and shall not be affected or discharged by, any matter relating to the compliance at any time by the Principal with its Financial Resources Requirement and in particular (but without limitation) the fact (if such be the case) that the Principal at any time complies or is able to comply with the Financial Resources Requirement without making use of this Undertaking or taking the same into account for the purposes of its Financial Resources Requirement.
7. This Undertaking shall apply in relation to any Event of Default occurring at or before the close of business on the earliest (if any) to occur of the following dates (“the Termination Date”):
- (a) if the Bank or Holding Company gives FCA not less than six months’ written notice of its desire to terminate this Undertaking with effect from the date (being a date falling on or after the second anniversary of the date hereof) specified therein, such specified date;
 - (b) if FCA and the Bank or Holding Company agree in writing to terminate this Undertaking with effect from the date specified in such agreement, such specified date; and
 - (c) if this Undertaking shall cease with effect from any day to be eligible to represent (in whole or in part) the Financial Resources Requirement to be maintained by the Principal pursuant to the Rules, the date falling two Business Days after such day. Provided that no demand may be made upon the Bank or Holding Company hereunder later than midnight on the thirtieth Business Day after the Termination Date.
8. (a) In any demand proceedings or otherwise under this Undertaking the occurrence of any Event of Default shall be conclusively proved by a certificate signed by a duly authorised signatory of FCA which shall specify the Event of Default which has occurred and to which the certificate relates and shall give brief particulars thereof.
- (b) If FCA requires the Principal to remedy a breach of its Financial Resources Requirement as referred to in paragraph 5(d) hereof, it shall notify the Bank or Holding Company thereof as soon as reasonably practicable thereafter.

9. A demand shall be duly made upon the Bank or Holding Company hereunder if it is signed by a duly authorised signatory of FCA (accompanied by evidence reasonably satisfactory to the Bank or Holding Company of the signatory's authority) and is addressed to the Bank or Holding Company at its registered office [principal place of business in the UK] and posted by first class mail and (if it has not been received prior thereto) the Bank or Holding Company shall be taken to have received such demand forty-eight hours after it is posted.
10. (a) The rights of the Bank or Holding Company to repayment of any sums paid to the Principal under the terms of this Undertaking are subordinated to the Senior Liabilities and accordingly repayment of any such sums is conditional upon:
- (i) (if an order has not been made or an effective resolution passed for the winding up of the Principal) the Principal being in compliance with its Financial Resources Requirement prevailing at the time of payment by the Principal and no such payment which would otherwise fall due will fall so due except to the extent that, subject to sub-paragraph (b) below, the Principal could make such payment and still be in compliance with such Financial Resources Requirement immediately thereafter;
 - (ii) (if an order has been made or effective resolution passed for the winding up of the Principal) the Principal being solvent at the time of payment by the Principal and accordingly no such payment which would otherwise fall due for payment will fall due except to the extent that the Principal could make such payment and still be solvent immediately thereafter. For the purposes of this sub-paragraph, the Principal shall be solvent if it is able to pay its debts in full and in determining whether the Principal is solvent for the purposes of this sub-paragraph there shall be disregarded obligations which are not payable or capable of being established or determined in the winding up of the Principal and the Excluded Liabilities.
- (b) No payment of the Subordinated Liabilities shall be made at any time pursuant to sub-paragraph (a)(i) above unless:
- (i) the Principal has given to FCA prior written notification that it proposes to make such payment; and
 - (ii) FCA has notified the Principal in writing that it consents to such proposed payment.
- The Principal shall give or procure that there are given to FCA such information and auditor's certificate in relation to such proposed payment as FCA may require.
- (c) For the purposes of sub-paragraph (a)(ii) above a report given at any relevant time as to the solvency of the Principal by its liquidator, in form and substance acceptable to FCA, shall in the absence of proven error be treated and accepted by FCA, the Bank or Holding Company and the Principal as correct and sufficient evidence thereof.

(d) If the Bank or Holding Company shall receive from the Principal payment of any sum in respect of the Subordinated Liabilities when any of the terms and conditions referred to in sub-paragraphs (a) or (b) above is not satisfied the payment of such sum shall be void for all purposes and such sums shall be received by the Bank or Holding Company upon trust to return the same to the Principal and the Bank or Holding Company shall at any time thereafter be bound to return such sum to the Principal or, as the case may be, its liquidator (and any sums so returned shall then be treated for the purposes of the Principal's obligations hereunder as if they had not been paid by the Principal and its original payment shall be deemed not to have discharged any of the obligations of the Principal hereunder). A request to the Bank or Holding Company for return of any sum under the foregoing provisions of this sub-paragraph (d) shall be in writing and shall be made by or on behalf of the Principal or, as the case may be, its liquidator.

- 11.** The Bank or Holding Company will not without the prior written consent of FCA:
- (i) assign or purport to assign to any person the whole or any part of the Subordinated Liabilities;
 - (ii) purport to retain or set-off at any time any amount payable by it to the Principal against any amount of the Subordinated Liabilities except to the extent that payment of such amount of the Subordinated Liabilities would be permitted at such time by this Undertaking;
 - (iii) amend any document evidencing or providing for the Subordinated Liabilities;
 - (iv) attempt to obtain repayment of any of the Subordinated Liabilities otherwise than in accordance with the terms of this Undertaking;
 - (v) take or omit to take any action whereby the subordination of the Subordinated Liabilities or any part thereof to the Senior Liabilities might be terminated, impaired or adversely affected;
 - (vi) take any security from any person for all or any part of the Subordinated Liabilities, and the Bank or Holding Company shall, upon obtaining security in breach of this undertaking, hold the same on trust for the Principal.
- 12.** The Bank or Holding Company acknowledges that FCA would seek to enforce any breach of the Undertaking of the Bank or Holding Company contained in Clause 2 hereof by seeking an order for specific performance thereof and the Bank or Holding Company acknowledges that an order for specific performance would be the remedy appropriate to be granted to FCA for such a breach.
- 13.** This Undertaking forms the entire Agreement as to the agreement of the Bank or Holding Company to provide an undertaking in relation to the Principal's Financial Resources Requirement. If there are any other terms relating thereto existing at the date hereof and not comprised in this Undertaking such terms shall be of no further force and effect. No variation of or amendment to this Undertaking shall be of any effect unless it is in writing subscribed by all the parties hereto. Any amendment to this Undertaking made or purported to be made without the consent of FCA shall be void.

- 14.** This Undertaking is governed by English law [and for the benefit of FCA solely the Bank or Holding Company irrevocably submits to the jurisdiction of the Courts of England and Wales, Scotland and Northern Ireland and appoints [] as agent for receipt of service of process in such courts. Such jurisdiction shall be non-exclusive except to the extent that such non-exclusivity prejudices the submission to such jurisdiction].
- (1) *To be executed by the Bank or Holding Company under seal—other parties to execute either under seal or under hand.*
- (2) *Words in brackets in 9 and 14 above are required only where either the Bank or Holding Company or the Principal (or both) are not incorporated in any part of the UK.*
- (3) *Where the Principal is not a company, the provisions of the Undertaking shall (in agreement with FCA) be amended as appropriate to reflect the legal status of the Principal.*

9.1 Approved Form of Long-Term Subordinated Loan Agreement

A. Front Page

THIS AGREEMENT is made on the date set out in the Variable Terms (as set out in **Schedule 1** to this Agreement) and is to be effective on that date unless a different effective date is set out in those terms

BETWEEN -

- (1) **the Lender** (as defined in the Standard Terms set out in **Schedule 2** to this Agreement), and
- (2) **the Borrower** (as defined in the Standard Terms)

WHEREAS the Borrower wishes to use the Loan, or each Advance under the Facility (as those expressions are defined in the Standard Terms) in accordance with FCA rule IPRU(INV) 9.5 and has fully disclosed to the FCA the circumstances giving rise to the Loan or Facility and the effective Subordination of the Loan and each Advance.

IT IS AGREED THAT this Agreement shall comprise the Variable Terms set out in **Schedule 1** to this Agreement and the Standard Terms set out in **Schedule 2** to this Agreement.

This Agreement is executed by the parties the day and year indicated in the Variable Terms.

Schedule 1

B. Variable Terms

1. Date of Agreement	
2. Effective Date	
3. Lender	
4. Address of Lender	
5. Borrower	
6. Address of Borrower	

7. The Loan or Facility

With reference to paragraph 2 of the Standard Terms,

--

8. Interest

With reference to paragraph 3 of the Standard Terms, interest shall be calculated and paid as follows -

--

9. Repayment

With reference to paragraph 4(2) of the Standard Terms and subject always to paragraphs 4(3) (restrictions on repayment) and 5 (subordination) of the Standard Terms, the terms for repayment are -

Notes to paragraph 9 -

1. The repayment date for the Loan must be one or more of -
 - a date not less than five years from the date of drawdown,
 - a date not less than five years from the Borrower giving notice in writing to the Lender and the FCA, or
 - a date not less than five years from the Lender giving notice in writing to the Borrower and the FCA.
2. Where this Agreement is for a loan facility each Advance must be treated separately and have a repayment date not less than five years from the date of drawdown, or be subject to not less than five years' notice or have and be subject to both.

10. **Additional terms**

With reference to paragraph 11 of the Standard Terms, the additional terms to this Agreement are -

--	--

11. **Jurisdiction** With reference to paragraph 16 of the Standard Terms, the person(s) indicated below is (are) appointed as agents for service of process -

(a) by the Lender -

--

of

--

(b) by the Borrower -

--

of

--

Schedule 2

C. Standard Terms

Interpretation

1 (1) In this Agreement -

“**Advance**” means, where this Agreement is for a loan facility, an amount drawn or to be drawn down by the Borrower or otherwise made available by the Lender under this Agreement as that amount may be reduced from time to time by any repayment or prepayment permitted under this Agreement;

“**Borrower**” means the person identified as such in the Variable Terms and includes its permitted successors and assigns and, where the Borrower is a partnership, each Partner;

“**Business Day**” means any day except Saturday, Sunday or a bank or public holiday in England;

“**Effective Date**” means the date on which this Agreement is to take effect being the date of this Agreement unless otherwise stated in the Variable Terms;

“**Excluded Liabilities**” means Liabilities which are expressed to be and, in the opinion of the Insolvency Officer of the Borrower, do, rank junior to the Subordinated Liabilities in any Insolvency of the Borrower;

“**Facility**” means the loan facility referred to in paragraph 2(2);

“**Financial Resources**” has the meaning given in the Financial Rules;

“**Financial Resources Requirement**” has the meaning given it in the Financial Rules;

“**Financial Rules**” means the rules in IPRU(INV) Chapter 9 in the *handbook*;

“**Insolvency**” means and includes liquidation, winding up, bankruptcy, sequestration, administration, rehabilitation and dissolution (whichever term may apply to the Borrower) or the equivalent in any other jurisdiction to which the Borrower may be subject;

“**Insolvency Officer**” means and includes any person duly appointed to administer and distribute assets of the Borrower in the course of the Borrower’s Insolvency;

- 1 (1) **“Lender”** means the person identified as such in the Variable Terms and includes its permitted successors and assigns;

“Liabilities” means all present and future sums, liabilities and obligations payable or owing by the Borrower (whether actual or contingent, jointly or severally or otherwise howsoever);

“Loan” means the indebtedness of the Borrower to the Lender referred to in paragraph 2(1) as that indebtedness may be reduced from time to time by any repayment or prepayment permitted under this Agreement;

“Partner” means, where the Borrower is a partnership, each and every partner of the Borrower as a partner and as an individual (see also paragraph 8);

“Senior Liabilities” means all Liabilities except the Subordinated Liabilities and Excluded Liabilities;

“Subordinated Liabilities” means all Liabilities to the Lender in respect of the Loan or each Advance made under this Agreement and all interest payable thereon.

“the FCA” means The Financial Conduct Authority Limited whose registered office is at 25 The North Colonnade, Canary Wharf, London, E14 5HS; and

- (2) Any reference to any rules of the FCA is a reference to them as in force from time to time.
- (3) Reference to any gender includes a reference to all other genders.
- (4) Reference to a paragraph is to a paragraph of these Standard Terms, unless otherwise indicated.

The Loan or Facility

- 2 (1) Where as indicated in the Variable Terms this Agreement is for a loan, the Borrower hereby **acknowledges** its indebtedness to the Lender in the sum mentioned in the Variable Terms as an unsecured loan upon and subject to the terms and conditions of this Agreement.

- (2) Where, as indicated in the Variable Terms this Agreement is for a loan facility -

(a) the maximum aggregate principal amount of each Advance outstanding at any time under the Facility shall not exceed the maximum amount specified in the Variable Terms or such other amount as may be agreed between the Borrower and the Lender from time to time;

(b) the Facility will be available until the last available date specified in the Variable Terms; and

- 2 (2) (c) any specific terms dealing with the mechanics of drawdown are contained in the Variable Terms.
- (3) The Lender and the Borrower undertake to provide the FCA, immediately upon request, with details in writing of all principal and interest in respect of the Loan or each Advance outstanding for the time being and all payments of any amount made in the period specified by the FCA in the request.

Interest

- 3 Subject to the provisions of paragraphs 4 and 5, until repayment of the Loan or each Advance in full, the Borrower will pay to the Lender interest on the Loan or each Advance (or on any part or parts of it or them for the time being outstanding under this Agreement) calculated and payable in the manner set out in the Variable Terms.

Repayment

- 4 (1) The provisions of this paragraph are subject in all respects to the provisions of paragraph 5(subordination).
- (2) The terms concerning repayment are set out in the Variable Terms but are subject to paragraph 4(3).
- (3) (a) Except where the FCA otherwise permits, no repayment or prepayment of the Loan or any Advance may be made, in whole or in part, before the relevant repayment date provided for in paragraph 9 of the Variable Terms.
- (b) At the request of the Borrower, the FCA may permit the early repayment or prepayment of the Loan or any Advance, in whole or in part, only where, immediately after such repayment or prepayment, the Borrower's Financial Resources would be greater than 100% of its Financial Resources Requirement.
- (c) Payments of interest at a rate not exceeding the rate provided for in paragraph 3 may be made without notice to or consent of the FCA, except that where -
 - (i) immediately after payment, the Borrower's Financial Resources would be less than or equal to 120% of its Financial Resources Requirement; or
 - (ii) before payment, the Insolvency of the Borrower commences,no such payment may be made without the prior written consent of the FCA.
- (4) If in respect of the Loan or any Advance default is made for a period of -
 - (a) seven days or more in the payment of any principal due, or
 - (b) 14 days or more in the payment of any interest due,

- 4
- (4) The Lender may, at its discretion and after taking such preliminary steps or actions as may be necessary, enforce payment by instituting proceedings for the Insolvency of the Borrower after giving seven Business Day's prior written notice to the FCA of its intention to do so.
 - (5) Subject to (6) below, the Lender may at its discretion, subject as provided in this Agreement, institute proceedings for the Insolvency of the Borrower to enforce any obligation, condition or provision binding on the Borrower under this Agreement (other than any obligation for the payment of principal moneys or interest in respect of the Loan or any Advance) PROVIDED THAT the Borrower shall not by virtue of the institution of any such proceedings for the Insolvency of the Borrower be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it.
 - (6) The Lender may only institute proceedings for the Insolvency of the Borrower to enforce the obligations referred to in (5) above if -
 - (a) a default under those obligations is not remedied to the satisfaction of the Lender within 60 days after notice of such default has been given to the Borrower by the Lender requiring such default to be remedied;
 - (b) the Lender has taken all preliminary steps or actions required to be taken by it prior to the institution of such proceedings; and
 - (c) the Lender has given seven Business Days' prior written notice to the FCA of its intention to institute such proceedings.
 - (7) No remedy against the Borrower other than as specifically provided by this paragraph 4 shall be available to the Lender whether for the recovery of amounts owing under this Agreement or in respect of any breach by the Borrower of any of its obligations under this Agreement.

Subordination

- 5
- (1) Notwithstanding the provisions of paragraph 4, the rights of the Lender in respect of the Subordinated Liabilities are subordinated to the Senior Liabilities and accordingly payment of any amount (whether principal, interest or otherwise) of the Subordinated Liabilities is conditional upon -
 - (a) (if an order has not been made or an effective resolution passed for the Insolvency of the Borrower and, being a partnership, the Borrower has not been dissolved) the Borrower being in compliance with not less than 120% of its Financial Resources Requirement immediately after payment by the Borrower and accordingly no such amount which would otherwise fall due for payment shall be payable except to the extent that -
 - (i) paragraph 4(3) has been complied with; and

- 5
- (1) (a) (ii) the Borrower could make such payment and still be in compliance with such Financial Resources Requirement; and
 - (b) the Borrower being “solvent” at the time of, and immediately after, the payment by the Borrower and accordingly no such amount which would otherwise fall due for payment shall be payable except to the extent that the Borrower could make such payment and still be “solvent”.
 - (2) For the purposes of sub-paragraph (1)(b) above, the Borrower shall be “solvent” if it is able to pay its Liabilities (other than the Subordinated Liabilities) in full disregarding -
 - (a) obligations which are not payable or capable of being established or determined in the Insolvency of the Borrower, and
 - (b) the Excluded Liabilities.
 - (3) Interest will continue to accrue at the rate specified pursuant to paragraph 3 on any payment which does not become payable under this paragraph 5.
 - (4) For the purposes of sub-paragraph (1)(b) above, a report given at any relevant time as to the solvency of the Borrower by its Insolvency Officer, in form and substance acceptable to the FCA, shall in the absence of proven error be treated and accepted by the FCA, the Lender and the Borrower as correct and sufficient evidence of the Borrower’s solvency or Insolvency.
 - (5) Subject to the provisions of sub-paragraphs (6), (7) and (8) below, if the Lender shall receive from the Borrower payment of any sum in respect of the Subordinated Liabilities -
 - (a) when any of the terms and conditions referred to in sub-paragraph (1) above is not satisfied, or
 - (b) where such payment is prohibited under paragraph 4(3), the payment of such sum shall be void for all purposes.
 - (6) Any sum referred to in sub-paragraph (5) above shall be received by the Lender upon trust to return it to the Borrower.
 - (7) Any sum so returned shall then be treated for the purposes of the Borrower’s obligations hereunder as if it had not been paid by the Borrower and its original payment shall be deemed not to have discharged any of the obligations of the Borrower hereunder.
 - (8) A request to the Lender for return of any sum referred to in sub-paragraph (5) shall be in writing and shall be made by or on behalf of the Borrower or, as the case may be, its Insolvency Officer.

Representations and undertakings of Borrower

6 From and after the date of this Agreement (or the Effective Date if earlier), the Borrower shall not without the prior written consent of the FCA -

- (a) secure all or any part of the Subordinated Liabilities;
- (b) redeem, purchase or otherwise acquire any of the Subordinated Liabilities;
- (c) amend any document evidencing or providing for the Subordinated Liabilities;
- (d) repay any of the Subordinated Liabilities otherwise than in accordance with the terms of this Agreement;
- (e) take or omit to take any action whereby the subordination of the Subordinated Liabilities or any part thereof to the Senior Liabilities might be terminated, impaired or adversely affected; or
- (f) arrange or permit any contract of suretyship (or similar agreement) relating to its liabilities under this Agreement to be entered into, and

other than as disclosed in writing to the FCA, the Borrower represents that it has not done so before the date of this Agreement (or the Effective Date if earlier).

Representations and undertakings of Lender

7 From and after the date of this Agreement (or the Effective Date if earlier), the Lender shall not without the prior written consent of the FCA -

- (a) assign, transfer, dispose of or encumber the whole or any part of the Subordinated Liabilities or purport to do so in favour of any person;
- (b) purport to retain or set off at any time any amount payable by it to the Borrower against any amount of the Subordinated Liabilities except to the extent that payment of such amount of the Subordinated Liabilities would be permitted at such time by this Agreement, and the Lender shall immediately pay an amount equal to any retention or set off in breach of this provision to the Borrower and such retention or set off shall be deemed not to have occurred;
- (c) amend or waive the terms of any document evidencing or providing for the Subordinated Liabilities;
- (d) attempt to obtain repayment of any of the Subordinated Liabilities otherwise than in accordance with the terms of this Agreement;
- (e) take or omit to take any action whereby the subordination of the Subordinated Liabilities or any part of them to the Senior Liabilities might be terminated, impaired or adversely affected; or

- 7 (f) take or enforce any security, guarantee or indemnity from any person for all or any part of the Subordinated Liabilities, and the Lender shall, upon obtaining or enforcing any security, guarantee or indemnity notwithstanding this undertaking, hold the same (and any proceeds thereof) on trust for the Borrower, and

other than as disclosed in writing to the FCA, the Lender represents that it has not done so before the date of this Agreement (or the Effective Date if earlier).

Borrower being a partnership

- 8 Where the Borrower is a partnership -

- (a) this Agreement shall subsist in full force and effect notwithstanding any change which may take place from time to time in the constitution or title of the Borrower by the retirement of the present Partners or any of them or the assumption of new Partners or by a change of name PROVIDED THAT -

- (i) a retired Partner shall continue to be liable for the payment of all sums due under this Agreement and implementation of all other obligations in this Agreement until the Lender and the remaining Partner(s) shall agree in writing to release a retired Partner from those obligations and the FCA has agreed in writing to the release; and

- (ii) in the event of a new Partner being assumed as a partner of the Borrower the other Partners shall procure that said assumed Partner shall become bound to the Lender as a party to this Agreement and shall execute such addendum hereto as the Lender and the FCA may consider necessary;

- (b) the obligations and undertakings of the Borrower under this Agreement shall bind the Borrower and the Partners jointly and severally.

Partial invalidity

- 9 If any of the provisions of this Agreement is or becomes invalid, illegal or unenforceable under any law, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired.

The FCA and indemnity

- 10 The FCA shall not, by virtue of having rights under this Agreement, be taken to be a trustee or other fiduciary for, or have any obligations to, any person to whom some or all of the Senior Liabilities are owed. Each of the Lender and Borrower shall on demand indemnify the FCA against all claims, losses, costs, expenses and other liabilities made against or incurred by the FCA as a consequence of it having rights, or taking action under this Agreement.

Additional terms

- 11** Any additional terms agreed between the parties are set out in the Variable Terms provided that, if there is any inconsistency between the Variable Terms and the Standard Terms, the Standard Terms shall prevail.

Entire agreement

- 12** This Agreement forms the entire agreement as to the Subordinated Liabilities. If there are any other terms relating to the Subordinated Liabilities existing at the date hereof and not comprised in this Agreement such terms shall be of no further force and effect.

Amendments

- 13** Any amendments to this Agreement must be made by the prescribed Deed of Variation and any amendments made or purported to be made without the consent of the FCA shall be void. For the avoidance of doubt, nothing in this paragraph requires the FCA to be a party to this Agreement.

Notices to the FCA

- 14** A notice given to the FCA under this Agreement shall have no effect, and time shall not start to run in connection with that notice, until the FCA has given to the sender written confirmation of its receipt.

Law

- 15** This Agreement is governed by English law.

Jurisdiction

- 16** For the benefit of the FCA solely, each of the Borrower and the Lender irrevocably submits to the jurisdiction of the English Courts and, to the extent that it does not have a place of business within the jurisdiction, appoints the process agent specified in the Variable Terms as agent for receipt of service of process in such courts. Such jurisdiction shall be non-exclusive except to the extent that non-exclusivity prejudices the submission to the jurisdiction.

Rights of the FCA

- 17** Although not a party to the Agreement, the FCA may in its own right enforce a term of the Agreement to the extent that it purports to confer upon the FCA a benefit

9.3 FORM OF DEED OF TERMINATION

THIS DEED OF TERMINATION is made on the day of 20....

BETWEEN -

- (1) * [insert full name of Lender] (registered in [England] number *) whose registered office is at [*if an individual or partnership of*] * (“the **Lender**”).
- (2) * [insert full name of Borrower] (registered in [England] number *) whose registered office is at [*if an individual or partnership of*] * (“the **Borrower**”).
- (3) **The Financial Conduct Authority Limited** whose registered office is at 25 The North Colonnade, Canary Wharf, London, E14 5HS (“**the FCA**”).

WHEREAS -

A subordinated loan agreement was entered in between the Lender (1); the Borrower (2); and the FCA (3) on [date] (“the Agreement”) pursuant to which the Lender agreed to make available to the Borrower a [Loan/Facility] of up to [£]. [insert brief details of any Variations] The parties to the Agreement now wish to terminate the Agreement.

IT IS AGREED THAT -

1. The Agreement shall be deemed terminated [in accordance with its terms] with effect from [the date of this Deed of Termination/insert relevant future date]. All obligations and liabilities arising before that date shall remain continuing.
2. This Deed is governed by English Law.

IN WITNESS WHEREOF this Deed has been executed by the parties and is intended to be and is hereby delivered on the date first above written.

WHEREAS -

A subordinated loan agreement was entered into between the Lender (1); the Borrower (2); and the FCA (3) on [date] 199 (“the Agreement”) pursuant to which the Lender agreed to make available to the Borrower a (Loan/Facility) of up to [£].

The parties to the Agreement now wish to vary the Agreement to [insert brief details].

IT IS AGREED THAT -

1. The Agreement shall be deemed varied [, in accordance with its terms,] from [the date of this Deed of Variation/insert relevant future date] so that the FCA is no longer a party to the Agreement. Any obligation owed to or by, and any requirement for any consent or permission to be given to or by, FCA shall be of no further effect. FCA is hereby released from each and every obligation owed by it under the Agreement. Although on the execution of this deed the FCA is no longer a party to the Agreement, it may in its own right enforce a term of the Agreement to the extent that it purports to confer upon the FCA a benefit.

[insert additional clauses/details of amended clauses].

to the extent that any term of the Agreement is inconsistent with their terms and conditions contained in the Approved Form, the terms and conditions in the Approved Form shall prevail (provided that for the purposes of this clause 1, in clauses 11 and 12 of the Approved Form, the expressions “Variable Terms” and “Agreement” shall be deemed to include references to the Agreement and this Deed.

2. All other terms and conditions of the Agreement remain unchanged.
3. This Deed is governed by English Law.

9.5 FORM OF GUARANTOR UNDERTAKING

This undertaking is entered into the [] day of [] 20[] by

[] (the "Guarantor") of [] in favour of

The Financial Conduct Authority Limited ("the FCA") whose registered office is at 25 The North Colonnade, Canary Wharf, London, E14 5HS.

WHEREAS:-

- (A) By a subordinated loan agreement (the "Loan Agreement") made [of even date] between [] (the "Lender"), [] (the "Borrower") and the FCA, the Lender made available to the Borrower a loan [facility] on the terms and conditions contained in the Loan Agreement.
- (B) By a guarantee (the "Guarantee") made [of even date] between the Guarantor and the Lender, the Guarantor guaranteed the obligations of the Borrower to the Lender under the Loan Agreement on the terms and conditions contained in the Guarantee.

IT IS HEREBY AGREED as follows:-

- 1 The Guarantor hereby undertakes to the FCA that all and any rights which the Guarantor may have against the Borrower in respect of the Guarantee (whether by subrogation or otherwise howsoever) shall be subordinated on the same terms and conditions (mutatis mutandis) set out in the Loan Agreement (as amended from time to time) and further undertakes and confirms that the Guarantor will be bound by the terms of the Loan Agreement as if the Guarantor were a party to it in place of the Lender.
- 2 This undertaking is governed by English law.

IN WITNESS whereof this deed has been executed by the Guarantor on the date first above written.

9.8 Guidance Notes on Completion of Agreements

A GENERAL

Introduction

1. These Notes are designed to accompany the Approved Forms of Subordinated Loan Agreement, each of which is in four parts: the front page, the Variable Terms in Schedule 1, the Standard Terms in Schedule 2 and the signature page. The parties will need to set out details of themselves and the transaction in the Variable Terms and complete the signature page. The front page and the Standard Terms should remain unaltered.
2. All communications with the FCA regarding the proposed Agreement should in the first instance be via the firm's inspector.
3. Firms are advised to ensure that the appropriate form of subordinated loan agreement is used (Chap 9/Chap 3). This is, of course, dependent on the firm's authorisation categorisation. Should the firm's categorisation change, this should be discussed with the firm's usual contact as it is likely that any subordinated loan agreement in place will have to be revised.

Preparation of the Agreement

4. (a) The form containing the Variable Terms may be completed or re-typed according to preference.
(b) Rather than re-type the Standard Terms (Schedule 2), firms should simply **photocopy Schedule 2 of the FCA precedent or print it from the website and include it as part of the original Agreement.**
5. [Deleted]

Financial Rules

6. Firms are referred to rule IPRU(INV) 9.5 on the use of subordinated loans, including restrictions on approved lenders, repayment provisions and gearing limits.

B NOTES ON VARIABLE TERMS

Dates

7. If the **Effective Date of the Agreement** is to be different from the Date of the Agreement, care should be taken to record this in paragraph 2. Where this is the case,

the Effective Date will normally be expected to be later than the Date of the Agreement. If the Effective Date is to be a date prior to the date of the Agreement (for example because the loan was drawn down before the Agreement was put in place), the firm will be expected to provide a reasonable explanation to the FCA as to why it was not possible to document the loan more promptly.

Addresses

8. Paragraphs 4 and 6: The address given should be the firm's registered office or equivalent.

Partnerships

9. Paragraph 5: Where the Borrower is a partnership, insert "See Additional Terms, paragraph 10() below" and in paragraph 10 of Schedule 1, insert the names and addresses of each of the partners.

The Loan or Facility

10. Paragraph 7: Check that paragraph 2 of the Standard Terms accurately reflects the intentions of the parties.
11. Suggested wording for a loan is:

"This is an agreement for the Loan of £[]."

12. Suggested wording for a facility is:

"This is an agreement for a Facility under which the Lender is committed to make Advances in pounds sterling to the Borrower up to a maximum amount of £[] until the last available date of the Facility being [.....(date)].

The terms (if any) agreed between the parties on the mechanics of drawdown are as follows - ". *

- * For example, the parties may wish to provide that:

"Advances may be drawdown in integral multiples of £100,000."

Interest

13. Paragraph 8: the FCA will be concerned if an excessive rate of interest compared with the market rate is charged. Broadly speaking a rate of interest will be regarded by the FCA as excessive if it is not a commercial one. Compound interest is not acceptable.

Repayment

14. Irrespective of the form of agreement being used, the specified notice period runs from the date of drawdown and, therefore, where a loan is in the form of a facility, each advance must be for a minimum of the required period.
15. Repayment clauses have given rise to confusion in the past. The wording of such clauses will differ depending on which form is being used. Sample wordings for each of these forms of agreement are set out below.

Long-term form

16. Firms are advised that for a long-term form the repayment date must be a specified date not less than 5 years from one or more of:

- the date of drawdown;
- the borrower giving notice in writing to the lender and the FCA; or
- the lender giving notice in writing to the borrower and the FCA.

17. Paragraph 9: Examples of suggested wordings for either a fixed repayment date or repayment on notice for a long-term form are as follows:

(a) "The Borrower shall repay [the Loan/each Advance made to it] on the [date which falls five years after the date] [fifth anniversary]of drawdown of the [Loan/relevant Advance]."

(b) "The Borrower shall repay [the Loan/each Advance made to it] five years after the date on which:

(a) the Borrower gives written notice to the Lender and to the FCA; or

(b) the Lender gives written notice to the Borrower and to the FCA."

Note: either (a) or (b) above by itself is sufficient.

(c) "[The Loan / Each Advance made to the Borrower] shall be repayable on the date specified by notice in writing given by the Lender to the Borrower and to the FCA or notice in writing given by the Borrower to the Lender and to the FCA, in either case that date being not less than five years after the date on which the notice is given."

18 [deleted]

19 [deleted]

Additional terms

20. Paragraph 10: Additional terms may be agreed between the borrower and lender such as those relating to -

- representations and warranties
- provision of financial and other information
- covenants
- costs and expenses
- taxes and increased costs
- mechanics of payment
- notices
- termination provisions.

However, they should not be inconsistent with the Agreement or the FCA rules. For example, any terms dealing with additional payments by the borrower (eg to compensate for taxes or increased costs) should be subject to the FCA's prior written consent. Covenants and additional representations and warranties should not be inconsistent with the existing representations and warranties in paragraphs 6 and 7 of the Standard Terms. Similarly, any notices clause should take into account paragraph 14 of the Standard Terms (notices to the FCA of no effect until receipt confirmed). Any inconsistency between the Variable Terms and the Standard Terms is resolved in favour of the Standard Terms (paragraph 11 of the Standard Terms).

21. The lender and borrower should note that the action which can be taken by the lender in response to any breach of representation, warranty or covenant by the borrower is considerably constrained by paragraphs 4 and 5 of the Standard Terms. Therefore the value to the lender of including additional representations, warranties or covenants is very limited.

22. See also note 9 above for the situation where the borrower is a partnership and notes 24 -25 below for additional terms relating to law and jurisdiction.

Law and jurisdiction

23. If the borrower or lender is resident in another jurisdiction and does not have a branch office within the United Kingdom, paragraph 11 of the Variable Terms should be completed.

24. The borrower should not be appointed agent for service of process on the lender in case a dispute arises between them.

C NOTES ON STANDARD TERMS

Representations and undertakings

25. Paragraphs 6(f) and 7(f): The guarantor or other provider of security must waive its right of subrogation against the borrower until all Senior Liabilities of the borrower have been paid in full. A form of deed for this purpose is available from the FCA.
26. On the effect of other terms relating to the subordinated liabilities not contained in this Agreement, see also paragraph 12 of the Standard Terms.
27. Paragraphs 15 and 16: See Notes 24-25 above.

D SIGNATURE PAGE

Arrangements for execution

28. **Two identical original Agreements** (i.e. the front page, the two Schedules and the signature page, each copy stapled or otherwise bound together) should be prepared for signature. Firms and lenders may use any of the execution forms set out in Notes 34-35 below.

E DEEDS OF VARIATION/ DEEDS OF TERMINATION

30. Firms are advised to ensure that the appropriate standard the FCA form is used. These forms are available from the FCA on request.
31. The recitals to the deed should refer to the amount of the loan/ each advance and where applicable, briefly summarise the effect of any previous variation of the agreement and of variation of the original agreement which is currently proposed.
32. A variation or termination of a subordinated loan agreement can only be effected by the execution of a further deed. In particular, this means that the formalities for executing a deed (see note 34-36 below) must be observed for all deeds of variation or termination and that all parties to the original agreement must also be parties to the subsequent deed of variation or termination. Only the forms set out at Notes 35(1) and (2) or 36(2) below are appropriate for execution as a deed.
33. A deed of variation will be required where the parties wish to change the terms of a subordinated loan agreement eg. where the amount of the loan or advance is to be increased. A deed of termination is needed where the parties wish to bring to terminate an agreement that is in place before it would otherwise come to an end. This could occur, for example, where the firm wants to substitute a new lender. Please note that where a subordinated loan agreement is terminated in this way, all obligations and liabilities of the parties arising before the date of termination remain in effect.

F Execution

34. In the case of English, Welsh and Northern Irish companies, reference is made to section 43 of the Companies Act 2006 under which a company may contract:
- by writing under its common seal, or
 - through any person acting under its authority, express or implied.

Section 44 of the Companies Act 2006 governs the execution of documents by English, Welsh, and Northern Irish companies.

35. Suggested wordings for English companies are:

(1) THE COMMON SEAL OF

[
] was hereunto affixed
in the presence of

.....
Director

.....
Director/secretary

OR

(2) EXECUTED as a deed

by

.....
Director

.....
Director/secretary

(3) SIGNED for and on behalf of

[
] by

.....
Authorised signatory

(4) SIGNED for and on behalf of

[

.....
Director

.....
Director/secretary

36. Suggested wording for individuals is –

(1) SIGNED by []
in the presence of -

Signature of witness

Name of witness

Address of witness
.....

OR

(2) EXECUTED as a deed by []
in the presence of -

Signature of witness

Name of witness

Address of witness
.....

37. In the case of overseas companies or partnerships, appropriate wording should be used. If necessary, firms should obtain legal advice from lawyers qualified in the relevant jurisdiction.

13 **Personal Investment Firms (former PIA firms)**

	Form	Page
[FCA]	13.1 Form of subordinated loan (with guidance notes)	2

13.1 FORM OF SUBORDINATED LOAN AGREEMENT FOR PERSONAL INVESTMENT FIRMS (SEE IPRU (INV) 13)

NOTES FOR COMPLETION OF THIS DOCUMENT

This subordinated loan Agreement is to be used for injecting additional funds into a firm on a semi-permanent basis. This loan should normally be made in cash. You should speak to FCA before completing the Agreement if you intend to make the loan by a transfer or assignment of assets.

- (1) *This is the standard form prescribed by FCA for long term or short term subordinated loans. A long term subordinated loan must have an original maturity of at least five years or, where it has no fixed term, be subject to five years' notice of repayment; a short term subordinated loan must have an original maturity of at least two years or, where it has no fixed term, be subject to two years' notice of repayment. Delete from the heading and from paragraph 4(2) (Repayment of the Loan) whichever period in brackets is not relevant.*
- (2) *In paragraph 2, you should insert the Effective Date of the Loan, that is, the date on which the Lender will make the advance, if this differs from the date of the Agreement.*
- (3) *Words in brackets marked with a double asterisk ** are for use where the Borrower is a partnership.*

Governing Law

Number of crosses	Governing Law
+	Scottish
++	Scottish or Northern Irish
+++	English or Northern Irish
++++	Northern Irish
+++++	English

*Example: Words marked ++** will be for use where the Borrower is a partnership and the Agreement is governed by either Scottish or Northern Irish law.*

- (4) *Words in round brackets in paragraph 10 are only required where either the Lender or Borrower (or both) is not incorporated in any part of the United Kingdom.*
- (5) *You should speak to FCA before changing or amending this standard form (for example, by adding provisions relating to the terms of the Loan to be made to the Borrower by the Lender). FCA reserves the right to make a charge for considering any non-standard agreement.*

 [],
 [] of] of
 [] and] and
 [] of] of
 []
 the individual partners of the Borrower as such partners and as individuals]

IT IS AGREED AS FOLLOWS:-

1. DEFINITIONS

In this agreement:-

“**Effective Date**” means the date on which this Agreement is to take effect being the date of the Agreement unless otherwise stated in paragraph 2;

“**Excluded Liabilities**” means Liabilities which are expressed to be and, in the opinion of the Insolvency Officer of the Borrower, do rank junior to the Subordinated Liabilities in any Insolvency of the Borrower;

“**Financial Resource Requirement**” means 120 per cent. of the minimum amount of financial resources which the Borrower is required by FCA to maintain at any particular time in compliance with the Rules in chapter 13 of the Interim Prudential Sourcebook (“IPRU (INV)”) and any provisions amending or replacing them;

“**Insolvency**” means and includes liquidation, winding up, bankruptcy, sequestration, administration or dissolution (whichever term may apply to the Borrower) or the equivalent in any other jurisdiction to which the Borrower may be subject;

“**Insolvency Officer**” means and includes any person duly appointed to administer and distribute assets of the Borrower in the course of the Borrower’s Insolvency;

“**Liabilities**” means all present and future sums, liabilities and obligations payable or owing by the Borrower [or any Partner **] (whether actual or contingent, jointly or severally or otherwise howsoever);

“**Loan**” means the indebtedness of the Borrower to the Lender referred to in paragraph 2 as that indebtedness may be reduced from time to time by any repayment or prepayment permitted under this Agreement;

[“**Partner**” means an individual partner of the Borrower**];

“**Rules**” means the Rules of FCA from time to time in force;

“**Senior Liabilities**” means all Liabilities except the Subordinated Liabilities and Excluded Liabilities;

“**Subordinated Liabilities**” means all Liabilities to the Lender in respect of the Loan and all interest payable thereon.

2. LOAN

The Borrower hereby acknowledges its indebtedness to the Lender in the sum of [] as an unsecured loan upon and subject to the terms and conditions of this Agreement.

[Note: This paragraph may be adapted to reflect the actual basis on which the unsecured Loan arises and, if applicable, how it is to be drawn down. Members are requested to specify clearly the Effective Date of the Loan if it will differ from the date of the Agreement.]

3. INTEREST

Subject to the provisions of paragraphs 4 and 5, until repayment of the Loan in full the Borrower will [the Borrower and the partners hereby bind and oblige themselves jointly and severally to +**] pay to the Lender interest on the Loan or on any part or parts of it for the time being remaining due under this Agreement such interest to be calculated and to be payable as provided below.

[Enter details of interest calculations and manner and time of payments. The rate of interest is not to exceed an annual rate of five per cent. above the London Inter-Bank Offered Rate for deposits of the currency in question for the relevant interest period or (where a fixed rate of interest is charged) give per cent. per annum above such rate at the date the Loan is first taken out.]

4. REPAYMENT OF THE LOAN

- (1) The provisions of this paragraph are subject to the provisions of paragraph 5.
- (2) Except where the Borrower has obtained FCA’s prior written consent and that consent has not been withdrawn, **no** repayment or prepayment of the Loan shall be made, in whole or in part, earlier than a date:
 - (a) not less than [five years] [two years] from the date on which the Loan was first made; or

- (b) not less than [five years] [two years] from the date on which the Borrower gave notice in writing to the Lender and FCA, or
 - (c) not less than [five years] [two years] from the date on which the Lender gave notice in writing to the Borrower and FCA.
- (3) If default is made for a period of 7 days or more in the payment of any principal due in respect of the Loan or for a period of 14 days or more in the payment of any interest due in respect of the Loan the Lender may, in order to enforce payment, at its discretion and after taking such preliminary steps as may be necessary and after notifying FCA, institute proceedings for the Insolvency of the Borrower [or the Insolvency of all or any Partners**]. If an order is made or an effective resolution is passed for the winding up of the Borrower, the Loan shall become repayable.
- (4) The Lender may at its discretion, subject to the provisions which follow, institute proceedings for the Insolvency of the Borrower [or the Insolvency of all or any Partners**] to enforce any obligation, condition or provision binding on the Borrower [or on all or any Partners**+] under this Agreement (other than any obligation for the payment of principal moneys or interest in respect of the Loan) provided that the borrower [or any Partner**] shall not by virtue of the institution of any such proceedings be obliged to pay any sum or sums sooner than the same would otherwise have been payable by it. The Lender may only institute such proceedings to enforce the obligations referred to above if (i) the default is not remedied to the satisfaction of the Lender within 60 days after notice of such default is not remedied to the satisfaction of the Lender within 60 days after notice of such default has been given to the Borrower by the Lender (with a copy to FCA) requiring the default to be remedied and (ii) the Lender has taken all preliminary steps required to be taken by it prior to the institution of such proceedings.
- (5) No remedy against the Borrower [or any Partner**] other than as specifically provided by this paragraph shall be available to the Lender whether for the recovery of amounts owing under this Agreement or in respect of any breach by the Borrower [or any Partners**] of any of its obligations under this Agreement.

5. SUBORDINATION

- (1) Notwithstanding the provisions of paragraph 4, the rights of the Lender in respect of the Subordinated Liabilities are subordinated to the Senior Liabilities and accordingly payment of any amount whether principal (by way of repayment or prepayment), interest or otherwise, of the Subordinated Liabilities is conditional upon:-
- (a) (if an order has **not** been made or an effective resolution passed for the Insolvency of the Borrower) the Borrower being in compliance with its Financial Resource Requirement prevailing at the time of payment by the Borrower; and accordingly no such amount which would otherwise

fall due for payment shall be payable except to the extent that repayment under paragraph 4(2) above is permitted and the Borrower could make such payment and still be in compliance with its Financial Resource Requirement immediately thereafter; and

- (b) (if an order has been made or an effective resolution has been passed for the Insolvency of the Borrower [or if the Borrower shall be dissolved**]) the Borrower being solvent at the time of payment by the Borrower; and accordingly no such amount which would otherwise fall due for payment shall be payable except to the extent that the Borrower could make such payment and still be solvent immediately thereafter. For the purposes of this sub-paragraph, the Borrower shall be solvent if it is able to pay its debts in full and in determining whether the Borrower is solvent for the purposes of this sub-paragraph there shall be disregarded obligations which are not payable or capable of being established or determined in the Insolvency of the Borrower.
- (2) (a) No payment of the Subordinated Liabilities (other than in respect of interest) shall be made at any time under sub-paragraph (1) above unless the Borrower has obtained FCA's prior written consent to such payment and that consent has not been withdrawn.
 - (b) The Borrower shall give or ensure that there are given to FCA such information and auditor's certificate in relation to the proposed payment as FCA may require.
- (3) Payments of interest at a rate not exceeding the rate provided in paragraph 3 may be made to the extent permitted by sub-paragraph (1) above without prior notification to FCA.
 - (4) For the purposes of sub-paragraph (1)(b) above a report given at any relevant time as to the solvency of the Borrower by its Insolvency Officer, in form and substance acceptable to FCA, shall in the absence of proven error be treated and accepted by FCA, the Lender and the Borrower as correct and sufficient evidence of the Borrower's solvency.
 - (5) If the Lender shall receive from the Borrower [or any Partner**] payment of any sum in respect of the Subordinated Liabilities where repayment is prohibited under paragraph 4(2) or when any of the terms and conditions referred to in sub-paragraphs (1) or (2) above is not satisfied the payment of such sum shall be void for all purposes and [any such sum shall be received by the Lender upon trust to return the same to the Borrower+++] [the Lender shall at any time thereafter be bound to return such sum to the Borrower, or, as the case may be, its Insolvency Officer+] (and any sum so returned shall then be treated for the purposes of the Borrower's obligations under this Agreement as if it had not been paid by the Borrower and its original payment shall be deemed not to have discharged any of the obligations of the Borrower). A request to the Lender for return of any sum under the foregoing provisions of this sub-paragraph (5) shall be in writing and shall be made by or on behalf of the Borrower or, as the case may be, its Insolvency Officer.

6. UNDERTAKINGS OF BORROWER

From and after the date of this Agreement (or the Effective Date if earlier), the Borrower will not [and no Partner will**] without the prior written consent of FCA:-

- (1) secure all or any part of the Subordinated Liabilities;
- (2) redeem, purchase or otherwise acquire any of the Subordinated Liabilities;
- (3) amend any document evidencing or providing for the Subordinated Liabilities;
- (4) repay any of the Subordinated Liabilities otherwise than in accordance with the terms of this Agreement;
- (5) take or omit to take any action whereby the subordination of the Subordinated Liabilities or any part of them to the Senior Liabilities might be terminated, impaired or adversely affected.

7. DOCUMENTATION

This Agreement forms the entire agreement as to the Subordinated Liabilities. If there are any other terms relating to the Subordinated Liabilities existing at the date of this Agreement and not comprised in it such terms shall be of no further force and effect. No variation of or amendment to this Agreement shall be of any effect unless it is in writing signed by all the parties. Any amendment to this Agreement made or purported to be made without the consent of FCA shall be void. For the avoidance of doubt, nothing in this paragraph requires the FCA to be a party to this agreement.

8. UNDERTAKINGS OF LENDER

The Lender will not without the prior written consent of FCA:-

- (1) assign or purport to assign to any person the whole or any part of the Subordinated Liabilities;
- (2) purport to retain or set-off at any time any amount payable by it to the Borrower [or any Partner**] against any amount of the Subordinated Liabilities except to the extent that payment of such amount of the Subordinated Liabilities would be permitted at such time by this Agreement, and the Lender shall immediately pay an amount equal to any retention or setoff in breach of this provision to the Borrower and such retention or set-off shall be deemed not to have occurred;
- (3) amend or waive the terms of any document evidencing or providing for the Subordinated Liabilities;
- (4) attempt to obtain repayment of any of the Subordinated Liabilities otherwise than in accordance with the terms of this Agreement;

- (5) take or omit to take any action whereby the subordination of the Subordinated Liabilities or any part of them to the Senior Liabilities might be terminated, impaired or adversely affected;
- (6) take or enforce any security, guarantee or indemnity from any person for all or any part of the Subordinated Liabilities, and the Lender shall, upon obtaining security, guarantee or indemnity in breach of this undertaking, hold the same [on trust for +++] [as agent of and for the benefit of ++] the Borrower.

[Note: Before giving its consent to a transaction falling under paragraph 8(6), FCA will need to be satisfied that the provider of security has waived his rights of subrogation against the Borrower until all Senior Liabilities of the Borrower have been paid in full.]

9. [This Agreement shall subsist in full force and effect notwithstanding any change which may take place from time to time in the constitution or title of the Borrower by the retirement of the present partners or [either] [any] of them or the assumption of new Partners or by a change of name it being provided that:-

- (a) a retired Partner shall continue to be liable for the payment of all sums due under this Agreement and implementation of all other obligation contained in it until such time as the Lender and the remaining Partner[s] shall agree in writing to release a retired Partner from such obligations and FCA has given its written consent to the release; and
- (b) in the event of a new partner being assumed as a Partner of the Borrower the other partners shall procure that the said assumed Partner shall become bound to the Lender as a party to this Agreement and shall execute such addendum to it as the Lender and FCA may consider necessary.

The obligations and undertakings of the Borrower under this Agreement shall bind the Borrower and the Partners jointly and severally. **+]

10. LAW [AND JURISDICTION]

- (1) This Agreement is governed by [English law +++++] [the law of Scotland +] [the law of Northern Ireland +++++] and, for the benefit of FCA solely, each of the Borrower and the Lender irrevocably submits to the jurisdiction of the [English Courts +++++] [Court of Session, Scotland +] [Northern Irish Courts +++++] (and, to the extent that it does not have a place of business within this jurisdiction, appoints [*name and address of agent for service*] as agent for receipt of service of process in such courts). Such jurisdiction shall be non-exclusive except to the extent that such non-exclusivity prejudices the submission to such jurisdiction.
- (2) Although not a party to the agreement, the FCA may in its own right enforce a term of the agreement to the extent that it purports to confer upon the FCA a benefit.

IN WITNESS whereof the parties hereto have duly executed this Agreement as a Deed the day and year first above written.
